As previously announced on August 10, 2006, the Audit Committee of the Board of Directors of NVIDIA is conducting a voluntary review of the Company's stock option practices covering the time from the Company's initial public offering in 1999 through the current fiscal year. The Audit Committee is conducting this review with the assistance of outside legal counsel. The Company has voluntarily contacted the Securities and Exchange Commission staff (the SEC) to inform them about the ongoing review and the SEC recently requested that the Company provide them with certain information relating to the Company's historical stock option practices.

Although the review is ongoing, the Audit Committee has reached a preliminary conclusion that incorrect measurement dates were used for financial accounting purposes for stock option grants in certain prior periods. As a result, NVIDIA may record additional non-cash stock-based compensation expense related to stock option grants. Any additional non-cash stock-based compensation expense recorded will not affect the Company's cash position or reported revenue for the recently completed quarter or any previous periods.

As a result of the ongoing review, NVIDIA was unable to file its Quarterly Report on Form 10-Q for the quarter ended July 30, 2006 by the required filing date and does not currently anticipate that it will be filed on or before the fifth calendar day following the prescribed due date according to Rule 12b-25.

If answer is no, identify report(s).  Yes  No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?  Yes  No  
 If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

For the second quarter of fiscal 2007, revenue increased to a record \$687.5 million, compared to \$574.8 million for the second quarter of fiscal 2006, an increase of 20 percent. Revenue for the six months ended July 30, 2006 was a record \$1.37 billion, compared to revenue of \$1.16 billion for the six months ended July 31, 2005, an increase of 18 percent.

As previously announced on August 10, 2006, the Audit Committee of the Board of Directors of NVIDIA is conducting a voluntary review of the Company's stock option practices covering the time from the Company's initial public offering in 1999 through the current fiscal year.

Edgar Filing: NVIDIA CORP - Form NT 10-Q

Although the review is ongoing, the Audit Committee has reached a preliminary conclusion that incorrect measurement dates were used for financial accounting purposes for stock option grants in certain prior periods. As a result, NVIDIA may record additional non-cash stock-based compensation expense related to stock option grants. Any additional non-cash stock-based compensation expense recorded will not affect the Company's cash position or reported revenue for the recently completed quarter or any previous periods. As the review related to stock option grants is currently ongoing, NVIDIA cannot at this time reasonably estimate the amount of any such charges, the resulting tax and accounting impact, or which periods may require restatement.
