**São Paulo, May 12, 2009** - Telecomunicações de São Paulo S/A - TELESP (BM&FBOVESPA: TLPP3 e TLPP4, NYSE: TSP), releases today its consolidated results for the first quarter of 2009 (1Q09). The following information are presented in accordance to the accounting principles usually accepted in Brazil (BR GAAP), and presents reclassifications in 2008 due the changes on accounting practices introduced by Law# 11,638/07. In accordance to the BR GAAP's criteria, are consolidated the following controlled and wholly owned subsidiaries companies: A. Telecom S.A., Telefônica Sistema de Televisão S.A., Telefônica Data S.A., Aliança Atlântica Holding B.V., Companhia AIX de Participações e Companhia ACT de Participações.

## FINANCIAL HIGHLIGHTS

<i>Unaudited consolidated figures (Reais Million)</i>	<b>1Q09</b>	<b>1Q08</b>	<b>% var</b>
Gross Operating Revenues	5,824.0	5,570.5	4.6
Deductions	(1,864.5)	(1,708.1)	9.2
Net Operating Revenues	3,959.5	3,862.4	2.5
Operating Expenses	(2,470.9)	(2,330.9)	6.0
EBITDA	1,488.6	1,531.4	(2.8)
EBITDA Margin (%)	37.6%	39.7%	(2.1)p.p.
Financial Result	(45.8)	(64.1)	(28.6)
Net Income	482.6	488.7	(1.2)
Capex	405.3	386.0	5.0
Capex / Net Operating Revenues	10.2%	10.0%	0.2p.p.

The **Net Operating Revenues** presented an increase of 2.5%, from R\$3,862.4 in the 1Q08 to R\$3,959.5 million in the 1Q09. This increase is mainly due to the growth of PayTV and broadband services, infrastructure rental and national long distance revenues, besides the tariff readjustment of 3.01% as of July, 2008. The positive performance of these services offsets the decrease in traditional services revenues, such as public telephony and local service, the latter one mainly explained by a decrease of lines in service and duos and trios sales that offers flat fee with local unlimited calls. Furthermore, there was an increase of deductions due to higher promotional discounts given in the period.

The **EBITDA** in the 1Q09 was R\$1,488.6 million, a 2.8% decrease when compared to the R\$1,531.4 million in the 1Q08.

The **EBITDA Margin** reached in 1Q09 was 37.6%, a 2.1 p.p. decrease when compared to the 1Q08. This decrease is a result of the gradual change in Telesp's revenues mix, which has shown an increase of PayTV and broadband services revenues, which have lower margins, and a decrease of local service and public telephony revenues. Additionally, there was, in the period, an increase on deductions, customer service, TV contents and rental expenses.

The **Capex** in the 1Q09 was R\$405.3 million, presenting an increase of 5.0% when compared to the 1Q08. This figure is in line with Telefônica's strategy of investing in network modernization and expansion to offer communication services of voice, data and video. It is important to highlight the changes on Capex's mix, currently focused on high speed broadband and new services.

**Table of Contents**

OPERATING HIGHLIGHTS

**Broadband** - offered under the brands Speedy and Ajato, reached 2,656,841 clients in the 1Q09, a 4.0% increase over the 4Q08. When compared to the 1Q08, the growth was of 22.7%, in line with the upward trend of last quarters. Investments in broadband are the Company's priority and reinforce Telesp's commitment to its clients in improving the offer and quality of products and services, allowing a service even better and becoming even more competitive.

BROADBAND CLIENTES EVOLUTION  
(Thousands)

**Pay TV** - offered in bundles or stand-alone, it is available through DTH (Direct to the Home) and MMDS (Multichannel Multipoint Distribution Service). Since its launch, the Company has shown a fast pace of growth, reaching 502,410 clients in the 1Q09, an increase of 6.4% when compared to the 4Q08 and 78.4% when compared to the 1Q08.

PAY TV CLIENTS EVOLUTION  
(Thousands)

**Duos and Trios Telefônica** - are combined offers of PayTV, Broadband and Local Calls services offered in all Company's concession area. In 2007, the Company celebrated a commercial and operational agreement with TVA, strengthening and extending even more the integrated PayTV offer.

**Posto de Trabalho Informático (PDTI)** - launched in 2007, is offered to the corporate segment as a solution for infra-structure of Information Technology customized to the client. Through a monthly fee payment, Telesp offers a bundle composed by voice, data, internet access, network management and equipments for small, medium and big clients. The bundled offer of Information Technology and Communication Services is one of the Company's strategic pillars in the corporate segment.

