HOME FEDERAL BANCORP, INC. OF LOUISIANA

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Accounting Policies

Basis of Presentation

The consolidated financial statements include the accounts of Home Federal Bancorp, Inc. of Louisiana (the “Company”) and its subsidiary, Home Federal Bank (the “Bank”). These consolidated financial statements were prepared in accordance with instructions for Form 10-Q and Regulation S-X and do not include information or footnotes necessary for a complete presentation of financial condition, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States of America. However, in the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the financial statements have been included. The results of operations for the three month period ended September 30, 2009, is not necessarily indicative of the results which may be expected for the fiscal year ending June 30, 2010.

The Company follows accounting standards set by the Financial Accounting Standards Board (the “FASB”). The FASB sets generally accepted accounting principles (“GAAP”) that we follow to ensure we consistently report our financial condition, results of operations and cash flows. References to GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification (the “Codification” or the “ASC”). The FASB established the Codification as the source of authoritative accounting principles effective for interim and annual periods ending on or after September 15, 2009. Prior FASB standards are no longer being referenced by the FASB, and the Company adopted the Codification as of September 30, 2009. The adoption did not have an impact on our financial position or results of operations.

In accordance with the subsequent events topic of the ASC, the Company evaluates events and transactions that occur after the balance sheet date for potential recognition in the financial statements. The effect of all subsequent events that provide additional evidence of conditions that existed at the balance sheet date are recognized in the financial statements as of September 30, 2009. In preparing these financial statements, the Company evaluated the events and transactions that occurred from September 30, 2009 through November 16, 2009, the date these financial statements were issued.

Use of Estimates

In preparing consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the Consolidated Statements of Financial Condition and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the allowance for loan losses.

Nature of Operations

On January 18, 2005, Home Federal Bank, formerly named Home Federal Savings and Loan Association, completed its reorganization to the mutual holding company form of organization and formed Home Federal Bancorp, Inc. of Louisiana (the “Company”) to serve as the stock holding company for the Bank. In connection with the reorganization, the Company sold 1,423,583 shares of its common stock in a subscription and community offering at a price of \$10.00 per share. The Company also issued 2,135,375 shares of common stock in the reorganization to Home Federal Mutual Holding Company of Louisiana, or 63.7% of our outstanding common stock at September 30, 2009. The Bank is a

federally chartered, stock savings and loan association and is subject to federal regulation by the Federal Deposit Insurance Corporation and the Office of Thrift Supervision. Services are provided to its customers by three banking offices and one agency office, all of which are located in the City of Shreveport, Louisiana. The area served by the Bank is primarily the Shreveport-Bossier City metropolitan area; however, loan and deposit customers are found dispersed in a wider geographical area covering much of northwest Louisiana.

HOME FEDERAL BANCORP, INC. OF LOUISIANA

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. Summary of Accounting Policies (continued)

Cash and Cash Equivalents

For purposes of the Consolidated Statements of Cash Flows, cash and cash equivalents include cash on hand, balances due from banks, and federal funds sold, all of which mature within ninety days.

Securities

The Company classifies its debt and equity investment securities into one of three categories: held-to-maturity, available-for-sale, or trading. Investments in nonmarketable equity securities and debt securities, in which the Company has the positive intent and ability to hold to maturity, are classified as held-to-maturity and carried at amortized cost. Investments in debt securities that are not classified as held-to-maturity and marketable equity securities that have readily determinable fair values are classified as either trading or available-for-sale securities. Securities that are acquired and held principally for the purpose of selling in the near term are classified as trading securities. Investments in securities not classified as trading or held-to-maturity are classified as available-for-sale.

Trading account and available-for-sale securities are carried at fair value. Unrealized holding gains and losses on trading securities are included in earnings while net unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported in other comprehensive income. Purchase premiums and discounts are recognized in interest income using the interest method over the term of the securities. Declines in the fair value of held-to-maturity and available-for-sale securities below their cost that are deemed to be other than temporary are reflected in earnings as realized losses. In estimating other-than-temporary impairment losses, management considers (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Bank to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method.

