PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

JUNE 12, 2007

This Proxy Statement is being furnished in connection with the solicitation of proxies by the Board of Directors of American Eagle Outfitters, Inc., a Delaware corporation, for use at the Annual Meeting of Stockholders to be held on June 12, 2007, at 11:00 a.m., local time, at the Loews Regency Hotel, 540 Park Avenue, New York, New York and at any adjournment thereof. It is being mailed to the stockholders on or about May 2, 2007. (We, our, and the Company refer to American Eagle Outfitters, Inc.)

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING

Who is entitled to vote?

Stockholders of record at the close of business on April 16, 2007, the record date for the Annual Meeting, are entitled to vote at the Annual Meeting. As of the record date, there were 220,315,491 shares of Common Stock, with \$.01 par value, outstanding and entitled to vote. Each share that you own entitles you to one vote.

What am I voting on?

There are three matters scheduled for a vote at the Annual Meeting:

1. Election of four Class III directors to serve until the 2010 Annual Meeting of Stockholders, or until their successors are duly elected and qualified;
2. Amendment of the Company's Certificate of Incorporation to increase the number of shares of authorized common stock from 250 million to 750 million; and
3. Ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending February 2, 2008.

How does the Board recommend I vote on these proposals?

The Board of Directors recommends a vote FOR each of the nominees for director listed in this Proxy Statement, FOR approval of the amendment to the Certificate of Incorporation, and FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending February 2, 2008.

How do I vote my shares?

If your shares are registered directly in your name (you are a registered stockholder), you may complete and sign the enclosed proxy card and return it in the pre-paid envelope. Alternatively, you may attend and vote in person at the Annual Meeting.

If you are a beneficial owner of shares registered in the name of your broker, bank or other agent (in street name), you should receive a voting instruction form along with this Proxy Statement. You should follow the instructions on that form in order to ensure that your vote is counted. To vote in person at the Annual Meeting, you must obtain a legal proxy from the broker, bank or agent that holds your shares to present at the

meeting.

Can I change or revoke my vote after I return my proxy card?

Yes. If you are a registered stockholder, you may revoke your proxy at any time before it is voted by delivering written notice to the Company (Attention: Neil Bulman, Jr., Secretary), by submitting a properly executed proxy bearing a later date or by attending the meeting and voting in person.

If your shares are held in street name, you may revoke your proxy by submitting new voting instructions to your broker or, if you have obtained a legal proxy from your broker, by attending the Annual Meeting and voting in person.

What constitutes a quorum?

A quorum of stockholders is necessary to transact business at the Annual Meeting. A quorum will be present if a majority of the outstanding shares of the Company's common stock, as of the close of business on the record date, are represented by stockholders present at the meeting or by proxy. At the close of business on the record date, there were 220,315,491 shares of Common Stock outstanding and entitled to vote. Therefore, 110,157,746 shares will be required to be represented by stockholders present at the meeting or by proxy in order to establish a quorum.

Abstentions and broker non-votes will be counted towards the quorum. Broker non-votes occur when brokers, who hold their customers' shares in street name, sign and submit proxies for such shares and vote such shares on some matters but not others. This would occur when brokers have not received any instructions from their customers, in which case the brokers, as the holders of record, are permitted to vote on routine matters, which include the election of directors and the ratification of the appointment of an independent registered public accounting firm, but not on non-routine matters, which includes amendment of the Company's Certificate of Incorporation to increase the number of shares of authorized common stock.

What vote is required to approve each proposal?

Once a quorum is established, directors are elected by a plurality of the votes represented by the shares of Common Stock present at the meeting in person or by proxy. Properly executed proxies marked "Withhold Authority" and broker non-votes are not voted with respect to the nominee or nominees indicated, although they are counted for purposes of determining if a quorum is present.

Amendment of the Certificate of Incorporation requires the affirmative vote of the majority of the shares of Common Stock present at the meeting, in person or by proxy.

Appointment of Ernst & Young LLP as our independent registered public accounting firm is ratified by the affirmative vote of a majority of the shares of Common Stock present at the meeting, in person or by proxy.

For any other item that is properly submitted to stockholders for approval at the Annual Meeting, an affirmative vote of a majority of the shares of Common Stock voting on the matter is required for approval. For purposes of determining the number of shares of Common Stock voting on a matter, abstentions are counted and will have the effect of a negative vote; broker non-votes are not counted and have no effect on the vote.

Who bears the costs of this solicitation?

We bear the cost of the solicitation of proxies, including the charges and expenses of brokerage firms and others for forwarding solicitation material to beneficial owners of stock. Our representatives may solicit proxies by mail, telegram, telephone or personal interview. To solicit proxies, we request the assistance of banks, brokerage houses and other custodians, and, upon request, reimburse such organizations for their reasonable expenses in forwarding soliciting materials to beneficial owners and in obtaining authorization for the execution of proxies.

Can I nominate someone for election to the Board of Directors?

