#### **CUMMINS INC. AND SUBSIDIARIES**

#### NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

#### NOTE 1. NATURE OF OPERATIONS

Cummins Inc. (Cummins, we, our or us) is a leading global power provider that designs, manufactures, distributes and services diesel and natural gas engines, engine-related component products, including emission solutions, filtration, fuel systems and air handling systems, and power generation products, including electric power generation systems and related products. We were founded in 1919 as one of the first manufacturers of diesel engines and are headquartered in the United States (U.S.) in Columbus, Indiana. We sell our products to original equipment manufacturers (OEMs), distributors and other customers worldwide. We serve our customers through a network of more than 600 company-owned and independent distributor locations and approximately 6,500 dealer locations in more than 190 countries and territories.

#### NOTE 2. BASIS OF PRESENTATION

The unaudited *Condensed Consolidated Financial Statements* reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of operations, financial position and cash flows. All such adjustments are of a normal recurring nature. The *Condensed Consolidated Financial Statements* have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted as permitted by such rules and regulations. Certain reclassifications have been made to prior period amounts to conform to the presentation of the current period condensed financial statements.

Our reporting period usually ends on the Sunday closest to the last day of the quarterly calendar period. The third quarters of 2012 and 2011 ended on September 30, and September 25, respectively. The interim periods for both 2012 and 2011 contain 13 weeks, while the nine month periods contained 39 weeks and 38 weeks, respectively. Our fiscal year ends on December 31, regardless of the day of the week on which December 31 falls.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts in the *Condensed Consolidated Financial Statements*. Significant estimates and assumptions in these *Condensed Consolidated Financial Statements* require the exercise of judgment and are used for, but not limited to, allowance for doubtful accounts, estimates of future cash flows and other assumptions associated with goodwill and long-lived asset impairment tests, useful lives for depreciation and amortization, warranty programs, determination of discount and other rate assumptions for pension and other postretirement benefit expenses, income taxes and deferred tax valuation allowances, lease classifications and contingencies. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may be different from these estimates.

In preparing our *Condensed Consolidated Financial Statements*, we evaluated subsequent events through the date our quarterly report was filed with the SEC.

The weighted-average diluted common shares outstanding exclude the anti-dilutive effect of certain stock options since such options had an exercise price in excess of the monthly average market value of our common stock. The options excluded from diluted earnings per share for the three and nine month periods ended September 30, 2012, and September 25, 2011, were as follows:

	Three mor	nths ended	Nine mor	ths ended
	September 30,	September 25,	September 30,	September 25,
	2012	2011	2012	2011
Options excluded	599,637	285,937	412,318	142,750

You should read these interim condensed financial statements in conjunction with the *Consolidated Financial Statements* included in our Annual Report on Form 10-K for the year ended December 31, 2011. Our interim period financial results for the three and nine month interim periods presented are not necessarily indicative of results to be expected for any other interim period or for the entire year. The year-end *Condensed Consolidated Balance Sheet* data was derived from audited financial statements, but does not include all disclosures required by GAAP.

#### NOTE 3. ACQUISITIONS AND DIVESTITURES

#### Acquisitions

In April 2012, we reached an agreement to acquire the doser technology and business assets from Hilite Germany GmbH (Hilite) in a cash transaction. Dosers are products that enable compliance with emission standards in certain aftertreatment systems and complement our current product offerings. The transaction was approved by German regulators in June and closed on July 18, 2012. The purchase price was \$176 million and is summarized below. There was no contingent consideration associated with this transaction. During the first nine months of 2012 we expensed approximately \$4 million of acquisition related costs.

The acquisition of Hilite was accounted for as a business combination, with the results of the acquired entity and the goodwill included in the Components operating segment in the third quarter of 2012. The majority of the purchase price was allocated to technology and customer related intangible assets and goodwill, most of which is expected to be fully deductible for tax purposes. We expect the Hilite acquisition to strengthen our aftertreatment product offerings. This acquisition enhances our technical capabilities and keeps us in a strong position to meet the needs of current customers and grow into new markets, especially as an increasing number of regions around the world adopt tougher emission standards.

Intangible assets by asset class, including weighted average amortization life, are as follows:

Dollars in millions	Purchase price allocation		Weighted average amortization life in years
Technology	\$ 5	2	10.6
Customer	2	3	4.5
License arrangements		8	6.0
Total intangible assets	\$ 8	3	8.5

The purchase price was allocated as follows:

In millions	
Inventory	\$ 5
Fixed assets	5
Intangible assets	83
Goodwill	91
Liabilities	(8)
Total purchase price	\$ 176

Net sales for Hilite were \$77 million for the 12 months ended December 31, 2011.

In July 2012, we acquired an additional 45 percent interest in Cummins Central Power from the former principal for consideration of approximately \$20 million. The acquisition was accounted for as a business combination, with the results of the acquired entity included in the Distribution operating segment in the third quarter of 2012. Distribution segment results also included a \$7 million gain, as we were required to re-measure our pre-existing 35 percent ownership interest in Cummins Central Power to fair value in accordance with GAAP. Net sales for Cummins Central Power were \$209 million for the 12 months ended December 31, 2011.

#### **Divestitures**

In the second quarter of 2011, we sold certain assets and liabilities of our exhaust business which manufactures exhaust products and select components for emission systems for a variety of applications not core to our other product offerings. This business was historically included in our Components segment. The sales price was \$123 million. We recognized a gain of \$68 million (\$37 million after-tax), which included a goodwill allocation of \$19 million. In the second quarter of 2012, we recorded an additional \$6 million gain (\$4 million after-tax) related to final purchase price adjustments for our 2011 divestitures. The gains have been excluded from segment results as they were not considered in our evaluation of operating results for the nine months ended September 30, 2012 and September 25, 2011.

Sales for this business were \$62 million, \$171 million and \$126 million in 2011 (through closing), 2010 and 2009, respectively. Operating results for this business were approximately \$9 million, \$22 million and \$11 million in 2011 (through closing), 2010 and 2009, respectively.

#### NOTE 4. PENSION AND OTHER POSTRETIREMENT BENEFITS

We sponsor funded and unfunded domestic and foreign defined benefit pension and other postretirement plans. Contributions to these plans were as follows:

We made \$122 million of pension contributions in the nine months ended September 30, 2012, and we anticipate making an additional \$8 million of contributions during the remainder of 2012. We paid \$31 million of claims and premiums for other postretirement benefits in the nine months ended September 30, 2012; payments for the remainder of 2012 are expected to be \$20 million. The \$130 million of contributions for the full year include voluntary contributions of approximately \$109 million. These contributions and payments may be made from trusts or company funds either to increase pension assets or to make direct benefit payments to plan participants.

The components of net periodic pension and other postretirement benefit cost under our plans consisted of the following:

#### NOTE 7. INCOME TAXES

Our effective tax rate for the year is expected to approximate 26.5 percent, absent any discrete period activity. Our tax rate is generally less than the 35 percent U.S. income tax rate primarily due to lower tax rates on foreign income. The tax rates for the three and nine month periods ended September 30, 2012, were 24.1 percent and 25.5 percent, respectively. These tax rates include a \$16 million tax benefit for third quarter discrete tax adjustments, \$6 million of which related to a dividend distribution of accumulated foreign income earned in prior years. These discrete tax adjustments also included a discrete tax benefit of \$13 million for prior year tax return true-up adjustments and a discrete tax charge of \$3 million related to the third quarter enactment of U.K. tax law changes.

The tax rates for the three and nine month periods ended September 25, 2011, were 25.0 percent and 28.2 percent, respectively, and included a net discrete income tax benefit of \$29 million (net of additional reserves for uncertain tax positions of \$39 million) related to prior year refund claims filed for additional research tax credits, additional foreign income and foreign tax credits, as well as other adjustments. This benefit also included discrete income tax charges of \$2 million for prior year tax return true-up adjustments and \$3 million related to the third quarter enactment of U.K. tax law changes in the three and nine month periods ended September 25, 2011. Additionally, the tax rate for the nine month period included a second quarter discrete income tax charge of \$4 million related to the enactment of state tax law changes in Indiana. The decrease in the 2012 effective tax rates versus the comparable periods in 2011 is due primarily to our assertion that income earned after 2011 by our China operations is permanently reinvested, as well as certain tax planning strategies implemented in our U.K. subsidiaries.

NOTE 8. FAIR VALUE OF FINANCIAL INSTRUMENTS
