PROSPECTUS

## DIVIDEND REINVESTMENT AND SHARE PURCHASE PLAN

#### 1,500,000 Common Shares, \$0.01 Par Value Per Share

With this prospectus, we are offering you the opportunity to participate in our Dividend Reinvestment and Share Purchase Plan (the Plan ). The Plan allows our existing shareholders to increase their holdings of our common shares of beneficial interest, \$0.01 par value per share, or common shares, and gives new investors an opportunity to make an initial investment in our common shares.

## PLAN HIGHLIGHTS

• If you are an existing shareholder, you may purchase additional common shares by reinvesting all or a portion of the dividends paid on your common shares and by making optional cash payments of not less than \$50 up to a maximum of \$10,000 per month.

• If you are a new investor, you may join the Plan by making an initial investment of not less than \$1,000 up to a maximum of \$10,000.

Once you enroll in the Plan, you may authorize electronic deductions from your bank account for optional cash payments.

Your participation in the Plan is voluntary and you may terminate your account at any time. If you elect not to participate in the dividend reinvestment portion of the Plan, you will receive dividends, if and when authorized by our board of trustees and declared by us, by check or automatic deposit to a bank account that you designate.

You should read this document and any prospectus supplement or amendment carefully before you invest in our securities. Our common shares are listed on the New York Stock Exchange, or the NYSE, under the symbol DOC. On November 13, 2014, the closing price for our common shares, as reported on the NYSE, was \$15.69 per share. Our principal executive offices are located at 735 N. Water Street, Suite 1000, Milwaukee, Wisconsin 53202.

We are a Maryland real estate investment trust, and elected to be taxed as a real estate investment trust, or REIT, for U.S. federal income tax purposes beginning with our short taxable year ending December 31, 2013. Our common shares are subject to restrictions on ownership and transfer that are intended, among other purposes, to assist us in qualifying and maintaining our qualification as a REIT. Our declaration of trust, subject to certain exceptions, limits ownership to no more than 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of any class or series of our shares of beneficial interest.

We are an emerging growth company under the federal securities laws and have reduced public company reporting requirements. Investing in our securities involves a high degree of risk. You should review carefully the risks and uncertainties described under the heading Risk Factors contained in this prospectus beginning on page 4 and any applicable prospectus supplement, and under similar headings in the other documents that are incorporated by reference into this prospectus.

#### ABOUT THIS PROSPECTUS

We have not authorized anyone to provide you with different or inconsistent information from that contained in this prospectus and the documents incorporated herein by reference. If anyone provides you with different or inconsistent information, you should not rely on it. You should assume that the information in this prospectus is accurate only as of the date hereof and that the documents incorporated herein by reference are accurate only as of the date that such documents were filed with the Securities and Exchange Commission (the SEC). Our business, financial condition, results of operations and prospects may have changed since these dates. This prospectus does not constitute an offer to sell, or a solicitation of an offer to buy, any securities other than the common shares offered hereby, or an offer to sell, or a solicitation of an offer to buy, such shares in any jurisdiction in which, or to any person to whom, such offer or solicitation would be unlawful.

This prospectus and the documents incorporated herein by reference summarize material provisions of certain contracts and other documents. These are summaries only, and you may wish to review the full text of those documents for a full understanding of their terms and conditions.

#### CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This prospectus and some of the documents that are incorporated by reference herein, including our Annual Report on Form 10-K for the year ended December 31, 2013, which we refer to as our 2013 10-K and our Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2014 and June 30, 2014, which we refer to as our First Quarter 2014 10-Q and Second Quarter 2014 10-Q, respectively, contain various forward-looking statements within the meaning of the federal securities laws. You can identify forward-looking statements by the use of forward-looking terminology such as believes, expects, may, will, should, seeks, approximately, intends, plans, pro forma, anticipates or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. You can also identify forward-looking statements by discussions of strategy, plans or intentions.

Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods which may be incorrect or imprecise and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements:

- general economic conditions;
- adverse economic or real estate developments, either nationally or in the markets in which our properties are located;
- our failure to generate sufficient cash flows to service our outstanding indebtedness;
- fluctuations in interest rates and increased operating costs;
- the availability, terms and deployment of debt and equity capital, including our unsecured revolving credit facility;
- our ability to make distributions on our shares of beneficial interest;
- general volatility of the market price of our common shares;
- our limited operating history;
- our increased vulnerability economically due to the concentration of our investments in healthcare properties;

• our geographic concentrations in Texas causes us to be particularly exposed to downturns in this local economy or other changes in local real estate market conditions;

- changes in our business or strategy;
- our dependence upon key personnel whose continued service is not guaranteed;
- our ability to identify, hire and retain highly qualified personnel in the future;

- the degree and nature of our competition;
- changes in governmental regulations, tax rates and similar matters;
- defaults on or non-renewal of leases by tenants;
- decreased rental rates or increased vacancy rates;
- difficulties in identifying healthcare properties to acquire and completing acquisitions;
- competition for investment opportunities;
- our failure to successfully develop, integrate and operate acquired properties and operations;
- the impact of our investment in joint ventures;
- the financial condition and liquidity of, or disputes with, joint venture and development partners;
- our ability to operate as a public company;
- changes in accounting principles generally accepted in the United States of America. or GAAP;
- lack of or insufficient amounts of insurance;
- other factors affecting the real estate industry generally;
- our failure to qualify and maintain our qualification as a REIT for U.S. federal income tax purposes;

• limitations imposed on our business and our ability to satisfy complex rules in order for us to qualify as a REIT for U.S. federal income tax purposes;

• changes in governmental regulations or interpretations thereof, such as real estate and zoning laws and increases in real property tax rates and taxation of REITs; and

- various other factors may materially adversely affect us, including the per share trading price of our common shares, such as:
- higher market interest rates;
- the number of our common shares available for future issuance or sale;
- our issuance of equity securities or the perception that such issuance might occur;
- future offerings of debt; and

• if securities analysts do not public research or reports about our industry or if they downgrade our common shares or the healthcare-related real estate sector.

While forward-looking statements reflect our good faith beliefs, they are not guarantees of future performance. You should not place undue reliance on any forward-looking statements that are based on information currently available to us or the third parties making the forward-looking statements. We discuss many of these risks in greater detail under the heading Risk Factors in our SEC filings and under the caption Risk Factors in this prospectus. Also, these forward-looking statements represent our estimates and assumptions only as of the date of the document containing the applicable statement. You should read this prospectus, the registration

statement of which this prospectus is a part, and the exhibits and documents incorporated by reference herein and therein completely and with the understanding that our actual future results may be materially different from those described in forward-looking statements. We qualify all of the forward-looking statements in the foregoing documents by these cautionary statements.

You should assume that information contained in or incorporated by reference into this prospectus is accurate only as of the date on the front cover of this prospectus or the date of the document incorporated by reference, as applicable. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes after the date of this prospectus.

## ABOUT OUR COMPANY

#### **Our Company**

We are a self-managed healthcare real estate company organized in April 2013 to acquire, selectively develop, own and manage healthcare properties that are leased to physicians, hospitals and healthcare delivery systems. We completed our initial public offering (IPO) in July 2013. As of September 30, 2014, our portfolio consisted of 64 properties located in 17 states with approximately 2,524,950 net leasable square feet, which were approximately 95.4% leased with a weighted average remaining lease term of approximately 9.9 years and approximately 60.0% of the net leasable square footage of our portfolio was affiliated with a healthcare delivery system and approximately 50.3% of the net leasable square footage of our properties is located within approximately 1/4 mile of a hospital campus.

We invest in real estate that is integral to providing high quality healthcare services. Our properties are typically located on a campus with a hospital or other healthcare facilities or strategically located and affiliated with a hospital or other healthcare facilities. We believe the impact of government programs and continuing trends in the healthcare industry create attractive opportunities for us to invest in health care related real estate. Our management team has significant public healthcare REIT experience and has long established relationships with physicians, hospitals and healthcare delivery system decision makers that we believe will provide quality investment and growth opportunities. Our principal investments include medical office buildings, outpatient treatment facilities, acute and post-acute care hospitals, as well as other real estate integral to health care providers. We seek to generate attractive risk-adjusted returns for our shareholders through a combination of stable and increasing dividends and potential long-term appreciation in the value of our properties and our common shares.

We had no business operations prior to completion of the IPO and the formation transactions on July 24, 2013. Our Predecessor, which is not a legal entity, is comprised of the four healthcare real estate funds managed by B.C. Ziegler & Company (Ziegler), which we refer to as the Ziegler Funds, that owned directly or indirectly interests in entities that owned the initial properties we acquired on July 24, 2013 in connection with completion of our IPO and related formation transactions.

