PART I

Item 1. Description of Business.

Brief History

New Millennium Media International, Inc. is a Colorado corporation organized on April 21, 1998. NMMI's principal place of business is located at 101 Philippe Parkway, Suite 300, Safety Harbor, Florida 34695. NMMI is the successor to Progressive Mailer Corp. ("PMC"), a corporation organized in Florida on February 5, 1997. In March 1997 and April 1998, PMC conducted offerings of its common stock pursuant to the exemption from registration afforded by Rule 504 of Regulation D under the Securities Act of 1933, as amended. On November 3, 1997, PMC received clearance from the NASD to have its common stock listed on the OTC Bulletin Board.

In February, 1998, PMC's sole officer and director resigned and sold all of her share ownership in PMC, which represented 95% of the issued and outstanding shares of PMC, to Troy Lowrie who as elected President and Director of PMC. The principal offices of PMC were relocated to Denver, Colorado.

Effective, April 8, 1998 PMC entered into an Asset Purchase Agreement with LuFam Technologies, Inc, a California corporation, in exchange for the issuance of shares of PMC's common stock to LuFam. Pursuant to the terms of the Asset Purchase Agreement, PMC acquired distribution rights to the IllumiSign-EyeCatcher display system, a special advertising display machine. NMMI currently markets and sells advertising space on these machines.

Edgar Filing: NEW MILLENNIUM MEDIA INTERNATIONAL INC - Form 10KSB40

Effective April 30, 1998, PMC was merged into NMMI and the separate existence of PMC terminated pursuant to the merger agreement. In connection with the merger, each share of PMC outstanding on April 30, 1998 was exchanged for a like number of shares of New Millennium.

August 31, 1999 NMMI entered into an Amended and Restated Agreement and Plan of Merger among NMMI, New Millennium Media, Inc., a wholly owned subsidiary of NMMI and Unergi, Inc. NMMI acquired all of the issued shares of stock of Unergi in exchange for 16,566,667 shares of NMMI common stock.

New Millennium's common stock is traded on the Nasdaq OTC Bulletin Board under the symbol NMMI.

Business Overview

NMMI provides two types of visual advertising: The Illumisign-Eyecatcher movable display boards and LED display boards. NMMI retains ownership of both types of the machines and sell the advertising space on a monthly basis.

NMMI has the exclusive United States manufacture and distribution license from the patent owner for the Illumisign EyeCatcher display boards. This board is steel incased, front lighted and displays poster type ads. These mechanical devises come in various sizes ranging from 11 inches by 17 inches to 4 feet by 6 feet. Each machine is capable of rotating up to 24 posters at preprogrammed intervals from 3 seconds to one hour. Because the poster material is critical to the functionality as well as the longevity of the poster, it is necessary for the advertisers to rely on our graphic arts department to develop and supply the necessary posters. These Mechanical Eyecatcher movable displays are then placed in various sites in stores, shopping malls, movie theaters and anywhere else where indoor poster type advertising is feasible. NMMI has registered the trademark, "Illumisign-Eyecatcher" for electric sign products with the United States Department of Commerce, Patent and Trademark Office.

The LED display boards are generally placed out doors either freestanding or affixed onto the sides of buildings or located in athletic stadiums. The LED boards range in size from 8 feet by 10 feet to 20 feet by 30 feet and even larger in custom designs. They are capable of displaying a near infinite number of either stationary or motion images. Because the images need to be programmed into the LED boards, it is necessary that our graphic arts department be involved in both the design and set up of the intended displays.

NMMI has a strategic relationship with E-Vision LED, Inc., a U.S. based company whose affiliates manufacture these high quality LED units. E-Vision will sell the LED boards to NMMI

at cost and will share in the revenues that the LED boards produce. This allows NMMI to procure the highest quality LED display boards at a greatly reduced cost. This business arrangement is designed to enable NMMI to deploy approximately 2 1/2 times the number of boards in a short period of time. Because these LED boards can run any commercial format on any sized board, we feel that NMMI has a strong competitive advantage over other display boards for which the visual display must be reformatted. Formatting often takes weeks. E-Vision LED displays will run any format on any size board with consistent color quality and clarity. These LED boards have the potential to display countless images in full color both static and full motion. Color quality and clarity are very important to national advertisers who want consistency of colors on all boards. E-Vision will assist NMMI with training and support from the first board and with ongoing assistance in all aspects of programming, technical and software support. As a strategic partner, E-Vision and its affiliates will supply NMMI, free of charge, software upgrades as they become available.

