*2013 Annual Report
September 30, 2013*

Ellsworth Fund Ltd. operates as a closed-end, diversified management investment company and invests primarily in convertible securities, with the objectives of providing income and the potential for capital appreciation; which objectives the Fund considers to be relatively equal, over the long-term, due to the nature of the securities in which it invests.

ELLSWORTH FUND LTD. 2013 ANNUAL REPORT TO SHAREHOLDERS

To Our Shareholders

November 13, 2013

This year's supply of new convertible securities issues has exceeded that of 2011 and 2012 both in market capitalization and in the number of convertible securities offered. With over 100 offerings, this year is on track to see the most issuance since 2007. Although the market capitalization of convertible securities redemptions has exceeded that of new offerings for some time now, the six-year high in issuance is a positive development that may indicate that the period of under issuance of convertible securities may be coming to a close. This may also have positive implications for the economy more generally. Indeed, we find that the number of offerings available is often more impactful on Ellsworth Fund Ltd. than the added capitalization of the new offerings.

The characteristics of the convertible securities offerings this year are also positive. Yields have averaged 3% with premiums to conversion value running at just over 30%. Information Technology, Financials, and Consumer Discretionary sectors issued more convertible securities this year than any other sector. These sectors have also been strong issuers in the past. Of this year's deals, 61% were not rated, a continuation of a trend started during the financial crisis.

The Fund's charter specifies that management will seek to provide shareholders with both income and the potential for capital gains. To achieve this balance, we have maintained a portfolio that has characteristics that are closely aligned with convertible securities that are considered balanced and are likely to provide a total return consisting of both yield and capital appreciation. As shown in the statistics below, well over half of the market capitalization of convertible securities has become skewed to equity sensitive as a result of the strength in the stock market. Our balanced portfolio approach, although having less price risk than the equity sensitive portion of the Bank of America Merrill Lynch All U.S. Convertibles Index, has lagged in performance in the strongly rising equity market and the now unbalanced convertible securities market benchmark.

Ellsworth's portfolio at September 30, 2013 consisted of 64.0% cash-pay convertible bonds, 9.0% mandatory convertible issues, 12.4% convertible preferred stock, and 11.4% common stock. The bonds had an average current yield of 2.45%; the mandatory convertible securities, 5.99%; the preferred shares, 5.88%; and the common shares, 3.53%. The Fund's median premium-to-conversion value was 21.4%. We calculate that equity sensitive issues made up 44% of the Fund's portfolio, with credit sensitive issues accounting for 12%, and total return issues at 44%.

Barclays has measured the convertible securities market as of October 31, 2013 at \$222.6 billion with 502 issues, consisting of 59% equity sensitive issues, 27% total return issues, 13% credit sensitive issues, and 1% distressed issues, by market weight. Investment grade issues make up only 23% of the market with 37% rated below investment grade and 41% not rated. The top three sectors with convertible securities outstanding are Information Technology at 21.4%, Financials at 20.3% and Consumer Discretionary at 14.2%. This market is the pool that the Fund draws its convertible investments from.

Performance for Ellsworth's fourth fiscal quarter was enhanced by exposure to the Health Care and Energy sectors. Performance was held back, however, by the Fund's exposure to the Consumer Staples and Telecommunications sectors.

To Our Shareholders (continued)

At its October meeting, the Board of Trustees of the Fund declared a distribution of \$0.06 per share, consisting of undistributed net investment income. The distribution will be payable on November 27, 2013 to shareholders of record on October 31, 2013. The Board also authorized a share repurchase program of up to 3% of the outstanding shares as a way to address what the Trustees believe to be an undervaluation of the Fund's shares. As of November 12, 2013, the Fund had purchased 75,184 shares (approximately 0.6% of the original number of outstanding shares) at an average price of \$8.08 pursuant to the repurchase program.

The 2014 annual meeting of shareholders will be held on January 17, 2014. Information about the location of the meeting will be included in the proxy statement, scheduled to be mailed to shareholders on November 27, 2013. All shareholders are welcome to attend and we hope to see you there.

Notes to Financial Statements

NOTE 1 ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

(a) Organization Ellsworth Fund Ltd. (the Fund), is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

(b) Indemnification Under the Fund's organizational documents, each trustee, officer or other agent of the Fund (including the Fund's investment adviser) is indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification is considered remote.

