Dear Stockholder:

We invite you to attend the annual meeting of stockholders of Westinghouse Air Brake Technologies Corporation, doing business as Wabtec Corporation, on May 13, 2009 at 11:00 a.m. in Pittsburgh, Pennsylvania.

This booklet includes the formal notice of the meeting and the proxy statement. Pursuant to the rules adopted by the Securities and Exchange Commission, we have elected to provide access to our proxy materials over the Internet. Accordingly, we are sending a Notice of Internet Availability of Proxy Materials (the Notice) to our stockholders. All stockholders will have the ability to access the proxy materials on a website referenced in the Notice or request to receive a printed set of the proxy materials. Instructions regarding how to access the proxy materials over the Internet or to request a printed copy may be found on the Notice. In addition, stockholders may request to receive proxy materials in printed form by mail, telephone or electronically by email on an ongoing basis.

The Notice was mailed to stockholders, and the proxy materials were first given to stockholders via Internet access, on or about March 31, 2009. On or before the time that the Notice was sent to stockholders, all materials identified in the Notice were publicly accessible, free of charge, at the website address specified in the Notice. Such materials will remain available on that website for 12 months subsequent to the conclusion of the meeting.

The proxy statement tells you more about the items upon which we will vote at the meeting. It also explains how the voting process works and gives information about our director candidates.

Whether you plan to attend the annual meeting, please cast your vote by proxy over the Internet by following the instructions provided in the Notice, by telephone or by requesting a paper proxy card to sign, date and return by mail. Regardless of the method used, please vote your shares so that enough shares are represented to allow us to conduct the business of the annual meeting. General

We have provided you this booklet and proxy materials on or about March 31, 2009 because the Board of Directors of Westinghouse Air Brake Technologies Corporation, doing business as Wabtec Corporation ("Wabtec"), is soliciting your proxy to vote at the company's 2009 annual meeting of stockholders.

Who May Vote

Stockholders of Wabtec as reflected in our stock records at the close of business on March 18, 2009 may vote. You have one vote for each share of Wabtec common stock you own.

How to Vote

You may vote in person at the meeting or by proxy. We recommend you vote by proxy even if you plan to attend the meeting. You can always change your vote at the meeting. Your vote is important. If you are a stockholder whose shares are registered in your name, you may vote your shares in person at the meeting or by one of the three following methods:

Vote by Internet, by going to the website address <http://bnymellon.mobular.net/bnymellon/wab> and following the instructions for Internet voting shown on the website.

Vote by Telephone, by dialing 1-866-540-5760 and following the instructions for telephone voting shown on the proxy card.

Vote by Proxy Card, by completing, signing, dating and mailing a proxy card in the envelope provided if you requested copies of these proxy materials.

If you vote by Internet or telephone, you do not need to request a proxy card.

Shares registered in your name are generally covered by one Notice. If you hold shares through someone else, such as a bank or stockbroker, you will get a Notice from them asking you to vote. Please follow the instructions on their Notice. Please vote for each Notice you receive.

How a Proxy Works

Giving us a proxy means you authorize us to vote your shares in accordance with your directions. If you do not make any selections, your shares will be voted in favor of our director candidates.

Changing Your Vote

You may revoke your proxy before it is voted by submitting a new proxy with a later date including a proxy given over the Internet or by telephone, by voting in person at the meeting or by notifying Wabtec's Secretary in writing.

Common Stock Outstanding

As of the close of business on March 18, 2009, approximately 47,977,191 shares of Wabtec common stock were issued and outstanding.

Quorum and Voting Information

To conduct the business of the meeting, we must have a quorum. This means at least a majority of the outstanding shares eligible to vote must be represented at the meeting, either in person or by proxy. You are considered a part of the quorum if you vote over the Internet, by telephone or by submitting a properly signed proxy card if you requested copies of the proxy materials.

If a quorum is present at the meeting, the four director candidates receiving the most votes will be elected to fill the four open seats on the Board of Directors. Abstentions and broker non-votes are not relevant to the election of directors.

Approval of any other matter that properly comes before the annual meeting requires the favorable vote of a majority of shares present in person or by proxy, unless the matter requires more than a majority vote under statute or our by-laws.

Because the total shares voted for, against, or abstain are considered shares present, they are counted to determine the minimum votes required for approval of other proposals. Therefore, if you abstain from voting, it has the same legal effect as a vote against any other proposal. Broker non-votes will not be counted as a vote or used to determine the favorable votes required to approve any other proposal.

A broker non-vote occurs when a broker limits the number of shares voted on a proposal on its proxy card or indicates the shares represented by the proxy card are not being voted on a proposal.

