AMERISOURCEBERGEN CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

Note 1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements present the consolidated financial position, results of operations and cash flows of AmerisourceBergen Corporation and its wholly owned subsidiaries (the Company) as of the dates and for the periods indicated. All intercompany accounts and transactions have been eliminated in consolidation.

The accompanying unaudited consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) for interim financial information, the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. In the opinion of management, all adjustments (consisting only of normal recurring accruals, except as otherwise disclosed herein) considered necessary to present fairly the financial position as of June 30, 2015 and the results of operations and cash flows for the interim periods ended June 30, 2015 and 2014 have been included. Certain information and footnote disclosures normally included in financial statements presented in accordance with U.S. GAAP, but which are not required for interim reporting purposes, have been omitted. The accompanying unaudited consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2014.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual amounts could differ from these estimated amounts.

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606) (ASU 2014-09). ASU 2014-09 supersedes the revenue recognition requirements in Accounting Standards Codification 605 Revenue Recognition and most industry-specific guidance throughout the Codification. ASU 2014-09 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. The standard's core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 was originally scheduled to be effective for annual reporting periods beginning after December 15, 2016, including interim periods within those reporting periods. In July 2015, the Financial Accounting Standards Board deferred the effective date of ASU 2014-09 by one year. Entities are permitted to adopt the standard as early as the original public entity effective date, and either full or modified retrospective application is required. The Company has not yet selected a transition method and is currently evaluating the impact of adopting this new accounting guidance.

Edgar Filing: AMERISOURCEBERGEN CORP - Form 10-Q

In April 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs (ASU 2015-03). ASU 2015-03 is the result of the Financial Accounting Standards Board's simplification initiative intended to improve U.S. GAAP by reducing costs and complexity while maintaining or enhancing the usefulness of related financial statement information. ASU 2015-03 specifies that debt issuance costs related to a note shall be reported in the balance sheet as a direct reduction from the face amount of the note. ASU 2015-03 is effective for annual reporting periods beginning after December 15, 2015, and interim periods within those fiscal years. ASU 2015-03 will require the Company to reclassify its capitalized debt issuance costs currently recorded as assets on the consolidated condensed balance sheets. ASU 2015-03 will have no effect on the Company's results of operations or liquidity.

As of June 30, 2015, there were no other recently issued accounting standards that will have a material impact on the Company's financial position or results of operations upon their adoption.

AMERISOURCEBERGEN CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

Note 2. Acquisition

On February 24, 2015, the Company acquired MWI Veterinary Supply, Inc. (MWI) for a purchase price of \$2.6 billion. MWI is a leading animal health distribution company in the United States and in the United Kingdom. MWI's annual revenues are estimated to be approximately \$3.0 billion. For reportable segment presentation, MWI's operating results are included within Other.

The purchase price has been preliminarily allocated to the underlying assets acquired and liabilities assumed based upon their estimated fair values at the date of the acquisition. The preliminary allocation is pending the finalization of the appraisals of intangible assets and the corresponding deferred taxes, as well as the finalization of the working capital account balances. There can be no assurance that the estimated amounts recorded represent the final purchase price allocation. The purchase price currently exceeds the estimated fair value of the net tangible and intangible assets acquired by \$1.2 billion, which was allocated to goodwill. The estimated fair value of accounts receivable, inventory, and accounts payable acquired was \$346.9 million, \$440.0 million and \$327.1 million, respectively. The estimated fair value of the intangible assets acquired of \$1.5 billion consists of customer relationships of \$1.1 billion, a trade name of \$344.0 million, and software technology of \$11.0 million. The Company established an estimated deferred tax liability of \$570.2 million primarily in connection with the intangible assets acquired. The Company is amortizing the estimated fair values of the acquired customer relationships and software technology over the remaining useful lives of 20 years and 8 years, respectively. The trade name has been determined to have an indefinite life. Goodwill and intangibles resulting from the acquisition are not expected to be deductible for income tax purposes.

Note 3. Income Taxes

The Company files income tax returns in U.S. federal and state jurisdictions as well as various foreign jurisdictions. As of June 30, 2015, the Company had unrecognized tax benefits, defined as the aggregate tax effect of differences between tax return positions and the benefits recognized in the Company's financial statements, of \$55.5 million (\$39.1 million, net of federal benefit). If recognized, these tax benefits would reduce income tax expense and the effective tax rate. Included in this amount is \$8.7 million of interest and penalties, which the Company records in income tax expense. During the nine months ended June 30, 2015, unrecognized tax benefits increased by \$4.9 million. During the next 12 months, it is reasonably possible that state tax audit resolutions and the expiration of statutes of limitations could result in a reduction of unrecognized tax benefits by approximately \$6.7 million.

In March 2013, the Company issued Warrants (as defined in Note 6) in connection with various agreements and arrangements with Walgreens Boots Alliance, Inc. (WBA), as successor in interest to Walgreen Co. (Walgreens) and Alliance Boots GmbH (Alliance Boots). As of the date of issuance, the Warrants were valued at \$242.4 million, which approximates the amount that will be deductible for income tax purposes. The fair value of the Warrants as of June 30, 2015 was \$2,421.5 million. The excess of the fair value of the Warrants over the initial value is not tax deductible. As a result, in periods where the fair value of the Warrants exceeds the initial value, the

Company's effective income tax rate will be higher than its normal historical rate.

Note 4. Goodwill and Other Intangible Assets

Following is a summary of the changes in the carrying value of goodwill, by reportable segment, for the nine months ended June 30, 2015 (in thousands):

	Pharmaceutical Distribution		Other		Total
Goodwill at September 30, 2014	\$	2,400,926	\$	547,576	\$ 2,948,502
Goodwill recognized in connection with acquisitions		17,048		1,157,442	1,174,490
Goodwill disposed in connection with divestiture		(3,605)			(3,605)
Foreign currency translation				(2,582)	(2,582)
Goodwill at June 30, 2015	\$	2,414,369	\$	1,702,436	\$ 4,116,805

Following is a summary of other intangible assets (in thousands):

	June 30, 2015			September 30, 2014		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Indefinite-lived intangibles - trade names	\$ 685,085	\$	\$ 685,085	\$ 343,707	\$	\$ 343,707
Finite-lived intangibles:						
Customer relationships	1,409,631	(128,333)	1,281,298	268,208	(98,412)	169,796
Other	78,181	(45,870)	32,311	71,114	(51,375)	19,739
Total other intangible assets	\$ 2,172,897	\$ (174,203)	\$ 1,998,694	\$ 683,029	\$ (149,787)	\$ 533,242

Amortization expense for finite-lived intangible assets was \$36.2 million and \$19.6 million in the nine months ended June 30, 2015 and 2014, respectively. Amortization expense for finite-lived intangible assets is estimated to be \$56.4 million in fiscal 2015, \$80.5 million in fiscal 2016, \$77.4 million in fiscal 2017, \$75.1 million in fiscal 2018, \$74.4 million in fiscal 2019, and \$986.1 million thereafter.

Total debt	\$ 3,750,151	\$ 1,995,632
Less current portion	7,370	
Total, net of current portion	\$ 3,742,781	\$ 1,995,632

The Company has a \$1.4 billion multi-currency senior unsecured revolving credit facility, which expires in August 2019 (the Multi-Currency Revolving Credit Facility), with a syndicate of lenders. Interest on borrowings under the Multi-Currency Revolving Credit Facility accrues at specified rates based on the Company's debt rating and ranges from 69 basis points to 110 basis points over LIBOR/EURIBOR/Bankers Acceptance Stamping Fee, as applicable (90 basis points over LIBOR/EURIBOR/Bankers Acceptance Stamping Fee at June 30, 2015). Additionally, interest on borrowings denominated in Canadian dollars may accrue at the greater of the Canadian prime rate or the CDOR rate. The Company pays facility fees to maintain the availability under the Multi-Currency Revolving Credit Facility at specified rates based on its debt rating, ranging from 6 basis points to 15 basis points, annually, of the total commitment (10 basis points at June 30, 2015). The Company may choose to repay or reduce its commitments under the Multi-Currency Revolving Credit Facility at any time. The Multi-Currency Revolving Credit Facility contains covenants, including compliance with a financial leverage ratio test, as well as others that impose limitations on, among other things, indebtedness of excluded subsidiaries and asset sales, with which the Company was compliant as of June 30, 2015.

The Company has a commercial paper program whereby it may from time to time issue short-term promissory notes in an aggregate amount of up to \$1.4 billion at any one time. Amounts available under the program may be borrowed, repaid, and re-borrowed from time to time. The maturities on the notes will vary, but may not exceed 365 days from the date of issuance. The notes will bear interest rates, if interest bearing, or will be sold at a discount from their face amounts. The commercial paper program does not increase the Company's borrowing capacity as it is

Edgar Filing: AMERISOURCEBERGEN CORP - Form 10-Q

fully backed by the Company's Multi-Currency Revolving Credit Facility. There were no borrowings outstanding under the commercial paper program at June 30, 2015.

The Company has a \$950 million receivables securitization facility (Receivables Securitization Facility), which was scheduled to expire in June 2016. In December 2014, the Company entered into an amendment to the Receivables Securitization Facility to extend the maturity date to December 2017. The Company has available to it an accordion feature whereby the commitment on the Receivables Securitization Facility may be increased by up to \$250 million, subject to lender approval, for seasonal needs during the December and March quarters. Interest rates are based on prevailing market rates for short-term commercial paper or LIBOR plus a program fee of 75 basis points. The Company pays a customary unused fee at prevailing market rates, annually, to maintain the availability under the Receivables Securitization Facility. The Receivables Securitization Facility contains similar covenants to the Multi-Currency Revolving Credit Facility, with which the Company was compliant as of June 30, 2015.

