SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-QSB

[X] Quarterly Report Pursuant to Section 13 or 15(d) of the Securities
Exchange Act of 1934

For the quarterly period ended September 30, 2005

COMMISSION FILE NUMBER: 0-12227

SUTRON CORPORATION

(Name of small business issuer as specified in its charter)

VIRGINIA

54-1006352

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification Number)

21300 RIDGETOP CIRCLE, STERLING, VIRGINIA 20166

(Address of principal executive offices)

703-406-2800

(Issuer's telephone number)

Securities registered under Section 12(g) of the Act:

COMMON STOCK, \$0.01 PAR VALUE

(Title of class)

Check whether the issuer: (1) filed all reports required to be filed by Section
13 or 15(d) of the Securities Exchange Act of 1934 during the past 12 months (or
for such shorter period that the issuer was required to file such reports); and
(2) has been subject to such filing requirements for the past 90 days.
Yes [X] No []

Edgar Filing: SUTRON CORP - Form 10QSB

There were 4,289,551 outstanding shares of the issuer's only class of common equity, Common Stock, \$0.01 par value, on November 14, 2005.

SUTRON CORPORATION NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2005

1. BASIS OF PRESENTATION

The accompanying financial statements, which should be read in conjunction with the financial statements of Sutron Corporation ("the Company") included in the 2004 Annual Report filed on Form 10-KSB, are unaudited but have been prepared in the ordinary course of business for the purpose of providing information with respect to the interim period. The Company believes that all adjustments (none of which were other than normal recurring accruals) necessary for a fair presentation for such periods have been included.

2. EARNINGS PER SHARE

The Company has adopted Statement of Financial Accounting Standards ("SFAS") No. 128 which establishes standards for computing and presenting earnings per share (EPS) for entities with publicly held common stock. The standard requires presentation of two categories of earning per share, basic EPS and diluted EPS. Basic EPS excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the year. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company.

	COMPUTATION OF PER SHARE EARNINGS THREE MONTHS ENDED SEPTEMBER 30,	
	2005	2004
	-----	-----
BASIC EPS:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS ----- OF OPERATIONS -----

Statements made in this Report on Form 10-QSB, including without limitation this Management's Discussion and Analysis of Financial Condition and Operations, other than statements of historical information, are forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements may sometimes be identified by such words as "may," "will," "expect," "anticipate," "believe," "estimate" and "continue" or similar words. We believe that it is important to communicate our future expectations to investors. However, these forward-looking statements involve many risks and uncertainties. Our actual results could differ materially from those indicated in such forward-looking statements as a result of certain factors. We are under no duty to update any of the forward-looking statements after the date of this Report on Form 10-QSB to conform these statements to actual results.

Sutron Corporation (the Company) was incorporated on December 30, 1975 under the General Laws of the Commonwealth of Virginia. The Company's headquarters is located at 21300 Ridgetop Circle, Sterling, Virginia 20166, and the Company's telephone number at that location is (703) 406-2800. The Company maintains a worldwide web address at www.sutron.com. The Company designs, manufactures and markets products and solutions that enable government and commercial entities to monitor and collect hydrological and meteorological data for the management of critical water resources, for early warning of potentially disastrous floods or storms and for the optimization of hydropower plants.

The Company is focused on providing real-time solutions and services to our customers in three areas of the hydrological and meteorological markets. First, we provide real-time data collection and control products consisting primarily of dataloggers, satellite transmitters/loggers and sensors. Second, we provide turnkey integrated systems for hydrological and meteorological networks and airport weather systems. Third, we provide site installation, equipment maintenance, flow monitoring, science and other related engineering services in support of our customers. The Company's customers include a diversified base of federal, state, local and foreign governments, engineering companies, universities, and hydropower companies.

The Company utilizes the accrual method of accounting for both financial statement and tax reporting purposes. The Company recognizes revenue from product sales upon shipment. Selling, general, and administrative expenses are charged against periodic income as incurred. Revenue from fixed-price contracts is recognized on the percentage-of-completion method based on costs incurred in relation to total estimated costs. Revenue from time-and-materials contracts is recognized to the extent of billable rates, times hours delivered, plus materials costs incurred. Contract costs include allocated indirect costs. Anticipated losses are recognized as soon as they become known.

Our revenue and operating results are subject to substantial variations based on our customers' expenditures and the frequency with which we are chosen to perform services for our customers. Revenue from any given customer will vary from period to period. Our gross margins are affected by the product mix and can

Edgar Filing: SUTRON CORP - Form 10QSB

vary substantially based on quantities and contract requirements.

