NOTICE TO OVERSEAS SHAREHOLDERS

The distribution of this Letter of Offer and the Issue may be restricted by law in certain jurisdictions. Persons into whose possession this Letter of Offer may come are required to inform themselves about and observe such restrictions. The Company is making this Issue on a rights basis to the Ordinary Shareholders of the Company and will dispatch the Letter of Offer/Abridged Letter of Offer and CAFs to such shareholders who have an Indian address.

This Letter of Offer does not constitute and may not be used for in connection with an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or to any person to whom it is unlawful to make such offer or solicitation. In particular, no action has been or will be taken by the Company or the Lead Managers to permit an offering of Ordinary Shares and A Ordinary Shares (collectively the Securities) or distribution of this Letter of Offer in any jurisdiction, other than India, where action for that purpose is required. Accordingly, the Securities may not be offered or sold, directly or indirectly, and neither this Letter of Offer nor any offering material in connection with the Securities may be distributed or published in or from any country or jurisdiction except under circumstances that will result in compliance with any applicable rules and regulations of any such country or jurisdiction. Persons receiving a copy of this Letter of Offer should not distribute or send the same in any jurisdiction where to do so would or may contravene local laws or regulations. If this Letter of Offer is received by any person in any such territory, or by their agent or nominee, they must not seek to subscribe to the Securities or the rights entitlements referred to in this Letter of Offer.

The Securities have not been and will not be registered under the US Securities Act of 1933, as amended, and may not be offered or sold within the United States or to US persons except in transactions not requiring registration thereunder. Any CAFs bearing an address in the United States will not be accepted. The depositary for the Company's ADSs will seek to dispose of the Rights Entitlements in respect of the Ordinary Shares represented by such ADSs and distribute any resulting net proceeds to ADS holders in accordance with the ADS deposit agreement.

PRESENTATION OF FINANCIAL INFORMATION AND MARKET DATA

Financial Data

Unless stated otherwise, the financial data relating to the Company in this Letter of Offer is derived from the Company's consolidated restated financial statements and non-consolidated restated financial statements, prepared in accordance with Indian GAAP and the SEBI Guidelines which are included in this Letter of Offer and set out in the section Auditor's Report on page F-1 of this Letter of Offer.

The Company's fiscal year commences on April 1 of each year and ends on March 31 of the next year. All references to a particular fiscal year are to the 12 month period ended on March 31 of that year. On June 2, 2008, the Company completed the acquisition of Jaguar Land Rover. Therefore, the consolidated financial statements of the Company for fiscal 2008 do not include the financial statements of Jaguar Land Rover. In addition, the combined financial information of TML as provided under Material Developments on page 158 of this Letter of Offer, does not include the results of Jaguar Land Rover for the period from June 2, 2008 to June 30, 2008.

Unless otherwise stated, the financial data relating to Jaguar Land Rover in this Letter of Offer is derived from Jaguar Land Rover's unaudited summarized financial statements prepared by the Jaguar Land Rover management, which are principally based on US GAAP and are included in the Letter of Offer in the section Summary Financial Information of Jaguar Land Rover on page 141 of this Letter of Offer. Jaguar Land Rover's financial year commences on January 1 of each year and ends on December 31 of that year.

In this Letter of Offer, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off, and unless otherwise specified, all financial numbers in parenthesis represent negative figures. Any percentage amounts, as set forth in the sections Risk Factors, Business, Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this Letter of Offer, unless otherwise indicated, have been prepared on the basis of the financial statements included in this Letter of Offer.

There are significant differences between Indian GAAP and US GAAP. The Company does not provide a reconciliation of the Company's financial statements to US GAAP. Also see Risk Factors Risks Relating to the Acquisition of Jaguar Land Rover Pursuant to the acquisition and due to the differences in US GAAP and Indian GAAP, our historical financials may not be comparable on page xxv of this Letter of Offer. We urge you to consult your own advisors regarding such differences and their impact on the financial data. The degree to which the Indian GAAP and the US GAAP financial statements included in this Letter of Offer will provide meaningful financial information is entirely dependent on the reader's familiarity with these accounting practices. Any reliance by persons not familiar with these accounting practices on the financial disclosures presented in this Letter of Offer should accordingly be limited.

All references to India contained in this Letter of Offer are to the Republic of India, all references to the US or the U.S. or the USA, or the United States are to the United States of America, its territories and possessions and all references to UK or the U.K. are to the United Kingdom of Great Britain and Northern Ireland, together with its territories and possessions.

Currency and units of presentation

The Company prepares and publishes its financial statements in Indian Rupees. All references to Rupees, Indian Rupees, INR or Rs. are to Indian Rupees, the official currency of the Republic of India, all references to US\$ are to United States Dollars, the official currency of the United States of America, all references to GBP or £ are to Great Britain Pounds, the official currency of the United Kingdom, all references to EURO or € are to the official currency of the European Union, and all references to JPY are to the official currency of Japan. Any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off.

our ability to address risks relating to product liability, warrants and recall costs; and

our ability to reduce our cost of production and increase our operational efficiency.

For a further discussion of factors that could cause the Company's actual results to differ, see Risk Factors, Business and Management's Discussion and Analysis of Financial Condition and Results of Operations on pages xii, 49 and 119 respectively of this Letter of Offer. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Neither the Company nor the Lead Managers nor any of their respective affiliates or advisors have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI / Stock Exchanges requirements, the Company and Lead Managers will ensure that investors in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchanges.

RISK FACTORS

An investment in equity involves a high degree of risk and you should not invest any funds in this Issue unless you can afford to take the risk of losing your investment. You should carefully consider all of the information in this Letter of Offer, including the risks and uncertainties described below, before making an investment. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, financial condition and results of operations could suffer, the trading price of the Securities could decline and you may lose all or part of your investment. The financial and other implications or material impact of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are some risk factors where the impact is not quantifiable and hence has not been disclosed below. The ordering of the risk factors is intended to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

This Letter of Offer contains forward-looking statements that involve risks and uncertainties. The Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Letter of Offer.

You are advised to read the following risk factors carefully before making an investment in the Securities offered in this Issue. You must rely on your own examination of the Company and this Issue, including the risks and uncertainties involved. The Securities have not been recommended or approved by SEBI nor does SEBI guarantee the accuracy or adequacy of this document.

The Company, having made all reasonable inquiries, accepts responsibility for, and confirms that this Letter of Offer contains all information with regard to the Company and this Issue which is material in the context of this Issue, that the information contained in this Letter of Offer is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other material facts the omission of which make this document as a whole, or any of such information or the expression of any such opinions or intentions, misleading in any material respect.

Unless the context otherwise requires, Company, we, us and our refers to Tata Motors Limited and its consolidated Subsidiaries including Jaguar Land Rover. Except where otherwise stated, historical financial and operating data of the Company excludes Jaguar Land Rover. Unless otherwise stated, historical financial information of the Company is derived from the Company's consolidated audited restated financial statements excluding Jaguar Land Rover under Indian GAAP. Historical financial information of Jaguar Land Rover is derived from the unaudited summarised financial statements of Jaguar Land Rover prepared by the management of Jaguar Land Rover principally based on US GAAP.

Risks associated with Our Business

1. The Company is involved in litigation proceedings and cannot assure subscribers that it will prevail in these actions.

There are outstanding litigation proceedings against the Company, its Directors, Subsidiaries, Promoter, joint venture companies and group companies, which are incidental to the Company's business and operations. These legal proceedings are pending at different levels of adjudication before various courts and tribunals. Should any new developments arise, such as a change in law or rulings against the Company by appellate courts or tribunals, the Company may need to make provisions in its financial statements, which could adversely impact its reported financial condition and results of operations. Furthermore, if significant claims are determined against the Company and it is required to pay all or a portion of the disputed amounts, there could be a material adverse effect on the Company's business and profitability. The details of litigations involving the Company, Directors of the Company and its Subsidiaries are set forth below.

2. *General economic conditions could have a significant adverse impact on our sales and results of operations*

The Indian automotive industry is substantially affected by general economic conditions in India. The demand for automobiles in the Indian market is influenced by factors including the growth rate of the Indian economy, availability of credit, level of disposable income among Indian consumers, interest rates, freight rates and fuel prices. In the past, economic slowdowns have harmed manufacturing industries including the automobile and automobile components manufacturing industry. There can be no assurance that the Indian economy will not experience a downturn, and weakening of economic activity. Increases in interest rates, increases in inflation rates and/or increases in fuel prices are examples of developments that could impact general economic conditions in India and could lead to a decline in the demand for automobiles in the Indian market as well as impact our costs, which could significantly affect our sales and future results of operations in an adverse manner. More recently, adverse changes in economic factors including slowdown in industrial production, increase in fuel prices, higher inflation, reduction in availability of vehicle financing and higher interest rates, have impacted the demand for passenger and commercial vehicles. Such factors have impacted and are likely to continue to have an impact on the sales, product mix, costs and results of operations of automotive manufacturers, including us.

In addition to India, we also have automotive operations in South Korea and recently commenced operations in Thailand. Furthermore, Jaguar Land Rover has business operations in over 165 countries including many mature markets. The worldwide automotive industry is affected significantly by general economic conditions (among other factors) over which automobile manufacturers have little control. Consumer decisions as to whether and when to make a vehicle purchase may be affected significantly by general economic conditions, including the cost of purchasing and operating a vehicle and the availability and cost of credit and fuel. In view of recent high crude oil prices and weak economic conditions in certain large auto markets such as the US and Europe, many markets are witnessing or are likely to witness steep demand contraction. Jaguar Land Rover's strategy which consists of new product launches and expansion into growing markets such as China and Russia may not be sufficient to mitigate the decrease in demand for Jaguar Land Rover's products in established markets, which could have a significant adverse impact on Jaguar Land Rover's (and consequently the Company's) financial performance. Should industry demand soften beyond our expectations because of slowing or negative economic growth in key markets or other factors, our results of operations and financial condition could be substantially adversely affected.

Furthermore, any downgrade in the sovereign debt rating of India and/or a country where we have a Subsidiary for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and commercial terms on which such additional financing is available. This could have an adverse effect on our ability to obtain financing to fund our growth on favorable terms or at all and, as a result, could have a material adverse effect on our results of operations and financial condition.

Table of Contents

3. *Intensifying competition could materially and adversely affect our sales and results of operations.*

The Indian automobile industry is highly competitive. We face strong competition in the Indian market from domestic as well as foreign automobile manufacturers. Improving infrastructure and robust growth prospects compared to other mature markets is attracting a number of international companies to India who have either established joint ventures with local partners or have established independently owned operations in India. International competitors bring with them decades of international experience, global scale, advanced technology and significant financial resources. Domestic competition is likely to further intensify in the future. There can be no assurance that we will be able to implement our future strategies in a way that will mitigate the effects of increased competition in the Indian automotive industry.

As a result of our international growth strategy, we also face significant competition from global automobile manufacturers in markets outside of India, in particular for Jaguar Land Rover's line of vehicles. The global automotive industry is intensely competitive and competition is likely to further intensify in light of continuing globalization and consolidation in the worldwide automotive industry. Factors affecting competition include product quality and features, innovation and product development time, ability to control costs, pricing, reliability, safety, fuel economy, emission requirements, customer service and financing terms. Increased competition may lead to lower vehicle unit sales and increased inventory, which may result in a further downward price pressure and adversely affect our financial condition and results of operations. Our ability to maintain our competitiveness will be fundamental to our future success in existing and new markets. There can be no assurances that we will be able to compete successfully in the global automotive industry in the future.

4. *We are subject to risks associated with expansion into new segments and geographies.*

Our growth strategy relies on the expansion of our operations to new product segments in the automotive industry. As a consequence of our recent acquisition of Jaguar Land Rover, we have entered into the luxury performance car and premium all-terrain vehicle segments. Furthermore, we plan to enter new segments through investments in product development. The costs involved in entering and establishing ourselves in new segments that we are not familiar with, and expanding our operations into such segments may be higher than expected. Our products may not be accepted or we may not be successful in capturing market share in any of new product segments that we enter into which could adversely impact our results of operations.

Our growth strategy also relies on the expansion of our operations to other parts of the world, including Europe, Russia and other parts of Asia. The costs involved in entering and establishing ourselves in new markets, and expanding such operations, may be higher than expected, and we may face significant competition in those regions. In addition, our international business is subject to many actual and potential risks, including language barriers, cultural differences and other difficulties in staffing and managing overseas operations, inherent difficulties and delays in contract enforcement and the collection of receivables through the legal systems of some foreign countries, the risk of non-tariff barriers, other restrictions on foreign trade or investment sanctions, and the burdens of complying with a wide variety of foreign laws and regulations.

5. *Our major capital projects, including our plant at Singur, may not be completed, in the timeframe or at cost levels originally anticipated, and may not achieve the intended economic results.*

Currently, we are building new facilities in Singur in West Bengal and Dharwad in Karnataka, and we are expanding the capacities of our existing facilities at Pune, Jamshedpur and Lucknow. We have recently completed a new plant at Pantnagar, Uttarakhand which commenced its commercial operations in fiscal 2008. Our ability to successfully execute such projects in a timely manner is affected by factors such as delays in regulatory approvals, political unrest, technical difficulties, human, technological or other resource constraints, and may be affected by other unforeseen reasons, events or circumstances, some of which may be beyond our control.

The plant under construction at Singur is currently facing opposition due to political disputes over the process followed by the State Government in the acquisition of the land which has been leased to us by the State Government. While the land acquisition has been validated by the Calcutta High Court, the political disputes have persisted. Due to recent disturbances, we have temporarily suspended activities at the Singur site and are exploring alternative options at our existing/new sites.

Table of Contents

Capital projects may incur significant cost overruns and may not be completed on time or at all, which may significantly affect our results of operations. In addition, as a consequence of project delays, cost overruns, changes or lack of demand for our products or for other reasons, we may not achieve the economic benefits expected of these projects and our failure to obtain expected economic benefits from these projects could adversely affect our business, financial condition and results of operations.

6. *Our future success depends on our ability to satisfy changing customer demands by offering innovative and competitive products*

Our competitors can gain significant advantage if they are able to offer products satisfying customer needs earlier or better than we are able to, which could adversely impact our sales and results of operations. There can be no assurance that customers will be receptive to our products in the future or that market acceptance of our future products will meet our expectations, in which case we may be unable to realize the intended economic benefits of our investments and our results of operations may be adversely affected.

7. *Increases in input prices and other costs may have a material adverse impact on our results of operations.*

In fiscal 2008, 2007 and 2006 consumption of raw materials, components and aggregates, including processing charges, constituted approximately 69.7%, 69.3% and 68.9% respectively, of our net sales. The principal raw materials required for the production of motor vehicles are steel sheets, plates, castings, forgings and components, assemblies and aggregates. The raw materials, components and consumables that are domestically sourced include steel (sheet-metal, forgings and castings), tyres and tubes, batteries, fuel injection systems, air-oil filters and various consumables like paints, oils, thinner, welding materials, chemicals, adhesives, sealants and fuel. Certain aggregates like axles, engines, gear boxes and cabs are sourced from our Subsidiaries and associates. As a resource-intensive manufacturing operation, we are exposed to a variety of market risks, including the effects of changes in commodity prices. We monitor and manage these exposures as an integral part of our overall risk management program, which recognizes the unpredictability of markets and seeks to reduce the potentially adverse effects on our business. Nevertheless, changes in input prices cannot always be predicted or hedged. The costs at which we procure certain of our raw materials and inputs have been impacted due to the recent increase in the prices of commodities, especially steel. In addition to cost reduction measures, we also attempt to manage such increases through increases in the prices of our products. There can be no assurance that we will be able to pass on all cost increases to our customers or that such price increases will not result in reduced sales volumes. In addition, because of intense price competition and fixed costs, we may not be able to adequately address changes in input prices even if they are foreseeable. Substantial changes in these prices could have a substantial adverse effect on our financial condition and results of operations. Furthermore, our results of operations are also impacted on account of higher depreciation charges and inflation resulting in an increase in costs including employee costs.

8. *We are subject to risks associated with our automobile financing business such as defaults by our customers which may adversely affect our results of operations and financial condition. Furthermore, our results of operation may be affected by the rising interest rates.*

We are subject to the risks associated with our automobile financing business. Any defaults by our customers or inability to repay instalments when due could adversely affect our business, results of operations and cash flows. Some of our securitized pools have been downgraded recently by Indian rating agencies namely Crisil and ICRA based on performance of the portfolio including higher delinquencies. Such a downgrade in the credit ratings of the receivables pool may increase our borrowing costs and restrict our access to the debt markets. Over time, and particularly in the event of any credit rating downgrades, market volatility, market disruption or otherwise, we may need to reduce the amount of receivables we originate, which could adversely affect our ability to support the sale of our vehicles.

Table of Contents

As at March 31, 2008, the Company had Rs. 115,848.7 million of secured and unsecured loans, some of which is variable rate debt. If interest rates rise, interest payable on this debt will also rise, thus increasing the cost of new financing for the Company, increasing the Company's interest expense and hindering the Company's ability to implement its growth strategies. Such a rise in interest rates could materially and adversely affect the Company's results of operations and financial condition. Additionally, any increase in interest rates could lead to increased delinquencies in the Company's vehicle finance business, which would have a material adverse impact on the Company's results of operations and financial condition.

9. Underperformance of our distribution channels and disruptions in our supply chain may adversely affect our sales and results of operations.

Our products are sold and serviced through a network of dealers and authorised service centers across India, and a network of distributors and local dealers in international markets. We believe that we use adequate due diligence in the selection and appointment of our dealers and distributors. We also monitor the performance of our dealers and distributors and provide them with support so as to ensure that they perform to our expectations. There can be no assurance, however, that our expectations will be met and the under-performance by our dealers or distributors could adversely affect our sales and results of operations.

We rely on third parties to supply us with the raw materials, parts and components used in the manufacture of our products. Furthermore, for some of the parts and components, we are dependent on sole suppliers. Our ability to procure supplies in a cost effective and timely manner is subject to various factors, some of which are not always within our control. During the early part of fiscal 2008, we experienced constraints in the supplies of certain components and aggregates. While we manage our supply chain as part of our vendor management process, any significant problems with our supply chain in the future could affect our results of operations in an adverse manner.

10. Our ability to reduce our cost of production and thereby increase our operational efficiency is an essential part of our business strategy and we cannot assure you that our cost reduction measures will achieve the planned operational efficiencies we seek.

Reducing our cost of production is essential to our business strategy in a highly competitive market environment. Our cost reduction programme focuses on a combination of measures such as the effective management of our supply chain, the use of third party logistic providers, value engineering, process and productivity improvements and e-sourcing, and establishing a strategic sourcing group to consolidate, strategize and monitor our supply chain activities with respect to major items of purchase. In the past, these measures have provided us with the ability to effectively control our costs. Our measures to increase our operational efficiency may not yield similar results in the future, which may adversely affect our results of operations.

11. We are subject to risks of assuming product liability, warranty and recall costs which may adversely affect our results of operations and financial condition.

We are subject to risks and costs associated with product liability, warranty and recall should we supply defective products, components, parts, or related after-sales services, which could generate adverse publicity and adversely affect our business, results of operations and financial condition. Defects, if any, in our products could require us to undertake corrective actions or recall our products. Further, any defect in our products or after-sales services provided by authorized dealers or third parties could also result in customer claims for damages. Such actions and claims could require us to expend considerable resources in correcting these problems and could adversely affect demand for our products. Furthermore, defects in our products or spare parts may be covered under warranties provided by us.

Table of Contents

12. Increasing risks to the automobile industry due to rising fuel costs led by upward spiralling crude oil prices.

The recent surge in crude oil prices have increased fuel costs, which poses a significant challenge to automobile manufacturers worldwide, including us, especially in the commercial vehicle segments where fuel costs represent a significant portion of the operating costs of such vehicles.

In addition, continued or increased high prices for fuel, particularly in the US, could result in a further weakening of demand for luxury cars and SUVs. Continuation or acceleration of such a trend could materially and adversely impact Jaguar Land Rover's (and consequently the Company's) results of operations.

13. Currency and exchange rate fluctuations could adversely affect our results of operations.

We import capital equipment, raw materials and components and also sell our vehicles in various countries outside of India. These transactions are denominated in foreign currencies, primarily the US Dollar and Euro. Moreover, we have outstanding foreign currency denominated debt. On account of fluctuations in foreign currencies we have experienced gains and losses on account of conversions on transactions denominated in foreign currencies and period end reporting of assets and liabilities denominated in foreign currencies. Our contracts for export vehicles and foreign currency denominated debt, and consequently our results of operations, are and will continue to be affected by the volatility in foreign exchange rates. Continued depreciation of the Indian Rupee could result in further foreign exchange losses and provisioning for outstanding foreign currency denominated debt. We also have Subsidiaries in foreign countries including the UK, South Korea and US which have reporting currencies other than Rupees, and are therefore exposed to translation risks arising out of consolidating the results of the operations of these Subsidiaries. Going forward, the consolidation of Jaguar Land Rover will also expose us to translation risks which may significantly impact our results of operations and financial condition. Additionally, the results of Jaguar Land Rover are impacted by fluctuations in the value of the British Pound against the US Dollar and other currencies of key countries where Jaguar Land Rover has operations. Although we engage in currency hedging in order to decrease our foreign exchange exposure, we have experienced and expect to continue to experience foreign exchange losses and gains, and there can be no assurance that risks arising out of fluctuations in the value of the India Rupee against the US Dollar and other major currencies can be mitigated.

14. We are subject to risks associated with growing our business through mergers and acquisitions such as the failure to successfully integrate the merged/acquired entity with our existing business.

We have, in the past, grown in part through inorganic means such as our acquisition of TDCV, Jaguar Land Rover and merger of TFL with us, and we will continue to evaluate growth opportunities through suitable mergers and acquisitions in the future. Growth through mergers and acquisitions involve business risks, including unforeseen contingent risks or latent business liabilities that may only become apparent after the merger or acquisition is finalized, successful integration and management of the merged/acquired entity with us, retention of key personnel, joint sales and marketing efforts, management of a larger business and diversion of management's attention from other ongoing business concerns. If we are not able to manage these risks successfully, our results of operations could be adversely affected.

Table of Contents

15. Our business is seasonal in nature and a substantial decrease in our sales during certain quarters could have a material adverse impact on our financial performance.

The sales volumes and prices for our vehicles are influenced by the cyclical and seasonality of demand for these products primarily in the Indian market. Demand generally peaks between January and March, although there is a decrease in demand in February just before release of the Indian fiscal budget. Demand is usually lean from April to July and picks up again in the festival season from September onwards, with a decline in December due to year end. The automotive industry has been cyclical in the past and we expect this cyclical to continue.

The business of Jaguar Land Rover is impacted by the bi-annual registration of vehicles in the United Kingdom wherein the vehicle registration number changes every six months which, in turn has an impact on the resale value of the vehicles. This leads to a bunching up of sales during the period when the aforementioned change occurs. Most other markets are driven by introduction of new model year derivatives. Furthermore, western European markets tend to be impacted by main summer and winter holidays. The resulting sales profile influences operating results on a quarter to quarter basis.

16. The loss, shutdown or slowdown of operations at any of the Company's facilities or the failure of information technology systems, could have a material adverse effect on the Company's results of operations and financial condition.

The Company's facilities are subject to operating risks, such as the breakdown or failure of equipment, power supply interruptions, facility obsolescence or disrepair, labour disputes, natural disasters and industrial accidents. The occurrence of any of these risks could affect the Company's operations by causing production at one or more facilities to shut down or slow down. None of the Company's manufacturing facilities has experienced shutdowns which have had a material adverse impact on the Company's results of operations and financial condition in the last five years. Although the Company takes reasonable precautions to minimize the risk of any significant operational problems at its facilities, no assurance can be given that one or more of the factors mentioned above will not occur, which could have a material adverse effect on the Company's results of operations and financial condition.

Our information technology systems are a critical part of our business and help us manage key business processes such as product design and development, customer and dealer relationship management and transaction processing together with management information system. Any delays in implementing critical information management systems or technical failures associated with our information technology systems, including those caused by power failures, computer viruses or unauthorized tampering of our information technology systems, may adversely impact our ability to manufacture our products, manage our vendors and dealers and provide services to our customers. In addition, we may be subject to claims as the result of any theft or misuse of personal information stored on our systems.

17. We may be adversely affected by labour unrest.

All of our permanent employees, other than officers and managers, in India and most of our permanent employees in South Korea and the United Kingdom, including certain officers and managers, in relation to our automotive business, are members of labour unions and are covered by wage agreements with those labour unions which have different tenures at different locations. In general, we consider our labour relations with all of our employees to be cordial. However, we may in the future be subject to labour unrest (such as a lock-out in March 2000 in our Lucknow manufacturing facility which was lifted in September 2000 upon the formation of a new union) which may delay or disrupt our operations in the affected regions, including the acquisition of raw materials and parts, the manufacture, sales and distribution of products and the provision of services. If work stoppages or lockouts at our facilities or at the facilities of our major vendors occur or continue for a long period of time, our business, financial condition or results of operations may be adversely affected.

Table of Contents

18. Deterioration of residual values of Jaguar Land Rover vehicles can affect the result of operations of Jaguar Land Rover

A deterioration in residual values of Jaguar Land Rover products against that planned will result in higher lease rates and a corresponding reduction in customer demand. Jaguar Land Rover shares the potential cost of changes in the residual values of Jaguar Land Rover's leased vehicles between the estimate made at the time the lease was entered into and that existing at the end of the lease period, with providers of leasing arrangements including Ford Motor Credit Company. As a result, adverse changes in the residual values of Jaguar Land Rover products could have a material adverse affect on its financial performance.

19. Compliance with safety or emissions standards relating to our products or our manufacturing facilities, or other environmental and governmental regulation, may adversely affect our business and results of operations.

As an automotive manufacturing company, we are subjected to extensive governmental regulations regarding vehicle emission levels, noise, safety and levels of pollutants generated by our production facilities. In particular, Jaguar Land Rover has significant operations in the US and Europe which have stringent regulations relating to vehicular emissions. The proposed tightening of vehicle emissions regulations by the European Union will require significant costs of compliance for Jaguar Land Rover. Furthermore, the risk remains that legislation may impose requirements in excess of what the current planned design actions can achieve. Also, there is significant potential that consumer demands will take increasing account of fuel efficiency and emissions. While we are pursuing various technologies in order to meet the required standards in the various countries in which we operate, the costs of compliance with these required standards can be significant to our operations and may adversely impact our results of operations.

20. The Company's long-term success is dependent upon the services of competent and qualified employees.

The Company depends on its ability to attract, retain and motivate highly skilled and qualified people. An increasing attrition level amongst such people and our ability to attract and retain employees with the right capabilities and experience, could have a material effect on the Company's business and operations. In addition, the success of the Company's acquisitions may depend in part on its ability to retain management, design and engineering personnel of the acquired businesses.

21. Certain restrictive covenants in the Company's financing agreements may limit the Company's operational and financial flexibility and the Company's future results of operations and financial condition may be adversely affected if the Company is not able to comply with certain maintenance covenants contained in its financing agreements.

Some of the Company's financing agreements and debt arrangements set limits on and/or require it to obtain lender consents before, among other things, undertaking certain projects, issuing new securities, changing management, merging, consolidating, selling significant assets, creating subsidiaries or making certain investments. In addition, certain financial covenants may limit the Company's ability to borrow additional funds or to incur additional liens. Furthermore, the Company, through its indirect Subsidiary JaguarLandRover Limited, has borrowed US\$ 3,000 million under a short term bridge loan facility to partially fund the purchase consideration for the acquisition of Jaguar Land Rover from Ford completed on June 2, 2008. See *Objects of the Issue* on page 23 of the Letter of Offer for further details on the terms of this short term bridge loan.

In the past, the Company has been able to obtain required lender consents for such activities. However, there can be no assurance that the Company will be able to obtain such consents in the future. If the Company's financial or growth plans require such consents, and such consents are not obtained, the Company may be forced to forgo or alter its plans, which could adversely affect the Company's results of operations and financial condition.

Table of Contents

Certain of the Company's financing arrangements also include covenants to maintain certain debt to equity ratios, debt to earnings ratios, liquidity ratios, capital expenditure ratios and debt coverage ratios. The Company cannot assure prospective investors that such covenants will not hinder the Company's business development and growth in the future. In the event that the Company breaches these covenants, the outstanding amounts due under such financing agreements could become due and payable immediately. A default under one of these financing agreements may also result in cross-defaults under other financing agreements and result in the outstanding amounts under such other financing agreements becoming due and payable immediately. Defaults under one or more of the Company's financing agreements could have a material adverse effect on the Company's results of operations and financial condition.

22. *We have yet to receive or renew certain approvals or licenses required in the ordinary course of business, and the failure to obtain them in a timely manner or at all may adversely affect our operations.*

We require certain statutory and regulatory permits, licenses and approvals to operate our business. We have made renewal applications for certain approvals or licenses that have expired or that are required for our business but have not yet received these approvals or licenses. For instance, we have applied to the Jamshedpur Pollution Control Board to renew our application to authorize the Company to operate the Jamshedpur facility under the Hazardous Wastes (Management and Handling) Rules, 1989. Additionally, we have also made many applications under the Trademark Act, 1999, for registration of trademarks. For details, see *Government Approvals* on page 215 of this Letter of Offer. If we fail to obtain the necessary approvals required by us to undertake our business, or if there is any delay in getting the necessary approvals, our business and our financial condition may be materially and adversely impacted.

23. *Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject and this may have a material adverse effect on our business.*

While we believe that the insurance coverage that we maintain is reasonably adequate to cover all normal risks associated with the operation of our business, there can be no assurance that any claim under our insurance policies will be honoured fully or timely. Accordingly, to the extent that we suffer loss or damage that is not covered by insurance or which exceeds our insurance coverage, our financial condition may be affected.

24. *The Company intends to issue additional equity interests in the Company, in which case your shareholdings may be diluted.*

In addition to this simultaneous but unlinked rights issues of the Securities, the Company has obtained Shareholders approval vide postal ballot on July 14, 2008 for an issue of Ordinary Shares, A Ordinary Shares and/or securities linked to, or convertible into Ordinary Shares/ A Ordinary Shares, including, but not limited to, depositary receipts in the international market for an amount not more than US\$ 1 billion, in one or more tranches. See *Capital Structure* and *Management's Discussion and Analysis of Financial Condition and Results of Operations - Financing of the Jaguar Land Rover Acquisition* on pages 15 and 135, respectively, of this Letter of Offer. In the future, the Company may also issue additional equity/ equity related securities in order to, among other reasons, fund capital expenditures, acquisitions and working capital. The issuance of Ordinary Shares and/or A Ordinary Shares by the Company, whether directly or following the exercise of rights or warrants or the conversion of convertible securities, will dilute the equity interests of the Company's shareholders and could depress the prevailing market price of the Company's shares. Additionally, the Company has outstanding convertible debt securities that may be converted into our equity securities and this could further dilute the equity interests of the Company's shareholders.

Table of Contents**25. Tata Sons Limited, our Promoter, currently holds approximately 21.91% of the Company's Ordinary Shares and may be in a position to influence the result of shareholders' voting.**

The Promoter of the Company is Tata Sons Limited (Tata Sons), which at September 12, 2008 beneficially owned approximately 21.91% of the Company's Ordinary Shares. At the same date, Tata Sons, along with other Tata Companies and related trusts, together held approximately 33.39% of the Company's Ordinary Shares. As a result of this Issue, Tata Sons, along with other Tata Companies and related trusts, may increase its stake in the Company as it may subscribe for additional Securities to the extent any Securities are not otherwise subscribed for in this Issue. Under Indian law, certain major corporate actions such as mergers, issuance of further ordinary shares, remuneration of directors and the winding up of the Company, require the approval of 75% of the voting power of the Company's shares. Consequently, Tata Sons, along with other Tata Companies may be in a position to influence the result of shareholders voting in such instances.

26. We have certain contingent liabilities not provided for which may adversely affect our financial condition.

29. Compliance with new and changing corporate governance and public disclosure requirements adds uncertainty to our compliance policies and increases our costs of compliance.

Changing laws, regulations and standards relating to accounting, corporate governance and public disclosure, including the US Sarbanes-Oxley Act of 2002 and new US Securities and Exchange Commission regulations, SEBI regulations, New York Stock Exchange listing rules and Indian stock market listing regulations, have increased complexity for us. These new or changed laws, regulations and standards may lack specificity and are subject to varying interpretations. Their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies. This could result in continuing uncertainty regarding compliance matters and higher costs of compliance as a result of ongoing revisions to such governance standards.

We will undertake management assessments of our internal controls over financial reporting in connection with each annual report that we are required to file with the appropriate authorities. We are committed to maintaining high standards of corporate governance and public disclosure. However, our efforts to comply with evolving laws, regulations and standards in this regard have resulted in, and are likely to continue to result in, increased general and administrative expenses and a diversion of management resources and time.

Risks Relating to the Acquisition of Jaguar Land Rover

30. Pursuant to the acquisition and due to the differences in US GAAP and Indian GAAP, our historical financials may not be comparable

The recent acquisition of Jaguar Land Rover will have a material impact on the Company's future financial condition and results of operations and neither pro forma nor historical consolidated financial statements showing the combined results of operations and financial condition of the Company, including Jaguar Land Rover, have been prepared.

On June 2, 2008, the Company completed the acquisition of Jaguar Land Rover from Ford. Therefore, the historical consolidated financial statements of the Company for the fiscal years ended on and before March 31, 2008 do not include the results of Jaguar Land Rover. Furthermore, the combined financial information of TML does not include the results of Jaguar Land Rover for the period from June 2, 2008 to June 30, 2008 and is subject to limitations as provided under "Material Developments" on page 158 of this Letter of Offer. As a result of the acquisition of Jaguar Land Rover, the Company's financial condition and results of operations in the future will differ materially from the Company's historical financial data included in this Letter of Offer.

This Letter of Offer includes the unaudited summarized income statement and the unaudited summarized statement of assets and liabilities of Jaguar Land Rover as at and for the years ended December 31, 2007, 2006, 2005 and 2004. In addition, the unaudited summarized income statement for the period from June 2, 2008 to June 30, 2008 and from January 1, 2008 to June 1, 2008 have also been included in the Letter of Offer. These unaudited summarized financial statements of Jaguar Land Rover have been prepared principally based on US GAAP while the financial statements of the Company have been prepared under Indian GAAP. No attempt has been made to reconcile or quantify the effect of any differences between Indian GAAP and US GAAP. Investors will need to make their own assessment as to the impact of the acquisition of Jaguar Land Rover on the Company's future financial condition and results of operations.

Table of Contents

Different fiscal periods may make it difficult to compare the performance and financial condition of the Company and Jaguar Land Rover or to estimate the consolidated performance of the Company in the future. In making an investment decision, prospective investors must rely upon their own examination of the Company, the terms of the offering and the financial information contained in this Letter of Offer.

31. We have incurred a substantial amount of indebtedness in connection with the acquisition of Jaguar Land Rover, and our proposed repayment of the short term bridge loan facility availed may be delayed, any of which could adversely affect our future business performance and financial condition.

The Company acquired Jaguar Land Rover for a purchase consideration of US\$ 2,300 million on cash free and debt free basis. The Company's indirect Subsidiary JaguarLandRover Limited, borrowed US\$ 3,000 million under a short term bridge loan facility to partially fund the purchase consideration for the acquisition of Jaguar Land Rover. The short term bridge loan is guaranteed by the Company. See Management's Discussion and Analysis of Financial Condition and Results of Operations Financing of the Jaguar Land Rover Acquisition and Objects of the Issue on pages 135 and 23 respectively of this Letter of Offer for further details on the acquisition of Jaguar Land Rover and short term bridge loan facility.

As at March 31, 2008, the Company had Rs. 115,848.7 million of secured and unsecured loans. The Company's substantial level of indebtedness will increase the possibility that it may be unable to generate cash sufficient to pay, when due, the principal of, interest on or other amounts due in respect of its indebtedness, require the Company to dedicate a substantial portion of its cash flow from operations to payments on its indebtedness thereby reducing the availability of its cash flow to fund working capital, capital expenditures, acquisitions and other general corporate purposes, materially impact the Company's ability to pay dividends in the future; and lead to a downgrade of the Company's credit rating by international and domestic rating agencies, thereby adversely impacting the Company's ability to raise additional financing and the interest rates and commercial terms on which such additional financing is available. Furthermore, interest rates have been impacted due to certain monetary measures taken by RBI in order to curb inflationary pressures during the latter part of fiscal 2008 and early part of fiscal 2009, thereby increasing borrowing costs and more on account of higher indebtedness to cater to our capital expenditure and business development plan including the acquisition of Jaguar Land Rover. The Company's long term debt rating has been recently downgraded from BB+ to BB by Standard & Poor's, from Ba1 to Ba2 by Moody's, from LAA+ to LAA by ICRA and from AA+ to AA- by CRISIL.

As described under Management's Discussion and Analysis of Financial Condition and Results of Operations Financing of the Jaguar Land Rover Acquisition on page 135 of this Letter of Offer, in addition to this simultaneous but unlinked rights issues of the Securities, we intend to refinance the short term bridge loan of US\$ 3,000 million related to our acquisition of Jaguar Land Rover through an issuance of Ordinary Shares, A Ordinary Shares and/or securities linked to, or convertible into Ordinary Shares/ A Ordinary Shares, including, but not limited to, depositary receipts in the international market for an amount aggregating approximately US\$ 500/600 million and raise the balance amount through other measures such as monetization of a part of the Company's investments through a phased divestment of certain investments (preferably as inter-group sales wherever feasible) at prevailing market prices, and asset based lending facilities and optionally convertible loans at Jaguar Land Rover/ JaguarLandRover Limited.

The execution of our refinancing plan is subject to various risks, including, among other things: (i) the receipt of any other regulatory or corporate approvals that are necessary, (ii) market conditions, and (iii) foreign currency movements.

We cannot assure you that any of the conditions for our funding plans will be satisfied. If we or any other relevant parties are unable to satisfy any of the conditions for our funding plans or satisfy these conditions in the time frame that we expect, we may not be able to repay the short term bridge loan in respect of the Jaguar Land Rover acquisition in the time frame that we expect, which could materially adversely affect our future business performance and financial condition. In addition, our

Table of Contents

costs of borrowing depend in part on our credit ratings by international and domestic rating agencies. A downgrade of our rating for foreign or local currency borrowings could adversely impact our ability to raise the amount proposed under our funding plans through the incurrence of debt and the interest rates at which such financing alternatives may be available to us.

32. *We may fail to realize the anticipated benefits of the Jaguar Land Rover acquisition and the acquisition may also expose us to uncertainties and risks, any of which could adversely affect our future business performance and financial condition.*

We believe that the Jaguar Land Rover acquisition represents an important transaction for us, allowing us to participate immediately in the luxury performance car and premium all-terrain vehicle segments, bolster our global market position, provide business diversity, improve our overall competitiveness and enable our sustainable long-term growth plan.

However, the acquisition may not meet our expectations and the realization of the anticipated benefits may be blocked, delayed or reduced as a result of numerous factors, some of which are outside our control. These factors may include, among other things:

1. difficulties in effectively managing, developing and overseeing the operations of Jaguar Land Rover, including its financial requirements, if any, information systems, policies and procedures;
2. unforeseen contingent risks or latent liabilities relating to the acquisition that may become apparent in the future;
3. difficulties in managing a much larger business;
4. loss of key personnel;
5. the lack of cooperation between Jaguar Land Rover and Ford in areas such as engine supplies, design and development;
6. the selection of financial services partners to provide financing for Jaguar Land Rover dealers and customers, particularly in the US; and
7. the possible deficit in Jaguar Land Rover's pension plan.

Any of the above could adversely impact our anticipated benefits from the acquisition and could materially and adversely affect our future business performance and financial condition.

33. *We may fail to successfully integrate various Subsidiaries, divisions and properties which comprise our Jaguar Land Rover business.*

Prior to the acquisition of Jaguar Land Rover by the Company, the business of Jaguar Land Rover comprised a number of subsidiaries (including national sales companies), several divisions and the Halewood facility all of which were integrated into Ford. Under the acquisition process, certain divisions relating to Jaguar Land Rover were carved out and either transferred to existing companies or to new companies formed as a part of the reorganization process. These companies together with the existing subsidiaries and the Halewood facility relating to Jaguar Land Rover were re-constituted under Jaguar Cars Limited and Land Rover which are subsidiaries of JaguarLandRover Limited, TML's indirect Subsidiary. However, certain of these divisions relating to distribution operations in 15 countries will be transferred by Ford to Jaguar Land Rover on completion of pending formalities and receipt of local regulatory approvals.

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

The integration of these various subsidiaries, divisions and the Halewood facility which comprise Jaguar Land Rover presents significant challenges including integrating geographically dispersed operations, developing and improving internal administrative infrastructure, including financial, operational, communications and other internal systems, and developing and preserving a uniform culture, values and work environment. There can be no assurance that we will be able to effectively integrate Jaguar Land Rover within the expected time frame, which could adversely impact our results of operations.

34. *The summarised financial statements of Jaguar Land Rover have not been audited by an independent auditor and are subject to certain limitations.*

This Letter of Offer includes the unaudited summarized income statement and the unaudited summarized statement of assets and liabilities of Jaguar Land Rover as at and for the years ended December 31, 2007, 2006, 2005 and 2004. In addition, the unaudited summarized income statement for the period from June 2, 2008 to June 30, 2008 and from January 1, 2008 to June 1, 2008 have also been included in the Letter of Offer.

Prior to the acquisition of Jaguar Land Rover by the Company, the business of Jaguar Land Rover comprised a number of subsidiaries (including national sales companies), several divisions and the Halewood facility all of which were integrated into Ford. The unaudited summarized statement of income and unaudited summarized statement of assets and liabilities in relation to Jaguar Land Rover included in the Letter of Offer have been prepared by combining the underlying management accounts of subsidiaries, divisions and the Halewood facility principally based on US GAAP. Furthermore, these unaudited financial statements have been combined based on certain assumptions that may not necessarily be in accordance with US GAAP. For further details see Summary Financial Information of Jaguar Land Rover on page 141 of this Letter of Offer.

In addition, these summarized financial statements have been prepared by the management of Jaguar Land Rover and have not been audited by an independent auditor.

For further information see the basis of preparation on the unaudited summarized financial statements of Jaguar Land Rover and notes forming part thereof included in Summary Financial Information of Jaguar Land Rover on page 141 of this Letter of Offer.

Furthermore, the unaudited summarized financial statements have been prepared by the Jaguar Land Rover management principally based on US GAAP. In accordance with US GAAP - Statement of Financial Accounting Standards No. 141, Business Combinations (Financial Accounting Standard 141) all tangible and intangible assets and liabilities should be revalued at fair value in the opening balance sheet following acquisition. This process has not yet been completed for Jaguar Land Rover, and therefore the financials statements of Jaguar Land Rover going forward may materially differ from the unaudited summarized statement of assets and liabilities as at December 31, 2007.

35. *Jaguar Land Rover had incurred losses in previous years and the combined financial performance of the Company may be affected in the future by the performance of Jaguar Land Rover.*

Based on the unaudited summarized statement of income, although Jaguar Land Rover had earnings before interest and tax (prior to adjustments) of US\$ 650 million for the year ended December 31, 2007, it has reported losses in previous years, most recently for the year ended December 31, 2006. In addition, for the period from January 1, 2008 to June 1, 2008, while Jaguar Land Rover had earnings before interest and tax (prior to adjustments) of US\$ 625 million, it reported a loss after tax. For further details see Summary Financial Information of Jaguar Land Rover on page 141 of this Letter of Offer. The continued profitability of Jaguar Land Rover depends on successful execution of its business strategies, including sustained cost savings and successful introduction of its new models. The financial performance of the Company, including its profit margins and its operating ratios, may be affected in the future by the performance of Jaguar Land Rover.

Table of Contents**36. *Future pension expenses at the Company's Jaguar Land Rover operations, based on actuarial assumptions, may prove more costly than currently anticipated and the market value of assets in Jaguar Land Rover's pension plan could decline.***

Jaguar Land Rover provides pension benefits for substantially all of its employees in the United Kingdom under three defined benefit plans namely the Jaguar Pension Plan (JPP), Jaguar Executive Pension Plan (JEPP) and the Land Rover Pension Scheme (LRPS) (collectively, UK Pension Plans). A formal valuation of the liabilities must be performed by qualified actuaries (using various financial and demographic assumptions about future events) and agreed by the company and trustees every 3 years.

The UK Pension Plans were valued in 2006, following which Jaguar Land Rover and the trustees to the pension plans agreed on contributions to eliminate the deficits in these plans by 2015. The contributions were weighted towards the later part of this period. The next valuation was scheduled for 2008.

In 2007, as part of the sale process, Ford entered into agreements with the trustees of the JPP, JEPP and the LRPS, under which Ford agreed to contribute towards the deficits of the UK Pension Plans. Prior to this, the estimated deficits as at October 31, 2007, amounted to GBP 120 million for JPP, GBP 9 million for JEPP and GBP 115 million for LRPS, on a closed fund basis using similar assumptions as used for a valuation conducted in 2006. However, as per the agreement reached between Ford and the trustees, Ford contributed a total of GBP 301.5 million into the three UK Pension Plans prior to the Acquisition.

The deficits in the UK Pension Plans may have changed since October 31, 2007 given market volatility and potential changes in valuation factors. However, no formal funding valuations have been carried out since then either by the Company, Jaguar Land Rover or by the trustees. The next formal funding valuations of the UK Pension Plans are scheduled for April 2009.

In the event that the actuarially determined liabilities exceed the plans' assets at that time, Jaguar Land Rover would have to agree on new contributions with the trustees to fund the deficit over such period of time as is agreed between Jaguar Land Rover and the trustees. Higher contributions could have an adverse effect on the financial position of Jaguar Land Rover. Some issues which could adversely affect Jaguar Land Rover's contributions to the UK and non-UK pension plans, include, poor investment performance of pension fund assets, changes in market conditions, changes in interest rates, changes in inflation rates, changes in life expectancy assumptions and other events which make past service benefits more expensive than allowed for in the actuarial assumptions by reference to which the past contributions to the pension plans were assessed.

Additionally, Jaguar Land Rover employees in other jurisdictions are covered under local pension plans which have either been transferred directly to Jaguar Land Rover as part of the acquisition or for which Jaguar Land Rover is in the process of negotiating pension benefits and establishing new pension plans.

For more information, see Business The Jaguar Land Rover Business Pensions on page 74 of this Letter of Offer.

37. *Jaguar Land Rover has entered into supply and transitional services agreements with Ford and certain other third parties for critical components and other corporate services, and any disruption of such transitional services could have a material adverse impact on the operations and financial position of Jaguar Land Rover.*

Under Ford ownership, Jaguar Land Rover has been dependent on Ford for critical components such as engines, technology and other corporate services. In this regard,

1. Long term agreements have been entered with Ford for technology sharing and joint development providing technical support across a range of technologies focussed mainly around powertrain engineering such that Jaguar Land Rover may continue to operate according to its existing business plan;

Table of Contents

2. Supply Agreements, ranging for a duration of seven to nine years, were entered into with Ford for (i) the long term supply of engines developed by Ford, (ii) engines developed by Jaguar Land Rover but manufactured at Ford plants and (iii) engines from Ford-PSA cooperation;
 3. Transitional Support Agreements of varying durations of up to 18 months were entered into with Ford for support in areas such as information technology, accounting and treasury services, marketing and purchasing services; and
 4. Ford Motor Credit Company (Ford Motor Credit) will continue to provide consumer and wholesale credit support to the dealers and customers of Jaguar Land Rover for up to 12 months in various markets following our acquisition of Jaguar Land Rover.
- There can be no assurance that all elements of the transition of Jaguar Land Rover from Ford will be effected smoothly, even with these transitional arrangements in place. A disruption in any of these services may adversely impact our operations and financial performance and result in a delay of the anticipated benefits we expect to realize from the acquisition.

In particular, the length and extent of the arrangements with Ford and Ford Motor Credit directly and PSA indirectly mean that Jaguar Land Rover has a significant counterparty risk in relation to those entities and default in performance by any of them, whether operational, quality related, financial or solvency related, could have a material impact on Jaguar Land Rover's operations and financial performance and result in a delay of the anticipated benefits we expect to realize from the acquisition.

