NEWS RELEASE FROM HARMONY

24 March 2005

Further updates from Harmony

Strike action in Free State

Harmony confirmed that approximately 21 000 people employed in the original Harmony and Freegold operations in the Free State went out on strike last night. The company estimates that production loss per working day will be 5000 oz, which will impact the operating profit by approximately R1 million per day based on the December quarter's results.

The National Union of Mineworkers (NUM) have informed Harmony they will be taking the four-day Easter weekend off, so negotiations to resolve the issues in dispute will only resume on Tuesday.

Harmony Director Ferdi Dippenaar also confirmed that employees and members of NUM at our Target operations did not go out on strike following the successful interdict Harmony was granted last night.

Dippenaar reiterated that unresolved issues include a demand that Harmony implement the Mining Charter with immediate effect, which he says is something impossible to do over night, but that significant progress had been made by Harmony. We're the only mining house in South Africa which has converted from old order to new order mining rights according to the Charter requirements.

Addendum to mid-quarter update

Edgar Filing: HARMONY GOLD MINING CO LTD - Form 6-K

With regard to information released at the mid-quarter update on 10 March 2005, to ensure that Harmony remains compliant with the guidelines attached to the South African Code for Reporting of Mineral Resources (The SAMREC code), the paragraph reading

The CPR, now in the process of being filed with the JSE, shows that Harmony's audited proven and probable reserves total 52,1 million ounces. Another 8,3 million ounces of inferred reserves bring Harmony's total to 60,4 million ounces, in line with the guidance given at the December quarterly results presentation and representing only a 3% difference between Harmony's and SRK's reserve estimates.

Should read

The CPR, now in the process of being filed with the JSE, shows that SRK's audited estimate of Harmony's proven and probable reserves total 52,1 million ounces. Another 8,3 million ounces which are currently classified by SRK as inferred resources are included in Harmony's life of mine plans.