(c) Security Valuation Investments in securities traded on a national securities exchange are valued at market using the last reported sales price, supplied by an independent pricing service, as of the close of regular trading. Listed securities, for which no sales were reported, are valued at the mean between closing reported bid and asked prices as of the close of regular trading. Unlisted securities traded in the over-the-counter market are valued using an evaluated quote provided by the independent pricing service, or, if an evaluated quote is unavailable, such securities are valued using prices received from dealers, provided that if the dealer supplies both bid and asked prices, the price to be used is the mean of the bid and asked prices. The independent pricing service derives an evaluated quote by obtaining dealer quotes, analyzing the listed markets, reviewing trade execution data and employing sensitivity analysis. Evaluated quotes may also reflect appropriate factors such as individual characteristics of the issue, communications with broker-dealers, and other market data. Securities for which quotations are not readily available, restricted securities and other assets are valued at fair value as determined in good faith pursuant to procedures approved by the Board of Trustees. Short-term debt securities with original maturities of 60 days or less are valued at amortized cost.

The Fund has adopted authoritative fair valuation accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 Quoted unadjusted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuation in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers, and those received from an independent pricing service.

Level 3 Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price an asset or liability based on the best available information.

Edgar Filing: ELLSWORTH FUND LTD - Form N-CSR

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of the markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The net change in unrealized appreciation (depreciation) from Level 3 investments held as of September 30, 2013 was (\$141,397) and is included in net unrealized appreciation of investments on the Statement of Operations. Transfers into, or out of, Level 3 are valued utilizing values as of the end of the period. Transfers into Level 3 were due to a decline in market activity (e.g., frequency of trades), which resulted in a lack of available market inputs to determine price.

The following is a reconciliation of assets for which Level 3 inputs were used in determining value:

Description	Investments in Securities
Proceeds from sales	
Change in unrealized appreciation (depreciation) ⁽¹⁾	(141,397)
Balance as of September 30, 2013	\$ 776,999

(1) Included in the net change of unrealized appreciation on investments in the Statement of Operations.

The following table presents additional information about valuation methodologies and inputs used for investments that are measured at fair value and categorized within Level 3 as of September 30, 2013:

	Fair Value September 30, 2013	Valuation Methodologies	Unobservable Input ⁽¹⁾	Impact to Valuation from an Increase in Input ⁽²⁾
Amerivon Holdings LLC series A cv. pfd. and common equity units	\$776,999	Market Comparables/ Sum of the Parts Valuation/ Dividend Analysis	Liquidity Discount	Decrease

(1) In determining certain of these inputs, management evaluates a variety of factors including economic conditions, industry and market developments, market valuations of comparable companies and company specific developments.

(2) This column represents the directional change in the fair value of the Level 3 investments that would result from an increase to the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

NOTE 1 ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Federal Income Taxes The Fund's policy is to distribute substantially all of its taxable income within the prescribed time and to otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. Therefore, no provision for federal income or excise taxes is believed necessary.

Edgar Filing: ELLSWORTH FUND LTD - Form N-CSR

The Fund recognizes the tax benefits of uncertain tax positions only where the position is more-likely-than-not to be sustained assuming examination by taxing authorities. Management of the Fund has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2010-2012), or expected to be taken in the Fund's 2013 tax returns. The major tax authority for the Fund is the Internal Revenue Service. The Fund is not aware of any tax positions for which it is reasonably likely that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(e) Securities Transactions and Related Investment Income Securities transactions are accounted for on the trade date (the date the order to buy or sell is executed) with gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis, including accretion of discounts and amortization of non-equity premium. For certain securities, known as contingent payment debt instruments, Federal tax regulations require the Fund to record non-cash, contingent interest income in addition to interest income actually received. Contingent interest income amounted to approximately three cents per share for the twelve months ended September 30, 2013. In addition, Federal tax regulations require the Fund to reclassify realized gains (losses) on contingent payment debt instruments to interest income. At September 30, 2013, there were unrealized losses of approximately two cents per share on contingent payment debt instruments.

(f) Distributions to Shareholders Distributions to shareholders from net investment income are recorded by the Fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid annually.

The amount and character of income and capital gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. The tax character of distributions paid during the fiscal years ended September 30, 2013 and 2012 were as follows:

	2013	2012
Net realized gain on investments		

At September 30, 2013, the components of distributable earnings and federal tax cost were as follows:

Unrealized depreciation	(2,265,649)
Undistributed ordinary income	690,885
Other losses	(23,374)
Cost for federal income tax purposes	\$ 104,821,426

The differences between book-basis and tax-basis unrealized appreciation/depreciation is attributable to differing methods of recognizing interest and ordinary income on bonds for tax purposes.

