-

Item 2.02 Results of Operations and Financial Condition

On March 14, 2007, Fortress International Group, Inc. (“FIGI”) announced its financial results for the fourth quarter and year ended December 31, 2006. Within the same earnings release, FIGI also announced preliminary summary financial information for Total Site Solutions, which was acquired by FIGI on January 19, 2007. The press release containing these announcements is filed as Exhibit 99.1 and incorporated herein by reference.

Item 7.01 Regulation FD Disclosure

On March 14, 2007, FIGI management provided guidance on a post-earnings release conference call. Specifically, management announced that (i) FIGI's current estimate of 2007 revenues is approximately \$80.0 million, excluding any potential revenues from acquired businesses, and (ii) FIGI believes that revenues under the recently-announced arrangements with International Business Machines to provide engineering, design and construction management services will be not less than \$5.0 to \$6.0 million based on the predecessor service provider's experience.

Statements contained in this report contain “forward-looking statements,” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on the beliefs and expectations of management, as well as the assumptions made using information currently available to management. In this context, forward-looking statements may address matters such as our expected future business and financial performance, and often contain words such as “guidance,” “expects,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “should,” or “will.” Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For FIGI, particular uncertainties that could adversely or positively affect its future results include the following: FIGI's reliance on a significant portion of its revenues from a limited number of customers; the uncertainty as to whether FIGI can replace its declining backlog; risks involved in properly managing complex projects; risks relating to revenues under customer contracts, many of which can be canceled on short notice; risks related to the implementation of FIGI's strategic plan, including the ability to make acquisitions and the performance and future integration of acquired businesses; and other risks and uncertainties disclosed in FIGI's filings with the Securities and Exchange Commission, which are available at the Securities and Exchange Commission's internet website (www.sec.gov) and to which reference is hereby made. These uncertainties may cause FIGI's actual future results to be materially different than those expressed in FIGI's forward-looking statements. FIGI does not undertake to update its forward-looking statements.
