**Item 1. Description of Business**

*Company Overview*

SP HOLDING CORPORATION (the Company) was incorporated in Florida on March 16, 1994 and reincorporated in Delaware on September 26, 2000. On December 10, 2003, under its former name SPEEDCOM Wireless Corporation, the Company sold its operating assets and transferred substantially all of its operating liabilities to P-com, Inc. (P-com). Subsequent to the sale, the Company became a non-operating public shell company. On June 15, 2005, the Company's stockholders approved an amendment to the Company's certificate of incorporation changing the name of the Company to SP Holding Corporation.

For the years ended December 31, 2005 and 2004, the Company was a non-operating shell company and its business operations were limited to sustaining the public shell vehicle. The Company did not have revenues on 2004 or 2005.

Share numbers and prices contained in this report have been adjusted as appropriate to reflect the 1-for-300 reverse split of the Company's common stock that occurred on November 21, 2005.

*Agreement and Plan of Merger and Reorganization Planetwide Games, Inc.*

On February 10, 2006, the Company and Planetwide Games, Inc. (Planetwide Games), a privately held innovative provider of branded online video games and proprietary software, entered into an Agreement and Plan of Merger and Reorganization (the Merger Agreement).

Under the terms of the Merger Agreement, the parties have agreed that all outstanding shares of Planetwide Games common stock, \$0.0001 par value, will be exchanged for shares of the Company's common stock, \$0.001 par value (Company Common Stock), and the Company will assume all of the stock options, warrants and convertible securities of Planetwide Games. After the consummation of the merger, Planetwide Games security holders, together with investors in a separate private offering anticipated to close near the time of the merger, are anticipated to own approximately 95% of the Company on a fully diluted basis. The two companies intend to change the name of the Company to Planetwide Games Corporation shortly after the closing. The merger is expected to be tax-free to the stockholders of both companies. Consummation of the merger is subject to certain closing conditions, including the availability of cash balances of at a minimum of \$5 million at or near the time of the closing date. The parties intend to consummate the merger on or before May 24, 2006. The terms of the Merger Agreement may be amended or modified upon the mutual agreement of the parties.

*Employees*

As of December 31, 2005, the Company did not have any employees. The Company utilizes consultants to operate the shell business.

**Item 2. Description of Property**

As of December 31, 2005, the Company did not lease or own any property. The Company uses the address of the office where the chief executive officer of the Company serves as a managing partner. See Related Party Consulting Fees in Note 5 of the accompanying financial statements.

**Table of Contents****Item 3. Legal Proceedings**

The Company is engaged from time to time in legal proceedings, none of which are expected to have a material effect on its business.

**Item 4. Submission of Matters to a Vote of Security Holders**

There were no matters brought to a vote of the security holders during the three months ended December 31, 2005.

**PART II****Item 5. Market for Common Equity and Related Stockholder Matters and Small Business Issuer Purchases of Equity Securities***Common Stock Information*

The Company's common stock currently is quoted on the OTC Bulletin Board under the symbol SPHG.ob. The following table sets forth the quarterly high and low per share bid prices of the price of the Company's common stock for the periods shown, as quoted on the OTC Bulletin Board. The quotations represent stock prices between dealers and do not include retail mark-up, markdown or commission and may not represent actual transactions.

\* This price reflects the 1 for 300 reverse split of the Company's common stock that occurred on November 21, 2005. Dividends have not been declared or paid during any periods presented. So long as any shares of Series A Preferred Stock (as defined below) are outstanding, no dividends may be declared or paid on the Company's common stock unless all accrued and unpaid dividends on outstanding shares of Series A Preferred Stock have been paid.

As of March 31, 2006 there were approximately 153 stockholders of record of the Company's common stock.

*Recent Sales of Unregistered Securities*

During the year ended December 31, 2005 the Company issued the following securities without registration under the Securities Act. The purchases and sales were exempt pursuant to Section 4(2) of the Securities Act (and/or Regulation D promulgated thereunder) as transactions by an issuer not involving a public offering, where the purchasers represented their intention to acquire the securities for investment only, not with a view to distribution, and received or had access to adequate information about the registrant, and appropriate restrictive legends were placed on the securities.

In February 2005, the Company issued 7,113 shares of common stock to a former legal firm in consideration for the cancellation of \$21,338.97 of accounts payable. The Company recorded expense of \$21,340 related to the issuance of the common stock.

In March 2005, the Company issued 9,070 shares of its common stock to persons for the conversion of its Series A Warrants and Bridge Loan warrants through an exchange agreement with the holders of these warrants, effectively eliminating all remaining derivatives issued during the Company's June and August 2001 private placement financings.

