HMG/COURTLAND PROPERTIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements prepared in accordance with instructions for Form 10-Q, include all adjustments (consisting only of normal recurring accruals) which are necessary for a fair presentation of the results for the periods presented. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed consolidated financial statements be read in conjunction with the Company's Annual Report for the year ended December 31, 2013. The balance sheet as of December 31, 2013 was derived from audited consolidated financial statements as of that date. The results of operations for the three and nine months ended September 30, 2014 are not necessarily indicative of the results to be expected for the full year.

The condensed consolidated financial statements include the accounts of HMG/Courtland Properties, Inc. (the "Company") and entities in which the Company owns a majority voting interest or controlling financial interest. All material transactions and balances with consolidated and unconsolidated entities have been eliminated in consolidation or as required under the equity method. Amounts in footnotes are rounded to the nearest thousands.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Refer to the consolidated financial statements and footnotes thereto included in the HMG/Courtland Properties, Inc. Annual Report on Form 10-K for the year ended December 31, 2013 for recent accounting pronouncements.

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (ASU 2014-09), which supersedes nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled for those goods or services. ASU 2014-09 defines a five step process to achieve this core principle and, in doing so, more judgment and estimates may be required within the revenue recognition process than are required under existing U.S. GAAP. The standard is effective for annual periods beginning after December 15, 2016, and interim periods therein, using either of the following transition methods: (i) a full retrospective approach reflecting the application of the standard in each prior reporting period with the option to elect certain practical expedients, or (ii) a retrospective approach with the cumulative effect of initially adopting ASU 2014-09 recognized at the date of adoption (which includes additional

footnote disclosures). We are currently evaluating the impact of our pending adoption of ASU 2014-09 on our consolidated financial statements and have not yet determined the method by which we will adopt the standard in 2017.

The Company does not believe that any other recently issued, but not yet effective accounting standards, if currently adopted, will have a material effect on the Company's consolidated financial position, results of operations and cash flows.

3. INVESTMENTS IN MARKETABLE SECURITIES

Investments in marketable securities consist primarily of large capital corporate equity and debt securities in varying industries or issued by government agencies with readily determinable fair values. These securities are stated at market value, as determined by the most recent traded price of each security at the balance sheet date. Consistent with the Company's overall current investment objectives and activities, its entire marketable securities portfolio is classified as trading.

In April 2014, the Company purchased approximately \$3.5 million of preferred equity of large capital real estate investment trusts (REITS); consisting of approximately 20 preferred stock positions with no one position exceeding \$400,000 in value as of September 30, 2014.

In March 2014, the Company purchased approximately \$3.5 million of marketable securities consisting of approximately 50 common stock positions in large capital REITS. No one stock position of this purchase exceeds \$400,000 in value as of September 30, 2014.

Net realized and unrealized gain (loss) from investments in marketable securities for the three and nine months ended September 30, 2014 and 2013 is summarized below:

Description	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013
Net realized gain (loss) from sales of securities	\$ 290,000	(\$15,000)	\$336,000	(\$7,000)
Unrealized net (loss) gain in trading securities	(542,000)	36,000	50,000	61,000
Total net (loss) gain from investments in marketable securities	(\$252,000)	\$ 21,000	\$386,000	\$ 54,000

For the three months ended September 30, 2014, net realized gain from sales of marketable securities was approximately \$290,000, and consisted of approximately \$312,000 of gross gains and \$22,000 of gross losses. For the nine months ended September 30, 2014, net realized gain from sales of marketable securities was approximately \$336,000, and consisted of approximately \$393,000 of gross gains net of \$57,000 of gross losses.

For the three months ended September 30, 2013, net realized loss from sales of marketable securities of approximately \$15,000 consisting of approximately \$29,000 in gross losses net of \$14,000 of gross gains. For the nine months ended September 30, 2013, net realized loss from sales of marketable securities of was approximately \$7,000, and consisted of approximately \$52,000 of gross losses net of \$45,000 of gross gains.

For the three and nine months ended September 30, 2014, net unrealized (loss) gain from trading securities was approximately (\$542,000) and \$50,000, respectively. This is compared to net unrealized gain of \$36,000 and \$61,000 for the three and nine months ended September 30, 2013, respectively.