Furthermore, the supply agreements contain certain volume commitments that could have an adverse affect on Jaguar Land Rover's financial performance should the volume of purchase under such arrangements fall below certain levels.

Risks associated with the A Ordinary Shares

38. *The implementation of rights relating to A Ordinary Shares has not been demonstrated and SEBI or other regulatory authorities may, in the future, issue new rules or guidelines relating to equity shares with differential rights as to voting and dividends.*

The issuance of the A Ordinary Shares on a rights basis in this Issue is being made by the Company, *inter alia*, under the provisions of the Companies Act, the Companies (Issue of Share Capital with Differential Voting Rights) Rules, 2001 (the DVR Rules) and the provisions of our Articles of Association. This is the first issuance of A Ordinary Shares by the Company and there are few comparable instances of issuances of equity shares with differential rights as to voting and dividend by Indian listed companies of our market capitalization and size. While we believe that the Company is sufficiently empowered under the Companies Act, the DVR Rules and the provisions of our Articles of Association to issue Ordinary Shares with differential voting rights, the implementation of the rights pertaining to A Ordinary Shares has not been demonstrated nor is there any regulatory or judicial guidance in relation to these rights. In addition, as per a press release dated August 29, 2008 released by the Government of India, the Companies Bill, 2008 proposes to introduce certain amendments to the regulatory regime governing shares with differential rights as to dividend and / or voting rights, which may adversely affect the rights of the holders of the A Ordinary Shares. However, the Companies Bill, 2008 has not been placed before the Parliament as yet and the actual provisions of the Companies Bill, 2008 could be different from those described in the aforesaid press release.

In the event any regulatory or judicial authority were to issue rules or guidelines relating to equity shares with differential rights as to voting and dividends by Indian listed companies, the terms of the Issue, including the rights of A Ordinary Shareholders, may have to be varied. Further, pursuant to any such new rules or guidelines or otherwise, a shareholder or third party may dispute the issuance of the A Ordinary Shares and/or rights pertaining thereto. Investors are advised to make their own judgment about investment in A Ordinary Shares. It may be noted that the Issue Price of A Ordinary Shares is lower than the Issue Price of Ordinary Shares.

xxx

Table of Contents

Further, the question of issuance of equity shares with differential voting rights is under consideration by the Company Law Board and/or the Central Government in a case unconnected with the Company and this Issue. In the event the outcome in any such unconnected matter requires any changes in the terms of this Issue and/or the right pertaining to the A Ordinary Shares, the Company shall take appropriate legal and regulatory steps as may be required.

For a description of rights relating to A Ordinary Shares, see Terms of the Present Issue Principal Terms of the Securities A Ordinary Shares Rights of A Ordinary Shareholders on page 244 of this Letter of Offer.

39. *The rights of the A Ordinary Shareholders against the Company or vis-à-vis other Ordinary Shareholders may be contested.*

Our Articles of Association provide that the A Ordinary Shareholders will *mutatis mutandis* enjoy all rights and privileges that are enjoyed by Ordinary Shareholders in law and under the Articles of Association, except as to voting and dividend or as provided in the Articles of Association or as may be permitted under applicable law from time to time. Whilst we believe that these rights, including rights against the Company and *vis-à-vis* other Ordinary Shareholders are enforceable, there is no assurance that the same will not be contested or that the enforceability of the same will be upheld. For instance, the rights of the A Ordinary Shareholders: (i) to receive dividends at a rate greater than the rate of dividend declared on Ordinary Shares, (ii) to attend general meetings and class meetings, as a part of the same class as Ordinary Shareholders and exercise differential voting rights, unless prohibited by law, in person or by proxy, (iii) to receive offers for rights shares and be allotted bonus shares, if announced in the same proportion as the Ordinary Shareholders in any rights issue or bonus issue made by the Company, or (iv) to receive an offer in the same proportion as offered to the Ordinary Shareholders in any buy-back offer made by the Company, in accordance with the SEBI (Buy-Back) of Securities Regulations, 1998 and other applicable laws, may be challenged.

Further, there is no regulatory or judicial guidance in relation to the rights attached to the A Ordinary Shares. A regulatory or judicial authority may interpret the provisions in our Articles of Association and applicable law in relation to the A Ordinary Shares in a manner that is less favourable to the A Ordinary Shareholders than contemplated by the Company and included in its Articles of Association. There is no assurance that the Company or the A Ordinary Shareholders will be successful in defending any such challenge. In any such event, the rights and interests of A Ordinary Shareholders may be at risk and may affect the price and tradability of the A Ordinary Shares.

40. *The A Ordinary Shareholders may not be able to enforce certain of their rights in respect of third party actions.*

As stated above, our Articles of Association provide that the A Ordinary Shareholders will *mutatis mutandis* enjoy all rights, and privileges that are enjoyed by Ordinary Shareholders in law and under the Articles of Association, except as to voting and dividend or as provided in the Articles of Association or as may be permitted under applicable law from time to time. These rights of A Ordinary Shareholders include rights in relation to certain third party actions and rights against the Company and *vis-à-vis* other Ordinary Shareholders. Whilst we believe that the rights in respect of third party actions are available to the A Ordinary Shareholders and have been provided for in our Articles of Association, the implementation of these rights has not been demonstrated. Further, there is no regulatory or judicial guidance in relation to these rights. These include the rights of the A Ordinary Shareholders (i) in an amalgamation or merger of the Company, (ii) in an open offer under the Takeover Code, or (iii) in the event of delisting of any of the Securities. There is no assurance that the rights of the A Ordinary Shareholders in respect of third party actions will be enforceable against the third parties.

Table of Contents

If any of the aforesaid rights, or other rights of the A Ordinary Shareholders in respect of third party actions, are held to be unenforceable or given a more restrictive interpretation, the rights and interests of A Ordinary Shareholders may be at risk and may affect the price and tradability of the A Ordinary Shares.

41. There is no existing market for the A Ordinary Shares and an active market for the A Ordinary Shares has to develop, which may adversely affect the price of the A Ordinary Shares.

The A Ordinary Shares are a new issue of securities for which there is currently no trading market. In-principle approval has been received from the BSE and the NSE for the listing of the A Ordinary Shares. No assurance can be given that an active trading market, the ability of holders to sell their A Ordinary Shares or the price at which the A Ordinary Shares may be sold. If an active market for the A Ordinary Shares fails to develop or be sustained, the trading price of the A Ordinary Shares could be adversely affected.

The price at which the A Ordinary Shares will trade depends on many factors, including: (i) the market price of the Ordinary Shares; (ii) the market for similar securities; (iii) general economic conditions; and (iv) the Company's financial condition, results of operations and future prospects. Investors should note that the trading price of A Ordinary Shares may be different from the trading price of Ordinary Shares and the price at which the existing Ordinary Shares trade should not be taken as an indication of the price at which the A Ordinary Shares will trade upon listing.

Risks associated with Investments in an Indian Company

42. Terrorist attacks, civil disturbances, regional conflicts and other acts of violence, particularly in India, may disrupt or otherwise adversely affect the markets in which we operate, our business and our profitability.

Our business may be adversely affected by a war, terrorist attacks, regional conflicts and other acts of violence. Such acts of violence or terrorism could have a direct negative impact on us or an indirect impact on us by, for example, affecting our customers, the financial markets or the economies in which we operate.

India has from time to time experienced social and civil unrest and hostilities, including terrorist attacks and riots and armed conflict with neighbouring countries. Events of this nature in the future could have a material adverse effect on our ability to develop our business. As a result, our business, results of operations and financial condition may be materially adversely affected.

43. Financial instability in financial markets could materially and adversely affect the Company's results of operations and financial condition.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in Asian emerging market countries. Financial turmoil in US, Asia, Russia and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy

Table of Contents

44. The extent and reliability of Indian infrastructure could adversely impact the Company's results of operations and financial condition.

India's physical infrastructure is less developed than that of many developed nations and problems with its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt the Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt the Company's business operations, which could have a material adverse effect on the Company's results of operations and financial condition.

45. Changes in policies of the Government of India could adversely impact the Company's results of operations and financial condition.

A significant proportion of the Company's production facilities are located in India, and a significant portion of its revenue is derived from sales of its products in the Indian market. Consequently, the Company itself, and the market price and liquidity of its shares, may be affected by policy changes in India. For example, the imposition of foreign exchange controls, rising interest rates, increases in taxation or the creation of new regulations could have a detrimental effect on the Indian economy generally and the Company in particular.

Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has in recent years sought to implement economic reforms, and the current Government has implemented policies and undertaken initiatives that continue the economic liberalization policies pursued by previous Governments. For example, the Indian Government has announced its general intention to continue India's current economic and financial sector deregulation policies and encourage infrastructure projects. However, the roles of the Government of India and the State Governments in the Indian economy as producers, consumers and regulators have remained significant and there can be no assurance that liberalization policies will continue in the future. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India generally and the Company's results of operations and financial condition in particular. Furthermore, we are also impacted by political instability in the states where we operate.

Furthermore, India's obligation under its World Trade Organisation Agreement could lower the present level of tariffs on imports of components and vehicles particularly with respect to cars in completely built units and/or completely knocked down units, which could adversely affect our sales and results of operations.

46. If natural disasters occur in India, our results of operations and financial condition could be adversely affected.

India has experienced floods, earthquakes, tsunamis, cyclones and droughts in recent years. Such natural catastrophes could disrupt our operations, production capabilities, distribution chains or damage our facilities located in India. For example, in December 2004, Southeast Asia, including the eastern coast of India, experienced a tsunami and in October 2005, the State of Jammu and Kashmir experienced an earthquake, both of which caused significant loss of life and property damage.

Additionally, in the event of a drought, the State Governments in which our facilities are located could cut or limit the supply of water to our facilities, thus adversely affecting our production capabilities, and reducing the volume of products we can manufacture and consequently reducing our revenues. We cannot assure prospective investors that such events will not occur in the future, or that our results of operations and financial condition will not be adversely affected.

47. A third party could be prevented or deterred from acquiring control of the Company because of the takeover regulations under Indian law.

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of the Company. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of the Company. Consequently, even if a potential takeover of the Company would result in the purchase of the equity shares at a premium to their market price or would otherwise be beneficial to shareholders, it is possible that such a takeover would not be attempted or consummated because of Indian takeover regulations.

48. The market value of an investor's investment may fluctuate due to the volatility of the Indian securities markets.

Indian securities markets are more volatile than the securities markets in certain countries which are members of the OECD. Stock Exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities. For example, in May 2006, Indian stock exchanges witnessed substantial volatility as the BSE and the NSE, India's main stock exchanges, halted trading for one hour on May 22, 2006 after their respective indices fell more than 10 percent. The market price of our Ordinary Shares could fluctuate significantly as a result of market volatility.

The Indian Stock Exchanges have experienced problems which, if they were to continue or recur, could affect the market price and liquidity of the securities of Indian companies, including the equity shares. These problems have included temporary exchange closures, broker defaults, settlement delays and strikes by brokerage firm employees. In addition, the governing bodies of the Indian stock exchanges have from time to time imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Furthermore, from time to time, disputes have occurred between listed companies and stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on market sentiment.

49. You may not receive the Securities that you subscribe for in this Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.

The Securities you purchase in this Issue will not be credited to your demat account with depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Securities only after receipt of listing and trading approvals in respect thereof. There can be no assurance that the Securities allocated to you will be credited to your demat account, or that trading in the Securities will commence within the specified time periods. Furthermore, since the Ordinary Shares of the Company are already listed on Stock Exchanges, you will be subject to market risk from the date you pay for the Ordinary Shares to the date they are listed.

GENERAL INFORMATION

Dear Shareholder(s),

Pursuant to the resolutions passed by the Board of Directors of the Company at its meetings held on May 28, 2008 and August 20, 2008 and by the Committee of Directors at its meeting held on September 2, 2008 it has been decided to make the following offer to the Ordinary Shareholders of the Company, with a right to renounce:

Simultaneous but unlinked issue of 64,276,164 Ordinary Shares of Rs. 10 each at a premium of Rs. 330 per Ordinary Share aggregating Rs. 21,853.9 million in the ratio of one Ordinary Share for every six Ordinary Shares held on the record date i.e. September 16, 2008; and 64,276,164 A Ordinary Shares of Rs. 10 each at a premium of Rs. 295 per A Ordinary Share aggregating Rs. 19,604.2 million in the ratio of one A Ordinary Share for every six Ordinary Shares held on the record date. Total Proceeds from the Issue of Ordinary Shares and A Ordinary Shares would aggregate to Rs. 41,458.1 million.

The Company has, pursuant to its letter dated August 25, 2008, sought a confirmation from the FIPB that no approval of the FIPB is required for the Company to undertake a rights issue of its Ordinary Shares and A Ordinary Shares to its existing shareholders, including persons resident outside India, such as foreign institutional investors and non-resident Indians, with a right to renounce and the FIPB response is awaited.

The Company has, pursuant to its letter dated September 8, 2008, sought a waiver from SEBI for making a new listing application under Regulation 19(4) of the SCRR for the A Ordinary Shares.

The RBI has by its letter dated September 17, 2008 permitted renunciation of rights entitlement in this Issue by a Shareholder of the Company resident in/outside India (excluding OCBs) to any person resident outside India subject to the conditions prescribed therein, including the applicable guidelines on pricing.

Any renunciation other than as stated above is subject to the renouncer(s)/renounee(s) obtaining the approval of the FIPB and/or necessary permission of the RBI under the FEMA and such permissions should be attached to the CAF. Applications not accompanied by the aforesaid approvals are liable to be rejected.

In the opinion of the Board of Directors, the resources of the Underwriters are sufficient to enable them to discharge its underwriting obligations in full.

The Promoters, Tata Steel Limited and Tata Industries Limited have undertaken that in case any part of the A Ordinary Shares remain unsubscribed and the Underwriters are required to underwrite in excess of 35% of the A Ordinary Shares, the entire shareholding of the Promoter, Tata Steel Limited and Tata Industries Limited would be subject to lock up of 90 days from the date of the devolvement notice issued by the Company to the Underwriters pursuant to the terms of the Underwriting Agreement. This restriction shall not apply to any Ordinary Shares that the Promoter, Tata Steel Limited and Tata Industries Limited may subscribe to in addition to their full rights entitlement of Ordinary Shares and to any pledge given to secure any loans granted to the Promoters/ promoter group or the Company or its subsidiaries.

The Company has also agreed that except as disclosed in Capital Structure on page 15 of this Letter of Offer, it shall not, without the prior written consent of the Underwriters, for a period of 180 days from the date of listing of the Securities, issue any Ordinary Shares or A Ordinary Shares or any securities convertible into or exercisable or exchangeable for Ordinary Shares or A Ordinary Shares or publicly announce any intention to do so during the aforesaid period.

** Assuming full subscription of all the Ordinary Shares and A Ordinary Shares issued pursuant to the Issue.

2. The Promoter, Tata Steel and Tata Industries Limited have confirmed, by their letters dated September 18, 2008 that they intend to subscribe to the full extent of their entitlement of Ordinary Shares and A Ordinary Shares in the Issue. The Promoter and the Tata Companies reserve their right to subscribe to their entitlement and/or apply for additional Ordinary Shares and A Ordinary Shares in the Issue, either by themselves or a combination of entities controlled by them, including by subscribing for renunciation, if any, made by other Tata Companies.

The Promoter has also, by its above letter confirmed that in addition to the subscription to the Ordinary Shares as stated above, the Promoter shall subscribe to, and/or make arrangements as stated in Note 12 below for the subscription of, additional Ordinary Shares in the Issue to the extent of any unsubscribed portion of the issue of Ordinary Shares as per the relevant provisions of law.

As a result of subscription to their entitlement and any unsubscribed portion and consequent allotment, the Promoter/Tata Companies may acquire Ordinary Shares over and above their entitlement in the Issue, which may result in an increase of the Promoter s/Tata Companies shareholding in the Company. This subscription and acquisition of such additional Ordinary Shares by the Promoter/Tata Companies, if any, will not result in change of control of the management of the Company and shall be exempt in terms of the proviso to Regulation 3(1)(b)(ii) of the Takeover Code. As such, other than meeting the requirements indicated in the section on Objects of the Issue on page 23 of this Letter of Offer, there is no other intention/purpose for this Issue, including any intention to delist the Company, even if, as a result of allotments to the Promoter/Tata Companies, in this Issue, their shareholding in the Company exceeds their current shareholding. Allotment to the Promoter of any unsubscribed portion of Ordinary Shares, over and above its entitlement shall be done in compliance with the listing agreements and other applicable laws prevailing at that time relating to continuous listing requirements.

The Company hereby confirms that, in case the Issue is completed with the Promoter and/or the Tata Companies subscribing to Ordinary Shares over and above its entitlement, the public shareholding in the Company after the Issue will not fall below the minimum level of public shareholding as specified in the listing conditions or listing agreement.

If the Company does not receive minimum subscription of 90% of the Issue (separately for Ordinary Shares and A Ordinary Shares) including devolvement of Underwriters, the Company shall forthwith refund the entire subscription amount received in respect of the Ordinary Shares or the A Ordinary Shares, as the case may be, within 15 days from the Issue Closing Date. If there is a delay in the refund of subscription by more than eight days after the Company becomes liable to pay the subscription amount (i.e. 15 days after closure of the Issue), the Company will pay interest for the delayed period at prescribed rates in Section 73 of the Companies Act, 1956.

TML Holdings Pte Limited would, in turn, make an investment in its wholly owned subsidiary, JaguarLandRover Limited. The form of investment would consist of a combination of equity capital, preference capital and debt. The following table explains the use of the investment to be made by TML Holdings Pte Limited in JaguarLandRover Limited:

Particulars	Amount (Rs. Million)	Purpose of Investment
Investment by TML Holdings Pte Limited in JaguarLandRover Limited	40,919.5	Prepayment of part of the Short Term Bridge Loan availed by JaguarLandRover Limited to partially fund the purchase consideration for the acquisition of Jaguar Land Rover from Ford.

JaguarLandRover Limited would utilize the funds to prepay part of the Short Term Bridge Loan availed by it to partially fund the purchase consideration for the acquisition of Jaguar Land Rover from Ford which was completed on June 2, 2008.

JaguarLandRover Limited availed a short term bridge loan facility (the Short Term Bridge Loan) of US\$ 3,000 million to part finance the acquisition of Jaguar Land Rover by entering into a credit facility agreement dated March 13, 2008 with an initial group of arrangers including the Bank of Tokyo-Mitsubishi UFJ Limited, Citigroup Global Markets Asia Limited, ING Bank N.V., Singapore Branch, J.P. Morgan Securities (Asia Pacific) Limited, Mizuho Corporate Bank Limited, Standard Chartered Bank, State Bank of India and BNP Paribas, Singapore Branch. TML and TML Holdings Pte Limited were also obligors to the aforementioned credit facility agreement, and TML provided a guarantee for the facility. Citicorp International Limited acted as the Facility Agent. The following are the details of the aforementioned Short Term Bridge Loan availed by JaguarLandRover Limited, in which the prepayment is proposed:

Date of credit facility agreement	Amount Sanctioned US\$ million	Amount Drawn Down US\$ million	Principal Amount Outstanding as on September 11, 2008 US\$ million	Amount to be Prepaid by JaguarLandRover Limited US\$ million ^	Rs. million
March 13, 2008	3,000*	3,000*	3,000*	894.0	40,919.5

* As per the certificate of Deloitte Haskins & Sells, Chartered Accountants dated September 11, 2008.

^ Conversion from Indian Rupees to US Dollars based on the exchange rate of 1 US Dollar = 45.77 Indian Rupees on September 12, 2008 as per the Reserve Bank of India; Such conversion is for convenience purposes only.

As indicated above, JaguarLandRover Limited has drawn down the entire US\$ 3,000 million. All payments with respect to the Short Term Bridge Loan are to be made to Citicorp International Limited, the Facility Agent.

JaguarLandRover Limited utilized US\$ 1,900 million of the aforementioned Short Term Bridge Loan towards part payment of the purchase consideration for the acquisition of Jaguar Land Rover from Ford on cash free and debt free basis. In addition, a net cash position of US\$ 93 million, representing additional net cash over the purchase consideration basis, was estimated for Jaguar Land Rover as at the date of the acquisition. This amount was paid additionally by JaguarLandRover Limited out of the proceeds of the Short Term Bridge Loan. Further, US\$ 700 million from the proceeds of the Short Term Bridge Loan was utilized by JaguarLandRover Limited for a short term working capital loan to its subsidiary, Land Rover. The balance proceeds from the Short Term Bridge Loan are intended to be utilized by JaguarLandRover Limited towards the ongoing operational/ contingency requirements of Jaguar Land Rover.

Table of Contents**Utilization of Net Proceeds and Funds Deployed on the Objects of the Issue**

The Company intends to utilize the entire Net Proceeds amounting to Rs. 40,919.5 million to make an investment in its wholly owned Subsidiary to prepay part of the Short Term Bridge Loan availed by JaguarLandRover Limited to partially fund the purchase consideration for the acquisition of Jaguar Land Rover from Ford.

As per the certificate of Deloitte Haskins & Sells, Chartered Accountants dated September 11, 2008, except for the initial capital contribution of US\$ 500 million made by TML in TML Holdings Pte Limited as described below in Acquisition of Jaguar Land Rover by JaguarLandRover Limited, the Company has not deployed any additional amount towards investment in its Subsidiary, TML Holdings Pte Limited.

The Company proposes to deploy the Net Proceeds during fiscal 2009.

No part of the Net Proceeds will be paid by the Company as consideration to the Promoter, the Directors, the Company's key management personnel or companies promoted by the Promoter.

Acquisition of Jaguar Land Rover by JaguarLandRover Limited

The purchase consideration paid by JaguarLandRover Limited to Ford for the acquisition of Jaguar Land Rover, on cash free and debt free basis, was US\$ 2,300 million. The same was financed as under:

S. No.	Description	Amount (US\$ million)
1.	Capital contribution	400*
2.	Part-proceeds from the Short Term Bridge Loan	1,900 *
	Total	2,300

* As per the certificate of Deloitte Haskins & Sells, Chartered Accountants dated September 11, 2008.

The portion of the capital contribution of US\$ 400 million paid by JaguarLandRover Limited was financed as under:

S. No.	Description	Contribution made by TML in TML Holdings Pte Limited (US\$ million)	Contribution made by TML Holdings Pte Limited in JaguarLandRover Limited (US\$ million)
1.	Equity Capital	100	50
2.	Preference Capital	400	350
	Total	500⁽¹⁾	400⁽²⁾

1) The aggregate contribution of US\$ 500 million made by TML in TML Holdings Pte Limited was financed through the cash/ marketable securities of TML.

2) Balance US\$ 100 million was paid by TML Holdings Pte Limited towards fees and other acquisition expenses consisting of legal and advisory fees, due-diligence and related expenses, structuring fees, underwriters fees and other expenses in relation to the Short Term Bridge Loan, and other acquisition related expenses.

The debt portion of the purchase consideration of US\$ 1,900 million paid by JaguarLandRover Limited was financed out of the proceeds of the Short Term Bridge Loan.

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

A net cash position of US\$ 93 million was estimated for Jaguar Land Rover as at the date of the acquisition. This amount represents additional net cash over the purchase consideration basis and was paid additionally by JaguarLandRover Limited. The same was financed out of the proceeds of the Short Term Bridge Loan.

Table of Contents

In addition, a final adjustment relating to the actual cash, debt and working capital position (as defined in the sale and purchase agreement) of Jaguar Land Rover on the date of the acquisition, based on a final completion statement of Jaguar Land Rover agreed between JaguarLandRover Limited and Ford, of US\$ 131 million is payable by JaguarLandRover Limited to Ford. This represents additional net working capital/cash available with Jaguar Land Rover over the agreed levels. For further information see Management's Discussion and Analysis of Financial Condition and Results of Operations Financing of the Jaguar Land Rover Acquisition on page 135 of this Letter of Offer.

2. US and Canada exclude buses

The top 10 auto manufacturing countries of the world produced 55.24 million vehicles in 2007 constituting 76.6% of the total world production. Although economic woes held down the US auto market in 2007 and consumer indifference tempered vehicle sales in Japan, robust demand in many markets such as Germany and, especially China lead to higher car and commercial production. 72.06 million vehicles were built in 2007, up 5.1% from the 68.56 million produced in 2006 and 9.6% ahead of the then record 65.77 million assembled in 2005 driven mainly by exports in many countries. (*Source: Ward Automotive Yearbook 2008*)

The global auto industry is expected to be confronted by high raw material prices, rising fuel cost and currency fluctuations. Also, stricter environmental regulations in most regions will continue to pose an expensive burden on all auto manufacturers to curb air pollutant and CO₂ emissions. Emerging markets, like Russia, China and India, should continue to boast surging growth prospects than the matured and developed markets like US, Europe and Japan.

North America

Output in US, Canada and Mexico fell for the second year in a row, totalling 15.43 million units in 2007, down 2.8% from the 15.88 million units built in 2006 and 5.5% less than the 16.32 million units turned out in 2005. Although demand in 2007 rose by 2.4% in Mexico and 0.3% in Canada, the US, despite ongoing restructuring and cost improvements efforts, suffered a downturn due to slowing economic growth, Sub-prime crises and higher energy costs. Production in US fell 4.5% to 10.75 million units on top of a 5.6% decline in 2006. While the US fell to fourth position in car production behind Japan, China and Germany, it retained leadership in truck output with 6.83 million assemblies in 2007. (*Source: Ward Automotive Yearbook 2008*)

In North America, sales of new cars and trucks fell 3.0% to 19.29 million from 19.89 million in 2006. Total cars sold in 2007 were 9.09 million units down 2.8% compared to 9.34 million sold in 2006. Sale of commercial vehicles in 2007 declined by 3.2% to 10.21 million units against 10.55 million units sold in 2006 (*Source: Ward Automotive Yearbook 2008*). With rising fuel costs, industry sales are showing a shift away from trucks and SUVs toward more fuel efficient cross-over vehicles and cars.

Table of Contents**Europe**

In Western Europe, production increases in all the major markets led to a regional gain of 2.1% to 16.89 million vehicles in 2007 reversing a 1.5% decline in 2006, when 16.54 million vehicles were built. Surge in exports was the major reason for the growth. Germany the region's powerhouse, turned out 6.21 million vehicles, 6.6% more than it built in 2006 when output rose by just 1.0%. In the UK, producers reversed a 2006 decline into a 6.1% increase to 1.75 million units in 2007, while Spain produced 2.89 million units a 4.0% gain, up from 2006's 1.0% increase. Western Europe finished 2007 with passenger car sales totalling 14.79 million units, a 0.8% gain on 2006's 14.67 million units. (Source: *Ward Automotive Yearbook 2008*)

European car manufacturers have made consistent efforts over the past couple of years to streamline their operations, improve their cost base and diversify their revenue sources outside of their core domestic markets. Such improvements put these groups in a favourable position to cope with the difficult market conditions in Europe and the various cost pressures that continue to weigh on the industry. However, the Euro's growing strength versus the US Dollar is taking toll on profit margins for those auto makers who are heavily reliant on the export market for revenue, and several are beginning to eye new capacity in North America as a way to compensate. The auto makers in Europe also face the challenge of tougher emission norms forcing development of more fuel-efficient vehicles by 2012. On the other hand, Eastern Europe is emerging as a bigger player in the capacity expansion plans of many western vehicle manufacturers, with Russia, in particular, widely seen destined to become Europe's biggest market by the next decade.

Asia/Pacific

Asia/Pacific, the highest volume region accounting for 41.7% of world vehicle production, posted a 7.8% output increase to 30.04 million units in 2007, up from 27.90 million units in 2006. Most of the gains were driven by record output in China. The world's third largest vehicle maker boasted production of 8.88 million units in 2007, up 22.0% from 2006. Japan retained its number one position among vehicle producing countries for a second consecutive year with 11.60 million assemblies in 2007, up 1.0% from 2006. India produced 2.25 million units of cars and commercial vehicles in 2007, up 14.9% from 1.96 million units in 2006. (Source: *Ward Automotive Yearbook 2008*)

The Japanese domestic market has been on a continuous decline, due mainly to the declining population and the declining proportion of the younger generation, together with the lengthening average holding period of a vehicle. The growth in Japan was mainly driven by exports. Growth in China and India is mainly driven by higher economic growth and the rising disposable income.

The Indian Automotive Market**Introduction**

The Indian auto industry is one of the largest industrial sectors in India, with a turnover that contributes to roughly 5% of India's gross domestic product. The Indian automobile industry contributes nearly 17% to total indirect taxes and provides direct and indirect employment to over 13 million people. Car penetration in India is extremely low with only 7 cars per 1,000 people. The Automotive Mission Plan (AMP) 2006-2016 aims at doubling the contribution of automotive sector in GDP to 10% by taking the turnover to US\$ 145 billion in 2016 with special emphasis on export of small cars, MUVs, two & three wheelers and auto components. (Source: *Automotive Mission Plan 2006-2016*).

Until the mid-1990s, the auto sector in India had been a relatively protected industry with limits on the entry of foreign companies through import tariffs. Post liberalization, the industry has experienced rapid development. As per Indian Brand Equity Foundation (IBEF) article last updated (April-June 2008) as viewed on July 17, 2008, India is the world's second largest manufacturer of two wheelers, fourth largest manufacturer of commercial vehicles and eleventh largest manufacturer of passenger vehicles.

Table of Contents

The Indian automotive industry is highly competitive with a number of global and Indian companies present in the market. The foreign companies are present in India either through joint ventures with local partners wholly/partially owned technology tie-ups or as subsidiary companies of their parent companies. Most players are present in more than one segment. The industry is also witnessing diversification by players into other segments. The passenger cars and commercial vehicles industries in particular are poised to witness the entry of new players.

Classification of Vehicles in India

The classification in India of vehicles with four or more wheels is as follows:

Heavy Commercial Vehicles: Heavy commercial vehicles, or HCVs, are generally classified as those vehicles that have a Gross Vehicle Weight (GVW), of above 16.2 metric tonnes.

Medium Commercial Vehicles: Medium commercial vehicles, or MCVs, are generally classified as those vehicles that have a GVW between 7.5 and 16.2 metric tonnes.

Light Commercial Vehicles: Light commercial vehicles, or LCVs, are generally classified as those vehicles that have a GVW of up to 7.5 metric tonnes.

Passenger Cars: Passenger Cars are vehicles that have a seating capacity of up to six persons, excluding the driver. In line with agreed categories of sub-classification, passenger cars are further classified into the following segments:

Mini Cars have a length of up to 3,400 mm. This entry-level segment constituted 5.8% of the domestic passenger car market in 2007-08 by volume.

Compact Cars have a length of between 3,401 mm and 4,000 mm. This segment constituted 71.4% of the domestic passenger car market in 2007-08 by volume.

Midsized Cars have a length of between 4,001 mm and 4,500 mm. This segment constituted 18.5% of the domestic passenger car market in 2007-08 by volume.

Executive Cars have a length of between 4,501 mm and 4,700 mm. This segment constituted 3.5% of the domestic passenger car market in 2007-08.

Premium Cars and Luxury Cars have a length of between 4,701 mm and 5,000 mm, and 5,001 mm and above, respectively. These segments constituted 0.8% of the domestic passenger car market in 2007-08.

Utility Vehicles: Utility Vehicles, or UVs, have a seating capacity of seven persons to 12 persons excluding the driver.

Multi-purpose Vehicles: Multi-purpose vehicles, or MPVs, are van-type vehicles that have a seating capacity of seven persons to 12 persons excluding the driver.

Sales (domestic as well as exports) of the Indian automotive industry have grown from 7.3 million units in 2003-04 to 10.9 million units in 2007-08, at a CAGR of 10.5%. This impressive growth has been driven by a buoyant economy, increasing purchasing power of the Indian middle class, new product launches and attractive finance schemes from automobile manufacturers and financial institutions and increased focus on exports. Of the total sales, exports contributed 11.4% in 2007-08 compared to 6.6% in 2003-04. Exports have grown at a phenomenal CAGR of 26.7%, while domestic sales have grown at a CAGR of 9.1% during the same period.

In terms of volume, the two wheelers segment with sales of 8.1 million units in 2007-08 has the highest share of 74.1% in the industry, followed by passenger vehicles, commercial vehicles and three wheelers. The maximum growth, however, has occurred in the commercial vehicles segment, which grew at a CAGR of 19.1% since 2003-04 to reach a sales figure of 0.6 million units in 2007-08. Sale of passenger vehicles grew at a CAGR of 14.1% during the same period to reach a sales figure of 1.7 million units in 2007-08.

Table of Contents**Commercial Vehicle Segment**

The total sales of the Indian commercial vehicles (CV) industry had grown to reach 558,977 units in 2007-08. Out of which domestic sales were nearly 499,978 units and the remaining 58,999 units were exports. From 2003-04 to 2007-08, domestic sales and exports have grown at a CAGR of 17.7% and 35.6% respectively. Total sales grew 8.1% in 2007-08 as compared to 32.1% in 2006-07. The sales were impacted by slowdown in economic growth, poor credit availability for purchasing vehicles, hardening of interest rates, increase in fuel prices and due to depletion of one time demand created in 2006-07 by strict enforcement of overloading restrictions. In fact, all of the industry growth between 2007-08 and 2006-07 was fully caused by the new products launched by Tata Motors i.e., the Ace (launched in May 2005, and the Magic & Winger launched in FY 2008). As per Cris Infac report May 2008, sale of commercial vehicles is expected to grow at a CAGR of 6-8% from 2007-08 to 2012-13 with exports growing at a CAGR of 8-10%.

The CV industry is segmented broadly into LCV, having gross vehicle weight below 7.5 tonnes, and M&HCV, having gross vehicle weight above 7.5 tonnes. The growth in the CV industry has been driven by increased industrial production as well as the growth in investments made in augmenting infrastructure in the country. While the passenger carrier industry has seen moderate growth, goods vehicles witnessed an impressive growth. The latter is dominated by multi axle vehicles on the back of low volume base as well as improved road infrastructure (such as the Golden Quadrilateral) for long haulage transportation. The share of LCV is increasing rapidly. The introduction of Ace in the sub 1 tonne segment has shown significant growth in the CV market. Tata Motors clearly leads the market in both the goods and passenger segments of CV with a total market share of 62.7% as on March 2008.

Passenger Vehicle Segment

The total sales of the Indian passenger vehicles industry has grown to reach 1.7 million units in 2007-08, of which domestic sales were 1.5 million units and the remaining 0.2 million units were exports. In 2007-08, Passenger Car constituted around 78.6% of the domestic passenger vehicle sales, while Utility Vehicles constituted around 21.4%. Domestic sales grew at a CAGR of 14.1% between 2003-04 and 2007-08. Exports have grown at a CAGR of 13.9% during 2003-04 to 2007-08. Small car constituted about 90% of the total exports in 2007-08. Major export destinations are South Africa, Algeria, Sri Lanka, Italy and Mexico, which constituted around 50% of the exports. (Source: Cris Infac report June 2008). Amidst moderation in economic growth, a high interest rate regime and tightening of the liquidity position, total sales grew 11.1% in 2007-08 as compared to 19.6% in 2006-07. Growth was primarily driven by new launches and discounts on existing volume models. As per Cris Infac report, June 2008, sale of passenger vehicles is expected to grow at a CAGR of 14.7% from 2007-08 to 2012-13, domestic sales CAGR of 13.2% and exports CAGR of 22.4%.

Table of Contents

The market for passenger vehicles in India is highly competitive with more than a dozen manufacturers in the industry. Since the mid-90s, the potential for passenger vehicles in India has attracted many international car manufacturers in India. The growing commitment to India is indicated in the plans announced by both existing and new players in the passenger car industry. India is considered as a strategic market by Suzuki, Japan, a co-promoter of Maruti Suzuki. Tata Motors, the largest automotive player in India is launching *Tata Nano*, the US\$ 2,500 car in 2008-09. Hyundai Motors has established its global manufacturing base for small cars in India and is a leading exporter of small cars from the country. Mahindra & Mahindra is amongst the largest players in the Utility Vehicles segment.

Factors affecting Vehicle Demand

Economic Growth: Overall freight movement in the country is a function of industrial and agricultural growth. High growth in GDP reflects higher economic activity, which typically results in transportation of more freight and hence higher demand for commercial vehicles.

Interest Rates and Availability of Finance: Automobile sales are heavily dependant on the availability of retail finance. Higher interest rate and stringent lending norms can adversely affect the demand. On the other hand, lower interest rates stimulate demand as it result in lower cost of acquisition.

Cost of Fuel: Demand for commercial vehicles is driven to a considerable extent by the profitability of the truck operator. The profitability of truck operators remains very sensitive to diesel prices, as any increase in fuel price results in higher operating cost, although fuel prices in India continue to be artificially supported at lower levels by the government.

Taxes and Duties: Reduction in excise duties and the introduction of VAT regime can act as catalyst for higher demand of automobiles. A cut in excise duty reduces prices, which, if passed on, enhances the affordability for buyers.

Table of Contents

Disposable Income of Consumers: Increase in per capita income and standard of living in the country results in higher demand for cars. Greater penetration of cars in semi-urban and rural areas can also result in higher demand.

Regulation of Safety and Emission Standards: Environmental and safety regulations may need to be addressed by upgrading technology which may result in higher cost, which in turn can affect the demand for automobiles.

Share of Road Transport: Improvement in road infrastructure is expected to enable a more effective distribution of goods and increase in passenger movement across the country and hence higher demand for automobile vehicles. Indian Government is undertaking various projects, like Golden Quadrilateral, to improve the road infrastructure. The adoption of hub and spoke model will boost the demand for small commercial vehicles. On the other hand, competition and new initiatives from railways, such as reducing unit cost to improve efficiency and dedicated freight corridor, may keep a check on rising share of roads in freight movement.

Restriction on Overloading: While legislation on overloading of goods exists, strict compliance and enforcement of such legislation is generally lacking in India. Stricter enforcement of such legislation can stimulate demand as transporter may need to buy more vehicles.

Price Sensitivity: The passenger car market, particularly the mini and compact segments, is highly price-sensitive, with emphasis on value for money. Indian consumers usually prefer compact cars that are fuel-efficient with low operating and maintenance costs.

Brand Building and New Product Launches: Due to increase in choice available to the consumer, the demand for a particular brand of a car is a function of customer perception and satisfaction. Further, new product launches provide significant push to car sales, as customers are tempted to bring forward their decision to purchase vehicles.

Unless the context otherwise requires, *Company*, *Tata Motors*, *we*, *us* and *our* refers to *Tata Motors Limited* and its consolidated Subsidiaries and references to *TML* refer to *Tata Motors Limited*, the Issuer. Except where otherwise stated, historical financial and operating data of the Company excludes *Jaguar Land Rover*. Unless otherwise stated, historical financial information of the Company is derived from the Company's consolidated audited restated financial statements excluding *Jaguar Land Rover* under Indian GAAP. Historical financial information of *Jaguar Land Rover* is derived from the unaudited summarized financial statements of *Jaguar Land Rover* prepared by the management of *Jaguar Land Rover* principally based on US GAAP.

Unless otherwise stated, market share data for *Tata Motors Limited* refers to market share in the Indian market and has been sourced from *Frost and Sullivan*, August 24, 2008.

Overview

Established in 1945, we are the largest automotive company in India in terms of revenue. We were the largest commercial vehicle and third largest passenger vehicle manufacturer in terms of units sold in India during fiscal 2008, according to *Frost and Sullivan*. According to *Automotive World* and *Lastauto Omnibus* respectively, we are also the world's fourth largest truck manufacturer and the second largest bus manufacturer in the above 6 ton category.

We were the second largest company in the *Tata Group* in terms of revenue during fiscal 2008. The *Tata Group*, founded by *Jamsetji Tata* in the mid-19th century, is one of India's largest and most respected business conglomerates with presence in seven diverse business sectors and operations in over 80 countries. In fiscal 2008, 2007 and 2006, we sold 585,649, 580,280 and 454,129 vehicles, including *Fiat* cars distributed by us, of which 530,990, 526,806 and 403,906 vehicles, respectively, were sold in India, on a non-consolidated basis.

We produce a wide range of automotive products, including:

Passenger Cars. Our offerings in the passenger car category, include the *Indica*, a compact car, first launched in 1998, the *Indigo*, a mid-sized car launched in 2002, and the *Indigo Marina*, a station wagon version of the *Indigo* launched in 2004. We have expanded our offering by introducing several variants to suit different customer preferences. These passenger cars are manufactured in gasoline and diesel engine versions. The *Indica* gasoline variant, *Xeta*, is also available with a dual fuel (petrol and Liquefied Petroleum Gas) engine. Recently, on August 23, 2008, we launched the new generation of the *Indica*, called the *Indica Vista*.

Utility Vehicles. Our utility vehicles (UV), include the *Sumo*, first launched in 1994, and the *Safari* launched in 1998. Both the *Sumo* and the *Safari* have seen several product actions since introduction and currently have various variants to meet different consumer preferences.

Light Commercial Vehicles. We manufacture a variety of light commercial vehicles (LCV), including trucks, pickup trucks and buses with a GVW of between 0.7 ton and 7.5 tons. This also includes the *Ace*—India's first indigenously developed mini-truck with a 0.7 ton payload, launched in fiscal 2006, the *Magic*, the passenger variant for commercial transportation developed on the *Ace* platform and the *Winger*, which were launched in fiscal 2008.

Medium and Heavy Commercial Vehicles. We manufacture a variety of medium and heavy commercial vehicles (M&HCV), which include trucks, buses, dumpers and multi-axle vehicles with GVW between 9 tons to 49 tons. In addition, through *Tata Daewoo Commercial Vehicle Company Limited* (TDCV), our wholly-owned Subsidiary in South Korea, we manufacture a range of high horsepower trucks ranging from 220 horsepower to 400 horsepower, including dump trucks, tractor-trailers, mixers and cargo vehicles.

Jaguar Luxury Performance Cars and Land Rover Premium All-Terrain Vehicles. On June 2, 2008, we completed the acquisition of Jaguar Land Rover from Ford and we now produce Jaguar luxury performance cars and Land Rover premium all-terrain vehicles through our Jaguar Land Rover business. For further details see Business The Jaguar Land Rover Business on page 68 of this Letter of Offer.

Our market share in India in the four-wheel automotive vehicle segment, which include cars, utility vehicles and commercial vehicles (trucks, pickup trucks and buses), was 26.0%, 28.5% and 27.0% in fiscal 2008, 2007 and 2006, respectively. We had a market share in commercial vehicles (including medium & heavy commercial vehicles, light commercial vehicles and passenger carriers) in India of 62.7%, 64.0% and 61.2% in fiscal 2008, 2007 and 2006, respectively, and our market share in the passenger vehicles (including compact, mid-size cars and utility vehicles) was 14.0%, 16.5% and 16.5% for fiscal 2008, 2007 and 2006, respectively.

We have a widespread sales and distribution network across India with over 1,500 sales outlets for our commercial and passenger vehicle businesses.

Our manufacturing base in India is spread across Jamshedpur (in eastern India), Pune (in western India), Lucknow (in northern India) and Pantnagar (in northern India), supported by a nation-wide dealership, sales, services and spare parts network. We are also in the process of establishing facilities at Singur (in eastern India) and Dharwad (in southern India).

We believe that the foundation of our growth over the last 63 years has been a deep understanding of economic stimuli and customer needs, and the ability to translate them into customer desired products through research and development. With approximately 1,200 engineers and scientists, our Engineering Research Centre, established in 1966, has enabled us to successfully design, develop and produce our own range of vehicles, as well as a significant portion of our production facilities, assembly lines and machinery. In addition, we established a wholly owned Subsidiary under the name of Tata Motors European Technical Centre PLC (TMETC), in the United Kingdom, in the field of automobile research. We believe this research center will also facilitate the development of our products, in particular, our passenger cars.

We have expanded our operations through mergers and acquisitions involving non-Indian companies. In 2004, we acquired a 100% stake in TDCV. In fiscal 2005, we acquired a 21% stake in Hispano Carrocera S.A. (Hispano), a Spanish bus and coach manufacturer, and we have an option to acquire the remaining stake. During fiscal 2006, through our indirect Subsidiary, we acquired INCAT, a global provider of product lifecycle management and engineering and design services. In June 2008, we completed the acquisition of Jaguar Land Rover from Ford. Jaguar and Land Rover designs, engineers and manufactures luxury performance cars and premium all terrain vehicles, which are sold through a network of more than 1,800 retail sales locations worldwide. Jaguar Land Rover operates three vehicle manufacturing facilities, one venner production facility and two advanced design facilities in the United Kingdom. For further details see Business The Jaguar Land Rover Business on page 68 of this Letter of Offer.

We have established Subsidiaries with Marcopolo S.A., Brazil (Marcopolo) and Thonburi Automotive Assembly Plant Company Limited, Thailand (Thonburi) and have a joint venture arrangement with Fiat S.p.A, Italy. In addition, we have a holding of 50% in Tata Cummins Limited with the balance held by Cummins Engine Company Inc. of USA. Our association with renowned companies allows us to leverage and tap into their respective expertise and technical knowledge. For example, we have established a joint venture with Fiat S.p.A, Italy to manufacture passenger vehicles, engines and transmissions for the Indian and overseas markets and also distribute and market Fiat branded cars in India which provides us access to engine and powertrain technology for use in our products. Our Subsidiary Tata Marcopolo Motors Limited which has been established with Marcopolo, manufactures and assembles fully-built buses and coaches in India, and would help us to develop capabilities in these areas.

Table of Contents

Our goal is to further expand and revamp our product portfolio, strengthen our position in the Indian market and expand our presence in other select geographies through a combination of leveraging internal resources and competencies, and developing our capabilities through joint ventures or partnerships with international companies.

Our Strengths

Strong Position in the Indian automotive market

We have established a strong position in the Indian automotive industry by launching new products, achieving high quality-low cost manufacturing, investing in research and development to meet the emerging requirements of our customers and maintaining our financial strength. Over the years, we have successfully maintained our leadership position in the commercial vehicle market and have rapidly grown to become the third largest passenger vehicle manufacturer in India. We had a market share of 26.0% in the overall four-wheel automotive vehicle market, including a market share of 61.3% in the M&HCV category, 64.3% in the LCV category, 13.9% in passenger cars and 20.1% in the UV category in fiscal 2008.

We believe that our knowledge of the Indian automotive market and ability to translate emerging customer needs into suitable products will enable us to take advantage of future opportunities in the industry. Furthermore, our recent acquisition of Jaguar Land Rover will enable us to compete more effectively with international manufacturers in the Indian automotive market in the luxury performance car and premium all-terrain vehicle segments.

In addition, as part of the Tata Group, we also benefit from being identified with the Tata brand. We believe the Tata brand name, which is a widely recognized brand name in India, is associated by Indian customers with reliability, trust and value.

Diversified product portfolio

We offer a wide portfolio of automotive products, ranging from sub-1-ton to 49-ton GVW trucks (including pickup trucks) and from small, medium, and large buses and coaches to passenger cars and utility vehicles. For instance, within the passenger cars segment, we offer 23 variants of the *Indica* in the small car category and 21 variants of the *Indigo* in the entry mid-size car category. Similarly, we offer 15 variants of the *Sumo* and 6 variants of the *Safari* within the UV segment. Our products in the LCV category include small commercial vehicles, pickup trucks, trucks and commercial passenger carriers up to a GVW of 7.5 tons. Our M&HCVs have a wide range of applications and are generally configured as trucks, tippers, buses, tankers, tractors or concrete mixers ranging from 9-ton GVW to 49-ton GVW.

We have recently expanded our product portfolio with the introduction of several new models, such as *Ace*, *Winger* and *Magic*, that have been well-received by customers and which we believe have large potential. We unveiled the *Tata Nano*, a low cost car, which we believe will be an affordable entry level small car in the passenger car segment. Our product portfolio allows us to cater to the diverse demands of our customers and also allows us to consolidate and establish our presence across diverse regions.

Our recent acquisition of Jaguar Land Rover will further expand our product portfolio as the Jaguar Land Rover product lines provide us immediate access to the luxury performance car and premium all-terrain vehicle segments.

Wide distribution network

Our sales and distribution network in India is comprised of over 1,500 sales outlets for passenger and commercial vehicles business, most of which are exclusive sales outlets. Jaguar Land Rover has access to a network of more than 1,800 retail sales locations worldwide.

