**Operating income improved year-on-year by RMB3.9 million to RMB2.7 million**, driven primarily by increased revenue offset by greater sales and marketing, service development expenses, and decrease in shared-based compensation.

**Net loss from continuing operations** worsened year-on-year by RMB11.7 million to RMB12.1 million driven primarily by a RMB15.3 million increase in unrealized foreign exchange losses compared to the year-ago quarter caused by the appreciation of the Renminbi.

**Cash and cash equivalents** as of December 31, 2007 were **RMB1.2 billion** (USD\$159 million).

**Highlights Fiscal Year 2007:**

**Travel revenues before business tax and surcharges**, comprised of hotel, air and other travel product and service revenues, increased 19% year-on-year to RMB303.8 million.

Edgar Filing: eLong, Inc. - Form 6-K

Other travel revenues	5,588	2%	8,398	3%	-33%
<b>Total travel revenues</b>	<b>303,847</b>	<b>100%</b>	<b>255,961</b>	<b>100%</b>	<b>19%</b>

**Operating loss** decreased year-on-year by RMB2.4 million to RMB14.0 million, driven primarily by revenue increases offset by greater sales and marketing, service development expenses, and decrease in share-based compensation.

**Net loss from continuing operations** increased year-on-year by RMB19.7 million to RMB22.2 million, driven primarily by a RMB33.1 million year-on-year increase in unrealized foreign exchange losses caused by the appreciation of the Renminbi, and partially offset by a year-on-year increase in net interest income of RMB4 million.

The improvement in eLong's top line performance in Q4 2007 was driven in large by improved call center service levels, the introduction of 24 by 7 air ticketing service and introduction of a triple loyalty points offer to reward customers, said Guangfu Cui, Chief Executive Officer of eLong. We recognize however that we have significant work ahead of us going forward. In the coming six months we will continue our efforts to improve customer experience by investing in back office systems, streamlining order fulfillment and launching a major website upgrade.

I am pleased to announce that the eLong board has approved a share buy back of up to \$20 million USD, continued Guangfu Cui, Chief Executive Officer of eLong. In doing so, the board of directors and management team is expressing its confidence in the value of eLong and in its long term future.

We are pleased with the 27% year-on-year top line growth that we achieved in the fourth quarter, an acceleration over prior periods in 2007, said Chris Chan, Chief Financial Officer of eLong. However we remain unsatisfied with our ongoing operating loss and are focused on improving the company's financial results over time.

## **Business Results**

### *Hotel*

Hotel commissions for the fourth quarter of 2007 increased 20% year-on-year primarily due to higher room volume. Room nights booked through eLong increased 19% to 1,023,000, while commission per room night was RMB0.7 higher than the prior year quarter, at RMB66. eLong increased the number of hotels offered by 37% in 2007, bringing the total to more than 4,800 hotels in over 300 cities across China as of December 2007, compared with 3,500 as of December 2006.

Hotel commissions for fiscal 2007 increased 15% year-on-year primarily due to higher room volume. Room nights booked through eLong increased 14% to 3,711,000 for fiscal 2007, while commission per room night was RMB65, up RMB0.5 compared with the prior year.

### *Air*

Air ticketing commissions for the fourth quarter of 2007 increased 66% year-on-year, driven by a 39% increase in air segments to 373,000, and a 73 basis point increase in the average percent commission to 5.6% or RMB43 per air ticket. The quarter also benefited from higher average ticket price, which went up by 4.5% year-on-year, to RMB769.

Air ticketing commissions for fiscal 2007 increased 50% compared to the prior year period primarily driven by a 41% increase in air segments to 1,416,000, and average percent air commission per ticket increased to 5.1% or RMB41.

### *Profitability*

Gross margin in the fourth quarter was 72%, compared with 75% in the prior year period. The primary driver of gross margin reduction was the mix shift from higher margin hotel revenues to lower margin air revenues. The remaining margin reduction was mainly driven by increased call center expenditures associated with improved customer service levels.

Gross margin for fiscal 2007 was 72%, compared with 75% in fiscal 2006. Gross margin decreased primarily due to the same factors impacting the fourth quarter year-on-year margin decline.

We increased our technology investment in the fourth quarter, in order to accelerate our booking platform improvements and online payment capabilities.

Other expense for the fiscal 2007 was RMB10.2 million, primarily due to an unrealized foreign exchange loss of RMB65.9 million resulting from the appreciation of the Renminbi during the year. This exchange loss was partially offset by interest income of RMB55.5 million for fiscal 2007.

### **Business Outlook**

eLong expects net revenues, that is net of business tax and surcharges, for the first quarter of 2008 to be within the range of RMB68.0 million to RMB75.0 million, an increase of 10% to 22% from the first quarter of 2007.

### **Notes to the Unaudited Interim Consolidated Financial Statements**

Financial information in this press release from eLong's unaudited financial statements was prepared in accordance with generally accepted accounting principles in the United States. The accompanying consolidated financial information of the Company as of and for the year ended December 31, 2006 have been revised from previously issued financial statements to correct an error in the accounting for share-based compensation. The effect of this revision is to decrease general and administrative expenses by RMB0.14 million, increase accrued expenses and other current liabilities by RMB1.99 million, and decrease shareholders' equity by RMB2.13 million as compared to our previously issued financial statements. All references in the accompanying consolidated financial information of this press release have been adjusted to reflect this revision.

#### **Note 1**

Fiscal 2006 revenue and expenses have been reclassified to exclude expenses related to discontinued operations. In May 2006, eLong disposed of Raytime, an operator of hotel loyalty programs. In October 2006, eLong sold the assets and business of one of its divisions operating an interactive online dating community (the Division). In accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the results of operations of Raytime and the Division have been reflected in the consolidated financial statements as a discontinued operation for all periods presented.

Note 2

From third quarter 2007, business tax expense and related surcharges have been presented on a net basis (excluded from revenues). Prior to July 1, 2007, these charges were included in operating expenses. The Company believes the net presentation is the appropriate treatment because the revenue amount after deduction of business tax expense and related surcharges represents the benefit to be retained by the Company. Amounts for all prior periods presented have been restated for comparative purposes. For the impact of this change on prior periods, please refer to Exhibits 1 and 2.