On February 7, 2006, the Company issued an aggregate of 55.4 shares of its Series A Convertible Preferred Stock (the "Series A Preferred Stock") to accredited investors and institutional investors in exchange for cancellation of outstanding promissory notes of the Company and the settlement of certain other accrued liabilities of the Company in the aggregate principal amount plus accrued interest of \$498,480.22. The holders of the Company's outstanding promissory notes entered into separate exchange agreements (the "Exchange Agreements") with the Company. Each share of Series A Preferred Stock has a stated value of \$9,000 and is convertible into shares of the Company's common stock (the "Common Stock") at any time by the holders of the Series A Preferred Stock at a conversion price per share of \$3.00. Commencing six months following the issuance date of the Series A Preferred Stock, the holders are entitled to receive dividends at the rate of 8% per annum payable quarterly at the Company's option in cash or restricted shares of Common Stock. The Series A Preferred Stock is mandatorily redeemable if for any reason the Company is unable to issue Common Stock upon receipt of a conversion notice, at a price per share equal to the Triggering Event Redemption Price, as defined in the agreement as 120% of the Liquidation Preference Amount, (defined as \$9,000 per share plus any accrued and unpaid dividends), as of the date of the conversion notice. The Company has reserved for issuance 166,160 shares of its common stock related for the conversion of its Series A Convertible Preferred. Upon a change of control transaction, such as the merger transaction proposed to be consummated between the Company and Planetwide Games, the aggregate number of shares of Series A Preferred Stock issued shall automatically convert into a number of shares of restricted Common Stock equal to 61% of the number of shares of Common Stock issued and outstanding on a fully-diluted basis as of the date of, but immediately prior to, the consummation of the change of control transaction.

**Item 6. Management's Discussion and Analysis**

This report contains trend analysis and other forward-looking statements that involve risks and uncertainties, such as statements concerning future operating results; developments in markets and strategic focus; and future economic, business and regulatory conditions. Such forward-looking statements are generally accompanied by words such as plan, estimate, expect, believe, should, would, could, anticipate, forecast, project, pro forma, goal, continues, intend, seek and other words that convey uncertainty of future events or outcomes.

The financial statements are prepared on a going-concern basis, which assumes that the Company will realize its assets and discharge its liabilities in the normal course of business. As reflected in the accompanying financial statements, the Company incurred operating losses of approximately \$437,000 for the year ended December 31, 2005 and anticipates that it will continue to incur similar losses unless and until it completes its anticipated merger with Planetwide Games. Additionally, the Company's cash flows until that transaction completes will be insufficient to finance the Company, without funding from other sources. These conditions raise substantial doubt as to the ability of the Company to continue its normal business as a going concern.

Management's plans for this uncertainty include completion of the merger with Planetwide Games, however, in the event the transaction does not proceed, management will need to raise additional capital from external sources and will use their best efforts to continue as a separate public entity and identify a new merger candidate. There can be no assurance that management will be successful in these plans. Accordingly, the accompanying financial statements do not include any adjustments that may arise from the uncertainty surrounding the Company's ability to continue as a going concern.

*Agreement and Plan of Merger and Reorganization - Planetwide Games, Inc.*

On February 10, 2006, the Company and Planetwide Games, Inc., a privately held innovative provider of branded online video games and proprietary software, entered into an Agreement and Plan of Merger and Reorganization (the Merger Agreement). Under the terms of the Merger Agreement, all outstanding shares of Planetwide Games Common Stock, \$0.0001 par value, will be exchanged for shares of the Company's Common Stock, \$0.001 par value (Company Common Stock), and the Company will assume all of the stock options, warrants and convertible securities of Planetwide Games. After the consummation of the merger, Planetwide Games security holders, together with investors in a separate private offering anticipated to close near the time of the merger, are anticipated to own approximately 95% of the Company on a fully diluted basis. Consummation of the merger is subject to certain closing conditions, including the availability of cash balances of at least \$5 million at or near the time of closing. The parties intend to consummate the merger on or before May 24, 2006. The terms of the Merger Agreement may be amended or modified upon the mutual agreement of the parties.

*Results of Operations*

During the years ended December 31, 2005 and December 31, 2004, the Company was a non-operating public shell and did not earn revenues.

General and administrative expenses decreased to \$149,725 for the year ended December 31, 2005 from \$484,084 for the year ended December 31, 2004. The decrease in expenses in the 2005 period represents lower costs for consulting, legal and accounting expenses due to reduced efforts and decreased activities.

