## Edgar Filing: ELLSWORTH FUND LTD - Form N-CSRS

Ellsworth Fund Ltd. operates as a closed-end, diversified management investment company and invests primarily in convertible securities, with the objectives of providing income and the potential for capital appreciation; which objectives the Fund considers to be relatively equal, over the long-term, due to the nature of the securities in which it invests.

### *Highlights*

ELLSWORTH FUND LTD. 2014 SEMI-ANNUAL REPORT TO SHAREHOLDERS

## To Our Shareholders

May 12, 2014

In our last letter, we noted that we are expanding the common stock portion of our portfolio. We have continued to do so during the most recent quarter, with a focus on common stocks that we believe have a favorable mix of yield and growth. These are characteristics similar to those of attractive convertible securities. We have used these investments to diversify our sector exposure and to create a portfolio that has a balanced mix of growth and income that is complementary to the existing portfolio. Although convertible securities still form the core of the Fund, common stocks made up nearly a quarter of the portfolio, with an average yield of 3.6%, as of March 31st.

The convertible securities market has been off to a good start in 2014. The Bank of America Merrill Lynch All US Convertibles Index was up 4.33% through March 31 versus 1.8% for the S&P 500® Index. Issuance has cooled off slightly from the torrid pace at the end of 2013, but with \$13.9B in issuance through May 9th, we are still on pace for issuance to exceed redemptions for the first time since 2008. This increase in issuance is good for our market as it expands the universe both in size and in number of investable names.

We have seen some of the general trends in the stock market this year making their way into the convertible securities market as well. As growth stocks have recently fallen out of favor, many of the high-priced, equity-sensitive convertible securities have declined a bit from their lofty valuations. Meanwhile, total return convertibles have acted well, leading to a more balanced convertible market than we have seen in recent months.

Barclays has measured the convertible securities market as of March 31, 2014 at \$235.3 billion with 542 issues, consisting of 55.6% equity sensitive issues with an average annual yield of 2.57%, 30.3% total return issues with an average yield of 3.32%, 13.5% credit sensitive issues with an average yield of 4.32%, and 0.6% distressed issues with an average yield of 14.60%, by market weight. Investment grade issues made up only 19% of the market with 36% rated below investment grade. The remaining issues are not rated. The top three sectors with convertible securities outstanding are Information Technology at 24.8%, Financials at 17.9%, and Health Care at 16.6%.

The portfolio of Ellsworth Fund Ltd. at quarter end consisted of 56.2% cash-pay convertible bonds and notes, 8.1% mandatory convertible issues, 11.6% convertible preferred stock, and 23.4% common stock. The bonds had an average current annual yield of 2.34%; the mandatory convertible securities, 5.14%; the preferred shares, 5.93%; and the common shares, 3.60%. The Fund's median premium-to-conversion value was 17.6%. We calculate that equities and equity-sensitive convertible issues made up 59% of the Fund's portfolio, with credit sensitive issues accounting for 12% of the Fund's portfolio, and total return convertible issues at 29%.

Performance for Ellsworth's second fiscal quarter ended March 31, 2014 was enhanced by exposure to the Utilities and Information Technology sectors. Performance was held back, however, by the Fund's exposure to the Materials and Energy sectors. The Fund's largest sector exposure as of March 31, 2014 was in Information Technology (22.4%), Financials (19.6%) and Health Care (16.2%).

As previously reported the Board of Trustees of the Fund authorized a share repurchase program of up to 3% of the outstanding shares of the Fund as a way to address what the Trustees believe to be an undervaluation of the Fund's shares. The Fund bought a total of 405,236 shares (3% of the number of outstanding shares at the time the repurchase program commenced) at an average price of \$8.25 per share, pursuant to the repurchase program.

## To Our Shareholders *(continued)*

The results of the 2014 annual meeting of shareholders are shown in the Miscellaneous Notes section of this report. We thank you for your participation and support. At its April meeting, the Board of Trustees of the Fund declared a dividend of \$0.06 per share, consisting of undistributed net investment income. The dividend is payable on May 29, 2014, to shareholders of record on May 15, 2014.

(1) Security not registered under the Securities Act of 1933, as amended (the Securities Act) (e.g., the security was purchased in a Rule 144A or a Regulation D transaction). The security may be resold only pursuant to an exemption from registration under the Securities Act, typically to qualified institutional buyers. The Fund generally has no rights to demand registration of such securities. The aggregate market value of these unregistered securities at March 31, 2014 was \$14,791,436, which represented 11.1% of the Fund's net assets.

