(respectively, the "Global Shareholders" and "Global" or the "Company") in connection with the solicitation by Global of proxies to be used at the Annual Meeting of Global Shareholders on January 5, 2007 (the "Annual Meeting"), at the time, place and for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders, and at any adjournment thereof.

When the accompanying proxy is properly executed and returned, the shares of common stock it represents will be voted at the Annual Meeting, and where a choice has been specified on a proxy, will be voted in accordance with such specification. If no choice is specified on a proxy, the shares it represents will be voted

- * **FOR** the election of two (2) Directors;
- * **FOR** the ratification of Schumacher & Associates, Inc. as the Company's independent registered public accounting firm for the fiscal year ended June 30, 2007;
- * **FOR** the proposal to adopt and approve a reverse split, up to a ratio of one-for-five (1-for-5), of the issued and outstanding shares of our common stock and issued and outstanding options, warrants and other rights convertible into shares of our common stock, all at the discretion of our Board of Directors to be implemented in the future as and when determined by our Board of Directors; and

according to the judgment of the persons named in the enclosed proxies as to any other action which may properly come before the Annual Meeting or any adjournment thereof.

In the event the Annual Meeting is, for any reason, adjourned to another time or place, notice need not be given of the adjourned meeting if the time and place thereof are announced at the Annual Meeting. At the adjourned meeting, any business may be transacted which might have been transacted at the original Annual Meeting.

ANY PROXY MAY BE REVOKED AT ANY TIME BEFORE IT IS VOTED BY WRITTEN NOTICE MAILED OR DELIVERED TO THE SECRETARY, BY RECEIPT OF A PROXY PROPERLY SIGNED AND DATED SUBSEQUENT TO AN EARLIER PROXY, AND BY REVOCATION OF A WRITTEN PROXY BY REQUEST IN PERSON AT THE ANNUAL MEETING OF SHAREHOLDERS. IF NOT SO REVOKED, THE SHARES REPRESENTED BY THE PROXY WILL BE VOTED IN ACCORDANCE WITH THE INSTRUCTIONS ON THE PROXY FORM.

This Statement is being mailed on or about December 4, 2006, to Global Shareholders eligible to vote at the Annual Meeting. Concurrently with the mailing of this Statement, Global is furnishing to its shareholders Global's Annual Report on Form 10-KSB for its fiscal year ended June 30, 2006.

Global is bearing all costs of soliciting proxies, and expressly reserves the right to solicit proxies otherwise than by mail. The solicitation of proxies by mail may be followed by telephone, telegraph or other personal solicitations of certain Global Shareholders and brokers by one or more of the Directors or by Officers or employees of Global.

Global may request banks and brokers or other similar agents or fiduciaries for the voting instructions of beneficial owners and reimburse the expenses incurred by such agents or fiduciaries in obtaining such instructions. As of the date of this mailing, however, Global has not made any contracts or arrangements for such solicitations; hence they cannot identify any parties or estimate the cost of such solicitation.

Only Global Shareholders of record as of the close of business on November 30, 2006 (the "Record Date"), will be entitled to vote at the Annual Meeting. Representation of a majority of Global's shares of common stock outstanding on the Global Record Date, either in person or by proxy, constitutes a quorum for the Annual Meeting.

When a quorum is present, the vote by a plurality of the shares represented at the Meeting shall decide the election of directors; and on all other matters, a proposal will be ratified if votes in favor of the proposal are greater than votes against the proposal. As of the Record Date, Global had outstanding 5,152,907 shares of common stock, with each share being entitled to one vote.

THE ANNUAL MEETING

The Board is furnishing this Proxy Statement and the accompanying proxy to shareholders of Global as part of the solicitation of proxies for use at the Meeting. This Proxy Statement and the enclosed form of proxy are first being mailed to the shareholders of Global on or about December 4, 2006.

Date, Time and Place of Meeting

The Meeting will be held at Temple-Bowron House, 1507 Pine Street, Boulder, CO 80302 on January 5, 2007 at 10:00 a.m. local time.

Matters to be Considered

The purpose of the Meeting is to consider and vote upon the following matters:

- * to elect two (2) Directors;
- * to ratify Schumacher & Associates, Inc. as the Company's independent registered public accounting firm for the fiscal year ended June 30, 2007; and

- * to ratify and approve a reverse stock split to be implemented at the discretion of the Board of Directors, of up to a ratio of one-for-five (1-for-5) (the Reverse Split) (every five shares of the Company's common stock will be combined into one share)

Management of Global does not know of any other matter to be brought before the Meeting other than as referred to in this Proxy Statement. If any other business should properly come before the Meeting, the persons named in the proxy will vote upon those matters in their discretion.

Record Date and Outstanding Shares

The Board has fixed the close of business on November 30, 2006, as the Record Date for determining shareholders entitled to notice of and to vote at the Meeting. As of the Record Date, there were approximately _____ shareholders of record of Global common stock and 5,152,907 shares of Global common stock outstanding and entitled to vote, with each share entitled to one vote.

Quorum

The presence in person or by properly executed proxy of holders of a majority of the votes entitled to be cast at the Meeting is necessary to constitute a quorum. Abstentions are counted for purposes of determining the presence or absence of a quorum for the transaction of business. Broker non-votes will not be considered present at the meeting for purposes of determining a quorum.

Required Vote

Directors shall be elected by a plurality of the votes of the shares present at the meeting either in person or represented by proxy and entitled to vote on the election of directors. On all other matters presented to a vote of the shareholders at the Meeting, a Proposal will be deemed ratified and adopted if it receives more votes in favor of such proposal than are cast against such Proposal. Abstentions will have the legal effect of a withheld vote in the election of Directors; abstentions will have the legal effect of a vote against a Proposal on all other matters. With respect to a broker non-vote on the Proposal, such shares will not be considered present at the Meeting, and will not be counted in the voting with respect to such matter.

The officers and directors of Global have indicated that they intend to vote their shares **FOR** each director. These individuals own shares representing a total of 441,694 shares, or approximately 8.6% of the total number of shares of Global common stock outstanding as of the Record Date.

Proxies

All shares of common stock represented at the Meeting either in person or by properly executed proxies received prior to or at the Meeting and not duly and timely revoked will be voted at the Meeting in accordance with the instructions in such proxies. If no such instructions are indicated, such shares will be voted in favor of all the proposals and, in the discretion of the proxyholder as to any other matter which may be incidental to the Meeting as may properly come before such Meeting. Global knows of no other matters other than as described in the Notice of Annual Meeting that are to come before the Meeting. If any other matter or matters are properly presented for action at the Meeting, the persons named in the enclosed form of proxy and acting thereunder will have the discretion to vote on such matters in accordance with their best judgment, including any adjournment or postponement of the Meeting, unless such authorization is withheld.

