Form 424B3
November 10, 2005

As filed pursuant to Rule 424(b)(3)
Registration Statement File No. 333-121561

PROSPECTUS SUPPLEMENT NO. 6
DATED NOVEMBER 10, 2005

Charter Communications, Inc.

This document supplements the Prospectus, dated July 19, 2005, Prospectus Supplement No. 1, dated August 9, 2005, Prospectus Supplement No. 2, dated August 30, 2005, Prospectus Supplement No. 3, dated September 15, 2005, Prospectus Supplement No. 4, dated September 23, 2005 and Prospectus Supplement No. 5, dated October 18, 2005 (collectively, the "Prospectus"), relating to the resale by certain holders of up to \$862,500,000 aggregate principal amount of Charter Communications, Inc.'s 5.875% convertible senior notes due 2009 (the "Notes") and shares of common stock issuable upon conversion thereof.

This Prospectus Supplement relates to the resale by the holders of the Notes.

The Prospectus is hereby amended as follows:

- (1) The information contained in the attached Current Report on Form 8-K filed on November 4, 2005.
- (2) The information contained in the attached sections of the Quarterly Report on Form 10-Q filed on November 2, 2005 (Part I. Item 1-4 and Part II. Item 1 and Item 3-5).
- (3) The information appearing in the Selling Securityholder table included in this Prospectus Supplement, as of the date hereof, supersedes the information in the table appearing under the heading "Selling Securityholders" in the Prospectus.

If the information in this Prospectus Supplement is inconsistent with any information contained in the Prospectus or in the reports, proxy statements or other documents previously filed with the Securities and Exchange Commission (collectively, the "SEC Reports") incorporated by reference in the Prospectus or delivered in connection therewith, the Prospectus and/or any SEC Report, as applicable, shall be deemed superseded by this Supplement.

In all other ways, the Prospectus shall remain unchanged.

This Prospectus Supplement should be read in conjunction with, and may not be delivered or utilized without, the Prospectus.

This quarterly report on Form 10-Q is for the three and nine months ended September 30, 2005. The Securities and Exchange Commission ("SEC") allows us to "incorporate by reference" information that we file with the SEC, which means that we can disclose important information to you by referring you directly to those documents. Information incorporated by reference is considered to be part of this quarterly report. In addition, information that we file with the SEC in the future will automatically update and supersede information contained in this quarterly report. In this quarterly report, "we," "us" and "our" refer to Charter Communications, Inc., Charter Communications Holding Company, LLC and their subsidiaries.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS:

This quarterly report includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), regarding, among other things, our plans, strategies and prospects, both business and financial including, without limitation, the forward-looking statements set forth in the "Results of Operations" and "Liquidity and Capital Resources" sections under Part I, Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this quarterly report. Although we believe that our plans, intentions and expectations reflected in or suggested by these forward-looking statements are reasonable, we cannot assure you that we will achieve or realize these plans, intentions or expectations. Forward-looking statements are inherently subject to risks, uncertainties and assumptions including, without limitation, the factors described under "Certain Trends and Uncertainties" under Part I, Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this quarterly report. Many of the forward-looking statements contained in this quarterly report may be identified by the use of forward-looking words such as "believe," "expect," "anticipate," "should," "planned," "will," "may," "intend," "estimated" and "potential" among others. Important factors that could cause actual results to differ materially from the forward-looking statements we make in this quarterly report are set forth in this quarterly report and in other reports or documents that we file from time to time with the SEC, and include, but are not limited to:

- the availability, in general, of funds to meet interest payment obligations under our debt and to fund our operations and necessary capital expenditures, either through cash flows from operating activities, further borrowings or other sources and, in particular, our ability to be able to provide under applicable debt instruments such funds (by dividend, investment or otherwise) to the applicable obligor of such debt;
- our ability to sustain and grow revenues and cash flows from operating activities by offering video, high-speed Internet, telephone and other services and to maintain and grow a stable customer base, particularly in the face of increasingly aggressive competition from other service providers;
- our ability to comply with all covenants in our indentures, the Bridge Loan and credit facilities, any violation of which would result in a violation of the applicable facility or indenture and could trigger a default of other obligations under cross-default provisions;
- our ability to pay or refinance debt prior to or when it becomes due and/or to take advantage of market opportunities and market windows to refinance that debt in the capital markets through new issuances, exchange offers or otherwise, including restructuring our balance sheet and leverage position;
- our ability to obtain programming at reasonable prices or to pass programming cost increases on to our customers; general business conditions, economic uncertainty or slowdown; and
- the effects of governmental regulation, including but not limited to local franchise authorities, on our business.

All forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by this cautionary statement. We are under no duty or obligation to update any of the forward-looking statements after the date of this quarterly report.

CHARTER COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(dollars in millions, except share and per share amounts and where indicated)

1. Organization and Basis of Presentation

Charter Communications, Inc. ("Charter") is a holding company whose principal assets at September 30, 2005 are the 48% controlling common equity interest in Charter Communications Holding Company, LLC ("Charter Holdco") and "mirror" notes which are payable by Charter Holdco to Charter and have the same principal amount and terms as those of Charter's convertible senior notes. Charter Holdco is the sole owner of CCHC, LLC, which is the sole owner of Charter Communications Holdings, LLC ("Charter Holdings"). The condensed consolidated financial statements include the accounts of Charter, Charter Holdco, Charter Holdings and all of their subsidiaries where the underlying operations reside, which are collectively referred to herein as the "Company." Charter consolidates Charter Holdco on the basis of voting control. Charter Holdco's limited liability company agreement provides that so long as Charter's Class B common stock retains its special voting rights, Charter will maintain a 100% voting interest in Charter Holdco. Voting control gives Charter full authority and control over the operations of Charter Holdco. All significant intercompany accounts and transactions among consolidated entities have been eliminated. The Company is a broadband communications company operating in the United States. The Company offers its customers traditional cable video programming (analog and digital video) as well as high-speed Internet services and, in some areas, advanced broadband services such as high definition television, video on demand and telephone. The Company sells its cable video programming, high-speed Internet and advanced broadband services on a subscription basis. The Company also sells local advertising on satellite-delivered networks.

The accompanying condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the rules and regulations of the Securities and Exchange Commission (the "SEC"). Accordingly, certain information and footnote disclosures typically included in Charter's Annual Report on Form 10-K have been condensed or omitted for this quarterly report. The accompanying condensed consolidated financial statements are unaudited and are subject to review by regulatory authorities. However, in the opinion of management, such financial statements include all adjustments, which consist of only normal recurring adjustments, necessary for a fair presentation of the results for the periods presented. Interim results are not necessarily indicative of results for a full year. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Areas involving significant judgments and estimates include capitalization of labor and overhead costs; depreciation and amortization costs; impairments of property, plant and equipment, franchises and goodwill; income taxes; and contingencies. Actual results could differ from those estimates.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Areas involving significant judgments and estimates include capitalization of labor and overhead costs; depreciation and amortization costs; impairments of property, plant and equipment, franchises and goodwill; income taxes; and contingencies. Actual results could differ from those estimates.

Reclassifications

Certain 2004 amounts have been reclassified to conform with the 2005 presentation.

2. Liquidity and Capital Resources

The Company had net income applicable to common stock of \$75 million for the three months ended September 30, 2005. The Company incurred net loss applicable to common stock of \$634 million for the nine months ended September 30, 2005 and \$3.3 billion and \$4.0 billion for the three and nine months ended September 30, 2004, respectively. The Company's net cash flows from operating activities were \$118 million and \$383 million for the nine months ended September 30, 2005 and 2004, respectively.

The Company has a significant level of debt. The Company's long-term financing as of September 30, 2005 consists of \$5.5 billion of credit facility debt, \$12.7 billion accreted value of high-yield notes and \$866 million accreted value of convertible senior notes. For the remainder of 2005, \$7 million of the Company's debt matures, and in 2006, an additional \$55 million of the Company's debt matures. In 2007 and beyond, significant additional amounts will become due under the Company's remaining long-term debt obligations.

CHARTER COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(dollars in millions, except share and per share amounts and where indicated)

In September 2005, Charter Holdings and its wholly owned subsidiaries, CCH I, LLC ("CCH I") and CCH I Holdings, LLC ("CIH"), completed the exchange of approximately \$6.8 billion total principal amount of outstanding debt securities of Charter Holdings in a private placement for new debt securities. Holders of Charter Holdings notes due in 2009 and 2010 exchanged \$3.4 billion principal amount of notes for \$2.9 billion principal amount of new 11% CCH I senior secured notes due 2015. Holders of Charter Holdings notes due 2011 and 2012 exchanged \$845 million principal amount of notes for \$662 million principal amount of 11% CCH I senior secured notes due 2015. In addition, holders of Charter Holdings notes due 2011 and 2012 exchanged \$2.5 billion principal amount of notes for \$2.5 billion principal amount of various series of new CIH notes. Each series of new CIH notes has the same stated interest rate and provisions for payment of cash interest as the series of old Charter Holdings notes for which such CIH notes were exchanged. In addition, the maturities for each series were extended three years. See Note 6 for discussion of transaction and related financial statement impact.

