PROSPECTUS SUMMARY

This summary highlights selected information about us. In addition to reading this summary, you should carefully review the entire prospectus, including the Risk Factors section of this document beginning on page 15, our consolidated financial statements and related notes incorporated by reference herein.

In this prospectus, other than in Description of the Notes and Description of Other Indebtedness, the terms SBA, SBA Communications, the Company, our company, we, our and us refer collectively to SBA Communications Corporation and its subsidiaries on a consolidated basis. term Telecommunications refers to SBA Telecommunications, Inc. The term SBA Senior Finance refers to SBA Senior Finance, Inc.

Our Company

We are a leading independent owner and operator of wireless communications towers in the Eastern third of the United States. We generate revenues from our two businesses, site leasing and site development. In our site leasing business, we lease antenna space to wireless service providers on towers and other structures that we own, manage or lease from others. The towers that we own have been constructed by us at the request of a carrier, built or constructed based on our own initiative or acquired. As of December 31, 2004, we owned 3,060 towers in continuing operations, approximately 60% of which we have built ourselves. In our site development business, we offer wireless service providers assistance in developing and maintaining their own wireless service networks. Since our founding in 1989, we have participated in the development of more than 25,000 antenna sites in 49 of the 51 major wireless markets in the United States.

Site Leasing Services

Our primary focus is the leasing of antenna space on our multi-tenant towers to a variety of wireless service providers under long-term lease contracts. Our site leasing business generates substantially all of our gross profit. Our activities are focused in the Eastern third of the United States where substantially all of our towers are located. We believe that over the long term our site leasing revenues will continue to grow as wireless service providers lease additional antenna space on our towers due to increasing minutes of network use and network coverage requirements. We lease antenna space on the towers we have constructed, the towers we have acquired, and the towers we lease, sublease and/or manage for third parties. Our site leasing revenue comes from a variety of wireless carrier tenants, including ALLTEL, Cingular, Nextel, Sprint PCS, T-Mobile and Verizon Wireless, and we believe our current tower portfolio positions us to take advantage of wireless carriers antenna and equipment deployment. We believe our site leasing business is characterized by stable and long-term recurring revenues, predictable operating costs and minimal capital expenditures. Due to the relatively young age and mix of our tower portfolio, we expect future expenditures required to maintain these towers will be minimal. Consequently, we expect to grow our cash flows by adding tenants to our towers at minimal incremental costs by using existing tower capacity or requiring carriers to bear all or a portion of the cost of tower modifications. Because our towers are strategically positioned and our customers typically do not re-locate, we have historically experienced low customer churn as a percentage of revenue. Our lease contracts typically have terms of five years or more with multiple term tenant renewal options and provide for annual rent escalators.

During 2004 we announced our intention to re-commence, on a limited basis, our new build program. The towers under our new build program will be constructed either under build-to-suit arrangements or in locations chosen by us. Under our build-to-suit arrangements, we will build towers for a wireless service provider on a location of their direction. We retain ownership of the tower and the exclusive right to co-locate additional tenants on the tower. In addition, we intend on building towers on locations chosen by us. Based on our knowledge of our customers needs, we seek to identify attractive locations for new towers and complete pre-construction procedures necessary to secure the site concurrently

with our leasing efforts. Our intent is that each

Table of Contents

of our new builds will have at least one tenant on the day that it is completed and we expect that many will have multiple tenants. We expect to build a total of 50 to 75 new towers during 2005.

The table below provides information regarding the development and status of our tower portfolio over the past five years.

	As of December 31,				
	2000	2001	2002	2003	2004
Towers owned at beginning of period	1,163	2,390	3,734	3,877	3,093
Tower constructed	779	667	141	13	10
Towers acquired	448	677	53		5
Towers reclassified/disposed of(1)			(51)	(797)	(42)
Towers owned at end of period	2,390	3,734	3,877	3,093	3,066
Towers held for sale at end of period	552	815	837	47	6
Towers in continuing operations at end of period	1,838	2,919	3,040	3,046	3,060
Towers owned at end of period	2,390	3,734	3,877	3,093	3,066

- (1) Reclassifications reflect the combination for reporting purposes of multiple acquired tower structures on a single parcel of real estate, which we market and customers view as a single location, into a single owned tower site. Dispositions reflect the sale, conveyance or other legal transfer of owned tower sites.

As of December 31, 2004, we had 7,257 tenants on our 3,060 towers included in continuing operations.

At December 31, 2004, our same tower revenue growth (defined as year over year growth on towers owned at December 31, 2003 that were still owned by us at December 31, 2004) was 14% and our same tower site leasing gross profit growth was 20% on the 3,053 towers we owned as of December 31, 2003 and December 31, 2004 in continuing operations.

The following chart includes details regarding our site leasing revenue and gross profit percentage:

	For the year ended December 31,		
	2002	2003	2004
	(dollars in thousands)		
Site leasing revenue	\$ 115,121	\$ 127,852	\$ 144,004
Percentage of total revenue	53.7%	66.6%	62.2%
Site leasing gross profit percentage contribution of total	79.4%	93.5%	94.1%

To help maximize the revenue and profit we earn from our capital investment in our towers, we provide services at our tower locations beyond the leasing of antenna space. The services we provide, or may provide in the future, include generator provisioning, antenna installation, equipment installation, maintenance, and backhaul, which is the transport of the wireless signals transmitted or received by an antenna to a carrier's network. Some of these services are part of our site leasing services (e.g., the generator provisioning) and are recurring in nature, and are contracted for by a wireless carrier or other user in a manner similar to the way they lease antenna space.

Table of Contents

Site Development Services

Our site development business consists of two segments, site development consulting and site development construction, through which we provide wireless service providers a full range of end-to-end services. In the consulting segment of our site development business, we offer clients the following services: (1) network pre-design; (2) site audits; (3) identification of potential locations for towers and antennas; (4) support in buying or leasing of the location; and (5) assistance in obtaining zoning approvals and permits. In the construction segment of our site development business we provide a number of services, including, but not limited to the following: (1) tower and related site construction; (2) antenna installation; and (3) radio equipment installation, commissioning and maintenance. During 2004, we completed our previously announced plan to exit the services business in the Western portion of the United States based on our determination that this business was no longer beneficial to our site leasing business. Consequently, our services business is focused in the Northeast and Southeast regions of the U.S. In these regions we are involved in major projects with most of the major wireless communications and services companies. Our site development customers include Bechtel Corporation, Cingular, General Dynamics, Nextel, Sprint PCS, T-Mobile and Verizon Wireless.

Business Strategy

Our primary strategy is to capture the maximum benefits from our position as a leading owner and operator of wireless communications towers. Key elements of our strategy include:

Focusing on Site Leasing Business with Stable, Recurring Revenues. We intend to continue to focus on and allocate substantially all of our capital resources to expanding our site leasing business due to its attractive characteristics such as long-term contracts, built-in rent escalators, high operating margins and low customer churn. The long-term nature of the revenue stream of our site leasing business makes it less volatile than our site development business, which is more reactive to changes in industry conditions. By focusing on our site leasing business, we believe that we can maintain a stable, recurring cash flow stream and reduce our exposure to cyclical changes in customer spending.

Maximizing Use of Tower Capacity. We generally have constructed our towers to accommodate multiple tenants and a substantial majority of our towers are high capacity lattice or guyed towers. Most of our towers have significant capacity available for additional antennas and we believe that increased use of our towers can be achieved at a low incremental cost. We actively market space on our towers through our internal sales force.

Geographically Focusing our Tower Ownership. We have decided to focus our tower ownership geographically in the Eastern third of the United States. We believe that focusing our site leasing activities in this smaller geographic area, where we have a higher concentration of towers, will improve our operating efficiencies and reduce our overhead expenses and procure higher revenue per tower.

Disciplined Capital Expenditures While Reducing our Leverage. Over the last two years, we have successfully reduced our leverage and implemented a disciplined level of capital expenditures. While we plan on selectively investing in new tower builds and/or tower acquisitions that we believe present good business opportunities, we intend that these investments will be consistent with our commitment to proactively manage our level of capital expenditures and reduce our leverage below current levels.

Using our Local Presence to Build Strong Relationships with Major Wireless Service Providers. Given the nature of towers as location specific communications facilities, we believe that substantially all of what we do is best done locally. Consequently, we have a broad field organization

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

that allows us to develop and capitalize on our experience, expertise and relationships in each of our local markets, which in turn enhances our customer relationships. Due to our presence in local markets, we believe we are well positioned to capture additional site leasing business and new tower build opportunities in our markets and identify and participate in site development projects across our markets.

Capturing Other Revenues That Flow From our Tower Ownership. To help maximize the revenue and profit we earn from capital investment in our towers, we provide services at our tower locations beyond the leasing of antenna space, including antenna installation and equipment installation. Because of our ownership of the tower, our control of the tower site and experience and capabilities in providing installation services, we believe that we are well positioned to perform more of these services and capture the related revenue.

Capitalizing on our Management Experience. Our management team has extensive experience in site leasing and site development services. Management believes that its industry expertise and strong relationships with wireless carriers will allow us to expand our position as a leading provider of site leasing and site development services.

Procedures For Tendering	If you wish to tender your old notes in the exchange offer, you must complete and sign the letter of transmittal for the notes according to the instructions contained in this prospectus. You must then mail, fax or hand deliver the letter of transmittal, together with any other required documents, to the exchange agent, either with the old notes to be tendered or in compliance with the specified procedures for guaranteed delivery of old notes. You should allow sufficient time to ensure timely delivery. Some brokers, dealers, commercial banks, trust companies and other nominees may also effect tenders by book-entry transfer. If you own old notes registered in the name of a broker, dealer, commercial bank, trust company or other nominee, you are urged to contact that person promptly if you wish to tender old notes in the exchange offer. Letters of transmittal and certificates representing the old notes should not be sent to us. These documents should be sent only to the exchange agent. Questions regarding how to tender and requests for information should also be directed to the exchange agent. If you hold old notes through The Depository Trust Company and wish to accept the exchange offer, you must do so pursuant to the book-entry transfer facility's procedures for book entry transfer (or other applicable procedures), contained in this prospectus and the letter of transmittal. See The Exchange Offer Procedures for Tendering Old Notes.

Table of Contents

Expiration Date; Withdrawal	The exchange offer will expire on the earlier of 5:00 p.m., New York City time on [21 business days after commencement of offer] or a later date and time to which it may be extended. We will accept for exchange any and all old notes that are validly tendered in the exchange offer prior to 5:00 p.m., New York City time, on the expiration date. The tender of old notes may be withdrawn at any time prior to the earlier of the expiration date or the date when all old notes have been tendered. Any old note not accepted for exchange for any reason will be returned without expense to the tendering holder as promptly as practicable after the expiration or termination of the exchange offer. The new notes issued in the exchange offer will be delivered promptly following the expiration date. See The Exchange Offer Terms of the Exchange Offer; Period for Tendering Old Notes and Withdrawals of Tenders.
Guaranteed Delivery Procedures	If you wish to tender your old notes and (1) your old notes are not immediately available or (2) you cannot deliver your old notes together with the letter of transmittal to the exchange agent prior to the expiration date, you may tender your old notes according to the guaranteed delivery procedures contained in the letter of transmittal. See The Exchange Offer Procedures for Tendering Old Notes Guaranteed Delivery Procedures.
Tax Considerations	For U.S. federal income tax purposes, the exchange of old notes for new notes should not be considered a sale or exchange or otherwise a taxable event to the holders of notes.
Use of Proceeds.	We will receive no proceeds from the exchange offer.
Appraisal Rights	Holders of old notes will not have dissenters' rights or appraisal rights in connection with the exchange offer.
Exchange Agent	U.S. Bank National Association is serving as exchange agent in connection with the exchange offer for the notes.
Resales of New Notes	Based on an interpretation by the Commission set forth in no-action letters issued to third parties, we believe that you may resell or otherwise transfer new notes issued in the exchange offer in exchange for old notes without restrictions under the federal securities laws. However, there are exceptions to this general statement. You may not freely transfer the new notes if: you are an affiliate of ours; you did not acquire the new notes in the ordinary course of your business; you intend to participate in the exchange offer for the purpose of distributing new notes; or you are a broker-dealer who acquired the old notes directly from us.
	Any holder subject to any of the exceptions above will not be able to rely on the interpretations of the Staff set forth in the above-mentioned

Table of Contents

interpretive letters; will not be permitted or entitled to tender old notes in the exchange offer; and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any sale or other transfer of old notes unless the sale is made pursuant to an exemption from those requirements.

In addition, each participating broker-dealer that receives new notes for its own account in the exchange offer in exchange for old notes that were acquired as a result of market making activities or other trading activities, and not directly from us must comply with the registration and prospectus delivery requirements of the Securities Act in connection with the resale of the new notes.

Consequences of Not
Exchanging the Old Notes

If you do not tender your old notes or your old notes are not properly tendered, the existing transfer restrictions on the old notes will continue to apply. The old notes are currently eligible for sale pursuant to Rule 144A through the PORTAL Market. Because we anticipate that most holders will elect to exchange old notes for new notes due to the absence of restrictions on the resale of new notes under the Securities Act, we anticipate that the liquidity of the market for any old notes remaining after the consummation of the exchange offer will be substantially limited. See Risk Factors There could be negative consequences to you if you do not exchange your old notes for new notes and The Exchange Offer Consequences of Failure to Exchange Old Notes.

Regulatory Requirements

There are no federal or state regulatory requirements that must be complied with or approval obtained in connection with the exchange offer other than the delivery of this prospectus and the registration of the new notes.

Table of Contents

Summary Description of the New Notes

The terms of the new notes and the old notes are identical in all respects, except that the terms of the new notes do not include the transfer restrictions and registration rights relating to the old notes.

Notes Offered	\$250.0 million in aggregate principal amount of 8 1/2% senior notes due 2012.
Maturity Date	December 1, 2012.
Yield and Interest Payment Dates	Interest will accrue on the notes and will be payable on June 1 and December 1 of each year, beginning on June 1, 2005.
Ranking	The notes are our general unsecured obligations. Accordingly, they rank:

pari passu in right of payment to our existing and future senior indebtedness;

senior in right of payment to our future subordinated indebtedness, if any;

effectively junior in right of payment to all of our future secured indebtedness; and

structurally junior in right of payment to all existing and future indebtedness and other liabilities of our subsidiaries, including the 9 3/4% senior discount notes that we co-issued with Telecommunications (the 9 3/4% senior discount notes) and SBA Senior Finance s obligations under the senior credit facility.

As of December 31, 2004, as adjusted for the redemption of the 10 1/4% senior notes in February 2005, we (excluding our subsidiaries) would have had total senior indebtedness of approximately \$552.4 million (including the notes and the 9 3/4% senior discount notes) and no indebtedness contractually subordinated to the notes.

On the same basis, the notes would have been structurally junior to approximately \$703.3 million of total liabilities of our subsidiaries, including \$323.4 million of indebtedness under the senior credit facility and \$302.4 million of the 9 3/4% senior discount notes.

As of March 31, 2005, we had drawn down \$322.6 million under the senior credit facility and as a result had approximately \$36.5 million in availability under the senior credit facility, which would be senior in right of payment to the notes, and had \$309.8 million aggregate principal amount at maturity outstanding of the 9 3/4% senior discount notes.

Optional Redemption

At any time prior to December 1, 2008, we may redeem all or part of the notes at a redemption price equal to 100% of the principal amount of the notes to be redeemed plus (1) the applicable premium, (2) accrued and unpaid interest, and (3) additional interest, if any, to the redemption date. See Description of the Notes Optional Redemption.

Table of Contents

On and after December 1, 2008, we may redeem all or part of the notes at the redemption prices set forth under Description of the Notes Optional Redemption.

At any time prior to December 1, 2007, we may redeem up to 35% of the notes with the net cash proceeds of certain equity offerings at the redemption price set forth under Description of the Notes Optional Redemption.

Mandatory Offer to Repurchase

If we experience specific kinds of changes in control, we must offer to repurchase the notes at the redemption price set forth under Description of the Notes Purchase at the Option of Holders Change of Control.

Covenants

The notes are issued under the indenture, dated December 14, 2004, among the issuer and U.S. Bank National Association, as trustee. The indenture, among other things, restricts our ability to:

make certain investments;

incur or guarantee additional indebtedness or issue preferred stock;

pay dividends or make other distributions on capital stock;

redeem or repurchase capital stock;

create liens;

allow dividend or other payment restrictions affecting subsidiaries;

sell assets;

merge or consolidate with other entities;

enter into transactions with affiliates;

enter into sale and leaseback transactions; and

engage in certain business activities.

These covenants are subject to a number of important exceptions and qualifications.

Events of Default

Each of the following constitutes an event of default:

default for 30 days in the payment when due of interest or additional interest on the notes;

default in payment when due of the principal of or premium, if any, on the notes;

failure by us to comply with the provisions described under the caption **Certain Covenants Merger, Consolidation or Sale of Assets** or failure by us to consummate a **Change of Control Offer or Asset Sale Offer** (as defined in the indenture) under the provisions of the indenture;

failure by us for 30 days after notice to comply with any of our other agreements in the indenture or the notes;

Table of Contents

default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any indebtedness for money borrowed by us or any of our significant subsidiaries (or the payment of which is guaranteed by us or any of our significant subsidiaries) whether such indebtedness or guarantee now exists, or is created after the date of the indenture, which default (a) is caused by a failure to pay principal or premium, if any, or interest on such indebtedness prior to the expiration of the grace period provided in such indebtedness on the date of such default (a Payment Default) or (b) results in the acceleration of such indebtedness prior to its stated maturity and, in each case, the principal amount of any such indebtedness, together with the principal amount of any other such indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated, aggregates \$10.0 million or more;

failure by us or any of our significant subsidiaries to pay final judgments aggregating in excess of \$10.0 million, which judgments are not paid, discharged or stayed for a period of 60 days; or

certain events of bankruptcy or insolvency with respect to us or any of our restricted subsidiaries that is a significant subsidiary.