Table of Contents

AMERISOURCEBERGEN CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

The Company has an uncommitted, unsecured line of credit available to it pursuant to a revolving credit note (**Revolving Credit Note**). The Revolving Credit Note provides the Company with the ability to request short-term unsecured revolving credit loans from time to time in a principal amount not to exceed \$75 million. The Revolving Credit Note may be decreased or terminated by the bank or the Company at any time without prior notice. MWI also has an uncommitted U.K. overdraft facility (**Overdraft Facility**), which allows it to borrow up to £20 million to fund short term normal trading cycle fluctuations. The Overdraft Facility expires in November 2016.

In February 2015, the Company entered into a \$1.0 billion term loan credit agreement (**Term Loan**), which matures in 2020. The Term Loan is subject to quarterly principal payments equal to (1) 1.25% of the aggregate principal amount of the Term Loan beginning with the first quarterly principal payment in June 2015 to and including March 2018, and (2) thereafter, 2.50% of the aggregate principal amount of the Term Loan, with the remaining balance of the Term Loan due upon maturity. In June 2015, the Company elected to make an early principal payment of \$250 million on the Term Loan, \$12.5 million of which was scheduled to be paid in June 2015. The payment was applied in direct order to scheduled principal payments, and as a result, the Company's next required quarterly principal payment is due in June 2019. The Term Loan will bear interest at a rate equal either to a base rate plus a margin or a LIBOR rate plus a margin. The margin will be based on the public debt ratings of the Company and ranges from 75 basis points to 125 basis points over a LIBOR rate (100 basis points at June 30, 2015) and 0 to 25 basis points over a base rate. The Term Loan contains similar covenants to the Multi-Currency Revolving Credit Facility, with which the Company was compliant as of June 30, 2015.

In February 2015, the Company issued \$500 million of 3.25% senior notes due March 1, 2025 (the **2025 Notes**) and \$500 million of 4.25% senior notes due March 1, 2045 (the **2045 Notes**). The 2025 Notes were sold at 99.47% of the principal amount and have an effective yield of 3.31%. The 2045 Notes were sold at 99.81% of the principal amount and have an effective yield of 4.26%. The interest on the 2025 and 2045 Notes is payable semi-annually in arrears, commencing on September 1, 2015. The 2025 and 2045 Notes rank pari passu to the Multi-Currency Revolving Credit Facility, the Revolving Credit Note, the Overdraft Facility, the \$600 million 1.15% senior notes due in 2017, the \$400 million 4.875% senior notes due in 2019, the \$500 million 3.50% senior notes due in 2021, and the \$500 million 3.40% senior notes due in 2024.

The Company used the proceeds from Term Loan, the 2025 Notes and the 2045 Notes to finance a portion of the \$2.6 billion purchase price of MWI.

Note 6. Stockholders' Equity and Earnings per Share

In November 2014, the Company's board of directors increased the quarterly cash dividend by 23% from \$0.235 per share to \$0.29 per share.

Edgar Filing: AMERISOURCEBERGEN CORP - Form 10-Q

In August 2013, the Company's board of directors authorized a program allowing the Company to purchase up to \$750 million of its outstanding shares of common stock, subject to market conditions. During the nine months ended June 30, 2015, the Company purchased 2.9 million shares of its common stock for a total of \$260.2 million under this program, which included \$33.6 million of purchases that cash settled in July 2015 and excluded \$18.0 million of fiscal 2014 purchases that cash settled in October 2014. The Company had \$315.1 million of availability remaining under this share repurchase program as of June 30, 2015.

In March 2013, the Company and WBA entered into various agreements and arrangements pursuant to which WBA was granted the right to purchase a minority equity position in the Company, beginning with the right, but not the obligation, to purchase up to 19,859,795 shares of the Company's common stock (approximately 7% of the Company's common stock, on a fully diluted basis as of the date of issuance, assuming the exercise in full of the Warrants, as defined below) in open market transactions. In connection with these arrangements, Walgreens Pharmacy Strategies, LLC, a wholly owned subsidiary of WBA, was issued (a) a warrant to purchase up to 11,348,456 shares of the Company's common stock at an exercise price of \$51.50 per share exercisable during a six month period beginning in March 2016, and (b) a warrant to purchase up to 11,348,456 shares of the Company's

Table of Contents

AMERISOURCEBERGEN CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

common stock at an exercise price of \$52.50 per share exercisable during a six-month period beginning in March 2017 and Alliance Boots Luxembourg S.à.r.l., also a wholly owned subsidiary of WBA, was issued (a) a warrant to purchase up to 11,348,456 shares of the Company's common stock at an exercise price of \$51.50 per share exercisable during a six-month period beginning in March 2016 and (b) a warrant to purchase up to 11,348,456 shares of the Company's common stock at an exercise price of \$52.50 per share exercisable during a six-month period beginning in March 2017 (collectively, the Warrants).

The Company valued these Warrants as of March 18, 2013 (date of issuance) and revised the valuation each subsequent quarter. As of June 30, 2015 the Warrants with an exercise price of \$51.50 were valued at \$54.14 per share and the Warrants with an exercise price of \$52.50 were valued at \$52.55 per share. In total, the Warrants were valued at \$2,421.5 million as of June 30, 2015. Refer to Critical Accounting Policies and Estimates Warrants in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2014 for a more detailed description of the accounting for the Warrants.

The Company has taken steps to mitigate the potentially dilutive effect that the exercise of the Warrants could have by hedging a portion of its future obligation to deliver common stock with a financial institution and repurchasing additional shares of its common stock for the Company's own account over time. In June 2013, the Company commenced its hedging strategy by entering into a contract with a financial institution pursuant to which it has executed a series of issuer capped call option transactions (Capped Calls). The Capped Calls give the Company the right to buy shares of its common stock subject to the Warrants at specified prices at maturity, should the Warrants be exercised in 2016 and 2017 and were initially intended to cover approximately 60% of the shares subject to the Warrants at the time the Company entered into the transactions. If the Warrants are exercised, the Company will use a majority of the proceeds to repurchase its shares under the Capped Calls. The Capped Calls are subject to a cap price. If the Company's share price exceeds the cap price in the Capped Calls at the time the Warrants are exercised, the number of shares that will be delivered to the Company under the Capped Calls will be reduced, and accordingly, will cover less than 60% of the shares of common stock subject to the Warrants. This hedge transaction was completed in January 2014, and included the purchase of Capped Calls on a total of 27.2 million shares of the Company's common stock for a total premium of \$368.7 million.

Based upon the Company's recent share price, the number of shares of common stock the Company expects to receive under the Capped Calls at maturity has been reduced. Therefore, the Company amended certain of the Capped Calls to increase their cap price to continue to address the potentially dilutive effect of the Warrants. The Company paid a premium of \$100.0 million in January 2015 to increase the cap price on certain of the Capped Calls subject to the warrants that become exercisable in 2016. The Capped Calls permit the Company to acquire shares of its common stock at strike prices of \$51.50 and \$52.50 and have expiration dates ranging from February 2016 through October 2017. The Capped Calls permit net share settlement, which is limited by caps on the market price of the Company's common stock. The Company has accounted for the Capped Calls as equity contracts and therefore, the above premiums were recorded as a reduction to paid-in capital.

Edgar Filing: AMERISOURCEBERGEN CORP - Form 10-Q

In May 2014, the Company's board of directors authorized a special program allowing the Company to purchase up to \$650 million of its outstanding shares of common stock, subject to market conditions, to further mitigate the potentially dilutive effect of the Warrants and supplements the Company's previously executed warrant hedging strategy. During the nine months ended June 30, 2015, the Company purchased 4.3 million shares (1.6 million shares under the Call Options, as defined below) of its common stock for a total of \$398.0 million under this program, which excluded \$18.0 million of fiscal 2014 purchases that cash settled in October 2014, to complete its authorization under this program.

In March 2015, the Company supplemented its hedging strategy by entering into a contract with a financial institution pursuant to which it has executed a series of issuer call options (Call Options). The Call Options give the Company the right to buy shares of its common stock subject to the Warrants at specified prices between April 2015 and October 2015. In total, the Company purchased Call Options on six million shares of its common stock for a total premium of \$80.0 million. The Company has accounted for the Call Options as equity contracts and therefore, the above premiums were recorded as a reduction to paid-in capital.

Table of Contents**AMERISOURCEBERGEN CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(UNAUDITED)**

In April 2015, the Company's board of directors authorized a new special share repurchase program allowing it to repurchase up to \$1.0 billion in shares of its common stock, subject to market conditions, to further mitigate the potentially dilutive effect of the Warrants as part of its warrant hedging strategy. During the nine months ended June 30, 2015, the Company purchased 1.6 million shares (1.4 million under the Call Options) of its common stock for a total of \$153.9 million under this program, which included \$14.3 million of purchases that cash settled in July 2015. The Company has \$846.1 million of availability remaining under this special share repurchase program as of June 30, 2015. Availability under the new special share repurchase program is reduced by share repurchases, if any, of its common stock on the open market under the special program, as well as share repurchases due to the Company's exercise of Call Options and/or Capped Calls.

Based on the closing stock price of the Company's common stock on June 30, 2015, the Capped Calls associated with the warrants exercisable in 2016 would have covered approximately 49% of the shares subject to the warrants and the Capped Calls associated with the warrants exercisable in 2017 would have covered approximately 45% of the shares subject to the warrants. Adding the shares repurchased through June 30, 2015 under the special share repurchase programs, the Company would have covered approximately 90% of the warrants exercisable in 2016.

Basic earnings per share is computed on the basis of the weighted average number of shares of common stock outstanding during the periods presented. Diluted earnings per share is computed on the basis of the weighted average number of shares of common stock outstanding during the periods presented plus the dilutive effect of stock options, restricted stock, restricted stock units, and the Warrants.