7

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our financial statements and notes thereto and the other financial information included elsewhere in this Report on Form 10-QSB.

RESULTS OF OPERATIONS

THREE MONTHS ENDED SEPTEMBER 30, 2005 COMPARED TO THREE MONTHS ENDED SEPTEMBER 30, 2004

The following table sets forth for the periods indicated the percentage of total revenues represented by certain items reflected in our statements of operations:

	Three Months Ended September 30,	
	2005	2004
Revenues	100.0%	100.0%
Cost of sales	61.5	62.0
Gross profit	38.5	38.0
Selling, general and administrative expenses	17.9	12.4
Research and Development expenses	9.0	5.0
Operating income	11.6	20.6
Interest income (expense)	.2	--
Income before income taxes	11.8	20.6
Income taxes (benefit)	4.1	7.4
Net income	7.7%	13.2%

The Company's revenues for the three months ended September 30, 2005 decreased 27% to \$3,512,443 from \$4,813,906 in 2004. The Company had record revenue in the third quarter of 2004 due to the completion of a significant project in Poland in the third quarter of 2004 and the near completion of a project with Hanscom Air Force Base. Combined revenue in the third quarter of 2004 for these projects was approximately \$1,536,000. The Company had hoped to replace these projects in 2005 and had expected to receive two large international contracts earlier in 2005. These contracts are still in the process of negotiation and review. The Company does expect to receive the contracts in the next several months and has increased its inventory levels in anticipation of the awards. The Company's business is significantly influenced by large projects that require government approvals; however, the timing of the awards is difficult to project. No assurances can be made that the contracts will be received during the next several months.

Company revenues are broken down between the Company's operating divisions or profit centers which include the HydroMet Products Division, the Integrated Services Division which includes Special Projects and the Company's India Branch Office, the Hydrological Services Division and the Airport Weather Systems Division. The HydroMet Products Division, which is responsible for sales of standard products, had a revenue decrease of 33.3% to \$2,057,765 from \$3,085,715

Edgar Filing: SUTRON CORP - Form 10QSB

in 2004. In the third quarter of 2004, the Company shipped approximately \$836,000 of dataloggers and sensors to a Canadian consortium for a project in Poland and approximately \$700,000 of FMQ-13(v)2 Wind Sensor

8

systems to Hanscom Air Force Base. The decrease in project shipments was partially offset by increased shipments of NOS tides systems. Integrated Systems revenues decreased 49.5% to \$476,613 from \$962,466 in 2004 due to a decrease in project deliveries. Revenues from the Hydrological Services Division increased to \$768,436 from \$765,726 in 2004. Airport Weather Systems had third quarter revenues in 2005 of \$209,631 due to deliveries of airport weather systems to two international customers as compared to none in 2004.

Overall domestic revenues decreased 17.7% to \$3,013,226 in the third quarter of 2005 versus \$3,661,670 in 2004 while international revenues decreased 57% to \$499,217 in 2005 versus \$1,152,236 in 2004. Customer orders or bookings for the third quarter of 2005 were \$5,746,875 as compared to \$6,112,134 in the third quarter of 2004. The Company did receive orders during the third quarter of 2005 for 820 SatLink2 Transmitter/Loggers, 50 NOS main tides systems and 50 NOS redundant tides systems, which products carry high margins. Due to many orders coming in the latter part of the third quarter and due to the mix of products ordered, the Company was unable to increase third quarter shipments accordingly. The Company does expect strong fourth quarter revenues as a result of the buildup in backlog

Cost of sales as a percentage of revenues was 61.5% for the quarter ended September 30, 2005 as compared to 62% for the quarter ended September 30, 2004. The decrease in cost of sales reflects improvements in manufacturing efficiencies as well as changes in the product mix. Cost of sales for both 2005 and 2004 include provisions for inventory obsolescence, physical inventory adjustments and inventory valuation adjustments. Cost of sales includes \$28,413 of estimated profit sharing expenses in 2005 as compared to \$0 in 2004. The Company continually pursues product cost reductions through continual review of procurement sourcing based on quality and cost goals, product value engineering and improvements in manufacturing processes.