- (2) Contingent payment debt instrument which accrues contingent interest. See Note 1(e).
- (3) Investment is valued at fair value as determined in good faith pursuant to procedures adopted by the Board of Trustees. It is possible that the estimated value may differ significantly from the amount that might ultimately be realized in the near term, and the difference could be material. The fair value of these securities amounted to \$780,024 at March 31, 2014, which represented 0.6% of the Fund's net assets. See Note 1(c).
- (4) Restricted securities include securities that have not been registered under the Securities Act, and securities that are subject to restrictions on resale. The Fund may invest in restricted securities that are consistent with the Fund's investment objective and investment strategies. In some cases, the issuer of restricted securities has agreed to register such securities for resale, at the issuer's expense either upon demand by the Fund or in connection with another registered offering of the securities. Investments in restricted securities are valued at fair value as determined in good faith in accordance with procedures adopted by the Board of Trustees. It is possible that the estimated value may differ significantly from the amount that might ultimately be realized in the near term, and the difference could be material. As of March 31, 2014, the Fund was invested in the following restricted securities:

## Notes to Financial Statements *(unaudited)*

### NOTE 1 ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

**(a) Organization** Ellsworth Fund Ltd. (the Fund), is registered under the Investment Company Act of 1940, as amended, as a diversified, closed end management investment company.

**(b) Indemnification** Under the Fund's organizational documents, each trustee, officer or other agent of the Fund (including the Fund's investment adviser) is indemnified against certain liabilities that may arise out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification is considered remote.

**(c) Security Valuation** Investments in securities traded on a national securities exchange are valued at market price using the last reported sales price, supplied by an independent pricing service, as of the close of regular trading. Listed securities, for which no sales were reported, are valued at the mean between closing reported bid and asked prices as of the close of regular trading. Unlisted securities traded in the over-the-counter market are valued using an evaluated quote provided by the independent pricing service, or, if an evaluated quote is unavailable, such securities are valued using prices received from dealers, provided that if the dealer supplies both bid and asked prices, the price to be used is the mean of the bid and asked prices. The independent pricing service derives an evaluated quote by obtaining dealer quotes, analyzing the listed markets, reviewing trade execution data and employing sensitivity analysis. Evaluated quotes may also reflect appropriate factors such as individual characteristics of the issue, communications with broker-dealers, and other market data. Securities for which quotations are not readily available, restricted securities and other assets are valued at fair value as determined in good faith pursuant to procedures approved by the Board of Trustees. Short-term debt securities with original maturities of 60 days or less are valued at amortized cost.

The Fund has adopted authoritative fair valuation accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 Quoted unadjusted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuation in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers, and those received from an independent pricing service.

Level 3 Model-derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price an asset or liability based on the best available information.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of the markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The net change in unrealized appreciation from Level 3 investments held as of March 31, 2014 was \$3,025 and is included in net unrealized appreciation of investments on the Statement of Operations. Transfers into or out of Level 3 are valued utilizing values as of the end of the period.

#### (c) Security Valuation *(continued)*

The following is a reconciliation of assets for which Level 3 inputs were used in determining value:

Description	Investments in Securities
Proceeds from sales	
Change in unrealized appreciation (depreciation) <sup>(1)</sup>	3,025
<b>Balance as of March 31, 2014</b>	<b>\$ 780,024</b>

(1) Included in the net change of unrealized appreciation on investments in the Statement of Operations.

The following table presents additional information about valuation methodologies and inputs used for investments that are measured at fair value and categorized within Level 3 as of March 31, 2014:

Fair Value March 31, 2014	Valuation Methodologies	Unobservable Input <sup>(1)</sup>	Impact to Valuation from an Increase in Input <sup>(2)</sup>
[REDACTED]			

Fair Value March 31, 2014	Valuation Methodologies	Unobservable Input (1)	Impact to Valuation from an Increase in Input (2)
------------------------------------	----------------------------	------------------------------	--

(1) In determining certain of these inputs, management evaluates a variety of factors including economic conditions, industry and market developments, market valuations of comparable companies and company specific developments.