The Board and Committees

The Board met 10 times during 2008. All directors attended all meetings of the Board and the committees on which they served in 2008. The standing Board committees that help the Board fulfill its duties include the Nominating and Corporate Governance Committee, the Audit Committee and the Compensation Committee. The Board also holds regularly scheduled meetings of non-employee directors. Mr. Fernandez presides at these meetings.

In addition to the independence requirements set forth in the listing standards of the New York Stock Exchange (the NYSE), the Board has adopted categorical standards to assist it in determining whether its members meet the independence requirements of the NYSE. These standards provide that the following relationships are deemed to be immaterial and would not in and of themselves impair a director's independence:

a director or an immediate family member is an executive officer or employee of a company that makes payments to, or receives payments from, Wabtec or any of its subsidiaries for property or services in an amount which, in any single fiscal year, does not exceed the greater of \$1 million or 2% of such other company's consolidated gross revenue;

a director serves as an executive officer of a charitable organization and Wabtec's charitable contributions to such charitable organization in any fiscal year do not exceed the greater of \$1 million or 2% of the charitable organization's consolidated gross revenues; and

a director beneficially owns less than 10% of Wabtec's issued and outstanding common stock.

The Board has reviewed the independence of its members considering these standards and any other commercial, legal, accounting and familial relationships between the directors and Wabtec and has determined that a majority of its members are independent. Specifically, none of the following directors, Mr. Brooks, Mr. Fernandez, Mr. Foster, Mr. Hehir, Mr. Howell, Mr. Napier, Mr. Valade and Mr. Vande Steeg, has a material relationship with Wabtec, and each such director meets the Board's categorical independence standards and the independence requirements of the NYSE listing standards.

It is the company's policy that all directors attend the annual meeting of stockholders if reasonably possible. All directors then serving attended the 2008 annual meeting of stockholders with the exception of Mr. Howell.

The Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee approved continued use of its written charter at its February 17, 2009 meeting. A current copy of the charter is available on Wabtec's website at <http://www.wabtec.com> and is available in print to any stockholder who requests it. The principal functions of the Nominating and Corporate Governance Committee are to:

identify the skills and characteristics to be found in candidates to be considered to serve on Wabtec's Board of Directors and to use such to select nominees;

recommend nominees for each Board committee;

oversee the corporate governance of Wabtec; and

to recommend changes to Wabtec's corporate governance guidelines.

Edgar Filing: WESTINGHOUSE AIR BRAKE TECHNOLOGIES CORP - Form DEF 14A

The Committee met two times during 2008. The members of the Nominating and Corporate Governance Committee in 2008 were Mr. Brooks, Mr. Fernandez, Mr. Howell and Mr. Vande Steeg, who were each independent, as independence for such members is defined in the listing standards of the NYSE. Mr. Fernandez is the Chairman of the Nominating and Corporate Governance Committee. Current members of the Nominating and Corporate Governance Committee are Mr. Brooks, Mr. Fernandez, Mr. Howell and Mr. Vande Steeg.

The Committee will consider director nominees recommended by stockholders. Stockholders wishing to recommend a director candidate for consideration by the Committee can do so by writing the Secretary of Wabtec at 1001 Air Brake Avenue, Wilmerding, PA 15148; giving the candidate's name, biographical data and qualifications. Any such recommendation should be accompanied by a written statement from the individual of his or her consent to be named as a candidate and, if nominated and elected, to serve as a director. No candidates for Board membership have been put forward by stockholders for election at the 2009 annual meeting of stockholders.

Table of Contents

In evaluating candidates for the Board, the Nominating and Corporate Governance Committee considers the entirety of each candidate's credentials. The Committee is guided by the objective set forth in its charter of ensuring that the Board consists of individuals from diverse educational and professional experiences and backgrounds who collectively provide meaningful counsel to management. The Committee considers the candidate's character, integrity, experience, understanding of strategy and policy-setting and reputation for working well with others. In connection with this evaluation, the Nominating and Corporate Governance Committee determines whether to interview the prospective nominee and, if warranted, one or more members of the committee, and others as appropriate, interview prospective nominees. After completing this evaluation and interview, the Nominating and Corporate Governance Committee makes a recommendation to the full Board as to the persons who should be nominated by the Board, and the Board determines the nominees after considering the recommendation and report of the Nominating and Corporate Governance Committee. If candidates are recommended by the company's stockholders, such candidates will be evaluated using the same criteria. With respect to nomination of continuing directors for re-election, the individual's contributions to the Board are also considered.

The Audit Committee

The Audit Committee acts under a written charter. The Audit Committee reviewed and approved the continued use of its written charter at its February 17, 2009 meeting. A current copy of the charter is available on Wabtec's website at <http://www.wabtec.com> and is available in print to any stockholder who requests it.

