Investment Adviser

MORGAN STANLEY INDIA INVESTMENT FUND, INC.

Overview

Letter to Stockholders

For the year ended December 31, 2002, the Morgan Stanley India Investment Fund, Inc. (the "Fund") had a total return, based on net asset value per share of 13.94% compared to 7.50% for the U.S. dollar adjusted Bombay Stock Exchange (BSE) National Index (the "Index"). On December 31, 2002, the closing price of the Fund's shares on the New York Stock Exchange was \$9.94, representing a 17.0% discount to the Fund's net asset value per share.

MARKET REVIEW

It's now a well publicized fact that 2002 was one of the worst years for global equities in the post World War II period and further extended the misery streak that's been in place for equities since early 2000. Global equities ended the 2002 year down 20.5% in U.S. dollar terms, as measured by the Morgan Stanley Capital International Index (MSCI). Not a single major developed market came close to generating positive returns for the year. Only 15 out of the 50 markets tracked worldwide by the MSCI ended 2002 in positive territory and 14 of them were emerging markets.

Indeed, India was one of the very few equity markets (albeit ever so slightly) to generate positive returns. Emerging markets investing showed signs of returning to the days when country-specific factors played the most important role in differentiating performance. However, markets globally remained tightly correlated and it required a strong domestic policy impulse for the country effect to outweigh the overarching negative global effect. Accordingly, markets of the Czech Republic, Indonesia, Thailand and Hungary were among the best performing markets in the world, all powered by a meaningful domestic economic reform story.

India's better than usual effort in carrying through with its privatization drive was probably the main reason for the market's outperformance over the past year. Privatization plays both rallied significantly and kept interest in the broader market alive. Investors were also impressed by the solidity of the Indian outsourcing model. The relatively strong business performance of the Indian technology sector in an otherwise challenging global environment was widely appreciated.

We were able to position the Fund well to capture such themes. We are also happy to note that the Fund's outperformance for the year was not driven by just one or two powerful trends as this creates problems for the future when the particular trends inevitably exhaust.

One of the biggest contributors to the Fund's performance was the long-term

Edgar Filing: MORGAN STANLEY DEAN WITTER INDIA INVESTMENT - Form N-30D

overweight in financials, led by one of the major banks in India. A number of proximate causes given to the run in banking stocks were ranging from new legislation on bad loans recovery to declining interest rates. Our view for quite sometime has been that the banking sector in India is underrepresented in the Indian market, especially when compared to the structure of other emerging markets and despite the presence of increasingly profitable institutions. It was always just a matter of time before such an anomaly would be corrected and that time has come.

MARKET OUTLOOK

With the focus returning to country-specific factors, such as reform impulses, the focus with regard to India will be based more than ever on policy statements, principally the "Budget" speech. The other story worth tracking is the recovery one. With the country's drought well behind us and record low real interest rates in place, there is ample scope for at least a cyclical recovery.

OTHER DEVELOPMENTS

In our ongoing efforts to reduce Fund expenses, the Fund will discontinue the distribution of first and third quarter stockholder reports. The Fund will continue to produce and distribute semi-annual and annual stockholder reports. Additionally, the Fund's portfolio holdings information that was contained in the first and third quarter reports will be available on our web site, which is www.morganstanley.com/im, beginning in May of 2003. If you have difficulty accessing or navigating the site, or if you would like us to send you a copy of the portfolio holdings, please call us at 1-800-221-6726 and we will be happy to assist you.

On February 12, 2003, Barton M. Biggs resigned as Director and Chairman of the Board of Directors of the Fund. On that same day, Mitch Merin, President and Chief Operating Officer of the Adviser, was elected by the Fund's Board of Directors to serve as a Director and Chairman of the Board of Directors of the Fund.

Sincerely,

/s/ Ronald E. Robison

Ronald E. Robison
President and Director

(1) Assumes dividends and distributions, if any, were reinvested.

