2012 Corporate Bonus Plan

On February 5, 2012, the Compensation Committee of Board of Directors (the Board) of the Company finalized the implementation of the Company's 2012 cash bonus plan for members of the Company's management committee, including the Company's executive officers (the Bonus Plan), by approving target bonus percentages for the Company's executive officers under the Bonus Plan. The Bonus Plan is a discretionary cash incentive award plan designed to align incentive awards for each participant's individual performance with the Company's corporate objectives. The independent members of the Board approve corporate objectives relating to the Bonus Plan for each half of 2012, based on the recommendation of the Compensation Committee of the Board. Eligibility to participate in the plan and actual award amounts are not guaranteed and are determined, in the case of the Company's executive officers, at the discretion of the independent members of the Board upon the recommendation of the Compensation Committee of the Board. Each of the Company's executive officers has a funding target under the plan expressed as a percentage of his or her annual base salary for the 2012 fiscal year, with the potential for actual awards under the plan to either exceed or be less than the funding target depending upon corporate and individual performance. Target bonus percentages for the Company's executive officers are as follows: Kimberly J. Popovits 50%; Randal W. Scott, G. Bradley Cole, Steven Shak and Dean L. Schorno 40%; and Joffe B. Baker 35%.

Corporate performance objectives for the Bonus Plan will be established and measured for each half of 2012, with the results averaged to determine the funding pool for members of the Company's management committee, including its executive officers. Corporate objectives for the first half of 2012 include financial and business performance objectives, representing 46% of the overall first half objectives, pipeline progress objectives, representing 27% of the overall first half objectives, research (genomic technology and biology) related objectives, representing 12% of the overall first half objectives, infrastructure development objectives, representing 10% of the overall first half objectives, and personnel development objectives, representing 5% of the overall first half objectives.
