**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS**

This report may contain forward-looking statements that involve risks and uncertainties. When used in discussion, the words anticipate, believe, plan, estimate, expect, strive, future, intend and similar expressions as they relate to us are intended to identify such forward-looking statements. Our actual results could differ materially from the results anticipated in these forward-looking statements as a result of certain factors set forth under Management's Discussion and Analysis of Financial Condition and Results of Operations, Quantitative and Qualitative Disclosures about Market Risk and elsewhere in this report. Risks and uncertainties that could cause actual results to differ include, without limitation, general economic conditions, competition, loss of key personnel, pricing, brand reputation, consumer trends, acquisitions, new initiatives undertaken by us, security and information systems, legal liability for website content, merchandise supply problems, failure of third parties to provide adequate service, our reliance on centralized customer service, overstocks and merchandise returns, our reliance on a centralized fulfillment center, increases in postage and shipping costs, E-commerce trends, future Internet related taxes, our founder's control of us, fluctuations in quarterly operating results, customer interest in our products, the effect of government regulation and other risks and uncertainties included in our filings with the Securities and Exchange Commission. We caution you that no forward-looking statement is a guarantee of future performance, and you should not place undue reliance on these forward-looking statements which reflect our view only as of the date of this report. We undertake no obligation to update any forward-looking information.

**PART I. FINANCIAL INFORMATION**

**Item 1. Financial Statements (Unaudited)**

**Unaudited Interim Condensed Consolidated Financial Statements**

We have prepared our unaudited interim condensed consolidated financial statements included herein pursuant to the rules and regulations of the United States Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to these rules and regulations, although we believe that the disclosures made are adequate to make the information not misleading. In our opinion, the unaudited interim condensed financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly, in all material respects, our consolidated financial position as of September 30, 2008, the interim results of operations for the three and nine months ended September 30, 2008 and 2007, and cash flows for the nine months ended September 30, 2008 and 2007. These interim statements have not been audited. The balance sheet as of December 31, 2007 was derived from our audited consolidated financial statements included in our annual report on Form 10-K. The interim condensed consolidated financial statements contained herein should be read in conjunction with our audited financial statements, including the notes thereto, for the year ended December 31, 2007.

See accompanying notes to the interim condensed consolidated financial statements

Table of Contents

**Notes to interim condensed consolidated financial statements**

**1. Organization, Nature of Operations, and Principles of Consolidation**

References in this report to we, us, our or Gaiam refer to Gaiam, Inc. and its consolidated subsidiaries, unless we indicate otherwise. We are a lifestyle media company providing a broad selection of information, media, products and services to customers who value personal development, wellness, ecological lifestyles, responsible media and conscious community. We were incorporated under the laws of the State of Colorado on July 7, 1988.

We have prepared the accompanying unaudited interim condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States, or GAAP, and they include our accounts and those of our subsidiaries. Intercompany transactions and balances have been eliminated.

The unaudited condensed consolidated financial position, results of operations and cash flows for the interim periods disclosed in this report are not necessarily indicative of future financial results.

**2. Significant Accounting Policies**

No changes were made to our significant accounting policies during the three and nine months ended September 30, 2008, except for the adoption of Financial Accounting Standards Board, or FASB, Statement No. 157, *Fair Value Measurement* and the adoption of Staff Accounting Bulletin No. 51, *Accounting for Sales of Stock by a Subsidiary*, whereby we elected the income statement approach for the recognition of gains and losses resulting from the issuance of subsidiary stock. SFAS 157 defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. The implementation of SFAS 157 did not have a material impact on our unaudited interim condensed consolidated financial statements for the three and nine months ended September 30, 2008.

*Use of Estimates and Reclassifications*

The preparation of financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in the accompanying financial statements and disclosures. Although we base these estimates on our best knowledge of current events and actions that we may undertake in the future, actual results may be different from the estimates. We have made certain reclassifications to prior period amounts to conform to the current period presentations.

*Recently Issued Accounting Pronouncements*

On March 19, 2008, the FASB issued FASB Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities – an Amendment of FASB Statement 133*. SFAS 161 enhances required disclosures regarding derivatives and hedging activities, including enhanced disclosures regarding how: (a) an entity uses derivative instruments; (b) derivative instruments and related hedge items are accounted for under FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*; and (c) derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. Specifically, SFAS 161 requires:

- disclosure of the objectives for using derivative instruments be disclosed in terms of underlying risk and accounting designation;
- disclosure of the fair values of derivative instruments and their gains and losses in a tabular format;
- disclosure of information about credit-risk-related contingent features; and
- cross-reference from the derivative footnote to other footnotes in which derivative-related information is disclosed.

SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. We will adopt the provisions of SFAS 161 in our fiscal year commencing January 1, 2009. We currently believe that adoption of the provisions of SFAS 161 will not have a material impact on our consolidated financial statements.