Rights of Holders

If any event of default occurs and is continuing, the trustee or the holders of at least 25% in principal amount of the then outstanding notes may declare all of the notes to be due and payable immediately. Upon any such declaration, the principal and accrued and unpaid interest, if any, shall become due and payable immediately. Notwithstanding the foregoing, in the case of an event of default arising from certain events of bankruptcy or insolvency, with respect to us, all outstanding notes will become due and payable without further action or notice. Holders of the notes may not enforce the indenture or the notes except as provided in the indenture. Subject to certain limitations, holders of a majority in principal amount of the then outstanding notes may direct the trustee in its exercise of any trust or power.

The holders of a majority in aggregate principal amount of the notes then outstanding by notice to the trustee may on behalf of the holders of all of the notes waive any existing default or event of default and its consequences under the indenture except a continuing default or event of default in the payment of interest on, or the principal of, the notes.

No Prior Market

The new notes will be new securities for which there is currently no market. Although the initial purchasers of the old notes have informed us of their intentions to make a market in the new notes, they are not obligated to do so and they may discontinue any market-making at any time without notice. Accordingly we cannot assure you as to the development or liquidity of any market for the notes.

Risk Factors

You should carefully consider the information set forth in the section entitled Risk Factors and other information included in this prospectus in deciding whether to exchange your notes.

Table of Contents**SUMMARY HISTORICAL FINANCIAL DATA**

The following table sets forth summary historical financial data as of and for the years ended December 31, 2002, 2003 and 2004. The financial data for fiscal year ended 2004 have been derived from our audited consolidated financial statements. The financial data for the fiscal years ended 2002 and 2003 have been derived from, and are qualified by reference to, our restated audited consolidated financial statements. These restated financial statements include adjustments for a change in the method of accounting for certain types of ground leases underlying our tower sites. You should read the information set forth below in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements and the related notes to those consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2004, incorporated by reference into this prospectus.

- (4) For purposes of calculating the ratio of earnings to fixed charges, earnings represent net loss before income taxes, cumulative effect of changes in accounting principles, discontinued operations and dividends on preferred stock. Fixed charges consist of interest expense, the component of rental expense believed by management to be representative of the interest factor thereon, amortization of original issue discount and debt issue costs and preferred dividends. We had a deficiency in earnings to fixed charges of \$202.0 million for 2002, \$173.1 million for 2003 and \$143.3 million for 2004.

 - (7) Senior Finance s Consolidated Indebtedness is included in our long-term debt, including the current maturities, in accordance with GAAP as set forth in our consolidated balance sheets incorporated by reference herein, consisting of amounts related to our senior credit facility loans and our notes payable. Senior Finance s Consolidated Indebtedness does not include the 10³/₄% senior notes nor the 9³/₄% senior discount notes. Senior Finance s Total Debt to Adjusted Consolidated Cash Flow Ratio is calculated by dividing Senior Finance Consolidated Indebtedness by Senior Finance Adjusted Consolidated Cash Flow. The indenture requires that Senior Finance s Total Debt to Adjusted Consolidated Cash Flow Ratio not exceed 5.5 to 1.0 in order for Senior Finance to be able to incur additional debt, subject to certain exceptions, in accordance with the indenture. For the twelve months ended December 31, 2004, as adjusted for the Transactions, Senior Finance s Total Debt to Adjusted Consolidated Cash Flow Ratio under the indenture would have been 3.6 to 1.0.

Holders of old notes should carefully consider the information set forth below and all other information set forth in this prospectus before tendering their old notes in the exchange offer. The risk factors set forth in this prospectus, other than Risk Factors There could be negative consequences to you if you do not exchange your old notes for new notes, are generally applicable to the old notes as well as the new notes.

Risks Relating to Our Business

We may not be able to service our substantial indebtedness.

As indicated below, we have and will continue to have a significant amount of indebtedness relative to our equity.

	As of December 31,	
	2003	2004
	(in thousands)	
Total indebtedness*	\$ 866,199	\$ 925,797
Shareholders deficit	\$ (1,566)	\$ (88,671)

* Excludes deferred gain on interest rate swap of \$1,909 at December 31, 2004 and \$4,559 at December 31, 2003.

Our ability to service our debt obligations will depend on our future operating performance. Our earnings were insufficient to cover our fixed charges for the year ended December 31, 2004 by \$143.3 million and \$173.1 million for the year ended December 31, 2003. Based on our outstanding debt at December 31, 2004 we would require approximately \$46.0 million of cash flow from operating activities (before net cash interest expenses) to discharge our cash interest and principal obligations for the year ending December 31, 2005. By comparison, for the year ended December 31, 2004, we generated \$93.2 million of cash flow from operating activities (before net cash interest expenses). In order to manage our substantial amount of indebtedness, we may from time to time sell assets, issue equity, or repurchase, restructure or refinance some or all of our debt (all of which we have done at various times in the last two years). In 2003, we sold 784 towers located in the Western two-thirds of the United States and realized gross proceeds of \$196.7 million. We may not be able to effectuate any of these alternative strategies on satisfactory terms in the future, if at all. The implementation of any of these alternative strategies may dilute our current shareholders or subject us to additional costs or restrictions on our ability to manage our business and as a result could have a material adverse effect on our financial condition and growth strategy.

We may not have sufficient liquidity or cash flow from operations to repay the remaining amount of our outstanding senior credit facility, our 9³/₄% senior discount notes or our 8¹/₂% senior notes upon their respective maturities. Therefore, prior to the maturity of our outstanding debt we may be required to refinance and/or restructure some or all of this debt. We cannot assure you that we will be able to refinance or restructure this debt on acceptable terms or at all. If we were unable to refinance, restructure or otherwise repay the principal amount of this debt upon its maturity, we may need to sell assets, cease operations and/or file for protection under the bankruptcy laws.

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

As of December 31, 2004, we had approximately \$36.5 million of additional borrowing capacity under our senior credit facility, subject to maintenance covenants, borrowing base limitations and other conditions. Furthermore, we and our subsidiaries may be able to incur significant additional indebtedness in the future, subject to the restrictions contained in our debt instruments, some of which may be secured debt.

We may not secure as many site leasing tenants as planned or our lease rates on new leases may decline.

If tenant demand for tower space or our lease rates on new leases decrease, we may not be able to successfully grow our site leasing business. This may have a material adverse effect on our strategy, revenue

Table of Contents

growth and our ability to satisfy our financial and other contractual obligations. Our plan for the growth of our site leasing business largely depends on our management's expectations and assumptions concerning future tenant demand and potential lease rates for independently owned towers.

If our wireless service provider customers combine their operations to a significant degree, our growth, our revenue and our ability to service our indebtedness could be adversely affected.

Demand for our services may decline if there is significant consolidation among our wireless service provider customers as they may then reduce capital expenditures in the aggregate because many of their existing networks and expansion plans overlap. In January 2003, the spectrum cap, which previously prohibited wireless carriers from owning more than 45 MHz of spectrum in any given geographical area, expired. Some wireless carriers have consolidated with each other and others may be encouraged to consolidate with each other as a result of this regulatory change and as a means to strengthen their financial condition. Economic conditions have resulted in the consolidation of several wireless service providers and this trend is likely to continue. To the extent that our customers consolidate, they may not renew any duplicative leases that they have on our towers and/or may not lease as many spaces on our towers in the future. This would adversely affect our growth, our revenue and our ability to service our indebtedness. In October 2004, Cingular acquired AT&T Wireless. As of December 31, 2004, Cingular and AT&T were both tenants on 355 of our 3,060 towers. The contractual revenue generated by both of these tenants on these 355 towers at December 31, 2004 was approximately \$16 million. If, as a result of this transaction, Cingular were not to renew duplicate leases, we could lose up to 50% of such revenue. The average remaining contractual life of such duplicate leases was approximately two years.

In January 2005, Sprint PCS and Nextel agreed to merge, which is expected to be consummated in the second half of 2005. As of December 31, 2004, Sprint PCS and Nextel were both tenants on 349 of our 3,060 towers. The contractual revenue generated by both of these tenants on the 349 towers at December 31, 2004 was approximately \$16 million. If this merger is consummated and either Sprint PCS or Nextel were not to renew duplicate leases, we could lose up to 50% of such revenue. The average remaining contractual life of such duplicate leases was approximately 2 years.

Similar consequences may occur if wireless service providers engage in extensive sharing or roaming or resale arrangements as an alternative to leasing our antenna space. Wireless voice service providers frequently enter into roaming agreements with competitors allowing them to use another's wireless communications facilities to accommodate customers who are out of range of their home provider's services. Wireless voice service providers may view these roaming agreements as a superior alternative to leasing antenna space on communications sites owned or controlled by us or others. The proliferation of these roaming agreements could have a material adverse effect on our revenue.

We depend on a relatively small number of customers for most of our revenue.

We derive a significant portion of our revenue from a small number of customers, particularly in our site development services business. The loss of any significant customer could have a material adverse effect on our revenue.

The following is a list of significant customers and the percentage of our total revenues for the specified time periods derived from these customers:

* Substantially all of the work performed for Bechtel Corporation was for its clients Cingular and AT&T Wireless.

Revenues from these clients are derived from numerous different site leasing contracts and site development contracts. Each site leasing contract relates to the lease of space at an individual tower site and is generally for an initial term of five years renewable for five five-year periods at the option of the tenant. Our site development customers engage us on a project-by-project basis, and a customer can generally terminate an assignment at any time without penalty. In addition, a customer's need for site development services can decrease, and we may not be successful in establishing relationships with new customers. Furthermore, our existing customers may not continue to engage us for additional projects.

Our substantial indebtedness may negatively impact our ability to implement our business plan.

Our substantial indebtedness may negatively impact our ability to implement our business plan. For example, it could:

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

limit our ability to fund future working capital, capital expenditures and development costs;

limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

increase our vulnerability to general economic and industry conditions;

subject us to interest rate risk;

place us at a competitive disadvantage to our competitors that are less leveraged;

require us to sell debt or equity securities or sell some of our core assets, possibly on unfavorable terms, to meet payment obligations; and

limit our ability to borrow additional funds.

Table of Contents

We are dependent on the financial stability of our customers and any deterioration in their financial condition may reduce the demand for our services which would adversely affect our growth strategy, revenues and financial condition.

Our business depends on the financial stability of our customers. The economic slowdown and intense competition in the wireless and telecommunications industries over the past several years have impaired the financial condition of some of our customers, certain of which operate with substantial leverage and certain of which have filed or may file for bankruptcy. The financial uncertainties facing our customers could reduce demand for our communications sites, increase our bad debt expense and reduce prices on new customer contracts. This could affect our ability to satisfy our obligations.

In addition, we may be negatively impacted by our customers' limited access to debt and equity capital. Recently when capital market conditions were difficult for the telecommunications industry, wireless service providers conserved capital by not spending as much as originally anticipated to finance expansion activities. This decrease adversely impacted demand for our services and consequently our financial condition. As a result, we adjusted our business during 2002 and early 2003 to significantly reduce and subsequently suspend any material investment for new towers and our site development activities. If our customers are not able to access the capital markets in the future, our growth strategy, revenues and financial condition may again be adversely affected.

Our debt instruments contain restrictive covenants that could adversely affect our business.

Our senior credit facility and the indentures governing our outstanding notes each contain certain restrictive covenants. Among other things, these covenants restrict our ability to:

incur additional indebtedness;

sell assets;

pay dividends, or repurchase our common stock;

make certain investments;

engage in other restricted payments;

engage in mergers or consolidations;

incur liens; and

enter into affiliate transactions.

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

If we fail to comply with these covenants, it could result in an event of default under one or all of these debt instruments. The acceleration of amounts due under one of our debt instruments would also cause a cross-default under our other debt instruments.

SBA Senior Finance, which owns, directly or indirectly, all of the common stock of our operating subsidiaries, is the borrower under our senior credit facility. The senior credit facility requires SBA Senior Finance to maintain specified financial ratios, including ratios regarding SBA Senior Finance's debt to annualized operating cash flow, debt service, cash interest expense and fixed charges for each quarter. In addition, the senior credit facility contains additional negative covenants that, among other things, restrict our ability to commit to capital expenditures and build towers without anchor tenants. Our ability to meet these financial ratios and tests and comply with these covenants can be affected by events beyond our control, and we may not be able to do so. A breach of any of these covenants, if not remedied within the specified period, could result in an event of default under the senior credit facility.

Upon the occurrence of any default, our senior credit facility lenders can prevent us from borrowing any additional amounts under the senior credit facility. In addition, upon the occurrence of any event of default, other than certain bankruptcy events, senior credit facility lenders, by a majority vote, can elect to declare all amounts

Table of Contents

of principal outstanding under the senior credit facility, together with all accrued interest, to be immediately due and payable. The acceleration of amounts due under our senior credit facility would cause a cross-default under our indentures, thereby permitting the acceleration of such indebtedness. If the indebtedness under the senior credit facility and/or indebtedness under our outstanding notes were to be accelerated, our current assets would not be sufficient to repay in full the indebtedness. If we were unable to repay amounts that become due under the senior credit facility, the senior credit lenders could proceed against the collateral granted to them to secure that indebtedness. Substantially all of our assets are pledged as security under the senior credit facility. In such an event of default, our assets may not be sufficient to satisfy our obligations under the notes.

Due to the long-term expectations of revenue from our tenant leases, we are very sensitive to the creditworthiness of our tenants.

Due to the long-term nature of our tenant leases, we, like others in the tower industry, are dependent on the continued financial strength of our tenants. Wireless service providers often operate with substantial leverage, and financial problems for our customers could result in uncollected accounts receivable, the loss of customers and lower than anticipated lease revenues. During the past three years, a number of our site leasing customers have filed for bankruptcy including almost all of our paging customers. Although these bankruptcies have not had a material adverse effect on our business or revenues, any future bankruptcies may have a material adverse effect on our business, revenues, and/or the collectability of our accounts receivable.

Our quarterly operating results for our site development services fluctuate and therefore should not be considered indicative of our long-term results.

The demand for our site development services fluctuates from quarter to quarter and should not be considered as indicative of long-term results. Numerous factors cause these fluctuations, including:

the timing and amount of our customers' capital expenditures;

the size and scope of our projects;

the business practices of customers, such as deferring commitments on new projects until after the end of the calendar year or the customers' fiscal year;

delays relating to a project or tenant installation of equipment;

seasonal factors, such as weather, vacation days and total business days in a quarter;

the use of third party providers by our customers;

the rate and volume of wireless service providers' network development; and

general economic conditions.

Although the demand for our site development services fluctuates, we incur significant fixed costs, such as maintaining a staff and office space in anticipation of future contracts. In addition, the timing of revenues is difficult to forecast because our sales cycle may be relatively long. Therefore, we may not be able to adjust our cost structure in a timely basis to adjust to market slowdowns.

We are not profitable and expect to continue to incur losses.

We are not profitable. The following chart shows the net losses we incurred for the periods indicated:

Our losses are principally due to significant interest expense and depreciation and amortization in each of the periods presented above. For the year ended December 31, 2004, we recorded an asset impairment charge of \$7.1 million and a charge associated with the write-off of deferred financing fees and loss on the extinguishment of debt of \$41.2 million. We recorded an asset impairment charge of \$13.0 million, a charge associated with the loss from write-off of deferred financing fees and extinguishment of debt of \$24.2 million, and a restructuring charge of \$2.1 million during the year ended December 31, 2003. We recorded restructuring and other charges of \$47.8 million, a \$60.7 million charge related to the cumulative effect of a change in accounting principle related to the adoption of SFAS No. 142, and an asset impairment charge of \$24.2 million in the year ended December 31, 2002. We expect to continue to incur significant losses which may affect our ability to service our indebtedness.

Increasing competition in the tower industry may adversely affect us.

Our industry is highly competitive, particularly with respect to securing quality tower assets and adequate capital to support tower networks. Competitive pressures for tenants on their towers from these competitors could adversely affect our lease rates and services income. In addition, the loss of existing customers or the failure to attract new customers would lead to an accompanying adverse effect on our revenues, margins and financial condition. Increasing competition could also make the acquisition of quality tower assets more costly.

We compete with:

wireless service providers that own and operate their own towers and lease, or may in the future decide to lease, antenna space to other providers;

site development companies that acquire antenna space on existing towers for wireless service providers, manage new tower construction and provide site development services;

other large independent tower companies; and

smaller local independent tower operators.

Wireless service providers that own and operate their own tower networks and several of the other tower companies generally are substantially larger and have greater financial resources than we do. We believe that tower location and capacity, quality of service, density within a geographic market and, to a lesser extent, price historically have been and will continue to be the most significant competitive factors affecting the site leasing business.

The site development market includes participants from a variety of market segments offering individual, or combinations of, competing services. We believe that a company's experience, track record, local reputation, price and time for completion of a project have been and will continue to be the most significant competitive factors affecting the site development business.

We may not be able to build and/or acquire as many towers as we anticipate.

