## PART I

### Item 1. Description of Business

#### GENERAL

Stockgroup is a financial media and technology company. We license financial market data, content and software applications/tools, which our customers use on their Web sites. We also operate StockHouse.com and StockHouse.ca and generate advertising revenue therefrom. All of our services are delivered via the Internet.

#### PRODUCTS AND SERVICES

We have experience and understanding of Internet-based financial technology and media. Using a common technology infrastructure, we have developed two main revenue sources: (i) Financial Software and Content Systems and (ii) Public Company Disclosure and Awareness Products and Advertising.

##### *Financial Software and Content Systems*

We have developed proprietary financial applications/tools and a content aggregation platform we license as a system to our clients. The clients for Financial Software and Content Systems come from many different industries, such as news media, banking, stock brokerages, leasing, insurance and others. We provide the system on a private-labeled basis, and they are typically sold in licensing contracts of 24 months. These long-term contracts generate stable, recurring revenue streams.

Many of the financial applications are data-feed driven. We either feed data from our own aggregated databases or from third parties. The advantage of using the Stockgroup system is that the customer is able to receive data and information from a variety of different feeds all from point of contact and at a fraction of the cost of purchasing all

feeds individually. We also add value by customizing, filtering and sorting data in the configuration the customer wants and bundling this with our more than 30 financial Web based software applications. We are able to use our economies of scale and automation to give a service that is efficiently delivered and customized, and at a substantial costs savings to having the customer build and manage it internally.

Examples of some of the providers of third-party data feeds we use include Comstock, Zacks, Marketguide, Comtex, Multex and The Associated Press.

We sell financial software and content system through channel resellers such as The Associated Press, The Canadian Press, and through our own direct sales team. These financial tools, applications and content systems cover the entire North American market including mutual funds, commodities and equities.

We have built and maintain our proprietary data processing solution that aggregates the multiple feeds, translates and builds a common database infrastructure. Our system then cleans, filters and maintains the data for use by our various data-driven services. We have a sophisticated server and security system which runs this content/data management system. The data is streamed continuously in real time to our proprietary software applications and our client Web sites, intranets, and print publications.

The following are just a few of our over 30 Financial Software and Content Systems services:

- Real-time stock quotes on major U.S. exchanges;
- North American 20-minute delayed stock quotes and indices;
- Stock portfolio management, live portfolio updates and wireless portfolio updates;
- Most active stock updates;

- 
- Stock watch lists;
  - Company fundamentals, regulatory filings;
  - Daily stock market winners/losers, most actives;

## Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10KSB

- Company profiles, stock screening (investment data) and technical stock analysis; and
- Employee stock option calculations.

The Financial Software and Content Systems applications are delivered to customers in four different formats:

- On a hosted basis where the content and private-labeled interface is hosted by Stockgroup and streamed to the customers Internet or Intranet site;
- Through the customers servers which use a proprietary interface to retrieve data from our servers;
- Through a secured Internet channel to a client s proprietary interface; or
- Through different wireless devices and modes including handheld devices, pagers and portals which have been built and maintained by us.

### *Public Company Disclosure and Awareness Products and Advertising*

We provide online disclosure and advertising services to a wide range of companies, mainly through our StockHouse Web site and related sites. Our target advertising clients are advertising agencies, media buyers and smaller publicly traded companies who need a cost-effective method of creating awareness of their company in the investment community.

Our Public Company Disclosure and Awareness Products and Advertising include the following:

*Investor Marketplace (IMP)*, a Web page which is actively marketed through advertising to draw readers, where companies can be featured online to prospective investors. Being featured on the IMP enables customers to advertise their name, profile and Internet link to a large investor audience that they may not otherwise be able to reach.

*E-mail Services* sold under the names *StockHouse News Blast*, *Special Situation Alert*, and *NewsHotline*, which are purchased by our clients to help them disseminate their news releases and other information to a select list of investors. Our e-mail lists consist of subscribers who have opted to receive our mailings and confirmed their subscription on a subsequent e-mail follow-up, a process known as double opt-in . We take great care to ensure that recipients actually want the e-mails we send them.

*Sector Supplements*, which are a spotlight feature on a certain industry sector, such as energy, mining, biotech or technology, are an effective exposure tool for companies. In a Sector Supplement investors are drawn to a Web site that features up to 15 companies and contains industry-specific news and information. Investors who visit this Web site can view each of the featured companies' profiles, request information or link directly to the client's own Web site.

The StockHouse media property offers content aggregation from hundreds of sources, a comprehensive equities database and the Internet's first syndicated message forums, the BullBoards™.

## COMPETITION

The market for our Internet products and services is relatively new and has been highly fragmented, but we have seen a trend toward consolidation of the market in recent months. We compete intensely with other companies providing similar services to us. Many of those services are commodity-like and not easily differentiated. Our competition includes direct competitors such as MarketWatch and Reuters, as well as general-purpose Internet portals such as Yahoo Finance and AOL, who provide financial and investment research information. We also compete with companies such as CCBN and Shareholder.com, who have services similar to our IntegrateIR disclosure and awareness services. Our competition in the advertising market includes other financial and business related Web

sites such as Profit.com and Globeinvestor.com. We expect our competitors to remain strong as the Internet industry further consolidates.

## CORPORATE BACKGROUND

We are a United States reporting public company incorporated in 1994 and registered in Colorado. Our shares are quoted on the OTCBB under the symbol **SWEB** and are listed on the TSX Venture Exchange under the symbol **SWB**. Our head office is in Vancouver, Canada, with regional offices in New York, NY and Toronto, Canada.

From 1995 to 1999 we operated a financial markets publishing business and Web site aimed at small and micro-cap clients.

We used the funds from a public offering in the spring of 1999 to provide the foundation for the development and mass marketing of our services. In October 1999 we launched Smallcapcenter.com. At that time we believed that a subscription/ advertising model centering around small cap content was viable. While parts of this business model did not prove to be profitable, the exercise of building Smallcapcenter and its related investment tools gave us certain experience and skills, and a suite of service products to sell commercially.

From 2001 to 2002 we expanded our awareness and disclosure service line to include Sector Supplements and automated investor relations Web page tools such as the IntegrateIR. We already had a public company customer base, so the transition into this area was a natural extension of our core competencies. This formed the basis for our Public Company Disclosure and Awareness Products and Advertising revenue stream.

We entered the Financial Software and Content Systems market late in 2000 by licensing our proprietary financial tools, content and applications to customers who need to offer financial information to their customers or improve their content offering. We had access to an array of customers through our internal sales team as well as our reseller channels. Our licensed content model is attractive to customers because it is a comprehensive and cost effective alternative to in-house development.

On June 24, 2002 and June 2, 2004, under an agreement with StockHouse Media Corporation, we acquired the Web site and certain related assets to run the StockHouse brand Web sites. The acquisition provided several key benefits to us including the addition of the StockHouse brand product line to our service offering and the integration of assets into

our business.

On July 23, 2002 we became a reporting issuer in Canada and on December 17, 2002, we were listed and began trading on the TSX Venture Exchange in Canada.

Our corporate Web site is [www.stockgroup.com](http://www.stockgroup.com).

## EMPLOYEES

As of December 31, 2004, we employed 45 people on a full-time basis and 2 people on a part-time basis. None of our employees are subject to collective bargaining agreements. We believe relations with employees are good.

## REGULATORY ISSUES

We are not subject to governmental regulation in our Internet publishing efforts, nor do we know of any pending legislation or regulation which may impose regulatory requirements on our Internet activities, other than privacy laws.

We believe that we are in compliance in all material respects with all laws, rule, regulations and requirements that affect our business, and that compliance with such laws, rule, regulations and requirements does not impose a material impediment on our ability to conduct our business.

## SUBSIDIARIES

We own 100% of the issued and outstanding voting common shares of 579818 B.C. Ltd., which is an intermediary holding company with no activity and which wholly owns Stockgroup Media Inc., a British Columbia corporation. Stockgroup Media Inc. is our Canadian operating company, and is the company where significantly all of our current and future planned operations reside. Stockgroup Media Inc. owns 50% of Stockscores Analytics Corp., a British Columbia corporation with limited activity at this time and no material impact on us. In addition, we wholly own Stockgroup Systems Ltd., a Nevada Corporation, which is our U.S. operating company, and Stockgroup Australia Pty Ltd, an Australia Corporation, which is our Australia operating company. Both Stockgroup Systems Ltd. and Stockgroup Australia Pty Ltd. have very limited operation, no salaried employees, and no material assets.

## RESEARCH AND DEVELOPMENT

We do not conduct research. Our development activity during 2003 and 2004 has been mainly customer-driven.

## FORWARD-LOOKING STATEMENTS

Certain statements contained herein constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These forward-looking statements can be identified by the use of predictive, future-tense or forward-looking terminology, such as "believes," "anticipates," "expects," "estimates," "plans," "may," "intends," "will," or similar terms. These statements appear in a number of places in this report and include statements regarding the intent, belief or current expectations of the Company, its directors or its officers with respect to, among other things: (i) trends affecting the Company's financial condition or results of operations, (ii) the Company's business and growth strategies, (iii) the Internet and Internet commerce and (iv) the Company's financing plans. Investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve significant risks and uncertainties, and that actual results may differ materially from those projected in the forward-looking statements as a result of various factors set forth under "Risk Factors" and elsewhere in this report. The preceding discussion of the financial condition and results of operations of the Company should be read in conjunction with the financial statements and notes related thereto included elsewhere in this report.

## Item 2. Description of Property

INTELLECTUAL PROPERTY, PROPRIETARY RIGHTS AND DOMAIN NAMES

We own the domain names [www.stockhouse.com](http://www.stockhouse.com), [www.stockhouse.ca](http://www.stockhouse.ca), [www.stockhouse.au](http://www.stockhouse.au), [www.stockgroup.com](http://www.stockgroup.com), [www.smallcapcenter.com](http://www.smallcapcenter.com), [www.investormarketplace.com](http://www.investormarketplace.com) and others. We believe our ownership of these domain names gives us adequate protection over them and we intend to continue to keep them in our possession.