(2) This column represents the directional change in the fair value of the Level 3 investments that would result from an increase to the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

**(d) Federal Income Taxes** The Fund's policy is to distribute substantially all of its taxable income within the prescribed time and to otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. Therefore, no provision for federal income or excise taxes is believed necessary. The Fund recognizes the tax benefits of uncertain tax positions only where the position is more-likely-than-not to be sustained assuming examination by taxing authorities. Management of the Fund has analyzed the Fund's tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2010-2012), or expected to be taken in the Fund's 2013 tax returns. The Fund is not aware of any tax positions for which it is reasonably likely that the total amounts of unrecognized tax benefits will significantly change in the next six months. The major tax authority for the Fund is the Internal Revenue Service.

**(e) Securities Transactions and Related Investment Income** Securities transactions are accounted for on the trade date (the date the order to buy or sell is executed) with gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis, including accretion of discounts and amortization of non-equity premium. For certain securities, known as contingent payment debt instruments, Federal tax regulations require the Fund to record non-cash, contingent interest income in addition to interest income actually received. Contingent interest income amounted to approximately \$0.002 per share for the six months ended March 31, 2014. In addition, Federal tax regulations require the Fund to reclassify realized gains on contingent payment debt instruments to interest income. At March 31, 2014, there were unrealized losses of approximately \$0.02 per share on contingent payment debt instruments.

### NOTE 1 ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES *(continued)*

**(f) Distributions to Shareholders** Distributions to shareholders from net investment income are recorded by the Fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid annually.

The amount and character of income and capital gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. The tax character of distributions paid during the fiscal years ended September 30, 2013 and 2012 were as follows:

	2013	2012
Net realized gain on investments		

	2013	2012
[REDACTED]		

At March 31, 2014, the components of distributable earnings and federal tax cost were as follows:

[REDACTED]	
Unrealized depreciation	(2,398,690)
Cost for federal income tax purposes	\$ 112,482,122

The differences between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable to differing methods of recognizing interest and ordinary income on bonds and notes for tax purposes.

**(g) Use of Estimates** The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**(h) Regulated Investment Company Modernization Act** On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the Modernization Act) was signed into law. The Modernization Act modernizes several of the federal income and excise tax provisions related to regulated investment companies ( RICs ).

New capital losses may now be carried forward indefinitely, and retain the character of the original loss. Under pre-enactment law, capital losses could be carried forward for eight years, and carried forward as short-term capital losses, irrespective of the character of the original loss. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

**(i) Market Risk** It is the Fund's policy to invest at least 65% of its assets in convertible securities. Although convertible securities do derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, the Fund's mandatory convertible securities include features which render them more sensitive to price changes of their underlying securities. Thus, they expose the Fund to greater downside risk than traditional convertible securities but generally less than that of the underlying common stock. The market value of those securities was \$10,770,100 at March 31, 2014, representing approximately 8.1% of net assets

### NOTE 2 MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund has entered into an investment advisory agreement with Dinsmore Capital Management Co. ( Dinsmore Capital ). Pursuant to the investment advisory agreement, Dinsmore Capital provides the Fund with investment advice, office space and facilities. Under the terms of the investment advisory agreement, the Fund pays Dinsmore Capital on the last day of each month an advisory fee for such month computed at an annual rate of 0.75% of the first \$100,000,000 and 0.50% of the excess over \$100,000,000 of the Fund's net asset value in such month.

The Fund, pursuant to an administrative services agreement with Dinsmore Capital, has agreed to pay Dinsmore Capital for certain accounting and other administrative services provided to the Fund. Under the administrative services agreement, the Fund pays Dinsmore Capital on the last day of each month a fee for such month computed at an annual rate of 0.05% of the Fund's net asset value in such month.

Certain officers and trustees of the Fund are officers and directors of Dinsmore Capital.

### NOTE 3 PORTFOLIO ACTIVITY

At March 31, 2014, there were 13,140,692 shares of beneficial interest outstanding, with a par value of \$0.01 per share. During the six months ended March 31, 2014, 38,046 shares were issued in connection with reinvestment of dividends from net investment income, resulting in an increase in paid-in capital of \$305,503.

During the six months ended March 31, 2014 the Fund purchased 405,236 capital shares in the open market at a cost of \$3,342,899. The weighted average discount of these purchases comparing the average purchase price to net asset value at the close of the NYSE MKT Exchange was 16.65%.

