April 23, 2004

Dear Stockholder:

You are cordially invited to attend a special meeting of the stockholders of Beta Oil & Gas, Inc. to be held on May 25, 2004, at 10:00 a.m., local time, in the 19th Floor Conference Room A, Warren Place Two, 6120 South Yale Avenue, Tulsa, Oklahoma.

On December 12, 2003, we entered into a securities purchase agreement with Petrohawk Energy, LLC pursuant to which we have agreed to sell to Petrohawk 15,151,515 shares of our common stock together with five-year warrants entitling the holders to purchase up to 10,000,000 shares of common stock at an exercise price of \$1.65 per share all for an aggregate purchase price of \$25,000,000, and our five year convertible promissory note in the amount of \$35,000,000 which will, after two years, be convertible into shares of our common stock at a conversion price of \$2.00 per share.

The special meeting has been called to present to our stockholders proposals to approve the issuance of the shares of our common stock pursuant to the securities purchase agreement (including any shares to be issued upon exercise of the warrants and conversion of the note) and to approve an amendment to our articles of incorporation to increase the number of authorized shares of common stock to 100,000,000.

Approval of the Petrohawk transaction will result in a change of control of the company. Immediately following the closing of the Petrohawk transaction, Petrohawk will hold approximately 54% of our outstanding voting securities. In addition, upon conversion of the note and exercise of all of the warrants, Petrohawk would hold approximately 77% of our voting securities assuming no other shares are issued prior to those actions. Stockholders holding approximately 28% of the currently outstanding common stock have agreed to vote in favor of the Petrohawk transaction.

Our board of directors has determined that the terms of the Petrohawk transaction are fair to Beta and in the best interests of our stockholders. Our board of directors has approved the issuance and sale of the new securities in the Petrohawk transaction and the amendment to our articles of incorporation to increase our authorized capital stock. The board recommends that you vote **FOR** each of the proposals to be considered at the special meeting. In considering this transaction and its recommendation, our board was aware that Joe Burnett, our chief financial officer, and I would both be entitled to certain severance benefits if the transaction is consummated and our employment is terminated. Mr. Robert C. Stone, Jr., the only Beta director who will continue to serve on our board after the closing of the Petrohawk transaction, is expected to receive, along with all of the non-employees who become directors of Beta following the closing, a grant of 15,000 shares of our common stock as consideration for his service on our board. These interests are discussed in the proxy statement under the caption "Proposal No. 1: The Petrohawk Transaction Interests of Certain Persons in the Petrohawk Transaction."

The enclosed Notice of Special Meeting of Stockholders and Proxy Statement contain details concerning the Petrohawk transaction and the proposal to amend our articles of incorporation to increase our authorized capital stock. We urge you to read and consider these documents carefully. Whether or not you are able to attend the special meeting, it is important that your shares be represented and voted. Accordingly, be sure to complete, sign and date the enclosed proxy card and mail it in the envelope provided as soon as possible so that your shares may be represented at the meeting and voted in accordance with your wishes.

If you attend the meeting, you may vote in person, even if you previously returned your proxy card. If your shares are held in the name of a bank, brokerage firm or other nominee, please contact the party responsible for your account and direct him or her to vote your shares on the enclosed proxy card. Your vote is important regardless of the number of shares you own.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

On behalf of the board of directors and management, thank you for your continued support of Beta.

Sincerely,

David A. Wilkins,
President and Chief Executive Officer

The accompanying proxy statement is dated April 23, 2004 and is first being mailed, along with the proxy, to stockholders on or about April 23, 2004.

**NOTICE OF SPECIAL MEETING OF STOCKHOLDERS
TO BE HELD ON MAY 25, 2004**

TO THE STOCKHOLDERS OF BETA OIL & GAS, INC.:

NOTICE IS HEREBY GIVEN that a special meeting of the stockholders of Beta Oil & Gas, Inc., a Nevada corporation, is scheduled to be held on May 25, 2004 at 10:00 a.m., local time, in the 19th Floor Conference Room A, Warren Place Two, 6120 South Yale Avenue, Tulsa, Oklahoma for the following purposes:

1. To consider and act upon a proposal that the following issuances of shares of our common stock pursuant to the transactions described below be approved:

the issuance to Petrohawk Energy, LLC, a Delaware limited liability company, of 15,151,515 shares of Beta's common stock, par value \$0.001 per share;

the issuance to Petrohawk of up to 10,000,000 shares of common stock upon the exercise of five-year common stock purchase warrants which are exercisable at a price of \$1.65 per share, subject to possible adjustments for stock dividends, stock splits and similar events; and

the issuance to Petrohawk of shares of common stock upon the conversion of the outstanding principal and accrued but unpaid interest payable under the terms of our five-year convertible promissory note in the original principal amount of \$35,000,000 at a conversion price of \$2.00 per share, subject to possible adjustments for stock dividends, stock splits and similar events.

These securities are all issuable to Petrohawk under the terms of a securities purchase agreement dated December 12, 2003. Under this agreement, Petrohawk will pay an aggregate of \$60,000,000 in cash for the common stock, warrants and convertible note;

2. To consider and act upon a proposal to approve an amendment to our articles of incorporation to increase our authorized common stock from 50,000,000 shares to 100,000,000 shares;
3. To consider and act upon any proposal to adjourn and reconvene the Special Meeting of Stockholders at a later date, but not later than July 24, 2004.
4. To transact such other business as may properly come before the special meeting and any adjournment thereof.

If item 2 is not approved, the transactions described in item 1 will still be consummated and the proposal to amend the articles of incorporation will be presented again to our stockholders after Petrohawk has been issued the securities provided for in the securities purchase agreement. If item 1 is not approved, item 2 will not be implemented even if it is approved.

Approval of proposal 1 and consummation of the proposed transaction will effectively transfer control of Beta Oil & Gas, Inc. to Petrohawk Energy, LLC.

Stockholders of record at the close of business on April 16, 2004 are entitled to notice of and to vote at the special meeting and any adjournment thereof. All stockholders are cordially invited to attend the special meeting in person. However, to assure your representation at the meeting, you are

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

SUMMARY OF PROXY STATEMENT

The following is a brief summary of certain information contained elsewhere in this proxy statement. This summary is not intended to be a complete description of the matters covered in this proxy statement and is qualified in its entirety by reference to the more detailed information contained or incorporated by reference in this proxy statement or in the documents attached as appendices hereto. Stockholders are urged to read this proxy statement, including all materials incorporated herein by reference, and the appendices hereto in their entirety.

This proxy statement contains forward-looking statements that involve risks and uncertainties. Actual results could differ materially from those discussed in the forward-looking statements as a result of certain factors. See the section of this proxy statement entitled "Forward-Looking Statements."

The Special Meeting

A special meeting of the stockholders of Beta Oil & Gas, Inc., a Nevada corporation ("Beta", the "Company" or "we" or "us"), will be held on May 25, 2004, at 10:00 a.m., local time, in the 19th Floor Conference Room A, Warren Place Two, 6120 South Yale Avenue, Tulsa, Oklahoma. Stockholders of record at the close of business on April 16, 2004, the record date for the special meeting, may vote at the special meeting.

At the special meeting, Beta's stockholders will be asked to approve:

the issuance of shares of our common stock in connection with a financing transaction in which we will issue and sell common stock, a convertible note and warrants to Petrohawk Energy, LLC ("Petrohawk"); and

an amendment to our articles of incorporation to increase our authorized capital stock.

For additional information regarding the special meeting and voting at the special meeting, see "General Information" beginning on page 6.

This proxy statement and the accompanying proxy card are first being mailed to stockholders on or about April 23, 2004.

Proposal 1: The Petrohawk Transaction

On December 12, 2003, we entered into a securities purchase agreement (which we generally refer to as the purchase agreement) with Petrohawk pursuant to which we have agreed to issue to Petrohawk for an aggregate of \$60,000,000 in cash:

15,151,515 shares of our common stock;

five year warrants to purchase up to an additional 10,000,000 shares of our common stock at an exercise price of \$1.65 per share; and

a convertible promissory note in the face amount of \$35,000,000 which will be convertible after two years into shares of our common stock at a conversion price of \$2.00 per share.

Because issuance of the shares of common stock to Petrohawk in connection with this transaction will result in a change of control of Beta, we are required by the rules of The Nasdaq Stock Market to obtain stockholder approval of the issuance of the shares.

The transactions contemplated by the purchase agreement are required to be consummated at a closing that we expect to occur immediately following the approval of the proposal by our stockholders.

The proceeds from the sale of the securities will be added to our working capital and be available for the acquisition, development and exploration of oil and gas properties.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

Background of Transaction (see discussion beginning on page 15)

For a description of the events leading to the approval by our board of directors of the Petrohawk transaction and the agreements related thereto, see "Proposal No. 1: The Petrohawk Transaction Background of the Petrohawk Transaction," below.

Petro Capital Advisors, LLC Fairness Opinion (see discussion beginning on page 23)

In connection with its consideration and approval of the Petrohawk transaction, our board of directors received an opinion from Petro Capital Advisors, LLC with respect to the fairness, from a

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

financial point of view, of the Petrohawk transaction to Beta. For important information regarding the Petro Capital opinion, including the limitations of the opinion, see "Proposal No. 1: The Petrohawk Transaction Petro Capital Advisors, LLC Fairness Opinion," below.

Certain Risks Associated with the Proposed Petrohawk Transaction (see discussion beginning on page 12)

The proposed Petrohawk transaction involves risks, including risks related to:

the dilutive effect on the ownership interests and voting power of existing stockholders;

the influence of Petrohawk and its affiliates on us and our board of directors following the transaction;

our outstanding long-term indebtedness, which will increase substantially, and our debt-to-equity ratio, which will be negatively affected;

our ability to deploy profitably the new capital that will be invested by Petrohawk;

the possible deterrence of any other offers to acquire us;

a "market overhang" which may be presented by the outstanding warrants and convertible note which could restrict or limit increases in the market value of our common stock;

the decision by our board of directors not to request an update of the fairness opinion delivered by Petro Capital in November 2003, despite a substantial increase in our proved oil and gas reserves as of December 31, 2003;

restrictions on our ability to utilize our current net operating loss carry-forwards for federal income tax purposes that will result from the change of control contemplated by the transaction; and

the substantial fee that our financial advisor will be entitled to receive if the transaction is consummated.

For detailed information regarding these risks, see "Proposal No. 1: The Petrohawk Transaction Certain Risks Associated with the Proposed Petrohawk Transaction" below.

Interests of Certain Persons in the Petrohawk Transaction (see discussion beginning on page 33)

In considering the recommendation of the board with respect to the Petrohawk transaction, stockholders should be aware that David A. Wilkins, our president and chief executive officer and a director, Robert C. Stone, Jr., a director, and Joseph L. Burnett, our chief financial officer, have interests in the Petrohawk transaction that are in addition to the interests of stockholders in general. Mr. Wilkins and Mr. Burnett hold stock options and warrants covering 600,000 shares (which are currently vested with respect to 133,000 shares) and 255,000 shares (which are currently vested with respect to 188,333 shares) respectively which will, upon consummation of the transaction, vest in full. The period in which they may exercise their options after termination of employment has been extended from 90 days after termination of employment to five years from the date of closing of the Petrohawk transaction or until they would have otherwise expired absent termination of employment, whichever is earlier. In addition, Mr. Wilkins and Mr. Burnett will be eligible to receive severance payments of \$160,000 and \$125,000 respectively, which equal one year's salary, upon termination of their employment. The board was aware of these interests and considered them along with the other matters described herein in approving the Petrohawk transaction and determining to recommend the Petrohawk transaction to the stockholders for approval. Mr. Stone and all of the other persons who are not employees of Beta who will be serving on our board after the closing are each expected to receive grants of 15,000 shares of our common stock as consideration for their board service. This proposal was not decided upon and announced by Petrohawk until March of 2004, long after our board approved the purchase agreement.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

Purchase Agreement (see discussion beginning on page 35)

The issuance of the securities and the other transactions contemplated by the purchase agreement are subject to several closing conditions, including:

the approval by our stockholders of the issuance of the common stock contemplated by the Petrohawk transaction at the special meeting; and

our taking of all action necessary to effect the appointment of new directors as designated by Petrohawk and a Petrohawk stockholder pursuant to the purchase agreement.

We are required to pay a termination fee of \$1,000,000 if:

the purchase agreement is terminated before closing pursuant to its terms because we accept a superior proposal which the board of directors determines would be more favorable to our stockholders;

stockholder approval is not obtained or the transaction otherwise fails to close by May 31, 2004 and a proposal to acquire us has been made or another person has made publicly known an intention to make such a proposal, and within 12 months of the termination of the purchase agreement, we consummate a merger, acquisition, consolidation or other business combination or a person acquires beneficial ownership of 50% of the power to vote for our directors; or

the agreement is terminated because of a material breach of our representations, warranties, covenants or agreements which is not cured within 20 days.

Petrohawk is required to pay us a termination fee of \$1,000,000 if we terminate the purchase agreement because of a material breach in Petrohawk's representations, warranties, covenants or agreements which is not cured within 20 days.

Convertible Note (see discussion beginning on page 46)

The convertible note is in the original principal amount of \$35,000,000, is unsecured and matures on the fifth anniversary of the closing. This note will bear interest at an annual rate of 8%, payable quarterly.

Any time after the two-year period following the closing, we may prepay the note without penalty or premium. Also at any time after the two-year period following the closing, the holder of the note may convert the outstanding principal and accrued but unpaid interest on the note into shares of common stock at a conversion price of \$2.00 per share, subject to adjustment for stock dividends, stock splits and similar events.

Warrants (see discussion beginning on page 47)

The warrants entitle the holder, upon exercise, to purchase up to 10,000,000 shares of common stock at an exercise price of \$1.65 per share, subject to possible adjustments for stock dividends, stock splits and similar events. The warrants are exercisable, in whole or in part, at any time before the fifth anniversary of the closing. The warrant exercise price may be paid in cash, by delivering to us warrants or common stock having a fair market value equal to the warrant exercise price, by offsetting the principal balance of the convertible note, or a combination of the foregoing.

Registration Rights (see discussion beginning on page 47)

At the closing, we will enter into a registration rights agreement with Petrohawk which will give Petrohawk the right to require us to register for public sale the shares of common stock acquired at the time of the closing and any shares acquired upon the exercise of the warrants and conversion of the convertible note. The registration rights agreement also provides Petrohawk with piggyback registration rights with respect to registrations of the offer and sale of any shares of common stock we may effect for our own account.

New Board of Directors and Management (see discussion beginning on page 55)

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

Under the purchase agreement, a new board of directors will be appointed effective upon the closing. There will be seven directors, six of whom will be designated by Petrohawk and its principal

owners and one of whom will be designated by our existing board of directors. At the closing, all of our officers and all of our directors other than Robert C. Stone, Jr. are required to deliver their resignations. By voting in favor of the Petrohawk transaction, stockholders are also in effect voting to replace the current board of directors. Floyd C. Wilson will become the new chairman of the board, president and chief executive officer. It is expected that our headquarters will be moved to Houston, Texas within a short time following the closing.

Proposal 2: Increase in Authorized Capital Stock (see discussion beginning on page 67)

In order to provide a sufficient number of shares of capital stock to meet our current and future needs, including shares of common stock to be issued and reserved for issuance in the Petrohawk transaction, the board of directors has proposed that our articles of incorporation be amended to increase our authorized shares of common stock from 50,000,000 shares to 100,000,000 shares.

Stockholder Approval

Issuance of Shares of Common Stock. We are seeking stockholder approval of the issuance of shares of common stock pursuant to the Petrohawk transaction under the rules of The Nasdaq Stock Market. The Nasdaq Marketplace Rules require stockholder approval for transactions involving the issuance or potential issuance of securities which results in a change of control of the company. See "Proposal No. 1: The Petrohawk Transaction Stockholder Approval," below. Stockholder approval of the transaction is not otherwise required under Nevada law or our articles of incorporation or by-laws. If the Petrohawk transaction is not approved by our stockholders, we may elect to terminate the purchase agreement, or we may attempt to renegotiate the terms of the Petrohawk transaction with Petrohawk and, if successful, in our attempts to renegotiate submit the revised transaction to our stockholders for approval. If the stockholders fail to approve the Petrohawk transaction, Petrohawk will have the right to unilaterally terminate the purchase agreement.

Increase In Our Authorized Common Stock. We are seeking stockholder approval of an amendment to our articles of incorporation which will increase our authorized common stock in accordance with applicable Nevada corporate law. As described more fully in "Proposal No. 2: Increase in Authorized Capital Stock," the increase in common stock under Proposal No. 2 is necessary to provide for a sufficient number of shares of common stock to be issued or reserved for issuance in the Petrohawk transaction and for current employee stock options, as well as to provide for additional shares of common stock and preferred stock which could be used in connection with acquisitions or additional financing. If Proposal No. 2 is approved, we will not file the Certificate of Amendment to increase our authorized capital stock unless Proposal No. 1 is also approved and we believe it is likely that the Petrohawk transaction will be consummated. If Proposal No. 2 is not approved, the Petrohawk transaction will still be consummated. Petrohawk has agreed that if Proposal No. 2 is not approved at this special meeting, it will cause the proposal to be considered again at a stockholder meeting held after the closing and it has agreed to vote its shares for approval of the amendment. This would assure approval of the amendment at such meeting.

Recommendations by the Board

The board of directors, including all of the independent directors, has determined that both the proposed Petrohawk transaction and increase in our authorized capital stock are in the best interests of us and our stockholders and recommends approval of both of those proposals by our stockholders. Mr. Wilkins, one of our directors who is also an employee, will have his options covering 600,000 shares vested in full and extended for five years after the closing if the Petrohawk transaction is approved and consummated and he will be entitled to a severance payment of \$160,000 upon termination of his employment. In addition, Mr. Burnett, our chief financial officer, will have his options covering 255,000 shares vested in full and extended for five years after the closing if the Petrohawk transaction is approved and consummated, and he will be entitled to a severance payment of \$125,000 upon termination of his employment. The board was aware of these interests and considered them along with the other matters described herein in approving the Petrohawk transaction and

determining to recommend the Petrohawk transaction to the stockholders for approval. Mr. Stone, Jr., one of our directors, who will be serving on our board after the closing is expected to receive a grant of 15,000 shares of our common stock as consideration for his board service. This decision was not made and announced by Petrohawk until March of 2004, long after our board approved the purchase agreement. See "Proposal No. 1: The Petrohawk Transaction Interests of Certain Persons in the Petrohawk Transaction."

Proposal 3: Adjournments of Special Meeting

We are asking for the authority to vote your shares for a proposed adjournment of the meeting if it is needed. See "Proposal No. 3: Adjournment of Special Meeting."

GENERAL INFORMATION

Proxy Solicitation

This proxy statement is furnished to the holders of our common stock and preferred stock in connection with the solicitation by our board of directors of proxies for use at the special meeting to be held on May 25, 2004, at 10:00 a.m., local time, or at any adjournment thereof. The purposes of the meeting and the matters to be acted upon are set forth in the accompanying Notice of Special Meeting of Stockholders. The board is not currently aware of any other matters that will come before the special meeting.

Our principal executive offices are located at 6120 South Yale Avenue, Suite 813, Tulsa, Oklahoma 74136.

We will make arrangements with brokerage houses and other custodians, nominees and fiduciaries to send proxies and proxy material to the beneficial owners of the shares and will reimburse them for their expenses in so doing. Should it appear desirable to do so in order to ensure adequate representation of shares at the special meeting, officers, agents or employees of Beta and/or Petrohawk may communicate with stockholders, banks, brokerage houses and others by telephone, facsimile or in person to request that proxies be furnished. All expenses incurred in connection with this solicitation will be borne by us.

We have retained Georgeson Shareholder to assist with the solicitation of proxies for a fee not to exceed \$7,500, plus reimbursement for out-of-pocket expenses.

Certain stockholders of Beta who together own approximately 28% of our voting shares, including two of our directors Robert E. Davis, Jr. and Rolf N. Hufnagel, have entered into a stockholders agreement with Petrohawk and us pursuant to which they have agreed to vote all of the voting shares of Beta owned by them or over which they have voting control in favor of both proposals being presented at the special meeting.

Revocability and Voting of Proxy

A form of proxy for use at the special meeting and a return envelope for the proxy are enclosed. Stockholders may revoke the authority granted by their execution of proxies at any time before their effective exercise by filing with the Secretary of Beta, at our headquarters at 6120 South Yale Avenue, Suite 813, Tulsa, Oklahoma 74136, a written notice of revocation, or a duly executed proxy bearing a later date, or by voting in person at the special meeting. Shares of common stock and preferred stock represented by executed and unrevoked proxies will be voted in accordance with the choice or instructions specified thereon. If no specifications are given, the proxies intend to vote the shares represented thereby to approve Proposal No. 1 and Proposal No. 2 and, if needed, Proposal No. 3, as set forth in the accompanying Notice of Special Meeting of Stockholders and, in accordance with their best judgment, on any other matters which may properly come before the special meeting.

Record Date and Voting Rights

Stockholders of record at the close of business on April 16, 2004 are entitled to notice of and to vote at the special meeting. As of the record date, 12,429,307 shares of common stock were issued and outstanding, and there were 604,271 shares of our preferred stock issued and outstanding. Each share of common stock and each share of preferred stock is entitled to one vote on all matters that may properly come before the special meeting. The common stock and preferred stock vote together as one class. The holders of a majority of the outstanding shares of common stock and preferred stock, present in person or by proxy, will constitute a quorum at the special meeting.

Approval of Proposal No. 1 (issuance of common stock pursuant to the Petrohawk transaction) and Proposal No. 3 (adjournments of special meeting) require a majority of the total votes cast on the proposal in person or by proxy. Each outstanding share of common stock and each outstanding share of preferred stock is entitled to one vote. Approval of Proposal No. 2 (increase in authorized common stock) requires the affirmative vote of a majority of the total votes represented by the outstanding common stock and preferred stock. Stockholders will not have appraisal or similar rights with respect to Proposal No. 1 or Proposal No. 2. See the section of the summary above entitled "Stockholder Approval" for information regarding the effect of a failure to approve Proposal No. 1 and/or Proposal No. 2.

With respect to all three proposals, abstentions and broker non-votes will be counted to determine whether a quorum is present. In determining whether Proposal No. 1 and Proposal No. 3 have received the requisite number of favorable votes, abstentions and broker non-votes will not be counted as part of the total number of votes cast on such proposal and will have no effect in determining whether the proposal has been approved by the stockholders. With respect to Proposal No. 2, both abstentions and broker non-votes will have the same effect as votes against the proposal. A broker non-vote occurs when a nominee holding shares of common stock for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner.

At the special meeting, ballots will be distributed with respect to each proposal to be voted upon to each stockholder (or the stockholder's proxy if not the management proxy holders) who is present and did not deliver a proxy to the management proxy holders. The ballots will then be tallied, one vote for each share of common stock owned of record and one vote per share of preferred stock owned of record, the votes being in three categories: FOR, AGAINST or ABSTAIN.

Votes at the special meeting will be tabulated by an inspector of election appointed by us.

FORWARD-LOOKING STATEMENTS

From time to time, in written reports and oral statements, we may discuss our expectations regarding our future performance. Generally, these statements relate to business plans or strategies, projected or anticipated benefits or other consequences of such plans or strategies or other actions taken or to be taken by us, including the impact of such plans, strategies or actions on our results of operations or components thereof, projected or anticipated benefits from operational changes, acquisitions or dispositions made or to be made by us, or projections involving anticipated revenues, costs, earnings or other aspects of our results of operations. The words "expect," "believe," "anticipate," "project," "estimate," "intend" and similar expressions, and their opposites, are intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance but rather are based on currently available competitive, financial and economic data and management's operating plans. These forward-looking statements involve risks and uncertainties that could render actual results materially different from management's expectations. PROPOSAL NO. 1:

THE PETROHAWK TRANSACTION

The first proposal to be considered and voted upon at the special meeting is the issuance of common stock in connection with the Petrohawk transaction. Pursuant to the securities purchase agreement entered into with Petrohawk on December 12, 2003, at closing we will issue to Petrohawk:

15,151,515 shares of common stock;

warrants entitling the holder to purchase up to 10,000,000 shares of common stock at an exercise price of \$1.65 per share of common stock, subject to adjustment as described below under "Terms of the Warrants;" and

a convertible promissory note in the original principal amount of \$35,000,000 which is convertible after two years into shares of our common stock at a conversion price of \$2.00 per share, subject to adjustment as described below under "Terms of the Convertible Note."

As the consideration for these securities, Petrohawk has agreed to pay us a total of \$60,000,000 in cash, of which \$25,000,000 is attributable under the purchase agreement to the shares of common stock and warrants and \$35,000,000 is attributable to the convertible note. For a description of the events leading to the approval by our board of directors of the Petrohawk Transaction and the agreements related thereto, see "Background of the Petrohawk Transaction" below.

Certain Risks Associated with the Proposed Petrohawk Transaction

In addition to the other information contained in this proxy statement, in determining whether to approve the Petrohawk transaction, our board of directors did consider, and, in determining how to vote on this proposal, each of you should consider the following important factors:

Our stockholders will experience substantial dilution. The consummation of the Petrohawk transaction will have an immediate dilutive effect on the ownership interests and voting power of our existing stockholders and the future voting power of warrant and stock option holders. Upon closing the Petrohawk transaction, Petrohawk will own approximately 55% of our outstanding shares of common stock (which will represent approximately 54% of the total voting shares after taking into account the outstanding voting shares of our preferred stock). As a consequence, for as long as Petrohawk retains over 50% of the total voting shares, Petrohawk will have complete control over the election of directors and many other matters that may be presented to the stockholders from time to time. Conversion of the convertible note into common stock or exercise of the warrants will further dilute the voting rights of existing stockholders.

Petrohawk will assume control of our management. Following the closing, there is to be a board of directors consisting of seven members. Under the terms of the purchase agreement, Petrohawk and its owners will designate six of the seven members. In addition, Floyd C. Wilson, the president and chief executive officer of Petrohawk, will become the chairman of the board, president and chief executive officer of Beta. See "Director and Executive Officer Information Directors" for information regarding Mr. Wilson and the other persons who will become members of our board of directors. We anticipate that most or all of our current management personnel will have their employment with us terminated or will resign.

The amount of our indebtedness will increase significantly. At December 31, 2003, our long-term indebtedness was \$13,284,652, with a debt to equity ratio of approximately 0.45 to 1.0. As a result of the Petrohawk transaction, our long-term indebtedness will increase by \$21.7 million which is the original principal amount of the convertible note of \$35 million to be issued to Petrohawk less the immediate paydown of our existing long-term debt of \$13,284,152, and we estimate that we will then

have a debt to equity ratio of approximately 0.64 to 1.0. See "Unaudited Pro Forma Consolidated Financial Information." Thus, the indebtedness incurred with respect to the convertible note is material in relation to our current level of indebtedness, our ability to service the debt from our operating cash flow and, if the convertible note is not converted to common stock, our ability to repay the principal amount of the debt in full at maturity. See "Terms of the Petrohawk Transaction Terms of the Note" and "Unaudited Pro Forma Consolidated Financial Information."

