CENTRUE FINANCIAL CORPORATION NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (TABLE AMOUNTS IN THOUSANDS, EXCEPT SHARE DATA)

Note 1. Summary of Significant Accounting Policies

Centrue Financial Corporation is a bank holding company organized under the laws of the State of Delaware. When we use the terms "Centrue," the "Company," "we," "us," and "our," we mean Centrue Financial Corporation, a Delaware Corporation, and its consolidated subsidiary. When we use the term the "Bank," we are referring to our wholly owned banking subsidiary, Centrue Bank. The Company and the Bank provide a full range of banking services to individual and corporate customers located in markets extending from the far western and southern suburbs of the Chicago metropolitan area across Central Illinois down to the metropolitan St. Louis area. These services include demand, time, and savings deposits; business and consumer lending; and mortgage banking. The Company is subject to competition from other financial institutions and nonfinancial institutions providing financial services. Additionally, the Company and the Bank are subject to regulations of certain regulatory agencies and undergo periodic examinations by those regulatory agencies.

Basis of presentation

The accounting and reporting policies of the Company and its subsidiaries conform to U.S. generally accepted accounting principles ("GAAP") and general practice within the banking industry. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Material estimates which are particularly susceptible to significant change in the near term relate to the fair value of investment securities and other-than-temporary impairment of securities, the determination of the allowance for loan losses and valuation of other real estate owned.

For further information with respect to significant accounting policies followed by the Company in the preparation of its consolidated financial statements, refer to the Company's registration statement filed with the SEC on October 15, 2015 which includes the audited financial statements and notes for the year ended December 31, 2014. The consolidated financial statements include the accounts of the Company and Centrue Bank. Intercompany balances and transactions have been eliminated in consolidation and certain 2014 amounts have been reclassified to conform to the 2015 presentation. The annualized results of operations during the three and nine months ended September 30, 2015 are not necessarily indicative of the results expected for the year ending December 31, 2015. All financial information in the following tables is in thousands (000s), except share and per share data. In the opinion of management, all normal and recurring adjustments which are necessary to fairly present the results for the interim periods presented have been included.

Reverse Stock Split

Common shares and per share amounts for all periods shown have been restated to reflect the impact of the 1:30 reverse stock split the Company completed effective May 29, 2015.

Capital Event

On March 31, 2015, the Company completed the issuance of \$76.0 million of new common stock in a private placement offering. A total of 6.3 million shares were sold in the offering at a price of \$12.00 per share. In conjunction with the stock offering the Company used the proceeds in part to pay \$4.9 million in accrued but unpaid interest on its subordinated debentures, redeemed all \$32.7 million of Series C Preferred Stock for \$19.0 million, settled \$10.3 million in notes payable with MB Financial for \$8.5 million and made a \$36.0 million capital contribution into Centrue Bank. The remaining proceeds have been and will be used for general corporate purposes. Recent Accounting Pronouncements

In April 2015, the FASB issued an update, ASU No. 2015-05, Customer's Accounting for Fees Paid in a Cloud Computing Arrangement. ASU 2015-05 provides guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software

licenses. If the arrangement does not include a software license, the customer should account for a cloud computing arrangement as a service contract. This amendment is effective for fiscal years beginning after December 15, 2015, and interim periods beginning after December 15, 2016. Early adoption is permitted. The amendment may be adopted either prospectively to all arrangements entered into or materially modified after the effective date or retrospectively. The Company intends to adopt the accounting standard during 2016, as required, with no material impact. In June of 2014, the FASB issued an update, ASU No. 2014-11 Transfers and Servicing (Topic 860), guidance that requires repurchase-to-maturity transactions to be accounted for as secured borrowings and with additional disclosures. The guidance also requires separate accounting for a transfer of a financial asset executed contemporaneously with a repurchase agreement with the same counterparty. If the derecognition criteria are met as outlined in the guidance, the initial transfer will generally be accounted for as a sale and the repurchase agreement will generally be accounted for as a secured borrowing. The guidance is effective for annual reporting periods beginning after December 15, 2014 and interim reporting periods after December 15, 2015. Management

CENTRUE FINANCIAL CORPORATION NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (TABLE AMOUNTS IN THOUSANDS, EXCEPT SHARE DATA)

is evaluating the new guidance, but does not expect the adoption of this guidance will materially impact the Company's financial condition, results of operations, or liquidity.

In May 2014, the FASB issued an update (ASU No. 2014-09, Revenue from Contracts with Customers) creating FASB Topic 606, Revenue from Contracts with Customers. The guidance in this update affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards (for example, insurance contracts or lease contracts). The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance provides steps to follow to achieve the core principle. An entity should disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. Qualitative and quantitative information is required about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. The amendments in this update will become effective for annual periods and interim periods within those annual periods beginning after December 15, 2016. We are currently evaluating the impact of adopting the new guidance on the consolidated financial statements. Note 2. Earnings Per Share

A reconciliation of the numerators and denominators for earnings per common share computations for the three and nine months ended September 30, 2015 and 2014 is presented below (shares in thousands). Common shares, options, and per share amounts for all periods shown have been restated to reflect the impact of the thirty for one stock split the Company completed effective May 29, 2015. Options to purchase 3,488 and 6,083 shares of common stock were outstanding for September 30, 2015 and 2014, respectively; but were not included in the computation of diluted earnings per share because the exercise price was greater than the average market price and, therefore, were anti-dilutive.

