ALBERTO-CULVER COMPANY AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) BASIS OF PRESENTATION

The consolidated financial statements contained in this report have not been audited by independent public accountants, except for balance sheet information presented at September 30, 2003. However, in the opinion of the company, the consolidated financial statements reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the data contained therein. The results of operations for the periods covered are not necessarily indicative of results for a full year. Certain amounts for the prior year have been reclassified to conform to the current year's presentation.

(2) CONVERSION TO ONE CLASS OF COMMON STOCK

On October 22, 2003, the Board of Directors approved the conversion of all of the issued shares of Class A common stock into Class B common stock on a one share-for-one share basis in accordance with the terms of the company's certificate of incorporation. The conversion became effective after the close of business on November 5, 2003. The single class of common stock continues to trade on the New York Stock Exchange under the symbol ACV. Following the conversion, all outstanding options to purchase shares of Class A common stock became options to purchase an equal number of shares of Class B common stock.

The company accounts for stock compensation expense in accordance with Accounting Principles Board (APB) Opinion No. 25, "Accounting for Stock Issued to Employees." Under these rules, the conversion to one class of common stock requires the company to recognize a non-cash charge from the remeasurement of the intrinsic value of all Class A stock options outstanding on the conversion date. A portion of this non-cash charge was recognized on the conversion date for vested stock options and the remaining non-cash charges related to unvested stock options and restricted shares will be recognized over the remaining vesting periods. As a result, the company will record a non-cash charge against pre-tax earnings of \$105.9 million (\$68.8 million after taxes), of which \$8.1 million (\$5.3 million after taxes) and \$71.3 million (\$46.3 million after taxes) was recognized in the second quarter and first half of fiscal year 2004, respectively, another \$15.5 million (\$10.1 million after taxes) will be recognized during the remainder of fiscal year 2004 and \$19.1 million (\$12.4 million after taxes) will be recognized over the following three fiscal years in diminishing amounts. The non-cash charges reduce operating earnings, provision for income taxes, net earnings and basic and diluted net earnings per share. The balance sheet effect of the options remeasurement increased total stockholders' equity by \$2.8 million and \$25.0 million in the second quarter and first half of fiscal year 2004, respectively, and resulted in the recognition of a deferred tax asset of the same amount. Thereafter, the remaining non-cash charges will increase total stockholders' equity and result in the recognition of additional deferred tax assets of \$5.4 million during the remainder of fiscal year 2004 and \$6.7 million over the following three fiscal years in diminishing amounts.

(3) STOCKHOLDERS' EQUITY

On January 21, 2004, the Board of Directors approved a 3-for-2 stock split in the form of a 50% stock dividend on the company's outstanding shares. The additional shares were distributed February 20, 2004 to shareholders of record at the close of business on February 2, 2004. The stock dividend was distributed only on outstanding shares and not on shares held in the treasury. All share and per share information in this report, except for treasury shares, has been restated to reflect the 50% stock dividend.

Notes to Consolidated Financial Statements (Continued)

(3) STOCKHOLDERS EQUITY (continued)

On January 22, 2004, shareholders approved amendments to the company's certificate of incorporation that eliminated Class A common stock from the authorized capital of the company and redesignated the Class B common stock to Common Stock. As a result of these amendments, the Company has 300,000,000 shares of Common Stock. The newly designated Common Stock continues to trade on the New York Stock Exchange under the symbol ACV.

In July, 2002, the Board of Directors authorized the company to purchase up to 2,384,150 shares of Class A common stock. As of October 22, 2003, the company had purchased 331,700 Class A shares under the authorization at a total cost of \$15.1 million. On October 22, 2003, the Board of Directors authorized the company to purchase up to 2,052,450 shares of Common Stock. This authorization replaced the Class A share repurchase program. A total of 2,052,450 shares remain available for purchase under the program as of March 31, 2004.

During the six months ended March 31, 2004 and 2003, the company acquired \$40.1 million and \$1.8 million, respectively, of common stock surrendered by employees in connection with the exercise of stock options and the payment of withholding taxes as provided under the terms of certain incentive plans. Shares acquired under these plans are not subject to the above-mentioned stock repurchase program.

(4) WEIGHTED AVERAGE SHARES OUTSTANDING

The following table provides information on basic and diluted weighted average shares outstanding (in thousands):

	Three Months Ended March 31		Six Months Ended March 31

(5) ACCOUNTING FOR STOCK-BASED COMPENSATION

The Financial Accounting Standards Board's Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, requires either the adoption of a fair value based method of accounting for stock-based compensation or the continuance of the intrinsic value method with pro-forma disclosures as if the fair value method was adopted. The company has elected to continue measuring compensation expense for its stock-based plans using the intrinsic value method prescribed by APB No. 25 and, accordingly, no compensation cost related to stock options has been recognized in the consolidated statements of earnings.