Purchases and sales of investments, exclusive of corporate short-term notes, aggregated \$42,919,758 and \$42,848,292, respectively, for the six months ended March 31, 2014.

#### NOTE 4 NEW ACCOUNTING PRONOUNCEMENT

In June 2013, the Financial Accounting Standards Board issued guidance that creates a two-tiered approach to assess whether an entity is an investment company. The guidance will also require an investment company to measure non-controlling ownership interest in other investment companies at fair value and will require additional disclosures relating to investment company status, any changes thereto and information about financial support provided or contractually required to be provided to any of the investment company's investees. The guidance is effective for financial statements with fiscal years beginning on or after December 15, 2013 and interim periods within those fiscal years. Management is evaluating the impact of this guidance on the Funds' financial statement disclosures.

#### NOTE 5 SUBSEQUENT EVENTS

In preparing the financial statements as of March 31, 2014, management considered the impact of subsequent events for potential recognition or disclosure in these financial statements.

ELLSWORTH FUND LTD. 2014 SEMI-ANNUAL REPORT TO SHAREHOLDERS

## Board Approval of Advisory Contract

*The independent trustees of the Fund renewed the advisory contract with Dinsmore Capital Management Co. in November 2013. The following are the material factors and conclusions that formed the basis for that approval.*

---

**The nature and extent of the advisory services provided by Dinsmore Capital** The Board of Trustees (the Board) of the Fund and the independent trustees reviewed the services provided by Dinsmore Capital under the Advisory Agreement. The Board noted that under the Advisory Agreement, Dinsmore Capital supervised all aspects of the Fund's operations including the investment and reinvestment of cash, securities or other properties comprising the Fund's assets. In this regard, the Board noted that under the Advisory Agreement Dinsmore Capital is responsible to, among other things, (a) supervise all aspects of the operations of the Fund; (b) obtain and evaluate pertinent information about significant developments and economic, statistical and financial data, domestic, foreign or otherwise, whether affecting the economy generally or any industry or the Fund or any issuer of securities held or to be purchased by the Fund; (c) determine which issuers and securities will be represented in the Fund's investment portfolio and regularly report thereon to the Board; (d) place orders for the purchase and sale of securities for the Fund; (e) take all appropriate actions regarding mergers, consolidations, elections, conversions, exchanges, etc. with respect to portfolio securities; and (f) take, on behalf of the Fund, such other action as Dinsmore Capital deems to be necessary or appropriate in connection with the above. Based on such review, both the Board as a whole and the independent trustees separately as a group concluded that the range of services provided by Dinsmore Capital under the Advisory Agreement was appropriate and that Dinsmore Capital currently has been providing services in accordance with the terms of the Advisory Agreement.

**The quality of services provided by Dinsmore Capital** In reviewing the qualifications of Dinsmore Capital to provide investment advisory services, both the Board as a whole and the independent trustees separately as a group reviewed the credentials and experience of Dinsmore Capital's investment personnel who will provide investment advisory services to the Fund, and considered Dinsmore Capital's (i) portfolio and product review process, particularly its adherence to the Fund's investment mandate, (ii) compliance function and its culture of compliance, (iii) use of technology, including the use, from time to time, of direct satellite links to issuer interviews and conferences, (iv) investment research operations (which involves meetings with issuers and analysts, attendance at investment seminars and visits to issuers, and the review of (a) financial newspapers, industry literature, publications and periodicals, (b) research materials prepared by others, (c) issuer annual reports and prospectuses, and (d) issuer press releases) and trading operations (which involves computerized execution of orders), and (v) focus on

providing high quality services while keeping the Fund's fees and expenses as low as possible. The Board as a whole and the independent trustees separately as a group also took into consideration the presentations made by Dinsmore Capital at prior Board meetings pertaining to its management of the Fund. Based on the review of these and other factors, both the Board as a whole and the independent trustees separately as a group determined and concluded that the quality of services provided by Dinsmore Capital has been exemplary, that Dinsmore Capital currently is providing services to the Fund in accordance with the terms of the Advisory Agreement, and that the independent trustees were confident that such services would continue in a similar fashion in 2014.

