PART I

Edgar Filing: FINX GROUP INC - Form 10KSB/A

Item 1. Description of Business.

Organization

On June 6, 2000 The Finx Group, Inc. was organized as a Delaware corporation. Effective June 30, 2000, Fingermatrix, Inc., our predecessor company was merged into The Finx Group, Inc. We have controlling interests in Secured Portal Systems, Inc., which was incorporated in Delaware on August 11, 1999, and Granite Technologies Acquisition Corp., which was incorporated in Delaware on May 15, 2001. Throughout this document our Company and its subsidiaries may be collectively referred to as "We", "Our", "Us", "The Finx Group", the "Company" or the "Registrant".

Our Business

Products

Since September 30, 2002, our business has solely focused on the marketing and sale of our two primary security products: the GIL 2001 Portal Control System and the Secured Card Solutions Software Program. During 2003 and 2002, we generated revenues of \$36,000 and \$6,000 from our Secured Card Solutions.

The GIL 2001 Portal Control System is state of the art for security processing and human flow management and is built on step-by-step security processor logic using automated, structural, portal barriers for executing positive/authorized or negative/unauthorized access commands. This system includes embedded defensive countermeasures for piggybacked entry, weapons or credentials pass back, run back breeches and protection against forced entry. Standard subsystem capabilities include metal detection for weapon and asset detection, and this system's processing capabilities include execution of access commands from any access control, detection sensor or digital imaging subsystem. With the full physical separation and step-by-step logistics provided by GIL 2001 Portal Control Systems, access control at key checkpoints can be configured in a way to completely secure a facility. The GIL 2001 Portal Control System is designed to create a Secure Physical Firewall that creates a Safe Work Area for employees, visitors, and customers who must pass through our firewall into a secure area. One of the many advantages of this firewall is that it reduces day-to-day confrontational situations.

The Secured Card Solutions Software Program enables colleges and universities to link access control of their recreation facilities with the university ID card, process memberships, issue recreation equipment and obtain utilization reports for multiple recreation facilities. The system is cost-effective to implement and is user-friendly for employees and provides accurate and timely information for recreation administrators. We have provided Virginia Commonwealth University with two of our Secured Card software solutions - the "Secured Recreational Sports Solution" and "The Secured Card Solution". "The Secured Recreational Sports Solution" which currently serves Virginia Commonwealth University from three locations offering a variety of fitness, aquatics and intramurals. The activities are offered to all students, faculty, and university and hospital employees. The Secured Recreational Sports Solution's database is integrated with the Virginia Commonwealth University card database for single university identification. The Secured Recreational Sports Solution handles all check-in of members, locker assignment and equipment check-in and check-out. It also keeps track of member billing and payroll deduction and handles member suspensions and automatic emailing of special events. The Secured Sports Recreation Solution application is written using the new Microsoft.NET architecture. We have also entered into a services and support agreement with Florida International University for the installation, support and use of our Secured Recreational Sports Solution.

Edgar Filing: FINX GROUP INC - Form 10KSB/A

Marketing

We are marketing GIL 2001 Portal Control System directly through sales consultants and through channel marketing relationships that we have recently secured. We have resale agreements with Northrop Grumman Mission Systems and Lockheed Martin Mission Systems, which give us significant access and existing in-roads for the department of defense and other governmental customers. Georal International, Ltd. has installed the GIL-2001 at the Department of Justice in Washington, DC, Rikers Island Prison, Citi Corp.'s Data Center and Exodus Communications Corp.

We are marketing the Secured Card Solutions Software Program directly to universities across the United States. We have installed our Secured Recreational Sports Management Solution at Virginia Commonwealth University and at Florida International University.

3

Competition

Although there are two direct competitors (Tonali and Secure Access Portals, Inc.), we believe that our product has the following key advantages: (1) significantly higher throughput, meaning more people can use the system per hour than our competitors; (2) U.S. State Department Certification; (3) it is domestically manufactured; and, (4) we have broad patent protection on the Georal portal.

Although there are many product offerings for Card Control Access, we believe that we are developing a niche industry by focusing on the colleges and universities sports recreation facilities. Our upcoming WEB Based Secured Recreational Sports Management Solution will mimic the existing program's capabilities on an internet browser using Microsoft.NET architecture and will further solidify our leadership role in our market niche.

Employees

The Finx Group, Inc. holding company currently employs two individuals who are its executive officers. Our remaining functions are provided by independent consultants

RISK FACTORS

We Have a History of Losses and Cash Flow Deficits

We have incurred significant operating losses during each of the two years ended December 2003 and as of December 31, 2003 we have a capital deficiency of \$5.158 million. We expect to incur additional losses during the time period in which we are developing products and markets for our subsidiaries and we cannot be assured of when, if ever, our operations will become profitable or the extent of any future profitability. We also cannot be assured that the current trends of negative cash flow and increased losses and expenses (including compensation expense charges that may result from the issuance of our securities in the future) will not continue or, if so, for how long.

The Market for Our Common Stock is Limited

Currently, our common stock trades on the National Association of Securities Dealers Automated Quotation System Over-the-Counter Bulletin Board (the "NASDAQ Bulletin Board"). By its nature, the NASDAQ Bulletin Board is a limited market and investors may find it more difficult to dispose of our

Edgar Filing: FINX GROUP INC - Form 10KSB/A

securities, which are owned by them. Currently, we do not meet the financial and other requirements for a NASDAQ SmallCap, listing. Apart from specific financial criteria that we would have to comply with in order to obtain such listing, there are other corporate governance criteria that must be satisfied in order to obtain any such listing. Among such corporate governance requirements is the requirement that there be no disparity in the voting rights of the holders of the common stock. At the present time, The Trinity Group-I, Inc. owns all of the outstanding shares of our Series A preferred stock. The holder of our Series A preferred stock has the right to elect a majority of the Board of Directors. The NASDAQ may consider the issuance of the Series A preferred stock as a violation of their voting rights rules and policy. The failure to comply with NASDAQ's voting rights rules or policy or any of its other applicable regulations relating to transactions engaged in by us may result in sanctions. Any such actions by NASDAQ could further limit the market for our common stock.

Trading in Our Securities May Be Restricted Due to Compliance with Applicable Penny Stock Regulations

Broker-dealer practices in connection with transactions in "penny stocks" are regulated by certain penny stock rules and regulations adopted by the SEC. Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on NASDAQ provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system). The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. These rules also impose additional sales practice requirements on broker-dealers which sell such securities to persons other than established customers or institutional accredited investors. For transactions covered by this rule, broker-dealers must also make a special suitability determination for the purchaser and receive the purchaser's written consent to the transaction prior to a sale. Consequently, the application of this rule to the trading of our common stock may affect the ability or willingness of broker-dealers to sell our securities and adversely affect market liquidity for such securities.