### **3. Property and Equipment**

On April 3, 2008, we purchased land, an office building, and improvements located in Colorado for a total cost of approximately \$15.7 million in cash. We consolidated our Colorado operations to this property during the second and third quarters of 2008 upon expiration of our existing facility leases.

Table of Contents

**4. Impairment of Assets**

As a result of changes in the retail business climate, we impaired a portion of our acquired media libraries, LIME goodwill and other intangibles, tangible assets primarily related to web site development, and related assets during the nine months ended September 30, 2008. These noncash, tax deductible impairments reduced the business and direct to consumer total assets by \$33.7 million and \$4.1 million, respectively. We determined the estimated fair value of these asset groups using various valuation techniques, such as estimated future sales, internal budgets and projections, and judgment about existing brand potential. The resulting impairment losses of \$11.9 million and \$37.8 million are reported in other general income and expense on our condensed consolidated statements of operations for the three and nine months ended September 30, 2008, respectively.

**5. Shareholders Equity**

During the nine months ended September 30, 2008, we issued a total of 2,800 shares of our Class A common stock to our independent directors, in lieu of cash compensation, for services rendered in 2007 and 2008; issued 221,152 shares of our Class A common stock as part of the consideration to acquire the remaining and controlling ownership interests in two businesses (see Note 10, Mergers and Acquisitions); and issued 133,360 shares of our Class A common stock upon exercise of options under our 1999 Long-Term Incentive Plan, including 110,000 shares exercised and held by our President.

Additionally, during the nine months of 2008, we repurchased 1,285,088 shares of our Class A common stock for a total cost of \$19.0 million. See also Note 10, Mergers and Acquisitions. We recorded these repurchases of our shares in accordance with the cost method of accounting for treasury stock. Since we have not yet decided the ultimate disposition of the re-acquired shares, their combined cost is reflected in the condensed consolidated balance sheet at September 30, 2008 as a \$19.0 million reduction to additional paid-in capital.

During the nine months ended September 30, 2008, our subsidiary, Real Goods Solar, Inc. ( Real Goods ), completed an initial public offering ( IPO ) of 5.5 million shares resulting in net proceeds of \$48.2 million to Real Goods, issued 280,000 shares valued at \$1.9 million to acquire a minority interest in one of its subsidiaries and issued 47,423 shares valued at \$0.3 million as partial consideration to acquire 100% ownership of a business (see Note 10, Mergers and Acquisitions), issued an additional 13,448 shares valued at \$87,000, and made other non-stock related equity transactions, for a net gain of \$32.1 million to us. Following these transactions we owned 63.1% of Real Goods. The portion of our gain resulting from Real Goods selling new shares, \$31.4 million, is reflected in gain from issuance of subsidiary stock on our condensed consolidated statements of operations for the three and nine months ended September 30, 2008 and has been tax affected. The remaining net gain resulting from other Real Goods non-stock related equity transactions, which was not tax affected, is recorded as an increase to additional paid-in capital on our condensed consolidated balance sheet at September 30, 2008.

During 2007, we issued a total of 4,955 shares of our Class A common stock to our independent directors, in lieu of cash compensation, for services rendered in 2006 and 2007; issued 1,875 restricted shares of our Class A common stock to two of our named executive officers as bonus compensation; issued 80,795 shares of our Class A common stock as part of the consideration to acquire controlling ownership interests in two businesses; issued 216,070 shares of our Class A common stock upon exercise of options under our 1999 Long-Term Incentive Plan; and repurchased 2.5 million shares of our Class A common stock.

**6. Comprehensive Income (Loss)**

Our comprehensive income (loss) is comprised of net income (loss) and foreign currency translation adjustments, net of income taxes. Comprehensive income (loss), net of related tax effects, was as follows:

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Net income (loss)	\$ (10,115)	\$ 2,918	\$ (5,321)	\$ 4,324
Foreign currency translation adjustment, net of reclassification and related tax		174	(898)	258
Comprehensive income (loss), net of taxes	\$ (10,115)	\$ 3,092	\$ (6,219)	\$ 4,582

Table of Contents

The disposition of our investment in our UK operations during the quarter ended March 31, 2008 resulted in a net loss which lowered our net income. The foreign currency translation amount attributable to that entity and accumulated in the translation adjustment component of equity was removed from the other comprehensive income component of equity and reported as part of the loss on the sale of the investment.

## 7. Share-Based Payments

During the nine months ended September 30, 2008, we granted 170,500 stock options to employees and cancelled 22,020 stock options. Total share-based compensation recognized was \$0.4 million and \$0.3 million for the three months ended September 30, 2008 and 2007, respectively, and \$1.1 million and \$0.8 million for the nine months ended September 30, 2008 and 2007, respectively, and is shown in corporate, general and administration expenses on our condensed consolidated statements of operations.