Table of Contents

We are in advanced stages of deploying a Siebel customer relations management system at all dealerships and offices across India, which we believe is the largest deployment of that system in the global automotive sector. The combined online customer relations management system initiative, which has been implemented in phases since 2003, supports users within the Company and among our distributors in India and abroad. We believe the Siebel customer relations management system gives us a competitive edge in that it provides us with quick access to information and would enable us to improve our responsiveness to market and customer service needs.

We also have a network of service centers on highways and a toll-free customer assistance center to provide 24-hour on-road maintenance (including replacement of parts) to vehicle owners. The wide coverage of our sales, service and maintenance network in India enables us to provide quality and timely customer service. We plan to further strengthen our network so as to support the vast range of our growing product portfolio and our growth strategy.

Strong in-house R&D capability

Our research and development initiatives are primarily focused on the areas of product development, environmental technology and vehicle safety including the development of vehicles running on alternative fuels, such as CNG, LPG and bio-diesel, and development of alternative fuel options such as ethanol blending and development of vehicles fuelled by hydrogen and compressed air and electric motors/batteries. We are also pursuing various initiatives in engine management systems, in-vehicle network architecture, vehicle tracking and telematics.

Our focus on in-house R&D led to the introduction of the *Indica* in 1998 which was indigenously manufactured by us, and more recently, the *Tata Nano*, an affordable entry-level family car, which was unveiled in January 2008. Our three automotive design centers in India located at Pune, Jamshedpur and Lucknow are supported by design centers in Spain, South Korea and the United Kingdom. We employ close to 2,500 engineers who are engaged in developing new vehicle platforms and products across the varied business segments. TML spent Rs. 11,959.7 million on research and development activities including expenditure on capital assets purchased for research and development during fiscal 2008, on a non-consolidated basis.

Additionally, Jaguar Land Rover has two advanced design facilities in the United Kingdom and brings with it strong technological capabilities in petrol engines, four wheel drive technology and aluminium bodyworks technology.

Integrated manufacturer

We are an integrated vehicle manufacturer with capabilities across the entire value chain of automotive operations including the design, manufacture, assembly and sale of vehicles, related parts and accessories and the financing business for our vehicles. Our integrated manufacturing facilities allow for cost savings and operating efficiencies.

For instance, through our cost reduction initiatives, we are able to reduce our fixed and variable costs in our manufacturing process and are able to pass on these cost savings to our customers in the form of low-cost vehicles. Additionally, our ability to provide financing to our customers and to provide customer service and product maintenance allows us to offer a comprehensive range of services to our customers throughout the life cycle of our vehicles.

Strategic acquisitions and relationships with renowned companies

We have acquired businesses which offer complementary products, aggregates and technologies, allowing us to pursue our growth strategy in the domestic and international markets.

We acquired a 100% stake in TDCV (formerly known as Daewoo Commercial Vehicle) in 2004. This acquisition enabled us to expand our commercial vehicle offering and provided access to new markets and key inputs in the development of our new *World Truck* platform. Similarly, the acquisition of a 21% stake in Hispano provides us with access to the high-end bus and coach building technology. On April 1, 2005,

Table of Contents

we merged Tata Finance Limited (TFL) with us to enable our vehicle financing business to grow stronger by leveraging synergies of the direct business model of TFL with our dealer driven business. In the same year, through its former subsidiary Tata Technologies, USA, (TTUS), our Subsidiary Tata Technologies Limited (TTL) acquired INCAT International Plc, (INCAT) to offer onshore/offshore delivery capability to international customers in the automotive, aerospace and engineering industries. In June 2008, we completed the acquisition of Jaguar Land Rover which provides us with immediate access to the luxury performance car and premium all terrain vehicle segments, with two globally recognised brands.

We have also established strategic relationships with renowned companies allowing us to leverage their expertise and technical knowledge to address our strategic plans.

We hold a 50% stake in Tata Cummins Limited with the balance held by Cummins Engine Company Inc. of USA. Tata Cummins Limited has enabled us to introduce a wide range of commercial vehicles with higher payloads and improved operating economy through use of technologically advanced and durable engines, and enabled us to comply with fuel-emission regulations in Europe and other countries to which we export. Our joint venture arrangement with Fiat S.p.A, for passenger cars provides us with access to engine and powertrain technology for use in our products and also supplements our production capacity. Our Subsidiary Tata Marcopolo Motors Limited, incorporated along with Marcopolo, manufactures and assembles fully-built buses and coaches in India, and would help us to develop capabilities in these areas. This would enable us to participate in opportunities in the mass transportation segment in both India and international markets. Our Subsidiary with Thonburi for the manufacture and marketing of pickup trucks provides us with an opportunity to participate in Thailand's pickup truck market.

Captive vehicle financing business in India

Our vehicle financing division and wholly owned Subsidiary, TMFL, operates under the brand name Tata Motorfinance (TMF). During fiscal 2008, TMF financed 33.6% of our domestic sales, compared to 31.4% in the previous fiscal year. Being the captive financing division of our Company, TMF not only facilitates vehicle sales by providing financial support service to our customers, but also helps lower the risk of the cyclical revenue stream of the automotive business and provides improved financing support to our customers when other lenders/banks are experiencing tight liquidity conditions.

Increasing diversity of revenue base

We have diversified our revenue base to include non-vehicle and international businesses to provide a hedge against cyclicity of the domestic market. Through our Subsidiaries and associate companies, we are engaged in engineering and automotive solutions, construction equipment manufacturing, automotive vehicle components manufacturing and supply chain activities, machine tools and factory automation solutions, high-precision tooling and plastic and electronic components for automotive and computer applications, and automotive retailing and service operations. In fiscal 2008, the revenues from our non-automotive segment before inter-segment eliminations was Rs. 37,038.1 million and constituted 10.3% of our total revenues compared to Rs. 27,078.9 million and 8.3% of revenues in 2007.

Strong management team with successful track record

Our senior management team has substantial experience in their respective industries and has been instrumental in the growth of our organization. Our management team has strengthened our business operations in India through several product introductions, cost reduction initiatives and the integration of our past acquisitions such as TDCV and our joint ventures with companies such as Fiat S.p.A, Italy. We believe that our management team is well placed to provide strategic leadership and direction to explore new emerging opportunities as well as improve our current operations. We have witnessed low attrition of our key management personnel and, in line with our growth strategy, we have also recruited several individuals with expertise in critical areas. We believe our management team provides us with a competitive edge. We believe that the continuity of many members of the senior management team at Jaguar Land Rover following our recent acquisition will contribute positively to the development of that business. For further information regarding our key managerial personnel, see Management on page 95 of this Letter of Offer.

Table of Contents

Our Strategy

Our goal is to continue to strengthen our position in the domestic market, maintain our operational excellence and grow our international business in select countries. Our strategy to achieve these goals consists of the following elements:

Further strengthening the product portfolio

We have an extensive range of products in commercial vehicles (for both goods and passenger transport) as well as passenger vehicles. We believe that our in-house product development capabilities, our strategic partnerships/joint ventures with renowned companies such as Cummins Engine Company Inc., Fiat S.p.A, Marcopolo and Thonburi, and our acquisitions of TDCV, Hispano and Jaguar Land Rover will enable us to expand our product range and extend our geographical reach.

We believe that our understanding of local customer preferences and well developed in-house R&D capabilities has enabled us to anticipate emerging customer categories and develop suitable products that provide a strong value proposition to our customers. For example, we launched the *Ace*, the first sub one-ton payload mini-truck in India, in May 2005 which has created a new category in the Indian commercial vehicle industry and we rolled out the 100,000th *Ace* in 22 months since its launch. In fiscal 2008, we launched the *Magic*, a passenger variant from the same platform, to tap the potential increase in mass passenger transport in both rural and urban regions. We also launched the *Winger*, India's only maxi-van, to cater to the intra-city and long-distance transportation needs of our customers.

In passenger vehicles, we entered the compact car segment with the *Indica* in 1998. We sold approximately 100,000 units of the *Indica* within 25 months since its launch in the market. On the same platform, we developed a sedan version, the *Indigo*, which was launched in 2002. We also launched an estate version in 2004. In 2006, we expanded the *Indigo* range by launching the *Indigo XL* a stretched sedan. We have also developed the *Tata Nano*, a low cost car and we believe that there will be significant demand for this vehicle in the Indian market.

The recent acquisition of Jaguar Land Rover has given us the opportunity to participate immediately in the luxury performance car and premium all-terrain vehicle segments with recognized brands, and has helped diversify our business across markets and product segments. We will continue to seek to build upon the internationally recognized brands of Jaguar and Land Rover.

We intend to expand our production capabilities in existing facilities and establish new facilities. We also intend to expand the reach of our sales and service network in order to meet our growing product lines of commercial and passenger vehicles.

Mitigating cyclicalities

The automobile industry is impacted by cyclicalities which is more pronounced in the M&HCV truck category. To mitigate the impact of cyclicalities, we plan to continue to strengthen our operations in the light commercial vehicle, bus and passenger vehicle categories. We also plan to continue to strengthen our non-vehicle business, such as spare part sales, annual maintenance contracts, sales of aggregates for non-vehicle businesses, reconditioning of aggregates, sale of castings, production aids and tooling and fixtures and vehicle financing to reduce the impact of cyclicalities.

Reducing costs and breakeven points

We believe that our scale of operations provides us with a significant advantage in reducing costs and we plan to continue to sustain and enhance our cost advantage. While we believe that our commercial vehicle business has scale that is competitive in relation to global standards, with the launch of the *Tata Nano*, we will be able to benefit from global economies of scale in the passenger vehicle business as well.

Table of Contents

Our ability to leverage our technology capabilities and our manufacturing facilities among our commercial vehicle and passenger vehicle businesses enables us to reduce cost. For example, the diesel engine used in our *Indica* was modified for use in the *Ace*, which helped to reduce the project cost of the *Ace*. Similarly, platform sharing for the manufacture of pickup trucks and UVs enables us to reduce capital investment that would otherwise be required while allowing us to improve the utilization levels at our manufacturing facilities. Where it is advantageous for us to do so, we intend to add our existing low cost engineering and sourcing capability to vehicles manufactured under the Jaguar Land Rover umbrella.

Our vendor relationships also contribute to our cost reductions. For example, we believe that the vendor rationalization program that we are undertaking will provide economies of scale to our vendors which would benefit our cost programs. We are also undertaking various internal and external benchmarking exercises that would enable us to improve the cost effectiveness of our components, systems and sub-systems.

Expand customer financing in India

With financing increasingly becoming a critical factor in vehicle purchases and the rising aspirations of consumers in India, we intend to significantly expand our vehicle financing activities to enhance our vehicle sales. Furthermore, with the lack of sufficient finance availability to vehicles currently in the Indian market, our captive finance business is likely to play a significant role to fill the gap created by other banks and NBFCs. While we will continue to focus on expanding our vehicle financing activities through our 100% Subsidiary, TMFL, additional support is also expected from Tata Capital Limited, a financial services company formed by Tata Sons, which also undertakes financing of vehicles.

Expanding our international business

We are expanding our operations into other select geographical areas with similar characteristics as the Indian market where our products are suitable. While we continue to export out of India and South Korea into many of these markets, we are also establishing a manufacturing footprint where it is beneficial to do so. We have established a Subsidiary along with Thonburi in Thailand to manufacture pickup trucks and have also received approval from the Thailand government for the Eco-car project. We are also assessing the establishment of a manufacturing operation at South Africa, which is our largest export market in terms of unit volume. Our international business strategy has resulted in a growth of our international operations from 8% of consolidated revenues in fiscal 2004 to 18.38% during fiscal 2008. TDCV continues to be the largest exporter of heavy commercial vehicles out of South Korea. Our acquisition of Jaguar Land Rover will also significantly expand our geographical presence into the USA and the Western Europe.

We believe that this geographical diversification will also reduce the impact of cyclicity in the Indian market as the cyclicity of these other markets may not coincide with the cyclicity of the Indian market.

Continuing to invest in technology and technical skills

We believe we are one of the most technologically advanced indigenous vehicle manufacturers in India. Over the years, we have enhanced our technological strengths through extensive internal research and development activities as well as through the assistance of foreign research consultants from time to time. Our research and development resources, which include those at our Subsidiaries, like Tata Motors European Technical Center plc. (TMETC), TDCV, TTL and Hispano, together with the two advanced engineering and design centers of Jaguar Land Rover which, we recently acquired, will further increase our capabilities in product design, manufacturing and quality control. We consider technological leadership to be a significant factor in our continued success, and therefore intend to continue to devote significant resources to upgrade our technological base.

Table of Contents

Continuing focus on high quality standards and enhancing customer satisfaction

One of our principal goals is to achieve high and international quality standards for our products and services, and we are pursuing various quality improvement programs, both internally and at our suppliers' premises. We have established a procedure for ensuring quality control of outsourced components. Products purchased from approved sources undergo a supplier quality improvement process. We also have a program for assisting vendors from whom we purchase raw materials or components to maintain quality. Each vendor is reviewed on a quarterly basis on parameters of quality, cost and delivery. Preference is given to vendors with QS-9000 certification. We also maintain a stringent quality assurance program that includes random testing of production samples, frequent re-calibration of production equipment and analysis of post-production vehicle performance and ongoing dialogue with workers to reduce production errors.

Our extensive sales and service network has also enabled us to provide quality and timely customer service. We are in advanced stages of deploying a Siebel customer relations management system at all dealerships and offices across India, which we believe will help to improve our responsiveness to market and customer service needs.

Enhancing capabilities through the adoption of superior processes

Tata Sons Limited, and the entities promoted by Tata Sons, including us, aim at improving the quality of life through leadership in various sectors of national economic significance. In pursuit of this goal, Tata Sons and the Tata Sons promoted entities have institutionalized an approach, called the Tata Business Excellence Model or TBEM, which has been formulated on the lines of the Malcolm Baldrige National Quality Award to enable it to drive performance and attain higher levels of efficiency both in its businesses and in discharging its social responsibility. The model aims to nurture core values and concepts embodied in various focus areas such as leadership, strategic planning, customers, marketing and human resources and to translate these into operational performance. Our adoption and implementation of this model seeks to ensure that our business can be conducted through superior processes in the future.

We have deployed a balance score card management system, developed by Dr. Robert Kaplan and Dr. David Norton of the Harvard Business School, for measurement based management and feedback. We have also deployed a new product introduction (NPI) process for systematic product development and product lifecycle management system for effective product data management across our organization. On the human resources front, we adopted various processes such as functional and soft skills training to enhance the skills and competencies of our employees. We have also enhanced our performance management system, with appropriate mechanisms to recognize talent and sustain our leadership base.

Maintaining financial strength

Our cash flow from/(used in) operations in fiscal 2008, 2007 and 2006 was Rs. 55,955.5 million, Rs. (8,754.8) million and Rs. 1,104.6 million, respectively. The improved position in our operating cash flows is primarily a result of volume growth, implementation of cost reduction programs, securitization of vehicle financing portfolio and prudent working capital management. We have also established processes for project evaluation and capital investment decisions with a view to ensure that we will be able to recover portions of our cost of capital in the event of an economic downturn and to generate earnings in excess of our cost of capital during periods of economic growth.

Continuing to leverage the Tata brands

We believe the Tata brand name is associated by Indian customers with reliability, trust and value and is gaining significant international recognition due to the international growth strategies of various Tata Companies. The Tata brand is used and its benefits are leveraged by Tata companies to their mutual advantage. We recognize the need for enhancing our brand recognition in highly competitive markets in which we compete with internationally recognized brands. We, along with Tata Sons and other Tata companies, will continue to promote the Tata brand and leverage its use in India, as well as in various international markets where we plan to increase our presence.

The Company's Business

The following discussion of the Company's business does not include the business of Jaguar Land Rover, which was acquired by the Company on June 2, 2008. The discussion of Jaguar Land Rover's business is presented separately, commencing on page 68 of this section.

Automotive Operations

The revenues from our automotive operations before intersegment eliminations were Rs. 323,456.5 million, Rs. 299,241.4 million and Rs. 222,120.5 million in fiscal 2008, 2007 and 2006, respectively, before intersegment elimination. Our main market is the Indian market, which accounted for 90.7%, 90.8% and 88.9% of our unit sales in fiscal 2008, 2007 and 2006, respectively.

Our segment-wise unit sales in the domestic market and exports for fiscal 2008, 2007 and 2006 on a non-consolidated basis are set forth in the table below:

S. No.	Category	Fiscal 2008	Fiscal 2007	Fiscal 2006
		(No. of Units)		
Domestic Sales				
1.	Passenger Cars*	170,355	180,328	151,160
2.	Utility Vehicles	47,700	47,892	37,910
3.	Light Commercial Vehicles	147,316	125,744	86,226
4.	Medium and Heavy Commercial Vehicles	165,619	172,842	128,610

Exports from India				
5.	Passenger Cars and Utility Vehicles	14,809	17,822	20,037
6.	Commercial Vehicles	39,850	35,652	30,186

* Passenger car sales include the sale of 3,297 units, 1,328 units and 209 units of Fiat vehicles during fiscal 2008, 2007 and 2006, respectively.

Passenger Cars

In the passenger cars segment we are present in the small car and entry mid-size car category.

The small car category, which consists of mini and compact cars, constituted 63.71% of our total passenger car sales in the domestic market in fiscal 2008. According to Frost & Sullivan, Industry sales of the mini car category declined 12.2% to 69,553 units, due to lack of new product launches. The compact car category grew 14.0% to 859,917 units in fiscal 2008, as compared to 754,336 units in fiscal 2007 and 572,916 units in fiscal 2006. The *Indica* faced a challenging environment in fiscal 2008 primarily on account of new product launches by our competitors and posted a decline of 6.3% in domestic sales to 135,642 units in fiscal 2008 compared to an increase of approximately 31% in domestic sales in fiscal 2007.

During fiscal 2008, we also expanded the *Indica* range by introducing a new variant with dual airbags and ABS (Anti-lock Braking System) and added a DICOR (Direct Injection Common Rail) diesel engine variant. The market share of the *Indica* in the small car category was 14.6%, 17.4% and 16.9% in fiscal 2008, 2007 and 2006, respectively. Despite its product maturity and announced plans of the next generation, the *Indica* held its position as the second best selling vehicle in the industry and continues to stand out among the Most Trusted Brands in the annual survey by the Economic Times Brand Equity. In August 2008 we launched the next generation *Indica*, called the *Indica Vista*. The new generation car has a

completely new skin, new interiors, contemporary body with improved interior space and comfort. The car is powered by a range of internationally acclaimed powertrains - the new 75 bhp 1.3L Quadrajel Common Rail Diesel engine and the 65bhp, 1.2L CVCP Safire MPFI petrol engine being manufactured at the new Fiat-Tata joint venture at Ranjangaon in Maharashtra. The existing Indica will continue to exist with a rationalised portfolio. We believe the new Indica Vista would enable us to regain our market position in the small car category.

We are also present in the entry mid-size car category through our sedan, the *Indigo*, and its station wagon version, the *Indigo Marina*, both of which are derived from the *Indica* platform. According to Frost & Sullivan, the entry mid-size car category, which has witnessed declining volume growth in fiscal 2006 and 2007, grew by 10.2% aided by new product launches in the industry. The market share of the *Indigo* in the entry mid-size car category was 32.4%, 39.0% and 33.0% in fiscal 2008, 2007 and 2006, respectively, and the *Indigo* range was the best seller in this category during this period. The *Indigo* posted a decline of 8.4% in domestic sales to 31,416 units in fiscal 2008 compared to 34,310 units in fiscal 2007 and 39,388 units in fiscal 2006. During the year, we introduced the *Indigo XL Classic* variant and the *Indigo CS*, a sub-4 meter compact sedan that has the foot print and price point of a hatchback (owing to the lower excise duty) and the appeal of a sedan.

In fiscal 2008, we marked the roll out of the one-millionth passenger car off the *Indica* platform at our car plant in Pune, in its ninth year since the commencement of production in January 1999.

We have also been distributing Fiat branded cars through the Tata-Fiat dealer network since March 2006. During fiscal 2008, we sold 3,297 Fiat cars, a growth of 148% from fiscal 2007. The joint dealer network has also been expanded from 44 to 65.

Utility Vehicles

We sold 47,700 units in our UV category in the Indian domestic market in fiscal 2008, a marginal decline of 0.4% as compared to 47,892 units sold in fiscal 2007 and 37,910 units in fiscal 2006. During fiscal 2008, we expanded our offering in this category by launching a new 2.2L *Safari DICOR*, *Sumo Victa DI* and the *Sumo Grande*. We experienced a marginal decline of 0.4% in the unit sales of our utility vehicles, the *Safari* and the *Sumo*, in the Indian market in fiscal 2008. In fiscal 2008, the new *Safari DICOR* enabled the brand to achieve its highest ever sales in a year of 19,078 units. Our market share in the UV category was 20.1%, 22.1% and 19.6% in fiscal 2008, 2007 and 2006, respectively.

Light Commercial Vehicles (including pickup trucks)

Our range of LCVs includes small commercial vehicles, pickup trucks, trucks and commercial passenger carriers up to a GVW of 7.5 tons. During fiscal 2008 we introduced two new products: (i) *Magic*, based on the *Ace* platform, and (ii) *Winger*, India's only maxi-van. We believe that the *Magic* and the *Winger* have great potential in the commercial passenger transportation market in India. In the LCV segment, we recorded a 17.2% growth to 147,316 units sold in the Indian domestic market in fiscal 2008, compared to 125,744 units in fiscal 2007 and 86,226 units in fiscal 2006. The growth in the LCV segment in fiscal 2008 was mainly led by the sales of the *Ace* and the new commercial passenger carriers *Winger* and *Magic*. In fiscal 2008, we unveiled the 1-ton and CNG variant of the *Ace*, the *Cargo Panel Van*, *Xenon XT*, a lifestyle pickup truck, and the *Winger Executive*, an office concept vehicle, at the Auto Expo 2008 in India and commenced production of the *Ace* at our new manufacturing facility at Uttarakhand, India. Our market share in the LCV category was 64.3%, 65.4%, 60.1% in fiscal 2008, 2007 and 2006, respectively, including sales of the *Ace*, *Magic* and *Winger*.

Medium and Heavy Commercial Vehicles

Our M&HCVs have a wide range of applications and are generally configured as trucks, tippers, buses, tankers, tractors or concrete mixers. Our market share in the M&HCV category was 61.3%, 62.9% and 62.0% in fiscal 2008, 2007 and 2006, respectively. Our domestic sales in the M&HCV segment

Table of Contents

experienced a decline of 4.2% to 165,619 units in fiscal 2008 as compared to 172,842 units in fiscal 2007 and 128,610 units in fiscal 2006. The decline in domestic sales in fiscal 2008 was partially due to a levelling off of the one-time surge in demand we experienced in the M&HCV segment last year, triggered by strict enforcement of overloading restrictions. Our performance in the M&HCV segment during fiscal 2008 was also affected by the lack of availability of vehicle finance from outside sources and constraints that we experienced in the earlier part of the year in the supplies of certain components and aggregates.

We revamped our M&HCV portfolio during fiscal 2008 and introduced a wide range of new products such as multi-axle and heavy duty trucks, tractor trailers and fully built solutions in the second half of the year. We also secured an order from the Delhi Transport Corporation for 500 low-floor CNG propelled buses, the supply of which commenced during fiscal 2008.

Exports

Our exports of vehicles manufactured in India increased by 2.2% to 54,659 units in fiscal 2008 compared to 53,474 units in fiscal 2007 and 50,223 units in fiscal 2006. We market our commercial and passenger vehicles in Australia and several countries in Europe, Africa, the Middle East, South East Asia and South Asia.

We are strengthening our position in the geographic areas we are currently operating in and exploring possibilities of entering new markets with similar market characteristics to the Indian market.

Tata Daewoo Commercial Vehicle Company Limited

TDCV recorded overall vehicle sales of 11,899 units in fiscal 2008, a 38.6% growth from the 8,588 units sold in fiscal 2007. TDCV sold 5,734 units in fiscal 2006. In South Korea, TDCV registered a market share of 33.5% in M&HCV as compared to 26.1% in fiscal 2007 and 17.6% in fiscal 2006 according to ANR Consulting. TDCV exported 3,000 units in fiscal 2008, a growth of 10% compared to 2,715 units in fiscal 2007.

Sales and Distribution of Vehicles

Our sales and distribution network in India as of June 30, 2008 comprised of over 1,500 sales outlets for our passenger and commercial vehicles business. Most of our sales outlets are exclusive Tata Motor's sales outlets. In line with our growth strategy, we formed a 100% Subsidiary, TML Distribution Company (TMLD), to act as a dedicated logistics management company to support the sales and distribution operations of our vehicles. We believe this would improve the efficiency of our selling and distribution operations and processes as well as provide a faster turnaround of working capital and cash flows.

TMLD will take over and/or set up stocking points, for both commercial vehicles and passenger vehicles, in the places of manufacture and also at different places in the country. It will help improve planning, inventory management, transport management and on-time delivery. As a focused entity, we believe it will make delivery and inventory management more efficient.

In the South Korean market, TDCV uses Daewoo Motor Sales Corporation's distribution network, the largest in South Korea. After-sales service is made available through 68 service centers and over 110 parts outlets. Exports are carried out through TDCV's own international distribution channel.

Additionally, we are in advanced stages of deploying a Siebel customer relations management system at all dealerships and offices across the country, which we believe is the largest deployments of that system in the global automotive sector. Being implemented in phases since 2003, the combined online customer relations management system initiative supports users both within the Company and among our distributors in India and abroad.

We, through our vehicle financing division and wholly owned Subsidiary, TMFL, also provide financing services to purchasers of our vehicles through our dealers, who act as our agents, and through our branch network. During fiscal 2008 and 2007, approximately 34% and 31%, respectively, of our vehicle unit sales in India were made through financing arrangements where our vehicle financing divisions provided the credit. Total vehicle finance receivables outstanding as at March 31, 2008 and 2007 amounted to Rs. 76,073.9 million and Rs. 84,536.8 million, respectively.

We use a network of service centers on highways and a toll-free customer assistance center to provide 24-hour, on-road maintenance (including replacement of parts) to vehicle owners. The wide coverage of our sales, service and maintenance network in India enables us to provide quality and timely customer service.

Vehicle Manufacturing Facilities

We currently operate four principal automotive manufacturing facilities. The first facility was established in 1945 at Jamshedpur in the State of Jharkhand in eastern India. We set up a second facility in 1966 (with production commencing in 1976) at Pune, in the State of Maharashtra in western India, and a third in 1985 (with production commencing in 1992) at Lucknow, in the State of Uttar Pradesh in northern India. We set up a new manufacturing plant at Pantnagar, in the State of Uttarakhand in northern India, which commenced commercial operations in fiscal 2008. The Jamshedpur, Pune and Lucknow manufacturing facilities have been accredited with ISO/TS 16949:2000(E) certification. We are also in the process of establishing another two facilities at Singur, in the State of West Bengal, for the manufacture of *Tata Nano*, and at Dharwad, in the State of Karnataka, for manufacture of Tata Marcopolo buses through our Subsidiary Tata Marcopolo Motors Limited. See Risk Factor Our future success depends on our ability to satisfy changing customer demands by offering innovative and competitive products on page xvi of this Letter of Offer.

The manufacturing facilities of TDCV are based in Gunsan, South Korea. TDCV has received the ISO/TS 16949 certification, an international quality systems specification given by SGS UK Limited, an International Automotive Task Force accredited certification body. It is the first Korean automobile original equipment manufacturer to be awarded the same.

Fiat India Automobiles Private Limited (FIAPL) - a joint venture, is located in Ranjangaon, Maharashtra. The plant would be used for the manufacture of Tata and Fiat branded products as well as engines and transmissions for use by both the partners.

Tata Motors (Thailand) Limited is our Subsidiary formed with Thonburi for the manufacture and assembly of pickup trucks. The manufacturing facility is located in Samutprakarn province, Thailand. Our 21% stake in Hispano provides us with access to two manufacturing units, one in Spain and another one in Morocco.

Installed Capacity

As of March 31, 2008, our total vehicle production capacity in India, determined on the basis of two production shifts per day and including capacity for the manufacture of replacement parts, was 772,000 units annually.

The following table shows the capacity and production levels on a non-consolidated basis at our principal manufacturing facilities in fiscal 2008, 2007 and 2006.

Additionally, we have a vehicle production capacity of 20,000 units annually in South Korea through the manufacturing facilities of TDCV.

Table of Contents**Components and Raw Materials**

The principal raw materials required for the production of motor vehicles are steel sheets, plates, castings, forgings and components, assemblies and aggregates. The raw materials, components and consumables that are domestically sourced include steel (sheet-metal, forgings and castings), tyres and tubes, batteries, fuel injection systems, air-oil filters and various consumables like paints, oils, thinner, welding materials, chemicals, adhesives, sealants and fuel. Certain aggregates like axles, engines, gear boxes and cabs are sourced from our Subsidiaries and associates.

The following table sets forth a breakdown of the raw materials and components consumed by the Company on a non-consolidated basis in fiscal 2008, 2007 and 2006:

S. No.	Raw materials / components	Unit of Measurement	Fiscal 2008		Fiscal 2007		Fiscal 2006	
			Quantity	Rs. million	Quantity	Rs. million	Quantity	Rs. million
			1.	Steel	Tonnes	193,864	6,427.3	2,16,083
2.	Steel Tubes	Tonnes	18	3.2	112	8.6	730	47.5
3.	Non-ferrous alloys/metals	Tonnes	3,396	495.6	2,658	429.5	2,306	272.5

8.	Engines	Nos.	93,114	12,928.0	84,472	11,790.1	61,643	8,658.4
9.	Other components			146,215.6		142,947.6		106,390.4
	Total			185,920.8		179,157.3		132,651.2

Note: The consumption figures shown above are after adjusting excesses and shortages ascertained on physical count, unserviceable times, etc. The figure of other components is a balancing figure based on the total consumption shown in the profits and loss account.

We have undertaken an e-commerce initiative through the development of a business-to-business site with the assistance of our Subsidiary, TTL, for electronic interchange of data with our suppliers. This has enabled us to have real time information exchange and processing to manage our supply chain effectively. We use external agencies as third party logistic providers. This has resulted in space and cost saving by transferring a part of our inventory to a third party.

As part of our strategy to become a low-cost vehicle manufacturer, we have undertaken various initiatives to reduce our fixed and variable costs including an e-sourcing initiative started in 2002 through which we procure some supplies through reverse auctions.

We have established a procedure for ensuring quality control of outsourced components. Products purchased from approved sources undergo a supplier quality improvement process. We also have a program for assisting vendors from whom we purchase raw materials or components to maintain quality. Each vendor is reviewed on a quarterly basis on parameters of quality, cost and delivery. Preference is given to vendors with QS-9000 certification. We also maintain a stringent quality assurance program that includes random testing of production samples, frequent re-calibration of production equipment and analysis of post-production vehicle performance and ongoing dialogue with workers to reduce production errors.

Table of Contents

Further, in 2003, we established a Strategic Sourcing Group to consolidate, strategize and monitor our supply chain activities with respect to major items of purchase as well as major inputs of technology and services. The Strategic Sourcing Group is responsible for recommending for the approval by the Management Committee the long-term strategy and purchase decision for these items, negotiation and relationship with vendors with regard to these items, formulating and overseeing our purchasing policies, norms in respect of all items, evolving guidelines for vendor quality improvement, vendor rating and performance monitoring and undertaking company-wide initiatives such as e-sourcing and supply chain management/policies with respect to vehicle spare parts. We are also exploring opportunities for global sourcing of parts and components from lower cost countries, and have embarked on a vendor management program that includes vendor base rationalization, vendor quality improvement and vendor satisfaction surveys.

Suppliers

We have established a supply chain for procuring various components. We also outsource many of our manufacturing processes and activities to various suppliers. In such cases, we provide training to outside suppliers who design and manufacture the required tooling and fixtures.

Tata AutoComp Systems Limited (TACO), our associate company, manufactures auto components and encourages the entry of internationally acclaimed auto component manufacturers into India by setting up joint ventures with them. Some of these joint ventures supply components for our products such as seats, commercial vehicle air brakes, wiring harnesses, pressed components and radiator assemblies.

We have embarked upon a vendor management program that includes vendor base rationalization, vendor quality improvement and vendor satisfaction surveys. As part of driving continuous improvement in procurement, we have integrated our system for electronic interchange of data with our suppliers with the ERP. This has facilitated real time information exchange and processing and enables us to manage our supply chain more effectively.

We import some components that are either not available in the domestic market or when equivalent domestically-available components do not meet our quality standards. We also import products to take advantage of lower prices in foreign markets, such as special steels, wheel rims and power steering assemblies. The following table shows the imported and indigenous raw material and components consumed by us on a non-consolidated basis:

S. No.		Fiscal	Fiscal	Fiscal
		2008	2007	2006
		Rs. million	Rs. million	Rs. million
1.	Imported (at rupee cost)	8,558.2	6,967.1	6,160.1
2.	Indigenously obtained	177,362.6	172,190.2	126,491.1
	Total	185,920.8	179,157.3	132,651.2

Employees

We consider our human capital as a critical factor to our success. Under the aegis of the Tata Group, we have drawn up a comprehensive human resource strategy that addresses key aspects of human resource development such as:

a fair and objective performance management system linked to the performance of the businesses which identifies and differentiates high performers while offering separation avenues for non-performers;

a common pool of talented managers across the Tata Group with a view to increasing their mobility through inter-company job rotation;

performance-based compensation packages to attract and retain talent within the Tata Group; and

comprehensive training programs to impart and continuously upgrade the industry/function specific skills.

Table of Contents

In line with the human resource strategy, we have also implemented various initiatives in order to build better organizational capability that we believe will enable us to sustain competitiveness in the global market. Our people practices and employee engagement has enabled us be adjudged the Best Employer in 2004 and one of the Best Employers in 2003 by Hewitt Associates. This has also been aided through continuous benchmarking of internal HR processes to support the Company's journey towards becoming a global player.

Our human resources focus is to attract talent, retain the better and advance the best. Some of the initiatives to meet this objective include:

Nation-wide recruiting efforts to meet the requirements of our expansion plans;

Extensive process mapping exercise to benchmark and align the human resource processes with global best practices;

Introduction of a globally benchmarked employee engagement survey;

Succession planning through identification of second level of managers for all units, locations, functions;

Implementation of a Fast Track Selection Scheme, which is a system for identifying potential talent in the areas of general, commercial and operations management and offering them opportunities for growth within the organization;

Talent Management Scheme which includes identification of high performers and high potentials through various routes like PMS and Development Centres. Subsequent to the identification process we provide them with challenging assignments for faster development;

Introduction of performance rating based salary review and quality linked variable payment for supervisory category of employees;

Extensive brand building initiatives at university campuses to increase recruiting from premium universities; and

Introduction of an employee self-service portal and an employee help desk for the benefit of employees.

We employed approximately 36,788, 29,385 and 26,742 permanent employees as of March 31, 2008, 2007 and 2006, respectively. In addition to our full-time employees, we retain contract workers to assist us in various aspects of our business. The terms of engagement for our contract workers are different than that of our full-time employees.

Training and Development

We are committed to building the competencies of our employees and improving their performance through training and development. Our focus is on identifying gaps in our employees' competencies and preparing employees for changes in competitive environments, as well as to meet organizational challenges.

Some of the areas we focused on during fiscal 2008 include leadership, innovation management and internationalization besides other training programs to drive a change in our employees' outlook as we continue to develop as a global competitor. Developmental initiatives for our senior leadership were undertaken through international programs at various institutions around the world. Our entire senior leadership was also taken through a cultural sensitivity program. Certain employees have also been selected for the Fulbright fellowships for leadership in management. In addition, in order to emphasize the sharing of skills across our locations and functions extensive technical training programs were organized in Pune, Jamshedpur and Lucknow. The technical exposure was enhanced further through international training and participation at international

seminars.

At Jamshedpur, Pune and Lucknow in India, we have also established training divisions that impart basic skills in various trades like milling, grinding and welding to our young apprentices.

Table of Contents

Labour Union

All our regular employees in India, other than management, are members of labour unions. In March 2000, we declared a lock-out in our Lucknow manufacturing facility, which was lifted in September 2000 upon the formation of a new union. Except for this incident, we have generally enjoyed cordial relations with our employees at our factories and offices.

Employee Compensation

Every year we conduct a survey to ascertain the compensation levels for various categories of white collar employees across the industry. The salaries for our employees are then determined in connection with their respective performance during the fiscal year.

Manufacturing employee wages are paid in accordance with wage agreements that have varying terms (typically three years) at the different locations.

The performance rating system, introduced for the first time, for the bargainable category in Mumbai and Passenger Car Business Unit (PCBU), has completed two full cycles. To encourage quality focus among our shop floor employees, we also introduced allowances linked to quality perception of customers.

Research and Development and Capital Expenditure

Our research and development activities focus on product development, environmental technologies and vehicle safety through our Engineering Research Centre, (ERC). Established in 1966, our ERC is a government recognized in-house automotive research and development center in India.

During fiscal 2006, we established our wholly-owned Subsidiary, TMETC, in the United Kingdom to augment the abilities of our ERC. TMETC provides us with access to cutting-edge technologies and supports the product development activities which we currently plan to undertake in order to sustain and enhance our position in the increasingly competitive global markets.

One of the most significant achievements of ERC has been the design and development of the *Indica*, which is India's only indigenously developed compact car. ERC also designed the *Indigo*, which was launched in 2002 and has been the market leader in the entry mid-size market category in India in fiscal 2008, 2007 and 2006 according to Frost & Sullivan. We have also developed the *Tata Nano*, an affordable family car, which was unveiled at the Auto Expo 2008 in New Delhi and at the Geneva Motor Show. We believe that there will be significant demand for the *Tata Nano* in the Indian market.

Our acquisition of TDCV provided us with a significant advantage in the development process of the *World Truck*, which will be a sophisticated and contemporary M&HCV with performance standards akin to those in developed markets.

In addition, our research and development activities also focus on developing vehicles running on alternative fuels, including CNG, liquefied petroleum gas, bio-diesel, compressed air and electric cars. We currently have over 40 staff buses running on bio-diesel at one of our manufacturing plants. We are pursuing alternative fuel options such as ethanol blending for our automobiles and development of vehicles fuelled by hydrogen. Initiatives in the area of vehicle electronics such as engine management systems, in-vehicle network architecture, telematics for communication and tracking and other emerging technological areas are also being pursued and which could possibly be deployed on our future range of vehicles.

We are also widening the scope of our research and development activities from in-house product and technology development to managing the research and development process across various internal and external agencies, including our research and development centers in South Korea, Spain and the United Kingdom, as well as at various aggregate parts suppliers and outsourcing partners.

Table of Contents

We have a modern crash test facility, a pedestrian safety testing facility, a pendulum impact test facility and a bus rollover test facility to ensure compliance to various safety norms. We also have a hemi-anechoic chamber testing facility for developing vehicles with lower noise and vibration levels and an engine emissions testing facility to develop products meeting international standards.

Our product design and development center is equipped with computer-aided design, manufacture and engineering tools, with sophisticated hardware, software, and other information technology infrastructure, designed to create a digital product development environment and virtual testing and validation, resulting in faster product development cycle-time and data management. Rapid prototype development systems, testing cycle simulators, advanced emission test laboratories and styling studios are also a part of our product development infrastructure and are regularly used in product development. The Company has aligned its Digital Product Development objectives and infrastructure with its business goals, and has made significant investments to enhance its Digital Product Development capabilities through CAD/CAM/CAE/KBE/PDM.

Our capital expenditure aggregated to Rs. 58,544.9 million, Rs. 28,601.5 million and Rs. 14,633.4 million during fiscal 2008, 2007 and 2006, respectively. Our capital expenditure during the past three fiscal years has been related mostly to capacity expansion for new and existing products to meet the market demand and investments towards improving quality, reliability and productivity that are aimed at increasing our operational efficiency. Over the years, we have devoted significant resources towards our research and development activities. TML's total expenditure on research and development during fiscal years 2008, 2007 and 2006 was Rs. 11,959.7 million, Rs. 7,968.6 million and Rs. 4,761.2 million respectively on a non-consolidated basis.

We intend to continue to invest in our business units and research and development over the next several years in order to improve our existing product range and developing new products and platforms to build and expand our presence in the passenger vehicle and commercial vehicle categories. We believe this would strengthen our position in India and help us to grow our presence in select international markets.

As a part of this future growth strategy, we also plan to make investments in product development, capital expenditure in capacity enhancement, plant renewal and modernization and to pursue other growth opportunities. Our Subsidiaries also have their separate growth plans and related capital expenditures. These expenditures are expected to be funded largely through cash generated from operations, existing investible surplus in the form of cash and cash equivalents, investment securities and other external financing sources.

Competition

We face competition from various domestic and foreign automotive manufacturers in the Indian automotive market. Improving infrastructure and robust growth prospects compared to other mature markets are now attracting a number of international companies to India who have either created joint-ventures with local partners or have established independently owned operations in India. Global players bring with them decades of international experience, global scale, advanced technology and strong financial position. Hence competition is likely to intensify further in the future. As a result of our international growth strategy, we also face significant competition from foreign automobile manufacturers in markets outside of India.

We have designed our products to suit the specific requirements of the Indian market based on specific customer needs such as safety, driving comfort, fuel efficiency and durability. We believe that our vehicles are suited to the general conditions of Indian roads and local climate and comply with applicable environmental regulations currently in effect. We also offer a wide range of optional configurations to meet the specific needs of our customers, including in international markets.

Seasonality and Cyclicity

Demand for our vehicles in the Indian market is subject to seasonal variations. Demand generally peaks between January and March, although there is a decrease in demand in February just before release of the Indian Fiscal Budget. Demand is usually lean from April to July and picks up again in the festival season from September onwards, with a decline in December due to year end. Furthermore, the automotive industry has been cyclical in the past and we expect this cyclicity to continue.

Intellectual Property

Tata Motors Limited has 170 trademarks registered in India and approximately 186 trademark applications which are currently pending registration. In addition to this, our significant trademarks are registered, or are in the process of being registered in other countries. We currently hold approximately 331 of these registrations worldwide and have made 67 applications out of India. The registrations mainly include trademarks for each of our vehicle models. Further, we also use the Tata brand, which has been licensed to us by Tata Sons Limited. Additionally, Tata Sons has applied for 9 trademarks in the name of the Company. The Company has applied for 4 trademarks in the name of Telcon. As part of our acquisition of TDCV, we have the perpetual and exclusive use of the Daewoo brand and trademarks in Korea and overseas markets for the product range of TDCV. TDCV holds South Korean trademark registrations for 14 utility models and 5 designs.

India is a member of the World Trade Organization. In compliance with its obligations under the Agreement on Trade Related Aspects of Intellectual Property, (TRIPS), India grants statutory protection to various forms of intellectual property, including patents, copyrights, industrial designs and trademarks. The Trade Marks Act, 1999 and the Copyright Act, 1957, as amended, which are currently in force in India, are TRIPS compliant. The Patents Act, 1970, as amended, to the extent that it relates to our business and operations, provides adequate product and process patent protection in India in accordance with its obligations under TRIPS.

We currently own 20 patents and have 183 patent applications pending registration in India. We have also filed patent applications in UK, US & Europe (EP). In addition we have filed 29 applications under the Patent Corporation Treaty which will be entered in different countries later.

In addition, TDCV holds 11 patents in South Korea.

We have filed 83 design applications in India for aesthetic features of products/components.

In addition to the above, we also have various copyright and Internet domain name registrations.

In varying degrees, all of our trademarks, brands or patents are important to us. In particular, the expiration or termination of the Tata brand could materially affect our business.

Environmental, Health and Safety

We have a history of commitment to the improvement of the quality of life of the community we serve. We have developed and are involved in social development, environmental management and biodiversity conservation programmes.

We are committed to serving rural communities around our manufacturing locations. Community service divisions have been established at our manufacturing plants to work with various societies for purposes of improving living conditions in villages adjoining the plants. We are also engaged in programmes which encourage economic independence through self-initiated cottage industries, community and social forestry, water and road projects, improve rural health and propagate family planning benefits.

We are engaged in improving the fuel efficiency of our products and developing alternative fuel vehicles. Our CNG buses are successfully running in Delhi and Mumbai. The forty staff buses running on bio-diesel fuel at one of our manufacturing facilities are an example of how we are working towards a greener environment.

Our manufacturing facilities in Jamshedpur, Pune and Lucknow have been certified to ISO:14001 Environment Management System (EMS) standard. Measures to re-use and recycle packaging material and metal scrap as well as measures designed to conserve energy have been implemented in our plants and offices in India. These measures are aimed at the effective management and utilization of energy resources.

Use of alternate energy is also promoted in manufacturing units of the company. Taking opportunity of the Clean Development Mechanism, Tata Motors Limited initiated action for 20.85 MW Wind Power Projects installed and commissioned at Satara & Supa. The Ministry of Environment in New Delhi, India, issued Host Country Approval for the project and the project was validated by M/s BVQI and registered by UNFCCC. Our wind power project has also been successfully registered with the United Nations Convention on Climate Change for trading carbon credits. In September 2007, we successfully traded the CERs through e-bidding on the Chicago Climate Exchange.

Tata Motors contribution in national development, environmental conservation and societal value creation has been acknowledged at various forums. The Company has received awards such as the CII-EXIM award for Business Excellence, CII awards for Corporate Sustainability Reporting, Energy Efficiency and Energy Management, Green Governance Award by the Bombay Natural History Society and the Golden Peacock Global Award for Corporate Social Responsibility by the Institute of Directors.

We are committed to maintaining a safe and healthy working environment. As a part of our commitment, a revised Occupational Health and Safety policy was adopted in July 2007. We have clinical facilities in terms of a team of doctors and paramedics, which runs 24-hour medical centres in our manufacturing facilities. Our dispensaries are well equipped to offer basic and advanced life support to employees should the need arise. We have also established joint management-worker health and safety committees that meet regularly throughout the year for purposes of facilitating a two-way communication that aids in the reduction of injury rates, occupational diseases, lost days and absenteeism and work-related fatalities.

Insurance Coverage

The Indian insurance industry is predominantly state-owned and insurance tariffs are regulated by the Indian Insurance Regulatory and Development Authority. We have insurance coverage including business interruptions which we consider reasonably sufficient to cover all normal risks associated with our operations and which we believe is in accordance with industry standards in India. We have obtained coverage for product liability for some of our vehicle models in several countries to which we export vehicles. TDCV has insurance coverage as is required and applicable to cover all normal risks in accordance with industry standards in South Korea, including product liability. We have also taken insurance coverage on directors and officers liability to minimize risks associated with product liability and international litigation.

Other Operations

In addition to our automotive operations, we are also involved in various other business activities primarily consisting of information technology services and construction equipment manufacturing. Our non-automotive segment recorded revenues before inter-segment eliminations of Rs. 37,038.1 million, Rs. 27,078.9 million and Rs. 18,093.9 million for the year ended March 31, 2008, 2007 and 2006.

Information Technology Services:

TTL, is our 81.71% owned Subsidiary as of March 31, 2008. Through its operating companies, INCAT and Tata Technologies iKS, TTL provides specialized engineering and design services, product lifecycle management and product-centric IT services to leading manufacturers.

Table of Contents

Construction Equipment:

Telco Construction Equipment Company Limited, (Telcon), is engaged in the business of manufacturing and sale of construction equipment and providing related supporting services. We own 60% of Telcon, with the remaining 40% being held by Hitachi Construction Machinery Company Limited, Japan.

For more information on the businesses of our Subsidiaries and associate companies see Business Subsidiaries, Associates and Joint Venture on page 80 of this Letter of Offer.

The Jaguar Land Rover Business

The following is a discussion of the business of Jaguar Land Rover and the significant factors influencing the results of operations of Jaguar Land Rover, which was acquired by the Company on June 2, 2008.

Overview

Jaguar Land Rover is a global premium automotive business which designs, engineers and manufactures Jaguar luxury performance cars and Land Rover premium all-terrain vehicles. Jaguar's roots go back to Jaguar's Swallow Side Car Company founded in 1922. Land Rover launched its first all-terrain utility vehicle in 1948. Jaguar Land Rover produces nine vehicle lines with sales of 288,544 units for the year ended December 31, 2007 and operates three vehicle manufacturing facilities in the United Kingdom.