(in thousands)	Three months ended June 30,		Nine months ended June 30,	
	2015	2014	2015	2014
Weighted average common shares outstanding - basic	219,359	225,727	219,689	228,477
Dilutive effect of stock options, restricted stock, and restricted stock units	4,878			4,834
Dilutive effect of Warrants	15,999			2,221
Weighted average common shares outstanding - diluted	240,236	225,727	219,689	235,532

There were no potentially dilutive stock options, restricted stock, restricted stock units, or Warrants that were anti-dilutive for the three months ended June 30, 2015. The potentially dilutive stock options, restricted stock, restricted stock units, and Warrants that were antidilutive for the nine months ended June 30, 2015 were 17.6 million. The potentially dilutive stock options, restricted stock, restricted stock units, and Warrants that were antidilutive were 9.9 million and 2.0 million for the three and nine months ended June 30, 2014, respectively.

Note 7. Legal Matters and Contingencies

In the ordinary course of its business, the Company becomes involved in lawsuits, administrative proceedings, government subpoenas, and government investigations, including antitrust, commercial, environmental, product liability, intellectual property, regulatory, employment discrimination, and other matters. Significant damages or penalties may be sought from the Company in some matters, and some matters may require years for the Company to resolve. The Company establishes reserves based on its periodic assessment of estimates of probable losses. There can be no assurance that an adverse resolution of one or more matters during any subsequent reporting period will not have a material adverse effect on the Company's results of operations for that period or on the Company's financial condition.

(UNAUDITED)

Qui Tam Matters

The qui tam provisions of the federal civil False Claims Act and various state and local civil False Claims Acts permit a private person, known as a relator or whistleblower, to file civil actions under these statutes on behalf of the federal, state and local governments. Such cases may involve allegations around the marketing, sale and/or purchase of pharmaceutical products. Qui tam complaints are initially filed by the relator under seal (or on a confidential basis) and the filing of the complaint imposes obligations on government authorities to investigate the allegations in the complaint and to determine whether or not to intervene in the action. Qui tam complaints remain sealed until the court in which the case was filed orders otherwise.

The Company has learned that there are filings in one or more federal district courts, including a qui tam complaint filed by one of its former employees, that are under seal and may involve allegations against the Company (and/or subsidiaries or businesses of the Company, including its group purchasing organization for oncologists and its oncology distribution business) relating to its distribution of certain pharmaceutical products to providers. The Company and AmerisourceBergen Specialty Group (ABSG) have also received subpoenas from the United States Attorney's Office for the Eastern District of New York (USAO) requesting production of documents and information relating to ABSG's oncology distribution center and former pharmacy in Dothan, Alabama, its group purchasing organization for oncologists, and intercompany transfers of certain oncology products, which the Company believes could be related to one or more of the qui tam actions that remain under seal. The Company is in the process of responding to the subpoenas. The Company cannot predict the outcome of any pending action in which any AmerisourceBergen entity is or may become a defendant.

Subpoenas and Investigations

In fiscal 2012, the Company's subsidiary, AmerisourceBergen Drug Corporation (ABDC), received a subpoena from the United States Attorney's Office in New Jersey (the USAO) in connection with a grand jury proceeding requesting documents concerning ABDC's program for controlling and monitoring diversion of controlled substances into channels other than for legitimate medical, scientific, and industrial purposes. ABDC also received a subpoena from the Drug Enforcement Administration (DEA) in connection with the matter. In addition to requesting information on ABDC's diversion control program generally, the subpoenas also request additional information related to electronically stored information and documents concerning specific customers' purchases of controlled substances. Since fiscal 2012, ABDC has received a number of subpoenas from both the USAO and the DEA requesting additional information, including for grand jury testimony and related documents concerning DEA audits. In fiscal 2013 and in 2014, the Company or ABDC has also received similar subpoenas from the United States Attorney's Office in the District of Kansas and the United States Attorney's Office in the Northern District of Ohio in connection with grand jury proceedings requesting documents concerning ABDC's program for controlling and monitoring diversion of controlled substances into channels other than for legitimate medical, scientific and industrial purposes. As in the New Jersey matter described above, in addition to requesting information on ABDC's diversion control program generally, the subpoenas also request documents concerning specific customers' purchases of controlled substances. The Company is in the process of responding to the subpoenas and requests for information. The Company cannot predict the outcome of these matters.

State Proceedings

On June 26, 2012, the Attorney General of the State of West Virginia (West Virginia) filed a complaint in the Circuit Court of Boone County, West Virginia, against a number of pharmaceutical wholesale distributors, including the Company s subsidiary, ABDC, alleging, among other things, that the distributors failed to provide effective controls and procedures to guard against diversion of controlled substances for illegitimate purposes in West Virginia. The complaint also alleges that the distributors acted negligently by distributing controlled substances to pharmacies that serve individuals who abuse prescription pain medication and were unjustly enriched by such conduct, violated consumer credit and protection laws, created a public nuisance, and violated state antitrust laws in connection with the distribution of controlled substances. West Virginia is seeking injunctive relief to enjoin alleged violations of state regulations requiring suspicious order monitoring and reporting and to require defendants to fund a medical monitoring treatment program. The complaint also seeks a jury trial to determine any losses and damages sustained by West Virginia as a result of the defendants alleged conduct. On January 2, 2014, West Virginia filed an Amended Complaint, which removed the

Table of Contents

AMERISOURCEBERGEN CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

claims for unjust enrichment, medical monitoring and antitrust violations and named two additional plaintiffs, the West Virginia Department of Military Affairs and Public Safety and the West Virginia Department of Health and Human Resources (together with West Virginia, Plaintiffs). On January 13, 2015, Plaintiffs filed a Second Amended Complaint under seal, which reasserted an unjust enrichment claim. Plaintiffs also filed an accompanying motion to modify the protective order so that the Second Amended Complaint may be unsealed and served on all defendants. On April 6, 2015, ABDC filed a renewed motion to dismiss and to strike the Second Amended Complaint. A hearing on this motion was held on June 1, 2015. Pursuant to the Court's order at that hearing, ABDC filed a proposed order relating to its renewed motion to dismiss on July 7, 2015 and is awaiting the Court's ruling. The Company cannot predict the outcome of this matter.

On March 10, 2015, the County of Fulton, Georgia (County), through its County Attorney R. David Ware, filed a complaint in the Superior Court for Fulton County, Georgia, against a number of pharmaceutical wholesalers, including the Company's subsidiary ABDC. The complaint alleges that ABDC and other defendants failed to maintain effective controls against the diversion of controlled substances, failed to maintain records, and failed to report suspicious orders in violation of the Georgia Controlled Substances Act and the Georgia Pharmacy Practice Act. The complaint also alleges that the defendants acted negligently in the marketing, promotion, and distribution of controlled substances by failing to guard against misconduct by physicians, pharmacists, and other parties who diverted controlled substances for illegitimate users. The complaint further asserts that defendants were unjustly enriched by such conduct and created a public nuisance. The County seeks injunctive relief and a trial by jury to determine damages. The defendants filed a Notice of Removal on April 14, 2015 and filed a motion to dismiss on April 21, 2015. On May 15, 2015, the County filed a Voluntary Dismissal Without Prejudice and the Court dismissed the case without prejudice on May 18, 2015.

Note 8. Litigation Settlements

Antitrust Settlements

Numerous class action lawsuits have been filed against certain brand pharmaceutical manufacturers alleging that the manufacturer, by itself or in concert with others, took improper actions to delay or prevent generic drugs from entering the market. The Company has not been named a plaintiff in any of these class actions, but has been a member of the direct purchasers' class (i.e., those purchasers who purchase directly from these pharmaceutical manufacturers). None of the class actions have gone to trial, but some have settled in the past with the Company receiving proceeds from the settlement funds. During the three and nine months ended June 30, 2015, the Company recognized gains of \$43.6 million and \$65.1 million, respectively, relating to the above-mentioned class action lawsuits. During the three and nine months ended June 30, 2014, the Company recognized gains of \$2.5 million and \$24.4 million, respectively, relating to the above-mentioned class action lawsuits. These gains, which are net of attorney fees and estimated payments due to other parties, were recorded as reductions to cost of goods sold in the Company's consolidated statements of operations.

Note 9. Fair Value of Financial Instruments

The recorded amounts of the Company's cash and cash equivalents, accounts receivable, and accounts payable at June 30, 2015 and September 30, 2014 approximate fair value based upon the relatively short-term nature of these financial instruments. Within cash and cash equivalents, the Company had \$600.0 million and \$400.0 million of investments in money market accounts as of June 30, 2015 and September 30, 2014, respectively. The fair values of the money market accounts were based on unadjusted quoted prices in active markets for identical assets, otherwise known as Level 1 inputs. The recorded amount of long-term debt and the corresponding fair value as of June 30, 2015 were \$3,742.8 million and \$3,734.3 million, respectively. The recorded amount of long-term debt and the corresponding fair value as of September 30, 2014 were \$1,995.6 million and \$2,056.6 million, respectively. The fair values of debt were determined based on quoted market prices, otherwise known as Level 2 inputs.

Note 10. Business Segment Information

The Company is organized based upon the products and services it provides to its customers. The Company's operations are comprised of the Pharmaceutical Distribution reportable segment and Other. The Pharmaceutical Distribution reportable segment consists of the AmerisourceBergen Drug Corporation (ABDC) and AmerisourceBergen Specialty Group (ABSG) operating segments. Other consists of the AmerisourceBergen Consulting Services (ABCS), World Courier Group, Inc. (World Courier), and MWI Veterinary Supply, Inc. (MWI) operating segments.

The following tables illustrate reportable segment information for the three and nine months ended June 30, 2015 and 2014 (in thousands):

	Revenue			
	Three months ended June 30,		Nine months ended June 30,	
	2015	2014	2015	2014
Pharmaceutical Distribution	\$ 32,758,828	\$ 29,812,837	\$ 97,504,075	\$ 86,367,923
Other	1,532,907	620,275	3,214,977	1,796,910
Intersegment eliminations	(58,179)	(84,958)	(227,627)	(184,414)
Revenue	\$ 34,233,556	\$ 30,348,154	\$ 100,491,425	\$ 87,980,419

Intersegment eliminations primarily represent the elimination of certain ABCS sales to the Pharmaceutical Distribution reportable segment.

