THE CHEESECAKE FACTORY INCORPORATED

PROXY STATEMENT FOR THE ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON MAY 31, 2018

INTRODUCTION

General

This Proxy Statement is furnished to the stockholders of The Cheesecake Factory Incorporated, a Delaware corporation ("Company" and "we," "us" or "our"), in connection with the solicitation of proxies by our Board of Directors ("Board") for use at the annual meeting of stockholders to be held at the Janet and Ray Scherr Forum Theatre, Thousand Oaks Civic Arts Plaza, 2100 Thousand Oaks Boulevard, Thousand Oaks, California 91362, on Thursday, May 31, 2018, beginning at 10:00 a.m., Pacific Daylight Time, and at any adjournment or postponement thereof ("Annual Meeting"). We intend this Proxy Statement and proxy voting materials to be available to stockholders on or about April 19, 2018.

Internet Availability of Proxy Materials

Pursuant to rules adopted by the Securities and Exchange Commission ("SEC"), we are providing you access to our proxy materials over the Internet. This method allows us to deliver the proxy materials to you more quickly, lowers our costs and helps to conserve natural resources. Accordingly, we are sending a Notice of Internet Availability of Proxy Materials ("Notice of Availability") to our stockholders who have not asked us to provide proxy materials in printed form. All stockholders receiving the Notice of Availability can request a printed set of proxy materials. All stockholders can access the proxy materials at www.proxyvote.com, irrespective of whether they receive the Notice of Availability or a printed copy of the proxy materials. Instructions on how to access the proxy materials online or request a printed copy may be found in the Notice of Availability and in this Proxy Statement.

In addition, the Notice of Availability provides instructions to stockholders regarding receiving proxy materials in printed form by mail or electronically by email on an ongoing basis in the future. Choosing to receive future proxy materials by email will save us the cost of printing and mailing documents to you, enable us to provide you with materials sooner, and reduce the impact of our annual meetings on the environment. If you choose to receive future proxy materials by email, you will receive an email next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials by email will remain in effect until you terminate it.

Voting; Quorum; Abstentions and Broker Non-Votes

On April 2, 2018, the record date fixed by the Board for the Annual Meeting ("Record Date"), 45,705,672 shares of our common stock were outstanding, and there were no outstanding shares of any other class of stock. Each holder of common stock is entitled to one vote for each share of common stock held of record. Only stockholders of record at the close of business on April 2, 2018 will be entitled to notice of and to vote at the Annual Meeting or any postponement or adjournment thereof.

The required quorum for the transaction of business at the Annual Meeting is a majority of the shares entitled to vote at the Annual Meeting, present in person or represented by proxy. Shares of common stock represented by a properly signed and returned proxy will be treated as present at the Annual Meeting for

Table of Contents

purposes of determining a quorum, regardless of whether the proxy is marked as casting a vote or abstaining (an "abstention") or constitutes a broker non-vote.

For Proposal 1, our Bylaws provide that, in the election of directors, the nominees receiving the highest number of votes, up to the number of directors to be elected, shall be elected; provided, that in an uncontested election, each nominee must agree that if elected, he or she will submit an irrevocable resignation promptly following the election if he or she fails to receive a majority of votes cast. An uncontested election (such as the election held at this Annual Meeting) means that there are as many candidates standing for election as there are vacancies on the Board. A majority of votes cast means that the number of shares cast "FOR" a director's election exceeds the number of votes cast "AGAINST" that director. Abstentions and broker non-votes are not considered a vote cast and, therefore, will have no effect on the outcome of the vote other than to reduce the number of affirmative votes required to elect a director. "Broker non-votes" are shares of stock held in record name by brokers or nominees for which instructions have not been received from the beneficial owners or persons entitled to vote and the broker or nominee does not have discretionary voting power under applicable rules or the instrument under which it serves in such capacity.

Proposals 2 and 3 require the approval of a majority of the shares of common stock present in person or represented by proxy at the Annual Meeting and entitled to vote on such proposal. Abstentions as to these proposals will count as shares present and entitled to vote on the proposals and, accordingly, will count as votes "AGAINST" the proposal. Broker non-votes are not considered present and entitled to vote on the proposal and will have no effect on the outcome of the vote for the proposal, other than to reduce the number of affirmative votes required to approve the proposal.

Proxies

Proxies delivered pursuant to this solicitation are revocable prior to their exercise and at the stockholder's option by (i) attending and voting at the Annual Meeting (although attending the Annual Meeting itself will not revoke a proxy), or (ii) filing a written notice with Debby R. Zurzolo, our Secretary, revoking the proxy, or (iii) submitting another duly executed proxy bearing a later date. Unless previously revoked, all proxies representing shares entitled to vote delivered pursuant to this solicitation will be voted at the Annual Meeting by the named attorneys-in-fact and agents, to the extent authorized, in accordance with the directions contained therein.

If no directions are given, the shares represented by such proxies will be voted:

FOR the election of the Board's nominees for director: Edie A. Ames; Alexander L. Cappello; Jerome I. Kransdorf; Laurence B. Mindel; David Overton; David B. Pittaway; and Herbert Simon;

FOR the ratification of the selection of KPMG LLP as our independent registered public accounting firm for fiscal year 2018, ending January 1, 2019; and

FOR approval of, on a non-binding, advisory basis, the compensation of the Company's Named Executive Officers as disclosed pursuant to the compensation disclosure rules of the SEC.

The named proxy holders may vote in their discretion upon such other matters as may properly come before the Annual Meeting, including any motion made for adjournment or postponement (including for purposes of soliciting additional votes).

Solicitation

We pay for the cost of preparing, assembling and mailing the Notice of Internet Availability, the Notice of Annual Meeting and Proxy Statement and the cost of this solicitation. Our directors, officers and other staff members may solicit proxies, without additional remuneration, in person or by telephone, facsimile or email transmission. Banks, brokerage houses and other custodians, nominees or fiduciaries will be asked to forward soliciting material to their principals and to obtain authorization for the execution of proxies, and we will reimburse them for their reasonable out-of-pocket expenses incurred in that regard.

ITEMS TO BE VOTED ON

PROPOSAL ONE Election of Directors

General. Our Bylaws provide for a board of directors consisting of no less than five and no more than thirteen members. The exact number within this range is determined by resolution of the Board. The Board currently has set the number of directors at seven.

Nominees. The Corporate Governance and Nominating Committee of the Board ("Governance Committee") recommended the nomination, which the Board approved, of the following individuals for re-election to the Board for a term that will expire at the 2019 annual meeting of stockholders and until their respective successors shall be elected and duly qualified: Edie A. Ames; Alexander L. Cappello; Jerome I. Kransdorf; Laurence B. Mindel; David Overton; David B. Pittaway; and Herbert Simon. All nominees are current directors of the Company. For biographical information regarding the director nominees, please see the section entitled "*Our Board of Director Nominees*" in this Proxy Statement.

Unless a stockholder specifies otherwise, the shares represented by each returned proxy will be voted **FOR** the election of Edie A. Ames, Alexander L. Cappello, Jerome I. Kransdorf, Laurence B. Mindel, David Overton, David B. Pittaway and Herbert Simon.

In the event that any of the nominees becomes unable or declines to serve as a director at the time of the Annual Meeting, the proxy holders will vote the proxies for any substitute nominee designated by the Board to fill the vacancy.

Required Vote. Our Bylaws provide that, in the election of directors, the nominees receiving the highest number of votes, up to the number of directors to be elected, shall be elected; provided, that in an uncontested election, each nominee must agree that if elected, he or she will submit an irrevocable resignation promptly following the election if he or she fails to receive a majority of votes cast. Each of the nominees included in this proposal have so agreed. An uncontested election (such as the election held at this Annual Meeting) means that there are as many candidates standing for election as there are vacancies on the Board. A majority of votes cast means that the number of shares cast "FOR" a director's election exceeds the number of votes cast "AGAINST" that director. Abstentions and broker non-votes are not considered a vote cast and, therefore, will have no effect on the outcome of the vote other than to reduce the number of affirmative votes required to elect a director. "Broker non-votes" are shares of stock held in record name by brokers or nominees for which instructions have not been received from the beneficial owners or persons entitled to vote and the broker or nominee does not have discretionary voting power under applicable rules or the instrument under which it serves in such capacity.

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE FOR THE ELECTION OF EDIE A. AMES, ALEXANDER L. CAPPELLO, JEROME I. KRANSDORF, LAURENCE B. MINDEL, DAVID OVERTON, DAVID B. PITTAWAY AND HERBERT SIMON TO THE BOARD.

PROPOSAL TWO
Ratification of Selection of Independent Registered Public Accounting Firm

The Audit Committee of our Board ("Audit Committee") is directly responsible for the appointment, retention and oversight of the work of any independent registered public accounting firm engaged for the purpose of preparing or issuing an audit report or performing other audit, review or attest services for us and our subsidiaries. On March 2, 2018, the Company, with the approval of the Audit Committee, engaged KPMG LLP ("KPMG") as our independent registered public accounting firm for the fiscal year ending January 1, 2019 after evaluating the qualifications of, and proposals from, both KPMG and our previous independent registered public accounting firm, PricewaterhouseCoopers LLP ("PwC"). On March 7, 2018, PwC confirmed in a filing with the SEC that, during our two most recent fiscal years ended January 2, 2018 and January 3, 2017, and during the subsequent interim period from through March 1, 2018, the date of the Audit Committee's dismissal of PwC, (i) there were no disagreements with PwC on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreement(s), if not resolved to PwC's satisfaction, would have caused PwC to make reference to the subject matter of the disagreement(s) in connection with its reports, and (ii) there were no "reportable events" as that term is defined in Item 304(a)(1)(v) of Regulation S-K. During the Company's two most recent fiscal years ended January 2, 2018 and January 3, 2017, and during the subsequent interim period through March 1, 2018, neither the Company, nor anyone on its behalf, consulted KPMG regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements, and neither a written report nor oral advice was provided to the Company that KPMG concluded was an important factor considered by the Company in reaching a decision as to any accounting, auditing, or financial reporting issue, or (ii) any matter that was either the subject of a "disagreement" (as defined in Regulation S-K Item 304(a)(1)(iv)) or a "reportable event" (as defined in Regulation S-K Item 304(a)(1)(v)). KPMG has provided us with notice of acceptance of such engagement. Representatives of both KPMG and PwC are expected to be present at the Annual Meeting to respond to appropriate questions and to make a statement should they so desire.

Although our governing documents do not require us to submit this matter to stockholders, the Board believes that asking stockholders to ratify the appointment is consistent with best practices in corporate governance. If stockholders do not ratify the selection of KPMG, the Audit Committee will regard such vote as a direction to consider the selection of a different independent registered public accounting firm. Even if the selection of KPMG is ratified by the stockholders, the Audit Committee has the discretion to select a different independent registered public accounting firm at any time if it determines that a change would be in our and our stockholders' best interests.

Independent Registered Public Accounting Firm Fees and Services. The following table sets forth the aggregate fees billed by PwC to us during the last two fiscal years:

	Fiscal 2017	Fiscal 2016
Audit Fees	\$ 723,200	\$ 679,750
Audit-Related Fees		
Tax Fees	26,754	35,454
All Other Fees	1,800	1,800
Total Fees	\$ 751,754	\$ 717,004

Audit Fees represent the aggregate fees billed by PwC for the audit of our annual financial statements included in the Annual Report on Form 10-K, review of financial statements included in the Quarterly Reports on Form 10-Q, the audit of our internal control over financial reporting with the objective of obtaining reasonable assurance about whether effective internal control over financial reporting was

Table of Contents

maintained in all material respects, and services normally provided by our independent registered public accounting firm in connection with statutory and regulatory filings or engagements.

Tax Fees represent the aggregate fees billed by PwC for tax compliance, advice and planning services.