We currently intend to build 50 to 75 new towers during 2005 and to consummate a limited number of tower acquisitions. However, our ability to build these new towers is dependent upon (1) the availability of sufficient capital to fund construction, (2) our ability to locate, and acquire at commercially reasonable prices, attractive locations for such towers and (3) our ability to obtain the necessary zoning and permits.

Our ability to consummate tower acquisitions is also subject to risks. Specifically, these risks include (1) our ability to identify those towers that would be attractive to our clients and accretive to our revenues, (2) our ability to negotiate and consummate agreements to acquire such towers and (3) sufficient capital to fund such acquisitions. Due to these risks, it may take longer to complete our new tower builds than anticipated, the costs of constructing or acquiring these towers may be higher than we expect or we may not be able to add as many towers as we had planned in 2005. If we are not able to increase our tower portfolio as anticipated, it could negatively impact our ability to make our goals for site leasing revenue.

Table of Contents

The loss of the services of certain of our key personnel or a significant number of our employees may negatively affect our business.

Our success depends to a significant extent upon performance and active participation of our key personnel. We cannot guarantee that we will be successful in retaining the services of these key personnel. We have employment agreements with Jeffrey A. Stoops, our President and Chief Executive Officer, Kurt L. Bagwell, our Senior Vice President and Chief Operating Officer, and Thomas P. Hunt, our Senior Vice President and General Counsel. We do not have employment agreements with any of our other key personnel. If we were to lose any key personnel, we may not be able to find an appropriate replacement on a timely basis and our results of operations could be negatively affected. Further, the loss of a significant number of employees or our inability to hire a sufficient number of qualified employees could have a material adverse effect on our business.

New technologies and their use by carriers may have a material adverse effect on our growth rate and results of operations.

The emergence of new technologies could reduce the demand for space on our towers. For example, the development of and use of products that would permit multiple wireless carriers to use a single antenna, share networks or increase the range and capacity of an antenna could reduce the number of antennas needed by our customers. In addition, the deployment of WiFi and WiMax technologies could impact the network needs of our existing customers providing wireless telephony services. This could have a material adverse effect on our growth rate and results of operations.

Our costs could increase and our revenues could decrease due to perceived health risks from radio frequency (RF) energy.

The government imposes requirements and other guidelines on our towers relating to RF energy. Exposure to high levels of RF energy can cause negative health effects.

The potential connection between exposure to low levels of RF energy and certain negative health effects, including some forms of cancer, has been the subject of substantial study by the scientific community in recent years. According to the FCC, the results of these studies to date have been inconclusive. However, public perception of possible health risks associated with cellular and other wireless communications media could slow the growth of wireless companies, which could in turn slow our growth. In particular, negative public perception of, and regulations regarding, health risks could cause a decrease in the demand for wireless communications services. Moreover, if a connection between exposure to low levels of RF energy and possible negative health effects, including cancer, were demonstrated, we could be subject to numerous claims. If we were subject to claims relating to RF energy, even if such claims were not ultimately found to have merit, our financial condition could be materially and adversely affected.

Our business is subject to government regulations and changes in current or future regulations could harm our business.

We are subject to federal, state and local regulation of our business. In particular, both the Federal Communications Commission (FCC) and Federal Aviation Administration (FAA) regulate the construction and maintenance of antenna towers and structures that support wireless communications and radio and television antennas. In addition, the FCC separately licenses and regulates wireless communications equipment and television and radio stations operating from such towers and structures. FAA and FCC regulations govern construction, lighting, painting and marking of towers and structures and may, depending on the characteristics of the tower or structure, require registration of the tower or structure. Certain proposals to construct new towers or structures or to modify existing towers or structures are reviewed by the FAA to ensure

that the tower or structure will not present a hazard to air navigation.

Antenna tower owners and antenna structure owners may have an obligation to mark or paint towers or structures or install lighting to conform to FAA standards and to maintain such marking, painting and lighting.

Table of Contents

Antenna tower owners and antenna structure owners may also bear the responsibility of notifying the FAA of any lighting outages. Certain proposals to operate wireless communications and radio or television stations from antenna towers and structures are also reviewed by the FCC to ensure compliance with environmental impact requirements. Failure to comply with existing or future applicable requirements may lead to civil penalties or other liabilities and may subject us to significant indemnification liability to our customers against any such failure to comply. In addition, new regulations may impose additional costly burdens on us, which may affect our revenues and cause delays in our growth.

Local regulations, including municipal or local ordinances, zoning restrictions and restrictive covenants imposed by community developers, vary greatly, but typically require antenna tower and structure owners to obtain approval from local officials or community standards organizations prior to tower or structure construction or modification. Local regulations can delay, prevent, or increase the cost of new construction, co-locations, or site upgrade projects, thereby limiting our ability to respond to customer demand. In addition, new regulations may be adopted that increase delays or result in additional costs to us. These factors could have a material adverse effect on our future growth and operations.

Our towers are subject to damage from natural disasters.

Our towers are subject to risks associated with natural disasters such as tornadoes and hurricanes. We maintain insurance to cover the estimated cost of replacing damaged towers, but these insurance policies are subject to loss limits and deductibles. We also maintain third party liability insurance, subject to deductibles, to protect us in the event of an accident involving a tower. A tower accident for which we are uninsured or underinsured, or damage to a significant number of our towers, could require us to make significant capital expenditures and may have a material adverse effect on our operations or financial condition.

We could have liability under environmental laws that could have a material adverse effect on our business, financial condition and results of operations.

Our operations, like those of other companies engaged in similar businesses, are subject to the requirements of various federal, state, local and foreign environmental and occupational safety and health laws and regulations, including those relating to the management, use, storage, disposal, emission and remediation of, and exposure to, hazardous and non-hazardous substances, materials, and wastes. As owner, lessee or operator of numerous tower sites, we may be liable for substantial costs of remediating soil and groundwater contaminated by hazardous materials, without regard to whether we, as the owner, lessee or operator, knew of or were responsible for the contamination. We may be subject to potentially significant fines or penalties if we fail to comply with any of these requirements. The current cost of complying with these laws is not material to our financial condition or results of operations. However, the requirements of these laws and regulations are complex, change frequently, and could become more stringent in the future. It is possible that these requirements will change or that liabilities will arise in the future in a manner that could have a material adverse effect on our business, financial condition and results of operations.

Our dependence on our subsidiaries for cash flow may negatively affect our business.

We are a holding company with no business operations of our own. Our only significant asset is and is expected to be the outstanding capital stock of our subsidiaries. We conduct, and expect to conduct, all of our business operations through our subsidiaries. Accordingly, our ability to pay our obligations, including the principal and interest, premium, if any, and additional interest, if any, on our outstanding 9³/₄% senior discount notes and our 8¹/₂% senior notes, is dependent upon dividends and other distributions from our subsidiaries to us. Other than amounts required to make interest and principal payments on the notes, we currently expect that the earnings and cash flow of our subsidiaries will be retained and used by them in their operations, including servicing their debt obligations. Our operating subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise to pay the principal, interest and other amounts on the notes or make any

Table of Contents

funds available to us for payment. The ability of our operating subsidiaries to pay dividends or transfer assets to us may be restricted by applicable state law and contractual restrictions, including the terms of the senior credit facility. Although the indenture governing the notes will limit the ability of our operating subsidiaries to enter into consensual restrictions on their ability to pay dividends to us, these limitations are subject to a number of significant qualifications and exceptions.

Risks Relating to the Notes

The notes will be structurally subordinated to the debt of our subsidiaries, including our senior credit facility.

We have no operations of our own and derive substantially all of our revenue from the operations of our subsidiaries. Our subsidiaries are not guarantors of the notes. In the event of our bankruptcy or the bankruptcy of any of our subsidiaries, the holders of their liabilities, including indebtedness, and trade creditors of our subsidiaries would generally be entitled to payment of their claims from the assets of the affected subsidiaries before those assets were made available for distribution to us. As a result, the claims of holders of the notes will effectively rank junior to the claims of all of the creditors of our subsidiaries, including trade creditors and the lenders under our senior credit facility. If any indebtedness of our subsidiaries were to be accelerated, we cannot assure you that the assets of the subsidiaries remaining after payment of such indebtedness would be sufficient to repay our indebtedness in full, including the notes. As of December 31, 2004, the notes would have been structurally junior to approximately \$703.3 million of total liabilities of our subsidiaries, including \$323.4 million of indebtedness under the senior credit facility and \$302.4 million of the 9³/₄% senior discount notes. As of March 31, 2005, we had drawn down \$322.6 million under the senior credit facility and as a result had approximately \$36.5 million in availability under the senior credit facility, which would be senior in right of payment to the notes, and had \$309.8 million aggregate principal amount at maturity outstanding of the 9³/₄% senior discount notes. Furthermore, our subsidiaries may be able to incur significant additional indebtedness in the future, subject to the restrictions contained in our debt instruments, some of which may be secured debt.

The notes will be structurally subordinated to our secured indebtedness.

The notes will not be secured by any of our assets. The senior credit facility is secured by a lien on substantially all of our assets and the assets of our domestic subsidiaries and a pledge of all of the outstanding capital stock of each of our domestic subsidiaries. If we become insolvent or are liquidated, or payment under indebtedness is accelerated, our lenders would be entitled to exercise the remedies as secured lenders under applicable law and will have a claim on such assets that would rank senior to the holders of the notes. The liquidation value of our assets remaining after payment of such secured indebtedness may not be sufficient to repay in full our unsecured indebtedness, including the notes.

We are a holding company and are dependent on our subsidiaries for cash flow.

We are a holding company with no business operations of our own. Our only significant asset is the outstanding capital stock of our subsidiaries. We conduct all of our business operations through our subsidiaries. Accordingly, our ability to pay the principal and interest, premium, if any, and additional interest, if any, on the notes, is dependent upon the earnings of our subsidiaries and their distribution of funds to us. None of our subsidiaries will have any obligation, contingent or otherwise, to make any funds available to us for payment of principal or interest on the notes. We may not be able to access cash generated by our subsidiaries in order to pay principal and interest on the notes. We may not be able to access cash generated by our subsidiaries in order to pay principal and interest, premium, if any, and additional interest, if any, on the notes or fulfill other cash commitments. The ability of our subsidiaries to pay dividends or transfer assets may be restricted under the terms of the senior credit facility. Although the indenture governing the notes will limit the ability of our subsidiaries to enter into consensual restrictions on their ability to pay dividends to us, such limitations are subject to a number of significant qualifications and exceptions. Our right or the right of our

creditors, including holders of the notes, to participate in the assets of any subsidiary upon the liquidation or reorganization of that subsidiary will be subject to the prior claims of that subsidiary's creditors, including holders of its indebtedness and trade creditors.

Table of Contents

We may not have sufficient funds to repurchase the notes upon a change in control as required by the indenture.

If a change of control (as defined in the indenture for the notes and the 9^{3/4}% senior discount notes) of SBA Communications occurs, we will be required, subject to certain conditions, to offer to purchase all outstanding notes and all outstanding 9^{3/4}% senior discount notes at a price equal to 101% of the principal amount thereof, plus accrued and unpaid interest thereon to the date of purchase.

As of December 31, 2004, we did not have sufficient funds available to purchase all of the notes and all outstanding 9^{3/4}% senior discount notes if they were tendered in a change of control offer. The source of funds for any purchase of these notes will be our available cash or cash generated from our operations or other sources, including borrowings, sales of assets or sales of equity. If we do not have sufficient cash on hand, we could seek to obtain a waiver from the lenders under the senior credit facility or the holders of the notes and the 9^{3/4}% senior discount notes, and/or refinance the debt under the senior credit facility and/or the notes and the 9^{3/4}% senior discount notes. We may not, however, be able to obtain a waiver or refinance our debt on satisfactory terms, or at all.

Our failure to purchase the notes would be a default under the indentures for the notes and the 9^{3/4}% senior discount notes, which would in turn be a default under the senior credit facility. In addition, a change of control will constitute an event of default under the senior credit facility. A default under the senior credit facility would result in an event of default under the indentures if the senior credit lenders were to accelerate the debt under the senior credit facility. Furthermore, if the holders of the notes or the holders of the 9^{3/4}% senior discount notes exercise their right to require us to repurchase their respective notes, the financial effect of this repurchase could cause a default under our other debt, even if the event itself would not cause a default.

No public market currently exists for the notes and an active trading market may not develop for the notes, which may limit your ability to resell them.

The notes constitute a new class of securities for which there is no established trading market and we do not intend to list the notes on any securities exchange or seek their admission to be quoted on any automated dealer quotation system. However, the notes are eligible for trading in the PORTAL Market.

Although the initial purchasers have advised us that they intend to make a market in the notes, they are not obligated to do so, and they may cease to do so at any time without notice. Accordingly, we cannot assure you that an active market will develop for the notes or, if a trading market develops, that it will continue. The lack of an active trading market for the notes would have a material adverse effect on the market price and liquidity of the notes. If a market for the notes develops, they may trade at a discount from their initial offering price. Future trading prices of the notes will depend on many factors, including:

our operating performance and financial condition;

our ability to complete the offer to exchange the old notes for new notes;

prevailing interest rates; and

the market for similar securities.

Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in prices. The market for the notes, if any, may be subject to similar disruptions. Any such disruptions may adversely affect the value of the notes and your ability to dispose of the notes, regardless of our prospects or performance.

There could be negative consequences to you if you do not exchange your old notes for new notes.

Any old notes tendered and exchanged in the exchange offer will reduce the aggregate principal amount of old notes outstanding. Because we anticipate that most holders will elect to exchange their old notes for new

Table of Contents

notes due to the absence of most restrictions on the resale of new notes, we anticipate that the liquidity of the market for any old notes remaining outstanding after the exchange offer may be substantially limited. Following the consummation of the exchange offer, holders who did not tender their old notes generally will not have any further registration rights under the registration rights agreement, and these old notes will continue to be subject to restrictions on transfer. The old notes are currently eligible for sale under Rule 144A through the PORTAL Market.

As a result of making the exchange offer, we will have fulfilled our obligations under the registration rights agreement relating to the old notes. Holders who do not tender their old notes generally will not have any further registration rights or rights to receive the liquidated damages specified in the registration rights agreement for our failure to register the new notes.

Any old notes that are not exchanged for new notes will remain restricted securities. Accordingly, the old notes may be resold only:

to us or one of our subsidiaries;

to a qualified institutional buyer;

to an institutional accredited investor;

to a party outside the United States under Regulation S under the Securities Act;

under an exemption from registration provided by Rule 144 under the Securities Act; or

under an effective registration statement.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated by reference in this prospectus contain forward-looking statements. Discussions containing forward-looking statements may be found in the material set forth in the section entitled Summary, and throughout this prospectus.

our estimates regarding our liquidity, capital expenditures and sources of both, and our ability to fund operations and meet our obligations as they become due;

our ability to sell those towers accounted for in discontinued operations and the timing of such sales;

our belief that we will experience continued long-term growth of our site leasing revenues due to increasing minutes of network use and network coverage and capacity requirements;

our strategy to focus our business on the site leasing business, and the consequential shift in our revenue stream and gross profits from project driven revenues to recurring revenues, predictable operating costs and minimal capital expenditures;

our belief that focusing our site leasing activities in the Eastern third of the United States will improve our operating efficiencies, reduce overhead expenses and procure higher revenue per tower;

our expectation of growing our cash flows by using existing tower capacity or requiring carriers to bear all or a portion of the cost of tower modifications;

our belief that our towers have significant capacity to accommodate additional tenants and increased use of our towers can be achieved at a low incremental cost;

our intention to selectively invest in new tower builds and/or tower acquisitions;

our expectations regarding our new build program and our intent to build 50-75 new towers in 2005;

our intent that each new build will at least have one tenant upon completion and our expectation that many will have multiple tenants;

our belief regarding our position to capture additional site leasing business in our markets and identify and participate in site development projects across our markets;

our estimates regarding our annual debt service and cash interest requirements in 2005 and thereafter; and

our estimates regarding cash savings in debt service and amortization payments in 2005 as a result of our debt refinancing activities.

These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and assumptions. We wish to caution readers that certain important factors may have affected and could in the future affect our actual results and could cause actual results to differ significantly from those expressed in any forward-looking statement. The most important factors that could prevent us from achieving our goals, and cause the assumptions underlying forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements include, but are not limited to, the following:

our inability to sufficiently increase our revenues and maintain or decrease expenses and cash capital expenditures to permit us to fund operations and meet our obligations as they become due;

the inability of our clients to access sufficient capital or their unwillingness to expend capital to fund network expansion or enhancements;

our ability to continue to comply with covenants and the terms of our senior credit facility and to access sufficient capital to fund our operations;

USE OF PROCEEDS

We will not receive any proceeds from the issuance of the new notes offered in the exchange offer. In consideration for issuing the new notes, we will receive in exchange old notes in like principal amount, the terms of which are identical in all respects to the new notes, except for the transfer restrictions and registration rights. The old notes surrendered in exchange for new notes will be retired and canceled and cannot be reissued. Accordingly, issuance of the new notes will not result in any increase in our indebtedness.

The net proceeds of the sale of the old notes was approximately \$244.8 million, after deducting transaction fees and expenses payable by us. We used the net proceeds from this offering to fund payments made in connection with the tender offer for the repurchase of \$186.5 million aggregate principal amount of our outstanding 10 1/4% senior notes. The offering of the notes was not conditioned on the repurchase of any minimum amount of 10 1/4% senior notes in the tender offer. On February 1, 2005, the remaining 10 1/4% senior notes became redeemable at our option, in whole or in part, at a premium of 105.125%, plus accrued and unpaid interest, if any, to the redemption date. We used the remaining net proceeds to redeem the remaining \$50.0 million 10 1/4% senior notes on February 1, 2005.