**Table of Contents**

Interest expense increased to \$42,124 for the year ended December 31, 2005 from \$3,040 for the year ended December 31, 2004. Interest expense for 2005 included interest assessed by the IRs for taxes due and to stockholder notes that were outstanding in the periods.

The Company valued at \$51,042 the issuance during 2005 of 9,070 shares of restricted common stock in exchange for its outstanding Series A and Bridge Loan Warrants.

Gain on extinguishments of debt decreased to \$16,061 for the year ended December 31, 2005 from \$1,251,351 for the year ended December 31, 2004. The decrease in 2005 is related to the efforts of the Company during 2004 to reduce the historical accounts payable through negotiations and issuance of common stock in exchange for payment.

In the year ended December 31, 2004, realized loss on marketable securities amounted to approximately \$4,476,000. This loss is due to the market price decline of P-Com common stock from \$0.15 from the date of the asset sale to \$0.08 on the date of the dividend distribution and an average of \$0.07 on the various dates of sale of P-Com common stock made by the Company in order to generate cash for the remaining overhead expenses of the Company.

Income tax expense increased in the year ended December 31, 2005 to \$177,888 as a result of the payment of estimated federal alternative minimum taxes (AMT) on the sale to P-Com. The Company had previously intended to qualify the sale to P-Com as a tax-free reorganization under Internal Revenue Code Section 368(a)(1)(C), and accordingly had not recorded expense for this tax.

Net loss decreased to \$443,010 for the year ended December 31, 2005 from \$3,472,690 for the year ended December 31, 2004. The decrease in the 2005 period is related primarily to realized loss on marketable securities in the 2004 period, as described above.

*Taxes*

At December 31, 2005, the Company had net operating loss carryforwards (NOLs) for federal income tax purposes of approximately \$22,437,000. The NOLs expire at various dates through the year 2025. Utilization of the Company's net operating loss may be subject to substantial annual limitation due to the ownership change limitations provided by the Internal Revenue Code and similar state provisions. Such annual limitation could result in the expiration of the net operating loss before utilization.

The Company utilized net tax operating loss carry forwards to offset regular federal and state taxable income for the year ended December 31, 2004. The net tax asset associated with the net operating loss carryforwards had been fully reserved in previous reporting periods and, accordingly, there were no income taxes for the year ended December 31, 2004. For purposes of AMT, the utilization of AMT net operating loss carryforwards is generally limited to 90% of AMT taxable income. However, at the time of filing the tax returns for the year ended December 31, 2003, the Company intended to qualify the sale to P-Com as a tax-free reorganization under Internal Revenue Code Section 368(a)(1)(C). Subsequently, management determined that it was not able to qualify the sale to P-Com as a tax-free reorganization, and made a tax payment in the third quarter of 2005 in the amount of \$177,888 to satisfy the AMT obligation.

## **Table of Contents**

### *Liquidity and Capital Resources*

The Company's financial statements are prepared on a going-concern basis, which assumes that the Company will realize its assets and discharge its liabilities in the normal course of business. The Company's future cash flows are projected to be insufficient to finance projected operations, without completion of its anticipated transaction with Planetwide Games, or funding from other sources. These conditions raise substantial doubt as to the ability of the Company to continue as a going concern.

Management's plans for this uncertainty include completion of the merger with Planetwide Games, however, in the event the transaction does not proceed, management will need to raise additional capital from external source and will use their best efforts to continue as a separate public entity and identify a new merger candidate. There can be no assurance that management will be successful in these plans. Accordingly, the accompanying financial statements do not include any adjustments that may arise from the uncertainty surrounding the Company's ability to continue as a going concern.

During the twelve months ended December 31, 2005, the Company used approximately \$311,000 of cash for operating activities. This was primarily due to the Company's operating loss that amounted to approximately \$443,000 for the year ended December 31, 2005, including the payment of tax as described above in the amount of \$177,888, and gain on conversion of accounts payable, accrued expenses and notes into common stock, partially offset by loss on marketable securities of approximately \$30,980 and non-cash expenses related to the issuance of common stock in exchange for warrants of approximately \$51,000. Cash provided by investing activities amounted to approximately \$306,000 for the year ended December 31, 2005. The Company does not have any commitments for capital expenditures or leasing commitments in the future. As of December 31, 2005, the Company had cash of approximately \$642.