On June 2, 2008, the Company completed the acquisition of Jaguar Land Rover from Ford. As part of the acquisition, the Company acquired the global businesses relating to Jaguar Land Rover including three vehicle manufacturing facilities, one veneer production facility, two advanced design centers, 26 national sales companies, intellectual property rights (including perpetual royalty free licenses), and brands and trade marks. See Management's Discussion and Analysis of Financial Condition and Results of Operations Financing of the Jaguar Land Rover Acquisition and Objects of the Issue on pages 135 and 23 of this Letter of Offer for further details on the financing of the acquisition of Jaguar Land Rover.

Prior to the acquisition of Jaguar Land Rover by the Company, the business of Jaguar Land Rover comprised a number of subsidiaries (including national sales companies), several divisions and the Halewood facility all of which were integrated into Ford. Under the acquisition process, certain divisions relating to Jaguar Land Rover were carved out and either transferred to existing companies or to new companies formed as a part of the reorganization process. These companies together with the existing subsidiaries and the Halewood facility relating to Jaguar Land Rover were re-constituted under Jaguar Cars Limited and Land Rover which are subsidiaries of JaguarLandRover Limited, TML's indirect Subsidiary. However, certain of these divisions relating to distribution operations in 15 countries will be transferred by Ford to Jaguar Land Rover on completion of pending formalities and receipt of local regulatory approvals. We have also entered into arrangements with Ford and other third parties for platform sharing, procurement of engines, and other components, as well as in respect of certain corporate services such as information technology, accounting and treasury services, marketing and purchasing services, and vehicle financing for Jaguar Land Rover's dealers and customers.

All of Jaguar Land Rover's customer interface activities have dedicated, brand specific marketing teams with complementary global distribution networks and brand specific design teams supported by a single engineering team sharing technologies and know-how. Functions such as purchasing, information technology, finance, quality control and various engineering and developmental activities are centrally integrated.

The strengths of Jaguar Land Rover include its internationally recognized brands, strong product portfolio of award winning luxury performance cars and premium all-terrain vehicles, brand specific global distribution network, strong research and development capabilities, and a strong management team which has strengthened its business operations.

Table of Contents

Jaguar Land Rover will continue to seek to build upon its internationally recognized brands and advanced technology to provide desirable vehicles to customers in both established markets as well as in growing markets such as Russia and China. Jaguar Land Rover will continue to invest in new technologies through its research and development activities to develop products that meet the requirements of the premium segment, including developing sustainable technologies to improve fuel economy and reduce CO₂ emissions. Furthermore, Jaguar Land Rover will also continue to focus on measures to reduce costs, increase operational efficiency and maintain vehicle quality.

Acquisition Rationale

We anticipate that our acquisition and operation of Jaguar Land Rover will result in benefits to us, including (i) immediate entry to the luxury performance car and premium all-terrain vehicle segments; (ii) an improvement in our global market position through a combination of resources and strengths; (iii) strengthening of technological and product development/ innovation capabilities to address changing market trends; (iv) sharing of best practices in manufacturing and quality assurance systems and processes; (v) enhanced human capital and managerial talent; and (vi) potential operational synergies.

The acquisition of Jaguar Land Rover enabled us to acquire internationally recognized brands with a strong heritage and global presence, and increases our product and market diversity. Jaguar Land Rover, which recorded more than 75% of its sales in the US, UK and the rest of Europe for the year ended December 31, 2007, will expand and diversify our international sales market, allowing us to reduce our reliance on the Indian market.

Land Rover provides us an opportunity to broaden our existing portfolio of UV, SUV and crossover offerings. Land Rover's products in the all-terrain vehicle segment are complementary to our products in terms of features, technology and price positioning and as such, allow us to offer a wide range of vehicles that satisfies various consumer needs. Additionally, Jaguar's premium product offerings will provide us with immediate entry into the luxury performance car segment.

The acquisition of Jaguar Land Rover also enables us to leverage Jaguar Land Rover's technology and engineering expertise. For example, Jaguar Land Rover's technological capabilities in petrol engines, Four Wheel Drive technology and Aluminium BIW (Body in White) technology will help us further develop and strengthen our existing engineering capabilities. Through the acquisition, we also gain research and development capabilities of Jaguar Land Rover's strong engineering workforce and its two advanced design centres in the UK.

We believe Jaguar Land Rover will benefit from the acquisition because we will be able to leverage our low cost engineering and sourcing capabilities in favour of Jaguar Land Rover and thereby support Jaguar Land Rover in its cost reduction initiatives and improve profitability. Similarly, in advanced technology areas, we will be able to leverage Jaguar Land Rover's expertise and supply chain.

Table of Contents

The Jaguar S-Type, the Jaguar XF's predecessor, is a medium-size four-door sports sedan, available with turbocharged V6 diesel and V6/V8 petrol engines and automatic transmission as part of the standard features. The S-Type was discontinued in 2007.

The Jaguar X-Type is a compact-size four-door sedan available with a range of petrol and diesel engines, manual and automatic transmissions. The awards won by the X-Type include the Autopacific, 2007 Vehicle Satisfaction Award for Aspirational Luxury Car.

The Jaguar XJ is an all-aluminium large-size four-door sedan, offered with a range of V6 turbocharged diesel engines or V8 petrol engines, normally aspirated and supercharged. The awards won by the XJ include the Britain's greenest luxury car award by the Environmental Transport Association's Car Buyers Guide in 2007 and 2008.

The Jaguar XK is an all-aluminium sports coupe and convertible available with normally aspirated and supercharged V8 petrol engines. The awards won by the XK include the Car of the Year and GT of the Year award from Top Gear in 2006.

The Jaguar XF is Jaguar's most recent new launch. It is a stylish medium-size four-door sports sedan, available with a range of turbocharged V6 diesel and V6/V8 petrol engines and automatic transmission as standard features. The awards won by the XF include the What Car? magazine's Best Executive Car and Car of the Year award in 2008.

In the late 1990s, Jaguar adopted a strategy to launch new models in segments where it had not previously been present, and compete directly with the volume executive sedan markets with the introduction of the S-Type and X-Type in 1999 and 2001, respectively.

Following a strategic review undertaken in 2002-2003, Jaguar began to review its product portfolio to re-position Jaguar in the niche premium segment along its mission of creating Beautiful Fast Cars. With this view, Jaguar launched the new XK in 2006 and the XF in 2008 with a range of high-end features. Jaguar also intends to launch a new XJ model in 2009 to replace the previous XJ version. Moreover, Jaguar Land Rover believes that increased focus on improving dealer sales processes will also support Jaguar in its re-positioning strategy. For instance, Jaguar received the highest Customer Service Index in USA according to a study conducted by J.D. Power and Associates in both 2007 and 2008. Furthermore, Jaguar began a restructuring program with a focus on cost reduction and improving operational efficiencies in the sale and manufacturing processes. We believe that this strategy of focusing on the niche premium segment aligned with Jaguar's focus on enhancing the customer experience and cost reduction would enhance margins.

* Launch of new model or major refresh.

^ New Freelander was launched in 2006.

The Land Rover Defender was launched in 1948 and is the vehicle that launched Land Rover. It has received many updates through its lifetime, with the most recent update in its engine, transmission and interior in 2007. The awards won by the Land Rover Defender include the 4 X 4 of the year and the Extreme Class award from the 4 X 4 Magazine in 2007.

The Range Rover is a luxury all-terrain vehicle available with a range of diesel and petrol engines. It offers Land Rover's off-road capabilities including ability to adapt setting for gearbox, throttle, air suspensions and traction control to suit tarmac, sand, snow, mud and boulders through Land Rover's Terrain Respons[®] system. The awards won by the Range Rover include the Best Luxury 4WD in the 2007 Overlander 4 WD Awards, 4 X 4 of the Century by Auto Verte in 2006 and the APPEAL award by JD Power, USA in 2005.

The Land Rover Discovery/LR3 is a versatile seven-seat all-terrain vehicle with Land Rover's Terrain Respons[®] system. The Land Rover Discovery/LR3 is available with range of diesel and petrol engines. The awards won by the Land Rover Discovery/LR3 include the Best Large 4x4 award from the What Car? magazine and Business Awards in 2007 and 2008 as well as the Best 4x4 of 2007 award from Planet 4x4 magazine.

The Range Rover Sport is a performance all-terrain vehicle available with a range of diesel and petrol engines, offering full Land Rover off-road capabilities. The awards won by the Range Rover Sport include Best Diesel 4x4 award by Diesel Car Magazine, UK in 2006.

The Land Rover Freelander 2/LR2 is the largest selling model in Land Rover range. It is a compact all-terrain vehicle with Land Rover's full off-road capabilities, available with a range of diesel and petrol engines, and manual and automatic transmissions. The awards won by the Land Rover Freelander/LR2 include the Best Compact 4x4 award from the What Car? magazine in 2008 and the SUV of the Year award from Top Gear in 2006.

Land Rover also expects to launch new lighter vehicles with smaller engines. The new products are intended to contribute towards making the Land Rover brand more fuel efficient with reduced emissions. Recently, Land Rover has showcased the LRX concept vehicle which is intended as a compact crossover all-terrain vehicle having a hybrid diesel engine, high fuel economy and low emissions. In addition, Land Rover will continue to focus on cost reduction measures, supply chain management and quality improvements.

Sales locations for Jaguar Land Rover vehicles are operated as independent franchises. Jaguar Land Rover is represented in its key markets through national sales companies as well as third party importers. Jaguar Land Rover has regional offices in certain select countries that manage customer relationships, vehicle supplies and provide marketing and sales support to their regional importer markets. The remaining importer markets are managed from the UK.

A majority of the Jaguar Land Rover parts and accessories business, including stocks and logistics management, is performed by Unipart and Caterpillar for Jaguar and Land Rover, respectively, pursuant to contractual arrangements.

Financial Services

Prior to our acquisition of Jaguar Land Rover in June 2008, Ford Motor Credit Company (Ford Motor Credit) provided automotive financial services to a number of dealers and customers of Jaguar Land Rover. Under agreements with Ford, Jaguar Land Rover's dealers and customers will continue to have access to Ford Motor Credit's financing facilities for a period of up to 12 months in various markets following our acquisition of Jaguar Land Rover, while Jaguar Land Rover migrates to alternative arrangements. Jaguar Land Rover has recently announced the selection of Fiat Group Automobiles Financial Services to be its exclusive partner in Jaguar Land Rover's European markets. Jaguar Land Rover is also in advanced stages of selecting a strategic financial services partner for the North American market. In the remaining markets, Jaguar Land Rover is evaluating alternative options with potential partners.

Manufacturing Facilities

Jaguar Land Rover's principal manufacturing facilities are at Halewood, Solihull and Castle Bromwich in the United Kingdom. The Halewood plant produces the Jaguar X-Type and Land Rover Freelander/LR2 models. The Solihull plant produces the Range Rover, Range Rover Sport, Discovery and Defender models. The Castle Bromwich plant produces Jaguar XK, XJ and XF models. Jaguar Land Rover also has an additional facility located at Browns Lane that produces veneers for all its models.

Components and Raw Materials

Jaguar Land Rover utilizes a number of raw materials in the production of its vehicles, such as steel, aluminium, precious metals, copper and resins. Furthermore, Jaguar Land Rover works with a base of strategic suppliers to meet its requirements for parts and components. Jaguar Land Rover has established quality control programmes to ensure that externally purchased raw materials and components are monitored and meet its quality standards. Such programmes include site engineers from Jaguar Land Rover who regularly interface with suppliers and carry out visits to supplier sites to ensure that relevant quality standards are being adhered to. The site engineers are also supported by persons in other functions, such as program engineers who interface with new model teams as well as resident engineers co-located at Jaguar Land Rover plants, who provide the link between the site engineers and the Jaguar Land Rover plants.

Ford has been and continues to be a major supplier of parts and services. In connection with our Acquisition of Jaguar Land Rover in June 2008, supply agreements have been entered into with Ford, ranging from duration of seven to nine years, for (i) the long term supply of engines developed by Ford, (ii) engines developed by Jaguar Land Rover but manufactured at Ford plants and (iii) engines from Ford-PSA cooperation. In addition to Ford, Jaguar Land Rover depends upon other external suppliers for its parts and components including ZF Group, Lear Group, Johnson Control Inc., Faurecia, Visteon and Denso.

Jaguar Land Rover has and will continue to work with its suppliers to optimize its procurements and enhance its supplier base, including sourcing certain of its raw material and component requirements from low cost countries.

Employees

As of June 30, 2008 Jaguar Land Rover had approximately 15,980 full-time employees. In addition, Jaguar Land Rover uses contract workers to assist in various aspects of the business depending on workload and demand. Jaguar Land Rover focuses its recruitment efforts on attracting and retaining capable individuals. Jaguar Land Rover provides employees with several training programs, including courses in areas as diverse as health and safety, and leadership/management skills. Employees can choose to take part-time external courses to obtain degrees or professional qualifications relevant to their work, which may be funded by Jaguar Land Rover. Employees may also receive an annual allowance to receive non-work related training. Jaguar Land Rover believes that the emphasis on training and development helps its employees meet business challenges effectively.

Table of Contents

Jaguar Land Rover's shop-floor workers are union members, as are certain of Jaguar Land Rover's salaried staff. Jaguar Land Rover's union agreements provide for standard terms and conditions for covered workers, including compensation, benefits, working hours and working practices. Jaguar's current union agreements were entered into in November 2006 and Land Rover's current union agreements were entered into in November 2007. Both agreements will expire in October 2009.

For salaried employees who are not in unionized grades, Jaguar Land Rover has established an information and consultation forum which seeks the views and consults with representatives of these employees.

The standard remuneration package for full-time Jaguar Land Rover employees includes a salary, which is increased in line with negotiated general increases under union contracts or in line with individual performance and the performance of the business; a bonus tied to Jaguar Land Rover's performance and individual performance (in certain salaried grades); and various allowances and benefits, including health care (at certain grades), child care and pension benefits. Jaguar Land Rover has a performance-related pay plan for managerial staff in order to recognize and reward superior performance. Jaguar Land Rover currently does not have an employee stock option plan.

Jaguar Land Rover has not experienced any major disruptions in recent years due to strikes or work stoppages at any of its manufacturing facilities, and the recent change of ownership from Ford to the Company passed with no disruption or loss of production.

Pensions

Jaguar Land Rover provides pension benefits for substantially all of its employees in the United Kingdom under three defined benefit plans namely the Jaguar Pension Plan (JPP), Jaguar Executive Pension Plan (JEPP) and the Land Rover Pension Scheme (LRPS) (collectively, UK Pension Plans). A formal valuation of the liabilities must be performed by qualified actuaries (using various financial and demographic assumptions about future events) and agreed by the company and trustees every 3 years.

The UK Pension Plans were valued in 2006, following which Jaguar Land Rover and the trustees to the pension plans agreed on contributions to eliminate the deficits in these plans by 2015. The contributions were weighted towards the later part of this period. The next valuation was scheduled for 2008.

However, in 2007, as part of the sale process, Ford entered into agreements with the trustees under which Ford agreed to contribute towards the deficits of the UK Pension Plans. Prior to this, the estimated deficits as at October 31, 2007, amounted to GBP 120 million for JPP, GBP 9 million for JEPP and GBP 115 million for LRPS, on a closed fund basis using similar assumptions as used for the 2006 valuation. However, as per the agreement reached between Ford and the trustees, Ford contributed a total of GBP 301.5 million into the three UK Pension Plans prior to the Acquisition.

The deficits in the UK Pension Plans may have changed since October 31, 2007 given market volatility and potential changes in valuation factors. However, no formal funding valuations have been carried out since then either by the Company, Jaguar Land Rover or by the trustees. The next formal funding valuations of the UK Pension Plans are scheduled for April 2009.

Additionally, Jaguar Land Rover employees in other jurisdictions are covered under local pension plans which have either been transferred directly to Jaguar Land Rover as part of the acquisition or for which Jaguar Land Rover is in the process of negotiating pension benefits and establishing new pension plans.

Research and Development

Jaguar Land Rover has launched five new vehicles in the past five years, namely the Land Rover Discovery, Range Rover Sport, Jaguar XK, Land Rover Freelander and Jaguar XF vehicles in 2004, 2005, 2006, 2007 and 2008, respectively, and is committed to a future product cycle plan that will continue to deliver desirable products while improving the emission performance of its vehicles through sustainable technology.

Table of Contents

Jaguar Land Rover has approximately 3,400 engineers and designers at its advanced design facilities in Whitley and Gaydon in the United Kingdom, using advanced product development processes and facilities to satisfy the diverse demands of luxury and premium vehicle customers. As part of the Acquisition, Jaguar Land Rover has entered into long term agreements with Ford for technology sharing and joint development providing technical support across a range of technologies focussed mainly around powertrain engineering such that Jaguar Land Rover may continue to operate according to its existing business plan.

With an increased focus on the environment, Jaguar Land Rover is now investing in the development of sustainable technologies to improve fuel economy and reduce CO₂ emissions as Europe moves from a series of voluntary to mandatory regulations.

Future technologies under development include modular lightweight vehicle architectures, building on Jaguar's expertise in the use of aluminium body structures, advanced direct injection stratified charged gasoline engines and advanced diesel engine technologies, increased efficiency drivelines including next generation multi-speed automatic transmissions, and micro and full hybrid drive trains.

Competition

Jaguar Land Rover operates in a globally competitive environment and faces competition from established premium and other vehicle manufacturers who aspire to move into the luxury performance car and premium SUV segments. Jaguar vehicles compete primarily against other European vehicles such as various BMW, Mercedes Benz and Audi models. Land Rover vehicles compete largely against SUVs manufactured by Audi, BMW, Infiniti, Lexus, Mercedes Benz, Porsche and Volkswagen. The Land Rover Defender competes with vehicles manufactured by Isuzu, Nissan and Toyota.

Seasonality

The business of Jaguar Land Rover is impacted by the bi-annual registration of vehicles in the United Kingdom wherein the vehicle registration number changes every six months which, in turn has an impact on the resale value of the vehicles. This leads to a bunching up of sales during the period when the aforementioned change occurs. Most other markets are driven by introduction of new model year derivatives. Furthermore, western European markets tend to be impacted by summer and winter holidays. The resulting sales profile influences operating results on a quarter to quarter basis.

Brand, Trademarks and Intellectual Property

The Jaguar trademark is owned by Jaguar Cars Limited, together with the trademarks relating to Jaguar's products including S-Type, X-Type, XK and XF. The Land Rover trademark, together with trademarks relating to Land Rover's products including the Land Rover oval logo, Range Rover, Defender, Freelander, Discovery, LR2 and LR3 are owned by Land Rover. As part of our Acquisition of Jaguar Land Rover, ownership of core intellectual property were transferred to Jaguar Land Rover. Additionally, perpetual royalty free licenses to use other essential intellectual properties have been licenced to Jaguar Land Rover for use in Jaguar and Land Rover vehicles.

Jaguar and Land Rover each own registered designs, to cover the design of their vehicles in several countries.

Significant Factors Influencing the Results of Operations of Jaguar Land Rover

The following are factors affecting the results of operations of Jaguar Land Rover:

General economic conditions.

In common with the rest of the automotive industry, Jaguar Land Rover is substantially affected by general global economic conditions. Disposable income levels, consumer confidence, availability and terms of credit and cost of fuel are key determinants of demand in the automotive industry, and changes in these factors are likely to continue to have an impact on the sales and results of operations of all vehicle manufacturers including Jaguar Land Rover.

Table of Contents

Jaguar Land Rover sells vehicles in over 165 countries of the world. North America and the United Kingdom constitute the largest markets for Jaguar Land Rover making up for 47.5% of Jaguar Land Rover's vehicle unit sales for the year ended December 31, 2007. Furthermore, sales in the emerging markets of China and Russia have been increasing, and accounted for 8.2% of Jaguar Land Rover's vehicle unit sales for the year ended December 31, 2007. Deteriorating economic conditions in these markets, characterized by increase in fuel prices, increasing interest rates, and general economic performance, will have a significant impact on Jaguar Land Rover's operating results and profitability. Difficult economic conditions may cause consumers to defer their purchases or replacements. In addition, difficult market conditions and competitor actions may require Jaguar Land Rover to incur higher incentive spending and generate lower revenues than planned. Moreover, entering a new market may involve increased selling expenses to establish Jaguar Land Rover's brands thus impacting its results.

Interest rates, availability of credit for vehicle purchases and residual values

Interest rates tend to have an impact on sales as the availability and cost of capital are the key drivers of consumer demand in the automotive industry. Prior to the acquisition of Jaguar Land Rover in June 2008, Ford Motor Credit Company provided automotive financial services to a number of dealers and customers of Jaguar Land Rover, with an option of loan or lease products. Under agreements with Ford, Jaguar Land Rover's dealers and customers will continue to have access to Ford Motor Credit Company's financing facilities for a period of up to 12 months in various markets following the acquisition, while Jaguar Land Rover migrates to alternative arrangements. Going forward the results of operations could undergo change depending upon the terms entered into between Jaguar Land Rover and its new strategic financial services partners.

Jaguar Land Rover has recently announced the selection of Fiat Group Automobiles Financial Services to be its exclusive partner in Jaguar Land Rover's European markets. Jaguar Land Rover is also in advanced stages of selecting a strategic financial services partner for the North American market. In the remaining markets, Jaguar Land Rover is evaluating alternative options with potential partners. Jaguar Land Rover's inability to provide for alternative sources of financing, especially in North America, which is amongst its largest markets, could significantly affect its results of operations.

Deterioration in economic conditions, accompanied by higher interest rates and a reduction in the availability of financing will result in higher loan/ lease rates, and a corresponding reduction in customer demand. Furthermore, higher interest rates will also increase the amount of financial incentives provided to dealers and customers in the form of wholesale, retail and lease subvention. While this may stimulate sales, it would have an adverse effect on Jaguar Land Rover's profitability and competitiveness in the market.

A deterioration in residual values of Jaguar Land Rover products against that planned will result in higher lease rates and a corresponding reduction in customer demand. Jaguar Land Rover shares the potential cost of changes in the residual values of Jaguar Land Rover's leased vehicles between the estimate made at the time the lease was entered into and that existing at the end of the lease period, with providers of leasing arrangements including Ford Motor Credit Company. As a result, adverse changes in the residual values of Jaguar Land Rover products could have a material adverse affect on its financial performance.

Additionally Jaguar Land Rover undertakes financing of certain receivables and financing of Value Added Tax refunds to meet its working capital requirements. A sustained increase in interest rates could affect the ability of the business to raise working capital by these means. Similarly, an increase in interest rates could lead to higher interest burdens on Jaguar Land Rover and this could affect the results of the operations of the business.

Competitive position in the market

Jaguar Land Rover has two brands that operate in the global premium automotive business, and faces competition from other global premium automotive manufacturers. Jaguar Land Rover also offers a wide range of optional configurations to meet the specific needs of its customers.

Competitors may exert pricing pressures on Jaguar Land Rover by changing prices or by offering higher level of financial incentives. In some competitive markets customers may demand more features on a vehicle as standard which could impact the profitability of Jaguar Land Rover by constraining its ability to realize the costs of providing such features. In addition, difficult market conditions and competitor actions may require Jaguar Land Rover to incur higher incentive spending and generate lower revenues than planned. Jaguar Land Rover's continuing ability to anticipate and respond to these pressures combined with increased competition in the premium automotive business will be critical to its results of operations in the coming years.

New model launches

The performance of Jaguar Land Rover is dependent on its ability to introduce new and innovative products to meet changing customer requirements. The introduction of new carlines into Jaguar Land Rover's portfolio has driven sales growth, and contributed to the improvements in its results of operations. The global premium automotive business is highly competitive requiring Jaguar Land Rover to undertake regular up-gradation of its offerings and product interventions to maintain and/or improve demand for its vehicles. As part of its strategy Jaguar Land Rover intends to continue to invest in future product offerings to ensure that it remains in a strong competitive position and meets the needs of the premium automotive market. The launch of new models requires substantial capital investment and expenditure on research and development which could impact the results of operations of Jaguar Land Rover. Moreover, the ability of new models to achieve anticipated sales volumes to enable recovery of initial investment depends on their market acceptance and other market conditions.

Costs of raw materials/ components and cost reduction initiatives

Jaguar Land Rover utilizes a variety of raw materials and components in the production of motor vehicles. Increases in these input costs may affect product cost and operating results as Jaguar Land Rover may not be in a position to pass on the increases to its customers. For further details on the components and raw materials used by Jaguar Land Rover, see Business The Jaguar Land Rover Business Components and Raw Materials on page 73 of this Letter of Offer.

Following a strategic review undertaken in 2002-2003, Jaguar Land Rover began a restructuring program with a focus on cost reduction and improving operational efficiencies in the sale and manufacturing processes. Some of the measures instituted under the program include:

Closure of the majority of operations at, and subsequent sale of, the Browns Lane site which formerly produced Jaguar vehicles.

Cessation of Freelander and powertrain production at Jaguar Land Rover's Solihull facility. The replacement vehicle (Freelander 2/LR2) is produced at Jaguar Land Rover's Halewood facility.

Reduction in head count;

The increased use of common architectures, platforms and powertrains so as to reduce fixed costs and gain efficiencies in production;

Stock management to reduce carrying cost and variable marketing incentives;

Improvement in the inbound logistics network including vendor rationalisation.

Seasonality

As described under **Business** **The Jaguar Land Rover Business** **Seasonality**, the business of Jaguar Land Rover is impacted by the bi-annual registration of vehicles in the United Kingdom which leads to a bunching up of sales. Most other markets are driven by introduction of new model year derivatives. Furthermore, western European markets tend to be impacted by main summer and winter holidays. The resulting sales profile influences operating results on a quarter to quarter basis.

Environmental regulations

There has been a greater emphasis by governments on the emission and safety levels for the automobile industry. Existing EU4 and EU5 regulations, and planned EU6 regulations place limits on particulate emissions and emissions of pollutants other than CO₂ and encourage fuel economy. The EU has indicated that it will introduce legislation to reduce CO₂ emissions from passenger cars.

Jaguar Land Rover carefully monitors environmental requirements and has plans to reduce the average CO₂ emissions of its vehicle fleet through the introduction of sustainable technologies including modular lightweight vehicle architectures, smaller and more fuel efficient SUVs, powertrain projects and development of technologies that use hybrid and alternative fuels. While Jaguar Land Rover has plans to reduce emissions of its vehicle fleet, the risk remains that eventual legislation may impose requirements in excess of current planned design actions. Also, there is significant potential that consumer demands will take increasing account of fuel efficiency and emissions over the period of the current cycle plan.

To comply with current and future environmental norms, Jaguar Land Rover may have to incur substantial capital expenditure and research and development costs to upgrade products and manufacturing facilities, which would have an impact on its cost of production and results of operation.

Foreign currency rates

The results of operation of Jaguar Land Rover are sensitive to fluctuations in foreign currency rates. The majority of Jaguar Land Rover's cost structure is denoted in British Pounds, with the balance denoted in Euros and other currencies. However, the majority of Jaguar Land Rover's sales are made in markets outside of the United Kingdom, including the US. Therefore, the results of Jaguar Land Rover are impacted by fluctuations in the value of the British Pound against the US Dollar and other currencies. Additionally Jaguar Land Rover faces risks of translations as well as transactions due to its operations outside the United Kingdom.

While Jaguar Land Rover monitors these exposures as part of its overall risk management program, changes in currency exchange rates cannot always be predicted or hedged. Substantial changes in key exchange rates, especially vis-à-vis the British Pound could significantly impact Jaguar Land Rover's results of operations.

Furthermore, Jaguar Land Rover has traditionally depended on Ford for managing its treasury risks. However, going forward Jaguar Land Rover's operations and financials could be affected in the manner it is able to manage its currency exposure including but not limited to hedging by way of forwards, options and swaps. Transitional Support Agreements were entered into with Ford for support in accounting and treasury services.

Capital Allowance

Jaguar Land Rover had a total capital allowance pool in excess of GBP 2 billion as of December 31, 2007. As part of the transaction a minimum capital allowance pool of GBP 580 million in respect of qualifying expenditure on plant and machinery is assured by Ford to Jaguar Land Rover. The balance capital allowance may be available depending upon possible utilization if any by Ford, for the past years. The capital allowances are available to Jaguar Land Rover on a reducing balance basis currently at the rate of 20% under laws applicable in the United Kingdom for set off against profits in the future years in the United Kingdom.

Table of Contents

Pension benefit obligations

Jaguar Land Rover provides pension benefits for substantially all of its employees in the United Kingdom under three defined benefit plans namely the JPP, JEPP and LRPS. Additionally, Jaguar Land Rover employees in other jurisdictions are covered under local pension plans which have either been transferred directly to Jaguar Land Rover as part of the acquisition or for which Jaguar Land Rover is in the process of negotiating pension benefits and establishing new pension plans.

The UK Pension Plans were valued in 2006, following which Jaguar Land Rover and the trustees to the pension plans agreed on contributions to eliminate the deficits in these plans by 2015. The contributions were weighted towards the later part of this period. The next valuation was scheduled for 2008.

However, in 2007, as part of the sale process, Ford entered into agreements with the trustees under which Ford agreed to contribute towards the deficits of the UK Pension Plans. Prior to this, the estimated deficits as at October 31, 2007, amounted to GBP 120 million for JPP, GBP 9 million for JEPP and GBP 115 million for LRPS, on a closed fund basis using similar assumptions as used for the 2006 valuation. However, as per the agreement reached between Ford and the trustees, Ford contributed a total of GBP 301.5 million into the three UK Pension Plans prior to the Acquisition.

The deficits in the UK Pension Plans may have changed since the October 31, 2007 due to market volatility and potential changes in valuation factors. However, no formal funding valuations have been carried out since then either by the Company, Jaguar Land Rover or by the trustees. The next formal funding valuations of the UK Pension Plans are now scheduled for April 2009.

In the event that the actuarially determined liabilities exceed the plans' assets at that time, Jaguar Land Rover would have to agree on new contributions with the trustees to fund the deficit over such period of time as is agreed between Jaguar Land Rover and the trustees. Higher contributions could have an adverse effect on the financial position of Jaguar Land Rover. Some issues which could adversely affect Jaguar Land Rover's contributions to the UK and non-UK pension plans, include, poor investment performance of pension fund assets, changes in market conditions, changes in interest rates, changes in inflation rates, changes in life expectancy assumptions and other events which make past service benefits more expensive than allowed for in the actuarial assumptions by reference to which the past contributions to the pension plans were assessed.

Product liability, warranty costs and recalls

Jaguar Land Rover is subject to costs associated with product liability, warranty and recall. Jaguar Land Rover provides warranties on vehicles and parts for specified periods of time and/or miles of running. Component parts or assembly defects could require Jaguar Land Rover to undertake service actions and recall campaigns. Furthermore, defects in Jaguar Land Rover's products that arise from defective components or spare parts may be covered under warranties provided by it. Further, Jaguar Land Rover may need to expend considerable resources for remediation measures, resulting in higher provisions for new warranties issued and expenses in excess of already established provisions for warranties previously issued. In certain countries, it may also be required to recall vehicles found to have safety related defects and to repair them without charge. The cost of such recalls can be substantial depending on the nature of the repair and the number of vehicles affected. Further, any defect in products or after-sales services provided by authorized dealers or third parties could also result in customer claims for damages.

Impact of separation from Ford

As a part of Ford Motor Company, Jaguar Land Rover was supported by Ford in a number of areas including but not limited to, engines and components, engineering and technology sharing, product development processes and platforms, information technology, accounting, treasury, tax, insurance and national sales company administration.

Table of Contents

Going forward, Jaguar Land Rover will purchase engines, components and services from Ford on different terms to prior arrangements and will have to invest in dedicated infrastructure and develop capabilities in some of these areas. This will entail additional expenditure which may have an adverse effect on its financial results. On the other hand, Jaguar Land Rover may benefit from the acquisition by being able to leverage Tata Motors' low cost engineering and sourcing capabilities, supporting Jaguar Land Rover in its cost reduction initiatives.

In addition, Jaguar Land Rover has entered into supply and transitional services agreements with Ford and certain other parties for critical components including engines, in respect of technology sharing and joint development, and in respect of other corporate services including information technology, accounting and treasury services, marketing and purchasing services. Furthermore, Ford Motor Credit Company (Ford Motor Credit) will continue to provide consumer and wholesale credit support to the operations of the Jaguar Land Rover. Any disruption of such arrangements and transitional services could have a material adverse impact on the operations and financial position of Jaguar Land Rover.

Overview of Direct Subsidiaries

A brief profile of certain of the Company's direct Subsidiaries is given below:

Tata Daewoo Commercial Vehicle Company Limited (TDCV), Korea, a 100% Subsidiary of the Company, is the second largest manufacturer of heavy and medium commercial vehicles in Korea. TDCV recorded sales of 11,899 units in fiscal 2008 which was 38.6% higher compared to sales of 8,588 units in fiscal 2007. This enabled TDCV to improve its market share from 24.3% to 32.3% in the heavy commercial vehicle segment and from 28.2% to 34.8% in the medium commercial vehicle segment according to ANR Consulting. TDCV exported 3,000 units of heavy commercial vehicles in fiscal 2008 and according to ANR Consulting, TDCV was the largest exporter from Korea in this segment. TDCV recorded turnover of Rs. 30,696.8 million which was higher by 31.5% compared to Rs. 23,336.1 million for the previous year. After providing for tax, the profit was Rs. 1,588.9 million against Rs. 829.6 million in the previous year, an increase of 91.5%.

Telco Construction Equipment Company Limited (Telcon) in which the Company has a 60% holding with the remaining balance of 40% held by Hitachi Construction Machinery Company Limited, Japan, is engaged in the business of development, manufacture and sale of construction equipment and allied services. With the increase in economic activity especially in the infrastructure sector, Telcon sold 7,698 machines with a turnover of Rs. 27,349.6 million, a profit after tax of Rs. 3,236.3 million, an increase of 76.0%. In April 2008, Telcon acquired two Spanish Companies, namely Serviplema S.A and Comoplesa Lebrero S.A by acquiring 79% and 60% shares of the respective companies. The acquisition provides Telcon opportunity to play in two important growth economies - India and China. The acquisition of Comoplesa Lebrero S.A will give Telcon access to Compaction Equipment technology.

Regulations governing Automotive Industry

Automotive Mission Plan, 2006-2016

The automotive mission plan ([Plan 2006](#)) laid down by the Ministry of Heavy Industries and Public Enterprises in December 2006, consists of recommendations to the task force of the Development Council on Automobile and Allied Industries constituted by the Government of India, in relation to the preparation of the tenth five year mission plan for the Indian automotive industry. [Plan 2006](#) recommends that a negative list of items, such as no duty concession for import of used or re-manufactured vehicles, or treatment of remanufactured automotive products as old products, shall be negotiated for free trade agreements or regional trade agreements on a case-to case basis with other countries. It recommends the adoption of appropriate tariff policy to attract more investment into the automobile industry, improvement of power infrastructure to facilitate faster growth of automotive sector both domestically and internationally, policy initiatives such as encouragement of collaboration of the automotive industry with research and academic institutions, tax concessions and incentives to enhance competitiveness in manufacturing, promote research and technology development. For the promotion of exports in the auto component sector, among other things, it recommends creation of special automotive component parks in special economic zones and creation of virtual special economic zones, which would enjoy certain exemptions on sales tax, excise and customs duty. Strengthening the inspection and certification system by encouraging public-private partnership and rationalization of the motor vehicles regulations are also among the major recommendations of the plan.

A committee set up under the chairmanship of the Secretary, Heavy Industries and Public Enterprises consisting of all stake holders including representatives of Ministry of Finance, Road Transport, Environment, Commerce, Industrial Policy and Promotion, Labour, Shipping, Railways, Human Resource Development, Science & Technology, New and Renewable Energy, Petroleum & Natural Gas and representatives of automotive industry shall monitor the implementation and progress of the [Plan 2006](#).

The Auto Policy, 2002

The Auto Policy was introduced by the Department of Heavy Industry, Ministry of Heavy Industries and Public Enterprises in March 2002, with the aim, among others, to promote a globally competitive automotive industry and emerge as a global source for auto components, establish an international hub for manufacturing small, affordable passenger cars, ensure a balanced transition to open trade at a minimal risk to the Indian economy and local industry, to conduce modernization of the industry and facilitate indigenous design, research and development and to develop domestic safety and environment standards at par with international standards.

Table of Contents***Central Motors Vehicles Rules, 1989***

Chapter V of the Central Motor Vehicle Rules, 1989 (hereinafter referred to as CMV Rules) lays down provisions relating to construction and maintenance of motor vehicles. Amongst specifications pertaining to dimensions, gears, indicators, reflectors, lights, horns, safety belts and others, the CMV Rules govern emission standards for vehicles operating on compressed natural gas (CNG), petrol, liquefied petroleum gas and diesel. The Bharat Stage-II mass emission standards (equivalent to Euro II norms) as defined under Rule 115 of the CMV Rules were applicable to all four wheels vehicles in all states and union territories with effect from April 1, 2005. However, vide notification dated October 2004 issued by Department of Road Transport and Highways, Ministry of Shipping, Road Transport and Highways, Bharat Stage-III mass emission standards (norms equivalent to Euro III norms) were made applicable in respect of all four wheeled vehicles in the National Capital Region, Mumbai, Kolkata, Chennai, Bangalore, Hyderabad including Secundrabad, Ahmedabad, Pune, Surat, Kanpur and Agra manufactured on and from April 1, 2005 (except in respect of four wheeled transport vehicles plying on inter-state permits or national permits of all India tourist permits within the jurisdiction of these cities). Manufacturers shall comply with the emission standards as laid down in the CMV Rules from time to time and shall be required to certify such compliance.

Additionally, as per the CMV Rules, every manufacture shall also submit the prototype of every vehicle to be manufactured by him for test by the Vehicle Research and Development Establishment of the Ministry of Defence of the Government of India, or Automotive Research Association of India, Pune, or the Central Machinery Testing and Training Institute, Budni (MP), or the Indian Institute of Petroleum, Dehradun, or such other agencies as may be specified by the Central Government for granting a certificate by that agency as to the compliance of provisions of the Motor Vehicles Act, 1988 and these rules.

In case of CNG fitments by vehicle manufacturers on new petrol vehicles, each model manufactured by manufacturers shall be of type approved as per the prevailing mass emission norms as applicable for the category of new vehicle in respect of the place of its use.

CMV Rules also requires the manufactures to comply with notifications in the Official Gazette, issued by Central Government to use such parts, components or assemblies in manufacture of such vehicle, of such standards as may be specified or the relevant standards as specified by the Bureau of Indian Standards.

Auto Fuel Policy, 2003

Pursuant to recommendations made by the Mashelkar Committee the auto fuel policy was framed by Ministry of Petroleum & Natural Gas in October 2003. This auto fuel policy lays down the road map for vehicular emissions standards. As mentioned above, Bharat Stage II standards (Euro II equivalent) have been made applicable to all states and union territories and applicability of Bharat Stage III (Euro III equivalent) have been extended to eleven cities. Vehicular emission standards equivalent to Euro IV emission norms are proposed to be made applicable by the year 2010.

A worker, who either has not been paid wages in time or an unauthorized deductions have been made from his/her wages, can file a claim either directly or through a Trade Union or through an Inspector under this Act, before the Authority appointed under the Payment of Wages Act.

Environmental Regulations

Manufacturing units or plants must ensure compliance with environmental legislation, such as the Water (Prevention and Control of Pollution) Act 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment Protection Act, 1986 and the Hazardous Wastes (Management and Handling) Rules, 1989. The basic purpose of these statutes is to control, abate and prevent pollution. In order to achieve these objectives, Pollution Control Boards (PCBs), which are vested with diverse powers to deal with water and air pollution, have been set up in each state. The PCBs are responsible for setting the standards for maintenance of clean air and water, directing the installation of pollution control devices in industries and undertaking inspection to ensure that units or plants are functioning in compliance with the standards prescribed. These authorities also have the power of search, seizure and investigation. All Plants of the Company are required to obtain consent orders from the PCBs, which are indicative of the fact that the Plant in question is functioning in compliance with the pollution control norms. These consent orders are required to be kept renewed.

already borrowed (apart from temporary loans obtained from the Company's bankers in the ordinary course of business) should exceed the aggregate of the paid-up capital of the Company and its free reserves (not being reserves set apart for any specific purpose), the Board is required to obtain the consent of the Company in general meeting prior to undertaking such borrowing.

In this regard, our Company has resolved by way of a Resolution dated July 14, 2008 through a postal ballot, that pursuant to the provisions of Section 293(1)(d) of the Companies Act the Board is authorised to borrow moneys (apart from temporary loans obtained from the bankers of the Company in ordinary course of business) from banks, financial institutions, NBFCs etc., from time to time, for the purpose of Company's business in excess of the aggregate of the paid-up capital of the Company and its free reserves (not being reserves set apart for any specific purpose) provided that the total amount of such borrowings together with the amounts already borrowed and outstanding shall not exceed Rs. 200,000 million.

Compensation of the Directors**(A) Executive Directors**

The Company pays remuneration by way of salary, perquisites and allowances (fixed component) and commission (variable component) to Managing and whole time Directors. Salary is paid within the range approved by the shareholders. Annual increments effective from April 1, each year, as recommended by the Remuneration Committee are approved by the Board. The ceiling on perquisites and allowances as a percentage of salary is fixed by the Board. Within the prescribed ceiling, the perquisites package is approved by the Remuneration Committee. The commission is calculated with reference to the net profits of the Company in a particular financial year and is determined by the Board of Directors at the end of the financial year based on the recommendations of the Remuneration Committee, subject to overall ceilings in accordance with Sections 198 and 309 of the Companies Act. The specific amount payable to such directors is based on the performance criteria laid down by the Board which broadly takes into account the profits earned by the Company for the year.

The following tables set forth all compensation paid by the Company to the Managing and whole time Directors for the fiscal year ended March 31, 2008.

AUDITOR S REPORT

To,
The Board of Directors,
Tata Motors Limited,
Bombay House,
24, Homi Mody Street,
Mumbai 400 001,
India.

Dear Sirs,

1. We have examined the attached financial information of Tata Motors Limited (the Company), as approved by the Board of Directors of the Company, prepared in terms of the requirements of Paragraph B of Part II of Schedule II of the Companies Act, 1956 (the Act) and the Securities and Exchange Board of India (SEBI) - (Disclosure and Investor Protection) Guidelines, 2000 as amended till August 28, 2008 (the SEBI Guidelines) issued by SEBI under Section 11 of the Securities and Exchange Board of India Act, 1992 and related clarifications thereto and in terms of our engagement agreed upon with the Company in accordance with our engagement letter dated July 3, 2008 in connection with the proposed simultaneous but unlinked issue of Ordinary Shares and A Ordinary Shares on a Rights basis (Rights Issue).

2. Financial Information as per Audited Financial Statements

We have examined the attached Summary Statement of Assets and Liabilities, as restated of Tata Motors Limited as at March 31, 2008, 2007, 2006, 2005 and 2004 (Annexure I) and the attached Summary Statement of Profit and Losses, as restated of Tata Motors Limited (Annexure II) for each of the years ended March 31, 2008, 2007, 2006, 2005 and 2004 together referred to herein as Non-consolidated Restated Summary Statements . These Non-consolidated Restated Summary Statements have been extracted from the financial statements of Tata Motors Limited as at and for the years ended March 31, 2008, 2007, 2006, 2005 and 2004 and have been approved/ adopted by the Board of Directors/ Members for those respective years. Audit for the financial years ended March 31, 2005 and 2004 was conducted by Messrs A. F. Ferguson & Co. (AFF) and Messrs S. B. Billimoria & Co., (SBB) (AFF together with SBB, the Erstwhile Auditors) and our opinion in so far as they relate to the amounts included in respect of these years are based solely on the reports submitted by them. The financial statements of the Company as at and for the year ended March 31, 2008, 2007 and 2006 have been audited by us. Based on our examination of these Non-consolidated Restated Summary Statements, we state that:

- i. The Non-consolidated Restated Summary Statements have to be read in conjunction with the Significant Accounting Policies and Notes to the Summary Statements of Assets and Liabilities, Summary Statement of Profit and Loss and Cash Flow Statement, as restated of Tata Motors Limited given in Annexure IV to this report.
- ii. The restated profits have been arrived after adjusting for the changes in accounting policies retrospectively in respective financial years to reflect the same accounting treatment as per changed accounting policy for all the reporting periods.
- iii. The restated profits have been arrived at after making such adjustments and regroupings as in our opinion are appropriate in the year to which they relate and are described under note [B] appearing in Annexure IV to this report;

- iv. There are no extra ordinary items that need to be disclosed separately in the Non-consolidated Restated Summary Statements.
- v. There are no qualifications in the auditors report on the financial statements that require adjustments to the Non-consolidated Restated Summary Statements.

3. Other Financial Information

ANNEXURE IV

Significant Accounting Policies and Notes to the Summary Statement of Assets and Liabilities, Summary Statement of Profit and Losses and Cash Flow Statement, as restated of Tata Motors Limited

A. Significant Accounting Policies:

(a) Revenue Recognition

The Company recognises revenue on the sale of products when the products are delivered to the dealer / customer or when delivered to the carrier for export sales, which is when risks and rewards of ownership pass to the dealer / customer.

Sales are net of discount and inclusive of income from services, excise duty, transfer of technology relating to automotive products, export and other incentives and exchange fluctuations relating to export receivables.

(b) Depreciation

- (i) Depreciation is provided on straight line basis (SLM), at the rates and in the manner prescribed in Schedule XIV to the Companies Act, 1956 except in the case of :

Leasehold Land amortised over the period of the lease

Technical Know-how at 16.67% (SLM)

Laptops at 23.75% (SLM)

Cars at 23.75% (SLM)

Assets acquired prior to April 1, 1975 on Written Down Value basis at rates specified in Schedule XIV to the Companies Act, 1956.

Capital assets, the ownership of which does not vest in the Company, other than leased assets, are depreciated over the estimated period of their utility or five years, whichever is less.

Software in excess of Rs. 25,000 is amortised over a period of sixty months or on the basis of estimated useful life whichever is lower.

- (ii) Assets given on lease as on March 31, 2000, acquired upon amalgamation of Tata Finance Ltd., are depreciated at rates specified in Schedule XIV to the Companies Act, 1956. The difference between the depreciation charge as computed using

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

the Internal Rate of Return (IRR) implicit in the lease, to ensure capital recovery over the primary lease period, and the charge as disclosed for the year, is reflected in the lease equalisation account.

- (iii) In respect of assets whose useful life has been revised, the unamortised depreciable amount has been charged over the revised remaining useful life.

(c) **Fixed Assets**

- (i) Fixed assets are stated at cost of acquisition or construction less accumulated depreciation / amortisation. All costs relating to the acquisition and installation of Fixed assets are capitalised and include financing costs relating to borrowed funds attributable to construction or acquisition of qualifying assets, upto the date the asset / plant is ready for intended use.
- (ii) The product development cost incurred on new vehicle platform, engines, transmission and new products are recognised as intangible assets [included in the fixed assets] and are amortised over a period of 36 months to 120 months or on the basis of actual production to planned production volume over such period after commencement of the commercial production of the underlying product.
- (iii) Software not exceeding Rs. 25,000 and product development costs relating to minor product enhancements, facelifts and upgrades are charged off to the profit and loss account as and when incurred.

(d) **Leases**

Assets acquired under finance leases are recognised at the lower of the fair value of the leased assets at inception and the present value of minimum lease payments. Lease payments are apportioned between the finance charge and the outstanding liability. The finance charge is allocated to periods during the lease term at a constant periodic rate of interest on the remaining balance of the liability. Assets given under finance leases, except for those stated in b (ii) above, are recognised as receivables at an amount equal to the net investment in the lease and the finance income is based on a constant rate of return on the outstanding net investment.

Table of Contents

(e) Transactions in Foreign Currencies

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction. Foreign currency monetary assets and liabilities are translated at year end exchange rates. Exchange difference arising on settlement of transactions and translation of monetary items are recognised as income or expense in the year in which they arise, except in respect of liabilities for the acquisition of Fixed Assets from a country outside India and liabilities incurred prior to April 1, 2004, where such exchange difference is adjusted in the carrying cost of fixed assets.