We own trademarks in the United States on StockHouse , @ The Bell , Investors Click Here , Smallcapcenter MediaCharts and related logos. We have no other significant registered trademarks as of the date of this filing. We may pursue other trademarks in the future.

We protect our other intellectual property through a combination of trademark law, trade secret protection and confidentiality agreements with our employees, customers, independent contractors, agents and vendors. We pursue the registration of our domain names, trademarks and service marks in the United States and internationally. Effective trademark, service mark, copyright and trade secret protection may not be available in every country in which our services and products are made available on-line. We create some of our own content and obtain the balance of our content from third parties. It is

possible that we could become subject to infringement actions based upon the content obtained from these third parties. In addition, others may use this content and we may be subject to claims from our licensors. We currently have no patents or patents pending and do not anticipate that patents will become a significant part of our intellectual property in the future. We enter into confidentiality agreements with our employees and independent consultants and have instituted procedures to control access to and distribution of our technology, documentation and other proprietary information and the proprietary information of others from whom we license content. The steps we take to protect our proprietary rights may not be adequate and third parties may infringe or misappropriate our trademarks, service marks and similar proprietary rights. In addition, other parties may assert claims of infringement of intellectual property or alter proprietary rights against us. The legal status of intellectual property on the Internet is currently subject to various uncertainties as legal precedents have not been set and are still to be determined in many areas of Internet law.

## LEASEHOLD

Our corporate offices are composed of one floor of leased space located in the center of Vancouver's business community. We also lease a sales office in Toronto. Our facilities are fully used for current operations.

City		Monthly Payment	Lease Term	Expiry Date
Vancouver	C\$	20,614 (US\$17,127)	8 years	March 2007
Toronto	C\$	4,829 (US\$4,012)	4 years	December 2008

## EQUIPMENT

We have made an investment in servers and computer equipment required for our Web site. We have dedicated staff assigned to maintenance and support of these operations.

### Item 3. Legal Proceedings

We are currently involved in litigation in British Columbia Supreme Court with a former customer, Pacific Capital Markets Inc. or PCMI, to collect amounts owing pursuant to a contract entered into in September, 2000. The defendant provided a C\$100,000 deposit and contracted us to provide certain lead generation services. We delivered the requested services throughout October and November, 2000, however, the defendant defaulted on all additional

payments. We are suing the defendant for the C\$351,800 balance owing, plus interest and costs. The defendant has filed a statement of defense and counterclaim to recover the C\$100,000 deposit. As of the date of this filing no further action had been taken by either party and no court date has been set. Although we currently believe the outcome of the litigation will be in our favor, we have not elected to aggressively pursue the litigation at this time. We have made no provision for the counterclaim in the financial statements and any settlement or final award will be reflected in our statement of operations as the litigation is resolved.

We have been named as a defendant in a lawsuit in Saskatchewan Court of Queen's Bench by plaintiffs Black Strap Hospitality, Harold Lane and Derek Neis. The plaintiffs have brought the action seeking damages for defamation in the amount of C\$100,000 plus pre-judgment interest. The alleged defamation was caused by certain members of our Bull Boards investment discussion forum on [www.stockhouse.com/ca](http://www.stockhouse.com/ca). We have responded to the action by providing, under court order, information on the Bull Boards members specified in the court order. We expect to be released from this litigation without incurring significant expense.

#### Item 4. Submission of Matters to a Vote of Security Holders

None

## PART II

## Item 5. Market for Registrant's Common Stock, Related Stockholder Matters and Issuer Purchases of Equity Securities

## MARKET INFORMATION

Our common stock has been quoted for trading on the OTC Bulletin Board since March 17, 1999, and on the TSX Venture Exchange since December 17, 2002.

The following table sets forth high and low bid prices for our common stock on the OTC Bulletin Board for the quarterly periods ended March 31, 2003 through to December 31, 2004. These prices represent quotations between dealers without adjustment for retail markup, markdown or commission and may not represent actual transactions.

Quarter Ended		High		Low		Volume
March 31, 2003	\$	0.380	\$	0.205		4,858,400
June 30, 2003	\$	0.380	\$	0.219		7,464,200
September 30, 2003	\$	0.400	\$	0.260		13,125,600
December 31, 2003	\$	0.380	\$	0.250		7,794,000
March 31, 2004	\$	0.325	\$	0.250		3,778,200
June 30, 2004	\$	0.330	\$	0.250		9,923,700
September 30, 2004	\$	0.340	\$	0.255		7,390,970
December 31, 2004	\$	0.370	\$	0.270		7,118,474

The following table sets forth high and low bid prices for our common stock on the TSX Venture Exchange for the eight quarterly periods ended December 31, 2004. These prices represent quotations between dealers without adjustment for retail markup, markdown or commission and may not represent actual transactions.

Quarter Ended		High		Low		Volume
March 31, 2003	C\$	0.50 (US\$0.33)	C\$	0.31 (US\$0.21)		575,300
June 30, 2003	C\$	0.49 (US\$0.35)	C\$	0.34 (US\$0.24)		703,744
September 30, 2003	C\$	0.52 (US\$0.38)	C\$	0.33 (US\$0.24)		1,019,500
December 31, 2003	C\$	0.51 (US\$0.38)	C\$	0.34 (US\$0.26)		575,900
March 31, 2004	C\$	0.46 (US\$0.35)	C\$	0.33 (US\$0.25)		2,046,300
June 30, 2004	C\$	0.46 (US\$0.34)	C\$	0.35 (US\$0.26)		2,436,100
September 30, 2004	C\$	0.43 (US\$0.33)	C\$	0.30 (US\$0.23)		761,954
December 31, 2004	C\$	0.48 (US\$0.39)	C\$	0.34 (US\$0.28)		950,683

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10KSB

The closing price of our stock on the OTC Bulletin Board on March 11, 2004 was \$0.38, and on the TSX Venture Exchange on March 11, 2004 was C\$0.415.

Source: [www.stockhouse.com](http://www.stockhouse.com)

Our equity history is as follows:

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10KSB

	Outstanding Shares	Shares Underlying Outstanding Warrants	Shares Underlying Outstanding Options
Balance			
December 31, 2003	32,498,721	3,514,638	2,380,600
Net issued, cancelled or exercised during 2004	1,432,500	(1,560,540)	1,217,500
Balance			
December 31, 2004	33,931,221	1,954,098	3,598,100
Net issued, cancelled or exercised between January 1, 2005 and date of this filing	46,000	(516,000)	282,000
Balance on date of this filing	33,977,221	1,438,098	3,880,100
Percentage of outstanding shares		4%	11%

On June 2, 2004, under a Regulation exemption, we issued 1,020,000 common shares valued at \$290,700 to Stockhouse Media Corporation pursuant to a purchase of website assets.

All other issuances during the year were under our Stock Option Plan, which is registered on Form S-8.

## HOLDERS

On December 31, 2004, we had 126 holders of record, which does not include approximately 3,000 beneficial owners of our common stock whose shares are held in the names of various dealers, clearing agencies, banks, brokers and other fiduciaries.

## DIVIDENDS

We have not declared, and do not foresee declaring, any dividends now or into the foreseeable future.

Item 6. Management's Discussion and Analysis of Results of Operations and Financial Condition

RESULTS OF OPERATIONS FOR THE YEARS ENDED DECEMBER 31, 2004 AND DECEMBER 31, 2003

Our services can be categorized into two major segments: (i) Financial Software and Content Systems and (ii) Public Company Disclosure and Awareness Products and Advertising. There are basic commonalities between the two segments. All of our services relate to the financial markets and all of our services are currently delivered over the Internet.

Much of our sales are driven by popular interest in the stock markets. Our Financial Software and Content Systems business is driven by the demand for market information by our clients' customers. Our Public Company Disclosure and Awareness Products and Advertising are in greater demand when there is greater overall demand for online advertising across all industries. Our audience levels on our StockHouse Web site are closely correlated with the popularity of the stock market. We believe that greater audience levels on StockHouse will translate into larger advertising revenues for us over the long term.

The Internet is the delivery vehicle for all of our products. We believe the Internet has not yet reached maturity and continues to reach new levels of sophistication. Increasing numbers of people are using the Internet as a source of stock market information. As a result, financial content is becoming an expected standard offering for media and financial services companies. Our Financial Software and Content Systems clients, including large news Web sites, brokerages, banks, and other media are encountering competitive pressures to improve their financial content offering. This market expansion has driven demand for our services and has resulted in continued sales growth over the past 12 months.

Revenue and Gross Profits

Revenue Summary

2004	2003	Change (\$)	Change (%)
------	------	-------------	------------

## Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10KSB

For the year ended December 31				
Total revenues	\$ 4,823,227	\$ 3,020,399	\$ 1,802,828	60%
Breakdown of major categories:				
Financial Software and Content	1,693,297	1,168,910	524,387	45%
Public Company Disclosure and Awareness Products and Advertising	3,129,930	1,851,489	1,278,441	69%

Financial Software and Content Systems (FSCS) revenue has grown by 45% when comparing the fiscal years ended December 31, 2004 and 2003. The growth is attributable to a growing number of monthly agreements, renewals of existing agreements, and the expansion of our services to existing clients.

Our Public Company Disclosure and Awareness Products and Advertising revenue includes general advertising on StockHouse and our specialty advertising products. The 69% growth between the fiscal years ended December 31, 2004 and 2003 is due in part to increased market size for online advertising in general. It is also the result of a greater demand among companies for highly targeted advertising to the investment community, which has enabled us to extract greater returns for our advertising inventory over time. We have developed a certain level of access to the investment community through our StockHouse Web site. Our access and StockHouse brand name give us the ability to provide a range of advertising services for companies. This exposure is highly valued, and is normally sold

as a comprehensive monthly program which gives the client sustained and multi-faceted exposure to potential investors.