Loans Held For Sale

Loans originated and intended for sale in the secondary market are carried at the lower of cost or estimated fair value in the aggregate. Net unrealized losses, if any, are recognized through a valuation allowance by charges to income.

Loans

Loans receivable are stated at unpaid principal balances, less allowances for loan losses and unamortized deferred loan fees. Net nonrefundable fees (loan origination fees, commitment fees, discount points) and costs associated with lending activities are being deferred and subsequently amortized into income as an adjustment of yield on the related interest earning assets using the interest method. Interest income on contractual loans receivable is recognized on the accrual method. Unearned discount on property improvement and automobile loans is deferred and amortized on the interest method over the life of the loan.

Allowance for Loan Losses

The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of the underlying

HOME FEDERAL BANCORP, INC. OF LOUISIANA

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. Summary of Accounting Policies (continued)

Allowance for Loan Losses (continued)

collateral and prevailing economic conditions. The evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

A loan is considered impaired when, based on current information or events, it is probable that the Bank will be unable to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. When a loan is impaired, the measurement of such impairment is based upon the present value of expected future cash flows or the fair value of the collateral of the loan. If the the present value of expected future cash flows or fair value of the collateral is less than the recorded investment in the loan, the Bank will recognize the impairment by creating a valuation allowance with a corresponding charge against earnings.

An allowance is also established for uncollectible interest on loans classified as substandard. Loans are classified as substandard and placed on non-accrual status when they are in excess of ninety days delinquent. The allowance is established by a charge to interest income equal to all interest previously accrued and income is subsequently recognized only to the extent that cash payments are received. When, in management's judgment, the borrower's ability to make periodic interest and principal payments is back to normal, the loan is returned to accrual status.

It should be understood that estimates of future loan losses involve an exercise of judgment. While it is possible that in particular periods, the Company may sustain losses, which are substantial relative to the allowance for loan losses, it is the judgment of management that the allowance for loan losses reflected in the accompanying statements of condition is adequate to absorb possible losses in the existing loan portfolio.

Off-Balance Sheet Credit Related Financial Instruments

In the ordinary course of business, the Bank has entered into commitments to extend credit. Such financial instruments are recorded when they are funded.

Foreclosed Assets

Assets acquired through, or in lieu of, loan foreclosure are held-for-sale and are transferred to other real estate owned at the lower of cost or current fair value minus estimated cost to sell as of the date of foreclosure. Cost is defined as the lower of the fair value of the property or the recorded investment in the loan. Subsequent to foreclosure, valuations are periodically performed by management and the assets are carried at the lower of carrying amount or fair value less cost to sell.

Premises and Equipment

Land is carried at cost. Buildings and equipment are carried at cost less accumulated depreciation computed on the straight-line method over the estimated useful lives of the assets.

Income Taxes

The Company and its wholly-owned subsidiary file a consolidated Federal income tax return on a fiscal year basis. Each entity will pay its pro-rata share of income taxes in accordance with a written tax-sharing agreement.

The Company accounts for income taxes on the asset and liability method. Deferred tax assets and liabilities are recorded based on the difference between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, computed using enacted tax rates. A valuation allowance, if needed, reduces deferred tax assets to the expected amount most likely to be realized. Realization of deferred tax assets is dependent upon the generation of a sufficient level of future taxable income and recoverable taxes paid in prior years. Although realization is not assured, management believes it is more likely than not that all of the deferred tax assets will be realized. Current taxes are measured by applying the provisions of enacted tax laws to taxable income to determine the amount of taxes receivable or payable.

HOME FEDERAL BANCORP, INC. OF LOUISIANA

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. Summary of Accounting Policies (continued)

Income Taxes (continued)

While the Bank is exempt from Louisiana income tax, it is subject to the Louisiana Ad Valorem Tax, commonly referred to as the Louisiana Shares Tax, which is based on stockholders' equity and net income.