A shareholder who has given a proxy may revoke it at any time prior to its exercise by: (i) giving written notice thereof to the Secretary of Global at our principal executive offices at or prior to the taking of the vote at the Meeting; (ii) signing and returning to the Secretary of Global at our principal executive offices a later dated proxy prior to the taking of the vote; or (iii) voting in person at the Meeting; however, mere attendance at the Meeting will not itself have the effect of revoking the proxy.

Solicitation of Proxies; Expenses

The costs of filing and printing this Proxy Statement and the materials used in this solicitation will be borne by Global. In addition to solicitation by mail, the directors, officers, and employees of Global may solicit proxies from shareholders by telephone or in person. Arrangements will also be made with brokerage houses and other custodians, nominees and fiduciaries to forward solicitation material to Global shareholders. Global may reimburse these custodians, nominees, and fiduciaries for their reasonable out-of-pocket expenses incurred.

YOU SHOULD NOT SEND STOCK CERTIFICATES WITH YOUR PROXY CARD.

Each Director will be elected to serve until a successor is duly elected and qualified.

Executive Officers:

Todd Huss. Mr. Huss has been the Chief Financial Officer of the Company since January, 2006. Since 2002, Mr. Huss has performed contract accounting services for various public companies. From 1996 to 2002, he served as the Chief Financial Officer for Premier Concepts, Inc., the publicly-traded owner and operator of a national chain of specialty retail jewelry stores. From 1991 to 1995 he served as the Chief Financial Officer for Gardenswartz Sportz, Inc., a privately-held corporation which owned and operated eight full service retail sporting goods stores in New Mexico and Texas. Mr. Huss graduated from California State University-Long Beach in 1984, with a Bachelor of Science degree in business administration and professional accounting, and subsequently worked for KPMG Peat Marwick in its Los Angeles, California, and Albuquerque, New Mexico offices until 1991.

No family relationship exists between any director or executive officer.

In 1998, the Securities and Exchange Commission (the "Commission") commenced an administrative proceeding against The Rockies Fund, Inc. and its directors, Stephen G. Calandrella, Clifford C. Thygesen and Charles Powell. Until 2001, Messrs. Calandrella and Thygesen were also directors of the Company. In the administrative action, the Commission has alleged certain violations of federal securities laws and regulations by The Rockies Fund, Inc. and its

directors. The allegations involve certain violations of the Investment Company Act of 1940, as amended, under which The Rockies Fund, Inc. is a regulated business development company, as well as violations of the Securities Exchange Act of 1934, as amended, and regulations thereunder arising from certain transactions in the securities of another company unrelated to the Company. The Rockies Fund, Inc. and its directors have adamantly denied any violations of federal securities laws and have informed the Company that they intend to vigorously defend the matter. In November 1998, the matter went to hearing before an administrative law judge and a preliminary finding was issued in March 2001. In its Initial Decision, the Administrative Law Judge found that the Rockies Fund and its directors, including Messrs. Calandrella and Thygesen, had violated federal securities laws. The matter is presently on appeal. While there can be no assurance of the ultimate outcome of this matter or its

potential effect upon the Company, Management does not believe that it will have an adverse material impact.

In response to this administrative proceeding and the initial decision of the Administrative Law Judge, Messrs. Calandrella and Thygesen resigned as officers and directors of the Company. In addition, the restructuring of our gaming operations, the transfer of our gaming license from Global Casinos to Casinos, U.S.A. and other matters addressed in the Astraea Term Sheet were undertaken, in part, at the request of the Division of Gaming in response to the results of this administrative proceeding. Furthermore, the Division of Gaming requested that Messrs. Jennings and Neuman, while not involved in the administrative proceeding, resign as officers and directors of Casinos, U.S.A. due to their prior affiliations with Messrs. Calandrella and Thygesen. Effective November 1, 2002, concurrently with the transfer of the gaming license to Casinos, U.S.A., Messrs. Jennings and Neuman resigned as officers and directors of Casinos, U.S.A. and were replaced by Barbara Fahey and Harry Richard, persons unaffiliated with prior management of the Company.

Other than the foregoing, there are no material proceedings to which any director, officer or affiliate of the Company, any owner of record or beneficially of more than five percent (5%) of any class of voting securities of the Company, or any associate of any such director, officer, affiliate of the Company, or security holder is a party adverse to the Company or any of its subsidiaries or has a material interest adverse to the Company or any of its subsidiaries.

Except as set forth above, during the last five (5) years no director or officer of the Company has:

- a. had any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;
- b. been convicted in a criminal proceeding or subject to a pending criminal proceeding;
- c. been subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities; or
- d. been found by a court of competent jurisdiction in a civil action, the Commission or the Commodity Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended, or vacated.

Any transactions between the Company and its officers, directors, principal shareholders, or other affiliates have been and will be on terms no less favorable to the Company than the Board of Directors believes could be obtained from unaffiliated third parties on an arms-length basis and will be approved by a majority of the Company's independent, outside disinterested directors.

2. Meetings and Committees of the Board of Directors

a. Meetings of the Board of Directors

During the fiscal year ended June 30, 2006, 15 meetings of the Board of Directors were held, including regularly scheduled, special meetings. All meetings were held either in person, by telephone conference, or by unanimous written consent, and were attended by 100% of the then serving directors.

b. Committees

The board has the authority to appoint committees to help carry out its duties. In particular, board committee's work on key issues in greater detail than would be possible at full board meetings. Each committee reviews the results of its meetings with the full board.

During fiscal 2006 the entire Board of Directors assumed all responsibilities of the Audit, Compensation and Nominating Committees. The board had no formal standing committees, but may create those committees during fiscal 2007. No member of the Audit, Compensation or Nominating Committees will receive any additional compensation for his service as a member of that Committee.

Audit Committee

The composition of the audit committee has not been determined.

Mr. Neuman and Mr. Bloomquist would not be deemed to be "independent" within the meaning of the National Association of Securities Dealers, Inc.'s listing standards. For this purpose, an audit committee member is deemed to be independent if he does not possess any vested interests related to those of management and does not have any financial, family or other material personal ties to management.

