SEALED AIR CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

(Amounts in tables are in millions, except share and per share data)

(1) Organization and Basis of Consolidation

Sealed Air Corporation and its subsidiaries, or the Company, is a leading global innovator and manufacturer of a wide range of packaging and performance-based materials and equipment systems that serve an array of food, industrial, medical and consumer applications.

The Company conducts substantially all of its business through two direct wholly-owned subsidiaries, Cryovac, Inc. and Sealed Air Corporation (US). These two subsidiaries, directly and indirectly, own substantially all of the assets of the business and conduct operations themselves and through subsidiaries around the globe. The Company adopted this corporate structure in connection with the Cryovac transaction. See "Cryovac Transaction," of Note 14, "Commitments and Contingencies," for a description of the Cryovac transaction and related terms used in these Notes to Condensed Consolidated Financial Statements.

Basis of Consolidation

The condensed consolidated financial statements include all the accounts of the Company. All significant intercompany transactions and balances have been eliminated in consolidation. In management's opinion, all adjustments, consisting only of normal recurring accruals, necessary for a fair presentation of the Company's condensed consolidated balance sheet as of March 31, 2009 and the condensed consolidated statements of operations for the three months ended March 31, 2009 and 2008 have been made. The results set forth in the condensed consolidated statements of operations for the three months ended March 31, 2009 are not necessarily indicative of the results to be expected for the full year. All amounts are approximate due to rounding. Certain prior period amounts have been reclassified to conform to the current year's presentation. Reclassifications in the aggregate had an immaterial effect on the Company's condensed consolidated financial statements.

The condensed consolidated financial statements were prepared following the interim reporting requirements of the Securities and Exchange Commission, or the SEC. As permitted under those rules, annual footnotes or other financial information that are normally required by accounting principles generally accepted in the United States of America, or U.S. GAAP, have been condensed or omitted. The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and the disclosure of contingent amounts in the condensed consolidated financial statements and accompanying notes. Actual results could differ from these estimates.

The Company is responsible for the unaudited condensed consolidated financial statements and notes included in this document. As these are condensed financial statements, they should be read in conjunction with the audited consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and with the information contained in the Company's other publicly-available filings with the SEC.

(2) Recent Accounting Pronouncements

Adopted in 2009

In April 2009, the Financial Accounting Standards Board issued FASB Staff Position No. FAS 141(R)-1, "Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies." This FSP amends and clarifies SFAS No. 141(R) (see below) to address application issues on initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in a business combination. This FSP is effective for assets or liabilities arising from contingencies in any future business combinations the Company completes.

FSP No. EITF 03-6-1

In June 2008, the FASB issued FSP No. Emerging Issues Task Force ("EITF") 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities." This FSP addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in earnings allocation in computing earnings per common share under the two-class method described in paragraphs 60 and 61 of SFAS No. 128, "Earnings per Share." The Company adopted the provisions of this FSP on January 1, 2009. Accordingly, all prior period net earnings per common share data presented have been adjusted to conform to the provisions of this FSP. See Note 16, "Net Earnings Per Common Share," for further information. The adoption of this FSP did not have a material effect on the Company's previously reported net earnings per common share.

FSP No. FAS 142-3

In April 2008, the FASB issued FSP No. FAS 142-3, "Determination of the Useful Life of Intangible Assets." FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, "Goodwill and Other Intangible Assets." Beginning January 1, 2009, the requirement for determining useful lives must be applied prospectively to intangible assets acquired after January 1, 2009 and the disclosure requirements must be applied prospectively to all intangible assets recognized as of, and subsequent to, January 1, 2009. The impact of this FSP will be dependent on any intangible assets that may be acquired in the future by the Company.

SFAS No. 161

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities an amendment of SFAS No. 133." SFAS No. 161 changes the disclosure requirements for derivative instruments and hedging activities. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and

SEALED AIR CORPORATION AND SUBSIDIARIES

(Unaudited)

(Amounts in tables are in millions, except share and per share data)

(2) Recent Accounting Pronouncements (Continued)

cash flows. The Company adopted the provisions of SFAS No. 161 on January 1, 2009. See Note 11, "Derivatives and Hedging Activities," for further information.

FSP No. 157-2

In February 2008, the FASB issued FSP 157-2, which delayed the effective date of SFAS No. 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The Company adopted this FSP on January 1, 2009 for items within the scope of this FSP. This FSP did not have an impact on the Company's consolidated financial position or results of operations.