Selling, general and administrative expenses increased to \$630,132 in 2005 from \$596,308 in 2004, an increase of \$33,824 or 5.7%. The Company experienced increases primarily in selling and marketing activities that were partially offset by a decrease of approximately \$34,000 in international agent commissions. The Company also recorded expenses totaling approximately \$12,300 for the estimated profit sharing contribution for 2005 that is reflected in selling, general and administrative expenses as compared to \$0 in 2004.

Research and development expenses increased to \$316,016 in 2005 from \$241,871 in 2004, an increase of \$74,145 or 30.7%. In 2005, the Company has sourced significant work to a subcontractor for work on next generation datalogger products. In 2004, significant engineering labor was performed on several contracts that was direct billable work versus R&D engineering work. This contributed to the lower R&D expenses in 2004 as well.

Due to the Company's cash position, the Company did not use its line of credit during the third quarter of 2005. The Company had interest income in 2005 of \$6,040 as compared with interest expenses of \$4,154 in 2004.

Income taxes decreased 60% in 2005 to \$143,000 from \$354,000 in 2004 due to the decrease in operating income. Taxes as a percentage of revenue were 4.1% in 2005 as compared to 7.4% in 2004. The provisions for income taxes represent effective tax rates of approximately 35% in 2005 and 36% in 2004, respectively.

Edgar Filing: SUTRON CORP - Form 10QSB

NINE MONTHS ENDED SEPTEMBER 30, 2005 COMPARED TO NINE MONTHS ENDED SEPTEMBER 30, 2004

The following table sets forth for the periods indicated the percentage of total revenues represented by certain items reflected in our statements of operations:

	Nine Months Ended September 30,	
	2005	2004
Revenues	100.0%	100.0%
Cost of sales	59.6	61.4
Gross profit	40.4	38.6
Selling, general and administrative expenses	19.3	13.6
Research and Development expenses	9.5	5.9
Operating income	11.6	19.2
Interest income (expense)	.1	(.2)
Income before income taxes	11.7	19.0
Income taxes (benefit)	4.2	6.8
Net income	7.5%	12.2%

The Company's revenues for the nine months ended September 30, 2005 decreased 16.3% to \$10,564,260 from \$12,614,975 in 2004. The Company had record revenue for the first nine months in 2004 due to the completion of a \$2.5 million project in Poland and the substantial completion a \$1.5 million project with Hanscom Air Force Base. The Company had hoped to replace these projects in 2005 and had expected to receive two large international contracts earlier in 2005. These contracts are still in the process of negotiation and review. The Company does expect to receive the contracts in the next several months and has increased its inventory levels in anticipation of the awards. The Company's business is significantly influenced by large projects that require government approvals; however, the timing of the awards is difficult to project. No assurances can be made that the contracts will be received during the next several months.

The HydroMet Products Division had a revenue decrease of 26.8% to \$5,862,766 from \$8,010,631 in 2004. The decrease in revenue is due to the completion in 2004 of the Poland project and near completion of the Hanscom Air Force Base project. The projects revenue decrease was partially offset by increased revenue from NOS tides systems and SatLink2 transmitters/loggers. Integrated Systems revenues decreased 27.8% to \$2,131,410 from \$2,949,436 in 2004 due to decreased international project deliveries. Revenues from the Hydrological Services Division increased 21.8% to \$2,005,766 from \$1,646,509 in 2004 due to increased contract awards primarily from the South Florida Water Management District. Airport Weather Systems' revenues increased to \$564,318 in 2005 as compared to \$8,400 in 2004 due to deliveries of systems to international customers.

Overall domestic revenues decreased 6% to \$7,703,901 in 2005 versus \$8,196,668 in 2004 while international revenues decreased 35.3% to \$2,860,359 in 2005 versus \$4,418,308 in 2004. Customer orders or bookings for 2005 were \$11,915,566 as compared to \$15,023,747 in 2004. The Company's backlog of orders at September 30, 2005 was \$6,972,274 as compared with \$6,837,725 as of

September 30, 2004. The Company anticipates that 63% of its backlog as of September 30, 2005 will be shipped in 2005.

Cost of sales as a percentage of revenues was 59.6% in 2005 as compared to 61.4% in 2004. The sales volume decrease was offset by improvements in manufacturing efficiencies and the mix of products sold. Cost of sales for both 2005 and 2004 include provisions for inventory obsolescence, physical inventory adjustments and inventory valuation adjustments. Cost of sales includes \$66,802 of estimated profit sharing expenses in 2005 as compared to \$0 in 2004. The Company continually pursues product cost reductions through continual review of procurement sourcing based on quality and cost goals, product value engineering and improvements in manufacturing processes.