Table of Contents**SELECTED FINANCIAL DATA**

The following table sets forth selected historical financial data as of and for each of the five years ended December 31, 2004. The financial data for fiscal year ended 2004 have been derived from our audited consolidated financial statements. The financial data for the fiscal years ended 2003 and 2002 have been derived from, and are qualified by reference to, our restated audited consolidated financial statements. These restated financial statements include adjustments for a change in the method of accounting for certain types of ground leases underlying our tower sites. The financial data as of and for the fiscal years ended 2001 and 2000 have been derived from our restated unaudited consolidated financial statements. The unaudited financial data as of and for the year ended December 31, 2001 and 2000, have been derived from our books and records without audit and, in the opinion of management, include all adjustments, (consisting only of normal, recurring adjustments) that management considers necessary for a fair statement of results for these periods. The following consolidated financial statements have been reclassified to reflect the discontinued operations treatment of our western site development services and reclassification of 14 towers previously classified as discontinued operations into continuing operations. You should read the information set forth below in conjunction with our Management's Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements and the related notes to those consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2004, incorporated by reference into this prospectus.

THE EXCHANGE OFFER

You can find the definitions of capitalized terms used in this section under the heading **Description of the Notes** **Certain Definitions**.

Terms Of The Exchange Offer; Period For Tendering Old Notes

The old notes were sold by us on December 14, 2004 to Lehman Brothers Inc., Deutsche Bank Securities Inc., Friedman, Billings, Ramsey & Co., Inc., Raymond James & Associates, Inc., RBC Capital Markets Corporation and TD Securities (USA) LLC (the **Initial Purchasers**) pursuant to a Purchase Agreement dated December 1, 2004 between us and the Initial Purchasers. As set forth in this prospectus and in the accompanying letter of transmittal, we will accept for exchange any and all old notes that are properly tendered on or prior to the expiration date and not withdrawn as permitted below. The term **expiration date** means 5:00 p.m., New York City time on [21 business days after commencement of offer]; provided however, that if we extend the period of time for which the Exchange Offer is open, the term **expiration date** means the latest time and date to which the Exchange Offer is extended.

As of the date of this prospectus, \$250.0 million aggregate principal amount of the old notes are outstanding. This prospectus, together with the letter of transmittal, is first being sent on or about the date set forth on the cover page to all holders of old notes at the addresses set forth in the security register maintained by the trustee or other registrar. Our obligation to accept old notes for exchange is subject to conditions as set forth under **Conditions to the Exchange Offer** below.

We expressly reserve the right, at any time or from time to time, to extend the period of time during which the Exchange Offer is open, and thereby delay acceptance for exchange of any old notes, by public announcement of an extension to the holders of old notes as described below. During any extension, all old notes previously tendered will remain subject to the Exchange Offer and may be accepted for exchange by us. Any old notes not accepted for exchange for any reason will be returned without expense to the tendering holder promptly after the expiration or termination of the Exchange Offer.

Old notes tendered in the Exchange Offer must be \$1,000 in principal amount or any integral multiple of \$1,000.

If we make a material change in the terms of the Exchange Offer or the information concerning the Exchange Offer or waive a material condition to the Exchange Offer, we will disseminate additional Exchange Offer materials and extend the Exchange Offer to the extent required by law. In addition, we may, if we deem appropriate, extend the Exchange Offer for any other reason. If the principal amount of old notes subject to the Exchange Offer is decreased, the Exchange Offer will remain open at least ten business days from the date we first give notice to you, by public announcement or otherwise, of that decrease. In the case of an extension of the Exchange Offer, the announcement will be issued no later than 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration of the Exchange Offer. Without limiting the manner in which any public announcement may be made, we will have no obligation to publish, advertise or otherwise communicate any public announcement other than by issuing a release to the Dow Jones News Service.

Registration Covenant; Exchange Offer

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

Under our registration rights agreement dated December 14, 2004 with the Initial Purchasers, we have agreed to file with the Commission the Exchange Offer Registration Statement on the appropriate form under the Securities Act with respect to the new notes. Upon the effectiveness of this Exchange Offer Registration Statement, we will offer to the holders of the old notes who are able to make required representations the opportunity to exchange their old notes for new notes. Alternatively, we will file with the Commission a Shelf Registration Statement to cover resales of Transfer Restricted Securities (as defined below) by the holders of

Table of Contents

old notes who satisfy specific conditions relating to the provision of information in connection with the Shelf Registration Statement if:

we are not required to file the Exchange Offer Registration Statement pursuant to the registration rights agreement; or

we are not permitted to consummate the Exchange Offer because it is not permitted by applicable law or Commission policy; or

any holder of Transfer Restricted Securities notifies us at least 30 business days prior to the consummation of the Exchange Offer that:

it is prohibited by law or Commission policy from participating in the Exchange Offer;

it may not resell the new notes acquired by it in the Exchange Offer to the public without delivering a prospectus and the prospectus contained in the Exchange Offer Registration Statement is not appropriate or available for such resales; or

it is a broker-dealer and holds old notes acquired directly from us or one of our affiliates.

We will use our reasonable best efforts to cause the applicable Registration Statement to be declared effective as promptly as possible by the Commission.

Transfer Restricted Securities means each old note until the earliest to occur of:

the date on which such note is exchanged in the Exchange Offer and entitled to be resold to the public by the holder without complying with the prospectus delivery requirements of the Securities Act;

the date on which such note has been disposed of in accordance with a Shelf Registration Statement;

the date on which such note is disposed of by a broker-dealer pursuant to the Plan of Distribution contemplated by the Exchange Offer Registration Statement (including delivery of the prospectus contained therein); or

the date on which such note is distributable to the public pursuant to Rule 144 under the Securities Act.

The registration rights agreement provides that:

we will use our reasonable best efforts to file an Exchange Offer Registration Statement with the Commission on or before 120 days after December 14, 2004, which is the closing date of the original issuance of the old notes;

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

we will use our reasonable best efforts to have the Exchange Offer Registration Statement declared effective on or before 210 days after December 14, 2004;

unless the Exchange Offer would not be permitted by applicable law or Commission policy, we will commence the Exchange Offer and use our reasonable best efforts to cause the Exchange Offer to be consummated on or before 240 days after December 14, 2004; and

if obligated to file the Shelf Registration Statement, we will use our reasonable best efforts to file the Shelf Registration Statement with the Commission on or before 60 days after the filing obligation arises, and use our reasonable best efforts to cause the Shelf Registration Statement to be declared effective by the Commission on or before the later of 60 days after that obligation arises or 210 days after December 14, 2004.

If a registration default (as defined below) occurs, then additional cash interest (Additional Interest) shall accrue to each holder of Transfer Restricted Securities, commencing upon the occurrence of such registration default in an amount equal to \$.05 per week per \$1,000 of the principal amount of Transfer Restricted Securities held by such holder for the first 90 day period immediately following the first registration default. The amount of

Table of Contents

Additional Interest will increase by an additional \$.05 per week per \$1,000 of the principal amount of Transfer Restricted Securities from and during any period in which the registration default has continued for more than 90 days until all registration defaults have been cured, up to a maximum rate of Additional Interest for all registration defaults of \$.50 per week per \$1,000 of the principal amount of the old notes. All accrued Additional Interest shall be paid to the holders of the old notes in the same manner as interest is paid under the notes. Immediately upon the cure of all registration defaults, accrual of Additional Interest will cease.

A registration default means the occurrence of one of the following events:

we fail to file any of the registration statements required by the registration rights agreement on or before the date specified for that filing;

any of those registration statements are not declared effective by the Commission on or prior to the date specified for its effectiveness in the circumstances required by the registration rights agreement;

we fail to consummate the Exchange Offer within 240 days after December 14, 2004; or

any registration statement required by the registration rights agreement is declared effective but thereafter ceases to be effective or usable in connection with resales of Transfer Restricted Securities during the periods specified in, and subject to the suspension periods contemplated by the registration rights agreement.

This summary of the provisions of the registration rights agreement is not complete and is subject to, and is qualified by reference to, all provisions of the registration rights agreement.

Interest On Exchange Notes

The new notes will bear interest at the same rate and on the same terms as the old notes. Each new note will bear interest from the most recent date to which interest has been paid or duly provided for on the old note surrendered in exchange for a new note, or, if no interest has been paid or duly provided for on the old note, from December 14, 2004. Holders of the old notes whose old notes are accepted for exchange will not receive accrued interest on the old notes for any period from and after the last interest payment date to which interest has been paid or duly provided for on the old notes prior to the original issue date of the new notes. These holders will be deemed to have waived the right to receive any interest on the old notes accrued from and after that interest payment date, or, if no interest has been paid or fully provided for, from and after December 14, 2004. Interest on the notes is payable semi-annually in arrears on each December 1 and June 1, commencing on June 1, 2005.

Procedures For Tendering Old Notes

To tender in the Exchange Offer, a holder must complete, sign and date the letter of transmittal, or a facsimile of the letter of transmittal, have the signatures guaranteed if required by the letter of transmittal, and mail or otherwise deliver the letter of transmittal or a facsimile, together with the old notes and any other required documents, to the exchange agent. The exchange agent must receive these documents at the address set forth below prior to 5:00 p.m., New York City time on the expiration date. Delivery of the old notes may be made by book-entry transfer in

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

accordance with the procedures described below. Confirmation of book-entry transfers must be received by the exchange agent prior to the expiration date.

By executing a letter of transmittal, each holder will make the representations set forth below under the heading Resale of New Notes.

The tender by a holder and the acceptance by us will constitute an agreement between the holder and us in accordance with the terms subject to the conditions set forth in this prospectus and in the letter of transmittal.

The method of delivery of old notes and the letter of transmittal and all other required documents to the exchange agent is at the election and risk of the holder. Instead of delivery by mail, it is recommended that

Table of Contents

holders use an overnight or hand delivery service. In all cases, sufficient time should be allowed to assure delivery to the exchange agent before the expiration date. No letter of transmittal or notes should be sent to us. Holders may request their brokers, dealers, commercial banks, trust companies or nominees to effect the above transactions for them.

Any beneficial owner whose old notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and who wishes to tender should contact the registered holder promptly and instruct the registered holder to tender on the beneficial owner's behalf.

Signatures on a letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed by an eligible institution (as defined below) unless the old notes tendered:

are signed by the registered holder, unless the holder has completed the box entitled "special exchange instructions" or "special delivery instructions" on the letter of transmittal; or

are tendered for the account of an eligible institution.

In the event that signatures on a letter of transmittal or a notice of withdrawal, as the case may be, are required to be guaranteed, the guarantee must be by a member firm of a registered national securities exchange or of the National Association of Securities Dealers, Inc., a commercial bank or trust company having an office or correspondent in the United States, or an eligible guarantor institution within the meaning of Rule 17Ad-15 under the Exchange Act (an eligible institution).

If a letter of transmittal is signed by a person other than the registered holder of any old notes listed on the letter of transmittal, the old notes must be endorsed or accompanied by a properly completed bond power, signed by the registered holder as the registered holder's name appears on the old notes, with the signature guaranteed by an eligible institution.

If a letter of transmittal or any old notes or bond powers are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or other acting in a fiduciary or representative capacity, the persons should so indicate when signing. Unless waived by us, evidence satisfactory to us of their authority to so act must be submitted with the letter of transmittal.

All questions as to the validity, form, eligibility, including time or receipt, acceptance of tendered old notes and withdrawal of tendered old notes will be determined by us in our reasonable discretion. This determination will be final and binding. We reserve the absolute right to reject any and all old notes that are not properly tendered or any old notes our acceptance of which would, in the opinion of our counsel, be unlawful. We also reserve the right to waive any defects, irregularities or conditions of tender as to particular old notes. Our interpretation of the terms and conditions of the Exchange Offer, including the instructions in the letter of transmittal, will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of old notes must be cured within the time period we determine. Although we intend to notify holders of defects or irregularities with respect to tenders of old notes, neither we, the exchange agent nor any other person will incur any liability for failure to give this notification. Tendere of old notes will not be deemed to have been made until defects or irregularities have been cured or waived. Any old notes received by the exchange agent that are not properly tendered and as to which the defects or irregularities have not been cured or waived will be returned by the exchange agent to the tendering holders, unless otherwise provided in letter of transmittal, as soon as practicable following the expiration date.

Book-Entry Delivery Procedures

Promptly after the date of this prospectus, the exchange agent for the old notes will establish accounts with respect to the old notes at DTC, (the book-entry transfer facility) for purposes of the Exchange Offer. Any financial institution that is a participant in the book-entry transfer facility s systems may make book-entry

Table of Contents

delivery of the old notes by causing the book-entry transfer facility to transfer old notes into the exchange agent's account at the book-entry transfer facility in accordance with the book-entry transfer facility's procedures for transfers. Timely book-entry delivery of old notes pursuant to the Exchange Offer, however, requires receipt of a book-entry confirmation prior to the expiration date. In addition, to receive new notes for tendered old notes, the letter of transmittal, or a mutually signed facsimile, together with any required signature guarantees and any other required documents, or an agent's message in connection with a book-entry transfer, must, in any case, be delivered or transmitted to and received by the exchange agent at its address set forth under "Exchange Agent" below prior to the expiration date. Alternatively, the guaranteed delivery procedures described below must be complied with. Tender will not be considered made until the documents are received by the exchange agent. Delivery of documents to the book-entry transfer facility does not constitute delivery to the exchange agent.

Tender Of Existing Notes Held Through Book-Entry Transfer Facility

The exchange agent and the book-entry transfer facility have confirmed that the Exchange Offer is eligible for the book-entry transfer facility's Automated Tender Offer Program, or ATOP. Accordingly, participants in the book-entry transfer facility's ATOP may, in lieu of physically completing and signing the letter of transmittal and delivering it to the exchange agent, electronically transmit their acceptance of the Exchange Offer by causing the book-entry transfer facility to transfer old notes to the exchange agent in accordance with the book-entry transfer facility's ATOP procedures for transfer. The book-entry transfer facility will then send an agent's message to the exchange agent.

The term "agent's message" means a message transmitted by a book-entry transfer facility, received by the exchange agent and forming part of the book-entry confirmation, which states that:

the book-entry transfer facility has received an expressed acknowledgment from a participant in its ATOP that is tendering old notes which are the subject of the book-entry confirmation;

the participant has received and agrees to be bound by the terms of the letter of transmittal or, in the case of an agent's message relating to guaranteed delivery, the participant has received and agrees to be bound by the notice of guaranteed delivery; and

we may enforce the agreement against the participant.

Guaranteed Delivery Procedure

Holders who wish to tender their old notes and (1) whose old notes are not immediately available, (2) who cannot deliver their old notes, the letter of transmittal or any other required documents to the exchange agent or (3) who cannot complete the procedures for book-entry transfer, prior to the expiration date, may effect a tender if:

the tender is made through an eligible institution;

prior to the expiration date, the agent receives from the eligible institution a properly completed and duly executed notice of guaranteed delivery, by facsimile transmission, mail or hand delivery, setting forth the name and address of the holder, the certificate number(s) of the old notes and the principal amount of old notes tendered and guaranteeing that, within three New York Stock Exchange trading days after the date of execution, the letter of transmittal or facsimile together with the certificate(s) representing the

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

old notes or a book-entry confirmation of the old notes into the exchange agent's account at the book-entry transfer facility and any other documents required by the letter of transmittal, will be deposited by the eligible institution with the exchange agent; and

a properly completed and executed letter of transmittal or facsimile, as well as the certificate(s) representing all tendered old notes in proper form for transfer or a book-entry confirmation transfer of the old notes into the exchange agent's account at the book-entry transfer facility and all other documents required by the letter of transmittal, are received by the exchange agent within three New York Stock Exchange trading days after the date of execution.

Table of Contents

Upon request to the exchange agent, a notice of guaranteed delivery will be sent to holders who wish to tender their old notes according to the guaranteed delivery procedures set forth above.

Withdrawals Of Tenders

Except as otherwise provided in this prospectus, tenders of old notes may be withdrawn at any time prior to 5:00 p.m., New York City time on the expiration date.

To withdraw a tender of old notes in the Exchange Offer, a written or facsimile transmission notice of withdrawal must be received by the exchange agent at the address set forth below prior to 5:00 p.m., New York City time, on the expiration date. Any notice of withdrawal must:

specify the name of the person having deposited the old notes to be withdrawn (the depositor);

identify the old notes to be withdrawn, including the certificates number(s) and principal amount of the old notes, or, in the case of old notes transferred by book-entry transfer, the name and number of the account at the book-entry transfer facility to be credited;

be signed by the holder in the same manner as the original signature on the letter of transmittal by which the old notes were tendered, including any required signature guarantees, or be accompanied by documents of transfer sufficient to have the trustee or other registrar register transfer of the old notes into the name of the person withdrawing the tender; and

specify the name in which any of the old notes are to be registered, if different from that of the depositor.

All questions as to the validity, form and eligibility, including time or receipt, of the notices will be determined by us. Our determination will be final and binding on all parties. Any old notes so withdrawn will be deemed not to have been validly tendered for purposes of the Exchange Offer and no new notes will be issued in exchange unless the old notes so withdrawn are validly retendered. Any old notes which have been tendered but which are not accepted for exchange will be returned to their holder without cost to the holder as soon as practicable after withdrawal, rejection of tender or termination of the Exchange Offer. Properly withdrawn old notes may be retendered by following one of the procedures described above under Procedures for Tendering Old Notes at any time prior to the expiration date.