Had compensation expense for stock option plans been determined based upon the fair value of stock options on the dates of grant and recognized over the vesting period consistent with SFAS No. 123, the company's pro-forma net earnings and net earnings per share for the three months and six months ended March 31, 2004 and 2003 would have been as follows (in thousands, except per share amounts):

	Three Months		Six Months	
	Ended March 31		Ended March 31	
	2004	2003	2004	2003
Net earnings:				
As reported	\$ 40,585	37,855	42,326	73,871
Add: Stock-based compensation expense included in reported net income, net of related income tax effects	5,483	469	46,802	847

Pro-forma	\$.47	.40	.91	.78

The \$5.5 million and \$46.8 million addbacks for the three and six months ended March 31, 2004, respectively, for stock-based compensation expense included in reported net income include the \$5.3 million and \$46.3 million after-tax non-cash charges related to the conversion to a single class of common stock for the same periods. The \$2.7 million and \$5.5 million deductions for the three and six months ended March 31, 2004, respectively, for stock-based compensation expense determined under the fair-value based method include \$11,000 and \$85,000 of pro-forma after-tax non-cash charges related to the conversion to a single class of common stock for the same periods. See note 2 for further discussion of the conversion.

(8) GOODWILL AND TRADE NAMES

Information about changes in the carrying amount of goodwill by operating segment for the six months ended March 31, 2004 is as follows (in thousands):

	Global Consumer Products	Specialty distribution- Sally	Total
Balance as of September 30, 2003	\$ 142,440	212,845	355,285
Additions, net of purchase price adjustments	22,735	93,012	115,747

Balance as of March 31, 2004	<u>\$ 166,036</u>	<u>306,898</u>	<u>472,934</u>

The \$22.7 million increase in Global Consumer Products was mainly attributable to the acquisition of Pantresse in January, 2004. The increase in Specialty distribution Sally goodwill was primarily due to the acquisition of West Coast Beauty Supply in December, 2003. See note 9 for further discussion of the West Coast Beauty Supply acquisition.

Indefinite-lived trade names by operating segment at March 31, 2004 and September 30, 2003 were as follows (in thousands):

	March 31, 2004	September 30, 2003
Global Consumer Products	\$ 87,708	79,950
Specialty distribution Sally	4,513	4,513
	<u>\$ 92,221</u>	<u>84,463</u>

The increase in Global Consumer Products trade names was mainly attributable to the acquisition of a nutritional supplement product line in Norway by the company's Cederroth International subsidiary and the effect of foreign exchange rates.

(9) ACQUISITION

On December 1, 2003, the company acquired the net assets of West Coast Beauty Supply, a full-service distributor of professional beauty products, in order to expand the geographic area served by Sally Beauty Company's Beauty Systems Group. The total amount paid for the acquisition in the first half of fiscal year 2004 was \$122.7 million. In addition, approximately \$13.8 million will be paid over future periods in accordance with the purchase agreement. Goodwill of \$93.0 million, including the \$13.8 million of future payments, was recorded as a result of the acquisition. The acquisition was accounted for using the purchase method and, accordingly, the results of operations of West Coast Beauty Supply have been included in the consolidated financial statements from the date of acquisition. West Coast Beauty Supply is included in the company's Specialty distribution Sally segment.

(9) ACQUISITION (continued)

The following table provides pro-forma results for the three months and six months ended March 31, 2004 and 2003 as if West Coast Beauty Supply had been acquired on October 1, 2002. Anticipated cost savings and other effects of the planned integration of West Coast Beauty Supply are not included in the pro-forma results. The pro-forma amounts presented are not necessarily indicative of the results that would have occurred had the acquisition been completed as of October 1, 2002, nor are the pro-forma amounts necessarily indicative of future results.

