ANNUAL REPORT

AUGUST 31, 2008

THE HIGH YIELD INCOME FUND, INC.

This report is for stockholder information. This is not a prospectus intended for use in the purchase or sale of fund shares.

The views expressed in this report and information about the Fund's holdings are for the period covered by this report and are subject to change thereafter.

Your Fund's Performance

Fund objectives

The primary investment objective of **The High Yield Income Fund, Inc.** is to maximize current income to shareholders. As a secondary investment objective, the Fund will seek capital appreciation, but only when consistent with its primary objective. The Fund will seek to achieve its objectives by investing primarily in corporate bonds rated below investment grade by independent rating agencies. Bonds rated below investment grade are commonly known as "junk" bonds and are subject to greater risk of default and higher volatility than investment grade bonds. Furthermore, these bonds tend to be less liquid than higher-quality bonds. The Fund is diversified, and we carefully research companies to find those with attractive yields and improving credit quality. There can be no assurance that the Fund will achieve its investment objectives.

Performance as of 8/31/08

	Total Return 12 Months	NAV 8/31/08	Market Price 8/31/08
The High Yield Income Fund ¹	1.50%	\$ 4.93	\$ 4.31

Past performance does not guarantee future results and current performance may be lower or higher than the past performance data quoted. The investment return and principal value will fluctuate, and shares, when sold, may be worth more or less than the original cost. For the most recent month-end performance, call (800) 451-6788. There are no sales charges.

¹Source: Prudential Investments LLC. Total return of the Fund represents the change in net asset value from the beginning of the period (9/1/07) through the end (8/31/08) and assumes the reinvestment of dividends and distributions. Shares of the Fund are traded on the New York Stock Exchange, Inc. using the symbol HYI. Past performance is not indicative of future results.

²Source: Lehman Brothers. The Lehman Brothers U.S. Corporate High Yield 1% Issuer Capped Index (1% Issuer Capped Index) covers the universe of U.S. dollar denominated, non-convertible, fixed rate, noninvestment grade debt. Issuers are capped at 1% of the Index. Index holdings must have at least one year to final maturity, at least \$150 million par amount outstanding, and be publicly issued with a rating of Ba1 or lower. Index returns do not include the effect of any sales charges, mutual fund operating expenses or taxes.

³Source: Lehman Brothers. The Lehman Brothers U.S. Corporate High Yield 2% Issuer Capped Index (the Prior Index) is an unmanaged index of fixed-rate, noninvestment grade debt securities with at least one year remaining to maturity. However, the representation of any single bond issuer is restricted to a maximum of 2% of the total index.

⁴Source: Lipper Inc. These are the average returns of 31 funds in the Closed-End High Current Yield Funds (Leveraged) category for 12 months.

Yield at Market Price⁵
10.61%

⁵Yield at market price is determined by dividing total monthly dividends paid per share during the 12 months ended August 31, 2008 by the market price per share as of August 31, 2008.

Strategy and Performance Overview

How did the Fund perform?

The Fund returned 1.50% for its 12-month reporting period ended August 31, 2008, outperforming the 0.44% decline of the Lehman Brothers U.S. Corporate High Yield 1% Issuer Capped Index (the Index) and significantly beating the 14.03% decline of the Lipper Closed-End High Current Yield Funds (Leveraged) Average.

What were conditions like in the U.S. high yield market?

Early in the reporting period, the Federal Reserve (the Fed) tried to prevent a rising tide of delinquencies and foreclosures on subprime mortgages from engulfing the broader U.S. economy. The Fed cut its target for the federal funds rate charged on overnight loans between banks to 4.75% from 5.25% in September 2007. It hoped that lower borrowing costs would encourage companies to continue expanding their businesses and consumers to spend freely for goods and services. Initially, the rate cut buoyed financial markets, and high yield bond prices gained in September and October 2007, only to turn sharply lower as the reporting period continued.

It became increasingly clear that more aggressive, inventive measures were needed to support the economy and ease stresses in the credit markets. Wall Street investment banks and commercial banks were forced to write down billions of dollars of debt securities linked to the risky mortgages. Commercial banks grew reluctant to lend money to each other, businesses, and consumers. The U.S. economy shed thousands of jobs, housing prices continued to fall, and the inventory of houses for sale climbed.

A concerned Fed acted decisively. It repeatedly eased monetary policy, pushing down its target for the federal funds rate to 2.00%. In addition, the Fed allowed Wall Street investment banks to borrow money from its discount window on much the same terms as commercial banks. It also helped facilitate JP Morgan Chase & Co.'s hurried acquisition of Bear Stearns Cos. at a deep discount before the latter slid into bankruptcy. The Fed's decision to help initially cheered financial markets, helping high yield bond prices soar in April 2008. But the downturn in the high yield market soon resumed.

As the credit crisis worsened, investors grew more risk averse. Many continued to seek safe haven in U.S. Treasury securities, which are rated AAA because the federal government backs their interest and principal. Meanwhile, prices of riskier assets, including high yield bonds, repeatedly came under pressure, causing their yields to climb, as yields rise when bond prices fall. Consequently, the difference between yields on high yield bonds and 10-year U.S. Treasury notes ballooned, indicating that investors required significantly more compensation to invest in bonds rated below investment grade. Defaults on high yield bonds also edged higher as more companies failed to pay interest and/or principal on their debt securities.

Strategy and Performance Overview (continued)

Within the high yield market, the performance was mixed for the 12-month reporting period. The positive total return posted by bonds in the Ba rating category was wiped out by the sharp declines posted by bonds in the lower rating categories. Some market sectors such as healthcare, pharmaceuticals, telecommunications, and aerospace/defense finished in positive territory. In contrast, the airlines and automotive sectors, hard hit by soaring energy prices, as well as the building materials and financial institutions sectors, which were deeply affected by the credit crisis, ended the period with double-digit losses.

How was the Fund positioned during the reporting period?

Under the difficult market conditions, the Fund continued to favor shorter-term investments, whether high yield bonds or leveraged bank loans. The latter are loans made to below-investment-grade companies that have borrowed heavily to finance their businesses. Of the two, leveraged bank loans are the more conservative because, in most cases, they get paid off before high yield bonds when a company declares bankruptcy.

Commercial banks sell leveraged loans to mutual funds and other institutional investors to remove them from their balance sheets, thereby reducing the risk associated with lending. Wall Street firms also set up legal entities that purchase groups of loans and package them as collateralized loan obligations (CLOs) that are sold to institutional investors. Because there was a large amount of bank loans available and few newly issued CLOs, the Fund was able to increase its holdings of leveraged bank loans on very attractive terms.

The Fund also benefited from Prudential Fixed Income Management's sector allocation strategy that favored so-called defensive industries, that is those that tend to hold up well even when the broader economy weakens in the United States. Most notably, the Fund had a substantially larger exposure than the Index to the healthcare sector, which performed well. At the same time, the Fund had significantly smaller positions than the Index in the troubled automotive, building materials, and financial institutions sectors. Thus, the sector allocation strategy helped the Fund outperform the Index for the reporting period.

What were some of the key holdings that aided the Fund's return?

Two of the Fund's positions in the healthcare sector—Accellent, Inc. and HCA, Inc.—made the largest positive contribution to its return. Accellent provides design, engineering, and manufacturing services to companies that produce medical devices. HCA, a provider of healthcare services in the United States and England, owns more than 160 hospitals and more than 100 outpatient centers.

In the difficult investment environment, avoiding companies that defaulted on their bonds was just as important as selecting bonds of companies that performed well. For example, the Fund did not own bonds of SemGroup LP, an oil company included in the Index. SemGroup filed to reorganize under Chapter 11 of the U.S. Bankruptcy Code and defaulted on its bonds. Avoiding these debt securities helped the Fund outperform the Index.