(2) Total investment return based on net asset value per share reflects the effects of changes in net asset value on the performance of the Fund during each period, and assumes dividends and distributions, if any, were reinvested. Total returns do not reflect the deduction of taxes that a stockholder would pay on Fund distributions or the redemption of fund shares. These percentages are not an indication of the performance of a stockholder's investment in the Fund based on market value due to differences between the market price of the stock and the net asset value per share of the Fund.

(3) The Bombay Stock Exchange (BSE) National Index is a market capitalization weighted index of 100 companies expressed in U.S. dollar terms.

* The Fund commenced operations on February 25, 1994.

FOREIGN INVESTING INVOLVES CERTAIN RISKS, INCLUDING CURRENCY FLUCTUATIONS AND CONTROLS, RESTRICTIONS ON FOREIGN INVESTMENTS, LESS GOVERNMENTAL SUPERVISION AND REGULATION, LESS LIQUIDITY AND THE POTENTIAL FOR MARKET VOLATILITY AND POLITICAL INSTABILITY. IN ADDITION, INVESTING IN EMERGING MARKETS MAY INVOLVE A RELATIVELY HIGHER DEGREE OF VOLATILITY.

MORGAN STANLEY INDIA INVESTMENT FUND, INC.

December 31, 2002

Notes to Financial Statements

The Morgan Stanley India Investment Fund, Inc. (the "Fund") was incorporated in Maryland on December 22, 1993, and is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's investment objective is long-term capital appreciation through investments primarily in equity securities.

A. ACCOUNTING POLICIES: The following significant accounting policies are in conformity with accounting principles generally accepted in the United States of America. Such policies are consistently followed by the Fund in the preparation of its financial statements. Accounting principles generally accepted in the United States of America may require management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results may differ from those estimates.

1. SECURITY VALUATION: In valuing the Fund's assets, all listed securities for which market quotations are readily available are valued at the last sales price on the valuation date, or if there was no sale on such date, at the mean between the current bid and asked prices. Securities which are traded over-the-counter are valued at the mean of current bid and asked prices obtained from brokers. Short-term securities which mature in 60 days or less are valued at amortized cost. For all other securities and investments for which market values are not readily available, including restricted securities, and where prices determined in accordance with the aforementioned procedures are not reflective of fair market value, values are determined in good faith, under fair valuation procedures adopted by the Board of Directors, although actual calculations may be done by others. Due to the Indian securities market's smaller size, degree of liquidity and volatility, the prices which the Fund may realize upon sale of securities

Edgar Filing: MORGAN STANLEY DEAN WITTER INDIA INVESTMENT - Form N-30D

may not be equal to the value presented in the financial statements.

2. **REPURCHASE AGREEMENTS:** The Fund may enter into repurchase agreements under which the Fund lends excess cash and takes possession of securities with an agreement that the counterparty will repurchase such securities. In connection with transactions in repurchase agreements, a bank as custodian for the Fund takes possession of the underlying securities (collateral), with a market value at least equal to the amount of the repurchase transaction, including principal and accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to determine the adequacy of the collateral. In the event of default on the obligation to repurchase, the Fund has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event of default or bankruptcy by the counterparty to the agreement, realization and/or retention of the collateral or proceeds may be subject to legal proceedings.

The Fund, along with other affiliated investment companies, may utilize a joint trading account for the purpose of entering into one or more repurchase agreements.

3. **FOREIGN CURRENCY TRANSLATION:** The books and records of the Fund are maintained in U.S. dollars. Amounts denominated in Indian rupees are translated into U.S. dollars at the mean of the bid and asked prices of such currency against U.S. dollars last quoted by a major bank as follows:
 - investments, other assets and liabilities at the prevailing rate of exchange on the valuation date;
 - investment transactions and investment income at the prevailing rate of exchange on the dates of such transactions.

