Except where the context otherwise requires, all references in this Quarterly Report on Form 10-Q ( "Form 10-Q" ) to the Company, SunOpta, we, us, our or similar words and phrases are to SunOpta Inc. and its subsidiaries, taken together.

In this report, all currency amounts are expressed in thousands of United States ( U.S. ) dollars ( \$ ), except per share amounts, unless otherwise stated. Amounts expressed in Canadian dollars are expressed in thousands of Canadian dollars and preceded by the symbol Cdn \$ , and amounts expressed in euros are expressed in thousands of euros and preceded by the symbol € . As at June 29, 2013, the closing rates of exchange for the U.S. dollar, expressed in Canadian dollars and euros, were \$1.00 = Cdn \$1.0518 and \$1.00 = €0.7682. These rates are provided solely for convenience and do not necessarily reflect the rates used in the preparation of our financial statements.

### Forward-Looking Statements

This Form 10-Q contains forward-looking statements which are based on our current expectations and assumptions and involve a number of risks and uncertainties. Generally, forward-looking statements do not relate strictly to historical or current facts and are typically accompanied by words such as anticipate, estimate, intend, project, potential, continue, believe, expect, could, would, should, might, plan, will, may, predict, and words and phrases of similar impact and include, but are not limited to references to possible operational consolidation, reduction of non-core assets and operations, business strategies, plant and production capacities, revenue generation potential, anticipated construction costs, competitive strengths, goals, capital expenditure plans, business and operational growth and expansion plans, anticipated operating margins and operating income targets, gains or losses associated with business transactions, cost reductions, rationalization and improved efficiency initiatives, proposed new product offerings, and references to the future growth of the business and global markets for the Company's products. These forward-looking statements are made pursuant to the safe harbor provisions of the

Edgar Filing: SunOpta Inc. - Form 10-Q

Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on certain assumptions and analyses we make in light of our experience and our interpretation of current conditions, historical trends and expected future developments, as well as other factors that we believe are appropriate in the circumstance.

Whether actual results and developments will agree with our expectations and predictions is subject to many risks and uncertainties. Accordingly, there are or will be important factors that could cause our actual results to differ materially from our expectations and predictions. We believe these factors include, but are not limited to, the following:

- our ability to renew our syndicated North American credit facilities when they become due on July 27, 2016;
- restrictions in our syndicated credit agreement on how we may operate our business;
- our ability to meet the covenants of our credit facilities;
- our potential additional capital needs in order to maintain current growth rates, which may not be available on favorable terms or at all;
- our customers' ability to choose not to buy products from us;
- loss of a key customer;
- changes in and difficulty in predicting consumer preferences for natural and organic food products;
- the highly competitive industry in which we operate;
- an interruption at one or more of our manufacturing facilities;
- the loss of service of our key management;
- the effective management of our supply chain;
- volatility in the prices of raw materials and energy;
- enactment of climate change legislation;
- unfavorable growing conditions due to adverse weather conditions;
- dilution in the value of our common shares through the exercise of stock options, warrants, participation in our employee stock purchase plan and issuance of additional securities;
- impairment charges in goodwill or other intangible assets;
- technological innovation by our competitors;
- our ability to protect our intellectual property and proprietary rights;
- substantial environmental regulation and policies to which we are subject;
- significant food and health regulations to which SunOpta Foods is subject;
- agricultural policies that influence our operations;
- product liability suits, recalls and threatened market withdrawals that may be brought against us;
- litigation and regulatory enforcement concerning marketing and labeling of food products;
- value of our ownership position in Opta Minerals Inc.;

Edgar Filing: SunOpta Inc. - Form 10-Q

- our lack of management and operational control over Mascoma Corporation;
- fluctuations in exchange rates, interest rates and certain commodities;
- our ability to effectively manage our growth and integrate acquired companies; and
- the volatility of our operating results and share price.

Consequently all forward-looking statements made herein are qualified by these cautionary statements and there can be no assurance that our actual results or the developments we anticipate will be realized. The foregoing factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report and in our Annual Report on Form 10-K for the fiscal year ended December 29, 2012 ( Form 10-K ). For a more detailed discussion of the principal factors that could cause actual results to be materially different, you should read the risk factors under Item 1A, Risk Factors , of the Form 10-K.

**1. Description of Business and Significant Accounting Policies**

SunOpta Inc. (the Company or SunOpta ) was incorporated under the laws of Canada on November 13, 1973. The Company operates businesses focused on a healthy products portfolio that promotes sustainable well-being. The Company has two business segments, the largest being SunOpta Foods, which consists of four operating segments that operate in the natural, organic and specialty food sectors and utilizes a number of integrated business models to bring cost-effective and quality products to market. In addition to SunOpta Foods, the Company owned approximately 66.1% of Opta Minerals Inc. ( Opta Minerals ) as at June 29, 2013 and December 29, 2012. Opta Minerals is a vertically integrated provider of custom process solutions and industrial mineral products for use primarily in the steel, foundry, loose abrasive cleaning, and municipal water filtration industries. As at June 29, 2013 and December 29, 2012, the Company also held an 18.7% equity ownership position in Mascoma Corporation ( Mascoma ), an innovative biofuels company (see note 6).

***Basis of presentation***

The interim consolidated financial statements of the Company have been prepared in accordance with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X promulgated under the Securities Exchange Act of 1934, as amended, and in accordance with U.S. generally accepted accounting principles ( U.S. GAAP ) for interim financial information. Accordingly, these condensed interim consolidated financial statements do not include all of the disclosures required by U.S. GAAP for annual financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included and all such adjustments are of a normal, recurring nature. Operating results for the quarter and two quarters ended June 29, 2013 are not necessarily indicative of the results that may be expected for the full year ending December 28, 2013 or for any other period. The interim consolidated financial statements include the accounts of the Company and its subsidiaries, and have been prepared on a basis consistent with the annual consolidated financial statements for the year ended December 29, 2012. For further information, refer to the consolidated financial statements, and notes thereto, included in the Company s Annual Report on Form 10-K for the fiscal year ended December 29, 2012.

**2. Business Acquisition*****Bulgarian Processing Operation***

On December 31, 2012, the Company acquired a grains handling and processing facility located in Silistra, Bulgaria and operated as the Organic Land Corporation OOD ( OLC ). The facility is located near a protected and chemical free agricultural area, which produces organic products including sunflower, flax seed, corn, barley and soybeans. This acquisition diversified the Company s organic sunflower processing operations and should allow it to expand its capabilities into the other organic products grown in the region following the expansion of production capabilities. The Company had been sourcing non-genetically modified sunflower kernel from OLC from late 2011 through to the date of acquisition. Since the acquisition date, the results of operations of OLC have been included in the International Foods Group.

This transaction has been accounted for as a business combination under the acquisition method of accounting. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed, as well as the total consideration transferred to effect the acquisition of OLC as of the acquisition date.

	\$
Cash and cash equivalents	70
Accounts receivables	378
Inventories	55
Other current assets	21
Property, plant and equipment	4,067
Accounts payable and accrued liabilities	(228)
Long-term debt <sup>(1)</sup>	(465)
Total cash consideration	3,898

(1) Subsequent to the acquisition date, the Company fully repaid OLC s existing bank loans.

The revenue and earnings of OLC from the date of acquisition to June 29, 2013 were not material to the Company s consolidated results of operations. In addition, assuming the acquisition had occurred as of January 1, 2012, the results of operations of OLC would not have had a material pro forma effect on the Company s revenues, earnings and earnings per share for the quarter and two quarters ended June 30, 2012.

**3. Discontinued Operations*****Purity Life Natural Health Products***

On June 5, 2012, the Company completed the sale of Purity Life Natural Health Products ( Purity ), its Canadian natural health products distribution business, for cash consideration of \$13,443 (Cdn \$14,000) at closing, plus up to \$672 (Cdn \$700) of contingent consideration if Purity achieved certain earnings targets during the one-year period following the closing date. The earnings targets were not met and, therefore, no contingent consideration was recognized. The divestiture of Purity completed the Company's exit from all non-core distribution businesses. Purity was formerly part of the Company's International Foods Group operating segment.

***Colorado Sun Oil Processing LLC***

On August 12, 2011, the Company disposed of its interest in the Colorado Sun Oil Processing LLC ( CSOP ) joint venture to Colorado Mills, LLC ( Colorado Mills ) pursuant to the outcome of related bankruptcy proceedings. CSOP operated a vegetable oil refinery adjacent to Colorado Mills' sunflower crush plant. CSOP was formerly part of the Grains and Foods Group operating segment.

On June 18, 2013, the Company and Colorado Mills reached an agreement to settle a separate arbitration proceeding related to the joint venture agreement (see note 12). In connection with the settlement, the Company paid Colorado Mills \$5,884, consisting of cash and equipment in use at the CSOP refinery. An accrual for the settlement, including accrued interest costs, was included in accounts payable and accrued liabilities on the consolidated balance sheet as at December 29, 2012. The expenses of CSOP included in discontinued operations for the quarter and two quarters ended June 29, 2013 and June 30, 2012, related to legal fees and period interest costs incurred by the Company in connection with the arbitration proceeding.

***Operating Results Reported in Discontinued Operations***

(1) Unrealized short-term derivative asset is included in prepaid expenses and other current assets, unrealized long-term derivative asset is included in other assets, unrealized short-term derivative liability is included in other current liabilities and unrealized long-term derivative liability is included in long-term liabilities on the consolidated balance sheets.

(2) Inventories carried at market are included in inventories on the consolidated balance sheets.

(3) The interest rate swaps are included in long-term liabilities on the consolidated balance sheets.

(4) The forward foreign currency contracts are included in accounts receivable or accounts payable and accrued liabilities on the consolidated balance sheets.

(5) Contingent consideration obligations are included in long-term liabilities (including the current portion thereof) on the consolidated balance sheets.

(a) Commodity futures and forward contracts

The Company's derivative contracts that are measured at fair value include exchange-traded commodity futures and forward commodity purchase and sale contracts. Exchange-traded futures are valued based on unadjusted quotes for identical assets priced in active markets and are classified as level 1. Fair value for forward commodity purchase and sale contracts is estimated based on exchange-quoted prices adjusted for differences in local markets. Local market adjustments use observable inputs or market transactions for similar assets or liabilities and, as a result, are classified as level 2. Based on historical experience with the Company's suppliers and customers, the Company's own credit risk, and the Company's knowledge of current market conditions, the Company does not view non-performance risk to be a significant input to fair value for the majority of its forward commodity purchase and sale contracts.