## 8. Net Income (Loss) Per Share

Basic net income (loss) per share excludes any dilutive effects of options. We compute basic net income (loss) per share using the weighted average number of common shares outstanding during the period. We compute diluted net income (loss) per share using the weighted average number of common and common stock equivalent shares outstanding during the period. We excluded from the computation of diluted net income (loss) per share common equivalent shares of 715,000 and 152,000 for the three months ended September 30, 2008 and 2007, respectively, and 482,000 and 391,000 for the nine months ended September 30, 2008 and 2007, respectively, because their effect was antidilutive.

The following table sets forth the computation of basic and diluted net income (loss) per share:

(in thousands, except per share data)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Numerator for basic and diluted net income (loss) per share	\$ (10,115)	\$ 2,918	\$ (5,321)	\$ 4,324
Denominator:				
Weighted average shares for basic net income (loss) per share	24,020	24,705	24,611	25,000
Effect of dilutive securities:				
Weighted average of common stock and stock options		265		222
Denominators for diluted net income (loss) per share	24,020	24,970	24,611	25,222
Net income (loss) per share basic	\$ (0.42)	\$ 0.12	\$ (0.22)	\$ 0.17
Net income (loss) per share diluted	\$ (0.42)	\$ 0.12	\$ (0.22)	\$ 0.17

## 9. Segment Information

## Edgar Filing: GAIAM, INC - Form 10-Q

We manage our business and aggregate our operational and financial information in accordance with three reportable segments. The direct to consumer segment contains direct response marketing programs, catalogs, Internet, and subscription community sales channels, the business segment comprises retailers, media and corporate account channels, and the solar segment reflects solar energy businesses.

Although we are able to track revenues by sales channel, the management, allocation of resources and analysis and reporting of expenses is presented on a combined basis, at the reportable segment level. Contribution margin is defined as net sales, less cost of goods sold and direct expenses. Prior period amounts have been restated to reflect the addition of our solar reporting segment.

Table of Contents

Financial information for our segments is as follows:

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Net revenue:				
Direct to consumer	\$ 34,231	\$ 35,960	\$ 95,383	\$ 91,499
Business	16,514	30,079	62,343	76,481
Solar	9,540	4,279	24,949	13,157
Consolidated net revenue	60,285	70,318	182,675	181,137
Contribution margin (loss):				
Direct to consumer	(6,155)	776	(10,799)	(2,200)
Business	(10,447)	3,626	(29,871)	5,953
Solar	(675)	(206)	(1,296)	141
Consolidated contribution margin (loss)	(17,277)	4,196	(41,966)	3,894
Reconciliation of contribution margin (loss) to net income (loss):				
Gain from issuance of subsidiary stock	98		31,368	
Interest and other income	257	1,028	995	3,375
Income tax expense (benefit)	(6,922)	2,060	(4,031)	2,868
Minority interest in net (income) loss of consolidated subsidiaries, net of tax	(115)	(246)	251	(77)
Net income (loss)	\$ (10,115)	\$ 2,918	\$ (5,321)	\$ 4,324

**Our business segment includes international revenues in 2007 which amounted to \$13.3 million in the third quarter and \$28.5 million for the nine months. In the first quarter of 2008, we made the decision to shift our international business to license arrangements rather than traditional product sales. Excluding international revenues, which were affected by this transition, the business segment revenue decreased 4.3% for the third quarter of 2008 and increased 21.6% for the nine months ended September 30, 2008.**

Our contribution margin includes other general income and expense of \$11.9 million for the three months and \$37.8 million for the nine months ended September 30, 2008 reflecting a non-cash, tax-deductible impairment charge related to our acquired media libraries, web site development costs, and related assets. These charges impacted the direct to consumer segment by \$3.2 million and \$4.1 million for the three and nine months ended September 30, 2008, respectively, and the business segment by \$8.7 million and \$33.7 million for the three and nine months ended September 30, 2008, respectively.

Our goodwill balance of \$50.4 million at September 30, 2008 was allocated \$16.8 million, \$19.9 million, and \$13.7 million to the direct to consumer, business, and solar segments, respectively. Our balance of \$42.9 million at December 31, 2007 was allocated \$16.0 million, \$21.0 million, and \$5.9 million to the direct to consumer, business, and solar segments, respectively.

## 10. Mergers and Acquisitions

During the first quarter of 2008, Real Goods subsidiary, Real Goods Carlson, Inc., acquired certain assets of Carlson Solar, Inc., and we acquired 100% ownership interest of SPRI Products, Inc. and the remaining 49.9% ownership interest of Conscious Enlightenment. On May 23, 2008, Real Goods exchanged 280,000 shares of its Class A common stock for Real Goods current President's 11.6% ownership in Real Goods Carlson, Inc. Consideration paid for the minority interest of Real Goods Carlson was the same relative fair value as the equity received. The assets acquired from Carlson Solar were determined to have all inputs and processes necessary for the transferred assets to continue to conduct normal operations after acquisition; accordingly, the purchase was treated as a business combination. During the third quarter of 2008, Real Goods acquired 100% ownership of Independent Energy Systems. The total cost of these business acquisitions was \$18.8 million, including direct acquisition costs, consisting of \$10.8 million in cash, \$5.1 million in our Class A common stock, \$2.2 million in Real Goods Class A common stock, and \$0.7 million in assumed liabilities. For these acquisitions, we have preliminarily recognized \$7.7 million, \$6.4 million, and \$1.1 million of solar, business, and direct to consumer segment goodwill, respectively, of which \$2.5 million is expected to be deductible for tax purposes, and \$1.2 million of intangibles subject to amortization (50 month weighted-average useful life). The marketing related intangibles were \$1.0 million (48 month weighted-average useful life) and the customer related intangibles were \$0.2 million (60 month weighted-average useful life).