All Other Fees represent the aggregate fees billed by PwC for access to their accounting literature research tool.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Our Independent Registered Public Accounting Firm. The Audit Committee is responsible for appointing, setting compensation for and overseeing the work of our independent registered public accounting firm. The Audit Committee also approves our independent registered public accounting firm's lead engagement partner, who is rotated every five years. The Audit Committee established a policy requiring that it pre-approve all audit and permissible non-audit services provided by the independent auditor, and the Audit Committee's charter authorizes the Audit Committee to delegate to one or more of its members the authority to make such pre-approvals, provided that those members report any pre-approvals to the full Audit Committee at its next regularly scheduled meeting. The Audit Committee considers whether such services are consistent with SEC rules on auditor independence as well as whether the independent auditor can provide the most effective and efficient service, for reasons such as familiarity with our business, staff members, culture, accounting systems, risk profile and other factors, and input from our management. The Audit Committee delegated the authority to address any requests for pre-approval of services between Audit Committee meetings to its Chair, provided that the amount of such fees for both audit and non-audit accounting services requested does not exceed \$25,000 per fiscal quarter, and the Chair is required to report any pre-approval decisions to the Audit Committee at its next scheduled meeting. The Audit Committee's charter does not provide the Audit Committee with authority to delegate to management the Audit Committee's responsibility to pre-approve permitted services of the independent registered public accounting firm. In addition, the policy prohibits our auditors from providing internal control-related services to us unless such engagement has been specifically pre-approved by the Audit Committee. The waiver of pre-approval provisions set forth in applicable rules of the SEC was not used to approve any of the services described above in fiscal 2017.

Required Vote. The ratification of the appointment of KPMG as our independent registered public accounting firm for fiscal 2018 requires the affirmative vote of a majority of the shares of common stock present in person or by proxy and entitled to vote on the proposal at the Annual Meeting. Abstentions will be included in the number of shares present and entitled to vote on this Proposal 2 and will have the effect of a vote "AGAINST" Proposal 2. Broker non-votes will not be considered as present and entitled to vote on this Proposal 2. Therefore, a broker non-vote will not be counted and will have no effect on this Proposal 2 other than to reduce the number of affirmative votes required to approve this proposal.

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE FOR THE RATIFICATION OF THE SELECTION OF KPMG AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR FISCAL 2018.

PROPOSAL THREE
Non-Binding, Advisory Vote on Executive Compensation

In accordance with Section 14A of the Securities Exchange Act of 1934, as amended ("Exchange Act"), and as a matter of good corporate governance practices, we are asking our stockholders to approve, on a non-binding, advisory basis, the compensation of our principal executive officer, our principal financial officer and our three most highly compensated executive officers (collectively, the "Named Executive Officers") as disclosed pursuant to the compensation disclosure rules of the SEC (commonly referred to as a "say-on-pay vote"). We intend to present this non-binding, advisory vote on executive compensation to our stockholders on an annual basis. Accordingly, you may vote on the following resolution at the 2018 Annual Meeting:

"RESOLVED, that the compensation paid to the Company's Named Executive Officers as disclosed pursuant to the compensation disclosure rules, including the Compensation Discussion and Analysis, the accompanying compensation tables, and the related narrative disclosure contained in this Proxy Statement, is hereby APPROVED."

As described in detail in the "Compensation Discussion and Analysis" section of this Proxy Statement, our compensation programs are designed to motivate our executives to drive the success of our Company. We believe that our compensation programs play a material role in our ability to achieve strong financial results, even during difficult economic times, and attract, retain and motivate a highly experienced and successful team to manage our Company. Our compensation programs reward sustained performance that is aligned with long-term stockholder interests, with a balance of:

short-term incentives (including performance-based cash bonus awards),

long-term incentives (including nonqualified stock options, restricted stock and restricted stock units, that each generally fully vest over five years and, in the case of restricted stock and restricted stock units, include stockholder approved performance conditions), and

executive stock ownership guidelines.

Stockholders are encouraged to read the "Compensation Discussion and Analysis," the accompanying compensation tables, and the related narrative disclosure contained in this Proxy Statement for a full description of our executive compensation programs.

This vote is advisory only and non-binding. The Board and the Compensation Committee, which is comprised solely of independent directors, will consider the outcome of this vote when making future executive compensation decisions to the extent appropriate.

Required Vote. The approval of the resolution set forth above requires the affirmative vote of a majority of the shares of common stock present in person or by proxy and entitled to vote on the proposal at the Annual Meeting. Abstentions will be included in the number of shares present and entitled to vote on this Proposal 3 and will count as a vote "AGAINST" Proposal 3. Broker non-votes will not be considered as present and entitled to vote on this Proposal 3. Therefore, a broker non-vote will not be counted and will have no effect on this Proposal 3 other than to reduce the number of affirmative votes required to approve this proposal.

**THE BOARD UNANIMOUSLY RECOMMENDS A VOTE FOR THE APPROVAL,
ON A NON-BINDING, ADVISORY BASIS, OF THE RESOLUTION SET FORTH ABOVE.**

Table of Contents

Except as set forth above, each nominee has been engaged in his or her principal occupation described above during the past five years. There are no family relationships between any of our directors or executive officers as defined under NASDAQ rules.

Director Independence

The Board has determined each of the following directors to be an "independent director" as defined under SEC and NASDAQ rules: Edie A. Ames; Alexander L. Cappello; Jerome I. Kransdorf; Laurence B. Mindel; David B. Pittaway; and Herbert Simon. In this Proxy Statement, these six directors are referred to individually as an "Independent Director" and collectively as the "Independent Directors."

Board Leadership Structure and Lead Director

Our Chief Executive Officer, David Overton, also serves as Chairman of our Board. Mr. Overton, who founded the Company along with his parents, Oscar and Evelyn Overton, was the driving force behind the creation and opening of The Cheesecake Factory restaurant concept and has served in a combined role as Chief Executive Officer and Chairman since 1992. We believe this leadership structure enables Mr. Overton to function as the critical link between the Board and the operating organization. It also streamlines communications with and among the Board on key topics such as our strategic objectives, long-term planning and enterprise risk management.

In addition to Mr. Overton's leadership on the Board, we determined that the appointment of an independent, lead director ("Lead Director") would be appropriate in order to establish another layer of Board oversight, share certain responsibilities with, and facilitate communication between, our Chairman and our Independent Directors, and continue to follow best practices in corporate governance. To this end, the Board adopted a policy regarding the appointment of a Lead Director - one Independent Director who is selected annually by the Independent Directors. Mr. Kransdorf currently serves as Lead Director.

The role of the Lead Director is to preside at executive sessions of the Independent Directors, serve as principal liaison between the Independent Directors and the Chairman, work with the Chairman to set and approve the schedule and agenda for meetings of our Board and its committees, direct the retention of advisors and consultants who report directly to the Board, serve as liaison for consultation and communication with stockholders, oversee the annual evaluation of our Board and its committees and evaluate, in cooperation with the Compensation Committee and all members of the Board, the Chief Executive Officer's performance and meet with the Chief Executive Officer to discuss the Board's evaluation. For information on our Board leadership, including the role of our Chairman and Lead Director, please see the section below entitled "*Corporate Governance Principles and Guidelines; Corporate Governance Materials Available on Our Website*"

Role of the Board in Risk Oversight

While the Audit Committee monitors risks related to our financial statements, the Board has determined that oversight of Company-wide risk should remain with the full Board due to the strategic nature of enterprise risk management and the Board's desire to receive feedback from a broad spectrum of disciplines regarding management's plans with respect thereto. The Board meets periodically with our management to review the effectiveness of processes for identifying and managing significant risks. The Board also reviews with management the strategic objectives that may be affected by identified risks, the level of appropriate risk tolerance, our plans for monitoring, mitigating and controlling risk, the effectiveness of such plans and our disclosure of risk.

Table of Contents**Meeting Attendance**

During fiscal 2017, the Board held eight meetings and the Independent Directors held three executive sessions without management present. Meetings include both in-person and telephonic meetings. For information regarding committee composition and number of committee meetings held during fiscal 2017, please see the section below entitled "*Committees of the Board of Directors.*" All of our directors attended at least 75% of the aggregate number of meetings of the Board and the committees on which he or she served while they were on the Board in fiscal 2017.

The Board adopted "*Policies and Procedures Regarding Board of Director Candidates*" ("Nominations Policy"). The Nominations Policy is available on our website at *investors.thecheesecakefactory.com*, by clicking on the link for "Corporate Governance." The purpose of the Nominations Policy is to describe the process by which candidates are selected for possible inclusion in the Board's recommended slate of director nominees. The Governance Committee administers the Nominations Policy and is responsible for identifying candidates for nomination or appointment to the Board. To fulfill this function, the Governance Committee at least annually reviews the size and composition of the Board and its committees, including the number of directors eligible for election at the annual meeting of stockholders, in accordance with our Certificate of Incorporation and Bylaws. The Governance Committee may solicit recommendations for nominees from other directors, members of management or others. In addition, the Governance Committee will consider recommendations of a stockholder of record or beneficial owners who timely comply with the Nominations Policy.

Minimum Qualifications. The Nominations Policy contains the following minimum qualifications for candidates for nomination to the Board:

Each candidate must consent in writing to be named in our proxy statement as a nominee and to serve as a director of the Company if nominated, elected or appointed, and qualified.

Each candidate's service as a director must not cause us or any of our subsidiaries to lose, or to be threatened with the loss of, any application for, right to the use of, or entitlement to, any material governmental license, authorization or permit.

Each candidate shall be an individual who has demonstrated integrity and ethics in his or her personal and professional life and has established a record of professional accomplishment in his or her chosen field.

Each candidate shall be prepared to represent the best interests of all of our stockholders and not just one particular constituency.

No candidate or family member (as defined under NASDAQ rules) of a candidate may have any current material personal, financial or professional interest in any company which is determined by the Governance Committee to be a significant competitor of ours.

Each candidate must be prepared to participate fully in Board activities, including active membership on at least one Board committee, and not have other personal or professional commitments that would, in the Governance Committee's sole judgment, interfere with or limit his or her ability to do so.

Each candidate shall be prepared not to serve as a member of the board of directors of more than two publicly-traded companies in addition to ours without prior approval of the majority of the Independent Directors.

Qualifications of Current Directors and Director Nominees. As part of this evaluation process, the Governance Committee reviews the current composition of the Board and assesses whether the qualifications of each director continue to meet the Governance Committee's requirements for Board service. Stockholder Recommendations to the Governance Committee for Nomination of Directors. The Nominations Policy provides that the Governance Committee will consider recommendations for nominations submitted by stockholders of record or beneficial owners. In order to give the Governance Committee sufficient time to evaluate a recommended candidate, the recommendation must be received by our Secretary at our principal executive offices no later than the 120th calendar day before the date that our proxy statement was released to stockholders in connection with the previous year's annual meeting of stockholders. With respect to the 2019 annual meeting of stockholders, recommendations must be received on or before December 20, 2018. The stockholder's recommendation must include all of the following:

A description of any business, familial or other financial or personal relationship between the stockholder and the recommended candidate.

Information regarding the recommended candidate as to each of the criteria identified above for evaluating recommendations.

Evaluation of Candidates. All qualified candidates identified through the process outlined above, including incumbents, will be evaluated based on the same criteria. If, based on the initial evaluation, a new candidate continues to be of interest, the Chair of the Governance Committee will interview the candidate and communicate his or her evaluation to the other committee members and the Chairman of the Board. Other members of the Governance Committee and senior management will conduct subsequent interviews. Ultimately, background and reference checks will be conducted, and the Governance Committee will meet to finalize its list of recommended candidates for consideration by the full Board. If an incumbent is nominated, the interview process may be abbreviated at the discretion of the Chair of the Governance Committee. If the Chair of the Governance Committee is being considered for re-nomination, the other Governance Committee members may appoint another member of the Governance Committee to head the review process for the Chair's reconsideration.

Future Revisions to the Nominations Policy. The Governance Committee's Nominations Policy is intended to provide a flexible set of guidelines for the effective functioning of the director nominations process. The Governance Committee intends to review this policy and procedure at least annually and anticipates that modifications will be necessary from time to time as our needs and circumstances evolve, and to conform with changes in applicable legal or listing standards.