The Audit Committee provides assistance to the Board in fulfilling its oversight responsibility to stockholders, the investment community and others relating to the integrity of Wabtec's financial statements, its financial reporting process, its systems of internal accounting and financial controls, the performance of Wabtec's internal audit function and independent registered public accountants, the independent registered public accountant's qualifications and independence, and Wabtec's compliance with ethics policies and legal and regulatory requirements. The Committee is directly

responsible for appointing, compensating, retaining and overseeing the work of the independent registered public accounting firm engaged by Wabtec. The Audit Committee has established procedures for the receipt, retention and treatment of complaints received by Wabtec regarding accounting, internal controls or auditing matters and the confidential anonymous submission by employees of concerns regarding questionable accounting or auditing matters.

The Audit Committee met nine times in 2008. The members of the Audit Committee in 2008 were Mr. Brooks, Mr. Foster, Mr. Hehir, Mr. Howell and Mr. Valade, who are each independent, as independence is defined in the rules of the Securities and Exchange Commission and in the listing standards of the NYSE. The Board has determined that Mr. Valade, the Audit Committee's Chairman, qualifies as an audit committee financial expert as defined in the regulations of the Securities and Exchange Commission. In addition to Mr. Valade as the Chairman, the members of the 2009 Audit Committee are Mr. Brooks, Mr. Foster, Mr. Hehir and Mr. Howell.

Audit Committee Report

The Audit Committee is responsible for reviewing Wabtec's financial reporting process on behalf of the Board of Directors. Management of the company has the primary responsibility for the financial statements and the reporting process, including the system of internal controls. In the performance of our oversight function, we meet with management periodically to consider the adequacy of the company's internal controls and the objectivity of its financial reporting. We meet privately with the independent registered public accountants, who have unrestricted access to the audit committee. Specifically, we have reviewed and discussed with management and the independent registered public accountants the company's consolidated financial statements as of and for the fiscal year ended December 31, 2008.

We have also discussed with the independent registered public accountants the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as currently in effect, as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

Table of Contents

Furthermore, we have received and reviewed the written disclosures and the letter from the independent registered public accountants required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence, and have discussed with the independent registered public accountants their independence.

Based on the review and discussions referred to above, we recommended to the Board of Directors that Wabtec's audited financial statements, as of and for the fiscal year ended December 31, 2008, be included in the company's Annual Report on Form 10-K, for the year ended December 31, 2008, to be filed with the Securities and Exchange Commission.

Respectfully submitted,

The Compensation Committee

The Compensation Committee provides assistance to the Board relating to the compensation of Wabtec's officers and directors. The Compensation Committee has authority, pursuant to its charter, to make recommendations to the Board, which then establishes compensation. The Compensation Committee's principal responsibilities include:

reviewing and approving goals and objectives for the Chief Executive Officer and determining the Chief Executive Officer's compensation;

reviewing and recommending compensation of all directors and officers; and

recommending incentive compensation plans and equity-based plans.

The Compensation Committee members in 2008 were Mr. Foster, Mr. Hehir, Mr. Napier and Mr. Vande Steeg, who were each independent, as independence for such members is defined in the listing standards of the NYSE. Mr. Foster served as the Compensation Committee's Chairman. In addition to Mr. Foster who continues to serve as Chairman, the members of the 2009 Compensation

Committee are Mr. Hehir, Mr. Napier, and Mr. Vande Steeg. The Nominating and Governance Committee recommends the Compensation Committee members who are approved by the full Board of Directors. The Compensation Committee met four times in 2008. The Compensation Committee approved continued use of its written charter at its February 17, 2009 meeting. A copy of the written charter is available on Wabtec's website at <http://www.wabtec.com> and is available in print to any stockholder who requests it.

The Compensation Committee recommends executive compensation to the Board, which then establishes these items. Base salaries are established at the beginning of the fiscal year and bonuses are awarded after fiscal year results are available. Base salaries depend mainly on the executive officer's office and responsibility, while bonuses are based on pre-established performance factors. These factors are established at the beginning of the year and include (i) a financial performance factor measuring earnings before interest and taxes and working capital management and (ii) a personal performance factor which measures whether the individual executive attained certain quantitative and measureable goals established for that executive.

Executive officers also receive long-term incentive compensation. With respect to the long-term incentive portion of executive compensation, the Compensation Committee has discretion to grant long-term incentive awards under the 2000 Stock Incentive Plan. Such awards take the form of stock options, performance units and restricted share awards. The Compensation Committee bases the amount of the award upon the

executive's job level, as well as other factors. These factors include benchmarking the total compensation an executive may earn to ensure it is competitive, compensating executives in a pay for performance manner and aligning the interests of the executives with the interests of the shareholders. The Committee also reviews the ratio of total compensation to total target cash compensation to ensure that the mix of long term compensation is appropriate for each executive.