To the extent the Fund's net realized capital gains, if any, can be offset by capital loss carryforwards, it is the policy of the Fund not to distribute such gains. As determined at September 30, 2013, the Fund had unused capital loss carryforwards of \$9,203,598 which expire in 2018, \$270,349 long-term loss and \$400,499 short-term loss with no expiration date, available for federal income tax purposes to offset net realized capital gains. At September 30, 2013, the Fund deferred, on a tax basis, Post October losses of \$23,374.

(g) Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

ELLSWORTH FUND LTD. 2013 ANNUAL REPORT TO SHAREHOLDERS

Notes to Financial Statements (continued)

NOTE 1 ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Regulated Investment Company Modernization Act On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the Modernization Act) was signed into law. The Modernization Act modernizes several of the federal income and excise tax provisions related to regulated investment companies (RICs).

New capital losses may now be carried forward indefinitely, and retain the character of the original loss. Under pre-enactment law, capital losses could be carried forward for eight years, and carried forward as short-term capital losses, irrespective of the character of the original loss. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

(i) Market Risk It is the Fund's policy to invest at least 65% of its assets in convertible securities. Although convertible securities do derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, the Fund's mandatory convertible securities include features which render them more sensitive to price changes of their underlying securities. Thus they expose the Fund to greater downside risk than traditional convertible securities, but generally less than that of the underlying common stock. The market value of those securities was \$11,553,407 at September 30, 2013, representing approximately 9.0% of net assets.

(j) Reclassification of Capital Accounts Accounting principles generally accepted in the United States require that certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. At September 30, 2013 the Fund increased net investment income loss by \$164,938 and decreased accumulated net realized loss on investments by \$164,938.

NOTE 2 MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund has entered into an investment advisory agreement with Dinsmore Capital Management Co. (Dinsmore Capital). Pursuant to the investment advisory agreement, Dinsmore Capital provides the Fund with investment advice, office space and facilities. Under the terms of the investment advisory agreement, the Fund pays Dinsmore Capital on the last day of each month an advisory fee for such month computed at an annual rate of 0.75% of the first \$100,000,000 and 0.50% of the excess over \$100,000,000 of the Fund's net asset value in such month.

The Fund, pursuant to an administrative services agreement with Dinsmore Capital, has agreed to pay Dinsmore Capital for certain accounting and other administrative services provided to the Fund. Under the administrative services agreement, the Fund pays Dinsmore Capital on the last day of each month a fee for such month computed at an annual rate of 0.05% of the Fund's net asset value in such month.

Certain officers and trustees of the Fund are officers and directors of Dinsmore Capital.

NOTE 3 PORTFOLIO ACTIVITY

At September 30, 2013, there were 13,507,882 shares of beneficial interest outstanding, with a par value of \$0.01 per share. During the twelve months ended September 30, 2013, 54,105 shares were issued in connection with reinvestment of dividends from net investment income, resulting in an increase in paid-in capital of \$373,863. Purchases and sales of investments, exclusive of corporate short-term notes, aggregated \$57,112,275 and \$55,892,152, respectively, for the twelve months ended September 30, 2013.

NOTE 4 NEW ACCOUNTING PRONOUNCEMENT

In June 2013, the Financial Accounting Standards Board issued guidance that creates a two-tiered approach to assess whether an entity is an investment company. The guidance will also require an investment company to measure non-controlling ownership interest in other investment companies at fair value and will require additional disclosures relating to investment company status, any changes thereto and information about financial support provided or contractually required to be provided to any of the investment company's investees. The guidance is effective for financial statements with fiscal years beginning on or after December 15, 2013 and interim periods within those fiscal years. Management is evaluating the impact of this guidance on the Funds' financial statement disclosures.

NOTE 5 SUBSEQUENT EVENTS

In preparing the financial statements as of September 30, 2013, management considered the impact of subsequent events for potential recognition or disclosure in these financial statements. On October 21, 2013 the Board of Trustees of the Fund authorized a share repurchase program of up to 3% of the outstanding shares as a way to address what the Trustees believe to be an undervaluation of the Fund's shares. As of November 15, 2013, the Fund had purchased 90,884 shares in the open market at a cost of \$733,208 (approximately 0.7% of the original number of outstanding shares) at an average price of \$8.07 pursuant to the repurchase program. The repurchase of shares had an anti-dilutive effect on the net asset value of \$.01 per share. The weighted average discount of these purchases comparing the average purchase price to average net asset value was 16%.