What were some of the key holdings that hurt the Fund's return?

The Fund had a limited exposure to bonds that were pressured most by the malaise in the housing market. Yet it continued to have a larger exposure than the Index to debt securities of Realogy Corp., a real estate management and services firm based in New Jersey. Realogy bonds were one of the largest detractors from the Fund's return, but the Fund continues to hold them because Prudential Fixed Income Management still believes Realogy will gain market share as weaker competitors go out of business.

The Fund also owned bonds of Hawaiian Telecom Communications that tumbled in value, detracting from its return. The company suffered lingering systems problems that have weakened its competitive potential in the longer term.

How did Prudential Fixed Income Management employ leverage in the Fund?

Leverage refers to the practice of taking out a loan against a percentage of a portfolio's assets and investing the money back into the high yield market. It can materially enhance a portfolio's return when the underlying bonds gain in value, or it can detract from a portfolio's return when the underlying bonds decline in value.

Shortly before the reporting period began, Prudential Fixed Income Management reduced the amount of leverage employed by the Fund because it believed valuations of high yield bonds did not accurately reflect the degree of risk in the market. However, the Fund increased borrowing during the reporting period to selectively take advantage of attractive investment opportunities created by the sell-off in the high yield market.

What is Prudential Fixed Income Management's outlook for the market?

Prudential Fixed Income Management maintains its cautious outlook for the U.S. high yield bond and leveraged bank loan markets, given that weak economic conditions are having a negative impact on companies that borrow heavily to finance their businesses. As previously mentioned, defaults on high yield bonds have already begun to edge higher. Prudential Fixed Income Management expects the default rate to rise by the end of 2008 to nearly 4.00%, its long-term average.

Strategy and Performance Overview (continued)

The high yield market is also expected to remain volatile well into 2009. That said, Prudential Fixed Income Management believes the downturn in the high yield market continues to create attractive investment opportunities. Even relatively minor disappointments in earnings have caused sharp sell-offs in the high yield bonds and bank loans of some generally solid companies. The Fund's portfolio managers and credit research analysts are working diligently to identify high yield bonds and bank loans that have become oversold and therefore represent good value.

144A Security was purchased pursuant to Rule 144A under the Securities Act of 1933 and may not be resold subject to that rule except to qualified institution buyers. Unless otherwise noted, 144A securities are deemed to be liquid.

- (a) Represents issuer in default on interest payment; non-income producing security.
- (b) Non-income producing security.
- (c) US\$ denominated foreign securities.
- (d) Standard & Poor's Rating.
- (e) As of August 31, 2008, two securities representing \$76 and 0.0% of net assets were fair valued in accordance with the policies adopted by the Board of Directors.
- (f) Indicates a security that has been deemed illiquid.
- (g) Indicates a restricted security; the aggregate original cost of such securities is \$716,884. The aggregate value of \$571,663 is approximately 1.0% of net assets.
- (h) Indicates a variable rate security. The interest rate shown reflects the rate in effect at August 31, 2008.
- (i) Represents zero coupon or step bond. Rate shown reflects the effective yield at the time of purchase.

The High Yield Income Fund, Inc. 27

Notes to Financial Statements

The High Yield Income Fund, Inc. (the Fund) was organized in Maryland on August 21, 1987 as a diversified, closed-end management investment company. The Fund's primary investment objective is to maximize current income to shareholders through investment in a diversified portfolio of high-yield, fixed-income securities rated in the medium to lower categories by recognized rating services, or non-rated securities of comparable quality. As a secondary investment objective, the Fund will seek capital appreciation, but only when consistent with its primary objective. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic or political developments in a specific industry or region.

Note 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Securities Valuation: Securities for which market quotations are readily available including securities listed on national securities exchanges and those traded over-the-counter are valued at the last quoted sales price on the valuation date on which the security is traded. If such securities were not traded on the valuation date, but market quotations are readily available, they are valued at the most recently quoted bid price provided by an independent pricing service or by a principal market maker. Securities for which market quotations are not readily available or for which the pricing agent or market maker does not provide a valuation or methodology, or provides a valuation or methodology that, in the judgment of the adviser, does not represent fair value, are valued by a Valuation Committee appointed by the Board of Directors, in consultation with the adviser. When determining the fair valuation of securities some of the factors influencing the valuation include, the nature of any restrictions on disposition of the securities; assessment of the general liquidity of the securities; the issuer's financial condition and the markets in which it does business; the cost of the investment; the size of the holding and the capitalization of issuer; the prices of any recent transactions or bids/offers for such securities or any comparable securities; any available analyst media or other reports or information deemed reliable by the investment adviser regarding the issuer or the markets or industry in which it operates. Using fair value to price securities may result in a value that is different from a security's most recent closing price and from the price used by other mutual funds to calculate their net asset values.

Short-term debt securities, which mature in sixty days or less, are valued at amortized cost, which approximates market value. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of the difference between the principal amount due at maturity and cost. Short-term debt securities, which mature in more than sixty days, are valued at current market quotations.

In connection with transactions in repurchase agreements with U.S. financial institutions, it is the Fund's policy that its custodian or designated subcustodians, as the case may be under tri-party repurchase agreements, take possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction including accrued interest. If the seller defaults and the value of the collateral declines, or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited. The Fund's custodian will maintain, in a segregated account of the Fund, cash, U.S. Government securities, equity securities or other liquid, unencumbered assets marked to market daily, having a value equal to or greater than the Fund's purchase commitments with respect to certain investments.

Restricted Securities: The Fund may invest up to 20% of its total assets in securities, which are not readily marketable, including those which are restricted as to disposition under securities law (restricted securities).

Cash Flow Information: The Fund invests in securities and distributes dividends from net investment income, which are paid in cash or are reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows.

Accounting practices that do not affect reporting activities on a cash basis include carrying investments at value, accruing income on PIK (payment-in-kind) securities and accreting discounts and amortizing premiums on debt obligations.

Foreign Currency Translation: The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities at the current rates of exchange.

- (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Notes to Financial Statements

continued

The Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at the end of the period. Similarly, the Fund does not isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of long-term debt securities sold during the period. Accordingly, such realized foreign currency gains or losses are included in the reported net realized gains or losses on investment transactions.

Net realized gains or losses on foreign currency transactions represent net foreign exchange gains or losses from sales and maturities of short-term securities and forward currency contracts, disposition of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of interest, discount and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net currency gains or losses resulting from the valuing of foreign currency denominated assets (excluding investments) and liabilities at period-end exchange rates are reflected as a component of net unrealized appreciation or depreciation on investments and foreign currencies.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. companies as a result of, among other factors, the possibility of political or economic instability and the level of governmental supervision and regulation of foreign securities markets.

Security Transactions and Investment Income: Security transactions are recorded on the trade date. Realized and unrealized gains or losses from securities transactions are calculated on the identified cost basis. Interest income, which is comprised of stated coupon rate, original issue discount, market discount and premium, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The Fund amortizes premium and accretes discounts on debt securities as adjustments to interest income. Expenses are recorded on the accrual basis.

Taxes: For federal income tax purposes, it is the Fund's policy to continue to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable net income and capital gains, if any, to its shareholders. Therefore, no federal income tax provision is required.

Withholding taxes on foreign dividends are recorded net of reclaimable amounts at the time the related income is earned.

Dividends and Distributions: The Fund expects to pay dividends of net investment income monthly and make distributions of net realized capital and currency gains, if any, annually. Dividends and distributions to shareholders, which are determined in accordance with federal income tax regulations and which may differ from generally accepted accounting principles, are recorded on the ex-dividend date. Permanent book/tax differences relating to income and gains are reclassified amongst undistributed net investment income, accumulated net realized gain or loss and paid-in capital in excess of par, as appropriate.