Investment gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's net earnings. However, the amount of investment gains or losses on marketable securities for any given period has no predictive value and variations in amount from period to period have no practical analytical value.

4. INVESTMENT IN REAL ESTATE PARTNERSHIP

In September 2014, the Company, through a newly-formed wholly owned subsidiary (HMG Orlando LLC, a Delaware limited liability company), acquired a one-third equity membership interest in JY-TV Associates, LLC a Florida limited liability company ("JY-TV") and entered into the Amended and Restated Operating Agreement of JY-TV (the "Agreement"). JY-TV was formed in 2014 for the sole purpose of purchasing and constructing up to two hundred fifty (250) unit rental apartments on approximately 9.5 acres in Orlando, Florida. The other two initial members of JY-TV are not related to the Company. As provided in the Agreement, the three members have each

committed to fund approximately \$1.8 million in equity in this project. As of September 30, 2014 the Company has funded \$150,000 towards this commitment. JY-TV is in the process of obtaining construction financing of approximately \$27 million and construction is expected to commence in 2015. This investment will be accounted for under the equity method.

5. OTHER INVESTMENTS

As of September 30, 2014, the Company's portfolio of other investments had an aggregate carrying value of approximately \$4 million and we have commitments to fund approximately \$1.9 million as required by agreements with the investees. The carrying value of these investments is equal to contributions less distributions and loss valuation adjustments. During the nine months ended September 30, 2014, cash distributions received from other investments totaled approximately \$512,000 from several investments in privately owned partnerships owning diversified operating companies. During the nine months ended September 30, 2014, the Company made contributions to other investments of approximately \$1.1 million. This consisted primarily of two new investments of \$300,000 each, one of \$200,000, one of \$100,000 and various follow on contributions to existing investments totaling approximately \$200,000.

Net income from other investments for the three and nine months ended September 30, 2014 and 2013, is summarized below:

Description	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013
Partnerships owning diversified businesses	\$14,000	\$63,000	\$91,000	\$104,000

Total net income from other investments (excluding other than temporary impairment losses)	\$30,000	\$87,000	\$115,000	230,000

The following tables present gross unrealized losses and fair values for those investments that were in an unrealized loss position as of September 30, 2014 and December 31, 2013, aggregated by investment category and the length of time that investments have been in a continuous loss position:

Total	\$—	\$—	\$592,000	\$(87,000)	\$592,000	\$(87,000)

When evaluating the investments for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer and any changes thereto, and the Company's intent to sell, or whether it is more likely than not it will be required to sell, the investment before recovery of the investment's amortized cost basis.

In accordance with ASC Topic 320-10-65, Recognition and Presentation of Other-Than-Temporary Impairments ("OTTI") the Company recorded approximately \$11,000 in OTTI impairment valuation adjustments for the three and nine months ended September 30, 2014. There were not OTTI adjustments for the three and nine months ended September 30, 2013.

6. FAIR VALUE OF FINANCIAL INSTRUMENTS

In accordance with ASC Topic 820, the Company measures cash and equivalents, marketable debt and equity securities at fair value on a recurring basis. Other investments are measured at fair value on a nonrecurring basis.

The following are the major categories of assets and liabilities measured at fair value on a recurring basis during the three and nine months ended September 30, 2014 and for the year ended December 31, 2013, using quoted prices in active markets for identical assets (Level 1) and significant other observable inputs (Level 2). For the periods presented, there were no major assets measured at fair value on a recurring basis which uses significant unobservable inputs (Level 3):

Other investments measured at fair value on a non-recurring basis include investments in certain entities that calculate net asset value per share (or its equivalent such as member units or an ownership interest in partners' capital to which a proportionate share of net assets is attributed, "NAV"). This class primarily consists of private equity funds that have varying investment focus. These investments can never be redeemed with the funds. Instead, the nature of the investments in this class is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held it is estimated that the underlying assets of the fund would be liquidated over 5 to 10 years. As of September 30, 2014, it is probable that all of the investments in this class will (a) be sold at an amount different from the NAV of the Company's ownership interest in partners' capital. Therefore, the fair values of the investments in this class have been estimated using recent observable information such as audited financial statements and/or statements of partners' capital obtained directly from investees on a quarterly or other regular basis. During the nine months ended September 30, 2014, the Company received distributions of approximately \$509,000 from this type of investment primarily from investments in diversified businesses and real estate. During the nine months ended September 30, 2014, the Company made contributions totaling \$735,000 in this type of investment. As of September 30, 2014, the amount of the Company's unfunded commitments related to the aforementioned investments is approximately \$1.9 million.

