Date of reporting period: July 1, 2009 to December 31, 2009

Item 1 - Report to Stockholders

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

February 12, 2010

Dear Fellow Shareholder,

The New America High Income Fund's (the "Fund") total return based on net asset value per share (the "NAV") for 2009 was an impressive 83.63%, a far cry from the negative total return of -34.74% in 2008. These results should not be viewed in isolation but rather as a combination of the two years in a period of high volatility. For the two year period, the Fund had a combined total return based on NAV of 21.2%, or a 10.09% average annualized total return.

The portfolio's performance benefited from a combination of the 54% recovery of the market as measured by the Credit Suisse High Yield Index, the low cost leverage deployed by the Fund and the skill of our investment advisor, T. Rowe Price Associates, Inc. The economic turmoil is still evident in all markets. We do not expect a repeat of 2009's gains, however, we do believe that a high yield strategy which is both conservative and opportunistic can continue to be rewarding for our shareholders.

The Fund's leverage, which is in the form of an Auction Term Preferred Stock (the "ATP"), contributed approximately 23% of the common stock dividend in 2009. The Fund's use of leverage is not without risk. Leverage increases the volatility of the Fund's NAV. In improving high yield markets, the leverage increases the NAV, however, in declining markets, the leverage exacerbates the decline in the Fund's NAV.

Performance Update

The Fund's NAV ended the period at \$9.44. The market price for the Fund's shares on the New York Stock Exchange closed at \$9.05 on December 31, 2009, representing a market price discount of approximately 4.1% from the NAV. The Fund paid dividends totaling \$0.904 per share in 2009. Of course in the future, the Fund's common stock dividend may fluctuate, as it has in the past, depending upon portfolio results, the cost and amount of leverage, market conditions and other factors.

Total Returns for the Periods Ending December 31, 2009

	1 Year	3 Years Cumulative
New America High Income Fund (Stock Price and Dividends)*	126.88%	12.88%
New America High Income Fund (NAV and Dividends)	83.63%	21.00%
Lipper Closed-End Fund Leveraged High Yield Average	59.91%	(13.60%)
Credit Suisse High Yield Index	54.22%	16.87%
Citigroup 10 Year Treasury Index	7.31%	18.96

Sources: Credit Suisse, Citigroup, Lipper Inc., The New America High Income Fund, Inc.

Past performance is no guarantee of future results. Total return assumes the reinvestment of dividends.

* Because the Fund's shares may trade at either a discount or premium to the Fund's net asset value per share, returns based upon the stock price and dividends will tend to differ from those derived from the underlying change in net asset value and dividends.

High Yield Market Update

The high yield market ended the year with powerful momentum, capping off the best year ever for the asset class. Even as the economy, by some measures, struggled on the path to recovery and interest rates trended higher, positive investor flows and the pace of new issue volume suggested confidence in the high yield asset class remained intact. New buyers of high yield bonds emerged during the fourth quarter, allowing corporate America to issue more debt securities at attractive long term rates.

The process of refinancing and balance sheet repair that we have witnessed throughout the year has been a key ingredient in the recovery for high yield bonds and should lead to much lower default rates in 2010 than 2009. In December, only one high yield company missed an interest payment. Just a year ago one commonly cited measure, the distressed ratio, (the percentage of the market trading at a yield of 1,000 basis points or more over the reference US Treasury bond yield) peaked at 84%, implying only 16% of the high yield universe was at low risk of insolvency. Today the distressed ratio is closer to 18%, reflecting an unprecedented improvement in the outlook for high yield credits. Prices for high yield bonds have witnessed a similar recovery, with valuations surging throughout the year. While the gains have been dramatic, they are in many cases attributable to the stern actions corporate managements undertook throughout the crisis to right size their businesses for a new economic reality. Many of the credits we evaluate look fundamentally better than they did just a year ago, with lower levels of debt on the balance sheet and ample liquidity. This renewed corporate vigor along with the backdrop of a slowly improving economy and a market that remains receptive to new issues sets the stage for a lower default rate and potentially additional capital appreciation for high yield bonds as we move into the new year.

Strategy Review

One notable trend in our asset class during the last months of 2009 was the emergence of financial services industry as one of the largest sectors in our market. Comprised mostly of fallen angels that have drifted lower in credit quality as a consequence of the credit crisis, most high yield benchmarks now place financials at around 10% of all outstanding high yield debt. CIT, SLM Corp and even lower tranches of AIG and Bank of America now populate the universe of debt with ratings below investment grade. When CIT emerged from bankruptcy in December, it immediately became one of the largest high yield issuers. We continue to carefully evaluate the financial services credits as they enter our universe and have found many attractive for inclusion in the portfolio. A steep yield curve and federal government support has us anticipating good performance out of this increasingly important sector.

We continued to emphasize higher yielding, medium and lower quality credits as we managed the portfolio at the end of the year. For example, we added a significant position in wireless spectrum player Clearwire in November. The company issued 12% bonds due 2015, with the securities rated Caa1/B-. Similarly, we increased our position in Intelsat Bermuda 11.5% notes of 2017. We hold strong conviction on these companies fundamentally, but also believe these types of securities will prove defensive in a rising interest rate environment. Conversely, we are deemphasizing lower coupon, longer duration BB rated bonds on the view that they may suffer in price should rates move higher in 2010.

Outlook

High yield bonds delivered solid gains in 1992 and 2004, following spectacular results in the years prior. While that offers no guarantee results for 2010 will follow a similar pattern after 2009's heady gains, we think it is worth considering investors may still earn high current income and some additional capital appreciation this year. In spite of our positive perspective on the market, we are ever cautious regarding signs of bad behavior returning to the asset class and we are constantly on the lookout for questionable structures, weak covenants and skimpy pricing for new deals. It is our intent to remain ever vigilant in our research and we do not intend to compromise our credit standards as we strive to protect the hard earned gains the fund has enjoyed over the past year.

Sincerely,

Robert F. Birch

(a) Denotes income is not being accrued and/or issuer is in bankruptcy proceedings

(b) Securities are step interest bonds. Interest on these bonds accrues based on the effective interest method which results in a constant rate of interest being recognized.

(c) Security is valued at fair value using methods determined by the Board of Directors. The total value of these securities at December 31, 2009 was \$726. See Note 1 to the Financial Statements.

(d) Percentages indicated are based on total net assets to common shareholders of \$217,224

(e) Not rated

(f) Non-income producing

(g) Securities are exempt from registration under Rule 144A of the Securities Act of 1933. Such securities may be resold, normally to qualified institutional buyers in transactions exempt from registration. Unless otherwise noted, 144A Securities are deemed to be liquid. See Note 1 of the Note to Schedule of Investments for valuation policy. Total market value of Rule 144A securities amounted to \$95,281 as of December 31, 2009

(h) Restricted as to public resale. The total value of restricted securities owned at December 31, 2009 was \$5,744 or 2.64% of total net assets to common shareholders.

Calculation is based on average shares outstanding during the indicated period due to the per share effect of the Fund's September, 2007 rights offering.

Total investment return is calculated assuming a purchase of common stock at the current market value on the first day and a sale at the current market value on the last day of each year reported. Dividends and distributions are assumed for purposes of this calculation to be reinvested at prices obtained under the dividend reinvestment plan. This calculation does not reflect brokerage commissions.