Estimates: The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Note 2. Agreements

The Fund has a management agreement with Prudential Investments LLC (PI). Pursuant to this agreement, PI has responsibility for all investment advisory services and supervises the subadviser s performance of such services. PI has entered into a subadvisory agreement with Prudential Investment Management, Inc. (PIM). PIM furnishes investment advisory services in connection with the management of the Fund. PI pays for the services of PIM, the compensation of officers and employees of the Fund, occupancy and certain clerical and bookkeeping costs of the Fund. The Fund bears all other costs and expenses.

The management fee paid to PI is computed weekly and payable monthly, at an annual rate of .70 of 1% of the average weekly net assets of the Fund.

PI and PIM are indirect, wholly-owned subsidiaries of Prudential Financial, Inc. (Prudential).

Note 3. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the year ended August 31, 2008, aggregated \$64,136,419 and \$62,044,841, respectively.

Notes to Financial Statements

continued

Note 4. Distributions and Tax Information

In order to present undistributed net investment income, accumulated net realized loss on investments and foreign currency transactions and paid-in capital in excess of par on the Statement of Assets and Liabilities that more closely represent their tax character, certain adjustments have been made to undistributed net investment income, accumulated net realized loss on investments and foreign currency transactions and paid-in capital in excess of par. For the year ended August 31, 2008, the adjustments were to increase undistributed net investment income by \$211,217, decrease accumulated net realized loss on investments and foreign currency transactions by \$3,038,023 and decrease paid-in capital in excess of par by \$3,249,240 primarily due to the difference in the treatment of accreting market discount and premium amortization between financial and tax reporting, paydown gains (losses) and expiration of capital loss carryforwards. Net investment income, net realized loss on investments and net assets were not affected by this change.

For the years ended August 31, 2008 and August 31, 2007, the tax character of total dividends paid, as reflected on the Statement of Changes in Net Assets, of \$5,307,215 and \$5,162,210, respectively, was from ordinary income.

As of August 31, 2008, the distributable earnings on a tax basis were \$626,829 (includes a timing difference of \$17,590 for dividends payable) of ordinary income.

The United States federal income tax basis of the Fund's investments and the net unrealized depreciation as of August 31, 2008, were as follows:

Tax Basis of Investments	Appreciation	Depreciation	Net Unrealized Depreciation
\$85,299,199	\$526,228	\$(6,571,439)	\$(6,045,211)

The difference between book basis and tax basis was attributed to deferred losses on wash sales and differences in the treatment of accreting market discount and premium amortization for book and tax purposes.

The adjusted net unrealized depreciation on a tax basis was \$6,044,712, which includes other cost basis adjustments of \$499 due to appreciation of foreign currencies.

For federal income tax purposes, the Fund had a capital loss carryforward as of August 31, 2008 of approximately \$19,388,700 of which \$5,010,500 expires in 2009, \$6,960,200 expires in 2010, \$7,076,300 expires in 2011, \$282,300 expires in 2014 and \$59,400 expires in 2016. Accordingly, no capital gains distribution is expected to be paid to shareholders until net realized gains have been realized in excess of such amounts. It is unlikely the Fund will be able to realize the full benefit of the remaining carryforwards prior to the expiration date. Approximately \$3,249,200 of its capital loss carryforward expired unused in the fiscal year ended August 31, 2008. The Fund elected to treat post-October capital losses of approximately \$1,344,400 as having been incurred in the following fiscal year (August 31, 2009).

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years and has concluded that as of August 31, 2008, no provision for income tax would be required in the Fund's financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Note 5. Borrowings

The Fund has a credit agreement with State Street Bank & Trust Co. The maximum commitment under this agreement is \$30,000,000. Interest on any such borrowings outstanding fluctuates daily at .50 of 1% over the Federal Funds rate and is payable monthly. The Fund may utilize these borrowings (leverage) in order to increase the potential for gain on amounts invested. There can be no guarantee that these gains will be realized. There are increased risks associated with the use of leverage. The expiration of the credit agreement was June 2, 2008, which was subsequently extended thru June 29, 2008. Effective June 30, 2008, the Fund renewed the credit agreement with State Street Bank & Trust Co. The maximum commitment under this renewed agreement is \$30,000,000. Interest on any such borrowings outstanding fluctuates daily at .85 of 1% over the Federal Funds rate and is payable monthly. The expiration of the renewed credit agreement is June 29, 2009. The average daily balance outstanding during the year ended August 31, 2008, was \$22,695,355 at a weighted average interest rate of 3.83%. The maximum face amount of borrowings outstanding at any month-end during the year ended August 31, 2008 was \$26,000,000.

The Fund pays commitment fees at an annual rate of .08 of 1% on any unused portion of the credit agreement. The commitment fee is accrued daily and paid quarterly. Effective June 30, 2008, as part of the renewed the credit agreement with

Notes to Financial Statements

continued

State Street Bank & Trust Co., the Fund pays commitment fees at an annual rate of .15 of 1% of the maximum commitment under the credit agreement, regardless of usage. Commitment fees are included in `Loan interest expense` as reported on the Statement of Operations.

Note 6. Capital

There are 200 million shares of \$.01 par value common stock authorized. Prudential owned 11,000 shares of common stock as of August 31, 2008.

During the years ended August 31, 2008 and August 31, 2007 the Fund did not issue shares in connection with the reinvestment of dividends.

Note 7. Subsequent Events

On September 2, 2008 and October 1, 2008 the Board of Directors of the Fund declared dividends of \$.040 per share payable on September 30, 2008 and October 31, 2008, respectively, to shareholders of record on September 15, 2008 and October 15, 2008, respectively.

Note 8. New Accounting Pronouncements

On September 20, 2006, the Financial Accounting Standards Board (FASB) released Statement of Financial Accounting Standards No. 157 Fair Value Measurements (FAS 157). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair-value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 157 and its impact, if any, in the financial statements has not yet been determined.

In March 2008, the FASB released Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities (FAS 161). FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is required for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 161 and its impact on the financial statements has not yet been determined.

The Board of Directors and Shareholders of

The High Yield Income Fund, Inc.:

We have audited the accompanying statement of assets and liabilities of The High Yield Income Fund, Inc. (hereafter referred to as the Fund), including the portfolio of investments, as of August 31, 2008, and the related statement of operations and cash flows for the year then ended, the statement of changes in net assets for each of the years in the two-year period then ended and the financial highlights for each of the years in the five-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of securities owned as of August 31, 2008, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the The High Yield Income Fund, Inc. as of August 31, 2008, and the results of its operations and cash flows for the year then ended, the changes in its net assets for each of the years in the two-year period then ended and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

New York, New York

October 27, 2008

Tax Information

(Unaudited)

We are required by the Internal Revenue Code to advise you within 60 days of the Fund's fiscal year end (August 31, 2008) as to the federal tax status of dividends paid by the Fund during such fiscal year.

During the fiscal year ended August 31, 2008, the Fund paid dividends of \$0.458 per share which is taxable as ordinary income.

The Fund designates 100% of the ordinary income dividends as interest related dividends under The American Jobs Creation Act of 2004.

For the purpose of preparing your 2008 annual federal income tax return, however, you should report the amounts as reflected on the appropriate Form 1099-DIV or substitute 1099-DIV which will be mailed to you in January 2009.

MANAGEMENT OF THE FUND

(Unaudited)

Information about Fund Directors/Trustees (referred to herein as Board Members) and Fund Officers is set forth below. Board Members who are not deemed to be interested persons, as defined in the 1940 Act, are referred to as Independent Board Members. Board Members who are deemed to be interested persons are referred to as Interested Board Members. The Board Members are responsible for the overall supervision of the operations of the Fund and perform the various duties imposed on the directors or trustees of investment companies by the 1940 Act.

