Groupon, Inc. (NASDAQ: GRPN) today announced financial results for its fourth quarter ended December 31, 2011.

Revenue increased 186% to \$492.2 million in the fourth quarter 2011, compared to \$172.2 million in the fourth quarter 2010. The unfavorable impact from year-over-year changes in foreign exchange rates throughout the quarter was \$2.9 million. Gross billings, which reflects the gross amounts collected from customers for Groupons sold, excluding any applicable taxes and net of estimated refunds, increased 196% to \$1.2 billion in the fourth quarter 2011, compared with \$415.3 million in the fourth quarter 2010.

Groupon had a strong fourth quarter and we finished 2011 having helped 250,000 local merchants across 47 countries grow their businesses while saving Groupon customers billions of dollars, said Andrew Mason, CEO and Co-Founder of Groupon. We will continue to invest in new services and tools that help our merchant partners be more successful and drive local commerce around the world.

Operating loss was \$15.0 million in the fourth quarter 2011, compared with a loss from operations of \$336.1 million in the fourth quarter 2010. The unfavorable impact from year-over-year changes in foreign exchange rates throughout the quarter was \$8.4 million. Consolidated segment operating income (CSOI), which is a non-GAAP financial measure that excludes the impact of stock-based compensation and acquisition-related charges, improved to a gain of \$18.0 million in the fourth quarter, compared with a loss of \$143.4 million in the fourth quarter 2010. Fourth quarter 2011 operating results included losses of over \$40.0 million principally from less mature markets within the international segment.

Edgar Filing: Groupon, Inc. - Form 8-K/A

Operating cash flow increased 226% to \$169.1 million for fourth quarter 2011, compared with \$51.9 million for fourth quarter 2010. Free cash flow, which is a non-GAAP financial measure

that reflects cash flow from operations less purchases of property and equipment, increased 258% to \$155.1 million for the three months ended December 31, 2011, compared with \$43.3 million for the three months ended December 31, 2010. At the end of the quarter, Groupon had \$1.2 billion in cash and cash equivalents and no long-term debt.

Fourth quarter 2011 net loss attributable to common stockholders decreased by 83% to \$65.4 million, or a loss of \$0.12 per share, from a net loss attributable to stockholders of \$378.6 million, or a loss of \$1.08 per share, in fourth quarter 2010. Pro-forma net income is a non-GAAP financial measure that excludes the impact of stock-based compensation and acquisition-related charges. The pro-forma loss of \$0.06 per share includes \$34.2 million of tax expense, an effective tax rate of approximately 134%, related to profitability in certain international countries as well as additional income tax provisions related to the establishment of the company's international headquarters in Switzerland. This resulted in an unusually high effective tax rate as compared to the company's current average statutory rate of approximately 33%.

Full-Year 2011

- Fourth quarter 2011 North America segment results were aided by the company's second annual *Grouponicus* seasonal promotion, which served 40 North American markets with local deals, travel deals and goods chosen specifically for their giftability.
- Worldwide, more than 26 million people have downloaded the Groupon mobile app on their smartphones.
- In just over six months from launching Groupon Now!, Groupon has expanded this offering to 31 markets and served deals from nearly 20,000 merchant partners in North America.

Non-GAAP Financial Measures

This release includes the following financial measures defined as non-GAAP financial measures by the SEC: Free cash flow, CSOI and pro-forma net income. Groupon believes free cash flow is an important indicator for its business because it measures the amount of cash the company generates after spending on marketing, wages and benefits, capital expenditures and other items. Free cash flow also reflects changes in working capital. Groupon believes CSOI is an important measure for management to evaluate the performance of its business as it represents the operating results of its segments as reported under U.S. GAAP and does not include certain non-cash expenses. Groupon believes pro-forma net income is an important measure for management to evaluate the performance of its business, as it represents the net income of its segments as reported under U.S. GAAP and also does not include certain non-cash expenses. Free cash flow, CSOI and pro-forma net income may be different from similar measures used by other companies. The presentation of this financial information, which is not prepared under any comprehensive set of accounting rules or principles, is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. For a reconciliation of these non-GAAP financial measures to the nearest comparable U.S. GAAP measures, see Reconciliation of Non-GAAP Financial Measures included in this release.