Notes to Consolidated Financial Statements

For the quarters ended June 29, 2013 and June 30, 2012

(Unaudited)

(Expressed in thousands of U.S. dollars, except per share amounts)

These exchange-traded commodity futures and forward commodity purchase and sale contracts are used as part of the Company's risk management strategy, and represent economic hedges to limit risk related to fluctuations in the price of certain commodity grains, as well as the price of cocoa. These derivative instruments are not designated as hedges for accounting purposes. Gains and losses on changes in the fair value of these derivative instruments are included in cost of goods sold on the consolidated statement of operations. For the quarter ended June 29, 2013, the Company recognized a loss of \$199 (June 30, 2012 loss of \$1,215) and for the two quarters ended June 29, 2013, the Company recognized a loss of \$942 (June 30, 2012 loss of \$1,897).

At June 29, 2013, the notional amounts of open commodity futures and forward purchase and sale contracts were as follows (in thousands of bushels):

	Number of bushels	
	Corn	Soybeans
Forward commodity purchase contracts	916	597
Forward commodity sale contracts	(1,878)	(1,260)
Commodity futures contracts	627	28

In addition, as at June 29, 2013, the Company also had open forward contracts to sell 194 lots of cocoa.

## (b) Inventories carried at market

Grains inventory carried at fair value is determined using quoted market prices from the Chicago Board of Trade (CBoT). Estimated fair market values for grains inventory quantities at period end are valued using the quoted price on the CBoT adjusted for differences in local markets, and broker or dealer quotes. These assets are placed in level 2 of the fair value hierarchy, as there are observable quoted prices for similar assets in active markets. Gains and losses on commodity grains inventory are included in cost of goods sold on the consolidated statements of operations. As at June 29, 2013, the Company had 333,699 bushels of commodity corn and 735,075 bushels of commodity soybeans in inventories carried at market.

## (c) Interest rate swaps

As at June 29, 2013, Opta Minerals held interest rate swaps with a notional value of Cdn \$44,375 in the aggregate to pay fixed rates of 1.85% to 2.02%, plus a margin of 2.0% to 3.5% based on certain financial ratios of Opta Minerals, and receive a variable rate based on various reference rates including prime, bankers' acceptances or LIBOR, plus the same margin, until May 2017. The net notional value decreases in accordance with the quarterly principal repayments on Opta Minerals' non-revolving term credit facility (see note 7).

At each period end, the Company calculates the mark-to-market fair value of the interest rate swaps using a valuation technique using quoted observable prices for similar instruments as the primary input. Based on this valuation, the previously recorded fair value is adjusted to the current marked-to-market position. The marked-to-market gain or loss is placed in level 2 of the fair value hierarchy. As the interest rate swaps are designated as a cash flow hedge for accounting purposes, gains and losses on changes in the fair value of these derivative instruments are included on the consolidated statements of comprehensive earnings. For the quarter ended June 29, 2013, the Company recognized a gain of \$614 (June 30, 2012 loss of \$147), net of income tax of \$160 (June 30, 2012 income tax benefit of \$32), and

Edgar Filing: SunOpta Inc. - Form 10-Q

for the two quarters ended June 29, 2013, the Company recognized a gain of \$298 (June 30, 2012 loss of \$190), net of income tax of \$78 (June 30, 2012 income tax benefit of \$35).

**(d) Foreign forward currency contracts**

As part of its risk management strategy, the Company enters into forward foreign exchange contracts to reduce its exposure to fluctuations in foreign currency exchange rates. For any open forward foreign exchange contracts at period end, the contract rate is compared to the forward rate, and a gain or loss is recorded. These contracts are placed in level 2 of the fair value hierarchy, as the inputs used in making the fair value determination are derived from and are corroborated by observable market data. While these forward foreign exchange contracts typically represent economic hedges that are not designated as hedging instruments, certain of these contracts may be designated as hedges. As at June 29, 2013, the Company had open forward foreign exchange contracts with a notional value of €1,315 and \$8,155. Gains and losses on changes in the fair value of these derivative instruments are included in foreign exchange loss (gain) on the consolidated statements of operations. For the quarter ended June 29, 2013, the Company recognized a loss of \$223 (June 30, 2012 loss of \$11), and for the two quarters ended June 29, 2013, the Company recognized a gain of \$391 (June 30, 2012 gain of \$469).

**(e) Contingent consideration**

The fair value measurement of contingent consideration arising from business acquisitions is determined using unobservable (level 3) inputs. These inputs include: (i) the estimated amount and timing of the projected cash flows on which the contingency is based; and (ii) the risk-adjusted discount rate used to present value those cash flows. For the quarter and two quarters ended June 29, 2013, the change in the fair value of the contingent consideration liability reflected related payments of \$1,074 in the aggregate, as well as (i) changes in the probability of achievement of the factors on which the contingencies are based, (ii) the accretion of interest expense, and (iii) changes in foreign currency exchange rates, which were not material individually or in the aggregate.

**6. Investments**

As at June 29, 2013, the Company determined that the carrying value of its equity investment in Mascoma was impaired and an other-than-temporary impairment loss of \$21,495 was recorded on the consolidated statement of operations for the quarter ended June 29, 2013.

On August 31, 2010, the Company sold 100% of its ownership interest in SunOpta BioProcess Inc. to Mascoma in exchange for an equity ownership position in Mascoma, consisting of preferred stock, common stock and warrants to purchase common stock of Mascoma. The Company accounts for its investment in Mascoma using the cost method, as the Company does not have the ability to exercise significant influence over the operating and financial policies of Mascoma.

In evaluating whether its investment in Mascoma is recoverable each reporting period, the Company considers information relevant to the estimation of Mascoma's enterprise value and stock price, including external factors such as the stock prices of comparable publicly-traded renewable energy companies. The Company also considers the commercial viability and future earnings prospects of Mascoma's products and technologies, as well as Mascoma's ability to raise additional capital to fund its operational requirements.

As at June 29, 2013, the Company concluded that its investment in Mascoma was impaired and that the impairment was other-than-temporary, based on information provided by Mascoma and consideration of external factors. Consequently, the Company completed a valuation analysis based on available information and determined that the estimated fair value of its investment in Mascoma was \$12,350 as at June 29, 2013.

In subsequent reporting periods, the Company will continue to evaluate whether events or changes in circumstances have occurred that may have a significant adverse effect on its ability to recover the new cost base of its investment in Mascoma.

(1) North American credit facilities

The syndicated North American credit facilities support the core North American food operations of the Company.

On July 27, 2012, the Company entered into an amended and restated credit agreement with a syndicate of lenders. The amended agreement provides secured revolving credit facilities of Cdn \$10,000 (or the equivalent U.S. dollar amount) and \$165,000, as well as an additional \$50,000 in availability upon the exercise of an uncommitted accordion feature. These facilities mature on July 27, 2016, with the outstanding principal amount repayable in full on the maturity date.

Notes to Consolidated Financial Statements

For the quarters ended June 29, 2013 and June 30, 2012

(Unaudited)

(Expressed in thousands of U.S. dollars, except per share amounts)

Interest on borrowings under the facilities accrues based on various reference rates including LIBOR, plus an applicable margin of 1.75% to 2.50%, which is set quarterly based on average borrowing availability. As at June 29, 2013, the weighted-average interest rate on the facilities was 2.44%.

The facilities are collateralized by substantially all of the assets of the Company and its subsidiaries, excluding Opta Minerals and The Organic Corporation ( TOC ).

(2) European credit facilities

The European credit facilities support the global sourcing, supply and processing capabilities of the International Foods Group.

On September 25, 2012, TOC and certain of its subsidiaries entered into a credit facilities agreement with two lenders, which provides for a €45,000 revolving credit facility covering working capital needs and a €3,000 pre-settlement facility covering currency hedging requirements. As of June 29, 2013 and December 29, 2012, €34,454 (\$44,845) and €30,262 (\$39,995), respectively, of this facility had been utilized. The revolving credit facility is secured by the working capital of TOC and certain of its subsidiaries. The revolving credit facility and pre-settlement facility are due on demand with no set maturity date, and the credit limit may be extended or adjusted upon approval of the lenders. Interest costs under the facilities accrue based on either a loan margin of 1.75% or an overdraft margin of 1.85% plus the cost of funds as set by each of the lenders on a periodic basis. The cost of funds as set by the lenders was 0.11% at June 29, 2013.

On March 26, 2012, TOC entered into a €4,990 credit facility to pre-finance the construction of equipment for a cocoa processing facility to be located in Middenmeer, the Netherlands. As of June 29, 2013 and December 29, 2012, €4,794 (\$6,244) and €3,493 (\$4,616), respectively, of this facility had been utilized to fund the construction in process. Interest on borrowings under this facility accrues at 3.8%. Upon completion of the assets under construction, borrowings under this facility will be repaid through a long-term lease facility (as described below under (4)).

On May 22, 2013, a subsidiary of TOC entered into a revolving credit facility agreement to provide up to €4,500 to cover the working capital needs of TOC's Bulgarian operations. The facility is secured by the accounts receivable and inventories of the Bulgarian operations and is fully guaranteed by TOC. Interest accrues under the facility based on Euribor plus a margin of 2.75%, and borrowings under the facility are repayable in full on April 30, 2014. As of June 29, 2013, no amount was borrowed under this facility.

(3) Opta Minerals credit facilities

These credit facilities are specific to the operations of Opta Minerals.

On July 24, 2012, Opta Minerals amended its credit agreement dated May 18, 2012, to provide for a Cdn \$15,000 revolving term credit facility and a Cdn \$52,500 non-revolving term credit facility. The revolving term credit facility matures on August 14, 2014, with the outstanding principal amount repayable in full on the maturity date. The principal amount of the non-revolving term credit facility is repayable in equal quarterly installments of approximately Cdn \$1,312. Opta Minerals may be required to make additional repayments on the non-revolving term credit facility if

certain financial covenants are not met (see below). The non-revolving term credit facility matures on May 18, 2017, with the remaining outstanding principal amount repayable in full on the maturity date.

Interest on the borrowings under these facilities accrues at the borrower's option based on various reference rates including LIBOR, plus an applicable margin of 2.00% to 3.50% based on certain financial ratios of Opta Minerals. Opta Minerals utilizes interest rate swaps to hedge the interest payments on a portion of the borrowings under the non-revolving term credit facility (see note 4). As at June 29, 2013, the weighted-average interest rate on the credit facilities was 5.37%, after taking into account the related interest rate hedging activities.

The credit facilities are collateralized by a first priority security interest on substantially all of the assets of Opta Minerals.

On April 30, 2013, Opta Minerals amended its credit agreement with its lenders to increase the revolving term credit facility to Cdn \$20,000. On the same date, certain financial covenants under the credit agreement were amended for the periods ending June 30, 2013 and September 30, 2013. On June 28, 2013, the credit agreement was further amended in respect of certain financial covenants for the periods ended June 30, 2013, September 30, 2013 and December 31, 2013. Opta Minerals was in compliance with all of its financial covenants as at June 30, 2013.