### Cost of Revenues and Gross Profit Summary

	2004	2003	Change (\$)	Change (%)
For the year ended December 31				
Total cost of revenues	\$ 910,949	\$ 637,764	\$ 273,185	43%
Gross profit	3,912,278	2,382,635	1,529,643	64%
Gross margin %	81%	79%		

Our cost of revenues consists of bandwidth, data feeds, and other direct product costs. Bandwidth costs are correlated with changes in our StockHouse and Financial Software and Content Systems traffic, both of which have increased from fiscal 2003 to fiscal 2004. We have incurred a number of incremental increases in our data feed costs as we have procured higher quality data from our vendors over the past twelve months, which account for part of the 43% increase from fiscal 2003 to fiscal 2004. In addition, some stock exchanges have recently charged new or increased fees for data access. To date the stock exchange fees have not had a material impact on our overall costs. Overall, the increases in cost of revenue we have experienced have been less than the increase in revenue, as evidenced by our gross margin percentage which has increased from 79% to 81% between fiscal 2003 and fiscal 2004.

### Operating Expenses

#### Operating Expenses Summary

	2004	2003	Change (\$)	Change (%)
For the year ended December 31				
Total operating expenses	\$ 3,913,314	\$ 3,119,127	\$ 794,187	26%
Breakdown:				
Sales and marketing	1,515,280	851,221	664,059	78%
General and administrative	2,398,034	2,267,906	130,128	6%

Sales and marketing expenses increased by 78% for the fiscal year ended December 31, 2004 when compared with the same period in fiscal 2003. The increases are due primarily to an increase in the number of sales staff between 2003 and 2004, and a greater emphasis on marketing activities. The compensation and training expense arising from this increase in sales staff accounts for the increase in sales and marketing expense year over year, and we believe this will result in an increase in revenue over the long term. In addition, we experienced increased commissions expense due to increased sales year over year.

General and administrative expense increased by 6% between fiscal 2003 and fiscal 2004. This increase is due to several factors, most notably increased payroll due to general expansion and more staff, but the increase was offset by reduced bad debts expense and reduced filing and regulatory fees, as we had fewer capital transactions in 2004 than in 2003. The reduction in bad debt expense is due to a more proactive approach on collections of account receivables and stronger credit policies.

## Other Income (Expense)

## Interest and Other Income (Expense) Summary

	2004	2003
For the year ended December 31		
Total interest and other income (expenses)	\$ 16,659	\$ (891,978)
Breakdown:		
Interest income	24,058	2,500
Interest expense	(2,083)	(35,519)
Non-cash interest expense	-	(860,351)
Other income (expense)	(5,316)	1,392

We earn interest income from our cash reserves which are held in major banks, either in interest bearing accounts or term deposits. Interest expense for the fiscal year ended December 31, 2004 consists of interest on capital leases. For the fiscal year ended December 31, 2003 it consisted of interest on capital leases and notes payable. The \$860,351 of non-cash interest for 2003 arose out of the conversion of our 8% convertible notes in January 2003 and May 2003 and the related acceleration of the amortization of the debt discount. Other income (expense) consists of gains (losses) on marketable securities.

## Net Income

The net income (loss) for fiscal 2004 and fiscal 2003 was \$15,623 and (\$1,628,470) respectively. As noted elsewhere in this Management Discussion and Analysis, the net income for fiscal 2004 was an improvement over fiscal 2003 loss due to increased revenue at a higher rate than increased expenses, and the non-recurrence of a non-cash interest expense in 2003 of \$860,351.

## LIQUIDITY AND CAPITAL RESOURCES

As at December 31, 2004 we had cash and cash equivalents of \$1,837,012, an increase of \$436,817 over December 31, 2003. Our cash from (used in) operations for the past 4 quarters is as follows:

	\$
Q1 2004	127,264
Q2 2004	(104,811)
Q3 2004	260,492

Our Working capital at the end of 2004 was \$1,326,510.

We currently have no debt or capital lease obligations. We repaid \$38,920 of capital lease obligations in 2004.

We have invested cash in the amount of \$77,909 in property and equipment in fiscal 2004. In June 2004, we acquired the balance of the StockHouse assets for shares valued at \$290,700 and no cash.

Our cash balance is expected to provide enough liquidity to allow us to execute our business plans for the next twelve months, including necessary computer hardware and software asset acquisitions.

We do not expect to declare any cash dividends in the next twelve months.

You should be cautioned that there can be no assurance that revenue, margins, and profitability will increase. There is a risk that our current cash balance will not be adequate for our long term needs, in which case we would need to raise additional financing through equity or debt issues.

#### ACCOUNTING FOR AND DISCLOSURE OF GUARANTEES

From time-to-time we enter into certain types of contracts that contingently require us to indemnify parties against third party claims. These contracts primarily relate to: (i) service agreements, under which we may be required to indemnify clients for liabilities relating to data transmission and dissemination; (ii) certain agreements with our officers, directors and employees and third parties, under which we may be required to indemnify such persons for liabilities arising out of their duties to us.

We regularly enter into service level agreements with clients, under which we guarantee consistent streaming of data within certain pre-defined tolerances.

The terms of such obligations vary. Generally, a maximum obligation is not explicitly stated. Because the obligated amounts of these types of agreements often are not explicitly stated, the overall maximum amount of the obligations cannot be reasonably estimated. Historically, we have not been obligated to make significant payments for these obligations, and no liabilities have been recorded for these obligations on our balance sheet as of December 31, 2004 and December 31, 2003.

#### OFF-BALANCE SHEET ARRANGEMENTS

We did not have any off-balance sheet arrangements at December 31, 2004 or December 31, 2003.

#### RECENT PRONOUNCEMENTS

See Note 2 to the audited consolidated financial statements in this annual report on Form 10-KSB.

#### CRITICAL ACCOUNTING POLICIES

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses our audited consolidated financial statements, which have been prepared in accordance with accounting policies generally accepted in the United States. The preparation of these audited consolidated financial statements requires us to make estimates and assumptions that affect the assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We believe the following critical accounting policies require significant judgments, estimates and assumptions used in the preparation of the audited consolidated financial

statements.

## Revenue

Financial Software and Content Systems services consist of managing, licensing, and delivering financial market information. Examples of financial market information are real time stock quotes, stock charts, public company profiles, investment information and technical stock analysis. We use formal service agreements, which are typically for 24-month terms. Under the service agreements we normally charge our clients a set up fee, a fixed monthly fee, and additional fees for usage beyond the threshold specified in the agreement. Usage usually refers to Web site page views by the client's end users. Revenue from set up fees and fixed monthly licensing fees for ongoing use of financial tools and content is recognized ratably over the agreement term.

All Financial Software and Content Systems services are delivered via the Internet from our Web servers to the clients Web sites on a continuous real time basis. Revenue is earned starting on the day the service is delivered to the customer. We monitor usage from the day the service is activated and record any usage-based revenue on a monthly basis as it occurs. Many agreements contain service level agreements which specify minimum service standards and remedies, such as billing reductions, for deficiency of service. In cases where a billing adjustment occurs due to a service level deficiency, we reverse the applicable revenue in the month where the deficiency occurred.

Public Company Disclosure and Awareness Products and Advertising consist of investor relations Web page tools, client advertising on our investment-oriented Web sites, e-mail

services, sponsorships and Internet advertising services. These services are sold either individually or bundled together into comprehensive programs.

Investor relations Web page tools, sold under the name IntegrateIR, are delivered to the client's investor relations page of their Web site via an Internet data feed, in real time and on a continuous basis for an agreed period of time, normally 12 months. Revenue is recognized ratably, according to the agreed fixed rate, on a monthly basis once the IntegrateIR data feed has been activated. Setup fees, if any, are recognized ratably over the initial term of the agreement, on a monthly basis.

Client advertising on our investment-oriented Web sites consists of continuous or rotating client profiles on various specialized Web pages within StockHouse.com, Smallcapcenter.com and Investormarketplace.com. Delivery of these profiles is based either on a certain number of days appearing on the Web pages or a certain quantity of page views, profile views or click-throughs, depending on the agreement. A page view is a single instance of an Internet user viewing the page which contains the client's name and/or logo. A profile view is a single instance of an Internet user clicking on the client's profile link. A click-through is a single instance of an Internet user clicking on the client's profile and being redirected to the client's Web site. Revenue is recognized on such client profile programs based on delivery, and delivery is organized and measured to equal the agreed monthly fee in each month the client is profiled on the Web pages.

E-mail services are mailings to a targeted list of e-mail addresses, with delivery consisting solely of transmitting the mailing to the e-mail targets. E-mail services may be bought on a per-transmittal basis, for which revenue is recorded when the transmittal occurs, or on a fixed-fee monthly basis in which the client receives access to a fixed number of transmittals per month. We record the revenue on the fixed-fee monthly e-mail services on a pro rata basis over the term of the agreement.

Internet advertising on our Web sites is delivered, and revenue is earned, on a page-view basis, as this term is defined above. Advertising insertion orders are obtained from clients and advertisements are delivered in a set rotation on www.stockhouse.com, www.stockhouse.ca, and others. At the end of certain specified period, usually monthly, the client is given a page-view delivery report and billed according to the number of page-views delivered.

All sources of revenue are recorded pursuant to SAB 104 Revenue Recognition, when persuasive evidence of an arrangement exists, delivery of services has occurred, the fee is fixed or determinable and collectibility is reasonably assured.

Payments received in advance of services provided, including deposits, are recorded as deferred revenue.

## Cost of Revenues

Cost of revenues is recorded if the cost relates directly to the services we sell or to our revenue-generating Web sites such as StockHouse, Smallcapcenter, and InvestorMarketPlace. Cost of revenues consist of subscription fees for access to data feeds of financial and business databases, Internet bandwidth, direct advertising purchases, and direct labor. Data feeds are a key component of many of our Financial Software and Content Systems services, as well as a key input into our revenue-generating Web sites. Bandwidth is consumed by our revenue-generating Web sites, by our Financial Software and Content Systems services, by our IntegrateIR service, and by our e-mail mailing services.

Direct labor is the hourly labor cost of certain programmers and designers who implement or maintain licensed client feeds, design advertising for clients, and produce e-mail mailings for clients. Direct labor costs are fully recognized as cost of revenues in the period in which the associated revenue is recognized. All other costs of revenues are recognized in the period incurred.