Although the net assets of the Fund are presented at the foreign exchange rate and market values at the close of the period, the Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rate from the fluctuations arising from changes in the market prices of the securities held at period end. Similarly, the Fund does not isolate the effect of changes in the foreign exchange rate from the fluctuations arising from changes in the market prices of securities sold during the period. Accordingly, realized and unrealized foreign currency gains (losses) due to securities transactions are included in the reported net realized and unrealized gains (losses) on investment transactions and balances.

Net realized gains (losses) on foreign currency transactions represent net foreign exchange gains (losses) from sales and maturities of foreign currency exchange contracts, disposition of foreign currency, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amount of investment income and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized currency gains (losses) from valuing foreign currency denominated assets and liabilities at period end

9

MORGAN STANLEY INDIA INVESTMENT FUND, INC.

December 31, 2002

Notes to Financial Statements (cont'd)

exchange rates are reflected as a component of unrealized appreciation (depreciation) on investments and foreign currency translations in the Statement of Net Assets. The change in unrealized currency gains (losses) on foreign currency translations for the period is reflected in the Statement of Operations.

A significant portion of the Fund's net assets consist of Indian securities which involve certain considerations and risks not typically associated with investments in the United States. In addition to its smaller size, less liquidity and greater volatility, the Indian securities market is less developed than the U.S. securities market and there is often substantially less publicly available information about Indian issuers than there is about U.S. issuers. Settlement mechanisms are also less developed and are accomplished, in certain cases, only through physical delivery, which may cause the Fund to experience delays or other difficulties in effecting transactions.

The Fund may use derivatives to achieve its investment objectives. The Fund may engage in transactions in futures contracts on foreign currencies, stock indices, as well as in options, swaps and structured notes. Consistent with the Fund's investment objectives and policies, the Fund may use derivatives for non-hedging as well as hedging purposes.

Following is a description of derivative instruments that the Fund has utilized and their associated risks:

4. FOREIGN CURRENCY EXCHANGE CONTRACTS: The Fund may enter into foreign currency exchange contracts generally to attempt to protect securities and related receivables and payables against changes in future foreign exchange rates and, in certain situations, to gain exposure to a foreign currency. A foreign currency exchange contract is an agreement between two parties to buy or sell currency at a set price on a future date. The market value of the contract will fluctuate with changes in currency exchange rates. The contract is marked-to-market daily and the change in market value is recorded by the Fund as unrealized gain or loss. The Fund records realized gains or losses when the contract is closed equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Risk may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and is generally limited to the amount of unrealized gain on the contracts, if any, at the date of default. Risks may also arise from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.
5. OTHER: Security transactions are accounted for on the date the securities are purchased or sold. Investments in new Indian securities are made by making applications in the public offerings. The issue price, or a portion thereof, is paid at the time of application and reflected as share application money on the Statement of Net Assets. Upon allotment of the securities, this amount plus any remaining amount of issue price is recorded as cost of investments. Realized gains and losses on the sale of investment securities are determined on the specific identified cost basis. Interest income is recognized on an accrual basis. Dividend income is recorded on the ex-dividend date (except certain dividends which may be recorded as soon as the Fund is informed of such dividends) net of applicable withholding taxes, if any. Distributions to stockholders are recorded on the ex-dividend date.

B. ADVISER: Morgan Stanley Investment Management Inc. (the "Adviser") provides investment advisory services to the Fund under the terms of an Investment Advisory and Management Agreement (the "Agreement"). Under the Agreement, the

Edgar Filing: MORGAN STANLEY DEAN WITTER INDIA INVESTMENT - Form N-30D

Adviser is paid a fee computed weekly and payable monthly at an annual rate of 1.10% of the Fund's average weekly net assets.

C. ADMINISTRATOR: JPMorgan Chase Bank, through its corporate affiliate J.P. Morgan Investor Services Co. (the "Administrator"), provides administrative services to the Fund under an Administration Agreement. Under the old Administration Agreement, effective through September 30, 2002, the Administrator was paid a fee computed weekly and payable monthly at an annual rate of 0.09% of the Fund's average weekly net assets, plus \$65,000 per annum. Effective October 1, 2002, under the new Administration Agreement, the Administrator is paid a fee computed weekly and payable monthly at an annual rate of 0.02435% of the Fund's average weekly net assets, plus \$24,000 per annum. In addition, the Fund is charged for certain out-of-pocket expenses incurred by the Administrator on its behalf.