The Company has historically required significant cash to fund debt service costs, capital expenditures and ongoing operations. Historically, the Company has funded these requirements through cash flows from operating activities, borrowings under its credit facilities, sales of assets, issuances of debt and equity securities and from cash on hand. However, the mix of funding sources changes from period to period. For the nine months ended September 30, 2005, the Company generated \$118 million of net cash flows from operating activities, after paying cash interest of \$1.2 billion. In addition, the Company used approximately \$815 million for purchases of property, plant and equipment. Finally, the Company had net cash flows used in financing activities of \$17 million.

In October 2005, CCO Holdings, LLC ("CCO Holdings") and CCO Holdings Capital Corp., as guarantor thereunder, entered into a senior bridge loan agreement (the "Bridge Loan") with JPMorgan Chase Bank, N.A., Credit Suisse, Cayman Islands Branch and Deutsche Bank AG Cayman Islands Branch (the "Lenders") whereby the Lenders have committed to make loans to CCO Holdings in an aggregate amount of \$600 million. CCO Holdings may draw upon the facility between January 2, 2006 and September 29, 2006 and the loans will mature on the sixth anniversary of the first borrowing under the Bridge Loan.

The Company expects that cash on hand, cash flows from operating activities and the amounts available under its credit facilities and Bridge Loan will be adequate to meet its cash needs for the remainder of 2005 and 2006. Cash flows from operating activities and amounts available under the Company's credit facilities and Bridge Loan may not be sufficient to fund the Company's operations and satisfy its interest payment obligations in 2007. It is likely that the Company will require additional funding to satisfy its debt repayment obligations in 2007. The Company believes that cash flows from operating activities and amounts available under its credit facilities and Bridge Loan will not be sufficient to fund its operations and satisfy its interest and principal repayment obligations thereafter.

The Company is working with its financial advisors to address its funding requirements. However, there can be no assurance that such funding will be available to the Company. Although Paul G. Allen, Charter's Chairman and controlling shareholder, and his affiliates have purchased equity from the Company in the past, Mr. Allen and his affiliates are not obligated to purchase equity from, contribute to or loan funds to the Company in the future.

Credit Facilities and Covenants

The Company's ability to operate depends upon, among other things, its continued access to capital, including credit under the Charter Communications Operating, LLC ("Charter Operating") credit facilities. These credit facilities, along with the Company's indentures and Bridge Loan, contain certain restrictive covenants, some of which require the

Company to maintain specified financial ratios and meet financial tests and to provide audited financial statements with an unqualified opinion from the Company's independent auditors. As of September 30, 2005, the Company is in compliance with the covenants under its indentures and credit facilities and the Company expects to remain in compliance with those covenants and the Bridge Loan covenants for the next twelve months. The Company's total potential borrowing availability under the current credit facilities totaled \$786 million as of September 30, 2005, although the actual availability at that time was only \$648 million because of limits imposed by covenant restrictions. In addition, effective January 2, 2006, the Company will have additional borrowing availability of \$600 million as a result of the Bridge Loan. Continued access to the Company's credit facilities and Bridge Loan is subject to the

**CHARTER COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

(dollars in millions, except share and per share amounts and where indicated)

Company remaining in compliance with the covenants of these credit facilities and Bridge Loan, including covenants tied to the Company's operating performance. If the Company's operating performance results in non-compliance with these covenants, or if any of certain other events of non-compliance under these credit facilities, Bridge Loan or indentures governing the Company's debt occur, funding under the credit facilities and Bridge Loan may not be available and defaults on some or potentially all of the Company's debt obligations could occur. An event of default under the covenants governing any of the Company's debt instruments could result in the acceleration of its payment obligations under that debt and, under certain circumstances, in cross-defaults under its other debt obligations, which could have a material adverse effect on the Company's consolidated financial condition or results of operations.

Specific Limitations

Charter's ability to make interest payments on its convertible senior notes, and, in 2006 and 2009, to repay the outstanding principal of its convertible senior notes of \$25 million and \$863 million, respectively, will depend on its ability to raise additional capital and/or on receipt of payments or distributions from Charter Holdco or its subsidiaries, including Charter Holdings, CIH, CCH I, CCH II, LLC ("CCH II"), CCO Holdings and Charter Operating. During the nine months ended September 30, 2005, Charter Holdings distributed \$60 million to Charter Holdco. As of September 30, 2005, Charter Holdco was owed \$57 million in intercompany loans from its subsidiaries, which amount was available to pay interest and principal on Charter's convertible senior notes. In addition, Charter has \$123 million of governmental securities pledged as security for the next five semi-annual interest payments on Charter's 5.875% convertible senior notes.