Table of Contents

Also during the quarter ended March 31, 2008, we sold our investment in the non-LOHAS business newspapers that were acquired as part of a previous acquisition and sold our 51% ownership interest in Gaiam Limited, our UK subsidiary. We received 50,000 shares of Gaiam Class A common stock, valued at \$0.9 million, as part of the consideration for our UK subsidiary.

In 2007, we acquired varying amounts of controlling ownership interest in several entities. Three of the acquisitions call for additional consideration, payable in cash or shares of our Class A common stock (up to a maximum of 50,000 shares), contingent upon the achievement of a certain membership threshold within the next two years or our sale of the acquired business or its assets, the amount of revenue generated from certain potential customers and the collection of certain rebates, or the attaining of a certain level of pre-tax profits in our community business over its first twelve months of operations. At the time any of this contingent consideration can be estimated beyond a reasonable doubt, we will recognize it as additional purchase price and allocate it to goodwill and other intangibles, as appropriate.

We are finalizing our assessment of the estimated fair value of the net assets acquired during the fourth quarter of 2007 and to date in 2008 and, thus, the amount of goodwill and other intangibles previously recorded is subject to refinement. We have included results from operations of these acquired companies in our condensed consolidated financial statements from their respective effective acquisition dates.

**11. Income Taxes**

During the nine months ended September 30, 2008, we recognized an increase in our deferred tax assets of \$15.9 million, primarily reflecting the financial impairment of certain assets (see Note 4, Impairment of Assets), partially offset by a deferred tax liability of approximately \$12.1 million on a financial gain from the issuance of Real Goods stock (see Note 5, Shareholders' Equity). The impairment charge accelerates approximately \$5.5 million of tax receivables in the third quarter, bringing our total tax refund and benefit to over \$12 million, which we expect to receive in early 2009.

**12. Subsequent Events**

Effective October 1, 2008, through mergers, Real Goods acquired Regrid Power, Inc. ( "Regrid Power" ), a northern California private designer and installer of residential and commercial solar electric systems. Pursuant to the merger agreement, Real Goods' subsidiary acquired all of the outstanding shares of Regrid Power for an aggregate of \$3.8 million in cash and 2,047,256 shares of Real Goods' Class A common stock, plus the assumption of certain liabilities, subject to post closing adjustments. The total share consideration could be increased up to a maximum of 800,000 shares of Real Goods Solar stock, based on Regrid Power's revenue and earnings performance over the next 12 months, but in no event more than one times trailing twelve months revenues.

Item 2. Management's discussion and analysis of financial condition and results of operations

Item 2. Management's discussion and analysis of financial condition and results of operations

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the condensed consolidated financial statements and related notes included elsewhere in this document. This section is designed to provide information that will assist in understanding our condensed consolidated financial statements, changes in certain items in those statements from period to period, the primary factors that caused those changes and how certain accounting principles, policies and estimates affect the condensed consolidated financial statements.

## Overview and Outlook

**We are a lifestyle media company providing a broad selection of information, media, products and services to customers who value personal development, wellness, ecological lifestyles, responsible media and conscious community. Our media brand is built around our ability to develop and offer media content, products, lifestyle solutions and community to consumers in the LOHAS market.**

**We offer our customers the ability to make purchasing decisions and find responsible content based on these values while providing quality offerings at a price comparable to mainstream alternatives. We market our media and products through a multi-channel approach including traditional media channels, direct to consumers via the Internet, direct response marketing, community, subscriptions, catalog, and through national retailers and corporate accounts.**

Table of Contents

**Our content forms the basis of our proprietary offerings, which then drive demand for parallel product and service offerings. Our operations are vertically integrated from content creation, through product development and sourcing, to customer service and distribution. We market our products and services across three segments: business, direct to consumer, and solar. We distribute the majority of our products in our business and direct to consumer segments from our fulfillment center or drop-ship products directly to customers. We also utilize a third party replication and fulfillment center for media distribution in our business segment.**

**Our business segment sells directly to retailers, with our products available in approximately 73,000 retail doors in the United States. During the third quarter of 2008, this segment generated revenues of \$16.5 million, down from \$30.1 million during the third quarter of 2007. Excluding international revenues, which were affected by the transition from product sales to licensing arrangements, the business segment revenue decrease for the quarter was approximately 4.3%. During the quarter we expanded our store-within-store presence to over 9,000 lifestyle presentations, up from 6,500 at the end of September 2007, which are custom fixtures that we design.**

Through its diverse media reach, the direct to consumer segment provides an opportunity to launch and support new media releases, a sounding board for new product testing, promotional opportunities, a growing online and off-line community, and customer feedback on us and the LOHAS industry's focus and future. During the third quarter of 2008, this segment generated revenues of \$34.2 million, down from \$36.0 million during the third quarter of 2007. This decrease reflects planned lower catalog circulation and direct response marketing, and the overall economic environment.