The pro-forma amounts for the three months and six months ended March 31, 2004 include the non-cash charge related to the conversion to a single class of common stock. The non-cash charge reduced net earnings by \$5.3 million and \$46.3 million in the second quarter and first half of fiscal year 2004, respectively. Basic and diluted net earnings per share were reduced by 6 cents in the second quarter of fiscal year 2004 while basic and diluted net earnings per share were lowered by 52 cents and 51 cents, respectively, in the first half of fiscal year 2004 as a result of the non-cash charge.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

DESCRIPTION OF BUSINESS

Alberto-Culver Company and its consolidated subsidiaries (the company) have two segments for external financial reporting purposes. The Global Consumer Products segment consists of two divisions: (1) Alberto-Culver Consumer Products Worldwide, which develops, manufactures, distributes and markets branded beauty care products as well as branded food and household products in the United States, Canada and more than 120 other countries, and (2) Cederroth International, which manufactures, markets and distributes beauty and health care products throughout Scandinavia and in Europe. The company's Specialty distribution Sally segment consists of Sally Beauty Company which is comprised of two operations: (1) Sally Beauty Supply, a domestic and international chain of cash-and-carry outlets offering professional beauty supplies to both salon professionals and retail consumers and (2) Beauty Systems Group, a full-service beauty products distributor offering professional brands directly to salons through its own sales force and professional-only stores in exclusive geographical territories in North America.

OVERVIEW

As discussed in Note 2, on October 22, 2003, the Board of Directors approved the conversion of all of the issued shares of Class A common stock into Class B common stock on a one share-for-one share basis in accordance with the terms of the company's certificate of incorporation. The conversion became effective after the close of business on November 5, 2003. The single class of common stock continues to trade on the New York Stock Exchange under the symbol ACV. Following the conversion, all outstanding options to purchase shares of Class A common stock became options to purchase an equal number of shares of Class B common stock.

The company accounts for stock compensation expense in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees. Under these rules, the conversion to one class of common stock requires a remeasurement of the intrinsic value of all Class A stock options outstanding. A portion of this non-cash charge was recognized on the conversion date for vested stock options and the remaining non-cash charges related to unvested stock options and restricted shares will be recognized over the remaining vesting periods. As a result, the company will record a non-cash charge against pre-tax earnings of \$105.9 million (\$68.8 million after taxes) of which \$8.1 million (\$5.3 million after taxes) and \$71.3 million (\$46.3 million after taxes) was recognized in the second quarter and first half of fiscal year 2004, respectively, another \$15.5 million (\$10.1 million after taxes) will be recognized during the remainder of fiscal year 2004 and \$19.1 million (\$12.4 million after taxes) will be recognized over the following three fiscal years in diminishing amounts (hereafter the non-cash charge). The non-cash charges reduce operating earnings, provision for income taxes, net earnings and basic and diluted net earnings per share. The balance sheet effect of the options remeasurement increased total stockholders' equity by \$2.8 million and \$25.0 million in the second quarter and first half of fiscal year 2004, respectively, and resulted in the recognition of a deferred tax asset of the same amount. Thereafter, the remaining non-cash charges will increase total stockholders' equity and result in the recognition of additional deferred tax assets of \$5.4 million during the remainder of fiscal year 2004 and \$6.7 million over the following three fiscal years in diminishing amounts.

Net earnings excluding the non-cash charge, basic net earnings per share excluding the non-cash charge and diluted net earnings per share excluding the non-cash charge are used in the accompanying analysis of results of operations. These measures are non-GAAP financial measures as defined by Regulation G of the Securities and Exchange Commission. The non-cash charge relates to a change in the capital structure of the company rather than the normal operations of the company's core businesses. Management uses the non-GAAP financial measures excluding the non-cash charge to evaluate the operating results of the company and believes the presentation of these amounts provides the reader with information necessary to analyze the company's normal operations over various quarters. Reconciliations of these measures to the most directly comparable financial measures under generally accepted accounting principles (GAAP) in the United States are provided in the Reconciliation of Non-GAAP Financial Measures section of Management's Discussion and Analysis of Financial Condition and Results of Operations

(MD&A).

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

OVERVIEW (continued)

On January 21, 2004, the Board of Directors approved a 3-for-2 stock split in the form of a 50% stock dividend on the company's outstanding shares. The additional shares were distributed February 20, 2004 to shareholders of record at the close of business on February 2, 2004. The stock dividend was distributed only on outstanding shares and not on shares held in the treasury. All share and per share information in this report, except for treasury shares, has been restated to reflect the 50% stock dividend.

On January 22, 2004, shareholders approved amendments to the company's certificate of incorporation that eliminated Class A common stock from the authorized capital of the company's charter and redesignated the Class B common stock to Common Stock. As a result of these amendments, the Company has 300,000,000 shares of Common Stock. The newly designated Common Stock continues to trade on the New York Stock Exchange under the symbol ACV.

RESULTS OF OPERATIONS

Second Quarter and Six Months Ended March 31, 2004 versus Second Quarter and Six Months Ended March 31, 2003

The company achieved record second quarter net sales of \$819.3 million in fiscal year 2004, up \$112.4 million or 15.9% over the comparable period of the prior year. For the six-month period ending March 31, 2004, net sales reached a new high of \$1.58 billion, representing a 12.8% increase compared to last year's six-month period. The effect of foreign exchange rates increased sales by 3.3% in the second quarter and first half of fiscal year 2004.