Multiconsult, Ltd., whose registered office is in Mauritius, provides sub-administrative services to the Fund, including maintaining certain Fund records and preparing certain periodic filings, under an agreement whereby Multiconsult is paid a fee of \$22,000 per annum.

10

MORGAN STANLEY INDIA INVESTMENT FUND, INC.

December 31, 2002

Notes to Financial Statements (cont'd)

D. CUSTODIAN: JPMorgan Chase Bank serves as custodian for the Fund. Custody fees are payable monthly based on assets held in custody, investment purchase and sales activity and account maintenance fees, plus reimbursement for certain out-of-pocket expenses.

E. FEDERAL INCOME TAXES: It is the Fund's intention to continue to qualify as a regulated investment company and distribute all its taxable income. Accordingly, no provision for Federal income taxes is required in the financial statements. Dividend income and distributions to stockholders are recorded on the ex-dividend date.

The rate of capital gains tax in India is 10.5% for long-term investments and 31.5% for short-term investments (the capital gains rates were 10% and 30%, respectively, prior to April 1, 2002). The Fund invests in India through a registered branch office established in Mauritius and, as a result, obtains the benefits under the double taxation treaty between Mauritius and India ("Treaty"). To obtain benefits under the double taxation treaty the Fund must meet certain tests and conditions, including the establishment of Mauritius tax residence and related requirements. The Fund has obtained a tax residence certification from the Mauritian authorities and believes such certification is determinative of its resident status for treaty purposes. A fund which is tax resident in Mauritius under the treaty but has no branch or permanent establishment in India will not be subject to capital gains tax in India on the sale of securities. The Fund is subject to and accrues Indian withholding tax on dividend and interest earned on Indian securities at the rate of 15% and 21%, respectively.

The Treaty benefit accorded to foreign investors has been challenged by a non-governmental organization and the matter is currently being litigated before India's Supreme Court (the highest court in India) after an unfavorable ruling by the Delhi High Court in May 2002. While the outcome of this litigation is uncertain, an unfavorable ruling by India's Supreme Court denying the benefits of the Treaty to foreign investors would materially impact the operations of the

Edgar Filing: MORGAN STANLEY DEAN WITTER INDIA INVESTMENT - Form N-30D

Fund. If the Treaty benefits were denied retroactively, the Fund could potentially be subject to substantial Indian income tax as well as interest and penalties. The Fund believes it is not probable that the outcome of this matter will be unfavorable. While such amounts cannot currently be determined, the Fund estimates such taxes and interest could range from approximately \$23 million to \$38 million as of December 31, 2002 excluding penalties. Denial of Treaty benefits could also materially impact the future operations of the Fund as well.

The foregoing is based on current interpretation and practice and is subject to any future changes in Indian or Mauritian tax laws and in the tax treaty between India and Mauritius.

The tax character of distributions paid may differ from the character of distributions shown on the Statements of Changes in Net Assets due to short-term capital gains being treated as ordinary income for tax purposes. The tax character of distributions paid during 2002 and 2001 was as follows:

2002 DISTRIBUTIONS PAID FROM: (000)		2001 DISTRIBUTIONS PAID FROM: (000)	
ORDINARY INCOME	LONG-TERM CAPITAL GAIN	ORDINARY INCOME	LONG-TERM CAPITAL GAIN
\$ 214	\$ --	\$ 4,398	\$ 16,428

The amount and character of income and capital gain distributions to be paid by the Fund are determined in accordance with Federal income tax regulations, which may differ from accounting principles generally accepted in the United States of America. The book/tax differences are considered either temporary or permanent in nature.