The Chief Executive Officer and the Vice President of Human Resources suggest guidelines in discussions with the Compensation Committee regarding executive compensation. They provide recommendations and information regarding the

competitiveness of the industry, key employees, performance of individuals, succession planning and other relevant data to the committee. The Chief Executive Officer is not present during any discussions concerning his compensation. The Compensation Committee also has the authority to retain compensation consultants as it deems necessary and has the sole authority to approve such consultants' fees.

During 2006, the Compensation Committee agreed to a management recommendation to change the compensation pay structure for the non-employee directors effective May 2006. Wabtec monitored and benchmarked the directors' pay to ensure that Wabtec was competitive. The company used surveys by the National Association of Corporate Directors (NACD) and surveys from the Conference Board to ensure competitiveness. In addition, the company created an independent index of similar sized publicly held manufacturing companies. These companies include: Tecumseh Products, Briggs and Stratton, Thomas and Betts, Regal Beloit, Woodward Governor, IDEX Corp., Sauer-Danfoss, Milacron, Kennametal, Trinity Industries, Flowserve and Greenbrier Companies. As a result, the Compensation Committee agreed with management recommendations to increase the cash retainer for non-employee directors from \$25,000 to \$35,000 to ensure that Wabtec can continue to attract new, and retain existing, non-employee directors. This increase placed Wabtec near the third Quartile in cash compensation for similar sized publicly held manufacturing companies with Wabtec's total compensation paid to directors above the index average. The benchmarking study also noted that the trend in director compensation reflected significant increases in compensation over the past few years, and Wabtec's practice of paying both a cash and a stock retainer is considered a best practice by the NACD. This compensation structure for non-employee directors has remained in place through 2008.

Compensation Committee Interlocks and Insider Participation

During 2008, Wabtec had no interlocking relationships in which (i) an executive officer of Wabtec served as a member of the compensation committee of another entity, one of whose executive officers served on the Compensation Committee of

Wabtec; (ii) an executive officer of Wabtec served as a director of another entity, one of whose executive officers served on the Compensation Committee of Wabtec; or (iii) an executive officer of Wabtec served as a member of the compensation committee of another entity, one of whose executive officers served as a director of Wabtec. No member of the Compensation Committee was at any time during the 2008 fiscal year or at any other time an officer or employee of the company, and no member had any relationship with us requiring disclosure under Item 404 of Securities and Exchange Commission Regulation S-K.

Compensation Committee Report

Compensation Discussion and Analysis

Overview. This compensation discussion describes the material elements of compensation awarded to, earned by, or paid to each of our executive officers who served as named executive officers during 2008. This discussion focuses primarily on the fiscal year 2008 information contained in the following tables and related footnotes and narrative. We discuss compensation actions taken prior to 2008 or in 2009 if we believe it provides relevant information or where required.

Edgar Filing: WESTINGHOUSE AIR BRAKE TECHNOLOGIES CORP - Form DEF 14A

The principal elements of our executive compensation program are base salary, annual cash incentives, and long-term equity incentives in the form of restricted stock, stock options and performance units. Our other benefits and perquisites consist of life and health

Table of Contents

insurance benefits, social and health club dues, automobile allowances for certain executive officers, tax gross-up payments and a qualified 401(k) savings or comparable foreign plan (including company matching contributions). Our philosophy is to position the aggregate of these elements at the average of that paid to executives with similar responsibilities. To ensure that the company is able to attract and retain high potential executives, the company benchmarks executive compensation using compensation surveys of similar sized companies and also uses an index average of similar sized manufacturing companies. This index includes: Tecumseh Products, Briggs and Stratton, Thomas and Betts, Regal Beloit, Woodward Governor, IDEX Corp., Sauer-Danfoss, Milacron, Kennametal, Trinity Industries, Flowserve and Greenbrier Companies.

Objectives and Philosophy. The overall objectives of our executive compensation program are to (i) enable us to attract, motivate and retain key executive talent essential to the achievement of our short-term and long-term business objectives; (ii) provide compensation competitive with others in our industry; (iii) reward senior executive officers in a pay for performance manner for accomplishment of pre-defined business goals and objectives; and (iv) align the interests of our executives with our stockholders. A significant portion of total executive compensation is variable compensation linked to corporate, business unit and individual performance. Our objective is to provide approximately 25% of an executive's total compensation as salary with the remainder contingent upon achieving established performance goals. In regard to compensation based on performance, our objective is to provide approximately 60% in the form of equity awards.

