**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File Number: 0-25965

j2 GLOBAL COMMUNICATIONS, INC.
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction
of incorporation or organization)

51-0371142
(I.R.S. Employer
Identification No.)

6922 Hollywood Boulevard, Suite 500
Los Angeles, California 90028
(Address of principal executive offices)

(323) 860-9200
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act). (Check one):

Edgar Filing: J2 GLOBAL COMMUNICATIONS INC - Form 10-Q

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

As of July 31, 2007, the registrant had 49,549,935 shares of common stock outstanding.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2007
(UNAUDITED)

1. Basis of Presentation

j2 Global Communications, Inc. (“j2 Global” or the “Company”) is a Delaware corporation founded in 1995. By leveraging the power of the Internet, the Company provides outsourced, value-added messaging and communications services to individuals and businesses throughout the world. j2 Global offers fax, voicemail, email and call handling services and bundled suites of certain of these services. j2 Global markets its services principally under the brand names eFax[®], eFax Corporate[®], Fax.com[™], Send2Fax[®], UniFax[™], eFax Broadcast[™], jBlast[®], jConnect[®], Onebox[®], Onebox Receptionist[™], eVoice[®], eVoice Receptionist[™] and Electric Mail[®].

The accompanying interim condensed consolidated financial statements include the accounts of j2 Global and its direct and indirect wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

The accompanying interim condensed consolidated financial statements are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) including those for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X issued by the Securities and Exchange Commission (“SEC”). Accordingly, they do not include all of the information and note disclosures required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been reflected in these interim financial statements. These financial statements should be read in conjunction with the audited financial statements and related notes for the year ended December 31, 2006 included in the Company’s Annual Report on Form 10-K filed with the SEC on March 12, 2007.

The results of operations for these interim periods are not necessarily indicative of the operating results for the full year or for any future period.

Income Taxes

In July 2006, the Financial Accounting Standard Board (“FASB”) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes — an Interpretation of FASB Statement No. 109* (“FIN 48”). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with Statement of Financial Accounting Standards (“SFAS”) No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Company adopted the provisions of FIN 48 effective January 1, 2007. As a result of the adoption, the Company recorded an approximately \$18.6 million increase in accrued income taxes in the condensed consolidated balance sheet for unrecognized tax benefits, which was accounted for as a cumulative effect adjustment to the January 1, 2007 balance of retained earnings. See Note 6 for further information regarding the effects of adopting FIN 48.

2. Use of Estimates

The preparation of consolidated financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net revenue and expenses during the reporting period. On an ongoing basis, management evaluates its estimates, including those related to revenue recognition, allowances for doubtful accounts and the valuation of deferred income taxes, tax contingencies, stock-based compensation expense, long-lived and intangible assets and goodwill. These estimates are based on historical experience and on various other factors that the

Company believes to be reasonable under the circumstances. Actual results could differ from those estimates.

- 6 -

3. Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (“SFAS 157”), which defines fair value, provides a framework for measuring fair value, and expands the disclosures required for fair value measurements. SFAS 157 applies to all accounting pronouncements that require fair value measurements. It does not require any new fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007. Accordingly, the Company will adopt SFAS 157 commencing in the first quarter of 2008. The Company is currently assessing the potential impact of SFAS 157 on its consolidated financial statements.

In February 2007, the FASB issued SFAS 159, *The Fair Value Option for Financial Assets and Liabilities – Including an amendment of FASB Statement No. 115* (“SFAS 159”). SFAS 159 permits entities to choose to measure certain financial assets and liabilities at fair value. Unrealized gains and losses, arising subsequent to adoption, are reported in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The Company is required to adopt SFAS 159 in the first quarter of 2008. The Company is currently assessing the impact of SFAS 159 on its consolidated financial statements.

4. Goodwill and Intangible Assets

Goodwill represents the excess of the purchase price over the fair value of the net tangible and identifiable intangible assets acquired in a business combination. Intangible assets resulting from the acquisitions of entities accounted for using the purchase method of accounting are estimated by management based on the fair value of assets acquired. Identifiable intangible assets subject to amortization are being amortized using the straight-line method over estimated useful lives ranging from two to twenty years.

The changes in carrying amounts of goodwill and other intangible assets for the six months ended June 30, 2007 are as follows (in thousands):

	Balance as of January 1, 2007	Additions	Amortization	Foreign Exchange Translation	Balance as of June 30, 2007
Goodwill	\$ 30,954	\$ 4	\$ —	\$ 177	\$ 31,135
Intangible assets with indefinite lives	2,063	159	—	—	2,222
Intangible assets subject to amortization	19,337	3,164	(1,649)	40	20,892
	\$ 52,354	\$ 3,327	\$ (1,649)	\$ 217	\$ 54,249

Intangible assets with indefinite lives relate primarily to a trade name. As of June 30, 2007, intangible assets subject to amortization relate primarily to the following (in thousands):

	Weighted-Average Amortization Period	Historical Cost	Accumulated Amortization	Net
Patents	9.1 years	\$ 18,329	\$ 4,119	\$ 14,210
Technology	2.5 years	3,378	3,044	334
Customer relationships	4.7 years	3,641	2,052	1,589
Trade name	16.6 years	5,408	649	4,759

Total	\$	30,756	\$	9,864	\$	20,892
-------	----	--------	----	-------	----	--------

Amortization expense, included in general and administrative expense, during the three-month periods ended June 30, 2007 and 2006 approximated \$0.9 million and \$0.6 million, respectively. Amortization expense, included in general and administrative expense, during the six-month periods ended June 30, 2007 and 2006 approximated \$1.6 million and \$1.2 million, respectively. Amortization expense is estimated to approximate \$3.4 million, \$3.5 million, \$3.2 million, \$2.4 million and \$1.7 million for fiscal years 2007 through 2011, respectively, and \$8.4 million thereafter through the duration of the amortization period.

- 7 -

5. Litigation

In February 2004 and July 2005, the Company filed two lawsuits against Venali, Inc. (“Venali”) in the United States District Court for the Central District of California for infringement of several of its patents. On June 21, 2006, Venali filed suit against the Company and its affiliate in the United States District Court for the Southern District of Florida, alleging violations of antitrust law and various related claims arising out of the Company’s procurement and enforcement of its patents. In lieu of any response to Venali’s complaint, the parties reached an agreement whereby Venali dismissed its complaint without prejudice and re-filed certain of its claims as counterclaims in the patent infringement actions in California. On December 27, 2006, Venali filed amended counterclaims in the July 2005 action alleging several violations of antitrust law (fraudulent procurement of patents, fraudulent enforcement of patents, tying and attempted monopolization) as well as tortious interference with business relationships, trademark infringement, and unfair and deceptive trade practices. Venali is seeking damages, including treble damages for the antitrust claims, injunctive relief, attorneys’ fees and costs. Venali’s claims relate in substantial part to the patent infringement claims by the Company against Venali. On April 13, 2007, the court granted in part the Company’s motion to dismiss Venali’s counterclaims, dismissing the tying claim with leave to amend, and denying the motion as to Venali’s tortious interference, attempted monopolization, sham litigation and unfair competition counterclaims. Venali has yet to file amended counterclaims.