**(4) Lease obligations**

On October 1, 2012, TOC entered into a €4,990 lease facility to provide for long-term financing on equipment for the cocoa processing facility in the Netherlands. Interest on this facility accrues at an effective rate of 5.9% and the facility matures on October 1, 2019. Principal and accrued interest is repayable in equal monthly installments of €73. Borrowings under this facility are recorded as restricted cash on the consolidated balance sheet at June 29, 2013 and December 29, 2012, as this amount will be applied to the repayment of the credit facility used to pre-finance the construction of the equipment (as described above under (2)).

**8. Stock-Based Compensation**

For the two quarters ended June 29, 2013, the Company granted 934,000 options to employees that vest ratably on each of the first through fifth anniversary of the grant date and expire on the tenth anniversary of the grant date. These options had a weighted-average grant-date fair value of \$4.39 per option. The following table summarizes the weighted-average assumptions used in the Black-Scholes option pricing model to determine the fair value of the options granted:

## (a) Severance and other rationalization costs

For the quarter and two quarters ended June 29, 2013, Opta Minerals incurred severance and other costs in connection with the rationalization and integration of WGI Heavy Metals, Incorporated ( WGI ), which was acquired in August 2012. In addition, the Company recorded employee severance and other costs in connection with the closure of the Chelmsford, Massachusetts administrative office of the Ingredients Group and the related relocation of certain back-office functions to the Company's corporate office located in Edina, Minnesota.

For the quarter and two quarters ended June 30, 2012, the Company recorded employee severance and other costs in connection with the rationalization of a number of operations and functions within SunOpta Foods in an effort to streamline operations, which included a reduction in its salaried workforce of approximately 6%, as well as severance payable to a former executive officer.

## (b) Acquisition-related transaction costs

For the two quarters ended June 29, 2013, the Company incurred transaction costs in connection with the acquisition of OLC (see note 2). For the quarter and two quarters ended June 30, 2012, Opta Minerals incurred transaction costs related to the acquisitions of WGI and Babco Industrial Corp., which was acquired in February 2012.

## (a) Colorado Sun Oil Processing LLC dispute

Colorado Mills and SunOpta Grains and Foods Inc. (formally Sunrich LLC, herein Grains and Foods), a wholly-owned subsidiary of the Company, organized a joint venture through CSOP. The purpose of the joint venture was to construct and operate a vegetable oil refinery adjacent to Colorado Mills sunflower seed crush plant located in Lamar, Colorado. During the relationship, disputes arose between the parties concerning management of the joint venture, record-keeping practices, certain unauthorized expenses incurred on behalf of the joint venture by Colorado Mills, procurement of crude oil by Sunrich from Colorado Mills for processing at the joint venture refinery, and the contract price of crude oil offered for sale under an output term of the joint venture agreement.

The parties initiated a dispute resolution process as set forth in the joint venture agreement, which Colorado Mills aborted prematurely through the initiation of suit in Prowers County District Court, Colorado on March 16, 2010. Subsequent to the filing of that suit, Colorado Mills acted with an outside creditor of the joint venture to involuntarily place the joint venture into bankruptcy. In August 2011, as part of the bankruptcy proceeding initiated in June 2010 in the U.S. Bankruptcy Court, District of Colorado, Colorado Mills purchased substantially all of the assets of the joint venture.

A separate arbitration proceeding occurred between Grains and Foods and Colorado Mills to resolve direct claims each party asserted against the other. The case was arbitrated during the week of August 8, 2011 and proposed findings were filed on September 13, 2011. On January 4, 2012 the arbitrator entered an award denying Grains and Foods' claims and awarding Colorado Mills \$4,816 for its breach of contract claim and \$430 for accrued interest. The Company subsequently filed a motion to vacate the arbitration award on March 30, 2012 in Prowers County District Court. Colorado Mills filed a response on April 20, 2012. The Company filed a reply on April 27, 2012. The Prowers County District Court denied the Company's motion and entered judgment on the arbitration award on July 6, 2012 in the amount of \$4,816. On July 13, 2012, the Company bonded the judgment in the amount of \$6,875, or approximately 125% of the judgment amount, to stay execution of the judgment pending the Company's filing of an appeal to the Colorado Court of Appeals. On August 20, 2012, the Company appealed from the judgment to the Colorado Court of Appeals.

The Colorado Court of Appeals affirmed the judgment, and the Company petitioned for re-hearing. While the petition for re-hearing was pending, the parties settled the matter on June 18, 2013 (see note 3). The settlement was on a full and final basis, it formally concluded all extant business dealings between the parties, and ended all open litigation matters. As a result, all disputes between the parties have now been resolved.

(b) Other claims

Various additional claims and potential claims arising in the normal course of business are pending against the Company. It is the opinion of management that the amount of potential liability, if any, to the Company is not determinable. Management believes the final determination of these claims or potential claims will not materially affect the financial position or results of the Company.

**13. Segmented Information**

The Company operates in the following business segments:

(a) **SunOpta Foods** sources, processes, packages and markets a wide range of natural, organic and specialty raw materials, ingredients and packaged food products, with a focus on soy, corn, sunflower, fruit, fiber and other natural and organic food products. There are four operating segments within SunOpta Foods:

- i. Grains and Foods Group is focused on vertically integrated sourcing, processing, packaging and marketing of grains, grain-based ingredients and packaged products;
- ii. Ingredients Group is focused primarily on insoluble oat and soy fiber products, and specialty fruit ingredients, and works closely with its customers to identify product formulation, cost and productivity opportunities aimed at transforming raw materials into value-added food ingredient solutions;
- iii. Consumer Products Group provides natural and organic consumer packaged food products to major global food manufacturers, distributors and supermarket chains with a variety of branded and private label products; and
- iv. International Foods Group includes European and North American based operations that source and supply raw materials, ingredients and trade organic commodities.

(b) **Opta Minerals** processes, distributes and recycles industrial minerals, silica-free abrasives, and specialty sands for use in the steel, foundry, loose abrasive cleaning, and municipal water filtration industries.

(c) **Corporate Services** provide a variety of management, financial, information technology, treasury and administration services to the operating segments from the head office in Brampton, Ontario, and information technology and shared services from its office in Edina, Minnesota.

The Company's assets, operations and employees are principally located in the U.S., Canada, Europe, China and Ethiopia. Revenues are allocated based on the location of the customer.

Other expense, interest expense and provision for income taxes are not allocated to operating segments.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

**Forward-Looking Financial Information**

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the interim consolidated financial statements, and notes thereto, for the quarter ended June 29, 2013 contained under Item 1 of this Quarterly Report on Form 10-Q ("Form 10-Q") and in conjunction with the annual consolidated financial statements, and notes thereto, contained in the Annual Report on Form 10-K for the fiscal year ended December 29, 2012 ("Form 10-K"). Unless otherwise indicated herein, the discussion and analysis contained in this MD&A includes information available to August 8, 2013.

Certain statements contained in this MD&A may constitute forward-looking statements as defined under securities laws. Forward-looking statements may relate to our future outlook and anticipated events or results and may include statements regarding our future financial position, business strategy, budgets, litigation, projected costs, capital expenditures, financial results, taxes, plans and objectives. In some cases, forward-looking statements can be identified by terms such as "anticipate", "estimate", "intend", "project", "potential", "continue", "believe", "expect", "could", "should", "might", "plan", "will", "may", "predict", or other similar expressions concerning matters that are not historical facts. To the extent any forward-looking statements contain future-oriented financial information or financial outlooks, such information is being provided to enable a reader to assess our financial condition, material changes in our financial condition, our results of operations, and our liquidity and capital resources. Readers are cautioned that this information may not be appropriate for any other purpose, including investment decisions.

Forward-looking statements contained in this MD&A are based on certain factors and assumptions regarding expected growth, results of operations, performance, and business prospects and opportunities. While we consider these assumptions to be reasonable, based on information currently available, they may prove to be incorrect. Forward-looking statements are also subject to certain factors, including risks and uncertainties that could cause actual results to differ materially from what we currently expect. These factors are more fully described in the "Risk Factors" section at Item 1A of the Form 10-K.

Forward-looking statements contained in this commentary are based on our current estimates, expectations and projections, which we believe are reasonable as of the current date. You should not place undue importance on forward-looking statements and should not rely upon this information as of any other date. Other than as required under securities laws, we do not undertake to update any forward-looking information at any particular time.

All dollar amounts in this MD&A are expressed in thousands of U.S. dollars, except per share amounts, unless otherwise noted.

## **Operational Realignment**

We are in the process of realigning our operations with a focus on three key ‘go-to-market’ segments: sourcing and supply; value-added ingredients; and consumer-packaged products. We believe this new operational structure will better align with our integrated ‘field-to-table’ business model and product portfolio. In addition, we believe this new structure will better support our strategy of growing our value-added packaged foods and ingredients portfolios, and leveraging our sourcing and supply capabilities and production capacity. We are targeting the fourth quarter of 2013 to have our operating segments realigned accordingly, with the segmented operations information provided in our consolidated financial statements and MD&A for fiscal 2013 and comparative periods updated to reflect these realigned operating segments.

## **Business Development**

### ***Expansion of Aseptic Processing and Packaging Operations***

We are expanding the Grains and Foods Group’s aseptic processing and packaging operations in Modesto, California and Alexandria, Minnesota with the installation of an additional multi-serve filler (liter/quart) at each operation, as well as a single serve (200/250ml) filler at the Modesto operation. Each of the new fillers is expected to be in production during the third quarter of 2013. The addition of further processing and packaging capabilities is in response to continued growth in the non-dairy and alternative beverage categories that we currently serve. The new fillers will provide unique capabilities and are expected to provide opportunities to bring new and innovative products in a new aseptic package format to the market, which we expect will further enhance the profitability of these operations.

### ***Pouch Filling Operation***

In September 2012, we completed the commissioning of two flexible re-sealable pouch filling lines at our facility located in Allentown, Pennsylvania. As those first two lines have reached capacity through committed long-term contracts, we have installed an additional two pouch filling lines at the Allentown facility. These two additional lines were commissioned in July 2013, and will be operational in the third quarter of 2013. The flexible re-sealable pouch is applicable to a wide range of product categories including natural and organic fruit and vegetable snacks, apple sauces, tomato products, baby food, yogurts, toppings and a variety of beverages.