Conditions To The Exchange Offer

Notwithstanding any other terms of the Exchange Offer, we will not be required to accept for exchange, or exchange new notes for, any old notes, and may terminate the Exchange Offer before the acceptance of the old notes if, in our reasonable judgment, the Exchange Offer would violate any law, statute, rule or regulation or an interpretation thereof of the Staff of the Commission. If we determine in our reasonable discretion that this condition is not satisfied, we may:

refuse to accept any old notes and return all tendered old notes to the tendering holders;

extend the Exchange Offer and retain all old notes tendered prior to the expiration date, subject, however, to the rights of holders to withdraw the old notes (see Withdrawals of Tender); or

waive the unsatisfied condition with respect to the Exchange Offer and accept all validly tendered old notes which have not been withdrawn. If the waiver constitutes a material change to the Exchange Offer, we will promptly disclose the waiver by means of a prospectus supplement that will be distributed to the registered holders, and we will extend the Exchange Offer for a period of five to ten business days, depending upon the significance of the waiver and the manner of disclosure to the registered holders, if the Exchange Offer would otherwise expire during that five to ten business day period.

Fees And Expenses

We will not make any payment to brokers, dealers or others for soliciting acceptances of the Exchange Offer.

Transfer Taxes

Holders who tender their old notes for exchange generally will not be obligated to pay any transfer tax in connection with the exchange. However, holders who instruct us to register new notes in the name of a person other than the registered tendering holders, or request that old notes not properly tendered, withdrawn or not accepted in the Exchange Offer be returned to a person other than the registered tendering holder, will be responsible for the payment of any applicable transfer tax.

Accounting Treatment

The new notes will be recorded at the same carrying value as the old notes. This is the aggregate principal amount of the old notes, as reflected in our accounting records on the date of exchange. Accordingly, no gain or loss for accounting purposes will be recognized by us in connection with the Exchange Offer. The expenses of the Exchange Offer will be amortized over the term of the notes.

Appraisal Rights

Holders of old notes will not have dissenters' rights or appraisal rights in connection with the Exchange Offer.

Resale Of New Notes

The new notes are being offered to satisfy our obligations contained in the registration rights agreement. We are making the Exchange Offer in reliance on the position of the Staff of the Commission as set forth in the Exxon Capital No-Action Letter, the Morgan Stanley No-Action Letter, the Shearman & Sterling No-Action Letter, and other interpretive letters addressed to third parties in other transactions. However, we have not sought our own interpretive letter addressing these matters and there can be no assurance that the Staff would make a

Table of Contents

similar determination with respect to the Exchange Offer as it has in those interpretive letters to third parties. Based on these interpretations by the Staff, and subject to the two immediately following sentences, we believe that new notes issued pursuant to this Exchange Offer in exchange for old notes may be offered for resale, resold and otherwise transferred by holders, other than a holder who is a broker-dealer, without further compliance with the registration and prospectus delivery requirements of the Securities Act, provided that:

the new notes are acquired in the ordinary course of the holder's business; and

the holder is not participating, and has no arrangement or understanding with any person to participate, in a distribution within the meaning of the Securities Act of the new notes.

However, any holder who:

is an affiliate of ours, within the meaning of Rule 405 under the Securities Act;

does not acquire new notes in the ordinary course of its business;

intends to participate in the Exchange Offer for the purpose of distributing new notes; or

is a broker-dealer who purchased old notes directly from us,

will not be able to rely on the interpretations of the Staff set forth in the above-mentioned interpretive letters; will not be permitted or entitled to tender old notes in the Exchange Offer; and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any sale or other transfer of old notes unless the sale is made pursuant to an exemption from those requirements.

In addition, as described below, if any broker-dealer holds old notes acquired for its own account as a result of market-making or other trading activities and exchanges the old notes for new notes (a participating broker-dealer), the participating broker-dealer may be deemed to be a statutory underwriter within the meaning of the Securities Act and must deliver a prospectus meeting the requirements of the Securities Act in connection with any resales of new notes. See Plan of Distribution.

Each holder who wishes to exchange old notes for new notes in the Exchange Offer will be required to represent that:

it is not an affiliate of ours;

any new notes to be received by it are being acquired in the ordinary course of its business; and

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

it has no arrangement or understanding with any person to participate in a distribution, within the meaning of the Securities Act, of new notes.

Each broker-dealer that receives new notes for its own account pursuant to the Exchange Offer must:

acknowledge that it acquired the old notes for its own account as a result of market-making activities or other trading activities, and not directly from us; and

agree that it will deliver a prospectus meeting the requirements of the Securities Act in connection with any resale of new notes.

The letter of transmittal states that by so acknowledging and by delivering a prospectus, a participating broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. Based on the position taken by the Staff in the interpretive letters referred to above, we believe that participating broker-dealers may fulfill their prospectus delivery requirements with respect to the new notes received upon exchange of old notes with a prospectus meeting the requirements of the Securities Act, which may be the prospectus prepared for an Exchange Offer so long as it contains a description of the plan of distribution with respect to the resale of new notes. Accordingly, this prospectus, as it may be amended or supplemented from time to time, may be used by a participating broker-dealer during the period referred to below in connection with the resales of new notes received in exchange for old notes where the old notes were acquired by the participating broker-dealer for its own account as a result of market-making or other trading activities.

Table of Contents

Subject to provisions set forth in the registration rights agreement, we shall use our best efforts to:

keep the Exchange Offer Registration Statement continuously effective, supplemented and amended to the extent necessary to ensure that it is available for resales of new notes acquired by broker-dealers for their own accounts as a result of market-making activities or other trading activities; and

ensure that the Exchange Offer Registration Statement conforms with the requirements of the registration rights agreement, the Securities Act and the policies, rules and regulations of the Commission as announced from time to time, for a period of 180 days from the date on which the Exchange Offer Registration Statement is declared effective.

Any participating broker-dealer who is an affiliate of ours may not rely on the interpretive letters and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each participating broker-dealer who surrenders old notes pursuant to the Exchange Offer will be deemed to have agreed, by execution of a letter of transmittal, that, upon receipt of notice from us of the occurrence of any event or the discovery of any fact which makes any statement contained or incorporated by reference in this prospectus untrue in any material respect or which causes this prospectus to omit to state a material fact necessary in order to make the statements contained or incorporated by reference herein, in light of the circumstances under which they were made, not misleading or of the occurrence of other events specified in the registration rights agreement, the participating broker-dealer will suspend the sale of new notes pursuant to this prospectus until we have amended or supplemented this prospectus to correct the misstatement or omission and have furnished copies of the amended or supplemented prospectus to the participating broker-dealer or we have given notice that the sale of the new notes may be resumed, as the case may be.

Consequences Of Failure To Exchange Old Notes

Any old notes tendered and exchanged in the Exchange Offer will reduce the aggregate principal amount of old notes outstanding. Following the consummation of the Exchange Offer, holders who did not tender their old notes generally will not have any further registration rights under the registration rights agreement, and these old notes will continue to be subject to restrictions on transfer. Accordingly, the liquidity of the market for the old notes could be adversely affected. The old notes are currently eligible for sale under Rule 144A through the PORTAL Market. Because we anticipate that most holders will elect to exchange their old notes for new notes due to the absence of most restrictions on the resale of new notes, we anticipate that the liquidity of the market for any old notes remaining outstanding after the Exchange Offer may be substantially limited.

As a result of the making of the Exchange Offer, we will have fulfilled our obligations under the registration rights agreement, and holders who do not tender their old notes generally will not have any further registration rights or rights to receive liquidated damages specified in the registration rights agreement for our failure to register the new notes.

The old notes that are not exchanged for new notes will remain restricted securities. Accordingly, the old notes may be resold only:

to us or one of our subsidiaries;

to a qualified institutional buyer;

to an institutional accredited investor;

to a party outside the United States under Regulation S under the Securities Act;

under an exemption from registration provided by Rule 144 under the Securities Act; or

under an effective registration statement.

DESCRIPTION OF THE NOTES

General

We issued the old notes and will issue the new notes under the Indenture dated as of December 14, 2004, by and between us and U.S. Bank National Association, as trustee (the Indenture). The term Notes refers to the old notes and the new notes. The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended (the Trust Indenture Act). The aggregate principal amount of Notes issuable under the Indenture is unlimited, although the issuance of old notes and new notes is limited to an aggregate principal amount of \$250.0 million. We may issue an unlimited principal amount of Additional Notes having identical terms and conditions as the Notes, subject to compliance with the covenant described under Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Preferred Stock. Any Additional Notes may be part of the same issue as the Notes and to that extent will vote on all matters with the holders of such Notes.

The following description is a summary of those provisions of the Indenture and the Registration Rights Agreement that we consider material. It does not restate either agreement in its entirety. We urge you to read the Indenture and the Registration Rights Agreement because they, and not this description, define your rights as holders of the Notes. Copies of the Indenture and the Registration Rights Agreement are available as set forth below under Additional Information. You can find the definitions of capitalized terms used in this description under the subheading Certain Definitions. In this description, the issuer, the Company, we, us and our refer only to SBA Communications Corporation and not to any of subsidiaries.

Brief Description of the Securities

The Notes are:

our senior, unsecured obligations;

senior in right of payment to any of our future subordinated Indebtedness;

pari passu in right of payment to our existing and future unsecured Indebtedness that is not by its terms expressly subordinated to the Notes; and

effectively junior in right of payment to our existing and future secured Indebtedness to the extent of the value of the collateral securing that Indebtedness.

As of December 31, 2004, as adjusted for the redemption of the 10¹/₄% senior notes in February 2005, we would have had approximately \$552.4 million of Senior Indebtedness outstanding (including the notes and the \$302.4 million due under the 9³/₄% senior discount notes due 2011 that we co-issued with Telecommunications (the 2011 Notes)) none of which is secured. As of December 31, 2004, the Notes would have ranked structurally junior in right of payment to \$703.3 million of total liabilities of our Subsidiaries, including \$323.4 million of indebtedness under the senior credit facility and \$302.4 million of the 2011 Notes. As of March 31, 2005, we had drawn down \$322.6 million under the senior credit facility and as a result had approximately \$36.5 million in availability under the senior credit facility, which would be senior in right of

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

payment to the notes, and had \$309.8 million aggregate principal amount at maturity outstanding of the 9³/₄% senior discount notes. The Indenture permits certain of our Subsidiaries to incur additional amounts of Indebtedness, all of which would be structurally senior to the Notes.

Our operations are conducted through our Subsidiaries and, therefore, we are dependent upon the cash flow of our Subsidiaries to meet our obligations, including our obligations under the Notes. Our Subsidiaries will not be guarantors of the Notes and are separate entities with no obligation to make payments on the Notes or to make funds available therefor. The Notes will be effectively subordinated to all Indebtedness (including all obligations under the Senior Credit Facility) and other liabilities and commitments (including trade payables and lease obligations) of our Subsidiaries. Our right to receive assets of any of our Subsidiaries upon such Subsidiary s

Table of Contents

liquidation or reorganization (and the consequent right of the holders of the Notes to participate in those assets) will be effectively subordinated to the claims of that Subsidiary's creditors, except to the extent that we are ourselves recognized as a creditor of such Subsidiary, in which case our claims would still be subordinate to any security in the assets of such Subsidiary and any Indebtedness of such Subsidiary senior to that held by us. We cannot assure you that, if a Default or Event of Default occurs, we will have sufficient cash or other assets available to meet our obligations, especially after repayment by our Subsidiaries of their obligations. For other information relating to the Company and its Subsidiaries and the structural subordination of the Notes to Indebtedness and other Obligations of such Subsidiaries, see Risk Factors. The notes will be structurally subordinate to the debt of our subsidiaries, including our senior credit facility.

As of December 14, 2004, all of our existing subsidiaries are Restricted Subsidiaries and bound by the covenants contained in the Indenture. However, under certain circumstances, we will be permitted to designate our current or future Subsidiaries as Unrestricted Subsidiaries. Our Unrestricted Subsidiaries will not be subject to the restrictive covenants set forth in the Indenture.

Principal, Maturity and Interest

We issued Initial Notes with a maximum aggregate principal amount of \$250.0 million. We may issue Additional Notes from time to time. Any offering of Additional Notes is subject to the covenant described under Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Preferred Stock. The Initial Notes and any Additional Notes subsequently issued under the Indenture will be treated as a single class for all purposes under the Indenture, including, without limitation, waivers, amendments, redemptions and offers to purchase. The Notes will mature on December 1, 2012. We issued the old notes and will issue the new notes in denominations of \$1,000 and integral multiples thereof.

Interest on the Notes will accrue at the rate of 8 1/2% per annum and will be payable in U.S. dollars semiannually in arrears on June 1 and December 1, commencing on June 1, 2005, to holders of record on the immediately preceding May 15 or November 15, respectively. The registered holder of a Note is treated as the owner of the Note for all purposes. Only registered holders have rights under the Indenture.

Holders of record on such record dates will become irrevocably entitled to receive accrued interest in respect of the interest period during which such record date occurs as of the close of business on such record date. Interest on the Notes will accrue from the date of original issuance or, if interest has already been paid, from the most recent date to which interest has been paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Methods of Receiving Payments on the Notes

If a holder has given wire transfer instructions to us, we will pay all principal, interest, premium, if any, and Additional Interest, if any, on that holder's Notes in accordance with those instructions. All other payments on Notes will be made at the office or agency of the paying agent and registrar within the City and State of New York unless we elect to make interest payments by check mailed to the holders at their address set forth in the register of holders.

Paying Agent and Registrar for the Notes

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

The Trustee will initially act as paying agent and registrar. We may change the paying agent or registrar without prior notice to the holders of the Notes, and we or any of our Subsidiaries may act as paying agent or registrar.

Transfer and Exchange

A holder may transfer or exchange Notes in accordance with the Indenture. The registrar and the Trustee may require a holder to furnish appropriate endorsements and transfer documents in connection with a transfer of

Table of Contents

Notes. Holders will be required to pay all taxes due on transfer. The registrar is not required to transfer or exchange any Note selected for redemption. Also, the registrar is not required to transfer or exchange any Note for a period of 15 days before a selection of Notes to be redeemed.

Optional Redemption

Except as described below, the Notes will not be redeemable at our option prior to December 1, 2008. Thereafter, the Notes will be subject to redemption at any time at our option, in whole or in part, upon not less than 30 nor more than 60 days notice, at the redemption prices (expressed as percentages of principal amount) set forth below plus accrued and unpaid interest and Additional Interest thereon, if any, to the applicable redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the twelve-month period beginning on December 1 of the years indicated below:

<u>Year</u>	<u>Percentage</u>
2008	104.250%
2009	102.125%
2010 and thereafter	100.000%

In addition, at any time on or prior to December 1, 2008, we may redeem all or a part of the Notes upon not less than 30 nor more than 60 days prior notice mailed by first-class mail to each holder's registered address, at a redemption price equal to 100% of the principal amount of the Notes to be redeemed plus the Applicable Premium plus accrued and unpaid interest and Additional Interest, if any, to the redemption date (subject to the rights of holders of record on relevant record dates to receive interest due on an interest payment date).

At any time prior to December 1, 2007, we may on any one or more occasions redeem up to 35% of the aggregate principal amount of Notes (including any Additional Notes) issued under the Indenture at a redemption price of 108.500% of the principal amount thereof on the redemption date, plus accrued and unpaid interest and Additional Interest, if any, with the net cash proceeds of one or more Equity Offerings and/or Strategic Equity Investments; *provided* that (1) at least 65% of the original principal amount of Notes issued under the Indenture remains outstanding immediately after the occurrence of such redemption (excluding Notes held by us or any of our Subsidiaries) and (2) that such redemption shall occur within 60 days of the date of the closing of such Equity Offering and/or Strategic Equity Investment.

Selection and Notice

If less than all of the Notes are to be redeemed at any time, selection of Notes for redemption will be made by the Trustee in compliance with the requirements of the principal national securities exchange, if any, on which the Notes are listed, or, if the Notes are not so listed on a pro rata basis, by lot or in accordance with any other method the Trustee shall deem fair and appropriate; *provided* that no Notes of \$1,000 or less shall be redeemed in part. Notices of redemption shall be mailed by first class mail at least 30 but not more than 60 days before the redemption date to each Holder of Notes to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of the Indenture. Notices of redemption may not be conditional.

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

If any Note is to be redeemed in part only, the notice of redemption that relates to such Note shall state the portion of the principal amount thereof to be redeemed. A new Note in principal amount equal to the unredeemed portion thereof will be issued in the name of the holder thereof upon cancellation of the original Note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of them called for redemption so long as we have deposited with the Paying Agent sufficient funds in satisfaction of the applicable redemption price pursuant to the Indenture.

Mandatory Redemption

We are not required to make mandatory redemption or sinking fund payments with respect to the Notes.

Purchase at the Option of Holders

Change of Control

Upon the occurrence of a Change of Control, each holder of Notes will have the right to require the Company to purchase all or any part (equal to \$1,000 or an integral multiple thereof) of such holder's Notes pursuant to the offer described below (the "Change of Control Offer") at an offer price in cash equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest and Additional Interest thereon, if any (subject to the right of holders of record on the relevant record date to receive interest and Additional Interest, if any, due on the relevant interest payment date), to the date of purchase (the "Change of Control Payment"). Within 30 days following any Change of Control, the Company will mail a notice to each Holder describing the transaction or transactions that constitute the Change of Control and offering to purchase Notes on the date specified in such notice, which date shall be no earlier than 30 days and no later than 60 days from the date such notice is mailed (the "Change of Control Payment Date"), pursuant to the procedures required by the Indenture and described in such notice.