#### Allowance for Doubtful Accounts

We evaluate our accounts receivable and make judgments as to the collectibility of each account. In general, accounts over 90 days overdue are allowed for fully, with certain exceptions where prior special arrangements are agreed to with the customer. In some cases an allowance is made before 90 days if we have a reasonable belief that the collection of the account is doubtful.

#### Property and Equipment

We evaluate, on a periodic basis, our property and equipment, to determine whether any events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. We base our evaluation on certain impairment indicators, such as the nature of the assets, the future economic benefit of the assets, any historical or future profitability measurements, as well as other external market conditions or factors that may be present. If these impairment indicators are present or other factors exist that indicate that the carrying amount of the asset may not be recoverable, we then use an estimate of the undiscounted value of expected future operating cash flows to determine whether the asset is recoverable and measure the amount of any impairment as the difference between the carrying amount of the asset and its estimated fair value. The fair value is estimated using valuation techniques such as market prices for similar assets or discounted future operating cash flows.

Amortization of property and equipment is on a straight-line basis over the asset's estimated useful life.

#### Contingencies

From time to time, we are subject to proceedings, lawsuits and other claims related to labor and other matters. We are required to assess the likelihood of any adverse judgments or outcomes to these contingencies as well as potential ranges of probable losses and establish reserves accordingly. We use professional judgment, legal advice, and estimates in the assessment of outcomes of contingencies. The amounts of reserve required, if any, may change in

future periods due to new developments in each matter or changes in approach to a matter such as a change in settlement strategy.

We are currently involved in litigation with a customer to collect amounts owing pursuant to a contract entered into in September 2000. The defendant provided a C\$100,000 deposit and contracted us to provide certain advertising services. We delivered the requested services throughout October and November 2000; however, the defendant defaulted on all additional payments. We are suing the defendant for the C\$351,800 balance owing, plus interest and costs. The defendant has filed a statement of defense and counterclaim to recover the C\$100,000 deposit. No court date has been set at this time. Although our management currently believes the outcome of the litigation will be in our favor, they have not elected to aggressively pursue the litigation at this time. We have made no provision for the counterclaim in the financial statements and any settlement or final award will be reflected in the statement of operations in the period the litigation is resolved.

In addition, we are subject to various other legal matters in the ordinary course of business. It is not possible at this time to predict with any certainty the outcome of such litigation. Our management believes that the ultimate resolution of these matters would not have a material effect on our financial position or results of operations.

#### CORPORATE DEVELOPMENTS DURING THE YEAR

A synopsis of corporate highlights for 2004 is as follows:

---

On June 2, 2004, we acquired the remaining interest in certain assets from StockHouse Media Corporation under a Joint Venture Development and Operating Agreement. We issued 1,020,000 common shares, valued at \$290,700 for the 35% remaining interest, and after the transaction owned 100% of the assets.

On August 10, 2004, we announced the appointment of Patrick Spain to our Board of Directors.

On December 31, 2004, Leslie Landes retired from the office of President and replaced Marcus New as Chairman of the Board. Marcus New remains a director and is now President and Chief Executive Officer.

#### MATERIAL OFF-BALANCE SHEET ARRANGEMENTS

We have no material off-balance sheet arrangements.

#### RISK FACTORS

The following factors should be considered carefully in evaluating the Company and its business.

*Our limited operating history makes it difficult for you to judge our prospects.*

We have a limited operating history upon which an evaluation of our current business and prospects can be based. You should consider any purchase of our shares in light of the risks, expenses and problems frequently encountered by all companies in the early stages of its corporate development, such as lack of capital, difficulty attracting high quality personnel, lack of market exposure, and uncertainty about the viability of our business plan.

*Computer equipment problems and failures could adversely affect business.*

Problems or failures in Internet-related equipment, including file servers, computers and software, could result in interruptions or slower response times for our Web-based services, which could reduce the attractiveness of our Web site, financial tools or investor relations services to advertisers and users. Should such interruptions continue for an extended period we could lose significant business and our reputation could be damaged. Equipment problems and failures could result from a number of causes, including an increase in the number of users of our Web site, computer viruses, outside programmers penetrating and disrupting software systems, human error, fires, floods, power and telecommunications failures and internal breakdowns. In addition, any disruption in Internet access and data feeds provided by third parties could have a material and adverse effect on our businesses. We do not maintain an off-site disaster recovery facility. As a result, if we experience a major disaster such as a fire, theft, or intentional destruction of our computer equipment, it could have catastrophic results for our business.

*We may not be able to compete successfully against current and future competitors.*

We currently compete with several other companies offering similar services. Many of these companies have significantly greater financial resources, name recognition, and technical and marketing resources, and virtually all of them are seeking to improve their technology, products and services. We can not assure you that we will have the financial resources or the technological expertise to successfully meet this competition.

*We are significantly influenced by our officers, directors and entities affiliated with them.*

In the aggregate, beneficial ownership of Stockgroup shares by management represents approximately 15% of issued and outstanding shares of common stock. These shareholders, if acting together, will be able to significantly influence all matters requiring approval by shareholders, including the election of directors and the approval of mergers or other business combinations transactions.

*We may be unable to protect the intellectual property rights upon which our business relies.*

We have or may pursue certain trademarks, and we have brand names, Internet domain names, Web site designs, programs and certain subscriber lists which make up the intellectual property we view as important to our business. It may be possible for a third party to copy or otherwise obtain or use our intellectual property without authorization or to develop similar technology independently. There can also be no assurance that our business activities will not infringe upon the proprietary rights of others, nor that other parties will not assert infringement claims against us, including claims that by, directly or indirectly, providing hyperlink text links to Web sites operated by third parties, we have infringed upon the proprietary rights of other third parties. Due to the global nature of the Internet, there can be no assurance that obtaining trademark protection in the United States will prevent infringements on our trademarks by parties in other countries. We have not sought or obtained any patents on our proprietary software and data processing applications.

*We may be held liable for online information or services provided by us or third parties.*

Because materials may be downloaded by the public on Internet services offered by us or the Internet access providers with whom we have relationships, and because third party information may be posted by third parties on our Web site through discussion forums and otherwise, there is the potential that claims will be made against us for defamation, negligence, copyright or trademark infringement or other theories. Such claims have been brought against providers of online services in the past. We have been named in two lawsuits in which defamation is alleged to have occurred on our Internet discussion forum called Bull Boards. The imposition of liability based on such claims could materially and adversely affect us.

Even to the extent such claims do not result in liability, we could incur significant costs in investigating and defending against such claims. The imposition on us of potential liability for information or services carried on or disseminated through our Web site could require implementation of measures to reduce exposure to such liability, which may require the expenditure of substantial resources and limit the attractiveness of services to members and users.

We post news clippings from other news Web sites on the StockHouse and SmallCapCenter Web sites with links to the source site. Most publishers currently encourage this practice, although certain publishers have requested that we cease posting their stories. We have complied with their request in each case. To the extent that a large majority of news publishers prohibit posting of their stories on our Web sites or begin charging royalty fees for such stories, our Web site traffic could decrease or our costs could increase, thereby adversely impacting our profitability.

Our general liability insurance will not cover all potential claims to which we are exposed or may not be adequate to indemnify us for all liability that may be imposed. Any imposition of liability that is not covered by insurance or is in excess of insurance coverage could have a material adverse effect on our business, results of operations and financial condition.

*Trading of our stock may be restricted by the SEC's penny stock regulations which may limit a stockholder's ability to buy and sell our stock.*

The Securities and Exchange Commission has adopted regulations which generally define penny stock to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and accredited investors. The term accredited investor refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the

compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

*Future issuances of shares may adversely impact the value of our stock.*

We may attempt to raise additional capital through the sale of common stock in the future. Future issuances of common stock may dilute your position in us.

*Our stock price is vulnerable to buying and selling pressures*

As there is a limited market for our common stock, there may be considerable volatility in our stock price due to selling and buying pressures. Future sales of shares by our existing or future shareholders could cause the market price of our common stock to decline. There are currently approximately 31 million outstanding shares of our common stock which may be traded without restriction in any country.

*Our board of directors may authorize and issue preferred shares*

Our board of directors has the authority to issue preferred shares with rights, preferences and/or privileges senior to or on parity with the rights of the holders of common stock. The potential consequences to our investors include a loss of perceived value of the stock in the market and a loss of future earnings and dividends, if and when dividends are declared.

Item 7. Financial Statements

Consolidated Financial Statements

**Stockgroup Information Systems Inc.**

December 31, 2004 and 2003

---

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Board of Directors and Shareholders of

**Stockgroup Information Systems Inc.**

We have audited the accompanying consolidated balance sheets of **Stockgroup Information Systems Inc.** (and subsidiaries) as of December 31, 2004 and 2003, and the related consolidated statements of operations, stockholders' equity (deficiency) and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of **Stockgroup Information Systems Inc.** (and subsidiaries) at December 31, 2004 and 2003, and the consolidated results of their operations and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

/s/ Ernst & Young LLP

Vancouver, Canada,

March 4, 2005.

## **1. NATURE OF BUSINESS AND BASIS OF PRESENTATION**

Stockgroup Information Systems Inc. (the Company) is a financial media and technology company that provides various financial Internet solutions, tools, content and services to media, corporate, and financial services companies. The Company employs proprietary technologies that enable it to provide its clients with financial data streams and news combined with fundamental, technical, productivity, and disclosure tools. The Company also provides advertising services through its [www.stockhouse.com](http://www.stockhouse.com) financial Web site.

The Company was incorporated under the laws of Colorado on December 6, 1994.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **Principles of consolidation**

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Stockgroup Media Inc. (British Columbia, Canada), Stockgroup Systems Ltd. (Nevada, United States), Stockgroup Australia, Pty Ltd. and 579818 B.C. Ltd. (British Columbia, Canada). All significant intercompany accounts and transactions have been eliminated.

### **Use of estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

### **Revenue recognition**

The Company generates its revenues from two primary sources: Public Company Disclosure and Awareness Products and Advertising and Financial Software and Content Systems.

Public Company Disclosure and Awareness Products and Advertising consist of Internet advertising, e-mail advertising, investor relations Web page services. These services are sold either individually or bundled together into comprehensive programs.

