Fair Value Measurements - Effective March 1, 2008, the Fund adopted Financial Accounting Standards Board Statement

of Financial Accounting Standards No. 157 (SFAS 157), Fair Value Measurements. This new accounting statement defines

fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. The three levels of the fair value hierarchy are as follows:

- Level 1 - quoted prices in active markets for identical investments
- Level 2 - other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Fund's own assumption in determining the fair value of investments)

The inputs or methodology used in valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of May 31, 2009 in determining the Fund's investments at fair value for purposes of SFAS 157:

	Quoted Prices in Active Markets for Identical Investments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Common Stock	\$ 3,837,232	\$ 165,822,968	\$
Real Estate Investment Trusts		4,755,720	
Exchange-Traded Funds	7,282,918		
Preferred Stock		4,268,816	
Total	\$ 11,120,150	\$ 174,847,504	\$
Other Financial Instruments**	\$	\$ (1,007,198)	\$
Total	\$	\$ (1,007,198)	\$

Fair value for purposes of SFAS 157 is different from fair value as used in the 1940 Act. The former generally implies market value, and can include market quotations as a source of value, and the latter refers to determinations of value in absence of available market quotations.

** Other financial instruments may include open forward foreign currency contracts, futures, swaps, and written options. Forward foreign currency contracts and futures are reported at their unrealized gain/loss at period end. Swaps and written options are reported at their market

value at period end.

ING Asia Pacific High Dividend Equity Income Fund

**PORTFOLIO OF INVESTMENTS
as of May 31, 2009 (Unaudited) (continued)**

On March 19, 2008, the FASB issued Statement of Financial Accounting Standards No. 161 (SFAS No. 161), Disclosure about Derivative Instruments and Hedging Activities. This new accounting statement requires enhanced disclosures about an entity's derivative and hedging activities. Entities are required to provide enhanced disclosures about (a) how and why an entity invests in derivatives, (b) how derivatives are accounted for under SFAS No. 133, and (c) how derivatives affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 also requires enhanced disclosures regarding credit-risk related contingent features of derivative instruments.

The following is a summary of the fair valuations of the Funds derivative instruments categorized by risk exposure as of May 31, 2009:

Asset Derivatives as of May 31, 2009		Liability Derivatives as of May 31, 2009	
Risk Exposure Category	Fair Value*	Risk Exposure Category	Fair Value*
Equity Contracts	\$	Equity Contracts	\$ 1,007,198
Total	\$		\$ 1,007,198

* Forward foreign currency contracts and futures are reported at their unrealized appreciation/depreciation at period end. Swaps, purchased options and written options are reported at their market value at period end.
