### TRAFFIC AND CAPACITY STATISTICS - June 2006

#### Summary of the headline figures

In June 2006, passenger capacity, measured in Available Seat Kilometres, was 3.1 per cent above June 2005. Traffic, measured in Revenue Passenger Kilometres, was higher by 6.6 per cent. This resulted in a passenger load factor up 2.7 points versus last year, to 81.6 per cent. The increase in traffic comprised an 11.7 per cent increase in premium traffic and a 5.7 per cent increase in non-premium traffic. Cargo, measured in Cargo Tonne Kilometres, increased by 2.2 per cent. Overall load factor increased by 2.2 points to 73.4 per cent.

For the April to June quarter, ASKs rose by 4.1 per cent, with RPKs rising by 7.7 per cent. This resulted in an increase in passenger load factor of 2.6

points, to 78.2 per cent. This comprised a 9.8 per cent increase in premium traffic and a 7.4 per cent increase in non-premium traffic. CTKs rose by 1.9 per cent.

### Market conditions

Market conditions remain broadly unchanged as significant promotional activity is required to maintain seat factors.

### Strategic Developments

British Airways announced that it is assisting the Office of Fair Trading (OFT) and the United States Department of Justice (DOJ) in an investigation into alleged cartel activity involving BA and other airlines in relation to pricing of passenger air transportation, including fuel surcharges. BA's policy is to conduct its business in full compliance with all applicable competition laws. Martin George, Commercial Director, and Iain Burns, Head of Communications, have been given leave of absence during the investigation.

British Airways won the title of Airline of the Year 2006 at the annual Skytrax World Airline Awards.

Jumping four places from last year's line-up, the airline beat key competitors from all over the world, including the Asia Pacific region, to take the award. The results found that the number of premium passengers to nominate BA was higher than any of the other airlines in the top ten.

The company's head of environmental affairs, Andrew Sentance said that the European Union had an historic opportunity to limit aviation's impact on climate change by producing a workable scheme for emissions trading. Dr Sentance said plans to incorporate aviation emissions in Europe's carbon trading scheme had made "good progress" in the last three years and could be implemented by 2010 at the latest.

Following Department for Transport recommendations the airline introduced changes to its baggage policies to make them easier for air travellers and to reduce queues at airports. The new guidelines mean changes to hand, checked and excess baggage allowances and are being phased in from early July across the airline's global network.

British Airways and Malev Hungarian Airlines signed an agreement that will enable the two airlines to begin codesharing on each other's flights from November 1, 2006. Malev's flight code will be placed on BA's three daily flights from London Heathrow to Budapest and BA's flight code will be placed on Malev's two daily flights from Budapest to London Gatwick.