SFAS No. 141(R)

In December 2007, the FASB issued SFAS No. 141 (revised 2007), "Business Combinations." SFAS No. 141(R) establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, including goodwill, the liabilities assumed and any non-controlling interest in the acquiree. SFAS No. 141(R) also establishes disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(R) was effective for the Company for business combinations for which the acquisition date is on or after January 1, 2009. Accordingly, any future business combinations the Company completes will be accounted for under this new standard.

SFAS No. 160

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements an Amendment of Accounting Research Bulletin No. 51." SFAS No. 160 establishes accounting and reporting standards for ownership interests in subsidiaries held by parties other than the parent, the amount of consolidated net income attributable to the parent and to the noncontrolling interest, changes in a parent's ownership interest, and the valuation of retained noncontrolling equity investments when a subsidiary is deconsolidated. SFAS No. 160 also establishes disclosure requirements that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. The Company adopted SFAS No. 160 on January 1, 2009 and reclassified its noncontrolling interests to stockholders' equity from total liabilities and presented total parent company stockholders' equity as a separate line item in the condensed consolidated balance sheet. This adoption did not have a material impact on the Company's consolidated financial position or results of operations.

Pending Adoption

In April 2009, the FASB issued the following FSPs that provide additional application guidance and enhance disclosure requirements regarding fair value measurements and impairments of securities.

FSP No. FAS 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not

SEALED AIR CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

(Amounts in tables are in millions, except share and per share data)

(2) Recent Accounting Pronouncements (Continued)

Orderly," provides guidelines for making fair value measurements more consistent with the principles presented in SFAS No. 157, "Fair Value Measurements."

FSP No. FAS 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments," enhances consistency in financial reporting by increasing the frequency of fair value disclosures.

FSP No. FAS 115-2 and FAS 124-2, "Recognition and Presentation of Other-Than-Temporary Impairments," provides additional guidance designed to create greater clarity and consistency in accounting for and presenting impairment losses on securities.

These FSPs are effective for the Company for the interim period ending June 30, 2009. The Company is currently evaluating the impact, if any, these FSPs may have on its consolidated financial position and results of operations and specifically the impact these FSPs may have on its determination of the fair value of its investments in auction rate securities.

FSP No. FAS 132(R)-1

In December 2008, the FASB issued FSP 132(R)-1, "Employers' Disclosures about Postretirement Benefit Plan Assets." This FSP provides guidance on an employer's disclosures about plan assets of a defined benefit pension plan or other postretirement plan, including disclosure of how investment allocation decisions are made, major categories of plan assets, inputs and valuation techniques used to measure the fair value of plan assets and concentrations of credit risk. This FSP is effective for fiscal years ending after December 15, 2009. This FSP will not impact the Company's consolidated financial position or results of operations as its requirements are disclosure-only in nature.

Total	\$5,180.9	\$ 4,986.0

Allocation of Goodwill to Reportable Segments

In accordance with SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information," and because the Company's management views goodwill as a corporate asset, the Company does not allocate its goodwill balance to its reportable segments. However, in accordance with the provisions of SFAS No. 142, the Company is required to allocate goodwill to each reporting unit in order to perform its annual impairment review of goodwill, which it does during the fourth quarter of the year. See Note 9, "Goodwill and Identifiable Intangible Assets," for the allocation of goodwill in accordance with the provisions of SFAS No. 142, the changes in the three months ended March 31, 2009 by the Company's segment reporting structure and details of the Company's interim goodwill impairment review.

(4) Cost Reduction and Productivity Program and Global Manufacturing Strategy

Cost Reduction and Productivity Program

In the third quarter of 2008, the Company implemented a cost reduction and productivity program. The components of the restructuring accrual, which was primarily for termination benefits, through March 31, 2009 and the accrual balance remaining at March 31, 2009 related to this program are included in the table below. The Company expects to incur additional modest costs associated with this program in the remainder of 2009.

Restructuring accrual at December 31, 2008	\$ 43.7
Cash payments made during 2009	(14.7)
Effect of changes in foreign currency rates	(1.2)
Restructuring accrual at March 31, 2009	\$ 27.8

SEALED AIR CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

(Amounts in tables are in millions, except share and per share data)

(4) Cost Reduction and Productivity Program and Global Manufacturing Strategy (Continued)

The Company expects to pay \$26.8 million of the accrual balance remaining at March 31, 2009 within the next 12 months. This amount is included in other current liabilities on the condensed consolidated balance sheet at March 31, 2009. The remaining accrual of \$1.0 million is expected to be paid by the end of 2010 and is included in other liabilities on the condensed consolidated balance sheet at March 31, 2009.