Stockholders may nominate one or more persons for election as a director of the Company at an annual meeting of stockholders if the stockholder complies with the advance notice, information and consent provisions contained in our Bylaws. Stockholder nominations for the election of directors may be made only by a stockholder of record on both the date of giving notice and on the record date for such meeting by giving timely written notice to our Secretary at our principal executive offices. Such notice must be received no less than 90 days or more than 120 days prior to the anniversary date of the immediately preceding annual meeting of stockholders. If notice or prior public disclosure of the date of the annual meeting is given or made to the stockholders for a meeting date that is not within 30 days before or after the anniversary of the immediately preceding annual meeting of stockholders, notice by the stockholder will be timely if received not later than the close of business on the tenth day following the day on which such notice was mailed or such public disclosure was made, whichever is first, or no less than 90 days or more than 120 days prior to the annual meeting. For further information on the timely nomination of a person for election as a director of the Company at the 2019 annual meeting of stockholders, see "*Stockholder Proposals for the 2019 Annual Meeting of Stockholders.*"

In the event that we increase the number of directors to be elected and we make no public announcement at least 100 days prior to the first anniversary of the preceding year's annual meeting that names all of the nominees for director or specifies the size of the increased Board, a stockholder's notice will be considered timely, but only with respect to nominees for any new positions created by the increase, if the notice is delivered to, or mailed and received at, our principal executive offices (addressed to our Secretary) not later than ten calendar days following the day on which we make the public announcement. In the case of a special meeting of stockholders called for the purpose of electing directors, notice will be timely if the stockholder provides written notice to our Secretary not later than the close of business on the tenth day following the day on which notice of the date of the special meeting was mailed or such public disclosure of the meeting date was made, whichever first occurs, or no less than 90 or more than 120 days prior to the meeting. The stockholder's notice must include all of the information required by our Bylaws. If the stockholder provides a statement that the stockholder intends to deliver a proxy statement and form of proxy, the nomination may not be brought before the meeting unless the stockholder has delivered a proxy statement and form of proxy to a sufficient number of holders of a percentage of our voting shares to elect the nominee or nominees proposed by the stockholder.

The foregoing summary is not a complete description of the provisions of our Bylaws pertaining to stockholder nominations and proxies. Stockholders may obtain, without charge, a copy of our Bylaws upon written request to our Secretary at our principal executive offices. Our Bylaws are also available on our website at investors.thecheesecakefactory.com, by clicking on the link for "Corporate Governance."

Compensation Committee Interlocks and Insider Participation

During fiscal 2017, Messrs. Jerome I. Kransdorf, Laurence B. Mindel and Herbert Simon served on the Compensation Committee, with Mr. Alexander L. Cappello serving as its Chair. During fiscal 2017, no member of the Compensation Committee was an officer or employee of ours, a former officer of ours or of our subsidiaries or had a relationship requiring disclosure by us under Item 407(e) of Regulation S-K. None of our executive officers served on the board of directors or compensation committee of any other entity that has or has had one or more executive officers who served as a member of our Board or the Compensation Committee during fiscal 2017.

Table of Contents**Directors Compensation**

The Compensation Committee is responsible for periodically reviewing compensation payable to its non-employee directors for service on the Board or its designated committees and making recommendations to the Board concerning such compensation. Under the Compensation Committee's charter, the Compensation Committee may select and retain an independent compensation consultant to provide advice and guidance as requested by the Compensation Committee. In 2017, the Compensation Committee undertook a review of the services provided by its compensation consultant and interviewed several independent compensation consultants to obtain a perspective of services and approaches available and, after such review, determined that it was in the best interests of stockholders to engage Frederic W. Cook & Co., Inc. ("FW Cook") as its compensation consultant for fiscal 2018. FW Cook is an industry leading firm that provides independent executive compensation consulting assistance to publicly-traded and privately-held organizations in developing compensation programs for executives, key employees, and non-employee boards of directors. In making non-employee director compensation recommendations, the Compensation Committee considered recommendations by its independent compensation consultant, based upon a competitive analysis conducted by them as well as a number of other factors, including, without limitation, each director's responsibilities, committee chairs and compensation paid by similar companies to their directors. The Compensation Committee intends to set director compensation levels at or near the market median relative to directors at companies of comparable size, industry, and scope of operations in order to ensure directors are paid competitively for their time commitment and responsibilities. Providing a competitive compensation package is important because it enables us to attract and retain highly qualified directors who are critical to our long-term success. The Board reviews recommendations by the Compensation Committee and determines non-employee director compensation. On February 16, 2017, based upon such recommendations and review and to more appropriately align director pay with the median pay levels of similarly positioned directors within our Executive Compensation Peer Group (see "*Executive Compensation-Market Positioning 2017 Executive Compensation Peer Group*" for a description of our Executive Compensation Peer Group and how it was selected), the Board approved (i) an increase to the annual cash fee in the amount of \$10,000 to a total of \$85,000, and (ii) an increase to the annual cash payment in lieu of equity in the amount of \$5,000 to a total of \$110,000, effective as of the first day of the 2017 fiscal year. On February 16, 2017, the Board also approved a recommendation from the Compensation Committee to limit total compensation which any one non-employee board member may receive in any one fiscal year to \$500,000.

The following table sets forth information regarding the cash compensation arrangements for Independent Directors who served on our Board in fiscal 2017. Any member of the Board who is not a non-employee director does not receive fees for service on the Board or its committees.

Board of Directors Fees⁽¹⁾	Fiscal 2017
Annual fee	\$ 85,000
Annual cash payment in lieu of equity grant in 2017 ⁽²⁾	\$ 110,000
Lead Director annual fee	\$ 25,000
Audit Committee Chair annual fee	\$ 15,000
Compensation Committee Chair annual fee	\$ 12,500
Governance Committee Chair annual fee	\$ 7,500

(1) All fees and cash payments are payable in equal monthly installments, as earned, following the end of each calendar month.

(2) The Board authorized a cash payment of \$110,000, annually, to each director in lieu of an equity award. Rather than offering equity awards to non-employee directors under an equity plan and

potentially negatively impacting the limited total number of shares that we can request from stockholders based on guidelines promulgated by proxy advisory firms, we have adopted stock ownership guidelines for our directors in order to better align their interests with those of our stockholders.

In order to continue to assure that the interests of our Independent Directors are aligned with the long-term interests of our stockholders, we adopted "*Director Stock Ownership Guidelines*" which require our non-employee directors to acquire and thereafter maintain ownership of shares of our Company's common stock equal in fair market value to three times their annual cash retainer. For a more detailed description of our stock ownership policy, please see "*Director and Executive Stock Ownership Guidelines, Holding Periods and Other Requirements*" below.

The following table sets forth certain information regarding the compensation earned by each Independent Director who served on our Board in fiscal 2017. Mr. Overton, as our employee, is not an Independent Director and is not compensated for his services on the Board.

DIRECTOR COMPENSATION FOR FISCAL 2017

Eddie A. Ames ⁽¹⁾	\$ 195,000	\$ 195,000
Alexander L. Cappello	\$ 207,500	\$ 207,500
Jerome I. Kransdorf ⁽¹⁾	\$ 227,500	\$ 227,500

Herbert Simon	\$ 195,000	\$ 195,000

(1) All or a portion of these fees were paid into a nonqualified deferred compensation plan account administered under The Cheesecake Factory Incorporated Executive Savings Plan. See "*Director Eligibility for Participation in the Executive Savings Plan.*"

Director Eligibility for Participation in the Executive Savings Plan. Members of the Board are eligible to participate in our Executive Savings Plan, a nonqualified deferred compensation plan, by contributing all or a portion of their director fees to this plan. We do not match contributions made by non-employee members of the Board to the Executive Savings Plan. Additional information regarding the Executive Savings Plan appears in the section of this Proxy Statement entitled "*Executive Compensation-Retirement Plans-Nonqualified Deferred Compensation*"

Reimbursement of Expenses and Other Perquisites. Each Independent Director is entitled to reimbursement for reasonable out-of-pocket expenses incurred in connection with travel to and from, and attendance at, meetings of the Board or its committees and related activities, including director education courses and materials. Independent Directors also receive dining privileges at our restaurants.

Indemnification of Officers and Directors

As permitted by the Delaware General Corporation Law, our Certificate of Incorporation limits the personal liability of our directors for monetary damages for breach of fiduciary duty of care as a director. Liability is not eliminated for (a) any breach of the director's duty of loyalty to us or our stockholders, (b) acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (c) unlawful payment of dividends or stock purchases or redemptions pursuant to Section 174 of the Delaware General Corporation Law, and/or

(d) any transaction from which the director derived an improper personal benefit. Our Certificate of Incorporation also provides that we shall indemnify and advance indemnification expenses on behalf of all directors and officers of ours to the fullest extent

Table of Contents

permitted by Delaware law. Article VIII of our Bylaws also requires us, subject to certain limitations, to indemnify directors and officers and advance expenses. The indemnification and advancement of expenses provisions of Article VIII are not exclusive of any other rights of indemnification or advancement of expenses.

We also entered into indemnification agreements with all of our directors and Named Executive Officers. Each indemnification agreement requires us to indemnify and hold harmless the director or Named Executive Officer to the fullest extent authorized by the laws of the State of Delaware. Each indemnification agreement also requires us, subject to specific terms and conditions, to advance expenses to the director or officer. Each indemnification agreement also sets forth various procedures and definitions with respect to indemnification and advancement of expenses. We also are obligated to maintain directors' and officers' liability insurance. With specified exceptions, we are not obligated to provide indemnification or advance expenses with respect to actions initiated by the director or officer or to indemnify the director or officer in connection with proceedings by us to enforce non-compete or non-disclosure agreements or our Clawback Policy. To the extent the provisions of the indemnification agreements exceed the indemnification permitted by applicable law, such provisions may be unenforceable or may be limited to the extent they are found by a court of competent jurisdiction to be contrary to public policy.

Director and Executive Officer Stock Ownership Guidelines, Holding Periods and Other Requirements

Stock Ownership Guidelines for Directors and Executive Officers. The Board adopted stock ownership guidelines for non-employee directors and executive officers in order to further align their interests with the long-term interests of our stockholders.

Stock ownership guidelines applicable to our non-employee directors provide that, on or before December 31, 2013, all non-employee directors who were members of the Board at the time of adoption of the guidelines were required to acquire (and thereafter maintain ownership of) a minimum number of shares of our common stock with a fair market value equal to three times the annual base cash retainer for non-employee directors (the product of such amount being \$255,000 as of the end of fiscal year 2017, based upon the 2017 annual cash retainer of \$85,000). In addition, within three years of their respective appointments, all non-employee directors appointed after adoption of the guidelines are required to acquire (and thereafter maintain ownership of) a minimum number of shares of our common stock with a fair market value equal to three times the annual base cash retainer payable to the non-employee directors (\$255,000 for fiscal year 2018). For purposes of this policy, stock ownership includes any shares owned by a director or his or her immediate family members or held by him or her as part of a tax or estate plan in which the director retains beneficial ownership. The value of shares held is calculated once per year, on the first day of the fiscal year. For purposes of determining compliance with the policy, "value" means an assumed per-share value based on the average of the closing price of our common stock on the last day of each of the previous four fiscal quarters. A director is not required to acquire shares of our common stock in accordance with the stock ownership guidelines if the purchase would result in a violation of our Special Trading Policy and Procedures and the addendum thereto. In such a scenario, the director is required to comply with the stock ownership guidelines as soon as reasonably feasible thereafter.

All of our non-employee directors were in compliance with our non-employee director stock ownership guidelines as of the Record Date, except for Ms. Ames who joined the Board in December 2016 and is required to meet the stock ownership guidelines within three years of her appointment.

Stock ownership guidelines applicable to certain of our executive officers, including all current Named Executive Officers, provide that, on or before December 31, 2015, all executives who, at the time of adoption of the guidelines, held the positions with us listed below are required to acquire (and thereafter

Table of Contents

maintain ownership of) a minimum number of shares of our common stock with a value equal to the multiple of such executive's annual base salary (excluding bonus), as follows:

Position with Company	Multiple of Salary
Chief Executive Officer of the Company	6 times annual base salary
President of the Company or of our wholly owned subsidiaries, The Cheesecake Factory Restaurants, Inc. or The Cheesecake Factory Bakery Incorporated	2 times annual base salary
Executive Vice President of the Company	2 times annual base salary

In addition, within five years of the appointment of any officer appointed after the time of adoption of the guidelines, in the positions designated above (other than a newly-appointed Chief Executive Officer, who has seven years to comply), the newly appointed executive is required to acquire (and thereafter maintain ownership of) shares of our common stock with the value set forth above. For purposes of this policy, stock ownership includes (i) any shares owned by an executive or his or her immediate family members or held by him or her as part of a tax or estate plan in which the executive retains beneficial ownership, and (ii) unvested restricted stock or restricted stock units. The value of shares held is calculated once per year, on the first day of the fiscal year. For purposes of determining compliance with the policy, "value" means an assumed per-share value based on the average of the closing price of our common stock on the last day of each of the previous four fiscal quarters. An executive subject to this policy is not required to acquire shares of our common stock in accordance with the stock ownership guidelines if acquisition at such time would result in a violation of our Special Trading Policy and Procedures and the addendum thereto, in which event the executive is required to comply with the guidelines as soon as reasonably feasible thereafter. Certain hardship exceptions are available at the discretion of the Compensation Committee, but no exceptions have been solicited or granted to date.