### *Critical Accounting Policies*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. We evaluate our estimates and judgments on an on-going basis. We base our estimates on historical experience and on assumptions that we believe to be reasonable under the circumstances. Our experience and assumptions form the basis for our judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may vary from what we anticipate and different assumptions or estimates about the future could change our reported results. We believe the following accounting policies are the most critical to us, in that they are important to the portrayal of our financial statements and they require our most difficult, subjective or complex judgments in the preparation of our financial statements:

**Valuation of Marketable Securities:** The Company values its investment in P-Com common stock in accordance with SFAS No. 105, DISCLOSURE OF INFORMATION ABOUT FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK AND FINANCIAL

**Table of Contents**

**INSTRUMENTS WITH CONCENTRATIONS OF CREDIT RISK.** We record all investments at fair value or amounts that approximate fair value. Where available, we use prices from independent sources such as listed market prices or broker or dealer price quotations. For investments in illiquid and privately held securities that do not have readily determinable fair values, we estimate the value of the securities based on available information. However, even where the value of a security is derived from an independent market price or broker or dealer quote, some assumptions may be required to determine the fair value. For example, we generally assume that the size of positions in securities that we hold would not be large enough to affect the quoted price of the securities when sold, and that any such sale would happen in an orderly manner. However, these assumptions may be incorrect and the actual value realized on sale could differ from the current carrying value.

We evaluate our investments for other-than-temporary decline in value on a periodic basis. This may exist when the fair value of an investment security has been below the current value for an extended period of time. As most of our investments are carried at fair value, if an other-than-temporary decline in value is determined to exist, the unrealized investment loss recorded net of tax in accumulated other comprehensive income is realized as a charge to net income (loss), in the period in which the other-than-temporary decline in value is determined. While we believe that we have accurately estimated the amount of other-than-temporary decline in value in our portfolio, different assumptions could result in changes to the recorded amounts in our financial statements.

*Certain Factors That May Affect Future Results, Financial Condition and Market Price of Securities*

**Our common stock price is volatile.**

Our common stock and the stock market in general have experienced significant price and volume fluctuations in recent years, and the market prices of technology companies have been highly volatile. In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been instituted against that company. If such litigation were initiated against the Company, that could result in substantial costs and divert management's attention.

**Our concentrated ownership structure means that our controlling stockholders could control the outcome of any stockholder vote.**

If the holders of our preferred stock elect to convert their preferred stock and exercise their warrants to shares of common stock, it will decrease the relative voting power of existing common stockholders and the preferred stockholders will control a majority of our common stock. In such event, the former preferred stockholders, in their capacity as common stockholders, would be in a position to control our company. Therefore, certain corporate actions, which the Board of Directors may deem advisable for the stockholders of the Company as a whole, may not be approved by the common stockholders if submitted to a vote, unless the former preferred stock holders, in their capacity as common stockholders, approve the action.

**Table of Contents**

**Because the Company is subject to the penny stock rules, the level of trading activity in The Company's common stock may continue to be at a reduced level.**

Broker-dealer practices in connection with transactions in penny stocks are regulated by penny stock rules adopted by the Securities and Exchange Commission. Penny stocks generally are equity securities with a price of less than \$5.00 per share that trade on the OTC Bulletin Board or the Pink Sheets. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its sales person in the transaction, and, if the broker-dealer is the sole market maker, the broker-dealer must disclose this fact and the broker-dealer's presumed control over the market, and monthly account statements showing the market value of each penny stock held in the customer's account. In addition, broker-dealers who sell these securities to persons other than established customers and accredited investors must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These requirements may have the effect of reducing the level of trading activity in a penny stock, and investors in a penny stock may find it difficult to sell their shares.

**Because the Company's common stock is not listed on a national securities exchange, stockholders may find it difficult to dispose or obtain quotations for the Company common stock.**

The Company's common stock trades under the symbol SPHG.OB on the OTC Bulletin Board. Because the Company's common stock trades on the OTC Bulletin Board rather than on a national securities exchange, the Company's stockholders may find it difficult to either dispose of, or to obtain quotations as to the price of, the Company's common stock.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Board of Directors

SP HOLDING CORPORATION

We have audited the accompanying balance sheets of SP HOLDING CORPORATION (A Development Stage Company) (formerly Speedcom Wireless Corporation) of December 31, 2005 and 2004, and the related statements of operations, stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company at December 31, 2005 and 2004, and the results of its operations and its cash flows for the years ended, in conformity with United States generally accepted accounting principles.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency. These items raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**NOTES TO FINANCIAL STATEMENTS**

DECEMBER 31, 2005 AND 2004

**1. Business**

SP HOLDING CORPORATION (the Company) was incorporated in Florida on March 16, 1994 and reincorporated in Delaware on September 26, 2000. On December 10, 2003, the Company sold its operating assets and transferred substantially all of its operating liabilities to P-com, Inc. (P-com). Subsequent to the sale, the Company became a non-operating public shell company. On June 15, 2005, the Company's stockholders approved an amendment to the Company's Certificate of Incorporation changing the name of the Company to SP Holding Corporation.