Investor relations Web page services, sold under the name IntegrateIR, are delivered to the client's investor relations page of their Web site via an Internet data feed, in real time and on a continuous basis for an agreed period of time, normally 12 months. Revenue is recognized ratably, according to the agreed fixed rate, on a monthly basis once the IntegrateIR data feed has been activated. Setup fees, if any, are recognized ratably over the initial term of the agreement, on a monthly basis.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont d.)

Advertising on the Company's investment-oriented Web sites consists of continuous or rotating advertisements and client profiles on various specialized Web pages within StockHouse.com, Smallcapcenter.com and InvestorMarketPlace.com. Delivery of these profiles is based either on a certain number of days appearing on the Web pages or a certain quantity of impressions, profile views or click-throughs, depending on the agreement. An impression is a single instance of an Internet user viewing the page that contains the client's name and/or logo. A profile view is a single instance of an Internet user clicking on the client's profile link. A click-through is a single instance of an Internet user clicking on the client's profile and being redirected to the client's Web site. Revenue is recognized on such advertising programs based on the proportionate units of advertising delivered each month.

E-mail services are mailings to a targeted list of e-mail addresses, with delivery consisting solely of transmitting the mailing to the e-mail targets. Each transmittal is called a flight. E-mail services may be bought on a per-flight basis, for which revenue is recorded when the flight occurs, or on a fixed-fee monthly basis in which the client receives access to a fixed number of flights per month. The Company records the revenue on the fixed fee monthly e-mail services on a pro-rata basis over the term of the agreement.

Financial Software and Content Systems consists of real time, time delayed and wireless quotes and charts, company profiles, investment data and technical analysis. Revenue from set up fees, periodic maintenance fees and contractual monthly licensing fees for ongoing use of financial tools and content is recognized ratably over the contract term, which is typically 24 months.

All Financial Software and Content Systems services are delivered via an Internet data feed from the Company's Web servers to the clients' sites on a continuous real time basis. Revenue begins to be earned on the day the data feed is activated and begins to deliver content to the client site. Revenue is earned on a fixed monthly fee, with some clients paying a page-view overage fee over a certain number of page-views. The page-view overages, if any, are billed to the client and recorded on a monthly basis as they occur and usually represent a small portion of the overall monthly fee from each customer.

All sources of revenue are recorded pursuant to SAB 104 Revenue Recognition, when persuasive evidence of an arrangement exists, delivery of services has occurred, the fee is fixed or determinable and collectibility is reasonably assured.

The Company is not subject to specific performance criteria that would give rise to refund rights for services it provides.

Payments received in advance of services provided are recorded as deferred revenue.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont d.)

### Cost of Revenues

Costs of revenue are recorded if the cost relates directly to the services the Company sells or to its revenue-generating Web sites, namely StockHouse.com/ca, Smallcapcenter.com, and InvestorMarketPlace.com. Cost of revenues consist of subscription fees for access to data feeds of financial and business databases, Internet bandwidth, direct advertising purchases, and direct labor. Data feeds are a key component of many of the Company's Financial Software and Content Systems services, as well as a key input into its revenue-generating Web sites. Bandwidth is consumed by the Company's revenue-generating Web sites, by its Financial Software and Content Systems services, by its IntegrateIR service, and by its e-mail mailing services. Direct advertising purchases relate to Internet advertising purchases for the purpose of promoting a client or clients' feature on one of the Company's Web sites. Direct labor is the hourly labor cost of certain programmers and designers who implement or maintain licensed client feeds, design advertising for clients, and produce e-mail mailings for clients. Direct labor costs are fully recognized as cost of revenues in the period in which the associated revenue is recognized. All other costs of revenues are recognized in the period incurred.

### Foreign exchange

The reporting currency and the functional currency of the Company is the U.S. dollar. The accounts of the Company's Canadian subsidiary are translated into U.S. dollars such that monetary assets and liabilities are translated at exchange rates in effect at the balance sheet date and non-monetary items are translated at exchange rates prevailing at the transaction date. Operating revenues and expenses are translated at average exchange rates prevailing during the year. Any corresponding foreign exchange gains and losses are included in income.

Foreign currency transactions are translated into U.S. dollars at the rate of exchange in effect at the date of the transaction. Foreign currency balances of monetary assets and liabilities are translated using the rate of exchange in effect at the balance sheet date. Foreign exchange gains and losses on transactions during the year and on the year end translation of the accounts are included in income.

### Fair value of financial instruments

The Company's financial instruments consist of cash and cash equivalents, marketable securities, accounts receivable, and accounts payable. Unless otherwise stated the fair value of the financial instruments approximates their carrying

value.

**Allowance for Doubtful Accounts**

The Company evaluates its accounts receivable and makes judgments as to the collectibility of each account. In general, accounts over 90 days overdue are allowed for fully, with certain exceptions where prior special arrangements are agreed to with the customer. In some cases an allowance is made before 90 days if we have a reasonable belief that the collection of the account is doubtful.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont d.)

### Cash and cash equivalents

Cash and cash equivalents consist of cash and short-term deposits with original maturities of ninety days or less and are recorded at mark to market.

### Marketable securities

Marketable securities consist of equity instruments available for sale and are recorded at fair value based on quoted market prices. Both realized and unrealized gains and losses are included in the statement of operations.

### Property and equipment

Property and equipment are carried at cost. Amortization is provided using the straight line method over the assets estimated useful lives as follows:

Computer equipment

5 years

Computer equipment under capital lease

2 years

Computer software

1 year

Website software

3 years

Office furniture and equipment

5 years

Leasehold improvements

Term of the lease

**Product development costs**

Product development costs other than those incurred during the application development stage are expensed as incurred. Costs incurred during the application development stage are required to be capitalized and amortized over the estimated useful life of the software. Substantially all of the Company's product development costs are for ongoing operating and maintenance and have been expensed in the period incurred.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont d.)**

### **Income taxes**

The Company utilizes the liability method of accounting for income taxes. Under this method, deferred taxes are determined based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates. A valuation allowance is provided against deferred tax assets for which it is more likely than not that the asset will not be realized.

### **Stock-based compensation**

The Company accounts for stock-based employee compensation arrangements using the intrinsic value method in accordance with the provisions of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees ( APB 25 ) and complies with the disclosure provisions of Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation ( SFAS 123 ), as amended by Statement of Financial Accounting Standards No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure - an amendment of FASB Statement No. 123 ( SFAS 148). The pro-forma disclosure of stock based compensation is included in Note 8[c].

Under APB 25, compensation expense for employees is based on the difference between the fair value of the Company's stock and the exercise price if any, on the date of the grant. The Company accounts for stock issued to non-employees at fair value in accordance with SFAS 123. The Company uses the Black-Scholes option pricing model to determine the fair value of stock options granted to non-employees.

### **Earnings per share**

Basic earnings (loss) per share is computed based on the weighted average number of common shares outstanding during each year. Diluted earnings (loss) per share reflects the dilutive potential of outstanding securities using the treasury stock method.

### **Comprehensive income**

Comprehensive income includes all changes in equity except those resulting from investments by owners and distributions by owners. Comprehensive income comprises only net income for all years presented.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont d.)

### Recent pronouncement

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123 (revised 2004), Share-Based Payment ( SFAS 123(R) ), which is a revision of SFAS 123. SFAS 123(R) supersedes APB 25, Accounting for Stock Issued to Employees, and amends FASB Statement No. 95, Statement of Cash Flows. Generally, the approach in SFAS 123(R) is similar to the approach described in SFAS 123. However, SFAS 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure, as was permitted under SFAS 123, is no longer an alternative.

SFAS 123(R) must be adopted no later than January 1, 2006. Early adoption is permitted in periods in which financial statements have not yet been issued.

Statement 123(R) permits public companies to adopt its requirements using one of two methods:

A "modified prospective" method in which compensation cost is recognized beginning with the effective date (a) based on the requirements of SFAS 123(R) for all share-based payments granted after the effective date and (b) based on the requirements of SFAS 123 for all awards granted to employees prior to the effective date of SFAS 123(R) that remain unvested on the effective date. A "modified retrospective" method which includes the requirements of the modified prospective method described above, but also permits entities to restate based on the amounts previously recognized under SFAS 123 for purposes of pro forma disclosures either (a) all prior periods presented or (b) prior interim periods of the year of adoption.

The Company expects to adopt SFAS 123(R) on January 1, 2006 using the modified-prospective method.

As permitted by SFAS 123, the Company currently accounts for share-based payments to employees using APB 25's intrinsic value method, and as such, generally recognizes no compensation cost for employee stock options. Accordingly, the adoption of SFAS 123(R)'s fair value method will have a significant impact on the Company's statement of operations, although it will have no impact on the Company's overall financial position. The impact of adoption of SFAS 123(R) cannot be predicted at this time because it will depend on levels of share-based payments granted in the future. However, had the Company adopted SFAS 123(R) in prior periods, the impact of that standard would have approximated the impact of SFAS 123 as described in the disclosure of pro forma net income and

earnings (loss) per share in Note 8[c] to these consolidated financial statements.

Comparative figures

The Company has reclassified certain of the figures presented for comparative purposes to conform with the financial statement presentation adopted in the current year.

### 3. CONCENTRATION OF CREDIT RISK

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of cash and cash equivalents and trade receivables.

The Company performs ongoing credit evaluations of its customers and maintains allowances for potential credit losses. Two customers each account for greater than 10% of the outstanding receivables at December 31, 2004. One customer accounts approximately 14% of the outstanding receivables at December 31, 2003.

### 4. PROPERTY AND EQUIPMENT

### 5. ASSET ACQUISITION

On June 24, 2002, the Company acquired certain Web site and related software assets of StockHouse Media Corporation ( StockHouse ). Under the terms of the agreement, the Company purchased a 65% interest in the assets by issuing 2,080,000 shares of unregistered common stock with a fair value of \$424,320. The assets acquired consisted of program source codes underlying the website for \$347,122, and prepaid operating costs of \$77,198.

The prepaid operating costs of \$77,198 were expensed fully in 2002. The website software is being amortized over a three year period commencing on the date of acquisition.

