**Regarding Submission of Progress Report on Plan to Revitalize Management**

Mitsubishi UFJ Financial Group, Inc. (MUFG; President and CEO: Nobuo Kuroyanagi) has submitted to the Financial Services Agency its progress report for the first half of the fiscal year ending March 31, 2006 (the six months ended September 30, 2005) regarding the plan to revitalize management originally submitted by UFJ Holdings, Inc., according to the Law relating to Emergency Measures for Early Reconstruction of Financial Systems.

1. Summary of Financial Results for the First Half of the Fiscal Year ending March 31, 2006

(1) Status of operations and outlook

As a result of posting net losses in the fiscal years ended March 31, 2003 and March 31, 2004, the UFJ group has infringed the 30% rule for two consecutive fiscal periods. Reflecting its concern at the net loss reported in the fiscal year ended March 2005 and the suspension of dividend payments for common and preferred shares, the group is actively implementing measures to improve profitability in line with its business improvement plan. In addition, the group is implementing broad-ranging efforts to solve the non-performing loan (NPL) issue, carrying out sweeping restructuring, and working to establish a responsible business administration framework.

As a result, and following radical and concentrated action to dispose of NPLs, in the fiscal year ended March 31, 2005 we achieved the target for halving the NPL ratio and recorded net income for the first half of the fiscal year ending March 31, 2006 of ¥420.9 billion and we plan to resume dividend payments.

UFJ Bank + UFJ Trust Bank

Financial results for the first half of the fiscal year ending March 31, 2006 (the six month period ended September 2005) on a combined basis for UFJ Bank and UFJ Trust Bank are as follows:

(Gross Operating Profit)

Interest income declined along with a decline in lending mainly resulting from non-performing loans, and interest income from domestic bonds also declined. As a result, gross operating profit for the first half of the fiscal year ending March 31, 2006 was ¥626.7 billion, representing 46.6% of the plan for the fiscal year ending March 31, 2006.

(Expenses)

Expenses for the first half of fiscal 2005 were ¥269.3 billion, an increase of ¥2.5 billion compared to the first half of fiscal 2004, representing 48.1% of the plan for the fiscal year ending March 31, 2006.

(Business Profit)

## Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form 6-K

As a result, business profit (before net transfer to the general reserve for bad debts and before depreciation of trust accounts) was ¥357.8 billion, a decrease of ¥35.1 billion compared to the first half of the fiscal year ended March 31, 2005, representing 45.4% of the plan for the fiscal year ending March 31, 2006.

## Table of Contents

### (Ordinary Income)

Ordinary income for the first half of the fiscal year ending March 31, 2006 was ¥236.3 billion, representing 49.1% of the plan for the fiscal year ending March 31, 2006. One of the main factors was a decrease in credit related expenses (net transfer to general reserve + loss on NPL disposal + trust account write-offs) of ¥30.6 billion as business revitalization support for large borrowers was largely completed by the end of the prior fiscal period.

### (Credit Related Expenses)

In the fiscal year ended March 31, 2005, in order to swiftly resolve the NPL issue, we proceeded with support for the business revitalization of large borrowers, and as part of this process we made large additions to reserves for bad debt. As described above, in the first half of the fiscal year ending March 31, 2006, bad loan disposals were ¥30.6 billion and the reversal of the reserve for bad debts was ¥346.1 billion. The reversal of the reserve for bad debts was in particular due to a large decrease in the balance of the general reserve for loan losses due to improvements in the businesses of borrowers and consequent improvements in their credit ratings. The reversal of the reserve for bad debts has been recorded as extraordinary income.

### (Net Income)

As a result of a decrease in deferred corporate and other taxes, net income for the first half of the fiscal year ending March 31, 2006 was ¥420.9 billion, representing 137.6% of the plan for the fiscal year ending March 31, 2006.

### (NPLs)

The NPL issue, which had been our top priority management issue, was largely resolved by the end of the fiscal year ended March 31, 2005, following a large reduction in the balance of problem loans. In the first half of the fiscal year ending March 31, 2006, as a result of continued efforts to reduce NPLs, the sum of the NPLs of subsidiary banks was approximately ¥1.3994 trillion, a decrease of ¥316.8 billion from the end of the previous fiscal year and the NPL ratio was 3.32%, a decrease of 0.8 percentage points from the end of the previous fiscal year.

### (Capital Ratio)

As of the end of September 2005, on a provisional basis, the consolidated BIS capital ratio of UFJ Holdings was 11.67%, and those of UFJ Bank (consolidated) and UFJ Trust Bank (consolidated) were 11.67% and 11.66% respectively. Compared to the end of March 2005 these represented respective increases of 1.28, 1.18 and 1.76 percentage points.