During May 2008, our solar energy business consummated an initial public offering and has since been managed as a separate segment. Through recent acquisitions, this business has grown its sales and expanded its market territories. During the third quarter of 2008, this segment generated revenues of \$10.3 million, up from \$4.3 million during the third quarter of 2007. We have and will continue to use the IPO proceeds to fund this segment's working capital needs and general corporate purposes, which may include future acquisitions of businesses.

During the nine months ended September 30, 2008, we completed acquisitions targeted towards expanding and enhancing our solar market, community reach, and media content. The solar acquisitions were Carlson Solar, Inc. and Independent Energy Systems, Inc., solar energy integrators located in southern and northern California, respectively. We also purchased the remaining 49.9% ownership interest in Conscious Enlightenment, an on-line and off-line community and SPRI Products, Inc., a leading marketer of resistance exercise products for the professional health and fitness industry.

Given the current and projected economic and market conditions, we evaluated the recoverability of certain assets assuming that additional media and marketing investments would be limited. As a result of this evaluation, we revised our business plans for these assets and impaired \$37.8 million of the acquired media libraries, LIME goodwill and other intangibles, tangible assets primarily related to web site development, certain deferred advertising costs, and related assets during the second and third quarters of 2008.

We believe our growth will be driven by information, media content, products, and community delivered to the consumer via Internet, retailers, international licensing, electronic downloads and subscription systems. We have increased our focus on our media content creation and distribution, which strategically provides increased branding opportunities, higher operating contribution and greater mainstream penetration.

Table of Contents**Results of Operations**

The following table sets forth certain financial data as a percentage of revenue for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Net revenue	100.0%	100.0%	100.0%	100.0%
Cost of goods sold	43.9%	34.4%	39.2%	35.3%
Gross profit	56.1%	65.6%	60.8%	64.7%
Expenses:				
Selling and operating	56.5%	55.0%	56.2%	57.2%
Corporate, general and administration	5.2%	4.7%	5.3%	5.4%
Other general income and expense	23.1%	%	22.2%	%
Total expenses	84.8%	59.7%	83.7%	62.6%
Income (loss) from operations	(28.7)%	5.9%	(22.9)%	2.1%
Gain from issuance of subsidiary stock	0.2%	%	17.2%	%
Interest and other income	0.4%	1.5%	0.5%	1.9%
Income tax expense (benefit)	(11.5)%	2.9%	(2.2)%	1.6%
Minority interest in net (income) loss of consolidated subsidiaries, net of tax	(0.2)%	(0.4)%	0.1%	0.0%
Net income (loss)	(16.8)%	4.1%	(2.9)%	2.4%

*Three Months Ended September 30, 2008 Compared to Three Months Ended September 30, 2007*

*Net revenue.* Net revenue decreased \$10.0 million, or 14.3%, to \$60.3 million during the third quarter of 2008 from \$70.3 million during the third quarter of 2007. Excluding international revenues, which were affected by the transition from product sales to licensing arrangements, the revenue growth for the quarter was approximately 2%. Net revenue in our direct to consumer segment decreased \$1.7 million to \$34.2 million during the third quarter of 2008 from \$36.0 million during the third quarter of 2007. This decrease in the direct to consumer segment net revenue primarily reflects decreased catalog prospecting, lower response rates from our first holiday catalog drop which coincided with weather related impacts of hurricane Ike, and overall slower consumer spending. Net revenue in our business segment decreased \$13.6 million to \$16.5 million during the third quarter of 2008 from \$30.1 million during the third quarter of 2007. This decrease primarily reflects the decision in the first quarter of 2008 to shift our international business to licensing arrangements rather than traditional product sales and precautionary holiday buying trends from our retailers. Net revenue in our solar segment increased \$6.1 million to \$10.3 million during the third quarter of 2008 from \$4.3 million during the third quarter of 2007, primarily reflecting the acquisitions of Marin Solar in the fourth quarter of 2007, Carlson Solar in the first quarter of 2008, and Independent Energy Systems in the third quarter of 2008.

*Gross profit.* Gross profit decreased \$12.3 million, or 26.7%, to \$33.8 million during the third quarter of 2008 from \$46.1 million during the third quarter of 2007. As a percentage of net revenue, gross profit decreased to 56.1% during the third quarter of 2008 from 65.6% during the third quarter of 2007. The change in gross margin reflects our investment in the lower margin solar business and additional store within store presentations. The margin was also impacted by the decision to expand our distribution footprint by maintaining retail prices while absorbing cost increases from higher freight charges and the dollar decline. Our strategy to aggressively pursue store-within-store and media category management expansion will continue to impact the margin through fourth quarter.