On June 2, 2004, the Company exercised its option to acquire the remaining 35% of the Web site and related software assets of StockHouse with the issuance of 1,020,000 additional common shares with a fair value of \$290,700.

## 6. CAPITAL LEASE OBLIGATION

The Company has capital lease agreements for computer equipment with lease obligations as follows:

	2004	2003
	\$	\$
Total future lease payments		40,758
Less interest (effective rate during 2003 - 17%)		(1,838)
		38,920
Less current portion		(38,920)

## 7. CONVERTIBLE NOTES

At January 1, 2003, the Company had a convertible note liability of \$1,568,134 payable to two lenders.

On January 2, 2003, \$20,000 of the principal was repaid in cash.

On January 28, 2003, one of the noteholders converted its entire principal balance of \$392,984 into 1,228,075 common shares at a negotiated conversion price of \$0.32. The discount on the original conversion price of \$0.50 was deemed an inducement to convert, resulting in an interest expense of \$145,895 representing the excess of the fair value of the notes after inducement over the fair value before inducement. The unamortized debt discount on the portion of the total principal was fully expensed on the conversion date, resulting in an interest expense of \$31,711.

On February 3, 2003, the remaining noteholder converted \$50,000 of principal into 100,000 common shares at \$0.50.

On April 1, 2003, \$15,332 of the principal was repaid in cash.

On May 12 and May 28, 2003, the remaining noteholder converted its entire principal balance of \$1,225,684 into 4,380,000 common shares at a negotiated conversion price of \$0.28. The discount on the original conversion price of \$0.50 was deemed an inducement to convert, resulting in an interest expense of \$578,590 representing the excess of the fair value of the notes after inducement over the fair value before inducement. The unamortized debt discount on the portion of the total principal was fully expensed on the conversion date, resulting in an interest expense of \$69,437.

During the year ended December 31, 2003, and prior to the conversions, \$34,718 of the debt discount was amortized [2002 - \$101,898].

The callable Series 1 warrants issued in the original financing arrangement still exist and permit the holders to acquire up to 281,818 common shares at an exercise price of \$3.00 at any time up to March 31, 2005. The warrants may be called by the Company, at a purchase price of \$.01 per underlying share, if the stock price of the Company's common shares exceeds \$6.00 for any 20 consecutive trading days, provided that the holders have the right to exercise the warrants within 30 days after their receipt of such a call. At December 31, 2004 all 281,818 warrants were unexercised and outstanding.

## 8. SHARE CAPITAL

[a]

### Authorized

The Company is authorized to issue up to 75,000,000 shares of common stock and 5,000,000 shares of preferred stock. No preferred stock is issued and outstanding in the years presented.

[b]

### Common stock

#### 2004

During the year ended December 31, 2004 the Company issued 1,432,500 common shares, which are summarized as follows:

On June 2, 2004, 1,020,000 common shares were issued to StockHouse Media Corporation for the remaining 35% interest in certain Web assets. The shares had a fair value of \$290,700 based on the market value on that date *[note 5]*.

During the year ended December 31, 2004, 412,500 common shares were issued pursuant to exercises of stock options for gross proceeds of \$58,875.

#### 2003

During the year ended December 31, 2003 the Company issued 12,946,125 common shares, which are summarized as follows:

On January 28, 2003, 1,228,075 common shares were issued pursuant to a conversion of \$392,984 of principal of convertible notes at \$0.32. On February 3, 2003 100,000 common shares were issued pursuant to a conversion of \$50,000 of principal of convertible notes at \$0.50. On May 12 and May 28, 2003, a total of 4,380,000 common shares were issued pursuant to a conversion of \$1,225,684 of principal of convertible notes at \$0.28. In total, 5,708,075 common shares were issued pursuant to conversions of principal of convertible notes.

During the year ended December 31, 2003, 126,400 common shares were issued pursuant to exercises of stock options for gross proceeds of \$18,960.

During the year ended December 31, 2003, 3,368,850 common shares were issued pursuant to exercises of warrants for gross proceeds of \$875,000.

On June 4, 2003 and July 16, 2003, 2,746,800 units and 996,000 units respectively were issued under a Short Form Offering, for a total of 3,742,800 units. The price of each unit was C\$0.37 (approximately \$0.27) for gross proceeds of C\$1,384,836 (approximately \$1,017,643). Financing and legal fees were \$177,084, resulting in net cash proceeds of \$840,559. The net proceeds were allocated to common stock and warrants based on the relative fair value of each security at the time of issuance. Each unit consists of one common share and one Series 8 non-transferable share purchase warrant. Two Series 8 warrants are exercisable for one common share at C\$0.75 until one year after the issue date. In conjunction with the Short Form Offering, the Company issued 374,280 Agent Option units to the placement agents. The Agent Option units consist of 374,280 Series 9 warrants which expire two years after the issue date. Each Series 9 warrant is exercisable at C\$0.37 for one common share and one Series 10 warrant. Two Series 10 warrants are exercisable for one common share at C\$0.75 until one year after the issue date. Subsequently, the exercise price of the Series 8 and Series 10 warrants was reduced to C\$0.60 and the expiry dates were extended by an additional six months pursuant to an application that was approved by the TSX Venture Exchange on February 5, 2004.

**8. SHARE CAPITAL (cont d.)**

[c]

**Stock options****1999, 2000, 2001, 2002, and 2003 Incentive Stock Option Plans (collectively the Plans )**

The following table sets out the authorized shares under each plan:

	<b>Effective Date</b>	<b>Common Shares Authorized</b>
1999 Incentive Stock Option Plan	March 11, 1999	450,000
2000 Incentive Stock Option Plan	November 10, 2000	102,500
2001 Incentive Stock Option Plan	September 20, 2001	733,200
2002 Incentive Stock Option Plan	March 25, 2002	634,900
2003 Incentive Stock Option Plan	January 21, 2004	3,300,000
Total authorized		5,220,600

The Plans entitle directors, employees and consultants to purchase common shares of the Company.

Options immediately become exercisable once vested. Any options that do not vest as the result of a grantee leaving the Company are forfeited and the common shares underlying them are returned to the reserve if they were granted under the 2003 plan, otherwise they are not returned to the reserve.

When the Company became listed on the TSX Venture Exchange on December 17, 2002, it ceased issuing options under its 1999, 2000, 2001, and 2002 Plans, and filed a new 2003 Plan which conforms with the TSX Venture Exchange rules. The 898,278 shares previously available under the 1999, 2000, 2001, and 2002 Plans were effectively rendered unavailable by this undertaking. All outstanding options under the old Plans continue to be exercisable as vested until they are forfeited or expire.

Activity under the Plans is set forth below:

	Shares available for grant	Number of shares	Options Outstanding Price per share	Weighted average exercise price
Balance at December 31, 2002	898,278	2,602,700	\$ 0.12 - 0.59	\$ 0.20
Additional shares authorized	(898,278)			—
Options granted				—
Options forfeited		(95,700)	\$ 0.15 - 0.40	\$ 0.32
Options exercised		(126,400)	\$ 0.15	\$ 0.15
Balance at December 31, 2003		2,380,600	\$ 0.12 - 0.59	\$ 0.20
Additional shares authorized	3,300,000			—
Options granted	(1,863,500)	1,863,500	\$ 0.21 0.31	\$ 0.28
Options forfeited	186,000	(233,500)	\$ 0.15 0.31	\$ 0.29
Options exercised		(412,500)	\$ 0.12 - 0.15	\$ 0.14
Balance at December 31, 2004	1,622,500	3,598,100	\$ 0.12 - 0.59	\$ 0.24

**8. SHARE CAPITAL (cont d.)**

The weighted average remaining contractual life and weighted average exercise price of options outstanding and of options exercisable as of December 31, 2004 are as follows:

Exercise Price	Number of shares outstanding	Options Outstanding		Options Exercisable	
		Weighted average remaining contractual life (years)	Weighted average exercise price	Shares exercisable	Weighted average exercise price
\$ 0.12 - \$0.22	1,868,100	3	\$ 0.17	1,788,300	\$ 0.19
\$ 0.26 - \$0.30	1,397,500	4	\$ 0.28	410,938	\$ 0.28
\$ 0.31	282,500	3	\$ 0.31	123,125	\$ 0.31
\$ 0.59	50,000	2	\$ 0.59	30,000	\$ 0.59
	3,598,100	4	\$ 0.24	2,352,363	\$ 0.22

For the years ended December 31, 2004 and 2003 the Company recorded no stock based compensation expense.

**Pro forma disclosure of stock based compensation**

Pro forma information regarding results of operations and loss per share is required by SFAS 123 for stock-based awards to employees as if the Company had accounted for such awards using a valuation method permitted under SFAS 123.

The fair value of the Company's stock-based awards granted to employees in 2004 was estimated using the Black-Scholes option pricing model and amortized over the vesting period. The option pricing assumptions include a dividend yield of 0% [2003 - 0%], a weighted average expected life of 4 years [2003 - 4.5 years], a risk free interest rate of 3.51% [2003 - 3.83%], and an expected volatility of 66% [2003 - 214%]. The weighted average fair value of options granted during 2004 was \$0.28 [2003 - \$0.18]. For pro forma purposes, the estimated value of the Company's stock-based awards to employees is amortized over the vesting period of the underlying options. The effect on the Company's net loss and loss per share of applying SFAS 123 to the Company's stock-based awards to employees would approximate the following:

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10KSB

	2004	2003
	\$	\$
Net income (loss)	15,623	(1,628,470)
Compensation expense	(185,140)	(8,177)
Pro forma net loss	(169,517)	(1,636,647)
<b>Basic and diluted income (loss) per share</b>		
As reported	0.00	(0.06)
Pro forma	(0.01)	(0.06)

**9. SEGMENTED INFORMATION**

The Company operates in one industry segment and derives its revenue from the following services noted in the table below. The Company defines reportable operating segment as components of the Company about which separate financial information is available and which is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance.