Edgar Filing: NEW MILLENNIUM MEDIA INTERNATIONAL INC - Form 10KSB40

In relation to these two types of display media, NMMI is capable of providing advertisers with visual communications and media services in both indoor and outdoor environments. We offer a comprehensive range of visual movable board solutions designed to improve clients' advertising needs and processes including professional services such as strategic site location, consulting and analysis as well as poster design and development. This enables us to locate boards and sell advertising on a national level that will benefit NMMI in placing boards throughout the U.S.

NMMI purchased a mobile, self contained and generated, LED (light emitting diode) unit that contains a 10 feet x 13 feet full color digital display screen. This truck mounted "Superscreen" is similar to large LED screens that can be seen in indoor and outdoor sports stadiums. Any image that can be displayed on a computer or television can be displayed on this LED screen at any location and will run on any format, including live broadcast feed. This allows any venue that does not have a fixed display screen, such as NASCAR events, golf tournaments, fishing tournaments and grand openings the ability to now have a large scoreboard or screen at their event which can travel to different locations on the tour. This mobile unit has already appeared at Universal Studios, Walt Disney Event Productions, Wal-Mart, Tampa Bay Buccaneer Game with Pepin Distributing (a Budweiser Distributor), the opening home game of the Tampa Bay Lightning, a Monday Night football promotion with Hooters and many other events.

NMMI signed a one-year with option for eight additional one year terms marketing agreement with Carson-Jensen-Anderson Enterprises, Inc. d/b/a EyeCatcher Marketing Company through which agreement the Illumisign-Eyecatcher display boards will be marketed throughout the 50 United States. EyeCatcher Marketing Company will locate and contract the site locations as well as sell the advertising for the display boards. NMMI will retain ownership of the display boards and will supply the graphic artwork to the advertisers' specifications.

Employees

NMMI has eight employees. None of our employees is represented by a labor union. We consider our relations with our employees to be good. Because a major portion of our business involves nationwide site location and procurement as well as sales and marketing of advertising space, it is advantageous for us to outsource this segment of our business through strategic partnering and subcontracting. We intend to utilize in-house employees and plan to add additional staff as needed to handle all other phases of our business including graphic arts, warehousing, distribution, purchasing, distribution, shipping, accounting and bookkeeping.

Item 2. Description of Property.

NMMI owns no real estate. It has a one-year lease plus a two-year renewal option with Investment Management of America, Inc. to occupy property located in Safety Harbor, Florida which lease expires May 2, 2003. This lease includes office space and sufficient storage space to warehouse, test and repair the machines prior to their site placement. It is intended that, upon the various sites being contracted, the machines will be shipped directly to the site location and for those machines that require more detailed installation such as the LED boards, the machines will be shipped directly to the installer. Machines that are in need of repair are repaired on-site whenever possible. Those machines that are not repairable on-site are repaired in-house at the Safety Harbor, Florida facility.

Item 3. Legal Proceedings.

The Company is a defendant in a lawsuit filed on November 5, 1999 in the Circuit

Edgar Filing: NEW MILLENNIUM MEDIA INTERNATIONAL INC - Form 10KSB40

Court of the Eleventh Judicial Circuit in and for Miami-Dade County, Florida, Case Number 99-26073 CA 10. January 24, 2001 the parties agreed to a settlement whereby the Company paid \$5,000 to Joseph Maenza and is obligated to pay \$57,000 within 120 days. When this payment is made, the litigation will be dismissed with prejudice.

Item 4. Submission of Matters to a Vote of Security Holders.

There were no matters submitted to security holders for a vote during the course of the fourth quarter of the last fiscal year.

PART II

Item 5. Market for Common Equity and Related Stockholder Matters.

Item 6. Management's Discussion and Analysis or Plan of Operation.

General

Edgar Filing: NEW MILLENNIUM MEDIA INTERNATIONAL INC - Form 10KSB40

Management's discussion and analysis contains various "forward looking statements." Such statements consist of any statement other than a recitation of historical fact and can be identified by the use of forward-looking terminology such as "may," "expect," "anticipate," "estimate," or "continue" or use of negative or other variations or comparable terminology. We caution that these statements are further qualified by important factors that could cause actual results to differ materially from those contained in the forward-looking statements, that these forward-looking statements are necessarily speculative, and there are certain risks and uncertainties that could cause actual events or results to differ materially from those referred to in such forward-looking statements.