Global Manufacturing Strategy

The Company's global manufacturing strategy, when fully implemented, will expand production in regions where demand for the Company's products and services has been growing significantly. At the same time, the Company is optimizing certain manufacturing platforms in North America and Europe into centers of excellence. The goals of this multi-year program are to expand capacity in growing markets, further improve the Company's operating efficiencies, and implement new technologies more effectively. By taking advantage of new technologies and streamlining production on a global scale, the Company expects to continue to enhance its profitable growth and its global leadership position and produce meaningful savings.

The Company announced the first phase of this multi-year global manufacturing strategy in July 2006. At the end of 2008, the construction phase of the program was substantially complete. The capital expenditures and associated costs and related restructuring charges and the total amounts incurred since inception of this multi-year strategy are included in the table below.

	Three Months Ended March 31,			Cumulative Through		
	2	2009 2008		800	March	31, 2009
Capital expenditures	\$	6.2	\$	8.7	\$	138.9
Associated costs(1)		3.1		2.4		25.7
Restructuring (credits) and other charges(2)		(0.2)		2.0		31.6

(1) The associated costs principally include facility start-up costs, which are primarily included in cost of sales on the condensed consolidated statements of operations. These charges by the Company's reporting structure were as follows:

	Three Months Ended March 31,			
	2	009	2008	
Food Packaging	\$	2.5	\$	0.8
Food Solutions		0.1		
Protective Packaging		0.5		1.3

Total	\$	3.1	\$	2.4

11

SEALED AIR CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

(Amounts in tables are in millions, except share and per share data)

(4) Cost Reduction and Productivity Program and Global Manufacturing Strategy (Continued)

(2)

The restructuring (credits) and other charges were primarily for termination benefits, the majority of which were related to the Food Packaging segment. These charges were included in restructuring (credits) and other charges on the condensed consolidated statements of operations. See Note 3, "Segments," for restructuring (credits) and other charges by reportable segment and Other. A reconciliation of the restructuring accrual is included below.

The components of the restructuring accrual through March 31, 2009 and the accrual balance remaining at March 31, 2009 were as follows:

Restructuring accrual at December 31, 2008	\$14.4
Adjustment to accrual for termination benefits	(0.6)
Cash payments during 2009	(0.7)
Effect of changes in foreign currency rates	(0.2)
Restructuring accrual at March 31, 2009	\$12.9

The Company expects to pay \$10.4 million of the accrual balance remaining at March 31, 2009 within the next 12 months. This amount is included in other current liabilities on the Company's condensed consolidated balance sheet at March 31, 2009. The remaining accrual of \$2.5 million is expected to be paid by the end of 2010 and is included in other liabilities on the Company's condensed consolidated balance sheet at March 31, 2009.

(5) Available-for-Sale Investments

The following tables summarize the Company's available-for-sale investments classified as non-current assets that are carried at fair value on the condensed consolidated balance sheets at March 31, 2009 and December 31, 2008:

March 31, 2009	Gross Other Than Original Temporary Cost Impairment			Estimated Fair Value		
Auction rate securities:						
Debt instruments with contractual maturity						
dates in 2021, 2033, and 2036	\$ 24.7	\$	(17.0)	\$	7.7	
Non-cumulative perpetual preferred stock	20.0		(17.0)		3.0	
Total	\$ 44.7	\$	(34.0)	\$	10.7	

12

SEALED AIR CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

(Amounts in tables are in millions, except share and per share data)

(5) Available-for-Sale Investments (Continued)

December 31, 2008	Gross Other Than Original Temporary Cost Impairment				Estimated Fair Value		
Auction rate securities:							
Debt instruments with contractual maturity dates in 2021, 2033, and 2036	\$ 24.7	\$	(17.0)	\$	7.7		
Non-cumulative perpetual preferred stock	20.0		(17.0)		3.0		
Total	\$ 44.7	\$	(34.0)	\$	10.7		

The Company's available-for-sale investments, consisting of auction rate securities at March 31, 2009 and December 31, 2008, are exposed to market risk related to changes in conditions in the U.S. financial markets and in the financial condition of the issuers of these securities. The Company's investment in auction rate securities at March 31, 2009 and December 31, 2008 had an original cost of \$44.7 million.