Distributions by Charter's subsidiaries to a parent company (including Charter and Charter Holdco) for payment of principal on parent company notes are restricted by the Bridge Loan and indentures governing the CIH notes, CCH I notes, CCH II notes, CCO Holdings notes, and Charter Operating notes, unless under their respective indentures there is no default and a specified leverage ratio test is met at the time of such event. For the quarter ended September 30, 2005, there was no default under any of the aforementioned indentures. However, CCO Holdings did not meet its leverage ratio test of 4.5 to 1.0. As a result, distributions from CCO Holdings to CCH II, CCH I, CIH, Charter Holdings, Charter Holdco or Charter for payment of principal of the respective parent company's debt are currently restricted and will continue to be restricted until that test is met. However distributions for payment of the respective parent company's interest are permitted.

The indentures governing the Charter Holdings notes permit Charter Holdings to make distributions to Charter Holdco for payment of interest or principal on the convertible senior notes, only if, after giving effect to the distribution, Charter Holdings can incur additional debt under the leverage ratio of 8.75 to 1.0, there is no default under Charter Holdings' indentures and other specified tests are met. For the quarter ended September 30, 2005, there was no default under Charter Holdings' indentures and other specified tests were met. However, Charter Holdings did not meet the leverage ratio of 8.75 to 1.0 based on September 30, 2005 financial results. As a result, distributions from Charter Holdings to Charter or Charter Holdco for payment of interest or principal on the convertible senior notes are currently restricted and will continue to be restricted until that test is met. During this restriction period, the indentures governing the Charter Holdings notes permit Charter Holdings and its subsidiaries to make specified investments in Charter Holdco or Charter, up to an amount determined by a formula, as long as there is no default under the indentures.

3. Sale of Assets

In July 2005, the Company closed the sale of certain cable systems in Texas and West Virginia and closed the sale of an additional cable system in Nebraska in October 2005, representing a total of approximately 33,000 customers. During the nine months ended September 30, 2005, those cable systems met the criteria for assets held for sale under Statement of Financial Accounting Standards ("SFAS") No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. As such, the assets were written down to fair value less estimated costs to sell resulting in asset impairment charges during the nine months ended September 30, 2005 of approximately \$39 million. At September 30, 2005 assets held for sale, included in investment in cable properties, are approximately \$7 million.

CHARTER COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(dollars in millions, except share and per share amounts and where indicated)

In March 2004, the Company closed the sale of certain cable systems in Florida, Pennsylvania, Maryland, Delaware and West Virginia to Atlantic Broadband Finance, LLC. The Company closed the sale of an additional cable system in New York to Atlantic Broadband Finance, LLC in April 2004. These transactions resulted in a \$106 million pretax gain recorded as a gain on sale of assets in the Company's consolidated statements of operations. The total net proceeds from the sale of all of these systems were approximately \$735 million. The proceeds were used to repay a portion of amounts outstanding under the Company's revolving credit facility.

Gain on investments for the nine months ended September 30, 2005 primarily represents a gain realized on an exchange of the Company's interest in an equity investee for an investment in a larger enterprise.

4. Franchises and Goodwill

Franchise rights represent the value attributed to agreements with local authorities that allow access to homes in cable service areas acquired through the purchase of cable systems. Management estimates the fair value of franchise rights at the date of acquisition and determines if the franchise has a finite life or an indefinite-life as defined by SFAS No. 142, *Goodwill and Other Intangible Assets*. Franchises that qualify for indefinite-life treatment under SFAS No. 142 are tested for impairment annually each October 1 based on valuations, or more frequently as warranted by events or changes in circumstances. Such test resulted in a total franchise impairment of approximately \$3.3 billion during the third quarter of 2004. The October 1, 2005 annual impairment test will be finalized in the fourth quarter of 2005 and any impairment resulting from such test will be recorded in the fourth quarter. Franchises are aggregated into essentially inseparable asset groups to conduct the valuations. The asset groups generally represent geographic clustering of the Company's cable systems into groups by which such systems are managed. Management believes such grouping represents the highest and best use of those assets.

The Company's valuations, which are based on the present value of projected after tax cash flows, result in a value of property, plant and equipment, franchises, customer relationships and its total entity value. The value of goodwill is the difference between the total entity value and amounts assigned to the other assets.