Yes, for election at next year's Annual Meeting. You may do so by delivering to the Corporate Secretary, no earlier than March 7, 2008 and no later than April 9, 2008, a notice stating: (i) the name and address of the stockholder who intends to make the nomination; (ii) the name, age, business address and, if known, residence address of each nominee; (iii) the principal occupation or employment of each nominee; (iv) the number of shares of stock of the Company that are beneficially owned by each nominee and the nominating stockholder; and (v) the other information specified in Article Tenth (b) of our Certificate of Incorporation. Additionally, you may recommend a nominee for consideration by our Nominating and Corporate Governance Committee (the "Nominating Committee"). Recommendations should be submitted to our Nominating Committee in accordance with the procedures described below under the *Nominating Committee* section.

May I submit a stockholder proposal for next year's Annual Meeting?

Yes. Stockholder proposals to be included in the proxy statement for the 2008 Annual Meeting of Stockholders must be received by the Company (addressed to the attention of the Secretary) by January 2, 2008. We may omit from the proxy statement and form of proxy any proposals that are not received by the Secretary by January 2, 2008. Any stockholder proposal submitted outside the processes of Rule 14a-8 under the Securities Exchange Act of 1934 for presentation at our 2008 Annual Meeting will be considered untimely for purposes of Rule 14a-4 and 14a-5 if notice thereof is received before March 7, 2008 or after April 9, 2008. To be submitted at the meeting, any such proposal must be a proper subject for stockholder action under the laws of the State of Delaware, and must otherwise conform to applicable requirements of the proxy rules of the Securities and Exchange Commission (the "SEC").

Additionally, beginning on July 1, 2006, under the Company's 2005 Stock Award and Incentive Plan, Mr. Schottenstein receives an automatic quarterly stock grant of a number of shares equal in value to \$50,000 based on the closing sale price of the Company's stock on the first day of each calendar quarter.

(7) Mr. Wolf is not standing for re-election at the 2007 Annual Meeting of Stockholders. Until June 2005, non-employee directors received an automatic quarterly grant of options to purchase shares of common stock. At February 3, 2007, the aggregate number of option awards outstanding was: Mr. Diamond 25,313 shares; Mr. Jesselson 2,813 shares; Ms. Page 19,688 shares; Mr. Wedren 25,313 shares; and Mr. Wolf 25,313 shares. Mr. Schottenstein also received various stock options awards prior to June 2005, as determined by the Compensation Committee, and awards for 1,560,172 shares remain outstanding.

In June 2005, the Board of Directors determined that each director should own common stock of the Company and established the following ownership guidelines. Within three years of joining the Board or the implementation of the ownership guidelines, each director must hold stock of the Company worth at least four times the current annual cash base retainer amount, or currently \$220,000. The following forms of equity interests in the Company count towards the stock ownership requirement: shares purchased on the open market; shares obtained through stock option exercise; shares held as deferred stock units; shares held in benefit plans; shares held in trust for the economic benefit of the director or spouse or dependent children of the director; and shares owned jointly or separately by the spouse or dependent children of the director. Stock options do not count towards the stock ownership requirement.

Board Committees

The Board has a standing Audit Committee, a standing Compensation Committee and a standing Nominating Committee. These committees are governed by written charters, which were approved by the Board of Directors and are available on the Company's website at www.ae.com under the links About AE, AE Investment Info, Corporate Governance.

The Board has determined that the directors that are members of each standing committee, as well as Mr. Cary McMillan, a nominee for director, are independent as defined in the applicable rules of the New York Stock Exchange. In making these determinations, the Board took into account all factors and circumstances that it considered relevant, including the following:

Whether any family member of the director is or has been in any of the past three years an employee, director, or nominee for director of the Company;

Whether the director or any family member of the director is a partner, controlling shareholder, director, trustee, or executive officer of any organization (including charitable or non-profit organizations) to which the Company made, or from which the Company received, payments (other than those arising solely from investments in the Company's securities) that exceed 5% of the recipient's gross revenues or \$200,000, whichever is more, in the current year or any of the past three fiscal years;

Whether the director is or has been in the past three years, employed by a company that has or had, during the same period, an executive officer of the Company on its compensation committee;

Whether the director is or has been in the past three years, a partner of, employee of, or affiliated with, an accounting firm;

Whether the director or any of the director's family members accepted any payment from the Company or any of its Subsidiaries or affiliates in excess of \$10,000 during the current fiscal year or any of the past three fiscal years, other than compensation for board or board committee service, payments arising solely from investment in the Company's securities, compensation paid to a family member who is a non-executive employee of the Company or one of its Subsidiaries, or benefits under a tax-qualified retirement plan; and

Whether there are any relationships which exist between the director, the director's family member(s), or an entity controlled by the director or the director's family member(s) and the Company's other directors or officers (other than in their capacity as a director or officer).

The Nominating Committee periodically reviews the appropriate size of the Board, whether any vacancies are expected due to retirement or otherwise, and the need for particular expertise on the Board. In evaluating and determining whether to recommend a candidate to the Board, the Committee reviews the appropriate skills and characteristics required of Board members in the context of the background of existing members and in light of the perceived needs for the future development of the Company's business, including issues of diversity and experience in different substantive areas such as retail operations, marketing, technology, distribution, real estate and finance. Candidates may come to the attention of the Committee from a variety of sources, including current

Board members, stockholders, and management. All candidates are reviewed in the same manner regardless of the source of the recommendation. The Nominating Committee retained the services of a search firm to assist in identifying and evaluating qualified director candidates. Mr Alan T. Kane, who was added to the Board to fill a vacancy in January 2007, and Mr. Cary D. McMillan, the first time nominee for election at the Annual Meeting, were each identified as candidates through the search firm.