Comprehensive Income

Accounting principles generally accepted in the United States of America require that recognized revenue, expenses, gains and losses be included in net income. Although certain changes in assets and liabilities, such as unrealized gains and losses on available-for-sale securities, are reported as a separate component of the equity section of the Consolidated Statements of Financial Condition, such items, along with net income, are components of comprehensive income.

2. Earnings Per Share

Basic earnings per common share are computed based on the weighted average number of shares outstanding. Diluted earnings per share is computed based on the weighted average number of shares outstanding and common share equivalents that would arise from the exercise of dilutive securities. Earnings per share for the three months ended September 30, 2009 and 2008 were calculated as follows:

	Three Months Ended September 30, 2009		Three Months Ended September 30, 2008	
	Basic	Diluted	Basic	Diluted
Net income	\$251,750	\$251,750	\$108,607	\$108,607
Weighted average shares outstanding	3,258,307	3,258,307	3,253,877	3,253,877
Effect of unvested common stock awards	--	--	--	--
Adjusted weighted average shares used in earnings per share computation	3,258,307	3,258,307	3,253,877	3,253,877
Earnings per share	\$.08	\$.08	\$.03	\$.03

For the three months ended September 30, 2009 and 2008, there were outstanding options to purchase 158,134 and 169,982 shares, respectively, at \$9.85 per share. For the quarter ended September 30, 2009, the options were not included in the computation of diluted earnings per share because the options' exercise price was greater than the average market value price of the common shares during the period.

3. Recognition and Retention Plan

On August 10, 2005, the shareholders of the Company approved the establishment of the Home Federal Bancorp, Inc. of Louisiana 2005 Recognition and Retention Plan and Trust Agreement (the "Recognition Plan") as an incentive to retain personnel of experience and ability in key positions. The aggregate number of shares of the Company's common stock subject to award under the Recognition Plan totaled 69,756 shares. As the shares were acquired for the

Recognition Plan, the purchase price of these shares was recorded as a contra equity account. As the shares are distributed, the contra equity account is reduced. During the quarter ended September 30, 2009, 12,611 shares vested and were released from the Recognition Plan Trust and 14,893 shares remained in the Recognition Plan Trust at September 30, 2009.

Recognition Plan shares are earned by recipients at a rate of 20% of the aggregate number of shares covered by the Recognition Plan award over five years. Generally, if the employment of an employee or service as a non-employee

HOME FEDERAL BANCORP, INC. OF LOUISIANA

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

3. Recognition and Retention Plan (continued)

director is terminated prior to the fifth anniversary of the date of grant of Recognition Plan share award, the recipient shall forfeit the right to any shares subject to the award that have not been earned. In the case of death or disability of the recipient or a change in control of the Company, the Recognition Plan awards will be vested and shall be distributed as soon as practicable thereafter.

The present cost associated with the Recognition Plan is based on a share price of \$9.85, which represents the market price of the Company's stock on August 18, 2005, the date on which the Recognition Plan shares were granted. The cost is being recognized over five years.

4. Stock Option Plan

On August 10, 2005, the shareholders of the Company approved the establishment of the Home Federal Bancorp, Inc. of Louisiana 2005 Stock Option Plan (the "Option Plan") for the benefit of directors, officers, and other key employees. The aggregate number of shares of common stock reserved for issuance under the Option Plan totaled 174,389. Both incentive stock options and non-qualified stock options may be granted under the Option Plan.

