**CAMTEK LTD. ANNOUNCES 2004 FOURTH QUARTER & YEAR END RESULTS**

**Q4 Revenues \$17.6 Million; EPS of \$0.11**

**2004 Revenues \$67.4 Million representing year-to-year growth of 117%**

MIGDAL HAEMEK, Israel February 23, 2005 Camtek Ltd. (NASDAQ:CAMT), today announced results for the fourth quarter and twelve months ended December 31, 2004.

Revenues for the fourth quarter of 2004 were \$17.6 million, up 68% from \$10.4 million in the fourth quarter of 2003, and sequentially down 9% from \$19.3 million in the quarter ended September 30, 2004. Gross profit margin for the fourth quarter of 2004 was 53.7% compared to a 51.5% margin for the fourth quarter of 2003, and a 54.8% margin for the third quarter of 2004.

Net profit for the fourth quarter of 2004 was \$3.0 million, or \$0.11 per share. This compares with a net profit of \$0.6 million, or \$0.01 per share, in the fourth quarter of 2003. For the third quarter of 2004, which includes a one-time charge of \$1.1 million for the discontinued plan for a secondary public offering, net profit was \$3.3 million, or \$0.12 per share. Excluding the one-time charge, net profit for the third quarter of 2004 would have been \$4.4 million, or \$0.16 per share.

Revenues for the twelve-month period ended December 31, 2004 were \$67.4 million, up 117% from \$31.1 million for the twelve-month period ended December 31, 2003. Gross profit margin for the year 2004 was 53.5%, compared to a 46% margin in 2003. Net profit for the twelve months ended December 31, 2004 was \$10.8 million, or \$0.39 per share, including the one time charge. Excluding the one time charge, the net profit for twelve months ended December 31, 2004 would have been \$11.9 million, or \$0.43 per share, compared to a net loss of \$1.6 million, or \$0.06 per share for the twelve months ended December 31, 2003.

Rafi Amit, Camtek's CEO, commented: 2004 was a fantastic year for us. We achieved record revenues more than doubling last-year's figures. We also penetrated new markets; our gross margins were among the best in the industry; we continued to prove our capability of taking advantage of market opportunities; our new Dragon and Orion models experienced high demand from numerous major PCB manufacturers around the world, particularly in China.

Mr. Amit added, Moreover, in the semiconductor manufacturing and packaging market we have established a viable foothold with a total of 19 Falcon installations in the US, Japan, Singapore and Taiwan. Ten of these installations have already turned into sales, contributing approximately \$4.7 million to our annual revenues. The Falcon's very positive market acceptance confirms our assessment that it is becoming a significant growth engine for us.

## Edgar Filing: CAMTEK LTD - Form 6-K

Mr. Amit continued: It is only typical in our environment that after such strong growth, as experienced by the capital equipment industry, some capacity adjustment takes place. We can already see the effect of this adjustment in our fourth quarter revenues. We suspect that this adjustment, along with the seasonal effect of the Chinese New Year, will significantly impact our business in the first quarter of 2005, though our limited visibility at this point precludes us from providing precise revenue guidance. However, we expect Falcon system sales to keep growing, making up a quarter of our revenues in 2005 and cushioning the potential decline in income from the PCB industry. Toward this end, we are currently focusing our efforts on strategic customers, having them evaluate and qualify the Falcon. This qualification process is a precondition for winning multiple orders from these customers in the future.

Mr. Amit concluded: Our outlook for 2005 as a whole remains positive and we have slightly adjusted our working assumptions to expect revenue growth of approximately 10% over 2004. We base this outlook on both analyst forecasts and our expectations of industry growth in the second half of the year, and on our belief in the competitive advantages of our products.