On December 12, 2006, Venali filed suit against the Company in the United States District Court for the Southern District of Florida, alleging infringement of U.S. Patent Number 7,114,004 (the “’004 Patent”). Venali is seeking damages in the amount of lost profits or a reasonable royalty, a permanent injunction against continued infringement, treble damages, attorneys’ fees, interest and costs. On March 6, 2007, the Company filed an answer to the complaint denying liability. On May 17, 2007, the Company filed a request with the U.S. Patent & Trademark Office for reexamination of the ’004 Patent, which request was granted on July 27, 2007. The Company plans to move to stay the action pending the reexamination.

On October 17, 2006, The Go Daddy Group, Inc. (“Go Daddy”) filed suit against the Company and its affiliate in the United States District Court for the District of Arizona. In its complaint, Go Daddy alleged several violations of antitrust law, both federal and Arizona (fraudulent procurement of patents, fraudulent enforcement of patents, conspiracy to monopolize, monopolization and attempted monopolization) as well as unfair competition, and sought declaratory judgments of invalidity and non-infringement. Go Daddy’s claims related in substantial part to a patent infringement action by the Company against Go Daddy. Go Daddy sought damages, including treble damages for the antitrust claims, punitive damages, attorneys’ fees and costs. On July 13, 2007, pursuant to an agreement between Go Daddy and the Company, Go Daddy’s lawsuit was dismissed without prejudice.

On May 9, 2007, Bear Creek Technologies, Inc. (“Bear Creek”) filed suit against the Company in the United States District Court for the Eastern District of Texas, alleging infringement of U.S. Patent Number 6,685,494. Bear Creek is seeking damages in the amount of a reasonable royalty, a permanent injunction against continued infringement, treble damages, attorneys’ fees, interest and costs. On June 29, 2007, the Company filed an answer to the complaint denying liability and asserting counterclaims of non-infringement and invalidity.

On June 21, 2007, Integrated Global Concepts, Inc. (“IGC”) filed a lawsuit against the Company, certain of its current and former officers and/or directors, one of its affiliates and several other parties in the United States District Court for the Northern District of Illinois. The suit purports to allege violations of antitrust law, the Racketeer Influenced and Corrupt Organizations Act and various related statutory and common law claims arising out of the Company’s procurement and enforcement of its patents and its acquisition of certain companies. IGC’s claims relate in substantial part to a patent infringement action by the Company against IGC. The suit seeks damages, including treble and punitive damages, an injunction against further violations, divestiture of certain assets, attorneys’ fees and costs. The Company has not yet responded to the complaint.

On June 29, 2007, a purported class action was filed by Justin Lynch as the named plaintiff in the United States District Court for the Central District of California alleging that the Company has attempted to monopolize and/or monopolized the market for Internet facsimile services to home and small offices in violation of Section 2 of the Sherman Act. The claims relate in substantial part to the patent infringement actions by the Company against various companies. The suit seeks treble damages, injunctive relief, attorneys' fees and costs. The Company has not yet responded to the complaint.

The Company does not believe, based on current knowledge, that any of the foregoing legal proceedings or claims is likely to have a material adverse effect on its financial position, results of operations or cash flows. However, depending on the amount and the timing, an unfavorable resolution of some or all of these matters could materially affect its business, financial position, results of operations or cash flows in a particular period.

6. Income Taxes

The Company adopted the provisions of FIN 48 effective January 1, 2007. As a result of the implementation of FIN 48, the Company recognized an increase in the liability for unrecognized tax benefits of approximately \$18.6 million, which was accounted for as a reduction to the January 1, 2007 balance of retained earnings. Prior to the adoption of FIN 48, the Company recorded reserves related to uncertain tax positions as a current liability, whereas upon adoption of FIN 48, the Company reclassified tax reserves of approximately \$6.0 million related to uncertain tax positions for which a cash tax payment is not expected within the next twelve months to noncurrent liabilities. As of January 1, 2007, the total amount of unrecognized tax benefits was \$24.6 million, substantially all of which would have an impact on the Company's effective tax rate if subsequently recognized. The Company recognized an additional \$1.7 million and \$3.4 million of unrecognized tax benefits during the first three and six months of 2007, respectively, relating to tax positions taken during those periods.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in income tax expense. The Company has approximately \$1.2 million in interest and penalties related to unrecognized tax benefits accrued as of January 1, 2007. For the three and six months ended June 30, 2007, the Company recognized an additional \$0.3 million and \$0.5 million, respectively, of interest and penalties, net of deferred income tax benefit, within income tax expense.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, various states and foreign jurisdictions. Management believes that its accrual for tax liabilities is adequate for all open audit years based on its assessment of many factors including past experience and interpretation of tax law. This assessment relies on estimates and assumptions and may involve a series of complex judgments about future events. With a few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities, for years before 2003.

Although the timing of any tax audits and their resolution is highly uncertain, the Company does not believe it is reasonably possible that the unrecognized tax benefits would materially change in the next twelve months.

7. Stockholders' Equity

Common Stock Repurchase Program

In March 2006, the Company's Board of Directors approved a common stock repurchase program authorizing the repurchase of up to 2,000,000 shares of the Company's common stock through December 2008. During the three months ended March 31, 2007, the Company repurchased 400,000 shares of common stock under this program at an aggregated cost of approximately \$10.2 million (including commission fees of \$12,000), representing an average price per share of \$25.43. The Company did not make any common stock repurchases during the three months ended June 30, 2007. As of June 30, 2007, there were 1,129,100 shares of common stock available for repurchase under this program.

8. Stock Options and Employee Stock Purchase Plan

The Company's stock-based compensation plans include the Second Amended and Restated 1997 Stock Option Plan and the 2001 Employee Stock Purchase Plan (described below).