On August 18, 2005, the Company granted 174,389 options to directors and employees. Under the Option Plan, the exercise price of each option cannot be less than the fair market value of the underlying common stock as of the date of the option grant, which was \$9.85, and the maximum term is ten years. Incentive stock options and non-qualified stock options granted under the Option Plan become vested and exercisable at a rate of 20% per year over five years, commencing one year from the date of the grant, with an additional 20% vesting on each successive anniversary of the date the option was granted. No vesting shall occur after an employee's employment or service as a director is terminated. As of September 30, 2009, 16,255 stock options had been forfeited and are available for future grant. In the event of the death or disability of an employee or director or change in control of the Company, the unvested options shall become vested and exercisable. The Company accounts for the Option Plan under the guidance of FASB ASC Topic 718, Compensation – Stock Compensation.

5. Fair Value Accounting

On July 1, 2008, the Company adopted SFAS No. 157, Fair Value Measurement, now codified in FASB ASC Topic 820, Fair Value Measurements and Disclosures ("ASC 820"). ASC 820 affirms a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 was issued to establish a uniform definition of fair value. The definition of fair value is market-based as opposed to company-specific, and includes the following:

- § Defines fair value as the price that would be received to sell an asset or paid to transfer a liability, in either case, through an orderly transaction between market participants at a measurement date and establishes a framework for measuring fair value;
- § Establishes a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date;
- § Nullifies the guidance in EITF 02-3, which required the deferral of profit at inception of a transaction involving a derivative financial instrument in the absence of observable data supporting the valuation technique;

§ Eliminates large position discounts for financial instruments quoted in active markets and requires consideration of the company's creditworthiness when valuing liabilities; and

§ Expands disclosures about instrument that are measured at fair value.

HOME FEDERAL BANCORP, INC. OF LOUISIANA

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

5.Fair Value Accounting (continued)

ASC 820 establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy favors the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

- § Level 1 – Fair value is based upon quoted prices (unadjusted) for identical assets or liabilities in active markets in which the Company can participate.
- § Level 2 – Fair value is based upon (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active, that is, markets in which there are few transactions for the asset or liability, the prices are not current, or price quotations vary substantially either over time or among market makers, or in which little information is released publicly; (c) inputs other than quoted prices that are observable for the asset or liability or (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- § Level 3 – Fair value is based upon inputs that are unobservable for the asset or liability. These inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). These inputs are developed based on the best information available in the circumstances, which include the Company's own data. The Company's own data used to develop unobservable inputs are adjusted if information indicates that market participants would use different assumptions.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Fair values of assets and liabilities measured on a recurring basis at September 30, 2009 and June 30, 2009 are as follows:

September 30, 2009

	Fair Value Measurements Using:		Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	
Available-for-Sale			
Debt Securities	\$ --	\$ 86,641	\$ 86,641
Equity Securities	1,785	--	1,785
Total	\$ 1,785	\$ 86,641	\$ 88,426

June 30, 2009

	Fair Value Measurements Using:		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Total
Available-for-Sale			
Debt Securities	\$ --	\$ 90,920	\$ 90,920
Equity Securities	1,727	--	1,727
Total	\$ 1,727	\$ 90,920	\$ 92,647

HOME FEDERAL BANCORP, INC. OF LOUISIANA

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

6. Recent Accounting Pronouncements

In June 2009, the FASB issued Statement of Financial Accounting Standards (“SFAS”) No. 166, Accounting for Transfers of Financial Assets, an amendment of FASB Statement No. 140 (“SFAS 166”). This statement is not yet included in the codification, but will impact ASC 860, Transfers and Servicing. This statement prescribes the information that a reporting entity must provide in its financial reports about a transfer of financial assets; the effects of a transfer on its financial position, financial performance and cash flows; and a transferor’s continuing involvement in transferred financial assets. Specifically, among other aspects, SFAS 166 amends Statement of Financial Standard No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, or SFAS 140, by removing the concept of a qualifying special-purpose entity from SFAS 140 and removes the exception from applying FIN 46(R) to variable interest entities that are qualifying special-purpose entities. It also modifies the financial-components approach used in SFAS 140. SFAS 166 is effective for fiscal years beginning after November 15, 2009. The Company is continuing to evaluate the impact that this pronouncement will have on our consolidated financial position and results of operations.