Independent Board Members

Deborah A. Docs, 1997; Jonathan D. Shain, 2004; Andrew R. French, 2006; Timothy J. Knierim, 2007; Valerie M. Simpson, 2007; Theresa Thompson, 2008; Grace C. Torres, 1997; M. Sadiq Peshimam, 2006; Peter Parrella, 2007.

Explanatory Notes

Board Members are deemed to be Interested, as defined in the 1940 Act, by reason of their affiliation with Prudential Investments LLC and/or an affiliate of Prudential Investments LLC.

Unless otherwise noted, the address of all Board Members and Officers is c/o Prudential Investments LLC, Gateway Center Three, 100 Mulberry Street, Newark, New Jersey 07102.

There is no set term of office for Board Members or Officers. The Board Members have adopted a retirement policy, which calls for the retirement of Board Members on December 31st of the year in which they reach the age of 75.

Other Directorships Held includes only directorships of companies required to register or file reports with the SEC under the Securities Exchange Act of 1934 (that is, "public companies") or other investment companies registered under the 1940 Act.

Portfolios Overseen includes all investment companies managed by Prudential Investments LLC. The investment companies for which PI serves as manager include the JennisonDryden Funds, Strategic Partners Funds, The Prudential Variable Contract Accounts, The Target Portfolio Trust, The Prudential Series Fund, The High Yield Income Fund, Inc., The High Yield Plus Fund, Inc., Nicholas-Applegate Fund, Inc., Prudential's Gibraltar Fund, Inc. and the Advanced Series Trust.

Approval of Advisory Agreements

The Board of Directors (the Board) of The High Yield Income Fund, Inc. (the Fund) oversees the management of the Fund, and, as required by law, determines annually whether to renew the Fund's management agreement with Prudential Investments LLC (PI) and the Fund's subadvisory agreement with Prudential Investment Management, Inc. (PIM). In considering the renewal of the agreements, the Board, including all of the Independent Directors, met on June 3-5, 2008 and approved the renewal of the agreements through July 31, 2009, after concluding that renewal of the agreements was in the best interests of the Fund and its shareholders.

In advance of the meetings, the Board received materials relating to the agreements, and had the opportunity to ask questions and request further information in connection with their consideration. Among other things, the Board considered comparisons with other mutual funds in relevant Peer Universes and Peer Groups. The mutual funds included in each Peer Universe or Peer Group were objectively determined solely by Lipper Inc., an independent provider of mutual fund data. The comparisons placed the Fund in various quartiles over one-, three-, five- and ten-year periods ending December 31, 2007, with the first quartile being the best 25% of the mutual funds (for performance, the best performing mutual funds and, for expenses, the lowest cost mutual funds).

In approving the agreements, the Board, including the Independent Directors advised by independent legal counsel, considered the factors they deemed relevant, including the nature, quality and extent of services provided, the performance of the Fund, the profitability of PI and its affiliates, expenses and fees, and the potential for economies of scale that may be shared with the Fund and its shareholders. In their deliberations, the Directors did not identify any single factor which alone was responsible for the Board's decision to approve the agreements with respect to the Fund. In connection with their deliberations, the Board considered information provided by PI throughout the year at regular Board meetings, presentations from portfolio managers and other information, as well as information furnished at or in advance of the meetings on June 3-5, 2008.

The Directors determined that the overall arrangements between the Fund and PI, which serves as the Fund's investment manager pursuant to a management agreement, and between PI and PIM, which serves as the Fund's subadviser pursuant to the terms of a subadvisory agreement with PI, are fair and reasonable in light of the services performed, fees charged and such other matters as the Directors considered relevant in the exercise of their business judgment.

The High Yield Income Fund, Inc.

Approval of Advisory Agreements (continued)

The material factors and conclusions that formed the basis for the Directors' reaching their determinations to approve the continuance of the agreements are separately discussed below.

Nature, Quality and Extent of Services

The Board received and considered information regarding the nature and extent of services provided to the Fund by PI and PIM. The Board considered the services provided by PI, including but not limited to the oversight of the subadviser for the Fund, as well as the provision of fund recordkeeping, compliance, and other services to the Fund. With respect to PI's oversight of the subadviser, the Board noted that PI's Strategic Investment Research Group (SIRG), which is a business unit of PI, is responsible for monitoring and reporting to PI's senior management on the performance and operations of the subadviser. The Board also considered that PI pays the salaries of all of the officers and non-independent Directors of the Fund. The Board also considered the investment subadvisory services provided by PIM, as well as adherence to the Fund's investment restrictions and compliance with applicable Fund policies and procedures. The Board considered PI's evaluation of the subadviser, as well as PI's recommendation, based on its review of the subadviser, to renew the subadvisory agreement.

The Board reviewed the qualifications, backgrounds and responsibilities of PI's senior management responsible for the oversight of the Fund and PIM, and also reviewed the qualifications, backgrounds and responsibilities of PIM's portfolio managers who are responsible for the day-to-day management of the Fund's portfolio. The Board was provided with information pertaining to PI's and PIM's organizational structure, senior management, investment operations, and other relevant information pertaining to both PI and PIM. The Board also noted that it received favorable compliance reports from the Fund's Chief Compliance Officer (CCO) as to both PI and PIM. The Board noted that PIM is affiliated with PI.

The Board concluded that it was satisfied with the nature, extent and quality of the investment management services provided by PI and the subadvisory services provided to the Fund by PIM, and that there was a reasonable basis on which to conclude that the Fund benefits from the services provided by PI and PIM under the management and subadvisory agreements.

Performance of The High Yield Income Fund

The Board received and considered information about the Fund's historical performance. The Board considered that the Fund's gross performance in relation to its Peer Universe (the Lipper All Leveraged Closed-End High Current Yield Funds

Performance Universe) was in the first quartile over the one-, three, and ten-year periods, and in the third quartile over the five-year period. The Board also noted that the Fund outperformed its benchmark during all periods. The Board concluded that, in light of the Fund's competitive performance against its benchmark, it would be in the interest of the Fund and its shareholders to renew the agreements.

Fees and Expenses

The Board considered that the Fund's actual management fee (which reflects any subsidies, waivers or expense caps) ranked in the Expense Group's first quartile, and that the Fund's total expenses ranked in the Expense Group's second quartile. The Board concluded that the management and subadvisory fees are reasonable in light of the services provided.

Costs of Services and Profits Realized by PI

The Board was provided with information on the profitability of PI and its affiliates in serving as the Fund's investment manager. The Board discussed with PI the methodology utilized in assembling the information regarding profitability and considered its reasonableness. The Board recognized that it is difficult to make comparisons of profitability from fund management contracts because comparative information is not generally publicly available and is affected by numerous factors, including the structure of the particular adviser, the types of funds it manages, its business mix, numerous assumptions regarding allocations and the adviser's capital structure and cost of capital. The Board did not separately consider the profitability of the subadviser, an affiliate of PI, as its profitability was reflected in the profitability report for PI. Taking these factors into account, the Board concluded that the profitability of PI and its affiliates in relation to the services rendered was not unreasonable.

Economies of Scale

When reviewing and approving management and subadvisory agreements, boards of directors generally consider, among other factors, the extent to which economies of scale will be realized as the investment company grows and whether fee levels reflect these economies of scale for the benefit of shareholders. The Board noted, however, that because the Fund is a closed-end fund, its size would increase only as a result of any appreciation in its portfolio holdings or as a result of dividend reinvestments. The Board therefore determined that a consideration of economies of scale was not relevant to its evaluation of the agreements.

The High Yield Income Fund, Inc.

