Item 2.05. Costs Associated with Exit or Disposal Activities.

On September 14, 2010, the Board of Directors of Harley-Davidson, Inc. (the Company) approved a plan to continue production operations at the Company's facilities in Milwaukee and Tomahawk, Wisconsin. The Board's decision followed the ratification of three respective new seven-year labor agreements by the Company's employees represented by United Steelworkers (USW) Local 2-209 and International Association of Machinists and Aerospace Workers (IAM) Lodge 78, both in Milwaukee, and USW Local 460 in Tomahawk, Wisconsin. The agreements take effect in April 2012 when the current agreements expire.

Based on the new ratified labor agreements, the Company expects to have about 700 full-time hourly unionized employees in its Milwaukee-area facilities when the contracts are implemented in 2012, about 250 fewer than would be required under the existing contract. In Tomahawk, the Company expects to have a full-time hourly unionized workforce of about 200 when the contract is implemented, about 75 fewer than would be required under the current contract. The Company also expects its Wisconsin production workforce to include 150 to 250 casual employees on an annualized basis to cover seasonal volume spikes, vacations and other absences as the new labor agreements are implemented.

The new contracts are expected to generate about \$50.0 million in annual operating savings in 2013, the first full year of the agreements. The Company expects to incur approximately \$85.0 million in additional restructuring charges related to the new contracts through 2012, of which approximately \$55.0 million will be cash charges. The \$85.0 million is comprised of approximately \$70.0 million related to one-time termination costs, incentive payments made to employees in connection with the ratification of the new labor agreements and curtailment charges related to the defined benefit pension and postretirement health care plans covering Wisconsin hourly employees and approximately \$15.0 million of other costs to be incurred in connection with implementing production process changes under the new labor agreements.