**The performance of the Fund relative to comparable funds** Both the Board as a whole and the independent trustees separately as a group reviewed the performance of the Fund (at net asset value) during the past calendar year-to-date, one, three, five and ten years ended August 31, 2013 against the performance of other closed-end and open-end funds investing in convertible securities and believed by management to be in the Fund's peer group. Mr. Dinsmore pointed out that some funds against which the Fund compared itself were of such a large size that they were required to make some investments in non-convertible securities (because of the limited size of the convertible securities market), which meant, in turn, that the comparison of such funds to the Fund was not perfect, particularly insofar as the Fund's performance was compared with any fund which had

- 20 -

## Board Approval of Advisory Contract *(continued)*

invested heavily in equity securities during the past five years. Both the Board as a whole and the independent trustees separately as a group noted that the Fund's performance was superior to the Advent Claymore Convertibles Securities Fund, one of the two funds which Dinsmore Capital believed were most similar to the Fund, for the three-, five-, and ten-year time periods, but that the Fund underperformed such fund for the year-to-date and one-year time periods. The Board and the independent trustees noted that the Fund's performance was superior to that of the Gabelli Convertible & Income Fund, the other fund which Dinsmore Capital believed was most similar to the Fund, for the year-to-date, five- and ten-year time periods, but that the Fund underperformed relative to such fund for the one- and three-year time periods. The Fund's performance trailed the mean of 76 open-end convertible funds tracked by Lipper, Inc. for all time periods other than the year-to-date and three-year time periods. However, in evaluating the Fund's performance against funds in the closed-end fund group, the Board as a whole and the independent trustees separately as a group took into account the fact that many of these competitors engage in leverage, which has increased their returns, but has done so with increased risk of loss. Because of this increased risk of loss, the Fund has traditionally not engaged in leverage. Mr. Dinsmore pointed out that at October 31, 2013 the Fund had outperformed the average of the U.S. closed-end funds which invest in convertible securities for the calendar year-to-date and one-year periods. The Board as a whole and the independent trustees separately as a group also noted that the portfolio manager's investment approach is to make equity investments utilizing convertible securities to provide a total return similar to that of equity securities, but with lower volatility and higher income. They noted that in striving to maintain the current dividend level for shareholders the Fund's portfolio needed a balance of issues that could represent a total return approach that would by necessity be less equity sensitive than the indices. The Board found the Fund's performance to be near the mean and therefore, the independent trustees concluded that Fund performance was satisfactory.

**The performance of the Fund relative to indices** Both the Board and the independent trustees reviewed the performance of the Fund (at net asset value) during the past year-to-date, one, three, five, and ten years ended August 31, 2013 against the performance of the Bank of America Merrill Lynch All Convertibles Index ( VXA0 ), the Bank of America Merrill Lynch Investment Grade Convertibles Index ( VXA1 ), the Bank of America Merrill Lynch Speculative Grade Convertible Index, the Barclays Balanced Profile Index, and the S&P 500® Index. The Board as a whole and the independent trustees separately as a group noted that the Fund's performance (on a GIPS format basis because the indices do not pay fees) was inferior to that of the VXA0 for the one-, three-, and five-year time periods, but the Fund outperformed for the ten-year time period. The Fund significantly outperformed the VXA1 for all time periods other than the year-to-date and one-year time periods where it underperformed, for the one year, by a mere eight basis points. The Fund outperformed the Speculative Grade Convertible Index for the year-to-date period but underperformed for all other time periods. The Fund outperformed the Barclays Balanced Profile Index for the year-to-date and three-year periods. In addition, the Fund's performance was superior to that of the S&P 500® Index for the five- and ten-year time periods; however, the Fund underperformed the S&P 500® Index for the year-to-date, one- and three-year time periods. The Fund's ten-year standard deviation was less than that of the S&P 500® Index. Based on this review and taking into account all of the other factors that the Board as a whole and the independent trustees separately as a group considered in determining whether to renew the Advisory Agreement, the Board as a whole and the independent trustees separately as a group concluded that performance was satisfactory.

**Meetings with the Fund's portfolio manager and investment personnel** Both the Board as a whole and the independent trustees separately as a group noted that they meet regularly with the Fund's portfolio manager and investment personnel, and believe that such individuals are extremely competent and able to carry out their responsibilities under the Advisory Agreement. Moreover, the Board noted with approval the increased portfolio management responsibilities being shared with newer members of Dinsmore Capital.