All of our Named Executive Officers are in compliance with our executive stock ownership policy as of the Record Date, except for Mr. Clark who was appointed as our Executive Vice President and Chief Financial Officer effective July 7, 2017 and is required to meet the stock ownership guidelines within five years of his appointment.

Hedging and Pledging. Members of our Board and our officers and staff members are prohibited from trading in any interest or position relating to the future price of our securities, such as a put, call or short sale, or using our stock as collateral for margin loans.

Policies Regarding Review, Approval or Ratification of Transactions with Related Persons

In accordance with its charter, our Audit Committee reviews and approves any proposed transactions with a "related person." Any related person transaction will be disclosed in the applicable filing as required by the rules promulgated by the SEC. For purposes of these procedures, "related person" and "transaction" have the meanings as defined in Item 404 of Regulation S-K. We had no reportable transactions with related persons required to be disclosed under Item 404 of Regulation S-K since the beginning of fiscal 2017.

This includes, without limitation, statements with respect to our expectations for growth in Company-owned and licensed locations, comparable sales, operating margins and diluted net earnings per share ("EPS"), as well as achieving our other financial objectives; our intention to repurchase stock, pay dividends, invest growth capital, expand our consumer packaged goods licensing revenue and develop a fast casual concept; the impact of changes in tax laws and regulations; our future financial condition, results of operations, plans, objectives, performance and business of The Cheesecake Factory Incorporated and its subsidiaries and all other statements that are not historical facts, as well as statements that are preceded by, followed by or that include words or phrases such as "believe," "plan," "will likely result," "expect," "intend," "will continue," "is anticipated," "estimate," "project," "may," "could," "would," "should" and similar expressions. These statements are based on our current expectations and involve risks and uncertainties which may cause results to differ materially from those set forth in such statements.

In connection with the "safe harbor" provisions of the Acts, we have identified and are disclosing important factors, risks and uncertainties that could cause our actual results to differ materially from those projected in forward-looking statements made by us or on our behalf (See Item 1A Risk Factors of our Annual Report on Form 10-K for the fiscal year ended January 2, 2018, and our quarterly reports on Form 10-Q and current reports on Form 8-K, as filed with the SEC). These cautionary statements are to be used as a reference in connection with any forward-looking statements. The factors, risks and uncertainties identified in these cautionary statements are in addition to those contained in any other cautionary statements, written or oral, which may be made or otherwise addressed in connection with a forward-looking statement or contained in any of our subsequent filings with the SEC. NON-GAAP FINANCIAL MEASURES

In addition to the results determined in accordance with generally accepted accounting principles ("GAAP"), this Proxy Statement includes non-GAAP financial measures that present income from operations, operating margin, net income, and diluted net income per share excluding the impact of items we do not consider indicative of our ongoing operations. We believe these adjusted measures provide additional information to facilitate the comparison of our past and present financial results. We utilize results that both include and exclude the identified items in evaluating business performance. Our inclusion of these adjusted measures should not be construed as an indication that our future results will be unaffected by unusual or infrequent items. In the future, we may incur expenses or generate income similar to the adjusted items. Non-GAAP financial measures should be considered in addition to, not as a substitute for, measures of performance prepared in accordance with GAAP. These non-GAAP financial measures may not be comparable to similarly titled measures used by other companies and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

2017 Performance Outcomes and Key Pay Decisions.

For 2017, annual cash incentive payouts to our Named Executive Officers ranged from 25% to 50% of target based on achievement of our financial and strategic performance objectives.

One-third of restricted shares granted to the Named Executive Officers in fiscal 2016 were subject to our diluted EBITDA being equal to or greater than (i) a combined, cumulative target for fiscal 2016 and 2017 of \$540 million, or (ii) a combined, cumulative target for 2016-2018 of a greater amount, whichever occurs earlier. We achieved EBITDA for fiscal 2016 and 2017 of \$545 million, which exceeded the target; as a result, these grants are now subject to time-based vesting, and 60% of the shares will vest on March 3, 2019 and 20% of the shares will vest on each of March 3, 2020 and March 3, 2021.

The Compensation Committee elected to maintain our Chief Executive Officer's base pay at the same level as 2016, to target his annual incentive at comparable levels as 2016 and to modestly increase his long-term incentive grant value for equity granted in 2017.

With respect to our other Named Executive Officers (other than Mr. Clark, our Executive Vice President and Chief Financial Officer and Mr. Gordon, our President), the Compensation Committee elected to provide for base salary increases of approximately 3% and to maintain annual incentive targets and long-term incentive grant values at comparable levels as in 2016. The Compensation Committee approved a slightly higher base salary increase for David M. Gordon, our President, and increased the target value of long-term equity incentives for W. Douglas Benn⁽¹⁾, our former Chief Financial Officer, in each case, in order to remain competitive with our Executive Compensation Peer Group⁽²⁾.

Mr. Clark was appointed to his current positions effective July 7, 2017, concurrently with Mr. Benn's departure. In recognition of Mr. Clark's new responsibilities and to better align with the

Table of Contents

market, the Compensation Committee approved increases to his base salary and target annual incentive, and granted Mr. Clark a long-term equity award.

- (1) Mr. Benn's employment with us terminated on July 7, 2017. Mr. Benn had not announced his resignation at the time the Compensation Committee approved the increase to his target equity.
- (2) See "*Market Positioning-2017 Executive Compensation Peer Group*" for a description of our Executive Compensation Peer Group and how it was selected.

Emphasis on Performance-Based Compensation and Pay Delivery. For fiscal 2017, on average, 63% of the compensation of our Named Executive Officers, other than our Chief Executive Officer, was performance-based. Mr. Overton continues to have a proportionately greater percentage (83%) of performance-based compensation as compared to other Named Executive Officers because we believe he has a greater ability to influence both short-term and long-term performance.

The following charts show each element of our compensation as a percentage of the target total compensation for our Chief Executive Officer and other Named Executive Officers for fiscal 2017, 2016 and 2015 (equity awards are depicted at grant date fair value).

2017 "Say-on-Pay" Advisory Vote on Executive Compensation. We provided stockholders a "say-on-pay" advisory vote regarding our Named Executive Officers' compensation for several years, and we intend to continue to provide stockholders with a "say-on-pay" advisory vote on an annual basis. At our 2017 annual meeting of stockholders, our stockholders approved, by a vote of approximately 99% of shares represented in person or by proxy (not counting broker non-votes), the compensation program and policies and the compensation paid to our Named Executive Officers as presented in the proxy statement for the 2017 annual meeting of stockholders. We believe this level of approval indicates that stockholders strongly support our executive compensation programs and policies. The Compensation Committee will consider the results of this year's say-on-pay proposal, as well as feedback from our stockholders, when making future executive compensation decisions.

Factors Considered in Making Compensation Decisions. Our compensation strategy enables us to appropriately differentiate and reward executives by taking into account:

Our financial and operational performance;

The executive's individual performance, experience and qualifications;

The scope of the executive's role;

The level of total compensation for our other executives; and

Competitive market data, which helps us evaluate how our executive pay levels compare to others in our industry and within the markets in which we compete for talent.

All of the factors set forth above are considered by the Compensation Committee in establishing Named Executive Officer compensation, in a subjective manner, without any specific formula.

Alignment of Company Performance and Pay Delivery

Consistent with our pay-for-performance philosophy, 83% of the CEO's total direct compensation is at-risk and aligned with our actual performance. The table below demonstrates such alignment, showing that "actual" pay for the CEO in each of the past three years has been lower than the "targeted" amounts, which is consistent with our total shareholder return performance over the same period.

Actual pay includes base salary, actual bonus attributed to performance year shown, the intrinsic value of stock options as of 12/31/17, the intrinsic value of earned performance shares as of 12/31/17 for 2015 grants, and the intrinsic value of target performance shares as

Edgar Filing: CHEESECAKE FACTORY INC - Form DEF 14A

of 12/31/17 for 2016 and 2017 grants. Total shareholder return assumes investment of \$100 on December 31, 2014 and reinvestment of dividends.

Market Positioning

Our Compensation Committee, in collaboration with our Chief Executive Officer and Senior Vice President of Human Resources, reviews market data related to pay practices among comparable companies, but does not target specific market positioning of pay when determining compensation for

Table of Contents

individual Named Executive Officers. Rather, the Compensation Committee uses comparative market data as one of several factors when making individual compensation decisions.

As part of its compensation review process for fiscal 2017, the Compensation Committee reviewed an analysis prepared by its compensation consultant of market pay practices for positions similar to the positions of our Named Executive Officers, adjusted to take into account differences, if any, between the scope of our Named Executives Officers' responsibilities compared to their counterparts in positions with similar titles in comparable companies. This analysis used pay comparisons from comparable companies in the restaurant and hotel industry as compiled from their proxy disclosures and other SEC filings as well as a recognized market survey source, the Mercer Executive Remuneration Suite Survey. For the Chief Executive Officer and the Chief Financial Officer, size-adjusted data from the comparable companies listed below was weighted at 50% and the survey was weighted at 50% for purposes of determining market pay positions in such analysis. Our compensation consultant determined that there was not sufficient comparable representation in the proxy data for the other Named Executive Officers, and thus the survey was the primary data source in such analysis.

Comparison Groups. When we compare ourselves to other companies, we must account for differences between us and others in terms of ownership structure, dining industry segment, size and complexity of operations, sourcing pool for executive talent, and other differentiators. We use two different peer groups for purposes of comparison depending upon what matter is being compared. The first comparison group, which we refer to as the "Financial Peer Group," is used to determine appropriate objectives for our Performance Incentive Plan (see "*Principal Elements of Compensation Fiscal 2017 Performance Incentive Plan Design*"). We use this group because their business model, dining industry segment, and operational structure most closely compares with ours. We use the second peer group, which we refer to as the "Executive Compensation Peer Group," for executive compensation comparisons and compensation program design comparisons, as we believe this group reflects companies most similar in size and complexity of operations and with which we compete for executive talent.

2017 Financial Peer Group. The Financial Peer Group approved by the Compensation Committee for 2017 was comprised of the following restaurant companies:

BJ's Restaurants, Inc.	Chuy's Holdings, Inc. ⁽¹⁾	Ruby Tuesday, Inc. ⁽³⁾
Bloomin' Brands, Inc.	Darden Restaurants, Inc.	Texas Roadhouse, Inc.
Bravo Brio Restaurant Group, Inc.	Ignite Restaurant Group, Inc. ⁽²⁾	

(1) Added for fiscal 2017 as such company met the financial criteria and has a similar management structure to other members of the 2017 Financial Peer Group.

(2) Eliminated during 2017 due to filing of bankruptcy.

(3) Eliminated during 2017 due to being acquired by a private equity firm.

In order to be in the 2017 Financial Peer Group, each company had to remain publicly traded with units that are at least 75% company-operated. The potential peer group is evaluated by the Compensation Committee on an annual basis. First, all publicly traded, full service restaurants were reviewed for potential inclusion as peers. Next, the group was further segmented into casual dining (including bar and grill) and upscale casual dining, but excluding companies with revenue of less than \$250 million. Finally, the Compensation Committee focused on company-owned concepts (in which less than 25% of the store units are franchised). The Compensation Committee believes the 2017 Financial Peer Group is a sufficiently large sample and was the most representative competitive set for which data is regularly available.

Table of Contents

2017 Executive Compensation Peer Group. The Executive Compensation Peer Group approved by the Compensation Committee for 2017 was unchanged from 2016 and consisted of companies that are similar to us in size and complexity of operations and with whom we compete for executive talent, had revenue between approximately \$500 million and \$6 billion (approximately 0.25 times to three times our revenue), and in the aggregate, had an overall median revenue of \$2.2 billion as of fiscal 2016, which was approximately equal to our revenue, as follows:

BJ's Restaurants, Inc.	Cracker Barrel Old Country Store, Inc.	Red Robin Gourmet Burgers, Inc.
Bloomin' Brands, Inc.	Darden Restaurants, Inc. ⁽¹⁾	Ruby Tuesday, Inc.
Bob Evans Farms, Inc.	Dine Brands Global, Inc.	Texas Roadhouse, Inc.
Brinker International, Inc.	Hyatt Hotels Corporation	Wyndham Worldwide Corporation
Buffalo Wild Wings, Inc.	Ignite Restaurant Group, Inc.	
Chipotle Mexican Grill, Inc.	Panera Bread Company	

(1) Included in our comparison group because of its importance as an industry leader in casual dining, even though its revenues are greater than the \$6 billion upper range limit.