In 2008, our named executive officers compensation broke down as follows:

Name	Salary	Annual Incentive Award	Long-Term Incentive Award
Albert J. Neupaver	19.45%	16.55%	64.00%
Alvaro Garcia-Tunon	30.62%	21.31%	48.07%
Charles F. Kovac	49.27%	26.47%	24.26%
Anthony J. Carpani	31.72%	17.75%	50.53%
Timothy J. Logan	35.42%	17.49%	47.09%

Generally, the compensation of our executive officers is composed of a base salary, an annual incentive compensation award and long-term incentive awards in the form of restricted stock, stock options and/or performance units. In setting base salaries at the beginning of the year, the Compensation Committee generally reviews information about compensation practices and levels in Wabtec's industry and the office and responsibility of the particular executive. The Company uses benchmarking to establish base salaries as discussed below. The annual incentive award for 2008 is a cash award determined by the Compensation Committee based on pre-established performance factors. These factors are established at the beginning of the year and include (i) a financial performance factor measuring earnings before interest and taxes and working capital management and (ii) a personal performance factor which measures whether the individual executive attained certain goals established for that executive. Long-term incentives in the form of stock options,

restricted stock and performance units are granted to provide the opportunity for long-term compensation based upon the performance of the company's common stock and based upon the performance of the company and its ability to meet its long term goals and objectives.

Compensation Process.

Compensation Committee. Executive officer compensation is administered by the Compensation Committee of our Board of Directors, which is composed of four members. Those members during 2008 were Messrs. Foster, Hehir, Napier, and Vande Steeg. Mr. Foster served as Chairman of the Compensation Committee during 2008. The Compensation Committee recommends base salaries and bonuses of executive officers to the Board, which then approves these items. The Committee approved the 2008 compensation arrangements described in this compensation discussion and analysis and

Table of Contents

recommended them to the full board, which then approved them. Our Board of Directors delegates to the Compensation Committee the direct responsibility for, among other matters:

reviewing and approving goals and objectives for the Chief Executive Officer and determining the Chief Executive Officer's compensation;

reviewing and recommending compensation of all directors and executive officers; and

recommending incentive compensation plans and equity-based plans.

Role of Compensation Experts. Pursuant to its charter, the Compensation Committee is authorized to engage compensation consultants to assist it with its duties. The Compensation Committee has the sole authority to retain and terminate any outside counsel or other experts or consultants to assist it in the evaluation of compensation of our directors and executive officers, including the sole authority to approve such consultants' fees and other retention terms. The company utilized a compensation consultant in conjunction with determining long-term goals and objectives as part of the company's long-term incentive compensation plan for the 2006-2008 performance period. The same methodology has been utilized by Wabtec to determine goals for subsequent performance periods. The Compensation Committee may also obtain advice from legal, accounting, human resources and other advisors as it deems necessary.

Role of Our Executive Officers in the Compensation Process. The Chief Executive Officer and the Vice President of Human Resources suggest guidelines in discussions with the Compensation Committee regarding executive compensation. They provide recommendations and information regarding the competitiveness of the industry, key employees, performance of individuals, succession and other relevant data to the committee. The Chief Executive Officer is not present during any discussions concerning his compensation.

Components of Compensation.

Our 2008 compensation program elements were primarily structured to reward our executive officers for achieving certain financial and business objectives.

Base Salaries. Base salaries for our executive officers are reviewed annually and depend mainly on the executive's office and responsibility and are based on the competitive average for executives with similar responsibilities in peer group companies. In this regard, the company uses two different benchmarks, one a broader benchmark study based on manufacturing companies that are between \$1.0 billion and \$1.9 billion in revenue size and a second study that is an index average of specific manufacturing companies that are similar to the company in size, geography, and industry. In this context, similar companies are defined as those that are comparable to us in size and scope, and in the nature of their businesses. This specific index includes the following companies: Tecumseh Products, Briggs and Stratton, Thomas and Betts, Regal Beloit, Woodward Governor, IDEX Corp., Sauer-Danfoss, Milacron, Kennametal, Trinity Industries, Flowserve and Greenbrier Companies. The average base salary increase for executive officers of the peer group in 2008 was 5.45%. Individual salaries may be above or below the competitive average based on the individual's contribution to business results, capabilities and qualifications, potential and the importance of the individual's position to our success.

For fiscal year 2008, the base salary increases of our named executive officers ranged from 0% to 14.29%. These increases are discussed further in connection with the Summary Compensation Table which follows.

Annual Cash Incentive Awards. Our annual incentive award plan is intended to: (i) compensate participants directly if strategic and financial performance targets are achieved and (ii) reward participants for performance on those activities that are most directly under their control and for which they are held accountable. Corporate, business unit and individual performance goals under the annual incentive plan are linked to the annual business plan and budget. Bonuses are a function of the company's overall financial performance, the participant's individual performance and Board approval. Bonuses are based upon the success of two factors: a financial performance factor or FPF (ranging from 0 to 1.5 maximum), that measures earnings before interest and taxes or EBIT and working capital management; and a personal performance factor or