(3) In January 2008, the Fund repurchased 600 shares of preferred stock at a price of \$25,000 per share. In October 2008, the Fund accepted an unsolicited offer to buy back and retire 1,183 shares of preferred stock at a price of \$16,250 per share. The Fund realized a gain of \$10,351,000 on this transaction. See Note 4 to the Financial Statements.

The accompanying notes are an integral part of these financial statements.

The New America High Income Fund, Inc.

Notes to Financial Statements
December 31, 2009

(1) Significant Accounting and Other Policies

The New America High Income Fund, Inc. (the Fund) was organized as a corporation in the state of Maryland on November 19, 1987 and is registered with the Securities and Exchange Commission as a diversified, closed-end investment company under the Investment Company Act of 1940. The Fund commenced operations on February 26, 1988. The investment objective of the Fund is to provide high current income while seeking to preserve stockholders' capital through investment in a professionally managed, diversified portfolio of "high yield" fixed-income securities.

The Fund invests primarily in fixed maturity corporate debt securities that are rated less than investment grade. Risk of loss upon default by the issuer is significantly greater with respect to such securities compared to investment grade securities because these securities are generally unsecured and are often subordinated to other creditors of the issuer and because these issuers usually have high levels of indebtedness and are more sensitive to adverse economic conditions, such as a recession, than are investment grade issuers. In some cases, the collection of principal and timely receipt of interest is dependent upon the issuer attaining improved operating results, selling assets or obtaining additional financing.

The Fund may focus its investments in certain industries, subjecting it to greater risk than a Fund that is more diversified. See the schedule of investments for information on individual securities as well as industry diversification and credit quality ratings.

The Fund's financial statements have been prepared in conformity with accounting principles generally accepted in the United States for investment companies that require the management of the Fund to, among other things, make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

The following is a summary of significant accounting policies consistently followed by the Fund, which are in conformity with those generally accepted in the investment company industry.

(a) *Valuation of Investments* Investments for which market quotations are readily available are stated at market value, which is determined by using the most recently quoted bid price provided by an independent pricing service or principal market maker. Independent pricing services provide market quotations based primarily on quotations from dealers and brokers, market transactions, accessing data from quotations services, offering sheets obtained from dealers and various relationships between securities. Investments whose primary market is on an exchange are valued at the last sale price on the day of valuation. Short-term investments with original maturities of 60 days or less are stated at amortized cost, which approximates market value. Following procedures approved by the Board of Directors, investments for which market quotations are not readily available (primarily fixed-income corporate bonds and notes) are stated at fair value on the basis of subjective valuations furnished by securities dealers and brokers. Other investments, for which market quotations are not readily available with a cost of approximately \$3,449,000 and a value of \$726,000, are valued in good faith at fair market value using methods determined by the Board of Directors. Fair value measurement is further discussed in section (d) of this footnote.

(b) *Securities Transactions and Net Investment Income* Securities transactions are recorded on trade date. Realized gains or losses on sales of securities are calculated on the identified cost basis. Interest income is accrued on a daily basis. Discount on short-term investments is amortized to investment income. Premiums or discounts on corporate debt securities are amortized based on the interest method for financial

The New America High Income Fund, Inc.

Notes to Financial Statements Continued
December 31, 2009

reporting purposes. All income on original issue discount and step interest bonds is accrued based on the effective interest method. The Fund does not amortize market premiums or discounts for tax purposes. Dividend payments received in the form of additional securities are recorded on the ex-dividend date in an amount equal to the value of the security on such date.

(c) **Federal Income Taxes** It is the Fund's policy to comply with the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders each year. Accordingly, no federal income tax provision is required.

Management has reviewed the Fund's tax positions for all open tax years (tax years ended December 31, 2005-2008) and has concluded that no provision for income tax is required in the Fund's financial statements.

(d) **Fair Value Measurement** The Fund applies ASC 820 "Fair Value Measurements and Disclosures" formerly known as SFAS No. 157 "Fair Value Measurements". This standard establishes the definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements.

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

A description of the valuation techniques applied to the Fund's major asset categories is as follows.

Debt securities (corporate, convertible & bank debt). The fair value of debt securities is provided by independent pricing services using quotations from dealers and brokers, market transactions, data from quotations services, offering sheets and various relationships between securities. While most corporate bonds are categorized in level 2 of the fair value hierarchy, there may be instances where less observable inputs necessitate a level 3 categorization.

The New America High Income Fund, Inc.

Notes to Financial Statements Continued
December 31, 2009

Equity securities (preferred and common stock). Equity securities for which the primary market is on an exchange will be valued at the last sale price on the day of valuation and are categorized in level 1 of the fair value hierarchy. Other equity securities traded in inactive markets or valued by independent pricing services using methods similar to debt securities are categorized in level 2. The fair value of equity securities in which observable inputs are unavailable are categorized in level 3.

Short-term investments. Short-term investments are valued using amortized cost, which approximates fair value. To the extent the inputs are observable and timely the values would be categorized in level 2 of the fair value hierarchy.

The following is a summary of the inputs used as of December 31, 2009 in valuing the Fund's investments:

	Level 1 Quoted Prices (000's)	Level 2 Significant Observable Inputs (000's)	Level 3 Significant Unobservable Inputs (000's)	Total Value (000's)

* Debt Securities All are level 2. Type of debt and industries are shown on the Schedule of Investments.

The following is a reconciliation of Fund investments using Level 3 inputs for the period:

**Equity
Securities**

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

Balance, December 31, 2008	\$	50,000
Net purchases (sales)		
Change in unrealized appreciation (depreciation)		56,000
Realized gain (loss)		
Transfers in and/or out of Level 3		124,000
Balance, December 31, 2009	\$	230,000

(2) Tax Matters and Distributions

At December 31, 2009, the total cost of securities (including temporary cash investments) for federal income tax purposes was approximately \$286,555,000. Aggregate gross unrealized gain on securities in which there was an excess of value over tax cost was approximately \$23,674,000. Aggregate gross unrealized loss on securities in which there was an excess of tax cost over value was approximately \$7,715,000. Net unrealized gain on investments for tax purposes at December 31, 2009 was approximately \$15,959,000.

The New America High Income Fund, Inc.

Notes to Financial Statements Continued
December 31, 2009

At December 31, 2009, the Fund had approximate capital loss carryovers available to offset future capital gains, if any, to the extent provided by regulations:

Carryover Available	Expiration Date
\$ 45,239,000	December 31, 2010
7,387,000	December 31, 2011
125,000	December 31, 2012
954,000	December 31, 2013
1,481,000	December 31, 2014
15,500,000	December 31, 2016
26,848,000	December 31, 2017
\$ 97,534,000	

It is the policy of the Fund to reduce future distributions of realized gains to shareholders to the extent of the unexpired capital loss carry forward.

The tax character of distributions paid to common and preferred shareholders of approximately \$21,050,000 and \$23,368,000 in 2009 and 2008, respectively, was from ordinary income.