Other investments above which are measured on a nonrecurring basis using Level 3 unobservable inputs consist of investments primarily in commercial real estate in Florida through private partnerships, two investments in the stock of private banks in Florida and Texas, and others. The Company does not know when it will have the ability to redeem the investments and has categorized them as a Level 3 fair value measurement. The Level 3 real estate and related investments of approximately \$1,044,000 include one investment in a commercial building located near the Company's offices purchased in 2005 with a carrying value as of September 30, 2014 of \$724,000. These (b) investments are measured using primarily inputs provided by the managing member of the partnerships with whom the Company has done similar transactions in the past and is well known to management. The fair values of these real estate investments have been estimated using the net asset value of the Company's ownership interest in partners' capital. The fair values of these investments have been estimated using the cost method less distributions received and other than temporary impairments. These investments are valued using inputs provided by the management of the investee.

The activity in investments classified within level 3 of the fair value hierarchy for the nine months ended September 30, 2014 is as follows:

	Level 3 Investments:
Balance at January 1, 2014	\$ 1,272,000
Investments in Level 3 investments	400,000
Distributions from Level 3 investments	(2,000)
Transfers from Level 2	—

7. INCOME TAXES

The Company (excluding CII) qualifies as a real estate investment trust and distributes its taxable ordinary income to stockholders in conformity with requirements of the Internal Revenue Code and is not required to report deferred items due to its ability to distribute all taxable income. In addition, net operating losses can be carried forward to reduce future taxable income but cannot be carried back. Distributed capital gains on sales of real estate as they relate to REIT activities are not subject to taxes; however, undistributed capital gains may be subject to corporate tax.

As of September 30, 2014 the Company (excluding CII) had net operating loss carryover (NOL) of approximately \$30,000.

The Company's 95%-owned subsidiary, CII, files a separate income tax return and its operations are not included in the REIT's income tax return.

As of September 30, 2014, CII has an estimated NOL of approximately \$1.3 million. CII has established a valuation reserve of \$1 million on this NOL due to CII historically having tax losses.

The Company accounts for income taxes in accordance with ASC Topic 740, "Accounting for Income Taxes". ASC Topic 740 requires a Company to use the asset and liability method of accounting for income taxes. Under this method, deferred income taxes are recognized for the tax consequences of "temporary differences" by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amounts and the tax bases of existing assets and liabilities. The effect on deferred income taxes of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred taxes only pertain to CII. As a result, primarily of timing differences associated with the carrying value of other investments, the Company has recorded a net deferred tax liability of \$217,000 as of September 30, 2014 and December 31, 2013.

The (benefit from) provision for income taxes in the consolidated statements of comprehensive income consists of the following:

Nine months ended September 30,	2014	2013

Total	—	\$ 2,694,000

We adopted the provisions of ASC Topic 740-10, "Accounting for Uncertainty in Income Taxes" on January 1, 2007. This topic clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with ASC Topic 740, "Accounting for Income Taxes", and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Topic 740-10 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Based on our evaluation, we have concluded that there are no significant uncertain tax positions requiring recognition in our consolidated financial statements. Our evaluation was performed for the tax years ended since December 31, 2010 which are the tax years which remain subject to examination by major tax jurisdictions as of September 30, 2014.

We may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to our financial results. In the event we have received an assessment for interest and/or penalties, it has been classified in the consolidated financial statements as selling, general and administrative expense.

