Sapiens Introduces Billing and Workflow Management with new Version of RapidSure

Enhancements also include functionality, integration of new tools, and technology upgrades

Orlando, FL – MAY 15, 2012 – At the ACORD LOMA Insurance Systems Forum, Sapiens International Corporation, (NASDAQ and TASE: SPNS), a global provider of innovative insurance software solutions, today announced the introduction of the latest version of RapidSure Policy Administration System. Components of RapidSure 8.0 have already been pre-released to existing clients.

This release of RapidSure introduces a fully integrated and comprehensive billing component along with advanced Business Process Management (BPM) capability. This is part of the Sapiens roadmap commitment to deliver a full suite to the North American P&C market.

RapidSure client and an early user of Version 8.0, Alfred Goxhaj, CIO with Philadelphia Insurance, said, "The utilization of a standard open source workflow engine and toolset allows Sapiens' RapidSure to deliver the robustness and flexibility insurance companies require to automate their work processes across their organization."

Enhancements and new capabilities offered with RapidSure Version 8.0 include:

- Fully integrated Billing module;
- Business Process Management workflow tools and process monitors;
- Improved automated underwriting tools;
- Greater configuration capabilities, offering carriers more control of automated rules, workflow and business process management, and the ability to quickly adapt to changing market, regulatory and business requirements;
- Enhanced on-line document production capabilities;
- Premium audit transactions for all lines of business;
- Subscription (co-insurance) policy tracking;
- Risk accumulation and aggregation mapping tools; and
- Upgraded user interface tools and technology.

Commenting on the new RapidSure release, Dan Sobotincic, President, Sapiens North America P&C division, said, “Our continued investment in RapidSure has enabled us to offer the new capabilities with 8.0 and provide even greater RapidSure value to our clients. We are especially excited to offer the new Billing and BPM capabilities, which positions RapidSure as one of the most advanced solution.”

Mr. Roni Al-Dor, President & CEO of Sapiens stated: “We continue to invest in RapidSure to deliver to the P&C market the most advanced software solutions. We work closely with our customers and with the industry analysts to further develop our roadmap and deliver leading edge solutions of this market.”

RapidSure is a component-based insurance software solution, designed specifically to meet the business requirements of Property and Casualty insurance providers in North America. The system is architected to be “future-proof” through a technology design which enables easy upgrades and integration of new technologies as they become available. The system provides a highly personalized user experience through the use of portal technology and dynamic user interface components, and is able to support all distribution channels (i.e. direct to consumer, broker, agent, MGA, etc.)

About Sapiens International

Sapiens International Corporation (NASDAQ and TASE: SPNS) is a global provider of innovative software solutions for the insurance industry. We offer end-to-end solutions for the Life & Pension, Property & Casualty, and Reinsurance markets.