Miscellaneous Notes (unaudited)

Automatic Dividend Investment and Cash Payment Plan

The Fund has an Automatic Dividend Investment and Cash Payment Plan (the Plan). Any shareholder may elect to join the Plan by sending an application to American Stock Transfer & Trust Company, P.O. Box 922, Wall Street Station, New York, NY 10269-0560 (the Plan Agent). You may also obtain information about the Plan, as well as the Plan application, by calling the Plan Agent toll free at (888) 888-0314. If your shares are held by a broker or other nominee, you should instruct the nominee to join the Plan on your behalf. Some brokers may require that your shares be taken out of the broker's street name and re-registered in your own name. Shareholders should also contact their broker to determine whether shares acquired through participation in the Plan can be transferred to another broker and thereafter, whether the shareholder can continue to participate in the Plan.

Under the Plan, all dividends and distributions are automatically invested in additional Fund shares. Depending on the circumstances, shares may either be issued by the Fund or acquired through open market purchases at the current market price or net asset value, whichever is lower (but not less than 95% of market price). For shareholder distributions made with respect to income earned during each of the first three fiscal quarters, when the market price of a share of Fund beneficial shares is lower than such share's net asset value, the Plan Agent will combine the distributions of all Plan participants and purchase shares in the open market, thereby taking advantage of the lower commissions on larger purchases. There is no other charge for this service. For shareholder distributions made with respect to capital gains realized during the fiscal year and income earned during the fourth fiscal quarter, when the market price of a share of Fund shares is lower than such share's net asset value, the Fund will issue shares at the market price.

All dividends and distributions made by the Fund (including capital gain dividends and dividends designated as qualified dividend income, which are eligible for taxation at lower rates) remain taxable to Plan participants, regardless of whether such dividends and distributions are reinvested in additional shares of the Fund through open market purchases or through the issuance of new shares. Plan participants will be treated as receiving the cash used to purchase shares on the open market and, in the case of any dividend or distribution made in the form of newly issued shares, will be treated as receiving an amount equal to the fair market value of such shares as of the reinvestment date. Accordingly, a shareholder may incur a tax liability even though such shareholder has not received a cash distribution with which to pay the tax.

Plan participants may also voluntarily send cash payments of \$100 to \$10,000 per month to the Plan Agent, to be combined with other Plan monies, for purchase of additional Fund shares in the open market. You pay only a bank service charge of \$1.25 per transaction, plus your proportionate share of the brokerage commission. All shares and fractional shares purchased will be held by the Plan Agent in your dividend reinvestment account. You may deposit with the Plan Agent any Fund share certificates you hold, for a one-time fee of \$7.50.

At any time, a Plan participant may instruct the Plan Agent to liquidate all or any portion of such Plan participant's account. To do so, a Plan participant must deliver written notice to the Plan Agent prior to the record date of any dividend or distribution requesting either liquidation or a share certificate. The Plan Agent will combine all liquidation requests it receives from Plan participants on a particular day and will then sell shares of the Fund that are subject to liquidation requests in the open market. The amount of proceeds a Plan participant will receive shall be determined by the average sales price per share, after deducting brokerage commissions, of all shares sold by the Plan Agent for all Plan participants who have given the Plan Agent liquidation requests.

The Plan Agent or the Fund may terminate the Plan for any reason at any time by sending written notice addressed to the Plan participant's address as shown on the Plan Agent's records. Following the date of termination, the Plan Agent shall send the Plan participant either the proceeds of liquidation, or a share certificate or certificates for the full shares held by the Plan Agent in the Plan participant's account. Additionally, a check will be sent for the value of any fractional interest in the Plan participant's account based on the market price of the Fund's shares on that date.

Since the code of ethics was adopted, there have been no amendments to it nor have any waivers from any of its provisions been granted.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Board of Trustees of the Fund has determined that Trustee and Audit Committee Chair, Daniel D. Harding, who is independent as such term is used in Form N-CSR, possesses the attributes required to be considered an audit committee financial expert under applicable federal securities laws.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Set forth in the table below are the aggregate fees billed to the Fund by its principal accountant, Tait, Weller & Baker LLP (Tait Weller), for professional services rendered to the Fund during the Fund s last two fiscal years ended September 30, 2013 and 2012.