ELLSWORTH FUND LTD. 2014 SEMI-ANNUAL REPORT TO SHAREHOLDERS

## Board Approval of Advisory Contract *(continued)*

**Overall performance of Dinsmore Capital** After considering the overall performance of Dinsmore Capital in providing investment advisory and administrative services to the Fund, both the Board as a whole and the independent trustees separately as a group concluded that such performance was satisfactory.

**Fees relative to those of clients of Dinsmore Capital with comparable investment strategies** Both the Board as a whole and the independent trustees separately as a group noted that the Fund and Bancroft Fund Ltd. (the Funds) are the only clients of Dinsmore Capital, and that the advisory fee rates for the Funds are the same. Both the Board as a whole and the independent trustees separately as a group concluded that, because the fee rates are the same for both Funds, the current advisory fee rate of the Fund was fair as compared to the rate for Bancroft Fund Ltd.

**Fees relative to those of comparable funds with other advisors** After reviewing the advisory fee rate and expense ratio for the Fund against the advisory fee rates and expense ratios for funds advised by other advisors in the Fund's comparison group, both the Board as a whole and the independent trustees separately as a group determined that the Fund's expense ratio was significantly lower than that of the other funds in the comparison group, and below that of most closed end funds. Accordingly, the Board concluded that the current advisory fee rate and other Fund fees and costs were fair and reasonable.

**Expense limitations and fee waivers** Both the Board as a whole and the independent trustees separately as a group noted that, although there are no contractual expense limitations or fee waivers in effect for the Fund, Dinsmore Capital is very diligent in its efforts to keep expenses of the Fund as low as possible. The independent trustees also noted that the cost of compliance with regulatory initiatives was increasing. Both the Board as a whole and the independent trustees separately as a group concluded that the current level of expenses for the Fund was fair and reasonable.

**Breakpoints and economies of scale** Both the Board and the independent trustees reviewed the structure of the Fund's advisory fee under the Advisory Agreement, and noted that the fee includes one breakpoint for Fund assets of at least \$100 million. Both the Board as a whole and the independent trustees separately as a group noted that the Fund's assets were above the \$100 million breakpoint. Both the Board and the independent trustees concluded that the Fund's fee levels under the Advisory Agreement, therefore, reflect economies of scale and that it was not necessary to implement any further changes to the structure of the advisory fee for the Fund.

**Profitability of Dinsmore Capital** Both the Board and the independent trustees reviewed information concerning the profitability and financial condition of Dinsmore Capital. In particular, the Board reviewed Dinsmore Capital's financial statements including its statement of income and retained earnings, statement of cash flows, and audited balance sheet. The Board also reviewed Dinsmore Capital's costs in providing services to the Funds. The Board noted that currently Dinsmore Capital's sole source of revenue was fees from the Funds for providing advisory and administrative services to the Funds. The Board as a whole and the independent trustees separately as a group noted that Dinsmore Capital's operations were at approximately break even during its most recent four fiscal years, despite the severe market downturn. Some independent trustees expressed concern about whether Dinsmore Capital would be able to maintain its high level of services to the Funds unless it was able to increase assets under management in future years. As a result, the independent trustees reiterated their prior advice that Dinsmore Capital increase its efforts to grow its assets under management. Based on the review of the profitability of Dinsmore Capital and its financial condition, both the Board as a whole and the independent trustees separately as a group concluded that the compensation to be paid by the Fund to Dinsmore Capital under the Advisory Agreement was not excessive.

ELLSWORTH FUND LTD. 2014 SEMI-ANNUAL REPORT TO SHAREHOLDERS

## Board Approval of Advisory Contract *(continued)*

**Dinsmore Capital's financial soundness in light of the Fund's needs** Both the Board and the independent trustees considered whether Dinsmore Capital is financially sound and has the resources necessary to perform its obligations under the Advisory Agreement, and concluded that it does.

**Benefits of soft dollars to Dinsmore Capital** Both the Board and the independent trustees discussed the fact that there are no third-party soft dollar arrangements in effect with respect to the Fund. Both the Board and the independent trustees recognized that Dinsmore Capital does receive proprietary research from brokers with whom it executes portfolio transactions on behalf of the Fund. This research is used by Dinsmore Capital in making investment decisions for the Fund and for Bancroft Fund Ltd. Both the Board and the independent trustees also considered representations made by Dinsmore Capital that portfolio transactions received best execution. Because such research ultimately benefits the Fund, the Board and the independent trustees concluded that it was appropriate to receive proprietary research.