We are a Maryland real estate investment trust and elected to be taxed as a REIT for U.S. federal income tax purposes beginning with our short taxable year ending December 31, 2013. We conduct our business through an UPREIT structure in which our properties are owned by our operating partnership directly or through limited partnerships, limited liability companies or other subsidiaries. We are the sole general partner of our operating partnership and, as of October 1, 2014, own approximately 93.7% of the partnership interests in our operating partnership.

All references to we, us, our, our company, the Trust, the Company, and Physicians Realty refer to Physicians Realty Trust, a Maryland real estate investment trust, together with its consolidated subsidiaries, including Physicians Realty L.P., a Delaware limited partnership, which we refer to as our operating partnership, and the historical business and operations of four healthcare real estate funds that we have classified for accounting purposes as our Predecessor and which we sometimes refer to as the Ziegler Funds, and not to the persons who manage us or sit on our Board of Trustees.

#### **Corporate Information**

We were formed as a Maryland real estate investment trust on April 9, 2013. Our corporate offices are located at 735 N. Water Street, Suite 1000, Milwaukee, Wisconsin 53202. Our telephone number is (414) 978-6494. Our internet website is *www.docreit.com*. The information contained on, or accessible through, this website, or any other website, is not incorporated by reference into this prospectus and should not be considered a part of this prospectus.

#### **RISK FACTORS**

An investment in our common shares involves a high degree of risk. Before you decide to participate in the Plan and invest in our common shares, you should carefully consider the risk factors set forth below as well as in each of our 2013 10-K, our First Quarter 2014 10-Q and our Second Quarter 2014 10-Q, together with the other information included or incorporated by reference into this prospectus and the risks we have highlighted in other sections of this prospectus. If any of these risks occurs, our business, financial condition, liquidity, tax status and results of operations could be materially and adversely affected. Some statements in this prospectus, including statements in the following risk factors, constitute forward-looking statements. Please refer to the section captioned Cautionary Note Regarding Forward-Looking Statements.

#### You will not know the price per share of our common shares at the time you make an investment decision.

You will not know the price per share of the common shares you are purchasing under the Plan at the time you authorize the investment or elect to have your dividends reinvested.

# The price per share of our common shares may fluctuate between the time you make an investment decision and the time the shares are purchased or sold.

The price per share of our common shares may fluctuate between the time you decide to purchase shares under the Plan and the time of actual purchase. In addition, during this time period, you may become aware of additional information that might affect your investment decision.

If you instruct Computershare Trust Company, N.A. (the Administrator) to sell your common shares under the Plan, you may not be able to direct the time or price at which your common shares are sold, depending on the sales option you select. The market price of our common shares may decline between the time you decide to sell common shares and the actual time of sale.

If you decide to withdraw from the Plan and request a certificate for whole common shares credited to you under the Plan, the price per share of our common shares may decline between the time you decide to withdraw and the time you receive the certificate.

# The market price and trading volume of our common shares may be volatile following this offering and may be affected by a number of factors.

The per share trading price of our common shares may be volatile. In addition the trading volume in our common shares may fluctuate and cause significant price variations to occur, and investors in our common shares may from time to time experience a decrease in the value of their shares, including decreases unrelated to our operating performance or prospects. If the per share trading price of our common shares declines significantly, you may be unable to resell your shares at or above the public offering price. We cannot assure you that the per share trading price of our common shares trading price of our common shares at or above the public offering price.

of our common shares will not fluctuate or decline significantly in the future.

Some of the factors that could negatively affect our share price or result in fluctuations in the price or trading volume of our common shares include:

- actual or anticipated variations in our quarterly operating results or dividends;
- changes in our funds from operations or earnings estimates;
- publication of research reports about us or the real estate industry;
- increases in market interest rates that lead purchasers of our shares to demand a higher yield;
- changes in market valuations of similar companies;
- adverse market reaction to any additional debt we incur in the future;
- additions or departures of key management personnel;
- actions by institutional shareholders;
- speculation in the press or investment community;
- the realization of any of the other risk factors presented in this prospectus;
- the extent of investor interest in our securities;

• the general reputation of REITs and the attractiveness of our equity securities in comparison to other equity securities, including securities issued by other real estate based companies;

• our underlying asset value;

- investor confidence in the stock and bond markets generally;
- changes in tax laws;
- future equity issuances;
- failure to meet earnings estimates;
- failure to meet and maintain REIT qualification;
- changes in our credit ratings; and
- general market and economic conditions.

In the past, securities class-action litigation has often been instituted against companies following periods of volatility in the price of their common stock. This type of litigation could result in substantial costs and divert our management s attention and resources, which could have a material adverse effect on us, including our financial condition, results of operations, cash flow, and per share trading price of our common shares.

