In addition, Constellation Energy Group, Inc. owns 100% of the stock of 46 shell, inactive subsidiaries incorporated in each state except Maryland, Ohio, Pennsylvania and Hawaii under the name Constellation Energy Group, Inc.

2. A brief description of the properties of claimant and each of its subsidiary public utility companies used for the generation, transmission, and distribution of electric energy for sale, or for the production, transmission, and distribution of natural or manufactured gas,

indicating the location of principal generating plants, transmission lines,

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form U-3A-2

producing fields, gas manufacturing plants, and electric and gas distribution facilities, including all such properties which are outside the State in which claimant and its subsidiaries are organized and all transmission or pipelines which deliver or receive electric energy or gas at the borders of such State.

Electric

Baltimore Gas and Electric Company (BGE), a subsidiary public utility of claimant, owns 1,266 miles of transmission consisting of 215 circuit miles of 500 kV lines; 319 circuit miles of 230 kV lines; 54 circuit miles of 138 kV lines and 678 circuit miles of 138 kV lines and 678 circuit miles of 115kV lines, located throughout Central Maryland.

BGE's 500 kV transmission consists of two circuits which connect to the Calvert Cliffs plant to BGE load center as well as five circuits which interconnect with and are part of the Pennsylvania - New Jersey - Maryland (PJM) 500 kV system. These circuits form a partial 500 kV transmission ring around the Baltimore metropolitan area. Additionally, the Calvert Cliffs-Chalk Point, Calvert Cliffs-Waugh Chapel, and Waugh Chapel-High Ridge circuits are part of the "500 kV Loop", a full 500 kV transmission ring around the Washington metropolitan area with several transformation points to 230 kV.

BGE's 230 kV transmission connects at two locations via transformation with the 500 kV system and at ten locations via transformation with our 115 kV network, throughout Central Maryland.

BGE owns approximately 40,405 conductor miles of distribution lines, including 19,949 conductor miles of overhead lines and 20,456 conductor miles of underground lines, throughout Central Maryland. These figures only include circuits operating at 34.5, 13.8 and 4 kV.

BGE's transmission and distribution systems are comprised of 208 company owned locations with 478 installed transformers. Total transformer capacity is approximately 30,206.3 MVA throughout Central Maryland. Beginning in 2001, BGE's transformer database expanded to include company-owned substations/transformers located in customer property. Generator step-up and other customer-owned transformers are not included in these figures.

BGE's transmission system is connected to other systems via the following transmission tie lines:

(1) two connections at the Maryland-Pennsylvania state line near Delta, PA with PECO Energy Company transmission lines.

(2) four connections with the Pennsylvania Power and Light Co. at the Maryland-Pennsylvania state line, three connections near Graceton, Md., and one near Norrisville, Md.

(3) one connection with the Metropolitan Edison Co. at the Maryland-Pennsylvania state line near Twin Farms, Md.

(4) six active connections with Potomac Electric Power Company, two near Burtonsville, Md., two near Bowie, Md., one near Mt Airy, Md., and one near Eagle Harbor, Md.

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form U-3A-2

Gas

BGE owns 9 gate stations located at various points in its service territory where natural gas is received from suppliers. Natural gas is delivered to customers through approximately 5,995 miles of mains and service lines covering 803 square miles of territory.

BGE has

- . a liquefied natural gas facility for the liquefaction and storage of natural gas with a total storage capacity of 1,075,654 Dt and a daily capacity of 287,988 Dt located at Spring Gardens, MD, and
- . a propane air facility with a total storage capacity equivalent to 545,000 Dt and a daily capacity of 85,000 Dt located at Notch Cliff, MD.

BGE's current pipeline firm transportation entitlements to serve our firm loads are 284,053 Dth per day during the winter period and 259,053 Dth during the summer period.

BGE has 235,080 Dt/day of pipeline natural gas storage entitlements.

(1) Safe Harbor Water Power Corporation (Safe Harbor)

1 Powerhouse Road
Conestoga, PA

Safe Harbor is a hydroelectric plant located on the Susquehanna River at Safe Harbor, Pennsylvania, jointly owned by Constellation Power Source Generation, Inc. (CPSG) and Pennsylvania Power & Light Holtwood ("Holtwood"). CPSG owns two-thirds of the outstanding capital stock, including one-half of the voting stock of Safe

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form U-3A-2

Harbor. It includes 14 generating units. At maximum output, the plant can generate approximately 10 million kWh of electrical energy in one day. The average yearly generation is 1,096,525,000 kWh. The total varies depending upon yearly average river flow.