**Table of Contents**

## OPERATING REVENUES

The gross operating revenue in the first quarter of 2009 reached R\$5,824.0 million, an increase of 4.6% when compared to the R\$5,570.5 in the same period of the previous year.

**Gross Operating Revenues Evolution**

<i>Unaudited consolidated figures (Reais Million)</i>	<b>1Q09</b>	<b>1Q08</b>	<b>% var</b>
Gross Operating Revenues	5,824.0	5,570.5	4.6
Monthly subscription fee	1,345.8	1,322.3	1.8
Installation charge	23.1	30.7	(24.8)
Local service	589.8	661.6	(10.9)
DLD	992.8	947.5	4.8
Fixed-to-mobile	1,034.6	1,066.4	(3.0)
ILD	33.6	35.9	(6.3)
Interconnection	111.4	109.3	1.9
Public telephony	103.0	112.7	(8.6)
Data transmission	1,052.4	870.6	20.9
Infrastructure Rental	114.4	81.3	40.8
Pay TV	138.7	60.6	n.a.
Others	284.3	271.5	4.7

The changes are explained as follows:

**Monthly Subscription Fee:** reached R\$1,345.8 million in the 1Q09, an increase of 1.8% when compared to the R\$1,322.3 million in the 1Q08. This rise is mainly related to the increase of revenues in the corporate segment and the tariff readjustment of 3.01% as of July, 2008. On the other hand, there were a decrease of average lines in service and an increase of alternative plans for fixed telephony, that have lower monthly fees. On March 31, 2009, the penetration of the local, controle, duos and trios plans was around 60% of the lines in service.

**Installation Fee:** dropped from R\$30.7 million in the 1Q08 to R\$23.1 million in the 1Q09, a decrease of 24.8%. This variation is mainly justified by the promotion that except the installation fee to non-residential clients that acquire two or more business lines of Telesp, as of July, 2008. This effect was partially offset by the tariff readjustment of 3.01% as of July, 2008.

**Local Service:** totaled R\$589.8 million in the 1Q09, a decrease of 10.9% when compared to R\$661.6 million in the 1Q08. This variation is directly related to the decrease of lines in service and the increase of duos and trios bundles sales which offer flat fee with local unlimited calls aiming customer loyalty, decreasing the exceeding traffic. This drop was partially offset by a significant increase of traffic bundles sales and by the tariff readjustment of 3.01% as of July, 2008.

**DLD:** in the 1Q09 totaled R\$992.8 million, an increase of 4.8% when compared to the R\$947.5 million in the 1Q08. This effect is explained by a higher SMP traffic with the 15 use (selection code of the operator), due to the mobile market growth and a positive impact of the tariff readjustment of 3.01% as of July, 2008.

**Fixed-to-mobile revenues:** dropped from R\$1,066.4 million in the 1Q08 to R\$1,034.6 million in the 1Q09, a decrease of 3.0% due a decrease of VC1 and VC2 traffic. This effect was partially offset by the tariff readjustment of 2.06% as of July, 2008.

**ILD:** reached R\$33.6 million in the 1Q09, a decrease of 6.3% when compared to the R\$35.9 million in the 1Q08. This effect is mainly explained by a traffic decrease in the period.

**Table of Contents**

**Interconnection Revenues:** totaled R\$111.4 million in 1Q09 an increase of 1.9% when compared to the R\$109.3 million in the 1Q08. This variation is mainly explained by traffic increase from other companies as a consequence of the telecommunications market growth and also due to the tariff readjustment of 3.01% as of July, 2008. These effects were partially offset by a decrease of mobile incoming traffic.

**Public Telephony:** in the 1Q09 was R\$103.0 million, a decrease of 8.6% when compared to the R\$112.7 million in the 1Q08. This variation is registered mainly due a higher competition of the mobile market, been partially offset by the tariff readjustment of 3.01% as of July, 2008.

**Data Transmission:** reached R\$1,052.4 million in the 1Q09, a positive evolution of 20.9% when compared to the R\$870.6 million in the 1Q08. This effect is mainly explained by the residential segment growth, through the broadband offer with Speedy and Ajato brands, as well as the growth of data transmission in the corporate segment.

**Infrastructure rental:** raised from R\$81.3 million in the 1Q08 to R\$114.4 million in the 1Q09, an increase of 40.8%. This effect is mainly explained by the higher volume of rented circuits, due to the telecommunications market growth.