While this comparison group provides the Compensation Committee with an important general frame of reference, as described above, the Compensation Committee does not target our Named Executive Officers' compensation at any specific percentile or within a specific range of the Executive Compensation Peer Group's pay levels.

2018 Peer Group Changes. For fiscal 2018, the Compensation Committee reviewed the Financial Peer Group, using the same criteria as described above for fiscal 2017, and determined to add Red Robin Gourmet Burgers, Inc. (as such company met the financial criteria and had a similar management structure as other members in the 2018 Financial Peer Group, and the Compensation Committee felt it was prudent to add an additional company in order to expand the range of performance data reviewed), and removed Ignite Restaurant Group, Inc. and Ruby Tuesday, Inc. In addition, for the 2018 Executive Compensation Peer Group, the Compensation Committee added Dave & Buster's Entertainment, Inc., Denny's Corporation, Dominos Pizza, Inc. and The Wendy's Company (as such companies are similar to us in size and complexity of operations and against which we compete for executive talent), and removed Bob Evans Farms, Inc., Panera Bread Company and Ignite Restaurant Group, Inc. (as each of these companies were delisted from their respective stock exchanges in 2017).

Principal Elements of Compensation

Base Salary. In accordance with our compensation objectives, base salaries for our Named Executive Officers are determined by the Compensation Committee and administered to reflect the individual executive's career experience, contribution to our performance, overall Company performance, as well as the market data as compared to the Executive Compensation Peer Group. During its annual review of base salaries, the Compensation Committee also considers the recommendations of our Chief Executive Officer (except with respect to his own compensation).

The following chart shows the annualized base salaries for our Named Executive Officers for fiscal years 2017 and 2016 and the percentage change as compared to the prior year, which the Compensation Committee determined were reasonable and appropriate based on the factors described above.

Table of Contents**FISCAL 2018, 2017 and 2016 BASE SALARIES**

Matthew E. Clark ⁽¹⁾ <i>Executive Vice President and Chief Financial Officer</i>	\$ 490,000	8.9%	\$ 450,000	32.4%	\$ 340,000
Debby R. Zurzolo ⁽²⁾ <i>Executive Vice President, General Counsel and Secretary</i>	\$ 512,000	3.0%	\$ 497,000	3.1%	\$ 482,000
Max S. Byfuglin ⁽³⁾ <i>President, The Cheesecake Factory Bakery Incorporated</i>	\$ 438,000	0.0%	\$ 438,000	3.1%	\$ 425,000

(1) Effective July 7, 2017, Mr. Clark's base salary increased from \$355,000 to \$450,000, in connection with his appointment as Executive Vice President and Chief Financial Officer.

(2) Ms. Zurzolo will retire from employment with us in fiscal year 2018.

(3) Mr. Byfuglin retired from employment with us on April 13, 2018.

Annual Cash Performance Incentive Compensation. Executives are eligible to receive an annual cash performance incentive bonus ("Bonus") under the Performance Incentive Plan based on our performance against specific financial and strategic objectives.

Each Named Executive Officer is assigned a threshold, target and maximum Bonus opportunity, calculated as a percentage of base salary. At the beginning of each fiscal year, the Compensation Committee establishes both the performance objectives and the formula for determining potential Bonus payments. Bonuses are payable, if at all, in the first quarter of the following fiscal year, after the Compensation Committee certifies performance relative to the pre-established objectives.

For 2017, the Compensation Committee retained negative discretion under our Performance Incentive Plan with respect to payment of Bonuses to our Named Executive Officers, and could award Bonuses that were less (but not more) than the ranges established under such plan. In addition, under the terms of our Performance Incentive Plan, the amount of any individual Bonus in any fiscal year may not exceed \$2.5 million.

Table of Contents

Fiscal 2017 Performance Incentive Plan Design. For fiscal 2017, the Compensation Committee made no change to the minimum, threshold, target and maximum Bonus opportunities by position for our Named Executive Officers under our Performance Incentive Plan, as set forth below. Actual payouts depend upon performance results with ranges as follows:

Name	Performance Incentive Plan Bonus as % of Pro-rated Salary ⁽¹⁾			
	Minimum	Threshold ⁽²⁾	Target ⁽³⁾	Maximum ⁽⁴⁾
Chief Executive Officer	0%	20.6%	110%	192.5%
President	0%	14.1%	75%	131.3%
Executive Vice President	0%	12.2%	65%	113.8%
Subsidiary President	0%	12.2%	65%	113.8%

⁽¹⁾ Awards are calculated based upon the Named Executive Officer's annualized effective salary, which, for fiscal 2017, includes salary increases that became effective on March 1, 2017.

⁽²⁾ The threshold award assumes the achievement of 85% of the Company-wide operating income target and none of the strategic objectives.

⁽³⁾ The target award assumes the achievement of 100% of the Company-wide operating income target and 100% of the strategic objectives.

⁽⁴⁾ The maximum award assumes achievement of 115% or more of the Company-wide operating income target and 100% of the strategic objectives.

Under the Performance Incentive Plan for 2017, for executives other than those in our bakery division, the Compensation Committee established that 75% of potential awards would be based on a Company-wide consolidated operating income objective and that 25% would be based on strategic objectives. However, the 25% of potential awards based on strategic objectives could be achieved only if we also achieved a threshold consolidated operating income objective. For our bakery division executives, the Compensation Committee established that 50% of potential awards would be based on a Company-wide consolidated operating income objective, 25% of would be based on a bakery division operating income objective, and 25% would be based on bakery division strategic objectives. However, the 25% of potential awards based on bakery division strategic objectives could be achieved only if the bakery also achieved a threshold bakery division consolidated operating income objective.

Table of Contents

For fiscal 2017, the Compensation Committee approved the following potential payout schedules for executives of both the Company as a whole and our bakery division:

FISCAL 2017 COMPANY BONUS SCHEDULE (EXCLUDES BAKERY)

- (3) Required achievement of a bakery specific threshold consolidated operating income objective of at least \$9.6 million.
- (4) For example (assuming achievement of a Company-wide threshold consolidated operating income objective), 50% achievement would pay 50% of award and 85% achievement would pay 85% of award.

Fiscal 2017 Performance Objectives. The Compensation Committee made the following assumptions when considering financial and strategic performance objectives for our Performance Incentive Plan for fiscal 2017:

Gross domestic product growth of approximately 2%, consistent with the past several years.

Weak restaurant sales and guest traffic in 2016, which was not projected to improve significantly in 2017.

Approximately \$26 million of labor pressure from minimum wage and tip credit increases.

Operating income growth of flat year-over-year driven by significant labor pressure coupled with lapping a 53rd week (fiscal 2016 consisted of 53 weeks compared to 52 weeks in fiscal 2017).

Given these assumptions, the Compensation Committee decided to select operating income as the most heavily weighted performance target. Operating income is a key driver of stockholder value in that it (i) affects not only earnings per share but also overall cash flow from operations, (ii) supports return on invested capital percentage rates, and (iii) is a key driver of a publicly-traded restaurant company's stock multiple. Taking into consideration the projected operating environment for casual dining and specific Company objectives for fiscal 2017, the Compensation Committee established operating income goals that were consistent with our annual operating plan approved by the Board for fiscal 2017. Additional factors considered by the Compensation Committee included:

The appropriate rate of growth of our operating income;

The role of operating margin as a primary driver of value creation within the restaurant industry, due in part to the low overall sales growth, and use of an Executive Compensation Peer Group⁽¹⁾ relative measure to appropriately account for commodity cost movements, and macro or industry-wide cycles;

The importance of continuing expansion of Company-owned restaurants, including expansion into Canada;

The importance of continuing international expansion with licensed partners, specifically in the Special Administrative Region of Hong Kong and Beijing, China;

Appropriate growth of our bakery division's operating income; and

Developing and implementing a formal third party strategic growth plan for our bakery division.

(1) See "*Market Positioning-2017 Executive Compensation Peer Group*" for a description of our Executive Compensation Peer Group and how it was selected.

Table of Contents

Taking all of these factors into account, the Compensation Committee set the following performance objectives under the Performance Incentive Plan for fiscal 2017, which the Compensation Committee believed at that time were appropriate, reasonably difficult to achieve and, if achieved, would likely deliver significant value to us and our stockholders:

2017 TARGETS FOR EXECUTIVES OTHER THAN BAKERY DIVISION

Weight	Performance Targets
75%	Company consolidated operating income target of \$201 million. ⁽¹⁾
25%	Additional strategic objectives, including: <p style="margin-left: 40px;">Minimum consolidated operating income threshold of \$161 million for any strategic objectives to pay out.⁽²⁾</p> <p style="margin-left: 40px;">Fiscal 2017 operating margin greater than the average of our 2017 Financial Peer Group.⁽³⁾</p> <p style="margin-left: 40px;">International expansion of The Cheesecake Factory restaurants in Beijing, China and the Special Administrative Region of Hong Kong by our licensee, including completing design and supporting construction of the sites, completing product review and approval processes for such locations, and supporting staffing / training / operational programs for successful openings.</p> <p style="margin-left: 40px;">International expansion of the first The Cheesecake Factory restaurant outside of the U.S.A. owned and operated directly by us in Canada, including lease execution, restaurant build out, and staffing / training / operational program roll outs for a successful opening.</p>

(1) See "*Principle Elements of Compensation-Fiscal 2017 Performance Objectives*" for a discussion regarding the Compensation Committee's considerations when selecting this target. See the table above, entitled "*Fiscal 2017 Company Bonus Schedule (Excludes Bakery)*," for award payout percentages based upon achievement of a Company-wide operating income objective, with 85% threshold achievement required for payment of any award. This threshold target of Company-wide operating income objective was intended to reward substantial achievement of our financial objective. If achieved, this consolidated operating income target would be approximately equal to the fiscal 2016 consolidated operating income of \$201 million. This target was considered appropriate given expected cost increases and normalizing for 53 weeks in 2016 vs. 52 weeks in 2017.

(2) This target based upon a Company-wide operating income objective was intended to provide a threshold level of consolidated operating income before rewarding achievement of any strategic objectives. The threshold target was also intended to satisfy the performance-based compensation exception for deductibility of amounts exceeding \$1 million under Code Section 162(m) for fiscal 2017, which subsequently has been eliminated under the federal Tax Cuts and Jobs Act of 2017 ("TCJA"), signed into law on December 22, 2017 and effective for tax years after 2017. See "*Executive Compensation-Other Considerations-Impact of Accounting and Tax Treatments on Compensation*" for more information regarding the requirements of Code Section 162(m) and recent changes eliminating the performance-based compensation exception for tax years beginning after December 31, 2017. If achieved, this threshold consolidated operating income target would equal 80% of fiscal 2016 consolidated operating income of \$201 million and approximately 80% of the 2017 consolidated operating income target of \$201 million.

(3) See "*Market Positioning-2017 Financial Peer Group*" for a description of our 2017 Financial Peer Group and how it was selected.

2017 TARGETS FOR BAKERY DIVISION EXECUTIVES (INCLUDING MR. BYFUGLIN)

Weight	Performance Targets
50%	Bakery division operating income target of \$11.98 million. ⁽¹⁾
25%	Company-wide consolidated operating income target of \$201 million. ⁽²⁾
25%	Additional strategic objectives, including:
	Minimum bakery specific consolidated operating income threshold of \$9.6 million for any strategic objectives to pay out. ⁽³⁾
	Develop and implement a formal third-party strategic growth plan by market segment, including a comprehensive SWOT analysis, strategy development and developing revenue and margin growth targets.
	Execute action steps called for in business excellence strategic plan through the creation of a governance committee, communication plans, resource assessments and leadership assessments.

(1) When selecting the bakery operating income target, the Compensation Committee considered the bakery division's role in helping us achieve our strategic priorities. Factors considered included, but were not limited to, the bakery division's direct support of our restaurant division (as its largest customer); the forecasted economic conditions and expected operating environment for casual dining restaurants (see "*Fiscal 2017 Performance Objectives*"); the total Company financial performance objectives; and the specific rate of return targeted to be generated by the bakery division. If achieved, this bakery operating income target would equal a \$1.4 million increase from fiscal 2016 bakery operating income of \$10.5 million.