Table of Contents

PPF (ranging from 0 to 1.5 maximum) that measures whether the executive has attained certain goals agreed to by the executive, the executive's supervisor, and the Board. The bonus formula is based on the product of the participant's base salary, the participant's target bonus percentage, the FPF and the PPF. To qualify for a minimum payout under the bonus plan, the business unit must achieve at least 80% of its plan's EBIT and 80% of its working capital plan target for the year. We believe that this philosophy encourages Wabtec and our executives to establish ambitious goals and that it promotes teamwork, productivity and profitability. Overall, total cash compensation (the sum of salary and

bonus) for our executive officers is competitive with market practice for similar executive positions in similar companies when performance goals under the annual bonus plan are achieved. Target bonuses and performance factors were approved by the Compensation Committee at its meeting in February 2008. The EBIT and Working Capital targets were \$222.91 million and 12.4% of sales respectively. For 2008, the company achieved a financial performance factor of 1.048 based on exceeding EBIT and working capital plan targets. If both the financial performance factor and the applicable personal performance factor were achieved, the named executive officers would earn 100% of their target bonus.

The bonus targets for 2008 for each of the named executive officers as a percentage of base salary were:

Name	Target
Albert J. Neupaver	70%
Alvaro Garcia-Tunon	60%
Charles F. Kovac	50%
Anthony J. Carpani	50%
Timothy J. Logan	50%

Mr. Neupaver, Mr. Garcia-Tunon, Mr. Kovac, Mr. Carpani and Mr. Logan participated in the annual incentive plan and each of them, due to their individual performance and the company's performance, exceeded their target bonus. The bonuses received as a result are reflected in the non-equity incentive plan compensation column of the Summary Compensation Table below.

Long-Term Incentive Compensation. We currently administer our long-term incentive compensation through the 2000 Stock Incentive Plan under which we grant stock options, restricted stock and performance units. A total of 1,572,469 shares of common stock are available for issuance under the plan. The plan is administered by the Compensation Committee. During 2008, 79,000 shares of restricted stock, 152,500 performance units and 233,500 stock options were granted under the plan of which 30,000, 60,000, and 89,000, respectively, were granted to our named executive officers. Options and restricted stock are generally granted to employees, including our executive officers, each February as part of their long term compensation and were granted in February 2008. We vary the relative amounts of options and restricted stock granted in a given year based on a number of factors including the overall

performance of the Company, the stock price and retention of key management. Performance units are generally awarded each year for a three-year performance period and were granted in February of 2008. The primary purposes of the long-term incentive program are to align the interests of executive officers and other key employees with those of our stockholders, to attract and retain key executive talent and to provide an incentive to meet and exceed long-term financial goals. Employees eligible for the long-term incentive program include those who are determined by the Compensation Committee to be in key policy-setting and decision-making roles, and to have responsibilities that contribute significantly to achieving our earnings goals. The size of an individual's long-term incentive award is based primarily on individual performance, the individual's responsibilities and position with our company. Long-term incentive award values are competitive with market practice for similar executive positions in similar companies.

Stock options are a part of our long-term incentive compensation program that seeks to align the interests of our executives with our stockholders. We have typically granted stock options in February of the applicable year. We have historically awarded

Table of Contents

options to purchase our common stock to executive officers at the fair market value (average of the high and low price) of our common stock at the grant date. We have not back-dated any option awards. The vesting schedule for each grant is determined by the Compensation Committee and has typically been in 25% increments over a 4-year period. Restricted stock also plays a role in our long-term incentive program. In February of 2008, we granted both restricted stock and stock options to all named executive officers as part of their long term compensation with the company.

Ninety thousand shares of restricted stock were granted to Mr. Neupaver upon execution of his employment agreement in February 2006. Mr. Neupaver's shares of restricted stock vest in annual 25% increments from February 1, 2006. If Mr. Neupaver voluntarily terminates his employment from Wabtec or is terminated for cause, he will receive only the portion of his restricted stock that has vested. If he is terminated for reasons other than cause, he will receive the entire amount of the restricted stock granted, regardless of its vesting status. The Compensation Committee approved this grant of restricted stock which was designed to compensate Mr. Neupaver for unvested stock options and restricted stock he lost upon his departure from AMETEK, Inc.

