Ø A group-wide reduction and reassigning of roughly 10,000 employees is scheduled to be implemented by streamlining back office operations mainly in the head office. The aim is to reduce staff by approximately 6,000 while reassigning approximately 4,000 to strategic business areas and marketing sections by fiscal year 2008.

Ø The integration of systems relating to treasury activities and overseas activities are scheduled to be completed by the integration date. The integration of the domestic settlement and information systems is scheduled to be completed by the end of fiscal year 2007.