(a) *Second Amended and Restated 1997 Stock Option Plan*

The 1997 Stock Option Plan (the “1997 Plan”) was adopted in November 1997 and has twice been amended and restated. This plan provides for the granting of incentive stock options, nonqualified stock options and restricted stock awards. Options under the 1997 Plan may be granted at exercise prices determined by the Board of Directors, provided that the exercise prices shall not be less than the fair market value of the Company’s common stock on the date of grant for incentive stock options and not less than 85% of the fair value of the Company’s common stock on the date of grant for non-statutory stock options. At June 30, 2007, there were 1,783,133 additional shares underlying options and shares of restricted stock available for grant under the 1997 Plan and no additional shares available for grant outside of the 1997 Plan.

- 9 -

Stock Options

The following table represents stock option activity for the six months ended June 30, 2007:

	Number of Shares	Weighted- Average Exercise Price	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding at January 1, 2007	4,639,614	\$ 8.58		
Granted	413,100	29.83		
Exercised	(571,261)	8.18		
Canceled	(72,346)	22.05		
Outstanding at June 30, 2007	4,409,107	10.43	6.2	\$ 107,906,635
Exercisable at June 30, 2007	2,791,473	4.29	4.8	85,448,577
Vested and expected to vest at June 30, 2007	4,085,580	9.59	6.0	103,415,024

For the six months ended June 30, 2007, the Company granted 413,100 options to purchase shares of common stock pursuant to the 1997 Plan to newly hired and existing members of management. The stock options vest 20% per year and expire 10 years from the date of grant.

The per share weighted-average grant-date fair values of stock options granted during the six months ended June 30, 2007 and 2006 were \$21.27 and \$18.81, respectively.

The aggregate intrinsic values of options exercised during the six months ended June 30, 2007 and 2006 were \$11.6 million and \$3.3 million, respectively.

As of June 30, 2007, there was \$19.5 million of total unrecognized compensation expense related to non-vested stock-based compensation awards granted under the 1997 Plan. That expense is expected to be recognized ratably over a weighted-average period of 3.8 years (i.e., the remaining requisite service period).

Fair Value Disclosure

The Company uses the Black-Scholes option pricing model to calculate the fair-value of each option grant. The expected volatility for the six months ended June 30, 2007 is based on historical volatility of the Company's common stock. The Company elected to use the simplified method for estimating the expected term as allowed by Staff Accounting Bulletin No. 107. Under the simplified method, the expected term is equal to the midpoint between the vesting period and the contractual term of the stock option. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a term equal to the expected term of the option assumed at the date of grant. Forfeitures are estimated at the date of grant based on historical experience. The weighted-average fair values of stock options granted have been estimated utilizing the following assumptions:

	Six Months Ended June 30,	
	2007	2006
Risk-free interest rate	4.7%	4.8%
Expected term (in years)	6.5	6.5
Dividend yield	0%	0%
Expected volatility	75%	92%
Weighted-average volatility	75%	92%

Stock-Based Compensation Expense

The following table represents the stock-based compensation expense that was included in cost of revenues and operating expenses in the accompanying condensed consolidated statements of operations for the three and six months ended June 30, 2007 and 2006 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Cost of revenues	\$ 140	\$ 97	\$ 322	\$ 206
Operating expenses:				
Sales and marketing	264	275	542	540
Research, development and engineering	184	153	357	263
General and administrative	1,114	1,139	2,211	2,079
	\$ 1,702	\$ 1,664	\$ 3,432	\$ 3,088

Restricted Stock

The Company has awarded restricted shares of common stock to members of its Board of Directors and to management pursuant to the 1997 Plan. Compensation expense resulting from restricted stock grants is measured at fair value on the date of grant and is recognized as stock-based compensation expense over a five-year vesting period. The Company granted 63,800 shares of restricted stock to newly hired and existing members of management pursuant to the 1997 Plan during the six months ended June 30, 2007 and recognized approximately \$0.5 million of related compensation expense in the six months ended June 30, 2007 related to restricted stock awards. As of June 30, 2007, the Company has unrecognized stock-based compensation cost of approximately \$5.9 million associated with these awards. The cost is expected to be recognized over a weighted-average period of 3.7 years.

Restricted stock activity for the six months ended June 30, 2007 is set forth below:

	Shares	Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2007	307,840	\$ 19.32
Granted	63,800	30.86
Vested	(3,334)	22.31
Canceled	(12,006)	22.10
Nonvested at June 30, 2007	356,300	21.26

(b) *Employee Stock Purchase Plan*

The 2001 Employee Stock Purchase Plan (the "Purchase Plan") provides for stock purchases by all eligible employees. Under the Purchase Plan, eligible employees can have up to 15% of their earnings withheld, up to certain maximums, to be used to purchase shares of the Company's common stock at certain plan-defined dates. The price of the common stock purchased under the Purchase Plan for the offering periods is equal to 90% of the lower of the fair market value of the common stock on the commencement date of each three-month offering period or the specified purchase date. Effective May 1, 2006, the Company's Board of Directors removed the compensatory features of the Purchase Plan by changing the purchase price of a share of common stock for each offering period to 95% of its fair market value at the end of the offering period. For the six months ended June 30, 2007 and 2006, 5,040 and 13,682 shares were purchased under the plan, respectively. Cash received upon the issuance of common stock under the Purchase Plan was \$0.1 million and \$0.3 million for the six months ended June 30, 2007 and 2006, respectively.

(c) *Section 409A Tax Compensation*

In connection with the restatements of the Company's 2005 and prior period financial statements, which are more fully described in Note 3 of the Notes to Consolidated Financial Statements included in the Company's 2006 Annual Report on Form 10-K, the Company modified the terms of certain stock options as discussed below.

In December 2006 the Company offered each named executive officer and director the option to increase the exercise price of certain of their stock options in order to avoid potential inadvertent taxation under Internal Revenue Code Section 409A ("Section 409A"). During the six months ended June 30, 2007 the Company made an aggregate compensating payment to such option holders of \$0.5 million. For the same purpose, the Company increased the exercise price of certain options held by all other employees during the six months ended June 30, 2007 and will make a compensating payment to these employees of approximately \$0.1 million no later than the first quarter of 2008. The Company has accrued \$0.1 million as of June 30, 2007 with respect to this compensating payment of which approximately \$32,000 was paid to employees during the six months ended June 30, 2007 and the remaining amount remains accrued for payments to employees no later than first quarter of 2008.

In addition, to the extent employees and directors have already incurred a tax liability under Section 409A, the Company plans to reimburse such individuals for that liability plus a gross-up for income taxes owed as a result of such reimbursement. The estimated impact of these reimbursements was included in general and administrative expense in the condensed consolidated statement of operations for the fourth quarter of 2006 and amounted to \$0.7 million, net of tax.