4

Our Company is Subject to Control by a Principal Stockholder

Trinity Group-I, Inc. has advanced significant funds to us and our subsidiaries and owns a controlling interest in our equity. The Trinity Group-I, Inc. is solely owned by Lewis S. Schiller, our Chairman of the Board and Chief Executive Officer. All of the shares of The Trinity Group-I, Inc. owned by Lewis S. Schiller are pledged to an entity controlled by Carol Schiller, the wife of Lewis S. Schiller. In addition, Douglas Schiller, Linda Schiller and Blake Schiller, the adult children of Lewis S. and Carol Schiller, own interests in our outstanding common stock. In addition, The Trinity Group-I, Inc. and Grazyna B. Wnuk owns all of our outstanding Series B preferred stock, which is convertible into approximately 739,450,000 shares of our common stock. The Trinity Group-I, Inc. also owns all of our Series A preferred stock which gives it the right to elect a majority of our Board of Directors. This concentration of ownership and voting rights could delay or prevent a change of control. In addition, Lewis S. Schiller could elect to sell all, or a substantial portion, of his equity interest in The Trinity Group-I, Inc. to a third party. In the event of such a sale by Mr. Lewis S. Schiller, such third party may be able to control our affairs in the same manner that Lewis S. Schiller is able to do so by virtue of his ownership of The Trinity Group-I, Inc. Any such sale may adversely affect the market price of our common stock and could adversely affect

Edgar Filing: FINX GROUP INC - Form 10KSB/A

our business, financial condition or results of operations.

A Significant Portion of the Net Proceeds of Any Potential Financing May Be Used for the Payment of Related Party and Other Indebtedness and for Salaries of Executives and Key Personnel

The Trinity Group-I, Inc. and Lewis S. Schiller have advanced significant funds to us. Also, Lewis S. Schiller and Grazyna B. Wnuk are owed accrued salaries as of December 31, 2003 of approximately \$2.7 million. A portion of the proceeds of any potential financing may be used to repay some or all of the amounts owe to these related parties. In addition, it is possible that a substantial portion of the proceeds from any potential financing would be allocated for general corporate purposes, including working capital, would be used to pay the salaries of certain of our officers and other key personnel and consultants.

We Require Additional Financing for Our Business Activities

We currently have limited operating capital and our inability to obtain a significant financing may adversely affect our business and no assurances are made that any such financing will occur, or that if any financing is completed, that additional financing will not be required.

We Have Granted Significant Benefits Under Certain Existing and Proposed Employment Agreements

Lewis S. Schiller, our Chairman of the Board and Chief Executive Officer, and Grazyna B. Wnuk, our Vice President, Secretary and a Director have employment agreements with us. These employment agreements provide significant benefits to each of them. The terms of these agreements were determined by our management, who are also parties to these agreements.

Rapid Technological Change Could Render Certain of Our Products and Proposed Products Obsolete or Non-Competitive

Major technological changes can occur rapidly in the security industries. It is entirely possible that newer technologies, techniques or products will be developed with more capabilities and better performance than our present and proposed products. The development by competitors of new or improved technologies, techniques or products may make our present or planned products obsolete or non-competitive.

We Cannot Predict Market Acceptance for Our Proposed Products

All of our security products that we currently offer and may develop in the future may not gain market acceptance. The degree of acceptance of our existing security products and any security products that we may develop in the future will depend upon numerous factors, including demonstration of the advantages, uniqueness and reliability of such products, their cost effectiveness, the potential barriers to market entry by alternative products, marketing and distribution support and the financial ability and credibility of such entities.

The Business in Which We Are Engage in May Be Subject to Intense Competition

We may face intense competition from numerous companies which are developing, producing and marketing products for securing access to buildings and facilities which will directly compete with our products. We intend to distribute a security access or entrance system to customers which include government and other

institutional purchasers who have been serviced by vendors, which have established and tested security products and systems that have become recognized and accepted in this industry. The type of security system that we will offer to our customers is subject to technological change and compliance with product specifications established by our intended customers. New entrants in this industry must establish product reliability through testing and use in order to gain widespread commercial acceptance of such products. Many of our potential competitors may have greater financial, technical, personnel and other resources than we do and that we expect to have in the foreseeable future. We cannot provide any assurances that we will be able to compete effectively with any of such competitors.

The Board of Directors May Issue Additional Preferred Stock in the Future

We are authorized to issue up to 1,000,000 shares of preferred stock, \$.01 par value (the "Preferred Stock"). The Preferred Stock may be issued in one or more series, the terms of which may be determined at the discretion of our Board of Directors, without further approval of the stockholders. Among the rights of the holders of any additional Preferred Stock that may be authorized by the Board of Directors are rates of dividends, voting rights, terms of redemption, amounts payable upon liquidation, sinking fund provisions and conversion rights. One of the effects of any such additional Preferred Stock that may be issued in the future may be to enable the Board of Directors to render more difficult or to discourage an attempt to obtain control of the Company by means of a tender offer, proxy contest, merger or otherwise and thereby protect the continuity of our current management. The terms of any such additional Preferred Stock that may be issued in the future could adversely affect the rights of the holders of common stock. Accordingly, the issuance of any such shares of Preferred Stock may discourage bids for the common stock or adversely affect the market price of the common stock.

A Substantial Number of Our Shares of Common Stock Will Be Available for Future Sale in the Public Market

As of April 13, 2003, approximately 114 million shares of our outstanding common stock are "restricted securities" as that term is defined in Rule 144 promulgated under the Securities Act and in the future may be sold only pursuant to an effective Registration Statement under the Securities Act, in compliance with the exemption provisions of Rule 144 or pursuant to another exemption under the Securities Act. Furthermore, any shares that are issued upon the exercise of any outstanding warrants or options will be eligible for sale, without registration under Rule 144 (subject to the aforementioned volume restrictions of the Rule) following the expiration of two years from the date of issuance.

We Do Not Intend to Pay Any Dividends on the Common Stock in the Foreseeable Future

We currently intend to retain all future earnings, if any, to finance our current and proposed business operations and we do not anticipate paying any cash dividends on our common stock in the foreseeable future. The holder of our Preferred Stock have rights senior to the holders of common stock with respect to any dividends. We may also incur indebtedness in the future that may prohibit or effectively restrict the payment of cash dividends on our common stock.

The Liability of Our Officers and Directors to Us and Our Shareholders is Limited

The applicable provisions of the Delaware Business Corporation Law and

Edgar Filing: FINX GROUP INC - Form 10KSB/A

our Certificate of Incorporation limit the liability of our officers and directors to us or our shareholders for monetary damages for breaches of their fiduciary duties to us, with certain exceptions, and for other specified acts or omissions of such persons. In addition, the applicable provisions of the Delaware Business Corporation Law and of our Certificate of Incorporation and By-Laws provide for indemnification of such persons under certain circumstances. As a result of these provisions, shareholders may be unable to recover damages against our officers and directors for actions taken by them which constitute negligence, gross negligence or a violation of their fiduciary duties and may otherwise discourage or deter our shareholders from suing our officers or directors even though such actions, if successful, might otherwise benefit us and our shareholders.

Dependence on a Key Supplier

Georal International, Ltd. is the sole supplier of our primary security product pursuant to a license which expires on August 31, 2014. Should Georal International, Ltd. experience difficulty in providing product in a timely manner, this could adversely affect our revenues and reputation in the market. Additionally, the failure on the part of Georal International, Ltd. to develop and manufacture or supply new or enhanced products that meet or anticipate technological changes on a timely and cost-competitive basis could have a materially adverse effect on our financial condition and results of operations.

6

Reliance on Management and Key Personnel and Consultants

While investors have voting rights, they will not be able to take a direct role in the management of our operations. Our success is contingent on the judgment and expertise of our directors and officers and on our being able to attract and retain a senior management team, some of who are approaching retirement age. Our success will also depend to a significant extent upon the skills of certain key personnel and consultants. Our failure to attract replacement or additional qualified employees or to retain the services of key personnel or consultants could adversely affect our business.