In addition, in 2004, the company implemented a three-year long-term incentive program. This plan is designed to reward executives on meeting or exceeding economic profit growth goals. The plan is structured as a rolling three-year plan; each year starts a new three year performance cycle with the most recent cycle being 2008-2010. For each executive selected to participate in this plan, we establish a target grant of performance units at the beginning of each three-year performance cycle. A performance unit is equal to a share of Wabtec common stock. If Wabtec achieves its three-year cumulative economic profit goal, then participants will earn the target grant of performance units. In general, the goals increase each year taking into account expected market conditions, and are intended to reflect a superior performance by management. If Wabtec achieves the maximum three-year cumulative economic profit goal, a participant will earn a maximum number (equal to two times the target level) of performance units. If Wabtec achieves the threshold three-year cumulative economic profit goal, a participant will earn a threshold number (equal to

one-half of the target level) of performance units. No performance units will be earned for performance below the three-year cumulative economic profit threshold and no additional performance units will be earned for performance exceeding the three-year cumulative economic profit maximum. This plan is intended to encourage the long-term stability of Wabtec's management by establishing ambitious goals designed to promote the long-term productivity and profitability of the company. If a plan participant leaves the company voluntarily, or is terminated for cause, he or she is not eligible to receive any performance units he or she may have earned under the plan. If a plan participant otherwise leaves the company, his or her payout will be pro-rated in accordance with the amount of time he or she participated in the plan relative to the performance period. For the 2008-2010 performance cycle, the Compensation Committee approved target goals based on cumulative economic profit for the performance period. These goals were based on a range of considerations including expected demand in Wabtec's key end user markets, investor expectations and management's business plan which includes year over year growth.

During 2008, Wabtec exceeded its target three-year cumulative economic profit goal of \$147,000,000 for the 2006-2008 performance cycle, which resulted in the following payouts in March 2009 to the named executive officers:

Mr. Neupaver	55,000 shares of Wabtec common stock with a value at payout of \$1,347,863
Mr. Garcia-Tunon	10,000 shares of Wabtec common stock with a value at payout of \$245,066
Mr. Kovac	Not eligible
Mr. Logan	7,600 shares of Wabtec common stock with a value at payout of \$186,041
Mr. Carpani	7,000 shares of Wabtec common stock with a value at payout of \$172,445

Executive Officers as a group received 100,000 shares of Wabtec common stock with a value at payout of \$2,450,660. In addition, William E. Kassling, our non-employee Chairman who was a participant in the long-term incentive program when employed by Wabtec, also received 20,000 shares valued at \$490,132 in March 2009 for the 2006-2008 performance cycle.

Table of Contents

Stock Ownership Requirements. In February 2007, Wabtec approved stock ownership guidelines for executive management and for non-employee board members. These guidelines were established to encourage our key employees and board members to own and retain shares of stock. These ownership guidelines are to be achieved in three to five years and are defined as a multiple of base salary for executives and a multiple of cash compensation for the non-employee board members. As of March 18, 2009, our directors and executive officers as a group owned approximately 6.67% of our outstanding common stock.

Perquisites and Other Personal Benefits. Supplemental benefits are offered to selected executive officers with the goal of attracting and retaining key executive talent. Those perquisites may include: life and health insurance benefits, social and health club dues, automobile allowances for certain executive officers, and tax gross-up payments.

Post-Termination Compensation.

The company does not generally provide employment, severance or change in control agreements to its executive officers. As discussed below, certain of our benefit plans contain provisions that address termination of an individual or a change in control of the company. In October 2008, the Board of Directors agreed to enter into change of control agreements with certain executive officers. These agreements have not yet been finalized.

Tax Implications of Executive Compensation. Our aggregate deductions for each named executive officer's compensation are potentially limited by Section 162(m) of the Internal Revenue Code of 1986, as amended, to the extent the aggregate amount paid to an executive officer exceeds \$1.0 million, unless it is paid under a predetermined objective performance plan meeting certain requirements, or satisfies one of various other exceptions specified in the Internal Revenue Code.

- (1) Reflects the possible payments under Wabtec's annual incentive award plan.
- (2) Reflects the grant of performance units for the three-year performance period of 2008-2010 under Wabtec's 2000 Stock Incentive Plan approved by the Compensation Committee in February 2008. These columns reflect the range of payouts possible for this grant. A performance unit is equal to a share of Wabtec common stock. If Wabtec achieves its three-year cumulative economic profit goal, then participants will earn the target number of performance units. In general, the goals increase each year taking into account expected market conditions, and are intended to reflect a superior performance by management. If Wabtec achieves the maximum three-year cumulative economic profit goal, a participant will earn a maximum number (equal to two times the target level) of performance units. If Wabtec achieves the threshold three-year cumulative economic profit goal, a participant will earn a threshold number (equal to one-half of the target level) of performance units. No performance units will be earned for performance below the three-year cumulative economic profit threshold and no additional performance units will be earned for performance exceeding the three-year cumulative economic profit maximum. Payouts for these awards, if any, will be made in the first quarter of 2011. The dollar amount recognized by Wabtec in its financial statements for fiscal year 2008 is included in the Summary Compensation Table in the column titled "Stock Awards".
- (3) Reflects the grant of restricted stock to the named executive officers on February 20, 2008 under Wabtec's 2000 Stock Incentive Plan. One-fourth vested on February 20, 2009 and the remaining shares will vest in one-fourth increments on February 20, 2010, February 20, 2011 and February 20, 2012. The dollar amount recognized by Wabtec in its financial statements for fiscal year 2008 is included in the Summary Compensation Table in the column titled "Stock Awards".