*Selling and operating expenses.* Selling and operating expenses decreased \$4.6 million, or 11.9%, to \$34.0 million during the third quarter of 2008 from \$38.6 million during the third quarter of 2007, primarily from reduced catalog circulation, payroll and incentive reductions, and synergies realized from business acquisition integrations. As a percentage of net revenue, selling and operating expenses increased to 56.5% during the third quarter of 2008 from 55.0% during the third quarter of 2007.

Table of Contents

*Corporate, general and administration expenses.* Corporate, general and administration expenses decreased \$0.2 million, or 5.7%, to \$3.1 million during the third quarter of 2008 from \$3.3 million during the third quarter of 2007. As of percentage of net revenue, corporate, general and administration expenses increased to 5.2% during the third quarter of 2008 from 4.7% during the third quarter of 2007, primarily reflecting lower revenues.

*Other general income and expense.* Other general income and expense was \$13.9 million during the third quarter of 2008 and was comprised of impairments of our acquired media libraries, tangible assets primarily related to web site development, and related assets, as well as expected losses on future contractual commitments and reduction in force costs.

*Interest and other income.* Interest and other income decreased \$0.8 million to \$0.3 million during the third quarter of 2008 from \$1.0 million during the third quarter of 2007. The decrease reflects lower interest earnings as we used cash to fund our operations, acquire businesses and assets, and repurchase 1.3 million shares of our Class A common stock for \$19.0 million, and the decline of average interest rates received on our cash investments from 5.24% as of September 30, 2007 to 2.65% at September 30, 2008.

*Minority interest in net income of consolidated subsidiaries, net of income taxes.* Minority interest in net income of consolidated subsidiaries, net of income taxes, decreased to \$0.1 million during the third quarter of 2008 from \$0.2 million during the third quarter of 2007.

*Net income.* As a result of the above factors, net income decreased \$13.0 million to a net loss of \$10.1 million during the third quarter of 2008 from net income of \$2.9 million during the third quarter of 2007. Net income per share decreased to a loss of \$0.42 per share during the third quarter of 2008 from net income of \$0.12 per share during the third quarter of 2007.

*Nine Months Ended September 30, 2008 Compared to Nine Months Ended September 30, 2007*

*Net revenue.* Net revenue increased \$1.5 million, or 0.8%, to \$182.7 million during the nine months ended September 30, 2008 from \$181.1 million during the nine months ended September 30, 2007. Net revenue in our direct to consumer segment increased \$3.9 million to \$95.4 million during the nine months ended September 30, 2008 from \$91.5 million during the nine months ended September 30, 2007. This increase in the direct to consumer segment net revenue primarily reflects the success of our ecommerce and increased revenues from businesses acquired, partially offset by declining revenue from catalog prospecting and overall slower consumer spending. Net revenue in our business segment decreased \$14.1 million to \$62.3 million during the nine months ended September 30, 2008 from \$76.5 million during the nine months ended September 30, 2007, primarily reflecting lower international product sales, which includes the shift to licensing arrangements and the disposition of our UK operations. Net revenue in our

solar segment increased \$12.6 million to \$25.7 million during the nine months ended September 30, 2008 from \$13.2 million during the nine months ended September 30, 2007, primarily due to the acquisition of Marin Solar in the fourth quarter of 2007, Carlson Solar in the first quarter of 2008, and Independent Energy Systems in the third quarter of 2008.

*Gross profit.* Gross profit decreased \$6.3 million, or 5.4%, to \$111.0 million during the nine months ended September 30, 2008 from \$117.3 million during the nine months ended September 30, 2007. As a percentage of net revenue, gross profit decreased to 60.8% during the nine months ended September 30, 2008 from 64.7% during the nine months ended September 30, 2007. The change in gross margin primarily reflects our investment in the lower margin solar business and additional store within store presentations. The margin was also impacted by the decision to expand our distribution footprint by maintaining retail prices while absorbing cost increases from higher freight charges and the dollar decline.

*Selling and operating expenses.* Selling and operating expenses decreased \$0.8 million, or 0.8%, to \$102.7 million during the nine months ended September 30, 2008 from \$103.5 million during the nine months ended September 30, 2007, resulting primarily from reduced catalog circulation, lower payroll incentives, and business dispositions in the first quarter of 2008, partially offset by investments made in community, advertising, and marketing programs. As a percentage of net revenue, selling and operating expenses decreased to 56.2% during the nine months ended September 30, 2008 from 57.2% during the nine months ended September 30, 2007.

*Corporate, general and administration expenses.* Corporate, general and administration expenses decreased \$0.2 million, or 2.3%, to \$9.6 million during the nine months ended September 30, 2008 from \$9.8 million during the nine months ended September 30, 2007. As of percentage of net revenue, corporate, general and administration expenses decreased to 5.3% during the nine months ended September 30, 2008 from 5.4% during the nine months ended September 30, 2007, primarily reflecting the continued focus on leveraging corporate resources across all segments.