**Historical relationship between the Fund and Dinsmore Capital** In determining whether to continue the Advisory Agreement for the Fund, both the Board and the independent trustees also considered the prior relationship among Dinsmore Capital and the Fund, as well as the independent trustees' knowledge of Dinsmore Capital's operations, and concluded that it was beneficial to maintain the current relationship, in part, because of such knowledge. Both the Board as a whole and the independent trustees separately as a group also reviewed the general nature of the non-investment advisory services currently performed by Dinsmore Capital, such as administrative services, and the fees received by Dinsmore Capital for performing such services. In addition to reviewing such services, both the Board and the independent trustees also considered the organizational structure employed by Dinsmore Capital to provide those services. Based on the review of these and other factors, both the Board and the independent trustees concluded that Dinsmore Capital was qualified to provide non-investment advisory services to the Fund, including administrative services, and that Dinsmore Capital currently is providing satisfactory non-investment advisory services to the Fund.

**Other factors and current trends** Both the Board and the independent trustees considered the culture of compliance and high ethical standards at Dinsmore Capital, and the efforts historically and currently undertaken by Dinsmore Capital to engage in best practices. Both the Board and the independent trustees noted Dinsmore Capital's historical adherence to compliance procedures, as well as the Fund's investment objectives, policies and restrictions. Both the Board as a whole and the independent trustees separately as a group concluded that this commitment to adhere to the highest ethical standards was an important factor in their determination that they should approve the continuance of the Advisory Agreement for the Fund.

After considering all of the above factors and based on informed business judgment, the Board determined that the Advisory Agreement is in the best interests of the Fund and its shareholders and that the compensation to Dinsmore Capital under the Advisory Agreement is fair and reasonable. As a result, the Board concluded to renew the Advisory Agreement for an additional year.

**Notice of Privacy Policy**

## Edgar Filing: ELLSWORTH FUND LTD - Form N-CSRS

The Fund has adopted a privacy policy in order to protect the confidentiality of nonpublic personal information that we have about our shareholders. We receive personal information, such as the name, address and account balances of our shareholders, when transactions occur in Fund shares registered in their name.

We may disclose this information to companies that perform services for the Fund, such as the Fund's transfer agent or proxy solicitors. These companies may only use this information in connection with the services they provide to the Fund, and not for any other purpose. We will not otherwise disclose any nonpublic personal information about our shareholders or former shareholders to anyone else, except as required by law.

Access to nonpublic information about our shareholders is restricted to our employees and service providers who need that information in order to provide services to them. We maintain physical, electronic and procedural safeguards that comply with federal standards to guard nonpublic personal information.

ITEM 11.

CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning controls and procedures

(a) As of May 29, 2014, an evaluation was performed under the supervision and with the participation of the officers of the Fund, including the Principal Executive Officer (PEO) and Principal Financial Officer (PFO), to assess the effectiveness of the Fund's disclosure controls and procedures, as defined in Rule 30a-3(c) (17 CFR 270.30a-3(c)) under the Investment Company Act of 1940, as amended (the Act). Based on that evaluation, as required by Rule 30a-3(b) under the Act (17 CFR 270.30a-3(b)) and Rule 13a-15(b) or 15d-15(b) under the Exchange Act (17 CFR 240.13a-15(b) or 240.15d-15(b)), the Fund's officers, including the PEO and PFO, concluded that, as of May 29, 2014, the Fund's disclosure controls and procedures were reasonably designed so as

---

to ensure: (1) that information required to be disclosed by the Fund on Form N-CSR is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission and (2) that material information relating to the Fund is made known to the PEO and PFO as appropriate to allow timely decisions regarding required disclosure.

(b) There have been no changes in the Fund's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting.

ITEM 12.

EXHIBITS.

(a)(1) The code of ethics disclosure required by Item 2 is not applicable to this semi-annual report.

(a)(2) Certifications of the principal executive officer and the principal financial officer pursuant to Rule 30a-2(a) under the Act (17 CFR 270.30a-2(a)), are attached hereto.

(a)(3) There were no written solicitations to purchase securities under Rule 23c-1 under the Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the Fund to ten or more persons.

(b) Certifications of the principal executive officer and the principal financial officer, as required by Rule 30a-2(b) under the Act (17 CFR 270.30a-2(b)), Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) are attached hereto.