On January 1, 2004, the Company entered the Development Stage, due to the sale of its assets as discussed above. The Company plans to operate as a Development Stage Enterprise while it explores other business opportunities.

*Agreement and Plan of Merger and Reorganization - Planetwide Games, Inc.*

On February 10, 2006, the Company and Planetwide Games, Inc., a privately held provider of branded online video games and proprietary software, entered into an Agreement and Plan of Merger and Reorganization (the Merger Agreement).

Under the terms of the Merger Agreement, all outstanding shares of Planetwide Games Common Stock, \$0.0001 par value (Planetwide Games Common Stock), will be exchanged for the shares of the Company's Common Stock, \$0.001 par value (Company Common Stock), and the Company will assume all of the stock options, warrants and convertible securities of Planetwide Games. After the consummation of the merger, Planetwide Games security holders, together with investors in a separate private offering anticipated to close near the time of the merger, are anticipated to own approximately 95% of the Company on a fully diluted basis. The two companies intend to change the name of the Company to Planetwide Games Corporation shortly after the closing. The merger is expected to be tax-free to the stockholders of both companies. Consummation of the merger is subject to certain closing conditions, including Planetwide Games having a minimum of \$5 million in cash and cash equivalents at closing. The parties intend to consummate the merger on or before May 24, 2006. The terms of the Merger Agreement may be amended or modified upon the mutual agreement of the parties.

**2. Basis of Presentation**

In the opinion of management, the financial statements reflect all adjustments (consisting of only normal and recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for those periods presented.

The accompanying financial statements are prepared on a going-concern basis, which assumes that the Company will realize its assets and discharge its liabilities in the normal course of business. However, the Company has no operations and its projected cash flows for 2005 are currently projected to be insufficient to discharge its remaining liabilities, without funding from other sources. These conditions raise substantial doubt as to the ability of the Company to continue as a going concern.

Management's plans for this uncertainty include curtailing expenses and raising additional capital from external sources. In addition, management intends to use their best efforts to continue as a separate public entity and identify a merger candidate. There can be no assurance that management will be successful in these plans. Accordingly, the accompanying financial statements do not include any adjustments that may arise from the uncertainty surrounding the Company's ability to continue as a going concern.

Management's plans for this uncertainty include completion of the merger with Planetwide Games, however, in the event the transaction does not proceed, management will need to raise additional capital from external sources and will use their best efforts to continue as a separate public entity and identify a new merger candidate. There can be no assurance that management will be successful in these plans. Accordingly, the accompanying financial statements do not include any adjustments that may arise from the uncertainty surrounding the Company's ability to continue as a going concern.

**3. Summary of Significant Accounting Policies**

*Cash and Equivalents*

The Company considers instruments having an original maturity of three months or less to be cash equivalents for purposes of the statement of cash flows.

*Marketable Securities*

The Company accounts for marketable securities in accordance with SFAS No. 115 ACCOUNTING FOR CERTAIN INVESTMENTS IN DEBT AND EQUITY SECURITIES. (SFAS 115) determines the proper classification of all marketable securities as held-to-maturity, available-for-sale, or trading at the time of purchase, and re-evaluates such classification as of each balance sheet date. Unrealized gains and losses are reported as a component of accumulated other comprehensive income (loss) in stockholders' equity..

*Financial Instruments*

The Company's significant financial instruments include cash, accounts payable and notes payable. The Company believes that the carrying value of financial instruments in the accompanying balance sheets approximate their respective fair values.

*Income Taxes*

The Company follows the liability method of accounting for income taxes in accordance with SFAS No. 109, ACCOUNTING FOR INCOME TAXES. Under this method deferred income taxes are recorded based upon differences between the financial reporting and tax bases of assets and liabilities, and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to affect taxable income. Valuation allowances against the carrying value of net deferred tax assets are recorded when management determines that recoverability of such amounts is not reasonably assured.