**Table of Contents**

(Trends in Retained Earnings)

As a result of the factors described above, for the first half of the fiscal year ending March 31, 2006 the sum of retained earnings at UFJ Holdings, UFJ Bank and UFJ Trust Bank (including separated companies) was ¥799.0 billion.

	(¥ billion)		
	Fiscal 2005	Fiscal 2005	
	Fiscal 2004	Interim	
	(actual)	(actual)	
		full year	
		(plan*)	
Anticipated trends in retained earnings		799.0	240.4

\*The plan referred to for fiscal 2005 is the UFJ Holdings business revitalization plan as presented in September 2004.

## 2. Outlook for fiscal 2005

On October 1, 2005 UFJ Holdings merged with Mitsubishi Tokyo Financial Group and the merged company commenced operations as Mitsubishi UFJ Financial Group.

For the full-year fiscal 2005 the forecast consolidated ordinary income of Mitsubishi UFJ Financial Group is ¥990.0 billion, and the forecast consolidated net income is ¥520.0 billion. These forecasts are calculated as the sum of the actual consolidated interim results of the former Mitsubishi Tokyo Financial Group (April 2005-September 2005) and forecasts for Mitsubishi UFJ Financial Group (October 2005 to March 2006).

Further, on the basis of the sum of Mitsubishi UFJ Financial Group and the former UFJ Holdings (the sum of the actual consolidated interim results (April to September) of the former Mitsubishi Tokyo Financial Group and those of the former UFJ Holdings (April to September) and the consolidated forecast of Mitsubishi UFJ Financial Group (October 2005 to March 2006) the forecast consolidated ordinary income for the full-year fiscal 2005 is ¥1.3450 trillion and the forecast consolidated net income is ¥930.0 billion.

## Table of Contents

### 2. State of Implementation of Plan to Revitalize Management

#### (1) Progress in Rationalization

Despite implementing its restructuring ahead of schedule, in the fiscal year ended March 31, 2004 the UFJ Group infringed the 30% rule as a result of recording its second consecutive year of losses. Reflecting its concern at the net loss reported in the fiscal year ended March 31, 2005 and the suspension of dividend payments for common and preferred shares, the Group has further strengthened its efforts to raise efficiency and reduce costs.

#### 1. Number of Directors, Statutory Auditors and Employees

As of September 30, 2005, the number of directors and statutory auditors was 19, two fewer lower than that at March 31, 2005 and three less than planned for the fiscal year ending March 31, 2006. Due to an intake of 831 new graduates in April 2005, the number of employees as of September 31, 2005 was 19,751, an increase of 169 from March 31, 2005 and 42 more than the plan for the fiscal year ending March 31, 2006.

#### 2. Number of Domestic and Overseas Branches

The number of domestic branches as of September 30, 2005 was 398, unchanged from March 31, 2005 and in line with the plan for the fiscal year ending March 31, 2006. The number of overseas branches as of September 31, 2005 was 18, unchanged from March 31, 2005 and in line with the plan for the fiscal year ending March 31, 2006.

#### 3. Personnel expenses

Personnel expenses for the first half of the fiscal year ending March 31, 2006 were ¥88.1 billion, an increase of ¥3.5 billion from the first half of the previous fiscal year, representing progress relative to the plan for the fiscal year ending March 31, 2006 of 45.9%.

In recognition of the UFJ Group failing to achieve by a large margin the net income targets of the business revitalization plan for two consecutive fiscal periods, employee bonuses for the first half of the fiscal year ended March 31, 2005 were cut by 20% relative to those in fiscal 2003. Furthermore, in recognition of the net loss recorded and the suspension of dividend payments on both common and preferred shares in the fiscal year ended March 31, 2005, in the second half of the fiscal year ended March 31, 2005 and the first half of the fiscal year ending March 31, 2006, employee bonuses were cut by approximately 80% compared to the amounts in the fiscal year ended March 31, 2004.

**Table of Contents**

In the first half of the fiscal year ending March 2006, due to the effects of overtime payments as a result of tasks performed preparing for integration with MTFG, the average monthly salary was ¥491,000, an increase of ¥11,000 from March 31, 2005 and ¥11,000 higher than planned for the fiscal year ending March 31, 2006.

4. Remuneration and bonuses for directors, statutory auditors and executive officers

In the first half of fiscal 2005, remuneration for directors totaled ¥83 million, a decrease of ¥67 million compared to the first half of the previous fiscal year, representing 25.2% of the plan for the fiscal year ending March 31, 2006.