#### We may be unable to make distributions which could result in a decrease in the market price of our common shares.

While we expect to make regular quarterly distributions to the holders of our common shares, if sufficient cash is not available for distribution from our operations, we may have to fund distributions from working capital, borrow to provide funds for such distributions, or reduce the amount of such distributions. To the extent we borrow to fund distributions, our future interest costs would increase, thereby reducing our earnings and cash available for distribution from what they otherwise would have been. If cash available for distribution generated by our assets is less than expected, or if such cash available for distribution decreases in future periods from expected levels, our inability to make distributions could result in a decrease in the market price of our common shares.

All distributions will be made at the discretion of our board of trustees and will be based upon, among other factors, our historical and projected results of operations, financial condition, cash flows and liquidity, maintenance of our REIT qualification and other tax considerations, capital expenditure and other expense obligations, debt covenants, contractual prohibitions or other limitations and applicable law and such other matters as our board of trustees may deem relevant from time to time. We may not be able to make distributions in the future, and our inability to make distributions, or to make distributions at expected levels, could result in a decrease in the market price of our common shares.

Increases in market interest rates may have an adverse effect on the trading prices of our common shares as prospective purchasers of our common shares may expect a higher dividend yield and as an increased cost of borrowing may decrease our funds available for distribution.

One of the factors that influences the trading prices of our common shares is the dividend yield on the common shares (as a percentage of the price of our common shares) relative to market interest rates. An increase in market interest rates, which are currently at low levels relative to

historical rates, may lead prospective purchasers of our common shares to expect a higher dividend yield (with a resulting decline in the trading prices of our common shares) and higher interest rates would likely increase our borrowing costs and potentially decrease funds available for distribution. Thus, higher market interest rates could cause the market price of our common shares to decrease.

The number of our common shares available for future issuance or sale could materially adversely affect the per share trading price of our common shares.

As of November 10, 2014, we will have issued and outstanding approximately 47,381,216 common shares and reserved 3,190,339 common shares for issuance upon redemption of outstanding common units in our operating partnership (OP Units) which are not owned by us. We have agreed to register the common shares issuable upon redemption of the OP Units so that such common shares will be freely tradable under the securities laws.

We cannot predict whether future issuances or sales of our common shares or the availability of shares for resale in the open market will decrease the per share trading price of our common shares. The per share trading price of our common shares may decline significantly when the OP Units become redeemable.

Our issuance of equity securities, including OP Units, or the perception that such issuances might occur could materially adversely affect us, including the per share trading price of our common shares.

The redemption of OP Units for common shares, the vesting of any restricted shares granted to certain trustees, executive officers and other employees under our 2013 Equity Incentive Plan, the issuance of our common shares or OP Units in connection with future property, portfolio or business acquisitions and other issuances of our common shares, could have an adverse effect on the per

share trading price of our common shares may adversely affect the terms upon which we may be able to obtain additional capital through the sale of equity securities. In addition, future issuances of our common shares may be dilutive to existing shareholders.

In August 2014, the Company filed with the SEC a registration statement on Form S-3 (File No. 333-197842) covering the registration under the Securities Act of 1933, as amended (the Securities Act ), of common shares, preferred shares of beneficial interest, various series of debt securities, depositary shares, warrants to purchase any of such securities, and units comprised of any such securities with a total value of up to \$900 million, which was declared effective by the SEC on August 19, 2014 (the Shelf Registration Statement ).

Also on August 19, 2014, we and our operating partnership entered into separate At Market Issuance Sales Agreements (the Sales Agreements) with each of MLV & Co. LLC, KeyBanc Capital Markets Inc., JMP Securities LLC, and RBC Capital Markets, LLC (the Agents), pursuant to which we may issue and sell our common shares having an aggregate offering price of up to \$150 million, from time to time, through the Agents. The common shares are registered under the Securities Act pursuant to the Shelf Registration Statement and are being offered pursuant to a prospectus dated August 19, 2014, as supplemented by a prospectus supplement dated August 19, 2014, filed with the SEC pursuant to Rule 424(b) of the Securities Act. In accordance with the Sales Agreements, we may offer and sell our common shares through any of the Agents, from time to time, by any method deemed to be an at the market offering as defined in Rule 415 under the Securities Act, which includes sales made directly on the NYSE, or other existing trading market, or sales made to or through a market maker. With our express written consent, sales also may be made in negotiated transactions or any other method permitted by law.