Net earnings were \$40.6 million for the three months ended March 31, 2004 versus \$37.9 million in the prior year. Net earnings were lowered by \$5.3 million in the second quarter of fiscal year 2004 as a result of the non-cash charge, net of income taxes, discussed in the "Overview" section of the MD&A. Basic earnings per share of 45 cents in the second quarter of fiscal year 2004 were 2 cents or 4.7% higher than the same period of fiscal year 2003. Diluted earnings per share for the current quarter increased 4.8% to 44 cents from 42 cents in the same period of the prior year.

Net earnings excluding the non-cash charge were \$45.9 million for the three months ended March 31, 2004 or 21.1% higher than the prior year's second quarter net earnings of \$37.9 million. Basic earnings per share excluding the non-cash charge were 51 cents in the second quarter of fiscal year 2004, which was 8 cents or 18.6% higher than the same period of fiscal year 2003. Diluted earnings per share excluding the non-cash charge for the current quarter increased 19.0% to 50 cents from 42 cents in the same period of the prior year.

Net earnings for the six months ended March 31, 2004 were \$42.3 million versus \$73.9 million in the prior year. Net earnings were lowered by \$46.3 million in the first half of fiscal year 2004 as a result of the non-cash charge, net of income taxes, discussed in the "Overview" section of the MD&A. As a result, basic earnings per share were 47 cents in the first half versus 84 cents last year and diluted earnings per share were 46 cents in fiscal year 2004 compared to 82 cents in the prior year.

Edgar Filing: ALBERTO CULVER CO - Form 10-Q

Net earnings excluding the non-cash charge were \$88.7 million for the six months ended March 31, 2004 or 20.0% higher than the prior year's first half net earnings of \$73.9 million. Basic earnings per share excluding the non-cash charge were 99 cents in the first half of fiscal year 2004, which was 15 cents or 17.9% higher than the same period of fiscal year 2003. Diluted earnings per share excluding the non-cash charge for the first half of fiscal 2004 increased 18.3% to 97 cents from 82 cents in the same period of the prior year.

Compared to the same period of the prior year, sales of Global Consumer Products increased 10.1% and 8.7% in the second quarter and first six months of fiscal year 2004, respectively. The second quarter and first half increases were primarily due to the effect of foreign exchange rates, which increased sales by 6.3% and 6.2% in the second quarter and first half of fiscal year 2004, respectively, and higher sales of the Alberto VO5 and TRESemme lines of hair care products, St. Ives Swiss Formula skin care products and Mrs. Dash seasonings.

RESULTS OF OPERATIONS (continued)

The Specialty distribution Sally (Sally) business segment achieved a sales increase of 19.2% for the second quarter and 15.1% for the first six months of fiscal year 2004. The sales increase was mainly attributable to the expansion of Sally's full-service operations, including the acquisition of West Coast Beauty Supply in December, 2003, higher sales for established stores, the opening of new stores and the effect of foreign exchange rates.

Cost of products sold as a percentage of net sales was 49.0% for the second quarter and 49.5% for the first six months of fiscal year 2004 compared to 49.4% for the second quarter and 50.0% for the first half of the prior year. The decreases in the cost of products sold percentage in the second quarter and first half of fiscal year 2004 were primarily attributable to increased sales of higher margin products and cost savings programs for Alberto-Culver Consumer Products Worldwide and improved vendor pricing for Sally.

Compared to the prior year, advertising, marketing, selling and administrative expenses in fiscal year 2004 increased \$48.1 million or 16.4% for the second quarter and \$76.3 million or 13.3% for the first six months. The increases primarily resulted from the higher selling and administrative costs associated with the growth of the Sally Beauty Company business and higher expenditures for advertising and marketing.

Advertising and marketing expense was \$64.0 million for the second quarter and \$121.8 million for the first half of fiscal year 2004 versus \$59.0 million for the second quarter and \$108.5 million for the first half of fiscal year 2003. The increases primarily resulted from higher advertising and marketing expenditures for Alberto VO5 hair care products and St. Ives Swiss Formula skin care products along with the effects of foreign exchange rates and increases related to the growth of Sally Beauty Company.

The provision for income taxes as a percentage of earnings before income taxes was 35.0% for the second quarter and first half of fiscal year 2004 compared to 36.0% for the second quarter and first half of fiscal year 2003. The lower tax rate is mainly due to the mix of foreign taxable earnings.