Approval of Advisory Agreements (continued)

Other Benefits to PI and PIM

The Board considered potential ancillary benefits that might be received by PI and PIM and their affiliates as a result of their relationship with the Fund. The Board concluded that potential benefits to be derived by PI included brokerage commissions received by affiliates of PI, transfer agency fees received by the Fund's transfer agent (which is affiliated with PI), as well as benefits to the reputation or other intangible benefits resulting from PI's association with the Fund. The Board concluded that the potential benefits to be derived by PIM included its ability to use soft dollar credits, brokerage commissions received by affiliates of PIM, as well as the potential benefits consistent with those generally resulting from an increase in assets under management, specifically, potential access to additional research resources and benefits to the reputation. The Board concluded that the benefits derived by PI and PIM were consistent with the types of benefits generally derived by investment managers and subadvisers to mutual funds.

After full consideration of these factors, the Board concluded that the approval of the agreements was in the interest of the Fund and its shareholders.

Privacy Notice

This notice is being provided on behalf of the companies listed in this Notice. It describes how information about you is handled and the steps we take to protect your privacy. We call this information **customer data** or just **data**. If you have other Prudential products or relationships, you may receive a separate privacy notice describing the practices that apply to those products or relationships. If your relationship with us ends, we will continue to handle data about you the same way we handle customer data.

Protecting Customer Data

We maintain physical, electronic, and procedural safeguards to protect customer data. The only persons who are authorized to have access to it are those who need access to do their jobs. We require them to keep the data secure and confidential.

Information We Collect

We collect data you give us and data about the products and relationships you have with us, so that we can serve you, including offering products and services to you. It includes, for example:

- your name and address,
- income and Social Security number.

We also collect data others give us about you, for example:

- medical information for insurance applications,
- consumer reports from consumer reporting agencies and
- participant information from organizations that purchase products or services from us for the benefit of their members or employees, for example, group life insurance.

Sharing Data

We may share data with affiliated companies and with other companies so that they can perform services for us or on our behalf. We may, for example, disclose data to other companies for customer service or administrative purposes. We may disclose limited information such as:

- your name,
- address, and
- the types of products you own

to service providers so they can provide marketing services to us.

PROXY VOTING

The Board of Directors of the Fund has delegated to the Fund's investment adviser the responsibility for voting any proxies and maintaining proxy recordkeeping with respect to the Fund. A description of these proxy voting policies and procedures is available without charge, upon request, by calling (800) 451-6788 or by visiting the Securities and Exchange Commission's website at www.sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available on the Fund's website and on the Commission's website.

An investor should consider the investment objectives, risks, charges, and expenses of the Fund carefully before investing.

SHAREHOLDER COMMUNICATIONS WITH DIRECTORS

Shareholders can communicate directly with the Board of Directors by writing to the Chair of the Board, The High Yield Income Fund, Inc., Prudential Investments, Attn: Board of Directors, 100 Mulberry Street, Gateway Center Three, Newark, NJ 07102. Shareholders can communicate directly with an individual Director by writing to that Director at the same address. Communications are not screened before being delivered to the addressee.

AVAILABILITY OF PORTFOLIO SCHEDULE

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's website at www.sec.gov. The Fund's Forms N-Q may also be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation and location of the Public Reference Room may be obtained by calling (800) SEC-0330 (732-0330).

Item 2 Code of Ethics See Exhibit (a)

As of the end of the period covered by this report, the registrant has adopted a code of ethics (the Section 406 Standards for Investment Companies Ethical Standards for Principal Executive and Financial Officers) that applies to the registrant's Principal Executive Officer and Principal Financial Officer; the registrant's Principal Financial Officer also serves as the Principal Accounting Officer.

The registrant hereby undertakes to provide any person, without charge, upon request, a copy of the code of ethics. To request a copy of the code of ethics, contact the registrant 973-367-7521, and ask for a copy of the Section 406 Standards for Investment Companies - Ethical Standards for Principal Executive and Financial Officers.

Item 3 Audit Committee Financial Expert

The registrant's Board has determined that Mr. David E. A. Carson, member of the Board's Audit Committee is an "audit committee financial expert," and that he is "independent," for purposes of this Item.

Item 4 Principal Accountant Fees and Services

(a) Audit Fees

For the fiscal years ended August 31, 2008 and August 31, 2007, KPMG LLP (KPMG), the Registrant's principal accountant, billed the Registrant \$27,617 and \$26,281, respectively, for professional services rendered for the audit of the Registrant's annual financial statements or services that are normally provided in connection with statutory and regulatory filings.

(b) Audit-Related Fees

None.

(c) Tax Fees

None.

(d) All Other Fees

None.

(e) (1) Audit Committee Pre-Approval Policies and Procedures

THE PRUDENTIAL MUTUAL FUNDS

AUDIT COMMITTEE POLICY

on

Pre-Approval of Services Provided by the Independent Accountants

The Audit Committee of each Prudential Mutual Fund is charged with the responsibility to monitor the independence of the Fund's independent accountants. As part of this responsibility, the Audit Committee must pre-approve any independent accounting firm's engagement to render audit and/or permissible non-audit services, as required by law. In evaluating a proposed engagement of the independent accountants, the Audit Committee will assess the effect that the engagement might reasonably be expected to have on the accountant's independence. The Committee's evaluation will be based on:

a review of the nature of the professional services expected to be provided,

a review of the safeguards put into place by the accounting firm to safeguard independence, and

periodic meetings with the accounting firm.

Policy for Audit and Non-Audit Services Provided to the Funds

On an annual basis, the scope of audits for each Fund, audit fees and expenses, and audit-related and non-audit services (and fees proposed in respect thereof) proposed to be performed by the Fund's independent accountants will be presented by the Treasurer and the independent accountants to the Audit Committee for review and, as appropriate, approval prior to the initiation of such services. Such presentation shall be accompanied by confirmation by both the Treasurer and the independent accountants that the proposed services will not adversely affect the independence of the independent accountants. Proposed services shall be described in sufficient detail to enable the Audit Committee to assess the appropriateness of such services and fees, and the compatibility of the provision of such services with the auditor's independence. The Committee shall receive periodic reports on the progress of the audit and other services which are approved by the Committee or by the Committee Chair pursuant to authority delegated in this Policy.

The categories of services enumerated under **Audit Services**, **Audit-related Services**, and **Tax Services** are intended to provide guidance to the Treasurer and the independent accountants as to those categories of services which the Committee believes are generally consistent with the independence of the independent accountants and which the Committee (or the Committee Chair) would expect upon the presentation of specific proposals to pre-approve. The enumerated categories are not intended as an exclusive list of audit, audit-related or tax services, which the Committee (or the Committee Chair) would consider for pre-approval.

Audit Services

The following categories of audit services are considered to be consistent with the role of the Fund's independent accountants:

Annual Fund financial statement audits

Seed audits (related to new product filings, as required)

SEC and regulatory filings and consents

Audit-related Services

The following categories of audit-related services are considered to be consistent with the role of the Fund's independent accountants:

Accounting consultations

Fund merger support services

Agreed Upon Procedure Reports

Attestation Reports

Other Internal Control Reports

Individual audit-related services that fall within one of these categories and are not presented to the Audit Committee as part of the annual pre-approval process will be subject to pre-approval by the Committee Chair (or any other Committee member on whom this responsibility has been delegated) so long as the estimated fee for those services does not exceed \$50,000.

Tax Services

The following categories of tax services are considered to be consistent with the role of the Fund's independent accountants:

Tax compliance services related to the filing or amendment of the following:

Federal, state and local income tax compliance; and,

Sales and use tax compliance

Timely RIC qualification reviews

Tax distribution analysis and planning

Tax authority examination services

Tax appeals support services

Accounting methods studies

Edgar Filing: HIGH YIELD INCOME FUND INC - Form N-CSR

Fund merger support services

Tax consulting services and related projects

Individual tax services that fall within one of these categories and are not presented to the Audit Committee as part of the annual pre-approval process will be subject to pre-approval by the Committee Chair (or any other Committee member on whom this responsibility has been delegated) so long as the estimated fee for those services does not exceed \$50,000.