We may not be able to profitably deploy the funds that we will receive. If we complete the Petrohawk transaction, our growth and profitability will be largely dependent upon our ability to profitably deploy the \$60,000,000 in new capital that we will receive. Prices of oil and natural gas are higher than they have been in recent years. As a result, acquisition prices of producing oil and gas properties, the costs of obtaining leases and drilling oil and gas wells and acquiring other oil and gas companies are expected to be higher than in recent periods. The prices of oil and gas production are volatile and could decline significantly in the future. Also, the funds provided in the Petrohawk transaction may not be adequate to complete a specific acquisition or acquisitions we may pursue, in which case we may seek additional funds by incurring additional indebtedness, issuing additional equity securities, or by other means. This could increase even more the risks of being able to produce a profitable return for our stockholders. Currently, we have no agreements, arrangements or understandings with respect to our acquisition of any entity or business except it is anticipated that the properties of Petrohawk will be offered to us after closing. See "Information About Petrohawk Properties and Operations."

Petrohawk's ownership position could inhibit takeover offers from other companies. After the closing, the significant ownership interests of Petrohawk could effectively deter a third party from making an offer to buy us, which might involve a premium over the current stock price or other benefits for stockholders, or otherwise prevent changes in the control or management of us. Except as described under "Terms of the Stockholders Agreement" there are no restrictions, in the form of a standstill agreement or otherwise, on the ability of Petrohawk or its affiliates to purchase additional Beta securities and thereby further consolidate its ownership interest.

The warrants and the conversion rights under the convertible note could result in significant "market overhang" which could restrain or limit increases in the market value of our stock. The 10,000,000 warrants to be issued to Petrohawk will be exercisable at any time over the five-year period beginning with the closing at an exercise price of \$1.65 per share. Additionally, beginning with the second anniversary of the closing and until its maturity at the end of five years, the \$35 million convertible note will be convertible into shares of common stock at a conversion price of \$2.00 per share. The availability of these shares at these prices could discourage potential investors in our common stock from paying as much for our shares as they would if these shares did not exist. This could restrict increases in the value of our common stock that might otherwise occur without this "market overhang."

Consummation of the Petrohawk transaction will substantially limit our ability to use our current net operating loss carryforwards to offset future income for Federal income tax purposes. Because Petrohawk will obtain more than 50% of the voting power of our outstanding capital stock, we will be limited in the amount of our net operating loss carryforwards that we will be able to use on an annual basis to offset our taxable income for Federal income tax purposes. See "Tax Consequences" below. This will defer to a material extent, and could eliminate altogether, a portion of the future economic benefit that we would otherwise be entitled to under the current Federal income tax laws as a result of our past operating losses.

Our financial advisor who rendered the fairness opinion to our board has a substantial financial interest in the consummation of the Petrohawk transaction. Under the terms of its amended engagement letter with us, Petro Capital Advisors, LLC received \$100,000 in connection with the delivery of its fairness opinion to the board of directors. In addition, it has been paid and will continue to be paid a monthly fee of \$6,250 unless and until the Petrohawk transaction closes, at which time the monthly fee will

terminate. If the Petrohawk transaction is completed, Petro Capital will be paid an additional \$500,000 fee (for a total of \$600,000, including the fee for the fairness opinion to the board). Thus, there is a substantial financial incentive to the board's financial advisor for the Petrohawk transaction to be approved and closed.

The fairness opinion rendered by Petro Capital Advisors, LLC relied upon estimates of our proved oil and gas reserves which were substantially lower than the amount reported by Netherland, Sewell & Associates, Inc. as of December 31, 2003, but our board has not requested, nor has it received, an update of that opinion taking such new information into consideration. The Petro Capital fairness opinion was rendered to our board on November 5, 2003 at the meeting at which our board considered the Petrohawk transaction and determined to proceed with finalization of documentation with respect to the transaction. As noted in the section below captioned, "Petro Capital Advisors, LLC Fairness Opinion," in rendering its opinion, Petro Capital reviewed and relied upon various studies, analyses and inquiries, including information regarding our proved oil and gas reserves. Petro Capital specifically reviewed and relied on the Ryder Scott report of its estimates of our proved oil and gas reserves at December 31, 2002 (approximately 18.3 Bcfe) and our internal update of those estimates as of September 30, 2003 (approximately 22.9 Bcfe), with its primary reliance placed on the September 30 estimate. Our board met again on December 11, 2003 to approve the Petrohawk transaction and related documentation. The purchase agreement was signed on December 12, 2003.

On February 12, 2004, we issued a press release announcing our estimated proved oil and gas reserves at the end of 2003 based on the third party engineering report issued on February 9, 2004, by Netherland, Sewell & Associates, Inc., which is described under "Recent Developments" above. Prior to signing the agreement in December 2003 and again after the issuance of the year-end reserve report for 2003, our board considered whether it should obtain an updated fairness opinion. In the board's deliberations on this issue, the board discussed the issue and considered all developments with respect to Beta since the issuance of the fairness opinion and whether any of those changes had, in the board's opinion, resulted in a fundamental or material change in the value of Beta or our securities.

After careful consideration of a number of factors, including those discussed below, the board decided that it would continue to recommend to the Beta stockholders that the Petrohawk transaction is in their best interests and should be approved. In this regard, our board determined that it did not need an updated fairness opinion to reach this conclusion. Among the factors our board considered were the following:

Prior to its decision to approve the Petrohawk transaction, and using the September 30, 2003 updated reserves estimate as its starting point, our board reviewed a range of estimates provided by management of our proved oil and gas reserves, which indicated that our estimated oil and gas reserves at year-end 2003 could be higher than our internal estimate at September 30, 2003. Estimates of our proved reserves include only those quantities of oil and gas which geological and engineering data demonstrate with reasonable certainty to be recoverable in future years from known reservoirs under existing economic and operating conditions. These estimates are adjusted from time to time to reflect actual production history, updated technical data, results of ongoing operations and prevailing product prices. The upward revisions in estimates of our reserves that occurred throughout 2003 were attributable to the drilling and workover successes in key areas of operations as supported by significant technical work. Netherland, Sewell & Associates, Inc. evaluated 100% of our oil and gas properties, including the results of our operations through the end of 2003, and prepared its estimate for the proved oil and gas reserves as of December 31, 2003. Netherland, Sewell & Associates, Inc.'s estimate of our proved reserves at year-end 2003 was higher than our internal estimate at September 30, 2003; however, it was within the range of estimates presented to our board in advance of its approval of the Petrohawk transaction.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

Although the board could have withdrawn its recommendation in favor of the Petrohawk transaction, our purchase agreement with Petrohawk does not permit us to terminate the agreement or renegotiate its terms based on changes in estimates of our proved oil and gas reserves. In this respect, our board also considered the market reaction to the news of the Petrohawk transaction, including the increases in the market price of our stock and the average daily trading volume of our stock since the date the Petrohawk proposal was first presented. In contrast, the market reaction to the release of the Netherland, Sewell & Associates, Inc. report of our estimated proved reserves at December 31, 2003 appeared to be muted.

After careful consideration of these and other factors, our board concluded that it should continue to recommend the Petrohawk transaction.

Use of Proceeds

The net proceeds (after expenses of the transaction, which we estimate to be approximately \$1,775,000) from the sale of the securities will be added to our working capital and will be available for retirement of our outstanding long-term debt, the acquisition, development and exploration of oil and gas properties and for general corporate purposes. As a result of the issuance of the convertible promissory note, our long-term debt will increase by approximately \$21.7 million, which is the original principal amount of the note minus the amount of our existing debt of \$13.3 million at December 31, 2003. It is anticipated that oil and gas properties currently owned by Petrohawk will be offered to us after the closing. See "Information About Petrohawk Operations and Properties." We currently have no agreements, arrangements or understandings with respect to an acquisition of any entity or business.

Background of the Petrohawk Transaction

In September 2002, our board of directors agreed that in order to improve our overall performance and create a more balanced growth model, a significant change in our senior management was necessary. Accordingly, in October 2002, our board identified and interviewed candidates for the position of president and CEO and ultimately hired David A. Wilkins to fill both positions. Mr. Wilkins came to us from Vintage Petroleum, Inc. where he had worked for approximately 10 years holding various positions with his last position being the General Manager of Latin America. Mr. Wilkins' mandate was to assess our existing asset base, focus our work effort on lower-risk opportunities, optimize operating and administrative costs, and build a new team capable of achieving our desired growth through strategic investments in exploitation, exploration and acquisitions opportunities.

Mr. Wilkins initiated his mandate by recruiting several key employees to strengthen our exploitation and development team. Our new management began the process of optimizing the existing assets including plans for disposition of assets with limited potential. In addition, the team sought out property acquisitions and new drilling opportunities that would provide attractive economic return under the reality of our limited available capital. For approximately eight months, we pursued a strategy of internal growth through cost control and the exploitation of existing assets. Our main focus became the existing properties in Louisiana and Oklahoma and a development drilling program in southern Kansas. Our board recognized that we could return to profitability through the cost control and increased operational focus that Mr. Wilkins' team brought to us but also recognized that growth potential was limited due to lack of capital availability. Discussions were held by our board and management regarding how to continue to grow through expansion of our core asset base. Given the limitations associated with growing a small company using only internal cash flow, our board decided to assess other business combinations which could possibly enhance our growth rate.

During this period the board considered a variety of possible strategic alternatives, with the objective of increasing stockholder value. Strategic alternatives that were considered included both new acquisitions of producing properties or new drilling opportunities in "niche" areas. Numerous small

acquisitions were reviewed but, with the exception of our exercise of our preferential right to purchase additional interests in two producing wells in West Texas, we submitted no formal bids for the acquisition of properties in 2003 because we did not locate any potential acquisitions that were within our strategic locations or within the price range we were willing to spend. We identified, evaluated and committed to participate, to the extent of a 35% interest, in a 13 well drilling program in south-central Kansas.

At this point in time, our board did not actively consider a sale of Beta nor did it actively pursue any mergers or investments in our company. However, we were approached with inquiries about a possible acquisition or merger of the company, only one of which made a formal proposal to our board. A brief description of the proposal made to our board follows.

In April 2003, our chairman of the board, Mr. Robert E. Davis, was contacted by a financial advisor who was representing a privately owned oil and gas company that was seeking to merge with a publicly held company, and desired to make a presentation to our board of directors. Our management reviewed summary information provided by the company and recommended to our chairman not to pursue any further discussions.

In June 2003, our chairman requested that our management re-evaluate the merger opportunity with the company. In July 2003, we executed a confidentiality agreement with the company and a presentation was made by the company to our management concerning the potential of a possible merger. The presentation did not include a formal proposal. Our management and financial advisor evaluated the information provided and concluded that the potential merger was not viable to us due to various factors, including high leverage risk, complexity of the company's ownership structure with various limited partnerships and the location of the company's asset base. At the request of the chairman, the executive management arranged for the company to make a formal presentation to the board of directors.

In August 2003, a presentation (similar to the July presentation) was made to our board of directors in our corporate office (information about the deal structure was circulated to our board in advance of the presentation). At the conclusion of the presentation, a proposal was made by the company to our board. Petro Capital Advisors, LLC was present at the presentation as our financial advisor and consulted with our board regarding the proposal. Based on the proposal, the merger would have resulted in a stock-for-stock exchange with the company which would have significantly diluted our existing stockholders. The current Beta stockholders would have owned only 15% of the outstanding shares under this proposal. Immediately following the presentation, our board considered the proposal and decided not to pursue the transaction further due the risks associated with an increased amount of leverage to be assumed by us if a merger was consummated, the uncertainty in the ability to re-negotiate the short-term nature of such debt, the uncertainty of the company's ability to "roll-up" a significant number of partnership entities, the location of the company's asset base, concerns about working capital and future capital sources for the company's projected capital expenditure program and loss of control by our stockholders. Subsequent to the presentation, we formally declined the offer and no further discussions were held.

We continued our internal growth strategy and the Wilkins-lead team continued its methodical approach which did return us to profitability, improving our cash position, reducing leverage and abating the production declines.

In the latter part of May 2003, a representative of Mitchell Energy Advisors of Dallas, Texas initiated a discussion with Mr. Davis about the prospect of engaging in a transaction with a new entity led by Mr. Floyd C. Wilson, a former principal of 3TEC Energy Corporation. Under Mr. Wilson's leadership, 3TEC experienced significant growth and was sold to Plains Exploration & Production Company in June 2003. Mitchell Energy Advisors suggested that a group led by Mr. Wilson was considering the possibility of a sizable capital investment in Beta. On June 5, 2003, Mr. Davis met with

Mr. Wilson and a representative of Mitchell Energy Advisors. At the meeting, Mr. Wilson expressed an interest in an investment in both common stock and convertible debt of Beta, of approximately \$60 million. Mr. Davis agreed to discuss that idea with Mr. Wilkins and other members of our board of directors.

Between June 5 and June 25, 2003, Mr. Davis discussed the preliminary verbal proposal put forth by Mr. Wilson with the other directors of our board. The directors expressed an interest in considering the Wilson proposal. Mr. Wilson was perceived by our board members as a credible individual with reputable institutional backers and a successful track record in the development of small public energy companies. In our board's preliminary analysis of the proposal, the directors assessed our ability to attract necessary capital as a stand alone entity as an alternative to the type of investment proposed by Mr. Wilson.

Unrelated to the Wilson proposal, on July 9, 2003, we engaged Petro Capital Advisors, LLC as a financial advisor with respect to the possibility of implementing a stockholder rights plan and other possible defensive measures, as well as locating possible property or company candidates for acquisition by us. Petro Capital was also asked to provide advice with respect to our response to any merger or acquisition proposal. Petro Capital Advisors did assist us in our evaluation of the previously discussed merger proposal. Petro Capital Advisors also undertook to evaluate the fairness to Beta of selected transactions if requested. See "Petro Capital Fairness Opinion" below for a discussion of the reasons for our retention of Petro Capital and the terms of Petro Capital's engagement.

At the request of Mr. Davis, Mr. Wilkins and Mr. Joe Burnett, our Chief Financial Officer, met with Mr. Wilson and Mr. Steve Herod in our office on July 29, 2003. At this meeting, Mr. Wilson introduced his company, Petrohawk Energy, LLC and gave a brief history of his background and that of his management group. Mr. Wilson expressed his interest in investing in our company if the board so desired. Following this introductory meeting, Mr. Wilson and Mr. Herod joined Mr. Davis, Mr. Wilkins and Mr. Rolf Hufnagel, a Beta director, along with Ms. Mynan Feldman, an associate with Mitchell Energy Advisors for a luncheon. The discussion was very general with Mr. Wilson stating his desire to further his review for a potential sizable investment if our board of directors agreed. Subsequent to this meeting, Mr. Wilson met individually with our remaining two directors, Mr. Robert C. Stone, Jr. and Mr. David A. Melman.

A two-day board meeting was held on August 21 and August 22, 2003 during which our management presented a five-year strategic plan followed by a financial analysis of the business model described in the Plan by Petro Capital Advisors. Management's plan established an objective of a compound annual growth rate over the five-year period for both reserves and production of 15% to 20%, to be achieved through organic growth of the existing asset base and acquisitions of new oil and gas reserves with development drilling opportunities. Utilizing management's price forecast, the estimated capital expenditures over the five-year period was \$64 million, to be funded primarily through internally generated cash flow. Under the plan, we would attempt to:

Lower our debt to equity ratio to less than 40%;

Keep our finding and development costs within an acceptable range of \$.80 to \$1.75 per Mcfe (as adjusted from time to time to reflect the current product pricing and reserve category mix);

Maintain a well balanced portfolio of projects (from a risk standpoint);

Maintain a reserve ratio of at least 60% natural gas to 40% crude oil; and

Achieve acceptable annual growth rates through selected acquisition and development opportunities.

Also at this board meeting, as previously discussed, a presentation was made to our board by the private company referred to above in which they were proposing a merger with Beta. Petro Capital

Advisors also presented to the full board a financial evaluation of the merger proposal by the private company. As previously discussed, the board declined to pursue the private company's proposal. There was further board discussion as to whether we should or should not pursue a formal proposal from Petrohawk. Our outside directors of the board instructed Mr. Wilkins to contact Mr. Wilson with the intention of asking him to prepare a formal proposal for the board.

A confidentiality agreement between Petrohawk and us, dated August 26, 2003, was executed on August 29, 2003. Mr. Wilson sent us a "Potential Transaction Outline" on September 24, 2003 followed by a second outline on September 25, 2003. Mr. Wilson made a formal presentation to our board of directors on October 2, 2003. Attendees included: Mr. Davis, Mr. Stone, Mr. Melman, Mr. Hufnagel, Mr. Wilkins, Mr. Burnett, Mrs. Cheryl Rask, Assistant Corporate Secretary; Mr. Wilson, Mr. Herod; Mr. Rosser Newton and Mr. Calvin Tam of Petro Capital Advisors; Mr. Mike Mitchell and Mr. Mike Taylor of Mitchell Energy Advisors.

At the October 2, 2003 meeting, Mr. Wilson submitted a proposal for a \$60 million investment in our company consisting of purchasing \$25 million of our common stock at \$1.50 per share and a \$35 million 8% subordinated convertible note with a 5 year maturity convertible into our common stock at \$1.75 per share. The proposal also called for Petrohawk to receive, for no additional consideration, warrants to purchase an additional 7,500,000 shares of common stock at an exercise price of \$1.50 per share. This proposal would result in a change in control of our company with Petrohawk having approximately 57% of the common stock, prior to any conversion of the note.

Our board members then discussed the proposal after the Petrohawk representatives left the meeting. The board understood that implementation of the proposal would mean that Petrohawk would assume control of the ownership and management of Beta. The board discussed the credibility of the investors in Petrohawk and whether the business strategy outlined by Mr. Wilson would work to increase value for our stockholders more quickly than the internal growth program established in late 2002 and the projected growth as per management's five-year strategic plan as presented to our board in August 2003. Our board's desire to achieve a more rapid stock value appreciation for our stockholders resulted in its determination that it was in our stockholders' best interest to pursue the accelerated growth strategy presented by Petrohawk. Our board believed that Mr. Wilson's experience and past success with growing small public companies and his favorable reputation among institutional capital providers would provide added value and liquidity to our stockholders.

Our board authorized Mr. Newton of Petro Capital Advisors to meet with Mr. Mitchell of Mitchell Energy Advisors in an effort to negotiate improvements in the terms of the proposal as presented to the board.

On October 7, 2003, our board met and discussed the proposal further. The board determined that the proposal merited additional due diligence and review due to Petrohawk's substantial institutional backing and perceived credibility within the energy financial markets. At this meeting, our board discussed engaging legal counsel for the transaction and the possibility of implementing a severance plan for our management and other employees. At this meeting, Mr. Wilkins expressed his belief that the management plan presented in the August board meeting was a very solid plan and that the management team already had made substantial progress in a very short period of time. He stated that Beta then had a stable cash position and did not need to recapitalize at that time. He further indicated his concern that the potential issuance of the warrants associated with the Petrohawk proposal would have a substantial dilutive effect on our stockholders. The board discussed these points thoroughly and, at the end of the meeting, unanimously approved going forward with the discussions with Petrohawk.

Following the board meeting on October 7, 2003, we engaged Conner & Winters, P.C. of Tulsa, Oklahoma, our regular corporate counsel, and the Washington, D.C. office of Foley & Lardner, as special counsel, to represent us in connection with this proposed transaction.

On October 9, 2003, Mr. Newton updated the board on his discussions with Mitchell Energy Advisors and Petrohawk and expressed his belief that Petrohawk's initial offer could be improved. The board then instructed Mr. Newton to make a counteroffer to Petrohawk which would increase the proposed purchase price for the securities to \$1.75 per share for the common stock, a \$2.00 per share conversion price under the terms of the convertible note and an exercise price of \$1.75 per share on the common stock warrants.

Mr. Newton met with Mr. Mitchell to present the counteroffer of Beta. In response, on October 10, 2003, Petrohawk submitted a draft of a "non-binding" letter of intent which called for the purchase of 15,151,515 shares of common stock at \$1.65 per share totaling \$25 million and a senior convertible note in the amount of \$35 million which would be convertible into common stock at a price of \$2.00 per share. The draft letter of intent also called for the issuance of 10,000,000 warrants exercisable into shares of common stock at a price of \$1.65 per share. The draft letter of intent also included a "no-shop" provision which would restrict us from engaging in discussions or negotiations with any other companies for a sale of or material investment in Beta. The draft letter of intent also provided for a termination or break-up fee of \$1,000,000 if we were to enter into an agreement with any other company for a business combination. This proposal also contemplated that a portion of the amount to be invested by Petrohawk would be in the form of oil and gas properties, undeveloped leasehold acreage, seismic data, contract rights and other assets. These properties were to be valued at a mutually agreeable amount, or, if no agreement could be reached, by a qualified independent appraiser. In no event would the value of the assets exceed Petrohawk's acquisition cost or investment in the assets, which was estimated to be approximately \$5,000,000 as of September 30, 2003. This proposal also contemplated that upon closing, our board of directors would be expanded to seven persons, six of whom would be designated by Petrohawk and certain of its key investors. Mr. Wilson would become the Chairman of the Board, President and Chief Executive Officer of Beta.

On October 14, 2003 our board met to discuss the Petrohawk proposal. Our legal counsel and financial advisor were in attendance and advised our board regarding the proposal and the board's fiduciary duties in connection with the consideration and acceptance of such a proposal. Our board rejected the proposal to include properties and other assets as part of the consideration for the securities, but otherwise agreed with the financial terms of the transaction. Our board believed that it would be beneficial to eliminate the letter of intent stage and directed our management and legal counsel to begin negotiations of a definitive agreement. At the time of this acceptance, Beta stock was trading at \$1.31 per share.

Our board met on October 19, 2003 to discuss the status and terms of the definitive agreement being negotiated. The early draft of the definitive securities purchase agreement would have allowed Petrohawk to terminate the agreement at any time prior to the filing of the preliminary proxy material with the Securities and Exchange Commission if they found any matters of concern in the course of their due diligence review of us. The board determined that this sort of provision would not be acceptable and indicated that Petrohawk should complete its due diligence review before signing the definitive agreement.

This position was communicated to Petrohawk by our counsel. Petrohawk agreed to proceed with the due diligence review prior to signing the agreement, but required the signing of a revised "non-binding" letter of intent as a condition to moving forward. On October 20, 2003, we entered into a "non-binding" letter of intent with Petrohawk which was substantially in the form as the draft presented on October 10 except that it provided that the entire consideration for the securities would be cash. The board determined that it was in our best interest to sign the letter due to its short duration and because Petrohawk was expending significant resources and time in connection with the preparation of documents, due diligence and other activities in connection with the possible transaction and, accordingly, was unlikely to proceed without it. The letter of intent contained a binding "no-shop" clause that extended until November 10, 2003. Petrohawk was provided copies of our interim reserve

reports as of September 30, 2003 and our management's Five Year Strategic Plan dated as of August 21, 2003 in connection with its due diligence review and only after the signing of the letter of intent.

At a November 5, 2003 telephonic meeting of our board of directors, Petro Capital Advisors presented its analysis and rendered to our board its oral fairness opinion, subsequently confirmed in writing, that as of November 5, 2003, based on and subject to the considerations described in the opinion that, the Petrohawk transaction, taken as a whole, is fair to Beta from a financial point of view. The closing price per share of our common stock on November 4, 2003 was \$1.85 which is \$.20 more per share than the \$1.65 per share that Petrohawk will pay for our common stock at closing and upon exercise of the warrants it will receive. The board's desire to achieve more rapid appreciation for our stockholders resulted in the board's determining that it was in Beta's and our stockholders' best interest to pursue the accelerated growth strategy presented by Petrohawk. The board also believed that Petrohawk's experience and past success effecting growth in small public companies would provide added value to our stockholders. At this meeting, the board unanimously approved the definitive agreement and authorized its execution.

Petrohawk solicited and received agreements dated as of November 10, 2003 from Messrs. Davis and Hufnagel, Mr. Steve Antry, our founder and former chief executive officer, and other key Beta stockholders to vote in favor of the issuance of the shares to Petrohawk once a definitive securities purchase agreement was signed and the proposal was presented to our stockholders for approval. The shares owned by the stockholders signing these agreements represent approximately 28% of our outstanding common stock.

Petrohawk indicated that it was not ready to sign the definitive agreement before the November 10, 2003 expiration of the no-shop restriction in the letter of intent because it had not completed its due diligence review. As a result, the letter of intent was amended to extend the no-shop restriction until November 17, 2003.

On November 13, 2003, Petrohawk notified the Board that it still had some minor due diligence matters to complete. We were also advised that Mr. Wilson needed a waiver of the restrictions of a non-competition agreement that he signed when 3TEC was acquired by Plains Exploration & Production Company. In that agreement, Mr. Wilson, personally, had agreed that neither he nor any company with whom he might be associated would engage in any oil and gas operations in Louisiana south of Interstate 10 for a period of one year ending June 4, 2004. The waiver was required because we have several properties that are located within the restricted area. The waiver was expected to be received early in the following week, so the no-shop restriction in the letter of intent was again extended, this time to November 24, 2003.

The board originally intended to wait until the signing of the definitive agreement to issue a press release regarding the transaction. It was believed that a public announcement of the transaction should not be made until both Petrohawk and Beta had agreed to the final terms of the transaction. However, with the unexpected delays in the signing of the agreement and concern that rumors of the transaction might be getting into the public domain, it was determined by both parties that a press release announcing the signing of the letter of intent should be made. On November 18, 2003, we issued a press release announcing the letter of intent and outlining the terms of the proposed transaction.

Petrohawk and Plains Exploration & Production continued their negotiations for a waiver of the non-competition agreement of Mr. Wilson. In connection with the waiver, Petrohawk agreed to enter into an exploration agreement with Plains whereby it committed to engage in certain drilling and development operations with Plains. The terms and provisions of the exploration agreement and related agreements are discussed under "Information About Petrohawk Agreements with Plains Exploration & Production Company."

Before the waiver was signed by Petrohawk, our board was presented with an initial outline of the proposed terms of the waiver and the exploration agreement. Once final drafts of the documents had been prepared, they were circulated to our board members for their review and consideration. Our board expressed concern about the restrictions and commitments to which we would be subjected if the Petrohawk transaction were completed. Petrohawk made it clear that any activities contemplated by the Plains agreements which were taken after the closing would be undertaken by Beta. Our board held a telephonic board meeting on December 2, 2003 at which time the proposed Plains agreements with Petrohawk were discussed. Mr. Robert Stone, Jr. made several inquiries of other persons operating in the area covered by the agreements. He reported to our board that he had become satisfied with the terms of the agreements and with the reputation and performance of the Plains management. See "Information About Petrohawk Agreements with Plains Exploration & Production Company" below for a summary of the partial waiver of the non-competition agreement with Mr. Wilson and the exploration agreement with Petrohawk.