	Segment Operating Income

Warrant expense	14,900	(145,040)	(1,109,211)	(267,000)
Employee severance, litigation and other	(2,625)	(1,142)	(30,999)	(7,411)
Operating income (loss)	332,565	110,877	(120,081)	571,621
Other (income) loss	(1,534)	(1,312)	11,185	(5,692)
Interest expense, net	29,793	20,903	70,081	59,209
Loss on early retirement of debt		32,954		32,954
Income (loss) from continuing operations before income taxes	\$ 304,306	\$ 58,332	\$ (201,347)	\$ 485,150

Segment operating income is evaluated by the chief operating decision maker of the Company before gains on antitrust litigation settlements; LIFO expense; acquisition related intangibles amortization; Warrant expense; employee severance, litigation and other; other (income) loss; interest expense, net; and loss on early retirement of debt. All corporate office expenses are allocated to each operating segment.

Table of Contents

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following discussion should be read in conjunction with the Consolidated Financial Statements and notes thereto contained herein and in conjunction with the financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2014.

We are one of the largest global pharmaceutical sourcing and distribution services companies, helping both healthcare providers and pharmaceutical and biotech manufacturers improve patient access to products and enhance patient care. We deliver innovative programs and services designed to increase the effectiveness and efficiency of the pharmaceutical supply chain in both human and animal health. We are organized based upon the products and services we provide to our customers. Our operations are comprised of the Pharmaceutical Distribution reportable segment and Other.

Pharmaceutical Distribution Segment

The Pharmaceutical Distribution reportable segment is comprised of two operating segments, which include the operations of AmerisourceBergen Drug Corporation (ABDC) and AmerisourceBergen Specialty Group (ABSG). Servicing healthcare providers in the pharmaceutical supply channel, the Pharmaceutical Distribution segment's operations provide drug distribution and related services designed to reduce healthcare costs and improve patient outcomes.

ABDC distributes a comprehensive offering of brand-name and generic pharmaceuticals (including specialty pharmaceutical products), over-the-counter healthcare products, home healthcare supplies and equipment, and related services to a wide variety of healthcare providers, including acute care hospitals and health systems, independent and chain retail pharmacies, mail order pharmacies, medical clinics, long-term care and other alternate site pharmacies, and other customers. ABDC also provides pharmacy management, staffing and other consulting services, and supply management software to a variety of retail and institutional healthcare providers. Additionally, ABDC delivers packaging solutions to institutional and retail healthcare providers.

ABSG, through a number of operating businesses, provides pharmaceutical distribution and other services to physicians who specialize in a variety of disease states, especially oncology, and to other healthcare providers, including hospitals and dialysis clinics. ABSG also distributes plasma and other blood products, injectible pharmaceuticals, vaccines, and other specialty products. Additionally, ABSG provides third party logistics and outcomes research, and other services for biotechnology and other pharmaceutical manufacturers.

Our use of the terms specialty and specialty pharmaceutical products refers to drugs used to treat complex diseases, such as cancer, diabetes and multiple sclerosis. Specialty pharmaceutical products are part of complex treatment regimens for serious conditions and diseases that generally require ongoing clinical monitoring. We believe the terms specialty and specialty pharmaceutical products are used consistently by industry participants and our competitors. However, we cannot be certain that other distributors of specialty products define these and other similar terms

in exactly the same manner as we do.

Both ABDC and ABSG distribute specialty drugs to their customers, with the principal difference between these two operating segments being that ABSG operates distribution facilities that focus primarily on complex disease treatment regimens. Therefore, a product distributed from one of ABSG's distribution facilities results in revenue reported under ABSG, and a product distributed from one of ABDC's distribution centers results in revenue reported under ABDC. Essentially all of ABSG sales consist of specialty pharmaceutical products. ABDC sales of specialty pharmaceutical products have historically been a relatively small component of its overall revenue.

Other

Other consists of the AmerisourceBergen Consulting Services (ABCS) operating segment, the World Courier Group, Inc. (World Courier) operating segment, and the MWI Veterinary Supply, Inc. (MWI) operating segment. The results of operations of these operating segments are not significant enough to require separate reportable segment disclosure, and therefore, have been included in Other for the purpose of our reportable segment presentation.

Table of Contents

ABCS, through a number of operating businesses, provides commercialization support services including reimbursement support programs, outcomes research, contract field staffing, patient assistance and co-pay assistance programs, adherence programs, risk mitigation services, and other market access programs to pharmaceutical and biotechnology manufacturers. World Courier, which operates in over 50 countries, is a leading global specialty transportation and logistics provider for the biopharmaceutical industry. MWI is a leading animal health distribution company in the United States and in the United Kingdom. MWI sells pharmaceuticals, vaccines, parasiticides, diagnostics, micro feed ingredients, and various other products to customers in both the companion animal and production animal markets.

Executive Summary

This executive summary provides highlights from the results of operations that follows:

- Revenue increased 12.8% and 14.2% from the prior year quarter and nine month period, respectively, as a result of the gradual phase in of generic drug distribution from ABDC to Walgreens Boots Alliance, Inc. (WBA) in fiscal 2014, increased sales of brand and generic products, and the strong growth of ABSG and ABCS. Additionally, the acquisition of MWI contributed to our revenue growth in the current year quarter and nine month period;
- Pharmaceutical Distribution gross profit increased 7.9% and 18.5% from the prior year quarter and nine month period, respectively, as the result of our strong revenue growth in brand and generic pharmaceuticals in ABDC and ABSG and the incremental income from ABDC s participation in the WBA procurement joint venture. Gross profit growth in the current year quarter was adversely impacted by the renewal of our contract with the Department of Defense (DOD) at less favorable terms and lower generic price appreciation;
- Total gross profit was impacted by LIFO expense, which was \$158.7 million and \$453.9 million in the current year quarter and nine month period, respectively, in comparison to \$133.2 million and \$293.6 million in the prior year quarter and nine month period, respectively. The increase in LIFO expense was primarily due to higher brand inflation and lower generic drug deflation resulting from the generics pricing environment;
- Distribution, selling, and administrative expenses increased 29.7% and 20.7% in the quarter and nine month period, respectively, to support our revenue growth. Additionally, these expenses were greater in the current year quarter and nine month period due to the addition of MWI;
- Total operating expenses were impacted by Warrants. Warrant income was \$14.9 million in the current year quarter compared to Warrant expense of \$145.0 million in the prior year quarter. Warrant expense decreased significantly from the prior year quarter primarily due to the decline in our stock price during the quarter ended June 30, 2015. Warrant expense was \$1,109.2 million in the current year nine month period compared to Warrant

expense of \$267.0 million in the prior year nine month period. Warrant expense increased significantly from the prior year nine month period primarily due to the increase in our stock price since June 30, 2014;

- Total segment operating income increased by 15.7% and 27.4% compared to the prior year quarter and nine month period, respectively, primarily due to the increase in Pharmaceutical Distribution's gross profit and the addition of MWI; and
- Net income and diluted earnings per share in the quarter were impacted by the significant LIFO expense. Net loss and diluted loss per share in the nine month period were impacted by the significant LIFO and Warrant expense.

Table of Contents*Results of Operations**Revenue*

(dollars in thousands)	Three months ended June 30,			Nine months ended June 30,		
	2015	2014	Change	2015	2014	Change
Pharmaceutical Distribution	\$ 32,758,828	\$ 29,812,837	9.9%	\$ 97,504,075	\$ 86,367,923	12.9%
Other	1,532,907	620,275	147.1%	3,214,977	1,796,910	78.9%
Intersegment eliminations	(58,179)	(84,958)	(31.5)%	(227,627)	(184,414)	23.4%
Revenue	\$ 34,233,556	\$ 30,348,154	12.8%	\$ 100,491,425	\$ 87,980,419	14.2%

Revenue increased by 12.8% and 14.2% from the prior year quarter and nine month period, respectively. The increases in revenue were primarily due to increased sales to WBA of \$1.8 billion and \$6.0 billion from the prior year quarter and nine month period, respectively. Fiscal 2014 revenue included the gradual phase in of the WBA generics business beginning in January 2014. Excluding WBA, our revenue increased by 7% from the prior year quarter and nine month period. See discussions below under *Pharmaceutical Distribution* and *Other* for additional commentary regarding our revenue growth.

We currently expect our revenue in fiscal 2015 to increase in the range of 12% to 13%. Our expected growth rate is driven in part by a full year of generic drug distribution to WBA, which was phased in during fiscal 2014. Our future revenue growth will continue to be affected by various factors such as industry growth trends, including the introduction of new innovative brand therapies, the likely increase in the number of generic drugs that will be available over the next few years as a result of the expiration of certain drug patents held by brand-name pharmaceutical manufacturers, general economic conditions in the United States, competition within the industry, customer consolidation, changes in pharmaceutical manufacturer pricing and distribution policies and practices, increased downward pressure on government and other third party reimbursement rates to our customers, and changes in Federal government rules and regulations.

Pharmaceutical Distribution Segment

The Pharmaceutical Distribution segment grew its revenue by 9.9% and 12.9% from the prior year quarter and nine month period, respectively. Intra-segment revenues between ABDC and ABSG have been eliminated in the presentation of total Pharmaceutical Distribution revenue. Intra-segment revenues primarily consisted of ABSG sales directly to ABDC customer sites or ABSG sales to ABDC's facilities. Intra-segment revenues were \$1.6 billion and \$1.1 billion in the quarters ended June 30, 2015 and 2014, respectively, and \$4.7 billion and \$3.0 billion in the nine months ended June 30, 2015 and 2014, respectively.

ABDC's revenue of \$28.2 billion and \$84.4 billion in the quarter and nine months ended June 30, 2015 increased 9.0% and 12.5%, respectively, from the prior year periods (before intra-segment eliminations). The increase in ABDC's revenue was primarily due to increased sales to WBA of \$1.8 billion and \$6.0 billion in the quarter and nine months ended June 30, 2015 (as noted above); increased sales of products that treat Hepatitis C; and overall market growth.

ABSG's revenue of \$6.1 billion and \$17.8 billion in the quarter and nine months ended June 30, 2015 increased 22.4% and 24.4%, respectively, from the prior year periods (before intrasegment eliminations). The increase in ABSG's revenue was due to the continued growth in our blood products, vaccine and physician office distribution businesses, the impact of manufacturer shifts of certain infused oncology products from full line distribution to specialty distribution, and growth in oncology product sales (including an increase in sales to community oncologists). Excluding the impact of the manufacturer shifts of certain infused oncology products from full line distribution to specialty distribution, ABSG revenue grew by 13.1% and 15.1% in the quarter and nine months ended June 30, 2015, respectively.

Table of Contents

A portion of ABSG's revenue is generated from the distribution of pharmaceuticals to physicians who specialize in a variety of disease states, especially oncology. Community oncologists and other specialty physicians that administer drugs under Medicare Part B have been impacted by lower reimbursement rates for specialty pharmaceutical drugs. ABSG's business may be adversely impacted in the future by changes in medical guidelines and the Medicare reimbursement rates for certain pharmaceuticals, especially oncology drugs administered by physicians. Since ABSG provides a number of services to or through physicians, any changes affecting this service channel could result in revenue reductions. (Refer to Item 1A. Risk Factors, in our Annual Report on Form 10-K for the fiscal year ended September 30, 2014 for a more detailed description of this business risk.)

A number of our contracts with customers or group purchasing organizations (GPOs) are typically subject to expiration each year. We may lose a significant customer or GPO relationship if any existing contract with such customer or GPO expires without being extended, renewed, or replaced. During the nine months ended June 30, 2015, no significant contracts expired. Over the next twelve months, the only significant contract scheduled to expire is our contract with Kaiser Permanente (Kaiser), which expires in June 2016. Our revenue, results of operations, and cash flows will be negatively impacted if the Kaiser contract is not renewed or the terms of the renewed contract are less favorable than the existing contract.

Other

Revenue in Other increased 147.1% and 78.9% from the prior year quarter and nine month period, respectively, primarily due to the \$810.0 million and \$1.1 billion revenue contribution from MWI for the quarter and nine month period, respectively, and increases in ABCS revenue.

Gross Profit

(dollars in thousands)	Three months ended June 30,			Nine months ended June 30,		
	2015	2014	Change	2015	2014	Change
Pharmaceutical Distribution	\$ 745,866	\$ 691,303	7.9%	\$ 2,347,070	\$ 1,980,711	18.5%
Other	260,741	131,414	98.4%	597,497	398,362	50.0%
Gains on antitrust litigation settlements	43,567	2,524		65,050	24,396	
LIFO expense	(158,710)	(133,237)		(453,878)	(293,647)	
Gross profit	\$ 891,464	\$ 692,004	28.8%	\$ 2,555,739	\$ 2,109,822	21.1%

Gross profit increased 28.8%, or \$199.5 million, and 21.1%, or \$445.9 million, from the prior year quarter and nine month period, respectively. These increases were due to the increase in Pharmaceutical Distribution gross profit, the increase in the gross profit of Other, and larger gains on antitrust litigation settlements and were offset in part by the \$25.5 million and \$160.2 million increase in LIFO expense from the prior year quarter and nine month period, respectively. The increase in LIFO expense was primarily due to higher brand inflation and lower generic drug deflation resulting from the generics pricing environment.

Pharmaceutical Distribution gross profit increased 7.9%, or \$54.6 million, and 18.5%, or \$366.4 million, from the prior year quarter and nine month period, respectively. These increases were due to higher brand and generic sales volume largely attributable to WBA (as noted above). Gross profit also increased due to the growth of our specialty distribution businesses and an increase in income resulting from our participation

in the WBA procurement joint venture. Gross profit growth in the current year quarter was adversely impacted by the renewal of our contract with the DOD at less favorable terms and lower generic price appreciation. As a percentage of revenue, Pharmaceutical Distribution gross profit margin of 2.28% and 2.41% in the quarter and nine months ended June 30, 2015 decreased 4 basis points and increased 12 basis points from the prior year quarter and nine month period, respectively. The decrease in the quarter ended June 30, 2015 was primarily due to the DOD contract renewal and a decrease in generic price appreciation, and the increase in the nine month period ended June 30, 2015 was primarily due to the increase in ABDC and ABSG sales volume and incremental income from our participation in the WBA procurement joint venture.

Table of Contents

Gross profit in Other increased 98.4%, or \$129.3 million, and 50.0%, or \$199.1 million, from the prior year quarter and nine month period, respectively. These increases were primarily due to the contribution of our MWI acquisition, and, to a lesser extent, the increase in ABCS and World Courier's revenue. As a percentage of revenue, gross profit margin in Other of 17.01% in the quarter ended June 30, 2015 decreased from 21.19% in the prior year quarter. As a percentage of revenue, gross profit margin in Other of 18.58% in the nine months ended June 30, 2015 decreased from 22.17% in the prior year nine month period. These decreases were primarily due to the contribution from our MWI acquisition and the increase in ABCS distribution revenue, both of which have a lower gross profit margin in comparison to other businesses within Other.

We recognized gains of \$43.6 million and \$2.5 million from antitrust litigation settlements with pharmaceutical manufacturers during the quarters ended June 30, 2015 and 2014, respectively. We recognized gains of \$65.1 million and \$24.4 million from antitrust litigation settlements with pharmaceutical manufacturers during the nine months ended June 30, 2015 and 2014, respectively. The gains were recorded as reductions to cost of goods sold.

Our cost of goods sold for interim periods includes a last-in, first-out (LIFO) provision that is based on our estimated annual LIFO provision. The annual LIFO provision, which we estimate on a quarterly basis, is affected by expected changes in inventory quantities, product mix, and manufacturer pricing practices, which may be impacted by market and other external influences, many of which are difficult to predict. Changes to any of the above factors can have a material impact to our annual LIFO provision.

Operating Expenses

(dollars in thousands)	Three months ended June 30,			Nine months ended June 30,		
	2015	2014	Change	2015	2014	Change
Distribution, selling and administrative	\$ 502,744	\$ 387,611	29.7%	\$ 1,361,678	\$ 1,128,012	20.7%
Depreciation and amortization	68,430	47,334	44.6%	173,932	135,778	28.1%
Warrants	(14,900)	145,040		1,109,211	267,000	
Employee severance, litigation and other	2,625	1,142		30,999	7,411	
Total operating expenses	\$ 558,899	\$ 581,127		\$ 2,675,820	\$ 1,538,201	

Distribution, selling and administrative expenses increased 29.7%, or \$115.1 million, from the prior year quarter, and increased 20.7%, or \$233.7 million from the prior year nine month period, primarily due to the recent acquisition of MWI. In addition, operating expenses during the current year periods were higher to support the increase in our revenue, including the WBA volume, which was not fully phased in during the prior year periods. More specifically, expenses related to payroll (including incentive compensation), delivery and information technology were higher in the current year periods. As a percentage of revenue, distribution, selling and administrative expenses were 1.47% and 1.36% in the current year quarter and nine month period ended June 30, 2015, respectively, and represents an increase of 19 basis points and 8 basis points, respectively, in comparison to the prior year periods. These increases were primarily due to our acquisition of MWI, which has higher operating expenses as a percentage of revenue in comparison to Pharmaceutical Distribution.

Depreciation expense increased from the prior year periods due to an increase in the amount of capital projects being depreciated. Amortization expense increased from prior year periods primarily due to the amortization of newly acquired intangible assets resulting from the MWI acquisition.

Warrant expense decreased significantly from the prior year quarter primarily due to the decline in our stock price during the quarter ended June 30, 2015. Warrant expense increased significantly from the prior year nine month period primarily due to the increase in our stock price since June 30, 2014. The Warrants were issued in March 2013 in connection with the agreements and

Table of Contents

arrangements that define our strategic relationship with WBA. Warrant expense is largely dependent upon changes in our stock price, therefore, future Warrant expense could fluctuate significantly. (Refer to Critical Accounting Policies and Estimates Warrants in our Annual Report on Form 10-K for the fiscal year ended September 30, 2014 for a more detailed description of the accounting for the Warrants.)

Employee severance, litigation and other for the quarter ended June 30, 2015 included \$2.3 million of deal-related transaction costs and \$0.4 million of employee severance and other costs. Employee severance, litigation and other for the nine months ended June 30, 2015 included \$29.6 million of deal-related transaction costs (primarily related to professional fees with respect to the MWI acquisition) and \$1.4 million of employee severance and other costs. Employee severance, litigation and other for the quarter ended June 30, 2014 included \$1.5 million of employee severance and other costs, offset in part by the net reversal of \$0.4 million of other costs. Employee severance, litigation and other for the nine months ended June 30, 2014 included \$5.3 million of deal-related transaction costs and \$2.1 million of employee severance and other costs.

Operating Income

(dollars in thousands)	Three months ended			Nine months ended						
	2015	June 30,	2014	Change	2015	June 30,	2014	Change		
Pharmaceutical Distribution	\$	377,771	\$	359,795	5.0%	\$	1,256,747	\$	1,019,506	23.3%
Other		77,372		33,678	129.7%		186,688		113,261	64.8%
Total segment operating income		455,143		393,473	15.7%		1,443,435		1,132,767	27.4%
Gains on antitrust litigation settlements		43,567		2,524			65,050		24,396	
LIFO expense		(158,710)		(133,237)			(453,878)		(293,647)	
Acquisition related intangibles amortization		(19,710)		(5,701)			(34,478)		(17,484)	
Warrant expense		14,900		(145,040)			(1,109,211)		(267,000)	
Employee severance, litigation and other		(2,625)		(1,142)			(30,999)		(7,411)	
Operating income (loss)	\$	332,565	\$	110,877		\$	(120,081)	\$	571,621	

Segment operating income is evaluated before gains on antitrust litigation settlements; LIFO expense; acquisition related intangibles amortization; Warrant expense; and employee severance, litigation and other.

Pharmaceutical Distribution operating income increased 5.0%, or \$18.0 million, and 23.3%, or \$237.2 million, from the prior year quarter and nine month period, respectively, due to the increase in gross profit, offset in part by the increase in operating expenses from the prior year quarter and nine month period. As a percentage of revenue, Pharmaceutical Distribution operating income margin decreased 6 basis points from the prior year quarter primarily due to the DOD contract renewal and a decrease in generic price appreciation and increased 11 basis points from the prior year nine month period primarily due to the increase in ABDC and ABSG sales volume and incremental income from our participation in the WBA procurement joint venture.

Edgar Filing: AMERISOURCEBERGEN CORP - Form 10-Q

Operating income in Other increased 129.7%, or \$43.7 million, and 64.8%, or \$73.4 million, from the prior year quarter and nine month period, respectively, primarily as a result of the contribution of our recent MWI acquisition.

Total operating loss for the nine month period ended June 30, 2015 was primarily driven by the significant Warrant expense resulting from the increase in the market share price of our common stock and our LIFO expense.

Interest expense, interest income, and the respective weighted average interest rates in the quarters ended June 30, 2015 and 2014 were as follows (in thousands):

	2015		2014	
	Amount	Weighted Average Interest Rate	Amount	Weighted Average Interest Rate
Interest expense	\$ 30,654	2.78%	\$ 21,125	4.01%
Interest income	(861)	0.16%	(222)	0.28%
Interest expense, net	\$ 29,793		\$ 20,903	

Interest expense, net, increased 42.5%, or \$8.9 million, from the prior year quarter due to an increase of \$2.1 billion in average borrowings primarily due to the February 2015 issuance of our \$500 million 3.25% senior notes, our \$500 million 4.25%

Table of Contents

senior notes, and our variable-rate term loan borrowing to finance a portion of the MWI acquisition. Our average borrowing rate was lower during the current year quarter primarily as a result of the recent financings, which bear interest at lower rates.

Interest expense, interest income, and the respective weighted average interest rates in the nine months ended June 30, 2015 and 2014 were as follows (in thousands):

	2015		2014	
	Amount	Weighted Average Interest Rate	Amount	Weighted Average Interest Rate
Interest expense	\$ 71,919	2.89%	\$ 59,746	4.19%
Interest income	(1,838)	0.17%	(537)	0.37%
Interest expense, net	\$ 70,081		\$ 59,209	

Interest expense, net, increased 18.4%, or \$10.9 million, from the prior year nine month period due to an increase of \$1.2 billion in average borrowings primarily due to the February 2015 issuance of our \$500 million 3.25% senior notes, our \$500 million 4.25% senior notes, and our variable-rate term loan borrowing to finance a portion of the MWI acquisition. Our average borrowing rate was lower during the current year nine month period primarily as a result of the recent financings, which bear interest at lower rates.

During the quarter and nine month period ended June 30, 2014, we recorded a \$33.0 million loss resulting from the early retirement of our \$500 million 5.875% senior notes due in September 2015.

Income tax expense was \$90.1 million and \$297.8 million in the quarter and nine month period ended June 30, 2015, compared to \$71.1 million and \$268.9 million in the prior year quarter and nine month period, respectively, and is determined based on our taxable income. A significant portion of Warrant expense is not tax deductible. As a result, our effective tax rate fluctuates significantly due to quarterly changes in the valuation of the Warrants for financial reporting purposes.

Income from continuing operations was \$214.2 million in the quarter ended June 30, 2015. Loss from continuing operations was \$499.2 million in the nine month period ended June 30, 2015. Diluted earnings per share from continuing operations was \$0.89 in the quarter ended June 30, 2015. Diluted loss per share from continuing operations of \$2.27 in the nine month period ended June 30, 2015 was primarily due to Warrant expense and LIFO expense.

Loss from discontinued operations, net of income taxes, includes the impact of a final purchase price adjustment related to the divestiture of AmerisourceBergen Canada Corporation in the nine months ended June 30, 2014.

Table of Contents*Liquidity and Capital Resources*

The following table illustrates our debt structure at June 30, 2015, including availability under the multi-currency revolving credit facility, the receivables securitization facility, the revolving credit note and the overdraft facility (in thousands):

	Outstanding Balance	Additional Availability
Fixed-Rate Debt:		
\$600,000, 1.15% senior notes due 2017	\$ 599,604	\$
\$400,000, 4.875% senior notes due 2019	398,371	
\$500,000, 3.50% senior notes due 2021	499,550	
\$500,000, 3.40% senior notes due 2024	498,741	
\$500,000, 3.25% senior notes due 2025	497,437	
\$500,000, 4.25% senior notes due 2045	499,078	
Total fixed-rate debt	2,992,781	
Variable-Rate Debt:		
Term loan	750,000	
Multi-currency revolving credit facility due 2019		1,400,000
Receivables securitization facility due 2017		950,000
Revolving credit note		75,000
Overdraft facility (£20,000)	7,370	24,126
Total variable-rate debt	757,370	2,449,126
Total debt	\$ 3,750,151	\$ 2,449,126

Along with our cash balances, our aggregate availability under our multi-currency revolving credit facility, our receivables securitization facility, our revolving credit note, and our overdraft facility provides us sufficient sources of capital to fund our working capital requirements. We have increased seasonal needs related to our inventory build during the December and March quarters that, depending on our cash balance, can require the use of our credit facilities to fund short-term capital needs. Our cash balances in the nine months ended June, 2014 needed to be supplemented by intra-period credit facility borrowings to cover short-term working capital needs, which were higher in the nine months ended June 30, 2014 due to the on-boarding of the WBA business.

We have a \$1.4 billion multi-currency senior unsecured revolving credit facility, which expires in August 2019, (the Multi-Currency Revolving Credit Facility) with a syndicate of lenders. Interest on borrowings under the Multi-Currency Revolving Credit Facility accrues at specified rates based on our debt rating and ranges from 69 basis points to 110 basis points over LIBOR/EURIBOR/Bankers Acceptance Stamping Fee, as applicable (90 basis points over LIBOR / EURIBOR / Bankers Acceptance Stamping Fee at June 30, 2015). Additionally, interest on borrowings denominated in Canadian dollars may accrue at the greater of the Canadian prime rate or the CDOR rate. We pay facility fees to maintain the availability under the Multi-Currency Revolving Credit Facility at specified rates based on our debt rating, ranging from 6 basis points to 15 basis points, annually, of the total commitment (10 basis points at June 30, 2015). We may choose to repay or reduce our commitments under the Multi-Currency Revolving Credit Facility at any time. The Multi-Currency Revolving Credit Facility contains covenants, including compliance with a financial leverage ratio test, as well as others that impose limitations on, among other things, indebtedness of excluded subsidiaries and asset sales, which we are compliant with as of June 30, 2015.

We have a commercial paper program whereby we may from time to time issue short-term promissory notes in an aggregate amount of up to \$1.4 billion at any one time. Amounts available under the program may be borrowed, repaid, and re-borrowed from time to time. The maturities on the notes will vary, but may not exceed 365 days from the date of issuance. The notes will bear interest rates, if interest bearing, or will be

Edgar Filing: AMERISOURCEBERGEN CORP - Form 10-Q

sold at a discount from their face amounts. The commercial paper program does not increase our borrowing capacity as it is fully backed by our Multi-Currency Revolving Credit Facility. There were no borrowings outstanding under our commercial paper program at June 30, 2015.

We have a \$950 million receivables securitization facility (Receivables Securitization Facility), which was scheduled to expire in June 2016. In December 2014, we entered into an amendment to the Receivables Securitization Facility to extend the maturity date to December 2017. We have available to us an accordion feature whereby the commitment on the Receivables Securitization Facility may be increased by up to \$250 million, subject to lender approval, for seasonal needs during the December

Table of Contents

and March quarters. Interest rates are based on prevailing market rates for short-term commercial paper or LIBOR plus a program fee of 75 basis points. We pay a customary unused fee at prevailing market rates, annually, to maintain the availability under the Receivables Securitization Facility. The Receivables Securitization Facility contains similar covenants to the Multi-Currency Revolving Credit Facility, which we are compliant with as of June 30, 2015.

We have an uncommitted, unsecured line of credit available to us pursuant to a revolving credit note (Revolving Credit Note). The Revolving Credit Note provides us with the ability to request short-term unsecured revolving credit loans from time to time in a principal amount not to exceed \$75 million. The Revolving Credit Note may be decreased or terminated by the bank or us at any time without prior notice. MWI also has an uncommitted U.K. overdraft facility (Overdraft Facility), which allows MWI to borrow up to £20 million to fund short term normal trading cycle fluctuations. The Overdraft Facility expires in November 2016.

In February 2015, we entered into a \$1.0 billion term loan credit agreement (Term Loan), which matures in 2020. The Term Loan is subject to quarterly principal payments equal to (1) 1.25% of the aggregate principal amount of the Term Loan beginning with the first quarterly principal payment in June 2015 to and including March 2018, and (2) thereafter, 2.50% of the aggregate principal amount of the Term Loan, with the remaining balance of the Term Loan due upon maturity. In June 2015, we elected to make an early principal payment of \$250 million on the Term Loan, \$12.5 million of which was scheduled to be paid in June 2015. The payment was applied in direct order to scheduled principal payments, and as a result, our next required quarterly principal payment is due in June 2019. The Term Loan will bear interest at a rate equal either to a base rate plus a margin or a LIBOR rate plus a margin. The margin will be based on our public debt ratings and ranges from 75 basis points to 125 basis points over a LIBOR rate (100 basis points at June 30, 2015) and 0 to 25 basis points over a base rate. The Term Loan contains similar covenants to the Multi-Currency Revolving Credit Facility, with which we are compliant with as of June 30, 2015.

We have \$600 million of 1.15% senior notes due May 15, 2017 (the 2017 Notes), \$400 million of 4.875% senior notes due November 15, 2019 (the 2019 Notes), \$500 million of 3.50% senior notes due November 15, 2021 (the 2021 Notes), and \$500 million of 3.40% senior notes due May 15, 2024 (the 2024 Notes). Interest on the 2017 Notes, the 2019 Notes, the 2021 Notes, and the 2024 Notes is payable semiannually in arrears.

In February 2015, we issued \$500 million of 3.25% senior notes due March 1, 2025 (the 2025 Notes) and \$500 million of 4.25% senior notes due March 1, 2045 (the 2045 Notes). The 2025 Notes were sold at 99.47% of the principal amount and have an effective yield of 3.31%. The 2045 Notes were sold at 99.81% of the principal amount and have an effective yield of 4.26%. The interest on the 2025 and 2045 Notes is payable semi-annually in arrears, commencing on September 1, 2015. The 2025 and 2045 Notes rank pari passu to the Multi-Currency Revolving Credit Facility, the Revolving Credit Note, the 2017 Notes, the 2019 Notes, the 2021 Notes, and the 2024 Notes.

Our operating results have generated cash flow, which, together with availability under our debt agreements and credit terms from suppliers, has provided sufficient capital resources to finance working capital and cash operating requirements, and to fund capital expenditures, acquisitions, repayment of debt, the payment of interest on outstanding debt, dividends, repurchases of shares of our common stock, and our hedging strategy (see below for further details).

Our primary ongoing cash requirements will be to finance working capital, fund the repayment of debt, fund the payment of interest on debt, fund repurchases of our common stock, fund the payment of dividends, finance acquisitions, and fund capital expenditures and routine growth and expansion through new business opportunities. Future cash flows from operations and borrowings are expected to be sufficient to fund our ongoing cash requirements.

In August 2013, our board of directors approved a program allowing us to purchase up to \$750 million in shares of our common stock, subject to market conditions. During the fiscal year ended September 30, 2014, we purchased \$174.7 million of our common stock under this share repurchase program. During the nine months ended June 30, 2015, we purchased \$260.2 million of our common stock under this share repurchase program, which included \$33.6 million of purchases that cash settled in July 2015 and excluded \$18.0 million of fiscal 2014 purchases that cash settled in October 2014. As of June 30, 2015, we had \$315.1 million of availability remaining on the \$750 million repurchase program. Excluding purchases under our special share repurchase programs, (see below for further details) we currently expect to purchase \$300 million of our common stock in fiscal 2015, subject to market conditions.

Table of Contents

If WBA exercises its right to purchase our common stock pursuant to the Warrants that we issued to them, the future issuances of shares of our common stock upon exercise of the Warrants will dilute the ownership interests of our then-existing stockholders and could adversely affect the market price of our common stock. We have taken steps to mitigate the potentially dilutive effect that exercise of the Warrants could have by hedging a portion of our future obligation to deliver common stock with a financial institution and repurchasing additional shares of our common stock for our own account over time.

In June 2013, we commenced our hedging strategy by entering into a contract with a financial institution pursuant to which it has executed a series of issuer capped call transactions (Capped Calls). The Capped Calls give us the right to buy shares of our common stock subject to the Warrants at specified prices at maturity, should the Warrants be exercised in 2016 and 2017 and were initially intended to cover approximately 60% of the shares subject to the Warrants at the time we entered into the transactions. If the Warrants are exercised, we will use a majority of the proceeds to repurchase our shares under the Capped Calls. If our share price exceeds the cap price in the Capped Calls at the time the Warrants are exercised, the number of shares that will be delivered to us under the Capped Calls will be reduced, and accordingly, will cover less than 60% of the shares of common stock subject to the Warrants. In addition, if our future share price at the exercise dates is lower than our breakeven share price, then our purchase of the Capped Calls will have been an ineffective use of capital. We completed this hedge transaction in January 2014. In total, under the hedge transaction, we purchased Capped Calls on 27.2 million shares of our common stock for a total premium of \$368.7 million.

Based upon our recent share price, the number of shares of common stock we expect to receive under the Capped Calls at maturity has been reduced. Therefore, we amended certain of the Capped Calls to increase their cap price to continue to address the potentially dilutive effect of the Warrants. We paid a premium of \$100.0 million in January 2015 to increase the cap price on certain of the Capped Calls subject to the warrants that become exercisable in 2016.

In May 2014, our board of directors approved a special share repurchase program allowing us to purchase up to \$650 million in shares of our common stock, subject to market conditions, to further mitigate the potentially dilutive effect of the Warrants and supplements our previously executed warrant hedging strategy. During the nine months ended June 30, 2015, we purchased \$398.0 million under this program, which excluded \$18.0 million of fiscal 2014 purchases that cash settled in October 2014, to complete our authorization under this program.

In March 2015, we supplemented our hedging strategy by entering into a contract with a financial institution pursuant to which it has executed a series of issuer call options (Call Options). The Call Options give us the right to buy shares of our common stock subject to the Warrants at specified prices between April 2015 and October 2015. In total, we purchased Call Options on six million shares of our common stock for a total premium of \$80.0 million.

In April 2015, our board of directors approved a new special share repurchase program allowing us to repurchase up to \$1.0 billion in shares of our common stock, subject to market conditions, to further mitigate the potentially dilutive effect of the Warrants as part of our warrant hedging strategy. During the nine months ended June 30, 2015, we purchased \$153.9 million of our common stock under this program, which included \$14.3 million of purchases that cash settled in July 2015. As of June 30, 2015, we had \$846.1 million of availability remaining on this program. Availability under our new special share repurchase program is reduced by share repurchases, if any, of our common stock on the open market under the special program as well as share repurchases due to the Company's exercise of Call Options and/or Capped Calls.

Based on the closing price of our Common Stock on June 30, 2015, the Capped Calls associated with the warrants exercisable in 2016 would have covered approximately 49% of the shares subject to the warrants and the Capped Calls associated with the warrants exercisable in 2017 would have covered approximately 45% of the shares subject to the warrants. Adding the shares repurchased through June 30, 2015 under the

Edgar Filing: AMERISOURCEBERGEN CORP - Form 10-Q

special share repurchase programs, we would have covered approximately 90% of the warrants exercisable in 2016. Assuming we successfully exercise the remaining three million Call Options between July 2015 and October 2015, we will have covered 100% of the warrants exercisable in 2016 and 49% of the warrants exercisable in 2017. For every five dollar increase in the price of our Common Stock, our coverage on each warrant will decrease by approximately two percent, and for every five dollar decrease in the price of our Common Stock, our coverage on each warrant will increase by approximately two percent.

To the extent the Capped Calls, share repurchases and Call Options do not fully mitigate the dilutive effect of the Warrants, we intend to consider repurchasing additional shares of our common stock and other measures, which may include additional

Table of Contents

amendments to the Capped Calls or the purchase of additional Call Options. The amount of dilution that we would be able to mitigate will depend on the relative costs and benefits of such a transaction, considering factors such as: our financial performance, the current and future share price of our common stock, our expected cash flows, competing priorities for capital, and overall market conditions. However, we expect to deploy the capital necessary to cover 100% of the warrants exercisable in 2016.

We have market risk exposure to interest rate fluctuations relating to our debt. We manage interest rate risk by using a combination of fixed-rate and variable-rate debt. The amount of variable-rate debt fluctuates during the year based on our working capital requirements. In the quarter ended March 31, 2015, we used a \$1.0 billion variable rate term loan to finance a portion of the MWI acquisition price. In the quarter ended June 30, 2015, we elected to make an early principal payment of \$250 million on the new term loan. We periodically evaluate financial instruments to manage our exposure to fixed and variable interest rates. However, there are no assurances that such instruments will be available in the combinations we want and on terms acceptable to us. There were no such financial instruments in effect at June 30, 2015.

We also have market risk exposure to interest rate fluctuations relating to our cash and cash equivalents. We had \$2.6 billion in cash and cash equivalents at June 30, 2015. The unfavorable impact of a hypothetical decrease in interest rates on cash and cash equivalents would be partially offset by the favorable impact of such a decrease on variable-rate debt. For every \$100 million of cash invested that is in excess of variable-rate debt, a 10 basis point decrease in interest rates would increase our annual net interest expense by \$0.1 million.

We are exposed to foreign currency and exchange rate risk from our non-U.S. operations. Our largest exposure to foreign exchange rates exists primarily with the Canadian Dollar, the Euro, the U.K. Pound Sterling, and the Brazilian Real. We may utilize foreign currency denominated forward contracts to hedge against changes in foreign exchange rates. We may use derivative instruments to hedge our foreign currency exposure, but not for speculative or trading purposes. As of June 30, 2015, we had one foreign currency denominated contract outstanding that hedges the foreign currency exchange risk of a C\$50.0 million note that we received in conjunction with the sale of a Canadian business in May 2013.

Changes in the price and volatility of our common stock may have a significant impact on the fair value of the Warrants issued to WBA (see Note 6). As of June 30, 2015, a one dollar change in our common stock, holding other assumptions constant, would increase or decrease the fair value of the Warrants by approximately \$45 million and a one percent change in volatility, holding other assumptions constant, would have no impact on the fair value of the Warrants.

Following is a summary of our contractual obligations for future principal and interest payments on our debt, minimum rental payments on our noncancelable operating leases and minimum payments on our other commitments at June 30, 2015 (in thousands):

	Total	Payments Due by Period			After 5 Years
		Within 1 Year	1-3 Years	4-5 Years	
Debt, including interest payments	\$ 4,753,134	\$ 115,114	\$ 807,719	\$ 1,336,051	\$ 2,494,250
Operating leases	350,891	64,825	109,684	80,719	95,663
Other commitments	192,899	152,974	34,669	5,256	
Total	\$ 5,296,924	\$ 332,913	\$ 952,072	\$ 1,422,026	\$ 2,589,913

We have commitments to purchase product from influenza vaccine manufacturers through the 2015/2016 flu season. We are required to purchase doses at prices that we believe will represent market prices. We currently estimate our remaining purchase commitment under these agreements will be approximately \$106.1 million as of June 30, 2015, all of which represents our commitment over the next twelve months, and are included in Other commitments in the above table.

Table of Contents

We have outsourced to IBM Global Services (IBM) a significant portion of our corporate and ABDC information technology activities. The remaining commitment under our arrangement, as amended in June 2015, which expires in June 2018, is approximately \$65.2 million as of June 30, 2015, of which \$39.0 million represents our commitment over the next twelve months, and is included in Other commitments in the above table.

Our liability for uncertain tax positions was \$55.5 million (including interest and penalties) as of June 30, 2015. This liability represents an estimate of tax positions that we have taken in our tax returns which may ultimately not be sustained upon examination by taxing authorities. Since the amount and timing of any future cash settlements cannot be predicted with reasonable certainty, the estimated liability has been excluded from the above contractual obligations table.

During the nine months ended June 30, 2015, our operating activities provided \$2.8 billion of cash in comparison to cash provided of \$632.5 million in the prior year period. Cash provided by operations during the nine months ended June 30, 2015 was principally the result of an increase in accounts payable, accrued expenses, and income taxes of \$3.5 billion and non-cash items of \$1.3 billion, offset, in part, by the loss from continuing operations of \$499.2 million, an increase in accounts receivable of \$868.7 million, and an increase in merchandise inventories of \$700.3 million. The non-cash items were comprised primarily of \$1.1 billion of warrant expense. The increase in accounts payable, accrued expenses and income taxes was primarily driven by the increase in merchandise inventories and the timing of payments to our suppliers. Accounts receivable increased from September 30, 2014, reflecting our increased revenue volume, including additional sales to WBA. We also increased our merchandise inventories at June 30, 2015 to support the increase in business volume.

We use days sales outstanding, days inventory on hand, and days payable outstanding to evaluate our working capital performance. The below financial metrics are calculated based upon a quarterly average and can be impacted by the timing of cash receipts and disbursements, which can vary significantly depending upon the day of the week in which the month ends.

	Quarter ended June 30,		Nine months ended June 30,	
	2015	2014	2015	2014
Days sales outstanding	20.5	19.8	19.8	20.1
Days inventory on hand	29.6	28.0	30.0	28.1
Days payable outstanding	54.0	46.1	51.4	44.7

The increase in days payable outstanding from the prior year quarter and nine month period is the result of increased purchases of generic pharmaceuticals, which have longer payment terms than brand-name pharmaceuticals.

Our cash flow from operating activities can vary significantly from period to period based on fluctuations in our period end working capital. Operating cash uses during the nine months ended June 30, 2015 included \$67.5 million of interest payments and \$199.2 million of income tax payments, net of refunds.

During the nine months ended June 30, 2014, our operating activities provided \$632.5 million of cash. Cash provided by operations during the nine months ended June 30, 2014 was principally the result of income from continuing operations of \$216.2 million, an increase in accounts payable, accrued expenses, and income taxes of \$1.5 billion, and non-cash items of \$456.4 million, offset, in part, by an increase in merchandise inventories of \$1.0 billion and an increase in accounts receivable of \$535.8 million. Accounts receivable increased from September 2013,

Edgar Filing: AMERISOURCEBERGEN CORP - Form 10-Q

reflecting the increased volume associated with our WBA business. We also increased our merchandise inventories at June 30, 2014 to support the increase in volume due to the WBA business. The increase in accounts payable, accrued expenses and income taxes was primarily driven by the increase in merchandise inventories and the timing of payments to our suppliers.

Capital expenditures for the nine months ended June 30, 2015 and 2014 were \$157.1 million and \$198.7 million, respectively. Significant capital expenditures in the nine months ended June 30, 2015 included technology initiatives, including costs related to the further development of our enterprise resource planning (ERP) system, costs associated with building our new national distribution center, and expansion of support facilities. We currently expect to spend approximately \$215 million for capital

Table of Contents

expenditures during fiscal 2015. Significant capital expenditures in the nine months ended June 30, 2014, included infrastructure and technology-related costs to on-board the incremental WBA distribution volume, costs associated with building our new national distribution center, and other technology initiatives, including costs related to the further development of our ERP system.

Net cash provided by financing activities in fiscal 2015 included \$1.0 billion of borrowing under our term loan and \$996.4 million of proceeds received related to the February 2015 issuance of our 2025 Notes and 2045 Notes. We used the proceeds from these financing activities to fund a portion of our February 24, 2015 acquisition of MWI, a leading animal health distribution company in the United States and in the United Kingdom for a price of \$190.00 per share, or \$2.6 billion in total.

In June 2014, we invested \$117.8 million to acquire a minority ownership interest in a pharmaceutical wholesaler in Brazil and to form a specialty joint venture with the same entity.

During the nine months ended June 30, 2015 and 2014, we paid \$800.3 million and \$570.6 million, respectively, for purchases of our common stock. During the nine months ended June 30, 2015 and 2014, we paid \$180.0 million and \$211.4 million, respectively, to purchase or amend Capped Calls and Call Options, to hedge the potential dilution associated with the Warrants upon their exercise.

In November 2013, our board of directors increased the quarterly cash dividend by 12% from \$0.21 per share to \$0.235 per share. In November 2014, our board of directors increased the quarterly cash dividend by 23% from \$0.235 per share to \$0.29 per share. We anticipate that we will continue to pay quarterly cash dividends in the future. However, the payment and amount of future dividends remains within the discretion of our board of directors and will depend upon our future earnings, financial condition, capital requirements, and other factors.

Cautionary Note Regarding Forward-Looking Statements

Certain of the statements contained in this Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Words such as expect, likely, outlook, forecast, would, could, should, can, will, project, in sustain, synergy, on track, believe, seek, estimate, anticipate, may, possible, assume, variations of such words, and similar expressions intended to identify such forward-looking statements. These statements are based on management's current expectations and are subject to uncertainty and change in circumstances. These statements are not guarantees of future performance and are based on assumptions that could prove incorrect or could cause actual results to vary materially from those indicated. Among the factors that could cause actual results to differ materially from those projected, anticipated, or implied are the following: competition; industry consolidation of both customers and suppliers resulting in increasing pressure to reduce prices for our products and services; changes in pharmaceutical market growth rates; price inflation in branded and generic pharmaceuticals and price deflation in generics; declining economic conditions in the United States and abroad; financial market volatility and disruption; substantial defaults in payment, material reduction in purchases by or the loss, bankruptcy or insolvency of a major customer; the loss, bankruptcy or insolvency of a major supplier; changes to the customer or supplier mix; the retention of key customer or supplier relationships under less favorable economics or the adverse resolution of any contract or other dispute with customers or suppliers; interest rate and foreign currency exchange rate fluctuations; the disruption of AmerisourceBergen's cash flow and ability to return value to its stockholders in accordance with its past practices; risks associated with the strategic, long-term relationship between Walgreen Boots Alliance, Inc. and AmerisourceBergen, including with respect to the pharmaceutical distribution agreement and/or the global sourcing joint venture; risks associated with the potential impact on AmerisourceBergen's earnings per share resulting from the issuance of the warrants to

Edgar Filing: AMERISOURCEBERGEN CORP - Form 10-Q

subsidiaries of Walgreen Boots Alliance, Inc. (the Warrants); AmerisourceBergen's inability to implement its hedging strategy to mitigate the potentially dilutive effect of the issuance of its common stock in accordance with the Warrants under its special share repurchase program due to its financial performance, the current and future share price of its common stock, its expected cash flows, competing priorities for capital, and overall market conditions; changes in the United States healthcare and regulatory environment; increasing governmental regulations

Table of Contents

regarding the pharmaceutical supply channel; federal and state government enforcement initiatives to detect and prevent suspicious orders of controlled substances and the diversion of controlled substances; federal and state prosecution of alleged violations of related laws and regulations, and any related litigation, including shareholder derivative lawsuits or other disputes relating to our distribution of controlled substances; increased federal scrutiny and qui tam litigation for alleged violations of fraud and abuse laws and regulations and/or any other laws and regulations governing the marketing, sale, purchase and/or dispensing of pharmaceutical products or services and any related litigation; material adverse resolution of pending legal proceedings; declining reimbursement rates for pharmaceuticals; the acquisition of businesses that do not perform as expected, or that are difficult to integrate or control, including the integration of recently-acquired MWI or ability to capture all of the anticipated synergies related thereto; managing foreign expansion, including non-compliance with the U.S. Foreign Corrupt Practices Act, anti-bribery laws and economic sanctions and import laws and regulations; malfunction, failure or breach of the sophisticated information systems to operate as designed; risks generally associated with data privacy regulation and the international transfer of personal data; changes in tax laws or legislative initiatives that could adversely affect AmerisourceBergen's tax positions and/or AmerisourceBergen's tax liabilities or adverse resolution of challenges to AmerisourceBergen's tax positions; natural disasters or other unexpected events that affect AmerisourceBergen's operations; and other economic, business, competitive, legal, tax, regulatory and/or operational factors affecting AmerisourceBergen's business generally. Certain additional factors that management believes could cause actual outcomes and results to differ materially from those described in forward-looking statements are set forth (i) in Item 1A (Risk Factors) and Item 1 (Business) in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2014 and elsewhere in that report and (ii) in other reports.

Table of Contents

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's most significant market risks are the effects of changing interest rates, foreign currency risk, and changes in the price and volatility of the Company's common stock. See the discussion under "Liquidity and Capital Resources" in Item 2 on page 28.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are intended to ensure that information required to be disclosed in the Company's reports submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. These controls and procedures also are intended to ensure that information required to be disclosed in such reports is accumulated and communicated to management to allow timely decisions regarding required disclosures.

The Company's Chief Executive Officer and Chief Financial Officer, with the participation of other members of the Company's management, have evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) and have concluded that the Company's disclosure controls and procedures were effective for their intended purposes as of the end of the period covered by this report.

Changes in Internal Control over Financial Reporting

During the third quarter of fiscal 2015, there was no change in AmerisourceBergen Corporation's internal control over financial reporting that materially affected, or is reasonably likely to materially affect, internal control over financial reporting.