### ***Bulgarian Processing Operation***

On December 31, 2012, we acquired a grains handling and processing facility located in Silistra, Bulgaria and operated as the Organic Land Corporation OOD (“OLC”), for cash consideration of \$3,898. The facility is located near a protected and chemical free agricultural area, which produces organic products including sunflower, flax seed, corn, barley and soybeans. We have been sourcing non-genetically modified (“non-GMO”) sunflower kernel from OLC since late 2011. This acquisition diversified our non-GMO and organic sunflower processing operations and should allow us to expand our capabilities into the other organic products grown in the region subsequent to expanding production capabilities expected to be completed in late 2013. OLC’s operations are included in the International Foods Group.

### ***WGI Heavy Minerals, Incorporated***

In August 2012, Opta Minerals paid \$14,098 in cash to acquire approximately 94% of the outstanding common shares of WGI Heavy Metals, Incorporated (“WGI”). In November 2012, Opta Minerals completed the acquisition of the remaining outstanding common shares of WGI for cash consideration of \$870. WGI’s principal business is the processing and sale of industrial abrasive minerals, and the sourcing, assembly and sale of ultra-high pressure water jet cutting machine replacement parts and components. This acquisition complemented Opta Minerals’ existing product portfolio and expands product line offerings to new and existing customers.

***Babco Industrial Corp.***

In February 2012, Opta Minerals acquired all of the outstanding common shares of Babco Industrial Corp. (“Babco”) located in Regina, Saskatchewan for cash at closing of \$17,530 plus contingent consideration of up to \$1,300 based on the achievement of certain earnings targets over the next five years. Babco is an industrial processor of petroleum coke. This acquisition complemented Opta Minerals’ existing product portfolio and provides for additional product line offerings to new and existing customers in the region.

## **Impairment Loss on Investment**

As at June 29, 2013, we determined that the \$33,845 carrying value of our non-core equity investment in Mascoma Corporation (“Mascoma”) was impaired and an other-than-temporary impairment loss of \$21,495 was recorded on the consolidated statement of operations for the quarter ended June 29, 2013.

On August 31, 2010, we sold 100% of our ownership interest in SunOpta BioProcess Inc. to Mascoma in exchange for an equity ownership position in Mascoma, consisting of preferred stock, common stock and warrants to purchase common stock of Mascoma. The fair value of the non-cash consideration received was estimated to be \$33,345 as of the date of sale, and we recognized a non-cash gain on sale in discontinued operations in the third quarter of 2010. We account for our investment in Mascoma using the cost method, as we do not have the ability to exercise significant influence over the operating and financial policies of Mascoma.

In evaluating whether our investment in Mascoma is recoverable each reporting period, we consider information relevant to the estimation of Mascoma’s enterprise value and stock price, including external factors such as the stock prices of comparable publicly-traded renewable energy companies. We also consider the commercial viability and future earnings prospects of Mascoma’s products and technologies, as well as Mascoma’s ability to raise additional capital to fund its operational requirements.

As at June 29, 2013, we concluded that our investment in Mascoma was impaired and that the impairment was other-than-temporary, based on information provided by Mascoma and consideration of external factors. Consequently, we completed a valuation analysis based on available information and determined that the estimated fair value of our investment in Mascoma was \$12,350 as at June 29, 2013.

## **Strategic Divestitures**

### ***Purity Life Natural Health Products***

On June 5, 2012, we completed the sale of Purity Life Natural Health Products (“Purity”), our Canadian natural health products distribution business, for consideration of \$13,443 (Cdn \$14,000) in cash at closing, plus up to approximately \$672 (Cdn \$700) if Purity achieved certain earnings targets during the one-year period following the closing date. The earnings targets were not met and, therefore, no contingent consideration was recognized. The divestiture of Purity completed our exit from all non-core distribution businesses. Purity was formerly part of the International Foods Group.

### ***Colorado Sun Oil Processing LLC***

In August 2011, we disposed of our interest in the Colorado Sun Oil Processing LLC (“CSOP”) joint venture to Colorado Mills, LLC (“Colorado Mills”) pursuant to the outcome of related bankruptcy proceedings. CSOP operated a vegetable oil refinery adjacent to Colorado Mills’ sunflower crush plant. CSOP was formerly part of the Grains and Foods Group.

On June 18, 2013, we reached an agreement with Colorado Mills to settle a separate arbitration proceeding related to the joint venture agreement (see note 12 to the interim consolidated financial statements). In connection with the settlement, we paid Colorado Mills \$5,884, consisting of cash and equipment in use at the CSOP refinery. An accrual for the settlement, including accrued interest costs, was included in accounts payable and accrued liabilities on the consolidated balance sheet as at December 29, 2012. The expenses of CSOP included in discontinued operations for the quarter and two quarters ended June 29, 2013 and June 30, 2012, related to legal fees and period interest costs that we incurred in connection with the arbitration proceeding.

- (1) When assessing the financial performance of our operating segments, we use an internal measure of operating income that excludes other income/expense items determined in accordance with U.S. generally accepted accounting principles ( GAAP ). This measure is the basis on which management, including the Chief Executive Officer, assesses the underlying performance of our operating segments. We believe that disclosing this non-GAAP measure assists investors in comparing financial performance across reporting periods on a consistent basis by excluding items that are not indicative of our core operating performance. However, the non-GAAP measure of operating income should not be considered in isolation or as a substitute for performance measures calculated in accordance with U.S. GAAP. The following table presents a reconciliation of segment operating income (loss) to earnings (loss) from continuing operations before the following , which we consider to be the most directly comparable U.S. GAAP financial measure.

We believe that investors' understanding of our financial performance is enhanced by disclosing the specific items that we exclude from segment operating income. However, any measure of operating income excluding any or all of these items is not, and should not be viewed as, a substitute for operating income prepared under U.S. GAAP. These items are presented solely to allow investors to more fully understand how we assess financial performance.

- (2) When assessing our financial performance, we use an internal measure that excludes specific items from earnings (loss) attributable to SunOpta Inc. determined in accordance with U.S. GAAP. We believe that the identification of these items enhances an analysis of our financial performance when comparing our operating results between periods. In the second quarter of 2013, we recognized a non-cash impairment loss on our non-core equity investment in Mascoma (as described above under "Impairment Loss on Investment") that we do not believe is reflective of normal business operations. The following table presents a reconciliation of adjusted earnings from continuing operations from loss attributable to SunOpta Inc., which we consider to be the most directly comparable U.S. GAAP financial measure.

	\$	Per Diluted Share \$
Loss attributable to SunOpta Inc.	(15,281)	(0.23)

We believe that investors' understanding of our financial performance is enhanced by disclosing the specific items that we exclude from earnings (loss) attributable to SunOpta Inc. to compute adjusted earnings from continuing operations. However, adjusted earnings from continuing operations is not, and should not be viewed as, a substitute for earnings prepared under U.S. GAAP. Adjusted earnings from continuing operations is presented solely to allow investors to more fully understand how we assess our financial performance.

## Edgar Filing: SunOpta Inc. - Form 10-Q

Revenues for the quarter ended June 29, 2013 increased by 10.2% to \$311,170 from \$282,308 for the quarter ended June 30, 2012. Revenues in SunOpta Foods increased by 9.0% to \$273,708 and revenues in Opta Minerals increased by 20.0% to \$37,462. Excluding the impact of changes including foreign exchange rates, commodity-related pricing and timing of shipments due to weather, acquisitions and rationalized product lines, revenues increased approximately 6% on a consolidated basis and approximately 7% within SunOpta Foods. Contributing to the increase in revenues within SunOpta Foods was strong demand and higher pricing for organic corn and organic feed products; strong sales in our U.S. organic ingredients operation within the International Foods Group; higher volumes and improved pricing for fruit ingredients; and higher sales volumes of value-added aseptic packaged beverages and re-sealable pouch products. These factors were partially offset by a decline in roasted sunflower volumes related to changes in our customer base; decreases in volumes and pricing for oat and soy fiber ingredients; lower volumes of healthy snacks due to competition from alternative packaging formats; and lower industrial frozen food sales due to the exit from that line of business in the first quarter of 2012. At Opta Minerals, the increase in revenues reflected incremental revenues from WGI (acquired August 2012), partially offset by lower base sales due to slowdowns in both the steel and infrastructure sectors.

Gross profit decreased \$105, or 0.3%, to \$36,983 for the quarter ended June 29, 2013, compared with \$37,088 for the quarter ended June 30, 2012. As a percentage of revenues, gross profit for the quarter ended June 29, 2013 was 11.9% compared to 13.1% for the quarter ended June 30, 2012, a decrease of 1.3%. The decrease in gross profit percentage primarily reflected lower sunflower processing yields due to the effects of the 2012 North American drought, which negatively impacted seed quality and by-product values; lower production volumes and higher input costs for fiber ingredients and healthy snacks; and pre-production costs related to our cocoa processing facility in the Netherlands and the expansion of our aseptic beverage, resealable pouch and integrated juice production capabilities in the U.S. All of those factors were partially offset by favorable margins on organic grains sales; favorable product mix of consumer packaged beverage products; expansion of re-sealable pouch production; higher pricing and production volumes for fruit ingredients; and the positive impact of industrial product rationalization efforts at our frozen foods operation in the first quarter of 2012. The decline in gross profit percentage at Opta Minerals reflected an unfavorable product mix due to lower sales volumes of higher margin products to the steel sector.

Total segment operating income for the quarter ended June 29, 2013 decreased by \$1,048, or 7.3%, to \$13,300, compared with \$14,348 for the quarter ended June 30, 2012. As a percentage of revenue, segment operating income was 4.3% for the quarter ended June 29, 2013, compared with 5.1% for the quarter ended June 30, 2012. The decrease in segment operating income reflected lower overall gross profit as described above, as well as a \$753 increase in selling, general and administrative (“SG&A”) expenses, primarily related to higher compensation and other costs within the International Foods Group and incremental SG&A related to WGI, partially offset by lower compensation and general office expenses following the closure of the Chelmsford, Massachusetts administrative offices of the Ingredients Group in the first quarter of 2013. All of those factors were partially offset by the favorable impact of foreign exchange movements for the U.S. dollar relative to the euro and Canadian dollar.

Further details on revenue, gross margin and segment operating income variances are provided below under “Segmented Operations Information”.

Other expense for the quarter ended June 29, 2013 of \$647 included severance and other costs incurred by Opta Minerals in connection with rationalization and integration efforts at WGI, as well as employee severance and other costs in connection with the closure of the administrative offices of the Ingredients Group (and the related relocation of certain back-office functions to our corporate office located in Edina, Minnesota). Other expense for the quarter ended June 30, 2012 of \$1,378 included accrued severance payable to a former executive officer and employee severance and other costs in connection with the rationalization of a number of operations and functions within SunOpta Foods in an effort to streamline operations, which included a reduction in our salaried workforce of approximately 6%, as well as transaction costs incurred by Opta Minerals related to the acquisitions of WGI and Babco.