We Could Be Subject to Potential Uninsured Liability

We intend to obtain liability, property and business interruption insurance. We may not have sufficient funds with which to purchase and/or maintain such insurance. We plan to operate in a professional and prudent manner to reduce potential liability. Nevertheless, an uninsured claim against us, if successful and of sufficient magnitude could have a material adverse effect on us. In addition, the lack of or the inability to obtain insurance of the type and in the amounts required could impair our ability to enter into certain contracts, which may be, in certain instances, conditioned upon the availability of adequate insurance coverage.

Item 2. Description of Properties.

Our executive offices are located in Boca Raton, Florida in space provided by an executive officer. Our independent consultants perform work for us out of their own offices located throughout the United States.

Item 3. Legal Proceedings.

Although the Company is a party to certain legal proceedings that have occurred in the ordinary course of business, it does not believe such proceedings to be of a material nature with the exception of the following item.

Edgar Filing: FINX GROUP INC - Form 10KSB/A

On or about April 8, 2002, a complaint styled "Law Offices of Jerold K. Levien, against The Finx Group, Inc. f/k/a Fingermatrix, Inc., The Trinity Group-I, Inc." was filed in the Supreme Court of the State of New York County of New York, and the plaintiff has received a judgment for \$334,595, such amount having been accrued on the Company's books, plus interest.

Item 6. Management's Discussion and Analysis of Financial Condition and Results of Operations.

THIS MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS MAY BE DEEMED TO INCLUDE FORWARD-LOOKING STATEMENTS WITHIN THE MEANING OF SECTION 27A OF THE SECURITIES ACT OF 1933, AS AMENDED, AND SECTION 21E OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED, THAT INVOLVE RISK AND UNCERTAINTY. ALTHOUGH MANAGEMENT BELIEVES THAT ITS EXPECTATIONS ARE BASED ON REASONABLE ASSUMPTIONS, IT CAN GIVE NO ASSURANCE THAT ITS EXPECTATIONS WILL BE ACHIEVED.

THE IMPORTANT FACTORS THAT COULD CAUSE ACTUAL RESULTS TO DIFFER FROM THOSE IN THE FORWARD-LOOKING STATEMENTS HEREIN (THE "CAUTIONARY STATEMENTS") INCLUDE, WITHOUT LIMITATION: WE HAVE A HISTORY OF LOSSES AND CASH FLOW DEFICITS; THE MARKET FOR OUR COMMON STOCK IS LIMITED; TRADING IN OUR SECURITIES MAY BE

Edgar Filing: FINX GROUP INC - Form 10KSB/A

RESTRICTED DUE TO COMPLIANCE WITH APPLICABLE PENNY STOCK REGULATIONS; OUR COMPANY IS SUBJECT TO CONTROL BY A PRINCIPAL STOCKHOLDER; A SIGNIFICANT PORTION OF THE NET PROCEEDS OF ANY POTENTIAL FINANCING MAY BE USED FOR THE PAYMENT OF RELATED PARTY AND OTHER INDEBTEDNESS AND FOR SALARIES OF EXECUTIVES AND KEY PERSONNEL; WE REQUIRE ADDITIONAL FINANCING FOR OUR BUSINESS ACTIVITIES; WE HAVE GRANTED SIGNIFICANT BENEFITS UNDER CERTAIN EXISTING AND PROPOSED EMPLOYMENT AGREEMENTS; RAPID TECHNOLOGICAL CHANGE COULD RENDER CERTAIN OF OUR PRODUCTS AND PROPOSED PRODUCTS OBSOLETE OR NON-COMPETITIVE; WE CANNOT PREDICT MARKET ACCEPTANCE FOR OUR PROPOSED PRODUCTS; THE BUSINESS IN WHICH WE INTEND TO ENGAGE IN IS SUBJECT TO INTENSE COMPETITION; THE BOARD OF DIRECTORS MAY ISSUE ADDITIONAL PREFERRED STOCK IN THE FUTURE; A SUBSTANTIAL NUMBER OF OUR SHARES OF COMMON STOCK WILL BE AVAILABLE FOR FUTURE SALE IN THE PUBLIC MARKET; WE DO NOT INTEND TO PAY ANY DIVIDENDS ON THE COMMON STOCK IN THE FORESEEABLE FUTURE; THE LIABILITY OF OUR OFFICERS AND DIRECTORS TO US AND OUR SHAREHOLDERS IS LIMITED; DEPENDENCE ON KEY SUPPLIER; RELIANCE ON MANAGEMENT, KEY PERSONNEL AND CONSULTANTS; WE COULD BE SUBJECT TO POTENTIAL UNINSURED LIABILITY, THE RISKS RELATING TO LEGAL PROCEEDINGS AND OTHER FACTORS BOTH REFERENCED AND NOT REFERENCED IN THIS ANNUAL REPORT ON FORM 10-KSB, INCLUDING THOSE SET FORTH UNDER "RISK FACTORS." ALL SUBSEQUENT WRITTEN AND ORAL FORWARD-LOOKING STATEMENTS ATTRIBUTABLE TO THE COMPANY OR PERSONS ACTING ON ITS BEHALF ARE EXPRESSLY QUALIFIED IN THEIR ENTIRETY BY THE CAUTIONARY STATEMENTS. THE COMPANY DOES NOT UNDERTAKE ANY OBLIGATION TO RELEASE PUBLICLY ANY REVISIONS TO SUCH FORWARD-LOOKING STATEMENTS TO REFLECT EVENTS OR CIRCUMSTANCES AFTER THE DATE HEREOF OR TO REFLECT THE OCCURRENCE OF UNANTICIPATED EVENTS.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make assumptions, estimates and judgments that affect the amounts reported in the financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any. We consider our critical accounting policies to be those that require the more significant judgments and estimates in the preparation of our financial statements, including the following: impairment of long-lived assets, including the valuation of the exclusive license agreement; accounting for expenses in connection with stock options and warrants; and accounting for income taxes. Our management relies on historical experience and on other assumptions believed to be reasonable under the circumstances in making its judgment and estimates. Actual results could differ materially from those estimates. There have been no significant changes in assumptions, estimates and judgments in the preparation of these financial statements from the assumptions, estimates and judgments used in the preparation of our prior year's audited financial statements.

Results of Operations

Revenues

In September 2002 we made a decision to focus our business exclusively on our Security Systems business and on October 18, 2002 we disposed of all non security system segments. Currently, our primary source of future revenues, if any, will be generated under our Georal license for the sale of Georal security products, including the

GIL-2001 security door. Potential revenues may be generated from the marketing and distribution of the Georal security products to both those customers for which we have exclusive distribution rights and to others as to which we have non-exclusive rights. In December of 2002 TRW, Inc., now operating as Northrop

Edgar Filing: FINX GROUP INC - Form 10KSB/A

Grumman Mission Systems, agreed to market and distribute the Georal security products. In March of 2003, Lockheed Martin Mission Systems also agreed to market and distribute the Georal security products. In April 2003, we entered into reciprocal marketing agreements with Advanced Biometric Security, Inc. ("ABS") which provide both us and ABS with non-exclusive marketing rights for each others security product lines. In July 2003, we entered into a representation agreement with Thacher Associates, LLC, who will market our security products. Many of the customers to whom we will seek to market the Georal security systems will be domestic and foreign government purchasers or commercial users. On December 11, 2001, the GIL-2001 security door received certification from the U.S. State Department necessary for its possible procurement for use in U.S. embassies, consulates and other governmental installations both in the U.S. and abroad. In October 2002, Georal International, Ltd. received broad patent approval for its security entrance system from the United States Patent Trademark Office (Patent 6,472,984). The patent received by Georal International, Ltd. covers the secured portal which is the subject of the Georal license and may provide barriers to entry and possibly eliminate competition from other portal manufacturers.