As of December 31, 2009, the components of distributable earnings on a tax basis were approximately:

Unrealized Loss	\$ (15,959,000)
Post-October Losses	\$ (403,000)
Preferred Dividend Payable	\$ (3,000)
Capital Losses Carry Forward	\$ (97,534,000)

The difference between components of distributable earnings on a tax basis and the amounts reflected in the Statement of Assets and Liabilities are primarily due to market discount adjustments, deductibility of preferred stock dividends, wash sales and post-October losses. The Fund has recorded several reclassifications in the capital accounts to present undistributed net investment income and accumulated net realized losses on a tax basis. These reclassifications have no impact on the net asset value of the Fund. For the year ended December 31, 2009, permanent differences between book and tax accounting have been reclassified as follows:

Increase (decrease) in:

Undistributed net investment income	\$ (47,000)
Accumulated net realized loss from securities transactions	\$ 67,114,000
Capital in excess of par value	\$ (67,067,000)

Distributions on common stock are declared based upon annual projections of the Fund's investment company taxable income. The Fund records all dividends and distributions payable to shareholders on the ex-dividend date and declares and distributes income dividends monthly.

The Fund is required to amortize market discounts and premiums for financial reporting purposes. This results in additional interest income in some years and decreased interest income in others for financial reporting purposes only. The Fund does not amortize market discounts or premiums for tax purposes. Therefore, the additional or decreased interest income for financial reporting purposes does not result in additional or

decreased common stock dividend income.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years 2006-2008, or expected to be taken in the Fund's 2009 tax returns. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

(3) Investment Advisory Agreement

T. Rowe Price Associates, Inc. (T. Rowe Price), the Fund's Investment Advisor, earned approximately

The New America High Income Fund, Inc.

Notes to Financial Statements Continued
December 31, 2009

\$941,000 in management fees during the year ended December 31, 2009. Management fees paid by the Fund to T. Rowe Price were calculated at 0.50% on the first \$50,000,000 of the Fund's average weekly net assets, 0.40% on the next \$50 million and 0.30% on average weekly net assets in excess of \$100 million. T. Rowe Price's fee is calculated based on assets attributable to the Fund's common and auction term preferred stock. At December 31, 2009, the fee payable to T. Rowe Price was approximately \$90,000, which was included in accrued expenses on the accompanying statement of assets and liabilities.

(4) Auction Term Preferred Stock (ATP)

The Fund had 3,417 shares of ATP issued and outstanding at December 31, 2009. The ATP's dividends are cumulative at a rate determined at an auction, and dividend periods will typically be 28 days unless notice is given for periods to be longer or shorter than 28 days. Dividend rates ranged from .08% .602% for the year ended December 31, 2009. The average dividend rate as of December 31, 2009 was .124%.

The ATP is redeemable, at the option of the Fund, or subject to mandatory redemption (if the Fund is in default of certain coverage requirements) at a redemption price equal to \$25,000 per share plus accumulated and unpaid dividends. The ATP has a liquidation preference of \$25,000 per share plus accumulated and unpaid dividends. All ATP auctions are failing and the approximate market value is not determinable at 12/31/09. The Fund is required to maintain certain asset coverages with respect to the ATP under the Fund's Charter and the 1940 Act in order to maintain the Fund's Aaa/AAA ratings by Moody's Investors Service, Inc. and Fitch, Inc., respectively.

(5) ATP Auction-Related Matters

Deutsche Bank (DB) serves as the ATP's auction agent pursuant to an agreement entered into on January 4, 1994 with Bankers Trust Company (BTC). BTC was later acquired by DB. The term of the agreement is unlimited and may be terminated by either party. DB may resign upon notice to the Fund, such resignation to be effective on the earlier of the 90th day after the delivery of such notice and the date on which a successor auction agent is appointed by the Fund. The Fund may also replace DB as auction agent at any time.

After each auction, DB will pay to each broker-dealer, from funds provided by the Fund, a maximum service charge at the annual rate of 0.25 of 1% or such other percentage subsequently agreed to by the Fund and the broker-dealers, of the purchase price of shares placed by such broker-dealers at such auction. In the event an auction scheduled to occur on an auction date fails to occur for any reason, the broker-dealers will be entitled to service charges as if the auction had occurred and all holders of shares placed by them had submitted valid hold orders. The Fund incurred approximately \$63,000 for service charges for the year ended December 31, 2009. This amount is included under the caption preferred and auction fees in the accompanying statement of operations.

The Fund is currently not paying a service charge on series A, B and C ATP because the broker-dealer is not participating in the auctions. A service charge is being paid on series D.

(6) Interest Rate Swaps

The Fund entered into an interest payment swap arrangement with Bank of America, N.A. for the purpose of partially hedging its dividend payment obligations with respect to the ATP. Pursuant to the Swap Arrangement the Fund made payments to Bank of America, N.A. on a

The New America High Income Fund, Inc.

Notes to Financial Statements Continued
December 31, 2009

monthly basis at a fixed annual rate. In exchange for such payment Bank of America, N.A. made payments to the Fund on a monthly basis at a variable rate determined with reference to one month LIBOR. The variable rates ranged from .246% - 1.89% for the period January 1, 2009 to November 5, 2009. On that date the Swap Arrangement matured. The effective date, notional amount, maturity and fixed rate of the swap was as follows:

Effective Date	Notional Contract Amount	Maturity	Fixed Annual Rate
11/5/04	\$ 85,425,000	11/5/09	3.775%

Swap transactions, which involve future settlement, give rise to credit risk. Credit risk is the amount of loss the Fund would incur in the event counterparties failed to perform according to the terms of the contractual commitments. In the event of nonperformance by the counterparty, the Fund's dividend payment obligation with respect to the ATP would no longer be partially hedged. Therefore, the ATP dividend would no longer be partially fixed. In an unfavorable interest rate environment, the Fund would be subject to higher net ATP dividend payments, resulting in less income available for the common share dividend. The Fund does not anticipate nonperformance by any counterparty. While notional contract amounts are used to express the volume of interest rate swap agreements, the amounts potentially subject to credit risk, in the event of nonperformance by counterparties, are substantially smaller.

The Fund recognizes all freestanding derivative instruments in the balance sheet as either assets or liabilities and measures them at fair value. Any change in the unrealized gain or loss is recorded in current earnings. For the period January 1, 2009 to November 5, 2009, the Fund's obligation under the swap agreement was more than the amount received from Bank of America, N.A. by approximately \$2,475,000 and such amount is included in the accompanying statement of operations.

(7) Purchases and Sales of Securities

Purchases and proceeds of sales or maturities of long-term securities during the year ended December 31, 2009 were approximately:

Cost of purchases	\$ 211,465,000
Proceeds of sales or maturities	\$ 208,407,000

(8) Related Party Transactions

A partner of Goodwin Procter LLP, counsel to the Fund, serves as a Director of the Fund. Fees earned by Goodwin Procter LLP amounted to approximately \$290,000 for the year ended December 31, 2009.

The Fund paid approximately \$344,000 during the year ended December 31, 2009 to two officers of the Fund for the provision of certain administrative services.

(9) Investments in Restricted Securities

(Dollars in thousands)

The Fund is permitted to invest in restricted securities. The total restricted securities (excluding 144A issues) at December 31, 2009 amounts to \$5,744 and represents 2.64% of net assets to common shareholders.

(10) Derivative Contract

The effect of derivative instruments on the Statement of Operations for the Year Ended December 31, 2009, was as follows:

Amount of Realized Loss on Derivatives

	Interest Rate Swap
Net swap settlement disbursements	\$ (2,475,000)

Change in Unrealized Depreciation on Derivatives

	Interest Rate Swap
Change in unrealized depreciation	\$ 2,181,000

The Fund's swap arrangement matured on November 5, 2009. At December 31, 2009 there were no derivative contracts held by the Fund.