Edgar Filing: SunOpta Inc. - Form 10-Q

The decrease in interest expense of \$320 to \$2,238 for the quarter ended June 29, 2013, compared with \$2,558 for the quarter ended June 30, 2012, reflected lower borrowing costs associated with the renewal of our syndicated credit facilities in July 2012, partially offset by higher borrowings at Opta Minerals in connection with the WGI acquisition.

In the second quarter of 2013, we recognized an impairment loss of \$21,495 on our equity investment in Mascoma (as described above under "Impairment Loss on Investment"). We estimated that the fair value of our investment in Mascoma was \$12,350 as at June 29, 2013.

The provision for income tax for the quarter ended June 29, 2013 was \$3,958, or 38.0% of earnings before taxes (excluding the impairment loss on investment, for which the related deferred income tax asset is considered more likely than not to be unrealized), compared with \$2,769, or 26.6% of earnings before taxes, for the quarter ended June 30, 2012, which reflected the recognition of existing non-capital loss carryforwards at Opta Minerals following the acquisition and amalgamation of Babco. The annual effective income tax rate for fiscal 2013 is expected to be between 37% and 39%, excluding discrete adjustments.

---

Loss from continuing operations for the quarter ended June 29, 2013 was \$14,979 (including the impairment loss on investment), as compared to earnings of \$7,255 for the quarter ended June 30, 2012. Diluted loss per share from continuing operations was \$0.23 for the quarter ended June 29, 2013, compared with diluted earnings per share of \$0.11 for the quarter ended June 30, 2012.

Loss attributable to non-controlling interests for the quarter ended June 29, 2013 was \$59, compared with earnings of \$388 for the quarter ended June 30, 2012. The \$447 decrease reflected lower net earnings at Opta Minerals.

Loss from discontinued operations of \$302 for the quarter ended June 29, 2013 reflected legal fees and interest costs in connection with the arbitration proceeding related to the CSOP joint venture agreement. Earnings from discontinued operations of \$214 for the quarter ended June 30, 2012 reflected the results of operations of Purity, partially offset by costs related to CSOP. In addition, in the second quarter of 2012, we recognized a gain on sale of discontinued operations, net of taxes, of \$676 related to the divestiture of Purity.

On a consolidated basis, the loss attributable to SunOpta Inc. was \$15,281 (diluted loss per share of \$0.23) for the quarter ended June 29, 2013, compared with earnings of \$8,145 (diluted earnings per share of \$0.12) for the quarter ended June 30, 2012.

Adjusting for the impairment loss on investment, adjusted earnings from continuing operations for the quarter ended June 29, 2013 were \$6,516 or \$0.10 per diluted share.

The Grains and Foods Group contributed \$144,951 in revenues for the quarter ended June 29, 2013, compared to \$136,004 for the quarter ended June 30, 2012, an \$8,947 or 6.6% increase. The table below explains the increase in revenue:

<b>Grains and Foods Group Revenue Changes</b>	
Revenues for the quarter ended June 30, 2012	\$136,004
Improved pricing for organic feed, commodity corn and soy	5,261
Higher soybean volumes due to increased market demand	2,838
Increased volume and higher pricing on aseptically packaged beverages	1,798
Higher volumes of grain based ingredient products	1,496
Higher agronomy sales in the second quarter of 2013 due to delayed planting season	905
Lower roasted sunflower sales partially offset by increased raw in-shell sales	(3,351)
Revenues for the quarter ended June 29, 2013	<b>\$144,951</b>

Gross margin in the Grains and Foods Group decreased by \$591 to \$15,815 for the quarter ended June 29, 2013 compared to \$16,406 for the quarter ended June 30, 2012, and the gross margin percentage decreased by 1.2% to 10.9% .. The decrease in gross margin as a percentage of revenue was primarily due to lower sunflower processing yields due to the effects of the 2012 North American drought, which negatively impacted seed quality and by-product values, partially offset by improved pricing on organic feed, commodity corn and soy. The table below explains the decrease in gross margin:

<b>Grains and Foods Group Gross Margin Changes</b>	
Gross Margin for the quarter ended June 30, 2012	\$16,406
Lower sunflower processing yields and reduced by-product recovery values, attributed mainly to crop conditions stemming from an extraordinarily dry 2012 growing season	(3,305)
Margin impact of improved pricing on organic feed, commodity corn and soy	1,534
Higher volume and improved pricing on aseptically packaged beverages	593
Higher sales of grain-based ingredient products	392

Revenues for the quarter ended June 29, 2013		<b>\$21,975</b>

Gross margin in the Ingredients Group decreased by \$318 to \$3,023 for the quarter ended June 29, 2013 compared to \$3,341 for the quarter ended June 30, 2012, and the gross margin percentage decreased by 2.5% to 13.8% .. The decrease in gross margin as a percentage of revenue is due to pricing pressures and higher production costs in fiber ingredients, partially offset by favorable pricing and improved plant efficiencies in fruit ingredients due in part to higher production levels. The table below explains the decrease in gross margin:

<b>Ingredients Group Gross Margin Changes</b>		
Gross Margin for the quarter ended June 30, 2012		\$3,341
Lower volume and pricing of fiber ingredients combined with reduced efficiencies resulting from lower production volume and higher input costs		(1,368)

<b>Consumer Products Group Revenue Changes</b>	
Revenues for the quarter ended June 30, 2012	\$49,091
Increased sales of re-sealable pouch products	4,096
Higher private label retail frozen foods and beverage volume	3,041
Lower sales of healthy fruit and nutritional snacks due to increased competitive pressures	(1,639)
Decreased sales of industrial frozen foods due to exiting the category	(864)
Revenues for the quarter ended June 29, 2013	<b>\$53,725</b>

Gross margin in the Consumer Products Group increased by \$1,611 to \$5,982 for the quarter ended June 29, 2013 compared to \$4,371 for the quarter ended June 30, 2012, and the gross margin percentage increased by 2.2% to 11.1% .. The increase in gross margin as a percentage of revenue is due to a favorable mix shift towards higher margin retail frozen food, beverage and pouch offerings, partially offset by start-up and higher production costs in our pouch and healthy snacks facilities. The table below explains the increase in gross margin:

<b>Consumer Products Group Gross Margin Changes</b>	
Gross Margin for the quarter ended June 30, 2012	\$4,371
Favorable product mix shift in our consumer packaged beverage categories, net of start-up costs related to our integrated juice production expansion	1,022
Higher margins realized on retail format frozen food sales and decreased storage costs as a result of lower inventory levels	656

Decreased volumes of steel and magnesium products, due to a slowdown in the steel sector	(2,669)
Revenues for the quarter ended June 29, 2013	<b>\$37,462</b>

Gross margin for Opta Minerals decreased by \$1,283 to \$5,568 for the quarter ended June 29, 2013 compared to \$6,851 for the quarter ended June 30, 2012, and the gross margin percentage decreased by 7.0% to 14.9%. The decrease in gross margin as a percentage of revenue was largely driven by changes in product mix. The acquisition of WGI has increased the relative percentage of abrasive product revenues, which have lower margins than steel and magnesium products. The table below explains the decrease in gross margin:

<b>Opta Minerals Gross Margin Changes</b>	
Gross Margin for the quarter ended June 30, 2012	\$6,851
Lower volumes of steel and magnesium products, combined with lower margins due to changes in product and customer mix	(1,066)

Operating loss at Corporate Services increased by \$383 to \$1,887 for the quarter ended June 29, 2013, from a loss of \$1,504 for the quarter ended June 30, 2012. The table below explains the increase in operating loss:

<b>Corporate Services Operating Income Changes</b>	
Operating Loss for the quarter ended June 30, 2012	\$(1,504)
Decrease in foreign exchange gains	(553)
Higher general office spending on investor relations, travel and lease costs	(361)
Increase in professional fees and higher spending on information technology system support	(84)
Increase in corporate management fees that are allocated to SunOpta operating groups	456
Reduced health and benefits costs due to lower claims and corporate wellness initiatives, partially offset by increased compensation and stock based compensation	159
Operating Loss for the quarter ended June 29, 2013	<b>\$(1,887)</b>

Management fees mainly consist of salaries of corporate personnel who perform back office functions for divisions, as well as costs related to the enterprise resource management system used within several of the divisions. These expenses are allocated to the groups based on (1) specific identification of allocable costs that represent a service provided to each division and (2) a proportionate distribution of costs based on a weighting of factors such as revenue contribution and number of people employed within each division.

Revenues for the two quarters ended June 29, 2013 increased by 9.7% to \$593,995 from \$541,636 for the two quarters ended June 30, 2012. Revenues in SunOpta Foods increased by 7.9% to \$520,308 and revenues in Opta Minerals increased by 23.7% to \$73,687. Excluding the impact of changes including foreign exchange rates, commodity-related pricing and timing of shipments due to weather, acquisitions and rationalized product lines, revenues increased approximately 6% on a consolidated basis and approximately 7% within SunOpta Foods. Contributing to the increase in revenues within SunOpta Foods was strong demand and higher pricing for organic corn and organic feed products; strong sales in our U.S. organic ingredients operation within the International Foods Group; higher volumes and improved pricing for fruit ingredients; and higher sales volumes of value-added aseptic packaged beverages and re-sealable pouch products. These factors were partially offset by a decline in roasted sunflower volumes related to changes in our customer base; decreases in volumes and pricing for oat and soy fiber ingredients; lower volumes of healthy snacks due to competition from alternative packaging formats; lower industrial frozen food sales due to the exit from that line of business in the first quarter of 2012; and lower planting seed sales in North America due to wet weather conditions in parts of the U.S. Midwest. At Opta Minerals, the increase in revenues reflected incremental revenues from WGI (acquired August 2012), partially offset by lower base sales due to slowdowns in both the steel and infrastructure sectors.

Gross profit decreased \$341, or 0.5%, to \$71,233 for the two quarters ended June 29, 2013, compared with \$71,574 for the two quarters ended June 30, 2012. As a percentage of revenues, gross profit for the two quarters ended June 29, 2013 was 12.0% compared to 13.2% for the two quarters ended June 30, 2012, a decrease of 1.2% . The decrease in gross profit percentage primarily reflected lower sunflower processing yields due to the effects of the 2012 North American drought, which negatively impacted seed quality and by-product values; lower production volumes and higher input costs for fiber ingredients and healthy snacks; pre-production costs related to our cocoa processing facility in the Netherlands and the expansion of our aseptic beverage, re-sealable pouch and integrated juice production capabilities in the U.S; and reduced sales of higher-margin planting seeds. All of those factors were partially offset by favorable margins on organic grains sales; favorable product mix of consumer packaged beverage products; expansion of re-sealable pouch production; higher pricing and production volumes for fruit ingredients; and the positive impact of industrial product rationalization efforts at our frozen foods operation in the first quarter of 2012. The decline in gross profit percentage at Opta Minerals reflected an unfavorable product mix due to lower sales volumes of higher margin products to the steel sector.