Future offerings of debt, which would be senior to our common shares upon liquidation, or preferred equity securities which may be senior to our common shares for purposes of dividend distributions or upon liquidation, may materially adversely affect us, including the per share trading price of our common shares.

In the future, we may attempt to increase our capital resources by making additional offerings of debt or equity securities (or causing our operating partnership to issue debt securities), including medium-term notes, senior or subordinated notes and classes or series of preferred shares. Upon liquidation, holders of our debt securities and preferred shares and lenders with respect to other borrowings will be entitled to receive our available assets prior to distribution to the holders of our common shares. Additionally, any convertible or exchangeable securities that we issue in the future may have rights, preferences and privileges more favorable than those of our common shares and may result in dilution to owners of our common shares. Holders of our common shares are not entitled to preemptive rights or other protections against dilution. Our preferred shares, if issued, could have a preference on liquidating distributions or a preference on dividend payments that could limit our ability pay dividends or other distributions to the holders of our common shares. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, our shareholders bear the risk that our future offerings could reduce the per share trading price of our common shares and dilute their interest in us.

If securities analysts do not publish research or reports about our industry or if they downgrade our common shares or the healthcare-related real estate sector, the market price of our common shares could decline.

The trading market for our common shares depends in part upon the research and reports that industry or financial analysts publish about us or our industry. We have no control over these analysts. Furthermore, if one or more of the analysts who do cover us downgrades our shares or our industry, or the stock of any of our competitors, the price of our common shares could decline. If one or more of these analysts ceases coverage of our company, we could lose attention in the market which in turn could cause the market price of our common shares to decline.

Failure to qualify as a REIT, or failure to remain qualified as a REIT, would cause us to be taxed as a regular corporation, which would substantially reduce funds available for distributions to our shareholders.

We believe that our organization and proposed method of operation will enable us to meet the requirements for qualification and taxation as a REIT commencing with our taxable year ending December 31, 2013. However, we cannot assure you that we will qualify and remain qualified as a REIT. We will receive an opinion from Baker & McKenzie LLP in connection with this offering that, commencing with our taxable year ending December 31, 2013, we have been organized and have operated in conformity with the requirements for qualification and taxation as a REIT under the U.S. federal income tax laws and our current and proposed method of operations will enable us to satisfy the requirements for qualification and taxation as a REIT under the U.S. federal income tax laws for our taxable year ending December 31, 2014 and subsequent taxable years. Investors should be aware that Baker & McKenzie LLP s opinions are based upon customary assumptions, will be conditioned upon certain representations made by us as to factual matters, including representations regarding the nature of our assets and the conduct of our business, is not binding upon the Internal Revenue

Service, or the IRS, or any court and speaks as of the date issued. In addition, Baker & McKenzie LLP s opinion will be based on existing U.S. federal income tax law governing qualification as a REIT, which is subject to change either prospectively or retroactively. Moreover, our qualification and taxation as a REIT depend upon our ability to meet on a continuing basis, through actual annual operating results, certain qualification tests set forth in the federal tax laws. Baker & McKenzie LLP will not review our compliance with those tests on a continuing basis. Accordingly, no assurance can be given that our actual results of operations for any particular taxable year will satisfy such requirements.

If we fail to qualify as a REIT in any taxable year, we will face serious tax consequences that will substantially reduce the funds available for distributions to our shareholders because:

• we would not be allowed a deduction for dividends paid to shareholders in computing our taxable income and would be subject to U.S. federal income tax at regular corporate rates;

• we could be subject to the federal alternative minimum tax and possibly increased state and local taxes; and

• unless we are entitled to relief under certain U.S. federal income tax laws, we could not re-elect REIT status until the fifth calendar year after the year in which we failed to qualify as a REIT.

In addition, if we fail to qualify as a REIT, we will no longer be required to make distributions. As a result of all these factors, our failure to qualify as a REIT could impair our ability to expand our business and raise capital, and it would adversely affect the value of our shares of beneficial interest. See Material U.S. Federal Income Tax Considerations for a discussion of material U.S. federal income tax considerations relating to us and our common shares.

## DESCRIPTION OF OUR COMMON SHARES

The following description of our common shares, together with the additional information we include in any applicable prospectus supplements, summarizes the material terms and provisions of the common shares that we may offer under the Plan. The following description of our common shares of beneficial interest is not a complete description of the Maryland REIT Law, or the MRL, or of the Maryland General Corporation Law, or the MGCL, provisions applicable to a Maryland real estate investment trust, and does not purport to be complete and is subject to, and qualified in its entirety by, our declaration of trust and our Bylaws, which are exhibits to the registration statement of which this prospectus forms a part, and by applicable law. The terms of our common shares also may be affected by Maryland law.