- (4) Reflects the grant of options to the named executive officers on February 20, 2008 under Wabtec's 2000 Stock Incentive Plan. One fourth vested on February 20, 2009 and the remaining options will vest in one-fourth increments on February 20, 2010, February 20, 2011 and February 20, 2012. The dollar amount recognized by Wabtec in its financial statements for fiscal year 2008 is included in the Summary Compensation Table under Option Awards.
- (5) Reflects the grant date fair value computed in accordance with FAS 123R.

Table of Contents**Option Exercises and Stock Vested**

This table provides information concerning each exercise of stock options and each vesting of stock, including restricted stock, restricted stock units and similar instruments, during 2008 for Wabtec's Chief Executive Officer, Wabtec's Chief Financial Officer and the three most highly paid executive officers, other than the Chief Executive Officer and the Chief Financial Officer on an aggregate basis.

Name	Option Awards		Stock Awards	
	Number of Shares	Value Realized on	Number of Shares	Value Realized on

- (1) Option exercises were cashless exercises such that all shares of Wabtec's common stock acquired on exercise were sold in connection with the exercise.
- (2) Calculated by multiplying the number of shares by the difference between the market price of Wabtec common stock and the exercise price of the option(s) on the exercise date.
- (3) Calculated by multiplying the number of shares of restricted stock that vested by the market price of Wabtec's common stock on the vesting date.

Table of Contents**Potential Payments Upon Termination or Change in Control****Mr. Neupaver's Employment Agreement**

Under the terms of the employment agreement, if Mr. Neupaver voluntarily terminates his employment from Wabtec or if he is terminated for cause, he will receive only the portion of his restricted stock that has vested. If he is terminated for other than cause, he will receive the entire amount of the restricted stock granted, regardless of its vesting status. If Mr. Neupaver had been terminated for reasons other than cause at December 31, 2008, the value of this benefit to him would have been \$1,788,750 based on Wabtec's closing stock price of \$39.75 on December 31, 2008, as only 45,000 of the 90,000 shares had vested. If Mr. Neupaver is terminated due to a change of control, his severance would be equal to two times his base and target bonus and he would be eligible to participate in Wabtec's medical benefit program for two years from his termination date. If Mr. Neupaver had been terminated due to a change of control at December 31, 2008, the value of the benefit to him would have been \$2,696,700.

2000 Stock Incentive Plan

Under the 2000 Stock Incentive Plan, in instances of disability, death during employment or a Section 8 Event as defined in the Plan, which generally includes a change of control of Wabtec, all outstanding options become exercisable even if not otherwise exercisable. In instances of a Section 8 Event only, all restrictions on restricted stock lapse. For performance units, in instances of a Section 8 Event, all performance units are deemed to have been fully earned regardless of the attainment of performance targets. The following table provides the value of such benefits for each of our named executive officers as if the applicable event occurred on December 31, 2008:

Name	Disability	Death During Employment	Section 8 Event

- (1) The Compensation Committee has discretion in instances of death during employment, voluntary termination with consent and retirement to decide to pay all or part of a performance award based on a variety of factors which may result in an incremental benefit to a named executive officer. The incremental benefit would be the same as that disclosed under Section 8 Event if the Compensation Committee decided to pay all of the award.

- (2) Assumes maximum number of units are paid and includes units which were vested as of December 31, 2008 but were not yet paid to participants.

- (4) Mr. Kassling serves as non-employee Chairman of the Board beginning in fiscal year 2008.

Each non-employee director of Wabtec, other than our non-employee Chairman, receives an annual cash retainer of \$35,000 for their services as a director. In addition, each director is entitled to receive \$1,500 for each Board meeting or Board committee meeting that he attends in person and \$1,000 for each Board meeting or Board committee meeting in which he participates by telephone. Board (unless his or her first election was at an annual meeting or within 3 months prior to the anniversary date of the last annual meeting).

Edgar Filing: WESTINGHOUSE AIR BRAKE TECHNOLOGIES CORP - Form DEF 14A

Each non-employee director is entitled to receive 1,500 shares of Wabtec common stock annually on the first business day following the annual meeting of stockholders. Each non-employee director serving on the Board at that time received 1,500 shares of Wabtec common stock on May 14, 2008. Each non-employee director also receives 4,000 stock options each January during the term of his or her service on the Board. Such grants are priced at the average of the high and low stock price on the date granted. On January 2, 2008, each non-employee director serving on the Board at that time received 4,000 options at a grant price of \$33.925. These options vest over a 3-year period. The committee administering the plan has authority to modify the number of options granted upon election and annually as well as the vesting periods of these options.