The Committee will consider the recommendations of stockholders regarding potential director candidates. In order for stockholder recommendations regarding possible candidates for director to be considered by the Nominating Committee:

such recommendations must be submitted to the Nominating Committee in care of: Corporate Secretary, American Eagle Outfitters, Inc., 150 Thorn Hill Drive, Warrendale, PA 15086-4857, in writing at least 120 days prior to the date of the next scheduled Annual Meeting;

the stockholder must describe the qualifications, attributes, skills or other qualities of the recommended director candidate.

Meetings of Non-Management and Independent Directors

The Board's policy is to have the non-management directors meet separately in executive session in connection with each regularly scheduled board meeting (at least four times annually). COMPENSATION DISCUSSION AND ANALYSIS

Overview

This Compensation Discussion and Analysis describes the compensation philosophy, objectives, policies and practices with respect to our named executive officers (the NEOs). The NEOs include the Chief Executive Officer, President/Chief Merchandising Officer, Vice Chairman, Chief Marketing Officer, and Chief Financial Officer.

For Fiscal 2006, NEO compensation was driven by the Company's outstanding financial results. As described herein, our EPS growth substantially exceeded targets, resulting in full vesting of all performance-based compensation. All performance awards were based on pre-established goals and discretion was not exercised to change those awards.

Role of Our Compensation Committee

Our Compensation Committee reviews, recommends and approves salaries and other compensation of named executive officers, administers the Company's 1994 Stock Option Plan, 1999 Stock Incentive Plan and 2005 Stock Award and Incentive Plan and administers the Company's Management Incentive Plan.

Role of Executive Officers in Compensation Decisions

Mr. O'Donnell, our Chief Executive Officer, annually reviews the performance of each NEO with the Compensation Committee and makes recommendations with respect to each element of executive compensation.

for each NEO, excluding himself. Based in part on these recommendations and other considerations discussed below, the Compensation Committee reviews and approves, when appropriate the annual compensation package of our NEO s.

Variations for NEOs with Employment Agreements

The three highest paid NEOs (Chief Executive Officer, President/Chief Merchandising Officer, and Vice Chairman) are employed pursuant to individual employment agreements. Because these agreements are separately negotiated with the Compensation Committee based on the individual NEO s circumstances, the value of some of the compensation elements are above the range of our general plan design. However, the primary compensation elements are the same as those in our overall plan and align with our governing philosophy and objectives regarding executive compensation.

Compensation Program Objectives

The overall objective of our executive compensation program is to attract highly skilled, performance-oriented executives and to motivate them to achieve outstanding results through appropriate means. We focus on the following core principles in structuring an effective compensation program that meets our stated objective:

Performance We endeavor to align executive compensation with the achievement of operational and financial results and increases in shareholder value. Our compensation program includes significant performance based remuneration and is designed to ensure that our executives have a larger portion of their total compensation at risk based on company performance than our primary competitors. We believe this feature creates a meaningful incentive for outstanding performance and an effective retention tool. In addition, our program features a substantial equity component in order to align executive interests with the interests of our shareholders.

Competitiveness We structure executive compensation to be competitive relative to a group of specialty retail peers. We target total compensation at approximately the 75th percentile of our peer group in recognition of our emphasis on performance based compensation, the size of the Company relative to the peer group, the setting of stretch growth and performance goals, and our aggressive business strategy.

Affordability We design our compensation program to limit fixed costs and increase budget predictability by emphasizing variable, performance based compensation. In addition, we structure our incentive plans to maximize financial efficiency to shareholders by establishing programs that are usually tax deductible and by making performance based payments only to the extent that underlying performance supports the expense.

Simplicity We have endeavored to create a simple, straight-forward compensation program; one that our associates and shareholders can easily understand.

Compensation Program Elements

Our executive compensation program is designed to place a large amount of pay at risk based on company performance for all executives. Our philosophy serves to cultivate a pay-for-performance environment. Our executive compensation plan design has five key elements:

Base Salary

Annual Incentive Bonus

Long-term Incentive Cash Plan (LTICP)

Restricted Stock (RS)

Non-Qualified Stock Options (NSO)

Three of the elements (Annual Incentive Bonus, Long-term Incentive Cash Plan, and Restricted Stock) are entirely at risk based on company performance and are subject to forfeiture if the Company does not achieve threshold performance goals. Company performance below threshold levels results in forfeiture of all elements of direct compensation other than base salary and Non-Qualified Stock Options. At threshold performance, the NEO's total annual compensation declines by an average 45% relative to target performance.

We strategically allocate compensation between short-term and long-term components and between cash and equity in order to maximize executive performance and retention. While we endeavor to design compensation packages consistently for our executives, long-term compensation and equity awards comprise an increasingly larger proportion of total compensation as position level increases. The portion of total pay attributable to long-term incentive cash/equity compensation increases at successively higher levels of management, which ensures that executive compensation closely aligns with changes in shareholder value and achievement of performance objectives and that executives are held accountable for results relative to position level.