During the fiscal year ended June 30, 2006, the board acting as an audit committee, per se, had no meetings. The board acting in lieu of an audit committee is responsible for accounting and internal control matters. The board in lieu of an audit committee:

- reviews with management, the internal auditors and the independent auditors policies and procedures with respect to internal controls;
- reviews significant accounting matters;
- approves any significant changes in accounting principles of financial reporting practices;
- reviews independent auditor services; and

- recommends the firm of independent auditors to audit our consolidated financial statements.

In addition to its regular activities, the committee is available to meet with the independent accountants, controller or internal auditor whenever a special situation arises.

The Audit Committee of the Board of Directors will adopt a written charter, which when adopted will be filed with the Commission.

Compensation Advisory Committee

The composition of the compensation advisory committee has not been determined. The board of directors performs the duties and responsibilities of a compensation committee.

The board acting in lieu of a compensation advisory committee did not meet solely as a compensation committee during fiscal 2006. The board acting in lieu of a compensation advisory committee:

- recommends the compensation and cash bonus opportunities based on the achievement of objectives set by the compensation advisory committee with respect to our chairman of the board and president, our chief executive officer and the other executive officers;
- administers our compensation plans for the same executives;
- determines equity compensation for all employees;
- reviews and approves the cash compensation and bonus objectives for the executive officers; and
- reviews various matters relating to employee compensation and benefits.

Report of the Board in lieu of Audit Committee

The members of the board of directors acting as an Audit Committee submits the following report pursuant to Item 306 or Regulation SB:

1.

The Audit Committee has reviewed and discussed the audited financial statements with management;

2.

The Audit Committee has discussed with the independent auditors the matters required to be discussed by SAS 61, as may be modified or supplemented;

3.

The Audit Committee has received the written disclosures and letter from the independent accountants required by

Independence Standards Board Standard No. 1 (Independence Standard Board Standard No. 1, Independence Discussions with Audit Committees) as may be modified or supplemented, and has discussed with the independent accountant the independent accountant's independence; and

4.

Based on the review and discussions referred to in paragraphs (a)(1) through (a)(3) of this Item, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the company's Annual Report on Form 10-KSB for the last fiscal year for filing with the Commission.

BOARD OF DIRECTORS

Clifford L. Neuman

Pete Bloomquist

Nomination Process

The Board of Directors has not appointed a standing nomination committee and does not intend to do so during the current year. The process of determining director nominees has been addressed by the board as a whole, which consists of two members. The board has not adopted a charter to govern the director nomination process.

Of the currently serving two directors, Messrs. Bloomquist and Neuman would not be deemed to be independent within the meaning of the National Association of Securities Dealers, Inc.'s listing standards. For this purpose, a director is deemed to be independent if he does not possess any vested interests related to those of management and does not have any financial, family or other material personal ties to management.

The board of directors has not adopted a policy with regard to the consideration of any director candidates recommended by security holders, since to date the board has not received from any security holder a director nominee recommendation. The board of directors will consider candidates recommended by security holders in the future. Security holders wishing to recommend a director nominee for consideration should contact Mr. Clifford L. Neuman, President, at the Company's principal executive offices located in Boulder, Colorado and provide to Mr. Neuman, in writing, the recommended director nominee's professional resume covering all activities during the past five years, the information required by Item 401 of Regulation SB, and a statement of the reasons why the security holder is making the recommendation. Such recommendation must be received by the Company before June 30, 2007.

The board of directors believes that any director nominee must possess significant experience in business and/or financial matters as well as a particular interest in the Company's activities. In addition, director nominees must agree to submit themselves to the process of becoming licensed by the Colorado Division of Gaming.

All director nominees identified in this proxy statement were recommended by our President and unanimously approved by the board of directors.

Shareholder Communications

Any shareholder of the Company wishing to communicate to the board of directors may do so by sending written communication to the board of directors to the attention of Mr. Clifford L. Neuman, Interim President, at the principal executive offices of the Company. The board of directors will consider any such written communication at its next regularly scheduled meeting.

Any transactions between the Company and its officers, directors, principal shareholders, or other affiliates have been and will be on terms no less favorable to the Company than could be obtained from unaffiliated third parties on an arms-length basis and will be approved by a majority of the Company's independent, outside disinterested directors.

Options granted to eligible participants may take the form of Incentive Stock Options

("ISO's") under Section 422 of the Internal Revenue Code of 1986, as amended (the "Code") or options which do not qualify as ISO's ("Non-Qualified Stock Options" or "NQSO's"). As required by Section 422 of the Code, the aggregate fair market value (as defined by the Incentive Plan) of the Company's Common Stock (determined as of the date of grant of ISO) with respect to which ISO's granted to an employee are exercisable for the first time in any calendar year may not exceed \$100,000. The foregoing limitation does not apply to NQSO's. Rights to purchase shares of the Company's Common Stock may also be offered under the Incentive Plan at a purchase price under terms determined by the Incentive Plan Administrator.

Either the Board of Directors (provided that a majority of Directors are "disinterested" can administer the Incentive Plan, or the Board of Directors may designate a committee comprised of Directors meeting certain requirements to administer the Incentive Plan. The Administrator will decide when and to whom to make grants, the number of shares to be covered by the grants, the vesting schedule, the type of awards and the terms and provisions relating to the exercise of the awards.

An aggregate of 100,000 shares of the Company's Common Stock is reserved for issuance under the Incentive Plan. As of June 30, 2006, options to purchase 100,000 shares of Common Stock were issued and outstanding with a weighted average exercise price of \$0.14 per share. No shares were available for future option grants.

The following table sets forth certain information concerning the granting of stock options during the last completed fiscal year to each of the named executive officers and the terms of such options:

4. Compliance With Section 16(a) of the Exchange Act:

Under the securities laws of the United States, the Company's directors, its executive officers and any persons holding more than 10% of the Company's common stock are required to report their ownership of the Company's common stock and any changes in that ownership to the Securities and Exchange Commission. Specific due dates for these reports have been established and the Company is required to report any failure to file by these dates during fiscal 2006 and fiscal 2005. In making this report, the Company has relied on the written representations of its

directors and officers or copies of the reports that they have filed with the Commission. All of these filing requirements were satisfied by its Officers, Directors, and ten- percent holders, except that Mr. Bloomquist failed to file one report in a timely fashion, and Mr. Huss failed to file one report covering one transaction in a timely fashion. In making these statements, the Company has relied on the written representation of its Directors and Officers or copies of the reports that they have filed with the Commission.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR"

THE ELECTION OF THE NOMINEES AS DIRECTORS

PROPOSAL NO. 2

RATIFICATION OF SELECTION OF AUDITORS

The Board of Directors has selected the firm of Schumacher & Associates, Inc., independent certified public accountants, to serve as auditors for the fiscal year ending June 30, 2007. Schumacher & Associates, Inc., have been the Company's accountants since June, 2006 and served as our auditor for the fiscal year ended June 30, 2006.