9. Earnings Per Share

Basic earnings per share is computed on the basis of the weighted-average number of common shares outstanding. Diluted earnings per share is computed on the basis of the weighted-average number of common shares outstanding plus the dilutive effect of common stock equivalents using the "treasury stock" method. The components of basic and diluted earnings per share are as follows (in thousands, except share and per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Numerator for basic and diluted net earnings per common share:				
Net earnings	\$ 17,078	\$ 13,199	\$ 33,517	\$ 25,510
Denominator:				
Weighted-average outstanding shares of common stock	49,108,309	49,349,536	48,966,111	49,299,933
Dilutive effect of:				
Employee stock options	1,771,612	1,749,426	1,761,396	1,676,516
Restricted stock	127,640	87,111	116,909	79,797
Common stock and common stock equivalents	51,007,561	51,186,073	50,844,416	51,056,246
Net earnings per share:				
Basic	\$ 0.35	\$ 0.27	\$ 0.68	\$ 0.52
Diluted	\$ 0.33	\$ 0.26	\$ 0.66	\$ 0.50

10. Comprehensive Income

The components of comprehensive income were net earnings and accumulated other comprehensive income. The change in accumulated other comprehensive income for all periods presented resulted from foreign translation gains and losses and the unrealized gains and losses in marketable securities. Comprehensive income for the three and six months ended June 30, 2007 and 2006 is as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Net earnings	\$ 17,078	\$ 13,199	\$ 33,517	\$ 25,510
Foreign currency translation adjustment	640	2,508	806	2,719
Comprehensive income	\$ 17,718	\$ 15,707	\$ 34,323	\$ 28,229

11. Geographic Information

The Company maintains operations in the United States, Canada, Ireland, the United Kingdom and other international territories. Geographic information about the United States and international territories for the reporting periods is presented below. Such information attributes revenues based on the location of a customer's Direct Inward Dial ("DID") number for services using such a number or a customer's residence for other services (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Revenue:				
United States	\$ 47,394	\$ 39,422	\$ 95,471	\$ 77,049
All other countries	6,586	4,844	12,650	9,235
	\$ 53,980	\$ 44,266	\$ 108,121	\$ 86,284

	December	
	June 30, 2007	31, 2006
Long-lived assets:		
United States	\$ 16,764	\$ 17,377
All other countries	2,643	1,574
	\$ 19,407	\$ 18,951

12. Supplemental Cash Flow Information

Cash paid for interest during the six months ended June 30, 2007 and 2006 approximated \$7,000 and \$17,000, respectively, substantially all of which related to long-term debt.

The Company paid approximately \$2.6 million and \$11.3 million for income taxes during the six months ended June 30, 2007 and 2006, respectively.

During the six months ended June 30, 2007, the Company acquired property and equipment and intangible assets for approximately \$392,000 and \$257,000, respectively, which have not yet been paid at June 30, 2007.

Through the six months ended June 30, 2007 and 2006, the Company recorded the tax benefit from the exercise of non-qualified stock options and restricted stock as a reduction of its income tax liability in the amount of approximately \$3.7 million and \$1.0 million, respectively.

As a result of the implementation of FIN 48, the Company recognized an increase in the liability for unrecognized tax benefits of approximately \$18.6 million, which was accounted for as a reduction to the January 1, 2007 balance of retained earnings.

13. Subsequent Event

On July 13, 2007, the Company acquired YAC Limited ("YAC"), an Ireland-based provider of messaging services whose customers are predominantly located in the United Kingdom. In connection with the acquisition, the Company paid an immaterial amount of cash in exchange for all outstanding shares of capital stock.

The Company announced that on July 24, 2007 it appointed two additional independent members to its Board of Directors: William Brian Kretzmer and Stephen Ross. For more information see the Company's Form 8-K filed with the SEC on July 30, 2007.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

j2 Global Communications, Inc. ("j2 Global", "the Company", "our", or "we") is a Delaware corporation founded in 1995. By leveraging the power of the Internet, we provide outsourced, value-added messaging and communications services to individuals and businesses throughout the world. We offer fax, voicemail, email and call handling services and bundled suites of certain of these services. We market our services principally under the brand names eFax[®], eFax Corporate[®], Fax.com[™], Send2Fax[®], UniFax[™], eFax Broadcast[™], jBlast[®], jConnect[®], Onebox[®], Onebox Receptionist[™], eVoice[®], eVoice Receptionist[™] and Electric Mail[®].

We deliver many of our services through our global telephony/Internet Protocol ("IP") network, which spans more than 2,900 cities in 42 countries across five continents. We have created this network, and continuously seek to expand it, through negotiating with U.S. and foreign telecommunications and co-location providers for telephone numbers (also referred to as Direct Inward Dial numbers or "DIDs"), Internet bandwidth and co-location space for our equipment. We maintain and seek to grow an inventory of telephone numbers to be assigned to new customers. Most of these numbers are "local" (as opposed to toll-free), which enables us to provide our paying subscription customers telephone numbers with a geographic identity. In addition to growing our business internally, we have used small acquisitions to grow our customer base, enhance our technology and acquire skilled personnel.

Our core services include fax, voicemail, email and call handling, as well as bundled suites of certain of these services. These are business services that make our customers more efficient, more mobile, more cost-effective and more secure than traditional alternatives. We generate substantially all of our revenue from subscribers that pay activation, subscription and usage fees. Activation and subscription fees are referred to as "fixed" revenues, while usage fees are referred to as "variable" revenues. We also generate revenues from patent licensing fees, advertising and revenue share from our customers' use of premium rate telephone numbers. Of the nearly 11.6 million telephone numbers deployed as of June 30, 2007, more than 972,000 were serving paying subscribers, with the balance deployed to free subscribers, including those with premium rate telephone numbers. We operate in one reportable segment: value-added messaging and communications services, which provides for the delivery of fax, voice and email messages via the telephone and/or Internet networks.

During the past three years, we have derived a substantial portion of our revenues from the sale of our eFax and jConnect paid services, including eFax Corporate[®], eFax Plus[®], eFax Pro[™] and jConnect Premier[®]. These services are deployed through DIDs. As a result, we believe that paying DIDs and the revenues associated therewith are an important metric for understanding our business. It has been and continues to be our objective to increase the number of paying DIDs through a variety of distribution channels and marketing arrangements and by enhancing our brand awareness. In addition, we continuously seek to increase revenues through a combination of stimulating use by our customers of usage-based services, introducing new services and instituting appropriate price increases to our fixed monthly subscription and other fees.