(11) New Accounting Pronouncements

In October 2008, the FASB issued Staff Position 157-3, *Determining the Fair Value of a Financial Asset in a Market That Is Not Active* ("FSP 157-3"), which clarifies the application of ASC 820 in an inactive market and provides an illustrative example to demonstrate how the fair value of a financial asset is determined when the market for that financial asset is not active. The guidance provided by FSP 157-3 did not have an impact on the Fund's approach to valuing financial assets.

In April 2009, the FASB Staff issued Position No. 157-4 *Determining Fair Value when the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* ("FSP 157-4"). FSP 157-4 clarifies the application of ASC 820 when the markets become inactive and quoted prices may reflect distressed transactions. FSP 157-4 provides a non-exclusive list of factors a reporting entity should consider when determining whether there has been a significant decrease in the volume and level of activity for an asset or liability when compared with normal market activity. Under FSP 157-4, if a reporting entity concludes there has been a significant decrease in volume and level of activity for the asset or liability (or similar assets or liabilities), transactions or quoted prices may not be determinative of fair value. Further analysis of the transactions or quoted prices is needed, and a significant adjustment to the transactions or quoted prices may be necessary to estimate fair value in accordance with FASB Statement No. 157 *Fair Value Measurement*. FSP 157-4 is effective for interim and annual reporting periods ending after June 15, 2009, and shall be applied prospectively. The guidance provided by FSP 157-4 did not have an impact on the Fund's approach to valuing financial assets.

In May 2009, the Fund adopted ASC 855 "Subsequent Events," formerly known as Financial Accounting Standard 165. ASC 855 provides authoritative accounting literature related to evaluating subsequent events that was previously addressed only in the auditing literature, and is largely similar to the current guidance in the auditing literature with some exceptions that are not intended to result in significant changes in practice. ASC 855 defines subsequent events and also requires the disclosure of the date through which an entity has evaluated subsequent

events and the basis for that date. The Fund has evaluated subsequent events through February 17, 2010.

The New America High Income Fund, Inc.

Notes to Financial Statements Continued
December 31, 2009

In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU No. 2010-06"), *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amends ASC 820. Interim and annual reporting periods beginning after December 15, 2009 will require additional disclosure regarding transfers in and/or out of Level 1 and 2 and activity in Level 3 fair value measurement. Management is currently evaluating the impact on the Fund's financial statements.

(12) Reverse Stock Split

The Fund implemented a reverse stock split of 1-for-5 effective after the close of business on January 22, 2009. As a result of the reverse stock split, every five outstanding Fund shares were converted into one share, thereby reducing the number of outstanding shares by a factor of five, or by 92,074,239 shares.

The New America High Income Fund, Inc.

Notes to Financial Statements - Continued
Supplemental Information (Unaudited)

Availability of Portfolio Holdings

The Fund provides a complete schedule of its portfolio holdings quarterly. The lists of holdings as of the end of the second and fourth quarters appear in the Fund's semi-annual and annual reports to shareholders, respectively. The schedules of portfolio holdings as of the end of the first and third quarters are filed with the Securities and Exchange Commission (the "SEC") on Form N-Q (the "Forms") within 60 days of the end of the first and third quarters. Shareholders can look up the Forms on the SEC's web site at www.sec.gov. The Forms may also be reviewed and copied at the SEC's public reference room in Washington, D.C. You may call the SEC at 1-800-SEC-0330 for information about the SEC's web site and their public reference room. In addition, the Forms may be reviewed on the Fund's web site at www.newamerica-hyb.com.

Compliance Certifications

On May 20, 2009, your Fund submitted a CEO annual certification to the New York Stock Exchange (NYSE) on which the Fund's principal executive officer certified that he was not aware, as of that date, of any violation by the Fund of the NYSE's Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Fund's principal executive and principal financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund's disclosure controls and procedures and internal control over financial reporting.

Common and Auction Term Preferred Stock Transactions

From time to time in the future, the Fund may redeem and/or purchase its ATP as provided in the Fund's governing documents, as agreed upon by the Fund and sellers or as otherwise permitted. The Fund may effect such redemptions and/or purchases when it deems advisable.

The Fund may purchase shares of its Common Stock in the open market when the Common Stock trades at a discount to net asset value or at other times if the Fund determines such purchases are advisable. There can be no assurance that the Fund will take such action in the event of a market discount to net asset value or that Fund purchases will reduce a discount.

Information About the Review and Approval of the Fund's Investment Advisory Agreement

On October 29, 2009, the Board of Directors, including all of the Directors that are not "interested persons" of the Fund (the "Independent Directors") within the meaning of the Investment Company Act of 1940, approved the continuation of the Advisory Agreement with the Adviser. In considering this action, the Directors requested and reviewed a variety of materials relating to the Fund and the Adviser, including information on the Adviser's organization, operations and personnel, services the Adviser provides to the Fund, the Adviser's investment management practices, the Adviser's fees and profitability, the Adviser's compliance programs and the performance and the expenses of the Fund relative to other closed-end high yield debt funds, the Adviser's other high yield debt clients and high yield debt indices, among other matters. The Directors also took into account performance, portfolio management, organizational and other information regarding the Fund and the Adviser provided to them by the Adviser and Fund management throughout the year.

Nature, Extent and Quality of Services. In considering the nature, extent and quality of the services provided by the Adviser, the Directors reviewed information relating to the Adviser's operations and personnel. Among other things, the Adviser provided financial information, biographical information on its portfolio management and other professional staff and descriptions of its organizational and management structure, its trade placement policies and its compliance practices. At the meeting on October 29, 2009, among other matters, Adviser personnel reviewed how the Adviser's organization stood following the prior year's market conditions. The Directors also took into account information provided periodically since the Board's last renewal of the Advisory Agreement by the Adviser relating to the performance of its duties with respect to the Fund and Fund management in connection with Board meetings and otherwise. In the course of their deliberations regarding the Advisory Agreement, the Directors evaluated, among other things: (a) the services rendered by the Adviser in the past; (b) the qualifications and experience of the Adviser's personnel; and (c) the Adviser's compliance programs. The Directors also took into account the financial condition of the Adviser with respect to its ability to provide the services required under the Advisory Agreement. After consideration of the foregoing, the Directors concluded that: (1) the Adviser is a large, well capitalized organization with substantial resources and personnel; (2) the Adviser has demonstrated that it possesses the capability and resources to perform the duties required of it under the Advisory Agreement; (3) the Adviser's personnel are qualified to manage the Fund's assets in accordance with its investment objectives and policies; (4) the Adviser's disciplined but flexible investment approach is appropriate for the Fund; (5) the Adviser has demonstrated an appropriate awareness of the special requirements associated with the Fund's leveraged structure; and (6) the Adviser maintains appropriate compliance programs.