In June 2009, the FASB issued SFAS No. 167, Amendments to FASB Interpretation No. 46(R) (“SFAS 167”). This statement is not yet included in the codification, but will impact ASC 810, Consolidation. This statement amends FASB Interpretation No. 46, Consolidation of Variable Interest Entities (revised December 2003) — an interpretation of ARB No. 51, or FIN 46(R), to require an enterprise to determine whether its variable interest or interests give it a controlling financial interest in a variable interest entity. The primary beneficiary of a variable interest entity is the enterprise that has both (1) the power to direct the activities of a variable interest entity that most significantly impact the entity’s economic performance and (2) the obligation to absorb losses of the entity that could potentially be significant to the variable interest entity or the right to receive benefits from the entity that could potentially be significant to the variable interest entity. SFAS 167 also amends FIN 46(R) to require ongoing reassessments of whether an enterprise is the primary beneficiary of a variable interest entity. SFAS 167 is effective for fiscal years beginning after November 15, 2009. The Company is continuing to evaluate the impact that this pronouncement will have on our consolidated financial position and results of operations.

In August 2009, the FASB issues Accounting Standards Update (“ASU”) 2009-05, Fair Value Measurements and Disclosures, which updates ASC 820, Fair Value Measurements and Disclosures. The updated guidance affirms that the objective of fair value when the market for an asset is not active is the price that would be received to sell the asset in an orderly transaction and clarifies and includes additional factors for determining whether there has been a significant decrease in market activity for an asset when the market for that asset is not active. It also requires an entity to base its conclusion about whether a transaction was not orderly on the weight of the evidence. This guidance is effective beginning October 1, 2009. The Company does not expect that the guidance will have a significant impact on our financial position or results of operations.

The above pronouncements are not expected to have a significant impact on the consolidated financial statements of the Company.

HOME FEDERAL BANCORP, INC. OF LOUISIANA

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

The Company was formed by the Bank in connection with the Bank's reorganization and commenced operations on January 18, 2005. The Company's results of operations are primarily dependent on the results of the Bank, which became a wholly owned subsidiary upon completion of the reorganization. The Bank's results of operations depend, to a large extent, on net interest income, which is the difference between the income earned on its loan and investment portfolios and the cost of funds, consisting of the interest paid on deposits and borrowings. Results of operations are also affected by provisions for loan losses and loan sale activities. Non-interest expense principally consists of compensation and employee benefits, office occupancy and equipment expense, data processing and other expense. Our results of operations are also significantly affected by general economic and competitive conditions, particularly changes in interest rates, government policies and actions of regulatory authorities. Future changes in applicable law, regulations or government policies may materially impact our financial conditions and results of operations.

Critical Accounting Policies

Allowance for Loan Losses. The Company has identified the calculation of the allowance for loan losses as a critical accounting policy, due to the higher degree of judgment and complexity than its other significant accounting policies. Provisions for loan losses are based upon management's periodic valuation and assessment of the overall loan portfolio and the underlying collateral, trends in non-performing loans, current economic conditions and other relevant factors in order to maintain the allowance for loan losses at a level believed by management to represent all known and inherent losses in the portfolio that are both probable and reasonably estimable. Although management uses the best information available, the level of the allowance for loan losses remains an estimate which is subject to significant judgment and short-term change.

Income Taxes. Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax bases of the various assets and liabilities and gives current recognition to changes in tax rates and laws. The realization of our deferred tax assets principally depends upon our achieving projected future taxable income. We may change our judgments regarding future profitability due to future market conditions and other factors. We may adjust our deferred tax asset balances if our judgments change.