**Pay TV:** launched in August, 2007, this service reached R\$138.7 million in the 1Q09, with a base of 502,410 clients. It includes TV services through DTH and MMDS, the latter as a result of Telefônica Sistema de Televisão acquisition in the 4Q07.

**Others:** increased from R\$271.5 million in the 1Q08 to R\$284.3 million in the 1Q09, a rise of 4.7%. This effect is chiefly explained by the strong performance of PDTI, been partially offset by the decrease of value added services revenues, that are currently been offered as a promotion.

**Table of Contents**

## OPERATING EXPENSES

Operating expenses in the first quarter of 2009 reached R\$2,470.9 million, an increase of 6.0% when compared to the R\$2,330.9 million in the same period of the previous year.

**Operating Expenses Evolution**

<i>Unaudited consolidated figures (Reais Million)</i>	<b>1Q09</b>	<b>1Q08</b>	<b>%var</b>
Operating Expenses	(2,470.9)	(2,330.9)	6.0
Personnel expenses	(177.8)	(216.9)	(18.0)
Supplies	(38.4)	(48.4)	(20.8)
Outsourcing expenses	(932.0)	(747.4)	24.7
Interconnection expenses	(997.9)	(961.3)	3.8
Rental expenses	(145.3)	(116.7)	24.5
Taxes	(107.0)	(109.6)	(2.4)
Bad Debt provision	(141.3)	(132.7)	6.5
Investment gains (losses)	5.7	5.5	2.2
Other operating revenues (expenses)	63.1	(3.5)	n.a.

The variations are explained by the following items:

**Personnel expenses:** reached R\$177.8 million in the 1Q09, a decrease of 18.0% when compared to the R\$216.9 million in the 1Q08. This drop is mainly explained by the decrease of the employees number after the conclusion of the Program of Organizational Restructuring, accrued at the end of 2007. When compared to the 4Q08, the personnel expenses remain almost stable.

**Supplies:** dropped from R\$48.4 million in the 1Q08 to R\$38.4 million in the 1Q09, a decrease of 20.8%. This variation is mainly explained by a decrease of cost of goods sold for the corporate segment and phone card expenses.

**Outsourcing expenses:** totaled R\$932.0 million in the 1Q09, a raise of 24.7% when compared to the R\$747.4 million in the 1Q08. This variation is directly related to the increase of TV contents, customer service, partly related to the fulfillment of new call center law, advertisement, network maintenance and telecom services sales commission expenses. When compared to the 4Q08, the outsourcing expenses remain almost stable.

**Interconnection expenses:** in the 1Q09 reached R\$997.9 million, an increase of 3.8% when compared to the R\$961.3 million in the 1Q08. This effect is mainly explained by the growth in SMP traffic with the 15 use (selection code of the operator), a higher fixed-mobile traffic (VC3) and by the VUM readjustment of 2.06% in July, 2008.

**Rental Expenses:** increased from R\$116.7 million in the 1Q08 to R\$145.3 million in the 1Q09, a rise of 24.5% mainly due the increase of network, infrastructure for last-mile traffic termination and post and ducts rental.

**Taxes:** reached R\$107.0 million in the 1Q09, a decrease of 2.4% when compared to the R\$109.6 million in the 1Q08. This drop is mainly explained by the differential of ICMS rate in the purchase of supply material for use and consumption and the decrease of FUST expenses due to changes on its calculation base.

**Bad Debt Provisions:** reached R\$141.3 million in the 1Q09, an increase of 6.5% when compared to the 1Q08. As a percentage of the operating revenues, the ratio was of 3.6% in the 1Q09. It is important to highlight that Telesp is working heavily in the improvement of its customer base profile through its commercial policy, besides the efforts on collection of trade account and its differentiated services offers to better suit each segment of the market.

**Table of Contents**

**Investment gains (losses):** in the 1Q09 recorded a positive result of R\$5.7 million and of R\$5.5 million in the 1Q08, an increase of 2.2%. This variation is justified by equity accounting of minority interest on Cable TV operators.

**Other operating revenues (expenses):** totaled R\$63.1 million in the 1Q09, a positive variation of R\$66.7 million when compared to the 1Q08. This effect is mainly justified by lower provisions of amounts under discussion with the regulator organ and the decrease of inventory obsolescence provision registered in the 1Q08. On the other hand, other operating revenues (expenses) were negatively impacted by the increase of obsolescence provision of PayTV operation decoder.