Our original marketing strategy was focused solely on sales of the GIL-2001 security door to the U.S. State Department. In 2002, we expanded our marketing efforts to include all customers under the exclusive distribution agreement and have built a sales team for such purpose. We recognize that on our own, we face competition from companies which have far greater financial resources and personnel which is why we made the strategic decision to establish our marketing channel relationships with large organizations, including Northrop Grumman Mission Systems and Lock Martin Mission Systems. Although we believe that we have a unique product and that the GIL-2001 security door is the only product of its type that is certified by the U.S. State Department, we give no assurances that we will be able to generate meaningful revenues using our Georal license.

We also offer Secured Card Solutions from our development and sale of software programs for Device Management and Smart Card applications. We have provided Virginia Commonwealth University with two of our Secured Card software solutions - the "Secured Recreational Sports Solution" and "The Secured Card Solution". "The Secured Recreational Sports Solution" which currently serves Virginia Commonwealth University from three locations offering a variety of fitness, aquatics and intramurals. The activities are offered to all students, faculty, and university and hospital employees. The Secured Recreational Sports Solution's database is integrated with the VCU card database for single university identification. The Secured Recreational Sports Solution handles all check-in of members, locker assignment and equipment check-in and check-out. It also keeps track of member billing and payroll deduction. Further, it handles member suspensions and automatic emailing of special events. The Secured Sports Recreation Solution application is written using the new Microsoft.NET architecture. We have also entered into a services and support agreement with Florida International University for the installation, support and use of our Secured Recreational Sports Solution. During 2003 and 2002, we generated revenues of \$36,000 and \$6,000, respectively, from Secured Card Solutions contracts.

Operating Expenses

For both 2003 and 2002 our significant operating expenses were executive payroll, and marketing expense and professional fees. Executive payroll is currently \$723,000 annually. As of December 31, 2003, none of the salary owed to Lewis S. Schiller, our chief executive officer, has been paid and he is owed cumulative salary of \$2 million. As of December 31, 2003, \$66,000 of salary owed to Grazyna B. Wnuk, our vice-president, has been paid and she is owed cumulative salary of \$727,000. Expenses associated with our marketing, which currently are \$1.1 million on an annual basis, represent consulting fees

Edgar Filing: FINX GROUP INC - Form 10KSB/A

for the consultants who perform such functions. Professional fees for legal and accounting services currently approximate \$500,000 annually.

The value assigned to the Georal License of approximately \$3 million was incurred in 2002 and is being amortized over of the life of the Georal License resulting in ongoing annual amortization expense of \$245,000. Such amortization for 2003 and 2002 was \$245,000 and \$130,000, respectively.

During 2003 and 2002, we have compensated our employees and consultants with stock options and stock grants that have been registered on Form S-8 and unregistered stock purchase warrants. During 2003 and 2002 stock based compensation was \$4.042 million and \$2.264 million, respectively.

We incur interest expense at an annual rate of 9% on related party notes payable. For 2003 and 2002 interest expenses on related party notes payable was \$107,000 and \$119,000, respectively.

As a result of our decision to focus our business exclusively on our Security Systems business we disposed of all non security system segments resulting in a loss on disposal of \$9,000 for 2003 and a gain on disposal of \$1.4

9

million for 2002. The income (loss) from the operations of discontinued segments was \$13,000 for 2003 and \$(367,000) for 2002.

Financial Condition - Liquidity and Capital Resources

As of December 31, 2003, our working capital deficiency approximates \$7.8 million, representing an increase of \$1.1 million from December 31, 2002. Effective September 30, 2002, Lewis S. Schiller, the Company's chief executive officer and chairman of the board, agreed to defer payment of his salary until January 1, 2004, and Trinity, the Company's largest stockholder which is wholly owned by Mr. Schiller, agreed to defer, until January 1, 2004, payment of accrued interest on notes payable to Trinity and payment of accrued dividends on preferred stock held by Trinity. Such amounts were presented as long-term liabilities as of December 31, 2002. As of December 31, 2003, the remaining deferral period is less than twelve months and such amounts are presented as current liabilities. During 2003 we used \$849,000 for our continuing operating activities. Sources of funds for 2003 were net advances from related parties of \$489,000 and proceeds from the exercise of stock options of \$352,000.

Since April 1999, our primary source of funding has been Trinity. From April 7, 2003 through August 4, 2003, Trinity entered into four separate loan agreements pursuant to which it received loans of \$335,000 from nonaffiliated lenders. Substantially all of such funds were advanced by Trinity to the Company. Pursuant to the loan agreements, Trinity pledged an aggregate of 5,747 shares of the Company's series B 8% voting redeemable convertible preferred stock owned by Trinity. Each share of Series B preferred stock is convertible into shares of common stock as calculated by dividing \$100 by the lowest price that the Company's shares of Common Stock have traded during the period that the series B preferred stock has been outstanding. As of September 3, 2003 each share of series B preferred stock was convertible into 47,619 shares of common stock. Trinity defaulted on all of such loans and the 5,747 shares of pledged series B preferred stock held by the lenders were converted into 237,190,476 shares of common stock and were transferred to the lenders.

At the time of each of the loans to Trinity by the non-affiliated lenders, Trinity lent the Company a substantial portion of the principal amount

Edgar Filing: FINX GROUP INC - Form 10KSB/A

of the loan at 9% interest. Trinity defaulted on its loans to the lenders as a result of the Company's default on its loan to Trinity. When the lenders called the note and foreclosed on the collateral, Trinity cancelled the Company's note to it in exchange for shares of series B preferred stock equal to the number of such shares as Trinity transferred to the lenders. As a result of the defaults by the Company and Trinity, the Company issued to Trinity 5,747 shares of series B preferred stock, which is the same number of shares as Trinity converted and transferred to the lenders.

On March 17, 2003, the Company issued to Grazyna B. Wnuk, an officer and director, 9,006,976 shares of its common stock in payment for expenses of \$34,000, which she paid on behalf of the Company, the approximate value of the shares issued.

Pursuant to the terms of the September 30, 2002 stock purchase agreement to sell Sequential Electronic Systems, Inc. and S-Tech, Inc., we have agreed to indemnify Lewis S. Schiller for any claims made against him regarding \$1.1 million of delinquent payroll taxes owed by Sequential Electronic Systems, Inc. and S-Tech, Inc. at the time of their disposal. A reserve of \$550,000 has been recorded by management based upon our best estimate of the ultimate liability. In addition, pursuant to separate indemnification agreements, the Company has agreed to indemnify Grazyna B. Wnuk and the former president of S-Tech for any claims made against them regarding the delinquent payroll taxes.

The accompanying unaudited interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. However, we have generated nominal revenues and we have a history of operating losses and as of December 31, 2003 have a working capital deficiency of \$7.8 million and a capital deficiency of \$5.2 million. Management is currently seeking additional financing; however we can give no assurance that such financing will be consummated or that any financing which we receive will be adequate. Further, in view of our stock price, any financing is likely to result in substantial dilution to our stockholders. Our continuation in business is dependent upon our ability to obtain financing, and to use the proceeds from any such financing to increase our business to achieve profitable operations. The accompanying consolidated financial statements do not include any adjustments that would result should we be unable to continue as a going concern.