Temporary differences are attributable to differing book and treatments for the timing of the recognition of gains and losses on certain investment transactions and the timing of the deductibility of certain expenses.

Permanent differences may result in reclassifications among undistributed net investment income (loss), accumulated net realized gain (loss) and paid-in capital. Adjustments for permanent book-tax differences, if any, are not reflected in ending undistributed net investment income (loss) for the purpose of calculating net investment income (loss) per share the financial highlights.

At December 31, 2002, the components of distributable earnings on a tax basis were are follows:

UNDISTRIBUTED ORDINARY INCOME (000)	UNDISTRIBUTED LONG-TERM CAPITAL GAIN (000)
\$ 299	\$ --

At December 31, 2002, the U.S. Federal income tax cost basis of investments

Edgar Filing: MORGAN STANLEY DEAN WITTER INDIA INVESTMENT - Form N-30D

(excluding foreign currency) was \$201,196,000 and, accordingly, net unrealized depreciation for U.S. Federal income tax purposes was \$10,193,000 of which \$29,350,000 related to appreciated securities and \$39,543,000 related to depreciated securities.

11

MORGAN STANLEY INDIA INVESTMENT FUND, INC.

December 31, 2002

Notes to Financial Statements (cont'd)

At December 31, 2002, the Fund had a capital loss carryforward for U.S. Federal income tax purposes of approximately \$73,799,000 available to offset future capital gains, of which \$56,001,000 will expire on December 31, 2009 and \$17,798,000 will expire on December 31, 2010. To the extent that capital gains are offset, such gains will not be distributed to the stockholders.

Net capital and currency losses incurred after October 31, and within the taxable year are deemed to arise on the first business day of the Fund's next taxable year. For year ended December 31, 2002, the Fund deferred to January 1, 2003, for U.S. Federal income tax purposes, post-October capital losses of \$95,000.

F. OTHER: During the year ended December 31, 2002, the Fund made purchases and sales totaling \$42,342,000 and \$84,643,000 respectively, of investment securities other than long-term U.S. Government securities and short-term investments. There were no purchases or sales of long-term U.S. Government securities.

For the year ended December 31, 2002, the Fund incurred \$38,000 of brokerage commissions with Morgan Stanley & Co., an affiliate of the Adviser.

Future economic and political developments in India could adversely affect the liquidity or value, or both, of securities in which the Fund is invested. In addition, the Fund's ability to hedge its currency risk is limited and accordingly, the Fund may be exposed to currency devaluation and other exchange rate fluctuations.

Each Director of the Fund who is not an officer of the Fund or an affiliated person as defined under the Investment Company Act of 1940, as amended, may elect to participate in the Directors' Deferred Compensation Plan (the "Plan"). Under the Plan, such Directors may elect to defer payment of a percentage of their total fees earned as a Director of the Fund. These deferred portions are treated, based on an election by the Director, as if they were either invested in the Fund's shares or invested in U.S. Treasury Bills, as defined under the Plan. At December 31, 2002, the deferred fees payable under the Plan totaled \$68,000 and are included in Payable for Directors' Fees and Expenses on the Statement of Net Assets. The deferred portion of Directors' Fees and Expenses shown on the Statement of Operations is impacted by fluctuations in the market value of the investments selected by each Director. For the fiscal year ended December 31, 2002, Director's Fees and Expenses were increased by \$11,070, due to these fluctuations.

On August 10, 1998, the Fund commenced a share repurchase program for purposes of enhancing stockholder value and reducing the discount at which the Fund's shares trade from their net asset value. During the year ended December 31, 2002, the Fund repurchased 558,011 of its shares at an average discount of 7.51% from net asset value per share. Since the inception of the program, the Fund has repurchased 8,392,811 of its shares at an average discount of 30.14% from

Edgar Filing: MORGAN STANLEY DEAN WITTER INDIA INVESTMENT - Form N-30D

net asset value per share. The Fund expects to continue to repurchase its outstanding shares at such time and in such amounts as it believes will further the accomplishment of the foregoing objectives, subject to review by the Board of Directors.