Base Salary

Base salary represents the annual salary paid to each executive. Salaries for our NEOs are generally targeted at the 75th percentile of our peer group for the reasons described earlier. We review base salaries in the last quarter of the fiscal year and increases, where applicable, are typically effective for the beginning of the new fiscal year. Individual salaries range above or below the 75th percentile based on a variety of factors, including position level, executive experience relative to industry peers, individual performance, future potential, leadership qualities and innovativeness.

Annual Incentive Bonus

We structure the Annual Incentive Bonus to encourage the achievement of above market annual performance targets and to recognize short-term company performance. The Annual Incentive Bonus helps to focus the executive team on key annual objectives and business drivers, which we believe will support growth of Company earnings per share (EPS), improvement in overall operations, and increases in shareholder value. We establish an executive's annual incentive bonus as a percentage of base salary, with increases in target percentages directly related to position level. This approach places a proportionately larger percentage of total annual pay at risk based on company performance for our executives relative to position level. The target award opportunity for our Chief Executive Officer is equal to 120% of base salary and the target award opportunities for our other NEOs range from 50% to 100% of base salary. Annual incentive bonus payouts fluctuate based upon Company EPS, with actual Annual Incentive Bonus payments ranging from zero at threshold performance, to 100% at target performance, to 200% if the Company achieves goals that are substantially above our business plan for the fiscal year. Refer to the Fiscal 2006 Performance Metrics section below for a description of the Fiscal 2006 Annual Incentive Bonus metrics.

Long-term Incentive Cash Plan

The Long-term Incentive Cash Plan is a performance based retention vehicle. The Company instituted the LTICP during the year ended January 28, 2006 (Fiscal 2005) and makes LTICP awards to the NEOs and to certain other executives who participate in the plan. Executives that do not participate in the LTICP receive the same long-term incentive/equity proportion of total compensation as similarly situated executives participating in the LTICP; however, their total long-term incentive/equity value is delivered entirely through Restricted Stock and Non-Qualified Stock Options and their total equity includes a relatively larger percentage of Restricted Stock and Non-Qualified Stock Options than a LTICP participant. Target award opportunities under the LTICP are equal to 50% of the participant's Annual Incentive Bonus target opportunity. LTICP awards are contingent upon the achievement of pre-established annual EPS goals, which are described below.

Like the Annual Incentive Bonus plan, LTICP awards are contingent upon satisfaction of EPS targets. However, the performance goals in the LTICP are set below the goals in the Annual Incentive Bonus and

Restricted Stock program, each of which contains more aggressive performance requirements. The more modest goals in the LTICP support retention oriented objectives and help to mitigate the potential volatility in compensation opportunity that may result from the setting of more aggressive targets in the other variable compensation plans.

Actual LTICP awards range from zero for performance below the threshold EPS goal, to 25% of the targeted percentage amount at the threshold EPS goal, to 100% of the targeted percentage amount at the target EPS goal, to 200% of the targeted percentage amount if the Company achieves goals that are substantially above our business plan. Each year, upon achievement of stated goals, the Company defers LTICP awards (if any) into notional accounts. For Fiscal 2005 and Fiscal 2006, executives were able to direct the performance of their accounts from among twelve diversified funds. For the year ended February 2, 2008 (Fiscal 2007), the performance of all notional accounts will be based on a single diversified fund, selected by the Company. After a three year waiting period from a participant's first award, the executive begins to receive an annual payout of one-third of their existing account balance. The payments are taxed at distribution to the executive. Upon separation of service (either voluntary or involuntary, excluding retirement), an executive forfeits all account balances in the LTICP. The Company pays all account balances in full upon an executive's retirement.

Equity Awards

Equity compensation is designed to align executive compensation with short-term and long-term Company performance. The Company utilizes a combination of performance-based Restricted Stock awards and time-based Non-Qualified Stock Option grants to focus management on corporate performance, sustainable earnings growth and increases in shareholder value.

Restricted Stock: Restricted Stock awards represent approximately 40% of the value of an executive's overall long-term incentive/equity, once the LTICP has been calculated. This value may vary depending on position level and eligibility for the LTICP. We determine the number of shares of Restricted Stock based on the overall dollar value of the award, adjusted for performance risk, divided by the closing price of our common stock on the grant date. We adjust the overall dollar value of the award for risk in order to take into account the inherent volatility of the specialty retail industry and the potential risk of forfeiture due to company performance.

Restricted Stock grants feature one-year performance based vesting. Restricted Stock vests upon achievement of pre-established annual EPS goals, which are described below. If threshold performance is not met, the award recipient forfeits all shares. An award recipient cannot earn more than 100% of target, and unlike the Annual Incentive Bonus and LTICP, above target performance does not result in receipt of additional shares of Restricted Stock.

The table below describes key features of our Restricted Stock award program:

	Timing	Grant Date / Grant Price	Approval
New Hires & Promotions	Awarded to all newly hired or promoted executives on the first business day of employment in executive role.	The hire date or promotion date is the grant date and the closing price of our common stock on the grant date is the grant price.	Award amounts are determined by our executive compensation team and presented to our Chief Executive Officer for review and approval based on delegation of authority from the Compensation Committee. If the fair market value of a new hire or promotion award exceeds \$175,000, the Compensation Committee must approve the award.
Annual Award	Awarded to all active executives in the first quarter of each fiscal year.	The first regularly scheduled Compensation Committee meeting date is used as the grant date and the closing price of our common stock on the grant date is the grant price.	We present final annual award amounts for all NEOs to the Compensation Committee for approval at the first regularly scheduled Committee meeting of the new fiscal year.