Fund Performance. The Directors noted that according to Lipper Inc., the Fund's total return based on its net asset value (which reflects the effect both of the Fund's fees and expenses and of the costs and effects of the Fund's leverage) was in the top decile for total return performance based on net asset value for the closed-end high yield debt funds in the Lipper CEFHY Leveraged Index for the one year, three year and five year periods ended September 30, 2009, and above the median for that group for the period from November 30, 2002 (the approximate date on which the Adviser began managing the Fund) to September 30, 2009. The Directors also noted that the Fund's performance based on net asset value exceeded the performance of the Lipper CEFHY Leveraged Index, the Lipper CEFHY Non-Leveraged Index and the Lipper High Yield Index for the one, three and five year periods ended September 30, 2009. In addition, the Directors noted that the Fund's total return calculated without taking into account the effect of any fees and expenses or the costs or effects of the Fund's leverage exceeded the performance of the Credit Suisse

The New America High Income Fund, Inc.

Notes to Financial Statements – Continued
Supplemental Information (Unaudited)

High Yield Index, the Barclays Capital U.S. Corporate High Yield Index, the Merrill Lynch High Yield Master Index, the JP Morgan Global High Yield Index and the Citigroup BB-B Index for the three year and five year periods ended September 30, 2009. In analyzing the Adviser's performance, the Directors took note of the conditions in the high yield debt market during the period since the Adviser was retained, the Adviser's responsiveness to the Board's emphasis on maintaining dividend stability and the limitations imposed on portfolio management by the diversification and asset coverage requirements associated with the credit rating for the Fund's auction term preferred stock. On the basis of the foregoing, among other considerations associated with the Fund's performance, the Directors concluded that the Fund's performance is reasonable given the investment/risk profile the Fund has sought to maintain and conditions in the high yield debt market.

Costs of Services/Adviser Profitability. The Directors determined that information relating to the cost to the Adviser of the services it provides under the Advisory Agreement and the profitability to the Adviser of its relationship with the Fund were not relevant to their consideration of the Advisory Agreement's continuation, since (a) during all relevant time periods there has been no affiliation or other relationship between Fund management or the Directors on one hand and the Adviser on the other hand, that would compromise the independence of Fund management and the Directors from the Adviser and (b) the process of selecting the Adviser to succeed Wellington Management Company was characterized by independent evaluation of potential successor firms and arm's length bargaining between Fund management and the Board on one hand, and the Adviser on the other, to determine the terms of, and the fee rate to be paid under, the Advisory Agreement. Fallout benefits to the Adviser from its relationship with the Fund were not a consideration in the Directors' deliberations as the Adviser did not appear to receive any material benefit from the Fund other than its advisory fees.

Economies of Scale. Given the Fund's advisory fee structure under the Advisory Agreement (which provides for breakpoints), and the Fund's current and anticipated size, the Directors concluded that the Fund's advisory fee adequately reflects any economies of scale the Adviser might enjoy in managing the Fund.

Advisory Fee. In considering the fee payable to the Adviser under the Advisory Agreement, the Directors reviewed information relating to the fees paid by open-end funds for which the Adviser serves as investment manager or subadviser, the fee schedule for separate account clients of the Adviser and data from Lipper Inc. on advisory fees paid by funds in the Lipper CEFHY Leveraged Index. Among other things, the Directors noted that (a) as of September 30, 2009, the effective advisory fee rate for the Fund was lower than the advisory fees the Adviser charges its other registered fund clients (which are open-end funds); (b) the Fund's advisory fee rate schedule is more favorable than the Adviser's standard fee schedules for high yield debt separate accounts; and (c) the Fund's advisory fee is below those charged by a substantial majority of the closed-end funds included in the Lipper CEFHY Leveraged Index. The Directors concluded that, in light of the nature, extent and quality of the services provided by the Adviser, the Fund's performance, and the other considerations noted above with respect to the Adviser, the Fund's advisory fees are reasonable.

Based on the above-mentioned factors and their related conclusions, with no single factor or conclusion being determinative and with each Director not necessarily attributing the same weight to each factor, the Directors concluded that approval of the Advisory Agreement would be in the interests of the Fund and its shareholders. Accordingly, on October 29, 2009, the Directors, including all of the Independent Directors, voted to approve continuation of the Advisory Agreement.

The New America High Income Fund, Inc.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
The New America High Income Fund, Inc.

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of The New America High Income Fund, Inc., as of December 31, 2009, and the related statement of operations for the year then ended and the statement of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (US). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2009, by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of The New America High Income Fund, Inc. as of December 31, 2009, the results of its operations for the year then ended, and the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years indicated thereon, in conformity with accounting principles generally accepted in the United States of America.

PRIVACY POLICY NOTICE

We respect the privacy rights of our shareholders and potential shareholders. We want you to understand what personal information The New America High Income Fund, Inc. (the "Fund") has and what information it does not have about its shareholders and visitors to Fund's web site.

Collection of Information The Fund has nonpublic personal information about shareholders who wish to become registered shareholders. This information includes the registered shareholder's name, mailing address, tax identification number and information about your account history with the Fund's shares. The Fund does not maintain any information about shareholders who hold shares in unregistered form in accounts with banks and brokerage firms. Visitors to the Fund's web site who contact the Fund for more information via electronic mail give the Fund personal information which may include the visitor's name, address, electronic mail address and telephone number so that the Fund may respond to the visitor's inquiry. The Fund's web site does not collect any information about visitors to the site and does not store any "cookies" on visitors' computers.

Disclosure of Information The Fund's shareholder data is maintained by the Fund's transfer agent, American Stock Transfer and Trust Company ("AST"). AST has assured the Fund that it is in compliance with all federal regulations regarding computer security. You should be aware, however, that there is no guarantee that the data will be secure. Access to your personal information is restricted to only those Fund staff and the staffs of our service providers who require access to your account information in order to provide service to you. The Fund or its agents does disclose shareholders' personal information for tax reporting purposes or in certain other cases required by government agencies or law enforcement agencies. We do not disclose or sell your personal information to any other entity.

Annual

Report

December 31, 2009

ITEM 2. CODE OF ETHICS.

As of December 31, 2003, the Fund has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its Principal Executive Officer, Principal Financial Officer/Chief Financial Officer, Principal Accounting Officer, Vice President, Treasurer and Manager of Accounting and Compliance. The code of ethics is posted on the Fund's web site at www.newamerica-hyb.com.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Fund's Audit and Nominating Committee is comprised solely of Directors who are independent as such term has been defined by the Securities and Exchange Commission in regulations implementing Section 407 of the Sarbanes-Oxley Act. The Board of Directors (a) has determined that each member of the Audit and Nominating Committee is financially literate and has accounting or related financial management experience as these terms are used in the corporate governance standards of the New York Stock Exchange and (b) believes that each has substantial experience relating to the review of financial statements and the operations of audit committees. In addition, the Board of Directors has determined that based upon their review of her experience and education, Ms. Piret qualifies as an audit committee financial expert, as that term has been defined by the instructions to this Item.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The information required by this Item regarding principal accountants, fees and services appears under the caption Independent Accountants and Fees in the Fund's Proxy Statement dated February 25, 2010 prepared for the Annual Meeting of Shareholders to be held April 22, 2010, which was filed with the SEC via EDGAR on February 25, 2010. The information under that caption is incorporated herein by reference.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The information required by this Item regarding the audit committee of the Fund appears under the caption Committees of the Board of Directors and Meetings Audit and Nominating Committee in the Fund's Proxy Statement dated February 25, 2010 prepared for the Annual Meeting of Shareholders to be held April 22, 2010, which was filed with the SEC via EDGAR on February 25, 2010. The information under that caption is incorporated herein by reference.