On the Change of Control Payment Date, the Company will, to the extent lawful:

- (1) accept for payment all Notes or portions thereof properly tendered pursuant to the Change of Control Offer,
- (2) deposit with the Paying Agent an amount equal to the Change of Control Payment in respect of all Notes or portions thereof so tendered, and
- (3) deliver or cause to be delivered to the Trustee the Notes so accepted together with an Officers' Certificate stating the aggregate principal amount of Notes or portions thereof being purchased by the Company.

The paying agent will promptly mail to each holder of Notes so tendered the Change of Control Payment for such Notes, and the Trustee will promptly authenticate and mail (or cause to be transferred by book entry) to each Holder a new Note equal in principal amount to any unpurchased portion of the Notes surrendered, if any; *provided* that each such new Note will be in a principal amount of \$1,000 or an integral multiple thereof.

We will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations applicable to any Change of Control Offer. To the extent that the provisions of any such securities laws or securities regulations conflict with the provisions of the covenant described above, we will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the covenant described above by virtue thereof.

The Change of Control purchase feature is a result of negotiations between the Company and the initial purchasers. We have no present intention to engage in a transaction involving a Change of Control, although it is possible that the Company would decide to do so in the future. Subject to the limitations discussed below, the Company could in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Indebtedness outstanding at such time or otherwise affect the Company's capital structure. Restrictions on the ability of the Company to incur additional Indebtedness are contained in the covenants described under Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Preferred Stock, Certain Covenants Limitation on Liens and Certain Covenants Limitation on Sale and Leaseback Transactions. Such restrictions can be waived only with the consent of the holders of a majority in principal amount of the Notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture does not contain any covenants or provisions that may afford holders of the Notes protection in the event of certain highly leveraged transactions.

Table of Contents

Any Credit Facility would likely limit the Company's access to the cash flow of its Subsidiaries and, therefore, restrict the Company's ability to purchase any Notes. Any Credit Facility would likely also provide, and the Senior Credit Facility provides, that the occurrence of certain change of control events with respect to the Company will constitute a default thereunder. In such event, the Company could seek the consent of the lenders under such Credit Facility or could attempt to refinance the borrowings that contain such prohibition. If the Company does not obtain such a consent or repay such borrowings, the Company will remain prohibited from purchasing Notes. In such case, the Company's failure to purchase tendered Notes would constitute an Event of Default under the Indenture which would, in turn, constitute a default under such Credit Facility. The December 2003 Senior Discount Note Indenture, evidencing the 2011 Notes, also requires the Company and such Subsidiary to offer to repurchase the 2011 Notes on a Change of Control. Future indebtedness of the Company and its Subsidiaries may contain prohibitions on the occurrence of certain events that would constitute a Change of Control or require such indebtedness to be purchased upon a Change of Control. Moreover, the exercise by the Holders of their right to require the Company to purchase the Notes could cause a default under such indebtedness, even if the Change of Control itself does not, due to the financial effect of such purchase on the Company. The Company's ability to pay cash to the Holders of Notes following the occurrence of a Change of Control may also be limited by the Company's then existing financial resources, including its ability to access the cash flow of its Subsidiaries. See *Risk Factors* *Risks Related to the Notes* we may not have sufficient funds to repurchase the notes upon a change in control as required by the indenture.

The Company will not be required to make a Change of Control Offer upon a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer. The provisions under the Indenture relative to the Company's obligation to make an offer to repurchase the Notes as a result of a Change of Control may be waived or modified only with the written consent of the holders of a majority in principal amount of the Notes then outstanding.

The definition of Change of Control includes a phrase relating to the sale, lease, transfer, conveyance or other disposition of all or substantially all of the assets of the Company and its Restricted Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a Holder of Notes to require the Company to purchase such Notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of the Company and its Restricted Subsidiaries taken as a whole to another Person or group may be uncertain.

Asset Sales

The Company will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

(1) the Company (or the Restricted Subsidiary, as the case may be) receives consideration at the time of such Asset Sale at least equal to the fair market value (evidenced by a resolution of the Board of Directors set forth in an Officers' Certificate delivered to the Trustee) of the assets or Equity Interests issued or sold or otherwise disposed of; and

(2) at least 75% of the consideration therefor received by the Company or such Restricted Subsidiary is in the form of (a) cash or Cash Equivalents, (b) Tower Assets or (c) any combination of the foregoing.

For purposes of this provision, the following shall be deemed to be cash:

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

(A) the amount of any liabilities (as shown on the Company's or such Restricted Subsidiary's most recent balance sheet) of the Company or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes or any guarantee thereof) that are assumed by the transferee of any such assets pursuant to a customary novation agreement that releases the Company or such Restricted Subsidiary from further liability; and

Table of Contents

(B) the amount of any securities, notes or other obligations received by the Company or any such Restricted Subsidiary from such transferee that are converted by the Company or such Restricted Subsidiary into cash within 20 days of the applicable Asset Sale (to the extent of the cash received).

Within 360 days after the receipt of any Net Proceeds from an Asset Sale, the Company or the applicable Restricted Subsidiary may apply such Net Proceeds to:

(a) reduce (which reduction may be temporary) Indebtedness under a Credit Facility;

(b) reduce or repurchase any other Indebtedness of any of the Company's Restricted Subsidiaries, including the 2011 Notes;

(c) reduce or repurchase any Indebtedness represented by the Notes;

(d) reduce or repurchase any Senior Indebtedness of the Company, excluding the 2011 Notes; *provided* that the Notes are reduced or repurchased on a pro rata basis with the Net Proceeds from such Asset Sale;

(e) acquire all or substantially all the assets of a Permitted Business; *provided*, that after giving effect thereto, the Company and/or a Restricted Subsidiary own such assets;

(f) acquire Voting Stock of a Permitted Business from a Person that is not a Subsidiary of the Company; *provided*, that, after giving effect thereto, the Company and/or a Restricted Subsidiary own a majority of such Voting Stock; or

(g) make a capital expenditure or acquire other long-term assets that are used or useful in a Permitted Business; *provided*, that after giving effect thereto, the Company or a Restricted Subsidiary of the Company is the owner of such assets.

Pending the final application of any such Net Proceeds, the Company or the applicable Restricted Subsidiary may invest such Net Proceeds in any manner that is not prohibited by the Indenture.

Any Net Proceeds from Asset Sales that are not applied or invested as provided in clauses (a) through (g) immediately above will be deemed to constitute Excess Proceeds. When the aggregate amount of Excess Proceeds exceeds \$10 million, the Company or the applicable Restricted Subsidiary will be required to make an offer (an Asset Sale Offer) to all holders of Notes and all holders of other Senior Indebtedness of the Company, excluding the 2011 Notes, containing provisions similar to those set forth in the Indenture with respect to offers to purchase or redeem with the proceeds of sales of assets (such other Senior Indebtedness, Pari Passu Notes) to purchase, on a pro rata basis, the maximum principal amount (or accreted value, as applicable) of Notes and such Pari Passu Notes that may be purchased out of the Excess Proceeds, at an offer price in cash in an amount equal to 100% of the principal amount (or accreted value, as applicable) thereof plus accrued and unpaid interest

and Additional Interest thereon, if any, to the date of purchase (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), in accordance with the procedures set forth in the Indenture and the instruments governing such Pari Passu Notes.

To the extent that any Excess Proceeds remain after consummation of an Asset Sale Offer, the Company may use such Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount (or accreted value, as applicable) of Notes and such Pari Passu Notes tendered into such Asset Sale Offer surrendered by holders thereof exceeds the amount of Excess Proceeds, the Trustee shall select the Notes and such Pari Passu Notes to be purchased on a pro rata basis based on the aggregate principal amount (or accreted value, as applicable) of Notes and Pari Passu Notes tendered. Upon completion of such offer to purchase, the amount of Excess Proceeds shall be reset at zero.

Table of Contents

The Company will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations applicable to any Asset Sale Offer. To the extent that the provisions of any such securities laws or securities regulations conflict with the provisions of the covenant described above, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the covenant described above by virtue thereof.

Certain Covenants

Limitation on Restricted Payments

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

(1) declare or pay any dividend or make any other payment or distribution on account of the Company's or any of its Restricted Subsidiaries' Equity Interests (including, without limitation, any payment in connection with any merger or consolidation involving the Company or any of its Restricted Subsidiaries) or to the direct or indirect holders of the Company's or any of its Restricted Subsidiaries' Equity Interests in their capacity as such (other than dividends or distributions payable (A) in Qualified Equity Interests or (B) to the Company or a Restricted Subsidiary of the Company);

(2) purchase, redeem or otherwise acquire or retire for value (including without limitation, in connection with any merger or consolidation involving the Company) any Equity Interests of the Company;

(3) designate any Restricted Subsidiary as an Unrestricted Subsidiary;

(4) make any payment on or with respect to, or purchase, redeem, defease or otherwise acquire or retire for value any Indebtedness that is subordinated to the Notes, except a payment of interest or principal at Stated Maturity (other than payments to the Company or payments by a Restricted Subsidiary of the Company to the Company or to another Restricted Subsidiary of the Company); or

(5) make any Restricted Investment (all such payments and other actions set forth in clauses (1) through (5) being collectively referred to as Restricted Payments),

unless, at the time of and after giving effect to such Restricted Payment:

(a) no Default shall have occurred and be continuing or would occur as a consequence thereof; and

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

(b) the Company would have been permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Company's Debt to Adjusted Consolidated Cash Flow Ratio test set forth in the first paragraph of the covenant described below under the caption "Limitation on Incurrence of Indebtedness and Issuance of Preferred Stock"; and

(c) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Company and its Restricted Subsidiaries after the date of the March 1998 Senior Discount Note Indenture (excluding Restricted Payments permitted by clauses (2) and (3) of the next succeeding paragraph), is less than the sum, without duplication, of:

(1) 100% of the Consolidated Cash Flow of the Company for the period (taken as one accounting period) from the beginning of the fiscal quarter during which the March 1998 Senior Discount Note Indenture was executed to the end of the Company's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment (or, if the Consolidated Cash Flow for such period is a deficit, less 100% of the deficit), less 1.40 times the Consolidated Interest Expense of the Company since the beginning of the fiscal quarter during which the March 1998 Senior Discount Note Indenture was executed to the end of the Company's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment; *plus*

(2) (A) 100% of the aggregate net cash proceeds plus (B) 70% of the aggregate value, as reflected on the Company's balance sheet in accordance with GAAP using purchase accounting, of any Qualified Proceeds, plus (C) 100% of the principal amount of Disqualified Stock or debt securities (other than Subordinated Obligations) of the Company or a Restricted Subsidiary that have been converted into or exchanged for Qualified Equity Interests, received by the Company or any of its Restricted Subsidiaries (from Persons other than Subsidiaries) from the issue and sale of, or conversion into or exchange for, Qualified Equity Interests in each case since the beginning of the fiscal quarter during which the March 1998 Senior Discount Note Indenture was executed (provided that any net cash proceeds that are used pursuant to the third paragraph under "Optional Redemption" shall not be so included); *plus*

(3) to the extent that any Unrestricted Subsidiary of the Company is redesignated as or becomes a Restricted Subsidiary after the Issue Date; the lesser of:

(A) the fair market value of the Company's Investments in such Subsidiaries as of the date they are designated or become Restricted Subsidiaries, and

(B) the sum of:

(x) the fair market value of the Company's Investments in such Subsidiaries as of the date on which such Subsidiaries were originally designated as Unrestricted Subsidiaries, and

(y) the amount of any Investments made in such Subsidiaries subsequent to such designation (and treated as Restricted Payments) by the Company or any Restricted Subsidiary; *plus*

(4) to the extent not included in the Consolidated Cash Flow referred to in clause (1) and to the extent that any Restricted Investment that was made after the Issue Date is sold for cash or otherwise liquidated or repaid for cash, the lesser of:

(A) the cash return of capital with respect to the Restricted Investment (less the cost of disposition, if any), and

(B) the initial amount of the Restricted Investment; *plus*

(5) 100% of any other dividends or other distributions received by the Company or a Restricted Subsidiary of the Company since the Issue Date from an Unrestricted Subsidiary of the Company to the extent that such dividends were not otherwise included in Consolidated Net Income of the Company for such period.

The foregoing provisions will not prohibit:

(1) the payment of any dividend within 60 days after the date of declaration thereof, if at said date of declaration such payment would have complied with the provisions of the Indenture;

(2) the making of any Investment or the redemption, repurchase, retirement, defeasance or other acquisition of any Subordinated Obligations or Equity Interests of the Company or its Restricted Subsidiaries in exchange for, or out of the net cash proceeds, to the extent of the net cash proceeds received by the Company from the sale since the Issue Date, (other than to a Subsidiary of the Company) of, any Qualified Equity Interests; *provided* that the amount of any such net cash proceeds that are so utilized shall be excluded from clause (c)(2) of the preceding paragraph;

(3) the defeasance, redemption, repurchase or other acquisition of Subordinated Obligations with the net cash proceeds from an incurrence of Permitted Refinancing Indebtedness;

(4) the repurchase, redemption or other acquisition or retirement for value of Equity Interests of the Company or any Restricted Subsidiary of the Company held by any member of the Company's (or any of its Restricted Subsidiaries') management; *provided* that the aggregate amount expended pursuant to this clause (4) shall not exceed \$500,000 in any twelve-month period;

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary if such Subsidiary, after giving effect to such designation, would meet the requirements of the definition of Unrestricted Subsidiary. The Company will not, and will not permit any of its Subsidiaries to, enter into, or suffer to exist, any transaction or arrangement, with a Subsidiary that is an Unrestricted Subsidiary that would be inconsistent with or violate the terms set forth in the definition of Unrestricted Subsidiary.

The amount of all Restricted Payments (other than cash), including the amount of the Restricted Payment that will be deemed to occur upon the designation of a Subsidiary as an Unrestricted Subsidiary, shall be the fair market value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued by the Company or the applicable Restricted Subsidiary, or of the Company's proportionate interest in the Subsidiary so to be designated as the case may be, pursuant to the Restricted Payment.

(7) the incurrence by the Company or any of its Restricted Subsidiaries of Hedging Obligations that are incurred for the purpose of fixing or hedging interest rate risk with respect to any floating rate Indebtedness that is permitted by the terms of the Indenture to be outstanding or currency exchange risk or otherwise entered into for bona fide purposes designed to protect against interest rate or currency exchange risk and not for speculative purposes;

The Company will not incur any Indebtedness that is contractually subordinated in right of payment to any other Indebtedness of the Company unless such Indebtedness is also contractually subordinated in right of payment to the Notes on substantially identical terms; *provided, however*, that no Indebtedness of the Company shall be deemed to be contractually subordinated in right of payment to any other Indebtedness of the Company solely by virtue of being unsecured; and (2) the Company will not permit any of its Unrestricted Subsidiaries to incur any Indebtedness other than Non-Recourse Debt; and (3) Restricted Subsidiaries may not issue or sell, and the Company may not permit any Restricted Subsidiary to have outstanding, any Equity Interests (other than (x) Equity Interests held by the Company or its Restricted Subsidiaries or (y) Permitted Subsidiary Equity Interests).

Limitation on Dividends and Other Distributions from Restricted Subsidiaries

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or otherwise cause or suffer to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to:

(l) provisions with respect to the disposition or distribution of assets or property in joint venture agreements and other similar agreements, and

(m) restrictions on cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business.

Limitation on Sale and Leaseback Transactions

Limitations on Issuances of Guarantees of Indebtedness

The Company will not permit any Restricted Subsidiary, directly or indirectly, to Guarantee or pledge any assets to secure the payment of any Indebtedness of the Company (except Indebtedness of the Company under a guarantee of Indebtedness of one or more of its Restricted Subsidiaries) unless such Restricted Subsidiary simultaneously executes and delivers a supplemental Indenture to the Indenture providing for the Guarantee of the payment of the premium, if any, principal, interest and Additional Interest, if any on the Notes by such Restricted Subsidiary, which Guarantee shall be senior to or *pari passu* with such Restricted Subsidiary's Guarantee of or pledge to secure such other Indebtedness.

Notwithstanding the foregoing, any such Guarantee by a Restricted Subsidiary of the Notes shall provide by its terms that it shall be automatically and unconditionally released and discharged upon any sale, exchange or transfer, to any Person other than a Restricted Subsidiary of the Company, of all of the Company's stock in, or all or substantially all the assets of, such Restricted Subsidiary, which sale, exchange or transfer is made in compliance with the applicable provisions of the Indenture. In addition, following the consummation of the Exchange Offer contemplated by the Registration Rights Agreement, whether or not required by the rules and regulations of the Commission, the Company will file a copy of all such information and reports with the Commission for public availability within the time periods specified in the Commission's rules and regulations (unless the Commission will not accept such a filing) and make such information available to securities analysts and prospective investors upon request. In addition, the Company will, for so long as any Notes remain outstanding, furnish to the holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Events of Default and Remedies

Each of the following constitutes an Event of Default:

- (1) default for 30 days in the payment when due of interest or Additional Interest on the Notes;
- (2) default in payment when due of the principal of or premium, if any, on the Notes;
- (3) failure by the Company or any of its Subsidiaries to comply with the provisions described under the caption "Certain Covenants - Merger, Consolidation or Sale of Assets" or failure by the Company to consummate a Change of Control Offer or Asset Sale Offer in accordance with the provisions of the Indenture applicable thereto;

- (5) default under any mortgage, Indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by the Company or any of its Significant Subsidiaries (or the payment of which is guaranteed by the Company or any of its Significant Subsidiaries) whether such Indebtedness or guarantee now exists, or is created after the Issue Date, which

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

default (a) is caused by a failure to pay principal of or premium, if any, or interest on such Indebtedness prior to the expiration of the grace period provided in such Indebtedness on the date of such default (a Payment Default) or (b) results in the acceleration of such Indebtedness prior to its express maturity and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated, aggregates \$10.0 million or more;

(6) failure by the Company or any of its Significant Subsidiaries to pay final judgments aggregating in excess of \$10.0 million, which judgments are not paid, discharged or stayed for a period of 60 days; or

(7) certain events of bankruptcy or insolvency with respect to the Company or any of its Restricted Subsidiaries that is a Significant Subsidiary.