The CEO may exercise discretion in his recommendations to the Compensation Committee with regard to grants of Restricted Stock for all executives, including the NEOs, excluding himself. The CEO may recommend an increase or decrease to the annual Restricted Stock grant guideline for a given executive, based on individual performance. However, adjustments suggested by the CEO must not result in an expansion of the overall pool of grant value under any circumstances. In Fiscal 2006, the CEO recommended adjustments to target awards for some executives but not any of the NEOs. Compensation Committee approval of Restricted Stock awards is final and no changes are permitted after that approval.

Non-Qualified Stock Options: Non-Qualified Stock Options represent 60% of the value of an executive's overall long-term incentive/equity, once the LTICP has been calculated. This value may vary depending on position level and eligibility for the LTICP. We determine the number of shares underlying each Option grant based on the overall value of the grant using a Black-Scholes option pricing model and the closing price of our common stock on the grant date. In no event will we grant Options at an exercise price below the fair market value of our common stock on the date of grant. Stock Option grants vest proportionally over three years with a seven year term from the grant date, assuming continued employment.

The table below describes key features of our Stock Option award program:

	Timing	Grant Date / Exercise Price	Approval
New Hires & Promotions	Awarded to all newly hired or promoted executives on the first business day of the fiscal quarter following hire / promotion.	The first business day of the following fiscal quarter is the grant date and the closing price on that date is the exercise price. In no event will we grant Options at an exercise price below the fair market value of our common stock on the date of grant.	Award amounts are determined by our executive compensation team and presented to our Chief Executive Officer for review and approval based on delegation of authority from the Compensation Committee. If the fair market value of a new hire or promotion award exceeds \$175,000, the Compensation Committee must approve the award.
<i>First Fiscal Quarter (following the first Compensation Committee meeting of the fiscal year) through Third Fiscal Quarter</i>			
New Hires & Promotions	Awarded to all newly hired or promoted executives; timed with the annual award in the first quarter of each fiscal year.	The date of the first regularly scheduled meeting of the Compensation Committee for the fiscal year is used as the grant date and the closing price on that date is the exercise price. In no event will we grant Options at an exercise price below the fair market value of our common stock on the date of grant.	We present final annual award amounts for all NEOs to the Compensation Committee for approval at the first regularly scheduled Committee meeting of the new fiscal year.
<i>Fourth Fiscal Quarter through First Fiscal Quarter (through the first Compensation Committee meeting of the fiscal year)</i>			
Annual Award	Awarded to all active executives in the first quarter of each fiscal year.	The date of the first regularly scheduled meeting of the Compensation Committee for the fiscal year is used as the grant date and the closing price on that date is the exercise price. In no event will we grant Options at an exercise price below the fair market value of our common stock on the date of grant.	

The CEO may exercise discretion in his recommendations to the Compensation Committee with regard to grants of Non-Qualified Stock Options for all executives, including the NEOs, excluding himself. The CEO may recommend an increase or decrease to the annual Non-Qualified Stock Option grant guideline for a given executive, based on individual performance. However, adjustments suggested by the CEO must not result in an expansion of the overall pool of grant value under any circumstances. In Fiscal 2006, the CEO recommended adjustments to target awards for some executives but not any of the NEOs. Compensation Committee approval of Non-Qualified Stock Option awards is final and no changes are permitted after that approval.

Delegation of Authority: The Compensation Committee delegates authority to the CEO to grant Restricted Stock and/or Non-Qualified Stock Options awards for internal promotions and new hires, subject to an overall dollar value for each award and for all awards in total. For Fiscal 2006, this delegation authority was limited to awards to individuals that totaled less than \$175,000 in fair market value and for all awards not to exceed \$2 million in value. No authority is delegated for awards to NEOs.

Executive Perquisites

Executive perquisites are not a significant component of our executive compensation program. We limit the use of perquisites among our eligible executives.

Fiscal 2006 Performance Metrics

In the interest of simplicity and focus, for Fiscal 2006, the Compensation Committee chose a single performance metric, EPS (including stock option expense), to develop targets for awarding performance-based compensation. Annual Incentive Bonus, Long-Term Incentive Cash Plan and Restricted Stock awards are all contingent upon the achievement of specific EPS goals. The Compensation Committee has chosen EPS as the key performance metric because it reflects the Company's success in growing the business and driving sustained increases in profit. We believe that EPS reflects all key financial and operational performance objectives, while maintaining simplicity in the design and execution of our executive compensation program. Moreover, we believe that EPS targets encourage management to focus on all aspects of performance, including both top line growth in revenue and bottom line results.