As a result of UFJ Holdings, UFJ Bank and UFJ Trust Bank failing by a large margin to achieve profits in line with the business revitalization plan for two consecutive years, from July 2004 remuneration for all directors, statutory auditors and executive officers has been cut by approximately 30% on an annualized basis. Further, following the net losses recorded in the fiscal year ended March 31, 2005, as well as the suspension of dividend payments on both common and preferred shares, from October to December 2004 no monthly compensation was paid to the president of UFJ Holdings, the president of UFJ Bank, or the president of UFJ Trust Bank, and in respect of all directors, statutory auditors and executive officers in the second half of the fiscal year ended 2005 and the first half of the fiscal year ending March 31, 2006, we carried out a further reduction in remuneration averaging over 50% on an annualized basis.

In addition, it is our policy to withhold retirement benefits for directors and statutory auditors during the period when the payment of dividends on preferred shares is suspended. Even when dividend payments on preferred shares are reinstated the payment of retirement benefits will be carefully considered based on the responsibilities of each director, statutory auditor and executive officer.

Payment of bonuses for directors, statutory auditors and executive officers has already been suspended.

## Table of Contents

### 5. Non-personnel expenses

Non-personnel expenses for the first half of the fiscal year ending March 31, 2006 were ¥166.0 billion, a decrease of ¥1.9 billion from the first half of the previous fiscal year, representing 49.3% of the plan for the fiscal year ending March 31, 2006. Expenses related to automation totaled ¥65.1 billion, representing 48.2% of the plan for fiscal 2005. Excluding automation-related expenses, non-personnel expenses were ¥100.8 billion, partly reflecting increased expenditure on temporary staff, and this represented 50.09% of the plan for the fiscal year ending March 31, 2006.

UFJ Group has pursued a more thorough rationalization of its cost structure than before, and as a unified group has sought to raise business efficiency and implement cost cutting. The Group has introduced an objective perspective in order to further improve operational efficiency and is pursuing thorough rationalization in cooperation with third-party consultants, as well as streamlining branch and headquarters operations and conducting a broad ranging review of cost management.

### 6. Personnel Expenses and non-personnel expenses

In the first half of the fiscal year ending March 31, 2006, personnel and non-personnel expenses totaled ¥254.1 billion, an increase of ¥1.6 billion compared to the first half of the previous fiscal year, representing 48.1% of the plan for the fiscal year ending March 31, 2006.

### **(2) Progress in the Disposal of NPLs**

UFJ Group places the highest importance on resolving the NPL issue and has been addressing the issue as a top priority. We have strengthened our support for the business revitalization and restructuring of borrowers and taken intensive and thorough actions, mainly regarding large borrowers, as well as promoting the removal of NPLs from the balance sheet, and we have succeeded in reducing the balance of NPLs since the end of the previous fiscal year. As a result, as of September 30, 2005, the amount of NPLs greatly decreased to ¥1,399.4 billion, a decrease of ¥316.8 billion from March 31, 2005, and the NPL ratio declined to 3.32%, a decrease of 0.8 percentage points from March 31, 2005. In addition, when we carry out support for borrowers, for example through debt forgiveness schemes, activities are carried out following careful consideration of the following points from the perspective of economic rationality:

The likelihood of recovery of the remaining portion of debt following debt forgiveness

The effectiveness and economic rationality of the business revitalization plan

Clarification of the responsibility of the company's management

The impact of the company on society

**Table of Contents**

1. Initiatives for large borrowers

In the first half of the fiscal year ended March 31, 2005 UFJ Bank developed a framework to take intensive and thorough action, with regard to large borrowers. In June 2004 UFJ Bank set up a Corporate Restructuring Department in order to carry out fundamental revitalization and disposal of the bad loans of specific large borrowers whose performance may have a direct impact on the bank. Also UFJ Bank installed a section within the Credit Assessment and Audit Office in the Internal Audit Department that strengthens checking functions and specializes in large borrowers.

In addition, from fiscal 2005, the Corporate Advisory Group, which was set up in July 2002 in order to reinforce and expedite initiatives to resolve the NPL issue, was integrated into Corporate Banking. We continue to actively support the revitalization of corporate borrowers, utilizing the revitalization skills and expertise that we have developed.

2. Initiatives for small- and medium-sized companies

In March 2003, UFJ Bank and Merrill Lynch jointly established UFJ Strategic Partner Co., Ltd. ( UFJSP ) for the purpose of rehabilitating small- and medium-sized companies categorized as doubtful, quasi-bankrupt or bankrupt or below, and dealing with problem loans to these borrowers. Since fiscal 2004, the activities of UFJSP have been extended to include other loans, mainly those to borrowers classified as under careful administration , to assist more companies in returning to financial health. The UFJ Group has been steadily reducing the NPL balance by formulating revitalization plans and advising borrowers on implementation by combining UFJ Bank 's expertise and knowledge with those of specialists from outside the UFJ Group.