Franchises, for valuation purposes, are defined as the future economic benefits of the right to solicit and service potential customers (customer marketing rights), and the right to deploy and market new services such as interactivity and telephone to the potential customers (service marketing rights). Fair value is determined based on estimated discounted future cash flows using assumptions consistent with internal forecasts. The franchise after-tax cash flow is calculated as the after-tax cash flow generated by the potential customers obtained and the new services added to those customers in future periods. The sum of the present value of the franchises' after-tax cash flow in years 1 through 10 and the continuing value of the after-tax cash flow beyond year 10 yields the fair value of the franchise.

The Company follows the guidance of Emerging Issues Task Force ("EITF") Issue 02-17, *Recognition of Customer Relationship Intangible Assets Acquired in a Business Combination*, in valuing customer relationships. Customer relationships, for valuation purposes, represent the value of the business relationship with existing customers and are calculated by projecting future after-tax cash flows from these customers including the right to deploy and market additional services such as interactivity and telephone to these customers. The present value of these after-tax cash flows yields the fair value of the customer relationships. Substantially all acquisitions occurred prior to January 1, 2002. The Company did not record any value associated with the customer relationship intangibles related to those acquisitions. For acquisitions subsequent to January 1, 2002 the Company did assign a value to the customer relationship intangible, which is amortized over its estimated useful life.

In September 2004, the SEC staff issued EITF Topic D-108 which requires the direct method of separately valuing all intangible assets and does not permit goodwill to be included in franchise assets. The Company adopted Topic D-108 in its impairment assessment as of September 30, 2004 that resulted in a total franchise impairment of approximately \$3.3 billion. The Company recorded a cumulative effect of accounting change of \$765 million (approximately \$875 million before tax effects of \$91 million and minority interest effects of \$19 million) for the nine months ended September 30, 2004 representing the portion of the Company's total franchise impairment attributable to no longer including goodwill with franchise assets. The effect of the adoption was to increase net loss and loss per share by

CHARTER COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(dollars in millions, except share and per share amounts and where indicated)

\$765 million and \$2.55, respectively, for the nine months ended September 30, 2004. The remaining \$2.4 billion of the total franchise impairment was attributable to the use of lower projected growth rates and the resulting revised estimates of future cash flows in the Company's valuation, and was recorded as impairment of franchises in the Company's accompanying consolidated statements of operations for the nine months ended September 30, 2004. Sustained analog video customer losses by the Company in the third quarter of 2004 primarily as a result of increased competition from direct broadcast satellite providers and decreased growth rates in the Company's high-speed Internet customers in the third quarter of 2004, in part, as a result of increased competition from digital subscriber line service providers led to the lower projected growth rates and the revised estimates of future cash flows from those used at October 1, 2003.

As of September 30, 2005 and December 31, 2004, indefinite-lived and finite-lived intangible assets are presented in the following table:

	September 30, 2005			December 31, 2004		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Indefinite-lived intangible assets:						
Franchises with indefinite lives	\$ 9,797	\$ --	\$ 9,797	\$ 9,845	\$ --	\$ 9,845
Goodwill	52	--	52	52	--	52
	\$ 9,849	\$ --	\$ 9,849	\$ 9,897	\$ --	\$ 9,897
Finite-lived intangible assets:						
Franchises with finite lives	\$ 40	\$ 7	\$ 33	\$ 37	\$ 4	\$ 33

Franchises with indefinite lives decreased \$39 million as a result of the asset impairment charges recorded related to three cable asset sales and \$9 million as a result of the closing of two of the cable asset sales in July 2005 (see Note 3). Franchise amortization expense for the three and nine months ended September 30, 2005 and 2004 was \$1 million and \$3 million, respectively, which represents the amortization relating to franchises that did not qualify for indefinite-life treatment under SFAS No. 142, including costs associated with franchise renewals. The Company expects that amortization expense on franchise assets will be approximately \$3 million annually for each of the next five years. Actual amortization expense in future periods could differ from these estimates as a result of new intangible asset acquisitions or divestitures, changes in useful lives and other relevant factors.

5. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of the following as of September 30, 2005 and December 31, 2004:

	September 30, 2005	December 31, 2004
Accounts payable - trade	\$ 84	\$ 148

Accrued capital expenditures	101	65
Accrued expenses:

(UNAUDITED)

(dollars in millions, except share and per share amounts and where indicated)

The accreted values presented above represent the principal amount of the notes less the original issue discount at the time of sale plus the accretion to the balance sheet date. The accreted value of CIH notes and CCH I notes issued in exchange for Charter Holdings notes are recorded in accordance with generally accepted accounting principles ("GAAP"). GAAP requires that the CIH notes issued in exchange for Charter Holdings notes and the CCH I notes issued in exchange for the 8.625% Charter Holdings notes due 2009 be recorded at the historical book values of the Charter Holdings notes as opposed to the current accreted value for legal purposes and notes indenture purposes (the amount that is currently payable if the debt becomes immediately due). As of September 30, 2005, the accreted value of the Company's debt for legal purposes and notes indenture purposes is \$18.6 billion.