Table of Contents

*Other general income and expense.* Other general income and expense was \$40.7 million during the nine months ended September 30, 2008 and was comprised of impairments of our media library, LIME goodwill and other intangibles, tangible assets primarily related to web site development, certain deferred advertising costs, and related assets, as well as incremental operating expenses related to the consummation of the Real Goods initial public offering, expected losses on future contractual commitments, and reduction in force costs, partially offset by the recovery in value of a loan receivable.

*Gain from issuance of subsidiary stock.* Gain from issuance of subsidiary stock was \$31.4 million during the nine months ended September 30, 2008 and represented the increase in carrying value of our investment in Real Goods as a result of their issuance of new stock.

*Interest and other income.* Interest and other income decreased \$2.4 million to \$1.0 million during the nine months ended September 30, 2008 from \$3.4 million during the nine months ended September 30, 2007. The decrease reflects lower interest earnings as we used cash to fund our operations, acquire businesses and assets and repurchase 1.3 million shares of our Class A common stock for \$19.0 million, and the decline of average interest rates received on our cash investments from 5.24% as of September 30, 2007 to 2.65% at September 30, 2008.

*Minority interest in net (income) loss of consolidated subsidiaries, net of income taxes.* Minority interest in net loss of consolidated subsidiaries, net of income taxes, increased to \$0.3 million during the nine months ended September 30, 2008 from minority interest net income of \$0.1 million during the nine months ended September 30, 2007.

*Net income.* As a result of the above factors, net income decreased \$9.6 million to a net loss of \$5.3 million during the nine months ended September 30, 2008 from net income of \$4.3 million during the nine months ended September 30, 2007. Net income per share decreased to a net loss of \$0.22 per share during the nine months ended September 30, 2008 from net income of \$0.17 per share during the nine months ended September 30, 2007.

**Seasonality**

Our sales are affected by seasonal influences. On an aggregate basis, we generate our strongest revenues and net income in the fourth quarter due to increased holiday spending and retailer fitness purchases.

**Liquidity and Capital Resources**

## Edgar Filing: GAIAM, INC - Form 10-Q

Our capital needs arise from working capital required to fund operations, capital expenditures related to acquisition and development of media content, development of our Internet and community platforms and new products, acquisitions of new businesses, replacements, expansions and improvements to our infrastructure, and future growth. These capital requirements depend on numerous factors, including the rate of market acceptance of our product offerings, the ability to expand our customer base, the cost of ongoing upgrades to our product offerings, the level of expenditures for sales and marketing, the level of investment in distribution systems and facilities and other factors. The timing and amount of these capital requirements are variable and we cannot accurately predict them. Additionally, we will continue to pursue opportunities to expand our media libraries, evaluate possible investments in businesses, products and technologies, and increase our sales and marketing programs and brand promotions as needed.

We have a revolving line of credit agreement with a financial institution that expires on October 22, 2009. The credit agreement permits borrowings up to the lesser of \$15 million or our borrowing base which is calculated based upon the collateral value of our accounts receivable, inventory, and certain property and equipment. Borrowings under this agreement bear interest at the lower of prime rate less 75 basis points or LIBOR plus 275 basis points. Borrowings are secured by a pledge of certain of our assets, and the agreement contains various financial covenants, including those requiring compliance with certain financial ratios. At September 30, 2008, we had no amounts outstanding under this agreement; however, \$1.2 million was reserved for outstanding letters of credit. We believe we have complied with all of the financial covenants under this credit agreement.

Table of Contents**Cash Flows**

The following table summarizes our primary sources (uses) of cash during the periods presented:

(in thousands)	Nine Months Ended September 30,	
	2008	2007
Net cash (used in) provided by:		
Operating activities	\$ (9,857)	\$ 20,571
Investing activities	(37,695)	(12,063)
Financing activities	31,624	(32,154)
Effects of exchange rates on cash and cash equivalents	(13)	335
Net decrease in cash and cash equivalents	\$ (15,941)	\$ (23,311)

*Operating activities.* Our operating activities used net cash of \$9.9 million during the nine months ended September 30, 2008 and provided net cash of \$20.6 million during the nine months ended September 30, 2007. Our net cash used in operating activities during the nine months ended September 30, 2008 was primarily attributable to decreased accounts payable and accrued liabilities of \$11.8 million, a net loss of \$5.3 million, increased current tax receivable of \$12.1 million, and increased deferred advertising costs and inventory of \$2.4 million and \$2.0 million, respectively, partially offset by the noncash adjustments to the net loss of \$17.6 million and reductions in accounts receivable of \$4.6 million. The reduction in accounts payable reflects payments for inventory purchases of holiday and fitness season shipments and our decision to lower accounts payable as interest rates declined. Our net cash provided by operating activities during the nine months ended September 30, 2007 was primarily attributable to cash provided from net income of \$4.3 million, noncash adjustments to net income of \$10.3 million, and improved accounts receivable collections of \$13.2 million, partially offset by the use of funds from increased inventory in preparation for the 2007 holiday season of \$3.1 million, reduced accounts payable of \$3.0 million, and increased deferred advertising of \$2.2 million.