	<b>2004</b>	<b>2003</b>
	<b>\$</b>	<b>\$</b>
Public Company Disclosure and Awareness		
Products and Advertising	<b>3,129,930</b>	1,851,489
Financial Software and Content Systems	<b>1,693,297</b>	1,168,910
	<b>4,823,227</b>	3,020,399

Revenue from external customers, by country of origin, is as follows:

	<b>2004</b>	<b>2003</b>
	<b>\$</b>	<b>\$</b>
Canada	<b>2,861,489</b>	1,405,910
United States	<b>1,961,738</b>	1,564,425
Australia		50,064
	<b>4,823,227</b>	3,020,399

During 2004 and 2003, the Company had no customers whose revenue represented greater than 10% of total revenue.

Substantially all of the Company's property and equipment is located in Canada. Its current and planned future operations are, and will be, located in Canada.

In the normal course of business, the Company entered into a non-monetary transaction with a bandwidth provider on March 27, 2003, in which the Company received bandwidth in exchange for advertising services on the Company's Web sites. The agreement was for a one year term. The non-monetary transaction resulted in revenue of \$50,711 for the year ended December 31, 2004 [2003 - \$24,497], with a corresponding expense included in cost of revenues in each period. The non-monetary pricing was at market prices based on equivalent services paid for in cash during the same period. No other non-monetary transactions were recorded in the years ended December 31, 2004 and 2003.

---

## 10. INCOME TAXES

The Company is subject to United States federal and state income taxes at an approximate rate of 35%. The reconciliation of the provision (recovery) for income taxes at the United States federal statutory rate compared to the Company's income tax expense as reported is as follows:

	<b>2004</b>	<b>2003</b>
	\$	\$
Tax expense (recovery) at U.S. statutory rates	<b>5,000</b>	(570,000)
Lower (higher) effective income taxes of Canadian subsidiary	-	(12,000)
Change in valuation allowance	<b>516,000</b>	306,000
Change in foreign exchange rates	<b>(441,000)</b>	0
Non-deductible expenses	<b>(57,000)</b>	276,000
Other	<b>(23,000)</b>	
Income tax provision (recovery)		

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

Significant components of the Company's deferred tax assets as of December 31 are as follows:

<b>2004</b>	<b>2003</b>
\$	\$

Net operating loss carryforwards	<b>3,231,000</b>	2,933,000
Net capital loss carryforwards	<b>110,000</b>	82,000
Property and equipment	<b>581,000</b>	448,000
Other	<b>298,000</b>	241,000
Total deferred tax assets	<b>4,220,000</b>	3,704,000
Valuation allowance	<b>(4,220,000)</b>	(3,704,000)
Net deferred tax assets		

The Company has recognized a valuation allowance for the deferred tax assets for which it is more likely than not that realization will not occur.

**10. INCOME TAXES (cont d.)**

The net operating loss carryforwards expire as follows:

	\$
<b>Canada</b>	
2006	2,004,000
2007	2,998,000
2008	602,000
	5,604,000
<b>U.S.</b>	
2019	1,173,000
2020	1,494,000
2021	135,000
2022	237,000
2023	436,000
2024	58,000
	3,533,000
<b>Total</b>	13,086,000

The Company also has net capital losses of \$310,000 available to offset future taxable capital gains in Canada.

Pursuant to Section 382 of the Internal Revenue Code, use of the Company's net operating loss carryforwards may be limited if the Company experiences a cumulative change in ownership of greater than 50% in a moving three year period. Ownership changes could impact the Company's ability to utilize net operating losses and credit carryforwards remaining at the ownership change date. The limitation will be determined by the fair market value of common stock outstanding prior to the ownership change, multiplied by the applicable federal rate. The Canadian non-capital loss carryforwards may also be limited by a change in Company ownership.

**11. COMMITMENTS AND CONTINGENCIES**

[a]

The Company has operating lease commitments with respect to office premises with minimum annual payments that expire in 2006 as follows:

	\$
2005	307,000
2006	241,000
2007	93,000
2008	43,000
	684,000

Rental expense included in general and administrative expenses for the year ended December 31, 2004 was \$274,000 [2003 - \$202,000].

[b]

The Company is currently involved in litigation with a customer to collect amounts owing pursuant to a contract entered into in September 2000. The defendant provided a C\$100,000 deposit and contracted the Company to provide certain lead generation services. The Company delivered the requested services throughout October and November 2000, however, the defendant defaulted on all additional payments. The Company is suing the defendant for the C\$351,800 balance owing, plus interest and costs. The defendant has filed a statement of defense and counterclaim to recover the C\$100,000 deposit. As of December 31, 2004, no further action had been taken by either party and no court date has been set. Although management currently believes the outcome of the litigation will be in the Company's favor, it has not elected to aggressively pursue the litigation at this time. The Company has made no provision for the counterclaim in the financial statements and any settlement or final award will be reflected in the statement of operations as the litigation is resolved.

The Company is currently involved in litigation with a vendor to recover approximately C\$471,000 in unused advertising credits which were prepaid in 1999. The case is currently pending final resolution and there is considerable uncertainty as to what value, if any, will be derived if the Company wins the lawsuit. No provision has been made for recovery of these credits in the financial statements in any year.

In addition, the company is subject to various other legal matters in the ordinary course of business. It is not possible at this time to predict with any certainty the outcome of such litigation. Management believes that the ultimate resolution of these matters would not have a material effect on the Company's financial position or results of operations.

**12. SUPPLEMENTAL CASH FLOW INFORMATION**

Net changes in operating assets and liabilities are as follows:

	<b>2004</b>	<b>2003</b>
	\$	\$
Marketable securities	(4,745)	(1,418)
Accounts receivable	(333,119)	(159,532)
Prepaid expenses	(34,778)	22,470
Accounts payable and accrued liabilities	102,736	(96,161)
Accrued payroll liabilities	(10,978)	5,278
Accrued interest on notes payable		(13,371)
Deferred revenue	304,536	178,625
	<b>23,652</b>	<b>(64,109)</b>

Non-cash investing and financing activities are as follows:

	<b>2004</b>	<b>2003</b>
	\$	\$
Asset acquisition completed with the issuance of common stock	<b>290,700</b>	

Cash amounts paid for interest are as follows:

	<b>2004</b>	<b>2003</b>
	\$	\$
Cash paid for interest	<b>2,083</b>	35,519

**13. ACCOUNTING FOR AND DISCLOSURE OF GUARANTEES**

The Company from time-to-time enters into certain types of contracts that contingently require the Company to indemnify parties against third party claims. These contracts primarily relate to: (i) service agreements, under which

the Company may be required to indemnify clients for liabilities relating to data transmission and dissemination; and (ii) certain agreements with the Company's officers, directors and employees and third parties, under which the Company may be required to indemnify such persons for liabilities arising out of their duties to the Company.

The Company regularly enters into service level agreements with clients, under which the Company guarantees consistent streaming of data within certain pre-defined tolerances.

The terms of such obligations vary. Generally, a maximum obligation is not explicitly stated. Because the obligated amounts of these types of agreements often are not explicitly stated, the overall maximum amount of the obligations cannot be reasonably estimated. Historically, the Company has not been obligated to make significant payments for these obligations, and no liabilities have been recorded for these obligations on its balance sheet as of December 31, 2004 and December 31, 2003.

#### **14. SUBSEQUENT EVENTS**

On January 27, 2005, the Company terminated the lease of its New York office. Under the terms of the termination agreement, the Company paid a \$40,000 termination fee, forfeited its right to a \$40,000 security deposit and paid 50% of back rent owing which totaled \$26,000. The termination fee and the security deposit forfeiture will be recorded in the financial statements for the quarter ending March 31, 2005.

Item 8. Changes in and disagreements with accountants on accounting and financial disclosure.

There are no disagreements with accountants on accounting and financial disclosure.

Item 8A. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective in ensuring that information required to be disclosed by us in reports that we file or submit under the Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Our management, including the Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures will prevent all errors and all fraud. Because of inherent limitations on any systems of disclosure controls and procedures, no evaluation of controls can provide absolute assurance that all errors or fraud, if any, within a Company may be detected.

(b) Changes in internal controls.

There were no significant changes in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

Part III

Item 9. Directors, executive officers, promoters and control persons; compliance with section 16(a) of the Exchange Act.

The following table sets forth, as of the date of this filing, the name, age and position of our directors, executive officers and other significant employees:

The backgrounds of our directors, executive officers and significant employees are as follows:

Marcus A. New, B.A., President and Chief Executive Officer

Marcus New is our founder, and has been our Chief Executive Officer since May 1995.

Leslie A. Landes, Chairman of the Board

## Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10KSB

Les Landes has served as a Director since June 1999, as our President and Chief Operating Officer from August 1998 to December 2004. Mr. Landes is also a director of TIR Systems Ltd. and Liquidation World, Inc., both of which are Toronto Stock Exchange listed companies.

David E. Gillard, CGA, Chief Financial Officer

David Gillard has been Chief Financial Officer of Stockgroup since November 2001, and prior to that he had been with us in the capacity of Controller since March 2000. Before joining us, he was in the accounting and finance department of Maynards Industries Ltd. from 1993 to 2000.

David N. Caddey, B.Sc., M.Sc., Director

David Caddey has been a Director since June, 1999. Since July, 1998 he has served as an Executive Vice President of MacDonald Dettwiler and Associates Ltd., an information and space technology company that designs, manufactures, operates and markets a broad range of high technology products and services. MacDonald Dettwiler is listed on the Toronto Stock Exchange.

Louis (Lee) deBoer II, Director

Lee deBoer has served as a Director since August 1999. Since May of 1998, he has served as President of MediaFutures, Inc., which provides consulting services to clients in the Internet and cable broadcasting industries.

From July 2000 through June 2001, he also served as CEO of Automatic Media Incorporated, an Internet media and software firm based in New York City. Mr. deBoer is also a director of Click TV, a television production company in the United Kingdom and Priva Technologies, both of which are non-reporting private companies.

Jeffrey D. (Jeff) Berwick, Director

Jeff Berwick has served as a director from July 2002 to present. Mr. Berwick is the founder and was CEO of StockHouse Media Corporation (SMC) from 1995 until 2002 when

StockHouse was sold to Stockgroup Information Systems. During his tenure at SMC, Mr. Berwick raised over \$30 million USD in financing and expanded the company to over 240 staff in eight countries in North America, Europe and Asia.