ITEM 6.

This schedule is included as part of the Report to Shareholders filed under Item 1 of this Form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

T. ROWE PRICE ASSOCIATES, INC

T. ROWE PRICE INTERNATIONAL, INC

T. ROWE PRICE GLOBAL INVESTMENT SERVICES, LTD

T. ROWE PRICE (CANADA), INC

PROXY VOTING POLICIES AND PROCEDURES

RESPONSIBILITY TO VOTE PROXIES

T. Rowe Price Associates, Inc., T. Rowe Price International, Inc., T. Rowe Price Global Investment Services Limited, and T. Rowe Price (Canada), Inc. (**T. Rowe Price**) recognize and adhere to the principle that one of the privileges of owning stock in a company is the right to vote in the election of the company's directors and on matters affecting certain important aspects of the company's structure and operations that are submitted to shareholder vote. As an investment adviser with a fiduciary responsibility to its clients, T. Rowe Price analyzes the proxy statements of issuers whose stock is owned by the U.S.-registered investment companies which it sponsors and serves as investment adviser (**T. Rowe Price Funds**) and by institutional and private counsel clients who have requested that T. Rowe Price be involved in the proxy process. T. Rowe Price has assumed the responsibility for voting proxies on behalf of the T. Rowe Price Funds and certain counsel clients who have delegated such responsibility to T. Rowe Price. In addition, T. Rowe Price makes recommendations regarding proxy voting to counsel clients who have not delegated the voting responsibility but who have requested voting advice. T. Rowe Price reserves the right to decline to vote proxies in accordance with client-specific voting guidelines.

T. Rowe Price has adopted these Proxy Voting Policies and Procedures (**Policies and Procedures**) for the purpose of establishing formal policies and procedures for performing and documenting its fiduciary duty with regard to the voting of client proxies.

Fiduciary Considerations. It is the policy of T. Rowe Price that decisions with respect to proxy issues will be made in light of the anticipated impact of the issue on the desirability of investing in the portfolio company from the viewpoint of the particular client or Price Fund. Proxies are voted solely in the interests of the client, Price Fund shareholders or, where employee benefit plan assets are involved, in the interests of plan participants and beneficiaries. Our intent has always been to vote proxies, where possible to do so, in a manner consistent with our fiduciary obligations and responsibilities. Practicalities and costs involved with international investing may make it impossible at times, and at other times disadvantageous, to vote proxies in every instance.

Other Considerations. One of the primary factors T. Rowe Price considers when determining the desirability of investing in a particular company is the quality and depth of its management. We recognize that a company's management is entrusted with the day-to-day operations of the company, as well as its long-term direction and strategic planning, subject to the oversight of the company's board of directors. Accordingly, our proxy voting guidelines are not intended to substitute our judgment for management's with respect to the company's day-to-day

operations. Rather, our voting guidelines are designed to promote accountability of a company's management and board of directors to its shareholders; to align the interests of management with those of shareholders; and, to encourage companies to adopt best practices in terms of their corporate governance. In addition to our voting guidelines, we rely on a company's disclosures, its board's recommendations, a company's track record, country-specific best practices codes, our research providers and, most importantly, our investment professionals' views, in making voting decisions.

ADMINISTRATION OF POLICIES AND PROCEDURES

Proxy Committee. T. Rowe Price's Proxy Committee (**Proxy Committee**) is responsible for establishing positions with respect to corporate governance and other proxy issues, including those involving corporate social responsibility issues. The Proxy Committee also reviews questions and responds to inquiries from clients and mutual fund shareholders pertaining to proxy issues. While the Proxy Committee sets voting guidelines and serves as a resource for T. Rowe Price portfolio management, it does not have proxy voting authority for any Price Fund or counsel client. Rather, this responsibility is held by the Chairperson of the Fund's Investment Advisory Committee or counsel client's portfolio manager.

Proxy Services Group. The Proxy Services Group is responsible for administering the proxy voting process as set forth in the Policies and Procedures.

Proxy Administrator. The Proxy Services Group will assign a Proxy Administrator who will be responsible for ensuring that all meeting notices are reviewed and important proxy matters are communicated to the portfolio managers for consideration.

HOW PROXIES ARE REVIEWED, PROCESSED AND VOTED

In order to facilitate the proxy voting process, T. Rowe Price has retained RiskMetrics Group (RMG), as an expert in the proxy voting and corporate governance area. RMG specializes in providing a variety of fiduciary-level proxy advisory and voting services. These services include voting recommendations as well as vote execution, reporting, auditing and consulting assistance for the handling of proxy voting responsibility. In order to reflect T. Rowe Price's issue-by-issue voting guidelines as approved each year by the Proxy Committee, RMG maintains and implements a custom voting policy for the Price Funds and other client accounts.

Meeting Notification

T. Rowe Price utilizes RMG's voting agent services to notify us of upcoming shareholder meetings for portfolio companies held in client accounts and to transmit votes to the various custodian banks of our clients. RMG tracks and reconciles T. Rowe Price holdings against incoming proxy ballots. If ballots do not arrive on time, RMG procures them from the appropriate custodian or proxy distribution agent. Meeting and record date information is updated daily, and transmitted to T. Rowe Price through Proxy Exchange, RMG's web-based application.

Vote Determination

Each day, RMG delivers into T. Rowe Price's proprietary proxy research platform a comprehensive summary of upcoming meetings, proxy proposals, publications discussing key proxy voting issues, and custom vote recommendations to assist us with proxy research and processing. The final authority and responsibility for proxy voting decisions remains with T. Rowe Price. Decisions with respect to proxy matters are made primarily in light of the anticipated impact of the issue on the desirability of investing in the company from the perspective of our clients.

Portfolio managers may decide to vote their proxies consistent with T. Rowe Price's policies as set by the Proxy Committee and instruct our Proxy Administrator to vote all proxies accordingly. Alternatively, portfolio managers may request to review the vote recommendations and sign off on all proxies before the votes are cast, or they may choose only to sign off on those votes cast against management. The portfolio managers are also given the option of reviewing and determining the votes on all proxies without utilizing the vote guidelines of the Proxy Committee. In all cases, the portfolio managers may elect to receive current reports summarizing all proxy votes in their client accounts. Portfolio managers who vote their proxies inconsistent with T. Rowe Price guidelines are required to document the rationale for their votes. The Proxy Administrator is responsible for maintaining this documentation and assuring that it adequately reflects the basis for any vote which is cast contrary to T. Rowe Price guidelines.

T. Rowe Price Voting Policies

Specific voting guidelines have been adopted by the Proxy Committee for all regularly occurring categories of management and shareholder proposals. A detailed set of voting guidelines is available on the T. Rowe Price web site, www.troweprice.com. The following is a summary of our guidelines on the most significant proxy voting topics:

Election of Directors T. Rowe Price generally supports slates with a majority of independent directors. T. Rowe Price votes against outside directors who do not meet certain criteria relating to their independence but who serve on key board committees. We vote against directors who are unable to dedicate sufficient time to their board duties due to their commitments to other boards. We may vote against certain directors who have served on company boards where we believe there has been a gross failure in governance or oversight. We may also vote against compensation committee members who approve excessive executive compensation arrangements. We support efforts to elect all board members annually because boards with staggered terms lessen directors' accountability to shareholders and act as deterrents to takeover proposals. To strengthen boards' accountability, T. Rowe Price supports proposals calling for a majority vote threshold for the election of directors.