Edgar Filing: FINX GROUP INC - Form 10KSB/A

On October 18, 2002, pursuant to the terms of a stock purchase agreement among The Finx Group, Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc. and Trinity Group Acquisition Corp. dated as of September 30, 2002 (the "Sequential and S-Tech Stock Purchase Agreement"), Trinity Group Acquisition Corp. agreed to purchase 100% of the issued and outstanding capital of Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc. from The Finx Group for one dollar (\$1) and The Finx Group agreed to cancel approximately \$2.3 million of principal and interest owed by Sequential Electronic Systems, Inc. and S-Tech, Inc. to The Finx Group. Defense Manufacturing Systems, Inc. was wholly owned by The Finx Group but had no operating activities since its organization. Trinity Group Acquisition Corp. is wholly owned by Lewis S. Schiller, the Company's Chief Executive Officer and Chairman of the Board. As of the date of the Sequential and S-Tech Stock Purchase Agreement, Sequential Electronic Systems, Inc. and S-Tech, Inc. had aggregate assets of \$1.2 million and aggregate liabilities of \$2.4 million, excluding the \$3.1 million owed to the Company. The aggregate liabilities included \$1.1 million of delinquent payroll taxes and we have agreed to indemnify Lewis S. Schiller for any claims made against him regarding such delinquent payroll taxes and in connection therewith have reserved \$550,000 of such payroll taxes against the gain on disposal of Sequential Electronic Systems, Inc. and S-Tech, Inc. The Trinity Group-I, Inc. is the Company's controlling shareholder and both The Trinity Group-I, Inc. and Trinity Group Acquisition Corp. are wholly owned by Lewis S. Schiller, and the Sequential and S-Tech Stock Purchase Agreement was not consummated at arms-length. However, we believe that because the transaction will reduce the Company's liabilities by approximately \$1.8 million that such transaction is in the Company's best interests. As a result of the disposal of Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc., the net reduction in the Company's liabilities approximated \$1.8 million and the gain on disposal which approximated \$458,000 was recorded as an addition to paid-in capital because the transaction was consummated with the controlling stockholder of the Company.

As of May 7, 2001, Trinity had advanced the Company approximately \$3.7 million in order to fund its operations. On May 7, 2001, Trinity exchanged \$1.5 million of such related party debt for 7,500,000 shares of Common Stock, representing \$0.20 per share, the fair market value of the Common Stock on May 7, 2001 and exchanged an additional \$2 million of related party debt into 20,000 shares of Series B 8% Voting Redeemable Convertible Preferred Stock (the "Series B Preferred Stock") whereby each share of Series B Preferred Stock represents \$100 of exchanged related party debt and each share of Series B Preferred Stock is convertible into shares of Common Stock as calculated by dividing \$100 by the lowest price that the Company's shares of Common Stock have traded during the period that the Series B Preferred Stock has been outstanding.

From April 7, 2003 through August 4, 2003, Trinity entered into four separate loan agreements pursuant to which it received loans of \$335,000 from nonaffiliated lenders. Substantially all of such funds were advanced by Trinity to the Company. Pursuant to the loan agreements, Trinity pledged an aggregate of 5,747 shares of the Company's series B 8% voting redeemable convertible preferred stock owned by Trinity. Each share of Series B preferred stock is convertible into shares of common stock as calculated by dividing \$100 by the lowest price that the Company's shares of Common Stock have traded during the period that the series B preferred stock has been outstanding. As of September 3, 2003 each share of series B preferred stock was convertible into 47,619 shares of common stock. Trinity defaulted on all of such loans and the 5,747 shares of pledged series B preferred stock held by the lenders were converted into 237,190,476 shares of common stock and were transferred to the lenders.

At the time of each of the loans to Trinity by the non-affiliated lenders, Trinity lent the Company a substantial portion of the principal amount of the loan at 9% interest. Trinity defaulted on its loans to the lenders as a result of the Company's default on its loan to Trinity. When the lenders called

Edgar Filing: FINX GROUP INC - Form 10KSB/A

the note and foreclosed on the collateral, Trinity cancelled the Company's note to it in exchange for shares of series B preferred stock equal to the number of such shares as Trinity transferred to the lenders. As a result of the defaults by the Company and Trinity, the Company issued to Trinity 5,747 shares of series B preferred stock, which is the same number of shares as Trinity converted and transferred to the lenders.

In addition, during the nine months ended September 30, 2003, Trinity converted an aggregate of 1,560 shares of Series B Preferred Stock into an aggregate of 39,000,000 shares of common stock.

The Finx Group, Inc. and Subsidiaries
Consolidated Financial Statements
December 31, 2003

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Stockholders of
The Finx Group, Inc.
Boca Raton, Florida

We have audited the accompanying consolidated balance sheet of The Finx Group, Inc., and its subsidiaries, as of December 31, 2003, and the related consolidated statements of operations, changes in capital deficiency, and cash flows for each of the two years in the period ended December 31, 2003. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of The Finx Group, Inc and its subsidiaries as of December 31, 2003, and the consolidated results of their operations and their cash flows for each of the two years in the period ended December 31, 2003, in conformity with U.S. generally accepted accounting principles.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements; (1) the Company has a history of net losses for the two years ended December 31, 2003, (2) as of December 31, 2003 the Company has a working capital deficiency of \$7.8 million and a capital deficiency of \$5.2 million and (3) the Company has relied on continuing financial support from its controlling stockholder. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans regarding these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to Consolidated Financial Statements
December 31, 2003 and 2002

1. Summary of Significant Accounting Policies

Organization

On June 6, 2000 The Finx Group, Inc. was organized as a Delaware corporation. Effective June 30, 2000, Fingermatrix, Inc., the predecessor company was merged into The Finx Group, Inc. The Finx Group, Inc. has controlling interests in Secured Portal Systems, Inc., which was incorporated in Delaware on August 11, 1999, and Granite Technologies Acquisition Corp., which was incorporated in Delaware on May 15, 2001. Throughout this document The Finx Group, Inc. and its subsidiaries may be collectively referred to as "The Finx Group", the "Company" or the "Registrant".

Nature of Operations

In September 2002, the Company's Board of Directors approved a plan to focus the Company's business exclusively on its security systems business and on October 18, 2002 the Company disposed of all non security system business segments. The Company's primary source of future revenues, if any, is expected to be generated under its exclusive license agreement (the "Georal License") with GIL Security Systems, Inc. ("GIL"). GIL is a subsidiary of Georal International, Ltd. ("Georal") and holds all world-wide rights related to the intellectual property related to the GIL security systems, including trademarks, patents and technology, as licensed to it by Alan J. Risi, the controlling owner of both GIL and Georal. GIL is engaged in the manufacture and sale of security entrance systems for use as a security device by a variety of customers at airports, federal buildings, court houses, embassies, correctional facilities, schools, governmental operations, department stores and other retail outlets (the "Georal Security Products"). The Georal License gives us distribution rights for the sale of all of the Georal Security Products, including all models of the GIL-2001 security door, to specified categories of customers. The Company may market and distribute the Georal Security Products to both those customers for which it has exclusive distribution rights and to others as to which it has non-exclusive rights.