Discussion of Financial Condition Changes from June 30, 2009 to September 30, 2009

At September 30, 2009, total assets amounted to \$161.7 million compared to \$154.8 million at June 30, 2009, an increase of approximately \$7.0 million, or 4.5%. This increase was primarily due to an increase in loans receivable, net, of \$15.6 million, or 33.2%, partially offset by a decrease in the Company's investment and mortgage-backed securities available-for-sale and held-to-maturity of \$4.2 million, or 4.5%, and a decrease in cash and cash equivalents of \$4.0 million, or 39.5%.

The increase in loans was primarily due to the origination of new loans by the commercial lending department. The decrease in securities was caused by normal principal paydowns amounting to \$5.6 million, partially offset by an increase in the fair value of the securities of \$1.4 million.

The Company's total liabilities amounted to \$129.5 million at September 30, 2009, an increase of approximately \$6.0 million, or 4.9%, compared to total liabilities of \$123.5 million at June 30, 2009. The primary reason for the increase in liabilities was due to an increase in deposits of \$3.5 million, or 4.1% and \$2.0 million, or 5.6%, increase in advances from the Federal Home Loan Bank.

Stockholders' equity increased \$950,000, or 3.0%, to \$32.3 million at September 30, 2009 compared to \$31.3 million at June 30, 2009. This increase was primarily the result of the change in the Company's Accumulated Other Comprehensive Income associated with unrealized gain on securities available-for-sale of \$818,000, the recognition of net income of \$252,000 for the three months ended September 30, 2009, and the distribution of shares associated with the Company's Recognition Plan of \$124,000. These increases were offset by dividends of \$74,000 paid during the quarter ended September 30, 2009, and the acquisition of treasury shares of \$195,000.

HOME FEDERAL BANCORP, INC. OF LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

The Bank is required to meet minimum capital standards promulgated by the Office of Thrift Supervision ("OTS"). At September 30, 2009, Home Federal Bank's regulatory capital was well in excess of the minimum capital requirements.

Comparison of Operating Results for the Three Month Periods Ended September 30, 2009 and 2008

General

Net income amounted to \$252,000 for the three months ended September 30, 2009 compared to \$109,000 for the same period in 2008, an increase of \$143,000, or 131.2%. The increase was primarily due to an increase in net interest income of \$411,000, or 47.2%, partially offset by an increase in non interest expense of \$205,000, or 27.4%. The increase in non interest expense was caused primarily by an increase in compensation and benefits, occupancy and equipment, and general operating expenses, partially offset by a decrease in non-recurring conversion and merger costs incurred in the prior year three month period in connection with our proposed second step conversion and acquisition of a local financial institution which was terminated in August 2008.

Net Interest Income

Net interest income for the three months ended September 30, 2009, was approximately \$1.3 million, an increase of \$411,000 in comparison to \$870,000 for the three months ended September 30, 2008. This increase was primarily due to an increase of \$511,000 in interest income and fees on loans, and a decrease of \$96,000 in interest expense paid on deposits, partially offset by a decrease of \$171,000 in interest income from mortgage-backed and investment securities and other interest earning assets. Interest paid on deposits decreased \$96,000, or 14.2%, due to the decline in interest rates paid on deposits which offset the increase in average balance of deposits for the period ended September 30, 2009, as compared to the prior year period. Interest paid on Federal Home Loan Bank borrowings increased \$25,000, or 8.2%, compared to the three month period ended September 30, 2008.

The Company's average interest rate spread was 2.50% for the three months ended September 30, 2009, compared to 1.69% for the three months ended September 30, 2008. The Company's net interest margin was 3.04% for the three months ended September 30, 2009, compared to 2.56% for the three months ended September 30, 2008. The increase in net interest income and net interest margin is attributable primarily to the increase in commercial loans, in conjunction with a net decrease in cost associated with deposits and advances from the Federal Home Loan Bank.