Other Non-audit Services

Certain non-audit services that the independent accountants are legally permitted to render will be subject to pre-approval by the Committee or by one or more Committee members to whom the Committee has delegated this authority and who will report to the full Committee any pre-approval decisions made pursuant to this Policy. Non-audit services presented for pre-approval pursuant to this paragraph will be accompanied by a confirmation from both the Treasurer and the independent accountants that the proposed services will not adversely affect the independence of the independent accountants.

Proscribed Services

The Fund's independent accountants will not render services in the following categories of non-audit services:

Bookkeeping or other services related to the accounting records or financial statements of the Fund

Financial information systems design and implementation

Appraisal or valuation services, fairness opinions, or contribution-in-kind reports

Actuarial services

Internal audit outsourcing services

Management functions or human resources

Broker or dealer, investment adviser, or investment banking services

Legal services and expert services unrelated to the audit

Any other service that the Public Company Accounting Oversight Board determines, by regulation, is impermissible.

Pre-approval of Non-Audit Services Provided to Other Entities Within the Prudential Fund Complex

Certain non-audit services provided to Prudential Investments LLC or any of its affiliates that also provide ongoing services to the Prudential Mutual Funds will be subject to pre-approval by the Audit Committee. The only non-audit services provided to these entities that will require pre-approval are those related directly to the operations and financial reporting of the Funds. Individual projects that are not presented to the Audit Committee as part of the annual pre-approval process will be subject to pre-approval by the Committee Chair (or any other Committee member on whom this responsibility has been delegated) so long as the estimated fee for those services does not exceed \$50,000. Services presented for pre-approval pursuant to this paragraph will be accompanied by a confirmation from both the Treasurer and the independent accountants that the proposed services will not adversely affect the independence of the independent accountants.

Although the Audit Committee will not pre-approve all services provided to Prudential Investments LLC and its affiliates, the Committee will receive an annual report from the Fund's independent accounting firm showing the aggregate fees for all services provided to Prudential Investments and its affiliates.

(e) (2) Percentage of services referred to in 4(b)- (4)(d) that were approved by the audit committee

Not applicable.

(f) Percentage of hours expended attributable to work performed by other than full time employees of principal accountant if greater than 50%.

The percentage of hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees was 0%.

(g) Non-Audit Fees

Not applicable to Registrant for the fiscal years 2008 and 2007. The aggregate non-audit fees billed by KPMG for services rendered to the registrant's investment adviser and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant for the fiscal years 2008 and 2007 was \$0 and \$340,700, respectively.

(h) Principal Accountant's Independence

Not applicable as KPMG has not provided non-audit services to the registrant's investment adviser and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to Rule 2-01(c)(7)(ii) of Regulation S-X.

Item 5 Audit Committee of Listed Registrants

The registrant has a separately designated standing audit committee (the "Audit Committee") established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the Audit Committee are Kevin J. Bannon, Linda W. Bynoe, David E.A. Carson (chair), Robert E. La Blanc, Stephen P. Munn and Robin B. Smith (ex-officio).

Item 6 Schedule of Investments The schedule is included as part of the report to shareholders filed under Item 1 of this Form.

Item 7 Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies
Summary of Prudential Investment Management, Inc. Proxy Voting Policy

The overarching goal of each of the asset management units within Prudential Investment Management, Inc. (PIM) is to vote proxies in the best interests of their respective clients based on the clients' priorities. Client interests are placed ahead of any potential interest of PIM or its asset management units.

Because the various asset management units within PIM manage distinct classes of assets with differing management styles, some units will consider each proxy on its individual merits while other units may adopt a pre-determined set of voting guidelines. The specific voting approach of each unit is noted below.

A committee comprised of senior business representatives from each of the asset management units together with relevant regulatory personnel oversees the proxy voting process and monitors potential conflicts of interests. The committee is responsible for interpretation of the proxy voting policy and periodically assesses the policy's effectiveness. In addition, should the need arise, the committee is authorized to address any proxy matter involving an actual or apparent conflict of interest that cannot be resolved at the level of an individual asset management business unit.

In all cases, clients may obtain the proxy voting policies and procedures of the various PIM asset management units, and information is available to each client concerning the voting of proxies with respect to the client's securities, simply by contacting the client service representative of the respective unit.

Voting Approach of PIM Asset Management Units

Prudential Public Fixed Income

As this asset management unit invests primarily in public debt, there are few traditional proxies voted in this unit. Generally, when a proxy is received, this unit will vote with management on routine matters such as the appointment of accountants or the election of directors. With respect to non-routine matters such as proposed anti-takeover provisions or mergers the financial impact will be analyzed and the proxy will be voted on a case-by-case basis. Specifically, if a proxy involves:

a proposal regarding a merger, acquisition or reorganization,

a proposal that is not addressed in the unit's detailed policy statement, or

circumstances that suggest a vote not in accordance with the detailed policy, the proxy will be referred to the applicable portfolio manager(s) for individual consideration.

Prudential Real Estate Investors

As this asset management unit invests primarily in real estate and real estate-related interests, there are few traditional proxies voted in this unit. Generally, when a proxy is received, this unit will vote with management on routine matters such as the appointment of accountants or the election of directors. With respect to non-routine matters such as proposed anti-takeover provisions or mergers the financial impact will be analyzed and the proxy will be voted on a case-by-case basis. Specifically, if a proxy involves:

a proposal regarding a merger, acquisition or reorganization,

a proposal that is not addressed in the unit's detailed policy statement, or

circumstances that suggest a vote not in accordance with the detailed policy, the proxy will be referred to the relevant portfolio manager(s) for individual consideration.

Prudential Capital Group

As this asset management unit invests almost exclusively in privately placed debt, there are few, if any, traditional proxies voted in this unit. As a result, this unit evaluates

each proxy it receives and votes on a case-by-case basis. Considerations will include detailed knowledge of the issuer's financial condition, long- and short-term economic outlook for the issuer, its capital structure and debt-service obligations, the issuer's management team and capabilities, as well as other pertinent factors. In short, this unit attempts to vote all proxies in the best economic interest of its clients based on the clients expressed priorities, if any.

Item 8 Portfolio Managers of Closed-End Management Investment Companies

Information pertaining to the portfolio managers of the registrant, as of October 31, 2008, is set forth below.

PORTFOLIO MANAGERS

Paul Appleby, CFA, is Managing Director and Head of the Leveraged Finance Team, which includes the High Yield Sector Team and the Bank Loan Sector Team. In addition, Mr. Appleby is portfolio manager for institutional and retail high yield bond portfolios. Previously, he was Director of Credit Research and Chief Equity Strategist for Prudential Financial's proprietary portfolios. Mr. Appleby also was a high yield credit analyst and worked in Prudential Financial's private placement group. Before joining Prudential Financial in 1987, he was a strategic planner for Amerada Hess. Mr. Appleby received a BS in Economics from The Wharton School of the University of Pennsylvania and an MBA from the Sloan School at the Massachusetts Institute of Technology (MIT). He holds the Chartered Financial Analyst (CFA) designation.

Sector Managers

Stephen Haeckel is Principal and high yield sector portfolio manager for the High Yield Team. Before assuming this role in 1999, he was a research analyst in the Credit Research Unit. Mr. Haeckel has also worked in Prudential Financial's Corporate Finance and Financial Restructuring groups, managing Prudential Financial's private investments. He served on the Board of Directors of three private companies in conjunction with the Financial Restructuring Group. Prior to joining Prudential Financial in 1990, Mr. Haeckel was an Investment Officer at MONY Capital Management. He received a BS in Psychology from Dartmouth College and an MBA from the J.L. Kellogg Graduate School of Management at Northwestern University.