For the past three years, 90% or more of our total revenues have been produced by our DID-based services. DID-based annual revenues have increased from \$100 million to \$168 million from fiscal 2004 through fiscal 2006. The primary reason for this increase was a 64% increase in the number of paid DIDs over this period. We expect that DID-based revenues will continue to be a dominant driver of total revenues.

The following table sets forth our key operating metrics for the three and six months ended June 30, 2007 and 2006 (in thousands, except for percentages and average revenue per paying telephone numbers):

	June 30,			
	2007	2006		
Free service telephone numbers	10,671	10,538		
Paying telephone numbers	973	836		
Total active telephone numbers	11,644	11,374		
	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Subscriber revenues:				
Fixed	\$ 39,653	\$ 29,855	\$ 77,417	\$ 58,393
Variable	12,960	12,816	25,489	24,840
Total subscriber revenues	\$ 52,613	\$ 42,671	\$ 102,906	\$ 83,233
Percentage of total subscriber revenues:				
Fixed	75.4%	70.0%	75.2%	70.2%
Variable	24.6%	30.0%	24.8%	29.8%
Revenues:				
DID-based	\$ 50,084	\$ 40,683	\$ 98,214	\$ 79,401
Non-DID-based	3,896	3,583	9,907	6,883
Total revenues	\$ 53,980	\$ 44,266	\$ 108,121	\$ 86,284
Average monthly revenue per paying telephone number ⁽¹⁾	\$ 16.96	\$ 16.15	\$ 16.88	\$ 16.26

⁽¹⁾See calculation of average monthly revenue per paying telephone number at the end of this section, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Critical Accounting Policies and Estimates

In the ordinary course of business, we have made a number of estimates and assumptions relating to the reporting of results of operations and financial condition in the preparation of our financial statements. Actual results could differ significantly from those estimates under different assumptions and conditions. The Company's critical accounting policies are described in the Company's 2006 Annual Report on Form 10-K filed with the SEC on March 12, 2007. During the six months ended June 30, 2007, we updated our critical accounting policies as follows:

Income Taxes

Effective January 1, 2007, we adopted Financial Accounting Standard Board ("FASB") Interpretation No. 48, *Accounting for Uncertainty in Income Taxes — an Interpretation of FASB Statement No. 109* ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with Statement of Financial Accounting Standards ("SFAS") No. 109, *Accounting for Income Taxes*. We utilize a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. See Note 6 to the accompanying financial statements for information regarding the effects of adopting FIN 48.

Results of Operations for the Three and Six Months Ended June 30, 2007**Revenues**

Subscriber Revenues. Subscriber revenues consist of both a fixed monthly recurring subscription component and a variable component which is driven by the actual usage of our service offerings. Over the past three years, the fixed portion of our subscriber revenues has consistently contributed approximately 70% to our subscriber revenues. Subscriber revenues were \$52.6 million and \$42.7 million for the three months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007 and 2006, subscriber revenues were \$102.9 million and \$83.2 million, respectively. The increase in subscriber revenues was due to an increase in our paying subscribers and a price increase described below. The increase in our base of paying subscribers was primarily the result of new sign-ups derived from subscribers coming directly to our websites, free-to-paid subscriber upgrades, small to mid-sized corporate and enterprise sales, direct large enterprise and government sales, direct marketing costs for acquisition of paying subscribers and international sales, net of cancellations.

During the third quarter of 2006, we began implementing a price increase to new and existing domestic eFax individual subscribers. The monthly subscription fee was increased from \$12.95 to \$16.95 and annual programs were increased as well. As of June 30, 2007, we have implemented the price change to approximately 80% of these customers. Thus far, the results of this price change have met our expectations in terms of the rate of new customer sign-ups and cancellations. However, due to a number of factors affecting the Company's net sign-ups and related revenues during a given reporting period, it is not possible to quantify the financial impact of the price increase.

Other Revenues. Other revenues were \$1.4 million and \$1.6 million for the three months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007 and 2006, other revenues were \$5.2 million and \$3.1 million, respectively. Other revenues consist primarily of patent licensing revenues and advertising revenues generated by delivering email messages to our free customers on behalf of advertisers. Other revenues for the three months ended June 30, 2007 has remained consistent compared to the same period in prior year. The increase in other revenues for the six months ended June 30, 2007 resulted primarily from an increase in patent licensing revenues of approximately \$2 million from a license agreement with CallWave, Inc. entered into during the first quarter of 2007.

Stock-Based Compensation

The following table represents the stock-based compensation expense that was included in cost of revenues and operating expenses in the accompanying condensed consolidated statements of operations for the three and six months ended June 30, 2007 and 2006 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Cost of revenues	\$ 140	\$ 97	\$ 322	\$ 206
Sales and marketing	264	275	542	540
Research, development and engineering	184	153	357	263
General and administrative	1,114	1,139	2,211	2,079
	\$ 1,702	\$ 1,664	\$ 3,432	\$ 3,088

Cost of Revenues

Cost of revenues is primarily comprised of costs associated with data and voice transmission, telephone numbers, network operations, customer service, on-line processing fees and equipment depreciation. Cost of revenues was \$10.2 million, or 19% of total revenues, and \$9.3 million, or 21% of total revenues, for the three months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007 and 2006, cost of revenues was \$21.2

million, or 20% of total revenues, and \$18.3 million, or 21% of total revenues, respectively. The cost of revenues as a percentage of revenues for the three and six months ended June 30, 2007 improved primarily due to the price increase as discussed above which has little or no cost associated with it as well as enhanced utilization of network capacity. In addition, the increase in other revenues for the six months ended June 30, 2007 discussed above had minimal associated cost of revenues resulting in cost of revenues as a percentage of revenues declining period over period.

- 17 -

Operating Expenses

Sales and Marketing. Our sales and marketing costs consist primarily of Internet-based advertising, sales and marketing personnel costs and other business development-related expenses. Sales and marketing expenses were \$9.7 million, or 18% of total revenues, and \$7.5 million, or 17% of total revenues, for the three months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007 and 2006, sales and marketing expenses were \$18.5 million, or 17% of total revenues, and \$14.4 million, or 17% of total revenues, respectively. The increase in sales and marketing expenses for the three and six months ended June 30, 2007 was primarily due to increased Internet-based advertising and partner marketing expense principally relating to international marketing and testing new forms of domestic marketing such as radio advertisements.