In October 2005, CCO Holdings and CCO Holdings Capital Corp., as guarantor thereunder, entered into the Bridge Loan with the Lenders whereby the Lenders have committed to make loans to CCO Holdings in an aggregate amount of \$600 million. CCO Holdings may draw upon the facility between January 2, 2006 and September 29, 2006 and the loans will mature on the sixth anniversary of the first borrowing under the Bridge Loan. Each loan will accrue interest at a rate equal to an adjusted LIBOR rate plus a spread. The spread will initially be 450 basis points and will increase (a) by an additional 25 basis points at the end of the six-month period following the date of the first borrowing, (b) by an additional 25 basis points at the end of each of the next two subsequent three month periods and (c) by 62.5 basis points at the end of each of the next two subsequent three-month periods. CCO Holdings will be required to prepay loans from the net proceeds from (i) the issuance of equity or incurrence of debt by Charter and its subsidiaries, with certain exceptions, and (ii) certain asset sales (to the extent not used for other purposes permitted under the Bridge Loan).

In August 2005, CCO Holdings issued \$300 million in debt securities, the proceeds of which were used for general corporate purposes, including the payment of distributions to its parent companies, including Charter Holdings, to pay interest expense.

Gain (loss) on extinguishment of debt

In September 2005, Charter Holdings and its wholly owned subsidiaries, CCH I and CIH, completed the exchange of approximately \$6.8 billion total principal amount of outstanding debt securities of Charter Holdings in a private placement for new debt securities. Holders of Charter Holdings notes due in 2009 and 2010 exchanged \$3.4 billion principal amount of notes for \$2.9 billion principal amount of new 11% CCH I senior secured notes due 2015. Holders of Charter Holdings notes due 2011 and 2012 exchanged \$845 million principal amount of notes for \$662 million principal amount of 11% CCH I senior secured notes due 2015. In addition, holders of Charter Holdings notes due 2011 and 2012 exchanged \$2.5 billion principal amount of notes for \$2.5 billion principal amount of various series of new CIH notes. Each series of new CIH notes has the same stated interest rate and provisions for payment of cash interest as the series of old Charter Holdings notes for which such CIH notes were exchanged. In addition, the maturities for each series were extended three years. The exchanges resulted in a net gain on extinguishment of debt of approximately \$490 million for the three and nine months ended September 30, 2005.

In March and June 2005, Charter Operating consummated exchange transactions with a small number of institutional holders of Charter Holdings 8.25% senior notes due 2007 pursuant to which Charter Operating issued, in private placements, approximately \$333 million principal amount of new notes with terms identical to Charter Operating's 8.375% senior second lien notes due 2014 in exchange for approximately \$346 million of the Charter Holdings 8.25% senior notes due 2007. The exchanges resulted in gain on extinguishment of debt of approximately \$10 million for the nine months ended September 30, 2005. The Charter Holdings notes received in the exchange were thereafter

distributed to Charter Holdings and cancelled.

During the nine months ended September 30, 2005, the Company repurchased, in private transactions, from a small number of institutional holders, a total of \$131 million principal amount of its 4.75% convertible senior notes due 2006. These transactions resulted in a net gain on extinguishment of debt of approximately \$4 million for the nine months ended September 30, 2005.

CHARTER COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(dollars in millions, except share and per share amounts and where indicated)

In March 2005, Charter's subsidiary, CC V Holdings, LLC, redeemed all of its 11.875% notes due 2008, at 103.958% of principal amount, plus accrued and unpaid interest to the date of redemption. The total cost of redemption was approximately \$122 million and was funded through borrowings under the Charter Operating credit facilities. The redemption resulted in a loss on extinguishment of debt for the nine months ended September 30, 2005 of approximately \$5 million. Following such redemption, CC V Holdings, LLC and its subsidiaries (other than non-guarantor subsidiaries) guaranteed the Charter Operating credit facilities and granted a lien on all of their assets as to which a lien can be perfected under the Uniform Commercial Code by the filing of a financing statement.