Our Compensation Committee establishes performance goals at the beginning of each fiscal year based on a variety of factors, such as internal budget, investor expectations, peer company results, prior year Company performance, upcoming fiscal year business plan, and strategic initiatives. The Compensation Committee sets threshold, target and maximum performance levels. For Fiscal 2006, the Compensation Committee established the following EPS goals, measuring EPS growth against prior year realized EPS:

For Annual Incentive Bonus and Restricted Stock awards: \$1.26 at Threshold (reflecting 0% growth), \$1.45 at Target (reflecting 15% growth) and \$1.57 at Maximum (reflecting 25% growth). **Values are split-adjusted*

For the LTICP awards: \$1.26 at Threshold (reflecting 0% growth), \$1.39 at Target (reflecting 10% growth) and \$1.51 at Maximum (reflecting 20% growth). **Values are split-adjusted*

A 15% EPS growth target aligns with our business strategy and our status as a growth company. Moreover, the 15% EPS growth target established at the beginning of Fiscal 2006 exceeded the then general analyst consensus for the Company of 7% growth.

Compensation Benchmarking

In addition to many other factors that affect compensation determinations, we take into account the compensation practices of comparable companies in formulating our compensation program. We consider three key factors in choosing the companies that comprise our peer group:

Talent Companies with which we compete for executive-level talent.

Size Companies within the specialty retail industry with comparable revenue.

Comparability Companies with which we compete for consumers and investors.

For Fiscal 2006, the Company chose a peer group of specialty retailers consisting of the following component companies:

Abercrombie & Fitch Co. (ANF)

Aeropostale, Inc. (ARO)

We evaluate our peer group on an annual basis for relevance and propose changes when appropriate. The Compensation Committee reviews and approves the recommended peer group changes as necessary.

Timing of Equity Awards

Although the Company does not have a formal policy surrounding the timing of equity awards and the release of material, non-public information, the Company does utilize a consistent approach to selecting both the grant dates and the terms of equity awards. The Company makes annual equity grants in the first quarter of the fiscal year. The 2006 grant date coincided with the Compensation Committee meeting date during which earnings were certified for the prior fiscal year. Traditionally, new hire grants have coincided with the executive's first day of service and promotional grants have coincided with the effective date of the promotion. Effective for the fourth quarter of Fiscal 2006, the Company implemented a new approach for Non-Qualified Stock Option awards as described earlier.

Severance and Change of Control Payments

Some of our NEOs are entitled to receive severance payments and other benefits in the event of a change in control of the Company and/or upon the termination of the executive's employment with the Company under specified circumstances. These arrangements provide essential protections to both the executive and the Company. Agreements providing for severance and change of control payments assist the Company in attracting and retaining qualified executives that could have other job alternatives. At the same time, the applicable agreements preserve valuable Company assets by imposing upon the executives non-competition and non-solicitation restrictions, confidentiality obligations, and cooperation covenants. For a description and quantification of these severance and change of control benefits, please see the section entitled Post-Employment Compensation.

Role of Compensation Consultants

Edgar Filing: AMERICAN EAGLE OUTFITTERS INC - Form PRE 14A

The Compensation Committee has the authority under the Compensation Committee Charter to retain outside consultants or advisors to assist the Committee. In accordance with this authority, the Committee engaged the services of The Hay Group, Inc. at the beginning of Fiscal 2006. In October 2006 the Compensation Committee changed consultants and engaged the services of Watson Wyatt & Company as its primary independent outside compensation consultant to advise the committee on all executive compensation matters, including Chief Executive Officer compensation. The independent compensation consultant does not advise the

Company's management and only works with management with the express permission of the Compensation Committee. Representatives of our compensation consultants attended a majority of the Compensation Committee meetings in Fiscal 2006. Watson Wyatt & Company does not provide any other services to the Company. The Compensation Committee may engage other consultants as needed in order to provide calculations, recommendations or other market data.

Our executive compensation management team engages its own consultant; Frederic W. Cook & Co., Inc. which is independent of the consultant engaged by the Compensation Committee, to assist in carrying out its duties. Our executive compensation team works with a compensation consultant to make informed decisions on executive compensation plan design and execution. Team members work together to ensure that executive compensation decisions align with the marketplace and the Company's overall compensation objectives. After our executive compensation team has fully developed a compensation plan design or design change, our Chief Executive Officer reviews the proposal following which the Compensation Committee considers the proposal for final approval. Management engages the Hay Group, Inc. as needed to provide market data and analysis.

Tax Matters

Section 162(m) of the Internal Revenue Code generally permits a tax deduction to public corporations for compensation over \$1,000,000 paid in any fiscal year to a corporation's Chief Executive Officer and certain other highly compensated executive officers only if the compensation qualifies as being performance-based under Section 162(m). The Company endeavors to structure its compensation policies to qualify as performance-based under Section 162(m) whenever it is reasonably possible to do so while meeting our compensation objectives.

Nonetheless, from time to time certain non-deductible compensation may be paid and the Board of Directors and the Compensation Committee reserve the authority to award non-deductible compensation in appropriate circumstances. In addition, it is possible that some compensation paid pursuant to certain equity awards that have already been granted may be non-deductible as a result of Section 162(m).

Additionally, Section 409A of the Internal Revenue Code governs our ability to establish the time and form of payment under our nonqualified deferred compensation arrangements. We believe that we have been operating our nonqualified deferred compensation arrangements in good faith compliance with Section 409A and the guidance available thereunder in effect since January 1, 2005.