Research, Development and Engineering. Our research, development and engineering costs consist primarily of personnel-related expenses. Research, development and engineering costs were \$3.0 million, or 6% of total revenues, and \$1.9 million, or 4% of total revenues, for the three months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007 and 2006, research, development and engineering costs were \$5.7 million, or 5% of total revenues, and \$3.8 million, or 4% of total revenues, respectively. The increase in research, development and engineering costs for the three and six months ended June 30, 2007 as compared to the same periods in the prior year was primarily due to an increase in personnel costs to maintain our existing services, accommodate our service enhancements, develop and implement additional service features and functionality and continue to bolster our infrastructure security.

General and Administrative. Our general and administrative costs consist primarily of personnel-related expenses, depreciation and amortization, stock-based compensation expense, bad debt expense and insurance costs. General and administrative costs were \$9.0 million, or 17% of total revenues, and \$8.4 million, or 19% of total revenues, for the three months ended June 30, 2007 and 2006, respectively. General and administrative costs were \$18.8 million, or 17% of total revenues, and \$16.3 million, or 19% of total revenues, for the six months ended June 30, 2007 and 2006, respectively. General and administrative expenses as a percentage of revenue for the three and six months ended June 30, 2007 have decreased compared to the same period in the prior year primarily due to lower professional fees.

Interest and Other Income, Net. Our interest and other income, net, is generated primarily from interest earned on cash, cash equivalents and short- and long-term investments. Interest and other income, net, was \$2.4 million and \$1.1 million for the three months ended June 30, 2007 and 2006, respectively, and \$4.1 million and \$2.3 million for the six months ended June 30, 2007 and 2006, respectively. The increase in interest and other income, net, was primarily due to higher cash and investment balances and higher interest rates period over period.

Income Taxes. Our effective tax rate is based on pre-tax income, statutory tax rates, tax regulations and different tax rates in the various jurisdictions in which we operate. Income tax expense amounted to approximately \$7.5 million and \$5.1 million for the three months ended June 30, 2007 and 2006, respectively. Income tax expense for the six months ended June 30, 2007 and 2006 was \$14.6 million and \$10.4 million, respectively. Income tax expense for the six months ended June 30, 2007 is based on a worldwide estimated effective tax rate for 2007 of approximately 30% compared to our estimated effective tax rate of 29% for the six months ended June 30, 2006. We expect our fiscal 2007 effective tax rate to be approximately 30% compared to an effective tax rate for fiscal 2006 of approximately 27%. This expected increase in our income tax rate is primarily attributable to an expected increase in the proportion of our taxable income being sourced in the U.S. with higher tax rates than in foreign jurisdictions.

Liquidity and Capital Resources

Cash and Cash Equivalents and Investments

At June 30, 2007, we had cash and investments of \$233.1 million, consisting of cash and cash equivalents of \$108.1 million, short-term investments of \$114.5 million and long-term investments of \$10.5 million. Our investments are comprised primarily of readily marketable corporate debt securities, U.S. government agency securities, auction rate debt and preferred securities. For financial statement presentation, we classify our investments primarily as held-to-maturity, and thus, they are reported as short-term and long-term based upon their maturity dates. Short-term investments primarily mature within one year of the date of the financial statements and long-term investments mature between one and five years from the date of the financial statements. We classify auction rate securities as short-term investments as the established interest rate reset periods are less than one year.

Cash Flows

Our primary sources of liquidity are cash flows generated from operations, together with cash and cash equivalents and short-term investments. Net cash provided by operating activities was \$49.8 million and \$33.5 million for the six months ended June 30, 2007 and 2006, respectively. Our operating cash flows resulted primarily from cash received from our subscribers, offset by cash payments we made to third parties for their services, employee compensation and tax payments. Our cash and cash equivalents and short-term investments were \$222.6 million at June 30, 2007.

Net cash used in investing activities was approximately \$35.1 million and \$6.2 million for the six months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007, net cash used in investing activities was primarily attributable to net purchases of investments, purchases of intangible assets, and purchases of property and equipment. For the six months ended June 30, 2006, net cash used in investing activities was primarily attributable to net purchases and redemption of investments, net purchases of property and equipment, purchases of intangible assets and acquisitions of businesses.

Net cash (used in) provided by financing activities was approximately \$(2.6) million and \$1.6 million for the six months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007, net cash used in financing activities was primarily comprised of the repurchase of our common stock, repayment of long-term debt, and repurchase of our restricted stock, offset by proceeds from the exercise of stock options and common shares issued under our employee stock purchase plan and excess tax benefits resulting from stock option exercises. For the six months ended June 30, 2006, net cash provided by financing activities was primarily comprised of the excess tax benefits resulting from stock option exercises, proceeds from the exercise of stock options and common shares issued under our employee stock purchase plan offset by the repayments of long-term debt.

Stock Repurchase Program

In March 2006, our Board of Directors approved a program authorizing the repurchase of up to 2,000,000 shares of our common stock through December 2008. For the three months ended March 31, 2007, we repurchased a total of 400,000 shares at an aggregated cost of approximately \$10.2 million (including commission fees of \$12,000), representing an average price per share of \$25.43. The Company did not make any common stock repurchases during the three months ended June 30, 2007. As of June 30, 2007, there were 1,129,100 shares of our common stock available for repurchase under this program.

We currently anticipate that our existing cash and cash equivalents and short-term investment balances and cash generated from operations will be sufficient to meet our anticipated needs for working capital and capital expenditures, investment requirements, commitments and repurchases of our common stock for at least the next 12 months.

Forward-Looking Information

In addition to historical information, the foregoing Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements. These forward-looking statements involve risks, uncertainties and assumptions. The actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including but not limited to those discussed below, the risk factors discussed in Part II, Item 1A "Risk Factors" of this Quarterly Report on Form 10-Q and in Part I, Item 1A "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2006 (together, the "Risk Factors"), and the factors discussed in the section in this Quarterly Report on Form 10-Q entitled "Quantitative and Qualitative Disclosures About Market Risk". Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's opinions only as of the date hereof. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements. Readers should carefully review the Risk Factors and the risk factors set forth in other documents we file from time to time with the SEC.