8. DISCONTINUED OPERATIONS AND REAL ESTATE INTERESTS HELD FOR SALE

As previously reported, on February 25, 2013 the Company completed the sale of its interests in Grove Isle Associates LLLP, Grove Isle Yacht Club Associates, Grove Isle Investments Inc. and CII Yacht Club, Inc., which represent interests in the Grove Isle hotel, club, tennis courts and marina (collectively, the “Grove Isle Property”) to Grove Isle Yacht & Tennis, LLC, a Florida limited liability company and an unrelated entity (“the Purchaser”), pursuant to a purchase agreement entered into on the same day (the “Agreement”). The purchase price was \$24.4 million, consisting of \$23.4 million in cash and a \$1 million promissory note due from the Purchaser. Approximately \$2.7 million of the proceeds were used to pay off the existing mortgage on the Grove Isle Property. The Company realized gain on the sale of these interests (including amounts received in June 2013 described below) of approximately \$19 million (or \$19 per share) net of incentive fee due to the Adviser of approximately \$2.1 million.

In June 2013 the Company received approximately \$327,000 of past due rental payments from the Grove Isle tenant. This amount is included in the realized gain on the sale of Grove Isle. Also in June 2013 the Purchaser exercised its option to purchase our 50% interest in the spa for \$100,000 as provided in the Agreement. There was no gain or loss realized on this transaction.

As previously reported, on March 29, 2013, pursuant to a Membership Interests Purchase Agreement (the "Agreement") entered into in December 2012, HMG/Courtland Properties, Inc. and its 95% owned subsidiary, Courtland Investments, Inc. (the "Company"), completed the sale of the Company's 50% membership interests in Bayshore Landing LLC, Bayshore Rawbar LLC and Bayshore Restaurant LLC, (collectively the "Monty's property") to the other 50% owner, The Christoph Family Trusts, which are unrelated entities. The purchase price for the membership interests of \$3 million was paid in cash. The Company realized a loss on the sale of these interests of approximately \$28,000 (or \$.03 per share).

We have classified the results of operations for the real estate interests discussed above into discontinued operations in the accompanying condensed consolidated financial statements of comprehensive income.

The increase in the three months ended September 30, 2014 as compared with the same period in 2013 was approximately \$117,000 (174%), and was primarily the result of increased interest and dividends from marketable securities. The increase in the nine months ended September 30, 2014 as compared with the same period in 2013 was approximately \$508,000 (310%) and was primarily due to a gain from the dissolution of South Bayshore Associates (SBA). In 2014 SBA was dissolved and the note payable to the Company of \$905,000 was distributed 75% to the Company and 25% to Transco. Transco repaid its portion of the note (approximately \$226,000) in June 2014 and recognized this amount as other income.

The sole amendment to the Advisory Agreement was the change in the remuneration of the Adviser to decrease the Adviser's current regular monthly compensation from \$85,000 to \$55,000, or \$1,020,000 to \$660,000 annually.

Professional fees and expenses for the three and nine months ended September 30, 2014 as compared with the same periods in 2013 increased by approximately \$35,000 (72%) and \$90,000 (66%), respectively, primarily due to increased legal fees and tax and accounting services.

General and administrative expenses for the three and nine months ended September 30, 2014 as compared with the same periods in 2013 decreased by approximately \$25,000 (29%) and \$80,000 (33%), respectively, primarily due to decreased costs associated with Courtland Houston, Inc. a subsidiary that was dissolved on December 31, 2013.

("TGIF") of approximately \$2.4 million due on demand, contributions committed to other investments of approximately \$1.9 million due upon demand and approximately \$1.7 million remaining equity contributes in our interest in investment in real estate partnership, JY-TV. PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Grove Isle Associates, LLLP was a co-defendant in two lawsuits in the circuit court in Miami Dade County Florida. These cases arose from claims by a condominium association and resident seeking a declaratory judgment regarding certain provisions of the declaration of condominium relating to the Grove Isle Club and the developer. The claim by the association had been dismissed as to all counts related to the Company; however the association filed an appeal. In March 2014, the appellate court ruled on the appeal reversing the lower court's dismissal. Pursuant to an agreement dated February 25, 2013 in which the company sold its interests in Grove Isle Associates, LLLP the company will continue to defend the lawsuit and will indemnify the purchaser for any related judgment. The ultimate outcome of this litigation cannot presently be determined. However, in management's opinion the likelihood of a material adverse outcome is remote. Accordingly, adjustments, if any that might result from the resolution of this matter have not been reflected in the consolidated financial statements.