During its meetings held on October 21, October 27, and November 10, 2003, our board discussed a severance arrangement for all of our employees in connection with the consummation of the Petrohawk transaction. The board believed that such an arrangement was important to encourage key employees to remain until the closing of the transaction and the transition of control to Petrohawk, as well as to reward them for the recent progress made by us, including returning Beta to profitability in the second quarter of 2003, increasing working capital from a deficit at year end 2002 to a surplus at the end of the second quarter of 2003 and having production volumes on track to exceed the target for 2003. The board was provided with a suggested plan proposed by our management and Villareal & Associates, a consulting firm specializing in executive compensation. Terms of the proposed plan were presented to Petrohawk who, after suggesting several adjustments, consented to the plan. Under the arrangement which was approved, all outstanding stock options held by our employees will vest in full and the options will continue to be exercisable for up to five years from the date of closing even if the employment of the option holder is terminated. See "Interests of Certain Persons in the Petrohawk Transaction." A proposal to amend the stock options will be brought to a vote of the stockholders after closing and Petrohawk has agreed to vote in favor of the proposal, thereby assuring its approval. See "Terms of the Purchase Agreement Covenants Amendment of Stock Options."

Our board had a meeting by teleconference on December 12, 2003 to consider final approval of the definitive agreement in light of the terms of the Plains agreements and waiver. Concern was expressed that the form of waiver granted to Mr. Wilson did not include all of our properties and prospects in the area. Mr. Wilson communicated to several of the directors individually that he felt that if waivers with respect to the omitted properties could not be obtained later, the properties could be sold for a fair price. The board also considered whether it should obtain an update of the fairness opinion rendered by Petro Capital on November 5, 2003. After considerable discussion, the board concluded that the Plains agreement and the commitments and restrictions encompassed by them did not change their decision on the advisability of doing the Petrohawk transaction. They also considered that there had been very little change in the relevant facts on which the original fairness opinion from Petro Capital had been based. Consequently, an update of the fairness opinion would not be required.

The definitive securities purchase agreement was signed with Petrohawk on December 12, 2003. A press release announcing the signing was issued on the next business day, December 15, 2003. On January 14, 2004, Petrohawk reported that it had obtained an amendment of the non-competition agreement waiver from Plains which added to that waiver our properties in Louisiana that were originally omitted from it.

Reasons for the Petrohawk Transaction and Board Recommendation

Our board of directors has determined that the Petrohawk transaction is fair to, and in the best interests of Beta and our stockholders. In making this determination, the board considered all of the risk factors described below under the sub-caption "Certain Risks Associated with the Proposed Petrohawk Transaction" and the following additional important factors:

The significant amount of new capital to be contributed by Petrohawk should allow us to accelerate our growth strategy;

The principal owners and managers of Petrohawk are experienced and have a successful track record in aggressively growing the stockholder value of energy companies;

The board's determination that an accelerated growth strategy should be pursued as soon as practicable;

The terms of the Petrohawk transaction, and the board's determination that the purchase prices for the securities were reasonable and fair to Beta;

The investment objectives of Petrohawk; and

The opinion of Petro Capital that the Petrohawk transaction, taken as a whole, is fair, from a financial point of view, to Beta.

The board did not assign relative weight to these factors or consider that any factor was of overriding importance. The board evaluated the Petrohawk transaction based upon the totality of the factors and all of the information available to it for consideration. Based upon its evaluation, the board determined that the Petrohawk transaction would be the most suitable and obtainable means to pursue our accelerated growth strategy, and that the transaction was fair to us and in the best interests of our stockholders.

Our board of directors believes that the Petrohawk transaction is in the best interests of us and our stockholders and recommends that the stockholders vote "For" Proposal No. 1 to approve the issuance of shares of our common stock in the Petrohawk transaction.

Upon approval and consummation of the Petrohawk transaction, the options covering 600,000 shares held by Mr. Wilkins, one of our directors who is also an employee, and the options covering 255,000 shares held by Mr. Burnett, our chief financial officer, will vest fully and will be extended for a period of up to five years following the closing. In addition, Mr. Wilkins will be entitled to receive a severance payment of \$160,000, and Mr. Burnett will be entitled to receive a severance payment of \$125,000, upon termination of their employment. The board was aware of these interests and considered them along with the other matters described herein in approving the Petrohawk transaction and determining to recommend it to our stockholders for approval. Mr. Stone, Jr., one of our directors, who will be serving on our board after the closing is expected to receive a grant of 15,000 shares of our common stock as consideration for his board service. This decision regarding our board members was not made and announced by Petrohawk until March of 2004, long after our board approved the purchase agreement. See "Proposal No. 1: The Petrohawk Transaction Interests of Certain Persons in the Petrohawk Transaction."

Recent Developments

On February 12, 2004 we issued a press release announcing that our total proved reserve volumes at December 31, 2003 were 22.4 Bcf of natural gas and 1.3 MMBbl of oil, or 30.2 Bcfe of natural gas as compared to December 31, 2002 proved reserve volumes of 14.7 Bcf of natural gas and 0.6 MMBbl of oil, or 18.3 Bcfe of natural gas. Total proved reserves increased 11.9 Bcfe, or approximately 65%. Production volumes for the year ended December 31, 2003 were approximately 1.9 Bcf of natural gas and 127 MBbl of oil, or 2.7 Bcfe of natural gas. Average production in 2003 was approximately 7.4 MMcfe per day as compared to 8.2 MMcfe per day in 2002, a 9.7% decrease.

At December 31, 2003, the present value of our proved reserves, before income taxes, using a discount rate of 10%, was \$58.5 million, which was based on 2003 year-end prices of \$29.25 per barrel (West Texas Intermediate posted price) and \$5.97 per Mmbtu (Henry Hub spot market price). This compares to a present discounted value of \$35.9 million at December 31, 2002 using 2002 year-end prices of \$31.23 per barrel (NYMEX) and \$4.75 per Mmbtu (Henry Hub spot market price). At year end 2003, approximately 87% of our natural gas reserves and approximately 75% of our oil reserves were classified as "proved developed". Our total proved reserve mix at year-end 2003 was 74% natural gas and 26% oil. All year end 2003 reserve estimates were prepared by Netherland, Sewell & Associates, Inc., a third party independent engineering firm.

We engaged Netherland, Sewell & Associates, Inc. to be our independent engineering firm in June 2003, before meaningful negotiations between us and Petrohawk began. Our decision to change independent engineering firms was driven by our efforts to improve the communication and working relationship between us and our consulting engineers and ultimately obtain the best technical evaluation of our assets. Our President and CEO, David Wilkins, used both Ryder Scott Company and Netherland, Sewell & Associates, Inc. at previous companies and believes that both firms are competent and reputable. However, we and our board concluded that Netherland, Sewell and Associates, Inc. is better suited for a company of our size with its existing property base, particularly those assets which are located in the Mid-Continent region. There were no inducements, commitments, promises, representations or undertakings made by or solicited from Netherland, Sewell & Associates, Inc. with respect to us or any of our properties. While different engineering firms will often vary somewhat in their respective estimates of the reserves attributable to particular properties, we do not believe that our change in independent engineering firms had a material impact on the increase in our estimated proved oil and gas reserves as of December 31, 2003 when compared with the estimate we reported at the end of 2002.

The purchase agreement is binding on both parties and there are no provisions in this agreement for either party to re-negotiate the terms and conditions of the purchase agreement based on the results of the year-end reserve report.

At December 31, 2003, approximately 25.4 Bcfe of natural gas, or 84%, of our total proved reserves, were classified as "proved developed" and approximately 4.7 Bcfe, or 16%, of our total proved reserves were classified as "proved undeveloped" reserves. As of year-end 2003, the "proved undeveloped" reserves represented approximately 25% of the total proved oil reserves and approximately 12% of the total proved natural gas reserves. Approximately 30% of the increase in our total proved reserves from year-end 2002 to year-end 2003 was classified as "proved undeveloped" reserves. These additions were mostly the result of our workover and drilling programs supported by detailed technical studies in our key areas located in Central Oklahoma (WEHLU), South Central Kansas and South Louisiana. We expect to make approximately \$3.6 million in capital expenditures to develop approximately 3.7 Bcfe, or 78%, of our "proved undeveloped" reserves in 2004. We expect to make approximately \$1.3 million in capital expenditures to develop the balance of approximately 1.0 Bcfe, or 22%, of our "proved undeveloped" reserves in 2005.

Petro Capital Advisors, LLC Fairness Opinion

On July 9, 2003, we engaged Petro Capital Advisors, LLC to assist us generally with respect to locating possible property or company candidates for acquisition by us, other possible mergers and acquisitions, takeover defense and proxy contests, and the rendering, if subsequently requested by us, of its opinion with respect to the fairness, from a financial point of view, of one or more specific transactions. Pursuant to the terms of our engagement letter, Petro Capital has worked with us to analyze various possible merger and acquisition transactions (including the proposal made by a private company in August of 2003 as discussed in the section above captioned "Background of the Petrohawk Transaction"), the implementation of a possible shareholder rights plan or other possible takeover defensive measures, together with the fairness of the Petrohawk transaction. See "Background of the Petrohawk Transaction." Other than this engagement, neither Beta nor its affiliates has had any

material relationship with Petro Capital over the past two years resulting in the payment of any compensation to Petro Capital.

The board retained Petro Capital based upon Petro Capital's reputation, experience and expertise with respect to mergers and acquisitions, takeover defense and proxy contests, and the valuation of businesses and securities, particularly within the energy industry. Petro Capital is a merchant banking firm that is engaged in providing financial advisory services and rendering fairness opinions in connection with mergers and acquisitions, leveraged buyouts, business and securities valuations, recapitalizations, financial restructurings and private placements of debt and equity securities. In addition, Petro Capital, through its affiliates, sponsors principal investments in energy companies.

At the November 5, 2003 telephonic meeting of the board of directors, Petro Capital presented its analysis (as described below) and rendered to the board of directors its oral opinion (subsequently confirmed in writing on November 5, 2003) that as of November 5, 2003, based on and subject to the considerations described in the opinion, the Petrohawk transaction taken as a whole is fair to Beta from a financial point of view. For purposes of this summary, we use the term "opinion" to refer to the fairness opinion issued by Petro Capital on November 5, 2003.

The purchase agreement was signed on December 12, 2003. On February 12, 2004 we issued a press release announcing our estimated proved oil and gas reserves at the end of 2003 based on the third party engineering report issued by Netherland Sewell & Associates, Inc., which is described under "Recent Developments" above. Prior to signing the agreement in December and again after the issuance of the year-end reserve report for 2003, our board did consider whether it should obtain an updated fairness opinion. In the board's deliberations on this issue, the board discussed the issue with its financial advisor and considered all developments with respect to Beta since the issuance of the fairness opinion and whether any of those changes had, in the board's opinion, resulted in a fundamental or material change in the value of Beta or our securities. After careful consideration of all of these matters, the board decided that it would continue to recommend to the Beta stockholders that the Petrohawk transaction is in their best interests and should be approved. The board determined that it did not need an updated fairness opinion to reach this conclusion. Consequently, Petro Capital was not requested to provide an updated fairness opinion and none was delivered. Although there is no provision in the purchase agreement which would allow us to terminate the agreement with no liability if we were unable to obtain an update to the fairness opinion, the obligation of our board under that agreement to recommend the transaction to our stockholders is subject to its fiduciary duties. If the board determined that the Petrohawk transaction was no longer in the best interests of Beta and its stockholders, the board would not recommend to the Beta stockholders that the transaction be approved.

The summary of the opinion set forth below is qualified in its entirety by reference to the full text of the opinion attached as Appendix G to this proxy statement. Petro Capital provided its opinion for the information and assistance of the board of directors in connection with its consideration of the Petrohawk transaction. Petro Capital's opinion is not a recommendation or investment advice as to how any stockholder should vote at the special meeting. Stockholders are encouraged to read the opinion carefully in its entirety. No limitations were imposed by the board of directors upon Petro Capital with respect to the investigations made or procedures followed by it in rendering the opinion. The opinion speaks only as of its date. Events that could affect the fairness of the Petrohawk transaction to Beta from a financial point of view include, among others, changes in industry performance or market conditions and changes to our business, financial condition and results of operations.

In connection with rendering the opinion, Petro Capital, among other things:

1. reviewed Beta's annual reports on Form 10-K for the fiscal years ended 2000, 2001 and 2002, including Beta's audited financial statements for the three fiscal years ended December 31, 2002; reviewed Beta's quarterly reports on Form 10-Q for the quarters ended March 31, 2003 and June 30, 2003, including Beta's unaudited financial statements for such periods; and reviewed Beta's draft interim unaudited financial statements for the three months ended September 30, 2003, as provided to Petro Capital by Beta's management;

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

2. reviewed certain financial projections of Beta prepared by Beta's management and furnished to Petro Capital by us, including, but not limited to, projections of reserves, production, realized pricing and capital spending;
3. visited Beta's principal business office;
4. reviewed the letter of intent between Petrohawk and Beta dated as of October 20, 2003;
5. held discussions with certain members of the senior management of Beta and with certain members of Beta's board of directors to discuss the Petrohawk transaction and Beta's operations, financial condition and performance, and prospects for future growth;
6. reviewed an independent reserve report relating to Beta's oil and gas reserves prepared by Ryder Scott Company, dated December 31, 2002, which we call the "Ryder Scott report";
7. reviewed a reserve roll forward relating to our oil and gas reserves prepared by Beta, dated September 30, 2003, which we call the "Beta reserve report";
8. reviewed Beta's Five Year Strategic Plan dated as of August 21, 2003 prepared by Beta's management;
9. reviewed the historical market prices and trading volume for our common stock;
10. reviewed certain other publicly available financial data for certain companies that Petro Capital deemed comparable to Beta, and reviewed terms of other investments, including, but not limited to, prices, financial terms and premiums paid, that it considered similar to the financial components of the Petrohawk transaction;
11. reviewed copies of the following agreements and documents that were delivered to Petro Capital prior to the meeting of Beta's board of directors to approve the Petrohawk transaction, which documents it assumed with our permission to be accurate:
 - The Securities Purchase Agreement;
 - The Convertible Promissory Note;
 - The Warrant Certificate;
 - The Registration Rights Agreement;
 - The Stockholders Agreement; and
 - Certain additional transaction documents; and
12. conducted such other studies, analyses and inquiries and considered such other information and financial, economic and market criteria as it deemed appropriate in arriving at the opinion.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

In rendering the opinion, Petro Capital assumed, with our consent, and relied upon, without independent verification, the accuracy and completeness of all financial and other information and data publicly available or furnished to or otherwise reviewed by or discussed with Petro Capital. With respect to the Beta reserve report and the financial and production forecasts and projections provided to Petro Capital by us or otherwise reviewed by or discussed with Petro Capital, Petro Capital relied upon representations of our management that such report, forecasts and projections were reasonably prepared on bases reflecting the best currently available estimates and judgments of Beta and our management as to our future financial results and condition, and that there had been no material change in our assets, financial condition, business or prospects since the date of the most recent financial statements made available to Petro Capital. With respect to the Ryder Scott report, Petro Capital was advised, and assumed, that the Ryder Scott report was reasonably prepared on bases reflecting the best currently available estimates and judgments of Ryder Scott as to the oil and gas reserves of Beta. Petro Capital assumed that the Petrohawk transaction would be consummated in accordance with the terms and conditions contained in the transaction documents reviewed by it

without waiver, amendment or modification of any material term or condition thereof. Petro Capital further assumed that all material governmental, regulatory or other consents and approvals necessary for the consummation of the Petrohawk transaction would be obtained without any adverse effect on Beta or on the contemplated benefits of the Petrohawk transaction.

Petro Capital did not independently verify the accuracy and completeness of the information supplied to it with respect to us and our reserves and production, including, without limitation, the Beta reserve report and the Ryder Scott report, and does not assume any responsibility with respect thereto. Petro Capital did not make any physical inspection or independent appraisal of our assets or liabilities, nor was it furnished with any such appraisals, other than the Ryder Scott report. Additionally, the opinion is necessarily based on business, economic, market and other conditions as they existed and could be evaluated by Petro Capital at the date of the opinion. Although developments following the date of the opinion may affect the opinion, Petro Capital has assumed no obligation to update, revise or reaffirm the opinion. It should be understood that subsequent developments might affect the conclusion expressed by Petro Capital in the opinion.

The foregoing is a summary of the assumptions made, matters considered and limitations on the review undertaken by Petro Capital in connection with rendering the opinion.

In arriving at the conclusions expressed in the opinion, Petro Capital did, among other things, the following:

Financial Analyses Summary

In accordance with customary investment banking practice, Petro Capital employed generally accepted valuation methods in reaching its opinion. The following represents a brief summary of the material financial analyses performed by Petro Capital in connection with providing its opinion to our board of directors. The financial analyses that Petro Capital performed, and that are summarized below, were those that in the exercise of Petro Capital's professional judgment were most relevant to determining the fairness of the Petrohawk transaction, taken as a whole, to Beta from a financial point of view. The opinion is based upon Petro Capital's consideration of the collective results of all such analyses. While Petro Capital did not assign specific weights to any of the analyses performed by it, Petro Capital believes that each of the analyses performed by it supported its opinion as to the fairness of the Petrohawk transaction, taken as a whole, to Beta from a financial point of view.

Set forth below are descriptions of the six analyses performed by Petro Capital, including the results of such analyses.

Comparable Company Trading Analysis. Petro Capital compared the valuations of public exploration and production companies that it believed were comparable to Beta with the levels of earnings before interest, taxes, depreciation and amortization ("EBITDA") of those companies for the last twelve months ("LTM") and the estimated levels of EBITDA for the fiscal years ending 2003 and 2004 and latest proved reserves.

For purposes of this analysis, Petro Capital determined in its professional judgment that the following companies in the exploration and production sector were most comparable to Beta:

Callon Petroleum Company

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

Equity Oil Company

Edge Petroleum Corporation

Energy Partners, Ltd.

Goodrich Petroleum Corporation

Mission Resources Corporation

PrimeEnergy Corporation

In conducting its comparable company trading analysis, Petro Capital reviewed applicable valuations of each of the seven comparable companies listed above based on LTM EBITDA, estimated levels of EBITDA for the fiscal years ending 2003 and 2004 and latest proved reserves, and determined the following implied ranges of multiples for such valuations. For four of the comparable companies listed above (Equity Oil, Goodrich Petroleum, Mission Resources and PrimeEnergy), estimated levels of EBITDA were not publicly available and therefore were not included by Petro Capital as a part of this analysis.

Indication	High	Low	Median
EBITDA			
LTM	13.3x	3.8x	6.2x
2003E	6.4x	3.5x	5.3x
2004E	4.5x	2.6x	3.6x
Proved Reserves	\$1.77/Mcfe	\$0.78/Mcfe	\$1.55/Mcfe

Based upon its analysis of the comparable company valuations indications, Petro Capital selected the following ranges of multiples:

Indication	Selected Ranges of Multiples
EBITDA	
LTM	5.5x - 8.0x
2003E	4.5x - 6.0x
2004E	2.5x - 4.0x
Proved Reserves	\$1.25/Mcfe - \$1.75/Mcfe

Petro Capital then calculated a range of enterprise values for Beta based on the ranges of multiples selected from analyzing the comparable valuations. In order to calculate the range of equity value per share from the range of enterprise values, Petro Capital made the following adjustments:

added Beta's existing cash balance of approximately \$1.9 million at September 30, 2003;

deducted Beta's existing debt of approximately \$13.4 million at September 30, 2003;

deducted the liquidation value of Beta's existing preferred stock of approximately \$5.7 million at September 30, 2003; and

divided by approximately 12.6 million shares outstanding.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

After consideration of these adjustments, Petro Capital derived equity values for Beta, without giving effect to any of the transactions contemplated in this proxy statement, of \$1.00 to \$1.90 per share.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

Comparable Acquisition Analysis. Petro Capital also reviewed the following transactions proposed or completed from January 1, 2002 until November 4, 2003:

Alberta Energy Co. Ltd.	EnCana Corp.

Petro Capital compared the prices paid or proposed to be paid in these transactions with the LTM EBITDA and proved reserves of the target companies and determined the following implied ranges of multiples of each of the listed measures. For purposes of its analysis and the multiples presented below, Petro Capital reviewed LTM EBITDA for 13 of the companies listed above (such information was not publicly available for the other 12 companies) and proved reserves data for all of the foregoing companies other than Ricks Exploration, Inc., for which such information was not publicly available.

Indication	High	Low	Median
LTM EBITDA	18.0x	2.9x	8.7x
Proved Reserves	\$1.45/Mcfe	\$0.52/Mcfe	\$1.05/Mcfe

Based on its analysis of the comparable transaction indications, Petro Capital selected the following ranges of multiples:

Indication	Selected Range of Multiples
LTM EBITDA	7.0x - 9.0x
Proved Reserves	\$1.00/Mcfe - \$1.45/Mcfe

Petro Capital then calculated a range of enterprise values for Beta based on the ranges of multiples selected from analyzing the comparable transactions. In order to calculate the range of equity value per share from the range of enterprise values, Petro Capital made the following adjustments:

added Beta's existing cash balance of approximately \$1.9 million at September 30, 2003;

deducted Beta's existing debt of approximately \$13.4 million at September 30, 2003;

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

deducted the liquidation value of Beta's existing preferred stock of approximately \$5.7 million at September 30, 2003; and

divided by approximately 12.6 million shares outstanding.

After consideration of these adjustments, Petro Capital derived equity values for Beta, without giving effect to any of the transactions contemplated in this proxy statement, of \$1.00 to \$1.95 per share.

Discounted Cash Flow Analysis. Petro Capital used certain financial projections prepared by Beta's management with respect to the years 2003 through 2008 to determine a range of enterprise values from operations for Beta. Using these projections, Petro Capital determined the enterprise value of Beta by first deriving free cash flow for Beta during the projection period. Beta's net cash flow consisted of free cash flow generated from Beta's business operations less the outlays needed to support Beta's business operations. The net cash flow was discounted to the present using a discount rate that gave consideration to the inherent riskiness of the net cash flows and prevailing market interest rates. Petro Capital used a discount rate range of between 11.9% and 15.9% in connection with the analysis.

To determine the portion of the enterprise value from operations attributable to periods beyond 2008, Petro Capital determined a terminal value of Beta using two approaches: (i) by applying a multiple range of 4.0x to 6.5x to Beta's projected EBITDA for fiscal year 2008 and (ii) by applying an annual growth rate range of 2.0% to 4.0% to Beta's cash flow starting in 2008. Petro Capital then discounted this terminal value to the present at a discount rate range between 11.9% and 15.9%.

Petro Capital selected a discount rate range of between 11.9% and 15.9% based on Beta's weighted average cost of capital ("WACC"). Petro Capital calculated an estimated WACC of 13.9% based on Beta's peers, Beta's current capital structure and current risk free rates of return. The following companies were included in Beta's peer group: Callon Petroleum Company, Equity Oil Company, Edge Petroleum Corporation, Energy Partners Ltd., Goodrich Petroleum Corporation, Mission Resources Corporation and PrimeEnergy Corporation.

In order to calculate the range of equity value per share from the range of enterprise values, Petro Capital made the following adjustments:

added Beta's existing cash balance of approximately \$1.9 million at September 30, 2003;

deducted Beta's existing debt of approximately \$13.4 million at September 30, 2003;

deducted the liquidation value of Beta's existing preferred stock of approximately \$5.7 million at September 30, 2003; and

divided by approximately 12.6 million shares outstanding.

Based on the discounted cash flow methodology described above, Petro Capital derived equity values for Beta, without giving effect to any of the transactions contemplated in this proxy statement, of \$1.30 to \$2.50 per share.

Break-Up Asset Valuation. Petro Capital analyzed the value of Beta's assets based on book value and market value. The implied enterprise value of Beta includes the value of the proved reserves, the undeveloped acreage, the pipeline and Beta's working capital. Assuming the break-up of Beta's assets as of September 30, 2003, Petro Capital determined a range of enterprise values for Beta based on these assumptions.

In order to calculate the range of equity value per share from the range of enterprise values, Petro Capital made the following adjustments:

added Beta's existing cash balance of approximately \$1.9 million at September 30, 2003;

deducted Beta's existing debt of approximately \$13.4 million at September 30, 2003;

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

deducted the liquidation value of Beta's existing preferred stock of approximately \$5.7 million at September 30, 2003; and

divided by approximately 12.6 million shares outstanding.

Based on the break-up asset methodology described above, and after the consideration of the adjustments discussed above, Petro Capital derived equity values for Beta, without giving effect to any of the transactions contemplated in this proxy statement, of \$1.00 to \$1.75 per share.

Premiums Paid Analysis. Petro Capital analyzed the premiums paid for all companies, and specifically for oil and gas companies in which more than 50% of the post-transaction equity of the target was acquired. The data reviewed for all companies only included those companies with a market capitalization, pre-transaction of less than \$100 million. Both analyses reviewed transactions that occurred in the last twelve months and the last three years. Petro Capital analyzed the premiums paid for these companies based on their value one day, one week and four weeks prior to the investment trading prices.

Based upon its analysis of the premiums paid valuations indications, Petro Capital determined the following ranges of premiums for the indicated time periods:

Indication	High	Low	Average
Oil and Gas Companies (LTM)			
1 Day	96.7%	(10.3%)	29.3%
1 Week	82.1%	(12.1%)	27.3%
4 Weeks	77.5%	(13.3%)	26.6%
All Companies (LTM)			
1 Day	NM	NM	35.5%
1 Week	NM	NM	38.8%
4 Weeks	NM	NM	47.4%
Oil and Gas Companies (Last 3 Years)			
1 Day	96.7%	(26.7%)	18.3%
1 Week	85.2%	(17.8%)	23.4%
4 Weeks	83.1%	(13.3%)	25.7%
All Companies (Last 3 Years)			
1 Day	NM	NM	26.6%
1 Week	NM	NM	29.9%
4 Weeks	NM	NM	33.6%
Relevant Range			
1 Day		15% - 25%	
1 Week		20% - 30%	
4 Weeks		25% - 35%	

Petro Capital analyzed the premiums paid for both oil and gas companies and all companies over the last twelve months and the last three years based upon data provided by Securities Data Corporation. The highest premium paid for all companies over the last twelve months and the last three years was approximately 1650% one day, one week and four weeks prior to the investment. The lowest premium paid for all companies over the last twelve months and the last three years was approximately -98.5% to -99.9% one day, one week and four weeks prior to the investment. Petro Capital believed that these data points were not meaningful, or "NM," with respect to the Petrohawk transaction and therefore were not considered by Petro Capital in determining the "relevant range" of premiums.

Petro Capital applied the relevant range of premiums paid to Beta's trading price for each of the indicated time periods as if the investment occurred on the date of the opinion. Based on the ranges of premiums set forth above, Petro Capital derived equity values for Beta, without giving effect to any of the transactions contemplated in this proxy statement, of \$1.55 to \$2.10 per share.