FINANCIAL CONDITION

March 31, 2004 versus September 30, 2003

Working capital at March 31, 2004 was \$692.1 million, a decrease of \$7.9 million from \$700.0 million at September 30, 2003. The resulting ratio of current assets to current liabilities was 2.39 to 1.00 at March 31, 2004 compared to 2.50 to 1.00 at September 30, 2003. The decreases in working capital and the ratio of current assets to current liabilities was primarily due to cash outlays for the acquisitions of West Coast Beauty Supply and Pantresse, capital expenditures and cash dividends, partially offset by working capital generated from operations.

Edgar Filing: ALBERTO CULVER CO - Form 10-Q

Cash, cash equivalents and short-term investments decreased \$79.1 million during the first six months of fiscal year 2004 to \$291.1 million primarily due to the acquisitions of West Coast Beauty Supply and Pantresse, capital expenditures and cash dividends. These outflows were partially offset by cash flow provided by operating activities.

Inventories increased \$87.0 million during the first six months of fiscal year 2004 to \$618.1 million primarily due to the acquisition of West Coast Beauty Supply, the timing of inventory purchases, the growth of the Sally Beauty business, including new stores and new product lines, and the weakening of the U.S. dollar versus certain foreign currencies.

Net goodwill increased \$117.6 million during the first six months of fiscal year 2004 mainly due to the acquisitions of West Coast Beauty Supply and Pantresse.

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

FINANCIAL CONDITION (continued)

Net trade names increased \$7.8 million during the first six months of fiscal year 2004 primarily due to the December, 2003 acquisition of a nutritional supplement product line in Norway by the company's Cederroth International subsidiary.

Accounts payable increased \$30.4 million during the first six months of fiscal year 2004 mainly due to the operations of West Coast Beauty Supply, which was acquired in December, 2003, and the timing of inventory purchases and vendor payments.

Deferred income taxes and accrued income taxes decreased \$19.9 million during the first six months of fiscal year 2004. The decrease in deferred income taxes was primarily due to the deferred tax asset of \$24.9 million recorded in the first half in connection with the non-cash charge related to the conversion to a single class of common stock.

Other liabilities increased \$13.6 million during the first six months of fiscal year 2004 primarily due to deferred obligations related to the acquisition of West Coast Beauty Supply in December, 2003.

Common stock increased \$6.6 million during the first six months of fiscal year 2004 as a result of the reclassification from retained earnings for the par value of the additional shares issued for the 50% stock dividend in February, 2004.

Additional paid-in capital increased \$93.8 million during the first half of fiscal year 2004. The increase was primarily related to \$70.9 million of additional paid-in capital associated with the conversion to a single class of common stock and additional paid-in capital from the exercise of employee stock options.

Accumulated other comprehensive income - foreign currency translation decreased \$15.8 million during the first six months of fiscal year 2004 mainly due to the weakening of the U.S. dollar versus certain foreign currencies, primarily the Swedish krona, British pound, Euro, Canadian dollar and Australian dollar.

CRITICAL ACCOUNTING POLICIES

The company's significant accounting policies are described in note 1 of the Notes to the Consolidated Financial Statements included in the Annual Report on Form 10-K for the fiscal year ended September 30, 2003. A discussion of critical accounting policies is included in Management's Discussion and Analysis of Results of Operations and Financial Condition in the company's Annual Report on Form 10-K for the fiscal year ended September 30, 2003. There were no significant changes in the company's critical accounting policies during the six months ended March 31, 2004.

FORWARD - LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and the documents incorporated by reference herein, if any, may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on management's current expectations and assessments of risks and uncertainties and reflect various assumptions concerning anticipated results, which may or may not prove to be correct. Some of the factors that could cause actual results to differ materially from estimates or projections contained in such forward-looking statements include: the pattern of brand sales, including variations in sales volume within periods; competition within the relevant product markets, including the ability to develop and successfully introduce new products, ensuring product quality, pricing, promotional activities, introduction of competing products and continuing customer acceptance of existing products; loss of distributorship rights; risks inherent in acquisitions and strategic alliances; the loss of one or more key employees; the effects of a prolonged United States or global economic downturn or recession; changes in costs, including changes in labor costs, raw material prices or advertising and marketing expenses; the costs and effects of unanticipated legal or administrative proceedings; unanticipated effects of the conversion to a single class of common stock; health epidemics; and variations in political, economic or other factors such as currency exchange rates, inflation rates, tax changes, legal and regulatory changes or other external factors over which Alberto-Culver Company has no control. Alberto-Culver Company has no obligation to update any forward-looking statement in this Quarterly Report on Form 10-Q or any incorporated document.