Premium or discount on forward contracts is amortised over the life of such contracts and is recognised as income or expense, except in respect of liabilities for the acquisition of Fixed Assets incurred prior to April 1, 2004, where such amortisation is adjusted to carrying cost of Fixed Assets. Foreign currency options are stated at fair value as at year end.

(f) Product Warranty Expenses

The estimated liability for product warranties is recorded when products are sold. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future incidence based on corrective actions on product failures.

(g) Income on Vehicle Loan / Hire-Purchase Income / Finance Income from Lease

Interest income from hire purchase and loan contracts and finance income in respect of vehicles and income from plant given on lease, are accounted for by using the Internal Rate of Return method. Consequently, a constant rate of return on the net outstanding amount is accrued over the period of contract. The Company provides an allowance for hire purchase and loan receivables that are in arrears for more than 11 months, to the extent of an amount equivalent to the outstanding principal and amounts due but unpaid. In respect of loan contracts that are in arrears for more than 6 months but not more than 11 months, allowance is provided to the extent of 10% of the outstanding and amount due but unpaid.

(h) Sale of Vehicle Loans

The Company sells Vehicle Loans to Special Purpose Entities (SPE) / direct assignments in securitisation transactions. Recourse is in the form of the Company's investment in subordinated securities issued by these special purpose entities, cash collateral and bank guarantees.

The loans are derecognised in the balance sheet when they are sold and consideration has been received by the Company. Sales and transfers that do not meet the criteria for surrender of control are accounted for as secured borrowings.

Gains or losses from the sale of loans are recognised in the period the sale occurs based on the relative fair value of the portion sold and the portion allocated to retained interests.

(j) Inventories

Inventories of raw materials and components, work-in-progress and stock-in-trade are valued at the lower of cost and net realisable value.

Cost is ascertained on a moving weighted average / monthly moving weighted average basis. The cost of work-in-progress and finished goods is determined on full absorption cost basis.

(k) Employee Benefits

(i) Gratuity

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 to 30 days salary payable for each completed year of service. Vesting occurs upon completion of five years of service. The Company makes annual contributions to gratuity fund established as trust. The Company accounts for the liability for gratuity benefits payable in future based on an independent actuarial valuation.

(ii) **Superannuation**

The Company has two superannuation plans, a defined benefit plan and a defined contribution plan. An eligible employee on April 1, 1996 could elect to be a member of either plan.

Employees who are members of the defined benefit superannuation plan are entitled to benefits depending on the years of service and salary drawn. The monthly pension benefits after retirement range from 0.75% to 2% of the annual basic salary for each year of service. The Company accounts for the liability for superannuation benefits payable in future under the plan based on an independent actuarial valuation.

With effect from April 1, 2003, this plan was amended and benefits earned by covered employees have been protected as at March 31, 2003. Employees covered by this plan are prospectively entitled to benefits computed on a basis that ensures that the annual cost of providing the pension benefits would not exceed 15% of salary.

Table of Contents

The Company maintains a separate irrevocable trust for employees covered and entitled to benefits. The Company contributes up to 15% of the eligible employees' salary to the trust every year. The Company recognises such contributions as an expense when incurred. The Company has no further obligation beyond this contribution.

(iii) Bhavishya Kalyan Yojana (BKY)

Bhavishya Kalyan Yojana is an unfunded defined benefit plan. The benefits of the plan accrue to an eligible employee at the time of death or permanent disablement, while in service, either as a result of an injury or as certified by the Company's Medical Board. The monthly payment to dependents of the deceased / disabled employee under the plan equals 50% of the salary drawn at the time of death or accident or a specified amount, whichever is higher. The Company accounts for the liability for BKY benefits payable in future based on an independent actuarial valuation.

(iv) Post-retirement Medicare Scheme

Under this scheme, employees get medical benefits subject to certain limits of amount, periods after retirement and types of benefits, depending on their grade and location at the time of retirement. Employees separated from the Company as part of Early Separation Scheme, on medical grounds or due to permanent disablement are also covered under the scheme. The liability for post-retirement medical scheme is based on an independent actuarial valuation.

(v) Provident fund

The eligible employees of the Company are entitled to receive benefits under the provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary (currently 12% of employees' salary). The contributions as specified under the law are paid to the provident fund and pension fund set up as irrevocable trust by the Company or to respective Regional Provident Fund Commissioner and the Central Provident Fund under the State Pension scheme. The Company is generally liable for annual contributions and any shortfall in the fund assets based on the government specified minimum rates of return or pension and recognises such contributions and shortfall, if any, as an expense in the year incurred.

(vi) Compensated absences

The Company provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number of days of unutilised leave at each balance sheet date on the basis of an independent actuarial valuation.

(l) Investments

Long term investments are stated at cost less other than temporary diminution in value, if any. Current investments comprising investments in mutual funds are stated at lower of cost and fair value, determined on a portfolio basis.

(m) Taxes on Income

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax includes Fringe benefit tax.

Deferred tax is recognised, on timing differences, being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised if there is virtual certainty that there will be sufficient future taxable income available to realise such losses.

(n) **Redemption premium / discount on Foreign Currency Convertible Notes (FCCN) / Convertible Alternative Reference Securities (CARS)**

Premium payable on redemption of FCCN / CARS as per the terms of issue is provided fully in the year of issue by adjusting against the Securities Premium Account (SPA) (net of deferred tax). Any changes to this premium payable on account of conversion or exchange fluctuation is also adjusted in the SPA (net of deferred tax). Discount on redemption of FCCN, if any, will be recognised on redemption.

(o) **Business Segments**

The Company is engaged mainly in the business of automobile products consisting of all types of commercial and passenger vehicles including financing of the vehicles sold by the Company. These, in the context of Accounting Standard 17 on Segment Reporting, issued by the Institute of Chartered Accountants of India, are considered to constitute one single primary segment. Further, there is no reportable secondary segment i.e. Geographical Segment.

(p) Miscellaneous Expenditure (to the extent not written off or adjusted)

Cost under individual Employee Separation Schemes are amortised over periods between 24 and 84 months depending upon the estimated future benefit.

B. Significant Changes in Accounting Policies:

- (a) From the year 2003-04, consequent to the Accounting Standard on Intangible Assets (AS 26) becoming applicable, expenditure on product development which was earlier classified as deferred revenue expenditure and amortised on systematic basis, is being accounted in accordance with the said Standard. Accordingly,
 - (i) Product development cost on new vehicle platforms, variants on existing platforms and new vehicle aggregates are recognised as Intangible Assets and included under Fixed Assets.
 - (ii) Product development expenditure relating to minor product enhancement, facelifts, upgrades etc., (including cost of incomplete development) are being charged off to Profit and Loss Account.
- (b) (i) From the year 2004-05, premium payable on redemption of FCCN / CARS has been fully provided in the year of issuance, in view of the Accounting Standard - AS 29 Provisions, Contingent Liabilities and Contingent Assets becoming applicable, as against the earlier practice of providing such premium on a pro-rata basis over the maturity period of such instrument. As per the policy followed by the Company, such premium is debited to Securities Premium Account (SPA). For the purpose of these statements, the premium payable has been fully provided in the year of issuance for earlier years, against SPA. This adjustment has no effect on Profit and Loss Account.
 - (ii) Consequent to the clarification issued by The Institute of Chartered Accountants of India, premium payable on redemption of FCCN/ CARS is recognised net of tax in SPA. The effect of the clarification has been accounted in respective years.
- (c) In the year 2006-07, consequent to revision of Accounting Standard - AS 15 Employee Benefits, the Company has adopted the revised accounting standard effective April 1, 2006. The transitional impact upto March 31, 2006 which was adjusted to General Reserve as per the revised AS 15, has been reversed to the respective earlier years.
- (d) Consequent to the notification of the Companies (Accounting Standards) Rules, 2006, with effect from April 1, 2007, the foreign exchange differences in respect of liabilities for the acquisition of imported assets are recognised in the profit and loss account against the earlier requirement of adjusting these to the carrying cost of such fixed assets except for such differences in respect of liabilities incurred prior to April 1, 2004, accordingly these exchange differences, which were earlier included in Fixed Assets have been recognised in the Profit and Loss Account in respective years.
- (e) In the year 2007-08, the Company has changed the amortisation period having regard to the nature of the new vehicle platform / products under development and accordingly new vehicle platforms and products are being amortised over a period of 36 months to 120 months against the amortisation period of 36 months followed in the previous years. The effect of this policy has been adjusted to the respective earlier years.
- (f) Effective from April 1, 2008, the Company has applied hedge accounting principles in respect of forward exchange contracts for highly probable forecasted transactions as set out in Accounting Standard (AS) 30 Financial Instruments: Recognition and

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

Measurement. Accordingly, all such contracts outstanding as on March 31, 2008 are marked to market.

To,
 The Board of Directors,
 Tata Motors Limited,
 Bombay House,
 24, Homi Mody Street,
 Mumbai 400 001,
 India.

Dear Sirs,

1. We have examined the attached consolidated financial information of Tata Motors Limited (the Company) and its subsidiaries (the Company and its subsidiaries constitute the Group), as approved by the Board of Directors of the Company, prepared in terms of the requirements of Paragraph B of Part II of Schedule II of the Companies Act, 1956 (the Act) and the Securities and Exchange Board of India (SEBI) - (Disclosure and Investor Protection) Guidelines, 2000 as amended till August 28, 2008 (the SEBI Guidelines) issued by the SEBI under Section 11 of the Securities and Exchange Board of India Act, 1992 and related clarifications thereto, and in terms of our engagement agreed upon with the Company in accordance with our engagement letter dated July 3, 2008 in connection with the proposed simultaneous but unlinked issue of Ordinary Shares, and A Ordinary Shares on a Rights basis (Rights Issue).

2. Financial Information as per Audited Financial Statements

We have examined the attached Consolidated Summary Statement of Assets and Liabilities, as restated of the Group as at March 31, 2008, 2007, 2006, 2005 and 2004 (Annexure XVI) and the attached Consolidated Summary Statement of Profit and Losses, as restated (Annexure XVII) for each of the years ended March 31, 2008, 2007, 2006, 2005 and 2004 together referred to herein as Consolidated Restated Summary Statements . These Consolidated Restated Summary Statements have been extracted from the consolidated financial statements of the Group as at and for the years ended March 31, 2008, 2007, 2006, 2005 and 2004 and have been approved/ adopted by the Board of Directors/ Members for those respective years. The audit for the years ended March 31, 2005 and 2004 was conducted by Messrs A. F. Ferguson & Co. (AFF) and Messrs S. B. Billimoria & Co., (SBB) (AFF together with SBB, the Erstwhile Auditors) and our opinion in so far as they relate to the amounts included in respect of these years are based solely on the reports submitted by them. The consolidated financial statements as at and for the years ended March 31, 2008, 2007 and 2006 have been audited by us are subject to following:

i. We did not audit the financial statements of certain subsidiaries, whose financial statements reflect as follows:

As at and for the year ended	Total assets (net)	Total revenue	(Rs. in million)
			Net cash inflows/ (outflows)
March 31, 2008	22,501.8	64,989.9	116.1
March 31, 2007	26,725.3	62,842.5	(31,477.1)
March 31, 2006	17,662.2	41,500.9	3,657.1

Furthermore, we did not audit the financial statements of certain associates whose financial statements reflect as follows:

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

For the year ended	Group's share of profit (net) for the year	(Rs. in million) Cumulative Group's share of Profit (net) upto
March 31, 2008	578.6	944.5
March 31, 2007	463.3	547.8
March 31, 2006	312.1	388.7

These financial statements and other financial information were audited by other auditors, whose reports were furnished to us by the Management of the Group, and our opinion was based solely on the report of these other auditors.

- ii. As stated in Note 12, Annexure XIX, the financial statements of a joint venture, whose financial statements reflect the Group's share of assets of Rs. 9,217.4 million, Group's share of liabilities of Rs. 5,144.8 million as at March 31, 2008, total revenues of Rs. 141.4 million for the period December 28, 2007 to March 31, 2008 are unaudited and we have relied upon the unaudited financial statements as provided by the Management for the purpose of our examination of Consolidated Restated Summary Statements of the Group.

Table of Contents

- iii. As stated in Note 14, Annexure XIX, as the audited financial statements of certain associates are not available, we have relied upon the unaudited financial statements as provided by the Management of those components for the purpose of our examination of Consolidated Restated Summary Statements. These financial statements reflect:

(Rs. in million)

For the year ended	Cumulative Group's share of Profit / (loss) upto	Group's share of profit / (loss) net for the year
March 31, 2008	(46.6)	(0.5)
March 31, 2007	(17.1)	(69.1)
March 31, 2006	67.0	127.2

Based on our examination of these Consolidated Restated Summary Statements and subject to our comments in paragraph 2 above, we state that:

- i. The Consolidated Restated Summary Statements have to be read in conjunction with Basis of Consolidation, Significant Accounting Policies and Notes to the Consolidated Summary Statement of Assets and Liabilities, Consolidated Summary Statement of Profit and Losses and Consolidated Statement of Cash Flows, as restated given in Annexure XIX to this report.
- ii. The restated profits have been arrived after adjusting for the changes in accounting policies retrospectively in respective years to reflect the same accounting treatment as per changed accounting policy for all the reporting periods.
- iii. The restated profits have been arrived at after making such adjustments and regroupings as in our opinion are appropriate in the year to which they relate and are described under note [B] appearing in Annexure XIX to this report.
- iv. There are no extra ordinary items that need to be disclosed separately in the Consolidated Restated Summary Statements.
- v. There are no qualifications in the auditors report on the consolidated financial statements that require adjustments to the Consolidated Restated Summary Statements.

3. Other Financial Information

We have also examined the following financial information relating to the Group as at and for the years ended March 31, 2008, 2007, 2006, 2005 and 2004 approved by the Board of Directors and annexed to this report:

Basis of Consolidation, Significant Accounting Policies and Notes to the Consolidated Summary Statement of Assets and Liabilities, Consolidated Summary Statement of Profit and Losses and Consolidated Statement of Cash Flows, as restated

A. Basis of Consolidation and Significant Accounting Policies

1 Basis of Consolidation:

The consolidated financial statements relate to Tata Motors Limited (the Company), its subsidiary companies, joint venture and associates. The Company and its subsidiaries constitute the Group.

(a) Basis of Accounting:

- (i) The financial statements of the subsidiary companies / joint venture used in the consolidation are drawn upto the same reporting date as of the Company i.e. year ended March 31, 2008.
- (ii) The financial statements of the Group have been prepared in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India, which are notified under the Companies (Accounting Standards) Rules, 2006 and other generally accepted accounting principles in India.

(b) Principles of consolidation:

The consolidated financial statements have been prepared on the following basis:

- (i) The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis by adding together like items of assets, liabilities, income and expenses. The intra-group balances and intra-group transactions and unrealised profits or losses have been fully eliminated.
- (ii) The consolidated financial statements include the share of profit / loss of the associate companies which has been accounted as per the Equity method, and accordingly, the share of profit / loss of each of the associate companies (the loss being restricted to the cost of investment) has been added to / deducted from the cost of investments.

An Associate is an enterprise in which the investor has significant influence and which is neither a Subsidiary nor a Joint Venture of the investor.

- (iii) The financial statements of the joint venture company have been combined by using proportionate consolidation method and accordingly, venturer's share of each of the assets, liabilities, income and expenses of jointly controlled entity is reported as separate line items in the Consolidated Financial Statements.
- (iv) The excess of cost to the Company of its investments in the subsidiary companies / joint venture over its share of equity of the subsidiary companies / joint venture, at the dates on which the investments in the subsidiary companies / joint venture are

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

made, is recognised as Goodwill being an asset in the Consolidated Financial Statements. Alternatively, where the share of equity in the subsidiary companies / joint venture as on the date of investment is in excess of cost of investment of the Company, it is recognised as Capital Reserve and shown under the head Reserves and Surplus, in the Consolidated Financial Statements.

- (v) Minority interest in the net assets of consolidated subsidiaries consists of the amount of equity attributable to the minority shareholders at the dates on which investments are made by the Company in the subsidiary companies and further movements in their share in the equity, subsequent to the dates of investments as stated above.

2 Significant Accounting Policies:

(a) Revenue Recognition

The Company recognises revenue on the sale of products when the products are delivered to the dealer / customer or when delivered to the carrier for exports sales, which is when risks and rewards of ownership pass to the dealer /customer.

Sales are net of discount and inclusive of income from services, excise duty, transfer of technology relating to automotive products, export and other incentives and exchange fluctuations on export receivables.

Revenue from software consultancy on time and materials contracts is recognised based on certification of time sheet and billed to clients as per the terms of specific contracts. On fixed price contracts, revenue is recognised based on milestone achieved as specified in the contracts on the proportionate completion method on the basis of the work completed. Revenue from rendering annual maintenance services is recognised proportionately over the period in which services are rendered.

Revenue from the SAP end user licenses is recognised on transfer of user licenses.

Revenue from fixed price construction contracts is recognised on the percentage of completion method, measured by reference to the quantum of work carried out. Revenue in respect of contracts in progress at the year-end is recognised at cost plus attributable profits, where applicable, and included under 'Sale of Products and Services', in the Profit and Loss Account. Provision for foreseeable loss on contracts in progress is made fully.

(b) **Depreciation**

- (i) Depreciation is provided on straight line method basis (SLM) over the estimated useful lives of the assets except for assets acquired before April 1, 1975, which are depreciated on a written down value basis. Estimated useful lives of assets are as follows:

Type of Asset	Estimated useful life (years)
Factory Building	20 to 40
Plant and Equipment	9 to 20
Computers	3 to 6
Vehicles	3 to 10
Furniture and fixtures	3 to 20
Technical know-how	2 to 10

Capital assets, the ownership of which does not vest with the Company, other than leased assets, are depreciated over the estimated period of their utility or five years, whichever is less.

Table of Contents

Software in excess of Rs. 25,000 is amortised over a period of thirty six months to sixty months or on the basis of estimated useful life whichever is lower.

- (ii) Assets given on lease as on March 31, 2000 acquired upon merger with Tata Finance Limited are depreciated at rates specified in Schedule XIV to the Companies Act, 1956. The differences between the depreciation charge as computed using the Internal Rate of Return (IRR) implicit in the lease, to ensure capital recovery over the primary lease period, and the charge as disclosed for the year, is reflected in the lease equalisation account.
- (iii) In respect of assets whose useful life has been revised, the unamortised depreciable amount has been charged over the revised remaining useful life.

(c) **Fixed Assets**

- (i) Fixed Assets are stated at cost of acquisition or construction less accumulated depreciation / amortisation. All costs relating to the acquisition and installation of Fixed Assets are capitalised and include financing costs relating to borrowed funds attributable to construction or acquisition of qualifying Fixed Assets, upto the date the asset / plant is ready for intended use.
- (ii) The product development cost incurred on new vehicle platform, engines, transmission and new products are recognised as intangible assets [included in the fixed assets] and are amortised over a period of 36 months to 120 months or on the basis of actual production to planned production volume over such period after commencement of the commercial production of the underlying product.
- (iii) Software not exceeding Rs. 25,000 and product development costs relating to minor product enhancement, facelifts and upgrades are charged off to Profit and Loss Account as and when incurred.

(d) **Leases**

Assets acquired under finance leases are recognised at the lower of the fair value of the leased assets at inception and the present value of minimum lease payments. Lease payments are apportioned between the finance charge and the outstanding liability. The finance charge is allocated to periods during the lease term at a constant periodic rate of interest on the remaining balance of the liability. Assets given under finance leases except for those stated in (b)(ii) above, are recognised as receivables at an amount equal to the net investment in the lease and the finance income is based on a constant rate of return on the outstanding net investment.

(e) **Transactions in Foreign Currencies**

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction. Foreign currency monetary assets and liabilities are translated at year end exchange rates. Exchange difference arising on settlement of transactions and translation of monetary items are recognised as income or expense in the year in which they arise, except in respect of liabilities for the acquisition of Fixed Assets from a country outside India and liabilities incurred prior to April 1, 2004, where such exchange difference is adjusted in the carrying cost of fixed assets.

Premium or discount on forward contracts is amortised over the life of such contracts and is recognised as income or expense, except in respect of liabilities for the acquisition of Fixed Assets incurred prior to April 1, 2004, where such amortisation is adjusted to carrying cost of Fixed Assets. Foreign currency options are stated at fair value as at year end.

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

On consolidation, the assets, liabilities and goodwill or capital reserve arising on the acquisition, of the Group's overseas operations are translated at exchange rates prevailing on the balance sheet date. Income and expenditure items are translated at the average exchange rates for the year. Exchange differences arising are recognised in the Group's Translation Reserve classified under Reserves and Surplus.

(f) **Product Warranty Expenses**

The estimated liability for product warranties is recorded when products are sold. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future incidence based on corrective actions on product failures.

(g) **Income on Vehicle Loan / Hire-Purchase Income / Finance Income from Lease**

Interest income from hire purchase and loan contracts and finance income in respect of vehicles and income from plant given on lease, are accounted for by using the Internal Rate of Return method. Consequently, a constant rate of return on the net outstanding amount is accrued over the period of contract. The Company provides an allowance for hire purchase and loan receivables that are in arrears for more than 11 months, to the extent of an amount equivalent to the outstanding principal and amounts due but unpaid. In respect of loan contracts that are in arrears for more than 6 months but not more than 11 months, allowance is provided to the extent of 10% of the outstanding and amount due but unpaid.

(h) Sale of Vehicle Loans

The Company sells Vehicle Loans to Special Purpose Entities (SPE) / direct assignments in securitisation transactions.

Recourse is in the form of the Company's investment in subordinated securities issued by these special purpose entities, cash collateral and bank guarantees. The loans are derecognised in the balance sheet when they are sold and consideration has been received by the Company. Sales and transfers that do not meet the criteria for surrender of control are accounted for as secured borrowings.

Gains or losses from the sale of loans are recognised in the period the sale occurs based on the relative fair value of the portion sold and the portion allocated to retained interests, except for subsidiaries which are governed by prudential norms for income recognition issued by the Reserve Bank of India for Non Banking Financial Companies (NBFC), where gains or losses on sale are accounted for as per these norms.

(j) Inventories

Inventories are valued at lower of cost and net realisable value. Cost is ascertained on a moving weighted average / monthly moving weighted average basis. Cost of Work-in-progress and finished goods are determined on full absorption cost basis.

(k) Employee Benefits

(i) Gratuity / Pension

The Company and some of its subsidiaries have an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 to 30 days salary payable for each completed year of service. Vesting occurs upon completion of five years of service. The Company and the said subsidiaries make annual contributions to gratuity funds established as trusts. Some subsidiaries have obtained insurance policies with the Life Insurance Corporation of India. The Company and some of its subsidiaries account for the liability for gratuity benefits payable in future based on an independent actuarial valuation. Tata Daewoo Commercial Vehicle Company Limited, TDCV a subsidiary company incorporated in Korea has an obligation towards severance indemnity, a defined benefit retirement plan, covering eligible employees. The plan provides for a lump sum payment to all employees with more than one year of employment equivalent to 30 days salary payable for each completed year of service.

(ii) Superannuation

The Company and some of its subsidiaries have two superannuation plans, a defined benefit plan and a defined contribution plan. An eligible employee on April 1, 1996 could elect to be a member of either plan.

Employees who are members of the defined benefit superannuation plan are entitled to benefits depending on the years of service and salary drawn. The monthly pension benefits after retirement range from 0.75% to 2% of the annual basic salary for each year of service. The Company and the said subsidiaries account for superannuation benefits payable in future under the plan based on an independent actuarial valuation.

With effect from April 1, 2003, this plan was amended and benefits earned by covered employees have been protected as at March 31, 2003. Employees covered by this plan are prospectively entitled to benefits computed on a basis that ensures that the annual cost of providing the pension benefits would not exceed 15% of salary.

The Company and some of its subsidiaries maintain separate irrevocable trusts for employees covered and entitled to benefits. The Company and its subsidiaries contributes up to 15% of the eligible employees salary to the trust every year. Such contributions are recognised as an expense when incurred. The Company and the said subsidiaries have no further obligation beyond this contribution.

(iii) Bhavishya Kalyan Yojana (BKY)

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

Bhavishya Kalyan Yojana is an unfunded defined benefit plan for employees of the Company and some of its subsidiaries. The benefits of the plan accrue to an eligible employee at the time of death or permanent disablement, while in service, either as a result of an injury or as certified by the appropriate authority. The monthly payment to dependents of the deceased/disabled employee under the plan equals 50% of the salary drawn at the time of death or accident or a specified amount, whichever is higher. The Company and the said subsidiaries account for the liability for BKY benefits payable in future based on an independent actuarial valuation.

(iv) **Post-retirement Medicare Scheme**

Under this scheme, employees of the Company and some of its subsidiaries get medical benefits subject to certain limits of amount, periods after retirement and types of benefits, depending on their grade and location at the time of retirement. Employees separated from the Company as part of Early Separation Scheme, on medical grounds or due to permanent disablement are also covered under the scheme. The Company and the said subsidiaries account for the liability for post-retirement medical scheme based on an independent actuarial valuation.

(v) **Provident fund**

The eligible employees of the Company and its subsidiaries are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the company/subsidiaries make monthly/annual contributions at a specified percentage of the covered employees salary (currently 12% of employees salary). The contributions, as specified under the law, are made to the provident fund and pension fund set up as irrevocable trust by the Company and its subsidiaries or to respective Regional Provident Fund Commissioner and the Central Provident Fund under the State Pension scheme. The Company and its subsidiaries are generally liable for monthly/annual contributions and any shortfall in the fund assets based on the government specified minimum rates of return or pension and recognises such contributions and shortfall, if any, as an expense in the year incurred.

(vi) **Compensated absences**

The Company and some of its subsidiaries provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number of days of unutilised leave at each balance sheet date on basis of an independent actuarial valuation.

(l) **Investments**

- (i) Long term investments are stated at cost less other than temporary diminution in value, if any.
- (ii) Investment in associate companies are accounted as per the Equity method, and accordingly, the share of post acquisition reserves of each of the associate companies has been added to / deducted from the cost of investments.
- (iii) Current investments comprising investments in mutual funds are stated at lower of cost and fair value, determined on a portfolio basis.

(m) **Taxes on Income**

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income - Tax Act, 1961 or applicable foreign tax law in case of foreign subsidiaries. Current tax includes Fringe benefit tax.

Deferred tax is recognised, on timing differences, being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised if there is virtual certainty that there will be sufficient future taxable income available to realise such losses.

(n)

Issue expenses / Redemption premium / discount on Foreign Currency Convertible Notes (FCCN) / Convertible Alternative Reference Securities (CARS)

Issue expenses and premium payable on redemption of FCCN / CARS as per the terms of issue is provided fully in the year of issue by adjusting against the Securities Premium Account (SPA) (net of deferred tax). Any changes to this premium payable on account of conversion or exchange fluctuation is also adjusted in SPA (net of deferred tax). Discount on redemption of FCCN, if any, will be recognised on redemption.

(o) Borrowing costs

Fees towards structuring / arrangements and underwriting and other incidental costs incurred in connection with borrowings are amortised over the period of the loan from the current year. In the past such fees / costs (being immaterial) were charged to profit and loss account.

Table of Contents

(p) Business Segments

The Group's reportable operating segment consists of Automotive and Others.

Automotive segment consists of business of automobile products consisting of all types of commercial and passenger vehicles including financing of the vehicles sold by the Company. Others primarily include construction equipment, engineering solutions, and software operations.

Segment revenues, expenses and results include transfer between business segments. Such transfers are undertaken either at competitive market prices charged to unaffiliated customers for similar goods or at contracted rates. These transfers are eliminated on consolidation.

(q) Miscellaneous Expenditure (to the extent not written off or adjusted)

Costs under individual Employee Separation Schemes are amortised over periods between 24 to 84 months depending upon the estimated future benefit.

B. Significant Changes in Accounting Policies

- (a) From the year 2003-04, consequent to the Accounting Standard on Intangible Assets (AS 26) becoming applicable, expenditure on product development which was earlier classified as deferred revenue expenditure and amortised on systematic basis, is being accounted in accordance with the said Standard. Accordingly,
- (i) Product development cost on new vehicle platforms, variants on existing platforms and new vehicle aggregates are recognised as Intangible Assets and included under Fixed Assets.
 - (ii) Product development expenditure relating to minor product enhancement, facelifts, upgrades etc., (including cost of incomplete development) are being charged off to Profit and Loss Account.
- (b) (i) From the year 2004-05, premium payable on redemption of FCCN / CARS has been fully provided in the year of issuance, in view of the Accounting Standard - AS 29 Provisions, Contingent Liabilities and Contingent Assets becoming applicable, as against the earlier practice of providing such premium on a pro-rata basis over the maturity period of such instrument. As per the policy followed by the Company, such premium is debited to Securities Premium Account (SPA). For the purpose of these statements, the premium payable has been fully provided in the year of issuance for earlier years, against SPA. This adjustment has no effect on Profit and Loss Account.
- (ii) Consequent to the clarification issued by The Institute of Chartered Accountants of India, premium payable on redemption of FCCN/ CARS is recognised net of tax in SPA. The effect of the clarification has been accounted in respective years.
- (c) In the year 2006-07, consequent to revision of Accounting Standard - AS 15 Employee Benefits, the Company has adopted the revised accounting standard effective April 1, 2006. The transitional impact upto March 31, 2006 which was adjusted to General Reserve as per revised AS 15, has been reversed to the respective earlier years.
- (d) Consequent to the notification of the Companies (Accounting Standards) Rules, 2006, with effect from April 1, 2007, the foreign exchange differences in respect of liabilities for the acquisition of imported assets are recognised in the profit and loss account against the earlier requirement of adjusting these to the carrying cost of such fixed assets except for such differences in respect of liabilities incurred prior to April 1, 2004, accordingly these exchange differences, which were earlier included in Fixed Assets have

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

been recognised in the Profit and Loss Account in respective years.

- (e) In the year 2007-08, the Company has changed the amortisation period having regard to the nature of the new vehicle platform / products under development and accordingly new vehicle platforms and products are being amortised over a period of 36 months to 120 months against the amortisation period of 36 months followed in the previous years. The effect of this policy has been adjusted to the respective earlier years.

- (f) Effective from April 1, 2008, the Company has applied hedge accounting principles in respect of forward exchange contracts for highly probable forecasted transactions as set out in Accounting Standard (AS) 30 Financial Instruments: Recognition and Measurement. Accordingly, all such contracts outstanding as on March 31, 2008 are marked to market.

Table of Contents**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion of the Company's financial condition and results of operations should be read in conjunction with the Company's restated consolidated and restated non-consolidated financial statements, the schedules and notes thereto and the other information included in this Letter of Offer. These financial statements have been prepared in accordance with Indian GAAP, the Companies Act and the SEBI Guidelines and adjusted as described in the reports of our statutory auditors dated September 15, 2008 included in Auditor's Report on page F-1 of this Letter of Offer.

For the purpose of this section, unless the context requires otherwise, references to fiscal 2008, fiscal 2007 and fiscal 2006 are to the financial year ended March 31 of the relevant year and references to year are to the financial year of the Company.

This section contains forward-looking statements that involve risks and uncertainties. The Company's actual results may differ materially from those discussed in such forward-looking statements as a result of various factors, including those described under Risk Factors and Forward-Looking Statements. The Company's financial statements are prepared in conformity with the Indian GAAP. Indian GAAP and Indian auditing standards differ in certain respects from US GAAP, IFRS and UK GAAP and other accounting principles and auditing standards in other countries with which prospective investors may be familiar.

Unless the context otherwise requires, Company, Tata Motors, we, us and our refers to Tata Motors Limited and its consolidated Subsidiaries and references to TML refer to Tata Motors Limited, the Issuer. Except where otherwise stated, historical financial data of the Company excludes the operations of Jaguar Land Rover. Unless otherwise stated, historical financial information of the Company is derived from the Company's consolidated audited restated financial statements excluding Jaguar Land Rover under Indian GAAP. Historical financial information of Jaguar Land Rover is derived from the unaudited summarized financial statements of Jaguar Land Rover prepared by the management of Jaguar Land Rover principally based on US GAAP.

Overview

The Company was incorporated on September 1, 1945 as a public limited liability company under the Indian Companies Act, 1913 as Tata Locomotive and Engineering Company Limited. Our name was changed to Tata Engineering and Locomotive Company Limited on September 24, 1960 and to Tata Motors Limited on July 29, 2003. Since 1954, we have been manufacturing automotive vehicles. We produced only commercial vehicles until 1991, when we started producing passenger vehicles as well.

Our business segments are (i) automotive operations and (ii) other operations. Our automotive operations business segment includes the design, manufacture, assembly, sale and service of commercial and passenger vehicles, spare parts, components and accessories as well as financing our vehicles. On June 2, 2008 we completed the Acquisition of Jaguar Land Rover from Ford and we now manufacture Jaguar luxury performance cars and Land Rover premium all-terrain vehicles through our Jaguar Land Rover business. Our other operations business segment includes information technology, or IT services, construction equipment manufacturing, machine tools and factory automation solutions, high-precision tooling and plastic and electronic components for certain applications and investments.

In fiscal 2008, total consolidated gross revenues including finance revenues increased by 9.3% to Rs. 403,407.9 million from Rs. 369,226.1 million in fiscal 2007. The Company recorded adjusted net profit after tax, before minority interest and share of profit of associates of Rs. 22,278.1 million in fiscal 2008, as compared to Rs. 22,320.8 million in fiscal 2007.

Significant Factors Influencing Our Results of Operations

The following are of the significant factors affecting our results of operations. For details on the factors affecting the results of operations of Jaguar Land Rover, see Business The Jaguar Land Rover Business Significant Factors Influencing the Results of Operations of Jaguar Land Rover on page 75 of this Letter of Offer.

General Economic Conditions

We, similar to the rest of the automotive industry, are substantially affected by general economic conditions in the countries where we operate, especially in India, which is our principal market. Growth rates of the economy and income levels of consumers are key determinants of demand in the automotive industry. Demand for vehicles is also affected by factors such as fuel prices, inflation affecting the disposable income, consumer confidence, interest rates and terms of credit, the overall economic scenario and competition from alternative modes of transport. More recently, adverse changes in economic factors including slowdown in industrial production, increase in fuel prices, higher inflation, reduction in availability of vehicle financing and higher interest rates, have impacted the demand for passenger and commercial vehicles. Such factors have impacted and are likely to continue to have an impact on the sales, product mix and results of operations of automotive manufacturers, including us.

Further, in India there has been a surge in inflation in the recent months. In order to curb inflation, the RBI has taken certain monetary measures, which have impacted the interest rates.

Interest Rates and Availability of Credit for Vehicle Purchases

Availability of sufficient credit and interest rates has an impact on our sales and are key drivers of demand in the automotive industry. In addition, the cost of our borrowings is also influenced by interest rates movements. Although interest rates in India began a steady decline from the beginning of fiscal 2001 and credit finance for vehicle purchases became more widely available, interest rates have witnessed significant increase since the latter part of fiscal 2007. Furthermore, interest rates have been impacted due to certain monetary measures taken by RBI in order to curb inflationary pressures during the latter part of fiscal 2008 and early part of fiscal 2009, thereby increasing borrowing costs and more on account of higher indebtedness to cater to our capital expenditure and business development plan including the acquisition of Jaguar Land Rover. Fluctuations in interest rates will continue to affect our results of operations. Furthermore, the Indian automobile market has also witnessed lack of sufficient credit availability during fiscal 2008. For further discussion of our credit support programs, see Business on page 49 of this Letter of Offer.

Competitive Position in the Market

The Company has established a strong position in the Indian automotive industry with a market share of 14.0%, 64.3% and 61.3% in the passenger vehicles, LCV and M&HCV segments respectively, in fiscal 2008 according to Frost & Sullivan. The Company faces competition from various domestic and foreign automotive manufacturers in the Indian automotive market. In the future, the Company may also face competition from other international manufacturers, including global companies who are increasingly focusing on the Indian automobile market. Certain of these companies come with decades of international experience, global scale, advanced technology and strong financial position.

The Company has designed its products to suit the specific requirements of the Indian market and customer needs such as safety, driving comfort, fuel efficiency and durability. The Company believes that its vehicles are suited to the general conditions of Indian roads, local climate and they comply with applicable environmental regulations currently in effect. The Company also offers a wide range of optional configurations to meet the specific needs of its customers. However, new or existing competitors may exert pricing pressures on some or all of the Company's product segments and /or offer vehicles with improved features and services. The Company's continuing ability to anticipate and respond to pricing and other competitive pressures in the automotive industry will be critical to its results of operations in the coming years. For a detailed discussion regarding the Company's competitive position and market share see Business on page 49 of this Letter of Offer.

Table of Contents***Cyclical and Seasonality***

The sales volumes and prices for our vehicles are influenced by the cyclical and seasonality of demand for our vehicles, primarily in the Indian market. Demand generally peaks between January and March, although there is a decrease in demand in February just before release of the Indian fiscal budget. Demand is usually lean from April to July and picks up again in the festival season from September onwards, with a decline in December due to year end. We expect this seasonality of the automotive industry in India to continue in the future.

Demand in the commercial vehicle segment is closely linked to the economic growth in India and thus is directly impacted by the upturn or downturn in the Indian economy. This tends to be more pronounced in the medium and heavy truck business in the commercial vehicle category. To mitigate the impact of cyclical, we plan to continue to strengthen our operations in the light commercial vehicle, bus and passenger vehicle categories, expanding our international business and the vehicle financing activities. We also plan to continue to strengthen our non-vehicle business, such as spare parts sales, annual maintenance contracts, sales of aggregates for non-vehicle businesses, reconditioning of aggregates, sale of castings, production aids and tooling and fixtures to reduce the impact of cyclical.

Cost of Raw Material, Components and other inputs and costs

The principal raw materials required for the production of motor vehicles are steel sheets, plates, castings, forgings and components, assemblies and aggregates. The raw materials, components and consumables that are domestically sourced include steel (sheet-metal, forgings and castings), tyres and tubes, batteries, fuel injection systems, air-oil filters and various consumables like paints, oils, thinner, welding materials, chemicals, adhesives, sealants and fuel. Certain aggregates like axles, engines, gear boxes and cabs are sourced from our Subsidiaries and associates. The costs at which we procure certain of our raw materials and inputs have been impacted due to the recent increase in the prices of commodities, especially steel. We attempt to manage such increases through a combination of cost reduction measures and increases in the prices of our products. There can be no assurance that we will be able to pass on all cost increases to our customers or that such price increases will not result in reduced sales volumes. Any increase in input costs for these materials will affect our cost of raw materials and impact our results of operations.

We have undertaken various initiatives to reduce our fixed and variable costs including procurement of major aggregates and sub-assemblies from approved vendors, e-sourcing initiatives through which we procure some supplies through reverse auctions and value engineering. For more details on the cost reduction measures undertaken by us see Business The Company's Business Components and Raw Materials on page 61 of this Letter of Offer.

Our results of operations are also impacted recently on account of higher depreciation charges and inflation resulting in an increase in costs including employee costs. Our depreciation charges have increased on account of higher capital expenditure in capacity enhancement, and plant renewal and modernization. Capital investment in connection with such projects results in depreciation charges. Similarly, employee costs also increase on account of an increase in salaries and recruitment.

Environmental Regulations

There has been a greater emphasis by the government on the emission and safety norms for the automobile industry. Compliance with these norms will have a significant bearing on the production costs and product life cycles and entails considerable capital expenditure and research and development costs.

Currency and Exchange Rate Fluctuations

We import capital equipment, raw materials and components and also sell our vehicles in various countries outside India. These transactions are denominated in foreign currencies, primarily the US Dollar and Euro. Moreover, we have outstanding foreign currency denominated debt. On account of fluctuations in foreign currencies we have experienced gains and losses on account of conversions on transactions denominated in foreign currencies and period end reporting of assets and liabilities denominated in foreign currencies. Our contracts for export vehicles and foreign currency denominated debt are affected by the recent volatility in foreign exchange rates. Although we engage in currency hedging in order to decrease our foreign exchange exposure, we have experienced and expect to continue to experience foreign exchange losses and gains, and there can be no assurance that risks arising out of fluctuations in the value of the India Rupee against the US Dollar and other major currencies can be mitigated. In addition, continued depreciation of the Indian Rupee could result in further foreign exchange losses and revaluation of the liabilities for foreign currency denominated debt.

See Management's Discussions and Analysis of Financial Condition and Results of Operations - Quantitative and Qualitative Disclosures About Market Risk on page 137 of this Letter of Offer for further details.

Business Segments

Our business is divided into two segments: (1) automotive operations and (2) other operations. Automotive Operations is our most significant segment, accounting for 89.7% and 91.7%, of our total revenues before inter-segment eliminations for fiscal 2008 and 2007, respectively. Our revenues before inter-segment eliminations from automotive operations increased by 8.1% to Rs. 323,456.5 million in fiscal 2008 compared to Rs. 299,241.4 million in fiscal 2007. India is the most significant market for us, accounting for 90.7% and 90.8% of TML's non-consolidated vehicle unit sales for fiscal 2008 and 2007, respectively. We continue to focus on increasing the importance of our international operations.

Our revenue before inter-segment eliminations from other operations was Rs. 37,038.1 million in fiscal 2008, an increase of 36.8% from Rs. 27,078.9 million in fiscal 2007. These revenues represent 10.3% and 8.3% of our total revenues, before inter-segment eliminations, in fiscal 2008 and 2007, respectively. In addition, our other operations accounted for 16.3% and 10.0% of our results before interest, exceptional items and tax, before inter-segment eliminations, for fiscal 2008 and 2007 respectively.

See Business on page 49 of this Letter of Offer for further detail about our business segments.

Critical Accounting Policies

The preparation of our financial statements in conformity with Indian GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, we evaluate and re-evaluate our estimates, which are based on available information, industry standards, economic conditions and various other assumptions. The results of these evaluations and re-evaluations form the basis for our judgments about the carrying values of our assets and liabilities and the reported amounts of our revenues and expenses. Actual results may differ from these estimates, and these estimates could differ under different assumptions. We believe the following accounting policies are important to our financial condition and results which involve significant management judgments and estimates.

Table of Contents

Property, plant and equipment

Property, plant and equipment is stated at cost of acquisition or construction less accumulated depreciation. Cost includes the purchase price, taxes and duties, labour cost and direct overheads for self constructed assets, interest cost during the construction period and other direct costs incurred up to the date the asset is available for use.

Depreciation is charged on a straight line basis over the useful lives of the assets.

We review estimated useful lives of our assets on an ongoing basis to ensure that they are appropriate. We test our long-lived assets for impairment whenever events or circumstances arise that may indicate impairment. If a long lived asset is impaired, it is written down to its estimated fair value. Any assets which relate to discontinued or obsolete vehicle models are written off.

Product Development Cost

The costs incurred in connection with the development of new vehicle platforms, engines, transmissions and new products are recognized as intangible assets. We amortize this cost over the best estimate of the useful life over which the benefits are likely to be realized. Currently, the product development cost are amortized over a period of 36 months to 120 months or on the basis of actual production to planned production volume over such period after commencement of the commercial production of the underlying product.

Product Warranty

Vehicle warranties are provided for a specified period of time and/or kilometres of running. Our vehicle warranty obligations vary depending upon the type of the product, geographical location of its sale and other factors.

The estimated liability for vehicle warranties is recorded at the time products are sold. These estimates are established using historical information on the nature, frequency, and average cost of warranty claims and our estimates regarding possible future incidence based on quality improvements and corrective actions on product failures.

Changes in warranty liability as a result of changes in estimated future warranty costs and any additional costs in excess of estimated costs could materially affect our net income. Determination of warranty liability is based on the estimated frequency and amount of future claims, which are inherently uncertain. Our policy is to continuously monitor warranty liabilities to determine the adequacy of our estimate of such liabilities. Actual claims incurred in the future may differ from our original estimates, which may materially affect warranty expense.

Employee Benefits

Employee benefit costs and obligations are dependent on assumptions used in calculating such amounts. These assumptions include rate of salary increase, discount rates, health care cost trend rates, benefits earned, interest cost, expected return on plan assets, mortality rates and other factors.

While we believe that the assumptions used are appropriate, differences in actual experience or changes in assumptions may affect our employee benefit costs and obligations.

Vehicle finance receivables and allowance for credit losses.

We provide financing to the purchasers of vehicles through our dealers. The Company establishes a specific and unallocated allowance for credit losses for finance receivables based on management's best estimate of losses inherent in the receivable portfolio.

Table of Contents

The Company establishes a specific and unallocated allowance for credit losses on finance receivables based on management's best estimates of losses inherent in the receivables portfolio. The Company provides for a specific allowance for credit losses for finance receivables that are in arrears for eleven months and six months or more, respectively, for an amount equivalent to the outstanding principal and interest balance.

The allowance for credit losses is evaluated on a regular basis by management and is based upon management's view of the probability of recovery of receivables in light of historical experience, adverse situations that may affect the borrower's ability to repay, the estimated value of any underlying collateral, amounts that may be recoverable from originating dealers, factors affecting the industry which the receivable exposure relates to and prevailing economic conditions. This evaluation is inherently subjective, as it requires estimates that are susceptible to significant revision as more information becomes available.

Fiscal 2008 Compared to Fiscal 2007

The Indian economy remained in high growth phase but witnessed moderation in GDP growth to 9% in fiscal 2008 as compared to over 9% growth achieved in the previous two years. According to Frost & Sullivan, the commercial vehicle industry, which grew by over 33% in fiscal 2007, was impacted by moderation in economic growth as well as substantial reduction in availability of vehicle financing and grew by 6.9% in fiscal 2008. The passenger vehicle industry also witnessed a slowdown but managed to grow by 11.3% mainly due to reduction in excise duty announced by the GOI, launch of new models and through increased discounts on mature products. The vehicle exports from India also grew, albeit at a slightly lower rate of 11.7% as compared to 14.7% witnessed in the fiscal 2007.

In the challenging market environment in fiscal 2008, the company managed a marginal volume growth over fiscal 2007. The increase in commercial vehicle volumes was supported by new product launches and in-house vehicle financing while our passenger vehicle sales declined due to increase in competition and a mature product portfolio.

Net Sales

Our net sales increased to Rs. 356,514.8 million in fiscal 2008 from Rs. 323,612.0 million in fiscal 2007, an increase of Rs. 32,902.8 million, or 10.2%. The growth in net sales was driven by an increase in sales of commercial vehicles in fiscal 2008 compared to fiscal 2007 and strong growth in the sales of our non-automotive Subsidiaries.

The following table presents our net sales by segment for the years ended March 31, 2008 and 2007.

	Sales by Segment Year ended March 31,	
	2008	2007
	(Rs. in million)	
Automotive	323,456.5	299,241.4
Others	37,038.1	27,078.9
Total Sales	360,494.6	326,320.3
Inter Segment Sales	(3,979.8)	(2,708.3)
Net Sales	356,514.8	323,612.0

The following is a discussion of net sales for our principal business segments.

Automotive Operations

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

Sales before inter-segment eliminations from our automotive operations segment increased by Rs. 24,215.1 million, or 8.1%, to Rs. 323,456.5 million in fiscal 2008 compared to Rs. 299,241.4 million in fiscal 2007. This increase was primarily due to an increase in sales volumes, higher realizations and increase in the vehicle financing business.

The Company launched several M&HCV products during the year which would enable the Company to improve its position going forward. In the LCV segment, the continuing strong performance of the *Ace*,

Table of Contents

the launch of 1-Ton and CNG versions in the goods carrier segment and introduction of two new passenger carrier products *Magic* and *Winger* helped the Company to grow its sales.

Other Operations

Other operations segment represents non-automotive business and mainly includes industrial equipment and IT services. Sales before inter-segment eliminations from our other operations segment increased by Rs. 9,959.2 million or 36.8% to Rs. 37,038.1 million in fiscal 2008 compared to Rs. 27,078.9 million in fiscal 2007, mainly as a result of an increase in revenues of our significant non-automotive Subsidiaries TTL and Telcon. Significant increase in outlay on infrastructure enabled Telcon to increase its revenue by 50% in fiscal 2008.

Total Expenditure

The Company's total expenditures, excluding depreciation, amortization, product development expenses and interest, increased by 10.8% in fiscal 2008 from Rs. 283,120.1 million in fiscal 2007 to Rs. 313,782.4 million. As a percentage of net sales, the total expenditures increased marginally from 87.5% in fiscal 2007 to 88.0% in fiscal 2008.