*Investing activities.* Our investing activities used net cash of \$37.7 million and \$12.1 million during the nine months ended September 30, 2008 and 2007, respectively. The net cash used in investing activities during the nine months ended September 30, 2008 was used primarily to acquire our new corporate headquarters property, businesses, equipment and other investments for \$30.9 million and purchase and produce media rights for \$5.4 million. Our net cash provided by our investing activities during the nine months ended September 30, 2007 primarily reflected the acquisition of businesses for \$10.8 million, net of acquired funds, and the purchase of property, equipment and media rights for \$5.1 million, partially offset by proceeds from the sale of an investment for \$1.4 million and prepayment of a promissory note principal and interest for \$2.4 million.

*Financing activities.* Our financing activities provided net cash of \$31.6 million during the nine months ended September 30, 2008 and used net cash of \$32.2 million during the nine months ended September 30, 2007. Our net cash provided by financing activities during the nine months ended September 30, 2008 primarily reflected net proceeds from Real

Edgar Filing: GAIAM, INC - Form 10-Q

Goods IPO of \$48.2 million and issuances of our common stock and related tax benefits of \$1.5 million, partially offset by the use of funds to repurchase approximately 1.3 million shares of our Class A common stock for \$18.1 million. We used net cash in our financing activities during the nine months ended September 30, 2007 primarily to repurchase 2.5 million shares of our Class A common stock for \$32.9 million, partially offset by net proceeds from the exercise of stock options of \$0.8 million.

On November 8, 2007, we filed a shelf registration statement on Form S-3 with the Securities and Exchange Commission for 5,000,000 shares of our Class A common stock. During the nine months ended September 30, 2008, we issued 221,152 of these shares to acquire business ownership interests.

We believe our available cash, cash expected to be generated from operations, cash generated by the sale of our stock, and borrowing capabilities should be sufficient to fund our operations on both a short-term and long-term basis. However, our projected cash needs may change as a result of acquisitions, product development, unforeseen operational difficulties or other factors.

In the normal course of our business, we investigate, evaluate and discuss acquisition, joint venture, minority investment, strategic relationship and other business combination opportunities in the LOHAS market. For any future investment, acquisition or joint venture opportunities, we may consider using then-available liquidity, issuing equity securities or incurring additional indebtedness.

Table of Contents**Contractual Obligations**

We have commitments pursuant to lease agreements, but have no outstanding commitments pursuant to long-term debt, capital lease, or purchase obligations. The following table shows our commitments to make future payments under operating leases:

(in thousands)	Total	< 1 year	1-3 years	3-5 years	> 5 years
Operating lease obligations	\$ 9,155	\$ 2,503	\$ 3,095	\$ 2,034	\$ 1,523

**Risk Factors**

We wish to caution you that there are risks and uncertainties that could cause our actual results to be materially different from those indicated by forward looking statements that we make from time to time in filings with the Securities and Exchange Commission, news releases, reports, proxy statements, registration statements and other written communications as well as oral forward looking statements made from time to time by our representatives. These risks and uncertainties include, but are not limited to, those risks listed in our Annual Report on Form 10-K for the year ended December 31, 2007. Additional risks and uncertainties that we currently deem immaterial may also impair our business operations, and historical results are not necessarily an indication of the future results. Except for the historical information contained herein, the matters discussed in this analysis are forward-looking statements that involve risk and uncertainties, including, but not limited to, general economic and business conditions, competition, pricing, brand reputation, consumer trends, and other factors which are often beyond our control. We do not undertake any obligation to update forward-looking statements except as required by law.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We are exposed to market risks, which include changes in U.S. interest rates and foreign exchange rates. We do not engage in financial transactions for trading or speculative purposes.

Any borrowings we might make under our bank credit facility would bear interest at the lower of prime rate less 75 basis points or LIBOR plus 275 basis points. We do not have any amounts outstanding under our credit line, so any unfavorable change in interest rates would not have a material impact on our results from operations or cash flows unless we make borrowings in the future.

We purchase a significant amount of inventory from vendors outside of the U.S. in transactions that are primarily U.S. dollar denominated transactions. A decline in the relative value of the U.S. dollar to other foreign currencies has and may continue to lead to increased purchasing costs.

**Item 4. Controls and Procedures**

**Evaluation of Disclosure Controls and Procedures**

Our chief executive officer and chief financial officer conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act. Based upon their evaluation as of September 30, 2008, our chief executive officer and chief financial officer have concluded that those disclosure controls and procedures are effective.

**Changes in Internal Control over Financial Reporting**

No changes in our internal control over financial reporting occurred during the three and nine months ended September 30, 2008 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
