STATEMENT, EARLY TERMINATION OF HSR WAITING PERIOD AND

STOCKHOLDER MEETING DATES

OAKLAND, CA, AND SAN DIEGO, CA (May 25, 2004) Zhone Technologies, Inc. (Nasdaq: ZHNE), the first company dedicated solely to delivering the full spectrum of next-generation wireline communications equipment, and Sorrento Networks Corporation (Nasdaq: FIBR), a leading provider of access, metro and regional optical networking products, today announced that the Form S-4 Registration Statement relating to the proposed merger of the two companies has been declared effective by the Securities and Exchange Commission. Zhone and Sorrento also received notification of early termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act. Stockholder meetings for both Zhone and Sorrento have been scheduled for June 30, 2004, for stockholders of record as of May 25, 2004. Subject to the approval of the stockholders of both companies, Zhone and Sorrento anticipate compliance with all remaining closing conditions and for the transaction to be completed on July 1, 2004.

The proposed acquisition of Sorrento is expected to expand Zhone's substantial customer base with the addition of some of the world's largest cable operators, while at the same time bringing Zhone's current customers advanced new access and transport offerings. Sorrento's product portfolio has immediate application at both existing accounts as well as in greenfield deployments by delivering converged VoIP, broadband access, video services and transport protocols over their existing infrastructures.

The merger is designed to create a stronger market leader in the telecommunications industry. The combination is intended to enable the combined company to provide customers with integrated and comprehensive solutions made possible by the complementary nature of the product portfolios of Zhone and Sorrento.