#### Code of ethics

We have adopted a code of ethics that applies to our Chief Executive Officer, our President, our Chief Financial Officer/Principal Accounting Officer. The text of our code of ethics may be viewed on our website at [www.stockgroup.com](http://www.stockgroup.com).

#### Committees

##### Audit Committee

Our Audit Committee is composed of David Caddey, Lee deBoer, and Jeff Berwick. None of our Audit Committee members are financial experts as defined in item 401(e) of Regulation S-B. The reason for our lack of a financial expert is that our limited resources have made obtaining the services of a financial expert prohibitively expensive. The Audit Committee met four times in 2004.

##### Compensation Committee

Our Compensation Committee is composed of Lee deBoer, David Caddey, and Jeff Berwick. The Compensation Committee was appointed June 25, 2004 and met once during 2004.

##### Nominating and Corporate Governance Committee

## Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10KSB

Our Nominating and Corporate Governance Committee is composed of David Caddey, Lee deBoer, and Jeff Berwick, and was formed on June 25, 2004. It did not meet during 2004.

Section 16(a) beneficial ownership reporting compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), requires the Company's directors and executive officers, and persons who own more than 10% of the Company's outstanding common stock, to file initial reports of ownership and reports of changes in ownership of common stock with the SEC. Such persons are required by SEC regulations to furnish the Company with copies of all Section 16(a) reports they file.

Based solely on its review of such reports received by the Company with respect to fiscal 2004 and written representations from such reporting persons, the Company believes that all reports required to be filed under Section 16(a) have been timely filed by such persons, other than certain Form 5 reports which have been filed since fiscal 2004 year end.

### Item 10. Executive Compensation

The following summary compensation table reflects all compensation awarded to, earned by, or paid to the Chief Executive Officer and the President for all services rendered to us in all capacities during each of the years ended December 31, 2003 and 2004. No other executive officer received salary and bonus exceeding \$100,000 during those years.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10KSB

	2004	115,252	0	0	0	0	0	0

Option Grants In the Last Fiscal Year To Named Executive Officers

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10KSB

Name	Securities Underlying Options Granted	% Of Net Options Granted to Employees In Year	Exercise Price \$	Expiration Date
Marcus New	652,500	35%	\$ 0.27	February 9, 2009
Leslie Landes	NIL			

No Restricted Stock Awards (RSAs), Stock Appreciation Rights (SARs), or Long Term Incentive Plans (LTIPs) were awarded to named executive officers in any of the above years.

The following table summarizes the option holdings of the named executive officers as at December 31, 2004:

AGGREGATED OPTION EXERCISE IN LAST FISCAL YEAR AND FISCAL YEAR END OPTION VALUES

Name	Shares acquired on Exercise	Value Realized	Number of Shares underlying Unexercised Options At December 31, 2004		Value of Unexercised In-the Money Options at December 31, 2004	
			Exercisable	Unexercisable	Exercisable	Unexercisable
Marcus New	0	\$ 0	963,126	489,374	\$ 151,681	\$ 44,044
Leslie Landes	250,000	\$ 32,872	583,200	0	\$ 85,148	\$ 0

Directors' Compensation

Stockgroup compensates its outside directors with cash and stock options. Each outside director receives an annual fee of \$1,000, plus \$300 per meeting attended, or \$750 for certain meetings which, in our discretion, involve unusual amounts of time or work. In addition, each outside director receives 100,000 options to acquire shares of common stock, with the exercise price being the market price of our common stock on the date of grant. Directors who are re-elected and continue to serve for more than one year will receive an additional 50,000 options after each annual general meeting.

## Employment and severance agreement

We have an Executive Employment Agreement with our CEO, Marcus A. New, which took effect February 9, 2004. Under the Agreement, Mr. New receives a base salary of \$11,235 per month, (\$134,820 per annum) with a minimum 5% annual escalation. In addition, Mr. New has an incentive bonus plan based on us achieving certain profitability goals in calendar years after 2003, and on financing, merger, and acquisition transactions. Under the agreement he received on February 9, 2004 652,500 stock options at \$0.27, which vest evenly over two years. Should we elect to terminate Mr. New's employment without cause, he will be paid a minimum lump sum equal to 22 months' base salary, as adjusted, plus a buyout of his stock options at their intrinsic value. The Agreement contains a confidentiality clause and one year non-competition covenant upon termination of employment. There is no specified termination date in the Agreement.

We have a Management Agreement with our President, Leslie A. Landes. The Agreement was amended on October 8, 2004 and expires August 4, 2005. Under the amended Agreement, Mr. Landes is scheduled to receive a minimum compensation of C\$12,500 (approximately US\$9,604) per month until December, 2004, after which his role changed to Chairman of the Board and his compensation became C\$6,250 (approximately US\$5,193) per month. The Agreement may be terminated by us or Mr. Landes on 30 days notice, and if early termination is initiated by Stockgroup without cause, Mr. Landes is to receive a severance payment equal to 12 months' compensation.

## Item 11. Security Ownership of Certain Beneficial Owners and Management

The following table sets forth as of March 11, 2005 the beneficial ownership of common stock of each person known to us who owns more than 5% of issued and outstanding common stock.

Name and address of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percent of Class
Marcus A. New 500-750 W Pender St, Vancouver, BC, Canada	3,420,126	10%
Yvonne New 500-750 W Pender St, Vancouver, BC, Canada 518464 B.C. Ltd.	2,214,500	7%
500-750 W Pender St, Vancouver, BC, Canada U.S. Global Funds	1,945,000	6%
7900 Callaghan Road, San Antonio, TX 78229	2,400,000	7%

On March 11, 1999, we entered into a Share Exchange and Share Purchase Agreement with 579818 B.C. Limited, a British Columbia corporation, Stock Research Group, Inc., a British Columbia corporation, and all of the shareholders of Stock Research Group. Under that agreement we acquired all of the issued and outstanding shares of Stock Research Group in consideration of which 579818 B.C. Limited issued to the Stock Research Group shareholders 3,900,000 Class A Exchangeable Shares. The exchangeable shares may be converted, at the option of the holder, into an equal number of shares of common stock held by a trustee. Pending any such conversion, each holder of the exchangeable shares may direct the trustee to vote an equivalent number of shares of common stock. The trustee has no discretion as to the voting or disposition of such common stock.

As a result of these transactions each of the former Stock Research Group shareholders has the right to vote, or to direct the trustee to vote on their behalf, a number of shares of common stock equal to the number of exchangeable shares held of record by them. In the aggregate, as of the date of this filing, the 2,174,000 shares of common stock

48

---

held by the trustee represent approximately 6% of our issued and outstanding shares of common stock.

Marcus New directly owns 169,500 exchangeable shares and his wife, Yvonne New, owns directly 19,500 exchangeable shares. They both indirectly own, through 518464 B.C. Ltd., a British Columbia company owned by Mr. New as to 50% and by Mrs. New as to 50%, 1,945,000 exchangeable shares. Accordingly, Marcus and Yvonne New beneficially own 2,134,000 exchangeable shares of common stock, which represent approximately 6% of our issued and outstanding common stock.

Mr. New also owns 242,500 shares of common stock which were purchased in the open market and he holds 1,452,500 options to purchase common stock at exercise prices from \$0.12 to \$0.27. Of his stock options, 963,126 had vested as of December 31, 2004. Mrs. New owns 80,500 common shares. In combination with Mr. New's 2,134,000 exchangeable shares, his wife's 80,500 common shares, his 963,126 vested options and his 242,500 common shares, Mr. New holds a beneficial ownership position in us of 3,420,126 shares, representing approximately 10% of issued and outstanding common stock.

Mrs. New owns directly 80,500 common shares. Her direct shares in combination with her beneficial ownership of 2,134,000 exchangeable shares give her a beneficial ownership position in us of 2,214,500 shares, representing

approximately 7% of issued and outstanding common stock.

U.S. Global Funds owns 2,400,000 shares, representing approximately 7% of issued and outstanding common stock. The natural persons who hold voting power over the securities held by U.S. Global Funds are Frank Holmes and Ralph Aldis.

#### Security ownership of management

The tables below and the paragraphs that follow present certain information concerning our directors and executive officers. None of our directors or executive officers has any immediate family relationship with any other director or executive officer.

#### Item 14. Principal Accountant Fees and Services

Our independent registered public accounting firm is Ernst & Young LLP.

##### Audit Fees

Fees for audit services totaled \$59,000 in 2004 and \$76,000 in 2003, including fees associated with the annual audit, the reviews of our quarterly reports on Form 10-QSB, and services in connection with SEC filings.

##### Audit-Related Fees

Fees for audit related services were \$NIL for 2004 and 2003.

##### Tax Fees

Fees for tax services, including tax compliance and tax advice, totaled \$7,000 in 2004 and \$9,000 in 2003.

##### All Other Fees

Fees for all other services not included above were \$NIL for 2004 and 2003.

Effective May 6, 2003, the Securities and Exchange Commission adopted rules that require that before Ernst & Young LLP is engaged by us or our subsidiaries to render any auditing or permitted non-audit related service, the engagement be:

- approved by our audit committee; or
- entered into pursuant to pre-approval policies and procedures established by the audit committee, provided the policies and procedures are detailed

as to the particular service, the audit committee is informed of each service, and such policies and procedures do not include delegation of the audit committee's responsibilities to management.

The audit committee requires advance approval of all audit, audit-related, tax, and other services performed by the independent auditor. Unless the specific service has been previously pre-approved with respect to that year, the Audit Committee must approve the permitted service before the independent auditor is engaged to perform it. The Audit Committee has delegated to the Chair of the Audit Committee authority to approve permitted services provided that the Chair reports any decisions to the Committee at its next scheduled meeting. For 2004, the Audit Committee pre-approved 100% of the fees incurred.

The audit committee has considered the nature and amount of the fees billed by Ernst & Young LLP, and believes that the provision of the services for activities unrelated to the audit is compatible with maintaining Ernst & Young LLP independence.

Signatures

In accordance with Section 13 or 15(d) of the Exchange Act of 1934, the Registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