(2) See "*Fiscal 2017 Performance Objectives*" for a discussion regarding the Compensation Committee's considerations when selecting this target. See the table above, entitled "*Fiscal 2017 Company Bonus Schedule (Excludes Bakery)*," for award payout percentages based upon achievement of a Company-wide operating income objective, with 85% threshold achievement required for payment of any award.

(3) This threshold was intended to provide a threshold target of bakery specific consolidated operating income before rewarding achievement of any bakery strategic objectives. The threshold target was also intended to satisfy the performance-based compensation exception for deductibility of amounts exceeding \$1 million under Code Section 162(m) for fiscal 2017, which subsequently has been eliminated under the TCJA. See "*Executive Compensation-Other Considerations-Impact of Accounting and Tax Treatments on Compensation*" for more information regarding the requirements of Code Section 162(m) and recent changes eliminating the performance-based compensation exception for tax years beginning after December 31, 2017. If achieved, this bakery operating income target would equal approximately 110% of fiscal 2016 bakery consolidated operating income target of \$8.75 million and approximately 80% of the bakery's 2017 consolidated operating income target.

- (3) See "*Market Positioning-2017 Financial Peer Group*" for a description of our 2017 Financial Peer Group and how it was selected.
- (4) Achieved fiscal 2017 operating margin 26% greater than our 2017 Financial Peer Group.

(2) Payable only if bakery consolidated operating income is at least \$9.6 million. Maximum payout for strategic objectives is 100% of target.

(3) For a description of these specific milestones, see the table above, entitled "2017 Targets for Bakery Division Participants (including Mr. Byfuglin)."

- (1) Fiscal years 2017 and 2016 include pre-tax impairment of assets and lease terminations expense of \$10.3 million and \$0.1 million, respectively.
- (2) Fiscal year 2017 includes a \$38.5 million benefit to our income tax provision related to the TCJA.

2018 Performance Incentive Plan. For fiscal 2018, Compensation Committee decided, with the assistance of its independent compensation consultant FW Cook, to maintain the general structure of the

Table of Contents

Performance Incentive Plan, except for changing the financial metric from operating income to EBITDA to improve short-term relevance and dampen volatility related to the 2017 metric. Although performance-based compensation is no longer exempt from the annual Code Section 162(m) \$1 million compensation deduction limit under TCJA for fiscal 2018, we note that using an EBITDA measurement none-the-less is consistent with the performance goals previously approved by stockholders under the Performance Incentive Plan. See "*Executive Compensation-Other Considerations-Impact of Accounting and Tax Treatments on Compensation*" for more information regarding the requirements of Code Section 162(m) and recent changes eliminating the performance-based compensation exception for tax years beginning after December 31, 2017.

Long-Term Equity-Based Compensation

We believe that equity-based compensation should be a significant component of total executive compensation to align executive compensation with our long-term performance and to encourage executives to make value-enhancing decisions for the benefit of our stockholders. Each of our Named Executive Officers is eligible to receive equity compensation, which can consist of a mix of nonqualified stock options, restricted stock, and restricted stock units, to encourage a focus on long-term stockholder value and to foster long-term retention.

Because we approach equity compensation grants by considering the overall value of the grant (as opposed to the number of shares granted), we anticipate using fewer shares as our stock price increases, while delivering equivalent value to our executives. In addition, the use of full value awards reduces our total share usage versus granting only stock options. The Compensation Committee approves equity grants to all staff members, including Named Executive Officers and other executives and, in doing so, considers past grants, corporate and individual performance, the valuation of grants, and recommendations of our Chief Executive Officer and its compensation consultant. The Compensation Committee has not established formal guidelines for the size of individual equity grants for our Named Executive Officers, but considers the factors listed above as well as market data in making such decisions. See "*Market Positioning*" above.

Optimizing Share Usage. The exercise price of our nonqualified stock options is the closing price of our stock on the grant date, which is also used to calculate the grant date fair value of other awards. We do not time our release of material non-public information for the purpose of affecting the value of our executives' compensation, nor do we time our grants of equity-based compensation to take advantage of material non-public information. Our Compensation Committee generally makes grants to our corporate executives, including our Named Executive Officers, on an annual basis, except in the case of newly hired executives, mid-year promotions or other extraordinary events. We believe that making awards on an annual basis enables the Compensation Committee to evaluate individual and corporate performance over a reasonable period of time and to adjust the size and terms of the equity grants accordingly. Our equity grant procedures are available on our website at investors.thecheesecakefactory.com, by clicking on the link for "Corporate Governance."

Equity Grants in 2017. As part of its annual review of executive compensation, in March 2017 the Compensation Committee determined that an equity mix of approximately one-third nonqualified stock options, one-third restricted stock units subject to an EPS performance condition ("EPS RSUs"), and one-third restricted stock units subject to an EBITDA performance condition ("EBITDA RSUs"), best aligned the interests of our executives with those of our stockholders and our long-term performance.

Grants were made to our Named Executive Officers under The Cheesecake Factory Incorporated 2010 Stock Plan as amended effective June 8, 2017 (the "2010 Stock Plan") in recognition of their performance during fiscal 2016 and expected future contributions, to target competitive compensation

levels appropriate to the executive's tenure in his or her role, and to align their interests with the long-term interests of our stockholders:

(2) See "Restricted Stock Units (with EPS Performance Condition)" below for a description of applicable performance and time-based vesting conditions.

(3) See "Restricted Stock Units (with EBITDA Performance Condition)" below for a description of applicable performance and time-based vesting conditions.

(4) Mr. Clark was granted restricted stock units with time-based vesting in March 2017, prior to assuming his new role as Executive Vice President and Chief Financial Officer. In June 2017, Mr. Clark was awarded restricted stock units with EPS and EBITDA performance conditions as part of his promotion to Executive Vice President and Chief Financial Officer.

Nonqualified Stock Options. The Compensation Committee believes that nonqualified stock options are an appropriate vehicle for a portion of long-term equity compensation because they provide value only if our stock price increases over time, which aligns our executive's interests with those of our stockholders. We granted nonqualified stock options to our Named Executive Officers in March 2017, and in June 2017 we granted nonqualified stock options to Mr. Clark in connection with his promotion. These nonqualified stock options were granted at an exercise price of \$61.59 and \$57.30 per share, respectively, which were the closing prices of our common stock on the respective grant dates. The options are subject to time-based vesting at a rate of 20% per year over five years after the date of grant and expire eight years after the date of grant.

Restricted Stock Units (with EPS Performance Condition). The EPS RSUs granted to our Named Executive Officers in 2017 are subject to achieving a targeted cumulative fully diluted earnings per share amount for fiscal years 2017, 2018, and 2019, measured once, after the end of the 2019 fiscal year. The Compensation Committee determined that it was appropriate to include this type of award in the long-term incentive program to achieve alignment of pay with Company long-term performance, which is demonstratively connected to shareholder return. The EPS RSUs are eligible to be earned from 60%-140% of target, and will be forfeited if we do not achieve our threshold goal. The stock units that remain outstanding after the degree of achievement of the EPS performance condition has been determined, then shall be subject to time-based vesting at a rate of 60% of the award vesting three calendar years from the grant date and 20% of the award vesting in each of four and five calendar years from the grant date. Due to the sensitivity of EPS forecasts and the demonstrated correlation that EPS has to our stock price, the actual target is not being disclosed at this time. However, the target will be disclosed at the end of the three-year performance period along with the achievement levels and corresponding vesting of EPS RSUs, if any, against such target.

Table of Contents

Restricted Stock Units (with EBITDA Performance Condition). The EBITDA RSUs granted to our Named Executive Officers in 2017 are subject to our EBITDA being equal to or greater than (i) a combined, cumulative target for fiscal 2017 and 2018, or (ii) a combined, cumulative target for fiscal 2017, 2018 and 2019, whichever occurs earlier. If the goal is not achieved, 100% of the grant is forfeited. In addition to vesting being subject to satisfying the EBITDA performance condition, the restricted stock units are subject to time-based vesting at the rate of 60% of the award vesting three calendar years from the grant date and 20% of the award vesting in each of four and five calendar years from the grant date. The Compensation Committee selected EBITDA as the performance metric because it views EBITDA as one of the restaurant industry's standards for measuring shareholder value creation, and we believe that growing this measure over time in absolute terms can be considered a barometer for creating value absent the fluctuations in the financial markets.

Equity Grants in 2018. For fiscal 2018, the Compensation Committee determined, with the assistance of its independent compensation consultant, FW Cook, that Named Executive Officers should receive a designated value of equity comprised of a mix of 50% restricted stock subject to an EPS performance condition and of 50% based upon each executive's designated preference of any proportion of non-qualified stock options (minimum 25%) and/or time-based restricted stock. The Compensation Committee made this adjustment to enhance executive retention by providing some personal choice while still retaining alignment with our stockholders by conditioning a portion of vesting upon performance conditions and a portion based upon increased stock value over time. In the future, this allocation may vary, new performance targets may be chosen, and other forms of equity may be used.

In February 2018, the Compensation Committee approved grants under the 2010 Stock Plan of nonqualified stock options and restricted stock as set forth below to our Named Executive Officers in recognition of their performance during fiscal 2017 and expected future contributions, to target competitive compensation levels appropriate to such executive's tenure in his or her role, and to align their respective interests with the long-term interests of our stockholders. Because of their previously announced retirements effective in 2018, the Compensation Committee did not consider granting awards under the 2010 Stock Plan for fiscal 2018 to either Ms. Zurzolo or Mr. Byfluglin:

Name	Number of Nonqualified Stock Options ⁽¹⁾	Number of Restricted Stock Awards-EPS Target
David Overton	179,300	44,600
David M. Gordon	41,500	10,400
Matthew E. Clark	38,000	9,500

(1) The nonqualified stock options were granted at an exercise price of \$47.06 per share, which was the fair market value of our common stock on the date of grant.

One-half of the equity granted to Named Executive Officers in 2018 was in the form of restricted stock subject to achievement of a performance condition ("EPS Performance Condition"), which EPS Performance Condition was approved by stockholders under the 2010 Stock Plan. Actual restricted shares vesting may be at a lower or higher amount, or none at all, dependent upon the level of achievement of the EPS Performance Condition, within a range between a threshold and a maximum number of shares, as described below. Such shares then would be subject to time based vesting at the rate of 60% of the shares on February 15, 2021 and 20% of the shares on each of February 15, 2022 and February 15, 2023. In prior years, the Compensation Committee elected to grant restricted stock units rather than restricted stock. Unlike restricted stock units, holders of restricted stock are entitled to vote with respect to their restricted shares and to receive dividends, the receipt of which are subject to the same vesting conditions and restrictions as the restricted stock with respect to which the dividends were paid.

Table of Contents

The EPS Performance Condition provides that the vesting of this award is subject to us achieving a cumulative diluted EPS growth over fiscal years 2018, 2019, and 2020 of at least a specified dollar amount, with the formula providing a threshold, target and maximum cumulative diluted EPS dollar amount for purposes of determining the number of shares eligible to vest. If at least 88% and up to 113% (or more) of the EPS Performance Condition is achieved, a number of shares shall be eligible to vest, the exact number of which will be determined by multiplying a predetermined payout percentage (between 60% to 150%, based upon the level of achievement of the EPS Performance Condition), by the number of shares granted at the EPS Target amount shown in the table above.

Each of Mr. Overton, Mr. Gordon and Mr. Clark elected to receive only stock options for their remaining one-half of equity granted in fiscal 2018. These options to purchase our common stock were granted at an exercise price of \$47.06 per share, which was the closing price per share for our common stock on February 15, 2018, the date of grant, and incrementally vest as to 20% of the shares on each of February 15, 2019, February 15, 2020, February 15, 2021, February 15, 2022, and February 15, 2023.