7. Minority Interest and Equity Interest of Charter Holdco

Charter is a holding company whose primary assets are a controlling equity interest in Charter Holdco, the indirect owner of the Company's cable systems, and \$866 million and \$990 million at September 30, 2005 and December 31, 2004, respectively, of mirror notes that are payable by Charter Holdco to Charter and have the same principal amount and terms as those of Charter's convertible senior notes. Minority interest on the Company's consolidated balance sheets as of September 30, 2005 and December 31, 2004 primarily represents preferred membership interests in CC VIII, LLC ("CC VIII"), an indirect subsidiary of Charter Holdco, of \$665 million and \$656 million, respectively. As more fully described in Note 20, this preferred interest arises from the approximately \$630 million of preferred membership units issued by CC VIII in connection with an acquisition in February 2000 and was the subject of a dispute between Charter and Mr. Allen, Charter's Chairman and controlling shareholder that was settled October 31, 2005. The Company is currently determining the impact of the settlement to be recorded in the fourth quarter of 2005. Due to the uncertainties that existed prior to October 31, 2005, related to the ultimate resolution, effective January 1, 2005, the Company ceased recognizing minority interest in earnings or losses of CC VIII for financial reporting purposes until such time as the resolution of the matter was determinable or other events occurred. For the three and nine months ended September 30, 2005, the Company's results include income of \$8 million and \$25 million, respectively, attributable to CC VIII. Subsequent to recording the impact of the settlement in the fourth quarter of 2005, approximately 6% of CC VIII's income will be allocated to minority interest.

Minority interest historically included the portion of Charter Holdco's member's equity not owned by Charter. However, members' deficit of Charter Holdco was \$5.0 billion and \$4.4 billion as of September 30, 2005 and December 31, 2004, respectively, thus minority interest in Charter Holdco has been eliminated. Minority interest was approximately 52% as of September 30, 2005 and 53% as of December 31, 2004. Minority interest includes the proportionate share of changes in fair value of interest rate derivative agreements. Such amounts are temporary as they are contractually scheduled to reverse over the life of the underlying instrument. Additionally, reported losses allocated to minority interest on the consolidated statement of operations are limited to the extent of any remaining minority interest on the balance sheet related to Charter Holdco. As such, Charter absorbs all losses before income taxes that otherwise would be allocated to minority interest. Subject to any changes in Charter Holdco's capital structure, future losses will continue to be absorbed by Charter.

Changes to minority interest consist of the following:

	Minority Interest	
Balance, December 31, 2004	\$	648
CC VIII 2% Priority Return (see Note 20)		9

Changes in fair value of interest rate agreements		8
Balance, September 30, 2005	\$	665

**CHARTER COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

(dollars in millions, except share and per share amounts and where indicated)

8. Share Lending Agreement

On July 29, 2005, Charter issued 27.2 million shares of Class A common stock in a public offering, which was effected pursuant to an effective registration statement that initially covered the issuance and sale of up to 150 million shares of Class A common stock. The shares were issued pursuant to the share lending agreement, pursuant to which Charter had previously agreed to loan up to 150 million shares to Citigroup Global Markets Limited ("CGML"). Because less than the full 150 million shares covered by the share lending agreement were sold in the offering, Charter remains obligated to issue, at CGML's request, up to an additional 122.8 million loaned shares in subsequent registered public offerings pursuant to the share lending agreement.

This offering of Charter's Class A common stock was conducted to facilitate transactions by which investors in Charter's 5.875% convertible senior notes due 2009, issued on November 22, 2004, hedged their investments in the convertible senior notes. Charter did not receive any of the proceeds from the sale of this Class A common stock. However, under the share lending agreement, Charter received a loan fee of \$.001 for each share that it lends to CGML.

The issuance of up to a total of 150 million shares of common stock (of which 27.2 million were issued in July 2005) pursuant to a share lending agreement executed by Charter in connection with the issuance of the 5.875% convertible senior notes in November 2004 is essentially analogous to a sale of shares coupled with a forward contract for the reacquisition of the shares at a future date. An instrument that requires physical settlement by repurchase of a fixed number of shares in exchange for cash is considered a forward purchase instrument. While the share lending agreement does not require a cash payment upon return of the shares, physical settlement is required (i.e., the shares borrowed must be returned at the end of the arrangement.) The fair value of the 27.2 million shares lent in July 2005 is approximately \$41 million as of September 30, 2005. However, the net effect on shareholders' deficit of the shares lent in July pursuant to the share lending agreement, which includes Charter's requirement to lend the shares and the counterparties' requirement to return the shares, is de minimis and represents the cash received upon lending of the shares and is equal to the par value of the common stock to be issued.