Private Investment in Public Equities (PIPE) Study. In addition to the valuations described above, Petro Capital analyzed 50 PIPE transactions closed from September 8, 2003 until October 17, 2003. Of these transactions:

43 involved issuances of common stock; and

7 involved issuances of convertible debt.

Petro Capital also analyzed 38 PIPE transactions by only exploration and production companies closed from March 8, 2001 until October 17, 2003. Of these transactions:

32 involved issuances of common stock; and

6 involved issuances of convertible debt.

Empirical data observed in this analysis of all PIPE transactions indicate that 55% of the companies that issued common stock or convertible debt in PIPE transactions issued warrants in connection with the common stock or convertible debt. (Petro Capital was unable to obtain this comparable information in three of the 50 PIPE transactions that it reviewed.) The ratios of the prices at which the common stock transactions analyzed in all companies were consummated compared to the pre-transaction market value of the underlying securities indicated a range of price to market value from a 66.8% discount to a 4.7% premium. (Petro Capital was unable to obtain this comparable information in six of the 50 PIPE transactions that it reviewed.) The ratios of the prices at which the common stock transactions analyzed in exploration and production companies were consummated compared to the pre-transaction market value of the underlying securities indicated a range of price to market value from a 64.3% discount to a 2.0% discount (Petro Capital was unable to obtain this comparable information in 25 of the 50 PIPE transactions that it reviewed.) The \$1.65 per share price in the Petrohawk transaction (ignoring, for this purpose, any value attributable to the warrants) represents an approximately 8.6% premium to the average closing price of Beta's common stock for the last 30 trading days ending on November 4, 2003. The \$2.00 conversion price of the convertible notes in the Petrohawk transaction represents an approximately 31.6% premium to the average closing price of Beta's common stock for the last 30 trading days ending on November 4, 2003.

The empirical data observed in the PIPE transactions study indicate that the terms of the sale of the common stock, warrants and convertible note, including the purchase price discount or premium to market price and warrant coverage, were within the ranges observed for other recent comparable financings.

Conclusion

Based on the analyses described above, Petro Capital determined that, as of the date of the opinion, the Petrohawk transaction, taken as a whole, is fair to Beta from a financial point of view.

Petro Capital was not asked to opine and did not express any opinion as to: (i) the tax or legal consequences of the Petrohawk transaction or the transaction documents; (ii) the realizable value of Beta's common stock or the prices at which our common stock may trade; or (iii) the fairness of any specific term of the Petrohawk transaction or any other aspect of the Petrohawk transaction not expressly addressed in the opinion.

The opinion does not address the underlying business decision of Beta to effect the Petrohawk transaction or to enter into the transaction documents; nor does it constitute a recommendation or investment advice to any stockholder as to whether the stockholder should vote in favor of the portions of the Petrohawk transaction that are subject to stockholder approval.

Petro Capital was not requested to, and it did not, solicit third party indications of interest in acquiring all or any part of Beta. Other than assisting us with negotiating the purchase price of the Petrohawk transaction with Petrohawk's financial advisor, Petro Capital did not assist us in negotiating any terms of the Petrohawk transaction or the transaction documents and did not advise us with respect to any alternatives to the Petrohawk transaction.

The summary set forth above describes the material points of the financial analyses performed by Petro Capital in arriving at the opinion. The preparation of a fairness opinion is a complex analytical process involving various determinations as to the most appropriate and relevant methods of financial analyses and application of those methods to the particular circumstances and is, therefore, not readily susceptible to summary description. In arriving at the opinion, Petro Capital did not attribute any particular weight to any analysis or factor considered by it, but rather made qualitative judgments as to the significance and relevance of each analysis and factor. Accordingly, Petro Capital believes that its analyses and the summary set forth herein must be considered as a whole and that selecting portions of its analyses or portions of this summary, without considering all analyses and factors, or all portions of this summary, could create an incomplete and/or inaccurate view of the processes underlying the analyses performed in connection with rendering the opinion. In its analyses, Petro Capital made numerous assumptions, many of which involve facts or actions which are beyond our control, with respect to Beta, the Petrohawk transaction, the consummation of the Petrohawk transaction in accordance with the transaction documents, industry performance, general business, economic, market and financial conditions and other matters, and the accuracy and completeness of the information provided to it by Beta's management (including without limitation, Beta's financial forecasts and projections). The estimates contained in such analyses are not necessarily indicative of actual values or predictive of future results or values, which may be more or less favorable than suggested by such analyses. Additionally, analyses relating to the value of our business or securities are not appraisals. Accordingly, such analyses and estimates are inherently subject to substantial uncertainty.

Under our engagement letter with Petro Capital, we have agreed to pay Petro Capital fees totaling \$600,000 in connection with the Petrohawk transaction, including a fee of \$100,000 for the fairness opinion. The balance of this fee is contingent on the consummation of the Petrohawk transaction. In addition, we have paid Petro Capital a monthly retainer of \$6,250 (which is expected to continue through the closing) and a fee of \$35,000 to work with us to analyze a possible shareholder rights plan. We have also agreed, among other things, to reimburse Petro Capital for certain of its reasonable out-of-pocket expenses incurred in connection with the services provided by Petro Capital, and to indemnify and hold harmless Petro Capital and other related parties from and against various liabilities and expenses, which may include liabilities under the federal securities laws, in connection with its engagement.

Interests of Certain Persons in the Petrohawk Transaction

In considering the recommendation of the board with respect to the Petrohawk transaction, stockholders should be aware that David A. Wilkins, our president, chief executive officer and a director, Robert C. Stone, Jr., a director, and Joseph L. Burnett, our chief financial officer, have interests in the Petrohawk transaction that are in addition to the interests of stockholders in general. The board was aware of these interests of Mr. Wilkins and Mr. Burnett and considered them along with the other matters described herein in approving the Petrohawk transaction and determining to recommend the Petrohawk transaction to the stockholders for approval. The interest of Mr. Stone did not arise until long after the Board approved the purchase agreement and decided to recommend the Petrohawk transaction to the Beta stockholders.

Our board of directors approved a severance arrangement for all of our employees in connection with the consummation of the Petrohawk transaction. Under this arrangement, all outstanding employee stock options will vest in full and the options will continue to be exercisable for a period of five years from the date of closing or until they would have otherwise expired absent termination of employment, whichever is shorter, even if the employment of the option holder is terminated. Under the current option provisions, only a portion of the options are currently exercisable (the remaining options vest over time) and would terminate at the end of 90 days following termination of the employment of the option holder. In addition, under certain conditions each employee will receive a severance payment equal to a stated multiple of his or her monthly salary. Messrs. Wilkins and Burnett hold options or warrants covering 600,000 shares and 255,000, shares respectively, and will be eligible to receive severance payments of \$160,000 and \$125,000 respectively, which equal one year's salary, upon termination of their employment.

In March of 2004, Petrohawk announced to us its intention to propose that each of the non-employee directors of Beta serving after the closing receive grants of 15,000 shares of our common stock as consideration for their service on the board. Mr. Stone is the only current board member who will continue on the board after the closing of the transaction and, thus, is expected to receive 15,000 shares of our common stock, assuming that the transaction is closed and the newly constituted board approves these grants.

Information About Petrohawk

Petrohawk Energy, LLC, a Delaware limited liability company was formed in 2003. Petrohawk is a privately held company and is engaged in the acquisition, development, production and exploration of oil and natural gas. As a result of the Petrohawk transaction, Petrohawk will own approximately 55% of the Company but our stockholders will acquire no interest in Petrohawk or its other assets or operations except to the extent they are subsequently sold to us. Even though we will continue to be publicly held, we will be, in effect, the majority-owned operating subsidiary for Petrohawk's oil and gas exploration, development and production operations. A vote or consent of the members of Petrohawk in connection with the transactions contemplated under this proxy statement is not required pursuant to Petrohawk's Limited Liability Company Agreement or pursuant to the Delaware Limited Liability Company Act. In accordance with Petrohawk's limited liability company agreement, the transactions contemplated under this proxy statement have been approved by unanimous written consent of the Petrohawk board of directors. Factual information about Petrohawk in this section has been provided by Petrohawk.

Properties and Operations. Since its formation, Petrohawk has acquired undeveloped acreage, seismic data, producing properties with associated production facilities and participated in the drilling of wells. Petrohawk presently owns one producing well (State Lease 8191 #4) with associated production facilities located offshore Louisiana in the Breton Sound 11 field with current net production of approximately 0.1 Mmcfe per day. The State Lease 8191 #4 well produces from the

7,500' sand. Since completion in 1998, the well has produced approximately 1.1 Bcf and 5 MBO. Petrohawk acquired this property in the fourth quarter of 2003 and is the operator with 51.53% working interest.

In addition, Petrohawk owns one shut-in well (State Lease 16273 #1) in the Breton Sound 23 field, offshore Louisiana, which is in the process of being hooked up for production. The State Lease 16273 #1 well was drilled and completed in the 3,500' sand by another operator in 2001 but was not placed on production due to lack of an economically feasible gas market. Petrohawk acquired the property in the fourth quarter of 2003 and is in the process of laying a flowline to connect the well for sales at the Breton Sound 11 production facility. The well was placed on production in April 2004.

Additionally, Petrohawk owns one undeveloped lease and associated seismic data in the Main Pass/Breton Sound area, offshore Louisiana. The undeveloped lease is State Lease #18003 in Main Pass Block 5. It was acquired in January 2004 for approximately \$82,000, net to Petrohawk's 25% working interest. The lease covers 781 acres and has a five year term with yearly delay rentals of \$183 per acre.

Finally, in its ongoing business activities, Petrohawk is continuously reviewing other opportunities to acquire, develop and operate attractive properties, and upon any consummation of an interest that would be appropriate to the business of Beta, Petrohawk intends to offer the opportunity to Beta, following appropriate procedures, including those outlined in the following paragraph.

Proposed Sale of Petrohawk's Properties to Beta. Petrohawk has stated that after closing, it intends to offer to us for sale all of its oil and gas properties and that it intends to offer to us any other opportunities it has developed prior to closing. The post-closing board of directors of Beta will form a committee of disinterested directors with no financial interest in Petrohawk to evaluate and consider approval of these proposals. It is expected that Robert C. Stone, Jr. will be the sole member of this committee. It is expected that the disinterested director committee will engage a third party oil and gas property appraiser to prepare a fair market value report of the Petrohawk properties. It is also anticipated that if the disinterested director committee, after reviewing the fair market value report and other information related to the transaction, concludes that the purchase price offered by Petrohawk for its properties is fair to Beta, then the transaction will close. If the disinterested director committee concludes that the transaction is not fair to Beta, then it is anticipated that the disinterested director committee will attempt to renegotiate the purchase price or the transaction will not close and Petrohawk will continue to own the properties.

Agreements with Plains Exploration & Production Company. In connection with the acquisition of 3TEC Energy Corporation by Plains Exploration & Production Company, Mr. Wilson entered into a noncompetition agreement with Plains in which he agreed not to compete with Plains in certain areas of south Louisiana until June 4, 2004. Mr. Wilson has also agreed not to become a director or an employee of any company that competes with Plains in that same area for that same period. We have properties in the areas covered by the noncompetition agreement. Plains and Mr. Wilson entered into a partial waiver of noncompetition agreement dated December 11, 2003 in which Plains waived its rights to enforce the terms of the noncompetition agreement with respect to activities covered by the Exploration Agreement described below and also waived its rights to enforce the terms of the noncompetition agreement with respect to 12 specific wells, 10 of which are owned by us and two of which are owned by Petrohawk. Additionally, on January 14, 2004, Plains and Mr. Wilson entered into an amendment to and ratification of partial waiver of noncompetition agreement whereby Plains waived its rights to enforce the terms of the noncompetition agreement with respect to three additional wells which are owned by us.

In connection with obtaining the partial waiver of the noncompetition agreement, Petrohawk entered into an exploration agreement with Plains. Under this agreement, Petrohawk and Plains have mutually agreed to conduct joint activities in a certain area of offshore Louisiana covering

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

approximately 82,500 acres. The agreement was entered into on December 11, 2003, and is for a five year term.

Under the agreement, Petrohawk has agreed to purchase a one-quarter interest in the leases associated with the first 10 prospect areas proposed by Plains. On the first well on the first five prospects, Petrohawk has agreed to pay for one-third of all drilling costs even though it is receiving a one-quarter interest. In addition, Petrohawk has agreed to pay to Plains a prospect fee of \$75,000 for each exploratory well in which Petrohawk participates.

If Petrohawk does not participate in at least five exploratory prospects during the term of the agreement and at least five exploratory prospects have been proposed by Plains and Plains has commenced drilling on at least five exploratory prospects that were proposed, Petrohawk is required to pay Plains \$300,000 multiplied by the difference between five and the number of wells participated in by Petrohawk. In addition, if Petrohawk elects not to participate in an exploratory well on a prospect proposed by Plains, Petrohawk will forfeit all of its interest in the leases in that prospect that it has acquired.

Petrohawk intends to assign its rights and commitments under these agreements to Beta after the closing of the Petrohawk transaction. If this occurs, we will become subject to the commitments and entitled to the benefits of, the exploration agreement.

Special Meeting. We will take all action necessary in accordance with law and our organizational documents to call and hold a special meeting of stockholders as promptly as practicable to vote upon the items included in this proxy statement. The board of directors shall, subject to its fiduciary duties:

recommend to the stockholders that they adopt and approve the Petrohawk transaction, the amendment of the articles of incorporation and other matters included in this proxy statement,

use its reasonable best efforts to solicit proxies in favor of such adoption and approval, and

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

take all other action reasonable necessary to secure a vote in favor of such adoption and approval.

Continuation of Indemnification. After the closing, for a period of at least five years, Beta and Petrohawk will use all reasonable efforts to cause us to continue to indemnify, defend and hold harmless the officers, directors and employees of us and our subsidiaries who were officers, directors or employees prior to the closing from and against all losses or liabilities which are due to such positions or arising out of the Petrohawk transaction. After the closing, Beta will and Petrohawk will use all reasonable efforts to cause our officers and directors liability insurance to remain in effect.

No Shop Covenant.

Until the termination of the purchase agreement, we have committed that we shall not, and shall cause our officers, directors, employees or other agents not to:

take any action to solicit, initiate or encourage any "company acquisition proposal" (as defined below), or

engage in discussions or negotiations with, or disclose any nonpublic information or afford access to our books and records to any person who may be considering making, or has made a company acquisition proposal.

However, this does not prohibit us or our board of directors from:

in response to a third party inquiry, stating that we are precluded from discussion or negotiations;

taking and disclosing a position with respect to a tender offer; or

prior to obtaining stockholder approval, furnishing information, including nonpublic information to, or entering into negotiations with, a person that had indicated its willingness to make an unsolicited bona fide company acquisition proposal if:

such unsolicited bona fide proposal is made by a third party that our board of directors determines in good faith has the good faith intent to proceed with negotiations to consider, and the financial and legal capacity to consummate, such company acquisition proposal,

the board of directors determines in good faith after consultation with its legal counsel and financial advisor that such company acquisition proposal is a "superior proposal" (as defined below),

we enter into a confidentiality agreement with such person,

we provide written notice to Petrohawk that we are furnishing information to, or entering into discussions or negotiations with, such person;

the agreement relating to such company acquisition proposal does not provide that it is subject to any financing contingencies, and

we are required to use all reasonable efforts to keep Petrohawk informed of the status and terms of such negotiations or discussions and provide Petrohawk copies of such written proposals, provided that Petrohawk agrees to execute a confidentiality agreement with respect to the information delivered to it in relation to such company acquisition proposal.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

If we intend to terminate the purchase agreement to accept a superior proposal, we must provide Petrohawk five business days prior written notice of our intent to so terminate the

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

purchase agreement. During the five day period, we must negotiate in good faith with Petrohawk to adjust the terms and conditions of the purchase agreement as would result in a revised Petrohawk proposal that is reasonably capable of being completed, and if consummated, may reasonably be expected to result in a transaction that is at least as favorable from a financial point of view to the holders of our common stock. If after such negotiations, we still choose to terminate the purchase agreement, we must pay Petrohawk \$1,000,000 upon consummation of the superior proposal.

The term "company acquisition proposal" means any offer or proposal for, or indication of interest in, a merger, acquisition, consolidation or other business combination involving us and/or our subsidiaries or the acquisition of a substantial equity interest, or a substantial portion of the assets of, us or our subsidiaries other than the Petrohawk transaction.

The term "superior proposal" means an unsolicited company acquisition proposal that our board of directors in good faith determines, after consultation with its financial advisors and outside legal counsel, is reasonably likely to be consummated, and the board of directors determines would, if consummated, result in a transaction that is more favorable from a financial point of view to our holders of common stock than the Petrohawk transaction.

Post Closing Covenants

The parties to the purchase agreement have made the following commitments and covenants regarding actions that are to be taken following the closing of the Petrohawk transaction:

Increase in Authorized Capital. In the event that Proposal No. 2 is not approved by our stockholders at the special meeting, the parties have agreed to present another proposal to amend the articles of incorporation to increase the number of authorized shares of common stock to 100,000,000 following the closing. Since Petrohawk will then own approximately 55% of our outstanding common stock and 54% of the outstanding voting power, it is expected that this proposal would be approved at that time. Petrohawk also agrees not to exercise any of the warrants or its conversion rights under the convertible note if there will not be enough authorized but unissued shares of common stock available for employees and former employees to exercise of all of the then outstanding options to purchase shares of common stock.

Amendment of Stock Options. The parties agree to present to our stockholders a proposal to approve amendments to employee stock options to extend the expiration dates to five years from the date of closing or until they would have otherwise expired absent termination of employment, whichever is earlier, even in the event of termination of employment. See "Interests of Certain Persons in the Petrohawk Transaction." Petrohawk agrees that it will vote for approval of such amendments. Since Petrohawk will then own approximately 55% of our outstanding common stock and 54% of the outstanding voting power, it is expected that this proposal would be approved at that time.

Registration Statement. If not filed prior to closing, the parties have agreed that a registration statement on Form S-8 covering the offer and sale of the common stock to be issued to holders of employee and directors stock options which are held at the time of closing will be filed after the closing. The registration statement is to remain effective until all such stock options have been exercised or have expired.

Termination of the Purchase Agreement

The purchase agreement may be terminated before or after stockholder approval:

by mutual written consent of Petrohawk and us;

by either Petrohawk or us if the closing has not occurred on or before May 31, 2004, provided that the party seeking to terminate the purchase agreement shall not have breached in any material respect its obligations under the purchase agreement in any manner that shall have proximately contributed to the failure to close the Petrohawk transaction;

by Petrohawk if there has been a material breach by us of any representation, warranty, covenant or agreement in the purchase agreement which has not been cured within 20 business days following receipt by us of notice of such breach;

by us if there has been a material breach by Petrohawk of any representation, warranty, covenant or agreement in the purchase agreement which has not been cured within 20 business days following receipt by Petrohawk of notice of such breach;

by either us or Petrohawk, if any applicable law, rule or regulation makes consummation of the Petrohawk transaction illegal or if any judgment, injunction, order or decree of a court or other governmental authority restrains or prohibits the consummation of the Petrohawk transaction, and such judgment, injunction, order or decree becomes final and nonappealable;

by either us or Petrohawk if stockholder approval of the Petrohawk transaction is not obtained at the special meeting;

by us if we accept a superior proposal, and have negotiated with Petrohawk to revise the purchase agreement to one that is reasonably capable of being completed, and if consummated, may reasonably be expected to result in a transaction that is at least as favorable from a financial point of view to the holders of our common stock, and pay Petrohawk \$1,000,000, all as more fully described under "No Shop Covenant" above; or

by Petrohawk if we accept a superior proposal, provided that we shall promptly pay Petrohawk \$1,000,000.

Effect of Termination

If:

the purchase agreement is terminated by us because there has been a material breach by Petrohawk of its representations, warranties, covenants or agreements in the purchase agreement and the breach is not cured within 20 days, then Petrohawk shall promptly pay us a termination fee of \$1,000,000;

the purchase agreement is terminated by Petrohawk because there has been a material breach by us of our representations, warranties, covenants or agreements in the purchase agreement and the breach is not cured within 20 days, then we shall promptly pay Petrohawk a termination fee of \$1,000,000; or

if:

a company acquisition proposal has been made or another person has made publicly known an intention to make a company acquisition proposal, and

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

the purchase agreement is terminated because stockholder approval of the Petrohawk transaction is not obtained or the closing has not occurred by May 31, 2004,

and

within 12 months of the termination of the purchase agreement,

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

a transaction is consummated which if offered or proposed prior to the termination of the purchase agreement would have constituted a company acquisition proposal, or

a person acquires beneficial ownership or the right to beneficial ownership of outstanding shares of our capital stock representing 50% or more of the power to vote for the election of directors and the board of directors has taken action to facilitate the acquisition of such beneficial ownership,

then we shall pay to Petrohawk a termination fee of \$1,000,000.

Additionally, if we accept a superior proposal under the conditions described above in "No Shop Covenant" and "Termination of the Purchase Agreement," then we shall pay Petrohawk a termination fee of \$1,000,000.

Indemnification

We have agreed to indemnify, defend and hold harmless Petrohawk for losses it may incur as a result of knowing breaches of our representations and warranties. There are several limitations on our indemnity obligations which include:

we are not liable to Petrohawk until the losses for which indemnification would otherwise apply exceeds \$1,000,000 and we are liable only for amounts in excess of the \$1,000,000 threshold;

our indemnification obligations are limited to \$5,000,000; and

all claims for indemnification must be submitted within one year from the date of closing.

We are not obligated to make any cash payments to Petrohawk in respect of our indemnification obligations. Any indemnification obligation we have shall be satisfied by crediting the amount of the indemnifiable loss to the amounts otherwise payable by Petrohawk upon exercise of the warrants. If the amount of the indemnified loss exceeds the aggregate amount of the warrant exercise price of all warrants held by Petrohawk at the time of the determination of the indemnified loss, we will have no obligation to pay or credit Petrohawk an amount in excess of such aggregate warrant exercise price.

Description of Our Common Stock

Authorized Capital

Our authorized capital stock consists of 50,000,000 shares of common stock, par value \$.001 per share, and 5,000,000 shares of preferred stock, par value \$.001 per share. On March 1, 2004, there were 12,429,307 shares of our common stock outstanding, and 604,271 shares of our 8% Cumulative Convertible Preferred Stock, our only series of preferred stock, outstanding.

Common Stock

The holders of our common stock are entitled to one vote per share on all matters voted on by stockholders, except in the case of cumulative voting for directors. All of our holders of common stock have cumulative voting rights when voting for directors if written notice of a desire for cumulative voting is properly given by one or more stockholders in advance of the meeting. Cumulative voting means holders of common stock are entitled to as many votes as equals the number of shares held on the record date multiplied by the number of directors to be elected. Holders may cast all votes for a single director or distribute their votes among any two or more of the candidates. Each outstanding share of our common stock and 8% Cumulative Convertible Preferred Stock is entitled to one vote.

Holders of our common stock are entitled to such distributions as may be declared from time to time by our board of directors from funds available for distributions, subject to the preferential rights of our preferred stockholders. Upon liquidation, holders of our common stock are entitled to receive

pro rata all of our assets available for distribution to our stockholders, subject to any preferential rights of our preferred stockholders. All shares of our common stock issued in the acquisition will be fully paid and nonassessable and the holders of that stock will not have preemptive rights to purchase additional shares.

Terms of the Convertible Note

We will issue to Petrohawk a convertible promissory note in the original principal amount of \$35,000,000. Below is a summary of the terms of the note.

Maturity

The convertible note is unsecured and will mature on the fifth anniversary of the closing date, at which time all of the outstanding principal and accrued but unpaid interest will be due and payable. No installments of principal are due prior to maturity absent a default.

Interest

Interest on the convertible note is payable at a rate of 8% per annum payable quarterly. The interest rate will increase to 15% if we default on any payment obligation under the convertible note.

Prepayment

We may prepay the principal on the convertible note with 30 days notice to the noteholder at any time after two years after the closing.

Subordination to Bank Debt

The rights of the holder of the convertible note, including its rights to payment of principal and interest, will be subordinated to the rights of Bank of Oklahoma, National Association under our current credit agreement with that bank. As of December 31, 2003, there was approximately \$13,284,652 outstanding pursuant to the Bank of Oklahoma credit agreement. However, if we issue any new debt other than trade debt or replacement bank debt, it must be subordinate to the debt represented by the convertible note or else it will be a default under the terms of the convertible note. We plan to retire our bank debt with a portion of the proceeds we receive from Petrohawk. As a result of the issuance of the convertible promissory note, our long-term debt will increase by approximately \$21.7 million, which is the original principal amount of the note minus the amount of our existing debt of \$13.3 million at December 31, 2003.

Conversion

At any time beginning two years after the closing or upon a change in control, a holder of the convertible note may convert all or any portion of the outstanding principal and accrued interest into common stock at a conversion price of \$2.00 per share, subject to adjustment for stock dividends, stock splits and similar events.

Events of Default

An event of default will occur under the convertible note upon the happening of any of the following events:

any failure to pay principal or interest when due;

any representation, warranty, certification or statement made pursuant to the purchase agreement or the Petrohawk transaction documents is proven to have been incorrect in any

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

material respect when made, at closing and when a holder of the convertible note proposes to declare an event of default as a result of such incorrect representation, warranty, certification or statement;

a default under the terms of any of our debt with a principal balance in excess of \$250,000, including under the Bank of Oklahoma credit agreement;

we or a subsidiary commence a proceeding with respect to liquidation, reorganization or other relief under any bankruptcy, insolvency or other similar law or upon the appointment of a trustee, receiver, liquidator, custodian or similar official of us or any substantial part of our property or we consent to such relief or to the appointment of or taking possession by such official in an involuntary proceeding;

we make a general assignment for the benefit of creditors;

we generally fail to pay our debts as they become due;

an involuntary case or proceeding is commenced against us or a subsidiary seeking liquidation, reorganization or other relief under any bankruptcy, insolvency or other similar law, or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official, our subsidiary or any substantial part of our or a subsidiary's property, and such involuntary case or other proceeding remains undismissed and unstayed for a period of 60 days;

an order for relief is entered against us under the federal bankruptcy laws;

one or more judgments or orders in excess of \$250,000 are rendered against us or any of our subsidiaries and continue unsatisfied and unstayed for 30 days, or are not fully paid at least ten days prior to the date on which any of our assets may be lawfully sold to satisfy such judgment or order;

any change of control other than as caused by any sales of the common stock shares converted under the convertible note or warrant shares by the noteholder or any of its affiliates; or

we, without the written consent of the noteholder, issue any debt (except the debt under the Bank of Oklahoma credit agreement, any replacement for the Bank of Oklahoma debt or trade payables) which is not subordinate to the convertible note.