Selling, general and administrative expenses increased to \$2,043,477 in 2005 from \$1,717,217 in 2004, an increase of \$326,260 or 19%. The Company experienced significant increases in insurance, legal fee and selling and marketing activities. The Company also recorded expenses totaling approximately \$31,675 for the estimated profit sharing contribution for 2005 that is reflected in selling, general and administrative expenses as compared to \$0 in 2004.

Research and development expenses increased to \$996,684 in 2005 from \$741,769 in 2004, an increase of \$254,915 or 34%. In 2005, the Company has sourced significant work to a subcontractor for work on its next generation datalogger products. It is expected that these products will be easier and less costly to manufacture and contain improved functionality. The Company also continues to enhance and improve the SatLink2 Transmitter/Logger, which is the only satellite-transmitter-with-datalogger certified to operate on weather satellites over every continent in the world. The SatLink2 and the dataloggers are critical to Sutron maintaining a dominant position in the hydro-meteorological real-time data collection market. In 2004, significant engineering labor was performed on the Hanscom Air Force Base FMQ-13(V)2 Wind Sensor Replacement contract and on customer funded software customization of the 9210 datalogger which was direct billable work versus R&D engineering work. This resulted in lower R&D expenses as compared to 2005 as well.

Due to the Company's cash position, the Company has not used its line of credit during 2005. The Company had interest income in 2005 of \$14,700 as compared with interest expenses of \$28,333 in 2004.

Income taxes decreased 48% in 2005 to \$443,000 from \$853,000 in 2004 due to the decrease in operating income. Taxes as a percentage of revenue were 4.2% in 2005 as compared to 6.8% in 2004. The provisions for income taxes represent effective tax rates of approximately 36% in 2005 and 2004, respectively.

LIQUIDITY AND CAPITAL RESOURCES

The Company's working capital was \$6,154,766 at September 30, 2005 compared with \$5,352,491 at December 31, 2004. Cash on hand was \$928,472 at September 30, 2005 compared to \$1,419,171 at December 31, 2004. The cash decrease is due to a buildup of inventory in anticipation of expected customer business and the payment of estimated quarterly tax payments in 2005. In 2004, the Company was not required to make significant estimated quarterly tax payments. Of the cash balance on hand at September 30, 2005, \$243,842 was restricted and served as

Edgar Filing: SUTRON CORP - Form 10QSB

bid bonds on international tenders. Of the cash balance on hand at December 31, 2004, \$277,454 was restricted and served as collateral for international standby letters of credit and \$108,568 was restricted and served as bid bonds on international tenders.

Net cash used by operating activities was \$334,960 for the nine months ended September 30, 2005 as compared to cash provided by operating activities of \$1,747,312 for the nine months ended September 30, 2004.

Net cash used by investing activities was \$134,006 for the nine months ended September 30, 2005 as compared to cash used by investing activities of \$189,547 for the nine months ended September 30, 2004, and was primarily due to purchases of property and equipment.

Net cash used by financing activities was \$20,574 for the nine months ended September 30, 2005 due to payments on installment notes. Net cash used by financing activities was \$734,036 for the nine months ended September 30, 2004 due to payments on the line of credit and on shareholder notes.

The Company's line of credit of \$2,000,000 with a commercial bank expires on August 5, 2006. The line of credit is collateralized by substantially all of the assets of the Company. Under the terms of the line of credit, the Company is required to maintain certain financial covenants. Interest is expected to be charged at the bank's prime rate plus one-half percent and is payable monthly. There was no bank balance outstanding at September 30, 2005 and at December 31, 2004.

The Company frequently bids on and enters into international contracts that require bid and performance bonds. At September 30, 2005 and December 31, 2004, the bank had issued standby letters of credit in the amount of \$340,725 and \$186,354, respectively that served as either bid or performance bonds. The amount available under the line of credit was reduced by these amounts.

Management believes that its existing cash resources, cash flow from operations and short-term borrowings on the anticipated credit line will provide adequate resources for supporting operations during fiscal 2005.

ITEM 3. CONTROLS AND PROCEDURES

A) CONCLUSION REGARDING THE EFFECTIVENESS OF DISCLOSURE CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended. Based on this evaluation, our principal executive officer and our principal accounting officer concluded that our disclosure controls and procedures were not effective to enable us to record, process, summarize and report information required to be included in the Company's periodic SEC filings and annual proxy statement within the required time period.