Compensation Committee Report

The following members of the Compensation Committee, each of which is an independent director, reviewed and discussed the above Compensation Discussion and Analysis (CD&A) with the Company's management. Based on the review and discussion, the Compensation Committee recommended to the Company's Board of Directors that the CD&A be included in this Proxy Statement.

During Fiscal 2006, Mr. O Donnell was employed pursuant to an employment agreement dated December 30, 2003, which expired on February 3, 2007. On December 28, 2006, Mr. O Donnell entered into a new employment agreement with the Company. Pursuant to the Agreement, Mr. O Donnell will continue to serve as the Company's Chief Executive Officer through the fiscal year ending January 30, 2010 (Fiscal 2009) and as a non-executive employee through January 29, 2011 (Fiscal 2010). This agreement provides for a retirement benefit upon its expiration equal to the greater of (a) \$2,200,000, or (b) Mr. O Donnell's total cash compensation (base salary plus annual cash incentive bonus, which is limited to target bonus for purposes of the calculation) for the highest compensated fiscal year of the prior six fiscal years. The retirement benefit is payable by the Company over five years after the expiration of the agreement's term in Fiscal 2010. If the Company were to achieve its annual cash bonus EPS goals in each year of the agreement, the retirement benefit payable would be \$3,600,000. Additionally, in the event of a non-cause termination by the Company before January 29, 2011, the agreement provides for severance payments equal to one year of base salary payable in a lump sum within 30 days of termination, the retirement benefit, payable in a lump sum within 30 days of termination; any incentive bonus that would have been paid to the extent that the performance goals established at the time of grant are met for the fiscal year during which termination occurred, even though he was not employed for the entire fiscal year; outstanding stock options shall vest and shall be exercisable for one year after the date of termination; restricted stock awards outstanding at the time of the termination and not previously forfeited shall vest to the extent that the performance goals established at the time of grant are met for the fiscal year during which termination occurred, even though he was not employed for the entire fiscal year; and payment of his LTICP account in a lump sum payment within 30 days of the date of termination.

The agreement had an initial term through February 3, 2007 and continued for an additional term of five fiscal years ending January 28, 2012 (the Renewal Term), subject to earlier termination by either party. Under this agreement, Mr. Markfield served as President of the Company through Fiscal 2005, as Vice Chairman through Fiscal 2006, and as an advisor to the Company through the Renewal Term. The agreement provides for a fixed salary of \$1,343,000 payable by the Company for each year during the Renewal Term. Additionally, during the Renewal Term Mr. Markfield continues to be entitled to participate in the Company's benefit plans to the same extent as other executives of Company, provided, however if Mr. Markfield does not qualify to participate in the health insurance program, the Company will provide coverage for Mr. Markfield and his spouse during the Renewal Term. On March 21, 2007, the Company entered into a new employment agreement with Mr. Markfield. The new agreement changes the payment terms, but not the amount, for his salary during Fiscal 2007 by providing for the accumulation of the first six months of salary to be paid in a lump sum in August,

2007. The new agreement also adds paragraph 7.11 relating to Internal Revenue Code Section 409A. Otherwise, the new agreement is the same as the old agreement, dated May 16, 2005.

Ms. McGalla was employed in Fiscal 2006 pursuant to an employment agreement dated January 30, 2005. The agreement has a term that ended February 3, 2007. If Ms. McGalla had been employed at least six full months during the fiscal year in which her employment is terminated, then any restricted stock awards outstanding at the time of the termination and not previously forfeited will vest to the extent that the performance goals established at the time of grant are met for the fiscal year during which termination occurred. The Company entered into a new employment agreement with Ms. McGalla on March 1, 2007, pursuant to which Ms. McGalla is employed as President and Chief Merchandising Officer of the Company through January 31, 2009. In the event of termination of the agreement by the Company under certain circumstances, Ms. McGalla will receive the following:

The Company engages independent relocation companies (a provider) to provide certain relocation and related services for eligible employees. The relocation benefits vary based on the level of the employee. For executive officers, the Company's relocation program may include a guaranteed purchase offer provision for the employee's pre-move residence under which the provider offers to purchase the employee's residence at a price based on independent appraisals of the property or the price offered by a third-party buyer. Amounts includable in the employee's income under the relocation program are grossed up by the Company to pay the employee's income taxes on those amounts.

Pursuant to such an arrangement, in January 2006, a provider purchased Ms. Savitt's former residence at a purchase price determined by independent appraisals of the property. The provider paid Ms. Savitt the purchase price and assumed all expenses associated with ownership of the property. The Company is reimbursing the provider for all expenses, including the anticipated loss from the resale of the residence to a third-party buyer, together with the fees and interest paid to the provider in connection with this arrangement. During Fiscal 2006, the Company paid or accrued \$1,349,500 in connection with the relocation of Ms. Savitt, and anticipates paying an additional amount currently estimated at \$145,000 in Fiscal 2007.