Upon an event of default, the holder may declare the entire unpaid indebtedness under the convertible note due and payable and may exercise any other remedy permitted by the purchase agreement, the Petrohawk transaction documents and law.

Terms of the Warrants

The warrants expire on the fifth anniversary of the closing date. The warrants are exercisable at any time after closing to purchase up to 10,000,000 shares of common stock at an exercise price of \$1.65 per share of common stock, subject to adjustment for stock splits, stock dividends and similar events. The warrant exercise price may be paid in cash, by delivering to the Company warrants or common stock having a fair market value equal to the warrant exercise price, by offsetting the principal balance of the convertible note, or a combination of the foregoing.

Terms of the Registration Rights Agreement

General. The registration rights agreement will be executed and delivered at the closing by Petrohawk and us. The shares that are the subject of the registration rights agreement include the common stock to be issued at closing as well as the common stock issuable upon conversion of the convertible note, and upon exercise of the warrants. These shares of common stock are referred to as registrable securities.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

Registration. Under the registration rights agreement, Petrohawk and any of its affiliates who own registrable securities have the right to require us to use our best efforts to cause registration and sale in a public offering of all or a portion of the registrable securities. We have also granted Petrohawk piggyback registration rights under the registration rights agreement. Under these piggyback registration rights, if we decide to file a registration statement on our own behalf, holders of the registrable securities have the right to require us to include shares they own in the registration, subject to an underwriter's judgment that inclusion of these shares would exceed the number of shares that can be sold within the price range acceptable to us. We have the right to require Petrohawk to refrain from offering or selling any shares of common stock that it owns which are not included in any such registration statement for a reasonable time period, not to exceed 90 days, by any managing underwriter of the offering to which such registration statement relates.

We will pay the registration expenses of Petrohawk's registrable securities that are included in any registration.

Terms of the Stockholders Agreement

Petrohawk, Beta and certain of our principal stockholders, including two of our directors, Rolf N. Hufnagel and Robert E. Davis, Jr., who together own approximately 28% of our voting stock, have entered into a stockholders agreement pursuant to which these stockholders agree to vote, or cause to be voted, all of our securities they own or over which they have voting control in favor of the proposal to issue the common stock pursuant to the purchase agreement, in favor of the proposal to amend the articles of incorporation to increase the number of authorized shares, and, if proposed, a reincorporation merger of, or other action by us to change our domicile to Delaware and an amendment of the outstanding stock options to extend their maturity dates. The stockholders agreement terminates upon the earliest of:

termination of the purchase agreement,

the closing of the Petrohawk transaction, and

90 days after the date of our stockholders' meeting at which the issuance of the securities pursuant to the purchase agreement is approved.

Under the stockholders agreement, Petrohawk agrees that during a period of one year from the date of closing, Petrohawk and its affiliates will not, without the approval of a majority of our independent directors:

commence any tender offer or exchange offer for shares of our common stock;

propose or take any action to merge us with any affiliate of Petrohawk; or

take any other action which would have a reasonable likelihood or purpose of producing the effect of causing our common stock to be no longer publicly traded.

Tax Consequences

Petrohawk's purchase of our common stock will constitute an "ownership change" under section 382 of the Internal Revenue Code because it will own more than 50% of our outstanding voting shares after the transaction is closed. As a consequence, we will be limited in our ability to use the net

operating losses we have accrued before Petrohawk's purchase ("pre-change losses") as a deduction against our taxable income we realize after the purchase. At December 31, 2003, we had available, to reduce future taxable income, an estimated Federal net operating loss carryforward of approximately \$24 million, which expires in the years 2018 through 2023. Our pre-change losses will also include a portion of any losses we accrue for the year in which the Petrohawk stock purchase takes place.

The rules under section 382 provide generally that the maximum amount of our pre-change losses that we can use against our post-change income is equal to our value before Petrohawk's purchase multiplied times a benchmark interest rate published monthly by the Federal government. If the transaction were consummated as of April 1, 2004, our value would be \$39,152,317 and the interest rate multiplier would be 4.31%, so that the maximum amount of our pre-change losses that we could use in any post-change year would be \$1,687,465. That amount may be increased by our unrealized "built-in gains" and reduced by our unrealized "built-in losses" that we recognize during the five years following the Petrohawk stock purchase. Built-in gains and built-in losses are the amounts by which the values of our assets as of the date of Petrohawk's stock purchase exceed or are exceeded by those assets' tax bases. We will make an appraisal of our assets prior to the Petrohawk stock purchase to determine the amounts of our unrealized built-in gains and built-in losses.

Stockholder Approval

We are seeking stockholder approval for Proposal No. 1 in accordance with the Marketplace Rules of The Nasdaq Stock Market. The requirements set forth in the Marketplace Rules are applicable to us because our common stock is traded on The Nasdaq National Market.

Marketplace Rule 4350(i)(1)(B) requires stockholder approval of certain transactions involving the issuance or potential issuance by Nasdaq companies of securities which result in a change of control of the company.

Immediately following the closing, Petrohawk will be issued 15,151,515 shares of common stock, the warrants to purchase 10,000,000 shares of common stock and the convertible note, under which the \$35,000,000 principal amount plus any accrued but unpaid interest will be convertible into shares of common stock at a conversion price of \$2.00 per share, subject to possible adjustments for stock dividends, stock splits and similar events. The common stock represents approximately 55% of our outstanding capital stock based on 12,429,307 shares of common stock and 604,271 shares of preferred stock outstanding as of March 1, 2004, which results in a change of control of us and thus requires stockholder approval of the Petrohawk transaction under Marketplace Rule 4350(i)(1)(B). Upon exercise of the warrants and conversion of the convertible note, Petrohawk will hold approximately 77% of our capital stock.

Board Meetings and Committees

During 2003, 18 meetings of the board of directors were held. All directors attended all meetings. The directors also took action by unanimous written consent on two occasions. The board has an executive committee, an audit committee, a compensation committee and a nominating committee.

Executive Committee

The board of directors established an executive committee whose purpose is to formulate and implement recommendations, strategies and actions, which are intended to support and protect stockholder value. The executive committee is comprised of three voting members: Robert E. Davis, Jr., Robert C. Stone, Jr. and David A. Wilkins. The board of directors created this committee to enhance the decision-making processes in all aspects of our business. This committee did not meet during 2003.

Audit Committee

The board of directors established an audit committee whose purpose is to oversee our financial reporting and controls and to recommend to the board each year the appointment of an independent auditor. Until June 20, 2003, the audit committee was comprised of two voting members: Robert C. Stone, Jr., Chairman and Robert E. Davis, Jr., both independent directors. On June 20, 2003, David A. Melman, an independent director, was appointed to the audit committee. This committee met on five occasions during 2003. The board of directors has adopted a written charter for the audit committee.

Compensation Committee

Our board of directors established a compensation committee of the board of directors. The compensation committee is responsible for formulating and recommending to the full board of directors the compensation paid to our executive officers. The compensation committee also administers the Amended and Restated 1999 Incentive and Nonstatutory Stock Option Plan. The committee presently consists of Robert C. Stone, Jr., Robert E. Davis, Jr. and Rolf N. Hufnagel, who replaced David A. Wilkins in June 2003. The compensation committee is discussed in more detail in the section entitled "Executive Compensation." This committee met three times during 2003.

Nominating Committee Information

Our board of directors established a nominating committee of the board of directors in October of 2002. The nominating committee is generally responsible for considering and recommending to the board of directors possible nominees for director positions. The committee presently consists of Robert C. Stone, Jr., Robert E. Davis, Jr. and David Melman, who replaced David A. Wilkins in June 2003. The nominating committee does not have a written charter nor has it developed a policy with regard to the consideration of any director candidates recommended by stockholders or the qualifications the nominees for directors should possess. In light of the anticipated restructuring of the board after the closing of the Petrohawk transaction, our current board has elected to defer developing and implementing any policies and procedures until after the closing of the Petrohawk transaction or the termination of the securities purchase agreement if Proposal No. 1 is not approved or the Petrohawk transaction fails to close for any other reason. This committee met one time during 2003.

Stockholder Communication with the Board of Directors

The board of directors has not previously developed a formal process for security holders to communicate with the board of directors. In light of the anticipated restructuring of the board after the closing of the Petrohawk transaction, our current board has elected to defer developing and implementing any policies and procedures until after the closing of the Petrohawk transaction or the termination of the securities purchase agreement if Proposal No. 1 is not approved or the Petrohawk transaction fails to close for any other reason.

Historically, we have held board meetings at the time of our annual meetings of stockholders and have informally encouraged our directors to attend. However, we have had no formal policy in this regard. All of our directors attended our last annual meeting of stockholders which was held on June 20, 2003.

Compensation of Directors

Employee directors receive no additional compensation for service on the board of directors or any committee thereof. Our bylaws state that our non-employee directors shall not receive any stated salary for their services, but, by resolution of the board of directors, a fixed sum and expense of attendance, if any, may be allowed for attendance at each regular and special meeting of the board of directors. All our directors receive actual expense reimbursements, and we currently pay \$1,500 in fees to each of our outside directors per board and committee meeting, including meetings held by teleconference. In 2003, the aggregate of the directors' fees to all outside directors was \$141,500.

Prior to July 1, 2003, non-employee directors received options to purchase 50,000 shares of our common stock for their initial year of service and 25,000 each year thereafter, if re-elected, on their anniversary dates, provided that options granted to each of these directors could not cover more than 100,000 shares in the aggregate. This policy changed so that effective July 1, 2003, directors receive only annual option grants covering 10,000 shares on the date of the annual meeting but with no cap on the number of shares which may be covered by these options. Prior to July 1, 2003, the option granted to the chairman of the board of directors each year covered an additional 25,000 shares, but effective July 1, 2003, this was reduced to 15,000 additional shares each year. Prior to July 1, 2003, the chairman of the audit committee received an additional 25,000 shares covered by his option each year but this was reduced to 15,000 shares effective July 1, 2003. The exercise price of these options is equal to 110% of the fair market value of the common stock on the date of grant. We maintain directors and officers liability insurance. In addition, in 2003 Robert E. Davis, Jr. was granted options to purchase 14,583 shares of our company stock on April 22, 2003. In April 2003 an option to purchase 50,000 shares of our common stock with an exercise price of \$1.00 per share, was issued to Mr. Stone for past and present services provided as chairman of our audit committee for the service period of 2001-2003.

Additionally, Mr. Stone returned fully vested options covering 50,000 shares with an exercise price of \$10.00 per share and 25,000 shares with an exercise price of \$5.22 per share. In exchange for these returned options, Mr. Stone received three stock options covering a total of 75,000 shares of common stock which were granted in 25,000 increments at June 30, 2003, September 30, 2003 and December 31, 2003 at exercise prices equal to or greater than 110% of the closing price of the common stock on The Nasdaq Stock Market, or \$1.00 per share, whichever was greater on the respective dates of grant. The options vested immediately on the grant dates and have a ten-year life. The exercise prices of the grants ranged from \$1.46 to \$2.17 per share.

Stock Options

We use stock options as part of the overall compensation of directors, officers and employees. In the following table, we show certain information with respect to stock options granted in 2003 to the named executive officers.

Option Grants in 2003

Name	Number of securities underlying Options#	Percent of total options granted to employees in 2003(1)	Exercise or base price (\$/Sh)	Expiration date	Potential realizable value at assumed annual rates of stock price appreciation for option term		
					0% (\$)	5% \$(2)	10% \$(2)
David A. Wilkins	100,000(3)	25%	\$ 1.90	12/31/2013	\$ 7,000	\$ 119,491	\$ 302,803
Joseph L. Burnett	100,000(4)	25%	\$ 1.00	04/22/2009	\$	\$ 34,010	\$ 77,160

(1) Based on a total of 405,500 shares underlying options being granted to certain employees during fiscal 2003.

(2) Caution is recommended in interpreting the financial significance of these figures. The figures are calculated by multiplying the number of options granted times the difference between a future hypothetical stock price and the option exercise price and are shown pursuant to rules of the SEC. These amounts are calculated based on the indicated annual rates of appreciation and annual compounding from the date of grant to the end of the option term. Actual gains, if any, on stock option exercises are dependent on the future performance of the common stock and overall stock market conditions. There is no assurance that the amounts reflected in this table will be achieved.

(3) All options were granted on December 31, 2003 at an exercise price equal to the fair market value of the common stock on the preceding day to date of grant. The closing price of the stock on the date of grant was \$1.97 per share. The options have a term of ten years and vest over a three-year period from the date of grant with one third becoming exercisable on the first anniversary of the grant, one third becoming exercisable on the second anniversary of the grant and the remaining one third becoming exercisable on the third anniversary of the grant. Subject to closing of the Petrohawk transaction and subsequent stockholder approval, the option agreements with Mr. Wilkins will be amended to provide that they will be exercisable in full immediately and they will continue to be exercisable through the fifth anniversary of the closing of the Petrohawk transaction even if Mr. Wilkins' employment should be terminated. See "Terms of the Purchase Agreement Covenants Post-Closing Covenants Amendment of Stock Options."

(4) All options were granted on April 22, 2003 at an exercise price equal to the greater of fair market value of the common stock on that date or \$1.00. The options have a term of six years and vest over a three-year period from the date of grant with one-third becoming exercisable on the first anniversary of the grant, one third becoming exercisable on the second anniversary of the grant and the remaining one third becoming exercisable on the third anniversary of the grant. Subject to closing of the Petrohawk transaction and subsequent stockholder approval, the option agreements with Mr. Burnett will be amended to provide that they will be exercisable in full immediately and they will continue to be exercisable through the fifth anniversary of the closing of the Petrohawk transaction even if Mr. Burnett's employment should be terminated. See "Terms of the Purchase Agreement Covenants Post-Closing Covenants Amendment of Stock Options."

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

The following table shows certain information with respect to stock options exercised in 2003 by Mr. Wilkins and Mr. Burnett and the value of their unexercised stock options at December 31, 2003.

Aggregated Option Exercises in 2003 and Fiscal Year End Option Values

Joseph L. Burnett(3)	None	None	155,000/100,000	\$0/\$97,000

(1) The value of in-the-money options is equal to the fair market value of a share of common stock at fiscal year end, based on the last sale price of our common stock (\$1.97 per share), less the exercise price.

(2) As more fully described in the Summary Compensation Table and in the table under "Option Grants in 2003", Mr. Wilkins was granted options covering 100,000 shares of common stock during 2003. In 2002, he was granted options covering 500,000 shares of common stock as discussed below under "Employment Agreements, Termination of Employment and Change of Control Agreements."

(3) Mr. Burnett was granted options covering 100,000 shares of common stock during 2003. In 2001, he was granted options covering 25,000 shares of common stock and in 2000, he was granted options covering 30,000 shares of common stock. He was granted 100,000 stock purchase warrants in 2000 as an inducement to accept employment with us.

Employment Agreements, Termination of Employment and Change of Control Arrangements

Effective October 21, 2002, David A. Wilkins was appointed as our President and Chief Executive Officer and joined our board of directors. Mr. Wilkins' compensation includes an annual base salary of \$160,000 and eligibility for 2003 incentive compensation equal to, and not less than, \$64,000, which is 40% of his annual salary, payable on February 1, 2004 if he is still employed on that date. In consideration for the forfeiture of his incentive common stock options (vested and unvested) with his former employer, he received a \$50,000 bonus paid upon his commencement of employment and a \$250,000 bonus paid on January 2, 2003, a \$150,000 bonus paid on July 1, 2003, and a \$150,000 bonus payable on January 2, 2004 provided Mr. Wilkins is still employed by us on that date. Upon commencement of his employment, Mr. Wilkins was granted options to purchase 500,000 shares of our stock at an exercise price of \$1.30 per share and on December 31, 2003 was granted an option to purchase 100,000 shares at a price equal to \$1.90 per share, our common stock closing price on Nasdaq for the preceding day. These options have a term of ten years and vest over a three-year period from the date of grant, with one third becoming exercisable on the first anniversary of the grant, one third becoming exercisable on the second anniversary of the grant and the remaining one third becoming exercisable on the third anniversary of the grant. Subject to closing of the Petrohawk transaction and subsequent stockholder approval, the option agreements with Mr. Wilkins will be amended to provide that they will be exercisable in full immediately and they will continue to be exercisable through the fifth anniversary of the closing of the Petrohawk transaction even if Mr. Wilkins' employment should be terminated. Under the terms of the purchase agreement, Petrohawk has agreed to present to our stockholders following the closing a proposal that the amendment of these options and all of the other options held by our employees be approved and to vote its shares in favor of the proposal. See "Terms of the Purchase Agreement Covenants Post-Closing Covenants Amendment of Stock Options."

Joseph L. Burnett, our Chief Financial Officer and Secretary, has options and warrants to purchase 255,000 shares of our stock. Mr. Burnett was issued 100,000 warrants in 2000 as an inducement for his employment with us. These warrants are currently exercisable at a price of \$8.38 per share and expire May 31, 2005. Also in 2000, Mr. Burnett was granted options to purchase 30,000 shares of our stock at an exercise price of \$7.70. These options have a term of five years and vested upon grant. In 2001, Mr. Burnett was granted options to purchase 25,000 shares of our stock at an exercise price of \$4.00. These options also have a term of five years and vested upon grant. In 2003, Mr. Burnett was granted options to purchase 100,000 shares of our stock at an exercise price of \$1.00. These options have a term of six years and vest over a three-year period from the date of grant, with one third becoming exercisable on the first anniversary of the grant, one third becoming exercisable on the second anniversary of the grant and the remaining one third becoming exercisable on the third anniversary of the grant. Subject to closing of the Petrohawk transaction and subsequent stockholder approval, the option agreements with Mr. Burnett will be amended to provide that they will be exercisable in full immediately and they will continue to be exercisable through the fifth anniversary of the closing of the Petrohawk transaction or until they would have otherwise expired absent termination of employment, whichever is earlier, even if Mr. Burnett's employment should be terminated. Under the terms of the purchase agreement, Petrohawk has agreed to present to our stockholders following the closing a proposal that the amendment of these options and all of the other options held by our employees be approved and to vote its shares in favor of the proposal. See "Terms of the Purchase Agreement Covenants Post-Closing Covenants Amendment of Stock Options."

Compensation Committee Report on Executive Compensation

During 2003, the members of the compensation committee were Robert C. Stone, Jr., Robert E. Davis, Jr., outside directors of Beta, and from October 21, 2002 until June 20, 2003, David A. Wilkins, President and Chief Executive Officer. On June 20, 2003, Rolf N. Hufnagel replaced Mr. Wilkins and the compensation committee now consists of all outside directors.

Report of the Compensation Committee

As the compensation committee of the board of directors, we are responsible for formulating and recommending to the full board of directors the compensation paid to Beta's executive officers, including Mr. Wilkins, the President and Chief Executive Officer. We generally review executive compensation on an annual basis. In reviewing the overall compensation of our executive officers, we consider the following components of executive compensation:

base salaries;

stock option grants;

cash bonuses;

insurance plans; and

contributions by Beta to the retirement plan.

In establishing the compensation paid to our executives, we emphasize providing compensation that will

motivate and retain the executives and reward performance,

encourage the long term success of Beta, and

encourage the application of prudent decision making processes in an industry marked by volatility and high risk.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

Historically, we have evaluated compensation paid to our executive officers based upon the following factors:

the growth in Beta's oil and gas reserves;

the market value of Beta's common stock;

cash flow;

the extent to which the executive officers have been successful in finding and creating opportunities for Beta to participate in drilling or acquisition ventures having quality prospects;

the ability of our executives to formulate and maintain sound budgets for drilling ventures and other business activities;

the overall financial condition of Beta;

the extent to which proposed business plans are met; and

by comparing the compensation packages of our executive officers with the compensation packages of executive officers of other companies similar to Beta.

We do not assign relative weights or rankings to these factors. Instead, we make subjective determinations based upon a consideration of all of these factors.

In establishing base salaries for the executive officers, we have not relied on independent consultants to analyze or prepare formal surveys for us. However, we do make informal comparisons of our executives' compensation with the compensation paid to executives of other publicly and privately held companies similar to Beta. We also rely on our general knowledge and experience in the oil and gas industry, focusing on a subjective analysis of each of our executives' contributions to Beta's overall performance. In addition, we take into account the fact that we do not provide significant perquisites to our executive officers. While specific performance levels or "benchmarks" are not used to establish salaries or grant stock options, we do take into account historic comparisons of Beta's performance. With respect to awards of stock options, we attempt to provide the executives with an incentive compensation vehicle that could result in future additional compensation to the executives, but only if the value of our common stock increases for all stockholders. All stock options are granted with exercise prices equal to or greater than the fair market value of the common stock on the date of grant. When awarding stock options, we consider the number of options granted on prior occasions and the length of time between option grants.

As partial consideration for the forfeiture of Mr. Wilkins' incentive common stock options (vested and unvested) with his former employer, Mr. Wilkins was granted an option to purchase 500,000 shares of Beta's stock at an exercise price of \$1.30 per share. We also granted Mr. Wilkins an option to purchase 100,000 shares on December 31, 2003 at an exercise price of \$1.90 per share. All of these options have a term of ten years and vest over a three-year period from the date of grant, with one third becoming exercisable on the first anniversary of the grant, one third becoming exercisable on the second anniversary of the grant and the remaining one third becoming exercisable on the third anniversary of the grant. We also awarded a \$50,000 cash signing bonus to Mr. Wilkins in October 2002 with additional deferred signing bonuses of \$250,000 on January 2, 2003, \$150,000 on July 1, 2003 and \$150,000 on January 2, 2004.

In reviewing the overall compensation offered to Mr. Wilkins for his employment with Beta, we considered Beta's overall financial condition as well as the individual contributions made by Mr. Wilkins. We feel that the stock option awards to our executive officers, including Mr. Wilkins, act as a catalyst to advancing the financial interests of stockholders along with those of management. It is our conclusion that the amount and types of compensation currently being paid to our executive

officers are sufficient to motivate them and encourage their efforts to increase the value of Beta for all stockholders.

Provisions of the Internal Revenue Code that restrict the deductibility of certain compensation over one million dollars per year has not been a factor in our considerations or recommendations.

On October 15, 2003, the compensation committee approved and recommended to our board of directors a severance arrangement for all of our employees in connection with the consummation of the Petrohawk transaction. Under this arrangement, all outstanding stock options will vest in full and the options will continue to be exercisable for a five-year period from the date of closing or until they would have otherwise expired absent termination of employment, whichever is shorter, even if the employment of the option holder is terminated. Under the current option provisions, only a portion of the options are currently exercisable (which amounts increase over time with Beta) and would terminate at the end of 90 days following termination of the employment of the option holder. In addition to the amendment of the employee stock options, each employee will receive a severance payment equal to a stated multiple of his or her monthly salary. Mr. Wilkins and Joseph L. Burnett, our Chief Financial Officer hold options covering 600,000 shares and 155,000 shares respectively, and will receive severance payments of \$160,000 and \$125,000 respectively, which equal one year's salary.

Respectfully Submitted,
Robert C. Stone, Jr.
Robert E. Davis, Jr.
Rolf N. Hufnagel

Common Stock Performance Graph

The following common stock performance graph shows the performance of Beta's stock up to December 31, 2003. As required by applicable rules of the SEC, the performance graph shown below was prepared based on the following assumptions:

1. A \$100 investment was made in our common stock and each index on 7/9/99.
2. The indices are weighted daily, using the market capitalization on the previous trading day.
3. If the quarterly interval, based on the fiscal year end, is not a trading day, the preceding trading day is used.
4. All dividends are reinvested on the ex-dividend date.

The indices in the performance graph compare the annual cumulative total stockholder return on our common stock with the cumulative total return of The Nasdaq Stock Market (U.S.) Index and a peer group index comprised of five U.S. companies engaged in crude oil and natural gas operations whose stocks were traded on Nasdaq during the period from July 9, 1999 through December 31, 2003. July 9, 1999 is the date on which we commenced trading on Nasdaq. The companies that comprise the

PROPOSAL NO. 2:

INCREASE IN AUTHORIZED CAPITAL STOCK

Our authorized capital stock consists of 55,000,000 shares, of which 50,000,000 are common stock and 5,000,000 preferred stock. At the special meeting, our board of directors will ask stockholders to approve an amendment to our articles of incorporation to increase the number of authorized shares of our capital stock from 55,000,000 to 105,000,000 shares, of which 100,000,000 will be common stock and 5,000,000 will be preferred stock. The text of this proposed amendment is included in the Certificate of Amendment attached as *Appendix F* to this proxy statement.

Overview

Under Nevada corporate law, we are required to obtain approval from our stockholders to amend our articles of incorporation to increase the number of shares of capital stock authorized for issuance. After taking into consideration our current outstanding equity obligations, together with, if approved by our stockholders, our obligations under the Petrohawk transaction as described in Proposal No. 1, the board of directors has determined that it is necessary to increase the number of shares of capital stock authorized for issuance to 105,000,000, of which 100,000,000 will be common stock and 5,000,000 will be preferred stock.

If approved by our stockholders and subject to the approval of Proposal No. 1, the change in authorized shares would become effective as soon as reasonably practicable after the special meeting by filing the Certificate of Amendment with the Nevada Secretary of State. See "Summary of Proxy Statement Stockholder Approval," above.

Reasons for Proposal

Our articles of incorporation currently authorize the issuance of up to 55,000,000 shares of capital stock, consisting of 50,000,000 shares of common stock and 5,000,000 shares of preferred stock.

As of March 1, 2004, we had 33,591,693 shares of common stock available for future issuances in excess of the outstanding common stock, our future obligations to issue common stock, and other shares of common stock that have been reserved under existing stock option plans. If our stockholders approve Proposal No. 1 and the Petrohawk transaction contemplated by Proposal No. 1 is consummated, there would be, based upon shares, warrants and stock options outstanding as of March 1, 2004, as adjusted to give effect to the issuance of securities under the Petrohawk transaction and without any increase in our authorized capital stock, an aggregate deficit of 9,059,822 shares of common stock and none available for future issuance in excess of the outstanding common stock, future obligations to issue common stock, and other shares of common stock reserved under existing stock plans, and 4,395,729 shares of preferred stock available for future issuances.

The board of directors believes that it is very important to have available for issuance a number of authorized shares of common stock and preferred stock that will be adequate to provide for future stock issuances to meet our obligations described above and for future corporate needs. The additional authorized shares would be available for issuance from time to time at the discretion of the board of directors without further stockholder action except as may be required for a particular transaction by law, the policies of Nasdaq or other agreements and restrictions, including restrictions pursuant to the terms of the preferred stock. The shares would be issuable for any proper corporate purpose, including future acquisitions, capital raising transactions consisting of either equity or convertible debt, stock splits or issuances under current and future stock plans. The board of directors believes that that these additional shares will provide us with needed flexibility to issue shares in the future without potential expense and delay incident to obtaining stockholder approval for a particular issuance. Except for our existing obligations on the date of this proxy statement and the Petrohawk transaction and other matters described herein, we do not currently have any plans, understandings or agreements for the issuance or use of the additional shares of common stock or preferred stock to be approved under this Proposal No. 2.