Overview

The Company is an operational stage company, heretofore having been considered a development stage company. We have generated cash needs through equity financings and loans from officers and stockholders. As an operational stage company, we have devoted substantially all of our efforts in securing and establishing new business. We have engaged in activities in the advertising business, but no significant revenues have been generated to date. The primary activity of the Company currently involves two types of visual advertising, the Illumisign-Eyecatcher movable display boards and LED display boards. We retain ownership of both types of these machines and sell the advertising space on a monthly basis.

Liquidity and Capital Resources

To date, our liquidity has been principally supplied by equity financing and loans from related parties. As of December 31, 2000 net cash provided by financing activities was \$888,918. The total current liabilities have decreased from \$1,810,536 as of December 31, 1999 to \$813,228 as of December 31, 2000. Accordingly, for the same comparative periods the total stockholders' equity increased from a negative \$624,323 to a positive \$750,208, an increase of \$1,374,531.

Results of Operations

The discussion and financial statements contained herein are for the twelve months ended December 31, 1999 and 2000. The following discussion regarding the financial statements of the Company should be read in conjunction with the financial statements of the Company included herewith.

Gross revenues for the twelve months ended December 31, 2000 increased \$105,224 from twelve months ended December 31, 1999 from \$49,176 to \$154,400, an increase of approximately 300%. This is due primarily to our concentration on establishing new business and increasing sales relating to both the IllumiSign Eyecatcher and the LED display sign truck.

General and Administrative Expenses

The combined general and administrative and general and administrative - related expenses for the twelve months ended December 31, 2000 increased \$519,825 in comparison to the twelve months ended December 31, 1999 from \$376,707 to \$896,532, an increase of approximately 238%. This increase is due primarily to increased staffing levels, higher facility costs and professional fees to support the growth of our infrastructure. We expect to hire additional support personnel and will incur additional costs related to being a public company, including insurance for employees, investor relations programs, administrative support and other related professional fees.

Net Loss

As a result of the above items, we incurred net loss for the twelve months ended December 31, 2000 of \$946,613 compared to \$445,985 for the twelve months ended December 31, 1999, an increased loss of \$500,628 or approximately 212%.

Item 12. Certain Relationships and Related Transactions.

Except as set forth below, there have neither occurred within the preceding two year period, nor are there pending or proposed, any direct or indirect material transactions between us and any of our directors, executive officers or controlling shareholders outside the ordinary course of our business.

Item 13. Exhibits and Reports

Indemnification of Directors and Officers

The Colorado General Corporation Act provides that each existing or former director and officer of a corporation may be indemnified in certain instances against certain liabilities which he or she may incur, inclusive of fees, costs and other expenses incurred in connection with such defense, by virtue of his or her relationship with the corporation or with another entity to the extent that such latter relationship shall have been undertaken at the request of the corporation; and may have advanced such expenses incurred in defending against such liabilities upon undertaking to repay the same in the event an ultimate determination is made denying entitlement to indemnification. The Company's

Edgar Filing: NEW MILLENNIUM MEDIA INTERNATIONAL INC - Form 10KSB40

bylaws incorporate the statutory form of indemnification by specific reference. The Company has never acquired or applied for any policy of directors' and officers' liability insurance as a means of offsetting its obligation for indemnity.

Reports to Shareholders

We intend to voluntarily send annual reports to our shareholders, which will include audited financial statements. We are a reporting company, and file reports with the Securities and Exchange Commission (SEC), including this Form 10-KSB as well as quarterly reports under Form 10-QSB. The public may read and copy any materials filed with the SEC at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. The company files its reports electronically and the SEC maintains an Internet site that contains reports, proxy and information statements and other information filed by the company

with the SEC electronically. The address of that site is <http://www.sec.gov>. The company filed no reports on Form 8-K during the last quarter of the period covered by this report.

The company also maintains an Internet site, which contains information about the company, news releases and summary financial data. The address of that site is <http://www.nmmimedia.com>.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors and Shareholders
New Millennium Media International, Inc.
Safety Harbor, Florida

We have audited the balance sheets of New Millennium Media International, Inc. as of December 31, 1999 and 2000, and the related statements of operations, stockholders' (deficit) equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of New Millennium Media International, Inc. at December 31, 1999 and 2000 and the results of its

Edgar Filing: NEW MILLENNIUM MEDIA INTERNATIONAL INC - Form 10KSB40

operations and its cash flows for the years then ended, in conformity with generally accepted accounting principles.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company has incurred losses for the years ended December 31, 1999 and 2000. This condition raises substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 1999 AND 2000

1. Organization and summary of significant accounting policies

A summary of the Company's significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

Nature of Business

New Millennium Media International, Inc. (formerly Progressive Mailer Corp.) (NMMI or the Company) was incorporated under the laws of the State of Florida on February 5, 1997. On April 30, 1998, as part of a plan or reorganization, the Company became New Millennium Media International, Inc., a Colorado company. On April 14, 1998, all the assets of Lufam Technologies, Inc. were acquired in exchange for 1,710,000 shares of the Company's \$.001 par value common stock. On August 31, 1999, pursuant to an Agreement and Plan of merger, the Company acquired all the issued and outstanding stock of Unergi, Inc. in exchange for 16,566,667 shares of the Company's \$.001 par value common stock. Further, on March 9, 2000, the Company acquired 100% of the issued and outstanding common stock of Scovel Corporation in exchange for 500,000 shares of the Company.

The Company is in the business of developing and marketing advertising space in special movable advertising display machines and LED display boards. The Company provides two types of visual advertising including movable display boards and LED display boards. NMMI sells advertising space while retaining ownership of the boards. During the year, the Company negotiated the ability to manufacture the advertising machines previously supplied principally by one foreign vendor.

The Company is no longer considered to be in the development stage for 2000. In prior years, the Company had been in the development stage.

Basis of presentation

The financial statements have been prepared using the accrual method of accounting. Revenues are recognized when earned and expenses when incurred.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

DECEMBER 31, 1999 AND 2000

Organization and summary of significant accounting policies - Cont'd.

Going Concern Uncertainty

The Company has incurred recurring operating losses and negative cash flows and has negative working capital. The Company has financed itself primarily through the sale of its stock and related party borrowings. These conditions raise substantial doubt about the Company's ability to continue as a going concern. As noted in Note 5, the Company has initiated several actions to generate working capital for expected advertising growth.

There can be no assurance that the Company will be successful in implementing its plans, or if such plans are implemented, that the Company will succeed.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern and do not include any adjustments to reflect the possible future effect on the recoverability and classification of assets or the amount and classification of liabilities that might result from the outcome of this uncertainty.

Comprehensive Income

Statement of Financial Accounting Standards (SFAS) No. 130, "Reporting Comprehensive Income," establishes standards for reporting and display of comprehensive income, its components and accumulated balances. Comprehensive income is defined to include all changes in equity except those resulting from investments by owners and distributions to owners. Among other disclosures, SFAS No. 130 requires that all items that are required to be recognized under current accounting standards as components of comprehensive income be reported in a financial statement that is displayed with the same prominence as other financial statements. The Company does not have any items requiring disclosure of comprehensive income.

Segments of Business Reporting

Statement of Financial Accounting Standards (SFAS) No. 131, establishes standards for the way that public companies report information about operating segments in annual financial statements and requires reporting of selected information about operating segments in interim financial statements issued to the public. It also establishes standards for disclosures regarding products and services, geographic areas and major customer. SFAS 131 defines operating segments as components of a company about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company has evaluated this SFAS and does not believe it is applicable at this time.

Organization and summary of significant accounting policies - Cont'd.

Intangible assets

Organization costs are amortized using the straight-line method over their estimated useful lives of five years and are stated at cost less accumulated amortization. The Company reviews for the impairment of long-lived assets and

Edgar Filing: NEW MILLENNIUM MEDIA INTERNATIONAL INC - Form 10KSB40

certain identifiable intangibles annually. No such impairment losses have been identified by the Company for the years presented.

