On June 24, 2013, the Board of Directors of BlueLinx Holdings Inc. (“BlueLinx” or “the Company”) approved a strategic restructuring plan to improve operational efficiency to support the Company’s growth initiatives in its key markets (the “2013 Restructuring Plan”).

The 2013 Restructuring Plan includes the realignment of headquarters resources and the strategic review of five distribution centers. Based on the Company’s current analysis of its most attractive market opportunities and geographic footprint, the Company has begun exploring various strategic alternatives regarding the future operations of the five distribution centers. The Company will consider alternatives to increase stockholder value, which could include various forms of strategic partnering, as well as the possible sale or closure of certain distribution centers. During the process, the Company will continue to fully operate the impacted distribution centers. These actions are commencing immediately and are expected to be completed during the fiscal third quarter of 2013.

In connection with the 2013 Restructuring Plan and the previously announced change in the Company’s executive leadership, the Company expects to recognize aggregate pre-tax restructuring charges in its current fiscal year GAAP financial results in the range of \$11.5 to \$12.5 million. Fiscal second-quarter GAAP financial results are expected to include pre-tax restructuring charges of approximately \$5.0 million in severance charges, approximately \$2.0 million in stock compensation charges, and approximately \$1.0 million in other charges. Fiscal third-quarter GAAP financial results are expected to include in the range of \$1.5 to \$2.5 million of non-cash restructuring charges in lease reserves related to facilities to be sold or closed. Excluding the five distribution centers, the Company expects these actions to generate annual payroll related and other cost savings in the range of \$9.0 to \$10.0 million. Upon completion, the Company expects to generate in the range of \$25.0 to \$27.0 million in operating cash, a portion of which will be reinvested in its other markets, with the balance used to pay down its long-term debt.