Previously, the firm of Stark, Winter Schenkein & Co., LLP served as auditors for the fiscal years ending June 30, 2004 and June 30, 2005. It is not expected that a member of Schumacher & Associates, Inc. will be present at the Annual Meeting and that a member of that firm will be available to either make a statement or respond to appropriate questions. Ratification of the selection of our auditors is not required under the laws of the State of Utah, or applicable rules or regulations of the Securities and Exchange Commission but will be considered by the Board of Directors in selecting auditors for future years.

CHANGES IN CERTIFYING ACCOUNTANT

Effective June 9, 2006, the Company's Board of Directors dismissed Stark, Winter Schenkein & Co. LLP, as independent auditors of the Company. The Board of Directors approved the dismissal; as there is no standing audit committee of the Board. The audit reports of Stark, Winter Schenkein & Co. LLP on the financial statements of the Company as of and for the years ended June 30, 2002, 2003, 2004 and 2005 did not contain an adverse opinion or disclaimer of opinion, nor were qualified or modified as to audit scope or accounting principles except that the reports of Stark, Winter Schenkein & Co. LLP on the financial statements of the Company as of and for the fiscal years ended June 30, 2002, 2003 and 2004 each contained an emphasis paragraph as to the uncertainty of the Company's ability to continue as a going concern.

Effective June 9, 2006, the Company's Board of Directors approved the appointment of Schumacher & Associates, Inc., to serve as the Company's independent accountant to audit the Company's financial statements. Prior to its engagement as the Company's independent accountant, the Company had not consulted Schumacher & Associates, Inc., with respect to the application of accounting principles to specific transactions or the type of audit opinion that might be rendered on the Company's financial statements. The engagement of Schumacher & Associates, Inc., was effective on June 9, 2006.

In connection with the audits of the Company's financial statements for the fiscal years ended June 30, 2002, 2003, 2004 and 2005, and in connection with the subsequent period up to June 9, 2006 (the date of dismissal), there were no disagreements with Stark, Winter Schenkein & Co. LLP on any matters of accounting principles or practices, financial statement disclosure, or auditing scope and procedures which, if not resolved to the satisfaction of Stark, Winter Schenkein & Co. LLP would have caused Stark, Winter Schenkein & Co. LLP to make reference to the matter in its report of the financial statements for such years; and there were no reportable events as defined in Item 304(a) (1) (iv) (B) of Regulation S-B. Stark, Winter Schenkein & Co. LLP has not reported on financial statements for any periods subsequent to June 30, 2005.

The Company's current accountants, Schumacher & Associates, Inc., did not submit any bills for services during fiscal 2006. The following table details the aggregate fees estimated by Schumacher & Associates, Inc., its principal accountant, for 2006, for :

- * Professional services rendered for the audit of the Company's annual consolidated financial statements and the reviews of the Company's quarterly consolidated financial statements;
- * Financial information systems design and implementation; and
- * All other services:

2006

Audit fees - audit of annual financial statements and review of financial statements included in our quarterly reports, services normally provided by the accountant in connection with statutory and regulatory filings.	\$28,000
Audit-related fees - related to the performance of audit or review of financial statements not reported under "audit fees" above	-0-
Tax fees - tax compliance, tax advice and tax planning	-0-
All other fees - services provided by our principal accountants other than those identified above	-0-
Total fees paid or accrued to our principal accountants	\$28,000

The following table details aggregate fees billed for fiscal year ended June 30, 2005 and June 30, 2006 by Stark Winter Schenkein & Co. LLP, for:

- * Professional services rendered for the audit of the Company's annual consolidated financial statements and the reviews of the Company's quarterly consolidated financial statements;
- * Financial information systems design and implementation; and
- * All other services:

2006 2005

Audit fees - audit of annual financial statements and review of financial statements included in our quarterly reports, services normally provided by the accountant in connection with statutory and regulatory filings.	\$30,735	\$28,250
Audit-related fees - related to the performance of audit or review of financial statements not reported under "audit fees" above	-0-	-0-
Tax fees - tax compliance, tax advice and tax planning	-0-	-0-
All other fees - services provided by our principal accountants other than those identified above	-0-	-0-
Total fees paid or accrued to our principal accountants	\$30,735	\$28,250

Neither the Board of Directors nor the Audit Committee of the Board of Directors has considered whether the provision of the services covered by the caption "Financial Information System Design and Implementation" or "Other" in the above table is compatible with either Schumacher & Associates, Inc. or Stark, Winter, Schenkein & Co. LLP's independence.

Votes Required.

Ratification of the selection of Schumacher & Associates, Inc. to serve as auditors for the fiscal year ending June 30, 2006 will require an affirmative vote of a majority of the outstanding shares of common stock of the Company represented in person or by proxy at the Annual Meeting and voting on this Proposal.

Management Recommendation

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE
RATIFICATION OF THE SELECTION OF SCHUMACHER & ASSOCIATES, INC.**

PROPOSAL NO. 3

REVERSE STOCK SPLIT

Summary of Proposal

We are seeking your authorization to undertake, at our discretion in the future, up to a one-for-five (1-for-5) Reverse Split of our outstanding shares of Common Stock and outstanding options, warrants and other rights convertible into shares of Common Stock. The authorization sought in this Proposal No. 3 would grant the Board of Directors additional authority to implement through one or more additional reverse splits a further recapitalization of our outstanding securities, not to exceed in the aggregate a reverse split of one-for-five (1-for-5). We request your approval to effect a Reverse Split of our securities at such time in the future as we may determine, in our sole discretion, to be in the best interest of the Company and our shareholders. Once implemented, the Reverse Split would result in each holder of our Common Stock on the Record Date owning fewer shares of Common Stock than they owned immediately before the Reverse Split, and outstanding options, warrants, and other convertible rights will become exercisable to purchase a fewer number of shares of Common Stock at an exercise price per share increased by the factor of the Reverse Split. Fractional shares, options and warrants will be rounded up to the nearest whole.

If our shareholders approve the Reverse Split as currently described, we will be authorized to implement the Reverse Split within the foregoing parameters if we chose to do so at any time and until such time as the authorization is revoked by a majority vote of our shareholders at a future regular or special meeting of the our shareholders. If and when implemented, we will cause our stock transfer agent to provide each Shareholder of record written notice of such implementation together with a description of the effect thereof.