9. Comprehensive Income (Loss)

Certain marketable equity securities are classified as available-for-sale and reported at market value with unrealized gains and losses recorded as accumulated other comprehensive income (loss) on the accompanying condensed consolidated balance sheets. Additionally, the Company reports changes in the fair value of interest rate agreements designated as hedging the variability of cash flows associated with floating-rate debt obligations, that meet the effectiveness criteria of SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, in accumulated other comprehensive income (loss), after giving effect to the minority interest share of such gains and losses. Comprehensive income for the three months ended September 30, 2005 was \$77 million and comprehensive loss for the three months ended September 30, 2004 was \$3.3 billion and was \$627 million and \$4.0 billion for the nine months ended September 30, 2005 and 2004, respectively.

10. Accounting for Derivative Instruments and Hedging Activities

The Company uses interest rate risk management derivative instruments, such as interest rate swap agreements and interest rate collar agreements (collectively referred to herein as interest rate agreements) to manage its interest costs.

The Company's policy is to manage interest costs using a mix of fixed and variable rate debt. Using interest rate swap agreements, the Company has agreed to exchange, at specified intervals through 2007, the difference between fixed and variable interest amounts calculated by reference to an agreed-upon notional principal amount. Interest rate collar agreements are used to limit the Company's exposure to and benefits from interest rate fluctuations on variable rate debt to within a certain range of rates.

The Company does not hold or issue derivative instruments for trading purposes. The Company does, however, have certain interest rate derivative instruments that have been designated as cash flow hedging instruments. Such

CHARTER COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(dollars in millions, except share and per share amounts and where indicated)

instruments effectively convert variable interest payments on certain debt instruments into fixed payments. For qualifying hedges, SFAS No. 133 allows derivative gains and losses to offset related results on hedged items in the consolidated statement of operations. The Company has formally documented, designated and assessed the effectiveness of transactions that receive hedge accounting. For the three months ended September 30, 2005 and 2004, net gain (loss) on derivative instruments and hedging activities includes gains of \$1 million and \$1 million, respectively, and for the nine months ended September 30, 2005 and 2004, net gain (loss) on derivative instruments and hedging activities includes gains of \$2 million and \$3 million, respectively, which represent cash flow hedge ineffectiveness on interest rate hedge agreements arising from differences between the critical terms of the agreements and the related hedged obligations. Changes in the fair value of interest rate agreements designated as hedging instruments of the variability of cash flows associated with floating-rate debt obligations that meet the effectiveness criteria of SFAS No. 133 are reported in accumulated other comprehensive loss. For the three months ended September 30, 2005 and 2004, a gain of \$5 million and \$2 million, respectively, and for the nine months ended September 30, 2005 and 2004, a gain of \$14 million and \$31 million, respectively, related to derivative instruments designated as cash flow hedges, was recorded in accumulated other comprehensive income (loss) and minority interest. The amounts are subsequently reclassified into interest expense as a yield adjustment in the same period in which the related interest on the floating-rate debt obligations affects earnings (losses).

Certain interest rate derivative instruments are not designated as hedges as they do not meet the effectiveness criteria specified by SFAS No. 133. However, management believes such instruments are closely correlated with the respective debt, thus managing associated risk. Interest rate derivative instruments not designated as hedges are marked to fair value, with the impact recorded as gain (loss) on derivative instruments and hedging activities in the Company's condensed consolidated statements of operations. For the three months ended September 30, 2005 and 2004, net gain (loss) on derivative instruments and hedging activities includes gains of \$16 million and losses of \$9 million, respectively, and for the nine months ended September 30, 2005 and 2004, net gain (loss) on derivative instruments and hedging activities includes gains of \$41 million and \$45 million, respectively, for interest rate derivative instruments not designated as hedges.

As of September 30, 2005 and December 31, 2004, the Company had outstanding \$2.1 billion and \$2.7 billion and \$20 million and \$20 million, respectively, in notional amounts of interest rate swaps and collars, respectively. The notional amounts of interest rate instruments do not represent amounts exchanged by the parties and, thus, are not a measure of exposure to credit loss. The amounts exchanged are determined by reference to the notional amount and the other terms of the contracts.

Certain provisions of the Company's 5.875% convertible senior notes issued in November 2004 were considered embedded derivatives for accounting purposes and were required to be accounted for separately from the convertible senior notes. In accordance with SFAS No. 133, these derivatives are marked to market with gains or losses recorded in interest expense on the Company's condensed consolidated statement of operations. For the three and nine months ended September 30, 2005, the Company recognized losses of \$1 million and gains of \$26 million, respectively. The loss resulted in an increase in interest expense whereas the gain resulted in a reduction in interest expense related to these derivatives. At September 30, 2005 and December 31, 2004, \$2 million and \$10 million, respectively, is recorded in accounts payable and accrued expenses relating to the short-term portion of these derivatives and \$3 million and \$21 million, respectively, is recorded in other long-term liabilities related to the long-term portion.