The following table presents the Company's total expenditures for fiscal 2008 and 2007.

	Total Expenditure Year ended March 31,	
	2008	2007
	(Rs. in million)	
Material cost	248,595.6	224,416.5
Employee cost	27,451.6	24,157.9
Manufacturing and other expenses	37,735.2	34,545.7
	313,782.4	283,120.1

Material Cost

Material Cost (including processing charges) as a percentage to net sales for the fiscal 2008 has increased to 69.7 % from 69.3% for the fiscal 2007.

The increases in the raw materials consumed during fiscal 2008 were largely due to the increase in prices of steel, aluminium, nickel, copper and natural rubber. However, the Company managed to lower the impact of these increases through its on going cost reduction programme with initiatives like global sourcing, vendor rationalization and value engineering.

Employee Cost

Payments to, and provisions for, employees increased by 13.6% in fiscal 2008, from Rs. 24,157.9 million in fiscal 2007 to Rs. 27,451.6 million and represented 7.7% and 7.5% of net sales for the years ended March 31, 2008 and 2007, respectively. The increase was mainly due to increased requirement of employees and skill sets, inflation and increases in compensation level in line with the current market trend in the Indian automotive industry.

As of March 31, 2008, we had 36,788 permanent employees as compared to 29,385 permanent employees on March 31, 2007. Recruiting, training and skill enhancing activities were carried out across all levels, especially at the new manufacturing locations, in line with the Company's expansion and growth plans.

Table of Contents***Manufacturing and Other Expenses***

Manufacturing and other expenses increased by 9.2 % in fiscal 2008, from Rs. 34,545.7 million in fiscal 2007 to Rs. 37,735.2 million and represented 10.6% and 10.7% of net sales for fiscal 2008 and fiscal 2007, respectively.

Freight and handling charges increased by 13% in fiscal 2008, from Rs. 5,476.5 million in fiscal 2007 to Rs. 6,186.4 million in fiscal 2008. The increase in freight and handling charges was due to an increase in production volumes as well as the increase in fuel costs.

Expenditure for stores, spare parts and tools consumed increased by 30.1% in fiscal 2008, from Rs. 5,657.3 million in fiscal 2007 to Rs. 7,359.7 million in fiscal 2008. This increase in expenditure was due to an increase in product development, higher production levels as well as an increase in the price of commodities such as steel and rubber and plastic parts.

Depreciation

Depreciation increased by 13.7% in fiscal 2008, from Rs. 6,880.9 million in fiscal 2007 to Rs. 7,820.7 million and represented 2.2% and 2.1% of net sales for fiscal 2008 and fiscal 2007, respectively, due to significant increase in the Company's capital expenditure on expansion of our production facilities at existing and new locations.

Dividend and Other Income

Other income increased to Rs. 2,674.8 million in fiscal 2008 from Rs. 1,531.8 million for fiscal 2007. This increase was principally due to a profit of Rs. 1,097.2 million upon divestment of 15% of the Company's stake in HV Transmissions Limited (HVTL) and HV Axles Limited (HVAL).

Interest (Net)

Interest and discounting charges (net of interest income and interest capitalised) increased from Rs. 4,058.1 million in fiscal 2007 to Rs. 7,430.6 million in fiscal 2008. This increase was principally due to an increase in interest rates and an increase in our funding requirements in connection with our capital expenditure, working capital needs, vehicle financing business and strategic investments.

Exceptional Items

Exceptional items represent (net) gain on revaluation of foreign currency borrowings, deposits and loans given, which increased to Rs. 1,376.1 million in fiscal 2008 from Rs. 652.1 million in fiscal 2007, which consists mainly of revaluation gains on outstanding FCCNs/CARS as at the balance sheet date due to the appreciation of the Indian Rupee against the US Dollar.

Tax expense

Tax expense decreased, from Rs. 8,832.1 million in fiscal 2007 to Rs. 8,515.4 million in fiscal 2008. The effective tax rate (tax expense as a percentage to profit before tax) was 27.6% and 28.6% for fiscal 2008 and fiscal 2007 respectively. The reduction in tax expense in term of effective tax rate was due to an increase in spending on research and development which is eligible for certain tax benefits and capital gains on sale of stakes in HVTL and HVAL which is subject to lower tax rates.

Profit for the year

The Company's profit for the year decreased marginally in fiscal 2008 from Rs. 21,972.8 million in fiscal 2007 to Rs. 21,607.6 million. Profit after Tax as a % of net sales in fiscal 2008 was 6.1% compared to 6.8% in fiscal 2007.

Table of Contents**Fiscal 2007 Compared to Fiscal 2006****Net Sales**

The Company's net sales increased by 36.0% in fiscal 2007, from Rs. 237,916.2 million in fiscal 2006 to Rs. 323,612.0 million.

The growth was primarily driven by the commercial vehicle industry which grew at 33.3%. According to Frost & Sullivan the growth was driven by robust economic growth, increased industrial activity and continued development of better road infrastructure. Restrictions on overloading and increased demand from construction and mining activity had a favorable impact on demand for M&HCV.

There was an overall growth in the volumes of passenger cars in the fiscal 2007, contributed by all segments i.e. small cars, midsize car and utility vehicles.

The following table presents the Company's net sales by segment for fiscal 2007 and 2006.

	Total Revenues by Segment	
	Year ended March 31,	
	2007	2006
	(Rs. in million)	
Automotive	299,241.4	222,120.5
Others	27,078.9	18,093.9
Total Sales	326,320.3	240,214.4
Inter Segment Sales	(2,708.3)	(2,298.2)
Net Sales	323,612.0	237,916.2

The following is a discussion of net sales for each of our business segments.

Automotive Operations

Sales before inter-segment eliminations from automotive operations increased by Rs. 77,120.9 million, or 34.7% from Rs. 222,120.5 million in fiscal 2006 to Rs. 299,241.4 million in fiscal 2007. This increase was primarily due to increase in volumes in both commercial vehicles and passenger cars category.

Other Operations

Sales before inter-segment eliminations from our other operations segment increased by Rs. 8,985.0 million or 49.7% to Rs. 27,078.9 million in fiscal 2007 compared Rs. 18,093.9 million in fiscal 2006, mainly due to an increase in revenues of significant non-automotive Subsidiaries. In fiscal 2007, revenues of TTL, on a consolidated basis, and Telco Construction Equipment Company Limited (Telcon), increased by 76% and 40.7%, respectively. Telcon witnessed business growth due to increasing infrastructure related activities in India. Similarly, efficiencies derived from the acquisition of INCAT, a provider of Product Life Cycle Management (PLM), engineering and design services to automotive and aerospace companies, during fiscal 2006 helped increase the revenue growth of TTL.

Total Expenditure

Consistent with volume increase, the Company's total expenditure, excluding depreciation and interest, increased by 36.7% in fiscal 2007, from Rs. 207,058.8 million in fiscal 2006 to Rs. 283,120.1 million. These expenses represented 87.5% and 87.0% of net sales for fiscal 2007 and fiscal 2006, respectively.

Table of Contents

The following table presents the Company's total expenditures for fiscal 2007 and 2006.

Total Expenditure

	Year ended March 31,	
	2007	2006
	(Rs. in million)	
Material Cost	224,416.5	163,927.2
Employee Cost	24,157.9	17,831.2
Manufacturing and other expenses	34,545.7	25,300.4
	283,120.1	207,058.8

Material Cost

Material Cost (including processing charges) as a percentage to net sales for the fiscal 2007 increased to 69.3% from 68.9% for the fiscal 2006. This was largely a result of increase in prices of steel, aluminium, nickel, copper and natural rubber. The Company continued to lower its material cost by pursuing its on going cost reduction programmes mainly global sourcing, vendor rationalization and value engineering.

Employee Cost

The payments to, and provisions for, employees increased by 35.5% in fiscal 2007, from Rs. 17,831.2 million in fiscal 2006 to Rs. 24,157.9 million. However percentage of the employee cost to net sales did not increase for the year and represented 7.5% for both fiscals 2007 and 2006. The Company and some of its Subsidiaries restructured the salaries to align the same to industry standards and to attract talent. The Company also increased its flexible workforce to achieve substantially higher production units.

As of March 31, 2007, Tata Motors had 29,385 permanent employees compared to 26,742 permanent employees we had on March 31, 2006.

Manufacturing and Other Expenses

Manufacturing and other expenses increased by 36.5% in fiscal 2007, from Rs. 25,300.4 million in fiscal 2006 to Rs. 34,545.7 million. The increase was largely driven by volume increase and these expenses represented 10.7% and 10.6% of net sales for fiscal 2007 and fiscal 2006, respectively.

Freight and handling charges increased by 41.8% in fiscal 2007, from Rs. 3,862.4 million in fiscal 2006 to Rs. 5,476.5 million. The increase in freight and handling charges was due to an increase in production volumes.

Depreciation

Depreciation increased by 10.4% in fiscal 2007, from Rs. 6,233.1 million in fiscal 2006 to Rs. 6,880.9 million and represented 2.1% of net sales for fiscal 2007 as compared to 2.6% of net sales for fiscal 2006. The increase is largely on account of additional capacity being set up for vehicle manufacturing.

Dividend and Other Income

Dividend and other income decreased by 37.1% in fiscal 2007, from Rs. 2,435.2 million in fiscal 2006 to Rs. 1,531.8 million. The other income for the fiscal 2006 included profit of Rs. 1,541.2 million from our divestment of 20% stake in Telcon to Hitachi Construction Equipment Company Limited.

Table of Contents**Interest (Net)**

Interest and discounting charges (net of interest income and interest capitalised) increased in fiscal 2007, from Rs. 2,460.1 million and discounting charges in fiscal 2006 to Rs. 4,058.1 million. The increase was on account of significant increase in Company's vehicle financing business, increased level of activity entailing higher working capital, increase in capital expenditure on account of additional capacity being set up for vehicle manufacturing, higher outlay towards the ongoing new product development programs and sustenance initiatives and significant increases in interest rates. However, net interest expenses remained at 1.3% of net sales in fiscal 2007 and 1.0% of net sales in fiscal 2006.

Exceptional Items

In fiscal 2007, exceptional items consisted of a gain of Rs. 652.1 million on revaluations of foreign currency borrowings, deposits and loans as compared to a loss of Rs. 391.7 million for fiscal 2006; mainly such revaluation gain is as at the balance sheet date on FCCN due to the appreciation of the Indian Rupee against US Dollar.

Tax expense

Tax expense increased in fiscal 2007, from Rs. 6,400.0 million in fiscal 2006 to Rs. 8,832.1 million, primarily due to an increase in taxable profits.

The effective tax rate (tax expense as a percentage to profit before tax) was 28.6% and 27.3 % for fiscal 2007 and fiscal 2006, respectively. The marginal increase in tax expense as expressed as percentage to PBT was due to capital gains on sale of stake in a Subsidiary in fiscal 2006 not liable to tax, which was partly offset by other tax deductions.

Profit for the year

Consistent with overall business performance the Company's profit after taxes increased by 26% in fiscal 2007 over fiscal 2006. The Company's profit for the year increased in fiscal 2007 from Rs. 17,441.6 million in fiscal 2006 to Rs. 21,972.8 million.

Cash Flow Data

The following table sets forth selected items from our consolidated statements of cash flows for the periods indicated:

	2008	2007	2006
	(Rs. in million)		
Cash flow from/(used in) Operating Activities	55,955.5	(8,754.8)	1,104.6
Cash flow used in Investing Activities	(53,974.2)	(24,064.9)	(4,473.7)
Cash flow from/(used in) Financing Activities	24,868.7	30,535.7	(6,237.3)
Net Increase/(Decrease) in cash and cash equivalents	26,850.0	(2,284.0)	(9,606.4)

Net cash flow from/ (used in) operating activities was Rs. 55,955.5 million, Rs. (8,754.8) million and Rs. 1,104.6 million in fiscal 2008, 2007 and 2006, respectively, while cash flow from operating profit before working capital change was Rs. 42,238.4 million, Rs. 39,446.2 million and Rs. 30,253.3 million, for fiscal 2008, 2007 and 2006, respectively. The net cash inflow/(outflow) in respect of operating activities was affected primarily on account of working capital outflow of Rs. 5,884.3 million in fiscal 2006 and outflow on account vehicle financing of Rs. 17,702.6 million and Rs. 39,330.5 million in fiscal 2006 and fiscal 2007, respectively. There has been a net cash inflow of Rs. 20,926.4 million on account of improvement in working capital in fiscal 2008. For fiscal 2008, an increase in trade and other payables was partially offset by an increase in trade and other receivables. This favorable change in operating assets and liabilities significantly contributed to increased cash provided by operating activities in fiscal 2008 compared to fiscal 2007. Our acceptances increased by Rs. 16,854.0 million in fiscal 2008 due to increase in the credit period for part of the year, sundry creditors increased mainly on account of increase in volumes, acquisition expenses and debt issue cost incurred for the acquisition of Jaguar and Land Rover business. Our sundry debtors increased by Rs. 3,582.9 million, Rs. 3,477.4 million and Rs. 1,130.8 million in fiscals 2008, 2007 and 2006, respectively due to higher value of products sold.

Table of Contents

Net cash used in investing activities was Rs. 53,974.2 million, Rs. 24,064.9 million and Rs. 4,473.7 million in fiscal 2008, 2007 and 2006, respectively. Net cash outflow on account of capital expenditures for property, plant and equipment were Rs. 52,339.5 million, Rs. 26,594.1 million and Rs. 12,437.4 million in fiscal 2008, 2007 and 2006, respectively. We invested Rs 4,589.5 million for acquisition of INCAT in the fiscal 2006. During fiscal 2008, cash used in investing activities was primarily due to an increase in and capital expenditure relating mostly to a capacity expansion of our production facilities, introduction of new products, quality and reliability improvement aimed at operating cost reductions. Further in the fiscal 2008 through sale of 15% equity interest in our Subsidiaries HVAL and HVTL and sale of certain lines of financing activities during fiscal 2008 we received Rs. 1,642.5 million and Rs. 8,874.2 million respectively.

Net cash flow from/(used in) financing activities was Rs. 24,868.7 million, Rs. 30,535.7 million and Rs. (6,237.3) million during fiscal 2008, 2007 and 2006, respectively. We raised net Rs. 4,449.9 million in fiscal 2006 and Rs. 19,699.9 million in fiscal 2008 by way of FCCN/CARS. Other long term debt raised net of repayment was Rs. 32,355.3 million and Rs. 10,674.5 million in fiscal 2007 and fiscal 2008 respectively. The long term debts were raised for the purpose of capital expenditure requirement. The net increase in short term borrowings was Rs. 8,610.0 million in fiscal 2007 and Rs. 11,385.1 million in fiscal 2008 to provide working capital support.

Certain of our Subsidiaries and equity method affiliates have contractual and other limitations in respect of their ability to transfer funds to us in the form of cash dividends, loans or advances. However this has not had and is not expected to have any impact on our ability to meet our cash obligations.

In June 2008, we raised US\$ 3,000 million of US Dollar denominated debt to finance our acquisition of Jaguar Land Rover. For more information see Management's Discussion and Analysis of Financial Condition and Results of Operation Financing of the Jaguar Land Rover Acquisition and Objects of the Issue on pages 135 and 23 of this Letter of Offer.

For further information on our loan obligations on a consolidated basis, see Auditor's Report on page F-1 of this Letter of Offer. For further information on our loan obligations on a non-consolidated basis, see Description of Certain Indebtedness on page 166 of this Letter of Offer.

Liabilities and Sources of Financing

The following table sets forth our consolidated secured and unsecured loans:

	As of March 31,		
	2008	2007	2006
	(Rs. in million)		
Secured Loans	60,118.7	44,626.5	8,816.2
Unsecured Loans	55,730.0	28,392.5	24,975.2
Total Loans	115,848.7	73,019.0	33,791.4

During fiscal 2008 and 2007, the effective weighted average interest rate on our consolidated loans was 7.4% and 5.6% per annum, respectively. During fiscal 2008, our effective cost of borrowing increased due to increase in interest rates in India during the fiscal year.

As of March 31, 2008, approximately 58% of our loans were denominated in Rupees and the balance was denominated in US Dollars and other non-rupee currencies.

Table of Contents

The following table sets forth a summary of the maturity profile for our outstanding debt obligations as of March 31, 2008:

Payments Due by Period	Rs. in Million
Repayment within 1 year	61,401.0
After one and up to two years	11,788.8
After two and up to five years	42,658.9
Total	115,848.7

In addition, redemption premium (net of discount) of Rs. 8,834.5 million is payable for FCCN/CARS, if not converted.

As a result of our increase in our debt during fiscal 2008 as compared to fiscal 2007, the ratio of net debt to shareholders' equity (total debt less cash and cash equivalents and liquid marketable securities divided by total shareholders' equity) was 0.77 as of March 31, 2007 and March 31, 2008.

We fund our short-term working capital requirements with cash generated from operations, overdraft facilities with banks, issue of commercial paper and short and medium-term borrowings from lending institutions, banks. The maturities of these short and medium-term borrowings and debentures are generally matched to particular cash flow requirements.

The unsecured loans mainly comprise of foreign currency convertible notes, as under:

In July 2003, we raised US\$ 100 million through an offering of 1% convertible notes, due in 2008. The notes are convertible into ordinary shares or global depository shares, at the option of the holder, at a price of Rs. 250.745 per ordinary share. The notes are subject to redemption at our option any time after July 31, 2006. Unless previously converted, redeemed or purchased and cancelled, the notes are redeemable on July 31, 2008 at 116.824% of the principal amount. US\$ 60,000 of these notes were outstanding as on March 31, 2008 which were redeemed on maturity.

On April 27, 2004, we raised US\$ 400 million through a two-tranche offering of zero coupon and 1% convertible notes due in 2009 and 2011, respectively. The US\$ 100 million zero coupon notes, due in 2009, are convertible into ordinary shares or global depository shares at an initial conversion price of Rs. 573.106 per share, subject to adjustment, from and including June 7, 2004 to and including March 28, 2009 and are subject to redemption at our option any time on or after April 27, 2005. The US\$ 300 million 1% notes, due in 2011, are convertible into ordinary shares or depository shares at a initial conversion price of Rs. 780.400 per share, subject to adjustment, from and including June 7, 2004 to and including March 28, 2011. For each tranche, there is a fixed rate of exchange of on conversion of Rs. 43.85 = US\$ 1.00. US\$ 4.41 million of the US\$ 100 million zero coupon notes, due in 2009, were outstanding as of March 31, 2008. None of the US\$ 300 million 1% notes, due in 2011, had been converted as of to March 31, 2008.

On March 20, 2006, we issued an aggregate principal amount of JPY 11,760 million of zero coupon convertible notes due on March 21, 2011. The note holders have an option to convert these notes into ordinary shares or ADSs at an initial conversion price of Rs. 1,001.39 per share with a fixed rate of exchange on conversion of Rs. 1.00 per JPY 2.66, from and including May 2, 2006 to and including February 19, 2011. The conversion price will be subject to certain adjustments. Further, we have a right to redeem in whole, but not in part, these notes at any time on or after March 20, 2009 but prior to February 8, 2011, subject to certain conditions. Unless previously converted, redeemed or purchased and cancelled, these notes will be due for redemption on March 21, 2011, at 99.253% of the principal amount. None of these notes were converted prior to March 31, 2008.

On July 11, 2007, we issued an aggregate principal amount of US\$ 490 million of zero coupon Convertible Alternative Reference Securities (CARS) due on July 12, 2012. The noteholders have an option to convert these notes (i) in the event there has been a Qualifying Issue (as defined in the Indenture relating to the CARS) by the time of conversion, into Qualified Securities (QSs), or (ii) in the event that there has not been a Qualifying Issue by the time of conversion or there has been a Qualifying Issue but we notify the

holders of the CARS (the Holders) that the CARS are no longer convertible into Qs, into our newly issued ordinary shares or ADSs at the option of the Holders. The conversion may be made by the Holders at any time during the period from and including October 11, 2011 to and including June 12, 2012 at an initial conversion price of Rs. 960.96 per share (equivalent to US\$ 23.67 at a fixed rate of exchange on conversion of Rs. 40.59 = US\$ 1.00). The conversion price is subject to adjustment in certain circumstances. Further, we have a right to redeem in whole, but not in part, these notes at any time on or after October 11, 2011, subject to certain conditions. Unless previously converted, redeemed or purchased and cancelled, these notes will be due for redemption on July 12, 2012, at 131.82% of the principal amount.

For further information on our loan obligations on a consolidated basis, see Auditor's Report on page F-1 of this Letter of Offer. For further information on our loan obligations on a non-consolidated basis, see Description of Certain Indebtedness on page 166 of this Letter of Offer.

Some of the Company's financing agreements and debt arrangements set limits on and/or require prior lender consents for among other things, undertaking of new projects, issuing new securities, changes in management, mergers, sale of undertakings and investment in Subsidiaries. In addition, certain financial covenants may limit the Company's ability to borrow additional funds or to incur additional liens. Certain of the Company's financing arrangements also include covenants to maintain certain debt to equity ratios, debt to earnings ratios, liquidity ratios, capital expenditure ratios and debt coverage ratios. The Company cannot assure prospective investors that such covenants will not hinder the Company's business development and growth in the future. Our ability to raise additional debt in the future is subject to a variety of uncertainties including, among other things, economic and other conditions in India that may affect investor demand for our securities and those of other Indian entities, our financial condition and results of operations.

Note:

Concorde Motors (India) Limited, a Subsidiary company acquired certain immovable properties pursuant to scheme of arrangement in 2004. stamp duty is payable on conveyance of properties in favour of the company. The stamp duty adjudication order has been passed by District registrar for Bangalore property fixing the market value of the immovable property situated at Bangalore as on the date of acquisition at Rs. 116.5 million on which stamp duty @ 7% amounting to Rs. 8.2 million has been paid by the Company during the year 2007-08 and has been capitalised under Land & Building. The Company is in process of completing similar formalities in respect of the Hyderabad property that was acquired by the Company pursuant to the scheme referred above. It is not possible to quantify the amount of duty payable, and adjustments, as and when effected, will be carried out to the cost of land and building relating the property in Hyderabad.

(2) Export obligation

Since fiscal 1997, we have been benefited from participation in the Export Promotion Capital Goods Scheme (the EPCG Scheme), which permits us to import capital equipment under a special license at a substantially reduced customs duty, subject to us fulfilling an obligation to export goods manufactured or produced by the use of capital equipment imported under the EPCG Scheme to the value of a multiple of the cost insurance and freight value of these imports or customs duty saved, over a period of 8 or 12 years from the date of obtaining the special license. We currently hold 44 licenses that require us to export our products of a value of approximately Rs. 88.47 billion between 2002 and 2015, and we carefully monitor our progress in meeting our incremental milestones. After fulfilling some of the export obligation, the remaining obligation is to export products of a value of approximately Rs. 52.91 billion by March 2015. In the event that the export obligation under the EPCG Scheme is not fulfilled, we would have to pay the differential between the reduced and normal duty on the goods imported along with interest. In view of our past record of exceeding our export milestones, and our current plans with respect to our export markets, we do not currently foresee any impediments to meeting our export obligations in the required time frame.

(3) Capital Commitments

Estimated amount of contracts remaining to be executed on capital account and not provided for, was Rs. 40,455.2 million as at March 31, 2008 and Rs. 31,733.4 million as at March 31, 2007.

Liquidity and Capital Resources

We finance our capital requirements through cash generated from operations, sale of investments including divestment in stakes of Subsidiaries and affiliates, debt, and equity. As of March 31, 2008, our outstanding borrowings were Rs. 115,848.7 million. We believe that we have sufficient resources available to us to meet our planned capital requirements. However, our sources of funding could be adversely affected by an economic slowdown or other macro economic factors in India and abroad, which are beyond our control. A decrease in the demand for our products and services could lead to an inability to obtain funds from external sources on acceptable terms or in a timely manner or at all.

Financing of the Jaguar Land Rover Acquisition

On June 2, 2008, we completed the acquisition of Jaguar Land Rover from Ford for a purchase consideration of US\$ 2,300 million on cash free and debt free basis. The purchase consideration was paid by JaguarLandRover Limited, our indirect Subsidiary. As part of the acquisition, the Company acquired the global businesses relating to Jaguar Land Rover including three vehicle manufacturing facilities, one veneer production facility, two advanced design centers, 26 national sales companies, intellectual property rights (including perpetual royalty free licenses), and brands and trade marks. For further information on Jaguar Land Rover see Business The Jaguar Land Rover Business on page 68 of this Letter of Offer.

Table of Contents

The purchase consideration of US\$ 2,300 million, on cash free and debt free basis, paid by JaguarLandRover Limited was financed through a capital contribution of US\$ 400 million and a portion of the proceeds from a US\$ 3,000 million short term bridge loan facility extended to JaguarLandRover Limited. The purchase consideration was based on an agreed level of working capital as defined in the sale and purchase agreement entered into with Ford. In addition, US\$ 100 million was paid by TML Holdings Pte Limited towards fees and other acquisition expenses consisting of legal and advisory fees, due-diligence and related expenses, structuring fees, underwriters fees and other expenses in relation to the short term bridge loan, and other acquisition related expenses.

A net cash position of US\$ 93 million was estimated for Jaguar Land Rover as at the date of acquisition. This amount represents additional net cash over the purchase consideration basis and was paid additionally by JaguarLandRover Limited. The same was financed out of the proceeds of the short term bridge loan.

In addition, a final adjustment relating to the actual cash, debt and working capital position (as defined in the sale and purchase agreement) of Jaguar Land Rover on the date of the acquisition, based on a final completion statement of Jaguar Land Rover agreed between JaguarLandRover Limited and Ford, of US\$ 131 million is payable by JaguarLandRover Limited to Ford. This represents additional net working capital/ cash available with Jaguar Land Rover over the agreed levels.

The US\$ 3,000 million short term bridge loan facility extended to JaguarLandRover Limited in connection with the acquisition of Jaguar Land Rover was pursuant to a credit facility agreement dated March 13, 2008 with an initial group of arrangers including the Bank of Tokyo-Mitsubishi UFJ Limited, Citigroup Global Markets Asia Limited, ING Bank N.V., Singapore Branch, J.P. Morgan Securities (Asia Pacific) Limited, Mizuho Corporate Bank Limited, Standard Chartered Bank, State Bank of India and BNP Paribas, Singapore Branch. TML and TML Holdings Pte Limited were also obligors to the aforementioned credit facility agreement, and TML provided a guarantee for the facility. Citicorp International Limited acted as the Facility Agent. JaguarLandRover Limited utilized US\$ 1,900 million of the aforementioned Short Term Bridge Loan towards part payment of the purchase consideration for the acquisition of Jaguar Land Rover from Ford on cash free and debt free basis. In addition, a net cash position of US\$ 93 million, representing additional net cash over the purchase consideration basis, was estimated for Jaguar Land Rover as at the date of the acquisition. This amount was paid additionally by JaguarLandRover Limited out of the proceeds of the short term bridge loan. Further, US\$ 700 million from the proceeds from the short term bridge loan was utilized by JaguarLandRover Limited for a short term working capital loan to its subsidiary, Land Rover. The balance proceeds from the Short Term Bridge Loan are intended to be utilized by JaguarLandRover Limited towards the ongoing operational/ contingency requirements of Jaguar Land Rover. For further details see *Objects of the Issue* on page 23 of this Letter of Offer.

Proposed Repayment of the short term bridge loan

The Company intends to refinance the short term bridge loan through the following fund raising plans:

- 1) Simultaneous but unlinked rights issue of (i) Ordinary Shares of Rs. 21,853.9 million and (ii) A Ordinary Shares having differential voting rights of Rs. 19,604.2 million described in this Letter of Offer;
- 2) Issuance of Ordinary Shares, A Ordinary Shares and/or securities linked to, or convertible into Ordinary Shares/ A Ordinary Shares, including, but not limited to, depositary receipts in the international market for an amount aggregating approximately US\$ 500/600 million. While the terms of the same are not yet finalized, the Company expects to issue the same after the date on which the Securities under this Letter of Offer are listed or application moneys are refunded on account of the failure of the Issue; and
- 3) Raise the balance amount through other measures such as monetization of a part of the Company's investments through a phased divestment of certain investments (preferably as inter-group sales wherever feasible) at prevailing market prices, and asset based lending facilities and optionally convertible loans at Jaguar Land Rover/ JaguarLandRover Limited.

Table of Contents

With regards to paragraph 2 above, the Company has received the approval of its shareholders to raise up to US\$ 1 billion on July 14, 2008. The balance of the approved amount after considering the issuance of securities under paragraph 2 above and other contingencies will be used for raising additional resources through an appropriate debt or offer of securities to fund the future growth plans of the Company, as may be necessary.

The issuance of Ordinary Shares and/or A Ordinary Shares by the Company, whether directly or following the exercise of rights or warrants or the conversion of convertible securities, will dilute the equity interests of the Company's shareholders and could depress the prevailing market price of the Company's shares. Additionally, the Company has outstanding convertible debt securities that may be converted into equity securities and this could further dilute the equity interests of the Company's shareholders.

In addition, the Company's ability to raise additional funds through the issuance of equity, equity-related or debt instruments in the future is subject to a variety of uncertainties including, among other things, the amount of capital that other entities may seek to raise in the capital markets, receipt of regulatory or corporate approvals that are necessary, market conditions, foreign exchange movements, and other conditions that may affect investor demand for the Company's securities, the liquidity of the capital markets and the Company's financial condition and results of operations. As a result, the Company may not be able to raise this additional equity on terms or with a structure that is favourable to the Company, if at all.

Quantitative and Qualitative Disclosures about Market Risk

Our exposure to financial risks derives primarily from changes in interest rates and foreign exchange rates. To mitigate these risks, we utilize derivative financial instruments, including interest rate option contracts and currency swap agreements, the application of which is primarily for hedging purposes and not for speculative purposes.

Interest Rate and Swap Agreements

Our exposure to interest rate risks relates primarily to:

our short term debt, which is normally utilized for working capital requirements;

our long term debt, which is normally utilized to finance capital expenditure;

our investment in marketable securities; and

our finance receivables.

We are subject to market risk from exposure to changes in interest rates based on our financing, investing and cash management activities. We enter into various financial instrument transactions to maintain the desired level of exposure to the risk of interest rate fluctuations and to minimize interest expense. We have entered into option contracts and interest rate caps and floors to reduce the interest rate risk related to these activities.

There are particular shortcomings inherent in the sensitivity analysis presented below. The model assumes interest rate changes are instantaneous parallel shifts in the yield curve; however, in reality, changes are rarely instantaneous. Although some assets and liabilities may have similar maturities or periods to repricing, they may not react correspondingly to changes in market interest rates. Also, the interest rates on some types of assets and liabilities may fluctuate with changes in market interest rates, while interest rates on other types of assets may lag behind changes in market rates.

Table of Contents

The sensitivity to a change in interest rates of 1% on our unhedged floating rate loans as at March 31, 2008 and March 31, 2007 is Rs. 150.0 million and Rs. 226.5 million, respectively, on an annual basis. The sensitivity to a change in interest rates of 1% on the value of our portfolio of marketable securities as at March 31, 2008 and 2007 is Rs. 50.4 million and Rs. 29.0 million, respectively.

We may have a prepayment and default risk with respect to our finance receivables due to any change in interest rates.

Foreign Exchange Risk

The following table sets forth information relating to our foreign currency debt exposure for the periods indicated:

	For the year ended	
	March 31,	
	2008	2007
	Percentage (%)	
Total Foreign Currency denominated debt as percentage of total outstanding debt	42.0	46.2
Total US\$ debt as percentage of total outstanding debt	37.0	39.1

We have foreign currency exposure related to buying, selling and financing in currencies, primarily in the US Dollar, other than the local currencies in which we operate. We are also exposed to foreign currency risk related to future earnings or assets and liabilities that are exposed due to operating cash flows and various financial instruments that are denominated in foreign currencies.

We use derivative instruments primarily to hedge our foreign exchange exposure, and also to hedge our interest rate exposure. Nevertheless, a weakening of the rupee against the dollar and other major foreign currencies may have an adverse effect on our cost of borrowing and cost of imported goods/technology and consequently may increase the cost of financing our capital expenditures. In addition, we have experienced and expect to continue to experience foreign exchange losses and gains on obligations denominated in foreign currencies in respect of our borrowings.

The sensitivity to a change in currency prices of 1% per US\$ on our unhedged foreign currency loans as at March 31, 2008 and 2007 is Rs. 428.5 million and Rs. 329.8 million, respectively.

We hedge most of our exports. However, some of our imports and exports have remained unhedged during the year. The sensitivity to a 1% change in exchange rates of individual currencies against the rupee for the unhedged portion of our imports payables for the year ending March 31, 2008 and 2007 is Rs. 41.5 million and Rs. 7.2 million, respectively, and sensitivity to a 1% change in exchange rates of individual currencies against the rupee for the unhedged portion of our exports receivables for the year ending March 31, 2008 is Rs. 21.6 million.

Commodity price risk

Commodity price risk is the possibility of impact from changes in the prices of commodities, such as non-ferrous metals (like aluminium), ferrous alloys (like steel) and others (like rubber), which we use in the production of automotive vehicles and their components. We do not use derivative instruments to hedge the price risk associated with the purchase of these commodities. However, we cover some of these risks through long-term purchase contracts.

Our exposure to financial risks derives primarily from changes in interest rates and foreign exchange rates. To mitigate these risks, we utilize derivative financial instruments, including interest rate option contracts and currency swap agreements, the application of which is primarily for hedging purposes and not for speculative purposes.

Table of Contents**SUMMARY FINANCIAL INFORMATION OF JAGUAR LAND ROVER**

On June 2, 2008, TML completed the acquisition of Jaguar Land Rover from Ford. The following tables set forth the Unaudited Summarized Income Statement and the Unaudited Summarized Statement of Assets and Liabilities of Jaguar Land Rover as at and for the years ended December 31, 2007, 2006, 2005 and 2004. In addition, the Unaudited Summarized Income Statement for the period from June 2, 2008 to June 30, 2008 and from January 1, 2008 to June 1, 2008 has also been included in the following tables (together the Unaudited Summarized Financial Statements).

The Unaudited Summarized Financial Statements have been prepared by Jaguar Land Rover's management principally based on US GAAP. The Unaudited Summarized Financial Statements as at and for the years ended December 31, 2007, 2006, 2005 and 2004 and the Unaudited Summarized Income Statement for the period from January 1, 2008 to June 1, 2008 have been adjusted for certain Ford corporate level transactions which have been accounted for under Jaguar Land Rover. The Unaudited Summarized Financial Statements of Jaguar Land Rover are, by their nature, summarized and intended to provide a summary of the performance of the Jaguar Land Rover business in terms of the Income Statement and Statement of Assets and Liabilities, and are not intended to comply with all disclosure requirements under US GAAP reporting. As a result, they do not include all the information, notes and other disclosures which would normally be provided in full audited financial statements under US GAAP. Furthermore, the Unaudited Summarized Financial Statements have been combined based on certain assumptions that may not necessarily be in accordance with US GAAP. The Unaudited Summarized Financial Statements should be read in conjunction with the Basis of Preparation and Notes to the Unaudited Summarized Financial Statements .

BASIS OF PREPARATION OF AND NOTES TO THE UNAUDITED SUMMARIZED FINANCIAL STATEMENTS**a) Acquisitions of Jaguar Land Rover**

On June 2, 2008, TML completed the acquisition of Jaguar Land Rover from Ford. The purchase consideration was paid by TML's indirect Subsidiary, JaguarLandRover Limited. As part of the acquisition, TML acquired the global business of Jaguar Land Rover including three vehicle manufacturing facilities, two advanced design centres, one veneer production facility, 26 national sales companies, intellectual property rights (including perpetual royalty free licenses), and brands and trade marks.

b) Objective of the Unaudited Summarized Financial Statements of Jaguar Land Rover

Prior to the acquisition of Jaguar Land Rover by the Company, the business of Jaguar Land Rover comprised a number of subsidiaries (including national sales companies), several divisions and the Halewood facility all of which were integrated into Ford. Under the acquisition process, certain divisions relating to Jaguar Land Rover were carved out and either transferred to existing companies or to new companies formed as a part of the reorganization process. These companies together with the existing subsidiaries and the Halewood facility relating to Jaguar Land Rover were re-constituted

Table of Contents

under Jaguar Cars Limited and Land Rover which are subsidiaries of JaguarLandRover Limited, TML's indirect Subsidiary. However, certain of these divisions relating to distribution operations in 15 countries will be transferred by Ford to Jaguar Land Rover on completion of pending formalities and receipt of local regulatory approvals. After elimination of consolidation adjustments and intercompany revenues, these 15 divisions represented 14.5% of total sales in 2007.

Prior to the acquisition, consolidated audited financial statements relating to Jaguar Land Rover as a separate organisation were not required to be prepared either on a brand or consolidated level for external reporting. The objective of the Unaudited Summarized Financial Statements is to facilitate an understanding of the financial performance of Jaguar Land Rover for the aforementioned periods/ years.

c) Procedure for preparation of the Unaudited Summarized Financial Statements of Jaguar Land Rover

The Unaudited Summarized Financial Statements of Jaguar Land Rover have been prepared on the following basis:

- 1) The Unaudited Summarized Financial Statements have been prepared by the Jaguar Land Rover management principally based on US GAAP. In accordance with US GAAP - Statement of Financial Accounting Standards No. 141, Business Combinations (Financial Accounting Standard 141) all tangible and intangible assets and liabilities should be revalued at fair value in the opening balance sheet following acquisition. This process has not yet been completed for Jaguar Land Rover, and therefore the financials statements of Jaguar Land Rover going forward may materially differ from the Unaudited Summarized Statement of Assets and Liabilities as at December 31, 2007.
- 2) The Unaudited Summarized Financial Statements as above include 33 subsidiaries, 17 divisions and the Halewood facility relating to Jaguar Land Rover acquired by JaguarLandRover Limited. The Unaudited Summarized Financial Statements also include two entities which are only included on an investment basis. The earnings of eight subsidiaries and eight divisions not acquired by JaguarLandRover Limited are included within the Unaudited Summarized Income Statement but reversed on a bottom line basis, details of which are provided as per note (d) 4.8 below. The revenues and EBIT of the 16 entities not acquired by JaguarLandRover Limited for the year ended December 2007 is US\$ 28.2 million and US\$ 1 million, respectively.
- 3) For the preparation of the Unaudited Summarized Financial Statements the underlying management accounts principally based on US GAAP were used.

For the years ended December 31, 2006, 2005 and 2004, the accounts for subsidiaries were reconciled with the audited statutory accounts, as per accounting standards applicable in the respective country of incorporation, except Land Rover North America Inc (no local requirement for separate audit). After elimination of consolidation adjustments and intercompany revenues, these subsidiaries audited under local laws represented 56% of total sales in 2006.

- 4) For the preparation of the income statements of the divisions, the brand specific income statement data available to the profit before taxes level was used with the income statement items below this held only at the parent company level.

Furthermore, for the preparation of the balance sheets of the divisions the items readily attributable to Jaguar Land Rover like inventory, trade receivable were identified by brands. However cash and certain liabilities were only recorded at the parent company level and therefore for the purpose of Unaudited Summarized Financial Statements, a divisional funding balance was recognized and included as part of net worth.

Table of Contents

- 5) The financial statements of the subsidiaries, divisions and the Halewood facility prepared as above were combined and the following adjustments were made:

Inter-company sales elimination within each brand;

Inter-company trade receivable/payable balance elimination within each brand;

Inter-company non-trade receivable/payable balance elimination within each brand;

Elimination of unrealised Jaguar Land Rover inter-company profit in inventory within each brand and between brands;

Elimination of internal investments and equity balances where investee companies were subsidiaries of other Jaguar Land Rover entities, as applicable.

- 6) Furthermore, certain adjustments were made in relation to certain special/ exceptional items and non-continuing items to the Unaudited Summarized Income Statements, the details of which are explained under notes (d) 3 and (d) 4 to the Unaudited Summarized Financial Statements.

d) Notes to Unaudited Summarized Income Statement**1. Other Income/(Expenses)**

Other Income and Expenses includes the impact of foreign exchange related gains and losses and costs relating to forward hedging contracts and options taken in the normal course of Jaguar Land Rover's business, and period end / year end conversion gains and losses. It also includes senior management long-term incentive scheme compensation, incentive scheme compensation, the difference between total pension costs under US GAAP and payroll related employee pension contributions, and one time incomes or expenses.

2. Depreciation and Amortisation

Depreciation and Amortisation has been allocated amongst the cost of sales, marketing and selling expenses, and research and development. The depreciation and amortisation charge for the period from June 2, 2008 to June 30, 2008, for the period from January 1, 2008 to June 1, 2008 and for the years ended December 31, 2007, 2006, 2005 and 2004, were US\$ 27 million, US\$ 15 million, US\$ 287 million, US\$ 419 million, US\$ 729 million and US\$ 642 million, respectively. As on December 31, 2007 the depreciation and amortisation allocation in cost of sales was approximately 92.7% of the total depreciation and amortisation charge for the year.

3. Special/ Exceptional Items

The following table summarises the adjustments relating to Special/ Exceptional (Expenses)/Income Items:

	Total Special/ Exceptional Items	(35)	524	(1,836)	(1,465)

Table of Contents

3.1 Asset Impairment

During 2006 and 2005, a decline in forecast net cash flows based on market conditions and financial performance resulted in a test of long-lived assets recoverability indicating that the carrying value of these assets exceeded the fair value based on the forecast cash flows. Consequently, a pre-tax impairment charge of US\$ 1,600 million and US\$ 1,300 million was recorded for the difference during 2006 and 2005, respectively. These impairments were allocated to net fixed assets (excluding land and certain other assets) and dealer network intangible assets.

3.2 Restructuring Charges

Since 2004 there have been various restructuring activities to align the cost base of the business. These restructuring activities included:

Closure of the majority of operations at, and subsequent sale of, the Browns Lane site which formerly produced Jaguar vehicles.

Cessation of Freelander and powertrain production at Jaguar Land Rover's Solihull facility. The replacement vehicle (Freelander 2/LR2) is produced at Jaguar Land Rover's Halewood facility.

Voluntary redundancy programmes within all areas of the business.

3.3 Mark to Market of Hedging Contracts

In 2007, the designated hedging program applied by Jaguar Land Rover was unwound under Financial Accounting Standard 133 of the US GAAP guidelines. Consequently, the portfolio of open foreign exchange forward contracts was marked to fair market value and unwound resulting in an adjustment of US\$ 143 million in 2007 and US\$ (19) million during the period January 1, 2008 to June 1, 2008.

3.4 Variable Marketing Charge

During 2007, there was a one-time non-cash charge of US\$ 53 million relating to a change in the business practice for offering and announcing retail variable marketing incentives to dealers.

3.5 Restatement of Warranty due to Change in Accounting Methodology

In 2006, the methodology for estimating warranty provisions was changed following a review of the provision process. This change in methodology resulted in a revaluation to the warranty provision, and the reported item reflects the adjustments to the underlying warranty cost of each year retrospectively resulting from applying the revised provisioning model. The revised methodology has been applied consistently since the change.

Table of Contents**3.6 Profits on Sale of Aston Martin shares**

In 2007, Ford sold its interest in Aston Martin to external parties. Jaguar Cars Limited held a 75% investment in Aston Martin, and therefore this portion of the profit on disposal of the original investment is recognised in Jaguar Cars Limited.

3.7 Income on Sale of the right to use Daimler trademark as corporate name

In 2007, Ford sold the right to use the Daimler trademark as a corporate name to DaimlerChrysler. Jaguar Cars Limited held the Daimler trademark and therefore the income on sale of the right to use Daimler trademark as corporate name is recognized in Jaguar Cars Limited. The sale did not restrict the right of Jaguar to continue to use the Daimler trademark as a brand on automotive vehicles and related products.

4. Non-Continuing Transactions

The following table summarises the effect of (expense)/income transactions which will not continue post acquisition:

		<i>(US\$ million)</i>					
No.	Description	June 2, 2008 - June 30, 2008	January 1, 2008 - June 1, 2008	December 31, 2007	December 31, 2006	December 31, 2005	December 31, 2004

4.8	EBIT in Jaguar Land Rover Entities not acquired			(1)	(2)	(9)	(48)
	Total Non-Continuing Transactions		(19)	569	349	466	449

4.1 Research and Development Recharges to Ford

Research and development recharges to Ford relate to a reduction of Jaguar Land Rover's operating expenses on the rebilling of all research and development expenses to Ford. These recharges will not continue after the acquisition of Jaguar Land Rover by JaguarLandRover Limited.

4.2 Royalty Payments to Ford

Royalty payments to Ford relate to payment of production volume based royalties to Ford by Jaguar Land Rover for the use of intellectual property. As part of the acquisition, JaguarLandRover Limited acquired intellectual property rights (including perpetual royalty free licenses), and brands and trade marks relating to the Jaguar Land Rover business from Ford.

4.3 Ford Consolidation Adjustments

Ford consolidation adjustments relate to the adjustment entries passed at the Ford parent level for purpose of consolidation of the Jaguar Land Rover result of operations. Post acquisition of Jaguar Land Rover by JaguarLandRover Limited these reversal entries shall not be applicable as

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

evidenced by the Unaudited Summarized Statement of Income for the period from June 2, 2008 to June 30, 2008.

Table of Contents

These consolidation adjustments represent the elimination of profits or (losses) made by other Ford companies on engine and other components sold to Jaguar Land Rover companies, and costs relating to general administrative expenses, information technology, accounting and treasury services, marketing and purchasing services incurred in other Ford companies centrally allocated to Jaguar Land Rover within Ford's segment reporting.

4.4 Goodwill Impairment

During the first quarter of 2008, prior to the sale of Jaguar Land Rover, Ford made a pre-tax impairment charge of US\$ 421 million in relation to goodwill. This reflected the difference between the anticipated proceeds Ford would receive from JaguarLandRover Limited as a result of the sale and the carrying value of Jaguar Land Rover under Ford accounting policies, which did not include any fair value adjustments.

Furthermore the carrying value of goodwill in the Jaguar Land Rover's Unaudited Summarised Statement of Assets and Liabilities may be significantly different post the acquisition on account of the fair value accounting under US GAAP.

4.5 Held for Sale Depreciation Treatment

At the end of 2007, following the decision to sell the Jaguar Land Rover business, Ford implemented held for sale treatment of the assets related to that business under Financial Accounting Standard 144 of the US GAAP. The assets were subsequently no longer depreciated on a consolidated basis by Ford. This adjustment reverses the depreciation charges that continued to be applied in the local Jaguar Land Rover management accounts. This adjustment reflects a charge incurred centrally by Ford as a result of the sale of Jaguar Land Rover. The reversal of the depreciation on account of the held for sale treatment however does not relate to the results of operations of Jaguar Land Rover.

4.6 Loss on Sale of Jaguar Land Rover

A provision of US\$ 106 million representing the loss on sale of Jaguar Land Rover to Ford based on a comparison of the anticipated proceeds less associated costs of disposal with the book value of Jaguar Land Rover in Ford's accounts, was made in the second quarter of 2008. This adjustment reflects a charge incurred centrally by Ford as a result of the sale of Jaguar Land Rover. The Loss on Sale of Jaguar Land Rover is a loss incurred at the Ford parent level and does not relate to the result of operations of Jaguar Land Rover.

4.7 Sale Transaction Costs

These represent the reported costs for Ford relating to the disposal of Jaguar Land Rover. This adjustment reflects a charge incurred centrally by Ford as a result of the sale of Jaguar Land Rover. The sale transactions costs are incurred by Ford and as such do not relate to the result of operations of Jaguar Land Rover.

Table of Contents

4.8 EBIT in Jaguar Land Rover Entities not acquired

This represents the Earnings Before Interest and Taxation of 8 subsidiaries and 8 divisions associated with the Jaguar Land Rover business in Ford's segment reporting that were not acquired by JaguarLandRover Limited.

5. Provision for Taxation

Income Tax Provisions include amounts considered sufficient to pay probable assessments of prior year tax returns by federal, foreign, state and local jurisdictions. Actual assessments may differ from what has been provided for. For periods prior to June 2, 2008, no provision for taxation is included for the earnings of the divisions as any tax is payable by the relevant local Ford company for all periods prior to that date. Provision has been made in respect of any tax payable on the profits of divisions from June 2, 2008 onwards. Provision has also been made in respect of any tax payable on profits from January 1, 2008 onwards for all subsidiaries acquired from Ford.