Provision for Losses on Loans

Based on an analysis of historical experience, the volume and type of lending conducted by the Bank, the status of past due principal and interest payments, general economic conditions, particularly as such conditions relate to the Bank's market area, the volume in the loan portfolio and other factors related to the collectibility of the Bank's loan portfolio, no provisions for loan losses were made during the three months ended September 30, 2009 or 2008. The Bank's allowance for loan losses was \$453,000, or approximately 0.7% of total loans, at September 30, 2009 and \$231,000, or approximately 0.8% of total loans, at September 30, 2008. The Bank had one non-performing loan at September 30, 2009, amounting to \$15,000. The Bank did not have any non-performing loans at September 30, 2008. There can be no assurance that the loan loss allowance will be sufficient to cover losses on non-performing assets in the future.

HOME FEDERAL BANCORP, INC. OF LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

Non-interest Income

Total non-interest income amounted to \$54,000 for the three months ended September 30, 2009, compared to \$43,000 for the same period in 2008. The increase was primarily due to an increase of \$44,000 in gain on sale of loans partially offset by a decrease in gain on sale of investments amounting to \$33,000 as there was no gain reported in the September 30, 2009 quarter.

Non-interest Expense

Total non-interest expense increased \$205,000, or 27.4%, for the three months ended September 30, 2009 compared to the prior year period. The increase was primarily due to an increase in compensation and benefits expense of \$215,000, or 54.2%, an increase in occupancy and equipment costs of \$47,000, or 102.2%, and an increase of \$75,000, or 55.6%, in all other non-interest expenses. These increases were partially offset by a \$132,000 decrease in non-recurring conversion and merger costs incurred during the prior year three month period as discussed above.

The increase in compensation and benefits expenses was a result of additional personnel hires related to the Company's growth, including the hiring of officers in connection with the commencement of commercial lending activities, and normal compensation increases including Stock Options and Recognition and Retention Plan expenses. Compensation expense recognized by the Company for its Stock Option and Recognition and Retention Plans amounted to \$14,000 and \$31,000, respectively, for the three months ended September 30, 2009, and \$15,000 and \$32,000, respectively, for the three months ended September 30, 2008.

Effective January 1, 2006, the Company, through its subsidiary Home Federal Bank, became subject to the Louisiana bank shares tax. This tax is assessed on the Bank's equity and earnings. For the three months ended September 30, 2009 and 2008, the Company recognized expense of \$36,000 pertaining to bank shares tax assessment.

Income Taxes

Income taxes amounted to \$130,000 and \$56,000 for the three months ended September 30, 2009 and 2008, respectively, resulting in an effective tax rate of 34% for both periods. The increase in income taxes for the three months ended September 30, 2009, was due to increased income before income taxes.

Liquidity and Capital Resources

Home Federal Bank maintains levels of liquid assets deemed adequate by management. The Bank adjusts its liquidity levels to fund deposit outflows, repay its borrowings and to fund loan commitments. Home Federal Bank also adjusts liquidity as appropriate to meet asset and liability management objectives.

Home Federal Bank's primary sources of funds are deposits, amortization and prepayment of loans and mortgage-backed securities, maturities of investment securities and other short-term investments, loan sales and earnings and funds provided from operations. While scheduled principal repayments on loans and mortgage-backed securities are a relatively predictable source of funds, deposit flows and loan prepayments are greatly influenced by general interest rates, economic conditions and competition. The Bank sets the interest rates on its deposits to maintain a desired level of total deposits. In addition, Home Federal Bank invests excess funds in short-term

interest-earning accounts and other assets, which provide liquidity to meet lending requirements. Home Federal Bank's deposit accounts with the Federal Home Loan Bank of Dallas amounted to \$2.5 million at September 30, 2009.

A significant portion of Home Federal Bank's liquidity consists of securities classified as available-for-sale and cash and cash equivalents. Home Federal Bank's primary sources of cash are net income, principal repayments on loans and mortgage-backed securities and increases in deposit accounts. If Home Federal Bank requires funds beyond its ability to generate them internally, borrowing agreements exist with the Federal Home Loan Bank of Dallas which provides an additional source of funds. At September 30, 2009, Home Federal Bank had \$38.0 million in advances from the Federal Home Loan Bank of Dallas.