Note 3. Securities

The primary strategic objective related to the Company's securities portfolio is to assist with liquidity and interest rate risk management. The fair value of the securities classified as available-for-sale was \$206.4 million at September 30,

2015 compared to \$135.4 million at December 31, 2014. Note 4. Loans

The major classifications of loans follow:

| | Aggregate Principal Amount | | | | |
|----------------------------------|----------------------------|-------------------|--|--|--|
| | September 30, 2015 | December 31, 2014 | | | |
| | | C4 #C4 | | | |

| Allowance for loan losses | (8,403) | (7,981) | | | |
| Loans, net | \$603,515 | 545,219 | | | |

The credit quality indicator utilized by the Company to internally analyze the loan portfolio is the internal risk rating. Internal risk ratings of 0 to 5 are considered pass credits, a risk rating of a 6 is special mention, a risk rating of a 7 is substandard, and a risk rating of an 8 is doubtful. Loans classified as pass credits have no material weaknesses and are performing as agreed. Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

The following table presents the commercial loan portfolio by internal risk rating: September 30, 2015

Troubled Debt Restructurings:

The Company had troubled debt restructurings ("TDRs") of \$0.15 million and \$0.02 million as of September 30, 2015 and December 31, 2014, respectively. Specific reserves were immaterial at September 30, 2015 and December 31, 2014. At September 30, 2015 nonaccrual TDR loans were \$0.13 million and \$0.02 million at December 31, 2014. There were \$0.03 million TDRs on accrual at September 30, 2015 compared to none at December 31, 2014. The Company had no commitments to lend additional amounts to a customer with an outstanding loan that is classified as TDR as of September 30, 2015 and December 31, 2014.

CENTRUE FINANCIAL CORPORATION NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (TABLE AMOUNTS IN THOUSANDS, EXCEPT SHARE DATA)

During the nine month period ended September 30, 2015, the terms of a certain loans were modified as troubled debt restructurings. The modification of the terms of such loans may include one or a combination of the following: a reduction of the stated interest rate of the loan to a below market rate or the payment modification to interest only. A modification involving a reduction of the stated interest rate of the loan would be for periods ranging from 6 months to 16 months. During the nine month period ended September 30, 2015, there were two TDR added in a total amount of \$0.1 million compared to the year ended December 31, 2014 in which two loans were added as TDRs in the amount of \$5.0 million. The \$5.0 million of TDRs added in 2014 were subsequently sold in the fourth quarter of 2014. During the three months ending September 30, 2015 there was one 1-4 family residential loan modified as a troubled debt restructuring with a recorded investment of \$0.1 million; compared to the same three month period ended September 30, 2014 when there were no loans modified as troubled debt restructurings. The following tables present loans by class modified as troubled debt restructurings that occurred during the nine months ending September 30, 2015 and 2014:

| | For the Nine Months Ended September 30, 2015 | | | | | |
|------------------------|--|---------------------|---------------------|--|--|--|

| 1-4 family residential | | | | | | |
| Senior lien | 2 | 127 | 127 | | | |
| Total | 2 | \$127 | \$127 | | | |

The troubled debt restructurings described above did not have a material impact to the allowance for loan losses and did not result in any additional charge-offs during the nine months ending September 30, 2015.

| | For the Nine Months Ended September 30, 2014 | | | | |
|----------------------------------|--|---------------------|---------------------|--|--|
| | Number of Loans Pre-Modification Post-Modification | | | | |

| 1-4 family residential | | | | | |
| Jr. lien & lines of credit | 1 | 34 | 34 | | |
| Total | 2 | \$5,047 | \$5,047 | | |

The troubled debt restructurings described above did not have a material impact to the allowance for loan losses and did not result in any additional charge-offs during the nine months ending September 30, 2014.

A loan is considered to be in payment default once it is 90 days contractually past due under the modified terms. In the nine months ending September 30, 2015 and the nine months ending September 30, 2014 there were no loans modified as troubled debt restructurings for which there was a payment default within twelve months following the modification.

The Company evaluates loan modifications to determine if the modification constitutes a troubled debt restructure. A loan modification constitutes a troubled debt restructure if the borrower is experiencing financial difficulty and the Company grants a concession it would not otherwise consider. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its loans with the Company's debt in the foreseeable future without the modification. This evaluation is performed under the Company's internal underwriting guidelines. TDRs are separately identified for impairment disclosures. If a loan is considered to be collateral dependent loan, the TDR is reported, net, at the fair value of the collateral.