#### General

Our declaration of trust provides that we may issue up to 500,000,000 common shares of beneficial interest, \$0.01 par value per share, and 100,000,000 preferred shares of beneficial interest, \$0.01 par value per share. Our declaration of trust authorizes our board of trustees to amend our declaration of trust to increase or decrease the aggregate number of authorized shares or the number of shares of any class or series that we have the authority to issue without shareholder approval. As of November 10, 2014, 47,381,216 common shares are issued and outstanding on a fully diluted basis, including the 250,000 restricted common shares granted to our trustees and officers under our 2013 Equity Incentive Plan in connection with completion of our IPO, which shares vest ratably over three years, the 84,266 restricted common shares granted to our trustees and officers under our 2013 Equity Incentive Plan in March 2014, which shares vest over a one year period, the 5,263 restricted common shares granted to certain of our employees under our 2013 Equity Incentive Plan in June 2014, which shares vest ratably over three years, and the 56,617 restricted common shares granted to our chief financial officer under our 2013 Equity Incentive Plan in July 2014 in connection with the hiring of our chief financial officer, which shares vest ratably over three years, and no preferred shares are issued and outstanding.

Under Maryland law, shareholders are not personally liable for the obligations of a Maryland real estate investment trust solely as a result of their status as shareholders.

#### **Common Shares**

All of the common shares that may be issued in connection with this offering will, upon issuance, be duly authorized, fully paid and nonassessable. Subject to the preferential rights, if any, of holders of any other class or series of shares of beneficial interest and to the provisions of our declaration of trust regarding the restrictions on ownership and transfer of shares of beneficial interest, holders of our common shares are entitled to receive distributions on such shares of beneficial interest out of assets legally available therefor if, as and when authorized by our board of trustees and declared by us, and the holders of our common shares are entitled to share ratably in

our assets legally available for distribution to our shareholders in the event of our liquidation, dissolution or winding up after payment of or adequate provision for all of our known debts and liabilities.

Subject to the provisions of our declaration of trust regarding the restrictions on ownership and transfer of common shares of beneficial interest and except as may otherwise be specified in the terms of any class or series of common shares, each outstanding common share entitles the holder to one vote on all matters submitted to a vote of shareholders, including the election of trustees, and, except as provided with respect to any other class or series of shares of beneficial interest, the holders of such common shares will possess the exclusive voting power. There is no cumulative voting in the election of our trustees, which means that the shareholders entitled to cast a majority of the votes entitled to be cast in the election of trustees can elect all of the trustees then standing for election, and the remaining shareholders will not be able to elect any trustees.

Holders of common shares have no preference, conversion, exchange, sinking fund, redemption or appraisal rights and have no preemptive rights to subscribe for any of our securities. Subject to the restrictions on ownership and transfer of shares contained in our declaration of trust and the terms of any other class or series of common shares, all of our common shares will have equal dividend, liquidation and other rights.

#### Power to Reclassify Our Unissued Shares of Beneficial Interest

Our declaration of trust authorizes our board of trustees to classify and reclassify any unissued common or preferred shares into other classes or series of shares of beneficial interest. Prior to the issuance of shares of each class or series, our board of trustees is required by Maryland law and by our declaration of trust to set, subject to the provisions of our declaration of trust regarding the restrictions on ownership and transfer of shares of beneficial interest, the preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series. Therefore, our board could authorize the issuance of common shares or preferred shares that have priority over our common shares as to voting rights, dividends or upon liquidation or with terms and conditions that could have the effect of delaying, deferring or preventing a change in control or other transaction that might involve a premium price for our common shares or otherwise be in the best interests of our shareholders. No preferred shares are presently outstanding, and we have no present plans to issue any preferred shares.

#### Power to Increase or Decrease Authorized Shares of Beneficial Interest and Issue Additional Common Shares and Preferred Shares

We believe that the power of our board of trustees to amend our declaration of trust to increase or decrease the number of authorized shares of beneficial interest, to authorize us to issue additional authorized but unissued common shares or preferred shares and to classify or reclassify unissued common shares or preferred shares and thereafter to authorize us to issue such classified or reclassified shares of beneficial interest will provide us with increased flexibility in structuring possible future financings and acquisitions and in meeting other needs that might arise. The additional classes or series, as well as the common shares, will be available for issuance without further action by our common shareholders, unless such action is required by applicable law or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded. Although our board of trustees does not intend to do so, it could authorize us to issue a class or series that could, depending upon the terms of the particular class or series, delay, defer or prevent a change in control or other transaction that might involve a premium price for our common shares or otherwise be in the best interests of our shareholders.

#### **Restrictions on Ownership and Transfer**

For us to qualify as a REIT under the Code our shares of beneficial interest must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months or during a proportionate part of a shorter taxable year. Also, not more than 50% of the value of our outstanding shares of beneficial interest may be owned, directly or indirectly, by five or fewer individuals (as defined in the Code to include certain entities) during the last half of a taxable year.

Because our board of trustees believes it is at present essential for us to qualify as a REIT, among other purposes, our declaration of trust provides that, subject to certain exceptions, no person may beneficially or constructively own more than 9.8% in value or in number of shares, whichever is more restrictive, of the outstanding shares of any class or series of our shares of beneficial interest, which we refer to as the ownership limit.

Our declaration of trust also prohibits any person from (i) beneficially owning shares of beneficial interest to the extent that such beneficial ownership would result in our being closely held within the meaning of Section 856(h) of the Code (without regard to whether the ownership interest is held during the last half of the taxable year), (ii) transferring our shares of beneficial interest to the extent that such transfer would result in our shares of beneficial interest being beneficially owned by less than 100 persons (determined

under the principles of Section 856(a)(5) of the Code), (iii) beneficially or constructively owning our shares of beneficial interest to the extent such beneficial or constructive ownership would cause us to constructively own ten percent or more of the ownership interests in a tenant (other than a taxable REIT subsidiary, or TRS) of our real property within the meaning of Section 856(d)(2)(B) of the Code or (iv) beneficially or constructively owning or transferring our shares of beneficial interest if such ownership or transfer would otherwise cause us to fail to qualify as a REIT under the Code, including, but not limited to, as a result of any operators that manage qualified healthcare properties for a TRS failing to qualify as eligible independent contractors under the REIT rules. Any person who acquires or attempts or intends to acquire beneficial or constructive ownership of our shares of beneficial interest that will or may violate any of the foregoing restrictions on ownership and transfer, or any person who would have owned our shares of beneficial interest that resulted in a transfer of shares to a charitable trust (as described below), is required to give written notice immediately to us, or in the case of a proposed or attempted transaction, to give at least 15 days prior written notice, and provide us with such other information as we may request in order to determine the effect of such transfer on our status as a REIT. The foregoing restrictions on ownership and transfer will not apply if our board of trustees determines that it is no longer in our best interests to attempt to qualify, or to continue to qualify, as a REIT, or that compliance with the restrictions on ownership and transfer is no longer required for us to qualify as a REIT.

Our board of trustees, in its sole discretion, may prospectively or retroactively exempt a person from the restrictions described in the paragraph above (other than the restriction described in clause (iv) of the preceding paragraph) and may establish or increase an excepted holder percentage limit for such person. The person seeking an exemption must provide to our board of trustees such representations, covenants and undertakings as our board of trustees may deem appropriate in order to conclude that granting the exemption will not cause us to fail to qualify as a REIT. Our board of trustees may not grant such an exemption to any person if such exemption would result in our failing to qualify as a REIT. Our board of trustees may require a ruling from the IRS or an opinion of counsel, in either case in form and substance satisfactory to the board of trustees, in its sole discretion, in order to determine or ensure our status as a REIT. Our board of trustees may from time to time increase or decrease the ownership limit for one or more persons, but any decreased ownership limit will not be effective for any person whose percentage ownership of our shares is in excess of the decreased ownership limit until the person s percentage ownership of our shares equals or falls below the decreased ownership limit (although any acquisition of our shares in excess of the decreased ownership limit if the increase, taking into account any expected holder limits, would allow five or fewer individuals (including certain entities) to beneficially own more than 49.9% in value of our outstanding shares.

Any attempted transfer of our shares of beneficial interest which, if effective, would result in a violation of any of the restrictions described above will result in the number of shares causing the violation (rounded up to the nearest whole share) to be automatically transferred to one or more charitable trusts for the exclusive benefit of one or more charitable beneficiaries, except that any transfer that results in the violation of the restriction relating to our shares of beneficial interest being beneficially owned by fewer than 100 persons will be void ab initio. In either case, the proposed transferee will not acquire any rights in such shares. The automatic transfer will be deemed to be effective as of the close of business on the business day prior to the date of the purported transfer or other event that results in the transfer to the trust. Shares held in the trust will be issued and outstanding shares. The proposed transferee will not benefit economically from ownership of any shares held in the trust, will have no rights to dividends or other distributions and will have no rights to vote or other rights attributable to the shares held in the trust. The trustee of the trust will have all voting rights and rights to dividends or other distributions with respect to shares held in the trust. These rights will be exercised for the exclusive benefit of the charitable beneficiary. Any dividend or other distribution paid prior to our discovery that shares have been transferred to the trust will be paid by the recipient to the trustee upon demand. Any dividend or other distribution authorized but unpaid will be paid when due to the trustee. Any dividend or other distribution paid to the trustee will be held in trust for the charitable beneficiary. Subject to Maryland law, the trustee will have the authority (i) to rescind as void any vote cast by the proposed transferee prior to our discovery that the shares have been transferred to the trust and (ii) to recast the vote in accordance with the desires of the trustee acting for the benefit of the charitable beneficiary. However, if we have already taken irreversible trust action, then the trustee will not have the authority to rescind and recast the vote.

Within 20 days of receiving notice from us that shares of beneficial interest have been transferred to the trust, the trustee will sell the shares to a person designated by the trustee, whose ownership of the shares will not violate the above restrictions on ownership and transfer. Upon the sale, the interest of the charitable beneficiary in the shares sold will terminate and the trustee will distribute the net proceeds of the sale to the proposed transferee and to the charitable beneficiary as follows: The proposed transferee will receive the lesser of (i) the price paid by the proposed transferee for the shares or, if the event that resulted in the trustee to the trust did not involve a purchase of the shares at market price,

the market price (as defined in our declaration of trust) of the shares on the day of the event causing the shares to be held in the trust and (ii) the price received by the trustee (net of any commission and other expenses of sale) from the sale or other disposition of the shares. The trustee may reduce the amount payable to the proposed transferee by the amount of dividends or other distributions paid to the proposed transferee and owed by the proposed transferee to the trustee. Any net sale proceeds in excess of the amount payable to the proposed transferee will be paid immediately to the charitable beneficiary. If, prior to our discovery that our shares have been transferred to the trust, the shares are sold by the proposed transferee, then (i) the shares shall be

deemed to have been sold on behalf of the trust and (ii) to the extent that the proposed transferee received an amount for the shares that exceeds the amount he or she was entitled to receive, the excess shall be paid to the trustee upon demand.

In addition, shares of beneficial interest held in the trust will be deemed to have been offered for sale to us, or our designee, at a price per share equal to the lesser of (i) the price per share in the transaction that resulted in the transfer to the trust (or, if the event that resulted in the transfer to the trust did not involve a purchase of the shares at market price, the market price of the shares on the day of the event causing the shares to be held in trust) and (ii) the market price on the date we, or our designee, accept the offer, which we may reduce by the amount of dividends and other distributions paid to the proposed transferee and owed by the proposed transferee to the trustee and pay such amount instead to the trustee for the benefit of the charitable beneficiary. We will have the right to accept the offer until the trustee has sold the shares. Upon a sale to us, the interest of the charitable beneficiary in the shares sold will terminate and the trustee will distribute the net proceeds of the sale to the proposed transferee and any dividends or other distributions held by the trustee must be paid to the charitable beneficiary.

If a transfer to a charitable trust, as described above, would be ineffective for any reason to prevent a violation of the restrictions described above, the transfer that would have resulted in such violation will be void ab initio, and the proposed transferee shall acquire no rights in such shares.

All certificated shares will bear a legend referring to the restrictions described above (or a declaration that we will furnish a full statement about certain restrictions on transfer to a shareholder on request and without charge).

Every owner of more than 5% (or such lower percentage as required by the Code or the regulations promulgated thereunder) of all classes or series of our shares of beneficial interest, within 30 days after the end of each taxable year, is required to give us written notice, stating his or her name and address, the number of shares of each class and series of our shares of beneficial interest that he or she beneficially owns and a description of the manner in which the shares are held. Each such owner must also provide us with such additional information as we may request in order to determine the effect, if any, of his or her beneficial ownership on our status as a REIT and to ensure compliance with the restrictions on ownership and transfer of our shares. In addition, each shareholder will upon demand be required to provide us with such information as we may request in order to determine our status as a REIT and to comply with the requirements of any taxing authority or governmental authority or to determine such compliance.

These restrictions on ownership and transfer could delay, defer or prevent a transaction or a change in control that might involve a premium price for our common shares or otherwise be in the best interest of our shareholders.