Table of Contents

If any Event of Default occurs and is continuing, the Trustee or the holders of at least 25% in principal amount of the then outstanding Notes may declare all of the Notes to be due and payable immediately. Upon any such declaration, the principal of and accrued and unpaid interest, if any, shall become due and payable immediately. Notwithstanding the foregoing, in the case of an Event of Default arising from certain events of bankruptcy or insolvency, with respect to the Company, all outstanding Notes will become due and payable without further action or notice. Holders of the Notes may not enforce the Indenture or the Notes except as provided in the Indenture. Subject to certain limitations, holders of a majority in principal amount of the then outstanding Notes may direct the Trustee in its exercise of any trust or power.

The holders of a majority in aggregate principal amount of the Notes then outstanding by notice to the Trustee may on behalf of the holders of all of the Notes waive any existing Default or Event of Default and its consequences under the Indenture except a continuing Default or Event of Default in the payment of interest on, or the principal of, the Notes.

The Indenture provides that if a Default occurs and is continuing and is known to the Trustee, the Trustee must mail to each holder of the Notes notice of the Default within 90 days after it occurs. Except in the case of a Default in the payment of principal of, interest, premium or Additional Interest, if any, on any Note, the Trustee may withhold notice if and so long as a committee of its trust officers determines that withholding notice is not opposed to the interest of the holders of the Notes. In addition, the Company is required to deliver to the Trustee, within 90 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any Default that occurred during the previous year. The Company is also required to deliver to the Trustee, forthwith after the occurrence thereof, written notice of any event that would constitute a Default, the status thereof and what action the Company is taking or proposes to take in respect thereof.

The Company shall deliver to the Trustee, within 90 days after the end of each fiscal year, an Officers Certificate stating that a review of the activities of the Company and its Subsidiaries during the preceding fiscal year has been made under the supervision of the signing Officers with a view to determining whether the Company has kept, observed, performed and fulfilled its obligations under the Indenture, and further stating, as to each such Officer signing such certificates, that to the best of his or her knowledge the Company has kept, observed, performed and fulfilled each and every covenant contained in the Indenture and is not in default in the performance or observance of any of the terms, provisions and conditions of the Indenture (or, if a Default or Event of Default shall have occurred, describing all such Defaults or Events of Default of which he or she may have knowledge and what action the Company is taking or proposes to take with respect thereto) and that to the best of his or her knowledge no event has occurred and remains in existence by reason of which payments on account of the principal of or interest, if any, on the Notes is prohibited or if such event has occurred, a description of the event and what action the Company is taking or proposes to take with respect thereto.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator or stockholder of the Company, as such, shall have any liability for any obligations of the Company under the Notes, the Indenture or the Registration Rights Agreement or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Such waiver may not be effective to waive liabilities under the federal securities laws and it is the view of the Commission that such a waiver is against public policy.

Legal Defeasance and Covenant Defeasance

We may, at our option and at any time, elect to have all of our obligations discharged with respect to the outstanding Notes and the Indenture (Legal Defeasance) except for:

(1) the rights of holders of outstanding Notes to receive payments in respect of the principal of, premium, if any, interest and Additional Interest on such Notes when such payments are due from the trust referred to below,

Table of Contents

(2) the Company's obligations with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust,

(3) the rights, powers, trusts, duties and immunities of the Trustee, and the Company's obligations in connection therewith, and

(4) the Legal Defeasance provisions of the Indenture.

In addition, the Company may, at its option and at any time, elect to have the obligations of the Company released with respect to certain covenants that are described in the Indenture (Covenant Defeasance) and thereafter any omission to comply with such obligations shall not constitute a Default or Event of Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events (not including non-payment and bankruptcy, receivership, rehabilitation and insolvency events with respect to the Company) described under Events of Default and Remedies will no longer constitute an Event of Default with respect to the Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

(1) the Company must irrevocably deposit with the Trustee, in trust, for the benefit of the holders of the Notes, cash in United States dollars, noncallable Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay the principal of, premium, if any, and interest and Additional Interest on the outstanding Notes on their Stated Maturity or on the applicable redemption date, as the case may be, and the Company must specify whether the Notes are being defeased to maturity or to a particular redemption date;

(2) in the case of Legal Defeasance, the Company shall have delivered to the Trustee an opinion of counsel in the United States reasonably acceptable to the Trustee confirming that (A) the Company has received from, or there has been published by, the Internal Revenue Service a ruling or (B) since the Issue Date, there has been a change in the applicable federal income tax law, in either case to the effect that, and based thereon such opinion of counsel shall confirm that, the holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Legal Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(3) in the case of Covenant Defeasance, the Company shall have delivered to the Trustee an opinion of counsel in the United States reasonably acceptable to the Trustee confirming that the holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Covenant Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default or Event of Default shall have occurred and be continuing on the date of such deposit (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit) or insofar as Events of Default from bankruptcy or insolvency events with respect to the Company are concerned, at any time in the period ending on the 91st day after the date of deposit;

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

(5) such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under any material agreement or instrument (other than the Indenture) to which the Company or any of its Restricted Subsidiaries is a party or by which the Company or any of its Restricted Subsidiaries is bound;

(6) the Company must have delivered to the Trustee an opinion of counsel to the effect that after the 91st day following the deposit, the trust funds, will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights generally;

Table of Contents

(7) the Company must deliver to the Trustee an Officers Certificate stating that the deposit was not made by the Company with the intent of preferring the holders of Notes over the other creditors of the Company with the intent of defeating, hindering, delaying or defrauding creditors of the Company or others; and

(8) the Company must deliver to the Trustee an Officers Certificate and an opinion of counsel, each stating that all conditions precedent provided for relating to Legal Defeasance or the Covenant Defeasance have been complied with.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect as to all notes issued thereunder, when:

(1) either:

(a) all notes that have been authenticated, except lost, stolen or destroyed notes that have been replaced or paid and notes for whose payment money has been deposited in trust and thereafter repaid to the Company, have been delivered to the Trustee for cancellation; or

Registration Rights; Additional Interest

We and the Initial Purchasers entered into the Registration Rights Agreement on December 14, 2004. Pursuant to the Registration Rights Agreement, we agreed to file with the Commission a registration statement (the Exchange Offer Registration Statement) on the appropriate form under the Securities Act with respect to the Exchange Notes. Upon the effectiveness of the Exchange Offer Registration Statement, we will offer to the holders of Transfer Restricted Securities who are able to make certain representations the opportunity to exchange their Transfer Restricted Securities for Exchange Notes.

If:

(1) We are not

(a) required to file the Exchange Offer Registration Statement pursuant to the Registration Rights Agreement, or

(b) permitted to consummate the Exchange Offer because the Exchange Offer is not permitted by applicable law or Commission policy; or

(2) any holder of Transfer Restricted Securities notifies us at least 30 business days prior to the consummation of the Exchange Offer that

(a) it is prohibited by law or Commission policy from participating in the Exchange Offer, or

(b) it may not resell the Exchange Notes acquired by it in the Exchange Offer to the public without delivering a prospectus and the Prospectus contained in the Exchange Offer Registration Statement is not appropriate or available for those resales, or

(c) it is a broker-dealer and owns Notes acquired directly from us or one of our affiliates,

then we will file with the Commission a shelf registration statement (the Shelf Registration Statement) to cover resales of the Notes by the holders thereof who satisfy certain conditions relating to the provision of information in connection with the Shelf Registration Statement.

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

We will use our reasonable best efforts to cause the applicable registration statement to be declared effective as promptly as possible by the Commission.

The Registration Rights Agreement provides:

(1) we will use our reasonable best efforts to file an Exchange Offer Registration Statement with the Commission on or before 120 days after the Issue Date;

(2) we will use our reasonable best efforts to have the Exchange Offer Registration Statement declared effective by the Commission on or before 210 days after the Issue Date;

(3) unless the Exchange Offer would not be permitted by applicable law or Commission policy, we will

(a) commence the Exchange Offer, and

(b) use our reasonable best efforts to issue Exchange Notes in exchange for all Notes tendered in the Exchange Offer on or before 240 days after the Issue Date; and

Table of Contents

(4) if obligated to file the Shelf Registration Statement, we will use our reasonable best efforts to file the Shelf Registration Statement with the Commission on or before 60 days after that filing obligation arises and use our reasonable best efforts to cause the Shelf Registration to be declared effective by the Commission on or before the later of 60 days after that obligation arises or 210 days after the Issue Date.

If:

(1) we fail to file any of the registration statements required by the Registration Rights Agreement on or before the date specified for that filing; or

(2) any of those registration statements is not declared effective by the Commission on or prior to the date specified for its effectiveness in the circumstances required by the Registration Rights Agreement; or

(3) we fail to consummate the Exchange Offer within 240 days after the Issue Date; or

(4) the Shelf Registration Statement or the Exchange Offer Registration Statement is declared effective but thereafter ceases to be effective or usable in connection with resales of Transfer Restricted Securities during the periods specified in, and subject to the suspension periods contemplated by, the Registration Rights Agreement (each event referred to in clauses (1) through (4), a Registration Default), then we will pay Additional Interest, which shall accrue to each holder of Transfer Restricted Securities adversely affected by the Registration Default from and during the continuance of the Registration Default in an amount equal to \$.05 per week per \$1,000 of the principal amount of Transfer Restricted Securities held by that holder, plus an additional \$.05 per week per \$1,000 of the principal amount of Transfer Restricted Securities from and during any period in which the Registration Default has continued for more than 90 days, up to a maximum rate of Additional Interest for all Registration Defaults of \$.50 per week per \$1,000 of the principal amount of Transfer Restricted Securities.

We will pay any accrued Additional Interest to holders of Transfer Restricted Securities in the same manner as interest is paid under the Notes. The accrual of Additional Interest will cease on the date all Registration Defaults are cured.

Holders of Notes will be required to make legal representations to us in order to participate in the Exchange Offer and will be required to deliver to us any information that we are required to use in connection with a Shelf Registration Statement and to provide comments on the Shelf Registration Statement within the time periods set forth in the Registration Rights Agreement in order to have their Notes included in that Shelf Registration Statement and benefit from the provisions regarding Additional Interest set forth above. By acquiring Transfer Restricted Securities, a holder will be deemed to have agreed to indemnify us against certain losses arising out of information furnished by that holder in writing for inclusion in any Shelf Registration Statement. Holders of Notes will also be required to suspend their use of the Prospectus included in the Shelf Registration Statement under certain circumstances upon receipt of written notice to that effect from us.

Book-Entry, Depository Procedures

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

The Notes were, and will be, initially issued in the form of Global Notes registered in the name of the Depository Trust Company (DTC) or its nominee.

The following description of the operations and procedures of DTC, Euroclear and Clearstream are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. We take no responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised us that DTC is a limited-purpose trust company created to hold securities for its participating organizations (collectively, the Participants) and to facilitate the clearance and settlement of transactions in those securities between Participants through electronic book-entry changes in the accounts of its

Table of Contents

Participants. The Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the Indirect Participants). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised us that, pursuant to procedures established by it:

(1) upon deposit of the Global Notes, DTC will credit the accounts of Participants holding through it with portions of the principal amount of the Global Notes; and

(2) ownership of these interests in the Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interests in the Global Notes).

Investors in the Global Notes who are Participants in DTC's system may hold their interests therein directly through DTC. Investors in the Global Notes who are not Participants may hold their interests therein indirectly through organizations (including Euroclear and Clearstream) which are Participants in such system. Euroclear and Clearstream will hold interests in the Global Notes on behalf of their participants through customers securities accounts in their respective names on the books of their respective depositories, which are Euroclear Bank S.A./N.V., as operator of Euroclear, and Citibank, N.A., as operator of Clearstream. All interests in a Global Note, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and requirements of such systems.

The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such Persons will be limited to that extent. Because DTC can act only on behalf of Participants, which in turn act on behalf of Indirect Participants, the ability of a Person having beneficial interests in a Global Note to pledge such interests to Persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of an interest in the Global Notes will not have Notes registered in their names, will not receive physical delivery of Notes in certificated form and will not be considered the registered owners or Holders thereof under the Indenture for any purpose.

Payments in respect of the principal of, and interest and premium and Additional Interest, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered Holder under the Indenture. Under the terms of the Indenture, the Company and the Trustee will treat the Persons in whose names the Notes, including the Global Notes, are registered as the owners of the Notes for the purpose of receiving payments and for all other purposes. Consequently, neither the Company, the Trustee nor any agent of the Company or the Trustee has or will have any responsibility or liability for:

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

(1) any aspect of DTC's records or any Participant's or Indirect Participant's records relating to or payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any of DTC's records or any Participant's or Indirect Participant's records relating to the beneficial ownership interests in the Global Notes; or

(2) any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

Table of Contents

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the Notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe it will not receive payment on such payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of Notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be the responsibility of DTC, the Trustee or the Company. Neither we nor the Trustee will be liable for any delay by DTC or any of its Participants in identifying the beneficial owners of the Notes, and we and the Trustee may conclusively rely on, and will be protected in relying on, instructions from DTC or its nominee for all purposes.

Transfers between Participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds, and transfers between participants in Euroclear and Clearstream will be effected in accordance with their respective rules and operating procedures.

Cross-market transfers between the Participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant Global Note in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

DTC has advised us that it will take any action permitted to be taken by a Holder of Notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the Notes as to which such Participant or Participants has or have given such direction. However, if there is an Event of Default under the Notes, DTC reserves the right to exchange the Global Notes for legended Notes in certificated form, and to distribute such Notes to its Participants.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the Global Notes among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. None of the Company, the Trustee or any of their respective agents will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Notes for Certificated Notes

A Global Note is exchangeable for definitive Notes in registered certificated form (Certificated Notes) if:

(1) DTC (a) notifies us that it is unwilling or unable to continue as depository for the Global Notes or (b) has ceased to be a clearing agency registered under the Exchange Act, and a successor depository is not appointed within 90 days;

(2) we, at our option, notify the Trustee in writing that we elect to cause the issuance of the Certificated Notes; or

certain other events as provided in the Indenture should occur.

Table of Contents

In addition, beneficial interests in a Global Note may be exchanged for Certificated Notes upon prior written notice given to the Trustee by or on behalf of DTC in accordance with the Indenture.

Same Day Settlement and Payment

We will make payments in respect of the notes represented by the Global Notes (including principal, premium, if any, interest and liquidated damages, if any) by wire transfer of immediately available funds to the accounts specified by the Global Note holder. We will make all payments of principal, interest and premium and liquidated damages, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of those notes. If no account is specified by a holder, we will mail a check to that holder's registered address. The notes represented by the Global Notes are expected to be eligible to trade in the PORTAL Market and to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in the notes will, therefore, be required by DTC to be settled in immediately available funds. We expect that secondary trading in any Certificated Notes will also be settled in immediately available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a Participant in DTC will be credited, and that crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised us that cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a Participant in DTC will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

Table of Contents**DESCRIPTION OF OTHER INDEBTEDNESS****Senior Credit Facility**

On January 30, 2004, SBA Senior Finance closed on a new senior credit facility in the amount of \$400.0 million. This facility consists of a \$275.0 million term loan which was funded at closing, a \$50.0 million delayed draw term loan and a \$75.0 million revolving line of credit. The revolving line of credit may be borrowed, repaid and redrawn. Amortization of the term loan is at a quarterly rate of 0.25% and is payable quarterly beginning September 30, 2004 and ends September 30, 2008. All remaining amounts under the term loan are due October 31, 2008. There is no amortization of the revolving line of credit and all amounts outstanding under the revolving line of credit are due on July 31, 2008. On November 12, 2004, we entered into an amendment to the senior credit facility. Under the amendment, amounts borrowed will accrue interest at either the Eurodollar Rate (as defined in the senior credit facility) plus a spread of 275 basis points or the Base Rate (as defined in the senior credit facility) plus a spread of 175 basis points. This facility may be prepaid at any time with no prepayment penalty.

Amounts borrowed under this facility are secured by a first lien on substantially all of SBA Senior Finance's assets. In addition, each of SBA Senior Finance's domestic subsidiaries has guaranteed the obligations of SBA Senior Finance under the senior credit facility and has pledged substantially all of their respective assets to secure such guarantee. In addition, SBA Communications and Telecommunications have pledged, on a non-recourse basis, all of the common stock of Telecommunications and SBA Senior Finance to secure SBA Senior Finance's obligations under this senior credit facility.

This senior credit facility requires SBA Senior Finance to maintain specified financial ratios, including ratios regarding its debt to annualized operating cash flow, debt service, cash interest expense and fixed charges for each quarter. This new senior credit facility contains affirmative and negative covenants that, among other things, restricts its ability to incur debt and liens, sell assets, commit to capital expenditures, enter into affiliate transactions or sale-leaseback transactions, and/or build towers without anchor tenants. Additionally, this facility permits distributions by SBA Senior Finance to Telecommunications and SBA Communications to service their debt, pay consolidated taxes, pay holding company expenses and for the repurchase of senior notes or senior discount notes subject to compliance with the covenants discussed above. SBA Senior Finance's ability in the future to comply with the covenants and access the available funds under the senior credit facility in the future will depend on its future financial performance.