Principal Effects on Outstanding Common Stock

Holders of our common stock are entitled to one vote per share on all matters submitted to a vote of stockholders and to receive ratably dividends, if any, as may be declared from time to time by the board of directors from funds legally available therefore, subject to the payment of any outstanding preferential dividends declared with respect to any preferred stock that from time to time may be outstanding, including the 8% Cumulative Convertible Preferred Stock. Upon our liquidation, dissolution or winding up, holders of common stock are entitled to share ratably in any assets available for distribution to stockholders after payment of all of our obligations, subject to the rights to receive preferential distributions of the holders of any preferred stock then outstanding. Under Nevada law, once authorized, the common stock may be issued without further approval by our stockholders, subject to applicable restrictions and agreements, including restrictions pursuant to the terms of the 8% Cumulative Convertible Preferred Stock. Holders of common stock do not have any preemptive rights to subscribe for the purchase of any shares of common stock, which means that current holders of common stock do not have a prior right to purchase any new issue of common stock in order to maintain their proportionate ownership.

The proposal to increase the authorized capital stock will affect the rights of existing holders of common stock to the extent that future issuances of common stock will reduce each existing stockholder's proportionate ownership.

Although not a factor in the decision by the board of directors to increase our authorized capital stock, one of the effects of such increase may be to enable the board of directors to render more difficult or to discourage an attempt to obtain control of Beta by means of a merger, tender offer, proxy contest, or otherwise, and thereby protect the continuity of then present management. The board of directors would have additional shares of common stock available to effect, unless prohibited by the regulations of Nasdaq, applicable law or other agreements or restrictions (including restrictions pursuant to the terms of the 8% Cumulative Convertible Preferred Stock), a sale of shares (either in public or private transactions), merger, consolidation or similar transaction in which the number of our outstanding shares would be increased and would thereby dilute the interest of a party attempting to obtain control of us.

Board Recommendation

The board of directors recommends that the stockholders vote "FOR" Proposal No. 2 to increase the number of shares of common stock authorized for issuance under our articles of incorporation.

PROPOSAL NO. 3:

ADJOURNMENTS OF SPECIAL MEETING

If at our special meeting of stockholders, the holders of shares of Beta stock present, in person or by proxy, do not constitute a quorum, or the number of shares voting in favor of Proposal No. 1 or Proposal No. 2 is insufficient for approval of that proposal, there may be a proposal presented to adjourn the special meeting in order to enable the Beta board of directors to continue to solicit additional proxies in favor of either or both of the proposals.

We are asking you to authorize the holder of any proxy solicited on behalf of the Beta board of directors to vote in favor of the proposed adjournment of the special meeting, and any later adjournments, if necessary, to a date or dates not later than July 24, 2004. If the Beta stockholders approve the adjournment proposal, we could adjourn and reconvene the special meeting, and any adjourned session of the special meeting, to a date not later than July 24, 2004 and use the additional time to solicit additional proxies in favor of either or both proposals, including the solicitation of proxies from Beta stockholders that previously voted against the proposal.

Under our bylaws, the adjournment proposal requires the approval of the holders of a majority of the votes represented in person or by proxy at the special meeting. Accordingly, broker non-votes and abstentions will have the effect of a vote against this proposal.

The board of directors recommends that the stockholders vote "FOR" Proposal No. 3 to approve any proposal to adjourn the Special Meeting of Stockholders at a later date but not later than July 24, 2004.

If Petrohawk terminates this Agreement under *Section 10.1(c)*, the Company shall promptly (and in any event no later than one business day after such termination) pay to Petrohawk the Termination Fee. The payments due upon termination of the Agreement pursuant to *Section 10.1(c)* or *Section 10.1(d)* shall be considered liquidated damages, it being agreed that the amount of the actual damages incurred by the non-breaching party in any such event would be impossible or very difficult to determine accurately.

(ii) If (x) a Company Acquisition Proposal shall have been made or shall have otherwise become publicly known or any Person (other than the Company or any of its Affiliates) shall have publicly announced an intention (whether or not conditional) to make a Company Acquisition Proposal, and (y) this Agreement is terminated by Petrohawk or the Company under *Section 10.1(f)* (failure to obtain the Company Stockholder's Approval) or *Section 10.1(b)* (Effective Time has not occurred on or prior to Termination Date), within twelve (12) months after such termination of this Agreement: (A) a transaction is consummated which, if offered or proposed prior to the termination of this Agreement, would have constituted a Company Acquisition Proposal, or (B) (x) any Person acquires beneficial ownership or the right to acquire beneficial ownership of, or any "group" (as such term is defined under Section 13(d) of the Exchange Act and the rules and regulations promulgated thereunder), shall have been formed that beneficially owns, or has the right to acquire beneficial ownership of, outstanding shares of capital stock of the Company then representing 50% or more of the combined power to vote generally for the election of directors, and (y) the Company's Board of Directors has taken any action for the benefit of such person, that facilitates the acquisition of such person or group of such beneficial ownership, then the Company shall promptly (and no later than one Business day after the first to occur of any clauses (A) or (B) above) pay to Petrohawk the Termination Fee.

SECTION 11.2. *No Waivers.* No failure or delay by any holder of Securities in exercising any right, power or privilege hereunder or under any other Transaction Document shall operate as a waiver thereof nor shall any single or partial exercise thereof preclude any other or further exercise thereof or the exercise of any other right, power or privilege. The rights and remedies herein provided shall be cumulative and not exclusive of any rights or remedies provided by Law or in any of the other Transaction Documents.

SECTION 11.3. *Expenses; Indemnification.*

(a) Except as provided in *Section 6.1(e) and Article X*, all expenses incurred in connection with this Agreement shall be paid by the party incurring such expenses.

(b) The Company agrees to indemnify, defend and hold harmless, Petrohawk, from and against losses in excess of the Basket Amount that Petrohawk may incur resulting from any misrepresentation or breach of warranty by the Company made in this Agreement (including without limitation any certificate or instrument delivered in connection herewith) (the "Indemnified Losses"), subject to the other provisions of this *Section 11.3*. For purposes of this *Section 11.3*, in determining whether a misrepresentation or breach has occurred, all representations and warranties of the Company in the Agreement are qualified by the Knowledge of the Company, whether or not so stated.

(c)

(i)

For purpose of this *Section 11.3* the terms shall have the following meaning:

"Assumed Post-Closing Net Asset Value of the Company" shall mean an amount equal to the Common Stock Purchase Price divided by Petrohawk's Common Stock Ownership Percentage.

"Basket Amount" is \$1,000,000 of losses that would otherwise be Indemnified Losses.

"Petrohawk's Common Stock Ownership Percentage" shall mean that percentage which results by dividing (A) the number of shares of Common Stock issued to Petrohawk at the Closing pursuant to this Agreement by (B) the total amount of shares of Common Stock outstanding immediately after the Closing.

- (ii) Petrohawk may make a claim that it has incurred an Indemnified Loss due to a misrepresentation or breach of warranty by the Company made in the Agreement that had such event occurred or the misrepresented facts been known to Petrohawk at Closing, would have resulted in a reduction in the Assumed Post-Closing Net Asset Value of the Company in excess of the Basket Amount ("Adjustment Amount"). Notwithstanding anything to the contrary herein, in no event shall the aggregate Adjustment Amount for all indemnification claims hereunder exceed \$5,000,000.
- (iii) The value of the Indemnified Loss shall be an amount equal to the product of Petrohawk's Common Stock Ownership Percentage multiplied by the Adjustment Amount.
- (iv) The amount of the value of the Indemnified Loss shall be paid by the Company exclusively by crediting such amount to the amount of the Warrant Exercise Price payable by Petrohawk upon the exercise of any of the Warrants held by Petrohawk. In the event that the amount of the Indemnified Loss exceeds the aggregate amount of the Warrant Exercise Price of all Warrants held by Petrohawk at the time of the determination of the Indemnified Loss, the Company shall not have any obligation to pay or credit Petrohawk with that portion of the Indemnified Loss in excess of such aggregate Warrant Exercise Price.

(d) At any time within a period of one year from the date of Closing that Petrohawk believes that it has incurred an Indemnified Loss, it shall promptly provide notice thereof to the chairman of the audit committee of the Company (or any member of the audit committee if no member has been designated as chairman), describing fully the facts and basis for its claim, including the asserted amount thereof (which shall include information regarding the amount of the asserted losses constituting the Basket). No claims for an Indemnified Loss may be submitted on or after the first anniversary of the Closing Date.

(e) All matters relating to any claims for Indemnified Losses shall be presented to and decided on behalf of the Company by a majority of independent members of the Company's Board of Directors (or a committee of independent directors, which may be the Company Audit Committee). In discharging its obligation hereunder said independent directors (or committee of independent directors) shall be free to employ outside counsel and such other experts and advisors, and to conduct their review of the claims in such manner, as they deem appropriate to comply with their duties and responsibilities to the Company and all of its stockholders hereunder and under applicable corporate Laws.

(f) Petrohawk hereby covenants and agrees with the Company that Petrohawk shall indemnify the Company and hold it harmless from, against and in respect of any and all costs, losses, claims, liabilities, fines, penalties, damages and expenses (including interest which may be imposed in connection therewith and court costs and reasonable fees and disbursements of counsel) incurred by it resulting from any misrepresentation, breach of warranty or nonfulfillment of any agreement, covenant or obligation by Petrohawk made in this Agreement (including without limitation any certificate or instrument delivered in connection herewith).

SECTION 11.4. *Amendments and Waivers; Sale of Interest.* Any provision of this Agreement and the other Transaction Documents may be amended or waived if, but only if, such amendment or waiver is in writing and is signed by the Company and Petrohawk. The Company hereby consents to any participation, sale, assignment, transfer or other disposition which complies with *Article V*, at any time or times hereafter, of any Securities, this Agreement and any of the other Transaction Documents, or of any portion hereof or thereof, including, without limitation, Petrohawk's rights, title, interests, remedies, powers, and duties hereunder or thereunder, subject to compliance with applicable Laws and

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

the provisions of the BOK Senior Debt Documents subject to the requirement that any such assignee, transferee or purchaser shall agree in writing to become bound by the terms of this Agreement and the other Transaction Documents and that Petrohawk shall not thereby be released from its obligations, liabilities and commitments hereunder and thereunder.

SECTION 11.5. *Survival.* Except for the provisions of *Section 9.11* and *Section 9.13*, all representations, warranties and covenants made by the Company herein or in any certificate or other instrument delivered by it or in its behalf under the Transaction Documents shall be considered to have been relied upon by Petrohawk and shall survive for a period of one (1) year after the delivery to Petrohawk of such Transaction Documents and the purchase of the Securities. The covenants set forth in *Section 9.11* and *Section 9.13* shall survive the Closing and continue for the respective periods provided for therein.

SECTION 11.6. *Limitation on Interest.* Regardless of any provision contained in the Transaction Documents, neither Petrohawk nor any other holder of the Note ("Noteholder") shall ever be entitled to receive, collect, or apply, as interest on the Note, any amount in excess of the Maximum Lawful Rate, and in the event any Noteholder ever receives, collects or applies as interest any such excess, such amount which would be deemed excessive interest shall be deemed a partial prepayment of principal and treated hereunder as such; and if the Note is paid in full, any remaining excess shall promptly be paid to the Company. In determining whether or not the interest paid or payable under any specific contingency exceeds the Maximum Lawful Rate, the Company and the Noteholder shall, to the extent permitted under applicable Law, (a) characterize any nonprincipal payment as an expense, fee or premium rather than as interest, (b) exclude voluntary prepayments and the effects thereof, and (c) amortize, prorate, allocate and spread, in equal parts, the total amount of the interest throughout the entire contemplated term of the Note, so that the interest rate is the Maximum Lawful Rate throughout the entire term of the Note; *provided, however*, that, if the unpaid principal balance thereof is paid and performed in full prior to the end of the full contemplated term thereof, and if the interest received for the actual period of existence thereof exceeds the Maximum Lawful Rate, the Noteholder shall refund to the Company the amount of such excess and, in such event, the Noteholder shall not be subject to any penalties provided by any Laws for contracting for, charging, taking, reserving or receiving interest in excess of the Maximum Lawful Rate.

SECTION 11.7. *Invalid Provisions.* If any provision of the Transaction Documents is held to be illegal, invalid, or unenforceable under present or future Laws effective during the term thereof, such provision shall be fully severable, the Transaction Documents shall be construed and enforced as if such illegal, invalid, or unenforceable provision had never comprised a part thereof, and the remaining provisions thereof shall remain in full force and effect and shall not be affected by the illegal, invalid, or unenforceable provision or by its severance therefrom. Furthermore, in lieu of such illegal, invalid, or unenforceable provision there shall be added automatically as a part of the Transaction Documents a provision as similar in terms to such illegal, invalid, or unenforceable provision as may be possible and be legal, valid and enforceable.

SECTION 11.8. *Successors and Assigns.* The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns, except that neither may not assign or otherwise transfer any of its rights or obligations under this Agreement except as otherwise provided in this Agreement.

SECTION 11.9. *GOVERNING LAW.* THIS AGREEMENT AND THE TRANSACTION DOCUMENTS SHALL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE STATE OF OKLAHOMA AND, TO THE EXTENT APPLICABLE, THE CORPORATE LAWS OF THE STATE OF NEVADA.

SECTION 11.10. *Counterparts.* This Agreement may be signed in any number of counterparts, each of which shall be an original, with the same effect as if the signatures thereto and hereto were upon the same instrument.

SECTION 11.11. *No Third Party Beneficiaries.* It is expressly intended that there shall be no third party beneficiaries of the covenants, agreements, representations or warranties herein contained other than permitted transferees or assignees of all or any part of Petrohawk's interest hereunder, the Indemnified Parties and the holders of the stock options which are addressed in *Sections 9.13(a)* and *9.13(b)* hereof.

SECTION 11.12. *FINAL AGREEMENT.* THIS AGREEMENT AND THE OTHER TRANSACTION DOCUMENTS COLLECTIVELY REPRESENT THE FINAL AGREEMENT BETWEEN THE PARTIES AND MAY NOT BE CONTRADICTED BY EVIDENCE OF PRIOR, CONTEMPORANEOUS OR SUBSEQUENT ORAL AGREEMENTS BETWEEN THE PARTIES. THERE ARE NO UNWRITTEN ORAL AGREEMENTS BETWEEN THE PARTIES.

SECTION 11.13. *WAIVER OF RIGHT TO TRIAL BY JURY.* PETROHAWK AND THE COMPANY EACH HEREBY WAIVE ANY RIGHT TO TRIAL BY JURY OF ANY CLAIM, DEMAND, ACTION OR CAUSE OF ACTION (A) ARISING UNDER THIS AGREEMENT, ANY TRANSACTION DOCUMENT OR ANY OTHER INSTRUMENT, DOCUMENT OR AGREEMENT EXECUTED OR DELIVERED IN CONNECTION HEREWITH OR THEREWITH, OR (B) IN ANY WAY CONNECTED WITH OR RELATED OR INCIDENTAL TO THE DEALINGS OF THE PARTIES HERETO OR ANY OF THEM IN RESPECT TO THIS AGREEMENT. PETROHAWK AND THE COMPANY EACH AGREE THAT THE OTHER MAY FILE A COPY OF THIS AGREEMENT WITH ANY COURT AS WRITTEN EVIDENCE OF THE CONSENT OF THE PARTIES HERETO TO THE WAIVER OF THEIR RIGHT TO TRIAL BY JURY.

SECTION 11.14. *Publicity.* Neither the Company, Petrohawk nor any of their respective Affiliates shall issue or cause the publication of any press release or other announcement with respect to the transactions contemplated by this Agreement without the prior consent of the other party, except as may be required by applicable Laws, the rules of The Nasdaq Stock Market or by any listing agreement with a national securities exchange, and each party shall use reasonable efforts to provide copies of such release or other announcement to the other party hereto, and give due consideration to such comments as each such other party may have, prior to such release or other announcement.

SECTION 11.15 *Cooperation.* Subject to compliance with applicable Laws, from the date hereof until the Closing Date, each party shall confer on a regular and frequent basis with one or more representatives of the other parties to report operational matters of materiality and the general status of ongoing operations and shall promptly provide the other party or its counsel with copies of all filings made by such party with any Governmental Authority in connection with this Agreement and the transactions contemplated by this Agreement.

SECTION 11.16 *Additional Actions.* Subject to the terms and conditions of this Agreement, each party agrees to use all reasonable efforts to take, or cause to be taken, all action and to do, or cause to be done, all things necessary, proper or advisable under applicable Laws, or to remove any injunctions or other impediments or delays, to consummate and make effective the transactions contemplated by this Agreement.

\$35,000,000 , 2004

FOR VALUE RECEIVED, the undersigned, BETA OIL & GAS, INC., a Nevada corporation ("Maker" or the "Company") hereby promises to pay to PETROHAWK ENERGY, LLC, a Delaware limited liability company ("Payee"), not later than 2:00 P.M. (Houston, Texas time), on the date when due, in immediately available funds in Houston, Texas, at Payee's offices at 1100 Louisiana, Suite 3650, Houston, Texas 77002 or such other address, given to Maker by Payee, the principal sum of THIRTY FIVE MILLION AND NO/100 DOLLARS (\$35,000,000), together with interest, as hereinafter described. Whenever any payment of principal of, or interest on, this Note shall be due on a day which is not a Business Day, the date for payment thereof shall be extended to the next succeeding Business Day. If the date for payment of principal is extended by operation of law or otherwise, interest thereon shall be payable for such extended time.

This Note has been executed and delivered pursuant to, and is subject to and governed by, the terms of that certain Securities Purchase Agreement dated as of December 12, 2003, by and between Maker and Payee (the "Agreement"). This Note is the "Note" referred to in the Agreement. Unless otherwise defined herein or unless the context hereof otherwise requires, each term used herein with its initial letter capitalized has the meaning given to such term in the Agreement.

Maker reserves the right to prepay without premium or penalty, after thirty (30) days prior written notice to the Noteholder, the principal amount of the Note, in whole or in part, at any time after , 200 [two years after the Closing].

Maker promises to pay interest on the outstanding principal balance hereof, prior to the occurrence of an Event of Default, at a rate per annum equal to eight percent (8%) per annum (the "Fixed Rate") Interest shall accrue on any amounts past due and owing on the Note from the date due until paid at the rate of fifteen percent (15%) per annum (the "Default Rate"); *provided further*, that in no event shall the rate of interest charged hereunder exceed the Maximum Lawful Rate. Interest shall be payable on the Note as it accrues on March 31, 2004 and continuing on each June 30, September 30 and December 31 thereafter until maturity.

Interest shall be computed on the Note on the basis of the number of actual days elapsed, assuming that each calendar year consisted of 360 days. The entire outstanding principal balance of this Note and all accrued but unpaid interest thereon shall be due and payable in full in a single installment on , 2009 [5 years after Closing].

At any time after , 200 [two years after the Closing] a Noteholder may elect to convert all or any portion of the amount of principal and accrued but unpaid interest on the Note as hereinafter provided.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

Each \$2.00 (the "Conversion Price") of principal and accrued but unpaid interest on the Note shall be convertible into one share of Common Stock. The Conversion Price is subject to adjustment from time to time upon the occurrence of any of the events enumerated below:

1.

In the event that the Company shall (a) declare a dividend on the Common Stock in shares of its capital stock (whether shares of such Common Stock or of capital stock of any other class of the Company), (b) split or subdivide the outstanding Common Stock, or (c) combine the outstanding Common Stock into a smaller number of shares, then (as a result of an event described in (a), (b) or (c)) the Conversion Price shall be adjusted to equal the product of the Conversion Price in effect immediately prior to such event multiplied by a fraction the numerator of which is equal to the number of shares of Common Stock outstanding on a Fully Diluted Basis immediately prior to such event and the denominator of which is equal to the number of shares of Common Stock outstanding on a Fully Diluted Basis immediately after the event.

2.

In the event of any capital reorganization of the Company, or of any reclassification of any Common Stock for which the Note is convertible (other than a subdivision or combination of outstanding shares of such Common Stock), or in case of the consolidation of the Company with or the merger of the Company with or into any other corporation or of the sale of the properties and assets of the Company as, or substantially as, an entirety to any other entity, each amount of principal and unpaid interest outstanding of the Note equal to the Conversion Price then in effect shall, after such capital reorganization, reclassification of such Common Stock, consolidation, merger or sale be convertible, upon the terms and conditions specified in this Note and in the Agreement, into the number of shares of stock or other securities or assets to which a holder of the number of shares of Common Stock into which amount of principal and interest payable under the Note is convertible (at the time of such capital reorganization, reclassification of such Common Stock, consolidation, merger or sale) would have been entitled upon such capital reorganization, reclassification of such Common Stock, consolidation, merger or sale; and in any such case, if necessary, the provisions set forth in this section with respect to the rights thereafter of such Note shall be appropriately adjusted so as to be applicable, as nearly as may reasonably be, to any shares of stock or other securities or assets thereafter deliverable upon the conversion of the Note. The Company shall not effect any such consolidation, merger or sale, unless prior to or simultaneously with the consummation thereof, the successor corporation (if other than the Company) resulting from such consolidation or merger or the corporation purchasing such assets or the appropriate corporation or entity shall assume, by written instrument, the obligation to deliver to the Noteholder the shares of stock, securities or assets to which, in accordance with the foregoing provisions, such Noteholder may be entitled pursuant to this section.

3.

If any question shall at any time arise with respect to the Conversion Price or the number of shares issuable upon conversion of the Note, such question shall be determined by an independent firm of certified public accountants of recognized national standing selected by the Noteholder and acceptable to the Company.

4.

Notwithstanding anything in this section to the contrary, the Company shall not be permitted to take any action described in subparagraphs 1 through 5 above, if such action is prohibited under any other provision of this Note or the Agreement.

If a Noteholder elects to convert all or a portion of the outstanding principal and accrued but unpaid interest under the Note, then the Noteholder shall deliver the Note to the Company in exchange for a certificate or certificates for the number of whole Conversion Shares to which the Noteholder is entitled under the terms hereof. In the event that the Noteholder has elected to convert less than all of the outstanding principal and accrued but unpaid principal under the Note, the

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

Noteholder will also receive an amended and restated note setting forth the new amount of principal and accrued but unpaid interest. To the extent permitted by law, such conversion shall be deemed to have been made immediately prior to the close of business on the date of such exchange of the Notes for the Conversion Shares and, if applicable, the amended and restated note, and the Noteholder shall be treated for all purposes as the record holder of such shares of Common Stock on such date.

Notwithstanding any other provision of this Note or the Agreement, upon the occurrence of a Change of Control (other than a Change of Control caused by or resulting to any material extent from any sales of the Common Stock Shares, Conversion Shares or Warrant Shares by the Holder or any of its Affiliates), the entire principal balance of the Note and all accrued but unpaid interest may, at the election of the Noteholder, be converted into Conversion Shares at the Conversion Price.

No fractional shares or script of Common Stock shall be issued upon conversion of all or a portion of the outstanding principal and accrued but unpaid interest under the Note. In lieu of a fractional share of Common Stock to which the holder would otherwise be entitled, the Company shall pay cash equal to the product of such fraction multiplied by the Per Share Stock Price of one share of Common Stock on the date of conversion.

If one or more of the following events (collectively, "*Events of Default*" and individually, an "*Event of Default*") shall have occurred and be continuing:

(a) the Company shall fail to pay when due any principal or interest on the Note;

(b) any representation, warranty, certification or statement made or deemed to have been made by the Company in the Agreement or any of the other Transaction Documents or by the Company or any other Person on behalf of the Company in any certificate, financial statement or other document delivered pursuant to the Agreement or any of the other Transaction Documents, shall prove to have been incorrect in any material respect when made, at the time of Closing and at the time that the Noteholder proposes to declare an Event of Default as a result thereof;

(c) a default or event which, with the giving of notice, lapse of time or both could (unless cured or waived) become a default, shall occur under the terms of any Debt of the Company or any of its Subsidiaries having a principal balance of \$250,000 or more (including, without limitation, the BOK Debt or any debt intended to replace such debt, the "Permitted Senior Debt");

(d) the Company or any of its Subsidiaries shall commence a voluntary case or other proceeding seeking liquidation, reorganization or other relief with respect to itself or its Debts under any bankruptcy, insolvency or other similar Law now or hereafter in effect or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official of it or any substantial part of its property, or shall consent to any such relief or to the appointment of or taking possession by any such official in an involuntary case or other proceeding commenced against it, or shall make a general assignment for the benefit of creditors, or shall fail generally to pay its Debts as they become due, or shall take any corporate action to authorize any of the foregoing;

(e) an involuntary case or other proceeding shall be commenced against the Company or any of its Subsidiaries Operating seeking liquidation, reorganization or other relief with respect to it or its Debts under any bankruptcy, insolvency or other similar Law now or hereafter in effect or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official of it or any substantial part of its property, and such involuntary case or other proceeding shall remain undismissed and unstayed for a period of sixty (60) days; or an order for relief shall be entered against the Company under the federal bankruptcy Laws as now or hereafter in effect;

(f) one (1) or more judgments or orders for the payment of money aggregating in excess of \$250,000 shall be rendered against the Company or any of its Subsidiaries and such judgment or order (i) shall continue unsatisfied and unstayed for a period of thirty (30) days, or (ii) is not fully paid and satisfied at least ten (10) days prior to the date on which any of its assets may be lawfully sold to satisfy such judgment or order; or

(g) any Change of Control other than a Change of Control caused by any sales of the Common Stock Shares, Conversion Shares or Warrant Shares by the Noteholder or any of its Affiliates;

(h) the Company without the written consent of the Noteholder shall issue any debt or note (except the Permitted Senior Debt or trade payables) which is not by its terms subordinate to this Note.

then, so long as any such event is continuing, any Noteholder shall without notice or demand of any kind (including, without limitation, notice of intention to accelerate and acceleration) (unless any such notice is expressly provided for in this Note or the Agreement or in the other Transaction Documents), all of which are hereby waived, take any and all actions as may be permitted by the Transaction Documents including, declaring the obligations in respect of the Note owned by such Noteholder (including all accrued but unpaid interest thereon) to be, and such obligations shall thereupon become, immediately due and payable.

Upon the occurrence and during the continuance of an Event of Default, and upon the conditions stated in this Note, the holder hereof may, at its option, declare the entire unpaid principal of and accrued but unpaid interest on this Note immediately due and payable (provided that, upon the occurrence of certain Events of Default, and upon the conditions stated in this Note, such acceleration shall be automatic), without notice, demand, or presentment, all of which are hereby waived, and the holder hereof shall have the right to offset against this Note any sum or sums owed by the holder hereof to Maker. After the occurrence of an Event of Default, interest shall accrue on the outstanding principal balance of this Note and, to the extent permitted by applicable Law, on accrued but unpaid interest, at the Default Rate.