Total segment operating income for the two quarters ended June 29, 2013 decreased by \$3,153, or 11.6%, to \$23,976, compared with \$27,129 for the two quarters ended June 30, 2012. As a percentage of revenue, segment operating income was 4.0% for the two quarters ended June 29, 2013, compared with 5.0% for the two quarters ended June 30, 2012. The decrease in segment operating income reflected lower overall gross profit as described above, as well as a \$3,234 increase in selling, general and administrative ( SG&A ) expenses, primarily related to higher compensation and other costs within the International Foods Group and incremental SG&A related to WGI, partially offset by lower compensation and general office expenses following the closure of the Chelmsford, Massachusetts administrative offices of the Ingredients Group in the first quarter of 2013. All of those factors were partially offset by the favorable impact of foreign exchange movements for the U.S. dollar relative to the euro and Canadian dollar.

Further details on revenue, gross margin and segment operating income variances are provided below under Segmented Operations Information .

Other expense for the two quarters ended June 29, 2013 of \$1,012 included severance and other costs incurred by Opta Minerals in connection with rationalization and integration efforts at WGI; employee severance and other costs in connection with the closure of the administrative offices of the Ingredients Group (and the related relocation of certain back-office functions to our corporate office located in Edina, Minnesota); and transaction costs in connection with the acquisition of OLC. Other income for the two quarters ended June 30, 2012 included accrued severance payable to a former executive officer and employee severance and other costs in connection with the rationalization of a number of operations and functions within SunOpta Foods in an effort to streamline operations, which included a reduction in our salaried workforce of approximately 6%, as well as transaction costs incurred by Opta Minerals related to the acquisitions of WGI and Babco.

The decrease in interest expense of \$1,213 to \$3,928 for the two quarters ended June 29, 2013, compared with \$5,141 for the two quarters ended June 30, 2012, reflected lower borrowing costs associated with the renewal of our syndicated credit facilities in July 2012, partially offset by higher borrowings at Opta Minerals in connection with the WGI acquisition.

In the second quarter of 2013, we recognized an impairment loss of \$21,495 on our equity investment in Mascoma (as described above under Impairment Loss on Investment ). We estimated that the fair value of our investment in Mascoma was \$12,350 as at June 29, 2013.

The provision for income tax for the two quarters ended June 29, 2013 was \$7,233, or 38.0% of earnings before taxes (excluding the impairment loss on investment, for which the related deferred income tax asset is considered more likely than not to be unrealized), compared with \$6,355, or 31.4% of earnings before taxes, for the two quarters ended June 30, 2012, which reflected the recognition of existing non-capital loss carryforwards at Opta Minerals following the acquisition and amalgamation of Babco in the second quarter of 2012. The annual effective income tax rate for fiscal 2013 is expected to be between 37% and 39%, excluding discrete adjustments.

Loss from continuing operations for the two quarters ended June 29, 2013 was \$9,796 (including the impairment loss on investment), as compared to earnings of \$12,956 for the two quarters ended June 30, 2012. Diluted loss per share from continuing operations was \$0.15 for the two quarters ended June 29, 2013, compared with diluted earnings per share of \$0.19 for the two quarters ended June 30, 2012.

Earnings attributable to non-controlling interests for the two quarters ended June 29, 2013 were \$104, compared with earnings of \$935 for the two quarters ended June 30, 2012. The \$831 decrease reflected lower net earnings at Opta Minerals.

Loss from discontinued operations of \$360 for the two quarters ended June 29, 2013 reflected legal fees and interest costs in connection with the arbitration proceeding related to the CSOP joint venture agreement. Earnings from discontinued operations of \$405 for the two quarters ended June 30, 2012 reflected the results of operations of Purity,

Edgar Filing: SunOpta Inc. - Form 10-Q

partially offset by costs related to CSOP. In addition, in the second quarter of 2012, we recognized a gain on sale of discontinued operations, net of taxes, of \$676 related to the divestiture of Purity.

On a consolidated basis, the loss attributable to SunOpta Inc. was \$9,692 (diluted loss per share of \$0.15) for the two quarters ended June 29, 2013, compared with earnings of \$13,891 (diluted earnings per share of \$0.21) for the two quarters ended June 30, 2012.

Gross margin in the Grains and Foods Group decreased by \$1,331 to \$29,413 for the two quarters ended June 29, 2013 compared to \$30,744 for the two quarters ended June 30, 2012, and the gross margin percentage decreased by 1.3% to 10.7% . The decrease in gross margin as a percentage of revenue was primarily due to lower sunflower processing yields due to the effects of the 2012 North American drought, which negatively impacted seed quality and by-product values, partially offset by improved pricing on organic feed, commodity corn and soy. The table below explains the decrease in gross margin:

<b>Grains and Foods Group Gross Margin Changes</b>	
Gross margin for the two quarters ended June 30, 2012	\$30,744
Lower sunflower processing yields and reduced by-product recovery values, attributed mainly to crop conditions stemming from an extraordinarily dry 2012 growing season	(4,768)
Reduced volumes of planting seeds and agronomy due to late planting season	(444)
Margin impact of improved pricing on organic feed and commodity corn, partially offset by lower soybean volumes	2,287

Decrease in foreign exchange losses	158
Operating income for the two quarters ended June 29, 2013	<b>\$17,024</b>

Looking forward, we believe the Grains and Foods business is well positioned in growing natural and organic food categories. We expect the new multi-serve fillers at our Alexandria, Minnesota and Modesto, California facilities as well as the new single-serve filler at Modesto will further enhance our ability to serve the non-dairy alternative beverage category with both new and innovative packaging formats and a number of new product offerings beyond non-dairy beverages including organic dairy and nutritional beverages. We also intend to focus our efforts on growing our identity preserved, non-GMO and organic grains business, expanding revenues from natural and organic grains based ingredients and continuing to focus on value-added ingredient and packaged product offerings. We intend to pursue internal growth and acquisition opportunities that are aligned with the Group's core integrated grain business model. Additionally, the international expansion of our sales base via strategic relationships for procurement of product is expected to drive incremental sales volume. Our long-term target for the Grains and Foods Group is to achieve a segment operating margin of 6% to 8% which assumes we are able to secure a consistent quantity and quality of grains and sunflower stocks, improve product mix, and control costs. The statements in this paragraph are forward-looking statements. See [Forward-Looking Statements](#) above. Increased supply pressure in the commodity-based markets in which we operate, increased competition, volume decreases or loss of customers, unexpected delays in our expansion plans, or our inability to secure quality inputs or achieve our product mix or cost

reduction goals, along with the other factors described above under Forward-Looking Statements , could adversely impact our ability to meet these forward-looking expectations.

<b>Ingredients Group Revenue Changes</b>		
Revenues for the two quarters ended June 30, 2012		\$42,135
Higher volumes and improved pricing for industrial and food service fruit ingredients		5,685
Decrease in volume and pricing for oat and soy fiber ingredients, as well as starches and bran products		(4,324)
Revenues for the two quarters ended June 29, 2013		<b>\$43,496</b>

The Ingredients Group gross margin decreased by \$466 to \$6,675 for the two quarters ended June 29, 2013 compared to \$7,141 for the two quarters ended June 30, 2012, and the gross margin percentage decreased by 1.6% to 15.3% .. The decrease in gross margin as a percentage of revenue is due to pricing pressures and higher production costs in fiber ingredients, partially offset by favorable pricing and improved plant efficiencies in fruit ingredients due in part to higher production levels. The table below explains the decrease in gross margin:

<b>Ingredients Group Gross Margin Changes</b>		
Gross margin for the two quarters ended June 30, 2012		\$7,141

Decreased sales of industrial frozen foods due to exiting the category		(3,365)
Revenues for the two quarters ended June 29, 2013		<b>\$100,276</b>

Gross margin in the Consumer Products Group increased by \$1,804 to \$9,954 for the two quarters ended June 29, 2013 compared to \$8,150 for the two quarters ended June 30, 2012, and the gross margin percentage increased by 1.3% to 9.9%. The increase in gross margin as a percentage of revenue was due to a favorable mix shift towards higher margin retail frozen food, beverage and pouch offerings, partially offset by start-up and higher production costs in our pouch and healthy snacks facilities. The table below explains the increase in gross margin:

<b>Consumer Products Group Gross Margin Changes</b>		
Gross margin for the two quarters ended June 30, 2012		\$8,150
Higher margins realized on retail format frozen food sales and decreased storage costs as a result of lower inventory levels		1,716
Favorable product mix shift in our consumer packaged beverage categories and positive margins realized on roll out of our re-sealable pouch products net of start-up costs at our Allentown pouch facility and related to our integrated juice production expansion		1,283
Lower sales volumes and increased plant costs at our healthy snacks facilities		(1,195)
Gross margin for the two quarters ended June 29, 2013		<b>\$9,954</b>

Edgar Filing: SunOpta Inc. - Form 10-Q

Operating income in the Consumer Products Group was \$1,880 for the two quarters ended June 29, 2013, compared to a loss of \$5 for the two quarters ended June 30, 2012. The table below explains the increase in operating income:

<b>Consumer Products Group Operating Loss Changes</b>	
Operating loss for the two quarters ended June 30, 2012	\$(5)
Increase in gross margin, as explained above	1,804
Lower professional fees, travel and office expenses	409
Increase in corporate cost allocations	(328)
Operating income for the two quarters ended June 29, 2013	<b>\$1,880</b>

Looking forward, we expect improvements in margins and operating income from the Consumer Products Group through the growth of our beverage, snack, pouch and frozen food offerings. We remain customer focused and continue to explore new ways to bring new value-added packaged products and processes to market, leveraging our global raw material sourcing and supply capabilities. We recently commissioned two new flexible re-sealable pouch filling lines at our Allentown facility, increasing our total filling capacity to approximately 140 million pouches. Continued new product development, innovation in healthy snacks and the expansion of our integrated juice operations, combined with increasing demand for portable nutritious fruit offerings are expected to drive growth in this business. Long term we are targeting 8% to 10% operating margins from the Consumer Products Group. The statements in this paragraph are forward-looking statements. See [Forward-Looking Statements](#) above. Unexpected declines in volumes, shifts in consumer preferences, inefficiencies in our manufacturing processes, lack of consumer product acceptance, or our inability to successfully implement the particular goals and strategies indicated above, along with the other factors described above under [Forward-Looking Statements](#), could have an adverse impact on these forward-looking expectations.

