(a) Security has been deemed illiquid at March 31, 2010.

(b) At March 31, 2010, the Fund held a fair valued security, valued at \$0, representing less than 0.0% of net assets. This security has been fair valued as determined in good faith under procedures established by and under the general supervision of the Fund s Directors.

(c) Non-income producing security.

(d) The Fund invests in the Morgan Stanley Institutional Liquidity Funds Money Market Portfolio Institutional Class (the Liquidity Fund), an open-end management investment company managed by the Adviser. Investment Advisory fees paid by the Fund are reduced by an amount equal to its pro-rata share of the advisory and administration fees paid by the Liquidity Fund. For the period

Edgar Filing: MORGAN STANLEY INDIA INVESTMENT FUND, INC. - Form N-Q

ended March 31, 2010, advisory fees paid were reduced by less than \$500 relating to the Fund's investments in the Liquidity Fund. For the same period, income distributions earned by the Fund are recorded as dividends from affiliates and totaled less than \$500. For the period ended March 31, 2010, the approximate cost of purchases and sales in the Liquidity Fund were \$430,000 and \$1,734,000, respectively.

Morgan Stanley India Investment Fund, Inc.

Portfolio of Investments

First Quarter Report

March 31, 2010 (unaudited)

+ At March 31, 2010, the U.S. Federal income tax cost basis of investments was approximately \$425,411,000 and, accordingly, net unrealized appreciation for U.S. Federal income tax purposes was \$110,547,000 of which \$127,962,000 related to appreciated securities and \$17,415,000 related to depreciated securities.

Fair Value Measurement Information:

The following is a summary of the inputs used to value the Fund's net assets as of March 31, 2010. (See Notes to Portfolio of Investments for further information regarding fair value measurement.)

Investment Type	Level 1 Quoted prices (000)	Level 2 Other significant observable inputs (000)	Level 3 Significant unobservable inputs (000)	Total (000)
Assets:

Total Assets	535,958	**	535,958
Total	\$ 535,958	\$	**\$ 535,958

The following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining value:

	Common Stock (000)	
Balance as of 12/31/09	\$	**
Accrued discounts/premiums		
Realized gain (loss)		
Change in unrealized appreciation (depreciation)		
Net purchases (sales)		
Transfers in for Level 3		
Transfers out of Level 3		
Balance as of 3/31/10	\$	**
The amount of total gains (losses) for the period included in earnings attributable to the change in unrealized gains (losses) relating to assets and liabilities still held at Level 3 at 3/31/10.	\$	

** Includes a security which is valued at zero.

Notes to Portfolio of Investments (unaudited)

In accordance with FASB ASC 820 Fair Value Measurements and Disclosure (ASC 820) (formerly known as SFAS 157), fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. ASC 820 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in valuing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in valuing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value the Fund's investments. The inputs are summarized in the three broad levels listed below.

- Level 1 quoted prices in active markets for identical investments

- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Security Valuation: Securities listed on a foreign exchange are valued at their closing price except as noted below. Unlisted securities and listed securities not traded on the valuation date for which market quotations are readily available are valued at the mean between the current bid and asked prices obtained from reputable brokers. Equity securities listed on a U.S. exchange are valued at the latest quoted sales price on the valuation date. Equity securities listed or traded on NASDAQ, for which market quotations are available, are valued at the NASDAQ Official Closing Price. Debt securities purchased with remaining maturities of 60 days or less are valued at amortized cost, unless the Board of Directors (the Directors) determines such valuation does not reflect the securities' market value, in which case these securities will be valued at their fair value as determined by the Directors.

All other securities and investments for which market values are not readily available, including restricted securities, and those securities for which it is inappropriate to determine prices in accordance with the aforementioned procedures, are valued at fair value as determined in good faith under procedures adopted by the Directors, although the actual calculations may be done by others. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer's financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances.

Most foreign markets close before the New York Stock Exchange (NYSE). Occasionally, developments that could affect the closing prices of securities and other assets may occur between the times at which valuations of such securities are determined (that is, close of the foreign market on which the securities trade) and the close of business on the NYSE. If these developments are expected to materially affect the value of the securities, the valuations may be adjusted to reflect the estimated fair value as of the close of the NYSE, as determined in good faith under procedures established by the Directors.

Item 2. Controls and Procedures.

(a) The Fund's principal executive officer and principal financial officer have concluded that the Fund's disclosure controls and procedures are sufficient to ensure that information required to be disclosed by the Fund in this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, based upon such officers' evaluation of these controls and procedures as of a date within 90 days of the filing date of the report.

(b) There were no changes in the Fund's internal control over financial reporting that occurred during the registrant's fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting.

Item 3. Exhibits.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