After the occurrence of an Event of Default, all amounts collected or received by any Noteholder in respect of the Obligations shall be applied first, to the payment of all proper costs incurred by the Noteholder in connection with the collection thereof (including reasonable fees, expenses and disbursements of counsel for the Noteholder), second, to the payment of all accrued but unpaid interest on the Note, third, to unpaid principal on the Note, and fourth to the Company or any other Person entitled to such proceeds under applicable Law.

The Company shall maintain at the offices of the Company, the Note Register for registration of the Note and transfers thereof. On the Closing Date, the Company shall register this Note issued to Payee. The Company may deem and treat the registered Noteholder as the absolute owner of the Note registered to such Holder and (notwithstanding any notation of ownership or other writing on the Note made by any Person) for the purpose of any exercise thereof or any distribution to the Noteholder, and for all other purposes.

Upon satisfaction of each condition set forth in Article V of the Agreement, the Company shall register the transfer of any outstanding Note in the Note Register upon surrender of such Note to the Company at the offices of the Company, accompanied (if so required by it) by a written instrument or instruments of transfer in form satisfactory to it, duly executed by the registered Noteholder or by the duly appointed legal representative thereof. Upon any such registration of transfer, a new Note evidencing such transferred Note shall be issued to the transferee and the surrendered Note shall be canceled. If less than the entire principal amount of a Note surrendered for transfer is to be

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

transferred, a new Note shall be issued to the Noteholder surrendering such Note evidencing such remaining principal balance.

The Note(s) may be exchanged at the option of the Noteholders thereof, when surrendered to the Company at the offices of the Company, for another Note or other Notes of like tenor and representing in the aggregate a like number of Notes. Notes surrendered for exchange shall be canceled.

If any Note shall be mutilated, lost, stolen or destroyed, the Company shall issue, in exchange and substitution for and upon cancellation of the mutilated Note, or in lieu of and substitution for the Note lost, stolen or destroyed, a new Note of like tenor and representing the same outstanding principal, but only upon receipt of evidence satisfactory to the Company of such loss, theft or destruction of such Note and, if requested, indemnity satisfactory to it. No service charge shall be made for any such substitution, but all expenses and reasonable charges associated with procuring such indemnity and all stamp, Tax and other governmental duties that may be imposed in relation thereto shall be borne by the holder of such Note.

If this Note is placed in the hands of an attorney for collection, or if it is collected through any legal proceedings, Maker agrees to pay the court costs, reasonable attorneys' fees, and other costs of collection of the holder hereof.

Maker, and each surety, endorser, guarantor, and other party ever liable for payment of any sums of money payable on this Note, jointly and severally waive presentment and demand for payment, protest, notice of protest and nonpayment, and notice of acceleration and the intention to accelerate, and agree that their liability on this Note shall not be affected by any renewal or extension in the time of payment hereof, by any indulgences, or by any release or change in any security for the payment of this Note, and hereby consent to any and all renewals, extensions, indulgences, releases, or changes, regardless of the number of such renewals, extensions, indulgences, releases or changes.

THIS NOTE AND THE OTHER TRANSACTION DOCUMENTS COLLECTIVELY REPRESENT THE FINAL AGREEMENT BETWEEN THE PARTIES AND MAY NOT BE CONTRADICTED BY EVIDENCE OF PRIOR, CONTEMPORANEOUS OR SUBSEQUENT ORAL AGREEMENTS BETWEEN THE PARTIES. THERE ARE NO UNWRITTEN ORAL AGREEMENTS BETWEEN THE PARTIES.

This Warrant Certificate ("Warrant Certificate") certifies that Petrohawk Energy, LLC, a Delaware limited liability company ("Petrohawk"), or registered assigns, is the registered holder of Ten Million (10,000,000) Warrants ("Warrants") to purchase Common Stock of Beta Oil & Gas, Inc., a Nevada corporation (the "Company"). This is the Warrant Certificate referred in that certain Securities Purchase Agreement between Petrohawk and the Company dated December 11, 2003 (the "Agreement"). Unless defined in this Warrant Certificate, capitalized terms used herein shall have the meanings given them in the Agreement. Each Warrant entitles the holder, subject to the conditions set forth herein and in the Agreement, to purchase from the Company at any time before 5:00 P.M., Houston, Texas time, on _____, 2009 [*five (5) years following the Closing Date*] (the "Warrant Expiration Date"), one fully paid and nonassessable share of the Common Stock of the Company (the "Warrant Shares") at a price (the "Warrant Exercise Price") of \$1.65 per Warrant Share, subject to adjustment as provided herein. The Warrant Exercise Price to which Warrants are exercised shall be paid in full at the time of exercise (a) in cash (including check, bank draft or money order payable to the order of the Company), or (b) by delivering to the Company Warrants or Common Stock of the Company having a fair market value equal to the Warrant Exercise Price, (c) by offsetting the principal balance of the Note, or (d) a combination of (a), (b) and (c). For purposes hereof, the "fair market value" of a share of Common Stock shall mean the Per Share Stock Price and the "fair market value" of a Warrant shall mean the difference between the Per Share Stock Price less the Warrant Exercise Price. The Warrant Exercise Price shall be delivered to the Company, at its offices located at _____, or at such other address as the Company may specify in writing to the registered holder of the Warrants evidenced hereby (the "Warrant Office"). The Warrant Exercise Price and number of Warrant Shares purchasable upon exercise of the Warrants are subject to adjustment prior to the Warrant Expiration Date upon the occurrence of certain events as set forth herein.

The Company may deem and treat the registered holder(s) of the Warrants evidenced hereby as the absolute owner(s) thereof (notwithstanding any notation of ownership or other writing hereon made by anyone), for the purpose of any exercise hereof and of any distribution to the holder(s) hereof, and for all other purposes, and the Company shall not be affected by any notice to the contrary.

Warrant Certificates, when surrendered at the Warrant Office by the registered holder hereof in person or by a legal representative duly authorized in writing, may be exchanged, in the manner and subject to the limitations provided herein and in the Agreement, but without payment of any service charge, for another Warrant Certificate or Warrant Certificates of like tenor evidencing in the aggregate a like number of Warrants.

Upon due presentment for registration of transfer of this Warrant Certificate at the Warrant Office and subject to the conditions set forth on this Certificate and in the Agreement, a new Warrant Certificate or Warrant Certificates of like tenor and evidencing in the aggregate a like number of Warrants shall be issued in exchange for this Warrant Certificate to the transferee(s) and, if less than all the Warrants evidenced hereby are to be transferred, to the registered holder hereof, subject to the limitations provided herein and in the Agreement, without charge except for any tax or other governmental charge imposed in connection therewith.

Exercise of Warrants.

(a) The Warrants may be exercised in whole or in part at any time until the Warrant Expiration Date at which time the Warrants shall expire and shall thereafter no longer be exercisable.

(b) The Warrants shall be exercised by presentation of the Warrant Certificate evidencing the Warrants to be exercised, with the form of election to purchase attached hereto duly completed and signed, to the Company at the Warrant Office, together with payment of the aggregate Warrant Exercise Price for the number of Warrant Shares in respect of which such Warrants are being exercised. Upon such presentation, the Company shall issue and cause to be delivered to or upon the written order of the registered Holder of such Warrants and in such name or names as such registered Holder may designate, a certificate or certificates for the aggregate number of Warrant Shares issued upon such exercise of such Warrants. Any Person so designated to be named therein shall be deemed to have become holder of record of such Warrant Shares as of the date of exercise of such Warrants; *provided*, that, no Warrant Holder will be permitted to designate that such Warrant Shares be issued to any Person other than such Warrant Holder unless each condition to transfer contained in Article V of the Agreement which would be applicable to a transfer of Warrants or Warrant Shares has been satisfied.

(c) If less than all of the Warrants evidenced by a Warrant Certificate are exercised at any time, a new Warrant Certificate or Certificates shall be issued for the remaining number of Warrants evidenced by such Warrant Certificate. All Warrant Certificates surrendered upon exercise of Warrants shall be canceled.

(d) The Company shall not be required to issue fractional shares of Common Stock upon exercise of any Warrants issued by it, but shall pay for any such fraction of a share an amount in cash equal to the value of such fractional share determined by the Company's Board of Directors in good faith.

(e) The Company will pay all Taxes attributable to the initial issuance of Warrant Shares upon the exercise of the Warrants issued by it; *provided*, that, each Warrant Holder shall use its reasonable efforts to avoid any such Tax on the issuance of Warrant Shares; and *provided*, further that, the Company shall not be required to pay any income Tax or any other Tax which may be payable in respect of any transfer involved in the issuance of any Warrant Certificate or any certificate for Warrant Shares in a name other than that of the registered holder of a Warrant Certificate surrendered upon the exercise of such a Warrant, and the Company shall not be required to issue or deliver such certificates unless or until the Person or Persons requesting the issuance thereof shall have paid to the Company the amount of such Tax or shall have established to the satisfaction of the Company that such Tax has been paid.

(f) If the issuance of the Warrant Shares deliverable upon exercise have not been registered pursuant to the Securities Act, the Warrantholder shall deliver a duly executed certificate (the "Form of Stockholders Certificate") substantially in the form of Exhibit A hereto.

Adjustment of Number of Warrant Shares Purchasable. The number of Warrant Shares purchasable upon the exercise of each Warrant is subject to adjustment from time to time upon the occurrence of any of the events enumerated below.

(a) In the event that the Company shall at any time after the date of this Warrant Certificate declare a dividend on the Common Stock in shares of its capital stock (whether shares of such Common Stock or of capital stock of any other class of the Company), split or subdivide the outstanding Common Stock, or combine the outstanding Common Stock into a smaller number of shares, the number of Warrant Shares purchasable upon an exercise of each Warrant after the time of the record date for such dividend or of the effective date of such split, subdivision or combination shall be adjusted to equal the number of shares of Common Stock which a Holder having the same number of shares of Common Stock as the number of Warrant Shares into which each Warrant is exercisable immediately prior to such record date or effective date, as the case may be, would own or be entitled to receive after such record date or effective date.

(b) The Warrant Exercise Price in effect immediately prior to any adjustment of the number of Warrant Shares into which each Warrant is exercisable shall be simultaneously adjusted (but not below the par value of the Common Stock) by multiplying the Warrant Exercise Price immediately prior to such adjustment by a fraction, the numerator of which shall be the number of Warrant Shares into which each Warrant is exercisable immediately prior to such adjustment, and the denominator of which shall be the number of Warrant Shares into which each Warrant is exercisable immediately after such adjustment.

(c) In the event of any capital reorganization of the Company, or of any reclassification of any Common Stock for which any Warrant is exercisable (other than a subdivision or combination of outstanding shares of such Common Stock), or in case of the consolidation of the Company with or the merger of the Company with or into any other corporation or of the sale of the properties and assets of the Company as, or substantially as, an entirety to any other Person, each Warrant shall after such capital reorganization, reclassification of such Common Stock, consolidation, merger or sale be exercisable, upon the terms and conditions specified in this Agreement, for the number of shares of stock or other securities or assets to which a holder of the number of Warrant Shares purchasable (at the time of such capital reorganization, reclassification of such Common Stock, consolidation, merger or sale) upon exercise of such Warrant would have been entitled upon such capital reorganization, reclassification of such Common Stock, consolidation, merger or sale; and in any such case, if necessary, the provisions set forth in this section with respect to the rights thereafter of such Warrant shall be appropriately adjusted so as to be applicable, as nearly as may reasonably be, to any shares of stock or other securities or assets thereafter deliverable on the exercise of such Warrants. The Company shall not effect any such consolidation, merger or sale, unless prior to or simultaneously with the consummation thereof, the successor corporation (if other than the Company) resulting from such consolidation or merger or the corporation purchasing such assets or the appropriate corporation or entity shall assume, by written instrument, the obligation to deliver to each Warrant Holder the shares of stock, securities or assets to which, in accordance with the foregoing provisions, such Warrant Holder may be entitled pursuant to this section (c).

(d) If any question shall at any time arise with respect to the adjusted number of Warrant Shares, such question shall be determined by an independent firm of certified public accountants of recognized national standing selected by the Warrant Holder.

(e) Notwithstanding anything in this section to the contrary, the Company shall not be permitted to take any action described in this section (such as, but not by way of limitation, any dividend, consolidation merger or reorganization) if such action is prohibited under any other provision of this Warrant Certificate or the Agreement.

(f) Notwithstanding that the number of Warrant Shares purchasable upon the exercise of each Warrant may have been adjusted pursuant to the terms hereof, the Company shall nonetheless not be required to issue fractions of Warrant Shares upon exercise of each Warrant or to distribute certificates that evidence fractional shares, but instead shall pay to the holder of each Warrant the Per Share Stock Price of any such fractional Warrant Shares at the close of business on the trading date immediately preceding the date of exercise.

Notices to Warrant Holders. Upon any adjustment of the number of Warrant Shares issuable upon an exercise of the Warrants or any adjustment of the Warrant Exercise Price pursuant to the Adjustment of the number of Warrant Shares purchasable above, the Company shall promptly, but in any event within thirty (30) days thereafter, cause to be given to each Warrant Holder, at its address appearing on the Warrant Register, by first class mail, postage prepaid, a certificate signed by the Company's Financial Officer setting forth the number of Warrant Shares issuable upon the exercise of each Warrant as so adjusted and the Warrant Exercise Price as so adjusted, and describing in reasonable detail the facts accounting for such adjustment and the method of calculation used. Where appropriate, such certificate may be given in advance and included as part of the notice required to be mailed under the other provisions of this section.

In the event:

(a) that the Company shall authorize the issuance to any or all holders of its Common Stock of rights or warrants to subscribe for or purchase capital stock of the Company or of any other subscription rights or warrants; or

(b) of any consolidation or merger to which the Company is a party and for which approval of any stockholders of the Company is required, or of the conveyance or transfer of the properties and assets of the Company substantially as an entirety, or of any capital reorganization or reclassification or change of the Common Stock (other than a change in par value, or from par value to no par value, or from no par value to par value, or as a result of a subdivision or combination); or

(c) of the voluntary dissolution, liquidation or winding up of the Company; or

(d) that the Company proposes to take any other action which would require an adjustment of the Warrant Exercise Price of the Warrants issued by it pursuant to this Warrant Certificate;

then the Company shall cause to be given to each Warrant Holder at such Warrant Holder's address appearing on the Warrant Register, at least twenty (20) days prior to the applicable date hereinafter specified, by first class mail, postage prepaid, a written notice stating the date as of which the holders of record of Common Stock to be entitled to receive any such rights, warrants or distribution are to be determined, or the date on which any such consolidation, merger, conveyance, transfer, dissolution, liquidation or winding up is expected to become effective, and the date as of which it is expected that the holders of record of Common Stock shall be entitled to exchange their shares for securities or other property, if any, deliverable upon such reclassification, consolidation, merger, conveyance, transfer, dissolution, liquidation or winding up.

Registration, Transfer and Exchange of Warrants.

(a) The Company shall maintain at the offices of the Company, the Warrant Register for registration of the Warrants and Warrant Certificate and transfers thereof. On the Closing Date, the Company shall register the outstanding Warrants and Warrant Certificate issued to Buyer. The Company may deem and treat the registered Warrant Holders as the absolute owner of the Warrants registered to such Holder and (notwithstanding any notation of ownership or other writing on the Warrant Certificates made by any Person) for the purpose of any exercise thereof or any distribution to the Warrant Holder, and for all other purposes.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

(b) Upon satisfaction of each condition set forth in Article V of the Agreement, the Company shall register the transfer of any outstanding Warrants in the Warrant Register upon surrender of the Warrant Certificate evidencing such Warrants to the Company at the offices of the Company, accompanied (if so required by it) by a written instrument or instruments of transfer in form satisfactory to it, duly executed by the registered Warrant Holder or by the duly appointed legal representative thereof. Upon any such registration of transfer, new Warrant Certificate(s) evidencing such transferred Warrants shall be issued to the transferee(s) and the surrendered Warrant Certificate(s) shall be canceled. If less than all the Warrants evidenced by a Warrant Certificate(s) surrendered for transfer are to be transferred, a new Warrant Certificate(s) shall be issued to the Warrant Holder surrendering such Warrant Certificate(s) evidencing such remaining number of Warrants.

(c) Warrant Certificates may be exchanged at the option of the Warrant Holder(s) thereof, when surrendered to the Company at the offices of the Company, for another Warrant Certificate or other Warrant Certificates of like tenor and representing in the aggregate a like number of Warrants. Warrant Certificates surrendered for exchange shall be canceled.

(d) No charge shall be made for any such transfer or exchange except for any Tax or other governmental charge imposed in connection therewith.

Mutilated or Missing Warrant Certificates. If any Warrant Certificate shall be mutilated, lost, stolen or destroyed, the Company shall issue, in exchange and substitution for and upon cancellation of the mutilated Warrant Certificate, or in lieu of and substitution for the Warrant Certificate lost, stolen or destroyed, a new Warrant Certificate of like tenor and representing an equivalent number of Warrants, but only upon receipt of evidence satisfactory to the Company of such loss, theft or destruction of such Warrant Certificate and, if requested, indemnity satisfactory to it. No service charge shall be made for any such substitution, but all expenses and reasonable charges associated with procuring such indemnity and all stamp, Tax and other governmental duties that may be imposed in relation thereto shall be borne by the holder of such Warrant Certificate.

IN WITNESS WHEREOF, the Company has caused this Warrant Certificate to be signed by its duly authorized officer as of the date first above written..

proposed to be sold (for the purposes of this Section 2, "Shares" and which shall in no event be less than 500,000 Shares) and the proposed plan for distribution of the Shares, Company will thereafter:

2.1.1 Give prompt (but in any event within fifteen (15) days after the receipt of the Requisite Holder(s)' notice) notice to all other Stockholders of such notice and of such other Stockholders' rights to have their Registrable Securities included in such registration.

2.1.2 Upon the request of any such Stockholder made within fifteen (15) days after the receipt by such Stockholder of any such notice given pursuant to subsection 2.1.1 (which request shall specify the Registrable Securities intended to be disposed of by such Stockholder and the intended method or methods of disposition thereof), the Company will use its best efforts to effect the registration of all Shares which the Company has been so requested to register pursuant to this subsection 2.1.

2.1.3 Prepare and file as soon as practicable, but in no event later than thirty (30) days from Company's receipt of the last Stockholder's request to have such Stockholder's Registrable Securities included in such registration within the time period specified in Section 2.1.2, a registration statement under the Securities Act of 1933, as amended (the "Securities Act") ("Registration Statement") with the Securities Exchange Commission ("Commission") on Form S-1 (or Form S-2 or Form S-3, if Company is entitled to use such forms, or similar forms available for use by small business issuers) and use its best efforts to cause such Registration Statement to become effective in order that the Stockholders may sell the Shares in accordance with the proposed plan of distribution.

2.1.4 Prepare and file with the Commission such amendment and supplements to such Registration Statement and prospectus used in connection therewith including any preliminary prospectus or supplemental or amended prospectus (the "Prospectus") as may be necessary to keep such Registration Statement continuously effective and to comply with the provisions of the Securities Act with respect to the offer of the Shares during the period required for distribution of the Shares, which period shall not be in excess of the earlier of (i) nine months from the effective date of such Registration Statement, and (ii) the distribution of all Shares covered by such Registration Statement.

2.1.5 Furnish to each Stockholder such number of copies of the Prospectus (including any preliminary prospectus or supplemental or amended prospectus) as such Stockholder may reasonably request in order to facilitate the sale and distribution of the Shares.

2.1.6 Notwithstanding the foregoing, if the Company shall furnish to the each Stockholder a certificate signed by the President of the Company stating that, in the good faith judgment of the Board of Directors of the Company, it would be seriously detrimental to the Company and its stockholders for such registration statement to be filed and it is therefore essential to defer the filing of such registration statement, the Company shall have the right to defer such filing for a period of not more than sixty (60) days after receipt of the request of the Stockholder; *provided, however*, that the Company may not utilize this right with respect to a request under Section 2 more than once in any twelve (12) month period.

2.2 The right of each Stockholder to register Shares pursuant to the provisions of this Section 2 shall be subject to the condition that if a request for registration is made within sixty (60) days prior to the conclusion of Company's then current fiscal year, Company shall have the right to delay the filing of the Registration Statement for such period of time until Company files its audited financial statements for such fiscal year.

2.3 If the Requisite Holder(s) intend/intends to distribute the Registrable Securities covered by the notice pursuant to section 2.1 by means of an underwriting, the Requisite Holder(s) shall so advise the Company as a part of the notice made pursuant to section 2.1 and provide the name of the

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

managing underwriter or underwriters that the Requisite Holder(s) proposes/propose to employ in connection with the public offering proposed to be made pursuant to the registration requested. If the managing underwriter of such underwritten offering shall inform the Company and the Stockholders requesting that their Shares be registered pursuant to this Section 2 by letter of its belief that the amount of Shares requested to be included in such registration exceeds the amount which can be sold in (or during the time of) such offering within a price range acceptable to the Requisite Holders, then the Company will include in such registration such amount of Shares which the Company is so advised can be sold in (or during the time of) such offering *pro rata* on the basis of the amount of such Shares so proposed to be sold and so requested to be included by such parties.

2.4 A registration shall not be deemed to have been effected (i) unless it has become effective and remained effective for the period specified in subsection 2.1.4, (ii) if, after it has become effective, such registration is terminated by a stop order, injunction or other order of the Commission or other governmental agency or court, or (iii) if the conditions to closing specified in any purchase agreement or underwriting agreement entered into in connection with such registration are not satisfied for any reason, other than as a result of the voluntary termination of such offering by the Requisite Holders or any failure by the Requisite Holders to satisfy or perform the conditions or covenants on their part to be satisfied or performed.

Section 3. *Piggy-Back Registration Rights.*

3.1 If Company proposes to file, on its behalf, a Registration Statement under the Securities Act on Form S-1, S-2 or S-3 or similar forms available for use by small business issuers, other than pursuant to Section 2 of this Agreement or in connection with a dividend reinvestment, employee stock purchase, option or similar plan or in connection with a merger, consolidation or reorganization, Company shall give written notice to Stockholder at least ten (10) days before the filing with the Commission of such Registration Statement. Such notice shall offer to include in such filing all or a portion of the Registrable Securities owned by Stockholder. If Stockholder desires to include all or a portion of its Registrable Securities in such Registration Statement, it shall give written notice to Company within three (3) days after the date of mailing of such offer specifying the amount of Registrable Securities to be registered (for the purpose of this Section 3, "Shares"). Company shall thereupon include in such filing the Shares, subject to priorities in registration set forth in this Agreement, and subject to its right to withdraw such filing, and shall use its best efforts to affect registration under the Securities Act of the Shares.

3.2 The right of Stockholder to have the Shares included in any Registration Statement in accordance with the provisions of this Section 3 shall be subject to the following conditions:

3.2.1 Company shall have the right to require that Stockholder agree to refrain from offering or selling any shares of Common Stock that it owns which are not included in any such Registration Statement in accordance with this Section 3 for any reasonable time period specified, not to exceed ninety (90) days, by any managing underwriter of the offering to which such Registration Statement relates.

3.2.2 If (i) a registration pursuant to this Section 3 involves an underwritten offering of the securities being registered to be distributed (on a firm commitment basis) by or through one or more underwriters of recognized standing under underwriting terms appropriate for such a transaction and (ii) the managing underwriter of such underwritten offering shall inform the Company and Stockholder who has requested that its Shares be registered pursuant to this Section 3 by letter of its belief that the amount of Shares requested to be included in such registration exceeds the amount which can be sold in (or during the time of) such offering within a price range acceptable to the Company or a majority of such requesting holders, then the Company will include in such registration such amount of securities which the Company is so advised can be sold in (or during the time of) such offering as follows: *first*, the securities being

offered by the Company for its own account; and *second* such Shares of the Stockholders which are requested to be included in such registration *pro rata* on the basis of the amount of such Shares so proposed to be sold and so requested to be included by such Stockholders.

3.2.3 Company shall furnish Stockholder with such number of copies of the Prospectus as Stockholder may reasonably request in order to facilitate the sale and distribution of its shares.

3.3 Notwithstanding the foregoing, Company in its sole discretion may determine not to file the Registration Statement or proceed with the offering as to which the notice specified herein is given without liability to Stockholder.

Section 4. *Participation in Underwritten Registrations.* Stockholder may not participate in any registration hereunder which relates to an underwritten offering unless Stockholder (a) agrees to sell such holder's securities on the basis provided in any underwriting arrangements approved by the holders of at least a majority of the Registrable Securities to be included in such registration, or by a Person appointed by such holders to act on their behalf to approve such arrangements, and (b) completes and executes all questionnaires, powers of attorney, indemnities, underwriting agreements and other documents reasonably required under the terms of such underwriting arrangements.

Section 5. *Exclusive Registration Rights and Transfer.*

The rights of Stockholder under this Agreement may upon notice to the Company be transferred to its respective Affiliates in combination with a transfer of shares to such Affiliates. However, the rights of Stockholder under this Agreement may not be assigned or transferred to a non-Affiliate without the Company's written consent. Except as provided in this Section 5, the rights granted under this Agreement are granted specifically to and for the benefit of Stockholder and shall not pass to any transferee of Registrable Securities. From and after the date of this Agreement, the Company will not, without the prior written consent of Stockholders holding at least a majority of the Registrable Securities then outstanding, enter into any agreement with respect to its securities which is inconsistent with or violates the rights granted to the Stockholders in this Agreement. The foregoing shall not restrict or prevent the Company from entering into any other agreement with any party pertaining to the registration by the Company of such party's Common Stock. Except as set forth in Schedule 2 attached hereto, the Company represents and warrants to Stockholders that, as of the date hereof, the Company is not a party to any agreement, other than this Agreement, pertaining to the registration by the Company of Common Stock.

Section 6. *Expenses.* Company will bear all the expenses in connection with any Registration Statement under this Agreement, other than transfer taxes payable on the sale of such shares, the fees and expenses of counsel to Stockholder and fees and commissions of brokers, dealers and underwriters.

Section 7. *Recall of Prospectuses, etc.* With respect to a Registration Statement or amendment thereto filed pursuant to this Agreement, if, at any time, Company notifies Stockholder that an amendment or supplement to such Registration Statement or amendment to the Prospectus included therein is necessary or appropriate, Stockholder will forthwith cease selling and distributing shares thereunder and will forthwith redeliver to Company all copies of such Registration Statement and Prospectuses then in its possession or under its control. Company will use its best efforts to cause any such amendment or supplement to become effective as soon as practicable and will furnish Stockholder with a reasonable number of copies of such amended or supplemented prospectus (and the period during which Company is required to use its best efforts to maintain such Registration Statement in effect pursuant to this Agreement will be increased by the period from the date on which Stockholder ceased selling and distributing shares thereunder to the date on which such amendment or supplement becomes effective).

Section 8. *Cooperation with Existing Stockholders.* Company shall be entitled to require Stockholder to cooperate with Company in connection with a registration of Registrable Securities

pursuant to this Agreement and furnish (i) such information as may be required by Company or the Commission in connection therewith and (ii) such representations, undertakings and agreements as may be required by the Commission in connection therewith.