Robert Spano, CFA, CPA, is a Principal and high yield sector portfolio manager for the High Yield Bond Team. Previously, he was a high yield credit analyst for 10 years in the Credit Research Unit, covering the health, lodging, consumer, gaming, restaurant, and chemical industries. Earlier, Mr. Spano worked as an investment analyst in the Project Finance Unit of Prudential Financial's private placement group. He also held positions in the internal audit and risk management units of Prudential Securities. Mr. Spano received a BS in Accounting from the University of Delaware and an MBA from New York University. He holds the Chartered Financial Analyst (CFA) and Certified Public Accountant (CPA) designations.

Terence Wheat, CFA, is Principal and high yield sector portfolio manager for the High Yield Team. Prior to assuming his current position in 2005, he spent 12 years as a credit analyst in the Credit Research Unit, where he was responsible for the consumer products, gaming and leisure, retail, supermarkets, and textile/apparel industries. Mr. Wheat covered

Edgar Filing: HIGH YIELD INCOME FUND INC - Form N-CSR

high yield bonds from 1998 to 2003, and investment grade issues from 1993 to 1998. Earlier, he worked for Prudential's Financial Management Group and Individual Insurance Unit. Mr. Wheat joined Prudential Financial in 1988. He received a BS in Accounting and an MBA from Rider University. Mr. Wheat holds the Chartered Financial Analyst (CFA) designation.

Michael J. Collins, CFA, is Principal for the High Yield Team, responsible for investment strategy and risk management. Prior to assuming his current role, Mr. Collins was Senior Investment Strategist, covering all fixed income sectors. Previously, Mr. Collins was a credit research analyst. He also developed proprietary quantitative international interest rate and currency valuation models for our global bond unit. Mr. Collins began his career at Prudential Financial in 1986 as a software applications designer. He received a BS in Mathematics and Computer Science from the State University of New York at Binghamton and an MBA in Finance from New York University. Mr. Collins holds the Chartered Financial Analyst (CFA) designation and is a Fellow of the Life Management Institute (FLMI).

Additional Information About the Portfolio Managers' Other Accounts and Fund Ownership. The following table sets forth information about the indicated Fund(s) and accounts other than the Fund(s) for which the Fund(s) Portfolio Managers are primarily responsible for the day-to-day portfolio management as of the Fund(s) most recently completed fiscal year. The table shows, for each Portfolio Manager, the number of accounts managed and the total assets in such accounts, within each of the following categories: registered investment companies, other pooled investment vehicles, and other accounts. For each category, the number of accounts and total assets in the accounts whose fees are based on performance is indicated in *italics typeface*. The table also sets forth the dollar range of equity securities of the Fund(s) beneficially owned by the Portfolio Managers as of the Fund(s) most recently completed fiscal year. All reported numbers in the table below are rounded to the thousands.

Portfolio Managers: Information About Other Accounts

Fund Name Subadviser	Portfolio Managers	Registered Investment Companies	Other Pooled Investment Vehicles	Other Accounts	Fund Ownership

Compensation and Conflicts Disclosure:**Compensation**

Prudential Investment Management, Inc.'s Fixed Income unit ("PIM Fixed Income") seeks to maintain a highly competitive compensation program designed to attract and retain outstanding investment professionals, which includes portfolio managers and research analysts, and to align the interests of its investment professionals with that of its clients and overall firm results. PIM Fixed Income's investment professionals are compensated through a combination of base salary, a performance-based annual cash incentive bonus and a long-term incentive grant. The long-term incentive grant is generally divided between restricted stock of Prudential Financial, providing investment professionals with an ownership stake, and interests in a phantom stock plan pursuant to which investment professionals are compensated based upon the three-year growth of certain portions of PIM Fixed Income's asset management business. Investment professionals are all covered by the same general compensation structure although they manage multiple accounts. All investment compensation is paid by the investment adviser and not from any assets of the investment company or other managed accounts.

The salary component is based on market data relative to similar positions within the industry as well as the past performance, experience and responsibility of the individual. Investment professionals' annual cash bonus is paid from an annual incentive pool. The size of the annual incentive pool is determined quantitatively based on three factors:

1) Investment performance (pre-tax) of all portfolios managed by PIM Fixed Income, in the aggregate, which affect the size of the annual incentive pool. Performance of the portfolios is judged versus the benchmarks against which each of the portfolios is managed or versus the performance of appropriate market peer groups. These portfolios are managed utilizing a variety of strategies and against benchmarks appropriate for each portfolio, 2) PIM Fixed

Income's business results as measured by financial indicators such as revenue growth, operating income growth and return on required equity, and 3) market-based data indicating trends and levels of overall compensation in the asset management industry in a given year.

A portfolio manager's long-term incentive grant of phantom stock units and restricted Prudential Financial stock is based on market data relative to similar positions within the industry as well as the past performance, experience and responsibility of the individual. The value of the phantom stock units will reflect the three-year growth of certain portions of PIM Fixed Income's asset management business but will exclude from this calculation the growth of PI-managed mutual funds.

PIM Fixed Income regularly benchmarks its compensation program against leading asset management firms in the industry to monitor competitiveness. Each investment professional's incentive compensation payment, including the annual bonus and long-term incentive grant from the incentive pool, is primarily determined by how significantly he or she contributes to delivering investment performance to clients consistent with portfolio objectives, guidelines, and risk parameters, as well as the individual's qualitative contributions to the organization. The performance of each Fund is judged against the applicable Lipper performance peer group/peer universe, as part of this process.

For example, the performance of the Dryden High Yield Fund was judged versus the Lipper FI High Current Yield Funds as part of this process.

Conflicts of Interest

PIM is an indirect, wholly-owned subsidiary of Prudential Financial. PIM is part of a full scale global financial services organization, affiliated with insurance companies, investment advisers and broker-dealers. PIM's portfolio managers are often responsible for managing multiple accounts, including accounts of affiliates, institutional accounts, mutual funds, insurance company separate accounts and various pooled investment vehicles, such as commingled trust funds and unregistered funds. These affiliations and portfolio management responsibilities may cause potential and actual conflicts of interest. PIM aims to conduct itself in a manner it considers to be the most fair and consistent with its fiduciary obligations to all of its clients including the Fund.

A portion of PIM Fixed Income's long-term incentive grant includes phantom stock units, the value of which reflects the three-year growth of certain portions of PIM Fixed Income's asset management business. The calculation of growth does not include the growth of PI-managed mutual funds. A portfolio manager may face a conflict of interest given that a piece of his or her long-term compensation is not affected by the growth of PI-managed mutual funds, including this fund. A portfolio manager's compensation may be affected as discussed above by the performance of the mutual funds he or she manages.

Management of multiple accounts and funds side-by-side may raise potential conflicts of interest relating to the allocation of investment opportunities, the aggregation and allocation of trades and cross trading. PIM has developed policies and procedures designed to address these potential conflicts of interest.

There may be restrictions imposed by regulation or contract regarding how much, if any, of a particular security PIM may purchase or sell on behalf of the Fund, and as to the timing of such purchase or sale. Such restrictions may come into play as a result of PIM's relationship with Prudential Financial and its other affiliates. The Fund may be prohibited from engaging in transactions with its affiliates even when such transactions may be beneficial for the Fund. Certain affiliated transactions are permitted in accordance with procedures adopted by the Fund and reviewed by the independent directors of the Fund.