The Reverse Stock Split will not affect in any manner the rights and preferences of our shareholders. There will be no change in the voting rights, right to participate in stock or cash dividends, or rights upon the liquidation or dissolution of the Company of holders of Common Stock; nor will the Reverse Split affect in any manner the ability of our shareholders to sell under Rule 144 or otherwise engage in market transactions in accordance with federal and state securities laws.

The Reverse Stock Split will also result in an automatic adjustment of any and all outstanding options, warrants and other rights exercisable or convertible into shares of our Common Stock. The adjustment will consist of an increase in the exercise price or conversion value per share by the factor of the Reverse Split and the number of shares issuable upon exercise or conversion will be reduced by the same factor. For example, if we implement a one-for-two (1-for-2) Reverse Split, an option, warrant or other right exercisable or convertible into 1,000 shares of our Common Stock at an exercise price or conversion value of \$1.00 per share immediately before implementation of the Reverse Split would be exercisable or convertible into 500 shares of our Common Stock at an exercise price or conversion value of \$2.00 per share immediately after implementation of the Reverse Split. All other relative rights and preferences of holders of outstanding options, warrants and other rights convertible or exercisable into shares of our common stock shall remain unchanged.

We believe that approval of the Reverse Split is in the best interest of the Company and our shareholders for several reasons. First, our Common Stock is not currently listed on the Nasdaq Capital Market ("Nasdaq") or the American Stock Exchange (AMEX). In order to qualify for initial inclusion on Nasdaq, it is necessary to qualify under Nasdaq's initial inclusion criteria that include, among other things, the requirement that our Common Stock maintain a minimum bid price of \$4.00 per share and a market value of the public float of our securities of at least \$5,000,000. To qualify for trading on the AMEX, our stock price must be at least \$3.00 per share, and there are other quantitative requirements that must be met. As of the date of this Proxy Statement, we do not satisfy either of these criteria. As a result, it may be necessary to implement a reverse split of our Common Stock in order to meet the Nasdaq or AMEX initial inclusion criteria should the Board of Directors determine that we satisfy the other listing criteria and would otherwise be eligible for trading on Nasdaq or the AMEX.

Additionally, we believe that a Reverse Split, which will result in a higher per share trading price of our Common Stock, will enable us to attract additional interest in our Common Stock from the investment community, and particularly market-makers. Numerous broker-dealers and investment bankers require that a company's common stock have a minimum public trading price before those broker-dealers or investment bankers will agree to make a market in that security. As a result, we believe that the Reverse Split has the potential of improving the liquidity of the public market for our Common Stock.

Principal Effects of the Reverse Stock Split

If approved and implemented, the principal effects of a reverse stock split would include the following:

Depending upon the ratio for the reverse stock split selected by the board, up to every five (5) outstanding shares of the common stock will be combined into one new share of common stock;

The number of shares of common stock issued and outstanding will be reduced proportionately, based upon the ratio selected by the board;

The number of shares of common stock into which each outstanding share of preferred stock is convertible will automatically be reduced proportionately, and the per share conversion price shall be correspondingly increased, based on the ratio selected by the board;

The total number of shares of common stock and preferred stock the company is authorized to issue will be unchanged;

Appropriate adjustments will be made to stock options exercisable for shares of common stock granted under the company's stock option plans to maintain the economic value of the awards, based upon the ratio selected by the board;

The number of shares reserved for issuance under the company's stock option plans will be reduced proportionately based upon the ratio selected by the board (and any other appropriate adjustments or modifications will be made under the plans); and,

Proportionate adjustments would be made to the per share exercise price and the number of shares issuable upon the exercise of all outstanding options and warrants entitling the holders thereof to purchase shares of our common stock, which will result in approximately the same aggregate price being required to be paid for the common shares upon exercise of such options or warrants immediately preceding the reverse stock split.

The common stock resulting from a reverse stock split will remain fully paid and non-assessable. A reverse stock split will not affect the public registration of the common stock under the Securities Exchange Act of 1934.

The reverse stock split will be effected simultaneously for all of our common stock and the exchange number will be the same for all of our common stock. The reverse stock split will affect all of our shareholders uniformly and will not affect any shareholder's percentage ownership interests in the company, except to the extent that the reverse stock split results in any of our shareholders owning a fractional share. As described below, shareholders holding fractional shares will be entitled to cash payments in lieu of such fractional shares. Such cash payments will reduce the number of post-split shareholders to the extent there are shareholders presently holding fewer than three shares. However, this is not the purpose of the reverse stock split. The reverse stock split is not intended as, and will not have the effect of, a going private transaction under Rule 13e-3 of the Securities Exchange Act of 1934, as amended. We will continue to be subject to the periodic reporting requirements of the Exchange Act following the reverse stock split.

The following table summarizes the company's capitalization, as of September 30, 2006, before and after giving effect to a hypothetical reverse stock split of one-for-three (1 for 3):

	<u>Prior to Reverse Stock Split</u>		<u>After Reverse Stock Split</u>	
	Common	Preferred	Common	Preferred
	Stock	Stock	Stock	Stock

(1) Does not reflect the cancellation of any fractional shares and payment of cash in lieu thereof.

Reasons for the Reverse Split

The reverse split is primarily intended to increase the company's per share stock price to assist the company to be listed on either the NASDAQ Capital Market (formerly the NASDAQ SmallCap Market) or the American Stock Exchange and to increase the attractiveness of the common stock to prospective investors and the financial

community. Currently, the common stock is traded on the Over-The-Counter (OTC) Electronic Bulletin Board or the pink sheets (under the symbol GBCS). The closing price for the common stock as reported on the OTC Electronic Bulletin Board during the period from January 1, 2006 to October 31, 2006 has ranged from a high of \$1.75 to a low of \$0.86. The closing price on November ____, 2006 was \$_____.

The requirements for an initial listing on the NASDAQ Capital Market are as follows:

either (a) stockholders' equity of \$5,000,000, (b) net income in the most recently completed fiscal year or in two of the last three years of \$750,000, or (c) market capitalization of \$50,000,000 for 90 consecutive trading days prior to applying for listing;

a public float of 1 million shares;

a market value of public float of \$5,000,000;

a minimum bid price of \$4.00 per share for 90 consecutive trading days prior to applying for listing;

at least three market makers;

at least 300 round lot stockholders; and

compliance with NASDAQ corporate governance rules.

The requirements for an initial listing on the AMEX are as follows:

either (a) stockholders' equity of \$4,000,000, (b) net income in the most recently completed fiscal year or in two of the last three years of \$750,000, or (c) market capitalization of \$15,000,000 for 90 consecutive trading days prior to applying for listing;

a minimum bid price of \$3.00 per share for 90 consecutive trading days prior to applying for listing; and,

compliance with AMEX corporate governance rules.