*Comprehensive Income (Loss)*

Under SFAS No. 130, REPORTING COMPREHENSIVE INCOME ( SFAS 130 ), the Company is required to display comprehensive income and its components as part of our financial statements. The measurement and presentation of net income did not change. Comprehensive income comprises net income and other comprehensive income. Other comprehensive income includes certain changes in equity of the Company that are excluded from net income. Specifically, SFAS 130 requires unrealized gains and losses on the Company's available for sale investments, that were reported in stockholders' equity, to be included in accumulated other comprehensive income.

*Stock Based Compensation*

The Company accounts for employee stock-based compensation using the intrinsic method in accordance with Accounting Principles Board No. 25, ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES ( APB 25 ), and related interpretations. Accordingly, in cases where exercise prices for stock option grants equal or exceed the trading market value of the stock at the date of grant, SPHC recognizes no compensation expense. In cases where exercise prices are less than the fair value of the stock at the date of grant, compensation is recognized over the period of performance or the vesting period. SPHC accounts for non-employee stock-based compensation using the trading market price for common stock and the Black-Scholes valuation model for stock options and warrants, in accordance with SFAS No. 123, ACCOUNTING FOR STOCK BASED COMPENSATION ( SFAS 123 ), as revised.

At December 31, 2005, the Company had 10,000 shares of common stock reserved for issuance under employee incentive stock bonus, purchase or option plans after giving effect to the 1-for-300 reverse split on November 21, 2005. One plan, initiated in July 1998, reserved 6,667 shares, and another plan, initiated in September 2000, reserved 3,333 shares. Additional options of 2,916 are outstanding outside these two plans to former executive officers. All full time employees were eligible for both plans. Plan options have a term of 5 years and vest 25% annually on the employee's anniversary date over a four-year period. As of December 31, 2005 there were 9,043 shares unissued under both plans.

Employee stock option activity was as follows during year ended December 31, 2005:

The range of exercise prices of outstanding options at December 31, 2005 is \$77 through \$969. The weighted average remaining contractual life of the options as of December 31, 2005 is .77 years.

Pro forma information regarding the Company's stock option grants is presented above. The fair market value for

these options was estimated at the date of grant using the Black-Scholes option-pricing model. In order to calculate the fair value, the following assumptions were made at the time of the stock option grant, the expected dividend payment rate used was zero, the expected option life used was five years, the volatility used was 1.26 and the risk free interest rate was assumed to be 2.96%. Because the options have a four-year vesting period, the pro forma effect shown is not reflective of the reported net earnings or losses in future years.

For purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the options vesting period.

*Net Income (Loss) Per Share*

The Company has applied the provisions of SFAS No. 128, EARNINGS PER SHARE ( SFAS 128 ), which establishes standards for computing and presenting earnings (loss) per share. Basic earnings (loss) per share are computed by dividing net earnings (loss) by the weighted average number of shares outstanding for the period. The calculation of diluted earnings per share includes the effect of dilutive common stock equivalents. No dilutive common stock equivalents existed in any year presented.

On November 21, 2005, the Company effected a 1-for-300 reverse split. Net loss per share for the year ended December 31, 2004 has been recalculated to take effect of the split on the weighted average number of shares outstanding.

*Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

*Changes in accounting Principles*

Financial Accounting Standards Number 154 ( FASB 154 ) (Accounting for Changes and Error Corrections) required that changes in accounting principles, reporting entity, and error corrections be accounted for retroactively whenever feasible. Changes in accounting estimates are recorded in the period they occur and subsequent periods. During the year 2005, the Company amended it s 2003 income tax return resulting in an alternative minimum tax being charged to the Company. The effect of such tax has been accounted for as a change in accounting estimate.

**5. Related Party Transactions**

Due to Related Parties

During the year ended December 31, 2005, certain of the Company's stockholders loaned the Company an additional \$306,000 through the issuance of promissory notes bearing interest at 8% per annum and 12% after the due date until settled. The balance due to stockholders at December 31, 2005 is \$386,000. The Company plans satisfy these outstanding obligations through the issuance of common stock, preferred stock, warrants or any combination thereof.

*Related Party Interest Expense*

Interest expense recorded during the years ended December 31, 2005 and 2004 related to related party notes, loans and other balances was as follows:

**6. Stockholders' Equity**

These matters relate to common stock issuances and common stock warrant activity during the year ended December 31, 2004:

Between January and December 2004, SPHC converted \$1,646,106 of amounts due to related parties, certain accrued expenses, notes payable and certain accounts payable into 71,910 shares of SPHC common stock. These transactions resulted in aggregate gains of approximately \$1,157,187.