The total output of Safe Harbor is supplied to co-owners Holtwood and CPSG in accordance with their ownership interest to supplement the power flow into the Pennsylvania-New Jersey-Maryland interconnection (PJM). Safe Harbor power is used primarily to meet peak demands for electricity. Continuous operation occurs when river flow equals or exceeds the plant's maximum water handling capacity of 110,000 cubic feet per second.

(2) Carr Street Generating Station L.P. (Carr Street)

225 Greenfield Parkway
Suite 201
Liverpool, NY 13088

Carr Street, which is owned by Orion Power Holdings, Inc. ("Orion"), is a natural gas fired dual combustion turbine, single steam turbine combined cycle electric generation facility that produces up to 105 gross MW of power. The facility also has the capability to fire No. 2 low sulfur fuel oil, and may produce up to 80,000 pounds per hour of process steam with a proportionate reduction in electrical power output of up to approximately 5 MW. Claimant sold all of its interest in Orion in February 2002.

(3) Erie Boulevard Hydropower, L.P. (Erie)

225 Greenfield Parkway, Suite 201
Liverpool NY 13088

Erie, which is owned by Orion Power Holdings, Inc. ("Orion"), consists of 71 hydroelectric facilities located in upper New York State, 69 of which are currently active, with 661 MWs of nominal capacity and approximately 653 MWs of effective capacity. The individual facilities are located on 20 separate rivers and streams in western and northern New York. Claimant sold all of its interest in Orion in February 2002.

25

(4) Astoria Generating Company, L.P. (Astoria)

225 Greenfield Parkway, Suite 201
Liverpool NY 13088

The Astoria facilities consist of the Astoria Generating Station and the Gowanus and Narrows combustion turbine sites. The facilities are owned by Orion Power Holdings, Inc. ("Orion"). The Astoria Generating Station has three operating gas and oil fired steam generating units, two retired steam generating units and a black-start gas turbine with an aggregate capacity of 1,090 MW. The Astoria Generating Station is located adjacent to the East River in Queens, New York. The Gowanus and Narrows combustion turbine sites are located on barges in the East River in New York City. The Gowanus site consists of 32 gas turbine units which are mounted on four floating power barges with an aggregate capacity of 494 MW. The Gowanus units burn No. 2 fuel oil or kerosene fuel. The Narrows site consists of 16 gas turbine units which are located on two floating barges with an aggregate capacity of 271 MW. The Narrows units are dual-fuel capable and can burn liquid fuel (No. 2 fuel oil or kerosene) or natural gas. Claimant sold all of its interest in Orion in February 2002.

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form U-3A-2

(5) Orion Power Midwest, L.P.

7 East Redwood Street
10/th/ Floor
Baltimore, MD 21202

These facilities consist of seven generating plants located in Ohio and Pennsylvania with a combined capacity of 2,614 MW. The facilities are owned by Orion Power Holdings, Inc. ("Orion"). Avon Lake Generating Station is a 739 MW coal-fueled plant located in Cleveland, Ohio. Brunot Island Generating Station is a 234 MW oil-fueled plant located in Pittsburgh, Pennsylvania. Cheswick Generating Station is a 570 MW coal-fueled plant located in Pittsburgh, Pennsylvania. Elrama Generating Station is a 487 MW coal-fueled plant also located in Pittsburgh, Pennsylvania. New Castle Generating Station is a 338 MW coal-fueled plant located in West Pittsburg, Pennsylvania. Niles Generating Station is a 246 MW coal-fueled plant located in Youngstown, Ohio. Claimant sold all of its interest in Orion in February 2002.

(6) Grupo Generador de Guatemala y Cia., S.C.A. ("GGG") (formerly Guatemalan Generating Group y Cia S.C.A.)

Las Margaritas, Torre II, Oficina 902-B Diagonal 6, 10-01 Zona 10
Guatemala City, Guatemala C.A. 01010

Claimant's interest in this company was sold in December 2001. Generating facilities are located on the shores of Lake Amaititlan, 32 kms outside Guatemala City, and in the Province of Escuintla, approximately 62 kms outside of Guatemala City. The

26

generating facilities consist of four turbo generating units, four steam turbines, one heat recovery boiler and one steam injection unit with an aggregate net generating capacity of approximately 80MW and 4 diesel units with a net capacity of 60MW. The generation facilities are interconnected with the Principal Transmission System, the Guatemalan wholesale transmission grid.

(7) Cos de Guatemala S.A.

Las Margaritas, Torre II, Oficina 902-B Diagonal 6, 10-01 Zona 10
Guatemala City Guatemala C.A. 01010

This entity is inactive. It provided operating services for the generating facilities owned by Grupo Generador de Guatemala y Cia S.C.A., prior to its sale by claimant.