The board believes that it is in the best interest of the company and its stockholders to approve the reverse split proposal in order to give the board the authority to implement a reverse split intended to increase the company's bid price. The company does not currently comply with the requirements for initial listing on either the NASDAQ Capital Market or the American Stock Exchange under any of the alternative listing standards. The company, therefore, cannot assure its stockholders that it will qualify for such a listing after the reverse split or at any other time in the future.

In reaching its decision to seek and recommend a reverse stock split, the board considered, among many other factors, the consequences of being listed on the OTC Electronic Bulletin Board, including decreased liquidity and marketability of shares of the common stock. Investors often find it more difficult to dispose of, or to obtain accurate quotations as to the market value of, the common stock on the OTC Electronic Bulletin Board. For the above reasons, the company believes that current and prospective investors will view an investment in the common stock more favorably if the shares are listed on the NASDAQ Capital Market or the American Stock Exchange than if the common stock trades on the OTC Electronic Bulletin Board.

The board believes that the reverse split and anticipated increase in the per share price of the common stock should also enhance the acceptability and marketability of the common stock to the financial community and investing public. Many institutional investors have policies prohibiting them from holding lower-priced stocks in their portfolios, which reduces the number of potential buyers of the common stock. Additionally, analysts at many brokerage firms are reluctant to recommend lower-priced stocks to their clients or monitor the activity of lower-priced stocks. Brokerage houses also frequently have internal practices and policies that discourage individual brokers from dealing in lower-priced stocks. Further, because brokers' commissions on lower-priced stock generally represent a higher percentage of the stock price than commissions on higher priced stock, investors in lower-priced stocks pay transaction costs which are a higher percentage of their total share value, which may limit the willingness of individual investors and institutions to purchase the common stock.

Although the board believes that a reverse split may be in the best interests of the company and its stockholders, if implemented, the reverse split may result in some stockholders owning "odd-lots" of less than 100 shares. Brokerage commissions and other costs of transactions in odd lots may be higher, particularly on a per-share basis, than the cost of transactions in even multiples of 100 shares. In addition, a reverse split might make it more difficult for the company to meet other requirements for initial listing

on the NASDAQ Capital Market relating to the minimum number of shares that must be in the public float and the minimum number of round lot holders.

The company cannot assure you that the reverse split will have any of the desired consequences described above.

Certain Risk Factors Associated with the Reverse Split

There can be no assurance that the total market capitalization of the company's common stock (the aggregate value of all the company's common stock at the then market price) after the proposed reverse split will be equal to or greater than the total market capitalization before the proposed reverse split or that the per share market price of the company's common stock following the reverse split will either equal or exceed the current per share market price.

There can be no assurance that the market price per new share of the company's common stock after the reverse split will remain unchanged or increase in proportion to the reduction in the number of old shares of the company's common stock outstanding before the reverse split. Accordingly, the total market capitalization of the company's common stock after the proposed reverse split may be lower than the total market capitalization before the proposed reverse split and, in the future, the market price of the company's common stock following the reverse split may not exceed or remain higher than the market price prior to the proposed reverse split.

If the reverse split is effected, the resulting per share stock price may not attract institutional investors or investment funds and may not satisfy the investing guidelines of such investors and, consequently, the trading liquidity of the company's common stock may not improve.

While the board believes that a higher stock price may help generate investor interest, there can be no assurance that the reverse split will result in a per share price that will attract institutional investors or investment funds or that such share price will satisfy the investing guidelines of institutional investors or investment funds. As a result, the trading liquidity of the company's common stock may not necessarily improve.

A decline in the market price of the company's common stock after the reverse split may result in a greater percentage decline than would occur in the absence of a reverse split, and the liquidity of the company's common stock could be adversely affected following such a reverse split.

If the reverse split is effected and the market price of the company's common stock declines, the percentage decline may be greater than would occur in the absence of a reverse split. The market price of the company's common stock will, however, also be based on the company's performance and other factors, which are unrelated to the number of

shares outstanding. Furthermore, the reduced number of shares that would be outstanding after the reverse split could adversely affect the liquidity of the company's common stock.

If the reverse split is effected, there is no assurance that the company will comply with the initial listing requirements of the NASDAQ Capital Market or the American Stock Exchange.

Determination of Reverse Split Ratio

In asking the stockholders to approve the reverse split, the board is also asking the stockholders to grant to the board the authority to set the ratio for the reverse split (provided it is not greater than 1:5) immediately prior to the consummation of the reverse split. Fluctuations in the market price of the company's common stock prior to the time that the company could effect the reverse split require that the board have the flexibility to set the exact ratio of the reverse split (provided it is not greater than 1:5) immediately prior to the consummation of the reverse split in order to attempt to achieve the objectives of

the reverse split. The board will set the ratio for the reverse split, delay or abandon the reverse split as it determines is advisable considering relevant market conditions from time to time. If the company is able to complete a significant placement of securities with one or more institutional investors in the foreseeable future, the company anticipates that it will consult with those institutional investors at the time of the private placement with respect to the appropriate reverse split ratio. The board believes that approval of this discretion, rather than approval of a specific ratio, provides the board with maximum flexibility to react to current market conditions and to the needs of prospective investors in the company, and to therefore act in the best interests of the company and its stockholders. In setting the ratio for the reverse split, the intention of the board is to increase the stock price to a price that will best accomplish the goals of the reverse split, as discussed above.

Procedure for Effecting a Reverse Stock Split and Exchange of Stock Certificates

If stockholders approve the proposal and the board decides to implement a reverse stock split, the company will not be required to file with the Secretary of State of the State of Utah a certificate of amendment to the company's Certificate of Incorporation (as previously amended). A reverse stock split will become effective at the time and on the date approved by the NASD for trading of our common stock ex-dividend, which will be referred to as the effective time and effective date, respectively. Beginning at the effective time, each certificate representing shares of common stock will be deemed for all corporate purposes to evidence ownership of the number of whole shares into which the shares previously represented by the certificate were combined pursuant to the reverse stock split.

Some of the company's registered stockholders hold all their shares in certificate form. If any of your shares are held in certificate form, you will receive a transmittal letter from the company's transfer agent, Corporate Stock Transfer, Inc. (the Transfer Agent), as soon as practicable after the effective date of the reverse split. The letter of transmittal will contain instructions on how to surrender your certificate(s) representing your shares of the common stock (Old Certificates) to the Transfer Agent in exchange for certificates representing the appropriate number of whole shares of common stock as a result of the reverse split (New Certificates). No New Certificates will be issued to a stockholder until such stockholder has surrendered all Old Certificates, together with a properly completed and executed letter of transmittal, to the Transfer Agent. Consequently, you will need to surrender your Old Certificate(s) before you will be able to sell or transfer your stock.