Retirement Plans

Nonqualified Deferred Compensation Plan. We established The Cheesecake Factory Executive Savings Plan ("Executive Savings Plan"), a nonqualified deferred compensation plan, in order to provide a tax-deferred savings vehicle for our "highly compensated" executives (as defined in the Executive Savings Plan), as well as our non-employee directors. At the end of fiscal 2017, approximately 670 staff members, including our Named Executive Officers, other executives, restaurant GMs and EKMs, and all of our non-employee directors, were eligible to participate in the Executive Savings Plan and continue to be eligible in fiscal 2018. At the end of fiscal 2017, all of our Named Executive Officers, approximately 475 other staff members and two non-employee directors maintained account balances in the Executive Savings Plan. Additional information regarding this plan appears in this Proxy Statement in the section below entitled "*Compensation of Named Executive Officers-Nonqualified Deferred Compensation.*"

The Executive Savings Plan permits us to match a portion of participants' contributions with Company contributions, on a pre-tax basis to participants (other than non-employee directors). Since inception, we made a partial matching contribution to the Executive Savings Plan each year, except during the period of May 2009 through October 2011, when the Company match was suspended. We currently match 25% of the first 4% of salary and/or Bonus deferred. One hundred percent of a participant's Bonus, if any, may be deferred and, in 2015, we increased the percent of salary that a participant could defer from 25% to 50%.

Pension Benefits. We do not maintain a pension plan for executives or staff members. However, in order to continue to retain Mr. Overton's services as our Chief Executive Officer and in recognition of his unique contributions as our founder, Mr. Overton's employment agreement provides for a "Founder's Retirement Benefit" pursuant to which Mr. Overton (or his beneficiary or estate, if he is deceased) is entitled to fixed annual payments of \$650,000 for a period of ten years following his separation from service for any reason, payable in equal monthly installments, as further described in his employment agreement. Our obligation with respect to the Founder's Retirement Benefit is unfunded and unsecured, and is payable from our general, unrestricted assets. For additional information concerning Mr. Overton's employment agreement, see the section in this Proxy Statement entitled "*Compensation of Named Executive Officers-Employment Agreements.*"

Other Benefits and Perquisites

All of our executives, including our Named Executive Officers, are eligible to participate in our broad-based benefit programs, which include medical, dental, vision, life insurance and long-term disability programs, as well as paid vacation and a sabbatical leave program. We provide group term life insurance to our executives, including each of our Named Executive Officers, as well as all other salaried staff members, at the lesser of one times base salary or \$750,000. The life insurance benefit is reduced to 65% of base

Table of Contents

salary at age 65 and 50% of base salary at age 70, with a limit of \$750,000. The IRS requires that the portion of the value of such policy exceeding \$50,000 be deemed imputed income to the staff member and provides a formula by which the imputed income is calculated.

We also provide the following perquisites to our executives, including Named Executive Officers, that vary based on the executive's level:

The choice of a company-leased vehicle or automobile allowance. This program also is offered to certain other executives, including GMs, ADOs, AKOMs, and selected additional management positions. Each individual participating in our leased car program is assigned imputed income, according to IRS regulations, for his or her personal use of the automobile or is provided with an automobile allowance, which is subject to taxation at the individual's tax rate. The type of vehicle and amount of allowance varies with the executive's level.

A company-paid executive physical every two years. This program is offered to staff members at the level of Senior Vice President and above, including our Named Executive Officers.

Relocation expenses. Relocation expenses are reimbursed in accordance with the terms of any employment agreement or as determined on a case-by-case basis.

Sabbatical Leave Program. We provide a sabbatical leave program to eligible active, full-time, salaried corporate staff members, including Named Executive Officers. Eligible staff members may request a paid sabbatical, not to exceed three weeks in duration, only after five years of service and each five years thereafter, in order to participate in an extraordinary life experience proposed by the staff member.

We believe that these perquisites enhance our ability to attract and retain high-quality talent at a modest cost relative to the benefit we receive from providing them and help to elevate our Company as an employer of choice among our competitors, including continuing to be recognized by FORTUNE® Magazine as one of the "100 Best Companies to Work For®" for the fifth consecutive year. The amounts we paid related to perquisites provided to our Named Executive Officers in fiscal 2017 are disclosed in the section entitled "*Compensation of Named Executive Officers Summary Compensation Table*" and the accompanying footnotes in this Proxy Statement.

Change in Control

Although the 2010 Stock Plan provides discretion to the Compensation Committee to accelerate vesting of unvested awards, the Compensation Committee does not think it is generally appropriate to do so or to provide other benefits upon a change in control unless an executive also incurs a termination without cause or a constructive termination (referred to as a "double trigger") or unless in connection with a change in control the acquirer fails to assume or continue the executives' equity awards. Under our existing employment agreements with Named Executive Officers, the 2010 Stock Plan and award agreements, we may provide limited benefits to our Named Executive Officers in the event of a change in control. The nature of such benefits and amount of any such payments vary based upon the terms of each executive's employment agreement. See "*Compensation of Named Executive officers-Potential Payments upon Termination or Change in Control*" in this Proxy Statement.

Oversight of Named Executive Officer Compensation

Compensation Committee. Our Compensation Committee determines the compensation of our Named Executive Officers, including their base salaries, bonus, and equity-based compensation, and is supported in that process by an independent compensation consultant and members of senior management, including our Chief Executive Officer, Senior Vice President of Human Resources and Vice President of Compensation and Benefits. The Compensation Committee regularly evaluates our compensation programs to ensure they support our business objectives, which include continued quality restaurant

growth that generates acceptable returns, sustainability of our brands and brand expansion, profitability, operational excellence, infrastructure security and scalability, and the creation of long-term value for our stockholders. The Compensation Committee operates according to a written charter that is available on our website at *investors.thecheesecakefactory.com*, by clicking on the link for "Corporate Governance."

Role of Outside Consultants. Prior to October 2017, the Compensation Committee had engaged Fariet Advisors as its independent compensation consultant. For fiscal 2018, the Compensation Committee engaged FW Cook to serve as its independent compensation consultant. Our compensation consultant provides detailed evaluation and recommendations regarding our executive and Board compensation programs and advises the Compensation Committee with respect to structuring our compensation plans to achieve our business objectives. Fariet Advisors and FW Cook were each retained by and report(ed) directly to the Compensation Committee and neither provide(d) any other services to the Company. The Compensation Committee assessed the independence of its compensation consultants and analyzed whether the work of Fariet Advisors or FW Cook raised any conflict of interest, pursuant to the rules of the SEC and NASDAQ. The Compensation Committee determined, based on this review, that neither the work of Fariet Advisors nor the work of FW Cook as compensation consultants to the Compensation Committee created any conflict of interest and that both compensation consultants were and are independent.

Role of Chief Executive Officer in Compensation Decisions. Our Chief Executive Officer provides the Compensation Committee with his assessment of the performance of each Named Executive Officer (other than himself) and his perspective on the factors described above under "*Overview of Compensation Program-Factors Considered in Making Compensation Decisions*" when developing his recommendations for each Named Executive Officer's compensation (other than his own), including salary adjustments, long- and short-term performance incentive compensation, discretionary bonuses, and compensation adjustments in conjunction with promotions. Our Senior Vice President of Human Resources and our Vice President of Compensation and Benefits work with our Chief Executive Officer when developing his recommendation for each Named Executive Officer's compensation by reviewing market data and other performance factors. The Compensation Committee discusses our Chief Executive Officer's recommendations, consults with its outside compensation consultant, and then approves or modifies the recommendations in collaboration with the Chief Executive Officer.

Compensation of our Chief Executive Officer. Our Chief Executive Officer's compensation is determined solely by the Compensation Committee, which also approves the terms of, and makes recommendations to the Board with respect to, his employment agreement. Please see the section entitled "*Compensation of Named Executive Officers-Employment Agreements*" in this Proxy Statement for a summary of the material terms of Mr. Overton's employment agreement. The Compensation Committee solicits our Chief Executive Officer's perspective on his own compensation, but makes determinations regarding his compensation independently and without him or other Named Executive Officers present. The Compensation Committee reviews Mr. Overton's annual cash and long- and short-term performance incentive compensation at approximately the same time and following the same process as compensation levels are reviewed for all other Named Executive Officers, as further described in this "*Compensation Discussion and Analysis*."

Governance Considerations

Risk Considerations. The Compensation Committee reviews our employee compensation policies and practices, including those for non-executive officers, on an annual basis to assess how those policies and practices may affect risk-taking by employees. During its review in fiscal 2017, the Compensation Committee determined that our compensation programs are appropriately weighted toward long-term incentives and include policies designed to deter undue risk-taking by employees. These policies include the Clawback Policy, stock retention and ownership policies, and policies against short sales and hedging.

Table of Contents

as discussed below. Based on the recent assessment, we determined that none of our compensation policies and practices are reasonably likely to have a material adverse effect on the Company.

Clawback Policy. Our Clawback Policy is comprised of our Policy on Reimbursement of Incentive Payments (available on our website at investors.thecheesecakefactory.com) as well as applicable provisions of our Performance Incentive Plan and 2010 Stock Plan. Our Clawback Policy, which applies, without limitation, to equity granted under the 2010 Stock Plan and Bonus paid under the Performance Incentive Plan, (i) requires certain of our executives to agree in writing to repay all or a portion of any Bonus, to the extent permitted by law and deemed appropriate by the Audit Committee, when we are required by applicable law or applicable accounting or auditing principles to restate our financial statements to correct an accounting error in any interim or annual financial statement filed with the SEC as a result of material noncompliance with applicable financial reporting requirements, and the Bonus was directly based on those financial statements, (ii) allows the Compensation Committee to cause the cancellation of any Bonus and require reimbursement of any Bonus by a Named Executive Officer and effect any other right of recoupment of equity or other compensation provided under the Performance Incentive Plan or otherwise in accordance with Company policies and/or applicable law, and (iii) allows the Compensation Committee to cancel any equity award, require reimbursement of any award proceeds or other compensation and effect any other right of recoupment of equity or other compensation provided under the 2010 Stock Plan or otherwise in accordance with Company policies and/or applicable law.

The Board believes that executives who are responsible for material noncompliance with applicable financial reporting requirements resulting in accounting errors leading to financial statement restatements should not benefit monetarily from such noncompliance. Our Clawback Policy was adopted to permit the Audit Committee and the Compensation Committee of our Board to use appropriate discretion to recapture monetary awards of Bonus compensation and equity awards, respectively, paid to executives in the designated positions who may bear responsibility for such noncompliance. We believe that our Clawback Policy diminishes the likelihood that our executives will take actions that could result in material excessive risk to us.

Stock Ownership Requirements. Our Named Executive Officers are required to own a specified value of our common stock based upon a multiple of their respective base salaries. See "*The Board and Corporate Governance-Director and Executive Officer Stock Ownership Guidelines, Holding Periods and Other Requirements*" in this Proxy Statement for the material terms of our stock ownership and retention policies. We believe that stock ownership requirements further align our executives' interests with those of our stockholders. In addition to our stock ownership requirements, certain option grants awarded to executive officers after June 4, 2008 and prior to August 2, 2012 contain a holdback provision such that 33% of the net shares acquired upon exercise of the stock option (net of the tax impact that the exercise has on the individual) must be held for at least nine months following the date of exercise. In light of the adoption of our executive stock ownership requirements, we eliminated the holdback requirement for option grants made to Named Executive Officers on or after August 2, 2012, although the holdback requirement is still in effect for certain option grants made to such executives prior to August 2, 2012. All of our Named Executive Officers are in compliance with our executive stock ownership policy as of the Record Date, except for Mr. Clark who was appointed as our Executive Vice President and Chief Financial Officer effective July 7, 2017 and is required to meet the stock ownership guidelines within five years of his appointment.

Other Considerations

Impact of Accounting and Tax Treatments on Compensation. Accounting and tax considerations play a role in the design of our executive compensation program. Accounting rules, such as Financial Accounting Standards Board ("FASB"), Accounting Standards Codification ("ASC") Topic 718, require us to expense the estimated fair market value of our stock based compensation, which reduces the amount of our

Table of Contents

reported profits. The Compensation Committee considers the amount of this expense and the financial impact to us in determining the amount of equity compensation awards to grant to executives.

Section 162(m) of the Code and the regulations promulgated thereunder limit to no more than \$1 million per taxable year, the allowable Company deduction for compensation paid to any employee who as of the close of the taxable year is a "covered employee" as defined under Code Section 162(m). Prior to January 1, 2018, certain compensation was exempt from this deduction limitation, including certain performance-based compensation, if it was paid under a plan, the material performance terms of which were approved by stockholders at least once every five years, and the plan was administered by a committee of independent directors, among other requirements. In fiscal 2017, performance-based restricted shares, stock options, and Bonus compensation awarded by us to our covered employees were intended to qualify as performance-based compensation under Code Section 162(m). However, certain non-performance-based restricted stock awards made in prior years did not qualify for deductibility under Code Section 162(m) due to the increase in our stock price as of the vesting date, which resulted in Mr. Overton's total non-performance-based compensation for fiscal 2017 exceeding the \$1 million deductibility limit. Due to the complexities of Code Section 162(m) and technical requirements related thereto, we can provide no assurance regarding deductibility of such compensation under Code Section 162(m).