**Depreciation:** dropped from R\$689.8 million in the 1Q08 to R\$650.8 million in the 1Q09, a decrease of 5.6%. This variation is mainly explained by the increase of assets fully depreciated balance and goodwill amortization, that as of 2009 isn't registered anymore in accordance to the new accounting practices, been partially offset by an increase of modem obsolescence provision.

**Table of Contents**

## FINANCIAL DATA

**Financial Investments:** the Company invests the excess cash and cash equivalents of R\$1,775.8 million, mainly in financial investments (Certificados de Depósitos Bancários) in short-term, based on the variation of the CDI, reducing the exposure of the local interest rate (CDI) over its net debt. The Company diversifies its exposure investing in different first line financial institutions, in accordance to the credit limits and diversification set on the Company's current credit risk policy.

**Loans and Financing:** on March 31, 2009, the Company had R\$3,470.7 million in loans and financing, from which R\$247.0 million are denominated in foreign currency (R\$189.3 million were raised at fixed interest rates and R\$57.7 million at variable interest rates - Libor), R\$1,514.3 million in debentures paying interests based on the variation of the CDI rate + fixed spread of 0.35% and the amount of R\$1,709.4 million in financing with Banco Nacional de Desenvolvimento Econômico e Social (BNDES).

**Debentures:** on September 03, 2004, Telesp announced a Public Offering of Securities and the activation, within the Program's parameters, of the first issuance of Telesp's debentures. The offer consisted of the issuance of 150 thousand not convertible debentures, of unsecured type, with face value of R\$10 thousand per unit, totaling the amount of R\$1.5 billion, in single tranche. The debentures conditions were renegotiated on September 01, 2007, end date of the first validity remuneration period, and the second period also began in that date with closing foreseen to September 01, 2010, the debentures' maturity date. The debenture bears interest on a quarterly basis payment, of the accumulated average rates of the Interbank Interest rate of one day (DI rate), capitalized by a spread of 0.35% per year, calculated and disclosed by the Câmara de Custódia e Liquidação CETIP, since the renegotiation date.

**BNDES:** on October 10, 2007, the BNDES approved a loan of R\$2,034.7 millions for Telesp, from which R\$1,686.9 million have already been released and are being applied in the network modernization and expansion of voice, data and video services.

(\*) The ratio was calculated over 2008's EBITDA.

**Derivatives:** all the Company's financial derivative contracts aim the protection of exchange risk and fluctuations of interest rates related to financial debt, in accordance to the corporate policy of risk management. Following this, variations on risk factors result in a inverse effect intended to protection. Therefore, the Company doesn't have financial derivative instruments to speculation propose and the exchange financial equities are hedged.

On March 31, 2009, 100% of the Company's financial debt denominated in foreign currency was covered by asset positions of exchange hedge x CDI with fair value of R\$247.0 million, equivalent to the fair value of this debt. The aim of these operations is to protect from risks of foreign exchange variations of loans with these characteristics. On the same date, the Company had swap operations CDI + spread x %CDI, with asset position of R\$1,521.3 million and flows similar to the debentures, to cover the risk of its fixed rate spread, with debentures without premium fair value of R\$1,521.3 million.

The derivative operations generated in the first quarter of 2009 a negative net consolidated result in the amount of R\$32.2 million, while the currency operations generated a negative net consolidated result of R\$33.4 million and the operations to cover the debentures fixed spread generated a positive result of R\$1.2 million.

On March 31, 2009 was recognized a balance of R\$39.9 million as asset and a balance of R\$42.1 million as liability to reflect the derivatives position on the mentioned date.

ADDITIONAL NOTES

**1) RECENT CORPORATE EVENTS**

a) Corporate Reorganization involving Telefônica Data do Brasil Participações Ltda. DABR and Telefônica Televisão Participações S.A. TTP In accordance to the relevant fact published on October 21, 2008, the Company's Board of Directors approved, on that date, the propose of corporate reorganization involving DABR and TTP (wholly-owned subsidiary of Telesp, which had stakes on Telefônica Sistema de Televisão S.A., A. Telecom S.A. and Telefônica Data S.A.'s capital).

For Telesp's management this corporate reorganization reflects Company and shareholders' aim and will allow the improvement of synergies, the reduction of managing risks, the simplification of corporate and administrative organization, reducing costs, but also getting the opportunity of the tax benefit and the Company's cash flow improvement and, as a consequence, to its shareholders.