Stockholders will then receive a New Certificate or certificates representing the number of whole shares of common stock into which their shares of common stock have been converted as a result of the reverse split (New Common Stock). Until surrendered, outstanding Old Certificates held by stockholders will be deemed to be canceled and only to represent the number of whole shares of New Common Stock to which these stockholders are entitled.

Any Old Certificates submitted for exchange, whether because of a sale, transfer or other disposition of stock, will automatically be exchanged for certificates evidencing shares of New Common Stock.

If an Old Certificate has a restrictive legend on the back of the Old Certificate, a New Certificate evidencing shares of New Common Stock will be issued with the same restrictive legends, if any, that are on back of the Old Certificate(s).

All expenses of the exchange will be borne by the company.

Stockholders should not destroy any stock certificate(s). You should not send your Old Certificates to the Transfer Agent until you have received the letter of transmittal.

Effect on the Company's Stock Options and Warrants

The number of shares reserved for issuance under the company's outstanding options will be reduced proportionately based on the reverse split ratio selected by the board. In addition, the number of shares issuable upon the exercise of options outstanding under any of those derivative securities will be decreased and the exercise price for such options will be increased based on the reverse split ratio selected by the board and according to the requirements of the Code. In connection with the reverse split, the number of shares of common stock issuable upon exercise or conversion of outstanding stock options will be rounded up to the nearest whole share.

The number of shares of common stock issuable upon the exercise of the company's outstanding warrants will be proportionately decreased and the exercise price for such warrants will be proportionately increased, in each case based on the reverse split ratio selected by the board.

No Fractional Shares

No scrip or fractional share certificates will be issued in connection with the reverse stock split. Shareholders who otherwise would be entitled to receive fractional shares because they hold a number of shares of our common stock not evenly divisible by six will be entitled, upon surrender of certificate(s) representing such shares, to a cash payment in lieu thereof. The cash payment will equal the product obtained by multiplying (a) the fraction to which the shareholder would otherwise be entitled by (b) the per share closing sales price of our common stock on the trading day immediately preceding the effective date of the reverse stock split. The ownership of a fractional interest will not give the holder thereof any voting, dividend or other rights except to receive payment therefor or as described herein.

Shareholders who are entitled to receive cash in lieu of fractional shares as a result of the reverse stock split should note that we may be required, under applicable escheat laws, to pay sums due for fractional interests that are not claimed within a reasonable time after the effective time to the designated agent for certain jurisdictions. This may be required by the laws of the state of Washington (under which the company is incorporated), the jurisdiction in which we have our principal executive offices, the jurisdiction in which the shareholder resides, or the jurisdiction where the funds will be deposited. Thereafter, shareholders otherwise entitled to receive such funds may have to seek to obtain them directly from the state to which they were paid.

Authorized Shares

The reverse stock split would not change the number of authorized shares of our common stock designated in our Articles. Therefore, because the number of issued and outstanding shares of our common stock would decrease, the number of shares available for issuance under our authorized pool of common stock would increase from approximately 44,612,093 million shares to 48,194,698 million shares, assuming a hypothetical one-for-three reverse split.

These additional shares would be available for issuance from time to time for corporate purposes such as raising additional capital, making strategic acquisitions, entering into collaborative and licensing arrangements and employee

recruitment and retention. We believe that the availability of the additional common shares will provide us with the flexibility to meet business needs as they arise, to take advantage of favorable opportunities and to respond to a changing corporate environment. Our future revenue may be insufficient to support the expenses of our operations and the planned expansion of our business. We therefore may need additional equity capital to finance our operations. We may seek to obtain such equity capital through the issuance of common stock or securities convertible into common stock. We have no present plan, commitment, arrangement, understanding or agreement regarding issuance of these additional shares of common stock. The issuance of a substantial number of additional common shares may result in dilution of your ownership interest in the company.

Potential Anti-Takeover Effect

The proposed reverse stock split is not part of any plan to adopt a series of amendments having an anti-takeover effect, and the company's management presently does not intend to propose anti-takeover measures in future proxy solicitations. Subject to the limitations of Utah law, it could be possible to use the additional shares of common stock that would become available for issuance if the reverse stock split is approved to oppose a hostile takeover attempt or delay or prevent changes of control of the company or changes in or removal of our management, including transactions that are favored by a majority of the independent shareholders or in which the shareholders might otherwise receive a premium for their shares over then-current market prices or benefit in some other manner. For example, our board of directors could, without further shareholder approval, strategically sell shares of our common stock in a private transaction to purchasers who would oppose a takeover or favor our current board of directors. The reverse stock split is not being proposed in response to any effort, nor are we aware of any effort, to accumulate shares of our common stock or obtain control of the company.

Our Articles and restated bylaws contain certain provisions that could make it more difficult for a third party to acquire a controlling interest without the consent of our board. These provisions may delay or prevent a change of control, even if the change of control would benefit the shareholders. In addition, the authority granted to the board by our Articles to issue shares of preferred stock and fix the designations, powers, preferences, rights, qualifications, limitations and restrictions of the shares of any series so established could be used to delay or prevent a change of control. None of these provisions would be affected by the reverse stock split.

Other Effects on Outstanding Shares

If a reverse stock split is implemented, the rights and preferences of the outstanding shares of our common stock would remain the same after the reverse stock split. Each share of common stock issued pursuant to the reverse stock split would be fully paid and nonassessable.

In addition, the reverse stock split would result in some shareholders owning odd-lots of fewer than 100 shares of our common stock. Brokerage commissions and other costs of transactions in odd-lots are generally higher than the costs of transactions in round-lots of even multiples of 100 shares.

Accounting Effects of the Reverse Stock Split

Following the effective time of the reverse stock split, the par value of our common stock will remain at \$.05 per share. The number of outstanding shares of common stock will be reduced by a factor of up to 80%, not taking into account such additional decrease resulting from our repurchase of fractional shares that otherwise would result from the reverse stock split. Accordingly, the aggregate par value of the issued and outstanding shares of our common stock, and therefore the stated capital associated with our common stock, will be reduced, and the additional paid-in capital (capital paid in excess of the par value) will be increased in a corresponding amount for statutory and accounting purposes. If the reverse stock split is effected, all share and per share information in our financial statements will be restated to reflect the reverse stock split for all periods presented in our future filings, after the effective time of the amendment, with the SEC, as applicable. Shareholders' equity will remain unchanged.