Anti-takeover, Capital Structure and Corporate Governance Issues T. Rowe Price generally opposes anti-takeover measures since they adversely impact shareholder rights and limit the ability of shareholders to act on potential value-enhancing transactions. Such anti-takeover mechanisms include classified boards, supermajority voting requirements, dual share classes, and poison pills. We also oppose proposals that give management a blank check to create new classes of stock with disparate rights and privileges. When voting on capital structure proposals, T. Rowe Price will consider the dilutive impact to shareholders and the effect on shareholder rights. We

generally support shareholder proposals that call for the separation of the Chairman and CEO positions unless there are sufficient governance safeguards already in place.

Executive Compensation Issues T. Rowe Price's goal is to assure that a company's equity-based compensation plan is aligned with shareholders' long-term interests. We evaluate plans on a case-by-case basis, using a proprietary, scorecard-based approach that employs a number of factors, including dilution to shareholders, problematic plan features, burn rate, and the equity compensation mix. Plans that are constructed to effectively and fairly align executives' and shareholders' incentives generally earn our approval. Conversely, we oppose compensation packages that provide what we view as excessive awards to few senior executives, contain the potential for excessive dilution relative to the company's peers, or rely on an inappropriate mix of options and full-value awards. We also may oppose equity plans at any company where we deem the overall compensation practices to be problematic. We generally oppose efforts to reprice options in the event of a decline in value of the underlying stock unless such plans appropriately balance shareholder and employee interests. For companies with particularly egregious pay practices such as excessive severance packages, executive perks, and bonuses that are not adequately linked to performance, we may vote against compensation committee members. Finally, we vote for proposals calling for shareholder ratification of a company's executive compensation practices (Say-on-Pay proposals) a majority of the time.

Mergers and Acquisitions T. Rowe Price considers takeover offers, mergers, and other extraordinary corporate transactions on a case-by-case basis to determine if they are beneficial to shareholders' current and future earnings stream and to ensure that our Price Funds and clients are receiving fair consideration for their securities.

Corporate Social Responsibility Issues Vote recommendations for corporate responsibility issues are generated by the Global Corporate Governance Analyst using RMG's proxy research. T. Rowe Price generally votes with a company's management on social, environmental and corporate responsibility issues unless the issue has substantial investment implications for the company's business or operations which have not been adequately addressed by management. T. Rowe Price supports well-targeted shareholder proposals on environmental and other public policy issues that are particularly relevant to a company's businesses.

Global Portfolio Companies RMG applies a two-tier approach to determining and applying global proxy voting policies. The first tier establishes baseline policy guidelines for the most fundamental issues, which span the corporate governance spectrum without regard to a company's domicile. The second tier takes into account various idiosyncrasies of different countries, making allowances for standard market practices, as long as they do not violate the fundamental goals of good corporate governance. The goal is to enhance shareholder value through effective use of the shareholder franchise, recognizing that application of policies developed for U.S. corporate governance issues are not appropriate for all markets. The Proxy Committee has reviewed RMG's general global policies and has developed international proxy voting guidelines which in most instances are consistent with RMG recommendations.

Index and Passively Managed Accounts Proxy voting for index and other passively-managed portfolios is administered by the Proxy Services Group using T. Rowe Price's policies as

set by the Proxy Committee. If a portfolio company is held in both an actively managed account and an index account, the index account will default to the vote as determined by the actively managed proxy voting process.

Divided Votes In situations where a decision is made which is contrary to the policies established by the Proxy Committee, or differs from the vote for any other client or T. Rowe Price Fund, the Proxy Services Group advises the portfolio managers involved of the divided vote. The persons representing opposing views may wish to confer to discuss their positions. In such instances, it is the normal practice for the portfolio manager to document the reasons for the vote if it is against T. Rowe Price policy. The Proxy Administrator is responsible for assuring that adequate documentation is maintained to reflect the basis for any vote which is cast in opposition to T. Rowe Price policy.

Shareblocking Shareblocking is the practice in certain foreign countries of freezing shares for trading purposes in order to vote proxies relating to those shares. In markets where shareblocking applies, the custodian or sub-custodian automatically freezes shares prior to a shareholder meeting once a proxy has been voted. Shareblocking typically takes place between one and fifteen (15) days before the shareholder meeting, depending on the market. In markets where shareblocking applies, there is a potential for a pending trade to fail if trade settlement takes place during the blocking period. T. Rowe Price's policy is generally to abstain from voting shares in shareblocking countries unless the matter has compelling economic consequences that outweigh the loss of liquidity in the blocked shares.

Securities on Loan The T. Rowe Price Funds and our institutional clients may participate in securities lending programs to generate income. Generally, the voting rights pass with the securities on loan; however, lending agreements give the lender the right to terminate the loan and pull back the loaned shares provided sufficient notice is given to the custodian bank in advance of the voting deadline. T. Rowe Price's policy is generally not to vote securities on loan unless the portfolio manager has knowledge of a material voting event that could affect the value of the loaned securities. In this event, the portfolio manager has the discretion to instruct the Proxy Administrator to pull back the loaned securities in order to cast a vote at an upcoming shareholder meeting.

Monitoring and Resolving Conflicts of Interest

The Proxy Committee is also responsible for monitoring and resolving possible material conflicts between the interests of T. Rowe Price and those of its clients with respect to proxy voting. We have adopted safeguards to ensure that our proxy voting is not influenced by interests other than those of our fund shareholders. While membership on the Proxy Committee is diverse, it does not include individuals whose primary duties relate to client relationship management, marketing, or sales. Since T. Rowe Price's voting guidelines are pre-determined by the Proxy Committee, application of the guidelines by fund portfolio managers to vote fund proxies should in most instances adequately address any possible conflicts of interest. However, the Proxy Committee reviews all proxy votes that are inconsistent with T. Rowe Price guidelines to determine whether the portfolio manager's voting rationale appears reasonable. The Proxy Committee also assesses whether any business or other relationships between T. Rowe Price and a portfolio company could

have influenced an inconsistent vote on that company's proxy. Issues raising possible conflicts of interest are referred to designated members of the Proxy Committee for immediate resolution prior to the time T. Rowe Price casts its vote. With respect to personal conflicts of interest, T. Rowe Price's Code of Ethics and Conduct requires all employees to avoid placing themselves in a compromising position in which their interests may conflict with those of our clients and restricts their ability to engage in certain outside business activities. Portfolio managers or Proxy Committee members with a personal conflict of interest regarding a particular proxy vote must recuse themselves and not participate in the voting decisions with respect to that proxy.

Specific Conflict of Interest Situations - Voting of T. Rowe Price Group, Inc. common stock (sym: TROW) by certain T. Rowe Price Index Funds will be done in all instances in accordance with T. Rowe Price policy, and votes inconsistent with policy will not be permitted. In addition, T. Rowe Price has voting authority for proxies of the holdings of certain T. Rowe Price funds that invest in other T. Rowe Price funds. In cases where the underlying fund of a T. Rowe Price fund-of-funds holds a proxy vote, T. Rowe Price will mirror vote the fund shares held by the fund-of-funds in the same proportion as the votes cast by the shareholders of the underlying funds.