Fiscal Year-End	Audit Fees (1)	Audit-Related Fees (2)	Tax Fees (3)	All Other Fees
October 31				
2013	\$ 37,500	\$ 0	\$ 3,500	\$ 0

- (1) The Fund s Audit Committee pre-approves all Audit Fees, without exception.
- (2) The Fund s Audit Committee pre-approves all Audit-Related Fees, with exceptions. For the Fund s last two fiscal years ended September 30, 2013 and 2012, no Audit-Related Fees were approved by the Fund s Audit Committee pursuant to Rule 2-01(c)(7)(i)(C) of Regulation S-X, which waives the pre-approval requirement for certain *de minimis* fees.

- (3) Tax Fees include those fees billed by Tait Weller in connection with its review of the Fund's income tax returns for fiscal years 2012 and 2013. The Fund's Audit Committee pre-approves all Tax Fees, with exceptions. For the Fund's last two fiscal years ended September 30, 2013 and 2012, no Tax Fees were approved by the Fund's Audit Committee pursuant to Rule 2-01(c)(7)(i)(C) of Regulation S-X, which waives the pre-approval requirement for certain *de minimis* fees.

Non-Audit Services

During each of the last two fiscal years ended September 30, 2013 and 2012, Tait Weller did not provide any non-audit services to the Fund, with the exception of the services for which the Fund paid the Tax Fees noted above. Tait Weller did not provide any non-audit services to the Fund's investment adviser, Dinsmore Capital Management Co. (Dinsmore Capital) or its affiliates or otherwise bill the Fund or Dinsmore Capital or its affiliates for any such non-audit services.

Audit Committee Pre-Approval Policies and Procedures

The Audit Committee pre-approves all audit and permissible non-audit services that are proposed to be provided to the Fund by its independent registered public accountant before they are provided to the Fund. Such pre-approval also includes the proposed fees to be charged by the independent registered public accountant for such services. The Audit Committee may delegate the pre-approval of audit and permissible non-audit services and related fees to one or more members of the Audit Committee who are independent, as such term is used in Form N-CSR. Any such member's decision to pre-approve audit and/or non-audit services and related fees is presented to the full Audit Committee, solely for informational purposes, at its next scheduled meeting.

The Audit Committee also pre-approves non-audit services to be provided by the Fund's independent registered public accountant to the Fund's investment adviser if the engagement relates directly to the operations and financial reporting of the Fund and if the Fund's independent registered public accountant is the same as, or affiliated with, the investment adviser's independent registered public accountant.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

(a) The Fund has a separately-designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the Exchange Act), and the members of such committee are:

Bancroft Fund Ltd.

Ellsworth Fund Ltd.

Dinsmore Capital Management Co.

Proxy Voting Guidelines

(Amended July 19, 2012)

These proxy voting guidelines have been adopted by the Boards of Trustees of Bancroft Fund Ltd. and Ellsworth Fund Ltd. (collectively, the Funds), as well as by the Board of Directors of Dinsmore Capital Management Co. (Dinsmore).

The Boards of Trustees of the Funds have delegated to Dinsmore responsibility for voting proxies received by the Funds in their capacities as shareholders of various companies. The Boards recognize that, due to the nature of the Funds' investments, the Funds do not receive proxies on many of their holdings.

Dinsmore exercises its voting responsibility with the overall goal of maximizing the value of the Funds' investments. The portfolio managers at Dinsmore oversee the voting policies and decisions for the Funds. In evaluating voting issues, the portfolio managers may consider information from many sources, including management of a company presenting a proposal, shareholder groups, research analysts, and independent proxy research services.

Set forth below are the proxy voting guidelines:

A.

Matters Related to the Board of Directors

1.

The Funds generally will support the election of nominees recommended by management for election as directors. In determining whether to support a particular nominee, Dinsmore will consider whether the election of such nominee will cause the board of directors of such nominee's company to have less than a majority of independent directors.

2.

The Funds generally will support proposals to de-classify boards of directors if fewer than 66 2/3% of the directors are independent, and will generally vote against proposals to classify boards of directors.

3.