**International Foods Group**

**For the two quarters ended**      **June 29, 2013**      **June 30, 2012**      **Change**      **% Change**

Revenues	\$ 101,132	\$ 88,533	\$ 12,599	14.2%
Gross margin	12,386	12,441	(55)	-0.4%

Operating income	\$ 3,052	\$ 4,643	\$ (1,591)	-34.3%
Operating income %	3.0%	5.2%		-2.2%

The International Foods Group contributed \$101,132 in revenues for the two quarters ended June 29, 2013, compared to \$88,533 for the two quarters ended June 30, 2012, a \$12,599 or 14.2% increase. The table below explains the increase in revenue:

<b>International Foods Group Revenue Changes</b>	
Revenues for the two quarters ended June 30, 2012	\$88,533
Higher sales volumes in the U.S. of organic fruits, nuts, and seeds	8,374
Higher sales volumes of organic feed, nuts and sunflower kernels in Europe, partially offset by lower coffee sales	1,874
Increased commodity prices for organic commodities such as sugar, seeds, and feed ingredients	1,709
Favorable impact on revenues due to the stronger euro relative to the U.S. dollar	642
Revenues for the two quarters ended June 29, 2013	<b>\$101,132</b>

Gross margin in the International Foods Group decreased by \$55 to \$12,386 for the two quarters ended June 29, 2013 compared to \$12,441 for the two quarters ended June 30, 2012. Gross margin as a percentage of revenues was lower by 1.9% due to unfavorable margins realized on specialty coffee due to a decline in market prices, as well as start-up costs related to our new cocoa processing facility. The table below explains the decrease in gross margin:

<b>International Foods Gross Margin Changes</b>	
Gross margin for the two quarters ended June 30, 2012	\$12,441
Lower margins realized on coffee due to declining market prices and lower margins on sweeteners due to increased supply costs, combined with start-up costs related to our cocoa processing facility	(2,095)
Increased volume and favorable product mix in the U.S. for organic fruit, nuts and seeds	2,040
Gross margin for the two quarters ended June 29, 2013	<b>\$12,386</b>

Operating income in the International Foods Group decreased by \$1,591, or 34.3%, to \$3,052 for the two quarters ended June 29, 2013, compared to \$4,643 for the two quarters ended June 30, 2012. The table below explains the decrease in operating income:

<b>International Foods Group Operating Income Changes</b>	
Operating income for the two quarters ended June 30, 2012	\$4,643
Decrease in gross margin, as explained above	(55)
Higher compensation costs due primarily to increased headcount and higher pension expenses	(950)
Increase in other SG&A expenses including rent and professional fees	(586)
Operating income for the two quarters ended June 29, 2013	<b>\$3,052</b>

Looking forward, the International Foods Group is focused on leveraging its sourcing, supply and processing expertise to grow its portfolio of organic ingredients. Long-term group operating margins are targeted at 5% to 6% of revenues, which are expected to be achieved through a combination of strategic sourcing, pricing and product development strategies. We intend to leverage the Group's sourcing and supply capabilities and forward and backward integrate where opportunities exist, expanding our processing expertise and increasing our value-added capabilities. In addition, we expect our new cocoa processing facility under construction in the Netherlands will increase our ability to grow our organic and specialty cocoa business, once commissioned in the third quarter of 2013. The integrated grains handling and processing facility in Bulgaria added in early fiscal 2013 is expected to diversify and expand our sourcing and processing capabilities in this region, after expansion of capabilities combined with the new growing season. The statements in this paragraph are forward-looking statements. See [Forward-Looking Statements](#) above. Unfavorable fluctuations in foreign exchange, reduced demand for natural and organic ingredients, increased competition, delayed synergies, as well as our inability to realize our particular strategic expansion goals, along with the other factors described above under [Forward-Looking Statements](#), could have an adverse impact on these forward-looking expectations.

**Opta Minerals**

Opta Minerals contributed \$73,687 in revenues for the two quarters ended June 29, 2013, compared to \$59,546 for the two quarters ended June 30, 2012, a \$14,141 or a 23.7% increase. The table below explains the increase in revenue:

<b>Opta Minerals Revenue Changes</b>		
Revenues for the two quarters ended June 30, 2012		\$59,546
Incremental revenues due to the acquisition of WGI in August 2012		16,661
Decreased volumes of steel and magnesium products, due to a slowdown in the steel sector		(2,279)
Decreased volumes of abrasive and industrial mineral products, due to a slowdown in the North American construction and infrastructure sectors		(241)
Revenues for the two quarters ended June 29, 2013		<b>\$73,687</b>

Gross margin for Opta Minerals decreased by \$293 to \$12,805 for the two quarters ended June 29, 2013 compared to \$13,098 for the two quarters ended June 30, 2012, and the gross margin percentage decreased by 4.6% to 17.4% .. The decrease in gross margin as a percentage of revenue was largely driven by changes in product mix. The acquisition of WGI has increased the relative percentage of abrasive product revenues, which have lower margins than steel and magnesium products. The table below explains the decrease in gross margin:

<b>Opta Minerals Gross Margin Changes</b>		
Gross margin for the two quarters ended June 30, 2012		\$13,098
Impact of higher plant costs and unfavorable pricing of abrasive and industrial mineral products		(1,286)
Lower volumes of steel and magnesium products, combined with lower margins due to changes in product and customer mix		(1,238)
Incremental gross margin due to the acquisition of WGI		2,231
Gross margin for the two quarters ended June 29, 2013		<b>\$12,805</b>

Edgar Filing: SunOpta Inc. - Form 10-Q

Operating income for Opta Minerals decreased by \$1,532, or 31.3%, to \$3,366 for the two quarters ended June 29, 2013, compared to \$4,898 for the two quarters ended June 30, 2012. The table below explains the decrease in operating income:

<b>Opta Minerals Operating Income Changes</b>	
Operating income for the two quarters ended June 30, 2012	\$4,898
Decrease in gross margin, as explained above	(293)
Incremental SG&A related to WGI	(2,447)
Increase in foreign exchange gains	626
Lower bad debt expenses due to the bankruptcy of a customer in 2012, partially offset by increase in professional fees and other SG&A expenses	582
Operating income for the two quarters ended June 29, 2013	<b>\$3,366</b>

Opta Minerals continues to develop and introduce new products into the marketplace, and is focused on leveraging the global platform that has been put in place both to drive these new products and to improve efficiencies. Opta Minerals continues to expand in core North American and European markets through a combination of internal growth and integrating strategic acquisitions. We own 66.1% of Opta Minerals and segment operating income is presented prior to non-controlling interest expense. The statements in this paragraph are forward-looking statements. See *Forward-Looking Statements* above. An extended period of softness in the steel and foundry industries, slowdowns in the economy, or delays in bringing new products and operations completely online, along with the other factors described above under *Forward-Looking Statements*, could have an adverse impact on these forward-looking expectations.

Operating loss at SunOpta Corporate Services decreased by \$59 to \$3,298 for the two quarters ended June 29, 2013, from a loss of \$3,357 for the two quarters ended June 30, 2012. The table below explains the decrease in operating loss:

<b>Corporate Services Operating Loss Changes</b>	
Operating loss for the two quarters ended June 30, 2012	\$(3,357)
Increase in corporate management fees that are allocated to SunOpta operating groups	912
Reduced health and benefit costs due to lower claims and corporate wellness initiatives, partially offset by increased compensation and stock-based compensation	410
Higher general office spending on investor relations, travel and lease costs	(594)
Increased professional fees and higher spending on information technology system support	(367)
Decrease in foreign exchange gains	(302)
Operating loss for the two quarters ended June 29, 2013	<b>\$(3,298)</b>

Management fees mainly consist of salaries of corporate personnel who perform back office functions for divisions, as well as costs related to the enterprise resource management system used within several of the divisions. These expenses are allocated to the groups based on (1) specific identification of allocable costs that represent a service provided to each operating group, and (2) a proportionate distribution of costs based on a weighting of factors such as

revenue contribution and number of people employed within each division.

## Liquidity and Capital Resources

We have the following sources from which we can fund our operating cash requirements:

- Existing cash and cash equivalents;
- Available operating lines of credit;
- Cash flows generated from operating activities;
- Cash flows generated from the exercise, if any, of stock options or warrants during the year;
- Additional long-term financing; and
- Sale of non-core divisions, or assets.

On September 25, 2012, The Organic Corporation ( TOC ) and certain of its subsidiaries entered into a credit facilities agreement with two lenders, which provides for a €45,000 revolving credit facility covering working capital needs and a €3,000 pre-settlement facility covering currency hedging requirements. The revolving credit facility and pre-settlement facility are due on demand with no set maturity date, and the credit limit can be extended or adjusted based on the needs of the business and upon approval of the lenders. These facilities support the global sourcing, supply and processing capabilities of the International Foods Group. In addition, on May 22, 2013, a subsidiary of TOC entered into a separate revolving credit facility agreement to provide up to €4,500 to cover the working capital needs of TOC's Bulgarian operations.

On July 27, 2012, we entered into an amended and restated credit agreement with a syndicate of lenders. The amended agreement provides secured revolving credit facilities of Cdn \$10,000 and \$165,000, as well as an additional \$50,000 in availability upon the exercise of an uncommitted accordion feature. These facilities mature on July 27, 2016, with the outstanding principal amount repayable in full on the maturity date. These facilities support our core North American food operations.

On July 24, 2012, Opta Minerals amended and restated its credit agreement to include a Cdn \$15,000 revolving term credit facility and a Cdn \$52,500 non-revolving term credit facility. The revolving term credit facility matures on August 14, 2014, with the outstanding principal amount repayable in full on the maturity date. The principal amount of the non-revolving term credit facility is repayable in equal quarterly installments of approximately Cdn \$1,312. Opta Minerals may be required to make additional repayments on the non-revolving term credit facility if certain financial covenants are not met. The non-revolving term credit facility matures on May 18, 2017, with the remaining outstanding principal amount repayable in full on the maturity date.

On April 30, 2013, Opta Minerals amended its credit agreement with its lenders to increase the revolving term credit facility to Cdn \$20,000. On the same date, certain financial covenants under the credit agreement were amended for the periods ending June 30, 2013 and September 30, 2013. On June 28, 2013, the credit agreement was further amended in respect of certain financial covenants for the periods ended June 30, 2013, September 30, 2013 and December 31, 2013. Opta Minerals was in compliance with all its financial covenants as at June 30, 2013.

In order to finance significant acquisitions that may arise in the future, we may need additional sources of cash that we could attempt to obtain through a combination of additional bank or subordinated financing, a private or public offering, or the issuance of common stock as consideration in an acquisition. There can be no assurance that these types of financing would be available or, if so, on terms that are acceptable to us.