## Edgar Filing: SP Holding CORP - Form 10KSB/A

During February 2004, all of SPHC's preferred stockholders exchanged their 3,835,554 shares of preferred stock, dividends and registration penalty for 256,230 shares of SPHC common stock (valued at trading market prices). This transaction resulted in aggregate gains of approximately \$2,161,000 that is recorded in the period of exchange as a component of paid-in-capital due to the related party nature of the exchange.

During March 2004, SPEEDCOM distributed 61,144,856 shares of P-Com common stock to SPEEDCOM common shareholders as a form of dividend. The per share trading market price of the common stock of P-Com on the distribution date was \$0.08. The distribution was recorded at the fair value of the shares distributed based upon the trading market price.

**NOTES TO FINANCIAL STATEMENTS**

**DECEMBER 31, 2005 AND 2004**

In December 2004, SPEEDCOM issued 16,667 shares of common stock as settlement of a lease dispute.

These matters relate to common stock issuances and common stock warrant activity during the year ended December 31, 2005

Common Stock

In February 2005, the Company converted \$21,338.97 of accounts payable into 7,113 shares of common stock after giving effect to the 1-for-300 reverse split on November 21, 2005. The Company recorded expense of \$21,340 related to the issuance of common stock. All references to common stock in the financial statements have been changed to reflect this split.

In March 2005, the Company converted its Series A warrants and Bridge Loan warrants into 9,070 shares of its restricted common stock upon conversion of outstanding warrants after giving effect to the 1-for-300 reverse split on November 21, 2005, through an exchange agreement with its Series A and Bridge Loan warrant holders, effectively eliminating all remaining derivatives issued during the Company's June and August 2001 private placement financings.

Effective November 21, 2005, the Company implemented a 1-for-300 reverse stock split of all its outstanding shares of common stock. The reverse stock split was previously approved by a majority of the Company's stockholders at a special meeting held on June 15, 2005. The reverse stock split reduced the number of outstanding shares of the Company's common stock to approximately 439,403 shares.

Non-employee Common Stock Warrants:

As of December 31, 2005, the Company had 500 warrants outstanding with an exercise price of \$1,800 per share, after giving effect to the 1-for-300 reverse split on November 21, 2005. The warrants expire on March 31, 2006.

Antidilution Provisions

Under the anti-dilution provisions of the Company's preferred stock, if the Company issues common stock or common stock equivalents at a purchase price, conversion price, or warrant or option exercise price that is less than the lesser of the current preferred stock conversion price of \$337.50 per share or the current market price, the conversion price of the preferred stock will be reduced using a customary weighted average basis formula. In February 2004, the Company converted all of its 12,785 shares of preferred stock, dividends and registration penalty due to the preferred stockholders into 256,230 shares of the Company's common stock.

Under the anti-dilution provisions 23,869 (as adjusted) of warrants issued in August 2001, (1) the exercise price will be lowered to equal the purchase price, conversion price, or warrant or option exercise price for any common stock or common stock equivalent issued (other than to employees) at a purchase price, conversion price, or warrant or option exercise price less than the current per share exercise price of the applicable warrants (\$36.00 in the case of Series A Warrants), and (2) the number of warrants will be increased by the same percentage as the percentage by which the exercise price is reduced. Alternatively, (1) the exercise price will be reduced by the percentage by which the purchase price, conversion price, or warrant or option exercise price of any issued security (others than to employees) is less than the current market price of the common stock, and (2) the number of warrants will be increased by the same percentage as the percentage by which the exercise price is reduced, if this formula results in a lower exercise price than the adjustment described in the preceding sentence. Similar anti-dilution provisions apply to outstanding warrants to acquire 3,340 shares of our common stock (as adjusted) at an exercise price of \$36.00 per share. In March 2005, the holders of these warrants agreed to exchange all of these warrants through the issuance of 9,070 shares of restricted common stock. The Company has no further obligation under these warrants.

**7. Income Taxes***Change in Estimate*

After the sale of SPHC's assets the Company had planned to have such sale come under a tax free exchange under IRS code section 368(a)(1)(c), and therefore did not accrue any tax expense on the transaction. During the year 2005 management changed its plan to close the Company and amended its 2003 tax return which caused an assessment of taxes of \$177,888 due to the provisions of the alternative minimum tax for the sale of its assets to P-Com. This was accounted for under Financial Accounting Standards Number 154 as a change in estimate affecting the current period only. In January 2006, the Company received a notice from the IRS imposing penalties and interest in aggregate of \$61,485.