On December 13, 2002 the Company entered into a memorandum of understanding incorporating a reseller agreement with TRW, Inc., which has been acquired by Northrop Grumman Corp. and is now operating as Northrop Grumman

Edgar Filing: FINX GROUP INC - Form 10KSB/A

Mission Systems. The agreement gives Northrop Grumman Mission Systems the right to market Georal Security Products to the Federal Government and other significant commercial opportunities. On March 26, 2003, the Company entered into a distribution and marketing agreement with Lockheed Martin. The agreement gives Lockheed Martin worldwide rights to market the Georal Security Products. In April 2003, the Company entered into reciprocal marketing agreements with Advanced Biometric Security, Inc. ("ABS") which provide both the Company and ABS with non-exclusive marketing rights for each others security product lines. ABS provides enterprise software and services related to identity management and the security of physical and logical assets. Many of the customers to whom the Company will seek to market the Georal Security Systems will be domestic and foreign government purchasers as well as commercial users. On December 11, 2001, the GIL-2001 security door received certification from the U.S. State Department necessary for its possible procurement for use in U.S. embassies, consulates and other governmental installations both in the U.S. and abroad. In October 2002, Georal received broad patent approval for its security entrance system from the United States Patent Trademark Office (Patent 6,472,984). The patent received by Georal covers the secured portal which is the subject of the Georal License.

The Company also sells from its sale of software programs for device management and smart card applications ("Secured Card Solutions"). The Company has provided Virginia Commonwealth University with two of its Secured Card Solutions - the "Secured Recreational Sports Solution" and "The Secured Card Solution". The Secured Recreational Sports Solution, which currently serves Virginia Commonwealth University ("VCU") from three locations offering a variety of fitness, aquatics and intramurals. The activities are offered to all students, faculty, and university and hospital employees. The Secured Recreational Sports Solution's database is integrated with the VCU card database for single university identification. The Secured Recreational Sports Solution handles all check-in of members, locker assignment and equipment check-in and check-out. It also keeps track of member billing and payroll deduction. Further, it handles member suspensions and automatic emailing of special events. The Secured Sports Recreation Solution application is written using the new Microsoft.NET architecture. Basis of Presentation

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. However, the Company has a history of net losses for the two years ended December 31, 2003 and as of December 31, 2003 has a working capital deficiency of \$7.785 million and a capital deficiency of \$5.158 million. During 2003 and 2002 the Company has relied on financial support from its controlling stockholder, Trinity Group-I, Inc. ("Trinity") and other related parties and since September 25, 2001 has compensated its employees and key consultants with stock options of which some were registered on Form S-8. Management is currently seeking additional financing; however no assurances can be made that such financing will be consummated. The continuation of the Company as a going concern is dependent upon its ability to obtain financing, and to use the proceeds from any such financing to increase its business to achieve profitable operations. The accompanying consolidated financial statements do not include any adjustments that would result should the Company be unable to continue as a going concern.

Edgar Filing: FINX GROUP INC - Form 10KSB/A

Principles of Consolidation

The consolidated financial statements include the accounts of The Finx Group, Inc. and its subsidiaries for which it has direct voting control or effective control. All material intercompany balances and transactions are eliminated in consolidation.

Use of Estimates

In preparing the consolidated financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Some of the more significant estimates include the carrying value of the Company's exclusive license, and patents and their amortization.

Cash

The Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents. The Company has no such investment at December 31, 2003.

Furniture, Fixtures and Equipment

Furniture, fixtures and equipment are recorded at cost. Depreciation is provided on the straight-line basis over the useful lives of the assets, which range from three to seven years. Improvements that extend the useful lives of the assets are capitalized while costs of repairs and maintenance are charged to expense as incurred. As of December 31, 2003, the Company's furniture, fixtures and equipment, having a cost basis of \$90,000 are fully depreciated. Depreciation expense during 2002 was \$22,000.

Impairment

Certain long-term assets of the Company are reviewed when changes in circumstances require as to whether their carrying value has become impaired, pursuant to guidance established in Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." Management considers assets to be impaired if the carrying value exceeds the future projected cash flows from related operations [undiscounted and without interest charges]. If impairment is deemed to exist, the asset will be written down to fair value. Management also reevaluates the period of amortization to determine whether subsequent events and circumstances warrant revised estimates of useful lives. As of December 31, 2003, management expects those assets related to its continuing operations to be fully recoverable.

Revenue Recognition

The Company recognizes revenues when a product is shipped, and from services when performed.

Income Taxes

The Company accounts for income taxes using the asset and liability approach. The measurement of deferred tax assets is reduced, if necessary, by the amount of any tax benefits that, based on available evidence, management does not expect to be realized.

Basic and Diluted Loss Per Share

Basic and diluted per share results for all periods presented were computed based on the net earnings or loss for the respective periods. The weighted average number of common shares outstanding during the period was used in the calculation of basic earnings (loss) per share. In accordance with FAS 128, "Earnings Per Share," the weighted average number of common shares used in the calculation of diluted per share amounts is adjusted for the dilutive effects of stock options based on the treasury stock method and the assumed conversion of convertible preferred stock only if an entity records earnings from continuing operations (i.e., before discontinued operations), as such adjustments would otherwise be anti-dilutive to earnings per share from continuing operations. As a result of the Company recording a loss from continuing operations, the average number of common shares used in the calculation of diluted loss per share have not been adjusted for the effects of 1,462,361 potential common shares from unexercised stock options and warrants and 739,542,000 potential common shares from unconverted preferred shares. Such warrants, options and shares of convertible preferred stock may dilute earnings per share in the future.

Fair Value of Financial Instruments

SFAS No. 107, "Disclosure About Fair value of Financial Instruments," requires certain disclosures regarding the fair value of financial instruments. In assessing the fair value of these financial instruments, the Company has used a variety of methods and assumptions, which were based on estimates of market considerations and risks existing at the time. All instruments, including accounts payable and accrued liabilities and amounts due to related parties are reflected at fair value in the financial statements because of the short term maturity of these instruments. The fair value of long-term liabilities also approximate their carrying value.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist of cash. The Company places its cash with high quality financial institutions and as of December 2003 does not have any deposits with financial institutions in excess of federally insured limits.

4. Notes Payable, Related Party

On April 28, 1999, Trinity acquired voting control of the Company and since that date has been the Company's only significant source of funding. Trinity is owned by Lewis S. Schiller, The Finx Group's Chief Executive Officer and Chairman of the Board. Other related parties who have advanced funds to the Company are Lewis S. Schiller, Grazyna B. Edgar Filing: FINX GROUP INC - Form 10KSB/A

At the time of each of the loans to Trinity by the non-affiliated lenders, Trinity lent the Company a substantial portion of the principal amount of the loan at 9% interest. Trinity defaulted on its loans to the lenders as a result of the Company's default on its loan to Trinity. When the lenders called the note and foreclosed on the collateral, Trinity cancelled the Company's note to it in exchange for shares of series B preferred stock equal to the number of such shares as Trinity transferred to the lenders. As a result of the defaults by the Company and Trinity, the Company issued to Trinity 5,747 shares of series B preferred stock, which is the same number of shares as Trinity converted and transferred to the lenders.

In addition, during 2003, Trinity converted an aggregate of 1,560 shares of Series B Preferred Stock into an aggregate of 39,000,000 shares of common stock.

Edgar Filing: FINX GROUP INC - Form 10KSB/A

immediate family (collectively, the "Shopclue Sellers") and Thomas Banks Ltd. dated as of September 30, 2002, (the "Shopclue Stock Purchase Agreement"), Thomas Banks agreed to purchase 100% of the issued and outstanding capital stock of Shopclue.com, Inc. from the Shopclue Sellers for one dollar (\$1) and we agreed to cancel approximately \$8,000 of principal and interest owed by Shopclue.com, Inc. to the Company. As of the date of the Shopclue Stock Purchase Agreement, Shopclue.com, Inc. had an excess of liabilities over assets of approximately \$340,000, including the \$8,000 owed to the Company, resulting in remaining liabilities of approximately \$332,000. The Company believes

F-16

that it may be required to pay approximately \$169,000 of such remaining liabilities which represent delinquent payroll taxes. As a result of the disposal of Shopclue.com, Inc., the net reduction in the Company's liabilities and the corresponding gain on disposal approximated \$163,000.