In the event that we require additional liquidity due to market conditions, unexpected actions by our lenders, changes to our growth strategy, or other factors, our ability to obtain any additional financing on favorable terms, if at all, could be limited.

## Cash Flows

### *Cash flows for the quarter ended June 29, 2013*

Net cash and cash equivalents declined \$249 in the second quarter of 2013 to \$6,460 as at June 29, 2013, compared with \$6,709 at March 30, 2013, which primarily reflected the following uses of cash:

- capital expenditures of \$14,083, related to the expansion of our aseptic beverage processing and packaging capacity; construction of the new cocoa processing facility in the Netherlands; and expansion of production capabilities at OLC;
- net repayments under our credit facilities of \$7,857
- cash component of the CSOP arbitration settlement of \$4,360; and
- net repayments of long-term debt of \$1,489.

All those uses of cash were mostly offset by cash provided by continuing operating activities of \$28,477.

Cash provided by operating activities of continuing operations was \$28,477 in the second quarter of 2013, which was comparable to cash provided of \$28,966 in the second quarter of 2012. Cash used in operating activities related to discontinued operations of \$4,570 included the \$4,360 of cash paid in connection with the CSOP arbitration settlement.

Cash used in investing activities of continuing operations increased by \$8,047 to \$15,498 in the second quarter of 2013, compared with \$7,451 in the second quarter of 2012, reflecting an increase in capital expenditures of \$7,088 in the second quarter of 2013. Cash provided by investing activities related to discontinued operations of \$12,147 in the second quarter of 2012, primarily reflected net proceeds on the sale of Purity of \$12,189.

Cash used in financing activities of continuing operations was \$8,768 in the second quarter of 2013, compared with \$33,886 in the second quarter of 2012, a decrease in cash used of \$25,118, reflecting lower net repayments under our credit facilities in the second quarter of 2013, due to the increase in capital expenditures and the cash component of the CSOP arbitration settlement in the second quarter of 2013. In addition, the proceeds from the sale of Purity were used to repay a portion of the credit facilities in the second quarter of 2012.

### *Cash flows for the two quarters ended June 29, 2013*

Net cash and cash equivalents declined \$380 in the first two quarters of 2013 to \$6,460 as at June 29, 2013, compared with \$6,840 at December 29, 2012, which primarily reflected the following uses of cash:

- capital expenditures of \$21,976, related to the expansion of our aseptic beverage processing and packaging capacity; construction of the new cocoa processing facility in the Netherlands; expansion of production capabilities at OLC; and expansion of our grains milling and roasting capacity;
- cash component of the CSOP arbitration settlement of \$4,360;
- cash consideration paid to acquire OLC of \$3,828, net of cash acquired; and
- net repayments of long-term debt of \$3,676.

Those uses of cash were mostly offset by the following sources of cash:

- cash provided by continuing operating activities of \$21,758; and
- net borrowings under our credit facilities of \$12,782.

Cash provided by operating activities of continuing operations was \$21,758 in the first two quarters of 2013, which was comparable to cash provided of \$21,856 in the first two quarters of 2012. Cash used in operating activities related to discontinued operations of \$4,608 included the \$4,360 of cash paid in connection with the CSOP arbitration settlement in the second quarter of 2013.

Cash used in investing activities of continuing operations decreased by \$2,286 to \$27,716 in the first two quarters of 2013, compared with \$30,002 in the first two quarters of 2012, reflecting net cash paid to acquire OLC of \$3,828 in the first two quarters of 2013, compared with cash paid by Opta Minerals of \$17,530 to acquire Babco in the first two quarters of 2012, partially offset by an increase in capital expenditures of \$10,062 in the first two quarters of 2013. Cash provided by investing activities relating to discontinued operations of \$12,134 in the first two quarters of 2012 primarily reflected the net proceeds on the sale of Purity of \$12,189.

Cash provided by financing activities of continuing operations was \$10,289 in the first two quarters of 2013, compared with cash used of \$2,757 in the first two quarters of 2012, an increase in cash provided of \$13,046, reflecting net borrowings under our credit facilities of \$12,782 in the first two quarters of 2013, which were used to fund higher capital expenditures and the cash component of the CSOP arbitration settlement; compared with net repayments under our credit facilities of \$10,526 and repayment of long-term debt of \$10,823 in the first two quarters of 2012, reflecting the use of proceeds from the sale of Purity, partially offset by a \$19,373 increase in long-term debt in the first two quarters of 2012, mainly related to the Babco acquisition by Opta Minerals.

### **Off-Balance Sheet Arrangements**

There are currently no off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition.

### **Contractual Obligations**

Other than the new revolving credit facility of the subsidiary of TOC and the amendments to the Opta Minerals revolving term credit facility, as described above under *Liquidity and Capital Resources*, there have been no material changes outside the normal course of business in our contractual obligations since December 29, 2012.

### **Critical Accounting Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, related revenues and expenses, and disclosure of gain and loss contingencies at the date of the financial statements. The estimates and assumptions made require us to exercise our judgment and are based on historical experience and various other factors that we believe to be reasonable under the circumstances. We continually evaluate the information that forms the basis of our estimates and assumptions as our business and the business environment generally changes. The use of estimates is pervasive throughout our financial statements. Except as described below, there have been no material changes to the critical accounting estimates disclosed under the heading *Critical Accounting Estimates* in Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, of the Form 10-K.

### ***Investment***

We account for our equity investment in Mascoma using the cost method. For reporting periods in which events or changes in circumstances have occurred that may have a significant adverse effect on our ability to recover the carrying value of our investment in Mascoma, we are required to estimate the fair value of our investment in order to evaluate whether the investment is impaired. In the event that the carrying value of our investment in Mascoma exceeds its fair value, we determine whether the decline in fair value is other-than-temporary. In doing so, we consider information relevant to the estimation of Mascoma's enterprise value and stock price, including external factors such as

the stock prices of comparable publicly-traded renewable energy companies. We also consider the commercial viability and future earnings prospects of Mascoma's products and technologies, as well as Mascoma's ability to raise additional capital to fund its operational requirements.

In order to estimate the fair value of our investment in Mascoma, we assess the expected value of future liquidity events on a probability-weighted basis. Some of the more significant estimates and assumptions inherent in our valuation analysis include: the identification of likely future liquidity events based on available information; the amount and timing of the potential cash flows from the future liquidity events; and the weighting assigned to each future liquidity event based on the probability of each occurring. A change in any of these estimates and assumptions could produce a different fair value, which could have a material impact on our results of operations.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

For quantitative and qualitative disclosures about market risk, see Part II, Item 7A, "Quantitative and Qualitative Disclosures about Market Risk", of the Form 10-K. There have been no material changes to our exposures to market risks since December 29, 2012.

### **Item 4. Controls and Procedures**

#### *Evaluation of Disclosure Controls and Procedures*

Our management has established disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within time periods specified in the Securities and Exchange Commission's rules and forms. Such disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to its management to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of our disclosure controls and procedures (as such term is defined under Rule 13a-15(e) promulgated under the Exchange Act) as of the end of the period covered by this quarterly report. Based on this evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 29, 2013.

***Changes in Internal Control Over Financial Reporting***

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated whether any change in our internal control over financial reporting (as such term is defined under Rule 13a-15(f) promulgated under the Exchange Act) occurred during the quarter ended June 29, 2013. Based on that evaluation, management concluded that there were no changes in our internal control over financial reporting during the quarter ended June 29, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **PART II - OTHER INFORMATION**

### **Item 1. Legal Proceedings**

#### **Colorado Sun Oil Processing LLC dispute**

Colorado Mills, LLC ( Colorado Mills ) and SunOpta Grains and Foods Inc. (formally Sunrich LLC, herein Grains and Foods ), a wholly-owned subsidiary of the Company, organized a joint venture through Colorado Sun Oil Processing LLC ( CSOP ). The purpose of the joint venture was to construct and operate a vegetable oil refinery adjacent to Colorado Mills sunflower seed crush plant located in Lamar, Colorado. During the relationship, disputes arose between the parties concerning management of the joint venture, record-keeping practices, certain unauthorized expenses incurred on behalf of the joint venture by Colorado Mills, procurement of crude oil by Sunrich from Colorado Mills for processing at the joint venture refinery, and the contract price of crude oil offered for sale under an output term of the joint venture agreement.

The parties initiated a dispute resolution process as set forth in the joint venture agreement, which Colorado Mills aborted prematurely through the initiation of suit in Prowers County District Court, Colorado on March 16, 2010. Subsequent to the filing of that suit, Colorado Mills acted with an outside creditor of the joint venture to involuntarily place the joint venture into bankruptcy. In August 2011, as part of the bankruptcy proceeding initiated in June 2010 in the U.S. Bankruptcy Court, District of Colorado, Colorado Mills purchased substantially all of the assets of the joint venture.

A separate arbitration proceeding occurred between Grains and Foods and Colorado Mills to resolve direct claims each party asserted against the other. The case was arbitrated during the week of August 8, 2011 and proposed findings were filed on September 13, 2011. On January 4, 2012 the arbitrator entered an award denying Grains and Foods claims and awarding Colorado Mills \$4,816 for its breach of contract claim and \$430 for accrued interest. The Company subsequently filed a motion to vacate the arbitration award on March 30, 2012 in Prowers County District Court. Colorado Mills filed a response on April 20, 2012. The Company filed a reply on April 27, 2012. The Prowers County District Court denied the Company's motion and entered judgment on the arbitration award on July 6, 2012 in the amount of \$4,816. On July 13, 2012, the Company bonded the judgment in the amount of \$6,875, or approximately 125% of the judgment amount, to stay execution of the judgment pending the Company's filing of an appeal to the Colorado Court of Appeals.

On May 23, 2013, the Colorado Court of Appeals affirmed the judgment, and the Company petitioned for re-hearing. While the petition for re-hearing was pending, the parties settled the matter. In connection with the settlement, the Company paid Colorado Mills \$5,884 consisting of cash and equipment in use at CSOP. The Settlement was on a full and final basis, it formally concluded all extant business dealings between the parties, and ended all open litigation matters. As a result, all disputes between the parties have now been resolved.

From time to time, we are involved in litigation incident to the ordinary conduct of our business. For a discussion of other legal proceedings, see note 12 to the interim consolidated financial statements included under Part I, Item 1 of this Quarterly Report on Form 10-Q.

### **Item 1A. Risk Factors**

Certain risks associated with our operations are discussed in our Annual Report on Form 10-K for the year ended December 29, 2012. There have been no material changes to the previously-reported risk factors as of the date of this quarterly report. All of such previously reported risk factors continue to apply to our business and should be carefully reviewed in connection with an evaluation of our Company.