Also pursuant to such an arrangement, in August 2006, a provider purchased Ms. Hilson's former residence at a purchase price determined by independent appraisals of the property. The provider paid Ms. Hilson the purchase price and assumed all expenses associated with ownership of the property. The Company is reimbursing the provider for all expenses, including the anticipated loss from the resale of the residence to a third-party buyer, together with the fees and interest paid to the provider in connection with this arrangement. During Fiscal 2006, the Company paid or accrued \$265,554 in connection with the relocation of Ms. Hilson.

PROPOSAL TWO: APPROVAL OF AMENDMENT TO CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF SHARES OF AUTHORIZED COMMON STOCK

Background

The Board of Directors has recommended an amendment to the Company's Certificate of Incorporation to increase the aggregate number of shares of authorized common stock from 250,000,000 to 750,000,000 (the Amendment) and has directed that the Amendment be submitted for approval to stockholders at the Annual Meeting.

The Certificate of Incorporation presently authorizes the issuance of 250,000,000 shares of common stock and 5,000,000 shares of preferred stock. The Amendment would increase the authorized number of shares of common stock to 750,000,000. No change is proposed in the number of authorized shares of preferred stock.

Proposed Amendment

If the Amendment is approved, the text of paragraph (a) of Article Fourth of the Certificate of incorporation would read in its entirety as follows:

(a) The total number of shares of all classes of stock which the Corporation shall have authority to issue is Seven Hundred Fifty-five Million (755,000,000) shares, consisting of 750,000,000 shares of common stock, \$0.01 par value per share (the Common Stock), and 5,000,000 shares of Preferred Stock, \$.01 par value per share (the Preferred Stock).

General Effect of Proposed Amendment and Reasons for Approval

Of our 250,000,000 authorized shares of common stock, 220,315,491 were outstanding as of April 16, 2007, and after taking into account shares underlying outstanding stock options and the reservation of shares for issuance under our equity-based compensation plans, approximately 4,000,000 of the 250,000,000 shares authorized in the Certificate of Incorporation remain available for issuance.

The Board of Directors believes the Amendment is advisable in order to maintain our financing and capital-raising flexibility, to facilitate future stock splits, to have sufficient shares available for acquisitions, and other corporate purposes, and to generally maintain our flexibility in today's competitive, fast-changing environment. There are no present agreements, understandings or plans to issue any of the additional shares that would be authorized by the Amendment.

Adoption of the Amendment would enable the Board from time to time to issue additional shares of common stock for such purposes and such consideration as the Board may approve without further approval of our stockholders, except as may be required by law or the rules of any national securities exchange on which the shares of common stock are at the time listed. New York Stock Exchange rules require stockholder approval to issue common stock under certain circumstances including when the number of shares to be issued equals or exceeds 20% of the voting power outstanding (currently, issuance of more than 44,063,098 shares of common stock). As is true for shares presently authorized and unissued, the future issuance of common stock authorized by the Amendment may, among other things, have a dilutive effect on earnings per share and on the equity and voting power of existing holders of common stock.

There are no preemptive rights with respect to shares of common stock. The additional authorized shares of common stock would have the identical powers, preferences and rights as the shares now authorized, including the right to cast one vote per share and to receive dividends, if any. Under Delaware law, stockholders will not have any dissenters' or appraisal rights in connection with the Amendment. If the Amendment is approved by stockholders, it will become effective upon executing, acknowledging and filing a Certificate of Amendment required by the General Corporation Law of Delaware.

While the issuance of shares in certain instances may have the effect of forestalling a hostile takeover, the Board does not intend or view the increase in authorized common stock as an anti-takeover measure, nor is the Company aware of any proposed or contemplated transaction of this type.

The Board of Directors recommends a vote FOR the amendment to the Certificate of Incorporation to increase the number of shares of authorized common stock.

PROPOSAL THREE: RATIFICATION OF INDEPENDENT REGISTERED

PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board of Directors has appointed Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending February 2, 2008. In the event the stockholders do not ratify the appointment of Ernst & Young LLP, the Audit Committee will reconsider its appointment. In addition, even if the stockholders ratify the appointment of Ernst & Young LLP, the Audit Committee may in its discretion appoint a different independent registered public accounting firm at any time during the year if the Audit Committee determines that a change is in the best interest of the Company.

Representatives of Ernst & Young LLP are expected to be present at the annual meeting to respond to appropriate questions and to make a statement if such representatives so desire.

The Board of Directors recommends that the stockholders vote FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending February 2, 2008.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements in the Annual Report for the year ended February 3, 2007 with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Audit Committee reviewed with the independent registered public accounting firm, who is responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, its judgments as to the quality, not just acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee by *Statement on Auditing Standards No. 61, as amended by Statement on Auditing Standards No. 90 (Communications with Audit Committees)*. In addition, the Audit Committee has discussed with the independent registered public accounting firm, its independence from management and the Company, including the matters in the written disclosures required by Independence Standards Board Standard No. 1, and considered the compatibility of nonaudit services with the firm's independence.

The Audit Committee discussed with the Company's internal auditors and its independent registered public accounting firm the overall scope and plans for their respective audits. The Audit Committee meets with the internal auditors and the independent registered public accounting firm, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The Audit Committee also carried out the additional responsibilities and duties as outlined in its charter.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements be included in the Annual Report on Form 10-K for the year ended February 3, 2007 for filing with the Securities and Exchange Commission.