PIM may come into possession of material, non-public information with respect to a particular issuer and as a result be unable to execute purchase or sale transactions in securities of such issuer for the Fund. This can occur particularly with respect to fixed income investments because PIM has a bank loan unit that often invests in private loans that require the issuer to provide material, non-public information. PIM generally is able to avoid certain other potential conflicts due to the possession of material, non-public information by maintaining information barriers to prevent the transfer of this information between units of PIM as well as between affiliates and PIM. Additionally, in an effort to avoid potential conflicts of interest, PIM's fixed income unit has procedures in place to carefully consider whether or not to accept material, non-public information with respect to certain issuers, where appropriate.

Certain affiliates of PIM develop and may publish credit research that is independent from the research developed within PIM. PIM may hold different opinions on the investment merits of a given security, issuer or industry such that PIM may be purchasing or holding a security for the Fund and an affiliated entity may be selling or recommending a sale of the same security or other securities of the issuer. Conversely, PIM may be selling a security for the Fund and an affiliated entity may be purchasing or recommending a buy of the same security or other securities of the same issuer. In addition, PIM's affiliated broker-dealers or investment advisers may be executing transactions in the market in the same securities as the Fund at the same time.

PIM may cause securities transactions to be executed for the Fund concurrently with authorizations to purchase or sell the same securities for other accounts managed by PIM, including proprietary accounts or accounts of affiliates. In these instances, the executions of purchases or sales, where possible, are allocated equitably among the various accounts (including the Fund).

PIM may buy or sell, or may direct or recommend that one client buy or sell, securities of the same kind or class that are purchased or sold for the Fund, at prices which may be different. In addition, PIM may, at any time, execute trades of securities of the same kind or class in one direction for an account and trade in the opposite direction or not trade for any other account, including the Fund, due to differences in investment strategy or client direction.

The fees charged to advisory clients by PIM may differ depending upon a number of factors including, but not limited to, the unit providing the advisory services, the particular strategy, the size of a portfolio being managed, the relationship with the client, the origination and service requirements and the asset class involved. Fees may also differ based on account type.

(e.g., commingled accounts, trust accounts, insurance company separate accounts, and corporate, bank or trust-owned life insurance products). Fees are negotiable so one client with similar investment objectives or goals may be paying a higher fee than another client. Fees paid by certain clients may also be higher due to performance-based fees which increase based on the performance of a portfolio above an established benchmark.

Large clients generate more revenue for PIM than do smaller accounts. A portfolio manager may be faced with a conflict of interest when allocating scarce investment opportunities given the benefit to PIM of favoring accounts that pay a higher fee or generate more income for PIM. To address this conflict of interest, PIM has adopted allocation policies as well as supervisory procedures that are intended to fairly allocate investment opportunities among competing client accounts.

PIM and its affiliates manage certain funds, including hedge funds, that are subject to incentive compensation on a side-by-side basis with other accounts including the Fund. PIM and/or certain of its affiliates may have an interest in such funds. PIM and its affiliates have implemented policies and procedures to address potential conflicts of interest arising out of such side-by-side management.

For example, the accounts may at times be precluded from taking positions over-weighted versus an index in securities and other instruments in which one or more of the funds hold short positions. Lending, borrowing and other financing opportunities with respect to securities for which the market is paying a premium rate over normal market rates and for which there maybe limited additional demand will be allocated to the accounts prior to allocating the opportunities to such funds.

Conflicts of interest may also arise regarding proxy voting. A committee of senior business representatives together with relevant regulatory personnel oversees the proxy voting process and monitors potential conflicts of interest relating to proxy voting.

Prudential Financial and the general account of The Prudential Insurance Company of America (PICA) may at times have various levels of financial or other interests in companies whose securities may be purchased or sold in PIM s client accounts, including the Fund. These financial interests may at any time be in potential or actual conflict or may be inconsistent with positions held or actions taken by PIM on behalf of the Fund. These interests can include loan servicing, debt or equity financing, services related to advising on merger and acquisition issues, strategic corporate relationships or investments and the offering of investment advice in various forms. Thus PIM may invest Fund assets in the securities of companies with which PIM or an affiliate of PIM has a financial relationship, including investment in the securities of companies that are advisory clients of PIM.

It is anticipated that there will be situations in which the interests of the Fund in a portfolio company may conflict with the interests of one or more affiliated accounts of PIM or other client accounts managed by PIM or its affiliates. This may occur because PIM affiliated accounts hold public and private debt and equity securities of a large number of issuers and may invest in some of the same companies as the Fund, but at different levels in the capital structure. Investment by PIM affiliated accounts at different levels to that of the Fund in the capital structure of a portfolio company presents inherent conflicts of interest between the PIM affiliated accounts and the Fund.

For example, in the event of restructuring or insolvency, the holders of senior debt may exercise remedies and take other actions that are not in the interest of or are adverse to holders of junior debt. Similarly, a PIM affiliated account might hold secured debt of an issuer whose public unsecured debt is held by the Fund. Such conflicts may also exist among client accounts managed by PIM or its affiliates. While these conflicts cannot be eliminated, PIM has implemented policies and procedures designed to ensure that, notwithstanding these conflicts, investments of the Fund are originated and managed in its best interests.

In addition, portfolio managers may advise PIM affiliated accounts. PIM's portfolio manager(s) may have a financial interest in the accounts they advise, either directly or indirectly. To address potential conflicts of interest, PIM has procedures designed to ensure that including to the extent that client accounts are managed differently from PIM affiliated accounts each of the client accounts and each affiliated account is managed in a manner that is consistent with its investment objectives, investment strategies and restrictions, as well as with PIM's fiduciary obligations. These procedures include supervisory review procedures.

Potential conflicts of interest may exist where PIM or its affiliates determine that a specific transaction in a security is appropriate for a specific account based upon numerous factors (including, investment objectives, investment strategies or restrictions), while other accounts may take the opposite position in the security in accordance with that accounts investment objectives, investment strategies and restrictions. PIM periodically conducts reviews of these accounts and assesses the appropriateness of these differing positions.

Finally, because of the substantial size of PICA's general account, trading by PICA's general account in certain securities, particularly certain fixed income securities, may result in market changes in response to trades. Although PIM expects that PICA's general account will execute transactions that will move a market in a security infrequently, and generally in response to unusual market or issuer events, the execution of these transactions could have an adverse effect on transactions for or positions held by other clients.

PIM follows Prudential Financial's policies on business ethics, personal securities trading by investment personnel, and information barriers. PIM has adopted a code of ethics, allocation policies, supervisory procedures and conflicts of interest policies, which are designed to ensure that clients are not harmed by these potential or actual conflicts of interests. However, there is no guarantee that such policies and procedures will detect and ensure avoidance, disclosure or mitigation of each and every situation in which a conflict may arise.

Item 9 Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers There have been no purchases of equity securities by the registrant or any affiliated purchasers during the period covered by this report.

Item 10 Submission of Matters to a Vote of Security Holders Not applicable.

Item 11 Controls and Procedures

- (a) It is the conclusion of the registrant's principal executive officer and principal financial officer that the effectiveness of the registrant's current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant has been recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms and that the information required to be disclosed by the registrant has been accumulated and communicated to the registrant's principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.
- (b) There has been no significant change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter of the period covered by this report that has materially affected, or is likely to materially affect, the registrant's internal control over financial reporting.

Item 12 Exhibits

- (a) (1) Code of Ethics Attached hereto as Exhibit EX-99.CODE-ETH
- (2) Certifications pursuant to Section 302 of the Sarbanes-Oxley Act Attached hereto as Exhibit EX-99.CERT.
- (3) Any written solicitation to purchase securities under Rule 23c-1. Not applicable.
- (b) Certifications pursuant to Section 906 of the Sarbanes-Oxley Act Attached hereto as Exhibit EX-99.906CERT.