On October 18, 2002, pursuant to the terms of a stock purchase agreement among The Finx Group, Bizchase, Inc., Lewis S. Schiller, the Company's Chief Executive Officer and Chairman of the Board, Grazyna B. Wnuk, the Company's Vice-President and Secretary, members of Lewis S. Schiller's immediate family (collectively, the "Bizchase Sellers") and Thomas Banks Ltd. dated as of September 30, 2002, (the "Bizchase Stock Purchase Agreement"), Thomas Banks Ltd. agreed to purchase 100% of the issued and outstanding capital stock of Bizchase, Inc. from the Bizchase Sellers for one dollar (\$1) and we agreed to cancel approximately \$2 million of principal and interest owed by Bizchase, Inc. to the Company. As of the date of the Bizchase Stock Purchase Agreement, Bizchase, Inc. had an excess of liabilities over assets of approximately \$2.3 million, including the \$2 million owed to the Company, resulting in remaining liabilities of approximately \$296,000. The Company believes that it may be required pay approximately \$136,000 of such remaining liabilities of which \$99,000 relates to delinquent payroll taxes and \$37,000 relates to corporate guarantees. As a result of the disposal of Bizchase, Inc., the net reduction in the Company's liabilities and the corresponding gain on disposal approximated \$160,000.

On October 18, 2002, pursuant to the terms of a stock purchase agreement among The Finx Group, Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc. and Trinity Group Acquisition Corp. dated as of September 30, 2002 (the "Sequential and S-Tech Stock Purchase Agreement"), Trinity Group Acquisition Corp. agreed to purchase 100% of the issued and outstanding capital of Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc. from The Finx Group for one dollar (\$1) and The Finx Group agreed to cancel approximately \$2.3 million of principal and interest owed by Sequential Electronic Systems, Inc. and S-Tech, Inc. to The Finx Group. Defense Manufacturing Systems, Inc. was wholly owned by The Finx Group but had no operating activities since its organization. Trinity Group Acquisition Corp. is wholly owned by Lewis S. Schiller, the Company's Chief Executive Officer and Chairman of the Board. As of the date of the Sequential and S-Tech Stock Purchase Agreement, Sequential Electronic Systems, Inc. and S-Tech, Inc. had aggregate assets of \$1.2 million and aggregate liabilities of \$2.4 million, excluding the \$3.1 million owed to the Company. The aggregate liabilities included \$1.1 million of delinquent payroll taxes and we have agreed to indemnify Lewis S. Schiller for any claims made against him regarding such delinquent payroll taxes and in connection therewith have reserved \$550,000 of such payroll taxes against the gain on disposal of Sequential Electronic Systems, Inc. and S-Tech, Inc. The Trinity Group-I, Inc. is the Company's controlling shareholder and both The Trinity Group-I, Inc. and Trinity Group Acquisition Corp. are wholly owned by Lewis S. Schiller, and the Sequential and S-Tech Stock Purchase Agreement was not consummated at arms-length. However, we believe that because the transaction will reduce the Company's liabilities by

Edgar Filing: FINX GROUP INC - Form 10KSB/A

approximately \$1.8 million that such transaction is in the Company's best interests. As a result of the disposal of Sequential Electronic Systems, Inc., S-Tech, Inc., Defense Manufacturing and Systems, Inc., the net reduction in the Company's liabilities approximated \$1.8 million and the gain on disposal which approximated \$458,000 was recorded as an addition to paid-in capital because the transaction was consummated with the controlling stockholder of the Company.

As of May 7, 2001, Trinity had advanced the Company approximately \$3.7 million in order to fund its operations. On May 7, 2001, Trinity exchanged \$1.5 million of such related party debt for 7,500,000 shares of Common Stock, representing \$0.20 per share, the fair market value of the Common Stock on May 7, 2001 and exchanged an additional \$2 million of related party debt into 20,000 shares of Series B 8% Voting Redeemable Convertible Preferred Stock (the "Series B Preferred Stock") whereby each share of Series B Preferred Stock represents \$100 of exchanged related party debt and each share of Series B Preferred Stock is convertible into shares of Common Stock as calculated by dividing \$100 by the lowest price that the Company's shares of Common Stock have traded during the period that the Series B Preferred Stock has been outstanding.

From April 7, 2003 through August 4, 2003, Trinity entered into four separate loan agreements pursuant to which it received loans of \$335,000 from nonaffiliated lenders. Substantially all of such funds were advanced by Trinity to the Company. Pursuant to the loan agreements, Trinity pledged an aggregate of 5,747 shares of the Company's series B 8% voting redeemable convertible preferred stock owned by Trinity. Each share of Series B preferred stock is convertible into shares of common stock as calculated by dividing \$100 by the lowest price that the Company's shares of Common Stock have traded during the period that the series B preferred stock has been outstanding. As of September 3, 2003 each share of series B preferred stock was convertible into 47,619 shares of common stock. Trinity defaulted on all of such loans and the 5,747 shares of pledged series B preferred stock held by the lenders were converted into 237,190,476 shares of common stock and were transferred to the lenders.

At the time of each of the loans to Trinity by the non-affiliated lenders, Trinity lent the Company a substantial portion of the principal amount of the loan at 9% interest. Trinity defaulted on its loans to the lenders as a result of the Company's default on its loan to Trinity. When the lenders called the note and foreclosed on the

F-17

collateral, Trinity cancelled the Company's note to it in exchange for shares of series B preferred stock equal to the number of such shares as Trinity transferred to the lenders. As a result of the defaults by the Company and Trinity, the Company issued to Trinity 5,747 shares of series B preferred stock, which is the same number of shares as Trinity converted and transferred to the lenders.

In addition, during the nine months ended September 30, 2003, Trinity converted an aggregate of 1,560 shares of Series B Preferred Stock into an aggregate of 39,000,000 shares of common stock.

On March 17, 2003, the Company issued to Grazyna B. Wnuk, an officer and director, 9,006,976 shares of its common stock in payment for expenses of \$34,000, which she paid on behalf of the Company, the approximate value of the shares issued.

9. Income Taxes

The Company, as of December 31, 2003, has available approximately \$55.5

Edgar Filing: FINX GROUP INC - Form 10KSB/A

million of net operating loss carry forwards to reduce future Federal and state income taxes, representing a net deferred tax asset of approximately \$19.4 million. Based upon the level of historical tax losses, the Company has established a valuation allowance against the entire net deferred tax asset. This represents an increase in the valuation allowance of approximately \$.4 million from December 31, 2002. In addition, the Company has available investment tax credit and research tax credit carry forwards in excess of \$500,000. However, it is not currently probable that the related deferred tax assets will be realized by reducing future taxable income during the carry forward period and as such, a valuation allowance has been computed to offset in its entirety the deferred tax asset attributable to the net operating loss and tax credits. The net operating loss carry forwards expire as follows:

Year of expiration	Net operating loss carry forward
2004	5,616,000
2005	2,207,000
2006	3,144,000
2007	3,023,000
2008	2,044,000
2009	1,851,000
2010	2,050,000
2011	3,171,000
2012	194,000
2018	1,080,000
2019	1,319,000
2020	8,261,000
2021	11,176,000
2022	4,177,000
2023	6,152,000
	\$55,465,000

Pursuant to section 382 of the Internal Revenue Code, the annual utilization of these loss carry forwards is limited as a result of the changes in stock ownership, which have occurred during 2003 and 2002, and may be further limited if substantial changes in the Company ownership were to occur.