It should also be noted that the effective rate of Income Tax was affected by group relief payments between Jaguar Land Rover and other Ford companies in the United Kingdom at value below par for the losses, and so will not correspond with standard rates (30%) applicable during the year.

The tax effect of the US\$ 2.9 billion impairments was reflected in the books of Jaguar Land Rover in the year 2006. This adjustment materially affects the apparent effective tax rate of Jaguar Land Rover in both 2005 and 2006.

In 2008, US\$ 924 million in deferred tax assets previous included in the Jaguar Land Rover balance sheet were written off by Ford as part of its completion accounting of the sale of Jaguar Land Rover. Deferred tax assets and liabilities will likely represent a material variance in the post acquisition fair value adjustments of Jaguar Land Rover as a result.

The combination of these issues has given rise to significant movements in deferred tax balances recognised through the income statement. However, these movements have not impacted on cash tax payable. The subsidiaries outside of the United Kingdom have historically been in a tax paying position due to transfer pricing requirements. The provision for taxation for the period June 2, 2008 to June 30, 2008 is primarily on account of tax on entities outside of United Kingdom.

Jaguar Land Rover had a total capital allowance pool in excess of GBP 2 billion as of December 31, 2007. As part of the transaction a minimum capital allowance pool of GBP 580 million in respect of qualifying expenditure on plant and machinery in companies located in the United Kingdom is assured by Ford to Jaguar Land Rover. The balance capital allowance pool may be available depending upon possible utilization if any by Ford, for the past years. The capital allowances are available to Jaguar Land Rover on a reducing balance basis currently at the rate of 20% under laws applicable in the United Kingdom for set off against profits in the future years in the United Kingdom.

6. Dividends

In 2008, Dividend payments were made by Land Rover and Land Rover North America Inc. These payments were conducted by Ford as part of its restructuring of financing arrangements prior to the sale of Jaguar Land Rover.

Table of Contents**e) Notes to Unaudited Summarized Statement of Assets and Liabilities****1. Cash and Marketable Securities**

Cash and all highly liquid investments with a maturity of three months or less at the date of purchase of these investments, including short-term time deposits and cheques in transit are classified as cash and marketable securities. In December 2006, there was a timing change of when cash was swept up into Ford treasury cash management accounts resulting in additional cash retained by Land Rover entities.

2. Accounts Receivable (Net)

Accounts Receivable include the receivables with respect to vehicle sales to dealers and direct importers, and monies receivable from Ford Motor Credit Company and its subsidiaries. There were no receivables from Ford Motor Credit Company or its subsidiaries as at December 31, 2008. Also, included are interest receivable on investments and recoverable Value Added Tax balances where an individual subsidiary is in a tax recoverable position with the Governmental Authorities. These accounts receivable are net of provisions for potential bad debts.

3. Inventories

Inventories are recorded at the lower of cost or net realisable value. Inventories include finished vehicles for external sales as adjusted to eliminate the unrealised profit element present in inventories in transit or held at the National Sales Companies. In addition, work in progress, parts and accessories, and raw materials also form a part of inventories. Inventories also include own use vehicles which are primarily company, launch and engineering fleet and brought back vehicles with an estimated useful life of less than one year. These have been re-valued to reflect their present usage as on the balance sheet date. The value of inventories may be materially different after the acquisition on account of the revaluation at fair value of all assets and liabilities.

4. Other Current Assets

Other Current Assets primarily relate to prepayments for trading services and the deferred cost of the vehicles sold under fleet buy back arrangements. Under these arrangements Jaguar Land Rover sells the vehicles to the customer with a commitment to repurchase after a fixed period and at an agreed value. Cost of sales and revenues are deferred and recognised as part of other current assets, accrued expense and other current liabilities, respectively. These balances are amortised in the Unaudited Summarized Statement of Income over the life of the arrangement.

5. Net Fixed Assets

Movements in Net Fixed Assets are outlined in the table below:

Closing Net Book Value ^(c)	2,246	2,119	3,256	5,190

- a) For the purpose of this schedule, the opening net book value of assets for December 31, 2003 has been calculated based on the transactions booked in the financial statements for 2004, rather than reconciled to output from the fixed asset register.
- b) The impairment in 2006 excludes a US\$ 39 million impairment of the dealer network asset included within goodwill and intangible assets.
- c) The value of fixed assets may be materially different after the acquisition on account of the revaluation at fair value of all assets and liabilities.

6. Investments Non-Current

Investments Non-Current primarily consists of investment in the two entities which are included on an investment basis. Further more this also included the Aston Martin shares which were sold in 2007.

7. Goodwill and Intangible Assets

Goodwill was recognised on account of past acquisitions of the Land Rover business including by Ford in 2000, and reallocation of acquisition goodwill from other subsidiaries of Ford. The other intangible assets primarily relate to the dealer networks and brand names. The movements in the carrying value of goodwill and intangible assets are primarily on account of exchange rate fluctuations affecting the translation of these assets from British Pounds to US Dollars. The increase of US\$ 287 million in goodwill and intangible assets in the year 2007 was primarily on account of reallocation by Ford of acquisition goodwill from other subsidiaries to Land Rover of US\$ 439 million and a reduction of US\$ 238 million to the goodwill on account of reassessment of capital allowance pool available to Land Rover. This resulted in a net increase of US\$ 201 million to goodwill. During the first quarter of 2008, prior to the sale of Jaguar Land Rover, Ford made a pre-tax impairment charge of US\$ 421 million in relation to goodwill. This reflected the difference between the anticipated proceeds Ford would receive from JaguarLandRover Limited as a result of the sale and the carrying value of Jaguar Land Rover under Ford accounting policies, which did not include any fair value adjustments. The value of goodwill and intangible assets may be significantly different post the acquisition on account of the fair value accounting under US GAAP.

8. Other Non-Current Assets

Cash and cash equivalents and investments that are restricted as to withdrawal or usage under the terms of certain contractual arrangements in the nature of security deposits are recorded in Other Non-Current Assets.

Table of Contents

9. Accounts Payable

Accounts Payable includes amounts owed to Ford and other suppliers. The payables to Ford represents the net position for trading activities including supply of engines and parts, engineering recharges, royalty payments and services with respect to administrative and finance functions. The accounts payable to Ford as at December 31, 2007 was US\$ 209 million. Payables to other suppliers primarily relate to work undertaken and material supplied, but also includes employee payroll, and Value Added Tax payable to government authorities.

10. Accrued Expenses and Other Current Liabilities

Accrued Expenses and Other Current Liabilities include balances due within one year for variable marketing programmes; warranty; sales under fleet buy back arrangements initially recorded as deferred revenue; fixed marketing; interest payable and non tax related payroll liabilities. Also included in other current liabilities are unrealised gains and losses on foreign exchange hedging contracts and deferred charges relating to emission trading and long term incentive schemes.

11. Short Term Debt

Short Term Debt includes a Value Added Tax financing loan secured on certain Value Added Tax receivable balances and all the non-trade transactions conducted between Jaguar Land Rover and Ford including loans and cash transfers as part of a central treasury function. Also included in short term debt as at December 31, 2007 is US\$ 402 million payable by Jaguar Land Rover to Ford.

12. Income Tax Liabilities

Income Tax Provisions include amounts considered sufficient to pay probable assessments of prior year tax returns by federal, foreign, state and local jurisdictions. Actual assessments may differ from what has been provided for.

13. Net Pensions Deficit/(Surplus)

The Net Pensions position has been reported in accordance with FAS 87 and FAS 158 (from 2006). The net pension deficit/(surplus) is measured on a plan by plan basis. A net pension asset is recognized when the fair value of plan assets exceed the projected benefit obligation. An accrued liability is recognized when the fair value of the assets is less than the projected benefit obligation. Unamortized actuarial gains or losses, unamortized prior service costs or credits, and the unamortized transition asset or obligation remaining is recognized net of tax as part of net worth in the Unaudited Summarized Statement of Assets and Liabilities. The pension assets and liabilities and net periodic pension costs for the above periods is in accordance with the assessments made by Ford on the basis of actuarial estimates / valuations.

As part of the sale process, as agreed amongst the parties to the transaction, Ford contributed GBP 301.5 million towards the UK pension plans. As part of the acquisition accounting under FAS 141 a fair valuation of the pension assets and liabilities will have to be undertaken. This process has not been completed. The value of the pension deficit/surplus may be significantly different after the acquisition on account of the revaluation at fair value of all assets and liabilities.

14. Deferred Income Taxes (Net)

Deferred Tax Assets and Liabilities are recognized based on the future tax consequences attributable to temporary differences that exist between the financial statement carrying value of assets and liabilities and their respective tax bases, and operating loss and tax credit carry

forwards for each tax jurisdiction. The value of deferred tax assets and liabilities are projected using enacted tax rates that will apply in the years that the temporary differences will be recovered or paid.

As part of the sale, all deferred tax assets and liabilities were written off by Ford in its segment reporting of Jaguar Land Rover during 2008 (the net value of deferred tax assets as at December 31, 2007 was US\$ 924 million), which gave rise to a charge in the Unaudited Summarized Statement of Income of US\$ 912 million.

Post acquisition, fair value assessment of the deferred tax is yet to be undertaken. The carrying value of the deferred income taxes may be significantly different at the completion of such fair value exercise and following consideration of the underlying value of tax assets to Jaguar Land Rover in its new structure.

15. Other Non-Current Liabilities

Other Non-Current Liabilities include balances due after more than one year for variable marketing programmes, warranty, fixed marketing and non tax related payroll liabilities.

Table of Contents**SUMMARY OF CERTAIN DIFFERENCES BETWEEN INDIAN GAAP AND US GAAP**

The financial statements of the Company are prepared in conformity with Indian GAAP and the unaudited summarized financial statements of Jaguar Land Rover have been prepared by the Jaguar Land Rover management principally based on US GAAP. Indian GAAP differs in certain significant respects from US GAAP. Such differences involve methods for measuring the amounts shown in the financial statements, as well as additional disclosures required by US GAAP.

The following is a general summary of certain significant differences between Indian GAAP and US GAAP.

The differences identified below are limited to significant differences. However, they should not be construed as exhaustive as no attempt has been made by our management to quantify the effects of those differences, nor has a complete reconciliation of Indian GAAP to US GAAP been undertaken by our management. Had any such quantification or reconciliation been undertaken by our management, other potential significant accounting and disclosure differences may have come to its attention, which are not identified below. No attempt has been made to identify all disclosure, presentation or classification differences that would affect the manner in which transactions and events are presented in the financial statements and the notes thereto.

US GAAP being an exhaustive set of Standards, Rules and Interpretations issued by various authoritative agencies, no assurance can be given that the following note covers all possible differences.

Further, no attempt has been made to identify future differences between Indian GAAP and US GAAP as a result of prescribed changes in accounting standards. Regulatory bodies that promulgate Indian GAAP and US GAAP have significant projects ongoing that could affect future comparisons such as this one. Finally, no attempt has been made to identify future differences between Indian GAAP and US GAAP that may affect the financial information as a result of transactions or events that may occur in the future.

Potential investors should consult their own advisors for an understanding of the principal differences between Indian GAAP and US GAAP, and how these differences might affect the financial statements appearing in this Letter of Offer.

S.No.	Description	Indian GAAP	US GAAP
1.	Presentation of Consolidated Financial statements	Separate financial statements are presented on a stand alone basis and on a consolidated basis.	Only consolidated financial statements are presented.
2.	Consolidation and investments in subsidiaries	<p>In India, the reporting entity generally follows legal form, and under the Companies Act is considered to be the legal entity rather than a group.</p> <p>In the stand alone financial statements of the parent, investments in subsidiaries are accounted for at cost less an allowance for other-than-temporary impairments.</p> <p>Consolidation is required by the accounting standard AS-21 Consolidated Financial Statements .</p>	<p>Under US GAAP, there is a presumption that consolidated financial statements present more meaningful financial information for a parent and subsidiaries than separate financial statements of the parent. Separate financial statements of the parent only are not presented.</p> <p>The Company is also required to consolidate entities deemed to be variable interest entities where the company is deemed to be the primary beneficiary as per Interpretation FIN 46R Consolidation of Variable Interest Entities .</p>

AS-21 prescribes consolidation of all subsidiaries where control is exercised either by way of ownership directly or through subsidiaries of more than one half of the voting power of the entity or the composition of the Board/ Governing body of the entity.

3.	Investments in associates or affiliates in consolidated financial statements	There is no requirement to apply the equity method of accounting in the standalone financial statements of the parent, in which case such investments are accounted at cost less an allowance for other-than-temporary impairments. Accounting for Investments in Associates in Consolidated Financial Statements , AS 23 requires the equity method of accounting for investments in associates in the consolidated financial statements. The definition of associates is similar to US GAAP.	Loss in affiliates is accounted up to the carrying amount of investment in the affiliates including advances, if any extended to the affiliate.
4.	Interests in joint ventures in consolidated financial statements	Loss in associates is accounted up to the carrying amount of investment in the associate. AS 27, Financial Reporting of Interests in Joint Ventures , requires interests in jointly controlled entities of a venturer to be recognized in its consolidated financial statements on a proportionate consolidation basis.	A joint venture is accounted for using the equity method if there is a joint control, unless the joint venture is deemed to be a variable interest entity to be consolidated in accordance with Interpretation FIN 46R Consolidation of Variable Interest Entities
5.	Business combinations	The Indian Standards do not specifically deal with purchase of another company through acquisition of controlling stake and where the acquired company continues to exist as a separate entity. Such acquisitions are accounted for only in the Consolidated Financial Statements. AS 14 on Accounting for Amalgamations deals with accounting for amalgamations and the treatment of any resultant goodwill or reserves. It allows for both purchase and pooling method of accounting. Under pooling method, the difference between consideration paid and the amount of share capital of transferor company is accounted in Reserves. Under purchase method, net asset of the transferor company is recorded either at	Statement of Financial Accounting Standards (SFAS) No. 141, deals with Business Combinations. Business combination occurs when an entity acquires net assets that constitute a business or acquires equity interests of one or more entities and obtains control over that entity or entities. SFAS 141 requires the use of the purchase method of accounting for business combinations. It requires intangible assets to be recognized. In case an intangible asset does not arise from contractual or other legal rights, it shall be recognized as an asset apart from goodwill only if it is separable. Under purchase accounting, the consideration is measured at fair value, the purchase price is allocated to the fair values of the net assets acquired including intangibles, and goodwill is recognized for the difference between the consideration

their existing carrying amounts or at its fair value. The difference between consideration paid and net asset acquired is taken to Goodwill/Capital Reserve.

paid and the fair value of the net assets acquired. In case the sum of the amounts assigned to net assets exceed the cost of the acquired entity, the excess shall be allocated as a pro rata reduction of the amounts that otherwise would have been assigned to all of the acquired assets. If any excess remains after reducing the assets, the remaining excess shall be recognized as an extraordinary gain.

6.	Goodwill	<p>Goodwill arises mainly upon consolidation, purchase of business and amalgamations.</p> <p>For companies that prepare consolidated financial statements, goodwill arising on consolidation is not amortized, but tested for impairment.</p> <p>In case of purchase of business, goodwill arising on consolidation is not amortized, but tested for impairment.</p> <p>In case of amalgamation, in the standalone financial statements goodwill is amortized to income on a systematic basis over its estimated useful life, not exceeding five years unless a longer period can be justified.</p>	<p>Under SFAS No. 142 goodwill is tested for impairment annually. The impairment test is based on estimates of fair value at a reporting unit level. Goodwill is not amortized in any case.</p>
7.	Issuance and redemption costs for certain borrowings	<p>Certain debts (Bonds and securities) issuance costs and redemption premium payable upon the redemption of certain debts may be charged to the Securities Premium Account as per section 78 of the Companies Act.</p>	<p>All debt issuance costs are amortized using the effective interest rate method over the life of the debt. Redemption premiums are accrued as a yield adjustment over the life of the debt.</p>
8.	Asset revaluation	<p>An increase in net book value arising on revaluation of fixed assets is normally credited directly to equity under the heading revaluation reserve and is not available for distribution until realized.</p> <p>A decrease in net book value arising on revaluation of fixed assets is expensed except that, to the extent that such a decrease relates to a previous increase on revaluation it may be charged against that earlier increase.</p> <p>Where depreciable assets are revalued upward, the increase in depreciation expense is debited to revaluation reserve .</p>	<p>No upward revaluation of any class of fixed assets is permitted.</p>
9.	Investments in securities	<p>As per AS-13, Accounting for Investments, Investments are classified as current or long-term.</p>	<p>SFAS 115, Accounting for certain investments in debt and equity securities, deals with this topic.</p>

Current investments are readily realizable, not intended to be held for more than one year from the date of purchase and are carried at the lower of cost or fair value. Unrealized losses are charged to the income statement; unrealized gains are not recorded.

Investments in marketable equity and all debt securities are classified according to management's holding intent, into one of the following categories: trading, available for sale, or held to maturity.

Table of Contents

S.No. Description	Indian GAAP	US GAAP
	A long-term investment is an investment other than a current investment and is valued at cost, subject to a provision for diminution in case of other than temporary decline in value.	Trading securities are marked to market, with the resulting unrealized gain or loss recognized in the income statement. Available-for-sale (AFS) securities are marked to market, with the resulting unrealized gain or loss recorded directly in a separate component of equity (Other Comprehensive Income) until realized, at which time the gain or loss is reported in income. Held-to-maturity (HTM) debt securities are carried at amortized cost. Other than temporary impairments in the value of HTM and AFS investments are accounted for as realized losses.
10. Accounting of taxes	AS 22 on Accounting for Taxes on Income requires deferred taxes to be provided for the tax effect of timing differences between taxable income and accounting income, at enacted or substantially enacted tax rates. Deferred tax assets arising due to unabsorbed depreciation or carry forward of losses are recognized only to the extent that there is virtual certainty with convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realized. Other deferred tax assets are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Such deferred tax assets and liabilities are computed separately for each taxable entity in the consolidated enterprise and for each taxable jurisdiction.	As per interpretation FIN 48 the initial recognition of any claim for tax deduction/benefit should be based on technical merits and on the assumption that such view will be sustained upon assessment or litigation proceedings As per SFAS 109, Accounting for Income Taxes, Deferred tax liabilities and assets are recorded for the tax effect of all temporary differences between the tax and book bases of assets and liabilities and operating loss carry-forwards, at currently enacted tax rates. A deferred tax liability is provided on the undistributed earnings of subsidiary companies. A valuation allowance is made against deferred taxes if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred tax asset will not be realized.

Deferred tax liabilities and assets are classified as current or non-current on the balance sheet.

11. Research and Development cost

AS 26 on Intangible Assets became effective in respect of expenditure incurred on intangible items during accounting periods commencing on or after April 1, 2003

All Research and development costs are expensed when incurred except for such costs of materials and equipment or facilities that are acquired or constructed for research and development activities that have alternative future uses (such costs are capitalized).

Research expenses are expensed when incurred.

Expenses on Development are allowed to be capitalised only if, (a) it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise, and, (b) the cost of the asset can be measured reliably.

12. Compensated absences	AS-15 deals with Accounting for retirement benefits. Liability for compensated absences is provided based on the number of days of unutilized leave at each balance sheet date on the basis of an actuarial valuation.	SFAS-43 deals with Accounting for Compensated Absences . Vacation earned but not taken is reported as a liability based on the actual number of days entitlement, priced at the balance sheet salary rate.
13. Retirement benefits	AS-15 deals with Accounting for retirement benefits. Actuarial gains or losses are recognized in income statement. Past service cost is not recognized and expensed on straight line basis over the average period until the benefits becomes vested.	SFAS-87, SFAS 106 and SFAS 112 read with SFAS 158 deals with Employers accounting for defined benefit pension and other postretirement plans . Actuarial gains or losses are recognized in Other Comprehensive Income (OCI) and amortized in the income statement over the remaining service period of the employees. Past service costs is presented within OCI with unrecognized actuarial gains and losses.
14. Dividend	Presented as an appropriation to the income statement. Dividends are accounted in the year when proposed.	Presented as a deduction in the statement of changes in shareholders' equity in the period when authorized by shareholders. Dividends are accounted in the year when declared.

The Company has, pursuant to its letter dated August 25, 2008, sought a confirmation from the FIPB that no approval of the FIPB is required for the Company to undertake a rights issue of its Ordinary Shares and A Ordinary Shares to its existing shareholders, including persons resident outside India, such as foreign institutional investors and non-resident Indians, with a right to renounce and the FIPB response is awaited.

The Company has, pursuant to its letter dated September 8, 2008, sought a waiver from SEBI for making a new listing application under Regulation 19(4) of the SCRR for the A Ordinary Shares.

The RBI has by its letter dated September 17, 2008 permitted renunciation of rights entitlement in this Issue by a Shareholder of the Company resident in/outside India (excluding OCBs) to any person resident outside India subject to the conditions prescribed therein, including the applicable guidelines on pricing.

Any renunciation other than as stated above is subject to the renouncer(s)/renounee(s) obtaining the approval of the FIPB and/or necessary permission of the RBI under the FEMA and such permissions should be attached to the CAF. Applications not accompanied by the aforesaid approvals are liable to be rejected.

Prohibition by SEBI

Minimum Subscription

If the Company does not receive minimum subscription of 90% of the Issue (separately for Ordinary Shares and A Ordinary Shares) including devolvement of Underwriters, the Company shall forthwith refund the entire subscription amount received in respect of the Ordinary Shares or the A Ordinary Shares, as the case may be, within 15 days from the Issue Closing Date. If there is a delay in the refund of subscription by more than eight days after the Company becomes liable to pay the subscription amount (i.e. 15 days after closure of the Issue), the Company will pay interest for the delayed period at prescribed rates in Section 73 of the Companies Act, 1956.

Additional Subscription by the Promoter

The Promoter, Tata Steel and Tata Industries Limited have confirmed, by their letters dated September 18, 2008 that they intend to subscribe to the full extent of their entitlement of Ordinary Shares and A Ordinary Shares in the Issue. The Promoter and the Tata Companies reserve their right to subscribe to their entitlement and/or apply for additional Ordinary Shares and A Ordinary Shares in the Issue, either by themselves or a combination of entities controlled by them, including by subscribing for renunciation, if any, made by other Tata Companies.

The Promoter has also, by its above letter confirmed that in addition to the subscription to the Ordinary Shares as stated above, the Promoter shall subscribe to, and/or make arrangements as stated in Note 12 of the Capital Structure Notes to Capital Structure on page 20 of this Letter of Offer for the subscription of, additional Ordinary Shares in the Issue to the extent of any unsubscribed portion of the issue of Ordinary Shares as per the relevant provisions of law.

As a result of subscription to their entitlement and any unsubscribed portion and consequent allotment, the Promoter/Tata Companies may acquire Ordinary Shares over and above their entitlement in the Issue, which may result in an increase of the Promoter s/Tata Companies shareholding in the Company. This subscription and acquisition of such additional Ordinary Shares by the Promoter/Tata Companies, if any, will not result in change of control of the management of the Company and shall be exempt in terms of the proviso to Regulation 3(1)(b)(ii) of the Takeover Code. As such, other than meeting the requirements indicated in the section on Objects of the Issue on page 23 of this Letter of Offer, there is no other intention/purpose for this Issue, including any intention to delist the Company, even if, as a result of allotments to the Promoter/Tata Companies, in this Issue, their shareholding in the Company exceeds their current shareholding. Allotment to the Promoter of any unsubscribed portion of Ordinary Shares, over and above its entitlement shall be done in compliance with the listing agreements and other applicable laws prevailing at that time relating to continuous listing requirements.

The Company hereby confirms that, in case the Issue is completed with the Promoter and/or the Tata Companies subscribing to Ordinary Shares over and above its entitlement, the public shareholding in the Company after the Issue will not fall below the minimum level of public shareholding as specified in the listing conditions or listing agreement.

TERMS OF THE PRESENT ISSUE

The Ordinary Shares and the A Ordinary Shares (collectively, the Securities), proposed to be issued on rights basis, are subject to the terms and conditions contained in this Letter of Offer, the Abridged Letter of Offer, the enclosed Composite Application Forms (CAFs), the Memorandum and Articles of Association of the Company, the provisions of the Act, the Companies (Issue of Share Capital with Differential Voting Rights) Rules, 2001 (the DVR Rules), the guidelines issued by SEBI, guidelines, notifications and regulations for issue of capital and for listing of securities issued by Government of India, the RBI and/or other statutory authorities and bodies from time to time, terms and conditions as stipulated in the allotment advice or security certificate and rules as may be applicable and introduced from time to time.

Authority for the Issue

This simultaneous but unlinked Issue of the Ordinary Shares and the A Ordinary Shares is being made pursuant to resolutions passed by the Board of Directors of the Company under Section 81(1) of the Companies Act at its meetings held on May 28, 2008 and August 20, 2008 and pursuant to resolution passed by the Committee of Directors at its meeting held on September 2, 2008. The issue of the A Ordinary Shares has been authorized by the shareholders of the Company by a postal ballot dated July 14, 2008 in accordance with the DVR Rules.

The Company has, pursuant to its letter dated August 25, 2008, sought a confirmation from the FIPB that no approval of the FIPB is required for the Company to undertake a rights issue of its Ordinary Shares and A Ordinary Shares to its existing shareholders, including persons resident outside India, such as foreign institutional investors and non-resident Indians, with a right to renounce and the FIPB response is awaited.

The Company has, pursuant to its letter dated September 8, 2008, sought a waiver from SEBI for making a new listing application under Regulation 19(4) of the SCRR for the A Ordinary Shares.

The RBI has by its letter dated September 17, 2008 permitted renunciation of rights entitlement in this Issue by a Shareholder of the Company resident in/outside India (excluding OCBs) to any person resident outside India subject to the conditions prescribed therein, including the applicable guidelines on pricing.

Any renunciation other than as stated above is subject to the renouncer(s)/renounee(s) obtaining the approval of the FIPB and/or necessary permission of the RBI under the FEMA and such permissions should be attached to the CAF. Applications not accompanied by the aforesaid approvals are liable to be rejected.

Basis for the Issue

The Securities are being offered for subscription for cash to those existing Ordinary Shareholders of the Company whose names appear as beneficial owners as per the list to be furnished by the Depositories in respect of the Ordinary Shares held in dematerialized form and on the register of members of the Company in respect of the Ordinary Shares held in physical form at the close of business hours on the Record Date, i.e., September 16, 2008, fixed in consultation with the Stock Exchanges.

Rights Entitlement

Where an offer is made to purchase the outstanding shares or voting rights or equity capital or share capital or voting capital of the Company in accordance with the Takeover Code and other applicable laws, the A Ordinary Shareholders shall have the right to receive an offer to purchase his A Ordinary Shares in the same proportion as offered to the Ordinary Shareholders. For example, where an offer is made under the Takeover Code to purchase 20 per cent of the outstanding shares or voting rights or equity capital or share capital or voting capital of the Company, such offer shall also include an offer for 20 per cent of the outstanding Ordinary Shares and 20 per cent of the outstanding A Ordinary Shares.

Further, the pricing guidelines as specified under the Takeover Code or any other applicable laws in respect of offer for Ordinary Shares shall *mutatis mutandis* apply to an offer for A Ordinary Shares and the percentage premium offered for the A Ordinary Shares to its floor price shall be equal to the percentage premium offered for the Ordinary Shares to its floor price. The floor price for the Ordinary Shares and the floor price for the A Ordinary Shares shall be determined in accordance with Takeover Code. All consideration to be received by the A Ordinary Shareholders in accordance with any such offer shall be paid in the same form and at the same time as that to be received by Ordinary Shareholders.

For the purposes of the Takeover Code, the terms shares , voting rights , equity capital , share capital or voting capital shall mean and include Ordinary Shares and A Ordinary Shares.

Where the promoters (as provided in the last quarterly filing with the stock exchanges prior to making the offer) or any other acquirer of the Company proposes at any time to voluntarily delist the securities of the Company in accordance with the SEBI (Delisting of Securities) Guidelines, 2003 (hereinafter the Delisting Guidelines) or any other applicable law from the stock exchanges on which such securities are listed, both the Ordinary Shareholders and the A Ordinary Shareholders shall have the right to receive an offer in terms of the Delisting Guidelines. The pricing guidelines as specified under

Table of Contents

the Delisting Guidelines or any other applicable laws in respect of offer for Ordinary Shares shall *mutatis mutandis* apply to an offer for A Ordinary Shares. The respective floor prices and discovered prices of the Ordinary Shares and the A Ordinary Shares shall be determined in accordance with the Delisting Guidelines separately for the Ordinary Shares and the A Ordinary Shares. In the event the respective exit prices of the Ordinary Shares and the A Ordinary Shares are at different percentage premiums over their respective floor prices, the exit price of the Security that is a lower percentage premium shall be adjusted such that the percentage premium for that Security over its floor price equals the percentage premium for the other Security over its floor price.

Where the Company makes an offer to purchase the securities of the Company in accordance with the SEBI (Buy-Back) of Securities Regulations, 1998 and other applicable laws, the A Ordinary Shareholders shall have the right to receive an offer in the same proportion and on equitable pricing terms as offered to the Ordinary Shareholders;

Right to receive surplus on liquidation as available to Ordinary Shares and in the proportion of Ordinary Shares to A Ordinary Shares;

Right to free transferability of A Ordinary Shares; and

The A Ordinary Shares will not be convertible into Ordinary Shares at any time. The A Ordinary Shares will not at any time exceed 25% of the total issued Ordinary Share Capital (including A Ordinary Share Capital) of the Company.

Such other rights as may be available to an Ordinary Shareholder of a listed public company under the Companies Act and Articles of Association.

Any alteration of the rights of the A Ordinary Shareholders as provided in Article 67A of the Articles of Association, which is detrimental to the interests of the A Ordinary Shareholders, is required to be approved by not less than three-fourths of the holders of the outstanding A Ordinary Shares present and voting. For the purpose of conducting a vote as aforesaid, the Company will call a separate meeting of the A Ordinary Shareholders or undertake a postal ballot of the A Ordinary Shareholders.

This is the first issuance of A Ordinary Shares by the Company and, there are few comparable instances of issuances of equity shares with differential rights as to voting and dividend by Indian listed companies of our market capitalization and size. The implementation of the rights pertaining to A Ordinary Shares has not been demonstrated nor is there any regulatory or judicial guidance in relation to these rights. In the event any regulatory or judicial authority were to issue guidance in relation to equity shares with differential rights as to voting and dividend by Indian listed companies, the terms of the Issue, including the rights of the A Ordinary Shareholders, may have to be varied. In addition, as per a press release dated August 29, 2008 released by the Government of India, the Companies Bill, 2008 proposes to introduce certain amendments to the regulatory regime governing shares with differential rights as to dividend and / or voting rights, which may adversely affect the rights of the holders of the A Ordinary Shares. However, the Companies Bill, 2008 has not been placed before the Parliament as yet and the actual provisions of the Companies Bill, 2008 could be different from those described in the aforesaid press release. Table of Contents

GENERAL TERMS OF THE ISSUE

Market lot

The Ordinary Shares are tradable only in dematerialized form. The market lot for Ordinary Shares in dematerialised mode is one. In case of holding of Ordinary Shares in physical form, the Company would issue to the allottees one certificate each for the Ordinary Shares allotted to each folio (a Consolidated Certificate).

The A Ordinary Shares will be tradable only in dematerialized form. The market lot for the A Ordinary Shares will be one. In case of holding of A Ordinary Shares in physical form, the Company would issue to the allottees one certificate each for the A Ordinary Shares allotted to each folio (a Consolidated Certificate).

Joint Holders

Where two or more persons are registered as the holders of any Ordinary Shares/ A Ordinary Shares, they shall be deemed to hold the same as joint tenants with the benefit of survivorship subject to the provisions contained in the Articles.

Nomination

In terms of Section 109A of the Act, nomination facility is available in case of each of the Securities, namely, Ordinary Shares and A Ordinary Shares. In the case of Securities held in physical form, fresh nominations can be made only in the prescribed form available on request at the registered office of the Company or with TSR Darashaw Limited, the Registrar and Transfer Agents of the Company. In the case of Securities in electronic mode, fresh nominations can be made by recording the same with the DP in the prescribed form.

In case of individuals, a sole, or the first named, holder of the Securities, along with other holders of the Securities, if any, may nominate any person(s) who, in the event of the death of the sole holder or all the joint-holders, as the case may be, shall become entitled to the Securities. A person, being a nominee, becoming entitled to the Securities by reason of the death of the original holder of the Securities, shall be entitled to the same advantages to which he would be entitled if he were the registered holder of such Security. Where the nominee is a minor, the holder of Securities may also make a nomination to appoint, in the prescribed manner, any person to become entitled to the Securities, in the event of death of the said holder, during the minority of the nominee. A nomination shall stand rescinded upon the sale of the Securities by the person nominating. A transferee will be entitled to make a fresh nomination in the manner prescribed. When the Security is held by two or more persons, the nominee shall become entitled to receive the amount only on the demise of all the holders. In the case of Securities held in physical form, fresh nominations can be made only in the prescribed form available on request at the registered office of the Company or with TSR Darashaw Limited, the Registrar and Transfer Agents of the Company. In the case of Securities in electronic mode, fresh nominations can be made by recording the same with the DP in the prescribed form.

Only one nomination would be applicable for one folio. Hence, in case an Ordinary Shareholder has already registered a nomination with the Company, no further nomination needs to be made for Ordinary Shares that may be allotted in this Issue under the same folio.

In case the allotment of Securities is in dematerialised form, there is no need to make a separate nomination for the Securities to be allotted in this Issue. Nominations registered with respective Depository Participant (DP) of the applicant would prevail. Any applicant desirous of changing the existing nomination is requested to inform its respective DP.

Procedure for Application

The CAF for Ordinary Shares are printed on pink paper and the CAF for A Ordinary Shares are printed on yellow paper for all Ordinary Shareholders.

In case the original CAF is not received by the applicant or is misplaced by the applicant, the applicant may request the Registrars to the Issue, for issue of a duplicate CAF, by furnishing the registered folio number, DP ID Number, Client ID Number and their full name and address.

Acceptance of the Issue

You may accept the Issue and apply for the Ordinary Shares and the A Ordinary Shares offered, either in full or in part, by filling Part A of the respective CAFs enclosed and submit the same along with the application money payable to the Bankers to the Issue or any of the collection branches as mentioned on

Table of Contents

the reverse of the CAF before the close of the banking hours on or before the Issue Closing Date or such extended time as may be specified by the Board of Directors of the Company in this regard. Applicants at centers not covered by the branches of collecting banks can send their CAF together with the cheque drawn at par on a local bank at Mumbai/demand draft payable at Mumbai to the Registrar to the Issue by registered post. Such applications sent to anyone other than the Registrar to the Issue are liable to be rejected. For further details on the mode of payment, see Mode of Payment for Resident Ordinary Shareholders/Applicants and Mode of Payment for Non-Resident Ordinary Shareholders/Applicants on pages 266 and 267, respectively, of this Letter of Offer.

Option available to the Ordinary Shareholders

The CAF clearly indicates the number of Ordinary Shares and A Ordinary Shares that the Ordinary Shareholder is entitled to.

If the Ordinary Shareholder applies for an investment in Ordinary Shares and/or A Ordinary Shares, then he can:

Apply for his entitlement of Ordinary Shares and/or A Ordinary Shares in part; or

Apply for his entitlement of Ordinary Shares and/or A Ordinary Shares in part and renounce the other part of the Ordinary Shares and/or A Ordinary Shares; or

Apply for his entitlement of Ordinary Shares and/or A Ordinary Shares in full; or

Apply for his entitlement of Ordinary Shares and/or A Ordinary Shares in full and apply for additional Ordinary Shares and/or A Ordinary Shares. Accordingly, an Ordinary Shareholder cannot apply for additional Ordinary Shares unless he has applied for his entitlement of Ordinary Shares in full. Similarly, an Ordinary Shareholder cannot apply for additional A Ordinary Shares unless he has applied for his entitlement of A Ordinary Shares in full.

Additional Ordinary Shares/ A Ordinary Shares

You are eligible to apply for additional Ordinary Shares and/or A Ordinary Shares over and above the number of Ordinary Shares or A Ordinary Shares (as the case may be) you are entitled to, provided that you have applied for all the Ordinary Shares or the A Ordinary Shares (as the case may be) offered without renouncing them in whole or in part in favour of any other person(s). Applications for additional Ordinary Shares and A Ordinary Shares shall be considered and allotment shall be made at the sole discretion of the Board, in consultation if necessary with the Designated Stock Exchange and in the manner prescribed under Basis of Allotment on page 259 of this Letter of Offer.

If you desire to apply for additional Ordinary Shares and/or A Ordinary Shares, please indicate your requirement in the place provided for additional Securities in Part A of the CAF. The renounees applying for all the Ordinary Shares and A Ordinary Shares renounced in their favour may also apply for additional Ordinary Shares and/or A Ordinary Shares.

Where the number of additional Ordinary Shares and/or A Ordinary Shares applied for exceeds the number available for allotment, the allotment would be made on a fair and equitable basis in consultation with the Designated Stock Exchange.

Renunciation

This Issue includes a right exercisable by you to renounce the Ordinary Shares and/or A Ordinary Shares offered to you either in full or in part in favour of any other person or persons. Your attention is drawn to the fact that the Company shall not allot and/or register any Ordinary Shares and/or A Ordinary Shares in favour of more than 3 persons (including joint holders), partnership firm(s) or their nominee(s), minors, HUF, any trust or society (unless the same is registered under the Societies Registration Act, 1860 or the Indian Trust Act 1882 or any other applicable law relating to societies or trusts and is authorized under its constitution or bye-laws to hold equity shares, equity shares with differential rights as to voting and/or dividend, as the case may be).

Table of Contents

The RBI has by its letter dated September 17, 2008 permitted renunciation of rights entitlement in this Issue by a Shareholder of the Company resident in/outside India (excluding OCBs) to any person resident outside India subject to the conditions prescribed therein, including the applicable guidelines on pricing.

Any renunciation other than as stated above is subject to the renouncer(s)/renounee(s) obtaining the approval of the FIPB and/or necessary permission of the RBI under the FEMA and such permissions should be attached to the CAF. Applications not accompanied by the aforesaid approvals are liable to be rejected.

By virtue of the Circular No. 14 dated September 16, 2003 issued by the RBI, Overseas Corporate Bodies (OCBs) have been derecognized as an eligible class of investors and the RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Accordingly, the existing Ordinary Shareholders of the Company who do not wish to subscribe to the Ordinary Shares and/or A Ordinary Shares being offered but wish to renounce the same in favour of renounees shall not renounce the same (whether for consideration or otherwise) in favour of OCB(s).

Part A of the CAF must not be used by any person(s) other than those in whose favour this offer has been made. If used, this will render the application invalid. Submission of the enclosed CAF to the Banker to the Issue at its collecting branches specified on the reverse of the CAF with the form of renunciation (Part B of the CAF) duly filled in shall be conclusive evidence for the Company of the person(s) applying for Ordinary Shares and A Ordinary Shares in Part C of the CAF to receive allotment of such Ordinary Shares and A Ordinary Shares. The renounees applying for all the Ordinary Shares and A Ordinary Shares renounced in their favour may also apply for additional Ordinary Shares and A Ordinary Shares. Part A of the CAF must not be used by the renounee(s) as this will render the application invalid. Renounee(s) will have no further right to renounce any Ordinary Shares and A Ordinary Shares in favour of any other person.

Procedure for renunciation

To renounce all the Ordinary Shares/ A Ordinary Shares offered to an Ordinary Shareholder in favour of one renounee

If you wish to renounce the offer indicated in Part A, in whole, please complete Part B of the CAF. In case of joint holding, all joint holders must sign Part B of the CAF. The person in whose favour renunciation has been made should complete and sign Part C of the CAF. In case of joint renounees, all joint renounees must sign this part of the CAF. Applications not duly signed by the sole/joint renounees shall be liable to be rejected.

To renounce in part/or renounce the whole to more than one person

If you wish to either accept this offer in part and renounce the balance or renounce the entire offer under this Issue in favour of two or more renounees, the CAF must be first split into requisite number of forms.

Please indicate your requirement of split forms in the space provided for this purpose in Part D of the CAF and return the entire CAF to the Registrar to the Issue so as to reach them latest by the close of business hours on the last date of receiving requests for split forms. On receipt of the required number of split forms from the Registrar to the Issue, the procedure as mentioned in paragraph above shall have to be followed.

Table of Contents

In case the signature of the Ordinary Shareholder(s), who has renounced the Ordinary Shares and/or A Ordinary Shares, does not agree with the specimen registered with the Company, the application is liable to be rejected.

Renouncee(s)

The person(s) in whose favour the Ordinary Shares and/or A Ordinary Shares are renounced should fill in and sign Part C of the CAFs and submit the entire CAFs to the Bankers to the Issue on or before the Issue Closing Date along with the application money in full.

Change and/or introduction of additional holders

If you wish to apply for Ordinary Shares and/or A Ordinary Shares jointly with any other person(s), being not more than three, who is/are not already a joint holder with you, it shall amount to renunciation and the procedure as stated above for renunciation shall have to be followed. Even a change in the sequence of the name of joint holders shall amount to renunciation and the procedure, as stated above shall have to be followed.

However, this right of renunciation is subject to the express condition that the Board of Directors of the Company shall be entitled in its absolute discretion to reject the request for allotment from the renouncee(s) without assigning any reason thereof.

Instructions for Options

Please note that:

Part A of the CAF must not be used by any person(s) other than the Ordinary Shareholder to whom this Letter of Offer has been addressed. If used, this will render the application invalid.

Request for split form should be made for a minimum of one Ordinary Share or A Ordinary Share.

Request by the applicant for the split application form should reach the Company on or before October 10, 2008.

Only the Ordinary Shareholder to whom this Letter of Offer has been addressed shall be entitled to renounce and to apply for split application forms. Forms once split cannot be split further.

Split form(s) will be sent to the applicant(s) by post at the applicant's risk.

In case the original CAF is not received, or is misplaced by the applicant, the Registrar to the Issue will issue a duplicate CAF on the request of the applicant who should furnish the registered folio number/DP and Client ID number and his/ her full name and address to the Registrar to the Issue. Please note that the request for duplicate CAF should reach the Registrar to the Issue within 15 days from the Issue Opening Date. Please note that those who are making the application in the duplicate form should not utilize the original CAF for any purpose including renunciation, even if it is received/found subsequently. If the applicant violates any of these requirements, he/she shall face the risk of rejection of both the applications.

Procedure for Application through the Applications Supported by Blocked Amount (ASBA) Process

This section is for the information of Ordinary Shareholders proposing to subscribe to the Issue through the ASBA Process. The Company and the Lead Managers are not liable for any amendments or modifications or changes in applicable laws or regulations, which may occur after the date of this Letter of Offer. Ordinary Shareholders who are eligible to apply under the ASBA Process are advised to make their independent investigations and ensure that the number of Ordinary Shares and/or A Ordinary Shares applied for by such Ordinary Shareholders do not exceed the applicable limits under laws or regulations. Ordinary Shareholders applying under the ASBA Process are also advised to ensure that the CAF is correctly filled up, stating therein the bank account number maintained with the SCSB in which an amount equivalent to the amount payable on application as stated in the CAF will be blocked by the SCSB.

Table of Contents

The list of banks who have been notified by SEBI to act as SCSB for the ASBA Process are provided on <http://www.sebi.gov.in/pmd/scsb.pdf>. For details on designated branches of SCSB collecting the CAF, please refer the above mentioned SEBI link.

Ordinary Shareholders who are eligible to apply under the ASBA Process

The option of applying for Ordinary Shares and/or A Ordinary Shares in the Issue through the ASBA Process is only available to Ordinary Shareholders of the Company on the Record Date and who:

Is holding Ordinary Shares in dematerialised form and has applied towards his/her rights entitlements or additional Securities in the Issue in dematerialised form;

Has not renounced his entitlements in full or in part;

Has not split the CAF;

Is not making an application on plain paper;

Is not a Renouncee;

Who applies through a bank account with one of the SCSBs.

CAF

The Registrar will despatch the CAF to all Ordinary Shareholders as per their entitlement on the Record Date for the Issue. Those Ordinary Shareholders who wish to apply through the ASBA payment mechanism will have to select for this mechanism in Part A of the CAF and provide necessary details.

Ordinary Shareholders desiring to use the ASBA Process are required to submit their applications by selecting the ASBA Option in Part A of the CAF only. Application in electronic mode will only be available with such SCSB who provides such facility. The method of applying under ASBA process will not be available for Investors applying on plain paper. The Ordinary Shareholder shall submit the CAF to the SCSB for authorising such SCSB to block an amount equivalent to the amount payable on the application in the said bank account maintained with the same SCSB.

Acceptance of the Issue

You may accept the Issue and apply for the Ordinary Shares and /or the A Ordinary Shares offered, either in full or in part, by filling Part A of the respective CAFs sent by the Registrar, selecting the ASBA process option in Part A of the CAF and submit the same to the SCSB before the close of the banking hours on or before the Issue Closing Date or such extended time as may be specified by the Board of Directors of the Company in this regard.

Mode of payment

The Ordinary Shareholder applying under the ASBA Process agrees to block the entire amount payable on application (including for additional Ordinary Shares/ A Ordinary Shares, if any) with the submission of the CAF, by authorizing the SCSB to block an amount, equivalent to the amount payable on application, in a bank account maintained with the SCSB.

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

After verifying that sufficient funds are available in the bank account provided in the CAF, the SCSB shall block an amount equivalent to the amount payable on application mentioned in the CAF until it receives instructions from the Registrars. Upon receipt of intimation from the Registrar, the SCSBs shall transfer such amount as per Registrar's instruction allocable to the Ordinary Shareholders applying under the ASBA Process from bank account with the SCSB mentioned by the Ordinary Shareholder in the CAF. This amount will be transferred in terms of the SEBI Guidelines, into the separate bank account maintained by the Company as per the provisions of section 73(3) of the Companies Act, 1956. The balance amount remaining after the finalisation of the basis of

Table of Contents

allotment shall be either unblocked by the SCSBs or refunded to the investors by the Registrar on the basis of the instructions issued in this regard by the Registrar to the Issue and the Lead Managers to the respective SCSB.

The Ordinary Shareholders applying under the ASBA Process would be required to block the entire amount payable on their application at the time of the submission of the CAF.

The SCSB may reject the application at the time of acceptance of CAF if the bank account with the SCSB details of which have been provided by the Ordinary Shareholder in the CAF does not have sufficient funds equivalent to the amount payable on application mentioned in the CAF. Subsequent to the acceptance of the application by the SCSB, the Company would have a right to reject the application only on technical grounds.

Options available to the Ordinary Shareholders applying under the ASBA Process

The summary of options available to the Ordinary Shareholders is presented below. You may exercise any of the following options with regard to the Ordinary Shares/ A Ordinary Shares offered, using the respective CAFs received from Registrar:

Option Available	Action Required
1. Accept whole or part of your entitlement without renouncing the balance.	Fill in and sign Part A of the CAF (<i>All joint holders must sign</i>)
2. Accept your entitlement in full and apply for additional Ordinary Shares and/or A Ordinary Shares	Fill in and sign Part A of the CAF including Block III relating to the acceptance of entitlement and Block IV relating to additional Ordinary Shares and/or A Ordinary Shares (<i>All joint holders must sign</i>)

The Ordinary Shareholder applying under the ASBA Process will need to select the ASBA option process in the CAF and provide required necessary details. However, in cases where this option is not selected, but the CAF is tendered to the SCSB with the relevant details required under the ASBA process option and SCSB blocks the requisite amount, then that CAF would be treated as if the Ordinary Shareholder has selected to apply through the ASBA process option.

Additional Ordinary Shares/ A Ordinary Shares

You are eligible to apply for additional Ordinary Shares and/or A Ordinary Shares over and above the number of Ordinary Shares or A Ordinary Shares (as the case may be) that you are entitled too, provided that (i) you have applied for all the Ordinary Shares or the A Ordinary Shares (as the case may be) offered without renouncing them in whole or in part in favour of any other person(s). Applications for additional Ordinary Shares and A Ordinary Shares shall be considered and allotment shall be made at the sole discretion of the Board, in consultation with the Designated Stock Exchange and in the manner prescribed under Basis of Allotment on page 259 of this Letter of Offer.