Section 9. *Registration Procedures.* Upon the receipt of a request for registration of any Registrable Securities pursuant to Section 2 or Section 3 of this Agreement, Company will use its best efforts to effect the registration of the Registrable Securities in accordance with the intended method of disposition thereof, and pursuant thereto Company will as expeditiously as possible:

9.1.1 Prepare and file with the Commission a registration statement on an appropriate form under the Securities Act and use its best efforts to cause such registration statement to become effective; provided, that before filing a registration statement or prospectus or any amendments or supplements thereto, including documents incorporated by reference after the initial filing of any registration statement, Company will promptly furnish to the holders of Registrable Securities to be registered and sold pursuant to this Agreement (the "Registered Holders") and the underwriters, if any, copies of all such documents proposed to be filed, which documents will be subject to the review of the Registered Holders and the underwriters, and Company will not file any registration statement or amendment thereto, or any prospectus or any supplement thereto (including such documents incorporated by reference) to which the Registered Holders or the underwriters, if any, shall reasonably object in light of the requirements of the Securities Act and any other applicable laws and regulations.

9.1.2 Prepare and file with the Commission such amendments and post-effective amendments to a registration statement as may be necessary to keep such registration statement effective for the applicable period; cause the related prospectus to be filed pursuant to Rule 424(b) (or any successor provision) under the Securities Act; cause such prospectus to be supplemented by any required prospectus supplement and, as so supplemented, to be filed pursuant to Rule 424(b) (or any successor provision) under the Securities Act; and comply with the provisions of the Securities Act with respect to the disposition of all securities covered by such registration statement during the applicable period in accordance with the intended methods of disposition set forth in such registration statement or supplement to such prospectus.

9.1.3 Notify the Registered Holders and the managing underwriters, if any, promptly, and (if requested by any such person) confirm such advice in writing, (i) when a prospectus or any prospectus supplement or post-effective amendment has been filed, and, with respect to a registration statement or any post-effective amendment, when the same has become effective, (ii) of any request by the Commission for amendments or supplements to a registration statement or related prospectus or for additional information, (iii) of the issuance by the Commission of any stop order suspending the effectiveness of a registration statement or the initiation of any proceeding for that purpose, (iv) if at any time the representations and warranties of Company contemplated by subsection 9.1.10 cease to be true and correct, (v) of the receipt by Company of any notification with respect to the suspension or qualification of any of the Registrable Securities for sale in any jurisdiction or the initiation of any proceeding for such purpose, (vi) of the happening of any event which requires the making of any changes in a registration statement or related prospectus so that such documents will not contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein not misleading and (vii) of Company's reasonable determination that a post-effective amendment to a registration statement would be appropriate or that there exist circumstances not yet disclosed to the public which make further sales under such registration statement inadvisable pending such disclosures and post-effective amendment.

9.1.4 Make reasonable efforts to obtain the withdrawal of any order suspending the effectiveness of a registration statement, or the lifting of any suspension of the qualification of any of the Registrable Securities for sale in any jurisdiction, at the earliest possible moment.

9.1.5 If requested by the managing underwriters or the Registered Holders in connection with an underwritten offering, immediately incorporate in a prospectus supplement or post effective amendment such information as the managing underwriters and the Registered Holders agree should be included therein relating to such sale and distribution of Registrable Securities, including, without limitation, information with respect to the number of shares of Registrable Securities being sold to such underwriters and the purchase price being paid therefor by such underwriters and with respect to any other terms of the underwritten (or best efforts underwritten) offering of the Registrable Securities to be sold in such offering; make all required filings of such prospectus supplement or post-effective amendment as soon as notified of the matters to be incorporated in such prospectus supplement or post-effective amendment; and supplement or make amendments to any registration statement if requested by the Registered Holders or any underwriter of such Registrable Securities.

9.1.6 Furnish to the Registered Holders and each managing underwriter, if any, without charge, at least one signed copy of the registration statement, any post-effective amendment thereto, including financial statements and schedules, all documents incorporated therein by reference and all exhibits (including those incorporated by reference).

9.1.7 Deliver without charge to the Registered Holders and the underwriters, if any, as many copies of the prospectus or prospectuses (including each preliminary prospectus) and any amendment or supplement thereto as such persons may reasonably request; and Company consents to the use of such prospectus or any amendment or supplement thereto by such Registered Holders and the underwriters, if any, in connection with the offer and sale of the Registrable Securities covered by such prospectus or any amendment or supplement thereto.

9.1.8 Prior to any public offering of Registrable Securities, register or qualify or cooperate with the Registered Holders, the underwriters, if any, and respective counsel in connection with the registration or qualification of such Registrable Securities for offer and sale under the securities or Blue Sky laws of such jurisdictions as the Registered Holders or an underwriter reasonably requests in writing; keep each such registration or qualification effective during the period such registration statement is required to be kept effective and do any and all other acts or things necessary or advisable to enable the disposition in such jurisdictions of the Registrable Securities covered by the applicable registration statement; *provided, however*, that Company will not be required in connection therewith or as a condition thereto to qualify generally to do business or subject itself to general service of process in any such jurisdiction where it is not then so subject.

9.1.9 Upon the occurrence of any event contemplated by subsection 9.1.3 (ii) - (vii) above, prepare, to the extent required, a supplement or post-effective amendment to the applicable registration statement or related prospectus or any document incorporated therein by reference or file any other required document so that, as thereafter delivered to the purchaser of the Registrable Securities being sold thereunder, such prospectus will not contain an untrue statement of a material fact or omit to state any material fact necessary to make the statements therein not misleading.

9.1.10 Enter into such agreements (including an underwriting agreement) and take all such other actions in connection therewith in order to expedite or facilitate the disposition of such Registrable Securities and in such connection, whether or not an underwriting agreement is entered into and whether or not the Registrable Securities to be covered by such registration are to be offered in an underwritten offering: (i) make such representations and warranties to the Registered Holders to the registration statement, prospectus and documents incorporated by

reference, if any, in form, substance and scope as are customarily made by issuers to underwriters in underwritten offerings and confirm the same if and when requested; (ii) obtain opinions of counsel to Company and updates thereof with respect to the registration statement and the prospectus in the form, scope and substance which are customarily delivered in underwritten offerings; (iii) in the case of an underwritten offering, enter into an underwriting agreement in form, scope and substance as is customary in underwritten offerings and obtain opinions of counsel to Company and updates thereof (which counsel and opinions (in form, scope and substance) shall be reasonably satisfactory to the managing underwriters and the Registered Holders) addressed to the Registered Holders and the underwriters, if any, covering the matters customarily covered in opinions delivered in underwritten offerings and such other matters as may be reasonably requested by the Registered Holders and such underwriters; (iv) obtain "cold comfort" letters and updates thereof from Company's independent certified public accountants addressed to the Registered Holders and the underwriters, if any, such letters to be in customary form and covering matters of the type customarily covered in "cold comfort" letters by accountants in connection with underwritten offerings; (v) if any underwriting agreement is entered into, the same shall set forth in full the indemnification provisions and procedures customarily included in underwriting agreements in underwritten offerings; and (vi) Company shall deliver such documents and certificates as may be requested by the Registered Holders and the managing underwriters, if any, to evidence compliance with clause (i) above and with any customary conditions contained in the underwriting agreement or other agreement entered into by Company. The above shall be done at each closing under such underwriting or similar agreement or as and to the extent required thereunder.

9.1.11 Make available for inspection by a representative of the Registered Holders, any underwriter participating in any disposition pursuant to such registration, and any attorney or accountant retained by the Registered Holders or such underwriter, all financial and other records, pertinent corporate documents and properties of Company, and cause Company's officers, directors and employees to supply all information reasonably requested by any such representative, underwriter, attorney or accountant in connection with such registration; provided that any records, information or documents that are designated by Company in writing as confidential shall be kept confidential by such Persons unless disclosures of such records, information or documents is required by court or administrative order.

9.1.12 Otherwise use its best efforts to comply with all applicable rules and regulations of the Commission and make generally available to its security holders earning statements satisfying the provisions of Section 11(a) of the Securities Act, no later than 90 days after the end of any 12-month period (i) commencing at the end of any fiscal quarter in which Registrable Securities are sold to underwriters in a firm or best efforts underwritten offering and (ii) beginning with the first day of Company's first fiscal quarter next succeeding each sale of Registrable Securities after the effective date of a registration statement, which statements shall cover said 12-month periods.

9.1.13 If Company, in the exercise of its reasonable judgment, objects to any change reasonably requested by the Registered Holders or the underwriters, if any, to any registration statement or prospectus or any amendments or supplements thereto (including documents incorporated or to be incorporated therein by reference) as provided for in this Section 9, Company shall not be obligated to make any such change and such Registered Holders may withdraw their Registrable Securities from such registration, in which event (i) Company shall pay all registration expenses (including its counsel fees and expenses) incurred in connection with such registration statement or amendment thereto or prospectus or supplement thereto, and (ii) in the case of a registration being effected pursuant to Section 2, such registration shall not count as one of the registrations Company is obligated to effect pursuant to Section 2 hereof.

Section 10. *Indemnification.*

10.1 In the event of any registration of any securities under the Securities Act pursuant to this Agreement, Company will indemnify and hold harmless Stockholder, any underwriter and each other Person, if any, who controls Stockholder, or underwriter within the meaning of the Securities Act, against any losses, claims, damages or liabilities, joint or several, to which Stockholder, or any underwriter may become subject, under the Securities Act or otherwise, insofar as such losses, claims, damages or liabilities (or action in respect thereof) arise out of or are based upon any untrue statement or alleged untrue statement of any material fact contained in such Registration Statement or preliminary prospectus (if used prior to the effective date of such Registration Statement) or final or summary prospectus contained therein (if used during the period the Company is required to keep the Registration Statement effective), or any amendment or supplement thereto, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements made therein not misleading, and will reimburse Stockholder, or underwriter for any legal or any other expenses as reasonably incurred by such person in connection with investigating or defending any such action or claim, excluding any amounts paid in settlement of any litigation, commenced or threatened, if such settlement is effected without prior written consent of Company; provided, however, that Company will not be liable to Stockholder or an underwriter in any such case to the extent that any such loss, claim, damage, liability or expense arises out of or is based upon an untrue statement or omission or alleged omission made in said Registration Statement, said preliminary prospectus or said final or summary prospectus or any amendment or supplement thereto, in reliance upon and in conformity with written information furnished to Company by Stockholder, or its affiliates or representatives, or by that underwriter, as the case may be, specifically for use in the preparation thereof; and provided further that the indemnity agreement contained in this Section 10 with respect to any preliminary prospectus shall not inure to the benefit of Stockholder or any underwriter or to any Person selling the same in respect of any loss, claim, damage, liability or action asserted by someone who purchased shares from such person if a copy of the final prospectus (as the same may be amended or supplemented) in connection with such registration statement was not sent or given to such person with or prior to written confirmation of the sale and if the untrue statement or omission or alleged untrue statement or omission of a material fact contained in such preliminary prospectus was corrected in the final prospectus.

10.2 In the event of any registration of securities under the Securities Act pursuant to this Agreement, Stockholder will indemnify and hold harmless Company, each of its directors and officers, any underwriter and each other Person, if any, who controls Company or underwriter within the meaning of the Securities Acts, against any losses, claims, damages or liabilities, joint or several, to which Company or any such director, officer, underwriter may become subject, under the Securities Act or otherwise, insofar as such losses, claims, damages or liabilities (or action in respect thereof) arise out of or are based upon any untrue statement or alleged untrue statement of any material fact contained in such Registration Statement or preliminary prospectus or final or summary prospectus contained therein, or any amendment or supplement thereto, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements made therein not misleading, and will reimburse Company, each such director, officer, or underwriter for any legal or any other expenses as reasonably incurred by them in connection with investigating or defending any such action or claim, excluding any amounts paid in settlement of any litigation, commenced or threatened, if such settlement is effected without prior written consent of the indemnifying Stockholder, or its representative; but in all cases only if, and to the extent that any such loss, claim, damage, liability or expense arises out of or is based upon an untrue statement or alleged untrue statement or omission or alleged omission therein made in reliance upon and in conformity with written information furnished to Company by the indemnifying Stockholder, or its affiliates or representatives specifically for use in the preparation thereof. Notwithstanding the foregoing, the

amount of the indemnity provided by Stockholder pursuant to this Section 10 shall not exceed the net proceeds received by Stockholder in such related registration and sale.

10.3 Promptly after receipt by a party entitled to indemnification under subsection 10.1 or 10.2 hereof of notice of the commencement of any action, such indemnified party will, if a claim in respect thereof is to be made against the indemnifying party under either of such subsections, notify the indemnifying party in writing of the commencement thereof. In case any such action is brought against the indemnified party and it shall so notify the indemnifying party of the commencement thereof, the indemnifying party shall be entitled to participate in, and, to the extent that it so chooses, to assume the defense thereof with counsel reasonably satisfactory to such indemnified party, and, after notice from the indemnifying party that it so chooses, such indemnifying party shall not be liable for any legal or other expenses subsequently incurred by such indemnified party in connection with the defense thereof, provided, however, that if the indemnifying party fails to take reasonable steps necessary to diligently defend such claim within twenty (20) days after receiving notice from the indemnified party that the indemnified party believes the indemnifying party has failed to take such steps, the indemnified party may assume its own defense and the indemnifying party shall be liable for any expenses therefore. The indemnity agreements in this Section 10 shall be in addition to any liabilities which the indemnifying parties may have pursuant to law.

10.4 If the indemnification provided for in this Section 10 from the indemnifying party is unavailable to an indemnified party hereunder in respect of any losses, claims, damages, liabilities or expenses referred to herein, then the indemnifying party, in lieu of indemnifying such indemnified party, shall contribute to the amount paid or payable by such indemnified party as a result of such losses, claims, damages, liabilities or expenses in such proportion as is appropriate to reflect the relative fault of the indemnifying party and indemnified parties in connection with the actions which resulted in such losses, claims, damages, liabilities or expenses, as well as any other relevant equitable considerations. The relative fault of such indemnifying party and indemnified parties shall be determined by reference to, among other things, whether any action in question, including any untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact, has been made by, or relates to information supplied by, such indemnifying party or indemnified parties, and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such action. The amount paid or payable by a party as a result of the losses, claims, damages, liabilities and expenses referred to above shall be deemed to include, subject to the limitations set forth in Section 10 hereof, any legal or other fees or expenses reasonably incurred by such party in connection with any investigation or proceeding.

Edgar Filing: BETA OIL & GAS INC - Form DEF 14A

The parties hereto agree that it would not be just and equitable if contribution pursuant to this Section 10 were determined by pro rata allocation or by any other method of allocation which does not take into account the equitable considerations referred to in the immediately preceding paragraph. No Person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any Person who was not guilty of such fraudulent misrepresentation.

Section 11. *Sales under Rule 144.* With a view to making available to Stockholder the benefits of Rule 144 promulgated under the Securities Act and any other similar rule or regulation of the Commission that may at any time permit Stockholder to sell the Registrable Securities without registration, Company agrees to:

- (a) make and keep public information available, as those terms are understood and defined in Rule 144 (or any successor provision);
- (b) file with the Commission in a timely manner all reports and other documents required of Company under the Securities Act and the Exchange Act;
- (c) furnish to Stockholder forthwith upon request (i) a written statement by Company that it has complied with the reporting requirements of Rule 144 (or any successor provision), the Securities Act and the Exchange Act, (ii) a copy of the most recent annual or quarterly report of Company and such other reports and documents so filed by Company under the Securities Act and the Exchange Act and (iii) such other information as may be reasonably requested by Stockholder in availing itself of any rule or regulation of the Commission which permits the selling of any such securities without registration; and
- (d) after any sale of Registrable Securities pursuant to Rule 144, to the extent allowed by law, to cause any restrictive legends to be removed and any transfer restrictions to be rescinded with respect to such Registrable Securities.

Section 12. *Removal of Legend.* The Company agrees, to the extent allowed by law, to remove any legends on certificates representing Registrable Securities describing transfer restrictions applicable to such securities upon the sale of such securities (i) pursuant to an effective Registration Statement under the Securities Act or (ii) in accordance with the provisions of Rule 144 under the Securities Act.

Section 13. *Notices.* Any notice to be given by any party hereunder to any other shall be in writing, mailed by certified or registered mail, return receipt requested, or via overnight delivery service and shall be addressed to the other parties at the addresses listed on the signature pages hereof. Notice shall be deemed effective upon receipt or refusal.

Section 14. *Modification.* Notwithstanding anything to the contrary in this Agreement or otherwise, no modification, amendment or waiver of any of the provisions of this Agreement shall be effective unless in writing and signed by the Company and the Stockholders holding not less than 75% of the Registrable Securities then outstanding. Any such modification, amendment shall be binding on all holders of Registrable Securities and all persons who may thereafter acquire any Registrable Securities.

Section 15. *Non-Waiver.* The failure to enforce at any time any of the provisions of this Agreement, or to require at any time performance by any other party of any of the provisions hereof, shall in no way be construed to be a waiver of such provisions.

Section 16. *Partial Invalidity.* If any clause, sentence, paragraph, section or part of this Agreement shall be deemed invalid, unenforceable or against public policy, the part which is invalid, unenforceable or contrary to public policy shall not affect, impair, invalidate or nullify the remainder of this Agreement, but the invalidity, unenforceability or contrariness to public policy shall be confined

only to the clause, sentence, paragraph, section or part of this Agreement so invalidated, unenforceable or against public policy.

Section 17. *Termination of Registration Right.* No Stockholder shall be entitled to exercise any right provided for in this Agreement after the fifth anniversary of the Closing of the transactions contemplated by the Purchase Agreement (the "Termination Date"). Notwithstanding any other provision of this Agreement to the contrary, the registration rights granted hereunder will terminate prior to the Termination Date as to any Stockholder upon the first day the Stockholder is able to sell all of the Registrable Securities owned by such Holder under Rule 144 within any given three-month period.

Section 18. *Construction.* The language in all parts of this Agreement shall in all cases be construed simply, according to its fair meaning, and shall not be construed strictly for or against either of the parties hereto.

Section 19. *Governing Law.* This Agreement shall be governed and construed according to the laws of the State of Oklahoma, without regard to its conflicts of law principles.

Section 20. *Counterparts.* This Agreement may be executed in one or more counterparts, each of which shall constitute an original and all of which together shall constitute but one and the same instrument.

Section 21. *Successors and Assigns.* This Agreement shall be binding upon and inure to the benefit of and be enforceable by the parties hereto and their respective successors and permitted assigns.

Section 22. *Specific Performance.* The parties agree that, to the extent permitted by law, (i) the obligations imposed on them in this Agreement are special, unique and of an extraordinary character, and that in the event of a breach by any such party damages would not be an adequate remedy and (ii) the other party shall be entitled to specific performance and injunctive and equitable relief in addition to any other remedy to which it may be entitled at law or in equity.

In addition, each of the Stockholders agrees to support the proposal and the items listed in the immediately preceding sentence in any communications that they have (whether written or oral) with any other stockholders of the Company.

2. *Term.* Except for the provisions of Section 4, this Agreement shall terminate and be of no further force and effect at the earliest of the (i) termination of the Purchase Agreement, (ii) the Closing of the transactions contemplated by the Purchase Agreement, and (iii) ninety (90) days after the date of the Company's stockholders' meeting whereby the issuance of the Securities pursuant to the Purchase Agreement is approved. The provisions of Section 4 shall remain in effect and enforceable by the Company or its stockholders for the period provided for therein.

3. *Stockholders' Representation and Warranties.* Each Stockholder severally, as to itself only, represents and warrants to Petrohawk that (a) the Stockholder has duly authorized, executed and delivered this Agreement and this Agreement constitutes a valid and binding agreement, enforceable in accordance with its terms and neither the execution and delivery of this Agreement nor the consummation by the Stockholder of the transactions contemplated hereby will constitute a violation of, a default under, or conflict with any contract, commitment, agreement, understanding, arrangement or restriction of any kind to which the Stockholder is a party or by which the Stockholder is bound; (b) consummation by the Stockholder of the transactions contemplated hereby will not violate, or require any consent, approval, or notice under, any provision of law other than filing on Form 13D that may be required under the Securities Exchange Act of 1934, as amended; (c) except to the extent contemplated herein each Stockholder's shares of Stock and the certificates representing same are now

7. *Successors.* This Agreement shall be binding upon and shall operate for the benefit of Petrohawk, the Stockholders and the Company, their respective members and stockholders, and their respective successors, assigns, executors, administrators and heirs, and it shall be binding upon any entity to whom any Stock is transferred whether or not in accordance with the provisions of this Agreement, and the executor or administrator of such entity.

8. *Modification.* Notwithstanding anything to the contrary in this Agreement or otherwise, no modification, amendment or waiver of any of the provisions of this Agreement shall be effective unless in writing and signed by all parties hereto. Each Stockholder covenants not to vote any shares of Stock in favor of any amendment of the articles of incorporation or bylaws of the Company, if such amendment would materially modify the terms or frustrate the purpose of this Agreement or the Purchase Agreement, unless the vote on such amendment is approved unanimously by the parties to this Agreement.

9. *Non-Waiver.* The failure to enforce at any time any of the provisions of this Agreement, or to require at any time performance by any other party of any of the provisions hereof, shall in no way be construed to be a waiver of such provisions.

10. *Invalid Provisions.* If any provision of this Agreement is held to be illegal, invalid, or unenforceable under present or future Laws effective during the term thereof, such provision shall be fully severable, this Agreement shall be construed and enforced as if such illegal, invalid, or unenforceable provision had never comprised a part thereof, and the remaining provisions thereof shall remain in full force and effect and shall not be affected by the illegal, invalid, or unenforceable provision or by its severance therefrom.

12. *Notices.* Any notice to be given by any party hereunder to any other shall be in writing, mailed by certified or registered mail, return receipt requested, and shall be addressed to all other parties at the addresses listed on the signature page hereof. All such notices shall be deemed to be given three (3) days after the date of mailing thereof.

Dear Sirs:

We understand that Beta Oil & Gas, Inc. (the "Company") proposes to enter into a transaction with Petrohawk Energy, LLC ("Petrohawk") pursuant to which the Company would issue to Petrohawk (i) 15,151,515 shares of its common stock, par value \$.001 per share ("Common Stock"), at a purchase price of \$1.65 per share (the "Common Stock Issuance"), (ii) \$35.0 million of its convertible unsecured debt (the "Convertible Debt") that bears interest at a rate of 8.0% per annum, which Convertible Debt would be convertible into an aggregate of 17.5 million shares of Common Stock at a conversion price of \$2.00 per share (the "Convertible Debt Issuance"), and (iii) a warrant to purchase up to 10.0 million shares of Common Stock (the "Warrant"), which Warrant would have an exercise price of \$1.65 per share and a five year term (the "Warrant Issuance," and together with the Convertible Debt Issuance and the Common Stock Issuance, the "Transaction"). We understand that the Convertible Debt would be convertible in whole or in part at the option of the holders thereof at any time after the second anniversary of the date of issuance, and that the Warrant would be exercisable at the option of the holders thereof at any time prior to its expiration.

You have requested our opinion (this "Opinion") as to whether, as of the date hereof, the Transaction, taken as a whole, is fair to the Company from a financial point of view. This Opinion does not address the Company's underlying business decision to enter into the Transaction. We have not been requested to, and did not, solicit third party indications of interest in acquiring all or any part of the Company, the Common Stock, the Convertible Debt or the Warrant. Furthermore, we have not been requested, nor have we undertaken, to advise you with respect to alternatives to the Transaction, nor have we participated in negotiations with respect to the non-economic terms of the Transaction.

In connection with this Opinion, we have made such reviews, analyses and inquiries as we have deemed necessary and appropriate under the circumstances. Among other things, we have:

10. reviewed certain other publicly available financial data for certain companies that we deem comparable to the Company, and reviewed terms of other investments, including, but not limited to, prices, financial terms and premiums paid, that we considered similar to the financial components of the Transaction;
11. reviewed copies of the following agreements and documents that were delivered to us prior to the meeting of the Company's Board of Directors to approve the Transaction, which documents we have assumed with your permission to be accurate (collectively, the "Transaction Documents"):

 - Certain additional transaction documents; and
12. conducted such other studies, analyses and inquiries and considered such other information and financial, economic and market criteria as we have deemed appropriate in arriving at the Opinion.

With respect to the Company Reserve Report and the financial and production forecasts and projections provided to us by the Company or otherwise reviewed by or discussed with us, we have relied upon representations of the Company and its management that such report, forecasts and projections have been reasonably prepared on bases reflecting the best currently available estimates and judgments of the Company and its management as to the future financial results and condition of the Company, and that there has been no material change in the assets, financial condition, business or prospects of the Company since the date of the most recent financial statements made available to us. With respect to the Ryder Scott Report, we have been advised, and have assumed, that the Ryder Scott Report has been reasonably prepared on bases reflecting the best currently available estimates and judgments of Ryder Scott as to the oil and gas reserves of the Company. We have not independently verified the accuracy and completeness of the information supplied to us with respect to the Company and its reserves and production, including, without limitation, the Company Reserve Report and the Ryder Scott Report, and do not assume any responsibility with respect thereto. We have not made any physical inspection or independent appraisal of the assets or liabilities of the Company, nor have we been furnished with any such appraisals, other than the Ryder Scott Report. Additionally, our Opinion is necessarily based on business, economic, market and other conditions as they exist and can be evaluated by us at the date of this Opinion. Although developments following the date of this Opinion may affect this Opinion, we assume no obligation to update, revise or reaffirm this Opinion. It should be understood that subsequent developments might affect the conclusion expressed in the last paragraph of this Opinion.

This Opinion addresses only the fairness, from a financial point of view, of the financial terms of the Transaction taken as a whole. We do not express any opinion as to any specific financial term of the Transaction, nor do we express any opinion as to any term of the Transaction that is not a financial term or as to the effect of any other aspect of the Transaction. We do not express any opinion as to the fairness of the financial terms of any of the Common Stock Issuance, the Convertible Debt Issuance or the Warrant Issuance individually. We do not express any opinion as to the price or range of prices at which the Common Stock may trade at any time prior to the consummation of the Transaction, nor do we express any opinion as to the price or range of prices at which the Common Stock, the Convertible Debt or the Warrant may trade at any time upon the consummation of the Transaction, all of which may vary depending upon, among other factors, changes in interest rates, market conditions, general economic conditions and other factors that generally influence the prices of securities. We have not been asked to express an opinion, and do not express an opinion, as to the Company's proposed use or uses of the proceeds of the Transaction.

This Opinion is provided for the information of the Board of Directors of the Company in its evaluation of the Transaction, and it is not intended to be and does not constitute a recommendation or investment advice to any stockholder of the Company as to how such stockholder should vote with respect to the Transaction at any meeting therefor.