Some factors that could cause actual results to differ materially from those anticipated in these forward-looking statements include, but are not limited to, or our ability to:

- o Sustain growth or profitability;
 - o Continue to maintain, expand and retain our customer base;
 - o Compete with other similar providers with regard to price, service and functionality;
 - o Cost-effectively procure and retain large quantities of telephone numbers in desired locations in the United States and abroad;
 - o Achieve business and financial objectives in light of burdensome telecommunications or Internet regulation or higher-than-expected tax rates or exposure to additional income tax liabilities;
 - o Successfully manage our cost structure, including but not limited to our telecommunication- and personnel-related expenses;
 - o Successfully adapt to technological changes in the messaging, communications and document management industries;
 - o Successfully protect our intellectual property and avoid infringing upon the proprietary rights of others;
 - o Adequately manage growth in terms of managerial and operational resources;
 - o Maintain and upgrade our systems and infrastructure to deliver acceptable levels of service quality and security of customer data and messages;
 - o Not incur unanticipated tax liabilities and accurately estimate the assumptions underlying our effective worldwide tax rate ;
 - o Introduce new services and achieve acceptable levels of returns-on-investment for those new services;
- and
- o Recruit and retain key personnel.

In addition, our financial results could be materially impacted by risks associated with new accounting pronouncements.

- 20 -

Calculation of Average Revenue per Paying Telephone Number:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
	(In thousands except average monthly revenue per paying telephone number)			
DID-based revenues	\$ 50,084	\$ 40,683	\$ 98,214	\$ 79,401
Less other revenues	1,662	1,313	3,059	2,470
Total paying telephone number revenues	\$ 48,422	\$ 39,370	\$ 95,155	\$ 76,931
Average paying telephone number monthly revenue (total divided by number of months)	\$ 16,141	\$ 13,123	\$ 15,859	\$ 12,822
Number of paying telephone numbers				
Beginning of period	930	788	907	740
End of period	973	837	973	837
Average of period	952	812	940	788
Average monthly revenue per paying telephone number ⁽¹⁾	\$ 16.96	\$ 16.15	\$ 16.88	\$ 16.26

⁽¹⁾ Due to rounding, individual numbers may not add. In addition, for average monthly revenue per paying telephone number ("ARPU"), the average number of paid DIDs for the six-month period will differ from the average of the first two quarterly average paid DIDs calculations resulting in a different ARPU for the six months as compared to the average of the ARPU for the first two quarterly periods.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The following discussion of the market risks we face contains forward-looking statements. Forward-looking statements are subject to risks and uncertainties. Actual results could differ materially from those discussed in the forward-looking statements.

Interest Rate Risk

Our exposure to market risk for changes in interest rates relates primarily to our investment portfolio. We maintain an investment portfolio of various holdings, types and maturities. The primary objectives of our investment activities are to preserve our principal while at the same time maximizing yields without significantly increasing risk. To achieve these objectives, we maintain our portfolio of cash equivalents and investments in a mix of tax-exempt and taxable instruments that meet high credit quality standards, as specified in our investment policy. Our cash and cash equivalents are not subject to significant interest rate risk due to the short maturities of these instruments. As of June 30, 2007, the carrying value of our cash and cash equivalents approximated fair value. Our return on these investments is subject to interest rate fluctuations. None of our investments is held for trading purposes.

Our short- and long-term investments are comprised primarily of readily marketable corporate debt securities, debt instruments of the U.S. government and its agencies, auction rate debt, preferred securities and certificates of deposits. Investments in fixed rate interest earning instruments carry a degree of interest rate risk. Fixed rate securities may have their fair market value adversely impacted due to a rise in interest rates. Our interest income is sensitive to changes in the general level of U.S. and foreign countries' interest rates. Due in part to these factors, our future investment income may fall short of expectations due to changes in interest rates. As of June 30, 2007, we had investments in debt securities with effective maturities between three months and one year of approximately \$114.5 million. Such investments had a weighted-average yield of approximately 4.0%. As of June 30, 2007, we had investments in debt securities with effective maturities between one and five years of approximately \$10.5 million. Such investments had a weighted average yield of approximately 4.9%. Based on our cash and cash equivalents and short-term and long-term investment holdings as of June 30, 2007, an immediate 100 basis point decline in interest rates would decrease our annual interest income by approximately \$2.3 million.

Foreign Currency Risk

We conduct business in certain foreign markets, primarily in Canada and the European Union. Our primary exposure to foreign currency risk relates to investment in foreign subsidiaries that transact business in a functional currency other than the U.S. Dollar, primarily the Canadian Dollar, Euro and British Pound Sterling. However, the exposure is mitigated by our practice of generally reinvesting profits from international operations in order to grow that business.

As we increase our operations in international markets we become increasingly exposed to changes in currency exchange rates. The economic impact of currency exchange rate movements is often linked to variability in real growth, inflation, interest rates, governmental actions and other factors. These changes, if material, could cause us to adjust our financing and operating strategies.

As currency exchange rates change, translation of the income statements of the international businesses into U.S. Dollars affects year-over-year comparability of operating results. Historically, we have not hedged translation risks because cash flows from international operations were generally reinvested locally.

Foreign exchange gains and losses were not material to our earnings for the six months ended June 30, 2007. However, we periodically review our strategy for hedging transaction risks. Our objective in managing foreign exchange risk is to minimize the potential exposure to changes that exchange rates might have on earnings, cash flows and financial position.

We do not have derivative financial instruments for hedging, speculative or trading purposes.

- 22 -

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

j2 Global's management, with the participation of our principal executive officer and principal financial officer, performed an evaluation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 ("Exchange Act")) as of the end of the period covered by this report. Our principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed in reports we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (2) accumulated and communicated to our management to allow their timely decisions regarding required disclosure.

(b) Changes in Internal Controls

There were no changes in our internal control over financial reporting that occurred during the second quarter ended June 30, 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Overview of Patent Litigation

As part of our continuing effort to prevent the unauthorized use of our intellectual property, we have initiated litigation against the following two companies, among others, for infringing our patents relating to Internet fax and other messaging technologies: Venali, Inc. (“Venali”) and Protus IP Solutions, Inc.

Overview of Legal Proceedings Against Us

From time to time, we are involved in litigation and other disputes or regulatory inquiries that arise in the ordinary course of our business. Many of these actions are filed in response to patent actions filed by us against the plaintiffs. The number and significance of these disputes and inquiries are increasing as our business expands and our company grows larger. Any claims or regulatory actions against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time, and result in the diversion of significant operational resources.