10. Commitments and Contingencies

Operating Leases

As of December 31, 2003, the Company does not have any operating leases with firm commitments extending beyond one year. All of its current premises are leased on a month to month basis and as of December 31, 2003 such monthly lease payments approximated \$500 per month.

Mr. Schiller's contract provides him with a bonus for each year of the term equal to 10% of the amount by which the greater of consolidated net income before income taxes or consolidated net operating cash flow

exceeds \$600,000. Mr. Schiller's contract entitles him to 20% of the gross profit on the sale of any of the Company's, or its subsidiaries, investments securities. Mr. Schiller's contract provides him the opportunity to participate in the future expansion of the Company whereby he is entitled, at his option, to purchase up to 25% of the authorized securities of any subsidiary which is organized for any purpose. Mr. Schiller's contract provides him with certain fringe benefits including a vehicle, health insurance and life insurance. In the event of a change of control, Mr. Schiller's contract provides him with severance equal to all amounts owed to him for the full term of the employment agreement.

Grazyna B. Wnuk has an employment agreement with the Company whereby she is employed as the Company's vice-president. Ms. Wnuk's contract was executed in 2002. Ms. Wnuk's contract's initial expiration is April 28, 2009 and provides for annual compensation of \$200,000 per year. Ms. Wnuk's contract may be extended an additional five years and for an annual increase as calculated as the greater of 5% or the increase in the cost of living index. Ms. Wnuk's contract provides her with a bonus for each year of the term equal to 1% of the amount by which the greater of consolidated net income before income taxes or consolidated net operating cash flow exceeds \$600,000. Ms. Wnuk's contract entitles her to 1% of the gross profit on the sale of any of the Company's, or its subsidiaries, investments securities. Ms. Wnuk's contract provides her the opportunity to participate in the future expansion of the Company whereby she is entitled, at her option, to purchase up to 1% of the authorized securities of any subsidiary which is organized for any purpose. Ms. Wnuk's contract provides her with certain fringe benefits including a vehicle, health insurance and life insurance. In the event of a change of control, Ms. Wnuk's contract provides her with severance equal to all amounts owed to her for the full term of the employment agreement.

Indemnifications

Pursuant to the terms of the stock purchase agreement to sell Sequential and S-Tech, the Company agreed to indemnify Lewis S. Schiller for any claims made against him regarding \$1.1 million of delinquent payroll taxes owed by Sequential and S-Tech at the time of their disposal and as of September 30, 2003, the Company has reserved \$550,000 against such potential claims. In addition, pursuant to separate indemnification agreements, the Company has agreed to indemnify Grazyna B. Wnuk and the former president of S-Tech for any claims made against them regarding the delinquent payroll taxes.

Legal Proceedings

Although the Company is a party to certain legal proceedings that have occurred in the ordinary course of business, it does not believe such proceedings to be of a material nature with the exception of the following item. On or about April 8, 2002, a complaint styled "Law Offices of Jerold K. Levien, against The Finx Group, Inc. f/k/a Fingermatrix, Inc., The Trinity Group-I, Inc." was filed in the Supreme Court of the State of New York County of New York, and the plaintiff has received a judgment for \$334,595, such amount having been accrued on the Company's books, plus interest.

11. Discontinued Operations

During 2002, the Company sold its operations which were not related to the security systems business for nominal consideration. The discontinued operations were conducted by the following subsidiaries: Sequential Electronic Systems, Inc. ("Sequential"), S-Tech, Inc. ("S-Tech"), Granite Technologies, Inc. ("Granite Technologies"), Shopclue.com, Inc. ("Shopclue"), Bizchase, Inc.

Edgar Filing: FINX GROUP INC - Form 10KSB/A

("Bizchase") and Starnet365.com, Inc. ("Starnet").

Except for the sale of Sequential and S-Tech, all of the discontinued operations were sold to nonaffiliated parties. Sequential and S-Tech were sold to a corporation owned by Lewis S. Schiller, the Company's president, chief executive officer and controlling stockholder. Since the liabilities of the subsidiaries that were transferred exceeded their respective assets, the Company recognized, during the third quarter of 2002, a gain from the disposition of discontinued operations of \$1,330,000. The Company continues to have contingent obligations relating to the discontinued operations, principally withholding tax liabilities of an aggregate of \$1,211,000, of which \$550,000 related to the operations of Sequential and S-Tech. In certain cases, the Company retained intellectual property rights; however, those rights have been fully expensed.

On June 30, 2003, the Company transferred its 51.1% ownership in FMX Corp. ("FMX") to Michael Schiller, who owned the remaining 49.9% of FMX. Michael Schiller is the brother of Lewis S. Schiller; however, Lewis S. Schiller has no direct or indirect equity interest in FMX. Since its inception, FMX has had no operating activities and all but \$25,000 of its liabilities was a note payable to the Company. As a result of the disposal of FMX, the Company recorded a loss on disposal of \$9,000 during the second quarter of 2003.

F-19

The loss from operations of discontinued operations for the years ended December 31, 2003 and 2002 are summarized as follows:

12. New Authoritative Pronouncements

In January 2003, the FASB issued Interpretation No. 46 ("FIN 46"), "Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51." FIN 46 requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional financial support from other parties. FIN 46 is effective for all new variable interest entities created or acquired after January 31, 2003. For variable interest entities created or acquired prior to February 1, 2003, the provisions of FIN 46 must be applied for the first interim or annual period beginning after December 15, 2003. In December 2003, the FASB issued Interpretation No. 46(R) ("FIN 46R") which revised certain provisions of FIN 46. Publicly reporting entities that are small business issuers must apply FIN 46R

Edgar Filing: FINX GROUP INC - Form 10KSB/A

to all entities subject to FIN 46R no later than the end of the first reporting period that ends after December 15, 2004 (as of December 31, 2004, for a calendar year enterprise). The effective date includes those entities to which FIN 46 had previously been applied. However, prior to the application of FIN 46R, a public entity that is a small business issuer shall apply FIN 46 or FIN 46R to those entities that are considered special-purpose entities no later than as of the end of the first reporting period that ends after December 15, 2003 (as of December 31, 2003 for a calendar year enterprise). The Company does not expect the adoption of FIN 46 or FIN 46R to have a material effect on its consolidated financial position or results of operations.

In April 2003, SFAS 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" ("SFAS 149") was issued. SFAS 149 amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under FASB Statement No. 133 ("SFAS 133"), "Accounting for Derivative Instruments and Hedging Activities". This statement is effective for contracts entered into or modified after June 30, 2003.

During 2003, SFAS 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("SFAS 150") was issued. SFAS 150 establishes standards for classification and measurement of certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in certain cases). The provisions of SFAS 150 are effective for instruments entered into or modified after May 31, 2003 and pre-existing instruments as of July 1, 2003. On October 29, 2003, the FASB voted to indefinitely defer the effective date of SFAS 150 for mandatorily redeemable instruments as they relate to minority interests in consolidated finite-lived entities through the issuance of FASB Staff Position 150-3.

F-20

In December 2003, a revision of SFAS 132 "Employers' Disclosures about Pensions and Other Postretirement Benefits" was issued, revising disclosures about pension plans and other post retirements benefits plans and requiring additional disclosures about the assets, obligations, cash flows, and net periodic benefit cost of defined benefit pension plans and other defined benefit postretirement plans.

The Company expects that the adoption of the new statements will not have a significant impact on its financial statements.