The 9³/₄% Senior Discount Notes due 2011

On December 19, 2003, SBA Communications and Telecommunications co-issued \$402.0 million in aggregate principal amount at maturity of their 9³/₄% senior discount notes, which produced net proceeds of approximately \$267.1 million after deducting offering expenses. Proceeds from the senior discount notes were used to tender for approximately \$153.3 million of our 12% senior discount notes. This description summarizes certain terms of the 9³/₄% senior discount notes, but does not describe all of the terms. You should refer to the indenture governing the 9³/₄% senior discount notes, a copy of which has been filed as an exhibit to our Form 10-K for the year ended December 31, 2003.

The 9³/₄% senior discount notes are unsecured senior obligations of SBA Communications and Telecommunications, rank *pari passu* with the senior indebtedness of SBA Communications and are structurally senior to all indebtedness of SBA Communications. The 9³/₄% senior discount notes mature on December 15, 2011. The 9³/₄% senior discount notes were issued at a substantial discount to their principal amount at maturity and will accrete in value until December 15, 2007. After that date, interest on the 9³/₄% senior discount notes is payable in cash, at the rate of 9³/₄% per year, semi-annually, on June 15 and December 15.

At any time prior to December 15, 2006, we may redeem up to 35% of the notes with the net cash proceeds of certain equity offerings at the redemption price of 109.750% of the accreted value, together with accrued and

Table of Contents

unpaid interest, if any, to the date of redemption. Except as stated above, the 9^{3/4}% senior discount notes are not redeemable at our option prior to December 15, 2007. On or after that date, the 9^{3/4}% senior discount notes are redeemable at our option, in whole or in part, at any time, at a premium which is at a fixed percentage that declines to par on or after December 15, 2010, in each case together with accrued and unpaid interest, if any, to the date of redemption.

Upon the occurrence of certain change of control events, each holder of 9^{3/4}% senior discount notes has the right to require us to purchase all or a portion of the holder's senior discount notes at a price equal to 101% of the aggregate principal amount thereof, together with accrued and unpaid interest to the date of purchase.

The indenture contains certain covenants, including covenants that limit (1) the incurrence of certain additional indebtedness and issuance of preferred stock; (2) restricted payments; (3) restrictions on distributions from restricted subsidiaries; (4) transactions with affiliates; (5) sales of assets and subsidiary stock (including sale and leaseback transactions); and (6) mergers or consolidations.

As of March 31, 2005, we have \$309.8 million aggregate principal amount outstanding of our 9^{3/4}% senior discount notes.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

Federal Income Tax Considerations of the Exchange of Old Notes for New Notes

The following discussion is a summary of the material federal income tax considerations relevant to the exchange of old notes for new notes. The discussion is based upon the Internal Revenue Code of 1986, as amended (the Code), Treasury Regulations, Internal Revenue Service rulings and pronouncements and judicial decisions now in effect, all of which may be subject to change at any time by legislative, judicial or administrative action. These changes may be applied retroactively in a manner that could adversely affect a holder of new notes. The description does not consider the effect of any applicable foreign, state, local or other tax laws or estate or gift tax considerations.

We believe that the exchange of old notes for new notes under the exchange offer will not be an exchange or otherwise a taxable event to a holder for United States federal income tax purposes. Accordingly, a holder will have the same adjusted issue price, adjusted basis and holding period in the new notes as it had in the old notes immediately before the exchange.

Federal Income Tax Considerations of Ownership and Disposition of New Notes

The following summary describes the material U.S. federal income tax consequences and, in the case of non-U.S. holders, U.S. federal estate tax consequences, of the acquisition, ownership and disposition of the new notes by investors who had originally purchased the old notes at the initial offering price. This summary does not discuss all of the aspects of U.S. federal income and estate taxation which may be relevant to investors in light of their particular investment or other circumstances. In addition, this summary does not discuss any U.S. state or local income or foreign income or other tax consequences. This summary is based upon the provisions of the Code, Treasury Regulations, rulings and judicial decisions, all as in effect as of the date of this prospectus and all of which are subject to change or differing interpretation, possibly with retroactive effect. The discussion below deals only with the new notes held as capital assets within the meaning of the Code, and does not address holders of the new notes that may be subject to special rules. Holders that may be subject to special rules include:

U.S. expatriates;

financial institutions;

insurance companies;

tax-exempt entities;

dealers in securities or currencies;

traders in securities;

holders whose functional currency is not the U.S. dollar; and

persons that hold the new notes as part of a straddle, hedge, conversion or other integrated transaction.

The following discussion does not address the U.S. federal income tax consequences of persons who hold the new notes through a partnership or other pass-through entity. You should consult your own tax advisor regarding the particular U.S. federal, state and local and foreign income and other tax consequences of acquiring, owning and disposing of the new notes that may be applicable to you.

U.S. Federal Income Tax Consequences to U.S. Holders

For purposes of the following discussion, a U.S. holder is a beneficial owner of a new note that is, for U.S. federal income tax purposes:

an individual citizen or resident of the United States;

Table of Contents

a corporation (or entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States or any of its political subdivisions;

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if, (i) the trust is subject to the supervision of a court within the United States and the control of one or more U.S. persons as described in section 7701(a)(30) of the Code or (ii) such trust has a valid election in place to be treated as a United States person.

Stated Interest

Interest on a new note will generally be taxable to a U.S. holder as ordinary interest income at the time that the interest is received or is accrued in accordance with the U.S. holder's method of accounting for federal income tax purposes.

Dispositions

Upon the sale, exchange, retirement, redemption or other taxable disposition of a new note, a U.S. holder generally will recognize taxable gain or loss in an amount equal to the difference, if any, between the amount realized on the disposition and the U.S. holder's tax basis in the new note. The amount realized on the disposition of the new note will not include any amount received that is attributable to accrued but unpaid interest, which will be treated in the manner described above under *Stated Interest*. A U.S. holder's tax basis in a new note generally will equal the U.S. holder's cost of the new note. Gain or loss recognized by a U.S. holder on the taxable disposition of a new note generally will be capital gain or loss. The capital gain or loss will be long-term capital gain or loss if the new note has been held for more than one year at the time of the disposition. Long-term capital gain recognized by a non-corporate U.S. holder generally will be subject to a maximum tax rate which currently is 15%. Subject to limited exceptions, capital losses cannot be used to offset ordinary income.

Backup Withholding

In general, backup withholding (currently at a rate of 28%) may apply:

to payments of principal and interest made on a new note; and

to payment of the proceeds of a sale or exchange of a new note (including at maturity), that are made to a non-corporate U.S. holder if the holder fails to provide a correct taxpayer identification number or otherwise comply with applicable requirements of the backup withholding rules. The backup withholding tax is not an additional tax and may be refunded or credited against a U.S. holder's U.S. federal income tax liability, provided the correct information is furnished to the Internal Revenue Service.

U.S. Federal Income and Estate Tax Consequences to Non-U.S. Holders

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

For the purposes of the following discussion, a non-U.S. holder is a beneficial owner of a new note that is, for U.S. federal income tax purposes, a nonresident alien or a corporation, estate or trust that is not a U.S. holder.

Under present U.S. federal income and estate tax law and subject to the discussion of backup withholding below:

(a) payments of principal, premium, if any, and interest on a new note by us or any of our paying agents to a non-U.S. holder will not be subject to withholding of U.S. federal income tax (which is imposed at a rate of 30% (unless reduced by an applicable treaty)), provided that in the case of interest:

the non-U.S. holder does not directly or indirectly, actually or constructively, own ten percent or more of the total combined voting power of all classes of our voting stock within the meaning of section 871(h)(3) of the Code and the Treasury regulations thereunder;

Table of Contents

the non-U.S. holder is not (1) a controlled foreign corporation that is related, directly or indirectly, to us through sufficient stock ownership, or (2) a bank whose receipt of interest is described in Section 881(c)(3)(A) of the Code of 1986; and

either (1) the beneficial owner of the new note certifies to us or our paying agent, under penalties of perjury, that it is not a United States person within the meaning of the Code and provides its name and address or (2) a securities clearing organization, bank or other financial institution that holds customers securities in the ordinary course of its trade or business and holds the new note on behalf of the beneficial owner certifies to us or our paying agent under penalties of perjury that it, or the financial institution between it and the beneficial owner, has received from the beneficial owner a statement, under penalties of perjury, that it is not a United States person and provides the payor with a copy of this statement,

(b) a non-U.S. holder will not be subject to U.S. federal income tax on any gain or income realized on the sale, exchange, redemption, retirement at maturity or other disposition of a new note (provided that, in the case of proceeds representing accrued interest, the conditions described in paragraph (a) above are met) unless:

in the case of gain, the non-U.S. holder is an individual who is present in the United States for 183 days or more during the taxable year and specific other conditions are met; or

the gain is effectively connected with the conduct of a U.S. trade or business by the non-U.S. holder and, if an income tax treaty applies, is generally attributable to a U.S. permanent establishment maintained by the non-U.S. holder; and

(c) a new note held by an individual who at the time of death is not a citizen or resident of the United States will not be subject to U.S. federal estate tax as a result of death if, at the time of death:

the individual did not directly or indirectly, actually or constructively, own ten percent or more of the total combined voting power of all classes of our stock entitled to vote within the meaning of section 871(h)(3) of the Code and the Treasury regulations thereunder; and

the interest payments on the new note would not have been effectively connected with the conduct of a trade or business by the individual in the United States.

Because U.S. federal tax law uses different tests to determine whether an individual is a non-resident alien for income tax and estate tax purposes, some individuals may be non-U.S. holders for purposes of the U.S. federal income tax discussion but not the U.S. federal estate tax discussion, and vice versa.

Although exempt from the withholding tax on interest discussed in the preceding paragraph (a), a non-U.S. holder may be subject to U.S. federal income tax with respect to interest or gain relating to a new note on a net basis at the same rates generally applicable to U.S. persons if the non-U.S. holder is engaged in a trade or business in the United States and said interest or gain is effectively connected with the conduct of this trade or business (and, if an income tax treaty applies, the non-U.S. holder maintains a U.S. permanent establishment to which the interest or such gain is generally attributable), provided that the holder furnishes a properly executed IRS form W-8 ECI on or before any payment date to claim the exemption from withholding.

Edgar Filing: SBA COMMUNICATIONS CORP - Form S-4

A foreign corporation that is a holder of a new note may be subject to a branch profits tax equal to 30% of its effectively connected earnings and profits for the taxable year, subject to certain adjustments unless it qualifies for a lower rate under an applicable income tax treaty. For this purpose, interest on a new note or gain recognized on the disposition of a new note will be included in earnings and profits if the interest or gain is effectively connected with the conduct by the foreign corporation of a trade or business in the United States.

Backup withholding and information reporting generally will not apply to payments made by us or our paying agents, in their capacities as such, to a non-U.S. holder of a new note if the holder has provided the required certification that it is not a United States person as set forth in paragraph (a) above. We or our paying

Table of Contents

agents may, however, report payments of interest on the new notes. Payments of the proceeds from a disposition by a non-U.S. holder of a new note made to or through a foreign office of a broker will generally not be subject to information reporting or backup withholding, except that information reporting may apply to those payments if the non-U.S. holder fails to provide the required certification that it is not a United States person and the broker is:

a United States person;

a controlled foreign corporation for U.S. federal income tax purposes;

a foreign person 50% or more of whose gross income from all sources is effectively connected with a U.S. trade or business for a specified three-year period; or

a foreign partnership, if at any time during its tax year, one or more of its partners are U.S. persons, as defined in Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership or if, at any time during its tax year, the foreign partnership is engaged in a U.S. trade or business.

Payments of the proceeds from a disposition by a non-U.S. holder of a new note made to or through the U.S. office of a broker is subject to information reporting and backup withholding unless the holder or beneficial owner certifies as to its taxpayer identification number or otherwise establishes an exemption from information reporting and backup withholding.

You should consult your own tax advisor regarding application of backup withholding and information reporting in your particular circumstance and the availability of and procedure for obtaining an exemption therefrom under Treasury regulations. Any amount withheld under the backup withholding rules from a payment to a non-U.S. holder will be allowed as a credit against the holder's U.S. federal income tax liability and may entitle such holder to a refund, provided the required information is furnished to the Internal Revenue Service.

PLAN OF DISTRIBUTION

We will receive no proceeds in connection with the exchange offer.

Each broker-dealer that receives new notes for its own account in connection with the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of new notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for old notes where the old notes were acquired as a result of market-making activities or other trading activities. We have agreed that for a period ending upon the earlier of (1) 180 days after the exchange offer has been completed or (2) the date on which broker-dealers no longer own any Transfer Restricted Securities, we will make available and provide promptly upon reasonable request this prospectus as amended or supplemented, in a form meeting the requirements of the Securities Act to any broker-dealer for use in connection with any resale.

New notes received by broker-dealers for their own account in the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the new notes or a combination of these methods of resale, at market prices prevailing at the time of resale, at prices related to prevailing market prices or negotiated prices. Any resale may be made directly to purchasers or through brokers or dealers who may receive compensation in the form of commissions or concessions from any broker-dealer and/or the purchasers of any new notes.

LEGAL MATTERS

Certain legal matters relating to the issuance of the new notes will be passed upon for us by Akerman Senterfitt, Miami, Florida.

Information Not Required In Prospectus

Item 20. Indemnification of Directors and Officers

Under Section 607.0831 of the Florida Business Corporation Act (the "FBCA"), a director is not personally liable for monetary damages to the corporation or any other person for any statement, vote, decision, or failure to act regarding corporate management or policy unless (1) the director breached or failed to perform his or her duties as a director and (2) the director's breach of, or failure to perform, those duties constitutes: (a) a violation of the criminal law, unless the director had reasonable cause to believe his or her conduct was unlawful, (b) a transaction from which the director derived an improper personal benefit, either directly or indirectly, (c) a circumstance under which the liability provisions of §607.0834 are applicable, (d) in a proceeding by or in the right of the corporation to procure a judgment in its favor or by or in the right of a shareholder, conscious disregard for the best interest of the corporation, or willful misconduct, or (e) in a proceeding by or in the right of someone other than the corporation or a shareholder, recklessness or an act or omission which was committed in bad faith or with malicious purpose or in a manner exhibiting wanton and willful disregard of human rights, safety, or property. A judgment or other final adjudication against a director in any criminal proceeding for a violation of the criminal law estops that director from contesting the fact that his or her breach, or failure to perform, constitutes a violation of the criminal law; but does not estop the director from establishing that he or she had reasonable cause to believe that his or her conduct was lawful or had no reasonable cause to believe that his or her conduct was unlawful.

Under Section 607.0850 of the FBCA, a corporation has power to indemnify any person who was or is a party to any proceeding (other than an action by, or in the right of the corporation), by reason of the fact that he or she is or was a director, officer, employee or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against liability incurred in connection with such proceeding, including any appeal thereof, if he or she acted in good faith and in manner he or she reasonably believed to be in, or not opposed to, the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful. The termination of any proceeding by judgment, order, settlement or conviction or upon a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he or she reasonably believed to be in, or not opposed to, the best interests of the corporation or, with respect to any criminal action or proceeding, has reasonable cause to believe that his or her conduct was unlawful.

In addition, under Section 607.0850 of the FBCA, a corporation has the power to indemnify any person, who was or is a party to any proceeding by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee, or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise, against expenses and amounts paid in settlement not exceeding, in the judgment of the board of directors, the estimated expense of litigating the proceeding to conclusion, actually and reasonably incurred in connection with the defense or settlement of such proceeding, including any appeal thereof. Such indemnification shall be authorized if such person acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, the best interests of the corporation, except that no indemnification shall be made under this subsection in respect of any claim, issue, or matter as to which such person shall have been adjudged to be liable unless, and only to the extent that, the court in which such proceeding was brought, or any other court of competent jurisdiction, shall determine upon application that, despite the adjudication of liability but in view of all circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which such court shall deem proper.

Under Section 607.0850 of the FBCA, the indemnification and advancement of expenses provided pursuant to Section 607.0850 of the FBCA are not exclusive, and a corporation may make any other or further indemnification or advancement of expenses of any of its directors, officers, employees, or agents, under any bylaw, agreement, vote of shareholders or disinterested directors, or otherwise, both as to action in his or her

Table of Contents

official capacity and as to action in another capacity while holding such office. However, indemnification or advancement of expenses shall not be made to or on behalf of any director, officer, employee or agent if a judgment or other final adjudication establishes that his or her actions, or omissions to act, were material to the cause of action so adjudicated and constitute: (a) a violation of the criminal law, unless the director, officer, employee or agent had reasonable cause to believe his or her conduct was unlawful; (b) a transaction from which the director, officer, employee or agent derived an improper personal benefit; (c) in the case of a director, a circumstance under which the above liability provisions of Section 607.0834 are applicable; or (d) willful misconduct or a conscious disregard for the best interests of the corporation in a proceeding by or in the right of the corporation to procure a judgment in its favor or in a proceeding by or in the right of a shareholder.

The articles of incorporation of the Company provide that the Company shall, to the fullest extent permitted by applicable law and its by-laws, as amended from time to time, indemnify all of its officers and directors.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling the Company pursuant to the foregoing provisions, the Company has been informed that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