As previously disclosed in our Form 10-KSB for the Year Ended December 31, 2004 and in our Form 10-QSB for the Three Months Ended June 30, 2005, we are in the process of correcting the identified weakness by, among other things, allocating additional personnel to the disclosure process, adopting written disclosure controls and procedures, forming a disclosure controls committee that will consider the materiality of information and determine disclosure

Edgar Filing: SUTRON CORP - Form 10QSB

obligations on a timely basis and engaging outside counsel to review to future SEC filings.

B) CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING

There have been no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2005 that have materially affected, or are likely to materially effect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

From time to time, the Company is involved in litigation with customers, vendors, suppliers and others in the ordinary course of business, and a number of such claims may exist at any given time. All such existing proceedings are not expected to have a material adverse impact on the Company's results of operations or financial condition. The Company is a party to the proceedings discussed below.

In 2003, the Company filed a claim with the Advance Tax Court of India seeking a ruling on a decision by the Government of Andhra Pradesh (GoAP) of India to assess a 48% income tax on the Company's two contracts of approximately \$1,606,000. The GoAP believed that the Company had established a branch office in India and was therefore subject to Indian income tax. Although the Company had filed an application for branch office status and received approval to open a branch office, the Company had not completed the registration and approval process with the Government of India and had not opened a branch office in India. The income tax amount at issue was approximately \$770,000.

The Advance Tax Court of India heard the case in September 2004 and ruled that Sutron Corporation had a Permanent Establishment in India by virtue of its Country Manager whose office is located in New Delhi. The Country Manager has the authority to sign contracts and perform other duties on behalf of the Company that fulfills the requirements of Indian tax law and as defined in Double Taxation Avoidance Agreement with the United States of America.

As a result of this ruling, Sutron Corporation entered into an agreement with Ernst & Young, New Delhi, India to file tax returns for the tax periods April 1, 2002 to September 30, 2003 and April 1, 2003 to September 30, 2004. The returns for both tax periods were filed in October 2004. A refund in the amount of approximately \$150,000 will be issued to Sutron for the tax period ending September 30, 2003 resulting from excess withholdings by the Government of Andhra Pradesh in excess of the tax amount of approximately \$5,250. A tax payment of approximately \$5,600 was made for the tax period ending September 30, 2004. All taxes paid in India will be applied as income tax credits on the Company's U.S. tax returns in accordance with the Double Taxation Avoidance Agreement with the United States of America and will therefore offset federal taxes.

The Company is currently awaiting acceptance on the two contracts that were provided to the Government of Andhra Pradesh in 2002. All contractual items on the systems have been accepted with the exception of four water level monitoring sites that are located at reservoirs. The Government of Andhra

Pradesh believes that the sites should go down approximately 100 meters at the sites. The Company does not believe that it is required to provide monitoring at

Edgar Filing: SUTRON CORP - Form 10QSB

100 meters due to lack of specification in the Request for Proposal (RFP) and the Company's proposal that specified 10 meters at each site. This matter has not yet been but might possibly be referred to an arbitrator as per provisions of the contract. In the event that the Company loses the arbitration hearing, additional costs of approximately \$120,000 will be incurred to install the sites down to 100 meters.

The Company has recognized revenue under these two contracts under the percentage of completion method and has deferred approximately \$13,000 of revenue based on costs to complete the stilling wells. The Company has not accrued any additional costs because the Company clearly identified in its price proposal the level to which the stilling wells would be installed and there was no specification in the tender. The Company is confident that due to a lack of specification, the price proposal will take precedence. The Company's price proposal was incorporated and made a part of the contract and therefore, in the Company's opinion, reflects the de facto specification in the absence of a contractual specification.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

None

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

A. EXHIBITS

31.1 Certification of the President and Chief Executive Officer pursuant to ss.302 of the Sarbanes-Oxley Act of 2002.

31.2 Certification of the Chief Financial Officer and Treasurer pursuant to ss.302 of the Sarbanes-Oxley Act of 2002.

32 Certification of the President and Chief Executive Officer and Chief Financial Officer and Treasurer pursuant to 18 U.S.C. ss.1350, as adopted pursuant to ss.906 of the Sarbanes-Oxley Act of 2002.

B. REPORTS ON FORM 8-K

The Company filed one Report on Form 8-K during the third quarter of 2005. A Form 8-K was filed on August 19, 2005 in regards to the Company's 2005 Second Quarter earnings news release.
