Item 8.01 Other Events

During the third quarter of 2018, FBL Financial Group, Inc. (the Company) will voluntarily change its accounting policy for low income housing tax credit (LIHTC) investments. The Company will begin using the proportional amortization method of accounting for its LIHTC investments rather than the equity method of accounting. While both methods of accounting are acceptable under U.S. generally accepted accounting principles, the Company believes the proportional amortization method is preferable because it more fairly represents the economics of LIHTC investments, which are made primarily for the purpose of receiving tax credits and other tax benefits. In addition, this method aligns to the method typically used by companies within the Company's industry which have similar investments.

While this accounting change impacts the timing of profit and loss recognition, it does not impact the ultimate profitability of the underlying LIHTC investments.

With this filing, selected unaudited financial information is provided to reflect adjustments due to this accounting policy change. This information is attached as Exhibit 99.1.