If you desire to apply for additional Ordinary Shares and/or A Ordinary Shares, please indicate your requirement in the place provided for additional Securities in Part A of the CAF.

Renunciation under the ASBA Process

Renounees cannot participate in the ASBA Process.

Application on Plain Paper

Applications on plain paper cannot be made by Ordinary Shareholders availing of the ASBA Process.

Table of Contents

Last date of Application

The last date for submission of the duly filled in CAF is October 20, 2008. The Issue will be kept open for a minimum of 15 (fifteen) days and the Board or any committee thereof will have the right to extend the said date for such period as it may determine from time to time but not exceeding 30 (thirty) days from the Issue Opening Date.

If the CAF together with the amount payable is not received by the Banker to the Issue/Registrar to the Issue or if the CAF is not received by the SCSB on or before the close of banking hours on the aforesaid last date or such date as may be extended by the Board/Committee of Directors, the offer contained in this Letter of Offer shall be deemed to have been declined and the Board/Committee of Directors shall be at liberty to dispose off the Ordinary Shares/ A Ordinary Shares hereby offered, as provided under Basis of Allotment below.

Option to receive Securities in Dematerialized Form

ORDINARY SHAREHOLDERS UNDER THE ASBA PROCESS MAY PLEASE NOTE THAT THE ORDINARY SHARES AND THE A ORDINARY SHARES OF THE COMPANY UNDER THE ASBA PROCESS CAN ONLY BE ALLOTTED IN DEMATERIALIZED FORM AND TO THE SAME DEPOSITORY ACCOUNT IN WHICH THE ORDINARY SHARES ARE BEING HELD ON RECORD DATE.

General instructions for Ordinary Shareholders applying under the ASBA Process

- (a) Please read the instructions printed on the respective CAF carefully.

The CAF found incomplete with regard to any of the particulars required to be given therein, and/or which are not completed in conformity with the terms of this Letter of Offer are liable to be rejected. The CAF must be filled in English.
- (c) The CAF in the ASBA Process should be submitted at a Designated Branch of the SCSB and whose bank account details are provided in the CAF and not to the Bankers to the Issue/Collecting Banks (assuming that such Collecting Bank is not a SCSB), to the Company or Registrar or Lead Manager to the Issue.
- (d) All applicants, and in the case of application in joint names, each of the joint applicants, should mention his/her PAN number allotted under the Income-Tax Act, 1961, irrespective of the amount of the application. **CAFs without PAN will be considered incomplete and are liable to be rejected.**
- (e) All payments will be made by blocking the amount in the bank account maintained with the SCSB. Cash payment is not acceptable. In case payment is affected in contravention of this, the application may be deemed invalid and the application money will be refunded and no interest will be paid thereon.
- (f) Signatures should be either in English or Hindi or in any other language specified in the Eighth Schedule to the Constitution of India. Signatures other than in English or Hindi and thumb impression must be attested by a Notary Public or a Special Executive Magistrate under his/her official seal. The Ordinary Shareholders must sign the CAF as per the specimen signature recorded with the Company/or Depositories.
- (g) In case of joint holders, all joint holders must sign the relevant part of the CAF in the same order and as per the specimen signature(s) recorded with the Company. In case of joint applicants, reference, if any, will be made in the first applicant's name and all communication will be addressed to the first applicant.

Table of Contents

(h) All communication in connection with application for the Securities, including any change in address of the Ordinary Shareholders should be addressed to the Registrar to the Issue prior to the date of allotment in this Issue quoting the name of the first/sole applicant Ordinary Shareholder, folio numbers and CAF number.

(i) Only the person or persons to whom Securities have been offered and not renounee(s) shall be eligible to participate under the ASBA process.

Do s:

a. Ensure that the ASBA Process option is selected in part A of the CAF and necessary details are filled in.

b. Ensure that you submit your application in physical mode only. Electronic mode is only available with certain SCSBs and not all SCSBs and you should ensure that your SCSB offers such facility to you.

c. Ensure that the details about your Depository Participant and beneficiary account are correct and the beneficiary account is activated as Ordinary Shares/ A Ordinary Shares will be allotted in the dematerialized form only.

d. Ensure that the CAFs are submitted at the SCSBs whose details of bank account have been provided in the CAF.

e. Ensure that you have mentioned the correct bank account number in the CAF.

f. Ensure that there are sufficient funds (equal to {number of Ordinary Shares or A Ordinary Shares, as the case may be applied for} X {Issue Price of Ordinary Shares or A Ordinary Shares, as the case may be}) available in the bank account maintained with the SCSB mentioned in the CAF before submitting the CAF to the respective Designated Branch of the SCSB.

g. Ensure that you have authorised the SCSB for blocking funds equivalent to the total amount payable on application mentioned in the CAF, in the bank account maintained with the respective SCSB, of which details are provided in the CAF and have signed the same.

h. Ensure that you receive an acknowledgement from the SCSB for your submission of the CAF in physical form.

i. Each applicant should mention their Permanent Account Number (PAN) allotted under the I. T. Act.

j. Ensure that the name(s) given in the CAF is exactly the same as the name(s) in which the beneficiary account is held with the Depository Participant. In case the CAF is submitted in joint names, ensure that the beneficiary account is also held in same joint names and such names are in the same sequence in which they appear in the CAF.

k. Ensure that the Demographic Details are updated, true and correct, in all respects.

Depository account and bank details for Ordinary Shareholders applying under the ASBA Process

IT IS MANDATORY FOR ALL THE ORDINARY SHAREHOLDERS APPLYING UNDER THE ASBA PROCESS TO RECEIVE THEIR EQUITY SHARES IN DEMATERIALIZED FORM. ALL ORDINARY SHAREHOLDERS APPLYING UNDER THE ASBA PROCESS SHOULD MENTION THEIR DEPOSITORY PARTICIPANT S NAME, DEPOSITORY PARTICIPANT IDENTIFICATION NUMBER AND BENEFICIARY ACCOUNT NUMBER IN THE CAF. ORDINARY SHAREHOLDERS APPLYING UNDER THE ASBA PROCESS MUST ENSURE THAT THE NAME GIVEN IN THE CAF IS EXACTLY THE SAME

AS THE NAME IN WHICH THE DEPOSITORY ACCOUNT IS HELD. IN CASE THE CAF IS SUBMITTED IN JOINT NAMES, IT SHOULD BE ENSURED THAT THE DEPOSITORY ACCOUNT IS ALSO HELD IN THE SAME JOINT NAMES AND ARE IN THE SAME SEQUENCE IN WHICH THEY APPEAR IN THE CAF.

Ordinary Shareholders applying under the ASBA Process should note that on the basis of name of these Ordinary Shareholders, Depository Participant's name and identification number and beneficiary account number provided by them in the CAF, the Registrar to the Issue will obtain from the Depository demographic details of these Ordinary Shareholders such as address, bank account details for printing on refund orders and occupation (Demographic Details). Hence, Shareholders applying under the ASBA Process should carefully fill in their Depository Account details in the CAF.

Table of Contents

These Demographic Details would be used for all correspondence with such Ordinary Shareholders including mailing of the letters intimating unblock of bank account of the respective Ordinary Shareholder. The Demographic Details given by Ordinary Shareholders in the CAF would not be used for any other purposes by the Registrar. Hence, Ordinary Shareholders are advised to update their Demographic Details as provided to their Depository Participants.

By signing the CAFs, the Ordinary Shareholders applying under the ASBA Process would be deemed to have authorised the Depositories to provide, upon request, to the Registrar to the Issue, the required Demographic Details as available on its records.

Letters intimating allotment and unblocking or refund (if any) would be mailed at the address of the Ordinary Shareholder applying under the ASBA Process as per the Demographic Details received from the Depositories. Refunds, if any, will be made directly to the bank account in the SCSB and which details are provided in the CAF and not the bank account linked to the DP ID. Ordinary Shareholders applying under the ASBA Process may note that delivery of letters intimating unblocking of bank account may get delayed if the same once sent to the address obtained from the Depositories are returned undelivered. In such an event, the address and other details given by the Ordinary Shareholder in the CAF would be used only to ensure dispatch of letters intimating unblocking of bank account.

Note that any such delay shall be at the sole risk of the Ordinary Shareholders applying under the ASBA Process and none of the Company, the SCSBs or the Lead Managers shall be liable to compensate the Ordinary Shareholder applying under the ASBA Process for any losses caused to such Ordinary Shareholder due to any such delay or liable to pay any interest for such delay.

In case no corresponding record is available with the Depositories that matches three parameters, namely, names of the Ordinary Shareholders (including the order of names of joint holders), the DP ID and the beneficiary account number, then such applications are liable to be rejected.

Application on Plain Paper

An Ordinary Shareholder who has neither received the original CAF nor is in a position to obtain the duplicate CAF may make an application to subscribe to the Issue on plain paper, along with cheque/ Demand Draft, net of bank and postal charges payable at Mumbai which should be drawn in favour of TML Rights Issue Ordinary Shares and/or TML Rights Issue A Ordinary Shares or TML Rights Issue Ordinary Shares NR and/or TML Rights Issue A Ordinary Shares NR, as the case may be, and send the same by registered post directly to the Registrar to the Issue. **Separate applications will have to be made for Ordinary Shares and A Ordinary Shares.** For further details on the mode of payment, see Mode of payment for Resident Ordinary Shareholders/Applicants and Mode of payment for Non-Resident Ordinary Shareholders/Applicants on pages 266 and 267 respectively of this Letter of Offer.

If the applicant violates any of these requirements, he/she shall face the risk of rejection of both the applications. The Company shall refund such application amount to the applicant without any interest thereon.

Last date of Application

The last date for submission of the duly filled in CAF is October 20, 2008. The Issue will be kept open for a minimum of 15 (fifteen) days and the Board or any committee thereof will have the right to extend the said date for such period as it may determine from time to time but not exceeding 30 (thirty) days from the Issue Opening Date.

If the CAF together with the amount payable is not received by the Banker to the Issue/Registrar to the Issue on or before the close of banking hours on the aforesaid last date or such date as may be extended by the Board/Committee of Directors, the offer contained in this Letter of Offer shall be deemed to have been declined and the Board/Committee of Directors shall be at liberty to dispose off the Ordinary Shares/ A Ordinary Shares hereby offered, as provided under Basis of Allotment below.

INVESTORS MAY PLEASE NOTE THAT THE ORDINARY SHARES AND THE A ORDINARY SHARES OF THE COMPANY CAN BE TRADED ON THE STOCK EXCHANGES ONLY IN DEMATERIALIZED FORM.

Basis of Allotment

Subject to the provisions contained in this Letter of Offer, the Articles of Association of the Company and the approval of the Designated Stock Exchange, the Board will proceed to allot the Ordinary Shares and A Ordinary Shares in the following order of priority:

- (a) Full allotment to those Ordinary Shareholders who have applied for their rights entitlement either in full or in part and also to the renounee(s) who has/have applied for Ordinary Shares/ A Ordinary Shares renounced in their favour, in full or in part.

- (b) For Ordinary Shares being offered on a rights basis under this Issue, if the shareholding of any of the Ordinary Shareholders is less than six Ordinary Shares or is not in the multiple of six, the fractional entitlement of such holders shall be ignored. Shareholders whose fractional entitlements are being ignored would be given preferential allotment of one additional Ordinary Share each if they apply for additional Ordinary Shares. Allotment under this head shall be considered if there are any unsubscribed Ordinary Shares after allotment under (a) above. If number of Ordinary Shares required for allotment under this head are more than number of Ordinary Share available after allotment under (a) above, the allotment would be made on a fair and equitable basis in consultation with the Designated Stock Exchange.

Table of Contents

- (c) For A Ordinary Shares being offered on a rights basis under this Issue, if the shareholding of any of the Ordinary Shareholders is less than six Ordinary Shares or is not in the multiple of six, the fractional entitlement of such holders shall be ignored. Shareholders whose fractional entitlements are being ignored would be given preferential allotment of one additional A Ordinary Share each if they apply for additional A Ordinary Shares. Allotment under this head shall be considered if there are any unsubscribed A Ordinary Shares after allotment under (a) above. If number of A Ordinary Shares required for allotment under this head are more than number of shares available after allotment under (a) above, the allotment would be made on a fair and equitable basis in consultation with the Designated Stock Exchange.
- (d) Allotment to the Ordinary Shareholders who having applied for all the Ordinary Shares/ A Ordinary Shares offered to them as part of the Issue and have also applied for additional Ordinary Shares/ A Ordinary Shares. The allotment of such additional Ordinary Shares/ A Ordinary Shares will be made as far as possible on an equitable basis having due regard to the number of Ordinary Shares held by them on the Record Date, provided there is an under-subscribed portion after making full allotment in (a), (b) and (c) above. The allotment of such Ordinary Shares/ A Ordinary Shares will be at the sole discretion of the Board/Committee of Directors in consultation with the Designated Stock Exchange, as a part of the Issue and not preferential allotment.
- (e) Allotment to renounees who having applied for all the Ordinary Shares renounced in their favour, have applied for additional Ordinary Shares provided there is surplus available after making full allotment under (a), (b), (c) and (d) above. The allotment of such Ordinary Shares will be at the sole discretion of the Board/Committee of Directors in consultation with the Designated Stock Exchange, as a part of the Issue and not preferential allotment.

After taking into account allotment to be made under (a) above, if there is any unsubscribed portion, the same shall be deemed to be unsubscribed for the purpose of regulation 3(1)(b) of the Takeover Code which would be available for allocation under (b), (c), (d) and (e) above.

The Promoter, Tata Steel and Tata Industries Limited have confirmed, by their letters dated September 18, 2008 that they intend to subscribe to the full extent of their entitlement of Ordinary Shares and A Ordinary Shares in the Issue. The Promoter and the Tata Companies reserve their right to subscribe to their entitlement and/or apply for additional Ordinary Shares and A Ordinary Shares in the Issue, either by themselves or a combination of entities controlled by them, including by subscribing for renunciation, if any, made by other Tata Companies.

The Promoter has also, by its above letter confirmed that in addition to the subscription to the Ordinary Shares as stated above, the Promoter shall subscribe to, and/or make arrangements as stated in Note 12 of the Capital Structure Notes to Capital Structure on page 20 of this Letter of Offer for the subscription of, additional Ordinary Shares in the Issue to the extent of any unsubscribed portion of the issue of Ordinary Shares as per the relevant provisions of law.

As a result of subscription to their entitlement and any unsubscribed portion and consequent allotment, the Promoter/Tata Companies may acquire Ordinary Shares over and above their entitlement in the Issue, which may result in an increase of the Promoter s/Tata Companies shareholding in the Company. This subscription and acquisition of such additional Ordinary Shares by the Promoter/Tata Companies, if any, will not result in change of control of the management of the Company and shall be exempt in terms of the proviso to Regulation 3(1)(b)(ii) of the Takeover Code. As such, other than meeting the requirements indicated in the section on Objects of the Issue on page 23 of this Letter of Offer, there is no other intention/purpose for this Issue, including any intention to delist the Company, even if, as a result of allotments to the Promoter/Tata Companies, in this Issue, their shareholding in the Company exceeds their current shareholding. Allotment to the Promoter of any unsubscribed portion of Ordinary Shares, over and above its entitlement shall be done in compliance with the listing agreements and other applicable laws prevailing at that time relating to continuous listing requirements.

Table of Contents

The Company hereby confirms that, in case the Issue is completed with the Promoter and/or the Tata Companies subscribing to Ordinary Shares over and above its entitlement, the public shareholding in the Company after the Issue will not fall below the minimum level of public shareholding as specified in the listing conditions or listing agreement.

Underwriting

The Company has entered into an underwriting agreement dated September 18, 2008 (the Underwriting Agreement) with JM Financial Consultants Private Limited, JM Financial Services Private Limited and JM Financial Institutional Securities Private Limited (the Underwriters) for underwriting the A Ordinary Shares offered through this Issue for a maximum amount up to Rs. 13,270.38 million. In terms of the Underwriting Agreement, the Underwriters shall, except to the extent of the subscription by the Promoter, Tata Steel Limited and Tata Industries Limited to their entitlements of A Ordinary Shares in full (Promoter Subscription) and any subscription of A Ordinary Shares received from the Company's public shareholders other than Promoter Subscription, be responsible for bringing in a shortfall, if any, at a price of Rs. 305 per A Ordinary Share.

In the opinion of the Board of Directors, the resources of the Underwriters are sufficient to enable them to discharge its underwriting obligations in full.

The Promoters, Tata Steel Limited and Tata Industries Limited have undertaken that in case any part of the A Ordinary Shares remain unsubscribed and the Underwriters are required to underwrite in excess of 35% of the A Ordinary Shares, the entire shareholding of the Promoter, Tata Steel Limited and Tata Industries Limited would be subject to lock up of 90 days from the date of the devolvement notice issued by the Company to the Underwriters pursuant to the terms of the Underwriting Agreement. This restriction shall not apply to any Ordinary Shares that the Promoter, Tata Steel Limited and Tata Industries Limited may subscribe to in addition to their full rights entitlement of Ordinary Shares and to any pledge given to secure any loans granted to the Promoters/ promoter group or the Company or its subsidiaries.

The Company has also agreed that except as disclosed in Capital Structure on page 15 of this Letter of Offer, it shall not, without the prior written consent of the Underwriters, for a period of 180 days from the date of listing of the Securities, issue any Ordinary Shares or A Ordinary Shares or any securities convertible into or exercisable or exchangeable for Ordinary Shares or A Ordinary Shares or publicly announce any intention to do so during the aforesaid period.

Allotment/Refund

The Company will issue and dispatch share certificates/demat credit and/ or letters of regret along with refund order or credit the allotted securities to the respective beneficiary accounts, if any, within a period of fifteen (15) days from the Issue Closing Date. If such money is not repaid within eight days from the day the Company becomes liable to pay it, the Company shall pay that money with interest as stipulated under Section 73 of the Act.

Applicants residing in the 68 cities specified by SEBI pursuant to its circular dated February 1, 2008, will get refunds through ECS (Electronic Clearing Service) only except where applicants are otherwise disclosed as applicable/eligible to get refunds through direct credit and RTGS provided the MICR details are recorded with the depositories or the Company.

In case of those applicants who have opted to receive their Rights Entitlement in dematerialized form using electronic credit under the depository system, an advice regarding their credit of the Ordinary Shares/ A Ordinary Shares shall be given separately. Applicants to whom refunds are made through electronic transfer of funds will be sent a letter through certificate of posting intimating them about the mode of credit of refund within a period of fifteen (15) days from the Issue Closing Date.

Table of Contents

In case of those Applicants who have opted to receive their Rights Entitlement in physical form, the Company will issue the corresponding share certificates under Section 113 of the Companies Act or other applicable provisions, if any.

Any refund order exceeding Rs. 1,500 would be sent by registered post/speed post to the sole/first applicant's registered address. Refund orders up to the value of Rs. 1,500 would be sent under certificate of posting. Such refund orders would be payable at par at all places where the applications were originally accepted. The same would be marked Account Payee only and would be drawn in favour of the sole/first applicant. Adequate funds would be made available to the Registrar to the Issue for this purpose.

Payment of Refund

Mode of making refunds

The payment of refund, if any, would be done through various modes in the following order of preference:

1. **ECS (Electronic Clearing Service)** Payment of refund would be done through ECS for applicants having an account at any centre where such facility has been made available. This mode of payment of refunds would be subject to availability of complete bank account details including the MICR code as appearing on a cheque leaf, from the Depositories. The payment of refunds is mandatory for applicants having a bank account at the centers where ECS facility has been made available by the RBI (subject to availability of all information for crediting the refund through ECS), except where the applicant, being eligible, opts to receive refund through NEFT, direct credit or RTGS.
2. **NEFT (National Electronic Fund Transfer)** Payment of refund shall be undertaken through NEFT wherever the applicants' bank has been assigned the Indian Financial System Code (IFSC), which can be linked to a Magnetic Ink Character Recognition (MICR), if any, available to that particular bank branch. IFSC Code will be obtained from the website of RBI as on a date immediately prior to the date of payment of refund, duly mapped with MICR numbers. Wherever the applicants have registered their nine digit MICR number and their bank account number while opening and operating the demat account, the same will be duly mapped with the IFSC Code of that particular bank branch and the payment of refund will be made to the applicants through this method. The Company in consultation with Lead Managers may decide to use NEFT as a mode of making refunds. The process flow in respect of refunds by way of NEFT is at an evolving stage and hence use of NEFT is subject to operational feasibility, cost and process efficiency. In the event that NEFT is not operationally feasible, the payment of refunds would be made through any one of the other modes as discussed in this section. Mode of making refund
3. **Direct Credit** Applicants having bank accounts with the Bankers to the Issue shall be eligible to receive refunds through direct credit. Charges, if any, levied by the relevant bank(s) for the same would be borne by the Company.
4. **RTGS (Real Time Gross Settlement)** Applicants having a bank account at any of the centres where such facility has been made available and whose refund amount exceeds Rs. 5 million, have the option to receive refund through RTGS. Such eligible applicants who indicate their preference to receive refund through RTGS are required to provide the IFSC code in the CAF. In the event the same is not provided, refund shall be made through ECS. Charges, if any, levied by the Refund Bank(s) for the same would be borne by the Company. Charges, if any, levied by the applicant's bank receiving the credit would be borne by the applicant.
5. For all other applicants, including those who have not updated their bank particulars with the MICR code, the refund orders will be dispatched under certificate of posting for value up to Rs. 1,500 and through Speed Post/ Registered Post for refund orders of Rs. 1,500 and above. Such refunds will be made by cheques, pay orders or demand drafts drawn in favour of the sole/first applicant and payable at par.

Table of Contents

Printing of Bank Particulars on Refund Orders

As a matter of precaution against possible fraudulent encashment of refund orders due to loss or misplacement, the particulars of the applicant's bank account are mandatorily required to be given for printing on the refund orders. Bank account particulars will be printed on the refund orders/refund warrants which can then be deposited only in the account specified. The Company will in no way be responsible if any loss occurs through these instruments falling into improper hands either through forgery or fraud.

Allotment advice/Share Certificates/Demat Credit

Allotment advice/share certificates/demat credit will be dispatched to the registered address of the first named applicant or respective beneficiary accounts will be credited within 15 (fifteen) days, from the date of closure of the subscription list.

Option to receive Securities in Dematerialized Form

Applicants to the Ordinary Shares/ A Ordinary Shares of the Company issued through this Issue shall be allotted the securities in dematerialised (electronic) form at the option of the applicant. The Company signed tripartite agreements with National Securities Depository Limited (NSDL) and TSR Darashaw Limited on December 9, 1997 and Central Depository Services (India) Limited (CDSL) and TSR Darashaw Limited on September 27, 1999, which enable the Investors to hold and trade in securities in a dematerialised form, instead of holding the securities in the form of physical certificates.

In this Issue, the allottees who have opted for Ordinary Shares/ A Ordinary Shares in dematerialised form will receive their Ordinary Shares/ A Ordinary Shares in the form of an electronic credit to their beneficiary account with a depository participant. Investor will have to give the relevant particulars for this purpose in the appropriate place in the CAF. Applications, which do not accurately contain this information, will be given the securities in physical form. No separate applications for securities in physical and/or dematerialized form should be made. If such applications are made, the application for physical securities will be liable to be rejected.

The Ordinary Shares/ A Ordinary Shares of the Company will be listed on the BSE & the NSE.

Procedure for availing the facility for allotment of Ordinary Shares/ A Ordinary Shares in this Issue in the electronic form is as under:

Open a beneficiary account with any depository participant (care should be taken that the beneficiary account should carry the name of the holder in the same manner as is exhibited in the records of the Company. In the case of joint holding, the beneficiary account should be opened carrying the names of the holders in the same order as with the Company). In case of Investors having various folios in the Company with different joint holders, the Investors will have to open separate accounts for such holdings. *Those Ordinary Shareholders who have already opened such Beneficiary Account (s) need not adhere to this step.*

For Ordinary Shareholders already holding Ordinary Shares of the Company in dematerialized form as on the Record Date, the beneficial account number shall be printed on the CAF. For those who open accounts later or those who change their accounts and wish to receive their Securities pursuant to this Issue by way of credit to such account, the necessary details of their beneficiary account should be filled in the space provided in the CAF. It may be noted that the allotment of Securities arising out of this Issue may be made in dematerialized form even if the original Ordinary Shares of the Company are not dematerialized. Nonetheless, it should be ensured that the Depository Account is in the name(s) of the Ordinary Shareholders and the names are in the same order as in the records of the Company.

Table of Contents

Responsibility for correctness of information (including applicant's age and other details) filled in the CAF vis-à-vis such information with the applicant's depository participant, would rest with the applicant. Applicants should ensure that the names of the applicants and the order in which they appear in CAF should be the same as registered with the applicant's depository participant.

If incomplete/incorrect beneficiary account details are given in the CAF the applicant will get Ordinary Shares/ A Ordinary Shares in physical form.

The Securities pursuant to this Issue allotted to Investors opting for dematerialized form, would be directly credited to the beneficiary account as given in the CAF after verification. Allotment advice, refund order (if any) would be sent directly to the applicant by the Registrar to the Issue but the applicant's depository participant will provide to him the confirmation of the credit of such Securities to the applicant's depository account.

Renounees will also have to provide the necessary details about their beneficiary account for allotment of securities in this Issue. In case these details are incomplete or incorrect, the application is liable to be rejected.

General instructions for applicants

- (a) Please read the instructions printed on the enclosed CAF carefully.
- (b) Application should be made on the printed CAF, provided by the Company except as mentioned under the head Application on plain paper and should be completed in all respects. The CAF found incomplete with regard to any of the particulars required to be given therein, and/or which are not completed in conformity with the terms of this Letter of Offer are liable to be rejected and the money paid, if any, in respect thereof will be refunded without interest and after deduction of bank commission and other charges, if any. The CAF must be filled in English and the names of all the applicants, details of occupation, address, father's/husband's name must be filled in block letters.
- (c) The CAF together with cheque/demand draft should be sent to the Bankers to the Issue/Collecting Banks or to the Registrar to the Issue and not to the Company or Lead Manager to the Issue. Applicants residing at places other than cities where the branches of the Bankers to the Issue have been authorised by the Company for collecting applications, will have to make payment by Demand Draft payable at Mumbai of an amount net of bank and postal charges and send their application forms to the Registrar to the Issue by Registered Post. If any portion of the CAF is/are detached or separated, such application is liable to be rejected.
- (d) **Applications where separate cheques/demand drafts are not attached for amounts to be paid for Ordinary Shares and A Ordinary Shares are liable to be rejected.**
- (e) Except for applications on behalf of the Central and State Government and the officials appointed by the courts, all applicants, and in the case of application in joint names, each of the joint applicants, should mention his/her PAN number allotted under the Income-Tax Act, 1961, irrespective of the amount of the application. **CAFs without PAN will be considered incomplete and are liable to be rejected.**
- (f) Applicants holding Ordinary Shares in physical form are advised that it is mandatory to provide information as to their savings/current account number and the name of the Bank with whom such account is held in the CAF to enable the Registrar to the Issue to print the said details in the refund orders, if any, after the names of the payees. Application not containing such details is liable to be rejected. For applicants holding Ordinary Shares in dematerialised form, such bank details will be drawn from the demographic details of the shareholder in the records of the depository.

Table of Contents

- (g) All payment should be made by cheque/DD only. Cash payment is not acceptable. In case payment is affected in contravention of this, the application may be deemed invalid and the application money will be refunded and no interest will be paid thereon.
- (h) Signatures should be either in English or Hindi or in any other language specified in the Eighth Schedule to the Constitution of India. Signatures other than in English or Hindi and thumb impression must be attested by a Notary Public or a Special Executive Magistrate under his/her official seal. TABLE A EXCLUDED

Article 1 provides that, The regulations contained in Table A, in the First schedule to the Companies Act shall not apply to this Company, but the regulations for the management of the Company and for the observance of the members thereof and their representatives shall, subject to any exercise of the statutory powers of the Company in reference to the repeal or alteration of, or addition to, its regulations by Special resolution, as prescribed by the said Act, be such as are contained in these Articles.

CAPTIAL

Capital

Article 5 provides that The Capital of the Company is as reflected in Clause V of the Memorandum of Association from time to time.

Rights attached to Preference Shares

Article 6 provides that The Preference Shares shall carry the right to a fixed cumulative preferential dividend at the rate of 5 per cent per annum (subject to deduction of income-tax) on the capital for the time being paid-up or deemed to be paid-up thereon and the right in winding up to payment of capital and arrears of dividend whether earned, declared or not, upto the commencement of the winding up in priority to the other capital of the Company but shall not confer any further right to participate in the profits or assets of the Company. The Company shall subject to the provisions of the Act be entitled to issue further Preference Shares ranking in all respects *pari passu* with but not in priority to the existing Preference Shares.

Article 7 provides that The unclassified shares for the time being in the capital of the Company may be issued either with the sanction of the Company in General Meeting or by the Directors and upon such terms and conditions and with such right and privileges annexed thereto as by the General Meeting sanctioning the issue of such shares shall be directed and if no direction be given and in all other cases as the Directors shall determine; and in particular such shares may be issued with a preferential or qualified right to dividends and in distribution of the assets of the Company and any preference shares may be issued on the terms that they are or at the option of the Company are liable to be redeemed.

Issue of A Ordinary Shares

Article 7A provides that

- (i) The Board may issue Ordinary Shares with differential rights as to voting and/or dividend (hereinafter referred to as A Ordinary Shares) upto an amount not exceeding 25% of the total issued Ordinary Share Capital of the Company or such other limit as may be prescribed by applicable laws/regulations. Such issue of A Ordinary Shares shall be in accordance with the Act, other applicable laws, Article 67A and other terms and conditions that may be specified at the time of issue.
- (ii) The A Ordinary Shares so issued by the Company will stand to be in the same class as the Ordinary Shares. The A Ordinary Shares issued by the Company will enjoy all rights and privileges that are attached to Ordinary Shares in law and by the provisions of these presents, except as to voting and/or dividend, as provided in these Articles and as may be permitted under applicable law from time to time.
- (iii) The Board may issue A Ordinary Shares of more than one series carrying differential rights as to voting and/or dividend, as the case may be.

Table of Contents

(iv) The Board shall have the power and authority to remove any difficulties, and do such other acts and deeds, in relation to the applicability of this Article to the rights and obligations of the holders of the A Ordinary Shares, including, but not limited to the issue and deciding the stock exchanges on which the A Ordinary Shares will be listed.

(v) The Board shall follow the general principles set out under Article 7A (ii) at all times whilst making any decision in regard to A Ordinary Shares.

Shares under the control of Directors

Article 8 provides that Subject to the provisions of the Act and Article 64 and the other Articles, the shares in the capital of the Company for the time being (including any shares forming part of any increased capital of the Company) shall be under the control of the Directors who may allot or otherwise dispose of the same or any of them to such persons, in such proportion and on such terms and conditions and either at a premium or at par or (subject to compliance with the provisions of Section 79 of the Act) at a discount and at such times as they may from time to time, think fit and proper, and with full power with the sanction of the Company in General Meeting to give to any person the option to call for or be allotted shares of any class of the Company either at par or at a premium or subject as aforesaid at a discount such option being exercisable at such time and for such consideration as the Directors think fit.

Power of General Meeting to offer shares to such Company may resolve

Article 9 provides that In addition to and without derogating from the powers for that purpose conferred on the Directors under Articles 7 and 8 and on the Company under Articles 7 and 8, the Company in general meeting may determine to issue further shares of the authorised but unissued capital of the Company and may determine that any shares (whether forming part of the original capital or of any increased capital of the Company) shall be offered to such persons (whether members or holders of debentures of the Company or not) in such proportions and on such terms and conditions and either at a premium or at par or, subject to compliance with the provisions of Section 79 of the Act, at a discount, as such general meeting shall determine and with full power to give to any person (whether a member or holder of debentures of the Company or not) the option to call for or be allotted shares of any class of the Company either at a premium or at par or (subject to compliance with the provisions of Section 79 of the Act) at a discount, such option being exercisable at such times and for such consideration as may be directed by such general meeting, or the Company in general meeting may make any other provision whatsoever for the issue, allotment or disposal of any shares. Subject to any direction given by general meeting as aforesaid the provisions of Article 64 hereof shall apply to any issue of new shares.

Directors may allot shares as fully paid-up

Article 10 provides that Subject to the provisions of the Act and these Articles, the Directors may allot and issue shares in the capital of the Company as payment or part payment for any property sold or transferred, goods or machinery supplied or for services rendered to the Company either in or about the formation or promotion of the Company or the conduct of its business and any shares which may be so allotted may be issued as fully paid or partly paid-up otherwise than in cash, and, if so issued, shall be deemed to be fully paid-up or partly paid-up shares as aforesaid.

Acceptance of shares

Article 12 provides that An application signed by or on behalf of an applicant for shares in the Company, followed by an allotment of any share therein, shall be an acceptance of shares within the meaning of these Articles, and every person who thus or otherwise accepts any shares and whose name is on the Register shall for the purpose of these Articles be a member.

Company not bound to recognize any interest in shares other than that of the registered holders

Article 15 provides that Except as required by law no person shall be recognised by the Company as holding any share upon any trust and the Company shall not be bound by, or be compelled in any way, to

recognise (even when having notice thereof) any equitable, contingent, future, or partial interest in any share or any interest in any fractional part of a share, (or except only as by these Articles or as ordered by a Court of competent jurisdiction or by law otherwise provided) any other rights in respect of any share except an absolute right to the entirety thereof in the registered holder.

Certificate of Shares

Article 17 provides that

- (a) The certificates of title to shares shall be issued under the Seal of the Company which shall be affixed in the presence of and signed by (i) two Directors or persons acting on behalf of the Directors under a duly registered Power of Attorney; and (ii) the Secretary or some other person appointed by the Board for the purpose;

PROVIDED that, if the composition of the Board permits or if, at least one of the aforesaid two Directors shall be a person other than a Managing Director or Whole-time Director or, so long as the Company has Managing Agents, a person other than a Director appointed by the Managing Agents under Article 126 or a Director to whom Article 133 applies.

A Director may sign a share certificate by affixing his signature thereon by means of any machine, equipment or other mechanical means such as engraving in metal or lithography.

PROVIDED ALWAYS that notwithstanding anything contained in this article the certificates of title to shares may be executed and issued in accordance with such other provisions of the Act or the Rules made thereunder, as may be in force for the time being and from time to time.

- (b) Every member shall be entitled without payment to one certificate for all the shares of each class or denomination registered in his name or if the Directors so approve (upon paying such fee or fees or at the discretion of the Directors without payment of fees as the Directors may from time to time determine) to several certificates each for one or more shares of each class. Every certificate of shares shall specify the number and in respect of which it is issued and the amount paid thereon and shall be in such form as the Directors shall prescribe or approve.

Discretion to refuse sub-division or consolidation of certificates

Article 17A provides that Notwithstanding anything contained in Article 17, the Board may in its absolute discretion refuse applications for the sub-division or consolidation of share, debenture or bond certificates in denominations of less than the marketable lot except when sub-division or consolidation is required to be made to comply with a statutory provision or an order of a competent Court of law.

Limitation of time for issue of certificates

Article 18 provides that The Company shall within three months after the allotment of any of its shares or debentures and within two months after the application for the registration of the transfer of any such shares or debentures complete and have ready for delivery the certificates of all shares and debentures allotted or transferred, unless the conditions of issue of the shares or debentures otherwise provided and the Company shall otherwise comply with the requirements of Section 113 and other applicable provisions (if any) of the Act.

As to issue of new certificate in place of one defaced, lost or destroyed

Article 19 provides that If any certificate be worn out, defaced, torn or be otherwise mutilated or rendered useless from any cause whatsoever, or if there be no space on the back thereof for endorsement of transfers, then upon production thereof to the Directors they may order the same to be cancelled and may issue a new certificate in lieu thereof, and if any certificate be lost or destroyed, then upon proof thereof to the satisfaction of the Directors and on such indemnity as the Directors deem adequate being given, a new

certificate in lieu thereof shall be given to the party entitled to such lost or destroyed certificate on payment, if any, of such sum not exceeding Re.1/- as the Directors may in their discretion determine. The Directors may in their discretion waive payment of such fee in the case of any certificate or certificates.

TRANSFER AND TRANSMISSION OF SHARES

Register of Transfer

Article 43 provides that The Company shall keep a book to be called the Register of Transfers and therein shall be fairly distinctly entered the particulars of every transfer or transmission of any share.

Application for Transfer

Article 45 provides that

- (1) An application for the registration of a transfer of the shares in the Company may be made either by the transferor or the transferee.
- (2) Where the application is made by the transferor and relates to partly paid shares, the transfer shall not be registered unless the Company gives notice of the application to the transferee and the transferee makes no objection to the transfer within two weeks from the receipt of the notice.
- (3) For the purposes of clause (2) above notice to the transferee shall be deemed to have been duly given if it is despatched by prepaid registered post to the transferee at the address given in the instrument of transfer and shall be deemed to have been duly delivered at the time at which it would have been delivered in the ordinary course of post.

Directors may refuse to register transfer

Article 48 provides that Subject to the provisions of Section 111 of the Act, or any statutory modification thereof for the time being in force, the Directors may, at their absolute and uncontrolled discretion decline to register or acknowledge any transfer of shares and shall not be bound to give any reason for such refusal and in particular may so decline in respect of shares upon which the Company has a lien or whilst any moneys in respect of the shares desired to be transferred or any of them remain unpaid or unless the transferee is approved by the Directors and such refusal shall not be affected by the fact that the proposed transferee is already a member. The registration of a transfer shall be conclusive evidence of the approval by the Directors of the transferee.

Registration persons entitled to shares otherwise than by transfer (Transmission Clause)

Article 54 provides that Subject to the provisions of the Act and these Articles, any person becoming entitled to any share in consequence of the death, lunacy, bankruptcy or insolvency of any member or by any lawful means other than by transfer in accordance with these presents, may, with the consent of the Directors (which they shall not be under any obligation to give) upon producing such evidence that he sustains the character in respect of which he proposes to act under this Article or of his title as the Directors shall require either be registered as a member in respect of such shares or elect to have some person nominated by him and approved by the Directors registered as a member in respect of such shares; Provided nevertheless that if such person shall elect to have his nominee registered he shall testify his election by executing in favour of his nominee an instrument of transfer in accordance with the provisions herein contained and until he does so he shall not be freed from any liability in respect of such shares. This Clause is herein referred to as the Transmission Clause.

Conversion of shares into stock and reconversion

Article 59 provides that The Company may, by ordinary resolution of the Company in General Meeting:-

- (a) convert any paid-up shares into stock; and

Table of Contents

- (b) convert any stock into paid-up shares of any denomination.

Increase of Capital

Article 63 provides that

- (a) The Company may from time to time in General Meeting increase its share capital by the issue of new shares of such amount as it thinks expedient.
- (b) Subject to the provisions of the Act, the new shares shall be issued upon such terms and conditions and with such rights and privileges annexed thereto as by the General Meeting creating the same shall be directed and if no direction be given as the Directors shall determine; and in particular such shares may be issued with a preferential or qualified right to dividends and in distribution of assets of the Company and any Preference shares may be issued on the terms that they are or at the option of the Company are to be liable to be redeemed.

Rights of ordinary shareholders to further issue of capital

Article 64 provides that Where it is proposed to increase the subscribed capital of the Company by allotment of further shares, then such further shares shall be offered to the persons who, at the date of the offer, are holders of the ordinary shares of the Company, in proportion, as nearly as circumstances admit, to the capital paid up on those shares at that date in accordance with the provisions of Section 81 of the Act. Provided that notwithstanding anything hereinbefore contained, the further shares aforesaid may be offered to any persons, whether or not those persons include the persons who, at the date of the offer, are holders of the ordinary shares of the Company in any manner whatsoever:

- (a) If a Special Resolution to that effect is passed by the Company in General Meeting, or
- (b) Where no such Special Resolution is passed, if the votes cast (whether on a show of hands or on a poll as the case may be), in favour of the proposal contained in the Resolution moved in that General Meeting (including the casting vote, if any, of the Chairman) by members who, being entitled so to do, vote in person, or where proxies are allowed, by proxy, exceed the votes, if any, cast against the proposal by members so entitled and voting and the Central Government is satisfied on an application made by the Board of Directors in that behalf, that the proposal is most beneficial to the Company.

Same as original capital

Article 65 provides that Except so far as otherwise provided by the conditions of issue or by these presents any capital raised by the creation of new shares shall be considered part of the original ordinary capital and shall be subject to the provisions herein contained with reference to the payment of calls and instalments, transfer and transmission, forfeiture, lien, surrender, voting and otherwise.

Restrictions on purchase by Company of its own shares

Article 66 provides that

1. The Company shall not have the power to buy its own shares unless the consequent reduction of capital is effected and sanctioned in pursuance of Article 68 or in pursuance of Sections 100 to 104 or Section 402 or other applicable provisions (if any) of the Act.
2. Except to the extent permitted by Section 77 or other applicable provisions (if any) of the Act the Company shall not give whether directly or indirectly and whether by means of a loan, guarantee, the provision of security or otherwise any financial assistance for the purpose, of or in connection with the purchase or subscription made or to be made by any person of or for any shares in the Company.

Table of Contents

3. Nothing in this Article shall affect the right of the Company to redeem any redeemable Preference shares issued under Article 63 or under Section 80 or other relevant provisions (if any) of the Act or of any previous Companies Law.

Buy-Back of Shares

Article 66A provides that Notwithstanding anything contained in these Articles, in the event it is permitted by law for a company to purchase its own shares or securities, the Board of Directors may, when and if thought fit, buy back such of the Company's own shares or securities as it may think necessary, subject to such limits, upon such terms and conditions, and subject to such approvals, as may be permitted by law.

Provisions in case of redeemable Preference shares

Article 67 provides that On the issue of redeemable Preferences shares under the provisions of Article 63 the following provisions shall take effect :-

- (a) No such shares shall be redeemed except out of the profits of the Company which would otherwise be available for dividend or out of the proceeds of a fresh issue of shares made for the purposes of the redemption;
- (b) No such shares shall be redeemed unless they are fully paid;
- (c) The premium, if any, payable on redemption shall be provided for out of the profits of the Company or out of the Company's share premium account, before the shares are redeemed;
- (d) Where any such shares are redeemed otherwise than out of the proceeds of a fresh issue, there shall, out of profits which would otherwise have been available for dividend be transferred to a Reserve Account to be called "The Capital Redemption Reserve Account", a sum equal to the nominal amount of the shares redeemed and the provisions of the Act relating to the reduction of the share capital of a Company shall except as provided under Section 80 of the Act or herein apply as if the Capital Redemption Reserve Account were paid up share Capital of the Company;
- (e) Subject to the provisions of Section 80 of the Act and this Article the redemption of Preferences shares hereunder may be effected in accordance with the terms and conditions of their issue and failing that in such manner as the Directors may think fit.

Provisions in case of A Ordinary Shares

Article 67A provides that Notwithstanding anything contained in these presents, the rights, powers and preferences relating to A Ordinary Shares and the qualifications, limitations and restrictions thereof are as follows:

- (a) (i) The holders of A Ordinary Shares shall be entitled to such rights of voting and/or dividend and such other rights as per the terms of the issue of such shares, provided always that:

in the case where a resolution is put to vote on a poll, such voting entitlement (excluding fractions, if any) will be applicable to holders of A Ordinary Shares.

in the case where a resolution is put to vote in the meeting and is to be decided on a show of hands, the holders of A Ordinary Shares shall be entitled to the same number of votes as available to holders of Ordinary Shares in accordance with Article 111(1).

Table of Contents

- (ii) The holders of Ordinary Shares and the holders of A Ordinary Shares shall vote as a single class with respect to all matters submitted to a vote of shareholders of the Company and shall exercise such votes in proportion to the voting rights attached to such Shares including in relation to any scheme under Sections 391 to 394 of the Act.

- (b) The holders of A Ordinary Shares shall be entitled to dividend on each A Ordinary Share which may be equal to or higher than the amount per Ordinary Share declared by the Board for each Ordinary Share, and as may be specified at the time of the issue. Different series of A Ordinary Shares may carry different entitlements to dividend to the extent permitted under applicable law and as prescribed under the terms applicable to such issue.

- (c) (i) Where the Company proposes to make a rights issue of Ordinary Shares or any other securities convertible into Ordinary Shares, the Company shall simultaneously make an offer to the holders of A Ordinary Shares in the same proportion of A Ordinary Shares to Ordinary Shares prior to the issue. The holders of A Ordinary Shares shall receive further A Ordinary Shares whereas holders of Ordinary Shares shall receive further Ordinary Shares.

- (ii) Where the Company proposes to make a bonus issue of Ordinary Shares, the holders of A Ordinary Shares shall, subject to the terms of such issue, receive further A Ordinary Shares whereas the holders of Ordinary Shares shall receive further Ordinary Shares to the end and intent that the proportion of Ordinary Shares to A Ordinary Shares after such offer, shall, as far as possible remain unaffected.

- (d) The A Ordinary Shares issued in accordance with these presents will not be convertible into Ordinary Shares at any time.

- (e) In the event of any scheme, arrangement or amalgamation in accordance with the Act, and subject to other approvals and other applicable laws and these presents for amalgamation of the Company with or into any other entity and which results in a share swap or exchange, the holders of the A Ordinary Shares shall receive allotment as per the terms of the scheme and as far as possible, unless specified to the Company in such scheme, the said holders shall receive Ordinary Shares with differential rights to voting or dividend of such entity.

- (f) (i) Where an offer is made to purchase the outstanding Ordinary Shares or voting rights or equity capital or share capital or voting capital of the Company in accordance with the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 1997 and other applicable laws, the applicability of such regulation on A Ordinary Shares will result in an offer also being made to purchase A Ordinary Shares in the same proportion as the offer to purchase Ordinary Shares.
 Illustration: In accordance with the said Regulations where an offer is made to purchase twenty (20) percent of the outstanding Ordinary Shares or voting rights or equity capital or share capital or voting capital of the Company, such offer shall be deemed to include an offer for twenty (20) percent of the outstanding Ordinary Shares and also an offer for twenty (20) percent of the outstanding A Ordinary Shares.

- (ii) The pricing guidelines and other provisions as specified in the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 1997 shall mutatis mutandis apply to an offer for A Ordinary Shares and the percentage premium offered for the A Ordinary Shares to its floor price shall be equal to the percentage premium offered for the Ordinary Shares to its floor price. All consideration to be received by holders of A Ordinary Shares in accordance with any offer as stated in sub-clause (i) above shall be paid in the same form and at the same time as that received by holders of Ordinary Shares. Explanation: For the purposes of the said Regulations, the terms shares , voting rights , equity capital , share capital or voting capital shall mean and include Ordinary Shares and A Ordin Shares as the case may be.

Table of Contents

- (g) Where the promoter (as provided in the last quarterly filing with the stock exchanges prior to making the offer) or any other acquirer proposes at any time to voluntarily delist the Ordinary Shares of the Company in accordance with the SEBI (Delisting of Securities) Guidelines, 2003 from the stock exchanges on which such Ordinary Shares are listed, such promoter or acquirer shall also make a delisting offer for the A Ordinary Shares and the percentage premium offered for the A Ordinary Shares to its floor price shall be equal to the percentage premium offered for the Ordinary Shares to its floor price.
- (h) Subject to Article 66, Article 66A and Article 68, the Company when exercising its power under these presents to buyback the Ordinary Shares of the Company, will offer to buyback A Ordinary Shares in the same proportion and on equitable pricing terms as offered to the holders of Ordinary Shares, in accordance with applicable laws including the SEBI (Buy-Back of Securities) Regulations, 1998.
- (i) (i) Any alteration proposed by the Company to this Article 67A which affects the rights pertaining to the A Ordinary Shares is required to be approved by not less than three-fourths of the holders of the outstanding A Ordinary Shares present and voting.
- (ii) For the purposes of (i) above, the Company will call a separate meeting of holders of A Ordinary Shares.

Reduction of Capital

Article 68 provides that The Company may from time to time by Special Resolution reduce its share capital in any way authorised by law and in particular may pay off any paid up share capital upon the footing that it may be called up again or otherwise and may if and so far as is necessary alter its Memorandum by reducing the amount of its share capital and of its shares accordingly.