HOME FEDERAL BANCORP, INC. OF LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

At September 30, 2009, Home Federal Bank had outstanding loan commitments of \$11.5 million to originate loans. At September 30, 2009, certificates of deposit scheduled to mature in less than one year, totaled \$43.6 million.

Based on prior experience, management believes that a significant portion of such deposits will remain with us, although there can be no assurance that this will be the case. In addition, the cost of such deposits could be significantly higher upon renewal, in a rising interest rate environment. Home Federal Bank intends to utilize its high levels of liquidity to fund its lending activities. If additional funds are required to fund lending activities, Home Federal Bank intends to sell its securities classified as available-for-sale as needed.

Home Federal Bank is required to maintain regulatory capital sufficient to meet tangible, core and risk-based capital ratios of at least 1.5%, 3.0% and 8.0%, respectively. At September 30, 2009, Home Federal Bank exceeded each of its capital requirements with ratios of 18.41%, 18.41% and 48.69%, respectively.

Off-Balance Sheet Arrangements

At September 30, 2009, the Bank did not have any off-balance sheet arrangements, as defined by Securities and Exchange Commission rules.

Impact of Inflation and Changing Prices

The financial statements and related financial data presented herein have been prepared in accordance with instructions to Form 10-Q, which require the measurement of financial position and operating results in terms of historical dollars, without considering changes in relative purchasing power over time due to inflation.

Unlike most industrial companies, virtually all of the Company's assets and liabilities are monetary in nature. As a result, interest rates generally have a more significant impact on a financial institution's performance than does the effect of inflation.

Forward-Looking Statements

This Form 10-Q contains certain forward-looking statements and information relating to the Company that are based on the beliefs of management as well as assumptions made by and information currently available to management. In addition, in those and other portions of this document, the words "anticipate," "believe," "estimate," "except," "intend," "should" and similar expressions, or the negative thereof, as they relate to the Company or the Company's management, are intended to identify forward-looking statements. Such statements reflect the current views of the Company with respect to future looking events and are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize or should underlying assumptions prove incorrect, actual results may vary from those described herein as anticipated, believed, estimated, expected or intended. The Company does not intend to update these forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

See Item 4T below.

ITEM 4T. CONTROLS AND PROCEDURES

Evaluation of Disclosures Controls and Procedures. Under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934, is recorded, processed, summarized and reported within the applicable time periods specified by the Securities and Exchange Commission's rules and forms.

Changes in Internal Control over Financial Reporting. There has been no change in the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

The Company is not involved in any pending legal proceedings other than routine legal proceedings occurring in the ordinary course of business, which involve amounts in the aggregate believed by management to be immaterial to the financial condition of the Company.

ITEM 1A. RISK FACTORS

Not applicable.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) Not applicable.

(b) Not applicable.

(c) Purchases of Equity Securities

The following table represents the repurchasing activity of the stock repurchase program during the first quarter of fiscal 2010:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
Month #1 July 1, 2009 – July 31, 2009	--	\$--	--	118,864
Month #2 August 1, 2009 – August 31, 2009	3,734	8.00	3,734	115,130
Month #3 September 1, 2009 – September 30, 2009	20,000	8.25	20,000	95,130
Total	23,734	\$8.21	23,734	95,130

Notes to this table:

(a) On August 26, 2008, the Company issued a press release announcing that the Board of Directors authorized a stock repurchase program (the "program") on August 13, 2008.

(b) The Company was authorized to repurchase 10% or 125,000 of the outstanding shares other than shares held by Home Federal Mutual Holding Company.

(c) The program does not have an expiration date.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable.

ITEM 5. OTHER INFORMATION

Not applicable.

ITEM 6. EXHIBITS

The following Exhibits are filed as part of this report:
