REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of
The Pinnacle West Capital Corporation Savings Plan
Phoenix, Arizona

We have audited the accompanying statements of net assets available for benefits of The Pinnacle West Capital Corporation Savings Plan (the Plan) as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2013, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan s management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2013 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

THE PINNACLE WEST CAPITAL CORPORATION SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of The Pinnacle West Capital Corporation Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan s provisions.

General

The Plan is a defined contribution plan sponsored by Pinnacle West Capital Corporation (Pinnacle West or the Company). The Plan is administered by a committee appointed by the Pinnacle West Board of Directors (the Committee). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Effective April 1, 2013, the Plan changed its trustee and record keeper from State Street Bank and Trust Company and J.P. Morgan Retirement Plan Services, respectively, to Fidelity Management Trust Company (Trustee).

The Trustee is the appointed investment manager under the Plan to (1) manage the liquidity of the Pinnacle West Stock Fund and (2) review and direct on voting proxies received for the funds held in the Plan. The portion of the Plan invested in the Pinnacle West Stock Fund is an Employee Stock Ownership Plan. To the extent set forth by the terms of the Plan, participants may exercise voting rights by providing instructions to the Trustee related to the number of whole shares of stock represented by the units of the Pinnacle West Stock Fund allocated to their accounts. The Committee directs the Trustee on voting proxies received for shares of Pinnacle West common stock on routine matters (except for those shares for which the Trustee receives participant directions).

Eligibility

Generally, as defined by the Plan, most active employees of Pinnacle West and its subsidiaries, including Arizona Public Service Company and El Dorado Investment Company (collectively, the Employer), are eligible to participate in (1) the pretax, Roth 401(k), and after-tax features of the Plan immediately upon employment or, if later, their attainment of age 18 and (2) the matching feature on the first day of the month following their attainment of age 18 and completion of six months of service. The Plan provides credit for periods of employment with an affiliate of Pinnacle West as if the service was performed for the Employer.

Table of Contents

Contributions

The Plan allows participants to contribute up to 50% of their base pay as pretax contributions, Roth 401(k) contributions or after-tax contributions, provided that in no event can the combined total contributions made by any participant in any year exceed 50% of their base pay, or the limits imposed by the Internal Revenue Code. Eligible employees who do not affirmatively elect to participate or opt out of the Plan are automatically enrolled as soon as administratively possible after 60 days of employment. Employees automatically enrolled contribute 3% of their base pay as pretax contributions. The Plan also allows participants attaining the age of 50 before the end of the calendar year to make catch-up contributions in accordance with Section 414(v) of the Internal Revenue Code. The maximum allowable pretax contribution (\$17,500 for 2013) and catch up contribution (\$5,500 for 2013) may increase in future years based on the cost of living index as determined annually by the Internal Revenue Service. Participants may elect to set their pretax contributions to increase automatically on an annual basis based on the percent increase and effective date designated by the participant, up to the maximum limits permitted under the Plan and the Internal Revenue Code.

Employer contributions are fixed at 75% of the first 6% of base pay for combined pretax and/or Roth 401(k) participant contributions (excluding catch-up contributions) for all participants other than employees hired prior to January 1, 2003 and who elected not to participate in the Retirement Account Balance feature of the Pinnacle West Capital Corporation Retirement Plan. Participants hired prior to January 1, 2003, and who elected not to participate in the retirement account balance feature receive an Employer match of 50% on the first 6% of base pay contributed, in combination, as pretax and/or Roth 401(k) participant contributions (excluding catch-up contributions).

Employer contributions are invested in the same investment funds as participants elect for their participant contributions. Noncash contributions, if any, are recorded at fair value.

The Plan allows rollover contributions from other eligible retirement plans, including 401(k) or other qualified plans (including after-tax dollars), governmental 457(b) plans, Roth 401(k) accounts, 403(b) annuities (including after-tax dollars), or IRAs (excluding after-tax dollars), subject to certain criteria.

Participants may elect to receive dividends on Pinnacle West stock in their account in the form of cash. If a participant does not elect to receive the dividend in the form of cash prior to the dividend payable date for that dividend, it is automatically reinvested in the Pinnacle West Stock Fund.

Table of Contents

Participant Accounts

Individual accounts are maintained for each Plan participant. Allocations of earnings and losses are based on participant account balances. Each participant has separate accounts that are credited with the participant's pretax, Roth 401(k), after-tax contributions, rollover contributions (if any), in-plan Roth conversions (if any), the Employer's matching contributions, Employer transfer account, and an allocation of Plan earnings. Each participant's account is charged with withdrawals, an allocation of Plan losses and explicit recordkeeping and administrative fees (See Note 2). A dollar amount is deducted quarterly from each participant's account for the explicit recordkeeping and administrative fees. The benefit to which a participant is entitled is the portion of the participant's account that has vested, as defined below.

Investment Choices

Participants direct their contributions into one or more of the following: risk-based investment options that include Conservative, Moderate and Aggressive LifeStyle Funds; core investment options that include Fixed Income Fund, Intermediate Bond Fund, Large Cap Value Fund, S&P 500 Index Fund, Large Cap Growth Fund, Mid Cap Core Fund, Small Cap Value Fund and an International Large Cap Growth Fund; and the Pinnacle West Stock Fund (collectively, the Funds). See Note 8 for discussion of changes in investment options beginning on May 30, 2014. The Plan provides that: 1) in lieu of making their own investment elections, participants may choose to have an investment allocation set for them through the Plan's personal asset manager program, which provides a personalized mix of the Plan's core investment options; 2) contributions by participants automatically enrolled are invested in the default fund, which for approximately four to six weeks is the Conservative LifeStyle Fund and then, once established for them, the personal asset manager program; 3) participants may establish a self-directed brokerage account (SDA) to invest up to 90% of their vested account balance in permitted investments of the SDA (which excludes the Funds); and 4) participants may elect to have their investment mix of Funds automatically rebalanced according to their future investment elections on a quarterly, semiannual or annual basis.

Table of Contents

Notes Receivable from Participants

Current, and prior to 4/1/2013 former, participants may borrow money from their pretax contributions account, Roth 401(k) contributions account, vested Employer contributions account, rollover contributions account (if any), and in-plan Roth conversions (if any). Participants may not borrow against their Employer transfer account or their after-tax contributions account.

The minimum participant loan allowed is \$1,000. The maximum participant loan allowed is 50% of the participant's vested account balance, up to \$50,000 reduced by the participant's highest outstanding loan balance in the 12-month period ending on the day before the loan is made. Only one loan per participant may be outstanding at any one time. Loan terms are up to five years or up to 15 years for the purchase of the participant's principal residence. An administrative fee is charged to the participant's account for each loan. Participants with an outstanding loan may continue to make loan repayments upon termination of employment with the Employer, unless they receive a full distribution of their account balance.

The interest rate for a participant loan is determined at the time the loan is requested and is fixed for the life of the loan. The interest rate will be at least as great as the interest rate charged by the Trustee to its individual clients for an unsecured loan on the date the loan is made. The Trustee currently charges interest at the prime interest rate plus one percent, determined as of the first business day of the month in which the loan is issued. The interest rate for loans issued during 2013 was 4.25%. Interest rates for outstanding loans as of December 31, 2013 and 2012, ranged from 4.25% to 10.50%. As of December 31, 2013, participant loans have maturities through 2028.

Loans are treated as an investment of the participant's accounts. To fund the loan, transfers are made from the participant's investment funds on a pro-rata basis. Amounts credited to a participant's SDA are not available for a loan. Loan repayments are invested in the participant's investment funds based on the participant's current investment election (or in the Conservative LifeStyle Fund or personal asset manager program, as applicable, if the participant does not have a current investment election in place). Loan repayments, including interest, are generally made through irrevocable payroll deductions. Loan repayments for former participants are made through the automated clearing house system. Loans are secured by the participant's account balance.

Vesting

Each participant is automatically fully vested in the participant's pretax contributions account, Roth 401(k) contributions account, after-tax contributions account, rollover contributions account (if any), in-plan Roth conversions (if any) (consisting of the participant's contributions and

Table of Contents

related income and appreciation or depreciation), Employer transfer account, and Employer contributions account (consisting of Employer contributions and related income and appreciation or depreciation). Former participants who terminated employment prior to April 1, 2006, were fully vested in their Employer contributions account if their termination was due to death or disability, was after attaining age 65, or was after completing five years of participation in the Plan. Former participants who terminated before April 1, 2006 and return to service after that date can complete the five year requirement by no later than March 31, 2016, based on a graduated vesting schedule with 100% vesting after five years of service.

Withdrawals and Distributions

A participant may at any time make a full or partial withdrawal of the balance in the participant's after-tax contributions account, rollover contributions account (if any), and in-plan Roth conversions (if any). No withdrawals prior to termination of employment are permitted from a participant's Employer transfer account. No withdrawals prior to termination of employment are permitted from the participant's pretax contributions account and Roth 401(k) contributions account, except under certain limited circumstances relating to financial hardship or after attaining age 59-1/2. If an employee withdraws pretax or Roth 401(k) contributions due to financial hardship, the only earnings on pretax contributions that can be withdrawn are those credited prior to January 1, 1989, and no earnings on Roth 401(k) contributions can be withdrawn. Employees taking a financial hardship are subsequently suspended from making contributions to the Plan for six months. Participants who have participated in the Plan for five complete Plan years may withdraw the amount in their Employer contributions account. Participants who are at least age 59-1/2 may withdraw any portion of their pretax contributions account, Roth 401(k) contributions account, rollover contributions account (if any), or in-plan Roth conversions (if any) while employed with no restrictions on the reason for withdrawal, and penalties do not apply. Amounts credited to a participant's SDA are not available for a withdrawal until transferred back into the Funds. When the participant's employment with the Employer is terminated, the participant can elect to receive a full or partial distribution, as soon as administratively possible, of the vested portion of their Employer contributions account together with the participant's contributions accounts and Employer transfer account.

Table of Contents

Forfeitures

For former participants who terminated employment prior to April 1, 2006, forfeitures of non-vested Employer contributions will occur upon the earlier of full distribution following termination of employment with the Employer or the end of the fifth calendar year following the calendar year in which the participant terminated employment. If a former participant who received a distribution and terminated service prior to full vesting at March 31, 2011, and retained non-vested funds in the plan, becomes re-employed prior to the end of the fifth calendar year following the calendar year in which the participant's earlier termination of employment occurred, the forfeited Employer contributions will be restored to the participant's Employer contribution account and they will earn additional service and be subject to the graduated vesting on these funds. Forfeitures will be restored only if the participant repays the full amount previously distributed to them within five years of their date of re-employment or, if earlier, the last day of the fifth calendar year following the calendar year in which the distribution occurred. As of March 31, 2016, all forfeitures will either be fully vested or used to reduce future Employer contributions to the Plan.

Termination of the Plan

It is the Company's present expectation that the Plan and the payment of Employer contributions will be continued indefinitely. However, continuance of any feature of the Plan is not assumed as a contractual obligation. The Company, at its discretion, may terminate the Plan and distribute net assets, subject to the provisions set forth in ERISA and the Internal Revenue Code, or discontinue contributions. In this event, the balance credited to the accounts of participants at the date of termination or discontinuance will be fully vested and nonforfeitable.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Table of Contents

Risks and Uncertainties

The Plan utilizes various investment instruments, including mutual funds, common and collective trusts, stocks, bonds, and a fixed income fund. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, liquidity risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities may occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation

The Plan's investments are stated at fair value, less costs to sell, if those costs are significant. Fair value is the price that would be received upon the sale of an asset or the amount paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for fair value measurements and disclosures of the Plan's investments.

In accordance with GAAP, fully benefit-responsive investment contracts held in the fixed income fund are included at fair value in the statements of net assets available for benefits, and an additional line item is presented representing the adjustments from fair value to contract value. Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of changes in net assets available for benefits is presented on a contract value basis. (See Note 4).

Income Recognition

Purchases and sales of securities are recorded as of the trade date. Interest income is recorded on the accrual basis. Dividend income is recorded as of the ex-dividend date. Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees are reflected as a reduction of investment return for such investments.

Administrative Expenses

Participants pay Plan recordkeeping and administrative fees and administrative fees for loans. Participants pay investment, sales, recordkeeping and administrative expenses charged by funds, which are deducted from income and reflected as a reduction of investment return for the fund.

Table of Contents

Pinnacle West pays the remaining Plan administrative expenses, such as legal and trustee expenses of the Plan.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. As of December 31, 2013 and 2012, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid.

Excess Contributions Payable

The Plan is required to return contributions received during the Plan year in excess of the Internal Revenue Code limits.

3. FEDERAL INCOME TAX STATUS

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). Plan management has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the IRS, however, there are currently no audits for any tax periods in progress. Plan management believes the Plan is no longer subject to income tax examinations for years prior to 2010.

The IRS has determined and informed the Company by a letter dated September 19, 2013, that the Plan was designed in accordance with applicable requirements of the Internal Revenue Code. The Company and the Plan's management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code, and the Plan and related trust continue to be tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Table of Contents

4. INVESTMENT CONTRACTS

The Plan's fixed income fund invests in fully-benefit responsive synthetic guaranteed investment contracts (GICs). A synthetic GIC is an investment contract issued by an insurance company or other financial institution (wrap agreement), backed by a portfolio of bonds, mortgages, or other fixed income instruments that are owned directly by the fund. The contract provides for an interest crediting rate that may not be less than zero percent per annum. The realized and unrealized gains and losses on the underlying assets are not reflected immediately in the value of the contract, but rather are amortized, usually over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate. In 2012, in addition to synthetic GICs the Plan also invested in a conventional GIC. A conventional GIC provides for a fixed return on principal over a specified period of time through fully benefit-responsive contracts issued by a third party, which are backed by assets owned by the third party. The conventional GIC matured during 2013.

Primary variables impacting future interest crediting rates of the Synthetic GICs include current yield of the assets within the contract, duration of the assets covered by the contract, and the existing difference between the market value and contract value of the assets within the contract. The Plan's GIC's interest crediting rates are reset on a monthly or quarterly basis. The crediting rate will track current market yields on a trailing basis. The rate reset allows the contract value of the wrapped portfolio to converge to the market value over time, assuming the portfolio market value continues to earn the current portfolio yield for a period of time equal to the current portfolio duration. The issuer guarantees that qualified participant withdrawals will occur at contract value.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. While the events may differ from contract to contract, the events typically include: Plan amendments or changes, company mergers or consolidations, participant investment election changes, group terminations or layoffs, implementation of an early retirement program, termination or partial termination of the Plan, failure to meet certain tax qualifications, participant communication that is designed to influence participants not to invest in the Fixed Income Fund, transfers to competing options without meeting the equity wash provisions of the Fixed Income Fund (if applicable), Plan sponsor withdrawals without the appropriate notice to the Fixed Income Fund's investment manager and/or wrap contract issuers, any changes in laws or regulations that would result in substantial withdrawals from the Plan, and default by the Plan sponsor in honoring its credit obligations, insolvency, or bankruptcy if such events could result in withdrawals. In general, GIC issuers may terminate the contract and settle at other than contract value due to changes in the qualification status of the company or the Plan, breach of material obligations under the contract and misrepresentation by the contract holder, or failure of the underlying portfolio to confirm

Table of Contents

to the pre-established investment guidelines. Plan management believes that the occurrence of such events that would cause the Plan to transact at less than contract value is not probable.

The Plan's GICs and their associated wrap contracts are included in the Statement of Net Assets Available for Benefits at fair value at December 31, 2013 and 2012 of \$145 million and \$183 million, respectively. See Note 6 for additional fair value details. Contract value of the fully-benefit responsive investment contracts was lower than fair market value at December 31, 2013 and 2012 by \$1 million and \$5 million, respectively.

The following table presents the average yield earned by the Plan's GICs for the year ended December 31, 2013 and 2012:

	2013	2012
Weighted average yield earned	0.947%	0.747%
Weighted average yield credit to participants accounts	1.127%	1.651%

5. INVESTMENTS

The fair value of individual investments representing five percent or more of the Plan's net assets available for benefits as of December 31, 2013 and 2012, were as follows:

	2013	2012
SSgA S&P 500 Flagship Securities**	\$ 198,262,084	\$ 153,936,773
American FDS EuroPacific Growth Fund	131,753,807	99,106,015
Pinnacle West Common Stock*	91,073,685	102,705,936
PIMCO Total Return Fund Inst.	85,478,634	96,040,191
SSgA Russell 1000 Growth Index**	83,726,048	67,347,278
BlackRock Value Opportunities	55,163,210	38,099,896***

* Permitted party-in-interest.

** Permitted party-in-interest through the date of transfer of April 1, 2013.

*** Investment represents less than 5% of the Plan's net assets in the year indicated.

Table of Contents

The Plan's investments (including gains and losses on investments purchased and sold, as well as held during the year) appreciated in value for the year ended December 31, 2013, as follows:

Common and Collective Trusts	\$	70,478,227
Mutual Funds		55,123,395
Pinnacle West Stock Fund		4,731,492
Self-Directed Brokerage Account		3,741,454
Net realized/unrealized appreciation in fair value of investments	\$	134,074,568

6. FAIR VALUE MEASUREMENTS

The Plan applies fair value measurements to investments and provides disclosure of fair value according to a fair value hierarchy. The hierarchy ranks the quality and reliability of the inputs used to determine fair values, which are then classified and disclosed in one of three categories. The three levels of the fair value hierarchy are:

Level 1 Quoted prices in active markets for identical assets or liabilities. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide information on an ongoing basis.

Level 2 Quoted prices in active markets for similar assets or liabilities; quoted prices in markets that are not active; and model-derived valuations whose inputs are observable.

Level 3 Model-derived valuations with unobservable inputs that are supported by little or no market activity.

Assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common and Collective Trusts: Valued and redeemable based on the trusts' net asset value of units held by the Plan at year-end. Net asset value is based on the market prices of the underlying securities owned by the trusts. The trusts are similar to mutual funds, except that the trusts' shares are offered to a limited group of investors and are not traded on an exchange basis. US equity trusts seek to replicate the movements of a specific index (either the S&P 500 or the Russell 1000 growth index). Participant redemptions in the trusts do not require a notification period, and may occur on a daily basis. The trusts have the ability to implement redemption safeguards which could limit the

Table of Contents

Plan's ability to transact in the trusts; these safeguards had no effect on participant redemptions at year-end, and are not expected to impact the abilities of participants to transact in the trusts.

Mutual Funds: Valued and redeemable at the quoted net asset value of shares held by the Plan. The net asset value is based on the quoted price at the end of the day on the active market in which the individual funds are traded.

Synthetic GICs: Fair value equals the fair value of the underlying assets, plus or minus the wrap contracts. The underlying assets consist of fixed-income securities that are valued at the closing price reported on the market on which the securities are traded. The wrap value represents an insignificant component of the overall investments valuation. The underlying investments have observable prices and are considered Level 2 inputs while the wrap contracts are Level 3 inputs. Due to the immaterial nature of the wrap contracts, Synthetic GICs are classified as Level 2 investments.

Conventional GICs: Valued at fair value by discounting the related cash flows based on the yields of the A insurance curve and considering the creditworthiness of the issuer.

Common Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Short-Term Investments: At December 31, 2013 consists of mutual funds that seek to provide safety of principal, daily liquidity and a competitive yield by investing in US Government Securities, or money market funds. Valuation is based on the quoted net asset value of shares held by the plan, consistent with the methodology for valuing mutual funds as discussed above. At December 31, 2012 short-term investments were invested in common and collective trusts.

Self-Directed Brokerage Account: Consists primarily of common stocks, cash equivalents, and mutual funds, which are managed directly by participants. Common stocks are valued at the closing price reported on the active market in which the individual security trades. Cash and cash equivalents are valued based on observable market prices. Mutual funds are valued at the quoted net asset value.

Table of Contents

The following table presents the fair value of the Plan's investments as of December 31, 2013:

	Quoted Price in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Balance as of December 31, 2013

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments include shares of the SSgA S&P 500 Flagship Securities Lending Fund Class A and the SSgA Russell 1000 Growth Index Securities Lending Fund Class A that were managed by the former trustee, State Street Bank and Trust Company. Effective April 1, 2013, the Plan changed its trustee and record keeper from State Street Bank and Trust Company and J.P. Morgan Retirement Plan Services, respectively, to Fidelity Management Trust Company. In addition, certain Plan investments consist of Pinnacle West common stock managed by the Trustee. These transactions qualified as exempt party-in-interest transactions. As of December 31, 2013 and 2012, the Plan held 6,871,625 and 8,135,490 units, respectively, of common stock of Pinnacle West, the sponsoring employer with a cost basis of \$69,855,564 and \$88,476,654, respectively. During the year ended December 31, 2013, the Plan recorded dividend income from Pinnacle West common stock of \$3,817,659.

Table of Contents

The Plan issues loans to participants which are secured by the vested balances in the participants' accounts.

Certain employees and officers of the Company, who may also be participants in the Plan, perform financial reporting and other services for the Plan, at no cost to the Plan. The Plan Sponsor pays for these services.

8. SUBSEQUENT EVENTS

Beginning May 30, 2014, the investment options available in the Plan changed. A number of different investment options became available starting May 30, 2014, including target date retirement funds and new core funds. After the close of business on June 27, 2014, the target date retirement funds will become the Plan's qualified default investment fund and several of the current investment options will be removed from the Plan.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of Net Assets Available for Benefits per the financial statements to Form 5500:

	2013	2012
Net Assets Available for Benefits per the financial statements	\$ 1,085,968,064	\$ 975,217,321
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	1,495,140	4,823,493
Deemed distribution of participant loans	(159,157)	
Net Assets per Form 5500	\$ 1,087,304,047	\$ 980,040,814

The following is a reconciliation of the Changes in Net Assets Available for Benefits per the financial statements to Form 5500 for the year ended December 31, 2013:

Increase in Net Assets Available for Benefits per the financial statements	\$ 110,750,743
Adjustment from contract value to fair value for fully benefit-responsive fixed income fund December 31, 2013	1,495,140
Adjustment from contract value to fair value for fully benefit-responsive fixed income fund December 31, 2012	(4,823,493)
Deemed distribution of participant loans	(159,157)
Net income per the Form 5500	\$ 107,263,233