The Company utilized net tax operating loss carry forwards to offset regular Federal and State taxable income for the year ended December 31, 2005. The net tax asset associated with the net operating loss carry forwards had been fully reserved in previous reporting periods and, accordingly, there are no income taxes for the year ended December 31, 2005. For purposes of Federal Alternative Minimum Taxes (AMT), the utilization of AMT net operating loss carry forwards is generally limited to ninety percent of AMT taxable income.

A reconciliation of the differences between the effective income tax rate and the statutory federal tax rate follows:

	2005	2004
Tax expense (benefit) at U.S. statutory rate	34.00%	34.00%
State taxes, net of federal benefit		
Change in valuation allowance	(34.00)	(34.05)
Other	0.00	0.05
	0.00%	0.00%

Significant components of deferred tax assets and liabilities are as follows:

	2005	2004
Deferred tax assets:		
Net operating loss carryforwards	\$ 7,630,600	\$ 7,495,131
Accrued expenses		5,000
Gross deferred tax assets	7,630,600	7,500,131
Less: valuation allowance	(7,630,600)	(7,500,131)
Net deferred tax asset	\$	\$

Accounting principles generally accepted in the United States of America require a valuation allowance be recorded to reduce the deferred tax assets reported if, based on the weight of the evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. After consideration of all the evidence, management has determined that a valuation allowance is necessary at December 31, 2004 and 2005 to fully offset the deferred tax asset.

## Edgar Filing: SP Holding CORP - Form 10KSB/A

At December 31, 2005, net operating losses available to be carried forward for federal income tax purposes are approximately \$22,443,000 expiring in various amounts from 2016 through 2025. Utilization of SPHC's net operating losses may be subject to substantial annual limitation due to the ownership change limitations provided by the Internal Revenue Code and similar state provisions. Such annual limitation could result in the expiration of the net operating loss before utilization.

On February 6, 2006, the Company received \$50,000 of shareholder loans in the form of Promissory Notes to fund its working capital. These promissory notes were repaid through the issuance of Series A Convertible Preferred Stock as described below.

Series A Convertible Preferred Stock

On February 1, 2006, the Company issued a certificate of designation for a new Series A Preferred Stock. On February 7, 2006, SP Holding Corporation issued an aggregate of 55.4 shares of its new Series A Convertible Preferred Stock (the Series A Preferred Stock ) in exchange for outstanding promissory notes of the Company and the settlement of certain other accrued liabilities of the Company in the aggregate principal amount plus accrued interest of \$498,480.22. The holders of the Company's outstanding promissory notes entered into separate exchange agreements (the Exchange Agreements ) with the Company. Each share of Series A Preferred Stock has a stated value of \$9,000 and is convertible into shares of the Company's common stock (the Common Stock ) at any time by the holders of the Series A Preferred Stock at a conversion price per share of \$3.00. Commencing six months following the issuance date of the Series A Preferred Stock, the holders are entitled to receive dividends at the rate of 8% per annum payable quarterly at the Company's option in cash or restricted shares of Common Stock. The Series A Preferred Stock has a term of two years from the date of issuance and upon a change of control transaction, the aggregate number of shares of Series A Preferred Stock issued shall automatically convert into a number of shares of restricted Common Stock equal to 61% of the number of shares of Common Stock issued and outstanding on a fully diluted basis as of the date of, but immediately prior to, the consummation of the change of control transaction.

The issuance of the Series A Preferred Stock is exempt from registration by virtue of Section 4(2) of the Securities Act of 1933, as amended.

Agreement and Plan of Merger and Reorganization Planetwide Games, Inc.

On February 10, 2006, the Company and Planetwide Games, Inc., a privately held innovative provider of branded online video games and proprietary software, entered into an Agreement and Plan of Merger and Reorganization (the Merger Agreement ).

Under the terms of the Merger Agreement, all outstanding shares of Planetwide Games Common Stock, \$0.0001 par value ( Planetwide Games Common Stock ), will be exchanged for the shares of the Company's Common Stock, \$0.001 par value ( Company Common Stock ), and the Company will assume all of the stock options, warrants and convertible securities of Planetwide Games. After the consummation of the merger, Planetwide Games security holders, together with investors in a separate private offering anticipated to close near the time of the merger, are anticipated to own approximately 95% of the Company on a fully diluted basis. The two companies intend to change the name of the Company to Planetwide Games Corporation shortly after the closing. The merger is expected to be tax-free to the stockholders of both companies. Consummation of the merger is subject to certain closing conditions, including Planetwide Games having a minimum of \$5 million in cash and cash equivalents at closing. The parties intend to consummate the merger on or before May 24, 2006. The terms of the Merger Agreement may be amended or modified upon the mutual agreement of the parties.