Under the purchase method of accounting, tangible and identifiable intangible assets acquired and liabilities assumed are recorded at their estimated fair values. The excess of the purchase price, including estimated fees and expenses related to the merger, over the net assets acquired is classified as goodwill by the Company. The estimated fair values and useful lives of assets acquired and liabilities assumed are based on a preliminary valuation and are subject to final valuation adjustments which may cause some of the intangibles to be amortized over a shorter life than the goodwill amortization period of 15 years

Inventories

Inventories consist primarily of supplies related to advertising machines and are carried at the lower of cost (first-in, first-out) or market. Once the advertising machines are available for rental and placed in service, depreciation is recognized. During the year, the advertising machines were made available for rental. Depreciation is recognized for the year ended 2000 because rental activity commenced during the year.

Furniture and equipment

Furniture and equipment is stated at cost and depreciated using the straight-line method, over the estimated useful lives of five to seven years.

Income Taxes

The Company accounts for income taxes under Statement of Financial Accounting Standards No. 109 (SFAS No. 109). Under SFAS No. 109, deferred income tax assets and liabilities are determined based upon differences between financial reporting and tax bases of assets and liabilities and are measured using currently enacted tax rates. SFAS No. 109 requires a valuation allowance to reduce the deferred tax assets reported if, based on the weight of the evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Basic and Diluted Loss Per Common Share

Basic loss per common share is based on the weighted average number of shares outstanding during the period. The computation of diluted loss per common share is similar to basic earnings per share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potentially dilutive common shares had been issued. Diluted loss per common share is not presented since the result is antidilutive.

Cash Equivalents

Edgar Filing: NEW MILLENNIUM MEDIA INTERNATIONAL INC - Form 10KSB40

The Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Fair Value of Financial Instruments

All financial instruments are held for purposes other than trading. The following methods and assumptions were used to estimate the fair value of each financial instrument for which it is practicable to estimate that value:

For cash, cash equivalents and notes payable, the carrying amount is assumed to approximate fair value due to the short-term maturities of these instruments.

Concentrations of Credit Risk

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash. The Company places its cash with high quality financial institutions. At times during the year, the balance at any one financial institution may exceed FDIC limits.

2. Furniture, fixtures and equipment

Furniture, fixtures and equipment is summarized as follows:

	1999	2000
	-----	-----
Boards available for lease	\$ --	\$ 545,483
Equipment	--	468,731
Furniture & fixtures	4,249	5,490

Less accumulated depreciation	(285)	(95,555)
	-----	-----
Net	\$ 3,964	\$ 924,149
	=====	=====

During the year 2000, the advertising boards became available for lease.

3. Goodwill

On August 31, 1999 the Company acquired all the outstanding stock of Unergi, Inc. The acquisition was accounted for as a purchase. Consideration for the purchase was the issuance of 16,566,667 shares of \$.001 par value stock of the Company. The purchase price exceeded the fair value of the net assets acquired by \$677,594 which has been recorded as goodwill. On March 9, 2000, the Company acquired 100% of the issued and outstanding common stock of Scovel Corporation in exchange for 500,000 shares of the Company.

	-----	-----
	\$1,596,012	\$ 658,110
	=====	=====

During the year, the Company issued common stock in settlement of certain debt to stockholders and former officers. Currently, the Company disputes a note to a prior officer but has recognized the debt for financial statement purposes.

5. Income Taxes

The Company has available net operating loss carryforwards of \$1,950,000 which expire through 2020.

After consideration of all the evidence, both positive and negative, management has determined that a full valuation allowance is necessary to reduce the deferred tax assets to the amount that will more likely than not be realized. Accordingly, components of the Company's net deferred income taxes are as

Edgar Filing: NEW MILLENNIUM MEDIA INTERNATIONAL INC - Form 10KSB40

follows:

	1999	2000
	-----	-----
Deferred tax assets:

6. Equity Transactions

On May 2, 2000, the Company entered into an agreement with Swartz Private Equity to provide an equity line of \$25,000,000 based upon the Company issuing warrants convertible into 1,000,000 shares of the Company's Common Stock. Certain provisions of the Agreement provide for the issuance of additional warrants equal to 4.0% of the fully diluted shares of the Company's Common Stock. The exercise price of the warrants is based in part upon the closing bid price for 5 trading days prior to March 6, 2000 or \$.30. Management has entered into these agreements, in part, to provide the necessary capital needed for the expected growth in outdoor advertising business. As part of this agreement, the Company has issued 1,000,000 warrants.