The Funds generally will withhold a vote in favor of a director who has served on a committee which has approved excessive compensation arrangements or proposed equity-based compensation plans that unduly dilute the ownership

interests of stockholders.

B.

Matters Related to Independent Auditors

1.

The Funds generally will vote in favor of independent accountants approved by an issuer. Prior to such vote, however, Dinsmore will take into consideration whether non-audit fees make up more than 50 to 75% of the total fees paid by such issuer to the independent auditors, and the nature of the non-audit services provided.

C.

Corporate Governance Matters

1.

Except as provided in Section E.1, as a general rule, the Funds will vote against proposals recommended by management of a company that are being made primarily to implement anti-takeover measures, and will vote in favor of proposals to eliminate policies that are primarily intended to act as anti-takeover measures.

2.

Subject to the other provisions of these guidelines, including without limitation provision C.1. above, the Funds generally will vote in accordance with management's recommendations regarding routine matters, including the following:

a.

Fixing number of directors;

b.

Stock splits; and

c.

Change of state of incorporation for specific corporate purposes.

D.

Matters Related to Equity-Based Compensation Plans

1.

The Fund generally will vote in favor of broad-based stock option plans for executives, employees or directors which would not increase the aggregate number of shares of stock available for grant under all currently active plans to over 10% of the total number of shares outstanding.

2.

The Funds generally will vote in favor of employee stock purchase plans and employee stock ownership plans permitting purchase of company stock at 85% or more of fair market value.

E.

Other Matters

1.

Contested situations will be evaluated on a case by case basis by the portfolio manager or analyst at Dinsmore principally responsible for the particular portfolio security.

2.

The Funds may, in their discretion, abstain from voting shares that have been recently sold.

3.

The Funds generally will abstain from voting on issues relating to social and/or political responsibility.

4.

Proposals that are not covered by the above-stated guidelines will be evaluated on a case by case basis by the portfolio manager or analyst at Dinsmore principally responsible for the particular portfolio security.

F.

Material Conflicts of Interest

1.

Conflicts of interest may arise from time to time between Dinsmore and the Funds. Examples of conflicts of interests include:

a.

Dinsmore may manage a pension plan, administer employee benefit plans, or provide services to a company whose management is soliciting proxies;

b.

Dinsmore or its officers or directors may have a business or personal relationship with corporate directors, candidates for directorships, or participants in proxy contests;

c.

Dinsmore may hold a position in a security contrary to shareholder interests.

2.

If a conflict of interest arises with respect to a proxy voting matter, the portfolio manager will promptly notify the Funds Audit Committee and counsel for independent trustees and the proxies will be voted in accordance with direction received from the Audit Committee.

G.

Amendments

1.

Any proposed material amendment to these Guidelines shall be submitted for review and approval to:

a.

the Funds' Board of Trustees, including a majority of the disinterested trustees; and

b.

the Adviser's Board of Directors.

2.

Non-material amendments to these Guidelines may be made by the Chair of the Funds, upon consultation with counsel to the Funds and the Funds' Chief Compliance Officer, and will be reported to the Funds' Board of Trustees at their next scheduled in-person meeting.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

(a) (1) As of December 6, 2013, Mr. Thomas H. Dinsmore, Chairman and Chief Executive Officer, Ms. Jane D. O'Keefe, President, and Mr. James A. Dinsmore, Executive Vice President, comprise the three-person portfolio management team of the Fund. Mr. Thomas H. Dinsmore has served as portfolio manager since 1996. Ms. O'Keefe and Mr. James Dinsmore have served as portfolio managers since 2011. Mr. Thomas H. Dinsmore is the lead member of the portfolio management team.

Since 1994, Ms. O'Keefe has served as President of the Fund and of Dinsmore Capital (the Adviser), as well as Managing Director of Research for the Adviser. Mr. James A. Dinsmore has served as Executive Vice President and of the Adviser since January 2013. Prior to this he served as Vice President of the Fund and the Adviser since 2007. He has also been a research analyst for the Adviser since 2004.

Messrs. Thomas H. Dinsmore and James A. Dinsmore and Ms. O'Keefe receive investment recommendations from a team of research analysts prior to making investment decisions about transactions in the portfolio. Generally, the co-portfolio managers make decisions jointly about any transactions in the Fund's portfolio, but each co-portfolio manager may do so independently as well.