On December 13, 2001, with the aim of enhancing stockholder value and reducing the discount at which the Fund's shares have been trading, the Board of Directors of the Fund authorized the Fund to conduct a tender offer during the second quarter of 2002 for up to 15% of the Fund's outstanding shares, at a price equal to 95% of the Fund's net asset value per share ("NAV") on the last day of the tender period, or such later date if the offer was extended.

On May 17, 2002, the Fund completed the tender offer. The Fund accepted 2,855,821 shares for payment which represented 15% of the Fund's then outstanding shares. Final payment was made on May 28, 2002 at \$11.02 per share, representing 95% of the NAV per share on May 17, 2002.

FEDERAL TAX INFORMATION (UNAUDITED)

For the year ended December 31, 2002, the Fund expects to pass through to stockholders foreign tax credits totaling approximately \$781,000. In addition, for the year ended December 31, 2002, gross income derived from sources within a foreign country totaled \$3,825,000.

Independent Auditors' Report

TO THE STOCKHOLDERS AND BOARD OF DIRECTORS OF MORGAN STANLEY INDIA INVESTMENT FUND, INC.

We have audited the accompanying statement of net assets of Morgan Stanley India Investment Fund, Inc. (the "Fund") as of December 31, 2002, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The financial highlights for each of the two years in the period ended December 31, 1999 were audited by other auditors whose report, dated February 18, 2000, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2002 by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to

Edgar Filing: MORGAN STANLEY DEAN WITTER INDIA INVESTMENT - Form N-30D

above present fairly, in all material respects, the financial position of Morgan Stanley India Investment Fund, Inc. at December 31, 2002, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

MORGAN STANLEY INDIA INVESTMENT FUND, INC.

Dividend Reinvestment and Cash Purchase Plan

Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the "Plan"), each stockholder will be deemed to have elected, unless American Stock Transfer & Trust Company (the "Plan Agent") is otherwise instructed by the stockholder in writing, to have all distributions automatically reinvested in Fund shares. Participants in the Plan have the option of making additional voluntary cash payments to the Plan Agent, annually, in any amount from \$100 to \$3,000, for investment in Fund shares.

Dividend and capital gain distributions will be reinvested on the reinvestment date in full and fractional shares. If the market price per share equals or exceeds net asset value per share on the reinvestment date, the Fund will issue shares to participants at net asset value. If net asset value is less than 95% of the market price on the reinvestment date, shares will be issued at 95% of the market price. If net asset value exceeds the market price on the reinvestment date, participants will receive shares valued at market price. The Fund may purchase shares of its Common Stock in the open market in connection with dividend reinvestment requirements at the discretion of the Board of Directors. Should the Fund declare a dividend or capital gain distribution payable only in cash, the Plan Agent will purchase Fund shares for participants in the open market as agent for the participants.

The Plan Agent's fees for the reinvestment of dividends and distributions will be paid by the Fund. However, each participant's account will be charged a pro rata share of brokerage commissions incurred on any open market purchases effected on such participant's behalf. A participant will also pay brokerage

Edgar Filing: MORGAN STANLEY DEAN WITTER INDIA INVESTMENT - Form N-30D

commissions incurred on purchases made by voluntary cash payments. Although stockholders in the Plan may receive no cash distributions, participation in the Plan will not relieve participants of any income tax which may be payable on such dividends or distributions.

In the case of stockholders, such as banks, brokers or nominees, that hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the stockholder as representing the total amount registered in the stockholder's name and held for the account of beneficial owners who are participating in the Plan.

Stockholders who do not wish to have distributions automatically reinvested should notify the Plan Agent in writing. There is no penalty for non-participation or withdrawal from the Plan, and stockholders who have previously withdrawn from the Plan may rejoin at any time. Requests for additional information or any correspondence concerning the Plan should be directed to the Plan Agent at:
