Webtronics, Inc.
(Former name or former address, if changed since last report)

Item 5 Other Events

On March 10, 2003, as amended on April 4, 2003, we entered into a merger agreement with Callisto Research Labs, LLC (formerly known as Callisto Pharmaceuticals, Inc.), or Callisto Research and Synergy Pharmaceuticals, Inc., or Synergy, an unaffiliated company under which Callisto Research and Synergy agreed to merge in a stock for stock transaction and each become our subsidiaries. On April 30, 2003 the merger closed and we filed a Form 8-K Report

Edgar Filing: WEBTRONICS INC - Form 8-K

dated April 30, 2003 containing detailed information concerning the merger.

On May 20, 2003 we changed our name from Webtronics, Inc. to Callisto Pharmaceuticals, Inc. and re-domesticated from Florida to Delaware by merging into a wholly-owned subsidiary.

Our symbol on the over-the-counter Bulletin Board changed to CLSP effective May 21, 2003.

We announced these changes in a press release dated May 28, 2003, which is filed as an exhibit to this report.

We operate as a biopharmaceutical company focused on the development of drugs to treat multiple myeloma, other cancers and osteolytic bone disease. Our lead drug candidate, Atiprimod, is a small-molecule, orally available drug with antiproliferative and antiangiogenic activity. Atiprimod successfully completed Phase I clinical trials in rheumatoid arthritis patients and we plan to enter Atiprimod in a safety and proof-of-principle clinical trial in multiple myeloma patients. The drug is also being explored as an agent to treat osteolytic bone disease. In addition, we have programs focused on the development of an analog of the human intestinal hormone, uroguanylin, to treat colon cancer, and drugs to protect against staphylococcal and streptococcal bioweapons, as a protection against the devastating effects of toxic shock syndrome.

Item 7 Financial Statements, Pro Forma Financial Information and Exhibits.

(a) Financial Statements

None