These auction rate securities consisted of two contingent capital securities that were converted into perpetual preferred stock of Ambac Assurance Corporation ("AMBAC"), the issuer, in December 2008, and three debt instruments issued individually by Primus Financial Products LLC (maturity date 2021), River Lake Insurance Company, a wholly-owned subsidiary of Genworth Financial, Inc. (maturity date 2033) and Ballantyne Re Plc (maturity date 2036). In January 2009, Ballantyne issued a notification that it was unable to fully fund its upcoming interest payments. As a result, Ballantyne exercised its option to rely on the insurance protection provided to it by AMBAC (UK), the issuer of an insurance wrap on this debt instrument.

These five securities historically were re-auctioned every twenty-eight days, which had provided a liquid market for them. However, as a result of continuing liquidity concerns affecting capital markets, particularly in the U.S., specifically for asset-back securities, every auction held by the issuers for these auction rate securities in 2008 and 2009 failed. As of March 31, 2009, the Company received interest and dividend payments, totaling \$0.4 million, when due.

The Company accounts for these investments as available-for-sale investments and reviews them for impairment in accordance with SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities," and other related guidance issued by the FASB and the SEC.

During the first quarter of 2009, the Company determined that there was no change in the estimated fair value of its available-for-sale investments. See Note 12, "Fair Value Measurements," for a discussion of the assumptions, inputs and valuation methodology used by the Company to determine the fair value of these auction rate securities at March 31, 2009.

The Company continues to monitor developments in the market for auction rate securities including the specific securities in which it has invested. At March 31, 2009, the securities issuers' ratings by Moody's Investors Service, Inc. ranged from Baa1 to Ba3 and ratings by Standard & Poor's, a division of the McGraw-Hill Companies, Inc., ranged from A to CCC, both unchanged from

SEALED AIR CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

(Amounts in tables are in millions, except share and per share data)

(5) Available-for-Sale Investments (Continued)

December 31, 2008. The Company believes that it has sufficient liquidity to meet its operating cash needs without the sale of these securities.

If credit or liquidity conditions relating to these securities or the issuers worsen, the Company may recognize additional other-than-temporary impairments, which would result in the recognition of additional losses on the condensed consolidated statement of operations.

(6) Accounts Receivable Securitization Program

The Company and a group of its U.S. subsidiaries maintain an accounts receivable securitization program with a bank and an issuer of commercial paper administered by the bank. At March 31, 2009, the maximum purchase limit for receivables interests was \$160.0 million and the program had an expiration date of December 2, 2012. This program includes a bank financing commitment that must be renewed annually prior to the expiration date. The bank commitment is scheduled to expire on December 4, 2009. The Company plans to seek an additional 364 day renewal of the bank commitment prior to its expiration. While the bank is not obligated to renew the bank financing commitment, the Company has historically negotiated annual renewals since the commencement of the program in 2001.

The amounts available from time to time under the program may be less than \$160.0 million subject to the level of the eligible assets included in the U.S. accounts receivable portfolio. The level of eligible assets can be impacted by a number of factors, including, but not limited to, accounts receivable balances, the Company's credit rating, the Company's receivables collection experience and the creditworthiness of the Company's customers. At March 31, 2009, the level of eligible assets available under the program declined due to some of the factors mentioned above. As a result, the amounts available to the Company under the program decreased to approximately \$89.0 million at March 31, 2009. Although the Company does not believe that these restrictive provisions presently materially restrict its operations, a breach of one or more of these restrictive provisions could result in a further decline in, or the elimination of, amounts available under the program.

At December 31, 2008, the Company had \$80.0 million outstanding under this program. In January 2009, the Company utilized an additional \$51.0 million available to it under this program. Subsequently, in February 2009, the Company repaid the entire \$131.0 million outstanding amount under this program utilizing funds available from its 12% Senior Notes.

The costs associated with the receivables program are reflected in other (expense) income, net, in the Company's condensed consolidated statements of operations and were immaterial for the three months ended March 31, 2009 and 2008.

The receivables program contains financial covenants relating to interest coverage and debt leverage similar to those contained in the Company's revolving credit facility. The Company was in compliance with these covenants at March 31, 2009.