RECORD RETENTION

T. Rowe Price retains proxy solicitation materials, memoranda regarding votes cast in opposition to the position of a company's management, and documentation on shares voted differently. In addition, any document which is material to a proxy voting decision such as the T. Rowe Price voting guidelines, Proxy Committee meeting materials, and other internal research relating to voting decisions will be kept. All proxy voting materials and supporting documentation are retained for six years (except for proxy statements available on the SEC's EDGAR database).

Item 8. Portfolio Managers of Closed-End Management Investment Companies

Item 8(a)(1)

The New America High Income Fund (the Fund) is managed by an Investment Advisory Committee co-chaired by Mark J. Vaselkiv and Paul A. Karpers. Messrs. Vaselkiv and Karpers share day-to-day responsibility for managing the Fund and work with the Committee in developing and executing the Fund's investment program. Mr. Vaselkiv has been a chairman of the Committee since 2002. He has served as a portfolio manager throughout the past five years. Mr. Karpers has been a chairman of the Committee since 2005. He has served as a portfolio manager throughout the past five years. Their biographies are as follows:

Mark J. Vaselkiv

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

Mark Vaselkiv is a Vice President of T. Rowe Price Group, Inc., and T. Rowe Price Associates, Inc., and a Portfolio Manager in the Fixed Income Division, heading taxable high-yield bond management. He serves as president of the T. Rowe Price High Yield Fund and as Chairman of the T. Rowe Price High Yield Fund, Inc. Advisory Committee, Chairman of the T. Rowe Price High Yield Fund Advisor Class Advisory Committee and Chairman of the T. Rowe Price Institutional High Yield Fund Advisory Committee, Chairman of the High Yield Fund Investment Advisory Committee, as well as being a member of the Fixed Income Steering Committee. Prior to joining the firm in 1988, he was employed as a vice president for Shenkman Capital Management, Inc., New York, analyzing and trading high yield debt securities, and as a private placement credit analyst in the Capital Markets Group of Prudential Insurance Company. Mark earned a B.A. in Political Science from Wheaton College, Illinois, and an M.B.A. in finance from New York University.

Paul A. Karpers, CFA

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

Paul Karpers is a Vice President of T. Rowe Price Group, Inc., and T. Rowe Price Associates, Inc., and a High Yield Portfolio Manager in the Fixed Income Division. He is chairman of the Investment Advisory Committee of the T. Rowe Price Institutional High Yield Fund. Prior to joining the firm in 1994, Paul was with the Vanguard Group in Philadelphia. He earned a B.S. in finance from LaSalle University and an M.B.A. with concentrations in finance and information systems from New York University. Paul also has earned his Chartered Financial Analyst designation and is a member of the CFA Institute and the Baltimore CFA Society.

Item 8(a)(2)**Other Accounts:****Mark Vaselkiv:**

	Number of Accounts		TOTAL Assets
• registered investment companies:	6	\$	8,286.6 million
• other pooled investment vehicles:	5	\$	27.2 million
• other accounts:	13	\$	1,712.7 million

As of 12/31/2009.

Paul Karpers:

	Number of Accounts		TOTAL Assets
• registered investment companies:	5	\$	1,717.1 million
• other pooled investment vehicles:	4	\$	1,160.1 million
• other accounts:	8	\$	2,254.5 million

As of 12/31/2009.

None of the accounts listed above have performance-based fees.

Conflicts of Interest

Portfolio managers at T. Rowe Price typically manage multiple accounts. These accounts may include, among others, mutual funds, separate accounts (assets managed on behalf of institutions such as pension funds, colleges and universities, foundations), offshore funds, and commingled trust accounts. Portfolio managers make investment decisions for each portfolio based on the investment objectives, policies, practices and other relevant investment considerations that the managers believe are applicable to that portfolio. Consequently, portfolio managers may purchase (or sell) securities for one portfolio and not another portfolio. T. Rowe Price has adopted brokerage and trade allocation policies and procedures which it believes are reasonably designed to address any potential conflicts associated with managing multiple accounts for multiple clients. Also, as disclosed under the Portfolio Manager's Compensation section, our portfolio managers' compensation is determined in the same manner with respect to all portfolios managed by the portfolio manager.

Item 8(a)(3)

Compensation:

Portfolio manager compensation consists primarily of a base salary, a cash bonus, and an equity incentive that usually comes in the form of a stock option grant. Occasionally, portfolio managers will also have the opportunity to participate in certain investment partnerships. Compensation is variable and is determined based on the following factors.

Investment performance over one-, three-, five-, and 10-year periods is the most important input. The weightings for these time periods are generally balanced and are applied consistently across similar strategies. We evaluate performance in absolute, relative, and risk-adjusted terms. Relative performance and risk-adjusted performance are determined with reference to the broad based index (ex. CS First Boston High Yield) and an applicable Lipper index (ex. High Current Yield Funds Average), though other benchmarks may be used as well. Investment results are also compared to comparably managed funds of competitive investment management firms.

Performance is primarily measured on a pre-tax basis though tax-efficiency is considered and is especially important for tax efficient funds. It is important to note that compensation is viewed with a long term time horizon. The more consistent a manager's performance over time, the higher the compensation opportunity. The increase or decrease in a fund's assets due to the purchase or sale of fund shares is not considered a material factor.

Contribution to our overall investment process is an important consideration as well. Sharing ideas with other portfolio managers, working effectively with and mentoring our younger analysts, and being good corporate citizens are important components of our long term success and are highly valued.

All employees of T. Rowe Price, including portfolio managers, participate in a 401(k) plan sponsored by T. Rowe Price Group. In addition, all employees are eligible to purchase T. Rowe Price common stock through an employee stock purchase plan that features a limited corporate matching contribution. Eligibility for and participation in these plans is on the same basis as for all employees. Finally, all vice presidents of T. Rowe Price Group, including all portfolio managers, receive supplemental medical/hospital reimbursement benefits.

This compensation structure is used for all portfolios managed by the portfolio manager.

Item 8(a)(4)

Ownership of Securities

Portfolio Manager	Fund	Dollar Range of Equity Securities Beneficially Owned*	
Mark J. Vaselkiv	New America High Income Fund	None	
Paul A. Karpers	New America High Income Fund	\$50,001	\$100,000

* As of 12/31/2009.

Item 8(b) Not applicable.

ITEM 9. PURCHASE OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

Not applicable.

ITEM 11. CONTROLS AND PROCEDURES.

(a) The Fund's principal executive officer and principal financial officer concluded that the Fund disclosure controls and procedures (as defined in Rule 30a-3(c) under the 1940 Act) provide reasonable assurances that information required to be disclosed by the Fund on Form N-CSR is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the Fund in the reports that it files or submits on Form N-CSR is accumulated and communicated to the Fund's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure, based on their evaluation of the disclosure controls and procedures as of a date within 90 days of the filing date of this report.

(b) There was no change in the Fund's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the Fund's second fiscal quarter of the period that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting.

ITEM 12. EXHIBITS.

(a)(1) Not applicable.

(a)(2) The certifications required by Rule 30a-2(a) under the 1940 Act.

(a)(3) Not applicable.

(b) The certifications required by Rule 30a-2(b) under the 1940 Act.