(2) The portfolio management team comprised of Mr. Thomas H. Dinsmore, Ms. Jane D. O'Keefe and Mr. James A. Dinsmore is also primarily responsible for the day-to-day management of one registered investment company, Bancroft Fund Ltd. (Bancroft), with total assets of \$120,911,634 as of November 30, 2013. The portfolio management team does not manage any accounts or assets with performance-based advisory fees. Mr. Thomas Dinsmore is Chairman and Chief Executive Officer, Ms. O'Keefe is President and Mr. James Dinsmore is Executive Vice President of Bancroft. This information is as of December 6, 2013. The Fund and Bancroft have similar investment objectives and strategies. As a result, material conflicts of interest may arise between the two funds if a security is not available in a sufficient amount to

fill open orders for both funds. To deal with these situations, the investment adviser for the Fund and Bancroft has adopted Trade Allocation Procedures (the Allocation Procedures). The Allocation Procedures set forth a method to allocate a partially filled order among the funds. Pursuant to the method, the amount of shares that each fund purchases is allocated *pro rata* based on the dollar amount of each fund's intended trade or, if the order is subject to a minimum lot size, as closely as possible to such an allocation.

The Allocation Procedures permit Dinsmore Capital to allocate an order in a way that is different from the method set forth above if (i) each fund is treated fairly and equitably and neither fund is given preferential treatment, and (ii) the allocation is reviewed by the chief compliance officer of Dinsmore Capital.

(3) This information is as of December 6, 2013. The Portfolio Management team is compensated by Dinsmore Capital through a three-component plan, consisting of a fixed base salary, annual cash bonus, and benefit retirement plan. Their compensation is reviewed and approved by Dinsmore Capital's Board of Directors annually. Their compensation may be adjusted from year to year based on the perception of Dinsmore Capital's Board of Directors of the team's overall performance and their management responsibilities. Their compensation is not based on (i) a formula specifically tied to the performance of the Fund or Bancroft, including performance against an index or (ii) the value of assets held in the Fund's portfolio.

(4) As of December 6, 2013, Mr. Thomas Dinsmore's beneficial ownership in the Fund's shares was in the range of \$500,001-\$1,000,000. Ms. O'Keefe's beneficial ownership in the Fund's shares was in the range of \$100,001-\$500,000. Mr. James Dinsmore's beneficial ownership in the Fund's shares was in the range of \$10,001-\$50,000.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

During the period covered by this report, there were no purchases made by or on behalf of the Fund or any affiliated purchaser, as defined in Rule 10b-18(a)(3) under the Exchange Act (17 CFR 240.10b-18(a)(3)), of shares or other units of any class of the Fund's equity securities registered by the Fund pursuant to Section 12 of the Exchange Act (15 U.S.C. 78l).

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Trustees since those procedures were last disclosed in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by Item 22(b)(15) of Schedule 14A (17 CFR 240.14a-101)), or Item 10 of this Form N-CSR.

ITEM 11. CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning the effectiveness of controls and procedures:

(a) As of December 6, 2013, an evaluation was performed under the supervision and with the participation of the officers of the Fund, including the PEO and the PFO, to assess the effectiveness of the Fund's disclosure controls and procedures, as that term is defined in Rule 30a-3(c) (17 CFR 270.30a-3(c)) under the Investment Company Act of 1940, as amended (the Act). Based on that evaluation, as required by Rule 30a-3(b) under the Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Exchange Act (17 CFR 240.13a-15(b) or 240.15d-15(b)), the Fund's officers, including the PEO and PFO, concluded that, as of December 6, 2013, the Fund's disclosure controls and procedures were reasonably designed so as to ensure: (1) that information required to be disclosed by the Fund on Form N-CSR is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission and (2) that material information relating to the Fund is made known to the PEO and PFO as appropriate to allow timely decisions regarding required disclosure.

(b) There have been no changes in the Fund's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period

covered by this report that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting.

ITEM 12. EXHIBITS.

(a)(1) Not applicable. See the Fund's response to Item 2, above.

(a)(2) Certifications of the principal executive officer and the principal financial officer pursuant to Rule 30a-2(a) under the Act (17 CFR 270.30a-2(a)), are attached hereto.

(a)(3) There were no written solicitations to purchase securities under Rule 23c-1 under the Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the Fund to ten or more persons.

(b) Certifications of the principal executive officer and the principal financial officer, as required by Rule 30a-2(b) under the Act (17 CFR 270.30a-2(b)), Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) are attached hereto.