Public Trading New Ticker Symbol

If our shareholders approve the reverse split and our board of directors subsequently elects to implement a reverse split, it is likely that the reverse split will be implemented at a point in time when the Company's shares of common stock are still trading on the Over-The-Counter Market and quoted on the

OTC Electronic Bulletin Board or on the pink sheets. As a result, in order to implement a reverse split, our board of directors will be required to notify the NASD of the reverse split, the desired reverse split ratio, and other information that the NASD will require in order to approve and implement the split. In addition, the Company will notify the NASD of the effective date of the reverse split, which will be deemed a dividend distribution date notwithstanding the fact that there will, in fact, be no distribution to our shareholders. Once the NASD has approved the reverse split, it will assign to the Company's post reverse split common stock a new trading ticker symbol. We have no way to request any particular ticker symbol and no way to influence the NASD's selection of a new ticker symbol for our post reverse split shares. Once the effective date has been established and the new ticker symbol assigned, we will publish a press release informing our shareholders and other members of the investment community of the effective date of the reverse split and the Company's new post-split ticker symbol. On the effective date of the reverse split, our shares will begin trading under the new ticker symbol and the trading price, number of shares, market capitalization and other share and per share information pertaining to the Company's shares of common stock will reflect the post reverse split ratios.

No Appraisal Rights

Stockholders do not have appraisal rights under Utah Revised Business Corporation Act or under the company's Certificate of Incorporation (as amended) in connection with a reverse stock split.

Reservation of Right to Abandon Reverse Stock Split

The company reserves the right to abandon a reverse stock split without further action by the stockholders at any time before the effectiveness of the reverse split, even if the authority to effect a reverse stock split has been approved by the stockholders at the Annual Meeting. By voting in favor of a reverse stock split, you are expressly also authorizing the board to determine not to proceed with, and abandon, a reverse stock split if it should so decide.

Circular 230 Tax Disclosures

Certain federal income tax consequences of the proposed transactions described herein are discussed below in the Sections entitled "Certain Federal Income Tax Consequences of the Reverse Stock Split". These discussions are based upon the Code, applicable Treasury Regulations, judicial authority and administrative rulings and practice, all as of the date hereof. The company has not and will not request a ruling from the Internal Revenue Service, nor an opinion of counsel, regarding these tax issues. Further, these discussions do not address all federal income tax consequences that may be relevant to a particular holder of shares of common stock or options or warrants to acquire common stock, or any foreign, state or local tax considerations.

The following disclosures are intended to comply with applicable Treasury Regulations. The discussions of certain federal income tax consequences referenced above and set forth below are not intended or written to be used, and cannot be used by any taxpayer, for the purpose of avoiding penalties that may be imposed on the taxpayer. These discussions of certain federal income tax consequences are not written to support the promotion or marketing of the transactions described herein. Accordingly, holders of common stock and warrants and options to acquire common stock are strongly urged to seek advice based on each holder's own particular circumstances from an independent tax advisor.

Certain Federal Income Tax Consequences of a Reverse Stock Split

The following is a summary of the material U.S. federal income tax consequences of a reverse stock split. This discussion is based on the Internal Revenue Code, the Treasury Regulations promulgated thereunder, published statements by the Internal Revenue Service and other applicable authorities on the date of this Proxy Statement, all of which are subject to change, possibly with retroactive effect. This discussion does not address the tax consequences to holders that are subject to special tax rules, such as

banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. Further, it does not address any state, local or foreign income or other tax consequences. This summary also assumes that the shares of common stock held immediately prior to the effective time of the reverse stock split were, and the new shares received will be, held as a capital asset, as defined in the Internal Revenue Code (generally, property held for investment).

Subject to the discussion below concerning the treatment of the receipt of cash payments instead of fractional shares, the company believes that the material U.S. federal income tax consequences of a reverse stock split would be as follows:

The company will not recognize any gain or loss as a result of the reverse stock split.

Stockholders will not recognize any gain or loss as a result of the reverse stock split, except with respect to cash received instead of fractional shares.

The aggregate adjusted basis of the shares of each class of the common stock held following the reverse stock split will be equal to the stockholder's aggregate adjusted basis immediately prior to the reverse stock split, reduced by any tax basis attributable to a fractional share.

A stockholder's holding period for the common stock the stockholder continues to hold after the reverse stock split will include the holding period for the common stock held immediately prior to the reverse stock split.

In general, if a stockholder receives cash instead of a fractional share of the common stock, the stockholder will recognize capital gain or loss based on the difference between the amount of cash received and his adjusted basis in the fractional share. The capital gain or loss will constitute long-term capital gain or loss if the holding period for the common stock is greater than one year as of the date of the reverse stock split. The deductibility of capital losses is subject to limitations.

The company's beliefs regarding the tax consequences of the reverse stock split is not binding on the Internal Revenue Service or the courts. Accordingly, the company urges stockholders to consult with their personal tax advisors with respect to all of the potential tax consequences of the reverse stock split.

The following discussion addresses the material federal income tax consequences of the reverse split that are applicable to holders of shares of the company's common stock.

Required Vote for the Reverse Split

Approval of the reverse stock split requires the affirmative vote of a majority of the shares of common stock present and voting on the proposal. Abstentions on the reverse stock split proposal has the effect of a negative vote on that proposal, but broker non-votes are not counted for purposes of the proposal.

Board of Directors Recommendation

OUR BOARD OF DIRECTORS HAS CONCLUDED THAT THE PROPOSED REVERSE STOCK SPLIT IS IN THE BEST INTEREST OF THE COMPANY'S SHAREHOLDERS AND UNANIMOUSLY RECOMMENDS THAT THE SHAREHOLDERS APPROVE THIS PROPOSAL AT THE MEETING.

There can be no assurance that these affiliates or other related parties will continue to provide funds to the Company in the future, as there is no legal obligation to provide such loans.

Jennings is a 50% managing member of Gunpark Management, LLC.

In August 2004, Messrs. Jennings and Neuman were each granted non-qualified stock options exercisable to purchase 100,000 shares of common stock at an exercise price of \$.10 per share. If, however, notwithstanding the foregoing deadline, a proposal is brought before the Meeting, then under the proxy rules of the Securities and Exchange Commission the proxies solicited by management with respect to the Annual Meeting will confer discretionary voting authority with respect to the stockholder's proposal on the person selected by management to vote the proxies.