**Table of Contents**

3. Preventing the occurrence of new problem loans

To prevent the occurrence of new problem loans, branch offices as well as credit administration departments and other head office departments act quickly at the first signs of a borrower's need for help in improving and restructuring their operations and financial positions. The initial step is the formulation of a First Action Plan, whereby UFJ Bank openly discusses problems with the borrower. Following this stage, recommendations are made and concrete support for improving the borrower's financial condition and business activities is implemented.

4. Improving the quality of the loan portfolio

Resolving the NPL issue demands actions both to deal with existing problem loans as well as efforts from a medium- to long-term perspective aimed at improving the quality of the loan portfolio. Based on the lessons learned in the past, the UFJ Group banks have been taking various steps in this regard. One theme is improving credit analysis by thoroughly focusing on the creditworthiness of each loan applicant without undue reliance on the value of collateral. Currently, the banks have been focusing on two high-priority issues to upgrade the overall quality of their loan portfolios: resetting loan interest rates at levels that accurately reflect credit risk and eliminating excessive concentrations of credit risk in a single borrower or group of companies. The UFJ Group also has been emphasizing its response to changes in the financial position of borrowers, providing assistance for the restructuring and rehabilitation of borrowers, and accelerating the final resolution of problem loans.

5. Elimination of excessive concentrations of credit risk

To minimize risks associated with the concentration of loans, guarantees and other forms of credit in particular industries and borrowers, the UFJ Group has established credit limit rules. The rules place a cap on credit extensions to individual borrowers and corporate groups in accordance with our internal rating of the individual credits. Enforcing these rules has allowed the UFJ Group to build a balanced loan portfolio in which risks are spread among many types of borrowers.

## **Table of Contents**

### **(3) Dividend Policy**

From the standpoint of the public nature of a financial institution and maintenance of financial soundness, UFJ Holdings believes that it is fundamental to implement a stable dividend policy, while striving to expand internal reserves with consideration for the enhancement of shareholder value in the future.

UFJ Holdings reported a net loss on a non-consolidated basis for the fiscal year ended March 31, 2005, due to impairment losses on shareholdings in UFJ Bank and UFJ Trust Bank resulting from a significant net loss at each bank. Therefore, UFJ Holdings regrettably suspended dividends both for common and preferred shares in fiscal 2004. In addition, dividend payments for preferred securities issued by a subsidiary were also suspended.

### **(4) Progress in Other Items Included in the Plan**

#### 1. Securing Sound Financial Conditions at Subsidiaries through Subordinated Debts and Loans

In order to enhance the shareholders' equity of the Group, UFJ Holdings procures funds through subordinated debts, loans and other methods, and utilizes such funds to subscribe for bonds issued by subsidiaries and to lend to subsidiaries.

However, as of September 2005, UFJ Holdings had no subordinated debt.

#### -Progress in Measures to Establish a Responsible Management System

##### 1. Strengthening corporate governance in order to enhance profitability

In order to achieve the targets of the business revitalization plan the Group has taken a number of steps to enhance its revenue management framework.

##### 2. Strengthening the internal control system

The UFJ Group conducts its businesses based on the Group management philosophy and with full consideration for the social and public nature of a financial institution. In order to secure fairness and transparency of management, and maximize management efficiency, we have established a corporate governance system that is based on the clear separation of governance and management.

**Table of Contents**

3. Corporate governance at UFJ Holdings

As an organization in charge of decision-making and corporate governance, the Board of Directors at UFJ Holdings refines and reaches decisions on proposals regarding management policies and strategies that have been prepared by the President & CEO and other executive officers. The Board of Directors also motivates these executives to maximize the Group's value by monitoring and evaluating their performance, making appointments and setting remuneration.

The Board of Directors has six members, and in order to reinforce corporate governance and improve management transparency two of these are external members. The other four board members are the President & CEO of UFJ Holdings, an executive officer of UFJ Holdings, the President of UFJ Bank, and the President of UFJ Trust Bank. Presidents of UFJ Bank and UFJ Trust Bank serve as directors of UFJ Holdings to clarify the responsibility held towards the shareholders of UFJ Holdings by the top management of main subsidiaries.

4. Corporate Governance at Banking Subsidiaries

As an organization in charge of decision-making and governance, the Boards of Directors of banking subsidiaries reach and refine decisions on proposals regarding management policies and strategies that have been prepared by the President & CEO and other executive officers. The Board of Directors also motivates these executives to maximize the Group's value by monitoring and evaluating their performance, making appointments and setting remuneration.

Corporate auditors of subsidiaries also serve as corporate auditors of UFJ Holdings.

The Audit and Compliance Committee, established under the Boards of Directors of banking subsidiaries, monitors internal control systems and compliance, deliberates on policies and plans at internal auditing departments, selects external auditors, and deliberates on the structure and personnel affairs of internal auditing departments.