In February 2004 and July 2005, we filed two lawsuits against Venali in the United States District Court for the Central District of California for infringement of several of our U.S. patents. On June 21, 2006, Venali filed suit against us and our affiliate in the United States District Court for the Southern District of Florida, alleging violations of antitrust law and various related claims arising out of our procurement and enforcement of our patents. In lieu of any response to Venali’s complaint, the parties reached an agreement whereby Venali dismissed its complaint without prejudice and re-filed certain of its claims as counterclaims in the patent infringement actions in California. On December 27, 2006, Venali filed amended counterclaims in the July 2005 action alleging several violations of antitrust law (fraudulent procurement of patents, fraudulent enforcement of patents, tying, and attempted monopolization) as well as tortious interference with business relationships, trademark infringement and unfair and deceptive trade practices. Venali is seeking damages, including treble damages for the antitrust claims, injunctive relief, attorneys’ fees and costs. Venali’s claims relate in substantial part to the patent infringement claims by us against Venali. On April 13, 2007, the court granted in part our motion to dismiss Venali’s counterclaims, dismissing the tying claim with leave to amend, and denying the motion as to Venali’s tortious interference, attempted monopolization, sham litigation, and unfair competition counterclaims. Venali has yet to file amended counterclaims.

On December 12, 2006, Venali filed suit against us in the United States District Court for the Southern District of Florida, alleging infringement of U.S. Patent Number 7,114,004 (the “’004 Patent”). Venali is seeking damages in the amount of lost profits or a reasonable royalty, a permanent injunction against continued infringement, treble damages, attorneys’ fees, interest and costs. On March 6, 2007, we filed an answer to the complaint denying liability. On May 17, 2007, we filed a request with the U.S. Patent & Trademark Office for reexamination of the ’004 Patent, which request was granted on July 27, 2007. We plan to move to stay the action pending the reexamination.

On October 17, 2006, The Go Daddy Group, Inc. (“Go Daddy”) filed suit against us and our affiliate in the United States District Court for the District of Arizona. In its complaint, Go Daddy alleged several violations of antitrust law, both federal and Arizona (fraudulent procurement of patents, fraudulent enforcement of patents, conspiracy to monopolize, monopolization and attempted monopolization) as well as unfair competition, and sought declaratory judgments of invalidity and non-infringement. Go Daddy’s claims related in substantial part to the patent infringement action by us against Go Daddy. Go Daddy sought damages, including treble damages for the antitrust claims, punitive damages, attorneys’ fees and costs. On July 13, 2007, pursuant to an agreement between Go Daddy and us, Go Daddy’s lawsuit was dismissed without prejudice.

On May 9, 2007, Bear Creek Technologies, Inc. (“Bear Creek”) filed suit against us in the United States District Court for the Eastern District of Texas, alleging infringement of U.S. Patent Number 6,685,494. Bear Creek is seeking damages in the amount of a reasonable royalty, a permanent injunction against continued infringement, treble damages, attorneys’ fees, interest and costs. On June 29, 2007, we filed an answer to the complaint denying liability and asserting counterclaims of non-infringement and invalidity.

- 24 -

On June 21, 2007, Integrated Global Concepts, Inc. (“IGC”) filed a lawsuit against us, certain of our current and former officers and/or directors, one of our affiliates, and several other parties in the United States District Court for the Northern District of Illinois. The suit purports to allege violations of antitrust law, the Racketeer Influenced and Corrupt Organizations Act and various related statutory and common law claims arising out of our procurement and enforcement of our patents and our acquisition of certain companies. IGC’s claims relate in substantial part to a patent infringement action by us against IGC. The suit seeks damages, including treble and punitive damages, an injunction against further violations, divestiture of certain assets, attorneys’ fees and costs. We have not yet responded to the complaint.

On June 29, 2007, a purported class action was filed by Justin Lynch as the named plaintiff in the United States District Court for the Central District of California alleging that we have attempted to monopolize and/or monopolized the market for Internet facsimile services to home and small offices in violation of Section 2 of the Sherman Act. The claims relate in substantial part to the patent infringement actions by us against various companies. The suit seeks treble damages, injunctive relief, attorneys’ fees and costs. We have not yet responded to the complaint.

We do not believe, based on current knowledge, that any of the foregoing legal proceedings or claims is likely to have a material adverse effect on our financial position, results of operations or cash flows. However, depending on the amount and the timing, an unfavorable resolution of some or all of these matters could materially affect our business, financial position, results of operations or cash flows in a particular period.

Item 1A. Risk Factors

In addition to the other information set forth in this report, before deciding to invest in our Company or to maintain or increase your investment, you should carefully consider the factors discussed in Part I, Item 1A “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2006 (the “10-K Risk Factors”). If any of these risks occur, our business, prospects, financial condition, operating results and cash flows could be materially adversely affected. The 10-K Risk Factors are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business operations. There are no material changes from the 10-K Risk Factors.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

In March 2006, our Board of Directors approved a common stock repurchase program whereby we were authorized to repurchase up to 2,000,000 shares of our common stock through December 2008. On April 26, 2006, we entered into a Rule 10b5-1 trading plan with a broker to facilitate the repurchase program.

The following table details the repurchases that were made under the program during the three months ended June 30, 2007:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares That May Yet Be Purchased Under the Program
April 1, 2007 - April 30, 2007	—	—	870,900	1,129,100
May 1, 2007 - May 31, 2007	—	—	870,900	1,129,100

Edgar Filing: J2 GLOBAL COMMUNICATIONS INC - Form 10-Q

June 1, 2007 - June 30, 2007

Item 4. Submission of Matters to Vote of Security Holders

The Company held its 2007 Annual Meeting of Stockholders on May 3, 2007 in Los Angeles, California. The following matters were submitted to our shareholders for a vote at the Annual Meeting:

1. To elect the following five directors nominees to serve for the ensuing year and until their successors are elected and qualified. All nominees were elected as directors with the following vote:

<u>Nominee</u>	<u>Votes For</u>	<u>Withheld or Abstained</u>
Douglas Y. Bech	41,391,968	4,593,364
Robert J. Cresci	39,833,847	6,151,485
Richard S. Ressler	29,569,231	16,416,101
John F. Rieley	21,913,230	24,072,102
Michael P. Schulhof	41,392,577	4,592,755

2. A proposal to approve j2 Global's 2007 Stock Plan. This proposal was not approved based on the following vote:

For	15,351,820
Against	23,811,812
Abstain	41,403
Broker non-votes	6,780,297

The Company anticipates holding a special meeting of stockholders to submit a modified version of the 2007 Stock Plan for stockholder approval prior to the November 2007 termination of the Company's 1997 Stock Option Plan.

Item 6. Exhibits

31.1 Rule 13a-14(a) Certification of Principal Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Rule 13a-14(a) Certification of Principal Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Section 1350 Certification of Principal Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Section 1350 Certification of Principal Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

Items 3 and 5 are not applicable and have been omitted.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