On November 11, 2008, the propose of merger of DABR and TTP by Telesp was approved by the Company's shareholders on its Extraordinary Shareholders' meeting. As a result of the merger of TTP, Telefônica Sistema de Televisão S.A., A. Telecom and Telefônica Data companies became wholly-owned subsidiaries of Telesp.

b) Increase on Telefônica Televisão Participações S.A.'s Equity (previously named Navytree Participações S.A.) On July 25, 2008, the Company increased the Telefônica Televisão's capital with stocks of Telefônica Data S.A.'s equity. As a result, T. Data became a wholly-owned subsidiary of Telefônica Televisão.

c) Change on Navytree Participações company's name On June 10, 2008, Navytree approved on its Extraordinary Shareholders' Meeting the change of the Company's name to Telefônica Televisão Participações S.A.

d) Increase on Telefônica Televisão Participações S.A.'s Equity (previously named Navytree Participações S.A.) On February 29, 2008, the Company increased the Telefônica Televisão's capital with stocks of A.Telecom equity. As a result, A.Telecom became a wholly-owned subsidiary of Telefônica Televisão.

**2) TARIFFS READJUSTMENT OCCURRED IN 2008**

a) Fixed-to-Fixed Tariff On July 21, 2008, through Edicts# 4,288 and 4,289, Agência Nacional de Telecomunicações ANATEL approved the tariff readjustment of the Serviço Telefônico Fixo Comutado STFC, according to the criteria established in the Concession Contracts for Local and Domestic Long Distance Services, effective as of July 24, 2008. The tariff readjustments were 3.01%.

b) Fixed-to-Mobile Tariff On July 21, 2008, through Edict# 4,290, ANATEL approved the 3.01% tariff readjustment for the fixed-to-mobile calls (VC1, VC2 and VC3) throughout the entire concession area of Telesp, sectors 31, 32 and 34 of Region III. On the same date, was also approved the readjustment of fixed-to-mobile interconnection rate (VUM) related to the VC1, VC2 and VC3 in 2.06%. The readjustments were effective as of July 24, 2008.

**Table of Contents**

**3) CHANGES ON THE ADOPTED ACCOUNTING PRACTICES**

The Company decided to adopt as of 2008 the changes on accounting practices introduced by the Law# 11,638/07 and the Provisional Measure# 449/08, due to several accounting pronouncements issued by Comitê de Pronunciamentos Contábeis (CPC) and approved by CVM. As a result, the comparative information in the first quarter of 2009 already presents these practices, among which are highlighted:

- a) Financial Leasing: PDTI contracts are accounted with financial leasing characteristics;
- b) Financial Instruments: financial assets and liabilities initially evaluated by fair value;
- c) Present Value Adjustment: certain long term assets and liabilities initially accounted by its discounted present value;
- d) Accumulated Translation Adjustment: exchange variations over investments abroad registered as accumulated translation adjustment, on Company's equity.

**4) NUMBER PORTABILITY**

In September, 2008, the number portability process has been activated under commercial disposition between companies that offer the same service mode. As a result, fixed and mobile's clients can keep their phone number when changing operator or address, if the process refers to the same local area. Following this, Telesp reinforced its efforts in customers' loyalty and retention plans, although the volume of number portability processes isn't relevant so far. The number portability's process was concluded in March, 2009.

DISCLAIMER

This document contains statements that constitute forward-looking statements in its general meaning and within the meaning of the Private Securities Litigation Reform Act of 1995. These statements appear in a number of places in this document and include statements regarding the intent, belief or current expectations of the customer base, estimates regarding future growth in the different business lines and the global business, market share, financial results and other aspects of the activity and situation relating to the Company. The forward-looking statements in this document can be identified, in some instances, by the use of words such as *expects*, *anticipates*, *intends*, *believes*, and similar language or the negative thereof or by forward-looking nature of discussions of strategy, plans or intentions.

Such forward-looking statements are not guarantees of future performance and involve risks and uncertainties and actual results may differ materially from those in the forward-looking statements as a result of various factors.

Analysts and investors are cautioned not to place undue reliance on those forward-looking statements, which speak only as of the date of this presentation. The Company undertakes no obligation to release publicly the results of any revisions to these forward looking statements which may be made to reflect events and circumstances after the date of this presentation, including, without limitation, changes in Company's business or acquisition strategy or to reflect the occurrence of unanticipated events. Analysts and investors are encouraged to consult the Company's Annual Report as well as periodic filings filed with the relevant Securities Markets Regulators, and in particular with the Brazilian Market Regulator.

The Complete Financial Statements, including Explanatory Notes, are available at the Company's Investor Relations Website: <http://www15.telefonica.com.br/investidores/>.