The TCJA generally eliminates the performance-based compensation exception for tax years beginning after December 31, 2017. The \$1 million compensation deductibility limit was also expanded to apply to a public company's chief financial officer and apply to certain individuals who were covered employees in years other than the then-current taxable year. Although certain transition relief may apply with respect to compensation paid pursuant to certain contracts in effect as of November 2, 2017, ambiguities in the TCJA prevent the Compensation Committee from being able to definitively determine what compensation, if any, payable to the covered employees in excess of \$1 million will be deductible in future years. As in prior years, the Compensation Committee will continue to take into account the tax and accounting implications when making compensation decisions, but reserves the right to make compensation decisions based on other factors as well if the Compensation Committee determines it is in the Company's best interests to do so. Further, taking into account the elimination of the exception for performance-based compensation, the Compensation Committee may determine to make changes or amendments to its existing compensation programs in order to revise aspects of our programs that were initially designed to comply with Code Section 162(m) but that may no longer serve as an appropriate incentive measure for our executive officers.

In addition, Code Section 409A limits flexibility with respect to the time and form of payment of nonqualified deferred compensation. If a payment or award is subject to Code Section 409A but does not meet the requirements that exempt such amounts from taxation under that section, the recipient is subject to (i) income tax at the time the payment or award is not subject to a substantial risk of forfeiture, (ii) an additional 20% federal tax at that time, (iii) plus possible interest and penalties, and (iv) possible additional state taxes. While Code Section 409A is also very complex and we cannot guaranty compliance with all of its requirements, we have made modifications to our plans and arrangements such that payments or awards under those arrangements either are intended not to constitute "deferred compensation" for Code Section 409A purposes (and will thereby be exempt from the requirements of Code Section 409A) or, if they constitute "deferred compensation," are intended to comply with the Code Section 409A statutory provisions and final regulations.

The NEO Employment Agreements provide that, if a Named Executive Officer is subject to additional taxes imposed by Code Section 409A which relate solely to the timing of payment for the severance benefits under his or her prior employment agreement (if any), then within 60 days after the determination that such Code Section 409A taxes are due, we would pay the executive a cash payment so that the Named Executive Officer would be in the same position on an after-tax basis that the executive would have been in if no Code Section 409A taxes and related interest and/or penalties had been imposed

Table of Contents

(the "409A Tax Equalization Benefit"). With respect to each Named Executive Officer who had a prior employment agreement, the 409A Tax Equalization Benefit was made a part of their NEO Employment Agreement in consideration for such Named Executive Officer (other than our Chief Executive Officer) agreeing to relinquish the gross-up for taxes imposed by Code Section 280G, which had been included under their prior employment agreements. The NEO Employment Agreements also eliminated a provision that would have entitled the Named Executive Officer to receive an additional "gross-up" payment from us in the event such Named Executive Officer were to become subject to any excise tax in connection with the "excess parachute payment" provisions of Section 280G of the Code. See "*Compensation of Named Executive Officers-Employment Agreements*" for a description of the NEO Employment Agreements.

Policy Regarding Hedging, Short Sales, Publicly Traded Derivatives, Margin Accounts and Pledges. We have a policy prohibiting our Board, officers and other employees from trading in any interest or position relating to the future price of our securities, such as a put, call or short sale (i.e., hedging), or using our stock as collateral for margin loans (i.e., pledging). The Board believes it is inappropriate for our executives or non-employee directors to take personal financial positions that may inadvertently or, in some cases overtly, influence their deliberations or decisions concerning the best and proper course of action for us to take or bring into question the propriety of any deliberations or decisions made with respect to us. By prohibiting these types of speculative trading in or encumbering of our stock with margin loans, the Board seeks to discourage those types of behaviors. In addition, other types of collateralization of our stock by executives or non-employee directors require advance approval and satisfaction of specified criteria under our policies.

Shareholder's Rights Agreement and "Poison Pill". Effective August 4, 1998, our Board adopted a Rights Agreement, which was most recently amended on August 1, 2008 and is currently scheduled to expire August 4, 2018 ("Rights Agreement"). Among other items, such agreement includes a provision, which is commonly known as a "poison pill," as an anti-takeover mechanism to allow our Board time to evaluate unsolicited offers to acquire the common stock of our Company. Pursuant to the Rights Agreement, the process required to terminate such agreement would be to redeem all of the outstanding shareholder rights under such plan at the required redemption price of \$.01 per right. Based upon the number of common shares of our stock outstanding as of the Record Date, the estimated cost to the Company of an early redemption would exceed \$500,000, including redemption costs, legal fees, filing costs and other attendant expenses.

Our Board understands that since the time of our adoption of the Rights Agreement, such agreements entered into without the approval of stockholders have received negative scrutiny. After consideration of these issues, including discussions with institutional stockholders who represent over 17.5% of our shares outstanding, who are not in favor of such expenditure under these circumstances, and in light of the imminent expiration of the Rights Agreement within three months following the Annual Meeting of our stockholders this year, the Board determined that it was not in our best interests or in the best interests of our stockholders to exercise an early redemption and incur such costs. However, our Board has decided that it will not adopt a new poison pill unless, in the exercise of its fiduciary responsibilities, the Board determines that it is in the best interests of the stockholders under the circumstances to adopt such plan without the delay that could result from seeking stockholder approval (i.e., the "fiduciary out" provision). Further, the Board has decided that if a poison pill is adopted under this fiduciary out provision, we will put such decision to a stockholder ratification vote within twelve months of adoption, or let such plan expire within the twelve month period after adoption.

However, Mr. Overton is entitled to the Founder's Retirement Benefit described in "*Executive Compensation-Retirement Plans-Pension Benefits*."

Table of Contents**Nonqualified Deferred Compensation**

We adopted The Cheesecake Factory Incorporated Executive Savings Plan ("Executive Savings Plan") in order to provide a tax-deferred savings vehicle to help us attract, retain and motivate executives with the essential qualifications to manage our Company successfully. The Executive Savings Plan is a nonqualified deferred compensation plan for our non-employee directors and for our highly compensated executives (as defined in the Executive Savings Plan) who are otherwise ineligible to participate in our qualified defined contribution savings plan under Section 401(k) of the Internal Revenue Code ("Code"). The Executive Savings Plan allows our employee-participants to defer the receipt of up to 50% of their base salaries and up to 100% of their Bonus and allows our non-employee directors to defer up to 100% of their director fees.

Under the Executive Savings Plan, we currently provide a matching contribution at a rate of 25% of the first 4% of salary and/or Bonus deferred under the plan. We do not provide a match for deferrals by non-employee directors. Our matching contributions vest 25% per year after the staff member's second year of participation in the Executive Savings Plan, such that staff members with five years of service with us would be 100% vested in our matching contributions. All of our Named Executive Officers are currently 100% vested in our matching contributions. Staff member deferrals and our matching contribution, if any, are deposited into a "rabbi" trust established by us, and the funds are generally invested in individual variable life insurance contracts owned by us, which are specifically designed to informally fund savings plans of this nature. Upon a participant's termination from employment, he or she will receive a distribution of his or her account balance, including earnings and vested Company contributions, in accordance with his or her distribution election and the terms of the Executive Savings Plan. For any plan year, a participant may elect, in accordance with the terms of the Executive Savings Plan, to have a portion of his or her account paid on a scheduled in-service distribution date; provided, such a distribution may not occur earlier than the second plan year after the plan year to which such an election applies. The following table shows the compensation (including Bonus) earned for fiscal 2017 that was deferred into the Executive Savings Plan by each Named Executive Officer during fiscal 2017:

- (3) Target awards are a percentage of base salary for fiscal 2017, as follows: 110% for Mr. Overton; 75% for Mr. Gordon; and 65% for each of the other Named Executive Officers.
- (4) The Named Executive Officers received two restricted stock unit awards. The first award is subject to achievement of a targeted cumulative fully diluted EPS amount for fiscal years 2017, 2018, and 2019, measured once, after the end of the 2019 fiscal year. This award is eligible to be earned from 60% - 140% of target, and will be forfeited if we do not achieve our threshold goal. The stock units that remain outstanding after the degree of achievement of the EPS performance condition has been determined, then shall be subject to time-based vesting at a rate of 60% of the award vesting from three calendar years from the grant date and 20% of the award vesting on each of the fourth and fifth anniversaries of the grant date. The second award is subject to the Company's EBITDA being equal to or greater than (i) a combined, cumulative target for fiscal 2017 and 2018, or (ii) a combined, cumulative target for fiscal 2017, 2018 and 2019, whichever occurs earlier. If neither goal is achieved, 100% of the grant is forfeited. In addition to vesting being subject to satisfying the EBITDA performance condition, the restricted stock units are subject to time-based vesting at the rate of 60% of the award vesting three calendar years from the grant date and 20% of the award vesting on each of the fourth and fifth anniversaries of the grant date. Actual awards may range from 0 percent to 140 percent of the targeted incentive.
- (5) Mr. Clark received a grant of restricted stock units under the 2010 Stock Plan. The grant to Mr. Clark vests 60% on the third anniversary of the grant date, and 20% on each of the fourth and fifth anniversaries of the grant date.
- (6) The Named Executive Officers received grants of non-qualified stock options under the 2010 Stock Plan. These non-qualified stock options vest 20% on each anniversary of the grant date.
- (7) The grant date fair value was computed in accordance with the provisions of FASB ASC Topic 718. Amounts shown do not reflect compensation actually received or that may be realized in the future by the NEO. See Note 12 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the fiscal year ended January 2, 2018 for information regarding the valuation of equity awards.
- (8) Mr. Benn's employment with us terminated on July 7, 2017. Mr. Clark was appointed Executive Vice President and Chief Financial Officer effective July 7, 2017.
- (9) Ms. Zurzolo will retire from employment with us in fiscal year 2018.
- (10) Mr. Byfuglin retired from employment with us on April 13, 2018.

Non-Equity Incentive Plan Awards. These amounts represent the potential threshold, target and maximum Bonus payable to our Named Executive officers under the Performance Incentive Plan. Amounts shown are calculated as a percentage of fiscal 2017 base salary. Please see the section in this Proxy Statement entitled "*Compensation Discussion and Analysis-Principal Elements of Compensation-Annual Cash Performance Incentive Compensation*" for further information. The threshold Bonus amounts assume achievement of 85% of the Company-wide operating income target and none of the strategic objectives. Target Bonus amounts assume achievement of 100% of the Company-wide operating income target and 100% of the strategic objectives. Maximum Bonus amounts assume achievement of 115% or more of the Company-wide operating income target and 100% of the strategic objectives. The Named Executive Officers received actual Bonus payouts under the Performance Incentive Plan in fiscal 2017 in the amounts shown in the "Non-Equity Incentive Plan Compensation" column of the "*Summary Compensation Table*."

Table of Contents

All Other Restricted Stock and Restricted Stock Unit Awards and All Other Stock Option Awards. In March 2017, the Compensation Committee approved grants of nonqualified stock options and restricted stock units to our Named Executive Officers, as set forth in the table above. All equity awards shown in this table were granted under the 2010 Stock Plan. The nonqualified stock options were granted at an exercise price of \$61.59 per share, the fair market value of our common stock on the date of grant. These options vest at a rate of 20% per year over five years and expire in eight years. One half of the restricted stock units are subject to achievement of a performance condition approved by stockholders under the 2010 Stock Plan, which condition provides that vesting of the award is subject to our EBITDA being equal to or greater than (i) a combined, cumulative target for 2017 and 2018, or (ii) a combined, cumulative target for 2017, 2018 and 2019, whichever occurs earlier. If the performance condition is satisfied, the grants then would be subject to time-based vesting at the rate of 60% of the shares on March 2, 2020 and 20% of the shares on each of March 2, 2021 and March 2, 2022. The other half of the restricted stock units are subject to achieving a targeted cumulative diluted EPS for fiscal years 2017, 2018 and 2019, measured once, after the end of fiscal 2019. The performance conditions and achievement levels will be disclosed after the performance condition is achieved or determined to have not been achieved.
